

D. School 301

Chapter 301 - Renew?

While communicating with physicists around the world by email, while helping Dr. Evans to conduct experimental guidance in cern, time soon came to early May, Bayern Munich 's last home Bundesliga game this season. It's about to start.

In the home game against Chelsea at the beginning of the month, although Lu Qiu Jian was absent, Chelsea also lacked the defender Terry; Magat's tactics were also in place, although Lucio was exhausted under the impact of Drogba. Chelsea also used this to break through Bayern's goal, but Bayern also seized the opportunity by Pizarro to use Terry's absence. Chelsea's back line appeared empty and scored a equalized goal.

The final match score was 1: 1, Bayern Munich also eliminated Chelsea with a total score of 4-2 in two rounds to enter the final. They will go to Istanbul Ataturk Stadium in Turkey on May 25 Just eliminated Eindhoven's Serie A giant Milan with the advantage of many goals away!

Ah, it's almost time to go back and see. After attending the award ceremony of the Bundesliga, come back here and continue to prepare the test plan! It's time to fly directly from Geneva to Istanbul and join the team to participate in the finals!

"Mr. Evans, I will go back to Munich to deal with some things, and I will come back in about three days! This is my adjustment plan for these three days of team work!"

"Okay, say hello to Hillman on my behalf! And I will urge you to go to the top of cern after you come up with the test plan! Recently, the focus on dark matter in physics has gradually increased. If there is one or two more weights Grade articles, or breakthrough discoveries, presumably their attitude will be loosened! "Dr. Evans responded, picking up the phone to help Lu Qiu Jian arrange a car.

I came to the airport in a cern car and made a phone call to Magat to report his return to Munich. In the previous two away games, Magat responded to the UEFA Champions League final in Istanbul on the 25th in order to save his strength. Four days later, the role of the German Cup, so did not send the main lineup, gaining a tie and a negative result.

But there is a good foundation laid before. With the last two rounds of the league remaining, Bayern still lead the second-ranked Schalke by four or four points. As long as they win the 13th Nuremberg in the next home game, they can win the Bundesliga championship at home Silver award plate.

Coincidentally, the Slovak striker Mintar, who is only one goal behind Lu Qiu Jian in the shooter list, is in the Nuremberg formation. Mackay was overtaken by him without goals in the first two games. This game will basically determine the Bundesliga this season. The ranking of the shooter list!

Didn't take long. The plane landed at Franz Josef Strauss International Airport. As soon as he walked out of the passenger passage, Lu Qiu Jian saw Magath standing at the exit and waved to him. He was also with the chairman of the Bayern Club, Heine Sri Lanka.

Amount, is this the condition of the **** horse? I just went out for two days. How did Bayern put up such a big battle after returning? When he was in the car, he was even more surprised. Two other Bayern giants Beckenbauer and Rummenig Qiqi sat in the car.

"You know if I show up at the airport, I'm afraid it will cause unnecessary trouble, so I'll be waiting for you in the car!" Beckenbauer said with pride. Beckenbauer and Brazil's coach Zagalo are international There are only two legends in football history who have won the World Cup as players and coaches respectively. His influence in Germany is very large. If he appears at the airport, it will definitely attract many fans to watch.

"It really surprised me a bit!" Lu Qiu Jian replied with a shrug, for the purpose of dispatching all the senior members of Bayern. Lu Qiu Jian knew it, but he did not intend to speak first.

"Okay, let's go back to the club first! There are some things to talk to you!" The Big Three have always used Beckenbauer as the core. Under his arrangement, the car drove to Bayern headquarters. Along the way, they and Lu Qiu Jian discussed vigorously the opponent Milan they will face in the Champions League final, and they are very tacit and did not mention the purpose of this meeting.

When he arrived at the club's office in Beckenbauer, he finally revealed his purpose. "Lv, let's talk about your new contract! I remember that the contract period you signed with Bayern was two years and the annual salary was 300,000 euros. ; We now agree that this salary is not worthy of your performance. So let's sign a new contract! "

If I add money, of course I do n't have any opinions. Lu Qiu Jian took a sip of tea and asked, "As long as the terms of service and terms of business activities do not change, I do n't have too many opinions!"

Waited almost a season. There is no news of which sports brand Lu Qiu Jian signed with. Beckenbauer and others have already understood that he really does not care about this, so he

basically broke this idea; Beckenbauer issued on behalf of Bayern. In terms of conditions Lv, currently the highest paid in Bayern Array are Kahn and Sagnol, their annual salary is 4.5 million euros after tax. We intend to give you six million euros! If you sign a contract now, this season's salary will be automatically adjusted to 6 million euros, and next year will increase to 7.2 million euros! “

Although Lu Qiujiang did not attend commercial activities and cost Bayern a lot, he brought a brilliant record, and as long as he wore a Bayern jersey, it would greatly improve Bayern's image, not to mention the Chinese behind him. Chinese market! This season is not over yet, there are many Chinese merchants to discuss the endorsement fee for the next season, the amount of money is higher than one! This piece alone is enough to pay Lu Qiujiang's high salary.

Lu Qiujiang nodded and beckoned Beckenbauer to continue, “We also have no restrictions on the business activity, but I checked the time of doctoral study at the University of Munich. The doctoral system at the University of Munich is two and a half years. Those who started in October 04 should normally graduate in April 2007! And the Bundesliga and the Champions League usually end in May, so you seem to be able to participate in this third season? So how about we change the duration of the contract to three years? How about waiting for you to play in Bayern for another month after graduation to help Bayern complete the European Championship three consecutive championships?”

“And you can stay at the University of Munich to teach after graduation! If you want to enter the institute, there are world-class research institutions like the Max Planck Institute in Munich. If you are willing to stay in Munich, Bayern will be for you The unit donated a large amount of research funds! “Henes added.

Chapter 302 - champion

“Although Bayern certainly does not have the money to build large-scale experimental equipment like this, it is still possible to replace some small equipment for your laboratory! When we donate, we will indicate that this fund will be handled by you!” He Ness didn't make less preparations before the negotiation, and even the cost of l was found out! He couldn't help being thankful that Germany had a greater say in the house, otherwise Lu Qiujiang might have gone to Britain or France! When would it be Bayern's turn to pick up a bargain?

“But I plan to make a doctoral thesis defense in advance!” And we are going back to our country after graduation! To what extent did Qin Feng verify that data? Lu Qiujiang thought about this while answering Beckenbauer and others, “According to my plan, I will probably have a graduation reply at the end of 2006! If all goes well, I will be able to get a doctorate before 2007!” Less than a year later, he had finished all four papers requested by Professor Schulte! It is only because the study of dark matter has not been completed that he continues to stay under his door.

There was a bang, and the hearts of Beckenbauer, Hernes, Rummenigge, and Magath were broken, Lu, do n't be so capable, okay! It doesn't seem to be much fun to play only halfway in the third season!

The biggest feature of German football is the tenacious will. As a banner character of German football, when he was young, Beckenbauer could hang a shirt and fight with Bobby Charlton at the World Cup. Hearing what Lu Qiu Jian said After a moment of frustration, it returned to normal. "So what do you plan to do after graduation? Are you going to stay in Munich? If so, we can even extend the contract to five years. As for the treatment, I promise you will The highest salary in the Bundesliga! "

"Future matters have not been considered yet. Dr. Evans really wanted me to work!" Of course, he planned to return to China to engage in controlled nuclear fusion. Of course, he could not even talk nonsense, even Lu Qiu Jian did not want to mention , So as not to affect your work after the news spreads.

