

D. School 121

Chapter 121 - National battle

You will never be able to persuade a mother who is eager to hug her grandson, even if it is an alien creature who has been transformed by an alien creature.

Woke up the next day, his mother took him to tell him the blind date, Lu Qiujian finally could not bear it, excuse to watch the high school classmates run away.

This is the case in small cities. You can meet acquaintances all the way when you go out to the street. Lu Qiujian hit a few classmates who walked on the street without going far.

“Haha, Lv Qiujian! I haven’t seen it for two years, remember I don’t!” A strong man with a naked head and a golden chain with a thick thumb on his neck came over and patted him on the shoulder.

“Isn’t this a black brother? No one can forget you!”, These people are all high school classmates of Lu Qiujian. The previous relationship was not bad. Lu Qiujian made a joke, “How to say you It was considered to have saved my life! “

“What’s the matter? I don’t know?” He Chong asked aside his head with curiosity.

“It’s all about the year of the college entrance examination!” Lu Qiujian said, “It was hot at the time, and a group of us went swimming in the river. I accidentally got a cramp in my foot, and it was about to fall under the water! When Brother He saw it, he greeted him, who of you went into the water to pull up Lu Qiujian? At that time, everyone was terrified, and no one dared to agree for a long time. Finally, Brother He was decisive and threw the gold chain as soon as he bit his teeth. ! I picked up my life by relying on this gold chain as a lifebuoy! “

“Your kid is cold on me again!”, Black Brother punched two punches on his shoulder affectionately and removed the gold chain from his neck. “Look clearly, I am real!”

“Well, it’s absolutely true!”, Someone was coaxing, “I bought it last time, one for eighteen dollars, and two for one!”

“Haha, let’s find a place to sit?” A group of classmates who haven’t seen for a long time noisily found a restaurant and walked in.

At the same time, Liu Jingjing, the third uncle's daughter-in-law's second uncle's second uncle's third uncle and Lu Qiuqian, who is about to make a blind date, is having her fifth blind date in a coffee shop on the street.

"I was admitted as a civil servant after graduation, and now I work in the Industrial and Commercial Bureau of Front Street. The leaders like me very much ..." Jarvis said cautiously while looking at Liu Jingjing secretly. After so many times, I haven't seen such a beautiful girl, so I must seize the opportunity!

"Oh, that's good!" Liu Jingjing said casually. Although Jarvis did a good job, she couldn't get into her eyes because of the appearance of the talk. Ask the situation at home again. "Yes, parking in your community. How much does it cost? "She wouldn't directly ask how much her income was, whether she had money at home or not. That's so tacky; when asked, it's a little more gentle.

"Yeah, I still live in a unit dormitory. I plan to save enough down payment in two years before buying a house. I'm afraid the car will have to wait until the house!" Jarvis' face turned red after a brush, because of economic problems. Despised by several blind date partners, will this be the case again? He stammered and asked, "Don't look at my low wages now, just get promoted to section chief in two years!"

Hehe, Chief, look at the green smoke on your grave? ! Liu Jingjing despised it, but his face was still full of smiles, pretending to be angry and said, "What do you think of me? I am the kind of person who thinks of the poor and loves the rich? I don't think it matters whether there is money at home, as long as The other person is good and motivated, and the temper of the two people can be combined. The other is not a problem. "

Talked about some personal hobbies again. What do you like to do when you are not at work? Liu Jingjing asked again, "Oh, what do you like to eat for breakfast? Sweet tofu or salted tofu?"

"Of course it's salty! How to eat sweet tofu brain!", Jarvis doubtlessly had it, and answered smoothly.

"What? You actually eat salted tofu brain! Then it seems that we can't talk!", Liu Jingjing's face suddenly pulled down.

"Ah ?!", Jarvis was helpless and quickly distinguished, "Isn't it a big deal?"

“How can it be said that it’s no big deal? People’s breakfast is the most important meal of the day. If you eat breakfast well, you can be healthy, and you can do good work and contribute to the country.”, Liu Jingjing robbed Tao, “Sweet tofu brain or fresh tofu brain at first glance is just a small matter of life habits, but in fact it is a major event involving Guoben!”

“Then I can’t change it yet? I’ll eat sweet tofu brains in the future!”, Jarvis pleaded pitifully.

“You can compromise even such an important principle as sweet and salty tofu brain! There is nothing else you can’t do!” Liu Jingjing immediately frowned, “Even if you marry you later, you will inevitably be derailed! For the sake of mutual help, I’m leaving now, don’t contact me in the future! “

Finished talking and took things away, leaving only a depressed face Jarvis alone in the cafe.

“Second Aunt, after the talk, I said can you introduce me a reliable point next time?”, Liu Jingjing put away the lady-like appearance as soon as she left the cafe Little civil servants, no one in the car house has returned five or six people, so I really consider myself a personal thing! “

“... forgive you this time! I won’t go when I introduce this next time!”, Liu Jingjing walked aimlessly while following the phone, “I also asked for an afternoon? Whose child is it? It ’s a worker ’s house? That ’s not enough ... A student of Peking University? Just returned from studying in Miguo! ... My second aunt, I love you! I ’ll go back and tidy up! Love Sea Cafe, right? I must arrive on time ... Second Aunt, thank you! ... everything, as long as it becomes a must of your filial piety! “

Hanged up the phone, Liu Jingjing quickly took out the small mirror and took a picture. Oops, the appearance on the face was a little bit spent, and the clothes were too rustic. Hurry back to clean up and pack up;

At two o’clock in the afternoon, I arrived at the cafe on time and saw a thin young man in the agreed private room. Seeing his height of about one meter and eighty-five, although the clothes on his body could not see any brands, it gave people a look. The feeling of high-end atmosphere, coupled with his unique temperament, Liu Jingjing decided that the opposite is Prince Charming who has been waiting for many years.

Twelve points of spirit, Liu Jingjing carefully chatted with the other party, but Lu Qiujian’s eyes did not see a trace of fluctuations, his pride in his former beauty seemed to have no charm in his eyes.

Just when she was uneasy, Lu Qiuqian suddenly asked, “Oh, yes, do you like sweet tofu or salty tofu for breakfast?”

Chapter 122 - Return to Beijing

Nonsense, the old lady certainly likes to eat salted tofu brain! How can sweet tofu brain be eaten? Liu Jingjing just wanted to answer truthfully, and thought it was wrong. Did n’t he just use this as an excuse to send away the little broken civil servant?

Hurriedly took it back when Xianzi was about to export, and replied cautiously, “I usually don’t eat too much, and I can accompany you no matter what taste you like!”

“What!” Lu Qiuqian stood up, “How can you be so principleless? There is not even a bit of opinion on the country-based battle? Even if you choose the wrong side, it’s better than the wall!” Hey, I do n’t think we need to talk anymore! Sorry, I ’m leaving now! “

After saying that Lu Qiuqian walked away, there was only one person left in the cafe!

Can be considered to have finished one! When coming out of the cafe, Lu Qiuqian felt relaxed and relaxed! When I got home, I told my parents that I couldn’t talk to her, and the blind date collapsed!

The result was a series of nagging parents after the meal, and I couldn’t bear the fact that Lu Qiuqian quickly called Heige and slipped out until the barbecue stall was still depressed.

“What’s the matter, buddy? Don’t hold it in your heart, say it. Brothers will give you some ideas!” Hei Ge took his glass and filled him up.

“There is nothing in the world that cannot be solved by a barbecue. If there are, then two meals.” He Lao Er pinched a large skewer and handed it to him.

