

## D. School 581

### Chapter 581 - Guests like clouds

“There will be a plane going to Jinling to deliver something in a while. I will let them piggyback on you! But when you arrive at Jinling, you can only do something yourself!” Soon, Colonel Zhang called back.

“Thank you so much! You helped me a lot! It’s easy to get to Jinling. Our company has an office in Jinling. I let them drive me over!” Duan Yunfeng thanked again and again.

“Do n’t be so polite, the better your company ’s products are, the better it will be for us. It ’s good to help each other! Well, let ’s stop talking about these, you can make a phone call! You will contact him in a while! He takes you Get on the plane! “Said Colonel Zhang and came up with a string of numbers, Duan Yunfeng quickly jotted down.

He hung up the phone and contacted the person introduced by Colonel Zhang. The other party told him the location of the round. Duan Yunfeng told the driver to send him over and dialed the phone of the Jinling office to get them ready for the vehicle.

The comfort of the military aircraft is in no way comparable to that of civil aviation. Duan Yunfeng was grinned from the hard teeth on the seat of the hard state. After getting off the plane, he had to rest in a car and rushed to Jingle City. He finally arrived at the Jingle City Government in the early morning. . Mayor Liu Haitao was also excited to stay up all night, waiting for his arrival. This is one of the people in China who has the highest power! If he can make a good impression in his heart, then the future will not be a matter of course?

“Duan Zong hasn’t eaten yet? I asked the kitchen to make some porridge. I’ll eat some food first to nourish the stomach!” Liu Haitao met without worry, waiting patiently for Duan Yunfeng to finish his meal.

After eating two steamed buns and drinking porridge, Duan Yunfeng regained his spirits a little bit, “Oh, this way I was tired enough, but I finally arrived!”

“Secretary Qin really wants to come?” Up to now, Liu Haitao still can’t believe it, but that’s the elder! It’s so easy to be invited by Changan Nonferrous Metals Company?

“Well. It was Professor Lu who came to ask us, we have such a big face!” Duan Yunfeng was glowing with red light at this time. He and Liu Haitao had the same idea. Having this career in the future is a smooth road! At least in Qin Feng Before he retires, he will surely go well.

“When Professor Lu will come?” Liu Haitao asked.

“Not only Secretary Qin and Professor Lu, but also the secretary and chairman of our head office will come!” Qin Feng has come, how dare these people not come, they enjoy the deputy ministerial treatment, which is more than Liu Haitao’s level high.

“Yes, I have to hurry and report to the superior!” Now that they are all determined. Liu Haitao knew that this ground-breaking ceremony was no longer a place where he could sing the protagonist. Since Qin Feng has come, then there must be a few big brothers in the province anyway, but he has not lost the qualification of the protagonist because of himself. And frustrated, so many leaders gathered in Jingle City, this is his great opportunity!

Waiting for the end of Liu Haitao’s report to his superior, he and Duan Yunfeng carefully discussed the steps and details of the event. “Now it seems that the venue we prepared before is not enough, and we have to expand it! The road to the site also needs urgent maintenance. Something. It ’s a big deal if something goes wrong! And security personnel have to be doubled. ”At this time, Liu Haitao wanted to return to the moment before his college entrance examination, and his heart was full of tension and expectation.

At the Jingle City Airport, Ji Yuhua, the director of the Chang’an Nonferrous Metals Company’s Jingle City Branch, took an assistant to look at the passenger exit from time to time, holding a sign in his hand. It says the name of the guest who will come to greet him.

After a while, passengers came out one after another. A blond middle-aged man saw the name on the sign and immediately came over, “Hello, this is Hans Keppes of Schroder.”

The assistant behind him quickly translated his words into Chinese. Ji Yuhua quickly extended his right hand, “Welcome and welcome, Mr. Keppes worked hard. Xiao Li took Mr. Keppes to a cup of tea for a break. I’m sorry, Mr. John Korver of spae company will arrive later, waiting to pick up the branch. Mr. Wall, let’s go to the hotel again! “

“It’s okay, I happen to be thirsty too!” Keppes replied politely, and then followed the assistant to the side of the teahouse. It didn’t take long for Korver of Spae to arrive, and a group of people left the airport to go to the parking lot. The bus has long been waiting there.

“Hi, Hans, I knew you would come too!” Just getting on the bus, someone got up from the back seat and greeted him.

“François, we haven’t seen each other for half a year since we last separated at the European Space Agency? How? You are also interested in attending this ceremony?” Hans asked after the two of them embraced Road.

“Of course, the performance of this new metal is too good, we will use it in some key parts of the rocket!” Francois said with a sigh, “God, unconsciously China’s There have been so many breakthroughs in the space industry. The recent rocket recovery program has surprised us a lot! Now a new generation of metals has been born! The European Space Agency is still lifeless. “

“If you put forward your own research plan for recyclable rockets, each member of the European Space Agency will first open the Weiss memory for three months to review the plan, and then discuss the four or five for the member country to implement the plan. This month, there will be the allocation of research funding, the location of the research center and all other discussions. I am afraid that the rocket experiment of China will be successful! “Kepes could not help but sarcastically.

“Who said no!” Francois shrugged helplessly. The two of them spit out the European Space Agency all the way, and it was not long before they arrived at the hotel.

“Wow! Take a look. Is n’t this Professor Spitz of the National Space Center of the United Kingdom! And Kovalev of Lucia Space Agency, Clemmons of Dassault” will often attend various events in the same industry Kepes recognized many familiar faces at once, “It seems that my goal this time may be difficult to accomplish successfully!”

“What is your purpose this time?” François asked At that time, he reached a purchase agreement to find a new supplier of metal materials for Schroeder! “Kappes grinned in distress. Mouth, he has already understood the production capacity of Changan Nonferrous Metals Company before, certainly not enough for these people!

“Like me! But I am more interested in the output of the factory after expansion. You also know that our work efficiency is very slow. When this procurement plan is approved, I am afraid that their new factory has been completed and can be carried out. Produce it! “Francois had to calm down a lot.

Chapter 582 - High-profile ceremony

In the conference room, “The main leaders currently attending the ceremony are Secretary Qin Feng, Secretary Gu of Jiangsu Province, Governor Qiu, Secretary Yuan Yuan and Chairman Fan of China National Nonferrous Metals Corporation Corporation, and Professor Lu Xi of the Plan.” Ming and Liu Haitao checked the final details, “62 foreign companies, research institutes and other institutions, 58 media outlets such as TV stations, newspapers, magazines, and the Internet”

Although he has not rested well for several days in a row, Liu Guangming and Liu Haitao are still red-faced and radiant, and this opportunity to show their faces in front of the leader is better than any stimulant.

The two men carefully checked for more than two hours to make sure that tomorrow’s arrangement is foolproof, “Go, let’s go to the site to check again! Sometimes there are things on the paper that cannot be trusted!”

On the second day, the whole construction site was decorated with lanterns, air balloons, large banners and colorful ribbons to decorate the scene. The tall background board behind the stage read “Changan Nonferrous Metals Company Jingle City Metal Smelting Factory Expansion Foundation Laying Ceremony” A line of characters! In front is the lecture platform, and on the side is the leader’s rest area.

