Chapter 511 - Cameron's problem

“Why is she?” Lu Qiujian was a little bit unsettled. After she left Europe, she thought that the two would no longer meet. Unexpectedly, the coincidence of fate once again created the opportunity for the two to meet again.

“Because she is one of Hollywood’s few celebrities with both fame and education!” Jobs took it for granted. “Think about it, there are not many actresses in Hollywood that can match you with temperament. If you find one The simple silly white sweet girl, the difference between the hero and the hero is too big! “

“One of you is a Harvard graduate and the other is a Ph.D. from Princeton, both high-quality students in the Ivy League! And you have also made great achievements in your respective fields. You are in the top position in the football, basketball and science world And she is also a new darling of Hollywood; of course, it is a little regret that she has not won an Oscar, but this is because Oscar also needs qualifications; and her performance in “Star Wars” has gotten many young People’s love has a large number of fans all over the world! By joining the two of you in this commercial, you will definitely get great success! “Jobs said excitedly.

“So did she agree?” Well, what he said makes sense. I was speechless. If I persist, I am afraid it will cause others to doubt.

“No, we haven’t sent an invitation to her economic man! Didn’t you say that your casting was subject to your permission yesterday? So I’ll ask for your opinion first! If you don’t have an opinion, I will arrange someone to contact you! “Jobs asked back,” I think this is also a rare opportunity for her to enhance her influence! She will not refuse! “

This is indeed the case. The youngest Nobel Prize winner in history and the two gold medals of the Olympic Games have raised Lu Qiujian’s popularity to a very terrible level, and this time the advertisement was shot by a super brand like Apple. Anyone who participates in this project will make great progress in their careers. If the news is spread, I am afraid that the entire Hollywood will cause a sensation! Even Lu Qiujian couldn’t think of a reason why Natalie would refuse.

“Well, I don’t have any opinion about this person, you can ask her!” Lu Qiujian replied calmly, and the wonderful memories on the Ozark Plateau and Crete came to mind.

“Ok. Now it’s time for the next question!” He took a stack of printing paper from the table and looked over, “Is this the story I want to show Cameron?”

“Yes, this is the author of these novels Mr. Liu!” Lu Qiujian introduced Da Liu to Jobs, “Liu Gong. Jobs will hand over your work to James Cameron, and will try his best to convince Cameron Shoot your work! “

“Thank you very much, Mr. Jobs!” Da Liu felt like he was dreaming today. How can I a general engineer in a thermal power plant come to the big party of the world’s top IT companies? And both Bezos at Amazon and Jobs at Apple are interested in helping their work enter the US market. He now has two poems coming out of his head-life must be full of pride, so that Jinzun will not face the moon!

You have to say that it is morning and there is no moon yet, but in this case, how could he care about this problem! He was once again glad that he had switched jobs from a thermal power plant to Xihe Project. If it were not for this decision, I do n’t know how long it will take to wait for his work to be treated today.

“Although I haven’t read your book-of course I will take the time to read it carefully in the past two days! But since Professor Lu is so confident in your work, I believe Cameron will also be interested!” Jobs Looking at Da Liu curiously, I wonder why this author is favored by Lu Qiujian? Well, I must read this book well after going down.

“I will send the electronic version to your mailbox now! You can immediately forward it to Cameron!” Lu Qiujian took out his mobile phone and operated it. Send the translation to Jobs’ mailbox.

Lu Qiujian didn’t eat with them for lunch. These people were also busy getting contracts and negotiating with each other. Lu Qiujian also had to pay attention to the progress of the base’s work in the past few days, so it wasn’t until the evening that the following was revealed at the dinner.

“Very good novel! I almost missed the Archos meeting because of watching it!” Jobs expressed his appreciation for Da Liu’s work as soon as he met him, “especially the dark forest theory part, which perfectly explained Fei The rice paradox also gave me a chilling feeling, and I even began to wonder if it was a mistake for the country to launch the Voyager! “

Fermi Paradox is a question raised by Fermi, the Nobel Prize in Physics and the core figure of the Manhattan Project. In theory, humans can fly to the planets of the Milky Way in one million years, then. As long as aliens have evolved 1 million years earlier than humans, they should now be on

Earth, but humans have not yet found evidence of the existence of aliens; the dark forest theory in Da Liu 's novels is interpreted as various civilizations in the universe Because he was afraid of being destroyed, he hid himself So Jobs said he was worried that the human civilization information carried by the Voyager would expose the coordinates of the earth and would be destroyed.

“This is just a science fiction novel. It does not represent the facts!” Lu Qiujian persuaded, at least from the information revealed to him in 1a7488 in hibernation, this is not a true cosmic rule.

“Great story, although I haven’t read the full text yet, but I think Cameron has a great possibility to take over the script!” Jobs said firmly.

“Let us wait for the good news of Mr. Cameron!” Lu Qiujian raised his glass and touched him gently.

A week later, it was when these it companies participating in the auction were preparing to embark on their return journey. James Cameron also finished reading the novel that Jobs gave him, and put forward his own conditions.

“Cameron is very interested in adapting” Three Body “into a movie, but this novel seems to be not over yet? Then I told him that the third one is in the works.” Jobs said with a smile, he has not lost a few days Find Da Liu reminder.

“Oh? What conditions does he have?” Lu Qiujian asked.

“He asked a lot of questions, such as the rights of film and television adaptation, which Hollywood company to choose for cooperation, of course, the most important thing is the budget of this film? And he has the right to request the film without interference!” Jobs Recounted Cameron’s question.

Chapter 512 - Signing ceremony

“According to Mr. Liu’s plan, this story will be a trilogy. Mr. Cameron asked whether the total budget of the three parts is only the first one?” Lu Qiujian asked rhetorically.

“It’s just the first part. If the first part is unsuccessful, I don’t think there will be the last two!” Jobs said.

“I heard that the” Avatar “that Mr. Cameron just finished shooting cost 500 million yuan. I think the budget of our work will not be lower than this number!” Of course, the 500 million yuan not only

includes production costs, but also There is a lot of publicity and distribution expenses, “I will use the \$ 100 million you paid for by Apple Inc. to invest, and if necessary, I can also spend another \$ 100 million to \$ 200 million! Appropriate Hollywood companies cooperate, as to which one we can choose slowly next! “

“With regard to film and television adaptation rights, as far as I know, Mr. Liu has not sold the adaptation rights of” Three Body “, we can talk to him directly!” These problems have been solved, so only the last one is left, “As for the right to shoot without interference, it depends on how he plans to adapt the script! I need to review the script, and I will not interfere with his shooting after the review is completed!”