“Hey, isn’t it just a blind date thing? You said I’m only in a hurry for wool!” Lu Qiuqian spat a while, and responded to him with these fox friends and dogs happily laughing.

Eating barbecue and drinking wine with these people, and then blowing cows for a while, the depression is finally better; go back home and sleep directly on the head, and the next day, the mother introduced him to him in a certain community. His elders introduced him to a rare and good girl with outstanding talents and filial piety. The main thing is that the ***** is so good to raise. At noon, I ordered a fragrant tea house and quickly prepared it for me!

Mom, can I kneel for you? Lu Qiujian now prefers to play against the Spurs rather than blind date, but despite all the means he used, his mother must kill him if he bites him.

This won't work! I have to find a way to divert my mother's attention, otherwise I will be forced to do this thing, and I can't resist it! It was easy to send the girl away, Lu Qiujian figured out how to deal with it.

Hey, it seems that I have sent a large sum of money and they have n't bought a house yet? ! I did n't buy anything new at home, so I went to help them choose a house! This is a big deal! Certainly attract their attention.

"Mom, the money I sent back last time is enough to buy a house? If it is not enough, I will add some more to you!", Lu Qiujian asked as soon as he came home, he must hurry up, or he should ask the blind date again!

"We have lived here for decades and have been used to it! There is no need to buy a house!" My mother temporarily forgot to ask about blind dates. "I will save you money! When you graduate and settle down, me and Your dad will help you add some more. You bought a house in Beijing and picked up your daughter-in-law, and we are here to support the elderly! "

Lying trough, I can't forget my wife! Lu Qiujian pretended to be angry and said, "Don't! I have earned a part-time job in the United States and I am a young and old! In addition to the money for you, I have a deposit here!"

He said that he stood up and pointed to the dark smoked walls and narrow windows, "Look, this house is much older than when I came back last time, and there is no garden in the yard! You two are now old It's time to change to a house with a better environment! Listen to me, let's look at the house tomorrow morning! "

"What's wrong with this bad situation?" Hearing that he grew up in a bad place, his mother was upset and pointed to the courtyard below, "You can find me in the courtyard of the new house you are looking for?"

Amount, I just turned around. There is no single-family villa with a yard in the city. Those communities may not let you do this! "There are security guards, and they live safely!"

“What’s wrong with the security guard?” The mother’s chin lifted, “Who doesn’t know who in our courtyard? A stranger can see it in the fire, who dares to steal from us?”

That is, the whole city knows the poor jingle here, and the thief came here after being stupid. “The kitchen in the new house is large, and it is natural gas to enter the home. It is also convenient for you to cook!”

“It ’s not a wood-burning stove that does n’t smell good. My dad and I do n’t get used to it!”

“There are all the facilities next to it! Supermarkets, hospitals, kindergartens!”

“The things in the supermarket are much more expensive than your Aunt Lu’s shop! Let’s not go! My dad and I are both tough and don’t need to go to the hospital! However, in kindergarten, you will definitely need to have children in the future! By the way, how are you chatting with that girl today? “

Lying down, buried yourself! Lu Qiujian quickly rushed out of the smoke, “Mom, Black Brother invited me to dinner today, I will go first!”

Said several times again, and his parents did not agree to go to those newly built communities! Lv Qiujian had to retreat and secondly, inquired in the yard, found two families to move away, and bought a house from them!

Replaced the money, and the two houses around the parents ’residence are now in their hands They also found a decoration company. After spending a lot of money on it, they started the decoration directly.

The parents were busy supervising the decoration all the time, and finally forgot to force him to make a blind date. Lü Qiujian’s ears were finally cleaned.

During this time, while thinking about the report meeting, he logged on the arXiv website to browse the latest developments in the mathematics industry. Unlike usual, he did not close the page after browsing the mathematics section, but turned to the physical section and slowly looked at it. !

One year before graduation, the next semester is the long-awaited special lecture meeting of Beijing Normal University. When the report meeting is over, you should start applying to the school.

In this regard, Beijing Normal University will naturally provide convenience for itself, and with the recommendation letters of Edward Witten and Freeman Dyson, Lu Qiuqian can deliver his resume to the desk of any physicist in the world. .

But this is not enough, he also needs a physics paper that can prove his worth to convince the tutor to accept himself! This paper is best related to his research field, but also at the forefront of research, so that the tutor feels that it is a very cost-effective thing to accept him.

Go out for a stroll during the day, climb mountains, play football with Heige and others, come back to read the paper at night, and occasionally reprint, the time soon passed.

Natalie and the school phone came one after another. Natalie was ready to come to China. The school urged him to go back to prepare the report meeting; Lu Qiuqian bid farewell to the reluctant parents and boarded the return train.

Chapter 123 - Meeting process

Thanks to his luck, he is attached to the students of Beijing Normal University! Looking at the campus of Beijing Normal University, Lu Qiuqian secretly felt that with this identity, he would automatically obtain a pass to enter the scientific community. If he is attached to an ordinary white-collar worker, I am afraid that it can only be like Ramanuqiang. That way, you can get a certain authoritative appreciation by posting papers everywhere.

Not to mention that Beijing Normal University still has such a strong background and network connections, which is very good for their own plans! Lu Qiuqian walked into the campus with emotions. Natalie still has two days to reach the capital, so let's take a look at the school first.

Although it is still summer vacation, in order to prepare for the report meeting, the leaders of the Department of Mathematics still remain in the office building; of course, for such overtime, they are happy, plus comfort, plus pride; in the words of Professor Zhang Even if there is such an activity every year, you can always do it without holiday!

"Xiao Lu is back?" When he entered the office building, he didn't know what he knew or didn't know. He greeted him enthusiastically and showed him the way by the way, "Professor Zhang is just in the office, you go in!"

"Thank you!" Lu Qiuqian said after gratitude, he walked down the stairs to Professor Zhang's office; knocked at the door, and then entered, "Professor Zhang!"

“Xiao Lu is back!” Professor Zhang got up quickly and enthusiastically, came over and took his hand to sit on the sofa, “How is playing at home? I don’t think you have been on arXiv during this time Publish an article! Should I have a leisurely time? “

“Thank you Professor Zhang for your care, I played very well! I didn’t post the article because I have been thinking about the report meeting, especially the agenda of the last day!”, Lu Qiuqian felt that Professor Zhang seemed a little persuasive and quickly explained. .

“Oh? On the last day, how did you think about it?”, Professor Zhang heard Lu Qiuqian did not forget the report meeting during the summer vacation, and he was very satisfied.

In fact, Huaguo does not lack experience in holding similar academic conferences. Last year, it just hosted the World Mathematicians Conference in Beijing, and the elders came to the venue in person, for Laurent-Laverge and Vladimir-Fwaters. Kee awarded the Fields Medal.

Lu Qiuqian When he met Vladimir Volvosky at the Princeton Institute for Advanced Studies, he recalled the experience of talking and laughing with the elders, deeply convinced by the elders’s demeanor and humor.

According to the arrangement of the Beijing Normal University, the report will be held in three days. The previous evening hosted a welcome dinner after all the invited guests arrived in Qi; the first day of the official start was welcomed by the organizer, Lu Qiuqian took the stage to give a special report, detailed Explain your thoughts and process of cracking Poincaré’s conjecture, and then accept questions from other mathematicians.

The next morning, guests were invited to take the stage to give lectures on Poincaré ’s conjecture. At present, the Beijing Normal University has tentatively appointed Grisha-Perelman, Cao Huaidong and others as the main speakers; free exchanges in the afternoon, everyone can be free Explain your views on Poincaré ’s conjecture and the papers previously completed.