A gravestone was placed in a dug pit in front of the stage, and a red silk shovel was wrapped around it. If you have a careful number of people, you can find that the number of shovel is exactly the same as the number of people who are qualified to board the stage.

Farther away are the seats of the various guests, the hundreds of chairs are neatly arranged, and the guests have begun to take their seats one after another. These people have black hair, yellow hair, and red. Of course, hair, brown hair, and white hair are all hairless!

Keppes still got together with Francois and sat on a chair and looked at the promotional materials issued by Changan Nonferrous Metals Company, “The annual output of 5,000 tons is expected to be put into production by the end of this year. I think our company can. Slowing down the current cooperation plan with Wayne Group? “

“Why not have cheaper and better quality products?” François shrugged. “Chinese people will enter any industry, and the products of this industry will be priced in cabbage! If your needs are not urgent, I think I can really wait! “

“Oh, my God! The specifications of this ceremony are really high!” The guests who attended the ceremony in the speaking room have already stepped onto the stage. “The people who will be the

next elders of China are professors Qin Feng and Lu Qiujian. I suddenly found out I am more confident in their future output! The premise is that they will retain enough export shares! “

“Hans, why is your expression so depressed? Isn’t this a good thing?” François looked at Kepes curiously.

“Do you think that as a senior fan of Dortmund, I would be happy to see Professor Lu Qiujian?” Kepes replied with a sullen face, “I can’t forget how he slaughtered us at Westfield!”

“Haha! This is really unfortunate!” François smiled happily. “But football is football, and business is business after all. I think when the banquet is held at the end of the ceremony, will you still find a way to get him?”

“Of course, this is the truth of my depression!” A Dortmund fan wants to flatter a Bayern player who once slaughtered his support team. It’s awkward to think about it!

The speech room ceremony has officially started, and Qin Feng is highly appraising the great significance of this project on the podium. “The Chinese government has always strongly supported the development of high-tech industries. The expansion of the Changle Nonferrous Metals Company’s Jingle City plant will be greatly improved. “After the brief speech, applause rang; the arrival of Qin Feng made people who are familiar with the political system of China more confident in the future of this factory.

Then local officials, the leaders of the China National Nonferrous Metals Corporation, Liu Guangming and others spoke accordingly. Lv Qiujian also stepped forward to briefly talk about the important role of the expansion of the factory for China’s space industry and Xi and the plan, The output of 5,000 tons can fully meet the needs of Xi and the plan, and will promote our development in multiple fields such as superconducting research and satellite manufacturing! It provides solid support for the early realization of Xi and the plan. At least the new nuclear fusion reaction device can have a more powerful superconducting coil! Some key parts of the automatic robot arm can have a long service life, and the efficiency of some electronic devices will be greatly improved. This new type The application of metal is very wide.

Then the salute sounded. Qin Feng took them to the foundation, picked up the shovel in a circle, and shoveled a few shovel soil symbolically, the foundation laying ceremony was announced to be completed successfully! They got on the train and moved to the city to prepare for the banquet.

“Xiao Lu! Since you have no opinion on the plan, then I will let Wang Yang start arranging according to the plan!” In the bus, Qin Feng did not forget to draw Lu Qiujian to the past.

Yes, what you say! Lv Qiujian ignored the envious eyes thrown by the people around him and responded listlessly. The OB truck that followed them had already produced the news video, and now it was sent back just to catch up with the news program at 12 noon.

Zejuan Co., Ltd., who is always paying attention to the development of Changan Nonferrous Metals Company, will certainly not ignore this important information. Then Qian Qianbing was closely watching the pictures in the news in his office, “Schroder, spacex, Dassault, etc. are all old customers of us and the Wayne Group! They have begun to plan ahead. What? “Qian Qianbing guarded his eyebrows, and an ominous hunch surged in his heart And in the hotel in Jingle City, there was a happy atmosphere on the scene. Qin Fenghe and the leaders of the province slightly left his face and left first. Liu Guangming and Liu Haitao greeted each other with a glass of wine on the table, and Lu Qiujian sat in his seat, but nevertheless, There are still a lot of people who come to him and say a few words.

“Professor Lu, I’m Hans Keppers from the German company Schroeder. I’m very happy to see you again!” Keppes came over with a glass and greeted warmly.

“See you again? Where have we met before?” Impossible, with my memory, if you have seen you, you will definitely not be unimpressed, Lv Qiujian asked, frowning.

“Of course! I have seen you break through the opponent’s door countless times at the Allianz Arena! Those wonderful pictures are still deeply engraved in my mind!” Keppes was fanatical, “I am a big fan of Bayern ! “

Chapter 583 - Unruly guy

François, who had just come behind him, was speechless when he heard this! Dear, your morality! Who just said that he is a die-hard fan of Dortmund!

Martial arts is a \*\*\*\*\* horse thing? Is it delicious? If Keppes can hear his heart, he will definitely answer this way. For a business person, if you can get even a little commercial benefit, it is a good idea to sell martial arts. What? Keppes continued to vigorously tout Lu Qiujian, “I was there at the game where you received a call from the Nobel Committee! At that time, I could n’t believe my ears! This is my thirty-year Bayern fan. The most memorable moment in my career! Even when Beckenbauer led the team to win the European Championship three consecutive championships, I was not so excited. “

Hey, do n’t you say you are a Bayern fan for thirty years? It is now 2009. The last season that Beckenbauer led the team to win three consecutive championships was in 1976. Are you sure you

were a Bayern fan then? Lu Qiujian secretly slandered, but his face still maintained a smile, “Although Bayern’s results this season are average, but I believe they will recover soon!”

“Hey, it would be nice if you left Bayern in the latter half of the year! Then we can be the first team to win the European Championship three times in a row! Then there will be a chance for AC Milan to win the championship.” The expression machine regretted that Lu Qiujian began to believe that he was really a Bayern fan.

After a few words, Bayern Capes finally entered the topic, “Professor Lu, I would like to know how many products of this factory will be sold externally?”

“I’m afraid you have to ask Chairman Liu for this! But our Xihe plan can’t eat all the products. I think this factory will probably have 2,000 to 3,000 tons of products entering the market every year?” Liu Guangming blocked the childcare for a while! The growth of Chang’an Nonferrous Metals Company is also good for Xi and the plan!

“Then how will these products be sold? Can I now order the products after the factory is built?” Keppes’ eyes suddenly brightened! It would be nice to have extra products! The price of Chang’an Nonferrous Metals Co., Ltd. is Biwei The En Group also has a lot of bargains! If you can sign a contract, you will certainly be praised by the company!

“I won’t invite you out so much. If you need me, I will say hello to Chairman Liu, I believe he will give you some convenience!” The expression on Lu Qiujian’s face seemed to be saying, since you are a Bayern fan , Then I will help you!

“Thank you so much!” Keppes gave thirty-two praises for his witty response. It seems that it’s still very good to throw away such things as morality occasionally!

I am a Frenchman! I seem to say that I am a Bayern fan. Is n’t it appropriate? Francois on the side looked at Kepez with jealousy, and his mind was running fast, wondering what excuses to make with Lu Qiu!