Lv Qiujian did not directly agree to his conditions, nor did he directly refuse, giving too much power. He was afraid that the movie would break away from the original intention of the novel. Too restricting Cameron would certainly not agree, so he chose this plan. .

“Well, I think I can notify Cameron to come to Chang’an!” Jobs thought a little, thinking that Lu Qiujian’s conditions were still relaxed, so he talked about another thing, “Yes, Natalie has already received After the contract was signed, the script was nearing completion. I do n’t think it would take long to start shooting! We also plan to start the pre-warning!

“At tomorrow’s signing ceremony, I will tell the reporters! But I don’t necessarily have time to participate in the publicity work later!” Lv Qiujian voted for Tao Li, and Jobs cooperated so hard, he did not hesitate to serve the other party. Increase a little exposure.

“That’s awesome!” Jobs knew that the global economic and IT media had gathered in Chang’an, and they were wandering around this hotel, not even letting the garbage out of the hotel every day. Trying to dig out some useful information from it. Tomorrow’s signing ceremony will undoubtedly become the biggest hot spot in the media in the near future. Lu Qiujian stated the advertising shooting plan on this occasion, and the benefits for Apple need not be said. It is definitely more useful than their piecemeal propaganda.

On the second day, in the largest hall of this hotel, journalists from all over the world and representatives of major companies gathered together. The large background wall in front of the hall attracted the big words “Signing Ceremony of Tablet PC Patent Transfer of Xi and Planning Project Department”. The attention of countless lenses.

At ten in the morning, the signing ceremony officially began. Qin Feng took the lead and released a warm speech. His heart is also extremely happy. The success of this by-product is destined to weaken their internal opposition to Xi and the plan. His future farming will be smoother.

The short speech came to an end after five minutes. Lu Qiuqian was the first person in charge of Xi and the plan to sit on the signing seat, and then other successful auction companies also prepared to sign on the stage in order of the company's initials. Jobs took the advantage of the company name and became the first representative to sign a contract with Lu Qiuqian.

Replaced several signature pens in a row. Signing his name on several documents, then the two stood up and clasped their hands together. Since then, Xi He plans to complete the patent transfer contract with Apple, and the reporters' flashlights almost opened their eyes.

"This time, Xihe Planning Project Department and Mi Apple have reached a cooperation agreement on the licensing of tablet computers in France, Mi ... and other markets. Apple will pay \$ 1.24 billion in cash to obtain patent authorization in the above markets. "After the signing, Lv Qiuqian made a brief summary; this figure caused a shock at the scene. Various rumored versions came out in the previous stage of the auction. Now when this number is finally exposed. Still beyond the expectations of all media, this is only the first cooperative unit! Let's take a look at Microsoft, Amazon, Google, Samsung, Sony, Weihua, Xingzhong, etc., who are in line behind, how much money Xihe plans to make this time!

"In addition, I have to announce a message!" Jobs took the lead. "Apple has reached an agreement with Professor Lu Qiuqian personally. Professor Lu Qiuqian and Hollywood actress Natalie Portman cooperated to shoot a photo for Apple. Advertisement video! "Jobston paused. It was only after the reporters' attention was focused on him that he slowly and vigorously said the following, "Apple will pay Professor Lu Qiuqian an after-tax advertising cost of 100 million dollars!"

"Huh " There was an exclamation immediately at the scene. The reporters on the scene were all well-informed. Although the patent transfer fees for tablet computers were exaggerated, they did not exceed their understanding. It was higher than this. The patent transfer fee is not without, but just to make an advertising short film for the male protagonist to pay 100 million US dollars in appearance fees, which made their minds a short circuit for a while!

Previously the most expensive advertising shooting cost was only 7.53 million for Britney Spears, now Lu Qiuqian's appearance fee is more than ten times more than that of Britney Spears Is Apple crazy?

"Mr. Jobs! Why did you pay such a huge fee!"

"Professor Lu, do you think you deserve this huge sum of money?"

“Mr. Jobs, since you are willing to pay Professor Lu 100 million dollars in playing fees, what is the playing fee for Natalie?”

For a while, the reporters at the scene did not care that they had not started to ask questions freely. They stood up and asked eagerly, and the scene suddenly became a mess.

“The script of the advertisement is currently in the works, but I can guarantee that this advertisement will be an epoch-making work!” Jobs was dark in his heart, this is what I want to achieve! Since then, with just a gimmick of \$ 100 million, everyone who knows this will look forward to Apple ’s advertising? “I think you can see Professor Lu and Miss Natalie on TV in about a month! Please be patient!”

While waiting for the signing of Gates, Bezos, Page and others shrugged helplessly, it seems that today’s signing ceremony will be grabbed by Jobs!

Chapter 513 - advertising

Having said that, when Gates, Bezos and others came to power, they still caused a cry of excitement from the reporters on the spot. Guys are not easy.

In the end, when Ren Zhenfei made the signing seat, the Chinese reporters on the scene cheered, and the presence of Chinese enterprises on such an occasion could not help but give birth to all kinds of fantasies, as if high-tech enterprises in China could already stand On the stage of competition with world giants such as Microsoft, Apple, and Google.

This point is especially gratifying. If he did not know the great significance of Xi and the plan, he would even feel that Ren Zhenfei’s appearance is more important than the huge amount of money obtained in the previous auction.

Ren Zhenfei signed his name on the contract with a slightly trembling hand. Now they can only keep their bases and expand slightly to the surrounding area, but as long as they continue to work hard along the right path, there are always One day his company will become a world-class company comparable to those of the previous big companies!

Now that the contract has been finalized, the atmosphere of the dinner party becomes even happier. Those companies that did not share a little share in this competition have long since left and left all the winners now. Lu Qiuqian prepared for them The farewell dinner seemed more like a celebration of victory.

“Professor Lu, thank you for your help this time. If it is not the last time to change the auction strategy, I think we can’t compete with the giants like Apple and Microsoft anyway!” He walked over with a glass and said excitedly.

“I don’t mean it for you! I do it for myself!” Lu Qiujian said honestly, “Xihe plan will be useful to your company’s products in the future, and I am unlikely to buy these things abroad! Only you The strength is strong, Xi and the plan can go more smoothly! I hope you can seize this opportunity and let your technical level have a leap forward! “

“Anyway, we owe you a big favor for all the people in Hua this time!” Ren Zhenfei raised his glass and drank. “Professor Lu will be able to use us in the future, we will make qualified products for you at all costs!”