The third morning was also free communication, but the focus of this topic was changed to the prospect of the future development of mathematics. It is not easy for these people to get together. Can’t we just discuss one issue? This is also a good way to inspire mathematicians to generate sparks of inspiration! Once the idea that has a profound influence on the future development of mathematics was born in this session, Beijing Normal University also had a glorious face.

In the afternoon, a special person will make a concluding speech and announce the closing of the meeting. In the evening, eat and drink, and everyone will go back to their homes and find their moms! Beijing Normal University, who is willing to stay and communicate, welcomes with both

hands and feet, and Beijing Normal University, who is eager to go back to do research, also properly transports you to the airport.

“Is the person who made the final report on the last day set?” Lu Qiujian pondered over this period of time. In addition to being able to help yourself gain reputation, this conference is also a good opportunity. If you make good use of it, plan your own It is very helpful; but if that is the case, he will find a chance to speak at the closing ceremony.

“Several of us are hesitating, and those who speak at the closing ceremony must be highly respected!” Professor Zhang is also embarrassed by this question. “We are also a bit selfish, since this is a report meeting held on our site, this spokesperson I want to choose Chinese as much as possible, so that the choice is narrower; the current focus is on Chen Shengshen and Qiu Chengtong. Chen is older and afraid of being inconvenient for working people, so Qiu Chengtong has a greater chance! Hey, we still I want to find someone from our school. “

“Oh? Did you say hello to Professor Yau?”, If the candidate is already set, it will be troublesome!

“Not yet, there are several old professors in our school who have some influence in the world. Professor Picchu is only slightly weaker! We are also hesitating!” Professor Zhang inevitably has some regrets. Although the Department of Mathematics of Beijing Normal University is the first One, but there is still a gap with the world-class.

“Professor Zhang, look, I have such an idea ...” See if you can win this opportunity for yourself!

“Do you want to make a concluding speech?” Professor Zhang’s eyebrows were wrinkled, “Xiao Lu! Logically speaking, your ability is indeed enough, but the academic community also needs qualifications in addition to its ability! This is true at home, and abroad! You are only twenty years old this year! Was it a bit outrageous to make this speech? “

Hey, we know, but this is not for planning! It’s time for me to stay! Lv Qiujian knew that his request was indeed presumptuous. If he did not take out some dry goods to the school, he would not agree to it anyway!

He took out a stack of paper from his bag and handed it to You see, this is the speech I intend to use for the closing ceremony. I think if I want to say this, there is no better than the closing ceremony. It’s time! “

Professor Zhang took a look at it, and his eyebrows were tightened tightly. “I just thought about your courage. I didn’t expect your courage to be so big ?!” Professor Zhang raised his head just after a while. “This is what Hilbert was qualified to do! If you can maintain a very high production in the next two decades, you are qualified to say this. It is too early!”

Hilbert ’s position in the mathematics world at that time was similar to that of Einstein ’s in physics, that is, a generation of martial arts leaders; and Lu Qiujian is now like Zhang Wuji, who has just emerged from the mountain. Although he is outstanding in martial arts, you are now Is it too early to want to do what the martial arts leader can only do?

Chapter 124 - residence

What Professor Zhang emphasized is actually the word seniority. Qualification means qualifications and experience, and influence, voice, etc. can be derived from seniority.

The same thing, people with deep experience will listen carefully and think about the meaning in his words carefully; while people with no experience say that everyone either laughed or sneered.

If there is important work, everyone also tends to leave it to people with deep experience. Although some people will hate this situation, it is undeniable that people with deep experience generally do more than people without qualification. Good; for example, Milo has the experience of bringing football teams from N countries into the round of 16 of the World Cup, so he can lead the national football team to obtain the qualifying rights, while the previous XX player has a better card, but the national football team has come back. There is this reason.

So how do I get my qualifications? There is no other way, only through the accumulation of time and success. The Magic Bird was only regarded as a young handsome after winning the UEFA Cup in Porto. After winning the Champions League in the second year, he won the Premier League championship in Chelsea Went to Inter Milan to win the Serie A Champions League and the Champions League, this time is the well-deserved famous coach.

Lv Qiujian is in the same condition as Guardiola, who has just debuted. He has achieved supreme achievements in his field as soon as he debuts, but it is still slightly inferior compared with the predecessors such as Lippi and Ancelotti.

Therefore, Professor Zhang’s words are also very pertinent. It is reasonable to say that Lv Qiujian is only twenty years old. After solving the Poincaré conjecture, he published a series of papers in other fields, as long as a few years later, waiting for these articles The influence is mature and mature, and one or two more achievements that are about the same level as Poincaré ’s conjecture can be made.

This time is almost 20 years after Professor Zhang's idea. Of course, fifteen years is not impossible if the achievements are outstanding. The thirty-five-year-old world's first person is enough to marvel the world! At that time, the mathematicians of the Wiles generation couldn't run even if they didn't hang, and the new generation couldn't compare with Lu Qiuqian. Of course, he wanted to say whatever he wanted!

But I'm in a hurry! Lu Qiuqian sighed in his heart, "Professor Zhang, let me put the manuscript first. If you have time, take a look at it, don't rush to the conclusion!"

"Well, yes, but don't hold much hope!" Professor Zhang was worried when he looked at Lu Qiuqian's disappointment. Did he just say that he was a bit heavy? Battered this child? No, I have to comfort him, "Yes, Xiao Lu, the dormitory building hasn't opened yet? Where do you plan to live recently?"

Natalie is coming soon, of course, to open the room! "Oh, it's fine, I have my own plan!"

"This school has helped you think about this for a long time!", He got up and motioned to Lu Qiuqian to follow him out, and said while walking, "Professor Lu of the Physics Department just retired to his hometown last semester! His house was vacant, the school Considering that you are going to do research next semester, living in a dormitory is also not suitable; arrange for the staff to clean up and prepare to give the house to you! Take a look with me! If something is missing, just say to the school! "

"Well, I am still a student, is this inappropriate?", Lu Qiuqian hesitated and said, if he really lived in, wouldn't it be too dazzling?

"It's not for you! It's just for you to live for a while!" Professor Zhang went downstairs and found his car and motioned to Lu Qiu to build up. "The head of the Department of Physics had heard that our department's house was robbed by us , I have to find one, two, three, come out, and later I asked you for it, there is no complaint! I even said that you have made such a great contribution to Beijing Normal University, and it is appropriate to arrange a house for you ! Also asked me to bring you a message, saying that your thesis on mathematical physics has greatly inspired his research! Let me thank you! "

If you continue to live in the dormitory next semester, there will indeed be many inconveniences. I originally thought of buying a house near Beijing Normal University. Since I have it now, forget it! Anyway, he doesn't care about the millions of dollars that the house will appreciate in the future.

After a while, the car drove to the north of the School of International Relations of Beijing Normal University, and bypassed a large stone inscribed with the words Yanbei Garden into the community.

This is too extravagant! The prime location of Beijing Normal University is actually built of small buildings of four or five floors, or five or six floors. If it is seen by future real estate developers, it must not be distressed.

It can be seen from the outer walls of these five or six-story small buildings that these buildings have not been built for a long time. Professor Zhang introduced the situation of the community to him while parking his car under a small building facing south.