Hey, there is. I seem to be able to say this! He flashed his light and stepped forward to Lu Qiujian. “Professor Lu, I am Francois of the French Aerospace Research Center. I have heard many times from Professor La Forge You. I finally saw you this time! Please allow me to say hello to you instead of Professor Lafouge! “

“Oh? Do you know Mr. Lafouge?” Lu Qiujian asked with great interest.

“Yes! I met Professor Laforge when I was studying in the Higher Normal School in Paris! Although I came from a different major, the relationship was not bad. I often asked him about mathematical problems related to aerospace!” François Politely replied, “We also often meet after graduation. I will visit him every time I pass the French Institute for Advanced Studies!”

At this time, Keppes secretly pointed to François Bibi in my heart! I just betrayed my favorite team. You did n’t even want your alma mater! I am really sad for Lille University, she How can you train such a shameless student like you! You guys who have no discipline!

“Ah, Mr. Lafouge and I haven’t seen each other since the Global Mathematicians Conference in Madrid three years ago! I just often saw his articles in various journals! Mr. Lafouge Maintaining strong creativity, many articles are very inspiring to me! Is his body okay?” Lu Qiujian asked happily.

What do I know! I have never met Professor Lafouge! I just talked to him at the research center many times, and François nodded with a smile, “Mr. Lafouge ’s body is still very Healthy. I will surely convey your greetings to him when I return to France! “

After finishing speaking, he quietly squeezed his eyes at Keppes. Look, not only will you betray the morale! I am also very good at this hand!

“Then thank you, Mr. François! I hope he will have time to come to China this year to participate in the awarding ceremony of the New Mathematics Discovery Award!” Lu Qiujian also responded with a smile!

“In the French mathematics world, people are more accustomed to call this award the Lu Qiujian Award!” Before he came, François did some preparation work, knowing that this award was initiated by Lu Qiujian! It is not clear that the French mathematics community really calls the Mathematics New Discovery Award this way. François said that I am not a mathematics person.

However, it seems that his words made Lu Qiujian very happy. Without saying a few words, he also won the same opportunity as Kepes. Kepes, who was on the side of the air, gritted his teeth! Damn, the method I came up with was hard to come up with. You shamelessly plagiarized! I knew I would come back when your chat is over!

However, I didn't wait for them to go far. Korver, who has been watching the SpaceX company for a long time, also came over, "Professor Lu, we are alumni of Princeton! I will go to the scene to cheer for you in every game of NCAA!"

Fuck! You guys are clearly from Duke University! And don't you like Duke Blue Devils! You guys who betrayed twice! Kepez and Francois yelled at the same time in our hearts, we both betrayed Alma Mater. One betrayed the team, you guys even betrayed the Alma Mater and the team together! It's too. It's too special.

"There are still posters in my house when you lead the Princeton Tigers to win the NCAA championship! This is really the most memorable scene in my forty years of life!" Korver chattered every detail of the game, Ooo, actually I watched a game of you, and that game my beloved Duke Blue Devils were also slaughtered by you! But as long as I can get commercial benefits, I don't want to do this!

#### Chapter 584 - Mining Group

"Aha, I think if you have time, you can try to sign a short-term contract with an NBA team that has entered the playoffs and play only for the playoffs. I believe that with your strength, you will definitely lead this. The team won the NBA championship!" Korver tried his best to say good things.

"Oh, my God, let's take a look! These people's monetization is simply disgusting!" On a table not far from Lu Qiuqian, Calif Yukel of Canada Ukel Rare Earth Company sneered. Among the guests, the performance of their table is the most calm, because this table is all seated by the world's major mining groups!

"You said that the expansion of Changan Non-Ferrous Metals Corporation has any impact on our mining companies?" Dustin Linus of Australian Linas Mining Company is not as calm as they are.

"Dustin, don't worry about this kind of minerals in our country is running out! The rest are all poor mines! As long as the alliance between us is not divided, even if the volume company, Wayne Group and Salman. These big companies of the group have collapsed! They still have to buy ore from us at a high price!" Josephus of Hibney of South Africa's Great Western Mining Group shrugged. "But their production technology is really jealous! If we it's good to have these technologies!"

Come on, since you came to power, what exciting technology have you developed in South Africa? Even if there is any mining company that can get this technology, it should be us Yukel; Calif Yuk Er secretly sneered, but their mineral reserves are really jealous!

“Mr. Josephus is right, if they can’t sustain it, I think we should make the connection between each other closer!” Yukel knows that there are four big buyers in the market and only The situation of a large buyer is completely different. The former can give them ore suppliers a greater say, while the latter leaves Changan Nonferrous Metals with more choices.

Because of its location in Canada, the transportation cost of Ukel Rare Earth Company is higher than that of Australia’s Linus Mining Company, and the labor cost is higher than that of South Africa’s Great Western Mining Group. Better, if the coalition of these mining groups collapses, competing against each other is the most disadvantageous to them!

“Relying solely on Congolese ore is not enough for this factory to consume! They will eventually have to find us!” Several companies on this table combined to monopolize 53% of the total global mining of this ore. There are still a lot of them that do not enter the international market. For example, the ore of the United States belongs to the Wayne Group, and the ore of India is monopolized by the Salman Group. Only they can open this kind of ore! Tin Linus is still not much to worry about, and even if the companies differ, they can still rely on the cost of transportation to eat the biggest piece of cake! Who made them the closest to the port of Jingle City!

“Oh, see who is coming! Dear Mr. Liu, finally have time to meet us small businessmen!” Josephus, the Sibony, looked at Liu Guangming, who was approaching them proudly. Most of the guests present today took the initiative. It’s not hard to understand the meaning of going to him and he has now left them and found himself.

“Aha, bet ten dollars! I guess the respected Mr. Liu must come to us to talk about the import of ore!” Calif Youkel now looks at Liu Guangming as if he were looking at a bunch of moving gold bars. It feels really pleasant to send money by myself!

“Come on, Caliph, no one will go to a gamble that is already doomed!” Dustin Linus said, lowering his voice. “I think we have to be firmer in a while! After the contract of Hezejuan Co., Ltd. expires, the price remains high! “

“Of course, as long as we are consistent with each other, this goal is not difficult to achieve!” Josephus, the Hiberny, nodded, no company would be willing to spit out the profit of the mouth, and they were used to the high price. Certainly will not reduce prices.

“Mr. Linus, Mr. Ukel, Mr. Josephs” Liu Guangming walked over to the table and held up his glasses, calling their names one by one, “Come and drink for our friendship!”

“Cheers!” Cheers for the profits you gave us in the past! Youker and others said so in their hearts, and then raised their glasses to drink. In the past, although it was Wayne Group and Zejuan Co., Ltd., they occupied the bulk of the purchase, but Changan Nonferrous Metals Company did not spend less on them! And because of the existence of this company, they can make it to Zejuan Co., Ltd. These companies demand high prices! The premium purchase contract just signed proves this point.

“Is this meal the same as your appetite? The ancestor of this banquet is the chef who cooks for the emperor of China.” Liu Guangming greeted them diligently, chatting for a while and seeing them in a good mood. Gentlemen, you must have seen the expansion of our new factory! After the new factory is completed, we will definitely need more ore, and hope to have another pleasant cooperation at that time! “

“Of course, this is what we look forward to!” Calif Yukelpi replied with a smile, “I don’t know when this new factory will be built?”

