

Daily Life 1411

Chapter 1411 Boss Lotus Sun

Strike first.

This was something Lotus Sun hadn't expected.

The conditions at God of Sword Academy weren't bad, as it had been built with the investment of General Yi.

Although it hadn't been established for long, it was also a famous key city university with a strong faculty.

Many rich people couldn't find a way in, but Jiang Yingying had chosen to give up and transfer to No. 60 high school, and her motive was already very clear.

She had come for Wang Ling!

Looking at this list, Lotus Sun was actually feeling very complicated.

It said that this batch of transfer students would complete their enrollment by next Monday at the latest.

In other words, Lotus Sun had no idea when Jiang Yingying would be coming.

So now, Lotus Sun only knew one thing.

She had to be prepared at all times.

..

Jiang Yingying's move could be said to have affected the whole body.

Around the same time that No. 60 High School was over, loopy toad went to Wei Zhi's apartment specifically to find out more about Jiang Yingying.

It wasn't that loopy toad knew the situation, but that Lotus Sun had promised to give it benefits.

Now that loopy toad had decided to live in the human world, it had to think about its future.

Life was nothing more than finding a job, finding a partner, getting married, and then having a son and a half..

But now there was a problem.

Loopy toad's assets in the human world were limited.

And now, finding a partner was actually a very practical problem.

For example, most people preferred the material aspect between the handsome pauper and the ugly nouveau riche... After all, as long as they had money, no matter how ugly they were, they could still be remade.

Moreover, loopy toad didn't think that its human form was ugly.

It just lacked a certain amount of assets.

Now, helping miss sun "Work" and doing some groceries was undoubtedly the best way to earn money.

When loopy toad came to look for Wei Zhi, Gu Shunzhi was still in school at No. 60 High School, and Zhao Qingxian was the only one helping Wei Zhi.

This fatty Zhao Qingxian had already returned to his original body with fan Xing and now looked much more docile, but loopy toad felt that this was probably the calm before the storm.

This guy was probably thinking about something..

He wouldn't give up on Liu Qingyi so easily.

Thus, the biggest beneficiary of Bai Zhe's "Yang Shuangji" incident was actually fan xing.

This guy had already become a cripple, but because of the body exchange incident, his injuries had unintentionally healed.

"You want to ask about Jiang Yingying?"

Wei Zhi was a little surprised by loopy Toad's question.

He habitually grabbed the brim of his cap and turned it clockwise, revealing his smooth forehead. Then he handed the showerhead in his hand to Zhao Qingxian.

They were now cultivating spirit plants in a converted greenhouse. These spirit plants were used to make special fertilizer, which could help spirit beasts grow better.

After handing over the work to Zhao Qingxian, Wei Zhi led loopy toad to the Tea Room next door. He closed the door and activated the soundproof array.

Although he didn't think Zhao Qingxian would eavesdrop, Jiang Yingying's question was more private... Wei Zhi felt that it was safer to do this.

"Is there a need for this..."loopy toad couldn't help laughing.

"Why did you suddenly want to ask about Miss Yingying?"Wei Zhi was also curious.

He poured loopy toad a cup of tea to understand its true thoughts.

"Isn't this girl going to be transferred to No. 60 High School soon? I was also asked by someone to come here to inquire about the situation."Loopy toad gave Wei Zhi a look.

"It was Miss Sun who asked you to come..."

Wei Zhi instantly understood loopy toad's purpose for this trip.

It could only be said that he was one of loopy Toad's best friends in the human world. Sometimes, for a pair of friends who had a tacit understanding, they could guess what it meant with just a glance.

"Then can you say it? If it's not convenient for you to say it, I'll think of another way and won't force you," loopy Toad said. After all, the person asking might be marshal Jiang's granddaughter, so it wasn't convenient for Wei Zhi to say anything, but loopy toad understood.

"I've already activated the soundproof array, so of course I want to say it to you. But what I know is very limited."

Wei Zhi smiled and pulled out the photo album at the bottom of the coffee table. There was a photo of Wei Zhi with a girl who looked a little like Lotus Sun, who was holding an orange-yellow big spirit bird, she smiled very happily. "This is Miss Yingying."

This was loopy Toad's first time seeing a photo of Jiang Yingying. If it hadn't taken a closer look, it would almost have thought that this was lotus sun.

But after careful observation, loopy toad felt that the difference was still very obvious.

First of all, Jiang Yingying had short hair and a mole on the tip of her nose. Perhaps it was because of the photo, but her skin didn't look as fair as Lotus Sun's.

So loopy toad concluded, "The Boss is still the prettiest."

"You work for Boss Lotus Sun, so your salary must be very high, right?" Wei Zhi gossiped.

"It's not high, it's not high. I only heard about it for 100,000 yuan."

"..."

"I'll remember to give you a red packet when my salary arrives."

”...”

Wei Zhi sighed.

After all, she was the eldest daughter of a rich family; this money was too easy to earn..

“Miss Yingying is indeed uncle Jiang’s granddaughter, but she’s not blood-related. She was only adopted when she was very young,”Wei Zhi said.

“Adopted again?”Loopy Toad’s dog mouth twitched.

What was wrong with the ten generals... They only liked to pick up children and raise them?

But loopy toad actually could understand.

When cultivators had high cultivation levels, there would always be some cultivators who were “Abstinent.”. To put it in layman’s terms, they had been single for too long and were used to it..

There was a saying: it was good to be single. It was always good to be single!

Since he didn’t consider marrying a wife and wanted to raise a child to inherit his mantle, then adopting was the most convenient method.

“Very few people know about this. Uncle Jiang didn’t tell anyone. As for how I knew, it was actually an accidental discovery,”Wei Zhi said.

However, he didn’t say exactly how he had found out about this relationship.

“Uncle Jiang treats Miss Yingying as his own. Basically, anything that happens to Miss Yingying’s spirit beast is sent to me for treatment. Overall, Miss Yingying is a very quiet and literary girl.”

“A... Literary Girl?”

“More or less.” Wei Zhi nodded.

Hearing this, loopy toad suddenly had a bold guess.

Since this Miss Jiang Yingying liked literature..

Then was there another possibility.

She wasn’t actually attracted to Little Lord Ling..

It had to be known that during the nine Dragons Mountain National Physical Skills Competition, Little Lord Ling and Wang Ying had been crispy noodles dao monarch’s doubles when they had been playing with meteorites in the universe!

Furthermore, during the doubles, they completed an earth-shattering composition with full marks..

Chapter 1412 Fan Xing

“Is there anything else of value? I don’t care how small it is,” loopy toad asked.

It wasn’t very happy; as expected, getting information from Wei Zhi wasn’t wrong.

The information above added up to several hundred thousand yuan.

But this amount of money was still not enough for the down payment on the property.

The price of the property was ridiculously high these days.

It could only be saved for the time being and accumulated bit by bit.

Because even if loopy toad used it to invest and manage its finances, it would still be very risky.

After all, it was possible to lose money investing in oil these days; nothing was possible..

“Let me think...”Wei Zhi rubbed his chin and thought hard.

A moment later, an idea came to him. “Oh, right, have you heard of dust powder?”

“What’s This?”

Loopy toad didn’t understand.

Ash fans? Fans of the gray fog creatures?

But as Lord Gray Fog’s groundhog, it was still being suppressed under the water tower of the war sect’s central lake..

Because it had lost its testicles and had been forced to turn, it was still petrified and hadn’t come back to its senses.

“I only just heard about this. The last time I talked to Miss Yingying, she casually mentioned that she had joined a gray cult and become a ash fan,”Wei Zhi said.

“It can’t be some evil religion, right...”

“After all, with Marshal Jiang around, a cult shouldn’t be like that; it should be some kind of fan group,”Wei Zhi replied. “Miss Yingying also said that everyone in the grey cult is a speck of dust in the era.”

”...”

Loopy toad finally came to a realization.

“A speck of dust in the era”was a famous scene that would be passed on forever.

This composition from the Nine Dragon Mountain Physical Skills Conference had still been included in the national middle school students' composition library, and was about to be published into a book and become one of the essays in "National Excellent composition anthology."

For this reason, student Wang Ling, who had been mistaken for the original author, was about to receive a one-time writing fee of about three thousand yuan.

But since this could also be considered using his "Ability" to make money, father Wang directly contacted the publishing house and asked them to directly donate the money in Wang Ling's name..

So now, from what Wei Zhi knew, loopy toad suddenly felt a little sorry for Wang Ling.

If Jiang Yingying really had taken a fancy to crispy noodles dao monarch, how would things end up then?

That night, Lotus Sun had been thinking about Jiang Yingying ever since she had finished her homework.

Sun Ying 'er comforted her on the side, "Lotus, don't think too much! Maybe she's just here to learn! And I don't think you need to worry at all. Ling Zhenren is a block of wood, and you can't even shake him. How could she, Jiang Yingying, succeed so easily?"

She had secretly thought that these words would comfort lotus sun, but in the end, it made her feel even worse..

That's right!

