

D. School 85

Chapter 85 - Hot media

“But so many people are trying to come out to study abroad, and try their best to stay.” Yang Yang’s eyes showed a bit of confusion. Is the path you chose really wrong?

“Oh, there is no way! Is the pursuit of people different now?”, After all, it is an era of gradual feminization! Lu Qiu Jian said in his heart, of course he would not say it directly, but there was a girl sitting next to it, so it was a bit sexist! However, it seems that people now pay more attention to the individual and ignore responsibility.

“Xu Si came out, let’s go!” Yang Yang tried to cover up her emotions, even when she met Natalie, she didn’t intend to give up, but now vaguely feels that she probably can’t catch him Right?

Repressed his emotions and accompanied Xu Si to walk around in Princeton. It was near the evening, and Yangyang thought that Lu Qiu Jian bid farewell to boarding the car back to New York.

Shortly after sending Yangyang away, and before the seventh day, Lu Qiu Jian followed the team to Yale to challenge the Bulldogs. After they arrived at Yale, the principal Richard Levin personally apologized to Lu Qiu Jian, The surface kung fu is done in place. This made him a little embarrassed to continue to kill the Bulldogs, and played for more than 20 minutes before taking a break.

Then he swiftly defeated the Browns Bears. Princeton scored 11 wins and zero losses, and continued to rank first in the Ivy League without controversy; after playing with the Browns, they only had the last three games left. , Respectively, to face Cornell, Columbia and Penn, may be able to determine the qualifying places before the last challenge to Penn.

Back at school, they got a week-long rest period. Spencer and Will could relax as much as they wanted, but Lu Qiu Jian was busy as a group. Where did Jason start to finish, and need his help; Mathematics Annual has published his magazine in full text. Letters from universities and institutes around the world wishing to exchange flew like snow flakes, and his e-mail box was almost full; Princeton was also constantly asking when he planned to hold it. report meeting.

Not to mention the great sensation caused by the reports of Li Xiao, Zhou Wei and Feng Hongqi on the other side of the Pacific Ocean. Journalists from various media have packed up their bags and applied for visas to come to this quiet town. Even his mother called and panicked and asked him what he had done recently? How come there are so many reporters who come to the door to interview themselves, and only then feel relieved after listening to his explanation.

“Sorry, you know, now the competition has reached the most critical time, and I have to take classes and respond to questions from scholars from all over the world, so I can’t spare time for interviews! If they do n’t have time, go back, if you want I can wait until the end of the regular season, but even then I can’t guarantee that I can take the time!” Lv Qiujian once again rejected the school’s outreach department’s request for an interview.

“Well, it’s such a shame!” Princeton’s media PR experience is extremely rich. Although Lu Qiujian couldn’t come out in person, he still found some of his classmates, teachers and teammates for interviews, which finally made up for them a little Sorry for the fact that a piece of article that is authentic or credible, or expressively exaggerated, or simply fabricated is sent back to the country through the Internet. Lv Qiujian’s name once again caused a lot of heated debate, making him quickly become a hot spot online.

“Which expert can explain what this Poincaré conjecture is for?” Some people care about his academic achievements.

“I asked my classmates in the mathematics department, I heard that Poincaré’s conjecture is one of the most concerned mathematical problems in this century, and Lu Qiujian was a great bull!”, Which is proud of him.

“When did you break the Goldbach conjecture!” This is influenced by reportage.

“Can I win the Nobel Prize so well?” This is the Nobel plot.

“Idiot upstairs, where Nobel’s mathematics award is also a Fields award!”, This is a rhythm of speaking.

“Lv Qiujian couldn’t make a grade at Beijing Normal University. When he arrived in Princeton, he immediately made such a big breakthrough. I can’t help but ask why this is? This must be an institutional issue! I hope he can stay in the country. It will be destroyed by the decaying system in the country. “This is different from ordinary people.

“JY is dead, the Pacific is not stamped, why don’t you swim in the past!”

“LS + 1!”

“LS + 10086!”

“LS + 63325!”

The two people quarreled instantly, and the administrator was very sweaty in the background deleting the post and busy with the title.

“The video of Lu Qiujian’s playing is so handsome! If we can join the national team, we don’t have to worry about not having a good guard anymore! It just happens that we still have a year and a half to break in and wait for him and Yao Ming to cooperate with each other. By the time of the next Olympics, the National Men ’s Basketball team may be able to win a medal! “

“Will he participate in the draft this year? The Rockets picked him! Wait for the Chinese duo to cross the NBA!”, No one can wait for the national team.

“It’s better to get another champion!” Someone started YY.

“That’s not necessarily, this year’s rookie is quite strong. It is said that compared with 1996, James and Anthony are both top picks! Besides, it’s been many years since Allen hasn’t been the top pick in guarding!” Is a veteran fan.

“Wait, didn’t you find the landlord showing off in low-key? Landlord, hug your thighs for video!”

“I want me too, . Can I use Lan Lan seeds to exchange with you?”

“Let me kneel down!”

“.....”

Domestic noisy and lively, Princeton’s dormitory is not calm! Patrice was lying on the sofa in the living room, spilling a lot of US dollars into the sky and watching him fall; Jason had completed the net collection work, and the \$ 350,000 he had invested had already turned into two hundred. Too many, for this he purposely made a pile of cash to celebrate, took a Franklin from the air, and kissed hard, “This is so much faster than the robbery! No wonder those guys want to go to Wall Street!”

“This is also robbery, but the means is legal!” As for Lu Qiujian’s gains, his total assets are now close to 30 million US dollars, at least in his personal life will not worry about money.

“Hey, what a pity!” Patrice pretended to lament.

“What regret?” Lv Qiujian asked with a smile.

“When I meet Harvard again next year, I think I might be embarrassed to beat them too badly! After all, Jason made so much money for me!”, Patrice threw the banknotes into the air again.
