

## Daily Life 1641

Chapter 1641 1637, What Do You Think You're Provoking Him For? (2)(1/92)

In fact, Wang Ling wasn't in a hurry to put pressure on her. He had merely raised his gaze and looked at Liu Renfeng indifferently. In the end, at that moment, Madam Feng's mind instantly went blank.

She was so shocked that she couldn't say a word. She had no idea what was going on in front of her.

She only felt that the moment she stepped into the mystic realm, it was as if she had stepped into an abyss. She was clearly being stared at by a teenager who looked like he was in high school. How could she, Young Madam Feng, Feel Fear?

Liu Renfeng could not believe the reality in front of her eyes.

She had been pursuing the infinite mystic realm for too long. Now that she finally entered, she was blocked by a teenager. This made Liu Renfeng unable to accept this fact no matter what.

"I would never kill those pretty boys," Liu Renfeng said at this moment, staring at the pressure.

As she spoke, she deliberately avoided Wang Ling's gaze.

This was the only way to make her a little more normal.

Although at this moment, her body still couldn't stop trembling.

Wang Ling could tell that Liu Renfeng actually had a backup plan.

As a famous underground scientist at home and abroad, this young Madam Phoenix definitely hadn't come unprepared since she had dared show up in her real body.

Zhan Zong and Huaxiu Alliance's request was to capture Liu Renfeng alive, so Wang Ling naturally had to watch his hand. Otherwise, if he killed her, it wouldn't end so easily.

Thus, Wang Ling still stared at Liu Renfeng, intending to watch the ants dance and see what kind of performance Liu Renfeng would perform next.

“Child, I just need the materials in this secret realm. With these materials and my skills, I can become the richest person in the world.”

At that moment, Liu Renfeng changed the subject and actually started to take a gentle line. “If you don’t Stop Me, I can guarantee you the rest of your life. You look young, and there should be a lot of things you want to buy, right?”

If possible, Liu Renfeng also hoped that she wouldn’t start a war with Wang Ling here.

She didn’t know where Wang Ling came from, nor did she know how he had come to this infinite secret realm.

But the only thing she could be sure of was that Wang Ling was very young.

Liu Renfeng had an AI intelligent analysis system in her body.

While Liu Renfeng was talking to Wang Ling, she had already found the corresponding answer from the big data in the national treasury through a facial scan of Wang Ling’s data.

Although she didn’t know why the picture was a mosaic..

The data did indeed show that this youngster in front of her was only at the foundation establishment stage.

Of course, Liu Renfeng also knew very well that Wang Ling was probably hiding his true realm.

Otherwise, she wouldn’t have felt so pressured.

“How interesting... a sixteen-year-old youngster actually has battle strength comparable to that of a soul formation cultivator?” After the initial panic, Liu Renfeng felt a little excited after obtaining the data.

A sixteen-year-old youngster had battle strength comparable to a soul formation cultivator; if word got out, the world would definitely go into an uproar.

But she wasn't going to expose this.

Instead, she had a new plan in mind.

If she could trick Wang Ling, or if she could defeat him here...

Then, she would cut open Wang Ling's stomach, take out his spirit root, and study it. Finally, she would replicate it using her current core technology of man-made spirit roots.

In that case... she would soon have a soul formation army in her hands!

The more Liu Renfeng thought about it, the more excited she became, and the corners of her mouth couldn't help curling up wildly.

So after a short moment of thought, she changed her previous offensive and planned to use the temptation of benefits to try and see if she could make a breakthrough.

After her intelligence analysis, she was sure that Wang Ling was indeed only sixteen years old.

Although there were countless pills and magic treasures to beautify one's appearance in the cultivation world these days, the rising sun qi belonging to youngsters couldn't fool anyone.

The older a cultivator was, the less "Rising sun qi" they would have.

This was a special distinguishing method unique to young cultivators.

Even if he was a genius at the soul formation stage, he was only sixteen years old. She felt that with Wang Ling's state of mind, he might not be able to resist the allure of this colorful world.

"Child, I'm old enough to be your grandmother. So I really don't want to fight with you." Liu Renfeng smiled. "You should have a lot of things you want to buy, right? No matter what kind of

magic treasure or luxury item you like, as long as you like it, I can buy it for you. In addition to these, real estate, car property, toys, beautiful women... If you're willing to cooperate with me, you can choose anything you want. Also, there are countless snacks."

"..."

Hearing the word "Snacks," Wang Ling blinked.

A drop of cold sweat dripped down his face, and he thought to himself, this is bad.

He had actually been a little shaken just now.

But he quickly regained his composure. Fortunately, he had always had a poker face, and even if Liu Renfeng had used her intelligent eye to directly scan Wang Ling's face, she couldn't see much of a difference.

Because of Wang Ling's long silence, the situation was once again at an impasse.

"Aren't you going to accept these temptations..." Liu Renfeng also found it inconceivable.

She hadn't expected Wang Ling's Dao Heart to be so solid.

But in the event that the inducement didn't work, she was left with one last option..

Liu Renfeng didn't know where Wang Ling had come from.

But a mere soul formation cultivator stopping her was too much of a belittling of this young Madam Phoenix.

"Since the negotiations have failed, then I have no choice. You're my grandson, so when Grandma makes a move, she'll be as gentle as possible."

"..." Wang Ling.

As she spoke, Liu Renfeng stretched out her hand, and a ray of light condensed in her palm.

Wang Ling noticed that Liu Renfeng had a special ring on her hand.

This was a space-type magic treasure that used spatial folding.

Unlike storage rings, this ring could transfer objects from a specific space to another space through a shuttle-folding technique.

And then!

Buzz!

The space that resonated with this spatial ring actually formed vortex wormholes on the four walls of the void the moment the light from the ring spread out.

In a short period of time, countless mechanical reptiles surged out of the wormholes!

Like locusts, these mechanical reptiles surged out of the space, spreading their mechanical wings and flying in groups in the air.

After Liu Renfeng high-fived them, the mechanical reptiles instantly scattered and took root in the ground like dense raindrops.

“Spread beans to become soldiers,” Liu Renfeng said calmly.

Wang Ling saw that the mechanical reptiles that had taken root in the ground actually sprouted in that short instant!

In just a few seconds, countless Liu Renfeng were swiftly summoned from the ground by this young madam Feng’s method of spreading beans to become soldiers..

Wang Ling only estimated the number.

At that moment, the number of planted cyborgs gathered in the secret realm was no less than three hundred thousand.

But no matter how many cyborgs there were, in Wang Ling's eyes, they were just a bunch of scrap metal.

Seeing that Wang Ling's expression was still calm, Liu Renfeng couldn't help saying, "I know that my cyborgs probably can't deal with you yet, but if we can combine the powers of everyone, it'll be different."

"..."

As soon as Liu Renfeng finished speaking, she stretched out her hand and gently pinched it.

Wang Ling saw that these cyborgs actually began to transform on the spot. They held each other's hands and quickly linked together, fusing into one and actually transforming into an incomparably huge red mecha!

