

## D. School 108

### Chapter 108 - Close to parting

“How about, under consideration? Go to work in my company!”, As parting neared, Simmons once again issued an invitation. Through this contact, he admired Lu Qiujiang’s mathematical talent, “My literature and art Fuxing can provide you with a broad enough platform! “

“I still prefer to do research!”, Lv Qiujiang once again refused him, but did not say anything to death, “Of course, if I need your help in the future, I will definitely contact you!”, Know a person Wall Street characters don’t seem to do any harm, Jason is still much younger than him!

“My phone is open for you 24 hours!”, Simmons’ Renaissance Company is also unique on Wall Street. Among his 150 employees, there has never been a Wall Street analyst, MBA, or Ph.D. in finance. And PhDs in natural sciences are favored.

“Thank you!” Lv Qiujiang sent him to board the private plane, turned around and gently hugged Natalie, “Nat, don’t be sad, I’m not going to alien planet, if you want, you can go to China during the summer vacation Look at me!”

“You are also on vacation during my summer vacation, why not stay in the country for a while!” Natalie looked forward to, “we can hike like the past few days, go to the Pacific Ridge Trail, go to the Continental Divide Trail ... “

I have to go back and prepare the report! The sooner this thing is carried out, the better for yourself. Only when this matter is over can you have time to do other research, and by the way, prepare for reading a blog, he shook his head apologetically, “You know, I have been almost another year I didn’t go home, my family missed me too! “.

“Okay! I will find a way to find you!” Natalie raised her lips and smiled. Although she was reluctant, she didn’t want to make the parting so cold.

Sent away another person, Lu Qiujiang alone boarded the flight back to New York, got off the plane and called a taxi, and returned to Princeton in the evening.

I went on a trip for a few days, and then it was the time for the exam. Then Princeton can’t ask for a report, right? Lu Qiujiang thought cheerfully.

“Hey, man, you’re back! The people in the school’s outreach department came over and harassed almost all day!” As soon as he returned to the dormitory, Patrice complained to him!

“What did they say? Will they come every day?” He dropped his luggage on the floor and opened his bedroom to look at it. Well, it was clean. It seemed that Patrice had cleaned him for these two days. .

“Always ask me if you come back, can you contact you or something!”, He took the Arkansas specialty thrown over by Lv Qiujian, unscrewed the lid and tasted it, nodded with satisfaction, “Of course I said no The solution! But the day before yesterday and yesterday suddenly did not come, today I do not know whether it will come! “

“Probably not!” According to the time calculation, it is too late anyway!

Sure enough, when Lu Qiujian returned to the classroom, he came up with the reason for preparing for the exam. The other party immediately proposed that he can apply to the school to exempt him from the test; unfortunately, Lu Qiujian refused firmly, but had to give up the hosting The intention of this report meeting.

The exam did not require much energy for Lu Qiujian. He even took the time to update several articles on arXiv during the exam, which greatly satisfied those mathematicians who had been waiting for a long time during the tour. Fan.

“Dude! Are you about to leave now?” When the last exam was over, the always carefree Patrice also showed a reluctant look.

“Yeah, next season’s NCAA Tigers can only rely on you! I will follow your game online!”, Patrice did not participate in this year’s draft, the champion still belongs to LeBron James, but when The reporter asked him if Lu Qiujian still had the confidence to win the top pick if he participated in the draft, his expression was a bit awkward.

“No problem, I will help you clean up Yale!” He patted his chest to ensure that after Lu Qiujian left, coming out of the Ivy League became the Tigers’ highest hope.

“This is going back?” At Professor Nan’s house, the two of them chatted while playing Go. “It’s okay to go back, but don’t relax yourself and try to make some pioneering achievements!”

“How have you contacted?”, Lu Qiujian quietly slaughtered a big dragon of Professor Nan, “If only you could give me a substitute next year!”

Professor Nan twitched his lips, “I don’t want to teach a child like you who doesn’t understand and respects and teaches!”

Didn’t see it as an old arrogant! “Hey, who made your big dragon’s body too ecstatic, it really makes people want to eat it!”

“I’m going to refill the cup of tea!”, The male professor was standing together, his knees just slammed onto the chessboard, and the chess pieces were messed up. “Oh, I’m really not careful, or this chessboard is a pity! What a pity!” Well, it’s hard to make a few chess pieces live I’m planning to pack you up, it’s gone! “

“It’s okay! I remember the position of the chess pieces, or should I re-arrange it for you?” After you have arranged it, you can still win and lose all of your family property to you!

“Hey, don’t you give your teacher a face?” Professor Nan has no doubt that he can rely on the memory test, “Go, go back and pack things up, and wait until I go to Beijing Normal University next year!”

“Hey, then I will be waiting for you! When you come back, I will give you the wind and invite you to eat authentic Beijing snacks!”, Lu Qiujian got up and left with a smile.

Came out of Professor Nan’s house and went to visit the professors who provided him with help and teaching in this year, such as Wiles, Gales, Thurston, Griffith, and Dyson.

These people felt sorry for Lu Qiujian’s departure, and revealed the meaning of retention; Lu Qiujian was very grateful in his heart, but refused politely.

“Professor Witten, I’ll trouble you with the letter of recommendation!” From the home of Edward Witten, Lu Qiujian’s visit was also declared to end. In addition to Witten, he also asked Dyson to write to him. Letter of recommendation, with the recommendation of these two people, presumably the tutor who applied for the doctorate should not refuse himself?

And the Tigers teammates such as Patrice had a night in the bar. The next day they went to celebrate with mathematics classmates such as Alfoss. Lu Qiu's time in Princeton is almost coming to an end.