If only Wang Ling wasn't a blockhead!

At that moment, the phone on the table vibrated as Lotus Sun received a message from loopy toad.

It was full of information about Jiang Yingying that loopy toad had gotten from Wei Zhi, as well as loopy Toad's guesses about this matter.

“So it’s possible that student Jiang Yingying likes senior crispy noodles dao monarch?” Lotus sun stared at the message, and her originally gloomy mood seemed to have lightened quite a bit.

But loopy Toad’s speculation alone didn’t seem to prove anything..

After all, from Jiang Yingying’s subjective point of view, she didn’t know that the original author of the composition for the Nine Dragons Mountain National Physical Skills Competition wasn’t Wang Ling.

So how to sort out the misunderstanding was what Lotus Sun wanted to do now.

At first, the young girl had thought that this was just an ordinary competitor..

But unexpectedly, the situation was far more complicated than she had imagined!

“There’s no other way. It looks like I’ll have to infiltrate the enemy first and get more in-depth information,” Lotus sun muttered with a frown after thinking for a while.

“Lotus Sun wants to join that Gray Cult?”

“That’s the only thing we can do now.” Lotus sun nodded.

But this matter couldn’t be rushed for a while.

For Lotus Sun, she still had the task of replacing the Heavenly Dao Rubik’s Cube on her.

At around eight o’clock in the evening, loopy toad showed up punctually at Lotus Sun’s bedroom door.

The girl was already ready.

The location of the fourth Rubik’s Cube was in another secret realm in the universe called Ageless Star.

“Are You Ready, Boss?” Loopy toad asked.

“Thanks for the hard work today, loopy toad. The money will be in Tomorrow!” Lotus Sun smiled.
“Let’s finish this quickly! I have more important things to do when I come back!”

She was already very familiar with the task process of “Replacing the Rubik’s Cube.”.

In the absence of a Rubik’s Cube riot, there was practically no risk in collecting the Rubik’s Cube as long as she brought along Ao Hai.

And on this trip back, Ao Hai was the standard for four cores!

One core was “City-toppling Sword.”

Two cores were “World-toppling sword.”

Three cores were “Planet-toppling sword.”

And four cores were... “Tilting ball one sword PLUS”!

With three cores, Ao Hai could already destroy Earth, while four cores... could destroy an even bigger planet that was 100 times bigger than Earth!

At the same time, in a happy apartment building 100 kilometers away from Lotus Sun’s house.

Satellite monitors were everywhere.

After a snowflake signal, the image finally stopped at the villa where Lotus Sun lived.

Two technicians adjusted the satellite image. “Young master, there was a short fluctuation in the signal just now. It’s normal now.”

Behind them, a crafty-looking young man in a suit was sitting on a wide leather recliner. His feet were crossed on the table, and he frowned slightly. "When will the heavenly eye be able to see through my sister's bedroom?"

The owner of this apartment was none other than fan Xing.

He was the owner of this place.

The entire apartment building was his territory.

Ever since he recovered, he had been thinking about his revenge plan.

During this period of time, the pain that he had suffered in the Sun family villa... Every time fan Xing thought about it, he felt depressed, as if there was a clot of blood lingering in his heart.

However, it seemed that he was not destined to die.

Although he did not know what exactly was going on..

His body completely recovered in a very short period of time, reaching the level of a normal person's health.

Even the doctor who treated him said that this could be a miracle in the history of cultivation medicine.

"Young master, for some reason, there has been a very strong magnetic field in Miss Sun's bedroom. Could it be that master sun has sent experts to protect her? "Our satellite signal has never been able to penetrate it, and it's also because of this."

"Experts? How strong are they? I know very well what the experts in my sister's villa are like. Even soul formation cultivators can easily see the heavenly eye that I've set up!"Fan Xing said.

His original intention was to secretly take some private photos of lotus sun and then spread them through the internet, but now it seemed that this path wasn't going smoothly.

Logically speaking, Lotus Sun was only in the foundation establishment stage... and this was in her bedroom. How could there be a master lurking in a girl's bedroom?

Could it be that her sister had become a true immortal master in a few days?

This didn't make sense!

"Forget it, just follow the original plan." Fan Xing sighed and waved his hand.

"Yes, Young Master." The technician nodded, and they began to mobilize the sky eye from a distance.

Fan Xing's Sky Eye satellite also had the ability to summon meteorites. It could use scientific means to absorb nearby meteorites, and then turn the meteorites into a specific orbit to accurately hit the target.

That's right.

His goal was to blow up the entire Sun family villa, and then destroy Lotus Sun along with it..

Chapter 1413 Van Der Sar Must Die

Before leaving, Lotus Sun faintly sensed that something wasn't right.

The young girl raised her head and stared at the night sky. For some reason, she had a feeling that there was a faint murderous aura coming from beyond the sky.

But she wasn't sure, and thought it was just an illusion.

In fact, Sun Ying 'er and loopy toad had both sensed it as well.

After upgrading to a divine beast, loopy toad could sense the chaotic power scattered throughout the universe. This chaotic power had become loopy Toad's other major sensory organ, making its sense of "Malice" particularly obvious.

At the same time, as the Master of the Void and Lotus Sun's personal female bodyguard, Sun Ying'er still had the most basic sense of defense.

"Do you feel a faint killing intent?" Loopy toad asked the young girl at this moment.

"Mm..." Lotus Sun nodded.

"Don't doubt yourself; your judgment isn't wrong," loopy toad said with a frown.

In the passive version of "Man and sword as one," the sword qi emitted by Ao Hai was like an amplification device that was attached to the young girl's body, greatly increasing Lotus Sun's ability to predict danger.

"Why do I Feel Like It's coming from the other side of the Universe?" Lotus Sun felt that she was gazing at a direction in the sky, and that was the position of the heavenly eye.

"It seems to be a satellite that's trying to attack this place," loopy toad said. It used the power of chaos to explore and eventually

"A satellite?" The girl was surprised.

There weren't many offensive satellites that were currently used as weapons, the Heavenly Justice e bullet, which had been developed by Huaxiu's cultivation and Magic Treasure Research Institute, was actually still a destructive weapon that could be launched from a satellite.

In the world, all countries had strict control over weapon-type satellites, and even Huaguo water curtain group didn't have the right to launch a weapon-type satellite.

Loopy toad exhaled into the void. The weapon-type satellite that was trying to launch an attack on Lotus Sun's family in the universe was projected into the void like a mirage.

"From the size of the weapon, we can basically tell that this is a private satellite." Lotus Sun frowned.

Huaguo water curtain group had once launched artificial light-assisted satellites in space for the cultivation of spirit plants, so the young girl actually had some research on the classification of satellites.

The national weapon satellite was a behemoth with a clear national flag on it, and only the private satellite was a blank slate.

“I didn’t expect that someone would still want your life now.” Loopy toad couldn’t help sighing. No matter who was behind this, it was mourning this troublemaker.

Not everyone could be provoked.

What’s more, the person they were provoking now was the strongest foundation establishment on earth..

“Forget it, no matter who it is. It’s more important to retrieve the Rubik’s Cube now, and I have more important things to do when I come back.” Lotus sun extracted one of the split profound sea from the sword spirit space of profound sea, she stayed here to guard the villa and didn’t take this target seriously at all.

“Then let’s go.”

Loopy toad felt that the young girl’s style of handling things was becoming more and more mature.

A few seconds later, they followed Lord Ma’s teleportation golden light to the secret realm of the universe, the “Ageless Star,” to retrieve the fourth Rubik’s Cube.

The split arcane sea stayed alone in the empty room, his sapphire-like eyes looking a little empty. The Breeze outside the window blew against the curls of his hair, and his silver-gray hair fluttered gently like waves.

Everything was ready in happy apartments.

“Heavenly Eye” had completed its absorption of the meteorite.

With just one command, it could launch a precise attack on Lotus Sun's villa.

"Do it." Fan Xing gave the final order.

Boom!

Heavenly Eye's mechanical jet device suddenly pushed the meteorite into orbit according to its calculations. In an instant, the meteorite shot out and fell into the atmosphere. Then, it rubbed against each other, creating a huge amount of energy!

In an instant, the sky split open and spread forward rapidly! It exploded with a terrifying amount of energy!

This heavenly eye was a weapon that Fan Xing had secretly discussed and designed with many civilian scientists. He had also entrusted a craftsman to personally create it.

For this, he had paid a huge price!

At the same time, this was also Fan Xing's first time using the heavenly eye.

"Master Shouchong is really not lying to me... The power of this heavenly eye is indeed strong enough! It works!" Fan Xing stared at the image transmitted from the monitor and was not very happy.

He felt that he had really found the right person, and the "Master Shouchong" that he was praising was the real name of the folk artisan.

This artisan was called Shouchong.

"Young master, everything is working normally now. After the Heavenly Eye's calculation, the meteorite has already entered the predetermined state of kneeling down, and it can accurately land above the villa," said a technician.

At the same time, he was also very curious about the "Craftsman" that Fan Xing had found. "Where exactly did young master find this person?"