Liu Renfeng's real body had already been sitting in this fifty-meter-tall mecha during the transformation process.

This fire phoenix mecha was Liu Renfeng's proudest creation.

By using artificial spirit roots as a medium, its attributes would be stacked three hundred thousand times!

In other words, as long as she sat in this mecha, even the most powerful true venerated grenade-throwing senior immortal on Earth wouldn't be a match for her!

"..."

On the other side, Wang Ling couldn't help sighing in his heart when he heard Liu Renfeng's thoughts.

He hadn't expected this young Madam Phoenix to actually compare herself to grenade-throwing senior immortal.

After all, grenade-throwing senior immortal was only a unit of combat strength with him..

At that moment, the huge fire phoenix mecha blotted out the sky and covered the Sun as if it were a shadow that couldn't see the ends of the earth, including Wang Ling.

Faced with this mountain-like mecha, Wang Ling's mind suddenly went blank.

It wasn't that he was afraid.

It was that he didn't know where to start..

Chapter 1642 1,638, What Do You Think You're Provoking Him For? (3)(1/92)

In just a few breaths'time, Liu Renfeng had displayed such a large-scale cyborg army in the so-called "Spreading beans into soldiers" method, then, in the blink of an eye, he had quickly assembled this fifty-meter-tall mecha in front of Wang Ling.

It wasn't difficult for Wang Ling to see that Liu Renfeng had clearly prepared for today's event for a very long time. It was almost impossible for such a large-scale cyborg army to be produced in such a short period of time, and it would take time.

On the other hand, the cost of building these cyborgs wasn't cheap. With Liu Renfeng's accumulation of resources, Wang Ling felt that it would really be very difficult for her to build such a large-scale cyborgs without the help of others behind her.

She was a poor and scared woman, and every word she said was filled with the smell of evil capitalism..

Wang Ling could see that Liu Renfeng wanted to use this opportunity to turn things around. With the almost inexhaustible resources in the infinite secret realm, she would be able to build her own cyborgs army and vigorously develop the industrial chain of artificial spirit roots, it would be recorded in the history books of the modern cultivation world.

At this moment, Wang Ling silently sighed in his heart.

It was a pity that this young Madam Phoenix had met him..

It was one thing to earn his small money, but Wang Ling didn't really understand why some people had to provoke him..

In the air, Liu Renfeng used her main body to connect to the fire phoenix mecha's spiritual will.

She didn't need to press any buttons to control it; all she needed to do was to place her hands on the specially made spiritual transmission pilot seat, and she would be able to complete the human-machine integration.

The huge fire phoenix mecha was a little more flexible than Wang Ling had imagined.

In the sky above the primeval forest of the limitless mystical realm, a very pleasant-sounding bass-gun song came from the Fire Phoenix Mecha.

Rather than calling it a song, it was more like an extremely deep phoenix cry.

Following that, two catapults that were more than ten meters wide shot out from the back of the Mech's arms.

The fiery red catapults, along with the singing of the subwoofer, were imbued with a layer of red spiritual light.

This was a spell that combined sound waves and enchantment effects. It was similar to the battle cry effect of some spirit beasts before battle.

At this specific frequency, in addition to enchantment, it would also affect things around the battlefield.

Liu Renfeng wanted to capture Wang Ling alive, which was why she had used this method.

Under certain conditions, a phoenix cry with such a special frequency would cause people to hallucinate, and she had just rearranged the frequency of the Phoenix cry based on Wang Ling's current realm..

It was definitely a sound wave power that could overwhelm a soul formation cultivator.

However, under such a powerful sound wave, Wang Ling's expression didn't change in the slightest.

"It's not affected at all?" Liu Renfeng was very surprised. Then, he saw the ant-sized young man stand on Tiptoe, and after stepping into the air a hundred or so meters high, he stopped.

At the same time, the air changed, and Liu Renfeng saw the scene around him rapidly change.

In this short period of time, the battlefield above the primitive jungle of the limitless secret realm had quickly changed into this boundless and deep universe. Liu Renfeng could see the Milky Way, and could even see the Earth not far away..

This wasn't a real world universe, but a universe that Wang Ling had constructed. It could be said that it was a complete replica of the real world universe.

The reason for this was that there were no other living beings in this universe.

"Intrinsic spirit field?" Inside the Fire Phoenix Mecha, Liu Renfeng's eyes were wide open, and she couldn't be more shocked by the boundless and profound universe and the resplendent Milky Way.

She knew of the existence of the intrinsic spirit field.

But she didn't know that the place she was being pulled into was a "Core world" that was even more powerful than the intrinsic spirit field..

Although the fire phoenix mecha was big, it was as tiny as an ant against the background of the universe.

Although she was sitting inside the mecha, her brain felt as if it had stopped working.

It was also at this moment that Liu Renfeng realized in shock that Wang Ling's strength had probably far exceeded her imagination.

"Who on Earth are you..."her voice began to tremble, and then she launched a frenzied attack.

In the fury of her incompetence, two enchanted bullet knives shot out at an extremely high speed, aimed at Wang Ling's head.

Wang Ling Stood Still.

The two bullet knives pincer attacked him from left and right, and the instant they hit his head, not even a hair fell off his head. On the other hand, his blade had already shattered into pieces.

Liu Renfeng hadn't expected that she would be so lonely.

In his extreme fear, even more intense artillery fire was fired at Wang Ling from every outlet of the Fire Phoenix Mecha.

Boom! Boom! Boom! --

All of a sudden, Wang Ling's core world was bombarded with all kinds of explosions. The fire phoenix mecha stored folded nano missiles, which was also a black technology developed by Liu Renfeng.

Even the explosive power of a nuclear bomb was only the size of a grain of rice, so the Fire Phoenix had a huge stockpile of ammunition.

Wang Ling originally didn't want to open the barrier, but after all, it wasn't worth it to get his school uniform dirty now, so he still put up a spirit energy barrier for himself.

The nanomite missiles bombarded the extremely thin barrier without a single crack.

"Impossible! This is impossible!"

It could be seen that Liu Renfeng was already going crazy, and she held her head in her hands with a terrified expression.

Immediately after, a dazzling holy light appeared behind Wang Ling.

Liu Renfeng: “This Is...”

It was Wang Ling’s usual practice to defeat the other party in their most confident field.

The tomb God had thought that he had control over time and space, but he had locked him in a fixed ending forever.

He could jump out of time and space, but he couldn’t escape the ending that Wang Ling had personally arranged for him.

It was like Liu Renfeng in front of him..

Turning beans into soldiers.

It could be seen that this was one of Liu Renfeng’s proudest techniques.

In a short period of time, he had used nanotechnology combined with the cultivation space folding technique to instantly create flesh-and-blood cyborgs. In the eyes of other cultivators..., this indeed looked quite incredible.

At that moment, Wang Ling was standing in his own core world.

The Immortal Holy Light behind him was unmoving, like a god in the universe.

Then, there was a buzz!

With Wang Ling at the center, the Holy Light turned into a circular shock wave, and like a huge ripple in the center of the universe, it instantly spread hundreds of millions of light years away..