"Go to Geneva?" Beckenbauer thought about it. Is Bayern going to be defeated by a team from the Swiss Super League in the UEFA Champions League in the future? This is terrible, right?

"But I haven't made a decision yet, you know, I'm still a little bit uncertain about my future research direction!" Lu Qiu Jian said vaguely. He also did not want the rumor to spread.

"Then we are so good! Sign for three years, but you can terminate the contract early in the third season! But we ask you to automatically renew your contract if you stay in Munich. If you go to other European cities, we have to renew the contract first. Transfer! "Beckenbauer made the decision decisively, not a big deal and gave him a half-season salary in the third year! How can we care about leaving players? Even if he went to Switzerland and England after graduation, let him play in the Champions League in the last season, at least that season can also have a strong opponent?

"Okay." Since Bayern is so generous and large, Lu Qiu Jian no longer insists, playing more half a season will be more half of the season! It 's a big deal, and you can work harder and give them more points!

"Lv. Are you planning to return to China during the summer vacation?" Seeing Lv Qiu Jian agreed, Hernes came out again, "Bayern has recently received many invitations from China to compete. If you want to return to China, why not join one or two games?"

“I’m not sure about this. If the experiment on dark matter is advanced, I’m afraid I will spend this holiday in Geneva! Of course, if time permits, I would like to go back and see!” I must have reviewed the information provided by myself at that time. Is it over? Many preparatory work on controlled nuclear fusion can be started. I am afraid that large-scale projects like this will enter the five-year plan to discuss it?

“So good! Whether it is possible or not, I hope you will reply to me by June, so that coach Magath can also arrange a training plan between seasons!” Hernes said regretfully. Real Madrid’s gold absorbing journey in China has already made all the giants jealous. Bayern’s chances are better than they were at that time. It would be a pity if they missed it.

The two parties soon agreed on the general direction of the contract. The rest of the details are to be completed by the following people. Lu Qiu Jian made a phone call to take Liu Yuzhou from Gothenburg University to Bayern. He was busy for a few days and nights, and finally completed the signing ceremony before the start of the Bundesliga match this week.

Bayern immediately published this news on the official website, which immediately caused a joy for Bayern fans! During the weekend, countless fans held various banners to celebrate the upcoming championship and the renewal of contract with Lu Qiu Jian.

Lu Qiu Jian did not disappoint the fans. He scored four goals with his left and right bows. By the way, he assisted Ma Kai and scored two goals. He also created a penalty for the only player on the field who did not score.

Münster in Nuremberg only got one goal despite all his efforts. Once again tied with Ma Kai to become the second shooter list, but how can not catch up with Lu Qiu Jian!

The ninety minute game is over. Bayern defeated Nuremberg 7-2, regardless of the result of Schalke’s 04. It is no longer possible to stop Bayern Munich from winning the championship!

“This is the first time that Chinese players have won the five major leagues in Europe. is also the first time that Chinese players have won the Golden Boots in the five major leagues in Europe! Even though there is still a round of matches, Lu Qiu Jian does not Will definitely participate, but neither Ma Kai nor Ma Kai can obviously catch up with Lu Qiu Jian’s goals! “Huang Daxian exclaimed very excitedly,” If it is not that Xiao Lu participated in too few games, I presumably He will also receive the European Golden Boot Award! “

“Lv Qiu Jian is also among the top scorers in the UEFA Champions League. If he performs a hat-trick in the final of the final game, he will also win the Champions League Golden Boot Award! Let us look forward to his Performance in Istanbul!” Tao Wei added.

In the dormitories of various universities in China, in various Internet cafes, and in the cell buildings of various communities, countless fans jumped up and cheered when the final whistle sounded, ignoring the scolding from the next door.

German Football Association President Warfield has already arrived at the Munich Olympic Stadium with a silver medallion symbolizing the Bundesliga champion. Seeing Bayern lead the score, he arranged for the staff to engrave the Bayern Munich name on the medallion before the game ended.

The award ceremony was held in the sky and the cheers of Bayern. Of course, we were all Changping people in the week of the Queens. When the prize plate reached Lu Qiu Jian, countless Chinese fans thought that if he could just join the China Football Team!

Chapter 303 - good news

By convention, the celebration after winning the home championship will last a long time, but Lu Qiu Jian disappeared from the celebration team of Bayern Munich after the parade. If the official website just announced the news of re-signing with him, I am afraid that Bayern fans we should worry again!

After a season of attention, Bayern fans have adapted to the frequent disappearance of Lu Qiu Jian. They all guessed that this new favorite of their own team might go to engage in scientific research activities?

This is also the case. Lu Qiu Jian re-boarded the flight back to Geneva after a short celebration. Before leaving, Magath and Beckenbauer repeatedly told him to remember to report to Istanbul in a few days. .

“There is good news to tell you!” Just back to Cern’s office, Dr. Evans rushed over and said, holding a stack of printing paper in his hand.

“Oh? There is a new discovery?” Lu Qiu Jian looked at the printing paper in his hand and guessed, “Who has published a new article or where has new evidence been found?”

“Discovery from your home country!” Dr. Evans opened the printing paper booth to his desk. “The staff of the Purple Mountain Observatory of the Chinese Academy of Sciences is cooperating with

the advanced thin ionization calorimeter of the Antarctic Long Cycle Balloon Project in the United States. The study found evidence of annihilation of dark matter particles! They intend to publish this result in the latest issue of “Nature”! “

“Look!” Lu Qiujian took the printing paper excitedly and found the article titled “Cosmic Electrons Discovering” Super “in the 3000-8000teV Energy Range” written by this Chinese scientist.

International Physics has a variety of methods for detecting dark matter, such as underground laboratory detection, collider detection, satellite detection, and balloon detection.

The Jinping underground laboratory planned by Hua Guo uses 2400 meters of high-purity rock to isolate most cosmic rays, and then uses a 1 meter thick polyethylene gate to block and attract neutrons. A 20 cm thick lead layer is used. It is used to shield the external gamma rays; 20 cm thick boron-containing polyethylene is used to absorb the remaining neutrons; 10 cm thick high-purity oxygen-free copper is used to block the gamma rays in lead materials and other external materials. These shielding devices shield almost all the radiation sources that can be imagined. At the core of the laboratory, a 1 kg high-purity germanium experimental detector that directly detects dark matter is wrapped in low-temperature liquid nitrogen. The collision of dark matter and germanium crystals will generate heat. They use this principle to detect dark matter.

In addition to the Jinping underground laboratory, Huaguo also has a dark matter satellite launch plan. It is said that this satellite trophy is named Wukong. It seems that it is trying to search for dark matter with the fire eyes and gold eyes of the mythical legend. This name is not bad. When you want to launch a satellite to detect dark energy in the future, you can then name it Wuen! Doesn't it mean to understand dark energy? Well, can Jinping Underground Laboratory be named Wuxing Mountain according to this naming method! No matter what kind of dark matter particles you are, you won't be able to get to Wuxing Mountain!