Lu Qiujian also drank the wine in the glass, and then chatted with Ren Zhenfei about several techniques that may be used in Xi and the plan. Although Ren Zhenfei is a bit older, his mind is still very clear and thinking. Very keen. Lv Qiujian just asked questions, and he was able to say the truth.

After chatting for a while, Jobs also ended the chat with Gates and walked over to this side, “Lv, Cameron has agreed, he is expected to arrive in Chang’an the day after tomorrow! I will also go back to the United States to arrange the work related to the tablet computer , Just take a step! I will leave my assistant to arrange things for you and Cameron! By the way, what do you think of the name iPad? “

“Excellent! It sounds like an Apple product!” Lu Qiujian replied in amazement. Then raised the glass, “Come on, let’s wish the ipad a big sale!”

“Cheers!” The two of them drank their heads and drank the champagne in their glasses, then talked about the problem of advertising. He didn’t leave until Bezos came over.

He once again talked to Lu Qiujian about his good life in Princeton, and then thanked Lu Qiujian for supporting Amazon in certain key technologies, although he also paid a lot of money, but this can make their Kindle performance has been greatly improved. In terms of what the Chinese government likes to say, this cooperation will undoubtedly try a win-win situation.

Bezos at the end of Gates. After talking to Gates, he changed to Larry Page. They all think that the miracle that Lu Qiujian and his team can create is definitely more than this one. Taking advantage of the relationship with him now is absolutely no harm.

At the same time as the gala dinner was lively, Lv Qiujian once again boarded a full-time news program on the court TV station. After the elders appeared, the scenes of him signing with Gates, Jobs, Ren Zhenfei and others appeared on the TV screen. . The host 's voice sounded, "... With the development of China 's scientific and technological undertakings, a series of major achievements have been achieved in recent years ... Under the leadership of Professor Lu Qiujian, Xi and planned projects The tablet computer developed by the Ministry has been sought after by major technology companies in the world ... “

When the host reported the total number of patent transfer fees, the audience in front of the TV took a breath. When can we rely on patents to make so much money? When looking at the last photo, Lu Qiujian surrounded by many rich people, they not only produced a feeling of honor and honor, this professor Lu is really amazing!

If someone is happy, someone will be disappointed. While most people in the country are proud of the achievements of the team of Lu Qiujian, some people in the deep courtyard compound turned off the TV in annoyance!

Hey, I thought about the excuse that Xi and the plan were unproductive for a long time. They caused some trouble for them at next year's meeting, but now it seems that I can only give up this plan!

I do n't know anything about Lu Qiujian Of course he knows that I do n't care much? The next day, he sent away the businessmen and returned to Bai Laoran's car, ready to go back to the base; he had been outside for a long time, although Li Yan looked after him, he also watched every day Their reports, but they are always worried when they do n't see them.

But the car didn't drive long, but he had to return to the hotel, because he decided to take this opportunity to make a big publicity about the washing plan, this work must be coordinated by him.

Quietly staying in the laboratory, sitting indifferently sitting on various studies, this situation is just a theoretically ideal state; in reality, it is unlikely, such as experiment funding, team member recruitment, etc. If these tasks are not done in advance , How do you experiment? A positive image is absolutely indispensable to ensure adequate funding and attractiveness to talents, so Lu Qiujian will change his plan.

“Professor Lu, we'll meet again!” Lu Rui, a reporter from the court station who had previously dealt with, first greeted him, and then introduced a circle of his companions, all of whom are elite figures of the national propaganda media.

“Have you all the hard work, sit down and eat something to rest!” When they started eating, Lu Qiujian asked again, “Do you have any plans for this promotion?”

“Yes, yes, please check first! If there are dissatisfaction, we will adjust again!” Lu Rui quickly took out the plan from the bag and handed it over.

Chapter 514 - \$ 500 million

“It’s the 21st century now. Why is your propaganda program still the same!” Lu Qiujian turned over this propaganda program and couldn’t help but feel a bit of pain. The content is still the same as what was used to sleep and forget food for work, and the family is sick There is no time to take care of it; what is willing to be poor, refuses the huge annual salary offered by the enterprise, rather holding the Xi and the planned meager salary to contribute to the country Barabara. ☆ →

Whether this is for publicity or to discredit! If such a program is broadcast, how can I recruit new people then? But our propaganda department can’t be so slow!

“Why, is there any problem? We did this when we interviewed Lao Yuan and other old scientists before?” Lu Rui asked with blinking innocent eyes.

“Forget it, just use your questions! But by the time our staff answers what you say, you just need to publicize according to his original words! You don’t need to use your preset answers!” In fact, the questions they asked It is quite reasonable, but the preset answer is a bit depressing. The impression throughout the article is that doing research must endure loneliness and endure poverty.

It ’s true to endure loneliness, but now the treatment given by Xi and the plan is definitely not bad! The words “scientist who can work here” and “poverty” cannot stand at all.

“Just tomorrow we will hold a commendation conference at the base. Then you will take pictures together! See what kind of treatment our scientists are!” Lu Qiujian said.

“Well ... good!” Lu Rui couldn’t help but think of the scene when he interviewed Lu Qiujian last time. Indeed, people who can ride millions of bicycles can’t be poor! Suddenly she seemed to remember something, and quickly asked, “Professor Lu, I heard that you and Apple signed an advertising endorsement contract? The endorsement fee is 100 million US dollars?”

When talking about 100 million dollars. Her voice couldn’t help but tremble. The total advertising revenue of the broadcast of the Athens Olympics by Chaoyang TV was only 700 million yuan. Lu

Qiujian's income from shooting a short film was close to that of Chaotingtai's hard work for a month; Instructed, this number has not been broadcast on the court station, so Lu Rui will confirm to Lu Qiujian again.

"Yes! The commercials will probably start shooting in the near future! The heroine is Natalie Portman!" Lu Qiujian said lightly.

"What's Natalie's appearance fee?" Lu Rui continued to ask curiously.

"This specific number is not clear, it seems to be millions of dollars?" Lu Qiujian replied vaguely.

"Yeah. Your playing fee is 100 million US dollars. How much is Natalie?" The number of millions is indeed an astronomical number for ordinary people, but it is not worth comparing with Lu Qiujian. Too.