Then, Liu Renfeng felt the blinding light gradually dim.

As the holy light dissipated, what appeared in front of Liu Renfeng's eyes was an incomparably terrifying scene.

She saw countless Wang Ling encircling her in front of her!

These clones that had been born from Wang Ling's body were all emitting Cosmic Starlight.

Some were formed from meteorites, some from stars, and most... from dust.

This holy light of Wang Ling's turned all the dust in the vicinity of hundreds of millions of light years into himself!

This was truly an uncountable Wang Ling.

She couldn't tell him apart with the naked eye.

Then, there was a snap.

Wang Ling snapped his fingers.

Countless clones dispersed like the wind and returned to the trillions of dust in the universe..

With this snap of Wang Ling's fingers, Liu Renfeng was completely awake.

She had completely realized that her realm level was on a completely different plane from this youngster in front of her.

Just like that.

This underground scientist's famous Madam Phoenix Chick: Liu Renfeng.

Under the great shock of the mind.

She stopped thinking..

Chapter 1643 1,639 -- He Hadn't Been King Of The Sea For Many Years (1/92)

There was a certain probability that his soul would short-circuit under the double impact of vision and spirit. This famous underground scientist stopped thinking and no longer struggled, this would help the successful implementation of this capture plan.

But Wang Ling had a nagging feeling that things weren't that simple.

He raised his hand and carefully used the great disintegration spell to disintegrate the fire phoenix mecha in front of him bit by bit from the outside, so that Liu Renfeng's true body, which was hidden inside, would be exposed.

At the same time, Wang Ling cast a temporary golden light of adaptation on Liu Renfeng, so that her body could withstand all the pressure in the universe.

Her strength wasn't ordinary, and she was at the itinerant immortal realm, but at this realm, she was still unable to fight in the universe.

Of course, it wasn't that Wang Ling hadn't thought about directly going up to her and digging out her heart, but he was afraid that the impact would be too great and directly destroy Liu Renfeng.

At that moment, Liu Renfeng was still in her original position, sitting there with her eyes wide open. Her expression was frozen in shock, and she looked as if she had been petrified.

Then, Wang Ling directly summoned Odd Zhuo here.

"As expected of Shifu!"

To be honest, Odd Zhuo wasn't surprised by what had happened after he showed up; he had already expected this outcome.

"She's all yours," Wang Ling said with a nod.

“Don’t worry, Shifu, I’ll take care of the aftermath,” Odd Zhuo said as he cupped his fists. It wasn’t his first time taking the blame, and he was already very used to it.

It was just that this time, the only flaw was that Zhou Ziyi hadn’t been able to perform any meritorious service in this battle, and hadn’t been able to show his face in front of Wang Ling.

He had high hopes for Zhou Ziyi, and was willing to take him in as a disciple, but odd zhao couldn’t do anything if Wang Ling didn’t relent.

The Man in front of him wasn’t the same man as before..

In the past, a crispy noodle snack new year card would have been enough, but now, bribing him with a new year card was unlikely to work.

However, he didn’t show it in front of Wang Ling. As usual, he respectfully sent Wang Ling off and left to deal with Liu Renfeng.

Wang Ling shared part of the power of the King’s eye with Odd Zhuo. First, it allowed odd zhao to freely use the king’s eye’s ability to travel through various spaces, and second, it also increased Odd Zhuo’s combat strength.

Of course, in the end, it was better for Odd Zhuo to clean up after him..

Liu Renfeng had seen Wang Ling’s face, so this part of his memory had to be tampered with, and the things in the core world had to be changed as well... This was a level of combat strength that had already surpassed that of Earth’s plane realm, it would be very strange if Liu Renfeng were to spill it all when he woke up.

Thus, in the infinite mystic realm, he had roughly revised Liu Renfeng’s memory of the battle just now, and only heaved a sigh of relief after confirming that he hadn’t missed anything.

If Liu Renfeng had woken up now, it wouldn’t have been Wang Ling who had fought her before, but Odd Zhuo.

“There shouldn’t be any problems now.” Odd Zhuo wiped his sweat. It wasn’t his first time doing this, but he couldn’t help feeling a little nervous.

The memory tampering incident might cause him to lose his mind, and Huaxiu alliance had ordered Liu Renfeng to be captured alive, so he knew that he could still be of use to Liu Renfeng.

..

..

Zhan Zong Command Center.

The moment Liu Renfeng’s real body stepped into the Infinite Mystic Realm, the Alliance army responsible for surrounding and annihilating the base finally blew the bugle call for an attack.

The base members of the Phoenix Chick Underground Laboratory and Liu Renfeng’s cyborgs were all dumbfounded. These cultivators had clearly been absorbed by the array just now, but at this moment, they actually got up from the ground and directly declared an attack!

“F \* ck! So that was just an Act!” The members of the underground base all had incredulous looks on their faces. Liu Renfeng’s real body had been controlled, and the command post had fallen into a leaderless state.

In an instant, the entire underground lab that extended in all directions became a mess.

The large-scale alliance army, under the intelligent deployment of kaorn, had surrounded the underground laboratory in an orderly manner.

The capture operation lasted for several hours.

Finally, he let out a sigh of relief and collapsed with a tired look on his face. “It’s finally over...”

“No. Actually, there’s only one final step left,” crispy noodles said.

“The final step?”

“With Liu Renfeng’s strength alone, he probably wouldn’t have the courage to take such a single-minded action,”crispy noodles dao monarch said.

“What dao monarch means is that there are other forces behind this?”

“Mm.”Crispy noodles nodded. There were many things that he couldn’t tell Kaorndo, he could only go so far. “But you don’t have to worry. You did a very good job commanding this operation. Leave the rest of the work to senior Li Xian and senior Zhang Zicao.”

“Are they the two new elders?”Keron’s eyes lit up. He had heard of these two people before, because they had suddenly joined the war sect and had become elders in an instant, this made many people curious about the origins of these two people.

In addition, after Li Xian and Zhang Zicao had joined the war sect, grenade-throwing senior immortal had given them the position of guest elders, which was equivalent to some honorary professors in cultivation universities. It sounded like they were from the war sect, but in reality, it was just a title.

But this name was actually directly linked to their status.

This was because Li Xian and Zhang Zichu were the only two honorary elders in the war sect at the moment.

Their names had been famous in the ancient times, but they weren’t known in the modern cultivation world. Now that they had suddenly become honorary elders, many speculations undoubtedly deepened the mystery of the two of them.

Just as Keorn and crispy noodles’s command work came to an end, Li Xian and Zhang Zicao were also looking for traces of the person behind the scenes.

Following the clue of the “All things bright vitality array”, the two of them found some clues based on the layout and technique of the array.

Zhang Zicao smiled slightly. “Interesting. From the technique, it really looks like the handiwork of that heartless ancestor. If it were him, he would indeed have the ability to activate the spell of thousands of people and thousands of faces.”

“But he has clearly been locked up in the map. Now, he can only be a pile of bones,” Li Xian said.