“Soon! It is expected to be completed by the end of this year!” Liu Guangming replied confidently. Wow, the speed of the construction of China is really enviable! “Dustin Linus The mouth is exaggerated and the factory of this scale is completed in such a short time, which is completely unimaginable in Australia!

“Gosh! At the same time, if you are in South Africa, I am afraid that you can do the basic part well!” This is good news! The sooner the factory is completed, the sooner they will have demand for ore! Great opportunity!

“We found the best construction unit in China!” In the construction industry, the best in China now almost means the best in the world. After all, which country has so many construction projects besides China? This is the same as surgery. Like doctors, more contact will naturally lead to superb technology.

“Once the factory is built, we will need more ore, I think you will be willing to cooperate with us, right?” Liu Guangming looked at these mining oligarchs and asked with a smile.

Chapter 585 - You are proud

“We are very willing to cooperate with a company as strong as Changan Nonferrous Metals Company!” Calif-Yuker said haha, “We will definitely negotiate with your company when this contract is completed!”

“Yes, with your current technology, the profits must be very rich? Presumably, more funds will be invested in the purchasers by then!” The Sibony Joseph-can’t help it!

Dustin Linus is speechless to this guy who has no city at all. What is the use of saying this before the negotiation? It is also easy to cause the other party to be alert.

Hearing this, Liu Guangming not only frowned, “How many tons of ore can you take out at the end of this year? Our demand will definitely satisfy you!”

Demand is not enough, and the price must make us happy! Dustin Linus made a distressed look, “Liu, according to the scale of the factory, we can also judge that your ore demand will be very large!” This is really happy for us! Greater demand means higher profits, “I believe everyone would like to provide you with enough ore, but we have signed a contract with Zejuan Co., Ltd. and Wayne Group. To supply them! If you want to cooperate, I am afraid that you have to wait until this time the year after! “

“That’s too bad!” Liu Guangming’s face suddenly became unsightly. “Is there really no way? We can offer them a higher price than Zejuan Co., Ltd.! As long as you can provide ore!”

“The price of Zeju Co., Ltd. exceeds ten percent of the current market price!” Calif-Yuker directly added some more to the contract price! This is a wonderful contract! But did we sign it earlier? If you wait until you sign it now, maybe you can get even higher? Youkel certainly knows that the volume contract is for Changan Nonferrous Metals Corporation!

“Exceeding 10% of the market price!” Liu Guangming’s face was even harder! With a sneer in your heart, how dare you greedy guys! He frowned and thought for a while before he gritted his teeth and asked, “Does the contract you signed have an output standard? I think they might not buy a pile of ore that exceeds their digestive capacity and waste the space there? If you guys Is it possible for a company to increase its production capacity and sell some more ore to us? “

Youkel and Linus and others exchanged glances, hiding the joy in their hearts, pretending to think for a while, and slowly said, “Liu, we are all old friends! Although we also want to help you, but you know, Although there are indeed such loopholes in the contract, but the current output has reached the limit of several of our companies, if you want to increase production, you must buy more mining equipment and recruit more staff, these are all important words. The price! And the current financial situation of our company does not allow us to do so! “

Ok. This is a good idea, we can use this as an excuse to find Zejuan Co., Ltd. They demanded a price increase! Otherwise, we will increase production and sell excess ore to Changan Nonferrous Metals Corporation! It seems that this ceremony did not come in vain, and this has not found a good way to blackmail others! Ah, the excess profits brought by this kind of competition in the same

industry are really pleasant! Oh, God! Let these companies compete more fiercely! Youkel and Linus drew a cross in their hearts at the same time. Josephs on the side still didn't understand. But out of trust in them, they nodded in coordination,

"If we paid a large deposit in advance, wouldn't you be able to use the funds to expand production?" Liu Guangming said almost everything in their hearts today.

Yes, yes, all we want is this! As long as Changan Nonferrous Metals Co., Ltd. has such an intention, we can use this as an excuse to blackmail ... Oh no, it is to renegotiate with Zejuan Co., Ltd.! Linus was afraid that Yukel would be too decisive. Quickly interjected. "It's just a possibility. If they are protesting by the Juan Co., Ltd., we will be very embarrassed! After all, they are our biggest customers now!"

"We will come up with a price that will satisfy you! Using new technology, our profit margin is definitely higher than that of Zeku Corporation! Now we don't worry about sales at all, only worry that there are not enough raw materials for production! "Liu Guangming is now an intimate elder sister. Youkel said what they want to hear directly.

"Oh? What kind of price are you willing to pay?" Linus's heartbeat began to accelerate. The higher the price of Liu Guangming, the more they would be able to obtain more benefits from the blackmail.

"Twelve percent more than the current price!" Liu Guangming gritted his teeth in distress. "We need as much ore as you want to increase production!"

Aha! That's a profit of hundreds of millions of dollars! The hearts of several people blossomed. Willing to provide large deposits, and willing to increase the purchase price! On Liu Guangming's face, there were six characters written on the face of money and many people foolishly!

Forced to suppress his desire to immediately promise him, Ukel continued to work hard, he shook his head and said, "I am afraid that these two prices cannot offset the cost increase caused by the increase in production! I think it must be at least 20% higher for us Willingly bear the risk of their accountability.

"Twenty percent is too much! We can barely accept 13 percent!" Liu Guangming bargained!

"Nineteen percent!"

“13.5 percent!”

“Eighteen percent!”

“Fourteen percent!”

A few rounds between you and me. Finally, the intention was finalized at 15% above the current market price! At this time, Liu Guangming seemed to be relieved. He pulled on his tie and said, “Then I will prepare for this standard when I go back! You better consult and discuss how much output can be increased?”

“No problem! We will come up with the result in the shortest time!” Youkel quickly assured, but he did not intend to implement it at all. Using this news as an excuse to let Zejuan Co., Ltd. add a little more price! The risk of rushing to expand production is too great. Limiting production to increase profits is a good way to maintain your own initiative!

“Wish us a happy cooperation, cheers!” Liu Guangming turned to leave after another glass of wine, and sneered in his heart, and let you be proud first! In the future, it is time to pull the list!

Chapter 586 - Take advantage of the fire

“Let’s have a drink for the glorious future!” After Liu Guangming left, Ukel raised his glass again. This time he was happy in his heart. What about the new technology developed? As long as you need our ore, you have to accept our extortion! God, a factory with an annual output of 5,000 tons, how much ore will be consumed every year! He seemed to see that the conveyor belt of his mine was no longer the rare earth ore, but the golden gold!

“Cheers!” Linus, Josephs and others raised their wine glasses at the same time. They were red with excitement and their eyes flashed with greed; ha, the arms dealers who used the contradictory between the two parties to sell weapons at high prices during the war were no more Right? God, bless the competition between Changan Nonferrous Metals Corporation and Zejuan Co., Ltd. increasingly fiercely!