The researchers of the Chinese Academy of Sciences used high-altitude balloon detection. The high-altitude detection balloon used in the advanced thin ionization calorimeter (abbreviated) of the Antarctic Long-Cycle Balloon Project in the United States is as large as a football field. The two-ton detector can be lifted. At the same time, due to the unique “whirlwind” in the Antarctic area, the balloon will not be blown far when it reaches 40 kilometers from the ground, and it can be recycled and reused on-site, so it has become a high altitude. An important selection area for balloon detection.

The original main scientific goal was to observe high-energy cosmic rays, and electrons and gamma rays were not included. In 1998, researchers from Huaguo contacted them and proposed equipment to observe high-energy electrons and gamma rays. After many communications, the suggestions of the Chinese researchers were accepted.

Hey, this is the tragedy of your own unconditional! He's going to Antarctica. I have to wait in line for the test time in cern, think about the upcoming work, and then the days of high-energy physicists in China will be much more comfortable than they are now; in the final analysis, it is still a matter of money. The country has money. To build some large-scale basic technology facilities, you can only go to other parts of the world without money! Recently, Huaguo also has plans to build its own high-altitude balloon detector. Maybe the next discovery will be born in Huaguo's own equipment.

The Purple Astronomical Observatory Space Astronomy Laboratory has been working at the international frontier, and has its own method for the exploration of dark matter. After reaching a cooperation agreement, their detectors are shipped to cern for testing. The test results indicate that their detection methods are indeed feasible.

This is why Dr. Evans will get the article in advance. He had dealt with the Purple Mountain Space Astronomy Laboratory long before; after the test, they used three observations, and improved the observer during the observation process. The energy resolution was increased by 2 times, and the background was reduced by 5 Times.

These three observations were successful twice. Once failed because of balloons! In these two successful observations, they collected a large amount of effective data. Through the analysis of these data they found that the electron energy spectrum is in the energy range of 3000-8000tev, which has a strong comparison with the theoretical results. "Super", the analysis shows that this "super" may be the product of the annihilation of dark matter particles, and the observation results are in good agreement with the kaluza-particle model (particle mass 6200tev) predicted by the dark matter theory.

"Professor Lars-Bergstrom, a dark matter expert at Stockholm University in Sweden, has also read this article. He believes that the observation data is very consistent with the data collected by the European Pamela Dark Matter Detector! The sum of the positron flow rate, on the other hand, measured the rise of the higher energy range and saw the flow rate drop, so from the measurement results, the current detection results are more like the annihilation of dark matter particles. "Dr. Evans said with excitement, "This is the first evidence that humans have discovered the annihilation of dark matter particles, which greatly promotes the study of dark matter!"

"This is both good news and bad news for me!" Lu Qiu Jian responded with a smile after reading the article. "The good news is that there is one more piece of evidence for the existence of dark matter! The bad news is the dark matter particles discovered this time. The existing energy range is too high, which is completely beyond the design interval! It seems that there is no direct promotion for my test plan! "

The energy level of is only 14tev, the cut off rice country is only 40tev, and the upcoming China project is only 50-70tev. It is completely impossible to achieve the energy level in this observation data; so how do you use this news?

Chapter 304 - Fuelling

“It takes many years for humans to reach that energy level!” Dr. Evans shook his head with emotion. How long is the acceleration tube of a collider with an energy level hundreds of times higher? I do n’t know if it ’s enough to circle the earth ’s equator? What a huge amount of money it needs!

“However, if you want to detect dark matter, you don’t have to have such a high energy level!” Lu Qiujian said, “It can be done with the existing functions!”

“The problem is that only you now believe this!” Dr. Evans shrugged. “Well, even if I believe you can do it, but my support is not enough!”

“Visible matter occupies only 4% of the energy of the universe, there are 62 elementary particles, dark matter is more than six times that of visible matter, then it certainly will not have only one elementary particle, so there are several kinds of dark matter. It is normal that the particles can be generated within the energy level! “Lu Qiujian even told his own thoughts,” According to the model I gave earlier, it is entirely possible that we found evidence of the existence of dark matter particles during the experiment. ! “

“Well, I will complete the experimental plan first, and then write out the experimental process I expected. It has a theoretical basis and a perfect derivation process. Presumably, there will be more people supporting me?” See Dr. Evans also To persuade, Lu Qiujian continued, “Anyway, the experiment of the Higgs boson is almost over, and the maintenance will take some time. As long as there is a new change in the academic criticism during this period, maybe that time You can experiment according to my plan! “

“This is not an easy job!” Seeing Lu Qiujian insisted so much, Evans was also deeply touched by it. Perhaps, according to Lu’s plan, he can create miracles again! “Wait for me as soon as your experimental plan is completed. If I think it is reasonable, I will help you fight for it!”

“Thank you, I don’t want to waste this thing!” Lv Qiujian Yang Yang just brought the article, “Anyway, this is a good opportunity to increase the exposure of dark matter, isn’t it? Dr. Evans, you Could you help me get their research data. Let me see if I can make some new articles! “

“Of course, even without me, you will be able to contact him through the Chen of the High Energy Institute.” This was just a show of effort, and Dr. Evans agreed neatly. Looking at the watch China, it seems that it is not time for a break, so I immediately dialed the phone there.

After explaining things clearly in a few words, he handed the phone to Lu Qiu Jian. Fortunately, Lu Qiu Jian is also a well-known figure in the domestic academic community. The cracking of Poincare’s conjecture, the first prize of natural science, and the previous Improvement of data analysis methods for high-energy physics and its great role in the discovery process of Higgs boson. Let his name spread throughout the relevant field.

“Dr. Lu! Our laboratory sent someone to cern to learn your data analysis method, but unfortunately I was doing observations in Antarctica at that time, and I did not catch up; your method has been very helpful to our results this time. , I wanted to thank you! I did not expect you to take the initiative to come over! “There was a long list up there.

“Professor Chang, I have read the article you gave Dr. Evans. Congratulations on making such a great discovery! This research on dark matter ...” Lv Qiu Jian is also a series of good words, the two sides touted each other. Fan quickly entered the topic, “I took the liberty to call this time with a relentless request. I am also doing research on dark matter recently. Your discovery has greatly promoted my research, so if Can you give me a copy of your data if it is convenient! “

“Of course, if there is a result by then, can it be counted as a cooperation between us! I will show you the article before submission! I will send it out after your review!” Lu Qiu Jian also did not forget Give some benefits to others. After all, these data are collected by others with great pains. If they agree with them for no reason, they will have some pimples even if they agree. They simply put forward this mutually beneficial solution.

“How am I so embarrassed!” The two sides made some concessions, and the other side finally agreed, “But with your article, it is estimated that the funding for next year is much better to apply for! You also know that we are pure basic research, There is no hematopoietic function by itself. You can only rely on funding! Your status in the domestic academic community is much higher than ours. With your name, we are a big advantage! “Despite the current” nature “, next year’s There will be no major problems in funding. But it ’s always good to have more!

The two sides soon agreed on the key to cooperation. The Purple Astronomical Observatory Space Astronomy Laboratory will transmit the data later, and also send the original analysis data before them, which also saves Lu Qiu Jian a lot of effort.