Zhang Zi shook his head. “Brother, you are too absolute. “Daozu Wang is indeed powerful, but there are tens of thousands of people locked up in the corpse map, tens of thousands of ancient masters. Can you guarantee that this old thief will not fail? “Just like how it was recently revealed that his parents were idols and celebrities who were shameless, nothing is absolute.”

“He fooled Daofather Wang. He’s a talent after all.” Li Xian sighed.

Zhang Zitao said, “There’s one more thing that made me sure that he was behind all of this.”

Li Xian asked, “What is it?”

Zhang Zitao said, “Do you remember those ancient divine weapons that the tomb god summoned when Ling Zhenren and the Tomb God first fought?”

Li Xian nodded. “Of course I remember... That was the Legion created by the Tomb God. In the end, the Daofather’s dharma idol life form chased after them, and only a few hundred of the tens of millions of troops are left now.”

Zhang Zitao said, “When Ling Zhenren synchronized the battle scenes in the core world just now, I saw Liu Renfeng’s fire phoenix mecha and felt that it was similar to that ancient divine weapon.”

Hearing this, Li Xian was shocked. “So the ancient divine weapon was built by Patriarch Heartless?”

Zhang Zitao: “He was a famous mechanic in the ancient times. Because all the parts on his body can be replaced, and his heart is also a mechanical heart, he was proud of his name.”

Li Xian: “But how do you know so much...”

Zhang Zicao said, "His wife told me."

Li Xian said, "Brother Zicao, don't tell me you..."

Zhang Zicao said, "The past is over. I haven't been the Sea King for many years now."

Li Xian was speechless

Chapter 1644 1,640, The Strongest Armor In The Universe (1/92)

The name "Heartless" was well-known in the ancient times. He was a well-known mechanic with the nickname of "Half-body divine weapon". In terms of popularity, he was no less famous than Zhang Zichu.

If Heartless had not been locked up by Daofather Wang, he would probably have had black technology that far surpassed the modern cultivation civilization in the ancient times.

However, the timeline had changed in the end.

In the corpse map, the eternal powerhouses who had been locked up by Daofather Wang were all white bones now. Wuxin's image was actually very obvious, because no one's white bones had gears in them..

After Zhang Zi was locked up in the corpse map together, he found that Wuxin's condition wasn't very good. From his impression, Wuxin had always been a more open and active person, but after being locked up in the map., he seemed to be a little autistic.

He did not expect Heartless to be so weak under pressure, so Zhang Zichu did not pay too much attention to it at that time.

After all, not everyone was as shameless as him.

But now, combined with the many things in front of him, Zhang Zichu was even more certain of his guess. It was that the Heartless ancestor who was locked in the corpse map... was definitely not the original person.

Because everyone knew that he was a “Half-body divine weapon”. After being imprisoned in the corpse-binding diagram and dying of old age and turning into white bones, he had all kinds of parts on his body, but unexpectedly, these parts had become the biggest camouflage in the corpse-binding diagram.

As the saying went, “A leaf blinds the eyes.”Zhang Zichu didn’t expect that he would actually be fooled by an unintentional trick.

“This half-step divine weapon is interesting.”Zhang Zichu snickered.

“But with Daofather Wang’s strength, he should be able to see through it even after he was fooled in the beginning.”Li Xian didn’t understand.

“This old thief, Daofather Wang, is only angry for a moment. After he calmed down, he wouldn’t pursue it.”Zhang Zicao said, “Of course, there’s another possibility, which is that he left unintentional outside for another purpose.”

All this while, Zhang Zichu still held a grudge against Daofather Wang for putting so many ancient powerhouses into the corpse-wrapping map without saying a word.

Logically speaking, with Daofather Wang’s realm, he shouldn’t be so narrow-minded... Moreover, Zhang Zichu felt that the matter with the old God wasn’t entirely his fault.

He did like other people’s wives, but he still respected the other party’s wishes. Although he was promiscuous back then, he didn’t like to force others to have sex with him.

If he couldn’t get it, he would force it.

In Zhang Zichu’s eyes, that was undoubtedly a rotten-ass behavior.

It was true that he was dissatisfied with Daofather Wang to this day. However, Daofather Wang’s series of actions made Zhang Zichu suspect that all of this might have been a trap..

Besides, probably only that man had the ability to play a trap.

..

..

A few minutes later, Zhang Zichu and Li Xian approached the north pole using the same psionic tracking technique that followed the traces of the spell formation.

When they reached a certain coordinate, Li Xian suddenly reached out and pulled Zhang Zichu back. “Brother Zichu, be careful!”

“I know. There’s an illusory realm here.”Zhang Zichu stood with his hands behind his back, floating in the void with Li Xian.

This was another method passed down from the ancient times.

The essence of the illusory realm was actually a kind of camouflage. People with low realms would not be able to sense it so easily. In other words, someone at the North Pole had set up this enchantment and was trying to do something in the dark.

Therefore, the entire North Pole region might have been modified. The ice mountains and snowstorms might have been reduced to nothingness.

“Should we go take a look?”Li Xian said with a frown.

The space inside the Void Magic World was completely independent and isolated from the outside world. Once the two of them entered, they might not be able to return if they fell into a trap.

Li Xian was still hesitating.

After all, this was a joint mission between him and Zhang Zicao. If they were too rash and failed, some of his accumulated points would be deducted, and the gains wouldn’t make up for the losses..

“I’ve already reported the location to Mr. Odd Zhuo. If the two of us can’t come out, he’ll think of another way.”To Li Xian’s surprise, Zhang Zicao, who had always been a tiger in his work, was exceptionally cautious at this moment.

“Since brother Zicao has said so, let’s go in and take a look... do you think forefather heartless is inside?”

“Most likely,”Zhang Zicao said.

They had just arrived on Earth and had adapted to it for a long time, and the eternal powerhouses were relatively more reclusive.

If patriarch heartless had come to Earth from the eternal world, he would have chosen this Arctic land a long time ago and settled down there.

But this was only Zhang Zichu’s guess.

The incident with Liu Renfeng was originally a small matter in Zhang Zichu’s eyes.

However, he didn’t expect that this line would involve the matter of the eternal world, which instantly increased Zhang Zicao’s interest.

There were too many questions left now, so he and Li Xian could only solve them one by one.

Was the eternal brother who set up the array the heartless patriarch, who was known as a half-step divine weapon, and the purpose of heartless patriarch taking Liu Renfeng as his disciple..

They would only find out after they stepped into the “Illusory realm”.

When Li Xian and Zhang Zicao reached out their hands and touched the barrier of the illusory realm, their figures disappeared into a puff of mist.

The scene in front of them shocked Zhang Zicao and Li Xian greatly.

“This...”

Because what they saw in the illusory realm was a completely different scene!

The city built of reinforced concrete was shining with all kinds of neon lights. Countless mechanical flying objects were hovering in the air in an orderly manner!

Inside the illusory world was actually another world!

Li Xian and Zhang Zicao were both stunned and completely speechless.

This was because the scene in front of them was too cyberpunk. It was very similar to the online game that they had watched Wei Zhi play a few days ago.