“Look at it! The lovely gentlemen of Zeman Co., Ltd. and Wayne Group are not looking right now! Should we comfort them in the past?” Ukel looked at a corner of the hall with a chin. That table is probably the only one in the hall except for theirs, but no one got up to pay their respects to Lu Qiu Jian and the management of Changan Nonferrous Metals Co., Ltd. They must not be in the mood after seeing the new plan of this factory well.

“Why not?” Linus said with a shrug. “I feel that as a close partner of Zejuan Co., Ltd., we have an obligation to inform Mr. Zejuan of the results of the discussion between our respected Chairman Liu and us!”

It’s really shameless! The extortion is said to be so grand, but I like this idea, who makes me a dynamic party! Josephus picked up the glass, “What are you waiting for? Let’s go!”

“Mr. Zejuan, you look much worse than when we last met! Are you worried about seeing the new technology of Changan Nonferrous Metals?” Ukel walked over and pulled a chair beside a young man Sit down, he was the eldest son of Zeng Qianbingwei, and Zuoweimen, and this time he represented Zijuan Co., Ltd. to attend the ceremony.

When he first saw the technical indicators of the new products of Changan Nonferrous Metals Company, he thought it was just something that Changan Nonferrous Metals Company took out to scare people. At most, they only completed the preparation of the laboratory, and they needed to enter industrial production. For a long time, who knew that Kojima Kojima’s report broke his fantasy! Now that he sees that the expansion of this factory has exceeded twice the production capacity of Zejuan, how can he be happy?

But they met Yukel. Face support anyway! Then Zuo Weimen pretended calmly, “The technology of Changan Nonferrous Metals Co., Ltd. is beyond our imagination. The development of a new generation of products by our R & D center of Juan Co., Ltd. is nearing completion. Whether this product is from technical indicators or production The cost is better than the new products of Changan Nonferrous Metals Co., Ltd.! I believe you will see more excellent products in the international market in a short time! “

“Wow, that’s great!” Youkel gently clapped and said, “If the new product is successfully developed, I think you will definitely need more ore? It seems that our cooperation scale can be expanded again. ! “

Ok? What does it mean? Reminiscent of Liu Guangming just talking with them in the past. Then the unforeseen hunch surged in the heart of Zuoweimen! He tentatively said, “I’m afraid the contract we signed last time has reached the production limit of your company? Can you still produce more ore?”

“As long as the customer has a need! This is not a problem!” Yukel said in a pun. “Only relying on the contract signed with your company, we can get a loan of hundreds of millions of dollars from the bank! With this fund we completely With the ability to purchase new mines and add more mining facilities, Queensland has recently discovered another mine with amazing reserves! Xugong

Group of China also showed us their new mining dump truck not long ago! 400 metric tons. Maximum speed 50km / h. Lifting time 24s! God, this is really a monster! I have long wanted to buy a batch of such minecarts! “

“Yes, I have also read the promotional materials of this kind of minecart! It’s awesome!” Linus played the role of a good player, and immediately took Yukel’s words, “I saw this Planting a minecart, I know it is the dream baby of our mineral companies! Only need more than ten such minecarts, I will be able to increase our company’s output by 20%! You said if the three of us would negotiate together, would XCMG give us a big discount? “

I want this thing to do a good job? Now South Africa may not necessarily find workers who are good at operating such complicated machinery? Josephus vomited in his heart, but said something else. “Of course, I also want to book fifteen ... oh no twenty!”

As I spoke, the cold sweat that rolled up Zuoweimen came down! This mineral purchase contract has already used up most of the liquidity of Zejuan Co., Ltd., plus the consumption of research and development costs! Now I can’t afford much money! They now want to increase production! What is this for?

“If our new product research and development is completed, we will definitely add orders to you!” He now has to use the drag word to deal with the past first, wait for it to go back and then roll the soldiers Report this situation.

“That’s great!” Youkel applauded happily. “Just now Mr. Liu wanted to buy all of our production-increasing ore, and the price was very sincere! But we think this is something that should be given priority to old friends, so I did not agree easily, and now it seems that we have made a wise decision! “

“Calif. How could Zejuan disappoint our old friends?” Linus followed suit, “but it is only 17% higher than the current market price. The price will certainly be happy! “

Ghosts will rejoice! You scumbags looting! Then the teeth that Zuoweimen only hated are tickled, and the mouth is delicious! But when he thought of the consequences of Changan Nonferrous Metals’ acquisition of these minerals, he swallowed it back.

This trip to China is terrible! First of all, I saw such a large-scale new factory of Chang’an Nonferrous Metals Company, and I saw the ugly face of this group of capitalists who eat people and don’t spit bones! These bad news hit the left back door is about to collapse!

## Chapter 587 - Cabbage price

“Everyone! Please be quiet! I have good news to announce!” Liu Guangming’s voice sounded, and everyone at the venue looked at it in the direction of the voice. Liu Guangming walked to the center of the hall with red lights, and Kappez was excited Waving around.

What is he going to do? Then the heart of Zuo Weimen mentioned his voice, have they already reached a purchase agreement? The small circle of rare earth metals is so big, so Zuo Weimen certainly knows the real power person Keppes of the purchasing department of Schroeder. If this is the case, it is not good news! Previously Schroeder ’s products were always supplied by the Wayne Group. Now Changan Nonferrous Metals Company seems to have torn a small crack in their alliance. If there are no restrictions, then Roll Co., Ltd. and Wayne Group This not-so-strong alliance headed by the Salman Group may soon be beaten under the offensive of Changan Nonferrous Metals!

The hustle and bustle in the hall gradually calmed down, and everyone looked at Liu Guangming with mixed reactions; the local officials headed by Liu Haitao were particularly expecting, it seems that this was an agreement? Just after the foundation was laid, customers came to the door, which is a good sign!

Representatives of mining groups such as Youkel, Linus and Josephs put their eyes on Zui Juanmen more, and the more anxious he behaved, the better for them.

Francois and Korver are more concerned about the price and number of transactions reached by these two companies, which is very important to them! Damn it, let this guy with no temperament grab the front! Francois and Korver secretly depressed, it seems that they lost enough of their morale!

“Just now, Changan Nonferrous Metals Co., Ltd. and Schroeder AG of Germany reached a preliminary cooperation agreement!” After enjoying enough attention, Liu Guangming slowly said good news. The German company sells ten tons of our newly developed rare earth metal! The unit price of the transaction is 1,000 US dollars per kilogram! The total contract value is 10 million US dollars! “

One thousand dollars per kilogram! This price caused a shock at the scene! Francois pinched his thigh hard, and Korver couldn’t help but dig out his ear! He couldn’t believe what he heard was true!

“Excuse me, Mr. Liu! Am I right? You are talking about a thousand dollars per kilogram? Instead of a thousand euros?” Korver couldn’t help but ask, the exchange rate of RMB to US dollar is about

6.8. The exchange rate of the euro is 9.6! Previously, the unit price of Changan Nonferrous Metals was 10,000 yuan per kilogram, which has been reduced to 1,000 euros per kilogram! It would be too exaggerated if it was one thousand dollars!