So next time Lv Qiujian became very busy again, browsing the latest articles in related fields for three hours every day. Three hours to assist Dr. Evans to deal with the various problems that occurred during the current experiment, three hours to complete the tasks assigned by Professor Xuft, five hours to prepare a dark matter experiment plan and to deduce the possibility of the experiment process based on the plan developed by himself. What happened, processed the data sent from the Space Astronomy Laboratory of the Purple Mountain Observatory in five hours; in addition, he had to eat and rest, and exercise. If he now only needs a little sleep every day, he can recover his spirits and change to ordinary people. Can withstand such intensive work.

Not to mention the work mentioned above, there are often colleagues from the industry exchange his latest articles and new articles from Professor Dietrich and the Purple Astronomical Observatory Space Astronomy Laboratory! Lu Qiujian pays more attention to this than routine work. Only by persuading them to arouse the industry's approval will his trial plan be carried out smoothly.

Fortunately, these jobs have not been done in vain. Through their unremitting efforts, the opinions of several big men in the circle have been slightly loosened. Perhaps after a period of time, when their results come out, they may turn into support. I have planned my own experiment!

After dark and busy for many days, Lv Qiujian's work finally had some initial results. He stretched out and picked up the mobile phone that had not been moved on the table for a long time. Power off automatically! Well, there seems to be something very important that I forgot to do?

Chapter 305 - Flight delay

After the phone was charged a little, I received a call from Magath immediately after turning on the phone, "Lv! Where are you now? How has the phone been turned off? Have you come to Istanbul? We just arrived from the airport to the hotel? When can you contact us? And will?"

"Well, I'm still in Geneva. △" Lu Qiujian scratched his head a little embarrassedly, it turned out that he forgot the Champions League final! "It's been too busy lately, and my phone has run out of electricity until now!"

"The competition will start the day after tomorrow. Can you take a flight to Istanbul today?" Magath couldn't help but blame him for not keeping in touch, "I will arrange the staff to book tickets for you and pick you up at the airport!"

"I'm afraid I can't do it today! I still have a lot of work to do here!" The experimental plan is at least more than a day. It must be handed to Dr. Evans before going to Istanbul. Otherwise, if I go to Istanbul, I must still be with Bayern. Back to Germany to participate in the final game of the season-the final of the German Cup, Schalke 04 is not a team that has always been a good match.

There must be a grand celebration after these two games. If you want to show up on one or two sides, this time will be delayed.

Magath almost scolded her when she heard this, what could be more important than the final of the Champions League? Put it on other players, even if they are injured, as long as they can play, they must climb onto the lawn! But this player is so special, Magath asked depressively, “When can you come the soonest?”

“The day after tomorrow!” Lu Qiuqian replied while searching for flight information, “I saw a flight from Geneva to Istanbul the day after tomorrow morning! I arrived in Istanbul in the morning, and I went with you for the last training for the venue at noon. Then take part in the game directly at night! This also saves the time difference, if you go tomorrow night, the effect may not be better! “

“Can’t work be pushed back two days?” Magath got a negative answer, of course, and think about the fact that Lu Qiuqian’s attendance rate was not high before, but he seemed to have done everything he promised, so he had to. Agree to come down. “Well, I will arrange someone to book your ticket for you! Club staff will always be waiting for you at the airport! I hope this flight will arrive on time!”

Hanging up the phone, Magath immediately found Beckenbauer and asked him to help the Istanbul police. Although Lu Qiuqian would arrive in Istanbul early in the morning, there is still a long way to go from the airport to the venue of the game! What if there is a traffic jam in the middle? If he can get him to the team sooner, he can feel at ease.

Putting down other tasks at hand, preparing the experimental plan with all my strength, after a day and a half of hard work, I finally handed over the plan to Dr. Evans the night before leaving. “These will be given to you. If there is any problem, I will We will discuss again after coming back! “

“Lu, I wish you good luck in the game, and I will cheer for you in front of the TV!” Dr. Evans made a cheering gesture with a fist, and then the colleagues in the laboratory also sent blessings, Lafayette even more. It was an exaggerated wearing a Bayern jersey, with the number of Lu Qiuqian imprinted behind him.

“Remember to bring the trophy of the European Champions Cup back to us!” Someone cheered, “Maybe we might consider getting some raw materials from the trophy for a collision test, maybe there will be unexpected surprises!”

“Haha. As long as you can persuade Dr. Evans, I don’t think UEFA will have much opinion!” Lu Qiuqian looked at the black line of Dr. Evans and said with a smile.

After the trouble, Lu Qiujiang returned to the room for a beautiful night's rest, and took a car to the Geneva International Airport early the next morning.

"Mr. Coach. You can rest assured that I have arrived at the airport and will take off in half an hour. It only takes three hours to fly. You can see me at the Atatürk Olympic Stadium!" Lu Qiujiang did not forget to make a phone call to reassure Magath.

"That's good, I have arranged for the staff to go to the airport! He will wait for you at the exit!" Magath finally breathed a sigh of relief. He was very worried about Lu Qiujiang's indulgence in scientific research and forgot about today's game. Although this kind of thing hasn't happened before, he's afraid of it in case!

Hang up the phone Magath drew a cross on his chest, secretly prayed, God bless, hope that Lu Qiujiang's flight can arrive on time.

However. Magath seems to have forgotten that he is now in Istanbul; since Constantinople was captured by the Ottoman Empire in 1453 and renamed Istanbul, the glory of God will never shine here again! He is praying to God here, I am afraid he can only receive feedback that the user you dialed is not in the service area.

Not only did his prayers not help Lu Qiujiang, but it seemed that he might have angered the host here, making Lu Qiujiang's itinerary even more difficult. First, after boarding the plane, a fellow passenger suddenly became ill and put him on the runway. The taxiing plane dragged back stiffly.

Waited for some proper disposal, and it took more than an hour to start taking off again; Lu Qiujiang thought it was just a small episode, who knows that even more unlucky things are still to come!

It took about an hour to fly in the air. The air crew's sorry voice came from the radio, "Ladies and gentlemen, I regret to inform everyone that because of the bad weather over the Mediterranean Sea, this flight will go first. Landed in Milan, Italy, and waited for the weather to improve before taking off, which brought us inconvenience. "

Lying in bed, Lu Qiujiang thought, the Nima competition is going to be held in Istanbul, but you left me in Milan. Is this going to copy Milan's back? Even if I go alone and abuse the Milan youth team, I can't change the score of the Champions League final! Lu Qiujiang now regrets that it is too late to know that it would be better to leave last night 1

After landing, Lu Qiujian called Magat the first time and reported the news to him. Magat wanted to drive to Milan and pick up Lu Qiujian.

Inquired about other modes of transportation, and found that only waiting for the flight to take off again was the fastest. Fortunately, Lu Qiujian got the latest news. The bad weather over the Mediterranean Sea seems to have improved.

“I will now go to the chairman of the Turkish Football Association!” Bekenbauer also acted immediately after receiving the news, and now must earn every minute of precious time!

Chapter 306 - Absent in the first half

()

While Lu Qiujian was waiting anxiously at Milan Airport, Qin Feng had just concluded an important meeting. Wang Yang came out of the meeting room and immediately greeted him, “Boss, Chief Tao has just called!”

“Well!” Qin Feng immediately answered the phone and called back. At this time, he must have found Lu Qiujian himself! There seemed to be waiting for his call back, and the phone was picked up as soon as the phone rang. “Hello Secretary Qin, this is Xiao Tao! Is it convenient for you to speak over there?”