They had just arrived in the modern cultivation society and had yet to fully adapt to it, but this city of science and technology, which seemed to have been built entirely in a way that transcended the ages, once again stunned them.

..

At the same time, Odd Zhuo received a report from Zhang Zicao.

The illusory world?

Although Zhang Zicao and Li Xian were already on the move, he felt that this was a good opportunity to make a contribution.

Of course, it wasn't that he wanted to make a contribution, but mainly because he wanted to help Zhou Ziyi

With his current combat strength.

Of course, it was mainly because he had the ability to share a king's eye... It wasn't a problem for him to do whatever he wanted.

"How is it? Is it convenient for your legs to move?" He looked at Zhou Ziyi and asked. Because Liangzi Jiu gong and Lotus Sun had sent him all kinds of nutritional supplements, Zhou Ziyi's legs grew very fast.

“I feel like I can still be a little taller, but there’s no problem for me to move normally, Brother Zhuo,”said Zhou Ziyi.

“So, do you want to go out with me to cultivate?”Odd Zhuo said with a smile.

“Huh? But didn’t we just resolve the Liu Renfeng matter...”

“It’s not about Liu Renfeng, it’s about another matter,”Odd Zhuo said. “And the performance of this mission might be related to whether or not you can become my disciple.”

Zhou Ziyi instantly became excited. “I’m willing to go!”

“Okay, but you have to stay close to me during the operation,”Odd Zhuo said.

“Understood.”Zhou Ziyi bared his teeth.

At this moment, this innocent youth still didn’t know what he was about to see..

Odd Zhuo quickly sent a text message to tell Lotus Sun about this matter and report it to her.

The gist of it was to copy and paste what Zhang Zixi had said.

That was to say, if he and Zhou Ziyi couldn’t come out of the “Illusory world”after some time, they would think of a way to rescue them.

“Done.”After confirming that the message had been delivered, odd zhuo heaved a slight sigh of relief.

Then, he took out five sets of long johns from the wardrobe and handed them over to Zhou Ziyi.

These were long johns that Wang Ling had personally enchanted, and they were the upgraded version 3.0. There was no need to tuck their heads and limbs into the long johns; they also had a

protective effect on the body. Wang Ling had given odd Zhuo many sets before, but today, he had pulled out all his trump cards.

Zhou Ziyi was shocked. “Brother Zhuo, this is...”

Odd Zhuo: “It’s for your life. After you put it on, no one will hurt you even if you’re separated from me.”

Zhou Ziyi was suspicious. “These are just long Johns, can they work...”

Odd Zhuo laughed. “When have I ever lied to You?”

Zhou Ziyi: “But are we going to be gone for a long time? Do We have to bring so many changes?”

Odd Zhuo: “Who told you to change? Put them all on! It’s just like a nesting doll, you know!”

Zhou Ziyi: “...”

At this moment, this innocent youngster still didn’t know that his armor had already reached the maximum level after putting on five layers of Long Johns

Chapter 1645 1,641: Defense Because They Were Afraid Of Pain? (1/92)

Odd Zhuo wasn’t stupid, and he was well aware of the dangers in this illusory world. Zhang Zitao and Li Xian were both ancient-level mighty figures, and even before they entered, they hadn’t been completely confident, and had even left a message in advance, it was obvious that this illusory world wasn’t that simple.

There was definitely danger.

If he had gone there himself, there wouldn’t have been much of a hindrance because of the shared power of the King’s eye.

But if he had brought Zhou Ziyi with him, Zhou Ziyi’s strength was almost no different from giving his head away.

But now that he was wearing five layers of 3.0-point long johns, everything was different..

So sometimes, it wasn't because he was afraid of pain that he had to defend himself.

It was also possible that he had worn too many long johns..

Odd Zhuo had already told Lotus Sun before he left with Zhou Ziyi, but hadn't divulged this to Liangzi Jiugong... because he didn't have any extra long Johns left in his inventory, the main thing was that it would be safer to have five long johns on one person; if they were worn separately, it wouldn't be effective.

Most importantly, Liangzi Jiugong had never liked such thick clothes, so he didn't tell Liangzi Jiugong about taking Zhou Ziyi to cultivate.

He only said that he was taking Zhou Ziyi out and would be back soon.

..

On the other side, Lotus Sun received a text message from Odd Zhuo.

She actually had no intention of selling odd zhao... but the situation was a little awkward now because Liangzi Jiugong was coincidentally next to her..

Today, she had come to Jiugong Liangzi's villa to look for him, mainly to discuss buying Wang Ling a birthday present.

December 26th.

That was tomorrow.

It was Wang Ling's birthday..

Lotus sun was struggling with what present to give Wang Ling.

In fact, it wasn't just Lotus Sun; the entire battle sect was secretly planning for a birthday present.

If it had just been a simple crispy noodle snack, it probably wouldn't have been enough to satisfy this crispy noodle snack maniac's growing demand.

Perhaps other people's gifts weren't as exquisite.

But she..

In addition to giving gifts, she also wanted to use the gift to convey her feelings to Wang Ling once again.

But she knew his personality; he definitely wouldn't like gifts that were too outstanding and too flashy.

Thus, today, not long after Liu Renfeng's matter had come to an end, she had found Liangzi nine temples to come over and discuss the gift.

They hadn't even started the official discussion yet..

Odd Zhuo had coincidentally sent her a text at that moment.

"It's him again! Why does he always bring him out? ! He doesn't even bring me!" Liangzi nine temples folded his arms and grumbled.

Lotus Sun hadn't expected Liangzi nine temples's eyesight to be so good. He was clearly sitting across from her, and the text message was clearly upside down when he saw her screen... how the hell could he see it clearly? !

"Classmate Liangzi, your eyesight is good..."

"HMPH! If it was your Wang Ling who sent me a text message at this time, you would be able to see it clearly too!" Liangzi nine temples said.

Sometimes, girls were naturally more sensitive.

This was actually all thanks to the fact that they had sent so many messages to odd zhuo that even Liangzi nine temples, who had written backwards, could recognize the word odd zhuo in a second.

Liangzi nine temples's words made Lotus Sun's face turn red. "What My Wang Ling... I realize, Liangzi, you've gone bad!"

Jiugong Liangzi: "That's My Wang Ling?"

Lotus sun: "Absolutely Not!"

Jiugong Liangzi laughed. "I'm just kidding, Look at how nervous you are. I already have him!"

As she said this, she stared at her phone screen. "But I still don't understand why he's so concerned about this Zhou Ziyi. Isn't it just taking in a disciple? If he wants to take in a disciple, then so be it."

Because this matter involved Wang Ling, it was actually quite complicated, and Lotus Sun couldn't say much about it for the time being... After all, in nine temples Liangzi's current understanding, Wang Ling was still odd Zhuo's disciple.

But Lotus Sun felt that it wouldn't be long before nine temples Liangzi knew the truth about Wang Ling's true strength.

But in the end, Odd Zhuo had to come forward and confess to nine temples Liangzi.