“You heard it right! What I just said is indeed a thousand dollars per kilogram!” Although Liu Guangming always wanted to maintain a reserved attitude, the arc of the corner of the mouth is not upturned and has sold everything! He raised his voice. “Changan Non-Ferrous Metals Co., Ltd. has now adopted a brand-new production technology, and the production cost has dropped significantly! The output has been greatly increased! Therefore, we now have the conditions to provide you with products of higher quality and lower prices!”

Wow la la la! In addition to the representatives of competing companies such as Zuoweimen, others all applauded. A price reduction of more than 30%! How much production cost can this save them! Damn it, Capez, the lucky guy! Really ... really envious! François and others can only wish that they were standing beside Liu Guangming.

Ha, I saved the company at least three million dollars in funds, the company will definitely give me a bonus! Kepes couldn't help laughing! He has begun to fantasize about Hawaii's passionate straw skirt girl! When I come to China next time. Should I wear a Bayern jersey? Compared with the cute bonus, what is the morality?

“Mr. Liu! Space-X is willing to buy 20 tons of the latest model rare earth metal from your company at the same price!” Although there is no authority, Korver can't care about so much at this time! He didn't believe he could blame him when he returned to the company after he reached his intentions. After a while, make a phone call and report back urgently!

“Chairman Liu! We at Blue Origin also want this high-quality metal!”

“Mr. Liu, Dassault Co., Ltd. hopes to reach a more intimate cooperation agreement with your company!” After being reminded by Korver, more people immediately stood up. Some irritability even started to squeeze Liu Guangming.

damn it! Still work in the company! Francois is going to be blind now. However, he still dared not to insulate the price. The response rate of the research center was far inferior to these profit-oriented companies. He did not care that it was French time at night and immediately called the person in charge of the research center.

Dear Mr. Han Maier, please answer the phone quickly! François stomped anxiously on his side, and he can understand with a little calculation that the current output of Changan Nonferrous Metals

Company certainly cannot meet the needs of all customers. If there is no way to reach an agreement with them, the French Aerospace Research Center will have to find a Co., Ltd. or Wayne Group went to buy those products with higher prices and lower quality!

“Do n’t worry everyone Our company has sufficient product supply capacity! I believe you have just seen it at the ceremony. Our new factory is under construction! When the factory is completed, there will be more quantity and price Lower products have been put on the market! “Anyway, now that the supply of Xi and the plan has been cut away, Chang’an Nonferrous Metals Co. has no more products left. It is better to release the news in advance and push the market price down again! Liu Guangming proudly turned his eyes to the position of Zuoweimen, you must be very excited to hear this news, right?

It will be even lower! The unit price of one thousand dollars per kilogram has made them less profitable! Moreover, the quality of their products can not keep up with Changan Nonferrous Metals Company, when the customers find them in time, they will definitely lower the price! The final transaction price can be as good as \$ 800! Then Zuoweimen almost cried, and \$ 800 is basically the same as their cost!

Can you still make money at this price? What is the level of your technology? Then a sense of powerlessness surged in the heart of Zuoweimen! He could not imagine the situation after the expansion of the new factory of Chang’an Nonferrous Metals Company! One thousand dollars is already the market that the world’s major companies are rushing for! Do you really want to buy this metal at the price of cabbage to be happy?

What’s the profit for a while? When you all collapse, what price will we sell? Liu Guangming thought secretly.

#### Chapter 588 - Big crisis

This time, the great crisis of Nomaki Co., Ltd. has really come! Before coming to China, Zuo Weimen had anticipated the difficulties he would encounter, but he did not expect Liu Guangming to directly hit the price by more than 30%! Sales prices have fallen sharply and mineral prices have skyrocketed! In the past, the profits of Zejuan Co., Ltd. have been eaten clean. If the technical breakthrough cannot be completed before the new factory is put into production, this time, Juen Co., Ltd. will really become a historical term! Then Zuoweimen is now scary with a pale face! Cold sweat kept coming out of his forehead.

At the end of the ceremony, many guests did not directly leave -X, Blue Origin and other companies actively looking for Liu Guangming in order to buy more products! And Yukel and Linus and others have stayed, whether they really want to reach an agreement with Changan Nonferrous Metals Company, or they want to put pressure on the alliance led by Zejuan Co., Ltd. in this way. , This is a very good opportunity.

After some less intense negotiations-although companies such as X and Blue Origin did not get the amount they were satisfied with, they did not return empty-handed. They all got a part of their products and got Changan Nonferrous Metals Company. 'S commitment, once the factory expansion is completed and the official production can meet all their needs! This result satisfied them. Well, it seems that the amount they purchased from Wayne Group and Zejuan Co., Ltd. can be adjusted down a lot!

As for Yukel and Linus and others, although they did not get the purchase contract of Changan Nonferrous Metals Company, Liu Guang personally accompanied them with their delicious and delicious drinks tomorrow, and they have already shown their attitude, the only thing that makes them feel sorry It is that Changan Nonferrous Metals Company is now throwing all its funds on the expansion of the factory, and can't get a deposit! However, they already plan to expand the scale of production after going back, I believe as long as the ore is produced. Can always find buyers who are willing to pay a high price!

The only dissatisfaction at this ceremony is probably the alliance led by Zejuan Co., Ltd. and Wayne Group! Then Zuo Zuoweimen and others returned to their respective companies the day after the ceremony, and brought these bad news to Zui Juan Qianbingwei, Mr. Wayne and Mr. Salman.

"The price of one thousand dollars and one kilogram?" Mr. Wayne leaned forward, staring fiercely at the guy who brought him bad news with the eyes of a vulture. "Are you sure you have heard it wrong? What do the Chinese want to do! Can't such a good product find a buyer? He can sell these products for \$ 1,500! There are even a lot of them even for \$ 2,000. People are willing to line up with cheques! "

"Mr. Wayne ... I think relative to short-term profits, they want to have absolute say in the industry!" Alfred, the assistant who had just returned from the ceremony, replied tremblingly. "They want to break us down with low-priced goods! When only the Chinese are left in the market, they can do whatever they want!"

"They don't want to do it! How can they provide enough products to the market to meet the needs of those customers without ore? We monopolized the global supply of ore and high-quality customers like nasa! It's definitely not easy for them to be defeated!" He knocked \*\*\*\* the table and said.

"I'm sorry to disturb you! Mr. Wayne!" His secretary knocked carefully on the door, then the probe came in and said, "Mr. Nasa Guzman's phone!"

“Help me pick it up!” Mr. Wayne waved his hand to signal Alfred’s departure, and then picked up the phone. “Hi, Guzman. How are you recently? You haven’t called me for a long time! Do n’t have time? I plan to organize a yacht party! The hot bikini girls are in the best years of drinking, sunny beaches ... “

“Wayne, my old friend! Let’s talk about the business first!” Gusman had to interrupt his words. “Wait until the purchase contract for the next quarter is finalized!”

“Aha! How much do you need this time? Thirty tons? Fifty tons? Or a hundred tons?” This is simply a drowsiness and someone will send a pillow! Wayne was immediately excited, “Wayne Group is dedicated to serving you and satisfying the needs of customers is our eternal pursuit ...” Wayne is now smiling like a senior call girl waiting for customers to be lucky!