The other party is a Hollywood star! Moreover, she has won the best supporting actress of the Golden Globe Awards. She is even rumored to be the first actress in the post-80s to hope to win the best actress in the Oscars. Now she can only wait for a classic work. Astonished! But even so, her appearance fee did not even reach one-tenth of Lv Qiujian's appearance. Lu Rui was not only stunned by Lv Qiujian's ability to absorb gold.

As far as she knows, Yao Ming's full-year income in 2008 was only 52 million US dollars, which is already the number one income of Chinese stars! Compared with Lv Qiujian, Yao Ming's hard work is only half of an advertisement film.

Surprised her. Lu Qiujian smiled and said nothing; Lu Rui understood that Natalie's influence was limited to the movie world, and Lu Qiujian's body was much more halo, such as the Nobel Prize, Fields Prize, and the Olympics. Champions, Mr. World Football, Champions League plus the ncaa champions, he can already be regarded as the most legendary person in the world today, as long as he is willing to advertise, those big companies are willing to spend more money!

Calmed down and took a few deep breaths to relieve the excitement. Lu Rui also asked a question that everyone is very concerned about, "Professor Lu. How are you going to use this money?"

While waiting for Lu Qiujian to answer Lu Rui, he secretly guessed that, according to her previous experience of interviewing other scientists, this money might be used in the experiment? Or is it donated to charity?

However, Lu Qiujian's answer was again beyond her expectations, "Oh, I intend to use this money to shoot a movie. The story and the director have been contacted. I have waited two days to discuss with him in detail. ! "

"100 million dollars are all used to make movies?" Lu Rui is in a state of nothing today, and the messages thrown by Lu Qiujian made her seem to have returned to the time when she first entered the business, and the silly half-day reaction could not come.

"A huge investment of 100 million US dollars! I remember the biggest investment in our country this year is" King Fu King "by Long Ge and Li Liangjie. The total investment of this movie is only 80 million US dollars! And this number is still very large. Moisture! You have created an investment record for our country's filming! "Wang Qiju, who accompanied her, saw that she hadn't recovered in a long time so he quickly interjected. "By the way, are you going to use all of this 100 million US dollars to make movies?"

"How come!" Lu Qiujian smiled.

Oh, let me just say, it is estimated that such a large investment in the Chinese movie market will not be eaten! Lu Ruigang was about to breathe a sigh of relief, and Lu Qiujian's second sentence came down, "100 million dollars is enough! I also plan to spend more than 100 million dollars, and Hollywood film companies may also add the same amount of investment , The total investment of this film will probably reach 500 million US dollars? "

"500 million US dollars ?!" Lu Rui's head dizzy, sitting on the sofa with his buttocks, the photographer shook his hand, almost throwing expensive professional equipment to the ground, other reporters who were drinking tea sipped tea on Wang Qiju On his face, and then coughed desperately, Wang Qiju didn't respond at all, and his head was full of 500 million dollars.

Coach, next time I come to interview him again, be sure to be ready to save the heart! If we all knew his roots, I am afraid that after listening to these words, I thought I was in a mental hospital! Listen, there is no such thing as bragging about \$ 100 million in advertising endorsement fees and \$ 500 million in film production fees!

"Yeah, the total investment of this film will be more than 500 million US dollars. The director's words Apple's Jobs thinks that I introduced James Cameron of Hollywood. He will come to Chang'an to see me in two days!" Said faintly.

“James Cameron? The one who filmed” Titanic “?” Lu Rui subconsciously reached into his pocket, medicine! My little heart can’t stand this continuous stimulation!

Chapter 515 - Eye-opener

“Yeah, that’s the one. I plan to cooperate with Hollywood to bring the film to the world!” The reason why domestic directors and film companies are not considered is technical reasons on the one hand and distribution channels on the other. The reason! If you invest 500 million US dollars in China, you will not be able to recover the cost in this era! There is also a deeper reason. The main characters of “Three Body” are all Chinese. Lu Qiuqian hopes to convey a hint to the world through this film, that is, Chinese can also master high-end technology.

Hollywood has always been good at using films to convey his values to the world, and this time he intends to use this strength in his own films; so he will need to discuss with Cameron about the casting role. .

“Okay, come here today! In order to communicate with you, I have lost a lot of work! You have to rest here for one night. I will send someone to pick you up for the next interview tomorrow morning!” Lu Qiuqian got up and left, and those people were still in shock. They didn’t relax for a long time.

Lu Qiuqian walked for more than ten minutes, and the talents in the room slowly recovered. Lu Rui rubbed his temple in anguish. The previous propaganda principles! “

“I think you should call the above and ask! We are just some soldiers, can we violate Professor Lu’s meaning?” Wang Qiju reminded, and he secretly pondered, the 500 million dollar big production movie, Hollywood’s top Director, although Professor Lu did not disclose the content of the film just now, will his films always use foreign actors? There will definitely be a lot of roles of Chinese actors. This is a great opportunity to sell human feelings!

So Lu Rui called to ask his boss for instructions, and Wang Qiju also hid in the bathroom and started to find his friends who were in the movie circle in his mobile phone contacts. He still knows the size. Understand that since Lu Qiuqian just said the news just now, he hopes to pre-warm the film through them, so I think that releasing the news now will not have much negative impact. If there are other things, give him a few Not daring.

“Hello, Brother Mu? I’m the King of the Imperial Court! ... Yes, yes. I’m me! ... I thought of you as soon as there was good news? I I just got a big news! Is there no one next to you? ... Can I say it now? I am now interviewing Professor Lu Qiuqian in Changan. Professor Lu has just signed a \$ 100 million advertising endorsement with Apple. The contract ... I know that you are well-informed, and this kind of thing will definitely not be able to hide you! ... No, no, the heroine has already

decided Natalie Portman, we may not have a chance! But now there is a better chance. Professor Lu intends to invest 500 million US dollars to make a top-level blockbuster. The director has decided on James Cameron ... I have n't heard any stories yet, but after two days, Cameron When Long comes, I will participate in the interview. I will tell you as soon as there is news! You'd better get ready now ... Thank you. Thank you for helping each other! As long as you don't forget That's it! "Hanging up the phone, Wang Qiju smiled with satisfaction.

Then he flipped another person's phone and dialed over, "Well, Sister Wang? Now there is such a thing, I think you are definitely interested ..."