“Your house is on the third floor. As the saying goes, gold, silver, and silver are the best floors!” As the stairs went up to the third floor, Professor Zhang took out the key to open the door. They are all new! TV refrigerators have also been changed. The network is now the fastest; you do n’t have to worry about the water, electricity and network fees. The school logistics department will automatically pay you! , What’s missing? Let’s get someone ready to help! “

Lu Qiuqian walked around the house a few times, the house was small and it was sixty flats, one room, one hall, one kitchen and one bathroom; however, the advantage lies in the school, away from the teaching building, library, mathematics. The office building is not far away, the surrounding greenery is also pretty good, and it is also very convenient to eat, live, shop or something.

The wallpaper in the room is new, the curtains are new, and even the trash is new! If you go out to buy a house yourself, you have to find someone to clean up. Where is this convenient, Lu Qiuqian promised to come down, “It’s all very good, then thank you and the school leaders!”

“I know that you young people don’t like to clean up the house. There is a phone number on the table. If you need to clean the house, just make this call! The school has arranged it for you!” Professor Zhang opened the curtain and pointed to the building in front of him. , “My house is over there. I don’t want to go out to eat when I go directly! Today your master has already prepared at home. You will go around in the house first, and then go home with me after seeing it!”

Organized care is good! How much trouble did you save yourself? Lu Qiuqian expressed his heartfelt emotion, glanced a few times and found that the school was even equipped with tea and tea sets, so he quickly made tea for Professor Zhang; the two chatted for a while and went to Professor Zhang’s house for dinner.

Chapter 125 - Horn sound

Don’t worry about the blind date is really refreshing! Lu Qiuqian Meimei took a nap, and then got up to the living room to unpack his luggage back home, reassembled the computer, brushed arXiv, it

was estimated that Professor Zhang should go to work, and then shut down the computer and prepared to go out.

It is not far from the office building of the Department of Mathematics here, but it can not be said to be near. Walking is a waste of time; he happened to have a sports equipment recommended by Patrice before returning home-a bicycle, so it is just now useful. Takeshi.

Unpack the box, assemble the parts swiftly and push them downstairs! When he got downstairs, he stepped on his left foot and stepped onto the bicycle with impulse force. He hummed Xiaoquer and rushed towards the office building.

There were not many people on campus during the summer vacation, but he was still riding in the non-motorized lane; I do n't know if Professor Zhang read my speech, and he was pedaling the car briskly, thinking about how to talk to Professor Zhang for a while. .

“Drip ~ Drip ~” Just when he seemed to find some inspiration, the sound of the car horn behind him interrupted his thinking; eh? Am I on the non-motorized lane? What do you mean by honk at me? And do n't you know that it 's on campus, it 's forbidden to honk?

Lv Qiujian slightly angrily slowed down his car, turned his right foot to look back; I saw a brand new BMW behind, this model car is now probably hundreds of thousands of dollars! A man with sunglasses on the driver's seat was looking at him impatiently, and he saw him slamming the horn twice again before he could make way for himself!

Look at the driveway next to it. Perhaps it was raining last night. There were a few puddles in the middle of the road. Look at the shiny body of BMW; Lu Qiujian understood a little. This person may not want to take his car. The dirt only got on the non-motorized lane.

“Hey! I said are you blind or deaf?” The man saw that Lv Qiujian hadn't moved, and couldn't help but scolded his head from the car window and scolded, “A good dog doesn't block the road, don't you? open!”

“This is a motorway, you violate the traffic rules! And this is the university is not on the road, it is forbidden to honk!”, Lu Qiujian was also angry.

“What's wrong with the university? The university is terrific! My father didn't go to university, and he still drives a BMW! You went to Peking University, it's amazing, what's special is not riding a bicycle!”

“Hey, I won’t give you this way today!” Recently, the family forced a blind date, the lecture was stopped by Professor Zhang, and Lu Qiujuan was also depressed.

“Boy (read ze)! Is this cost to me?”, With a bang, the door was pushed open, and the sunglasses masculinely walked towards Lu Qiujuan. If there is a disagreement, it is necessary to teach Lu Qiujuan. ! As I walked, I scolded, “I won’t hit you with peach blossoms today, you don’t know why the flowers are so red!”

“Yeah? Is this a hands-on?” It’s interesting. I have been here for more than a year and haven’t fought yet! I didn’t expect to be able to drive meat today! With a clatter, Lv Qiujuan dropped the car on the ground and took two steps forward, just waiting for the man to knock him down with one move! I have observed it just now, and there is a camera in the vicinity looking at this side! Even in the game, there is no fear of no evidence! Not to mention that there are a few students who are also watching here.

“I said you are small ...”, the sunglasses man rushed to Lv Qiujuan with a stunned face, just raised his hand and saw that Lv Qiujuan’s height shrank back again; he was less than one meter seven. The weight is less than one hundred and one; Lu Qiujuan is also a little thin but looks strong! After a little measurement, I know that I won’t take advantage of the fight.

But since it’s here, it’s too much to go back without doing anything, right? Our capital men, you can lose everything but you can’t lose face. The sunglasses man is ruthless. He stretched his hand and let go of his fist. He pointed out his finger and pointed at Lu Qiujuan. , Ye will spare you for a while, otherwise, ... “

“How about if not?” Oh, why don’t you do it, as long as your fist dares to touch my body, I will immediately grab a back drop! Lu Qiujuan even thought about several countermeasures for the record, but he was there! This makes him even more depressed!

“If not, ...” Paralyzing was originally planning to meet the second uncle, and the younger brother did not bring it, otherwise he will repair you; but now he is alone, the other party looks more powerful than himself, sunglasses The man looked left and right, and finally his eyes fell on the bicycle that Lu Qiujuan threw on the ground. “Otherwise, I will run over your bicycle!”

“You will be compensated if you crush it!”, Lu Qiujuan showed a strange smile at the corner of his mouth, and said lightly.

“I don’t have anything else, I just have money! There is a way to leave the car here! Don’t move how much money you buy!” Yeah, crushing the car is also a step, and the sunglasses are masculine. After getting into the car, the car was slowly pushed forward.

Lu Qiujian didn’t raise the bicycle, but put his arms to the side; BMW drove slowly, pressed the bicycle and made a piercing noise, and after driving over the bicycle, he drove a few meters forward, and the sunglasses man stopped. Get off and walk proudly.

While walking, he took out his wallet. and counted about five or six hundred-dollar bills and threw them at the foot of Lv Qiujian. Yes! “

Lv Qiujian didn’t look at the money on the ground, he laughed and said, “I want to pay my car, I’m afraid that this amount of money is not enough!”

“It doesn’t matter! I told you all, my grandfather has money!”, He thumped the thick wallet, “You say that, my grandfather will not blink!”

“My car! I bought it in the United States, when I bought it.” At this point, Lu Qiujian paused, and then slowly said, “When he bought it, he spent 120,000. Eight!”

“Lying trough, you lie to me!” Sunglasses exploded at the time. “Don’t think that I have never seen the world. What bicycle can be worth 120,000 yuan!”

“Who said it was the RMB?” Lu Qiujian asked back, drawing out the invoice he had just put in his pocket. “I’m talking about US dollars, and it’s not 120,000, it’s 128,000! Look, This is an invoice! “

Lv Qiujian would of course not deliver the invoice to his hand and hold it in front of his eyes, even if he wanted to destroy the evidence at his own speed of hardening.

Twelve thousand eighty-eight, the exchange rate of the renminbi to the U.S. dollar is now about 8.2, and one hundred twenty-eight thousand U.S. dollars is equivalent to 1.05 million yuan!

The man in sunglasses carefully read the invoice carefully, then looked back at his BMW, paralyzed, what is more expensive than my car!

Crying in BMW or laughing behind the bike?