“Twenty tons of demand! What is your insured price? When will it be delivered?” Guzman interrupted his lyrical expression again and said coldly.

“Twenty tons? My dear Mr. Guzman! Is this 50% less than in the previous quarter?” Wayne surged a hunch that he did not want. “Did you cut your budget recently?”

“No, it’s just that the bosses don’t seem to need to continue to stock up on this kind of material now! Okay. Wayne, please talk about your price! If it’s appropriate, I will sign the contract tomorrow!” Guzman said a little. Impatient.

“Waiting for your arrival at any time!” Wayne’s eyes turned quickly, ruthlessly lowered the price a little bit. “This time I will give you the best price, \$ 1,400 a kilogram! Two hundred dollars lower than last time!” Wayne’s heart seemed to be bleeding, and he lost two hundred dollars per kilogram, twenty tons is four. One million U.S. dollars! This is not a small number!

“I’m afraid this price is not suitable! Wayne, Changan Nonferrous Metals’ products are better than yours They only need a thousand dollars!” Guzman said the name of the company that made him the most headache. .

Then you go find them to buy! After all, Wayne did n’t dare to say this. At this critical juncture, he did n’t dare to offend big clients such as nasa, he asked. “Gusman, what is your psychological price?”

“Eight hundred dollars!” Guzman directly cut the price of the past. “I will fax the contract later. If there is no opinion, I will sign the contract tomorrow. Well, Dr. Abu Dadi called me and I will hang up the phone! Wait for you to read the contract and reply to me! “

“Eight hundred dollars! Why don’t you go looting!” Hearing the beep from the phone, Wayne directly picked up the beautiful crystal ashtray on the table and hit the wall fiercely.

However, the bad news didn’t stop there. Just when Wayne was worried about whether he should agree to the quotation of Nasa, the phone of Qianqianwei was called again. “Wayne, Youkel, they just contacted me and said To increase the output of ore, ask us if we want to follow! If we are not willing to accept it, they will sell this batch of increased ore to Changan Nonferrous Metals! “

This is really a big crisis! Wayne collapsed weakly in his chair!

Chapter 589 - Can't get in

Changan, a high-end club in a certain place, Xu Tianyi is holding his arms around and the little friends in the box are blowing their cows, “It ’s not that I ’m bragging, there are not many things I can’t do in Changan City, last time Who does n’t want to take the land in the southern suburbs? I can’t do the formalities and find my head. I called the mayor of the new city, and I ’ll take care of it! Since you are all less than the introduction , Then we are ourselves! If anything, please speak! But there are some things to talk about. “

Xu Tianyi drew his arm and drew a circle in the box, and his finger finally fell on the head of the table. “You also saw it. My usual expenses are not small, so I can’t be a gang!”

The opposite fat, thin and looked at each other, the fat man laughed twice, “Oh, we have heard of Xu Shao’s strength, we must be trustworthy!”

A lot of flattery, plus the kindness and persuasion of the two little girls, it did n’t take long for Xu Tianyi to feel dizzy! The two people on the opposite side also got the promises they wanted; of course, it is inevitable to ask this man to go out and make a fortune! But what is this compared to the gains that will be obtained!

“That’s so little, we won’t bother you!” The two stood up respectfully and were ready to leave. Before going out, the fat man didn’t forget to give the two girls a look, “beautiful, smiling, but take care It ’s so much! Make sure to let Xu Shao have fun! “

The \*\*\*\*\* the left nodded slightly, indicating that she understood what the fat man said; after the two of them left, the three of them got up from the club soon after, and Xu Tianyi staggered toward the door of Martha.

“Xu Shao, let me drive!” These two dare not let Dr. Xu, who is drunk, drive, and Meimei, who didn’t drink much, quickly took the key from him. “They haven’t opened Aston Martin! Xu Let me try if you are less!”

“It’s easy to talk!” Xu Tianyi released the key and took the opportunity to twist it on her face. “Baby, if you are satisfied with my service, I will give you one in the future!”

“Really?” Meimei’s eyes immediately became full of stars, and Mua kissed Xu Tian with a sip. The bouncer went to drive, and the three entered the car. Meimei started the car and looked at Xu Tianyi, the co-pilot, “Xu Shao, where are we going?”

Xu Tianyi stretched out his dizzy head and looked at the surrounding location, “Or shall we go to Shangri-La? Just two turns, I will have a long private room there!”

Thinking of the fat man’s eyes before leaving, Meimei knew that he was reminding himself to know the details of this young master Xu tonight, so don’t be fooled by him! Shangri-la’s long private room, although expensive, could not detect his details. It would be nice if he could go to where he lived, so Meimei started coquettishly, “Well no! Shangri-la people have lived, too, but that doesn’t match your identity with Xu Shao! Let’s change places?”

“Good! If you say change, let’s change!” Xu Tianyi can be said to her right now, “Shall we go to Westin?”

“Nothing new!”

“Sheraton?”

“No grade!”

“Hilton?”

“No style!”

“I said you really want to go there? In Chang’an City, these hotels are also OK!” Xu Tianyi was also annoyed by her!

“As long as these places are willing to spend money, anyone can go in. Doesn’t it deserve your identity at all?” Meimei encouraged. “You take us to a place where ordinary people can’t go? Let us have a long view!”

“You little goblin!” Xu Tianyi was itchy by her words, yes. How can I show my strength in a place where the upstarts can go in? What place in Chang’an City can best satisfy their vanity? Hey, with that, it seems you can go there! “Okay. Today I will open your eyes! Meimei, you will first open towards the south of the city! When I arrive at the south of the city, I will tell you how to open it next! I will take you to the highest standard place in Chang’an today!”

“Where is that?” There are many high-end villa areas over there, but what is he going to go to?

“Don’t worry about this! Don’t be afraid to go in when you are afraid!” Xu Tianyi leaned her head on the back of the chair and showed her directions from time to time. It took about forty minutes or more. Aston Martin I came to a building door that didn’t look so impressive.

“This is there? Why are you standing at the door or the guards?” Mei Mei is a little nervous, shouldn’t she play big today?

“Tell you to remember!” Xu Tianyi smugly took out his mobile phone. “This is the best nursing home in Chang’an. The elders lived here when they inspected Chang’an! They are not open for business. Most people cannot enter. Not to mention staying inside! I will take you both in and open my eyes today! “

Meimei and Xiaoxiao took a breath at the same time. At this time, they no longer doubted Xu Tianyi’s identity. He quietly listened to his call.

“Hey, Uncle Liu? I ’m Tianyi! Did n’t disturb you? ... That ’s good then that is good! ... There is something I want to trouble you ... . “Xu Tianyi said while throwing a proud look.

“Tianyi! Is your father okay lately? ... OK. If you have anything to say, as long as Uncle Liu can do it unambiguously!” The voice of a middle-aged man came on the phone.

“It’s the last time. I’m at the door of the nursing home in the south of the city. Do you think you can let me in? I stayed in tonight for one night!” Xu Tianyi said with a smile.