It wasn't really appropriate for her to come forward herself.

At that moment, Lotus Sun sighed silently in her heart.

She had originally wanted to ask Liangzi out just to discuss the birthday present, but in the end, something else had come up..

And now it looked like it was going to be very troublesome.

She could only console him. “After all, we’re going out to cultivate together, so that place might be more dangerous. That’s why he didn’t bring Liangzi with you.”

The more she thought about it, the more she felt that something wasn’t right. “But the problem is that Zhou Ziyi’s realm is about the same as mine. Why could he go? Two Men... do you think he’s going to some improper place?”

“No Way, senior Zhuo isn’t like that...” Lotus Sun said.

“But I just can’t be at ease.” Liangzi nine temples looked anxious, she sighed. “You haven’t fallen in love yet, you don’t understand. Odd Zhuo and I are just in the early stages of our relationship... it’s normal for us to be in such a mood.”

After saying this, Liangzi nine temples slowly realized that her words seemed to sting Lotus Sun’s heart, so he hurriedly apologized. “Ah, I’m sorry, Lotus, I didn’t mean to...”

“It’s... It’s fine...” Lotus Sun smiled awkwardly. She only felt her mouth ache, as if she had eaten a lemon slice.

Everyone was in love, and it seemed that she was the only one who hadn’t found a place.

She wondered when that piece of wood from the Wang family would bloom..

“Lotus!”

Just as Lotus Sun’s thoughts were running wild, Liangzi nine temples suddenly called out to her.

Lotus Sun: “Ah?”

Liangzi nine temples: “Let’s Go Together!”

Lotus Sun: “But... But if we do that, we’ll be in great danger...”

Actually, Lotus Sun wasn't very afraid. She was mainly worried about Liangzi nine temples.

And if they went together, she was afraid that her current strength would also be exposed in front of Liangzi nine temples..

Liangzi nine temples smiled. "It's okay. I have the Ghost Talisman. I have 100,000 ghost soldiers at my disposal. Of course, it's not enough for just the two of us to go, so we still need to find help."

"Help?" Lotus Sun had a bad feeling about this.

Then she saw Liangzi nine temples use his phone to quickly edit messages.

Lotus sun: "Who are you sending it to?"

Liangzi nine temples: "Senior Golden Lamp, of course."

Lotus Sun: "..."

After a few seconds, Liangzi nine temples suddenly smiled. "Yes! It's Done!"

Lotus Sun was shocked. "Senior Golden Lamp... agreed?"

Liangzi nine temples: "Of course, because I told senior to get rid of the demon. I didn't mention the illusory realm."

Lotus Sun: "..."

Liangzi nine temples: "But senior golden lamp also said that he needed to report this to grenade-throwing senior immortal just to be safe."

"..."

She didn't know why.

After hearing Liangzi nine temples say this, Lotus Sun suddenly had a bad feeling..

She had a feeling that the next illusion of nothingness.

Seemed to be very lively..

Chapter 1646 1,642: A Sad Story (1/92)

When Golden Lamp received a text message from Yoshiko nine temples, he only had to pinch his fingers to figure out what had happened.

If it had been before, he would definitely have declined Yoshiko nine temples' visit.

But the situation was different now.

The monk greatly admired Wang Ling, and in order to get closer to him, that was why he had become No. 60 High's vice principal.

In order to get to know Wang Ling better, he had a very good relationship with Odd Zhuo, and now that nine temples Liangzi was one of Odd Zhuo's people, he naturally had to agree to this request.

In fact, golden lamp had already noticed the "Illusory realm" a long time ago.

He could roughly guess who the master of the illusory realm was.

Moreover, up until now, the illusory realm had been relatively peaceful, and there hadn't been any major fluctuations, so the monk naturally couldn't be bothered with it.

He had lived in seclusion on earth for a long time. If it hadn't been for Wang Ling, who knew that he still had a long cultivation space, he would probably still be in seclusion, leading a peaceful and quiet life of meditation.

A long period of immersive seclusion naturally brought with it a boundless sense of loneliness.

Not everyone could be like the monk, who could repeatedly knock on a wooden fish in one place for thousands of years.

For example, in the illusory realm..

“Old Man, you finally can’t take it anymore.” Jin Deng’s expression was calm and calm.

The last time he sneaked into the illusory realm was hundreds of years ago, and now, the technology city that was made of gears, lights and high grade universe alloys had probably formed to a certain size.

It was just that they didn’t know how long the city inside the illusory realm would last after they all went inside..

..

On the other side, when grenade-throwing senior immortal received the monk’s message, he and loopy toad were inspecting Shouchong’s destroyed private laboratory.

According to the information they had obtained from Liu Renfeng’s laboratory..

They had received the news that Shouchong was junior brother Liu Renfeng, so they had rushed here without stopping.

But unexpectedly, this famous scientist had already run away.

The entire underground laboratory had been cleaned up.

He didn’t take any mechanical equipment with him, but directly blew them into ashes.

When the battle sect disciples responsible for the arrest arrived here, the scene in front of them was already a mess.

“Everyone, search with all your strength! Don’t let go of any corner! Every piece of ash left behind must be carefully screened!” A battle sect outer disciple wearing a white Daoist robe and carrying a big sword on his back said.

“Yes!” The rest of the group replied.

This group of outer sect disciples was abnormally high-spirited; although they were still outer sect disciples of the combat sect, they still had to be assessed. But outer sect disciples also had monthly assessments, which were also divided into three, six, and nine grades.

This disciple with a large sword on his back was called Claudy, and there were nine copper coins embroidered on his Daoist robe, which confirmed that he was actually a level nine outer sect disciple of the combat sect.

According to the sect’s reliable rules, as long as an outer sect disciple could have ten copper coins embroidered on them, they were eligible to participate in the inner sect assessment.

It wasn’t known whether it was because grenade-throwing senior immortal had personally come to the scene.

This big sword disciple also wanted to show off the outer sect Disciple’s spirit, so he shouted again, “I can’t hear you! Louder!”

“Yes!” The other outer sect disciples answered one after another!

“No! I have no spirit at all!”

“But I’m already very loud...” a disciple retorted in a low voice.

“In our battle sect, if a level 9 disciple says he can’t hear, then he can’t hear!”

The greatsword disciple said, “I’ll emphasize it again! Search every inch of the room carefully! Do you understand? !”

“Ming! ! ! Bai! ! !”

“Very good! Very energetic!”

..

“Sect leader, the equipment in the laboratory has been blown clean, and there isn’t any relevant data to be found. The only clue at the moment is that the material structure on the wall ash is very similar to that of the cyborgs. In addition, there’s no genetic evidence related to Shouchong,” a sect disciple reported.

“The structure of the Cyborgs?” Grenade-throwing senior immortal thought for a moment and snapped his fingers.

If he had guessed correctly, Liu Renfeng should have sent a team of cyborgs to look for Shouchong earlier, and it was very likely that they had threatened him.

From the timing, it could be inferred that the explosion in the laboratory had happened right after Liu Renfeng had been arrested.

This was actually a great opportunity for Shouchong to escape.