Hurry up and made a few calls. Wang Qiju quickly returned to the room. At this time, Lu Rui also just asked for the end. She said helplessly. "As I said above, everything comes according to Professor Lu. He lets us do what we do!"

"Okay, let's hurry up and prepare!" After that, everyone dispersed and planned to readjust the propaganda plan according to Lu Qiuqian's intention.

Early the next morning, they came to pick up their car and parked downstairs in the hotel. Bai Yaoran and his men first conducted a careful inspection of them to make sure they did not carry any sensitive items and then took them into the car.

"When you enter the base in a while. All shooting and recording must be closed. When we allow you to open, you can open it again! All the communication equipment is unplugged and delivered to me. I will give it to you after leaving. The base is the country. Focus on confidential units, I believe that the consequences of violating the regulations do not need me to say more?" Bai Yaoran said blankly.

"Know and know!" Everyone was busy and threw the phone into the box handed over by Bai Yaoran. Close the recorder and close the lens cover of the camera.

After several inspections, they finally entered the interior of Xihe Project Base. Of course, they could only enter the living area on the outermost side of the base. If they had to go inward, they would not have this authority!

A huge auditorium was also built in the living area of the base. After the last inspection, they entered the auditorium. I saw that the "Tablet Computer Project Recognition Conference" was particularly prominent on the rostrum in front of the auditorium, Lu Qiu Project leaders such as Jianhe Li Yan and Ma Yang sat on the stage, and hundreds of staff sat under the stage.

Among them, Li Yan surprised them. How could a white figure still appear in China's secret base? However, they did not dare to ask more at this time and had to bury this question in their hearts.

"Okay, you can shoot now! The scope of the shooting is limited to this auditorium. The tape will be handed over to us for review at that time, and we will wait until we finish the review before handing it over to you!" Bai Yiran made his final instructions. Everyone started their work expertly.

"Everyone knows that in the previous stage, our tablet had a very expensive patent transfer fee. In addition to continuing to invest in our research work, the rest will be used as a bonus to highlight the performance of the plan. Staff rewarded!" Lv Qiujian directly announced the theme of this meeting without much nonsense, "but please remember that the tablet is just a trivial by-product of our Xi and plan, waiting for our After the main work is completed, there will be more generous rewards waiting for everyone!"

At the end of Lu Qiujian's speech, Li Yan took the stage to announce the award list and award amount, "Researcher Qu Xiaodong, who has made outstanding contributions in the research and development of large-capacity batteries, is now promoted to Deputy Director of the Second Battery Laboratory And reward three million yuan in cash ... Researcher Liu Haitao ... two million yuan in cash ... Assistant Researcher Zhao Jingyi ... 1.5 million yuan in cash"

This huge amount of cash rewards opened the eyes of the visiting media, and they felt as if they had arrived at a financial company's commendation annual meeting!

Chapter 517 - Stars from the news

"Bing Bing! It seems that this time it is real!" In a luxurious villa in Beijing, a middle-aged man wearing sunglasses came in a hurry and said to the hostess of the villa. △

The beautiful and mistressed hostess immediately stood up immediately, without the graceful and graceful gesture of the past, and asked him nervously, "Cameron really wants to come to China to film?"

"Yesterday, Xiao Wang from Chao Tingtai called me and I could n't believe it. I asked a friend of the United States to help check it. It turned out that Cameron really booked a ticket to Huaguo and expected to arrive in Chang'an tomorrow!" The young man is the agent of the villa hostess, and the villa hostess is a popular movie star in China. No wonder he is so excited to hear this news.

"Although I am not sure what film they will make, but since Professor Lu has provided funding and Cameron will come to China again, then I dare to pack the ticket. There will definitely be a

heavyweight Chinese character in this movie! 500 million The big production of the dollar, directed by James Cameron, will definitely be a blockbuster released globally. If you can play a role in it, there will no doubt be a long way to throw away your current competitors! Maybe there is a chance to become an international superstar and step on the stage of the Oscars! “The agent described her brilliant prospects with excitement.

“Isn’t Xiaozhang accepted by the international entertainment industry just because he worked with Li An? Cameron’s influence is much greater than that of Li An!” The actress called Bing Bing immediately sorted out the interests. She immediately became excited, “I will go to Chang’an immediately, no matter what the price is, I will seize this opportunity!”

“Yes, as far as I know, Xiao Wang will definitely not tell me the news alone. Sister Wang probably knows it too, but she has a lot of competitive actresses! We will leave now. Already bought! But the time is too tight to buy the first class, you can only be wronged! “The agent showed two tickets.

“What time is it, who can take care of this! I’ll go and tidy up, it’s okay!” After she finished, she ran up the second floor.

“Yeah, isn’t this Bingbing and Xiaomu? Why is this going to go there?” Just now I was talking about Sister Wang, and the two met her at the airport. She also stood by an outstanding female star, and then look at where they are. The two of them suddenly understood that the other party went to Chang’an just like themselves!

“Oh, go to the northwest to attend a business event.” Muda agent began to talk nonsense with his eyes open, “are you two going to go there?”

“My friend Xiao Li is going to get married tomorrow, let’s go with a man!” Sister Wang is also a battle-hardened person, and he did not hesitate to answer with another lie.

The two teams of horsehorse greeted with a smile, and then boarded the same flight. And even more coincidentally, the positions of the two big stars are still close together! This time it was embarrassing and broken. The two laughed a little and picked up the aviation magazine on the back of the chair.

Although they wore sunglasses to cover up, they were recognized by keen-looking stewardesses. After the service, several stewardesses gathered to chat together and said, “The two people seem to be Li Bingbing and Fan Bingbing! But they Why do you take economy class? “

So what happened to bankruptcy, speculations like life for a new movie, and finally the interpretation of an older flight attendant got their approval-these two must be actors who participated in the parody show, absolutely not real people!

“Don’t worry. I’m familiar in Chang’an! There are all kinds of relationships, and we will definitely be able to see Professor Lu before them!” The agent of Muda knows that it is difficult for them to have a relationship with Cameron. Therefore, he pinned his hopes on big investor Lu Qiuqian.

Lu Ziguang, the agent of Muda, did n’t say it in vain. Just after getting off the plane, someone greeted him personally. “I’ve left you with a car and a driver. I have inquired. Professor Lu will probably meet with Cameron at the last hotel auction. , I have booked a room for you at this hotel! Anything else, please call me at any time! “

“Thank you so much. I won’t say anything more than that. You can just go to Beijing to find me!” Agent Muda gratefully gave me a hug.

