Chapter 9 - Fitness test

According to the effect of exercise tonight, Lv Qiuqian quickly analyzed that if you want to maintain high-intensity mental activity without causing headaches, you need at least two hours of physical exercise at the same intensity as tonight. In the elegant Princeton, it is difficult to find a strong training partner like Patrice. In other words, if Patrice's request was not excessive, Lu Qiuqian would agree, "Tell me?"

"Hey, Lu, you see the great Patrice is a core member of the Princeton Tigers." He patted the chest tiger character, "This tiger could have beaten Harvard Crimson easily with the help of Patrice Entering the national championships, competing with Duke, Michigan and ULCA guys, it is a pity that the friends around the great Patrice can't keep up with his rhythm; so you are willing to help the lonely Patrice What? "

"Do you want me to join the Tigers?" After thinking about Lu Qiuqian, he rejected his proposal. "I don't think this is a good idea. You see that I flew across the Pacific from this land to fight. Basketball, mathematics is my goal. If I join the basketball team, exercise will take up too much of my extra-curricular time, which makes me unable to complete the learning task on time. Although this sport looks very interesting, but I am afraid I want to work with you now Say sorry! "

"No, no!", Patrice quickly pulled Lu Qiuqian, "Princeton's basketball team does not have professional sports students. I believe everyone except me cherish

the extracurricular time like you. Training will take up to three hours of your time! Lu, you should n't waste your genius! Try it with me! "

"It's not impossible if it's three hours! It's just that I'm afraid I won't have much time to persuade Stella to let her bring Jenny out!" For a young man dedicated to academics, time It is always not enough.

"Go to his Jenny! If Princeton can reach the national competition, the cheerleaders all over the United States will miss me!", Patrice finally revealed his true purpose.

After getting the answer agreed by Lu Qiuqian, Patrice took him diligently to taste delicious supper; the next day, he went out early to buy professional basketball equipment for him.

It seems that it is time to find some money! After receiving the gift, Patrice thought that the original owner of this body was poor, although he won the full scholarship of Princeton, although the money was enough to satisfy the life of an ordinary student, but now Lu Qiuqian can count ordinary.

"Hello, this is Samuelson." When coming to the classroom, Lu Qiuqian found that there were more people around his seat suddenly, Alfors was talking with them cheerfully, and saw him coming , A white man wearing black-framed glasses stretched out his right hand, "Are you the new monster?"

"Monster?", Lu Qiuqian repeated the word again.

"Oh, sorry, this is the specific name of the Princeton Department of Mathematics for someone who can defeat Professor Goles!" Samuelson shrugged. "We all agree that people who can do this have exceeded the limits of normal humans. . By the way, how did you do it? "

Lv Qiuqian took out his notebook and handed it over, turning to the first page, "Maybe I was lucky, and happened to think of a simple method."

The space above Alphas 's head was instantly filled with dense heads. A group of people gathered around him and focused his gaze on a small notebook. If the person 's gaze could emit the same heat as the sun, then this notebook would carry Should the table below it be burned now?

Fortunately, this attention did not last long, and everyone turned their attention back to Lu Qiuqian. Samuelson asked doubtfully, "Is there only the final answer? What is the process of derivation?" At this moment, many people think of primary or secondary school. At the time, when they wrote their answers directly under the question, they thought that at the time, such a simple question would give the answer at a glance. Then what other cumbersome and useless processes are needed. Presumably Lu Qiuqian thought so at the moment. Right?

Fortunately, there were no fluctuations in Lu Qiuqian's face, so that their face was preserved; Lu Qiuqian took the notebook and sat on the seat, picked up the pen while writing and explaining the reason for his deduction, and used it all the time. After five blank sheets of 32 papers, the complete proof process of this topic appeared before them.

"Okay, everyone, Professor Wyeth's class is about to begin! I do n't think we would like to miss this master 's teaching?", Lu Qiuqian put away his pen and looked at them. Wake up in the middle of the day, usually shaking his head dizzy, and returned to his seat.

When the last student sat down, the door of the classroom opened with a creak, and the pride of Princeton's mathematics department, the prowess of today's mathematics, and the gods of many mathematics enthusiasts Andrew Wiles entered the classroom. UU Reading

After class, I apologized and declined the invitation of Samuelson and others to gather. Lu Qiuqian went downstairs, and Patrice had been impatient for

waiting. Seeing him come out and pat the big bag in his hand, “Everything is brought to you, let’s go to the basketball hall first!”

“Oh, Patrice, what are your physical examination scores?”, Lu Qiu Jian pretended to ask casually, he wanted to find a suitable standard for his test results for a while, so as to avoid poor control Necessary trouble.

“The great Patrice’s physical test scores can also be ranked in the top five in the history of the entire Princeton Tigers!”, He began to brag himself again, “standing eight feet seven inches high, jumping 26 inches in place, Thirty-three inches for the run-up, bench press 84 kg twice, running back and forth in the restricted area for 12 seconds 33, 3/4 sprints for 3 seconds 52! “

Okay, in addition to basic physical qualities, other results are slightly reduced on the basis of Patrice! Lu Qiu Jian nodded slightly.

“Hello Coach Thompson!”, Walking into the basketball hall, Patrice greeted a chubby bald black man enthusiastically, “This is Lu, my roommate, a real basketball genius!”

“Are you Chinese? Yao is a magical big man, but he still needs to adapt!” Thompson patted Lu Qiu Jian’s shoulder, “I hope you will surprise me like him.”

Half an hour later, Thompson frowned at Lu Qiu Jian’s physical examination report and said to his assistant coach Black, “Damn it! This guy has the height of a point guard, but he has the power and speed of a bench press. ,How is this going?”