But there was one thing grenade-throwing senior immortal still didn’t understand.

Since Shouchong and Liu Renfeng, the senior and Junior Brothers, were not compatible with each other, there was definitely no possibility of them working together.

Shouchong should also be happy that Liu Renfeng had been arrested.

He had no reason to escape at all.

But it wasn’t impossible to catch Shouchong now, which was why he had found Loopy toad to help.

“Although this king is good at tracking, you should be able to do it, right?” Loopy toad said.

“It’s just that I haven’t been with Brother Dog for a long time, so I miss it a little,”grenade-throwing senior immortal said with a smile.

“This place was blown up very cleanly, and it was specially treated. If it had been a few months ago, with this king’s strength, I’m afraid I wouldn’t have been able to achieve this level of tracking. But now, I can,”loopy toad said.

Tracking scent was a dog’s instinct to begin with. Although it had turned from a toad into a dog, it was already getting used to its own body.

It looked at grenade-throwing senior immortal. “Do you have Shouchong’s personal belongings?”

A battle sect disciple took the initiative to approach. “Elder dog, we’ve already prepared them according to sect master’s instructions. These things were found in Shouchong’s apartment; I don’t know if they’ll be of any use.”

“These are enough,”loopy toad said. “Also, don’t call me elder dog... Call Me Mr. Er!”

It felt that calling him elder dog sounded like an insult..

“Okay, elder dog.”

” ... ”

“Then what does Mr. Two Want?”

“We’ve collected tissues stained with an unknown liquid, underwear that looks unwashed and stained with an unknown yellow stain in the washing machine, a pair of socks that no longer look like white socks that reek of rotten salted fish, and...”the disciple replied enthusiastically.

“Forget it, just bring this bag to my eyes and stop describing it...”

“Okay, Mr. Two.”

Loopy toad could already imagine that the things in the bag were extremely disgusting just by listening to the description, but when it moved its nose closer, it actually felt as if it had almost died of poison..

“Are all older, single, and straight men so sloppy?”Loopy toad couldn’t help feeling disgusted.

“Haha, it depends on the situation. This reminds me of brother Little Silver,”said grenade-throwing senior immortal.

“Little silver? What did he do now?”

“It’s like this, isn’t brother silver addicted to writing recently? He recently wrote a scene of a male and female protagonist kissing, and then realized that his protagonist’s first kiss was gone, but his was still there.”

”...”loopy toad.

This was indeed a sad story..

After remembering the indescribable smell in the bag, loopy Toad’s dog fur stood on end. “It’s done. Now, we just need to set off and find him.”

“Yes, thank you, Brother Dog,”grenade-throwing senior immortal said.

“Even if he hides in the ends of the Earth, this king will definitely be able to find him!”

..

Thus, about ten minutes later.

Grenade-throwing Senior Immortal and loopy toad appeared at the boundary of the illusory realm of nothingness..

Chapter 1647 1,643: Zhang Zitao’s Powerful Logic (1/92)

In the illusory realm, the huge science and technology city was clearly divided into two large areas. The central area of the city was the most brilliant and brilliant place, just by looking at the golden lights that reflected each other, he knew that it was the gathering place of the rich and powerful. It was a place where as long as one had enough money, they could do whatever they wanted inside.

When Li Xian and Zhang Zi sneaked into the place, they were in the outermost street. The air of the street was filled with the faint smell of engine oil and the dazzling neon lights, which made people feel unreal.

The two of them used invisible spells to observe the people living in the illusionary land secretly.

Although they had not fully touched the core area yet, from the feeling in the outer layer, they could tell that there was indeed an independent civilization inside the illusionary land.

And with one look, it was obvious that it was the work of that heartless patriarch.

Because from what they could see, the people living here were all semi-mechanized human cultivators.

Even many shops that sold spirit tools hung all kinds of mechanical limbs and mechanical parts in the shops.

The only thing that overlapped with the real world was that the language was still common.

“Did you open another world to become a King? This old guy... does he think he’s playing with My World?”Zhang Zi Snickered.

Then, he took off one of his right legs in front of Li Xian and replaced it with a mechanical limb.

Li Xian:”? ? ?”

Zhang Zi snickered, “Don’t just stand there. Hurry up and take it off.”

Li Xian: “How do I Take It Off...”

Zhang Zichu said, “Don’t tell me you’ve never learned the disintegration technique before? Do you really need me to teach you? For people of our level, don’t we have to take off our eyeballs and replace them casually? Isn’t it easy to remove a leg? “We’re all cyborgs here. If we were to go public, we would definitely be suspected.”

Li Xian:”...”

Although Zhang Zichu’s words sounded reasonable, Li Xian had never learned the disintegration technique before.

However, both of them were big shots of the eternal realm, and their strengths were almost the same. It was not difficult for them to learn a new spell.

Zhang Zitao sighed secretly. He had no choice but to transmit the mantra of the disintegration technique to Li Xian’s mind.

Li Xian roughly understood it after learning it for more than ten minutes on the spot. Then, he took off one of his legs.

He didn’t expect that there was such a magical spell that could take off a limb or an organ from his body..

“How did you learn the disintegration technique?”Li Xian was curious.

“Speaking of which, it was the old God who taught me,”Zhang Zizi said. “You know, my ability is very strong. “It caused the old God to be obsessed with me back then... so I took off one of my arms and gave it to her to use.”

Li Xian:”...”

Zhang Zizi sighed. “Fortunately, this arm was taken back before I was locked in the picture by Daozu Wang. Otherwise, my right hand, which has been with me for countless years, might turn into a fossil outside.”

Li Xian:”...”

After changing into the mechanical leg, Li Xian suddenly realized a very serious problem.

He looked at Zhang Zizi and asked, “Brother Zizi... Where did you get this mechanical leg?”

Zhang Zicao pointed to a mechanical limb shop in front of him. “I just got it when I went to inspect it. As long as I find the currency here, it’s different from the currency outside.”

“That doesn’t seem very good, Brother Zicao. You’re now a consultant for the anti-pickpocket group...”

“But this is the illusory realm, what does it matter?”

“Then I don’t care. I have to give you a stern reprimand for this. Ling Zhenren has repeatedly warned me...”Li Xian said seriously and exaggeratedly.

After all, he and Zhang Zicao were the first to be released by Wang Ling, and he had been promoted to captain, so he had the obligation to supervise Zhang Zicao’s activities in the modern world.

It was an exaggeration to say that Wang Ling had repeatedly reminded him, because those who were familiar with him knew that Wang Ling rarely spoke more than fifteen words..

But putting this aside, stealing was definitely wrong.

This problem had to be corrected.

It was the same even in the illusory realm.

“Alright, then you can at least think of a way to buy it, right?”Zhang Zi was helpless, and could only comply in the face of Li Xian’s stubbornness.

There was nothing he could do, because he was also afraid of Wang Ling.

“This is fine, but you’re not allowed to steal money,”Li Xian said.

Then, with lightning speed, Zhang Zi stole and put back the mechanical legs that had been thrown from the shop.