However, the other couple was not vegetarian, just as they left, Sister Wang and another soldier also got on the train and left, and then the two teams arrived at the hotel almost simultaneously. Then they stayed in a room on the same floor again, which really made them feel uncomfortable.

“This is still news! If Cameron is here, I don’t know how many people will come!” The soldiers who had always been confident could not help worrying.

Hollywood directors will be more likely to favor Zhang Ziyi’s more acclaimed actresses! Now the economic man has no idea, but he refuses to show his weakness. “The most important thing we have now is to have a relationship with Professor Lu. As long as we can get Professor Lu to say everything! I will buy a telescope. What am I doing today? Do n’t do it and stare here! “

After a while, the agent hurried back to the room, moved a chair to the window, picked up the binoculars and stared at the entrance of the hotel, fearing to miss Lu Qiuqian’s figure!

Kung fu is not disappointed, after he waited for several hours Lv Qiuqian finally appeared at the door of the hotel, the agent hurriedly greeted, “Bing Bing, hurry! Ready to go out, it seems that Professor Lu is coming soon Get in the car and leave! “

Bingbing has been preparing to go out at any time since getting off the plane. The two of them ran out quickly, without even having a room card. When they reached the corridor, they found that the other pair seemed to have not moved, and they couldn’t help but feel happy.

Arrived downstairs, and just saw Lu Qiuqian got into the car and left. The two of them couldn't care more and said that they immediately got on their cars, and after catching this, Lu Qiuqian caught up.

Chased for a long time, but the result was still lost; the driver said apologetically, "It's really embarrassing. I can see that the other party's anti-tracking ability is very strong. I just pressed the traffic light just now.

"It's okay!" Muda's agent murmured dejectedly, took out his phone from his arms and started dialing. "I was familiar with the deputy chief of the local police station. I asked him to check the car number and see if there is any news! "

The phone passed, and the other party agreed neatly, "No problem, isn't it a license plate number! As long as he is still in Chang'an city, I promise to check it out for you!"

"Eh, I haven't said whose car, it will be hung over there!" The agent said helplessly.

The other party's efficiency is very fast, and the call came back within a few minutes, "I said you have reported the wrong number! Why do I show that there is no license plate number here!"

Chapter 518 - I just check a car number!

"I'm not wrong! You wait and I'll verify it again!" The agent turned his head to the driver and repeated Lv Qiuqian's license plate. "Is that car the number just now? Am I right?"

"Yes, that's it! I remember very well!" The driver nodded.

"Hey, that's the number I just said!" The agent repeated Lv Qiuqian's license plate number again, "Do you think you just inserted the wrong number?"

"I didn't check the mistake!" Which deputy director suddenly became alert and his tone became hurried, "Whose car did you ask me to check?"

"It's Professor Lu Qiuqian's car. I heard that he is going to collaborate with Cameron on a big production movie. This is why I came to Chang'an to visit!" The agent heard something wrong from his tone!

“Fat trough! Killed by you! Why didn’t you make it clear just now!” There was a sloppy voice over there, “How can I not find this number! You said that you want to check out Professor Lu The car ghost will check it for you! Why do I know you! I am going to be a broken official! “

“Wang Ju, what the **** is going on? Don’t you just check the vehicle number? Wouldn’t it be too much of a problem?” The agent immediately asked nervously, of course he was not worried about the issue of the bureau chief, but rather Will it involve yourself.

“Huh! So to speak, some special license plates in the system can’t be found in our computer. If you want to check the license plate numbers of these people, you must have the permission of the higher level department! I am now without the permission of the superior. It is estimated that this special license plate has been recorded by the computer! It was no big deal to help people to check the license plate privately, but it is not the same to get this special license plate! “The Secretary’s voice is full of regret,” Hey, no Having said that, I still have to find a way to save myself! I ca n’t do it if I ca n’t get this deputy director this time! It ’s all you who did it! ”

“Wang Bureau, Wang Bureau!” The agent looked at the hung up phone for a long time, paralyzed, this time I was in a big disaster! He didn’t relax for a long time, didn’t he just check the license plate number? Is it so serious?

“Shall we go back first!” Bingbing is also in a state of turmoil for a while now. She subconsciously felt that her agent just got in trouble.

“Okay, let’s go back to the hotel!” The agent relieved himself and turned over the phone for a long time, and did not find a suitable person to solve the problem, but he didn’t hear the sound of the car restarting after waiting for a long time. So he raised his head and said angrily, “Why don’t you go!”

“Mr. Mu, Miss Fan, I’m afraid we can’t go!” The driver pointed to the front, and several uniformed staff in special departments were approaching their car.

The cold sweat of the two came down immediately. The agent of Muda didn’t care that he was just scolded, and immediately dialed Deputy Director Wang’s phone again. The prompt tone from the phone made him look like, “Wang Bureau has shut down!”

“Three, this is our ID. Now we suspect that you are engaged in some kind of espionage. Now let’s take a trip with us!” The leading man came to the car, knocked on the window, and stuck the ID in Said on the glass.

“You can’t do this!” If the reporters knew that they had entered the game with Bingbing, that would be good. The agent of Muda immediately took out his unsatisfactory means in other places, “I am a citizen of Baodao, and I will call the Kneeling Office!”

“Treasure Island Citizen!” When these four words came out, the consequences were even more serious. The leading man waved his hand, and the people immediately came around to encircle the car. It seemed that even the broken car had been made. ready.

His tone also became harsher, “Now, get off immediately! Or we will take violent means! Even if you are a citizen of the United States, you have to go with us today! Your problem is very serious. Do n’t think I am joke!”

“Mr. Mu, let’s listen to them!” The driver first counseled. There are at least three strong department uniforms in this group. The other party is not afraid of him, but he is very afraid!

“I want to call my lawyer first!” Mr. Mu just said. Seeing that the lead man showed an impatient look, he immediately closed his mouth and obediently got off the train and transferred to their car.

“I can warn you that I and your Wang Bureau are old friends! If you dare ... dare to move my finger, I will let Wang Bureau open you!” Mr. Mu encouraged himself.

“Wang Bureau? You mean Deputy Director Wang of the Public Security Bureau? Hehe, he is probably under investigation now! You still have to think about how to explain the problem for a while!” The leader said with a smile, Mr. Mu Fall into the ice cave!

