## D. School 78

## Chapter 78 - wait

"Hi, after the game I went to the laboratory to test the method of using the electron microscope and X-ray at the same time, and found something very wonderful!" At the beginning of the game, Elliott warmly came together and Lu Qiujian Discussing the topic of the last game, "Thank you very much for your reminder, and I think ..."

"Elliott!", Harvard's coach shouted covering his face, he felt like he was about to collapse, what are you going to do with this kid! This is a game!

Three minutes later, Elliott, who was suddenly turned into a sieve by Lu Qiujian, was replaced. Jason said excitedly as soon as he debuted, "As of today, we have earned 20 million US dollars! , This number can at least double! "

"Almost ready to withdraw!", Lu Qiujian replied while dribbling forward, and the Harvard coach off the court was unable to talk about his player's performance.

Another easy victory, Lu Qiujian threw Jason to Patrice to entertain, and just took Natalie to take a leisurely walk in the small town of Princeton as soon as the game ended. Fortunately, Stella I recently went to New York to participate in the event, and don't worry about crashes.

"Your paper is about to be published, but you don't seem to be excited at all now?", Natalie took Lu Qiujian's hand, and the bracelet on her wrist made a metal impact sound as the arm swayed.

"Since it is already determined, what excitement? Anyway, when the time is up, the magazine will be delivered to me!" The work to be done has been done, now just wait patiently!

Lv Qiujian is extraordinarily laid-back. It is different in Beijing Normal University. Professor Zhang called Assistant Xiao Liu as soon as he came to the office early in the morning, "I will give you a very important task!"

"Eh, you said, I promise to do it for you!", Assistant Liu seemed to answer with conditioned reflex. The tasks that the leadership explained can be completed beautifully, and the creative conditions that cannot be completed must also be completed! "According to time, the next issue of" Science "should almost be delivered! You will be in the journal room from today, and you will be loaned out to me as soon as the magazine arrives!", But they are all mathematics professional journals such as the four major journals, and comprehensive journals such as "Science" are really reserved. Professor Zhang has regretted it now. If you already know that there will be this day, you will not have to order ten copies!

"Do you want to read Lv Qiujian's article?" Xiao Liu is an assistant. How can I not know what the leader is most concerned about recently? I quickly agreed, "I am familiar with Lao Huang from the journal room, and I guarantee the first Time to get it for you! "

"Well, you have worked hard!" Professor Zhang praised him in a rare way, waved his hand to indicate that he would go quickly, and then looked down at the information. For Poincaré to guess that he did not study deeply, it is necessary to supplement the information. Row.

Assistant Liu didn't leave, he was in a better mood to see Professor Zhang and he asked, "Do you see if you contact the propaganda department in advance? This is the biggest breakthrough in our school and the entire Chinese academic community this year. Study how to promote it! "

"Do you still want to say? The vice president Li, who is responsible for the promotion of this part of the school, has personally led the publicity department to formulate a publicity plan. Once he sees the magazine, he will invite major media throughout the country to promote it. Daily newspapers are all invited! ", Professor Zhang was a little depressed. This matter should have been presided over by him. Who knew it was grabbed by others, but fortunately, the school has successively agreed to several budget applications from the mathematics department. Next year, the funding of the Mathematics Department will also be greatly increased, which gives him a little comfort.

"The school is the school, we are us, the school wants to vigorously publicize, we have to make our own voice?", But this is a major event related to their future, we must grasp it well, "The focus of this publicity is still in our mathematics department, Although Lv is not in China now, can our math department do a lot of work? "

"Oh? Let's talk!" Professor Zhang came to be interested. His recent energy has been spent on professional knowledge, and he really does not pay enough attention to these.

"Look, I made a plan, please also look at any omissions!", Assistant Liu took out a stack of printing paper and handed it over, for this he did not hesitate to ask Jia Jia of the Propaganda Department.

"Xiao Liu, it's a good job!" It took a while for Professor Zhang to raise his head from this thick plan to praise, "This matter is coordinated by you, but the journal matter must also be handled seriously. ! "

"Eh, I will go to the journal room to guard!" Seeing that his credit has been fulfilled, Assistant Liu ran to the journal room.

Arrived at the library, found the person in charge of the journal room to pack a few packs of cigarettes, and immediately patted his chest to ensure that the next issue of "Science" would call him as soon as he arrived.

"That's really trouble you!" Xiao Liu looked at his watch. "You see this is about to go to lunch break. Let's go out for a light meal?" Unfortunately, it's not the afternoon. I'm afraid I can't drink this meal. It's a bit tasteless!

Three days later, to the "Science" journal is about the time of arrival of the room, Liu assistant came early in the morning periodicals room watching, waiting for more than an hour to see the person in charge of the periodical room of the pink back.

"This issue of" Science "to do?" Liu asked Assistant quickly stopped him.

"To the, to the, just received an hour ago!", The person in charge of the periodical room surface expression of some sorry how not to call me ah? I have been here for over an hour! "Liu assistant could not help but complained, politely refused to take him around in a circle, trying to figure out where the magazine.

"Well, some accident!", He embarrassed to say, freeloader people so many days, giving no get the job done, which made for a long time in the blank checks, not after how much he was a bit of corrosion the nerve.

"What accident? Our Department also waiting to see it! Come out ah!" Liu assistant some urgency!

"Just principal phoned me personally this issue of the magazine to send him gone!", Work in this school more than a decade, the first time into the principal's office too!

"Ah!" Liu assistant depressed, hoping against mind asked said, "Let's not set for several periodicals room this it? Should we take it to be the president?"

"In addition there secretary, president, vice president, all of them in the principal's office, a staff enough ah!", Said the head of periodicals room of regret.