Qin Feng took two steps with the phone and confirmed that no one could hear his voice before saying, “Well, okay, did the information I gave you last time have results?”

“Yes!” Director Tao said with restrained excitement. “Professor Yang has conducted several tests and the new technology can increase the original output by more than two times! This has great impact on China’s nuclear fusion career. Promoting effect! I said Secretary Qin, which academician’s achievement is this? I wonder if he can be invited to have some exchanges with the experts in the ministry recently! What is new in nuclear fusion technology? Can you talk about ideas too? “

“He is not an academician at present!” Qin Feng regretted that Lu Qiujian would not be able to return to China for more than a year! I’m afraid I can’t communicate with them in a short time. “It’s not convenient to show up in public recently, so wait for this matter!”

“Ah ?!” Secretary Tao was very depressed by the news, watching a huge achievement defeated in front of him, but Qin Feng told him that the most crucial person in this matter could not appear! For a moment, he guessed, “Which one is not from our country?”

“This person’s situation is very delicate at the moment, and I can’t disclose his identity for the time being! But I promise that I will accompany him to the Ministry of Science and Technology as soon as the time is up! According to my previous conversation with him, it seems that he is in controllable nuclear fusion. The breakthrough in fusion is far more than that!” Qin Feng said slowly.

“Okay, I get it!” Chief Tao still asked a little unwillingly, “So, what else can I do now?”

“I want to include this project when the next conference considers the next five-year plan! A large amount of funds will be allocated by the state to invest in this research!” Research on controllable nuclear fusion will inevitably require a lot of funds, A large number of researchers, these things have to go ahead of the process. It is not something that can be decided overnight. Qin Feng now plans to do some preparatory work, “I need you to prepare some materials for me from a professional perspective!”

“It’s a little early to start investing a lot of money in this research now?” Director Tao couldn’t help but be amazed. After all, he was born in the Ministry of Science and Technology. After Qin Feng visited him, he had an in-depth understanding of the research progress of international controlled nuclear fusion, and deeply understood the difficulty of this work. According to the popular international saying, controlled nuclear fusion may reach 50. Years later, you can see the hope of turning to an application.

“It’s time to wait!” Qin Feng sighed. “Do you know what our country’s total oil imports were last year? Do you know that coal-fired power generation. How much has the country’s air pollution increased in recent years? Plus the international situation The reason is that our country’s energy problems are becoming more and more serious. If we can make breakthroughs in these areas, these problems will be solved! So we are investing now only too late, not too early!”

“Such a large project must have detailed expert demonstrations, and must have the professional ability and prestige to be able to lead the leaders to lead! IMHO, although our country’s current controllable nuclear fusion technology can rank among the world’s first-class, but There is no academic leader who meets this requirement! “Secretary Tao Tao politely persuaded, and also had the meaning of trying to find out the identity of the person who gave him the information from Qin Feng.

“Let’s do our job first, let him persuade those experts!” To be honest, Qin Feng is not very sure. Lu Qiuqian has already demonstrated his strength in the fields of mathematics and high-energy physics. However, in addition to the information given last time, he did not know how many cards Lü Qiuqian had in the controllable nuclear fusion.

After chatting for a while, Qin Feng looked at the date on his watch and beckoned Wang Yang, “Xiao Wang! Is it time for the European Championship final tonight?”

“Yes, the official start at 3:45 this morning, I believe that Dr. Lu will certainly help Bayern defeat Milan to win the championship!” Wang Yang certainly knows the purpose of Qin Feng’s question.

“I’m going to sleep for a while, and you have to rest. Wait until the game starts to wake me up! This is the first time our Chinese players are standing on the highest level of the world football game. I must watch the live broadcast! Qin Feng said excitedly. Although he is a fan, because of his busy work, there are not many opportunities to watch the live game, but if he missed the game tonight. I’m afraid I will regret it very much, right?

“Okay, let’s go to rest first. I’ll prepare some beer, peanuts or something!” Wang Yang actually wanted to watch this game, but now it’s just right.

They were on a business trip today. The receptionist arranged for Qin Feng a suite. After Wang Yang bought something, he returned to the suite and set an alarm clock and squinted.

Three o’clock in the morning Beijing time. Wang Yang got up from the bed, washed his face first, and then went to the living room to clean up the things needed to watch the ball. It was already 3:30, and I just wanted to knock on the door of Qin Feng’s bedroom Who Knowing that Qin Feng had opened the door in pajamas and came out!

Wang Yang handed a can of beer to him, and then smiled while turning on the TV, “Boss, you haven’t watched the ball for a few months!”

“I still want to watch the last game of the Bundesliga! But I couldn’t get away from the meeting that day! But this time ...” Qin Feng was stunned when he saw the big list displayed on the screen. Didn’t see Lu Qiujiang’s name?

“.. I regret to inform you that Lu Qiujiang was carrying out a very important scientific research work at the European Nuclear Research Center before the game. He had planned to arrive in Geneva on the earliest flight today, but it was caused by bad weather over the Mediterranean Sea. The flight was delayed! So he probably couldn’t keep up with the first half of the game. “Huang Daxian said regretfully on TV.

“According to the latest news, the flight taken by Lu Qiu Jian has taken off from Milan International Airport for some time! I hope he can arrive in time; we can see from the large list that we received, although Lu Qiu Jian has not yet arrived Stadium, but Magath still listed him on the bench! “Tao Wei added.

Chapter 307 - Bayern crash

Hey, Qin Feng's depressed tongue, if Lu Qiu Jian starts, he will definitely insist on seeing the end of the game, but if Lu Qiu Jian is destined not to debut, then he will go back to rest, his daily work but The row is full, if you have to watch Lu Qiu Jian, he will never get up at this time. But now the commentator of the court station told him such a result, this is to make him a little difficult, let's see, if Lu Qiu Jian did not appear until the end of the game, wouldn't he be depressed? Don't see it, what if Lu Qiu Jian suddenly came off the bench?

More depressing than him are head coach Magath, the Big Three of Bayern, Beckenbauer, Rummenigge and Hernes, as well as thousands of Bayern fans on the scene and in front of the TV! The game is about to start, but the strongest general in his own phalanx cannot play, which is really terrible!

“.. The airport said that Lu's flight has entered Turkey! I have arranged everything. As soon as Lu's flight landed, our staff will take him to the stadium immediately!” Beckenbauer looked solemn Said to Magath, he knew that this accident would be a great blow to the morale of Bayern players.

“I'm going to the locker room! Bayern is the top giant in Europe even without Lu! We are confident of defeating Milan!” Magath is cheering himself up. He knows that if he is worried, the hearts of the players will be even worse. Now! Having said that, this season Kaka and Shevchenko are in very good condition. Bayern's backline may not be able to lock them all in the game. For players of this level, as long as he is given a chance, He can complete lore.

Beckenbauer nodded and went back to his box; Magath adjusted his mentality and pushed open the door of the locker room. When he had gone, he felt that today's atmosphere is very different from that of the past; Ze-Ro Berto, Kahn and others also lost their words. When everyone saw him coming in, they looked straight behind him and saw that Lu Qiu Jian did not appear behind him. Morale fell again.