“We met by chance.”. “I saw him wandering around the entrance of the Academy of Sciences. Every time, he was stopped by the security guards at the entrance. I went to ask him about the situation out of curiosity.”. “I didn’t expect to find such a talent by accident. I invested a lot of money into him. Now, many of the invented devices are in the testing phase. We can apply for a patent very soon.”

Fan xing smiled and said, “If we can put them into mass production and go on the market later, the technological empire that I have established might not be inferior to the Huaguo Water Curtain Group!”

In the past two years, with the over-exploitation of spirit plants, the market price of spirit plants continued to increase. As the cost of medicinal pills increased, the selling price would naturally also increase. This directly caused people who couldn’t afford medicinal pills to be even more unable to buy them, and those who could afford medicinal pills felt that it wasn’t worth it.

It wasn’t a secret that Huaguo water curtain group’s pill industry had been losing money year after year. In the past two years, it had been going downhill.

In fan Xing’s view, this was the era when technology was flourishing the country! And he had dug up a talent like Shouchong. This was undoubtedly injecting a shot in the arm into his technology company!

Currently, Fan Xing had invested billions into shouchong.

Shouchong did not disappoint. He had invented a lot of magical high-tech products.

Fan Xing said proudly, “The 180 ° all-directional upside-down automatic shampoo machine will be on the market soon. As long as you stick your head in, you can automatically wash and dry your head in 30 seconds.”

The Technician:”...”

Fan Xing: “And you may not know this, but this apartment building is actually a high-tech and cutting-edge product invented by shouchong.”

“The apartment building is also?”

“That’s right.” Fan Xing nodded. “This apartment building is explosion-proof and earthquake-proof, and it also has an automatic warning system. “When the apartment’s intelligent AI system determines that the apartment can not withstand a devastating blow, it will automatically activate the emergency evacuation system...”

At this moment, before Fan Xing could finish his words, the technician in front suddenly screamed, “Not good, young master!”

“HMM? What’s going on?” Fan Xing frowned.

“The meteorite that we shot out originally accurately landed in the direction of the Sun family’s villa, but for some reason... This meteorite was bounced back by a very strong force!” “According to the Heavenly Eye, the meteorite is returning to the sender’s address...”

“Returning to the sender’s address?”

“It’s heading in our direction...”

“Don’t Panic!”

Fan Xing consoled, “Happy apartments can be explosion-proof and earthquake-proof!”

The technician wiped his sweat.

This explosion-proof and earthquake-proof was correct... but it didn’t say anything about the meteorite-proof!

At this moment, the thing that everyone was most worried about happened!

The alarm of the “Emergency evacuation system” of the apartment building sounded!

The force of the meteorite was too great. With the explosion-proof level of the apartment building, it was impossible to withstand it!

Fan Xing was stunned for a few seconds.

Then, the ceiling of the apartment building automatically opened.

Along with a series of sounds of springs being fired.

Fan Xing followed all the employees around him and was directly launched out of the apartment on the spot, carrying out emergency evacuation.

The incident happened suddenly, and they were launched very high, thousands of meters from the ground..

Fan Xing and the surrounding people flew in the air.

At this time, he finally couldn't help but curse.

Only then did fan xing realize that shouchong's "Emergency evacuation system"... only cared about launching, not landing!

Chapter 1414 Blood Lock Of The Heavenly Axiom Of Death

If he could access the internet now, Fan Xing would very much like to post a post asking how he could ensure his survival after falling from thousands of meters in the air with only two fireball talismans on him.

But unfortunately, Fan Xing didn't seem to have the chance to regret it now..

That night, a meteor crashed into happy apartments, causing the entire apartment building to be destroyed. The news of the owner of the apartment building ejecting his employees from the same spot and escaping with them spread all over the internet.

The miraculous operation of launching and not landing caused a new public discussion.

As the saying goes, when Brother Black Smiles, life and death are unpredictable.

Brother Chong builds, rises into the sky and self-destructs.

The designer of the apartment building, “Shou Chong”, was on fire..

And in this accident, Fan Xing was the only one who survived.

He used the last two fireball talismans on his body to hit the ground the moment he landed, forming a reverse propulsion force to cushion the impact.

This saved fan Xing’s life. Although he didn’t die, in the eyes of outsiders, it was better to die in this state..

“Why is it him again...”

When the ambulance from the first military hospital of Songhai city arrived at the scene, the emergency doctor saw the dying young man lying on the ground in front of him and couldn’t help but reveal a shocked expression.

He had a deep impression of fan Xing. After all, not all men had the experience of having their testicles pierced by ribs..

Two days ago, Fan Xing recovered and was discharged from the hospital. The emergency doctor paid special attention to him. He felt that it was a miracle in the history of medicine.

Moreover, such a miracle was unlikely to happen again..

But now, the emergency doctor decided to take back his words.

Using a portable scanning magical treasure, the emergency doctor began to carry out a preliminary identification and treatment of fan Xing.

The situation was not optimistic.

The last time the method was carried out, it was only a comminuted fracture of the skull.

But now, apart from the skull, the entire body was a slimes fracture..

The so-called slime fracture meant that it was even more exaggerated than a comminuted fracture. The bones on his body were almost crushed into powder... he was like a pool of slime.

“A full-body slime fracture. Such cases are rare, right?”A medical staff accompanying him sighed.

“To be honest, this kind of injury is better than being turned into ashes directly. It might be better. If the strength is strong enough to turn a person into ashes, the person who is turned into ashes will be in no pain...”

Therefore, fan Xing’s current condition was only slightly better than being turned into ashes.

He might as well die.

Even if he could really be saved, he was destined to suffer a lot.

In fact, it was not just the bones.

After the first-aid doctor examined him, he found that fan Xing’s organs were also seriously damaged. “His organs are ruptured and his body is bleeding. The egg plasma and blood have fused together...”

Under normal circumstances, such a severe injury could be declared as death.

However, the first-aid doctor found it unbelievable that fan Xing was still breathing..

Everything was the same as last time.

His injuries were clearly very serious!

However, Fan Xing was still hanging on by his breath..

“His vitality is too tenacious!”The first-aid doctor sighed.

Although fan Xing’s injuries were serious, his heart rate was steady.

What the hell!

He spat in his heart.

The blood-locking cheat wasn’t that ridiculous!

Of course, Fan Xing didn’t have the ability to “Lock blood.”.

This was just a continuation of the curse left by the heavenly axiom of death..

As long as fan Xing had bad thoughts about Lotus Sun,.

The curse of “Death is coming”would always exist.

And because fan Xing would blame all the resentment on “Lotus Sun,”.

Thus, the curse of the heavenly axiom of death became a perpetual motion.

So in fact, even if Lotus Sun didn’t send out the split body’s Ao Hai,.

Fan Xing would still end up in a miserable state..

“How is it? Should we bring him back... I don’t think he can be cured even if we bring him back.”

“This brother was also in our hospital previously. He directly charged 200 million into our account. “So, you don’t have to worry about the medical fees,”the emergency doctor said. “Moreover, we’re doctors. Since we’re doctors, saving lives is our duty... no matter how difficult it is to save this person... so, carry him away!”

He called out to the medical staff beside him.

This was the second time he had saved fan Xing.

Faced with the man’s tenacious vitality, all the accompanying doctors were moved..

..

On the other side, in the unaging star’s universe secret realm, the young girl smoothly replaced the Fourth Heavenly Dao Rubik’s Cube and simultaneously fused the fourth Old Heavenly Dao Rubik’s Cube into the ocean.

At this point, the ocean had become a four-core spirit sword.

The Immortal Star was a beautiful place. The temperature was pleasant, and the seven-colored clouds in the sky were as brilliant as the northern Aurora. This was the legendary peach blossom land in the secret realm of the universe. It was a secret realm that was very suitable for a vacation.

Sun Ying ‘er held a cotton-like snow-white creature. This was an immortal star person, a creature that was as soft as cotton, it was said that each ageless celestial being had a lifespan of over ten thousand years... it was as if they could gain eternal life here and never grow old.

“What a magical place,”lotus sun sighed.

If it hadn’t been for the task of collecting Rubik’s cubes, she might never have known that such a beautiful resort existed in the universe..

“The Immortal Star was originally a suitable place for humans to live in, but it was also modified by Dao ancestor Wang to be used for his own vacation,”loopy toad said.

The people of the immortal star were very amiable; they had lived here for generations and had no conflict with the world.

No one had ever seen the angry look of the immortal star.

It was for this reason that the immortal star was also known as the “Honest Star.”.

This nickname had been given by Dao ancestor Wang, and loopy toad felt that there might be a purpose to it.

After all, there were times when it was very scary to provoke an honest man.

It was possible that it would cause a catastrophe..

But fortunately, the immortal star was generally cooperative when it came to changing the Heavenly Dao Rubik’s Cube.

They couldn’t speak, and all of them used their psyche power to send messages.

Along the way, Lotus Sun and the others successfully completed the task of changing the Rubik’s Cube.