Chapter 126 - Bike and BMW

Bicycles have been a necessary means of transportation for Chinese families for a long period of time. In the generation of Lu Qiu's fathers, it was very windy for young people to have a bicycle; riding a bicycle to carry objects to turn on the street A lap, guaranteed to gain countless envious eyes.

In the previous bicycle, there was a seat in front of the bar and behind the back. When in love, the subject sat behind and hugged the man's waist; then the man's eyes widened to pay attention to the road surface. When he encountered bumpy places, it would be like playing a superb equipment The online game player rushed over like a rush, and then the bicycle bumped up violently, so the girl behind him hugged tighter, and if she was lucky, she would have an unexpected surprise on her back.

But why did you change the list car later? The word "cycling" entered the Mainland with Zhang Manyu and Liming's "Sweetness". Liming said to Zhang Manyu, "I have a car, and I will send you!"

After seeing his bike, Zhang Manyu ridiculously said, "Do you know? At Mingzhu, this is called a bicycle, not a car."

The reason is because Pearl's economy is more developed than the mainland, where you can't rely on bicycles to be a girl. It has become a means of transportation for single dogs, so I changed the list of cars; since then, bicycle manufacturers have also been understanding. The front girder and rear seats have been cancelled, and single dogs can't use them anyway.

As the economy in the Mainland improves, the girls laugh like silver bells in the back seat of the bicycles, and the scene of watching the sunset with their boyfriends will never appear again; only the sentence left is causing crit damage to single dogs The famous quote-I would rather sit in the BMW and cry, rather than sit behind the bike and laugh.

Of course, the above all belongs to Lu Qiuqian's brain supplements, which is not true, but the price of the bicycle is far less than that of BMW. This seems to be a recognized thing; but today, the sunglasses man has grown a little bit of knowledge. BMW is still an expensive bike!

Although he doesn't know a few English words, but Lu Qiuqian produced on the invoice, he can't admit that long series of numbers and eye-catching dollar signs!

At this time, he remembered his second uncle's instructions, Crouching Tiger, Hidden Dragon at Beijing Normal University, do n't provoke people here, otherwise he ca n't bear it; he always remembers to teach him when he sees a slightly older, teacher-like person. Put away the arrogant look; today I was impulsive to see him as a student, but I didn't expect to cause such a big disaster.

How did I go away today? He walked to the front of the bike, squatted down and looked at it carefully. Even if it was run over by a bike, the main frame of the bike did not suffer much damage, so he was very happy, "The car has not yet How bad it seems to be repairable! "

"You can do it if you can fix it!", Lv Qiujian lazily pulled a long tone. "As long as you can find the same accessories for me to fix in China, I will act as if nothing happened today!"

I knew this kind of perverted thing is definitely not domestic! The Sunglasses man dared not give Lu Qiujian a hard word anymore. He could not afford to buy millions of students to buy a car, let alone buy a bicycle! Hey, call the second uncle, let him help to talk and make peace, less loss of money!

If my bike and BMW appeared in front of my sister at the same time, would she still say that she would rather cry in BMW than laugh behind the bike? Hey, not necessarily! It's not that the teenager who played alien notebooks and Rittal mobile phones was broken by his girlfriend's contempt for not being able to buy Apple.

I heard the voice of Sun Jingnan's phone call, and Lv Qiujian looked at it. Hey, did he start calling parents now? Forget it, I'm also looking for someone! It took a lot of time here this morning, and quickly resolved this matter!

Professor Zhang made two calls in a row, no matter whether it was an office phone or a mobile phone; Lv Qiujian thought about it and dialed the phone of Minister Zhang of the Propaganda Department. Professors are more suitable.

This time it was dialed, and as soon as I heard that Lv Qiujian's bicycle had been hit, the phone immediately rang out to hear the sound of babbling, and I didn't know what fell to the ground; until I heard that Lv Qiujian was fine, Only then did I feel relieved, "Xiao Lu, don't worry, I'll be here soon!"

Five minutes later, Minister Zhang ran to Lv Qiujian in sweat, followed by the school doctor carrying the first aid kit, and there was a group of school police flying across.

“Come, let the doctor check it out! Where did you encounter it?”, Minister Zhang glanced at the sunglasses man. If he could kill him, the sunglasses man would not know how many times he died! The report meeting will be opened in more than a month. If there is an accident at this time, Lv Qiujian will never end with Jingshi University!

“It’s okay, the car didn’t touch me!”, Lv Qiujian glanced at the sunglasses man who had been controlled by the school police. The school police of Beijing Normal University was officially edited. The guy had everything and now he was handcuffed. Too.

Lv Qiujian pointed to the bicycle on the ground with his chin, “It is because my car was crushed by him, as long as the car is compensated!”

“It’s okay It’s okay!”, Minister Zhang let out a long sigh of relief, pointing at the sunglasses man in the past and scolded, “Fortunately, if you have good luck, quickly lose the car and get off!” If you do n’t pay me, I wo n’t shut you down for ten days and a half months! ”On his site, Minister Zhang came up with a little trick to shut him down for ten days and a half months.

“I can’t afford to lose it!”, The sunglasses man was crying and grimacing. If he was closed for ten days and a half months, he wouldn’t have to lose money. He was willing to say, “Who can think of a bicycle will cost millions!”

“Millions!”, Minister Zhang was also shivering and hurried away from the car. He saw more than one million or even tens of millions of instruments at Peking University, and he had never seen a million-worth bicycle!

“Oh, I bought it when I returned home! Trek’s limited edition was used by this year’s Tour de France champion, so it’s more expensive!”, Lu Qiujian explained lightly.

“Minister Zhang! Minister Zhang! Your master, this is my elder brother’s bunny!”, The sunglasses man’s parents finally came; after some peace, Lu Qiujian took a step back and let the sunglasses man go, Let him go home to raise money. As for the BMW, it was naturally put as collateral in the school.

Hey, what’s the matter, and delayed more than two hours! Thanks to Minister Zhang, Lv Qiujian sent the car home, and then walked towards the office building of the Department of Mathematics again.

I just missed two calls to Professor Zhang, but what happened there? What is the opinion of my speech school?

Chapter 127 - Do the right thing

“Professor Zhang didn’t come today?” In the office building, Lu Qiujian saw Professor Zhang’s assistant Xiao Liu and hurriedly asked.

“Come in the morning, and then hurried out again!” Xiao Liu Yinqin asked Lu Qiujian to sit down and hurry to make tea for him. “What’s the matter? If I can do it, I will help you, If we can’t do it, let’s go to Professor Zhang!”

“It’s okay, I just want to ask how about the manuscript that was shown to Professor Zhang yesterday! I just called him and didn’t answer the phone a few times.” Where can I go outside the office building?

“Professor Zhang made a phone call for a long time as soon as he came in the morning!” Assistant Liu revealed a little information. “I heard that there are Professor Yang, Professor Guo, Professor Gu ... We have almost the same number of academicians. I was beaten all over again!”

This is the strength of the Department of Mathematics, Peking University! Considered as a treasured academician by other schools, the Mathematics Department can find out several of them; but these people are usually too busy, what is the important thing about Professor Zhang calling them together? Could it be that manuscript about me? Lu Qiujian gave birth to a glimmer of hope.

“Will you be here for a while?” Assistant Liu knew that this person who is most valued in the mathematics department now cannot be treated with care.

“Forget it, I’ll go back!” Lu Qiujian said as he stood up. He didn’t know when Professor Zhang would come back. Let’s go back and brush arXiv. By the way, think of Natalie coming to take him to play there!