“I believe everyone knows that due to the bad weather in the middle of the route. Lu's flight was delayed! Although according to the latest news he has entered Turkey, it is not easy to say whether he can catch up with the game! So we have to do well in the absence of Lu. Prepare! “Magath said these words to them in the morning, but at that time they all thought that Lu Qiu Jian would arrive in time. Now he really wants to miss the game, and everyone can't accept it.

“Oliver and Michael, this is not the first time you have participated in the final of the European Champions Cup. Do you still want to win a runner-up again?” Magath first named the two core names of the team. In the Champions League final of the 99 season, Manchester United was reversed in the last five minutes. Barak was killed by Zidane in the final of the 02 season. They all left a lifetime of unforgettable regret in the Champions League final, and this opportunity was placed before them again!

“No! I came to Istanbul this time to win the championship!” Kahn shouted.

“My runner-up is enough, this time let Kaka!” Barak said pretendingly.

“What are you waiting for?” Magath slammed against the tactical board. “All give me a spirit, won’t you play without Lu your sister! Take your strength and defeat Milan ! Take the trophy back to Munich! “

Magath’s encouragement finally restored the morale of the Bayern players. After the last tactical point of the game, they walked out of the player channel under the leadership of Kahn. The game is about to start.

“They are still a little bit uncomfortable!” Assistant coach Eich Cohen whispered to Magath whispering after seeing the players on the court warming up constantly making mistakes.

“Wait twenty minutes before the end of the game!” Lv Qiuqian’s absence, Magath has changed his tactics. Bayern players are required to stabilize their defense in the first 20 minutes and not to rush to attack. After 20 minutes, they should also adapt to the atmosphere of the game and forget about Lu Qiuqian’s things. Only then is the time to officially start the decisive battle.

Eichcorn nodded and said nothing, but he knew that if Milan scored the first goal in the first 20 minutes, Bayern’s next game would be difficult to play.

Didn’t Lu rush to the stadium? Brian May in the stands and Queen ’s drummer Roger Taylor closed their brows and looked at the lineup of Bayern players posing in the field; although UEFA has prepared boxes for them, they prefer to watch the game in the stands. Thinking about celebrating with Bayern fans. But now it looks a bit bad!

Guess the coin and choose the side, the two sides will open their positions in their own half. With the referee Mejuto Gonzalez whistle, the final of the 04-05 UEFA Champions League officially started!

Today Kaka seems extremely excited. At the opening, he used his good dribble to attack the Bayern defense. Kaka was like Zhao Zilong in front of the long board slope. In the enemy, the middle and long drives were unstoppable, forced by Bayern's left back Lizzara. Zu had to use a foul to bring him down, and the referee took a free kick.

If Lv Qiujian sees the next scene, he may have a feeling of why history is so similar? The free kick kicked out and scored a few games. Milan captain Maldini scored a goal and volleyed into the net twelve meters in front of the goal. Milan had scored less than two minutes after the game started. Lead.

This goal seemed to dissipate the magnificent point that Magath finally mobilized. Then the Bayern players were in chaos, and the Milan players stirred up Bayern's back line by seven. Everywhere, fortunately, Milan's forwards didn't seem to expect the opportunity to come so easily. Successive mistakes did not allow the score to expand.

However, such good luck will not always be attached to Bayern. After thirty minutes into the game, Crespo stood up. He seized the opportunity to break through Kahn's door twice and rewritten the score to 3-0.

Is the game going to end like this? Fans of Bayern looked at each other silently, and some of them were fragile and even cried. Before the game, they were very much looking forward to Bayern's achievements in the Triple Crown this year.

I don't know what expression Beckenbauer is now! The reporters on the side of the court unconsciously set their sights on the box with the best view on the stands, but they did not find Beckenbauer.

Ok? Where did Beckenbauer go? The reporters were puzzled.

Chapter 308 - From the sky

Perhaps three goals have made Milan feel that the winning ticket is in hand. In the last few minutes of the first half, they became a bit lazy and did not pursue Bayern in a fierce pursuit, which made Bayern's goal not to lose again.

The players went back to the locker room, and the fans on the field were divided into two extremes. The fans of Bayern were silent, watching the huge 3-0 score on the big screen; the fans of Milan were happy. Singing and dancing, as if they had won the trophy.

In the Fan Forum of China, in addition to some Milanese fans celebrating, most of the fans were in a depression. Lu Qiu Jian was scolded by the airline to which the flight belonged.

Outside the Istanbul Ataturk Olympic Stadium, those fans who could not buy tickets split into two sets sitting in front of the big screen and waited for the second half of the game to restart. Bayern fans prayed for a miracle in the second half, while Milan fans want the game to end now, but in their view Bayern can no longer have a chance.

“Hey, it would be nice if Lu Zai, he would never have such a crash in us!” A fan wearing a Bayern No. 27 jersey said frustratedly.

“Don’t blame ***** airlines!” His partner echoed, and the reason why Lu Qiu Jian missed the first half of the game has been spread among the fans.

“You said, can Lu catch up with the second half of the game?” Some people asked unswervingly.

“I don’t know, will he show it on the big screen if he plays?” Fans on the 27th answered unsurely, maybe they were too tired to sit for too long. He stood up and moved his hands and feet, looking around subconsciously. Then, suddenly he seemed to find something and shouted, “Franz! How did Franz get out of the court!”

“What!” The fans who heard around stood up in unison and looked in the direction of the number 27 fan’s finger, only to see Beckenbauer hurried out of the stadium, accompanied by a group of policemen. Stopped in the open space, and then the police began to spread out. Clear the fans out of this open space.

“What is this for?” The fans on the 27th seemed to have rekindled hope, and the heartbeat thumped began to accelerate. At such an important moment, he was not here but on the scene. Must something happen?

“Look there!” A small fan next to the sky shouted loudly, and saw a helicopter painted with the Turkish police logo flying in here, looking at his flight line, the target seemed to be Beckenbauer. The open space where Seoul is located.

Helicopter winds upset their hair, but these fans not only did not escape. Instead, he moved forward for a while. Was it the person they were expecting on the helicopter? They held their breath and stared at the door of the helicopter.

The helicopter finally landed on the open ground, the hatch opened, and Lu Qiujiang jumped out of the helicopter; all Bayern fans cheered in unison, "Lu! Lu! Lu! .."

Lu Qiujiang hurriedly waved around to respond to the fans, and immediately ran to Beckenbauer. "I didn't seem to hear our situation on the helicopter? But it's okay. Forty-five minutes!"

"Your body is okay?" Beckenbauer carefully looked around, and did not find any problems before pulling Lu Qiujiang to his side. "This is Mr. Urusoy, the chairman of the Turkish Football Association! It was not if he helped me. No helicopters can be found! "

"Thank you. Sir!" Lu Qiujiang quickly went up to shake hands and thanked him. If it was not a helicopter but a car, wait for him to arrive at the stadium. Maybe the game will be over already?

"It's okay, to facilitate the game is what the Turkish Football Association should do!" Urusoy said with restraint. At the same time, he did not forget that the second half of the game was about to start. "Then let's go in quickly!" Led again to the stadium.

"We still have a chance!" Fan No. 27 shouted excitedly, clutching the shoulder of a female fan beside him.

"Yes, yes! We still have a chance! Lu will definitely lead us to win!" The female fan did not know him before, but at the moment he was not angry because of his abruptness, but offered a warm hug response Road.