The four-core ao hai was even more powerful.

This powerful power was now in the hands of a foundation establishment young girl. No one would be able to imagine it.

“Lotus Sun, you’re going to be invincible!”Sun Ying Er chuckled.

However, the young girl’s expression didn’t look as relaxed as she had imagined. “I keep feeling that everything seems to be going too smoothly...”

She was worried that something would happen in the future.

Although there hadn't been any mistakes in the task of replacing the Rubik's Cube.

That faint sense of worry still lingered in the girl's heart.

"I feel like you're thinking too much, Rong Rong. Even if something happens, Ling Zhenren will still be there to take care of it."

Sun Ying 'er comforted her. "Tomorrow is the grand swordplay conference. I think it's better for you to think about how to perform at the Grand Swordplay Conference! Tonight, I'll practice sword with you! I'll teach you a new sword technique! I guarantee you'll win!"

"A new sword technique?"

"I got this inspiration from the martial arts novel, the dog beating stick technique. It's called Whirlwind Dog Chopping Sword!"

Loopy toad:"?"

Chapter 1415 No. 60 High School Transfer Period

Sun Ying 'er didn't make up this "Whirlwind Chop Dog Sword". Instead, it was a sword technique that Sun Ying 'er created and developed on her own.

The advantage was that the attack speed was extremely fast. As the saying goes, the fastest martial art in the world couldn't be broken. Once the "Whirlwind Chop Dog Sword" was used, the speed of the sword attack would continue to increase with the passage of time.

If this sword technique could be cultivated to the consummate realm, it could be used to stab eighty times in one second!

Moreover, it was also very useful against female wolves because this sword technique specialized in attacking the lower three paths..

Because in the beginning, Sun Ying 'ER's goal in developing this sword technique was to use it against Wang Ying.

But later on, Sun Ying 'er discovered that in front of Wang Ying, not only would her shadow path ability be greatly reduced, it seemed that she would also be forced into a disarmed state..

HMPH!

This damned gorilla!

But since the sword technique had already been developed, Sun Ying 'er felt that it would be a pity to waste it just like that.

“How about it, Rongrong, do you want to learn it or not? If you want to learn it, I'll teach you!”Sun Ying 'er was very much looking forward to how Lotus Sun would display it in front of everyone after she learned it.

“But you haven't said what the flaw is...”Lotus Sun was a little hesitant.

She had no doubt about the lethality and destructive power of this sword technique, but the name didn't sound beautiful at all. It was too crazy... it didn't fit her quiet and beautiful style.

“The flaw isn't big, but it's not small either.”

Sun Ying 'er said, “Once this sword technique is used, there's no way to stop. You Can't stop until you chop the opponent up. Otherwise, you'll go crazy.”

“Chop him up...”

“The Whirlwind Dog Chopping Sword tells you to rotate like a soya-bean milk machine. First, you attack the lower three paths and turn them into egg pulp. Then, because of the high attack speed, the friction in the air will heat up, and eventually, you'll turn into an egg tart!”

Lotus Sun:”?”

So that night, when Lotus Sun returned home, Sun Ying 'er was taken away by Wang Ying overnight.

It was unknown if Wang Ying had been chopped into egg tarts.

Sun Ying 'ER's waist for the next day, she probably couldn't have it..

..

Wednesday, December 9th.

In the morning, before Wang Ying had let Sun Ying 'er come back, Lotus Sun lit incense for Sun Ying 'er on the balcony. She went back to her desk and took the list of transfer students that principal Chen had given her, intending to take a good look at it on the way home.

The first name on the list was Jiang Yingying, which immediately upset Lotus Sun, so she had yet to fully understand the information about the other transfer students.

When she left, Jiang Xiaoche was already waiting for her at the door in that low-key black business car.

"Good morning, Brother Xiaoche!" Lotus Sun greeted him, pulled open the car door, and sat in the back seat.

Her gaze just happened to sweep across the rearview mirror in front of her, and she saw Jiang Xiaoche's listless face and a pair of deep dark circles under his eyes.

"Why do I feel like you didn't sleep well? Did you work overtime again?" Lotus Sun asked. In her impression, Jiang Xiaoche rarely seemed to be so listless.

Jiang Xiaoche drove. He didn't know if he should say these things to Lotus Sun, but now he was so depressed that he felt uncomfortable, he couldn't help but pour out the bitter water in his stomach. "I seem to have fallen in love with a girl, but..."

"Most girls wouldn't refuse such a condition, right, Brother Xiaoche? Unless the girl you fell in love with is not an ordinary person," Lotus Sun analyzed. "Or else..."

"What is it?" Jiang Xiaoche was puzzled.

Lotus Sun looked at Jiang Xiaoche seriously. “Brother Xiaoche, don’t tell me you like someone under the age of 14...”

She had recently seen a lawyer surnamed Bao sexually assault her adopted daughter, and even claimed that she was actually dating her adopted daughter... Lotus Sun was disgusted by such a thick-skinned person.

That was why she had so many thoughts running through her mind..

“How could I be such a monster!”The corner of Jiang Xiaoche’s mouth twitched. “But that girl is indeed a female high school student... I’ve been thinking about it carefully these past two days, and I’ve realized that I really like her! I Can Wait!”

“Do you have that girl’s contact information?”

“Yes... I have it all on wechat. I scrapped hundreds of accounts last night. Not a single one was added.”

”...”Lotus Sun’s mouth twitched.

After all, she was dating a female high school student. If Jiang Xiaoche still used the social networking methods, it would be strange if he wasn’t rejected!

“I think it’s better if you don’t harass others for the time being, Brother Xiaoche... what if that girl goes to the police and the police find out about you and Grandpa finds out...”lotus sun reminded him out of kindness.

“You’re right, miss. I’ll be careful.”Jiang Xiaoche held the steering wheel, pulled himself together, and then nodded.

Lotus sun sighed silently.

After all, Jiang Xiaoche had watched her grow up. The girl wasn’t worried that Jiang Xiaoche would have any particularly bad intentions, but sometimes he was a bit silly when he did things..

In Lotus Sun's memory, grandfather sun seemed to have attributed Jiang Xiaoche to "Intermittent iron foolishness syndrome."

In other words, Jiang Xiaoche was usually quite smart.

But once he encountered something that made him struggle, he would do something stupid..

Halfway through the car, Jiang Xiaoche found Lotus Sun looking at a roster very seriously. He couldn't help but be curious. "What are you looking at, Miss?"

"The roster of new students. Principal Chen gave me a task to lead them to familiarize themselves with the campus environment," Lotus Sun replied as she stared at the roster.

She had already memorized most of the information on the new transfer students.

To Lotus Sun's surprise, there was another foreign transfer student on the roster this time.

This was a girl from Sun Island named Liangzi Jiugong. According to the information, Jiugong's Mandarin was very poor, and she was still in the learning stage.

No. 60 high school had finally caught up with international standards..

Lotus Sun smiled wryly in her heart.

When the car was almost at No. 60 high school's entrance, the name list in the girl's hand was finally left with the last page.

Lotus Sun turned the page and was surprised to find that the information on the last page wasn't from a student.

"It's the information of the new teacher!" Lotus Sun's pupils constricted slightly.

The student council shouldn't be able to handle the new teacher's information, and that was the personnel department's business... So the girl judged that there was a high chance that principal Chen had put the wrong information in the folder when he was sorting through the information.

With curiosity, Lotus Sun began to scrutinize the information carefully.

Only then did she realize that there were five new teachers in total.

And one of them was the newly appointed vice principal, who was also a math teacher.

It was just that the vice principal's name was a little strange.

He was actually called Huo Ding..

—— wait!

Huo... Ding?

Wasn't that just the word 'deng'? !

The young girl suddenly thought of a familiar person..

Could it be...

That senior golden lamp was the newly appointed Vice Principal and math teacher? !

Was the war ancestor finally able to completely infiltrate No. 60 high..

Chapter 1416 The First Lesson Of Golden Lantern

This week was the transfer period for No. 60 high school, so the school would be particularly lively, and as of next Monday, there might be new students joining No. 60 high school every day.

When Wang Ling arrived at school, a few people who had already arrived were discussing this matter.

As Wang Ling had expected, among the transfer students this time, that foreigner was the center of attention.

The boys in the class were discussing enthusiastically, their imaginations running wild as they fantasized about what kind of person that girl from abroad was.

“I didn’t expect our school to rise to the top of the city in only half a semester, and now it’s even famous abroad, and even foreigners are interested.”

“I heard that there’s a foreign girl named nine temples Liangzi! I wonder which class she’ll be assigned to!”

Lotus Sun hadn’t leaked the name list, but the fact that “Nine temples Liangzi”’s studies had already spread throughout the school made Wang Ling feel that it was a little strange.

Logically speaking, it was impossible for a teacher to leak information about a student in advance, and this name list was in the hands of Lotus Sun, the president of the Student Union.

Since Lotus Sun hadn’t told anyone else, who had leaked this name?