“What? Are you at the gate of Seongnam Sanatorium?” The voice on the phone became hurried, “You didn’t report my name to the guards? ... Fortunately! ..... Xiao Xu, Listen to me, you will leave now! If I usually agree But the nursing home will need to be dispatched recently! The inside has already started to pack up! You go back today! Wait for this thing to end I’ll call you, how long do you want to live by then? “

“Who is going to use it? Why haven’t I heard that someone has come to Chang’an recently?” Xu Tianyi couldn’t help it, and his tone became a little harder. “Aren’t you lying to me? If you don’t say it, I’m going straight Did you drive in? “

“Don’t give you and your dad to go into trouble!” There was an anxiety over there. “The one in the mountains in the south is going to get married! The elders will come to support it by then! Hurry up!”

Which one in the mountains to the south? Xu Tianyi passed the characters he could not afford in Chang’an City in his head, and then took a breath of air. “Who are you talking about? The one who went to the court a few days ago to make some news?”

After getting an affirmative answer, he hung up the phone without saying a word, and said with a cold face, “Go, go back to the city!”

“Xu Shao? Do people want to go in!” Mei Mei still whispered at this time.

“Fuck you! You don’t leave me!” Xu Tianyi kicked her out of the car without saying a word or two, and came to the driver’s seat to start the car and go away!

Chapter 590 - The male \*\*\*\*\* is getting married

Who can make Xu Tianyi so scared except Lu Qiu Jian? He is not fake as a dude, but the most important thing as a dude is to understand who can provoke who can not! Although Lu Qiu Jianping didn’t do much activity in Chang’an City, his legend still circulated in Chang’an City. Whether it’s talking with Bill Gates, Jobs, Bezos and other top rich people, it’s because of the investigation Under his license plate number, he entered a first-line star, and even caused Chang’an City to drop a deputy director of the Public Security Bureau; these stories were firmly remembered in their hearts.

Xu Tianyi doesn’t think he is more important than a deputy director of a public security bureau in a deputy provincial city. Besides, there are elders about to stay here. He said he dare not stay.

Regardless of how the girl kicked out of the car went back, Lu Qiu Jian was also preparing for the final wedding at home, let his parents arrange for a day, and at night Xia Xiao was tired and lying in bed early Going to sleep.

This amount of exercise is a little bit for Lu Qiu Jian. He helped Xia Xiao tuck the quilt and turned on the computer boringly. Now he is neither in the mood to deal with official duties nor to brush up papers on arxiv. Simply go on the bib! During this time, he often appeared on the bib to carry out the popular science to fans and convey the latest progress of China's space exploration plan, and soon became the most concerned blogger on this bib platform.

Log in to your account and ignore the messages from @ 他 and sending him private messages. There are too many people who want to find him. If you go to see them, you do n't have to do anything else in your life!

After a few laps on the bib, I quickly found an interesting bib. A Christian star sent such a bib, "I believe in the Lord that most scientists in the world are Christians. Why is China There are no great scientists. It is because the Chinese do not believe in Christ! "

Ha ha, this brain gully is also strange enough, sure enough everyone on the bib! Lu Qiu Jian forwarded comments directly. "First, I'm sorry. I don't believe in Christ! Second, there is an article in Nature in 1998. The author surveyed the scientists of the American Academy of Sciences and found that only 7% of the academicians of the American Academy of Sciences believed in God! Attach the link: / nature / journal / v394 / n6691 / full / 394313a0\_1 "

As soon as the comment was issued, it was reposted by countless netizens, "Waiting for Professor Lu to hit his face → \_ →!"

"Hahaha! Now what else do bloggers say!"

"It's kicking this time! Professor Lu, you are so cruel! Is it not good for people to live in fantasy? Do you have to tell people how cruel they are?"

However, the tragedy is still to come. The blogger does not know whether his brain is out of breath (um, is his brain normal?) Or what. He retweeted Lv Qiu Jian 's comment without looking at the name, and added a sentence, "I 'm talking about a big scientist. What achievements do you have in science? Dare to speak like this?"

Seeing his comment, almost everyone was shocked! Dear, is n't this the way to find death? After cracking Poincaré's conjecture and discovering dark matter, as the first scholar in history to receive both the Fields Medal and the Nobel Prize, this is not yet a great scientist. Who is eligible to be given this name?

Rubbed his eyes and found that he hadn't seen it. Everyone started crazy reposting, and no comments were used at this time. The blogger's comments were totally meaningless. A series of “→ \_ →” is enough to explain everything!

In less than an hour, his comment was honored to be the most reposted comment in the history of the old wave bib, but surely he might not be happy because of this matter? Because it did n't take long for him to delete the scarf and comments one after another, but unfortunately so many reposting traces ca n't be deleted. Besides, there are still screenshots in the world, and the actor 's name quickly rose to the scarf. The second search hot word.

Why is it second instead of first? Because Lu Qiujian quickly sent another bib, he put aside the farce just now and turned over a few good wedding photos taken from the computer and uploaded them, “You guys, I will get married in two days. Speaking of which, I am still a little nervous now!”

“Lying trough, the male \*\*\*\*\* is going to get married! Bang Bang Bang! I feel my life is meaningless!” The bib shouted. The already lively bib platform is frying pan again.

The dim and dark female fans who just forwarded the bib laughs seemed to have a thunderbolt on a sunny day, even though they knew that they had no possibility of encountering Lu Qiujian. But when the dream is really broken, it is still difficult to accept.

“Woo, woo, the goddess was abducted by someone else, I feel like I wo n't love it anymore!”

“→ \_ → + 10086, it seems that I am destined to be lonely and old!”

Of course, there are also fierce, “Professor Lu is nervous, this is the first time, the next time you marry me!”

“→ \_ → Smelly face, Professor Lu will marry me next time when he wants to marry!”

Then finally someone started to pay attention to the wedding photo itself, “Wow, Professor Lu looks so handsome in Chinese clothes! What does the” Book of Songs “say? Zhan Biqiao, green bamboo 猗; there are bandits and gentlemen It ’s like studying, like thinking, but it ’s a pity that this gentleman ca n’t be told! ”

The girl quoted a verse from “The Book of Songs-Weifeng-Qi’ao”, which means looking at the Qishuiwan green bamboo forest. Mr. Elegance is a gentleman, he is more exquisite in his study, and his character is better. It’s a pity that this gentleman is getting married, even if it’s hard to forget Xin Tian at first sight, there is no way!

After a lot of noise, most people still accepted this reality and sent their blessings, “Professor Lu and Ms. Xia grow old together and raise their eyebrows!”

“Hundreds of years of harmony, Qin Se and Ming; Lang Cai female appearance, born a pair! No, I would like to say that girl Xia Xiao is the most jealous girl now?”

Although Xia Xiao doesn’t like to appear in the media, she is a public figure after all. It is not uncommon for the superb bib users to recognize her, so on this day, she has become the most envy and envy of all young women in China. The photos uploaded by Lv Qiuqian have also become the most successful photos of this year’s show Eun.

Early in the morning the next day, Lu Qiuqian took Xia Xiao and his family to the nursing home. Although the wedding will officially start tomorrow, many guests have arrived one after another as the protagonist of the wedding. , The two of them should go to meet anyway!

A lot of invitations have been sent, but I do n’t know who will come to the scene this time? Many old friends have n’t seen each other for a long time. I really miss them!