The cheers outside the field also reached the stadium. The fans on both sides were a little puzzled. What happened outside?

".. Listen to the cheers next door! Just now I was told that Shevchenko has started champagne to celebrate! Do you want to return to Munich with such shame!" When Lu Qiujiang walked to the locker room door , Just heard Magath's roar!

Bang Bang Bang! The furious Magath heard the knock on the door, but by this time he had been stunned by anger. Ignored at all, but people outside the door seemed to insist very much and kept knocking.

“Felix, it’s me!” Beckenbauer’s voice came from outside the door, and Eich Cohen seemed to think of something, and quickly opened the door.

“Lu!” When I saw the man at the door. The Bayern players who were scolded by Magath and looked up seemed to see hope and stood up in full shouts.

“Guys! I’m sorry, all this is my fault! I should have come earlier, otherwise it would not have such a big impact on your psychology!” Lu Qiu Jian sincerely apologized as soon as he came in, “but now Is n’t it too late? Forty-five minutes of the game Everything is possible! “

“You guys!” Kahn hit her shoulders with a punch, said fiercely, “If you can’t score three goals in the second half, we will throw you into the Mediterranean!” The atmosphere in the locker room was instantly relaxed. less.

The second half of the game is about to begin. Shevchenko and other Milan players find that the mental state of the Bayern players who have walked out of the player channel with them seems to have changed dramatically. Is it all because of that person? Kaka set his sights on Lu Qiu Jian!

“Lv! It’s Lv! He rushed to the stadium!” The Bayern fans in the stands found Lv Qiu Jian in the Bayern team and couldn’t help shouting excitedly. After a while, the cheering of “Lv! Lv!” The whole grandstand!

“We saw that Lu Qiu Jian was already warming up! Bayern still have a chance!” Huang Daxian, who had been silent for the entire half, suddenly became excited!

The news also began to slaughter on major domestic fan forums. The fans cheered up and looked forward to the second half of the game.

“Boss, Lu Qiu Jian is here! Do you want to see?” Wang Yang knocked on Qin Feng’s door.

Bayern fans, Hua Guo fans, and people like Qin Feng who are concerned about Lu Qiu Jian, are looking forward to what kind of miracle Lu Qiu Jian will create in the second half! To be continued.

Chapter 309 - Istanbul miracle

However, it is depressing to all the people who support Lv Qiu Jian that the kick-off right in the second half is in Milan. They will not wait until the game is interrupted to see Lv Qiu Jian appear, and the Milan players do not seem to make them wish. After the start of the second half, he has been passing the ball in the back field and refused to attack.

Barack and others have repeatedly robbed, but Milan is also a rich team. Although the passing technique does not need to be Barcelona, but not a few of them can grab it, Bayern dare not invest too much force in the frontcourt, In case Milan strikes back, it will be bad.

Seeing Seedorf once again pass the ball to Pirlo, the veteran Sauer who had just chased beside him was ruthless and cleanly pushed Seedorf to the ground without the ball.

The referee blew a whistle and showed a yellow card to Sauer without hesitation; Sauer did not step forward to distinguish, but smiled and shook his head to the side of the court. Just now in the locker room Magat had announced that the second half would be Lu Qiujian replaced him to play; this is also my contribution in this game! Sauer returned to the bench after the fans cheered and Lv Qiujian high-five.

“Good job, Melmut!” Magath also praised his decisive foul. Now Lv Qiujian hopes Bayern will equalize one more minute in the morning. “Now you have a good rest, the game will be paid. Give them well! “

Sauer nodded silently, took over the mineral water passed by Schweinsteiger, and hoped that my foul would play a role.

Lv Qiujian came on the court, and the spirit of the Bayern players has changed dramatically. The midfielder decisively pressed forward and launched a snatch. The ball was successfully intercepted from the foot of Gattuso and a wave of attack was launched.

Barak passes the ball to Ze Roberto on the side, Ze Roberto decisively breaks the ball, Gattuso wanted to foul, but the thought of Ancelotti’s fear of Lu Qiujian’s free kick before the game It was a little late and was crossed by Ze Roberto, but fortunately Maldini still kept his attention and blocked the ball from the bottom line. Bayern’s corner kick.

“Stam, you go to stare at Lucio; Nesta, you look at Mackay ...” Maldini commanded his teammates to watch the headers of Bayern.

“But Ivan’s height is a bit bigger than Lu’s difference? Wouldn’t it be a problem if he stared at Lu?” Goalkeeper Dida looked at Gattuso beside Lu Qiujian and asked.

“It doesn’t matter, Lu has never used headers in previous games. He mainly relies on his feet to score, and Ivan has no problem defending him!” Maldini said firmly.

Flins took a corner kick, and the football flew into the center with a strong internal rotation. At the moment when the football took off, Lu Qiuqian had already judged its landing point. Two steps away, Gattuso jumped high in the direction of the football, the waist and abdomen shook his head violently, the football flew into the goal like a cannonball, and the distance was too close. No response.

A glance at Lu Qiuqian surrounded by Barak and others. Depressed Dida kicked the ball on the net with a big foot and stared at Maldini with his hips, who just said that this product would not Heading? The height, timing, heading angle and strength of Nima’s jump just now are stronger than that of Billhof and Klose. You even said that such a person will not header!

“Haha. Didn’t you say you were afraid that the header would affect your brain!” Kahn ran up from the backcourt and rubbed Lu Qiuqian’s hair excitedly.

“There may be some problems with more times, but it is not to say that occasionally it will not work once or twice! It is better to put this key method in an important game!” Lv Qiuqian was secret, if he showed it before In view of the strength of the header, it was empty. Just now, it was Nesta who was defending beside him. It is much harder to throw off his header than facing Gattuso.

“It’s still two goals short, let’s seize the time!” Ballack celebrated a little and ran to Milan’s goal to pick up the football and ran to the middle ring to put it away.

Lv Qiuqian pulled back a goal as soon as he played, and the morale of the Bayern players rose suddenly. In contrast, Milan seemed to be stunned by this ball, and some wanted to defend for a while. Others want to score another goal, the tactical thinking is not unified, there is often a disconnect in Milan.

Lv Qiuqian took the ball again to get rid of Gattuso’s defensive midfielder; to say that the most depressed player on the field is Gattuso. He has always been known for his abundant physical strength and fierce defense. It is his opponent who usually has a headache on the weekdays, but since Lu Qiuqian’s appearance, his role has fallen sharply. There is such a free kick master who always hesitates when he wants to foul, so he will be regarded as a breakthrough by Bayern. the key of.

Fifteen minutes from the second half, Lu Qiuqian threw off the defense of Gattuso, Pirlo and Nesta in the front of the penalty area. A free shot from an empty space was vigorously fired, and the ball

landed and flicked to deflect Dida's defense and flew into the goal again! Bayern is only one goal away! With this goal, Lv Qiujiang also tied Manchester United's Van Nistelrooy and his teammate Ma Kai with eight goals and tied for the top of the UEFA Champions League scorer list.

"There are still thirty minutes, let's end the game in ninety minutes!" Lu Qiujiang greeted his teammates with boldness, and the singing of the Bayern fans in the stands became louder, and the excitement was a half. Milan fans on the field turned silent.