Therefore, after comprehensive consideration, Wang Ling felt that there was probably only one truth to the matter..

Unless it was the news that Liangzi nine temples had released in advance.

It seemed that this girl wasn’t a good person either..

Wang Ling sighed in his heart.

It wasn’t that he didn’t have any impression of Sun Island, because he had indeed fought with the ninja-type cultivators who had been unearthed there.

It was a magical place that was good at combining ninjutsu and cultivation.

Of course, not everyone who came from there was an assassin... Sun Island also had kind-hearted local residents.

And students like Yoshiko nine temples who chose to study abroad came from wealthy families, but there was a high chance that they couldn't compare to Lotus Sun's family..

"Where did you get the News?" Su Xiao asked as she collected her homework.

Everyone was very curious about this "Nine temples Liangzi" student who had come all the way from abroad.

"Everyone's spreading it on the school forum," dopey Guo said. "I heard that this nine temples Liangzi student is very beautiful, a great beauty! Moreover, the nine temples family is quite famous in the area as an exorcism noble family."

"Exorcism?" Wang Ling was startled.

Actually, the concept of "Exorcist" did exist in the mainland, and those so-called "Exorcist organizations" were essentially just exorcist organizations.

It was just that there were differences in how they were called.

For example, people on Sun Island preferred to call this practice "Exorcist."

Wang Ling wasn't too unfamiliar with the concept of "Spirit" either... After all, when he was very young, "Loopy toad" had also been a shadow of his childhood.

And last semester, in order to find Bai Qiao, he had participated in an exorcism convention.

To be honest, those spirits and ghosts were too weak and didn't pose much of a challenge at all.

And Wang Ling had rarely been harassed by "Spirits" since he was young.

Because the spirits that had harassed him had all been devoured and transcended..

But even so.

The exorcism (spirit removal) industry still had great prospects for development.

In essence, any cultivator who was experienced in this field seemed to be able to do it. If they didn't have enough experience, even a cultivator with a profound cultivation base was very likely to fall for it.

Those ghosts and malicious ghosts were very crafty people. In comparison, in Wang Ling's opinion, the demons in the demon world were a little more innocent..

That was why the words "Catching ghosts is harder than catching demons" had been circulating on the internet.

It was also because of this that cultivators from the demon and spirit eradication faction and demon hunters had formed a chain of contempt for each other for some time.

If it weren't for the fact that the demon world was now back on good terms with the human world and was planning to take the path of peaceful development,.

The two factions would probably have fought again.

This time, the Jiugong family had chosen to send Jiugong Liangzi to Huaxiu to study.

Wang Ling speculated that perhaps the Jiugong family's real purpose was to use Jiugong Liangzi to open up the Jiugong family's exorcism and spirit removal market in Huaxiu?

Of course, this was just Wang Ling's analysis.

Before he met this Jiugong Liangzi, everything was unknown.

Wang Ling hoped that this girl wouldn't be assigned to the same class as him..

..

The first class this morning was mathematics, however, teacher Pan entered the classroom ten minutes before class started. "Students, from today onwards, our class will welcome a new mathematics teacher. Teacher Huo, at the same time, teacher Huo is the new vice principal of our No. 60 High School. Everyone, give her a round of applause!"

After a round of intense applause, a handsome young man in a suit with thick hair stepped into the classroom.

Wang Ling almost choked on his saliva when he saw this familiar face..

On the side, Zhenyuan and Gu Shunzhi were also dumbfounded.

"What's going on?" Zhenyuan asked Gu Shunzhi telepathically.

"I think I heard earlier that senior golden lamp wanted to come to No. 60 high school, but I didn't expect him to come directly as a leader." Gu Shunzhi smiled bitterly.

At this moment, golden lamp scanned his surroundings and used the corner of his eye to secretly communicate with Wang Ling.

It was as if he was saying to Wang Ling: Ling Zhenren! Whether it was a surprise or not, whether it was unexpected! Whether it was exciting or not!

It made Wang Ling want to flip the table on the spot..

God knows why a monk who couldn't even figure out the function would come to No. 60 High to be the vice principal and also work part-time as his math teacher! -- this isn't scientific!

Moreover, what Wang Ling couldn't help ridiculing was monk Jin Deng's thick hair..

It was real hair.

Through Wang Ling's eyes, he could clearly see that monk Jin Deng's hair had grown out of the scars on his head... This operation was really too magical, and Wang Ling was dumbfounded on the spot.

"Hello, students. This poor... Daoist's name is Huo Ding," the monk said amiably.

Wang Ling could tell that it was a professional habit, and he had wanted to say "This poor monk," but fortunately, his mind had turned in time and he hadn't directly flipped over because of the opening remarks.

During the interview, Monk Jin Deng had used his experience as a "Daoist" in one of his lifetimes to successfully disguise his identity.

As for the documents, they would all be handed over to battle sect. Furthermore, Odd Zhuo was also present, so it wouldn't be a problem for him to obtain the teacher qualification certificate.

"Today is teacher Huuding's first lesson for everyone. Teacher huuding is a very powerful cultivator. I hope everyone can ask without shame and seize the opportunity! Focus on the lesson and don't wander off!"

With that, teacher Pan glared at Wang Ling. "Wang Ling! I'm Talking About You! I knew you were wandering off in the corridor earlier!"

Wang Ling: "?"

This scene was like the first day of school at No. 60 High School.

Old Pan left after saying a few threatening words..

Everyone watched as old pan left in search of a devil, when they saw monk Jin Deng suddenly look nervous.

Because he saw that Super Chen's body seemed to be glowing..

“Super Chen, why do I feel like your entire body seems to be glowing?”

Someone rubbed his eyes, thinking that he had seen wrongly.

“Could it be that because I'm here, the ‘old version of the light-opening spell’ I planted earlier has resonated?”

Monk never expected that an accident would happen in the end in his first class.

Lotus Sun had also been blessed by him not long ago, but he had used a new version of the light-opening spell at that time, so the resonance light-emitting bug had long been fixed.

At that moment, Monk knew that things weren't looking good.

Without another word, he hurried over to Super Chen.

There was no other way now.

Monk could only use the new version of the light-opening spell to replace the old one..

Chapter 1417 The New Captain Of The School Guard

Without a doubt, as the new version of the light-opening spell was cast on Super Chen, Super Chen's light-opening mouth was strengthened once again..

In the future, Wang Ling felt that he had to be even more wary of Super Chen. This guy's mouth was too terrifying, and it wasn't an exaggeration to describe it as a way of saying things.

He was simply a walking poisonous milk.

However, this would only be effective if Super Chen said it unconsciously, and he couldn't judge something with a utilitarian heart; otherwise, it would become inaccurate.

Wang Ling felt that Super Chen's strengthening today might become a foreshadowing in the future..

Now that No. 60 high school was filled with big shots, it wouldn't be an exaggeration to call it war sect high school affiliated to Renmin University of China.

In fact, there was another thing that Wang Ling hadn't expected..

That was that the Heavenly Dao of death had already come to his side.

He was a representative sent by the Heavenly Dao of the six great lords of the Heavenly Dao Committee, and had originally learned from Wang Ling.

But the Heavenly Dao of death was very timid.

He felt a little ashamed.

Because he was afraid of death, he didn't dare get too close to Wang Ling..

This psychological shadow had been there since the last time Wang Ling had held Jingke and put a sword to his neck to question him.

He was the Heavenly Dao of death, and he knew nothing about the Heavenly Dao. How could he dare to sit next to Ling Zhenren and show off his skills in front of the class.

Whenever he thought about how he and Wang Ling were studying in the same class, the Heavenly Dao of death would tremble.

However, those guys in heavenly court had forcefully pushed him to No. 60 high school, so this mission still had to continue.

Thus, Heavenly Dao of death took a step back and thought of a solution.

After his morning class, the monk returned to the independent vice principal's office.

He felt that his math class was pretty good.

At first, he hadn't even figured out what a function was, but now it wasn't a problem at all.

Although he had studied for a long time..

Of course, the main time-consuming part was to overcome his fear.

Wang Ling's memory brick had put too much mental pressure on him, and it took the monk three whole days to come back to his senses.

In fact, even now, he still had a faint psychological shadow in his heart.

But as the saying went, "If I don't go to Hell, who goes to Hell?" In the end, the golden lamp monk still perfectly displayed his monk spirit... in the end, he spent another three hours, he had taught himself all the math problems until university.

He didn't dare say that he was very good at learning; at the very least, he was definitely not as good as Wang Ling.

Monks had to be humble; he definitely had many shortcomings.

Three hours was too long to finish learning math... he needed to reflect.

When he returned to the office, Monk put down the lesson plan in his hand and was about to make a cup of tea.

At that moment, there was a knock on the office door. A young man wearing overalls walked in. "Hello, I'm here to apply for the security department. I heard that you're still lacking a school guard captain..."

It turned out that No. 60 high school's School Guard was old man Li. However, Old Man Li was now old. Principal Chen had decided that after finding a new school guard captain, he would let old man Li retire and enjoy his old age after the handover of tasks was completed.