Back home, I repaired the bicycle that was crushed by the car. The crushed parts are all provided. Although the main frame has been deformed, the current physical quality of Lu Qiujian is still far from being removed by hand, but empty hand Repairing a bicycle is not a problem at all, and the bicycle will return to its previous appearance after a while.

“” Slavinov-Waldheng equation of gravity field and Feynman rule “, this article seems to be very interesting!” Open arXiv, enter the physics section, find a few papers and read it with interest.

This is also one of the few advantages of theoretical research over applied research. The results of theoretical research can be freely shared, but the results of applied research can only be kept as tightly as possible; the reason is, in the final analysis, most of the time There is no way to bring direct economic benefits!

After brushing the paper for two hours, he also uploaded a copy of his recently accumulated mathematical paper. Recently, he paid attention to the choice of the type of control paper. Any paper uploaded to arXiv mostly pointed to his own speech manuscript. !

I ate at noon, and I checked the sights, food, hotels, etc. near Chajing online, and wondered where to find a car? Natalie's coming, no car is inconvenient after all!

Forget it, anyway, now we have money, and we are too lazy to trouble others. Go rent a car tomorrow! While searching for a car rental shop, Lu Qiujian's phone rang, it was Professor Lu Qiujian's long-awaited call from Professor Zhang.

"Okay ... Okay ... I'm going here!" After hanging up the phone, it was too late to turn off the computer. Lu Qiujian rushed to the office building of the Department of Mathematics and listened to Professor Zhang's tone about his speech The manuscript seems to have results.

Went outside Professor Zhang's office, Assistant Xiao Liu seemed to have been notified, and put Lu Qiujian directly into it; inside, Professor Zhang was talking with several gray-haired scholars with a smile.

"Hello, Academician Yang! Hello, Academician Guo!" Some of these people knew Lu Qiujian, and some didn't, but those who can talk and laugh with them are certainly not mortal.

"This is Academician Gu and Academician Qiao!" Under the recommendation of Professor Zhang, Lu Qiujian greeted them one by one.

"When I first received your cracking of Poincaré's conjecture and news, I only felt that you gave a big surprise to Beijing Normal University and the Chinese mathematics community!" Academician Yang waved his hand on the printing paper, from the top lines Seeing that it was the speech prepared by Lu Qiujian, "I didn't expect you to make such a thing again!"

“We’ve seen things, it’s really valuable!” Academician Gu continued, “Just like Xiao Zhang said, is it a bit early for you at this age?”

“Yes! Do you know how big a storm will be caused by throwing such a thing?” Academician Guo’s words showed concern and concern for Lu Qiujian, “This is something that can shake the whole mathematics community. ! “

“Just as Xiao Zhang said, it ’s not too late to take it out after ten years! At that time, you have to have prestige and prestige, you need qualifications and qualifications, and no one dares not listen to them! Of course, the premise is that you have been keeping now Academician Qiao’s view seems to be the same as everyone else’s, “Now it will definitely suffer countless attacks and censures when you take it out, saying you are not self-restrained, and that you don’t know how high it is!”

“I know all these things!” But I have no time to wait for ten years, and now I can’t care so much for time, let alone don’t watch them blame now, and wait a few years to worship. “Now I want to ask, do you think my manuscript is wrong?”

If it’s wrong, how can we be so embarrassed? Several people exchanged glances, or academician Gu said, “We dare not confirm the direction proposed in your manuscript, but these questions are indeed very valuable! I am still an old saying, if you now have the prestige of Hilbert, This is not a problem! But although you have cracked the Poincaré conjecture today, you still cannot compare with Hilbert’s status! “

“Why do you have to say it now?” Professor Zhang also felt puzzled.

Huh ~ Lv Qiujian took a deep breath and said slowly, “I just think I should do such a thing. Since this thing is right, then I should not worry about other things as long as Just go according to your own ideas! As for the blame that I will encounter, I will not care! “

Professor Gu and others froze, yeah, since this is the right thing, why not dare to look ahead and look after it? I didn’t give up my pursuit of mathematics and truth even in the bullpen. How come now that I am at this age but I am afraid to shrink? Where did you go for the spirit that was desperate for mathematics?

“Oh, the older the rivers and lakes, the smaller the courage!” Academician Gu smiled at himself, his eyes restored to clarity, and slowly turned back to look at his partners, “Should we give Xiao Lu this opportunity?”

Lv Qiujian's heart suddenly mentioned his throat, and the few people in front of him were even the Taishan Beidou of the Chinese mathematics circle. If they have their support, then no one will stop them from making their own closing speeches?

In order to avoid trouble, the names of domestic scientists are not written in real names!

Chapter 128 - Start of school

"Wait anymore! There is still more than one month away from the report meeting. If we make something out of this time during this period, we will talk better in the future; if we can't do it ..."
Academician Qiao tapped his finger. After knocking on the speech on the table, you can use it when you make it.

"But if you don't prepare in advance, what if you can't find the right person to speak at the closing ceremony?" Professor Zhang asked, frowning. "The candidate must be decided early! Don't say anything else. Have time? "

"I will talk to Professor Qiu privately! I have some exchanges with him, so I will not go through the formal channels of Peking University!" Academician Qiao and Qiu Chengtong had a cooperation, and the relationship between them is not bad. ... Let's let Professor Yau give a speech! "

This is to help yourself with your own face. Lu Qiujian quickly hurriedly bowed and respectfully thanked these people, "Thank you teachers for your help!"

"Oh, don't hurry to thank you first. You have to see if we can make a result!" Academician Gu appeared. Lv Qiujian and turned his head to Academician Qiao, "Old Qiao! When you talk to Professor Qiu Pay attention to the wording. Do n't let Xiao Lu go up to others to be unhappy! "

That's for sure, who likes to be a spare tire! Academician Qiao nodded to show that he understood that several people asked some questions about the speech, and they didn't disperse until dinner time. Although Lu Qiujian was willing to ask them to have a meal, these people's time was very precious. It was very difficult to take some time to sit here and sit. It was really no time to waste dinner, so he gave up the plan.

The next day Lu Qiujian drove the rented car to the airport. The driver's license was resolved before he arrived in the United States last year, and it saved a lot of trouble. Shortly after the corner of the flight from the United States, Natalie dialed his. On the phone, she hurried to the exit while speaking of this parting thought.

Lv Qiujian also stretched his neck and stood at the pick-up gate, waiting for her petite figure to be found in the crowd, “Hi Nat! Look to the right, I am here!”

After meeting, it was naturally a warm hug, which attracted many people’s gossip. Fortunately, there were no reporters here; Lv Qiujian helped her to carry the luggage to the parking lot, and Natalie kissed warmly as soon as she entered the car.

After a long kiss, Lu Qiujian started the car, “I will take you to the hotel to put things down, and then eat something to take a good night’s rest and rest, the ten-hour flight must be very tired!”

“I have to say that the Pacific Ocean is too wide. It’s not easy to see you once!” Natalie leaned on the back of her chair and couldn’t open her eyes.

If the Pacific Ocean is not wide, there is no cover on it, and I do n’t know how many people swim past! “Tired, I can help you get a massage for a while, I believe my craftsmanship can make you recover quickly!”

Came to the hotel, directly into the suite she reserved, Natalie went to the bathroom to wash, Lu Qiujian called the hotel to send meals, of course, taking into account Natalie’s eating habits, Lu Qiu built vegetarian dishes.

“Well, the taste is very good!” Natalie was full of praise for the food of China. After eating, Lu Qiujian sat for a while and massaged Natalie, but it didn’t take long to roll into the bed.