“I’m just following Professor Lu’s car. By the way, call Wang Ju and ask him to help me check the number of the car. Isn’t it so serious!” Mr. Mu is crying now, and said tremblingly.

“It’s that simple? Would you not know what Professor Lu is doing?” Said the leading man.

“How come I don’t know? Professor Lu has just sold billions of dollars of patents, and he has to work with Cameron on a block of 500 million dollars. We are here for this!” Mr. Mu He quickly explained, “Professor Lu is the first Nobel Prize winner in our country, and has won two gold medals in Olympic basketball and football; by the way, he also led the team to win the European Championship ... “

“You forgot the most important one!” The lead man did not talk about the key points for a long time, and couldn’t help reminding, “Professor Lu is still the chief person in charge of China’s space exploration program!”

“I know this, what happened then?” Mr. Mu’s face was unclear.

“Oh The lead man feels helpless because of his ignorance.” The space exploration program is our country’s top secret plan. Now you want to track the plan’s general manager. Do you think there is no problem? ? “

“Especially you just said that you are a citizen of Treasure Island? And also contacted the senior officials in our system to facilitate you! This has to make us doubt!” Someone said aside.

Inside their system, Lv Qiujian’s security level is higher than that of the provincial leader. Just now, Lv Qiujian’s driver said that someone was following them, and then someone inside the system tried to investigate Lv Qiujian’s license plate number. How can people in these powerful departments not be nervous?

Oops! This is really causing trouble! The three people in the car were struck at the same time, especially Mr. Mu, who has always been in the wind and rain, and he regretted it at this time. Conscience, how can I know that checking a license plate can cause such a big trouble!

Chapter 519 - I think you can play 1 role

“Okay, the problem has been clarified.” The staff collected the situation notes written by the three of them and carefully studied the signature below for a while. “You have cleared the suspicion of spying, but I advise you what to do in the future. It ’s better to follow the rules! Do n’t mess up with things like today! Also, do n’t mention it to anyone after you go out, otherwise it ’s no good for anyone! ”

“Eh, understand!” The agent nodded one after another. The reputation of China’s powerful organs was still very loud, and it was not good for his boss to pass it on. He would definitely ruin it to his stomach. of.

“Your car is already parked in the yard, let’s go back!” Perhaps he saw his thoughts, and the staff said a little more, “You can continue to find Professor Lu to seek opportunities for cooperation, but never allow Take this approach today! “

“Dare not dare!” After hesitating for a while, the broker asked cautiously, “Can you ask how is the king’s game going? Should he be all right?”

“Don’t ask if you shouldn’t!” The staff’s attitude immediately cooled down, staring at the agent for a long time before slowly saying, “He is different from you, his problem is more serious.”

Is finished, it seems that his official position is no longer guaranteed! At this point, the three of them did not dare to stay here, and hurried back to the hotel; sitting on the sofa of the hotel, the agent hesitated for a long time with the phone, and never dared to inquire about the whereabouts of Wang Ju until I sighed and went to bed late at night.

When they were still sleeping the next day, Lu Qiujian had already chatted with Cameron in the hotel, “Professor Lu, this is a really great story. I can’t wait to put it on the screen! Cameron said excitedly when he met.

“I think so too, this Mr. Liu is the author of this novel! You can talk more with him in the next few days!” Lv Qiujian introduced Da Liu to Cameron, he could not always be with Came Long, so the task of communicating the story was given to Da Liu.

“I searched the Internet specifically. It seems that this novel has not been published in the US yet. Do you need me to help you contact the publishing house? I think the people in the US will also like this story!” Cameron reached out and Da Liu tightly A grip.

“Thank you very much, but Mr. Bezos of Amazon is already helping me contact the publication of the United States!” Da Liu quickly thanked.

“I have purchased the film and television adaptation rights of these works from Mr. Liu. He will work out the script with the screenwriter team! We can now discuss the general framework of the script!” Lv Qiujian introduced the topic to the topic.

“Unfortunately I haven’t seen the third work!” Cameron shook his head regretfully. “But I already have some ideas for the first story. I plan to change the background of the story to the United States ... “

“No, no, I don’t think the background of the story should be changed too much!” On the first question, the two people disagreed. This is a matter of principle, and there is absolutely no way to compromise.

“But, Lu, you know, the global film market still prefers the story of the Western background. If you follow the original background, I think there will be no small loss at the box office.” Cameron persuaded.

“I don’t worry about the results at all, I believe in your ability!” Lu Qiujian first sent a high hat, sitting in front of him, but the world’s most absorbing director! “Also, don’t you want to know why I want to make this movie?”

“Why?” Isn’t it to make money? Cameron secretly speculated.

“If I just want to make money, I have countless investment projects with higher returns!” Lu Qiujian seemed to have guessed his thoughts, and then he turned around, talking about Hua Guo’s movies, “Hua Guo has a long history The history of the world is so vast. This makes our directors not worry about the subject matter of shooting at all; you can see that the theme of China ’s movies is very rich, and there are kung fu movies that are loved by global audiences. , There are modern romance movies, war movies, comedy movies ... but there are very few science fiction movies! “

“I do n’t want our films to focus only on the past and present, they should also focus on the future! Why do so many teenagers in the United States want to engage in scientific research work, I want to watch Terminator “,” Star Wars “,” ” “Space Trek” ... such a movie has a lot to do with it! “This is not the only reason, but it must also be a very important reason.

“So NASA will collaborate with Hollywood many times. Classic films such as” Apollo 13 “,” Robot Force “,” 2001 Space Walk “and so on are also born! NASA uses movies to awaken people’s curiosity about science and space , Has shaped a good collective image, and cultivated batches of children who are full of science yearning! This is why NASA can continue to grow! You know, I am leading an institution very similar to NASA. I also want to wake up The curiosity of the Chinese people in space makes the children of the Chinese country full of yearning for science! “After speaking, Lu Qiujian looked closely at Cameron At this point, Cameron knew Lu Qiu Jian ’s determination was irreversible. He thought for a while and said, “Then we are working on the script. It is really a challenging job for global fans to accept a science fiction story with a Chinese background!”

“I believe in your ability! And this story also has many people from other countries in the world. For example, Mr. Evans of the ETO organization, such as the second face of the wall and the people ...” Then three people And talk about the details of the story.

Discussed for a whole day, the three people basically agreed on the general direction, and then the work of the script is next! After the script is finished, there are preliminary preparations, and I really want to start shooting after the global release of “Avatar”.