So now, someone came to apply for the position.

The monk felt that this young man's aura was a bit familiar. When he turned around, he saw that it was the heavenly axiom of death. "It's You?"

"It's me..."the corner of the heavenly axiom of Death's mouth twitched.

At the same time, the monk also fell silent.

The heavenly axiom was guarding the door..

This could be said to be another piece of history!

It was simply unprecedented..

"Aren't you here to Learn?"The monk smiled.

"I don't dare..."the heavenly axiom of death sighed. "I think this position is actually quite suitable for me. If anyone tries to do anything wrong, I'll directly take them away."

"..."the monk was silent for a moment before replying, "However, you should go to the personnel department. This matter isn't under my jurisdiction."

"There are many people applying for this position now. Can't we use a backdoor?"The heavenly axiom of death said.

Considering that Heavenly Dao of death also cared about face, he closed the office door after he finished speaking.

Then, with a thud, he suddenly knelt down and hugged the monk's thigh. "Senior Golden Lamp! Save the child..."

"Let go first..."

The monk sighed. “Actually, I think Ling Zhenren is quite cute. He’s not that scary. Besides, you’ve made a great contribution in rescuing Miss Sun, so Ling Zhenren won’t do anything to you.”

Heavenly Dao of death knelt on the ground, his hands propping up his thighs. “But I still don’t have the courage.”

“Alright, get up first. I’ll... I’ll think of a way to deal with the matter of the school guard Captain.” Golden Lamp helped Heavenly Dao of death up.

Ever since Wang Ling had appeared, the entire Heavenly Dao had become humble..

Although Heavenly Dao had started to become more tactful, it seemed to have lost its original vigor.

The monk didn’t know if this was a good thing.

He felt that this was actually because the Heavenly Dao didn’t have a good understanding of Wang Ling.

Ling Zhenren was so adorable!

His cheeks puffed up as he ate crispy noodle snacks, just like a cute little hamster!

What was there to be afraid of.

..

It was meal time at No. 60 High School.

From this semester onwards, No. 60 high school’s meal delivery system was canceled. The cafeteria no longer prepared lunches in advance and delivered them to the classroom door; all students had to walk to the cafeteria to eat, there would no longer be any special service for the elite edition.

After Wang Ling heard about it, principal Chen also planned to improve the school uniform and make all No. 60 high students wear the “Elite” school uniform..

Everyone in No. 60 High School was an elite!

Although there was an elite class, the elite class meant the elite of the elite.

So even if they were students from the ordinary or hard-working classes, as long as they were students from No. 60 high school, they were also elites!

Eliminating discrimination was actually a sign of progress.

Wang Ling felt that Principal Chen was a man of great foresight.

As a teacher, he should treat all students equally.

For lunch this afternoon, mother Juan had prepared a meal of pork belly, salt and pepper strips, seaweed egg soup, steamed okra and stir-fried vegetables, which was fairly balanced in terms of nutrition.

In addition, there was also a new dish that mother Juan had invented, “Black fungus stewed in the sea”.

The students could taste it selectively..

Wang Ling picked up the food and sat down in a corner.

There were too many people in the cafeteria, so he actually didn't really want to eat in a crowded place. He planned to casually grab a few people to go through the motions and then leave directly.

Then, Super Chen and hero Guo came over with plates in their hands and sat down next to Wang Ling very easily.

Wang Ling's mood was finally somewhat comforted by being able to eat with people he was familiar with.

There were four seats in the corner, and after hero Guo and Super Chen sat down, there was only one seat left.

“Why is Lotus Sun Not Here?”Super Chen asked.

He put his leg across the empty chair on the side, intending to reserve a seat for Lotus Sun.

“She doesn’t eat here, it’s easy to cause a stampede,”hero Guo said. “So Student Lotus Sun’s meals are delivered directly to the office, just like the teacher’s.”

“Office?”

“It’s the student union’s office, that’s where she eats,”hero Guo said.

“Student Wang Ling, can I Sit Here?”At that moment, a sweet female voice sounded.

Wang Ling, Super Chen and hero Guo raised their heads and were surprised to see a girl who looked a little like lotus sun..

Moreover, this girl wasn’t wearing No. 60 High’s school uniform; she was wearing casual clothes.

She was wearing a casual white sleeveless short-sleeved shirt and a denim skirt, which shocked Super Chen and hero Guo on the spot.

With a perfect score of ten, this leg... was definitely worth nine points!

“Please Sit!”Super Chen quickly moved his leg away.

”...”Wang Ling.

At that moment, this unfamiliar girl took the initiative to extend her hand to Wang Ling. “Hello, student Wang Ling, I’m a new transfer from Sword God Academy. I’m here to register today and will officially report tomorrow. My name is Jiang Yingying.”

Chapter 1418 Wang Ling’s Thanks

Wang Ling deeply despised Super Chen's act of lust and ingratitude.

But very soon, Super Chen commuted his crime..

Jiang Yingying stretched out her hand to Wang Ling. She had originally planned to shake his hand, but Super Chen grabbed it instead. "Jiang Yingying, right? Hello, classmate Jiang, I'm Super Chen! I'm also classmate Wang Ling's best friend!"

Jiang Yingying was a little disgusted at first with this man who acted so familiar, but when she heard that Super Chen was Wang Ling's "Best friend," she suppressed the thought of throwing his hand away.

"So it's classmate Super Chen, I know you! You performed very well in the nine dragons mountain physical skills competition." Jiang Yingying smiled.

Of course, this was just a polite remark.

All her attention was drawn to "A speck of dust in the era"; in fact, she didn't remember Super Chen's brilliant performance at all.

However, before coming to No. 60 High School, Jiang Yingying did her best to do her homework.

It was just that Super Chen was Wang Ling's best friend.

She had been negligent.

She would have to write it down later.

This would help Jiang Yingying find out more about Wang Ling.

Wang Ling sighed in his heart.

A beautiful transfer student suddenly taking the initiative to come over during lunch time to chat..

As expected, it was too eye-catching.

He was thinking that in the future, he might as well bring his own lunchbox to school.

There was no need for rice.

Wang Ling could make this lunchbox himself.

Braised crispy noodle snacks, crispy crispy noodle snacks, crispy noodle snacks in soup..

It was very convenient as long as they were unpacked and separated.

In fact, Wang Ling himself was very puzzled.

He had already kept such a low profile, and had even deliberately pinched his face into a “Public face” that he thought wasn’t particularly handsome.

But why was it still able to attract girls..

Could it really be because of the old Wang family’s strange DNA?

Thus, facing Jiang Yingying in front of him,.

Wang Ling really wanted to reply: what exactly do you like about me? Can’t I just change it?

But there were too many people and too many eyes, so Wang Ling simply couldn’t say it out loud.

Most people in the cafeteria were single dogs.

Wang Ling’s words were nothing more than adding fuel to the fire.

If Wang Ling really said it out loud...

In the eyes of many boys, this was nothing more than an act of taking advantage of them.

“Our Wang Ling doesn’t like to talk, and he always looks like this. What’s the matter, student Jiang?” Super Chen was very friendly.

Although this was the first time he had seen Jiang Yingying, his first impression of her was very good.

“Actually, it’s nothing much.”

Jiang Yingying smiled and stared unblinkingly at Wang Ling. “I’m a fan of classmate Wang Ling. That composition from the nine dragons mountain physical skills competition really opened my eyes!”

It would have been better if he hadn’t said this, but as soon as he said it, Wang Ling instantly understood everything..

F * * K! So this girl was the pot for “Crispy noodles”!

Wang Ling lowered his head and pretended to eat while his other hand reached under the table to make a calculation.

He quickly understood the whole story.

And the real reason why Jiang Yingying had transferred to No. 60 High School.

For Wang Ling.

There was no such thing as a reference essay.

Love..

Was even more impossible.

Wang Ling felt that this Miss Jiang Yingying had put in the wrong effort.

Moreover, even if they were to take ten thousand steps back...

Even if they were to fall in love..

They still had to follow the Basic Law.

Who would rush to the top right after they had just transferred to another school.

“The food in No. 60 High School’s cafeteria isn’t bad, and the goo goo meat is very good today! Wang Ling, do you like meat too?” Jiang Yingying had just sat down for a few seconds when she was ready to start looking for a topic to talk about.

Everyone knew what Sima Zhao was thinking.

As long as one wasn’t a fool, anyone could see through Jiang Yingying’s intentions.

Super Chen’s heart ached again.

He didn’t understand what was so good about Wang Ling..

Why were all the girls willing to revolve around him.

Couldn’t they consider him?

And in the face of Jiang Yingying’s question...

Wang Ling continued to remain silent.

He looked extremely calm on the surface, but in his heart, he was panicking..

As Good Brothers, Super Chen and hero Guo could read Wang Ling's helpless gaze.

“Student Jiang, I told you that Wang Ling is like this. Don't take it to heart! Are you from Sword God Academy? I actually want to ask you, how is your Captain Yi Zhiyang Now?”Super Chen tried to change the subject.