Ancelotti on the coach's seat is a little bit confused. How come the great situation became so precarious so quickly? Do you want to change now? But who is better? He watched Thomason, Serginho and others on the bench unsure.

Magath was exceptionally decisive. Seeing that the situation was just right, he greeted Deisler to warm up and turned to replace Flins with him to strengthen the offensive.

Deisler played well after playing, and succeeded in a series of breakthroughs; in the thirty-second minute of the game, he used his skillful dribbling technique to play with the depressed Gattuso again. Gattuso's mind was broken by successive breakthroughs, Days Le just flashed past him and a tackle left him.

There is no doubt that this is a foul that will result in a yellow card. Gonzalez awarded a free kick after showing the yellow card; watching Lu Qiujiang standing behind the football, all the players in Milan returned to their own half and began to build a human wall.

The referee whistled, and Dida stared nervously at Lu Qiujiang. According to his judgment, the position of this ball was best for the top right corner of the goal; I saw Lu Qiujiang kicked the ball with a big foot, and the football scored a wonderful The arc of the plane flew over the wall of the person, but did not fly to the goal, but to the point after entering.

Maka, who had already ambushed here, easily stopped the ball and volleyed into the empty goal; Milan's players all went to the wall, and there was too much empty in the penalty area.

Who said my free kick will definitely shoot directly? Lv Qiujiang smiled and looked at the 3 to 3 score on the big screen!

Chapter 310 - Three crowns

The huge advantage of the three goals was exhausted in thirty minutes. The Milan players were finally inspired by a trace of blood. Maldini tried his best to block Deisler and shouted, "Hold on!

The draw will remain until the end of the game! “Milan’s substitution quota is still useless. At that time, it will be replaced by three fresh troops. It is still unknown who will die.

“Lv Qiujian has created a miracle tonight! Under his leadership Bayern Munich has pulled back the huge disadvantage of three goals in just thirty minutes; now there are about fifteen minutes left in the injury time. Can’t beat Milan with Bayern Munich and win the Champions League trophy! Let’s wait and see! “Huang Daxian’s voice is hoarse, he just yelled at Lu Qiujian.

The last fifteen minutes became the most intense moment of the game. Milan players launched a fierce press against Lu Qiujian near the middle circle. The newly replaced Serginho directly faced his ankle. It’s just a tackle. If Lu Qiujian didn’t respond well and jumped fast, it might be a bit hurt.

Qin Feng, who looked at the “sigh ~”, was frightened, and if Lu Qiu was built into the hospital and could not return to China, how would the successor plan for controlled nuclear fusion be carried out? He also wanted to talk to him again when Lu Qiujian returned to China during the intermittent season!

“What’s the yellow card! The foot just now was definitely a dangerous move, and the red card should be shown to drive him out of the game!” Wang Yang on the side seemed to forget who he was watching the ball with and couldn’t help complaining. .

Hey, the distance of this free kick is really a bit far, it is not very likely to directly attack the goal! Lu Qiujian passed the ball to Barak with a light kick, and ran a few steps forward to lead off the welcoming Seedorf and opened a breakthrough for Barakla.

The game continued until the eighty-eighth minute, Bayern Munich’s successive offensive finally achieved another result. After Barak broke through, he passed the ball to Deisler in the right corner of the penalty area. Deisler’s toe took the ball to the card. Ma Kai in a good position, Ma Kai escaped Nesta’s let go is a volley.

Nesta deserves to be the world’s top center defender, Ma Kai in order to avoid his defense. The distance of pulling the ball is a little bit bigger, this shot has not much angle, Dida is saved.

Not waiting for the players in Milan to relax, Lv Qiujian appeared like a ghost in the football landing. Stretching out toes and poke gently, the football fell to the net, Bayern Munich took the lead for the first time in the game.

This goal completely shattered Milan's hopes. In the last five minutes of the game they failed to organize even an effective attack, with the referee Gonzalez whistle. Bayern Munich eventually defeated Milan 4-3, winning the 50th European Championship.

Kaka stared blankly at Kahn and Barak, who was excited and crying, and did n't know what it was like. At this time, a strange voice said to him in Portuguese, "Hey, do n't be depressed, you are still young, the future There are opportunities! "

He looked back, it turned out to be Lu Qiuqian, "Thank you. If you will meet you in the UEFA Champions League next year, we will definitely win us!" Kaka's eyes showed a stubborn look.

"Come on, the future belongs to you!" Lu Qiuqian waved his hand and joined the celebration team of Bayern!

"Brian, let's go! We should prepare too!" Roger Taylor got up and said to Brian May, the two squeezed out of the cheering Bayern fans and walked to the backstage arranged by the organizing committee for them .

The staff quickly arranged the venue for the awards and received all kinds of audio equipment. Brian May, who was almost 60 years old, debuted with the guitar and started singing "We Are" with tens of thousands of Bayern fans on the scene. champion".

Milan players were lonely after receiving the runner-up medal. The players of Bayern 's turn finally played, and Lu Qiuqian followed Kahn on the podium. "Congratulations, Lu. Your performance on the court is excellent! Of course, it 's even better if you can participate in more games. Alright! "Said UEFA President Pradini, holding his hand after awarding him a medal.

Platini now likes Lu Qiuqian very much, and he has excellent ball skills. Not only are there no negative news such as clubbing and gossip, but also huge academic achievements, not to mention the huge Chinese country behind him. Market! Such a player is really the gospel of the Champions League!

"Lv, come on!" Finished the medal. The players were around the trophy. Under the persuasion of Kahn and others, Lu Qiuqian first raised the trophy high above his head. The entire Istanbul Atatürk Olympic Stadium became a sea of joy for Bayern fans.

Congratulations posts on domestic forums suddenly flew, and the posts that would express depression for the few Milan fans were drowned in the ocean.

Huang Daxian on the TV screen was so excited that he couldn't even say the words. Before this season, who would have thought that a Chinese player could lead the team to win the European Championship?

"This Xiao Lu! It's really good!" Qin Feng couldn't help but give a high praise. At the same time, he was also entangled in his heart. If he can join the Chinese football team, there will definitely be results for the national team. A huge boost, but it seems to be less important than controlled nuclear fusion!

The next day, the Bayern players who returned to Germany were warmly welcomed by the fans at Munich Airport, and countless fans shouted the name of Lu Qiujiang in unison! The miracle in Istanbul has made him one of the most popular players in the history of Bayern!

However, the carnival is not over. In the German Cup final four days later, Lu Qiujiang continued his excellent state. Two passes and one shot helped Bayern Munich beat Schalke by four goals and won Bayern Munich's first place in Bundesliga history. Once, the great honor of the European football team's fifth triple crown!

Prior to this, only 67 years of Celtic in Scotland, Ajax in the Netherlands in 72, Eindhoven in the Netherlands in 88 and Manchester United in 1999 have won the domestic competition in a season at the same time. The championship honors of the three major league matches, the Cup and the European Champions Cup; of which Manchester United won the honor in the 99-year defeat of Bayern in the final of the European Champions Cup, and now Bayern Munich also embodies this great achievement in the In the history of his own team.

The reason why Bayern Munich can achieve such great results is inseparable from their free signing Lu Qiujiang last year's preparatory period. For a time, the entire European football team was jealous of Bayern Munich's good luck!
