

# DEMON SCHOOL

## Chapter 6 - Touching love

It's not a pleasant thing to be surrounded, seeing Alphonse's exclamation has attracted many people's attention. ! “

“Wait, you have to tell me how you did it first!” Alfors quickly picked up the textbook and followed. “Are all Chinese students so powerful now? God, if it's not your age, I thought you were Qiu Chengtong! “

Qiu Chengtong is recognized as one of the most influential mathematicians in the contemporary era. His work has profoundly changed and greatly expanded the role of partial differential equations in differential geometry, affecting many fields of mathematics and physics such as topology, algebraic geometry, representation theory, and general relativity. And at the age of thirty-two, he won the highest honor in the mathematics field-the Fields Award.

“Relax, there are not many students who can solve this problem in my school!”, Lu Qiuqian patted his shoulder to express his comfort, and he can immediately understand his problem-solving ideas. This Alfors is not ordinary .

“Thank God! You have saved my little self-esteem!” Alfors drew a cross on his chest. Anyone who sees their opponents in the competition easily overcome their difficult difficulties is not too good! “Professor Gals will be excited to see your answer in the next class. He hasn't met a guy who can challenge him for a while!”

“Does he like to keep this kind of problem very much?” During the class, Lu Qiuqian turned over the textbook, and the topics left by Professor Gouls have obviously exceeded the scope of the textbook.

“He always said that the content of the textbook is simple, and even the children of Harvard understand at a glance, there is nothing to say! Since you have come to Princeton, you should accept a higher challenge!” The expression, “Half a year, half of the students can answer the questions he left, and in the second year, they became single digits; it has been three months since the last time someone completed his last night! I hope you Can last longer! “

Harvard and Princeton have long occupied the first place in the global mathematics rankings. They are direct competitors. They are placed in La Liga and Real Madrid and Barcelona. In China, they are Qingbei's relationship on the university rankings. All kinds of satire come out.

“Hey, Lu, this way!”, Patrice's unique voice interrupted the conversation between the two. He now changed to an orange jersey with a tiger on it, and stood across from the school building with a basketball. The two-meter-tall figure and sturdy body are particularly eye-catching.

“This is my roommate Patrice Kabila, from Congo; this is my classmate Alfoss Trang, a talented teenager in Montana!”, Lu Qiuqian briefly introduced.

“Hey, Alfoss, I'm so happy to meet you!”, Patrice gave Alfoss a high-five and gave an invitation, “I have a game in a while, do you want to come with Lu?”

“Oh! God!” Alfoss exclaimed excitedly, “Aren't you the Tigers center! I will cheer for you every game, and I must kill the Yale guys in the next game!”

“Is Princeton's basketball team very powerful?”, Lu Qiuqian's words made the atmosphere on the scene cool down quickly.

“Lu, you know, our school is very strict with the scholarship card, and very few sports specialty students will be admitted to our school!”, Alfors explained with embarrassed smiles, although the Princeton tactical name born on this campus The basketball team, but the Princeton Tigers have never won a championship in the NCAA, but the rugby team ranked first in the NCAA, the two are in sharp contrast. A total of nine Princeton graduates entered the NBA, playing a total of 2,764 games and scoring 34,053 points. In other words, all the players from Princeton received NBA points that were nearly 3,000 points less than Karl Malone. The most famous of these is Bill Bradley, who won an NCAA Player of the Year in Princeton, a MOP in the final four best performance, entered the NBA and won two championships with the Knicks, and entered after retiring. Politics, who lost to Gore in the previous presidential candidate for the Democratic Party,

“Don’t care about those!”, Patrice is an optimist, and soon recovered from the blow, turning basketball at his fingertips, “Basketball is a very interesting sport, as long as we enjoy the happiness that this sport brings us ! “

“I always thought that the happiness brought by victory will be more!” Lv Qiuqian gave a merciless blow and patted Patrice’s back when he hadn’t responded. “Okay, anyway, it’s time to eat Early, I will cheer for you! “

The three people did not go far. Lu Qiuqian’s Motorola V730 in his pocket made a pleasant voice, shrugged and stopped to stop the phone, “Hello, Hello Stella! ... eat? ... Okay ... Is Jenny there? ... I know, I will find that place, see you later! “

Put down the phone Lu Qiuqian looked at them embarrassedly, UU read books [www.uukanshu.com](http://www.uukanshu.com) “Sorry, Alphas, Patrice, I’m afraid I can’t accompany you to the basketball court. As a gentleman, it is always difficult to refuse the lady’s invitation, right? Patrice, I just asked, Jenny didn’t She comes together! “

“Gosh! This is your second day to Princeton!”, Patrice cried in frustration.

“Hey, buddy, I will help you get Jenny out next time!”, Comforting two words that Lu Qiu Jian soon got the address of the coffee shop that Stella said from Patrice.

When I came to the coffee shop and reported Stella’s name, the waiter brought Lu Qiu Jian to a table by the window. After another five minutes, Stella floated up, “Sorry, Lu, I met a person on the road My friend said two words! “

“It’s okay, it’s an honor for the gentleman to wait for the beauty!”, Lv Qiu Jian got up to help her pull the chair away and hang her coat off. “Anyway, if a charming girl like you walks a hundred meters, No one has spoken up the road yet, that is not normal! “

“Oh! Thank you!”, Stella was amused by his compliments, “People who learn mathematics in my impression are always inscrutable. I didn’t expect you to make girls happy!”

“Mathematicians also have a vision of discovering beauty.” Lu Qiu Jian returned to his seat and stared at Stella’s eyes. “In my opinion, there are two kinds of beauty at this time, one is a profound and moving equation, the other is You have a tired, faint smile. “

Tender eyes, touching love words, Stella’s eyes began to become blurred, she seems to be falling!