But Wang Ling was the only one in Jiang Yingying's eyes. “Wang Ling, can you still eat? I haven't even touched the meat, I still have it here!”

As the saying goes, one doesn't eat, one doesn't speak, and one doesn't sleep.

A man who doesn't speak and eats with his head down is so handsome!

Jiang Yingying was filled with joy.

She wasn't angry that Wang Ling hadn't answered her question and remained silent.

On the contrary, she felt that Wang Ling was a dedicated boy!

”...”

Wang Ling Read Jiang Yingying's mind and was so shocked that he almost dropped his chopsticks.

Who would save him..

..

On the other side, Lotus Sun was enjoying her lunch in the student union office.

She actually wanted to go to the cafeteria and have lunch with Wang Ling.

But because it was too easy to cause a commotion, it couldn't be helped for the sake of safety and order.

"Lotus Sun! Lotus Sun!"

At that moment, a very urgent voice came from outside the office.

Lotus Sun looked up and saw Li You Yue from class two rushing over with a face full of anxiety. "This is bad!"

Li You Yue slapped Lotus Sun's desk so hard that the bowl of soup on the table shook continuously and even spilled out.

"What's the matter? Tell me slowly." Lotus Sun took out two pieces of paper and wiped the soup off the table.

Li You Yue cried out in surprise, "Your husband is going to be snatched away by someone else!"

"You... Don't talk nonsense..." the young girl's face instantly turned red.

"Hey! The last time I helped you make a love-filled bento, I thought that the two of you would succeed! In the end, I realized that the two of you are so indecisive..." Li You Yue had a disappointed expression on her face, she spread her hands and sat down. "Student Wang Ling is a blockhead, and you're not. Why Don't you just grab him and knock him on the wall?"

"You haven't told me what you meant by what you said just now? What do you mean, someone else took it away?" Lotus Sun didn't understand. She calmly picked up the bowl of soup and took a sip, at the same time, deep in thought.

Actually, she roughly knew what had happened in her heart.

But the more this happened, the more she couldn't appear flustered.

Otherwise, wouldn't she be making a fool of herself?

“It’s a transfer student! Her name is Jiang Yingying! She came to register today and is having dinner with Wang Ling in the cafeteria!”Li You Yue said.

As her best friend, she naturally had to be blunt.

“It’s just dinner, it’s fine. Student Wang Ling Can’t care about her, can he?”Lotus sun smiled calmly.

“You’re actually so calm...”Li You Yue found it a little unbelievable.

She had originally wanted to observe the young girl’s anxious reaction. However, the young girl’s calm attitude in the face of danger had greatly exceeded her expectations.

Lotus Sun took out her phone and seemed to have sent a message somewhere.

Following that, she calmly began to eat.

Li You Yue did not understand what Lotus Sun had done. Under the young girl’s gaze, she walked to the window of the student council office and saw Jiang Ying Ying walk out of the canteen with a panicked expression.

“What did you do?”Li You Yue felt that it was a little unbelievable.

“Do you know the grey sect?”Lotus Sun asked casually as she picked up the food.

“Grey sect? which new literary exchange sect has been established between the students? It seems to be full of Wang Ling’s writing fans?”Li You Yue replied.

The culture of the grey sect had been prevalent on the internet recently. Although she wasn’t a member of the sect, it was impossible for her not to have heard of it.

“I just sent out a religious order and sent her away,”lotus sun replied.

“Religious order?”

“Of course, because I’m the cult master.”

With a smile on her face, Lotus Sun replied calmly.

“Why are you the cult master...”

“Just give me the money. Isn’t it easy being the cult master?” Lotus Sun smiled.

In fact, she had already taken over the position of the cult master of the Grey Cult.

She had taken it in the morning when she had been studying.

She had calculated that there was a high chance that Jiang Yingying would launch a surprise attack like this.

So she had taken precautions in advance.

She hadn’t expected it to come in handy..

Ding! --

At that moment, Lotus Sun’s phone suddenly vibrated.

She had received a text message from Wang Ling: Thank you.

Although the content of the text message was as concise and comprehensive as ever..

The girl’s joy was self-evident.

This was the first time Wang Ling had taken the initiative to send her a text message..

Chapter 1419 A Text Message Recorded In The Annals Of History

[order of the grey cult: all teachers must immediately head to the designated Grey Cult Cooperation Cafe for an important meeting! If there is no necessary reason, you are not to be absent! Otherwise, the grey cult will be expelled and you will be regarded as student Wang Ling's anti-fan!]

This was a text message from Lotus Sun as the cult master.

It was actually not a very important meeting, but anyone who attended it could receive a red packet as a reward... it wasn't too much of a loss.

Giving out money was the most practical way to ensure that most of the grassroots in the grey cult wouldn't have any objections.

To a young girl, money was like dirt.

If she could help Wang Ling get rid of Jiang Yingying by giving out money, it would actually be very convenient.

This was because she didn't need to rack her brains to predict the operation in advance, calculate the other party's plan of action, and then formulate countermeasures..

But for Lotus Sun, it didn't matter at all.

It was much better than watching Wang Ling being harassed by other girls!

When Jiang Yingying received the instruction and rushed to the nearby coffee shop where she was cooperating with the Gray School, there were already gray school stewards waiting there.

These officials were all volunteers, and some of them weren't students from the school. They were all attracted by Wang Ling's composition and had volunteered to join.

Having these volunteers work in the school was actually a good thing for some students who were busy with their studies, and volunteers could help manage them.

“What important meeting did the patriarch announce?” Jiang Yingying rushed to the coffee shop. She saw that there were quite a few students from nearby schools who had also rushed out during lunch break to gather here.

“What’s so important? Did student Wang Ling publish some new composition?”

There were men and women among the people who had come, but most of them were literature lovers.

“No, it’s actually not that important,” said a volunteer administrator, who was actually the director of this coffee shop.

The manager had a smile on his face. “Actually, the new leader has given everyone benefits. After everyone signs in, they can come to my place to receive a red envelope of 1,000 yuan as a creative fund.”

“New leader?” Jiang Yingying’s face was full of confusion, as if she didn’t know about this matter.

“The new leader completed the handover in the morning, and the old leader retreated behind the scenes to become the deputy leader. He felt that the new cult master was more qualified than he was. The capable would take over! “Besides, the new cult master has a lot of money, and can also help the grey cult develop better,” the curator said with a smile.

He was always speaking up for Lotus Sun, and of course, he had also received some benefits.

This was the danger of a society where money came first..

However, Jiang Yingying was still relatively simple-minded. She didn’t understand why so many things had happened when she came to No. 60 high school in the morning to register for school!

“Student Jiang, this is yours.” The curator distributed the cash red packet and immediately registered Jiang Yingying’s name.

It wasn’t until she received the red packet that Jiang Yingying realized that she had been tricked!

She had clearly been hooking up with student Wang Ling in the cafeteria earlier.

In the end, she had suddenly received an urgent message from the head of the grey cult..

In addition, the new leader was so generous. This almost made Jiang Yingying instantly think of the number one enemy she would face after she transferred to No. 60 High School!

Lotus Sun!

The new leader must be her!

“Damn it... what a cunning woman!”Jiang Yingying gritted her teeth gloomily.

She had wanted to loudly denounce this blatant bribery in the coffee shop.

However, when she saw that everyone who took the red packet had a smiling expression on their face, the young girl immediately understood... she was still too young.

It could only be said that she was worthy of being the future leader of Huaguo Water Curtain Group.

This method of bribing people’s hearts was indeed a good one.

She did not have that much money on her. Moreover, Jiang Yingying was too embarrassed to ask her grandfather to help her with such a matter.

So she had to think of another way.

She, Jiang Yingying, wouldn’t give up!

“Lotus Sun, we’ll see!”Jiang Yingying snorted lightly in her heart.

Then, she put the red packet back into her pocket..

..

On the other side, in the student union, Lotus Sun took a long time to calm down.

Wang Ling... had actually taken the initiative to send her a text message..

This was the first time!

The first time that would go down in history!

She was so happy that her words couldn't express her joy, and Lotus Sun had no choice but to cast the "Cooling spell" on herself.

The more this happened, the more she couldn't let victory get to her head!

For Lotus Sun, the battle had only just begun.

Tomorrow, when Jiang Yingying officially enrolled in school, she would be in trouble.

This was her number one priority.

Apart from that, the second biggest problem was that girl from Sun Island, Liangzi Jiugong.

Lotus Sun was actually no stranger to this person.

Huaguo water curtain group actually had close dealings with the Jiugong family.

At the annual company meeting, the Jiugong family had sent Liangzi Jiugong to attend and had met Lotus Sun once.

Lotus Sun hadn't expected that the nine temples family would actually make a decision this year to send nine temples Liangzi to Huaxiu nation to study, and had even chosen No. 60 high school..

Was this a coincidence?

Or was it possible that nine temples Liangzi's goal from the very beginning had been to come for her or someone from No. 60 high school?

..