With hope in the speech, Natalie arrived in China again. Lu Qiujian had a very moisturizing life in the next few days. She took Natalie to various attractions in the capital, from the National Palace Museum to the flag-raising ceremony on the square. From the Summer Palace to Xiangshan, even the Great Wall that every foreign country comes to China will go to.

Of course, there are also inadequacies. Natalie, who insists on vegetarianism, has no way to taste the famous Beijing Roast Duck, Shabu Lamb and other delicacies; but fortunately, the Chinese cuisine is extensive and profound. Excellent vegetarian is still very easy.

Play around during the day, watch the scenery, admire the simple and solemn buildings, taste the unique Hutong culture, and taste the unique Chinese cuisine; return to the hotel to watch movies, drink tea, and then roll the sheets at night. Both of them forgot the school, Hollywood also has basketball and other mind-blowing things.

It 's a pity that the relaxation time is short after all, and it 's almost time to start school within a few days. Although Natalie has obtained a bachelor 's degree in psychology, she has to return to the United States to deal with personal affairs; and Lu Qiujian also has to go back. Step up preparations for the briefing!

“Well, I don't know when you will see you again next time!” Natalie curled up in Lu Qiujian's arms in the parking lot of the airport, her face full of reluctance.

“When you miss me, you can find me on MSN!” Lu Qiujian gently kissed her forehead. “If I were at the computer, I will reply to you as soon as possible!”

“Hey, when you were in Princeton, you still thought that Harvard was too far to you! Now it seems that I was too greedy at first!” Natalie looked at his eyes After graduation, you still Will you return to the United States? “

“Well, will you probably go to Europe?” He has basically determined the question of reading a doctoral tutor. “I plan to go to Europe to study physics, and I have found my goals. I will start applying when the report is over!”

“Europe!” Natalie sat up suddenly and said in surprise, “I'm planning to return to Israel next spring to go to Hebrew University to study for a master's degree. By that time, will it be easier for us to meet? Which country do you want to go to? Is it? “

“Probably it will be Germany!” Lu Qiujian was a little embarrassed, and the memories brought to the Jews by this country are not good.

“It doesn't matter, it's been a long time ago!” Natalie comforted, “When I get to Europe, I will see you when I have time!”

When the security channel was about to close, Natalie hurriedly walked in, and the flight that watched Natalie disappeared into the clouds, and Lu Qiujian left the airport.

The car was returned to the car rental company, and a car was returned to Beijing Normal University; the school has gradually become lively after not returning for a few days. New, several dormitory buildings are piled up with **** cleaned up ... They are all busy for the coming freshmen.

Count time, those roommates in their former dormitory should be back to school now, right? I have n't seen them for more than a year, and I do n't know what they have become?

With this idea, Lu Qiujian crossed the cleaned trail and walked towards the direction of his dormitory!

Chapter 129 - Corridor speech

"Hey! Qiu Jian is here too! Where did I go to play in the summer vacation!" As soon as he entered the dormitory, he met Xu Ye in the same dormitory. He was barely wearing a big pants and holding a washbasin was going to the water room , Nodded, even after saying hello, suddenly felt a bit wrong, and took two more steps to react, and suddenly turned around and shouted, "You are back, Chu Jian, you are back!"

I am not allowed to fight, I do n't do it anymore, Lu Qiujian greeted with a smile, "It's been several days, when did you come back?"

Xu Ye didn't answer, walked back around Lu Qiujian twice before scratching his head and said, "It looks like nothing has changed!"

"But it's not seen in a year, how much can it change?" This kid is so nagging today, it looks a bit abnormal! Could it have been a blow to the year I went!

"I figured out that the non-human beings who could decipher Poincaré's conjecture are always different from normal people?" Obviously, he also knew Lu Qiujian's great achievements, and gave up the search with a long sigh, reaching out and patting his shoulder, "But this time, you're so mad, and gave us a big face!"

Xu Ye's roar almost disturbed the entire corridor. At this time, almost all the mathematics students in the dormitory were pouring out. Some were eating while holding rice bowls, some were writing with pens, and some took I was on the phone talking with my girlfriend, and even my body was covered in foam and half bathed with foam ...

"Lu Qiujian! I finally saw the living god!"

"Second son, come out and see God!"

“I heard that the school is going to hold a report meeting? When will it start? Give us a place?”

“This time, you gave us a great view of the Department of Mathematics!”

“Lv Qiujian! Niubi!” At first it was a person, and later all the hallways were shouting at the same time, “Lu Qiujian! Niubi! Lu Qiujian! Niubi!”

The loud roar shocked the floor management. He hurried up and sighed with relief after seeing no accidents. “I thought I was at the home of the Jing’an Guoan team! I said you are all small. Point! The freshman is coming soon, don’t scare your elementary school girl! “

“We are no longer in trouble!” Xu Ye reached out and motioned to be quiet. After the applause subsided, he looked at Lu Qiujian eagerly, “Tell us how did you get that thing?”

“Yes, hurry up!” A little bit excited and started to take pictures with the camera around, and some others immediately took out their phones to turn on the recording function, seemingly intending to record every sentence that Lu Qiujian said.

Here are the most talented mathematics talents in China. They deeply know the difficulty and significance of Poincaré’s conjecture; they did not expect that the guy who was on his own corridor two years ago would make a huge shoulder with Wyeth. Achievement, at this moment Lu Qiujian’s image in their hearts suddenly became taller.

“I didn’t even drink a sip of water when I first came back. You always let me go back to the dormitory to tidy up the beds?” Lu Qiujian scratched his head.

“I have water!” A hula, a few bottles of beverages were handed to him, mineral water, cola, iced black tea, and even beer tea refreshing inhumane drinks.

With a shout, the head of the dormitory, Li Yincheng, closed the door of Lu Qiujian’s dormitory, and added a lock to smile insignificantly, “If you do n’t make things clear, you do n’t want to enter the dormitory today! We have done a few things for you! “

“The bed is covered by the pretty girl! What are these five big and three rough?” Lu Qiujian took a bottle of mineral water and drank two smiles. “What do you want to hear?”

“Of course it’s your cracking of Poincaré’s conjecture!” Everyone shouted in unison, even though they read the news about this matter from the newspaper and the Internet over and over again, but the person said it was fun .

“Well, in fact, this happened quite coincidentally! At that time, I was unable to keep up with the last exam of the school because of the competition ...”, Lu Qiujian briefly said the story.

The mathematics students who were stuck in the corridor looked at him without blinking. They could n’t hear any sound except for the shutter of the camera. When Lu Qiujian said that he was dumbfounded when he looked at the test paper, everyone in unison. Laughing; when they heard the truth and Professor Thurston discussing the writing of the paper, Lou fell and a cheerful whistle sounded; when it came to receiving the rejection letter of “Science”, he swore loudly; when When Professor Thurston discovered that the plagiarism of Ferrig and Soman was exposed, the whistle continued.

“Fuck, I was going to apply for Yale’s graduate student after graduation! Now I won’t die!”

When he heard Princeton summoning a gorgeous lineup to prepare for a protest, everyone gave a surprised air-sucking sound, and people who were familiar with the history of mathematics immediately counted on their fingers, “Wyeth counted one, Gals counted one. , Thurston counts as one ... lying trough, there are more than ten winners of the Fields Medal! It ’s amazing! “

When Yale finally announced his defeat, Ferrig and Soman were expelled, and Lu Qiujian’s achievements were approved by the mathematics, the cheers reached the apex.

“Let’s get here today!” Lu Qiujian finished raising his hand and begging for mercy You can’t let me be Dayu, and you can’t enter after three times of the dormitory door? “

Everyone laughed to make way, Li Yincheng opened the door of the dormitory, he finally returned to the dormitory after more than a year; “You sit on my chair first, I will help you clean up the bed!”