“By the way, Professor Lu, I want to invite you to be the scientific advisor of this film. What do you think?” Cameron issued an invitation. He knew that a famous scientist like Lu Qiujiang would also be a scientific advisor to the film. Play a great role in publicity.

“No problem, I am very happy.” This work does not require you to follow the shooting team. You only need to use the Internet to help them make comments. Lu Qiujiang agreed quite easily.

“Another question!” Cameron stood up and circled Lu Qiujiang a few times, as if observing his image, and then clapped his hands fiercely, “Professor Lu, I think you seem to be able to play in the film One character! “

Chapter 520 - Realistic gravity

“Oh? That character?” Lu Qiujiang asked with great interest. Hawking had also participated in the shooting of many science fiction movies that year, but I didn’t expect Cameron to find himself now.

“What do you think of Luo Ji?” Cameron didn’t just say it. It’s a protagonist, of course, he also has his considerations; Luo Ji is the protagonist of the second part, and now those in China have world influence. The actors are mainly Kung Fu stars such as Long Ge and Li Liangjie. Their temperament is completely different from that of Luo Ji; instead of replacing an actor who is not familiar to everyone, it is better to use the more well-known Lu Qiujiang. In the second part, Luo Ji is a symbol of wisdom. I think this character’s temperament matches you very well! “

Indeed, when all the people on earth were desperate, it was Luo Ji who came forward to save humanity. The superhuman wisdom he embodied in this process is quite similar to the impression left by Lu Qiujiang, let him play Luo Ji seems to be really good, but Lu Qiujiang still rejected the invitation, “Forget it, this is the protagonist! Shooting must take a long time, I think I am afraid I can’t spare this time! If it is a drama Less supporting actors may be okay! “

“So what do you think of Ding Yi?” Cameron retired, “The identity of his theoretical physicist coincides with your true identity!” A gimmick played by a Nobel Prize winner in physics It can also be used for publicity for a long time, and Ding Yi will appear in the first and second parts. Although there are not many scenes, the impression can be quite deep. This is also a good choice!

“No problem! As long as all the shots are taken in China!” Lu Qiujiang agreed decisively this time and played Ding Yi for a long time.

In fact, there are other roles suitable for Lu Qiujian in this film, such as the mathematics genius Wei Cheng who studies three-body problems, but after all, Ding Yi is the most suitable. The slight difference is his age, but this is not very important. .

“Then I won’t take part in the next job, I will help you contact the chairman of Han Guohua Film Group, and he will help you solve the casting problem! As for the Hollywood company, it is up to you! Later, my team of lawyers will negotiate with you about the contract! “Lu Qiujian arranged the next work, and Cameron readily accepted.

Then the three of them received an interview with Lu Rui and others together, I believe soon. This \$ 500 million budget sci-fi blockbuster will shake the entire movie world! By the way, maybe Liu Liu’s novels will be more popular in the United States.

Done these things, Lu Qiujian couldn’t return to the base, because Qin Feng came to him again, “You, you. If you don’t pay attention, there will be such a big noise!” He said with a smile when he met.

“I think it’s necessary to shoot science fiction movies. The history of Hua Guo is long, but we can’t keep our eyes on the past all the time!” Not to mention, I’m almost spitting braided drama.

“It is not a problem to shoot a film, but it is not appropriate for you to invest yourself! Your current position is very sensitive. I am afraid that it would be irritating to personally give so much money!” Qin Fengyu said with a serious heart.

“I made all this money through legal channels! It has nothing to do with Xi and the plan to make a dime!” Hey, when can this old tradition that Mu Xiu is destroyed by Lin Feng be changed! “Those people will question? I dare to publish all my asset details and sources. I earn every penny I can withstand the investigation. Do they dare?”

“This sentence says that you offend more people!” Qin Feng quickly persuaded, suddenly he seemed to think of something interesting, and pointed at him with a smile, said, “You earned in Las Vegas Can those money be given out? “

Yeah, at that time, I didn’t seem to have reached the age of legal gambling, and my first pot of gold was indeed a little unclean. But this is nothing. “Even if it is announced, everyone will only admire me for being smart? Ordinary people would not sympathize with the casino!”

“Okay, don’t say this anymore, this time I mainly want to talk to you about the issue of propaganda! Someone told me that what you showed to the reporters during this time does not seem to be in line with our tradition of hard struggle? You Can you tell me what you think?” Qin Feng said with a straight face.

“I don’t think this is a problem! We are implementing distribution according to work at this stage? Isn’t it appropriate to make a large contribution for how much compensation? Do you think their contribution is not worthy of these bonuses?” Lu Qiujian said frankly .

“No, I don’t mean that! I still think it’s less! If other departments can create such a big benefit, I can’t wait for them to pay more bonuses!” Qin Feng quickly denied, “It’s just such a hype about material rewards Okay?”

Lv Qiujian thought for a moment, and suddenly talked about Da Liu ’s novel, “You know that the film ’s story prototype is from Da Liu ’s novel. There is a sentence in it that makes me feel deeply He said ‘in In China, any detached thought will slam to the ground, the gravity of reality is too heavy. ‘There are many reasons for this sentence. There are cultural traditions, social atmosphere, and survival pressure! “

“In life, how many of us have we planned to devote all our energy to a certain thing for more than ten years? Like my generation, I was educated to study well and take a good university test at an early age; I went to university at the age of 18. At the age of 22, he began to prepare for work or postgraduate studies, and strive to make money; at the age of 24, he began long-term love or blind date, and then saved money to buy a house, married before the age of 30, and then earned milk powder to prepare for raising children, and worried about the education of children ... “Lv Qiujian shrugged,” Live ... It seems that animals that follow biological instincts are no longer an era full of romantic ideals, and science must have ideals! “

“When I was studying at Beijing Normal University, I saw many gifted seniors and elder sisters who were talented in mathematics. They used to arbitrarily declare that they wanted to crack the Riemann conjecture in the dormitory, on the lawn of the school, by the Weiming Lake. , To open up a new mathematical paradigm, but most of them eventually chose to give up mathematics and switch to banks, financial companies, or to test civil servants! This does not necessarily mean they gave up the ideals of the year, maybe they are just Found a better ideal. “

“There are many reasons for this change, for example, doing mathematics research can not meet their material needs, such as family pressure ... they are just pulled into the dust by the gravity of reality! Weaken the gravity of this reality! “