On the way back from school, Lotus Sun stared at the "Thank you" message on her phone, her face blushing all the way.

This message was too precious, and she had already written it down in her "Little Notebook" in case she lost it.

If mood could symbolize the weather, then behind the car, where Lotus Sun was, the sun was shining brightly, while in front, Jiang Xiaoche was drizzling..

This strong contrast made Lotus Sun feel a little uncomfortable. "Has brother Xiaoche not come over yet?"

Jiang Xiaoche sighed. "I've lost another 300 accounts..."

"I told you earlier, we have to change the method! This kind of continuous harassment definitely won't work!" In a great mood, Lotus Sun planned to give Jiang Xiaoche some advice. "Who exactly is that girl?"

"Jiang Yingying..." Jiang Xiaoche mumbled the name weakly.

"Jiang Yingying? ? ?"

Lotus Sun thought she had heard wrong and was stunned for a moment.

She was extremely surprised.

Could it be that this world was really that small..

“Brother Xiaoche... I need to confirm whether this girl’s ginger is ginger and Firefly’s Firefly.”? She had short hair and had the air of a literary girl. She looked very quiet. “And, she’s... A Bit like me?” Lotus Sun asked tentatively.

“How do you know?”

Jiang Xiaoche looked at Lotus Sun in surprise. “I also know that she’s a student of the divinity of Sword Academy.”

“She used to be, but maybe not now...” Lotus Sun didn’t know whether to laugh or cry. “This Miss Yingying has transferred to our school. She came to register for school status this morning.”

“How could it be such a coincidence?” Jiang Xiaoche couldn’t believe it. “And God of Sword Academy is very good, why would she want to transfer to No. 60 High School?”

“I guess she likes classmate Wang Ling,” Lotus Sun replied.

” ... ”

Jiang Xiaoche felt that his state of mind had completely collapsed.

How could it be fixed!

How could it be this again, dead fish eyes!

Chapter 1420 Before The Grand Swordsmanship Competition

When Lotus Sun returned home, she found Sun Ying ‘er sprawled on the bed as if she had lost her soul.

It seemed that she had fought against Director General of shadow for hundreds of rounds last night and had only been released not long ago..

“How are you?” Lotus Sun walked over and cast the waist-cooling spell on Sun Ying ‘ER’s waist.

This was a new spell that the girl had developed without a teacher. It could lower the temperature of her waist joints when necessary, and thus reduce the pain.

She found that the “Cooling spell” had many uses. Not only could it calm the mind, but it could also be used as a stress remedy for injuries and injuries.

In a sense, the “Cooling spell” could greatly reduce the frequency of women being violated at home and abroad.

And as it turned out, Lotus Sun was really far-sighted.

Because in the near future, the “Cooling spell” would really evolve into a new generation of female wolf-proof spells, and be named the “Ice Bird Spell”! It was said that this name was thought up by someone who had developed the “Thunder method: thousand birds”..

It could only be said that Chinese culture was vast and profound. They were both birds, but the meaning was completely different.

“Does it hurt?”

After Lotus Sun finished applying the “Cooling spell,” she gently massaged Sun Ying ‘er.

“Hey, Lotus! I was just pretending! You fell for it, didn’t you?”

But at that moment, Sun Ying ‘er suddenly turned over and pressed Lotus Sun onto the bed. She propped her hands on both sides of Lotus Sun’s head and looked straight at her.

The breath was so close that it could even reach Lotus Sun’s cheek. The girl took a deep breath, and her expression was much calmer than Sun Ying ‘ER had imagined.

“Eh? You’re actually immune? Shouldn’t you be blushing under normal circumstances?”

Sun Ying ‘er asked curiously, then she nodded in satisfaction. “Ah! It’s all thanks to me! As expected of me! With my careful training, Lotus’s skin has now become thicker! I laid the groundwork for Lotus’ pursuit of Ling Zhenren!”

“I found Ying ‘er, you really need to be taught a lesson... no wonder president Ying likes to bully you so much.”

Lotus Sun looked helplessly at the person in front of her. “I still have something important to do today, and it’s the day of the Sword Dao Conference, so I can’t delay it. Get Up first, be a good girl.”

“Alright, Rongrong, you seem to be immune to normal teasing now, so I have to give you more training now.”

At that moment, Sun Ying ‘ER’s eyes darted around.

She suddenly formed a hand seal and turned herself into Wang Ling.

But her voice was still her own. “Come! Rong Rong! Let’s Kiss!”

“Ying ‘er, you’ve gone too far!”

Lotus Sun pushed Sun Ying ‘er away with all her might, and her face couldn’t help burning up.

She thought that she had already gotten used to it.

But who knew how this little girl Sun Ying ‘er could have so much drama..

“Number Eight, don’t act recklessly.”

At this moment, loopy Toad’s figure appeared in front of the two women as it descended with a golden teleportation light.

When it landed, loopy toad introduced Wang Ying’s new rule.

It looked at the scene in front of it and felt that it was too beautiful.

Sun Ying 'er's "Shape-shifting spell" hadn't been dispelled and she still had Wang Ling's face on, but she was still wearing Sun Ying 'ER's trademark black and white dress..

Her master had actually been forced to dress as a woman!

Although loopy toad also knew that everything was fake, why was it still so eye-piercing!

It had to be said that Sun Ying 'er was too bold..

Seeing loopy toad arrive, Lotus Sun seemed to have found her savior. "Has the Sword Dao conference begun?"

Loopy toad nodded. "Today is the group competition, and we need to compete with the other sword spirits from the other 199 king groups to break out of the encirclement and become number one in the group."

"Let's Go!"

Lotus Sun called out Ao Hai and held the spirit sword tightly in her hand with a solemn expression.

The location of this group competition was a relatively empty place.

This was an abandoned ancient sword city. It was the old sword capital of the Sword King World, the center of the imperial capital a thousand years ago.

Because of its remote location, the transportation of resources and the circulation of people were very inconvenient, so the old sword capital had been abandoned after the capital had been moved, turning into a deserted city.

Lotus Sun and loopy toad came to the front of the old sword capital. The city walls of the old sword capital were much shorter than the new sword, and many places had collapsed and were badly damaged.

The stone city gates had long since been damaged and were just open.

The outlines of the old houses could be seen inside, but the wear and tear was very severe because after the old swords had become barren, they had become a place for many sword spirits to fight and a natural training ground.

But today, because of the grand swordsmanship competition.

This ancient sword city of the old era had finally regained some of its former vitality.

The city was bustling with noise and excitement. All the sword spirits participating in the competition and the sword spirits watching the scuffle had come.

“What a powerful feeling. I didn’t expect the scale to be so big this time!” Lotus Sun couldn’t help sighing in front of the ancient city.

The young girl didn’t know about all this. It was Nine Remoteness and his sword spirits, Spirit Tamer, Mo Yu, Little Qian, Carter, and the others who had worked together and mobilized countless sword spirits to build this place. They had put a lot of thought into it!

Because time was short, there wasn’t enough time to build a new arena for the final battle.

Nine Remoteness had originally wanted to build a new arena that was similar to the world’s number one martial arts dojo.

However, due to time constraints, they could only requisition the old swords.

There was a ready-made sword arena in the old sword capital. Although it was very dilapidated, it could still be used for temporary repairs. Moreover, it was very imposing. It had the size of eight stadiums with 100,000 people.

All the participating sword spirits were temporarily arranged to wait in the sword Emperor Hall next to the Sword Arena.

This was the largest inn in the era of the old sword capital.

Now, it had been restored and used again after a simple restoration.

Lotus sun verified her spirit sword with a sword guard at the door. The Sword Guard's expression changed. "So it's Miss Sun!"

The sword guard stood solemnly on both feet and saluted Lotus Sun. Then, he handed her a competition card. "Miss Sun, please go to the top floor, room No. 1."

"Thank you!" The girl took the competition card with both hands, feeling a little nervous.

She had too little experience participating in a competition of this scale, and the sword spirits of the King Group... were all experts, weren't they?

Could she really win?

As she walked up the stairs, Lotus Sun heard quite a few sword spirits talking about her.

"Ah! It's that human girl, I remember her surname is sun... She'll be competing with her sword spirit!"

"So that Ao Hai is hers? She's the favorite to win!"

This was the discussion of the other contestants. At first, the girl felt a little embarrassed when she heard it, and she smiled modestly.

She walked briskly all the way to her resting room. When Lotus Sun sat down, she could still hear her own heartbeat.

"Are You Nervous?" Loopy toad asked.

"A little." Lotus sun nodded.

"There's nothing to be nervous about. Miss Sun, just play normally."

At this moment, endless and old man came over from their lounge to pay their respects.

Leng Ming was still with them.

The two men, one on the left and the other on the right, were holding Leng Ming's little hand as they walked over from afar like a family of three. Sun Ying 'er was shocked when she saw them on the spot. "Holy shit! It's only been a few days since we last saw each other, how come the two of you already have a child!"

Old Man, Endless:"? ?"

Leng Ming:"? ? ?"