Li Yincheng couldn’t help but press him on the chair. He took out brushes and rags, cleaned Li Yincheng’s bed clean, and took out the futon from the cabinet.

“I heard that you all got the PhD from Princeton?” Kong Yuan, the last roommate in the same dormitory, asked enviously. “That wouldn’t be possible to stay after graduation? How about accepting me as your graduate student? “

“Haha, they were all of a generation! You have to call someone else’s teacher to the next generation!” Xu Ye came over and patted his chest. “Come on, shout uncle first!”

“What’s wrong with the lower generation? I’m starting to be strong first. If Qiu Jianzhen is enrolled in the school, there will be fewer students thrashing across the country? I’ll register first!” Kong Yuan said contemptuously.

In this way, the dormitory started to quarrel again, and after they had quarreled, Lu Qiu Jian said that he intended to change his major to read a blog; others asked a few more words, although some did not understand, but they all decided on Lu Qiu Jian. Show respect.

In the evening, it’s natural to eat, drink, and drink to celebrate; after spending two days in the dormitory, the people who come to him are almost endless. Some discuss professional issues, some interviews from school radio stations, some come to see the fresh, and get Lu Qiu Jian was very troubled.

No, let’s go back to Yanbeiyuan’s own house!

Chapter 130 - Mathematical beauty

“Eh, why did you say that Mr. Qiao suddenly let us stop the job of finding fault? I have done a good job recently!” Just when Lu Qiu Jian planned to live back to the house arranged by Beijing Normal University, Academician Qiao There was also work on the verification of his speech.

“That’s just that Minister Zhang came to the door, and by the way, helped us out of Beijing Normal University, take what that Professor Feng Li Liwei, so that someone will not find fault during the report!” Some people see through, “Now the goal has basically been achieved. , We have also saved a lot of articles, and when it is sent out, we will meet with you, so we do n’t have to do it anymore!”

“But the direction given now is not the same as Academician Qiao’s previous research direction? It seems that I still need to use a supercomputer for the calculation. The time is so tight, it is not easy to handle!” Wang Haoyu, who just spoke, was still wondering the reason.

The historical source of computers has been used in mathematics research for a long time, and the famous four-color theorem is finally solved by relying on computers.

The unequivocal popular saying is: each flat map can be colored with only four colors, and no two adjacent areas have the same color.

Sounds simple, doesn't it? When this conjecture was raised, everyone thought so, and those arrogant mathematicians disdain to spend energy on such simple problems, until the important figures of the Göttingen school, the teacher of Einstein, and the general theory of relativity Minkowski, who made outstanding contributions, noticed this problem.

In a topology class, Minkowski proclaimed to his students, "The most important reason why this theorem has not been proved is that so far only some third-rate mathematicians have spent time on it. Let me prove it."

Then ... At the end of this lesson, I didn't complete the certificate; by the next lesson, Minkowski continued to prove that it was still not done.

It has been a few weeks ... Minkowski stepped into the classroom on a gloomy morning. At that time, a lightning struck the sky and thunder thundered; he said very seriously, "God was irritated by my pride, My proof is incomplete ... "

In 1942, Lefschetz went to Harvard University to give a report. Berkhof was his good friend. After the lecture, he asked him if he had anything interesting at Princeton University recently. Lefschetz said that one person had just proved the four-color conjecture. Berkhof was seriously disbelieving that if it was true, he climbed directly to the Mathematics Department building in Princeton with his hands and knees.

For decades, the mathematics community's perception of the four-color theorem has changed so much; until 1976, the American mathematicians Appel and Hacken used two different electronic computers at the University of Illinois in the United States. It took 1200 hours, made 10 billion judgments, and finally proved the four-color theorem, which caused a sensation in the world.

With this success story, later mathematicians gradually began to use computers to solve various problems; Academician Qiao gave them the same problem that they also need to use computers.

"What do you think of this problem? Can we prove it?" Wang Jiayu couldn't help asking another sentence after seeing the other party not speaking for a long time.

"Can we prove that I don't know, but I'm sure this question is correct!" Brother Dong Jianye answered decisively, looking confident.

“Can you prove it is not clear to you, how can you be sure that he is right?” Wang Jiayu is confused!

“Because he is beautiful!” Dong Jianye showed an obsessive look and pointed to the formula on the topic. “You see this formula is so natural and smooth. Every link reveals the unique charm of mathematics, such a beautiful formula. How could he be wrong? “

“If it’s the wrong formula, it will definitely make people feel awkward, like ... It’s like watching a movie with a bug that makes people uncomfortable!” Dong Jianye is still addicted to the beauty of this formula, ” When I first saw this formula, I did n’t find anything that made me feel inconsistent, so he must be right! Even if we ca n’t prove it, it ’s also because our level is not enough, not the formula. problem!”

This reason is very good and powerful! Wang Jiayu suddenly had nothing to say. Scientists have seen more cases of face. I do n’t know how many academic achievements have been rejected because of lack of beauty; some have undergone cosmetic surgery and were modified and supplemented by future generations and finally accepted by others, while others Then it was discovered that the loophole finally proved that the result was wrong.

Dong Jianye has this kind of talent in mathematics. He can discover the unique beauty in mathematical formulas through his intuition. Any formula that he thinks is beautiful will often be confirmed, and most of the formulas that he thinks are ugly are not available. Recovered logic error.

This talent makes Wang Jiayu extremely jealous. With such intuition as a guide, how much time is destined to be wasted! He privately made countless classic formulas and theorems in the history of mathematics and read them over and over again, but without any gain.

“Hey, then I will fill out the application form, and I don’t know when it will go!” Supercomputers are scarce resources no matter where they are. Naturally, they can’t be used if they want to. They must fill out the application form; then manage the computer’s The relevant department then considers the allocation of time based on the time of delivery of the application form, the background of the applicant and the urgency of the problem.

“Are you ready for the calculation on the computer?” As he said, Academician Qiao hurriedly pushed open the door and walked in. The time was getting closer and closer. Several old friends were discussing to come over with him early. Get together, it’s too late if the speaker hasn’t decided yet.

“It is ready, I am filling in the application form!” Wang Jiayu said quickly.

“Hmm!” Academician Qiao nodded and turned his eyes to Dong Jianye. “What do you think of this problem?” He was very clear about his talent as an lover. He used to be an anecdote, but now he wants to bring good news.

“If Pythagoras’ theorem is a beauty like Helen, then this formula can be said to reach the level of Audrey-Hepburn!” Dong Jianye praised with an aria-like voice.

The Pythagorean Theorem is the Pythagorean Theorem The great significance of this formula can be ranked in the top ten in the history of mathematics no matter how it is ranked; Hearing Dong Jianye compares these two with Helen and Hepburn Academician, academician Joe is also quite surprised! Even his own lovers value this formula so much?

Out of the urgency to solve the problem and the superstition of his talent as an apprentice, Academician Qiao slowly tapped his fingers on the application form, and finally made up his mind, “I personally sent this to see if they can give us Arrange earlier! “

There are indeed many scientific theories that are not accepted by people because of lack of beauty! The shelves were wrong, and today I will compensate everyone for more. Ask for subscriptions and monthly tickets. By the way, I recommend two books, one book “Big Rogue” by the group of friends, and the story of the later generals of the generals in the end of the Sui Dynasty; the other is the “Pinnacle Player” by my readers, a senior online game player. Handwritten online game text, the article describes a lot of online game skills, you can try to play games.
