

## D. School 49

Chapter 49 - 1st nickname

“What did you learn?” This is the third point guard that Harvard has replaced in the first half. Their coaches can’t stand the performance of Elliott and Jason! Unfortunately, Lu Qiu Jian didn’t store this person’s information, so he asked.

“Chinese!” The answer of the unknown player almost made Lu Qiu Jian follow.

“Come on, I will teach you a tongue twister. Follow me and say, eat grapes without spitting grape skins, do not eat grapes but spit grape skins!” Fortunately, I can handle this too!

“Ah, eat cloth cover, don’t vomit cloth cover ... cloth cover skin! No later cloth cover ...”, the opponent followed Lv Qiu Jian in a daze and read it, another player fell into Lu Qiu Jian Of rubbish.

At the end of the first half, the score was 29:61, Princeton led the big score, Lu Qiu Jian scored two double figures before halftime, the Tigers players returned to the locker room with a happy mood.

“Are you going to play in the second half?”, Coach Thompson asked, he had thought that this game might win easily, but he didn’t expect it to be so easy.

“Let’s forget it!”, Lv Qiu Jian shook his head. Too weak opponents made him a little unrelenting. It might be better to take this opportunity to talk to Natalie!

“Ed, it’s up to you in the second half!” Thompson allowed them to play tricks after arranging the tactics in the second half in a few words.

“Hey, what did you say to Harvard’s children? See how they seem to be sucked away by the devil one by one!”, Patrice and others immediately gathered around, “Teach me quickly, I will also go in the second half Try it! “

“I just exchanged some professional questions with them!”, Lu Qiu Jian told the truth.

The whistle sounded in the second half. Patrice took Ed and other substitutes to fight on the field. Lu Qiujian sat leisurely under the field, turning back and forth from time to time to see Natalie 's direction. Withdrew, then quietly moved to the position behind Lu Qiujian.

He was about to say something to Natalie, but Jason-Norman came together, "Hello, just a little short time ago, can you tell me more about Luther Technology?"

"I just made a simple speculation about the data published by Luther Technology from a statistical point of view!", Lu Qiujian waved to Natalie apologetically, and then turned back to explain to Jason, "You Knowing that according to this Ford's law, in a bunch of naturally-derived data, the occurrence rate of numbers with 1 as the first digit is about 30.1% of the total, and 2 as the first digit is 17.6% of the total,

3 is the first figure of about 12.5% ... And the financial data released by Lex Luther last quarter obviously does not meet this law, which shows that he must have made a fake account! "

"Great!" Out of the professional qualities of business school students, Jason quickly made several plans to profit from this news, which will bring him huge wealth and endless scenery.

"Jason! It's your turn!" Harvard's coach is almost full of anger now, are you two doing the basics? Isn't chatting enough on the court still coming down?

"Can't you let Elliott play a little longer?" Compared with money and future, what is a game worth?

Jason Yiyi was reluctant to replace the game. Elliott came straight to Lu Qiujian and continued to discuss protein matters with him. The Harvard coach was completely helpless at this time.

Lü Qiujian was also helpless. He was lifting a stone and smashing his feet. Until the end of the game, he failed to take the time to chat with Natalie.

At the end of the game, Princeton won Harvard by as much as 40 points; the reporter on the sidelines could not wait to rush to Lv Qiujian as soon as he heard the whistle. From the situation on the court today, this guy must have done something unusual thing!

The reporters love this guy. As long as he is there, there will be no shortage of news; "Hey, Lu, what did you say to Elliott and Jason on the court today? It caused the two of them to play so badly today ! "

“Oh, let Elliott tell you!”, Lv Qiu Jian smiled and pushed Elliott to the front.

“Well, Lu and I discussed the problem of protein analysis, and his views are very inspiring to me!”, Elliott replied honestly like most scientists.

You mean Shenma? The reporters around were dizzy. I understood every word he said, but what does it mean to be connected? But it sounds very powerful.

“Can you explain to us?”, A reporter asked.

“Well, it is a frontier subject of biological research! Lu’s tips will allow me to make a major breakthrough in this research!”, Elliott explained patiently.

“Just because of this makes you completely stateless?”, The reporter did not understand.

They knew the value of this idea, and Elliott shook his head. “Compared with what Lu brought me, the outcome of the competition is totally worthless!”

“Jason, what did Lu say to you just now?” At this time, Jason also came!

“Sorry, This is a trade secret that cannot be revealed!” Jason of the Business School knows how to deal with reporters better than Elliott. He shook his finger exaggeratedly, “but I can disclose one sentence Lu’s hint may bring me a business opportunity worth tens of millions! “

Worth ten million! Relative to the unpredictable biology, the reporters quickly understood the meaning of the business opportunity worth tens of millions, and the enthusiasm to ask Jason was even higher. Unfortunately, Jason knows that this matter is related to his income and future. He can’t announce it now, and he has n’t taken out the truth from his mouth for a long time, but only knows Jason ’s keen insight into Lu Qiu ’s business. Li admire it very much.

After the reporters figured out what happened, they couldn’t help but stunned. Was Lu Qiu Jian not a student of the mathematics department? How could there be such in-depth research on biology and commerce?

The next day, “Global Daily” published a cartoon to describe today’s game process: Lu Qiujian stood on the podium and drew a complicated formula, and Elliott and Jason watched him intently below. He didn’t even realize he was hit by a basketball.

Then Lu Qiujian also had his first nickname on the basketball court-Professor! Seems to describe his knowledgeable knowledge.

“Can you tell me your mailbox and phone number?”, It was easy to send the reporter away, Lu Qiujian quickly came to Natalie’s side.

Natalie hesitated a little, and then spit out a series of numbers and letters. Lv Qiujian drew a circle in the ear with her finger. You still remember me! “

Well, I really can’t take the name, nor does Luther appear.