Then, he walked over with Li Xian and chose to buy the two mechanical legs that he had just put back. “How much do you want for these two legs?”

Suddenly, a big deal came in. The shop owner, who looked like he weighed more than 200 pounds, was overjoyed. He rubbed his iron hands and smiled. “You two sound like foreigners?”

“Why? Are you xenophobic?” Zhang Zichu raised an eyebrow.

“No, no... our shop has always put the customers first.” The shop owner smiled and said, “The two mechanical legs that this gentleman has his eyes on are new goods. The model is BPPLE12 protaigui.”

“Is it the latest model from the core area?” Zhang Zi asked.

“You must be joking, sir. You know, the ten floors outside the core area are all outer rings. In fact, they are all places where the poor live. There is no essential difference.”

The shop owner said, “To tell you the truth, these two mechanical legs are indeed outdated products in the core area of the rich. But in our outer ring, these are fresh goods. So in terms of price...”

“I know. Just name the price.” Zhang Zi stole a glance at the shop owner and said.

“These are the last two mechanical legs of this model in our shop. The current market price is 1,098 yuan.” “Two legs to pack. Sir, you only need to pay me 2,000 silver gears. I’ll give you a discount.” The shop owner grinned. “You can use electronic transactions or pay for cogs.”

After the shop owner finished speaking, Li Xian stared at Zhang Zian’s movements. He saw Zhang Zian Touch the left pocket and touch the pockets. In the end, he actually took out a stack of money that he had never seen before from his pants pocket.

The shop owner was overjoyed. He saw Zhang Zichu take out the money without bargaining. He felt like he had killed a big fat sheep today. “Thank you for your patronage! Thank you for your patronage! I look forward to your next visit!”

..

Then, the two of them left the shop.

They found a hidden corner and replaced the mechanical leg.

Li Xian frowned deeply, still puzzled. “Where did brother Zichu get the money?”

Zhang Zi Snickered. “I don’t have any money. Of course it belongs to that shop owner.”

Li Xian said, “You... Why did you steal his money again? Quickly return it!”

Zhang Zi Snickered. “Didn’t I return it?”

Li Xian said, “But our mechanical legs...”

Zhang Zi Snickered. “What’s wrong with the mechanical legs? Didn’t you buy them with money? I didn’t steal them. Look at that shop owner’s happy face. He’s looking forward to our next visit.”

”...”

Hearing this, Li Xian opened his mouth wide.

This genius logic left him speechless for a moment..

Chapter 1648 1644: A Historic Meeting (1/92)

The illusory realm of nothingness was a mountain of mechanical parts that were piled up in an abandoned field outside the tenth ring of the core area of science and Technology City.

Because they had entered the illusory realm through different coordinates,.

When Odd Zhuo and Zhou Ziyi entered through the external enchantment, they directly appeared at their current location.

This place was filled with all kinds of mechanical parts, and the smell of gasoline mixed with the broken limbs. As soon as they entered, Odd Zhuo immediately sealed his nose and Zhou Ziyi's, he used the "Turtle breathing technique" to breathe.

Zhou Ziyi was already stunned by the scene in front of him.

This kind of scene, which only appeared in a sci-fi blockbuster during the apocalypse, gave people an unrealistic feeling.

He followed Odd Zhuo through a few mechanical mountains.

Suddenly, a mechanical hand reached out from a crack on the side and grabbed Zhou Ziyi's pant leg.

The broken limb wasn't very strong, but it had happened so suddenly that Zhou Ziyi staggered in fright.

In comparison, Odd Zhuo's expression was indeed calm, because he knew very well that there was nothing here that could hurt him.

Zhou Ziyi's face was red. "Brother Zhuo... I'm sorry, I..."

"You probably haven't gone out to cultivate since you lost your legs, so it's inevitable that you're lacking some experience. I was just as frightened when I went to cultivate in the mystic realm with a few seniors a long time ago," Odd Zhuo said with a smile.

These words were his encouragement to Zhou Ziyi, and at the same time, it gave him the feeling of being a master for the first time.

He had taken a liking to Zhou Ziyi and planned to take him in. Not only did he take a liking to Zhou Ziyi's character, but he also planned to find a strong successor for himself.

On the other hand, Odd Zhuo also wanted to experience what it was like to be a master for the first time.

If he could figure it out, he might be able to understand Wang Ling even more.

Using the power of the King's eye, Odd Zhuo used a god-like perspective to do a carpet search, and a hologram of the entire illusory realm of nothingness appeared in his mind.

It turned out that this was a science and technology city, a cultivation city built on the basis of mechanization..

“Brother Zhuo? What are we going to do next?”Zhou Ziyi asked.

He had been full of confidence before coming to the arcane realm, but when he really came to a new and unfamiliar environment, that sense of fear and mystery that stemmed from the unknown instantly made Zhou Ziyi feel his mind go blank, he did not know what to do at all.

In fact, this was not a problem that only appeared on Zhou Ziyi.

It was the same for the vast majority of the newbies in the cultivation world.

Under the current systematic mode of compulsory cultivation education, unless there was a very special opportunity before going to university.

Otherwise, under normal circumstances, almost all the cultivators before university had no experience of exploring the arcane realm on their own. Most of them still followed the main force and acted together under the protection and organization of the school's instructors.

With so many people, they naturally wouldn't be afraid if they were in another place.

Odd Zhuo had always thought that strictly speaking, it wasn't called an exploration of the secret realm.

It was called a spring outing and autumn outing..

On the contrary, the fewer people there were, the more uneasy they would feel.

“Ziyi, you don’t have to be afraid. The things you’re wearing right now are very strong defensive equipment. Why, you still don’t believe me?” Odd Zhuo smiled.

“I do...”

What the hell!

Long Johns... how could they be so strong!

Zhou Ziyi scratched his head.

Odd Zhuo had already told him before he had come that long johns were very powerful.

But he really didn’t believe it completely.

Because it was really too outrageous..

Although he was now wearing five layers of long johns and looked a little fatter, what made Zhou Ziyi feel incomparably amazed was that he didn’t feel uncomfortable at all.

It was as if these long johns could fit a person’s body, and they also had a temperature control system that could adjust the body’s temperature to the most appropriate state.

These comfortable long johns were soft and sweet, and didn’t look hard at all!

How could they possibly withstand a fierce attack... this wasn’t scientific at all!

“Hey, you’ll know how strong these things are when they come in handy,” Odd Zhuo said.

After all, this version 3.0 of the Long Johns were Wang Ling's handiwork. Who would have thought that a long johns would be more than ten times more powerful than the chaos armor on Daoist ancestor Wang's Dharma Idol, Zheng

And now, these five long johns were stacked together like dolls. Although Zhou Ziyi's outfit was a little bloated like a Michelin tire, Zhou Ziyi's armor was already full! No one could hurt him!

He wasn't in a hurry.

On the contrary, he had brought Zhou Ziyi here this time to look for an opportunity to take off with him..

It was true that this heartless ancestor was an eternal level expert.

But if he could get Zhou Ziyi to kill this eternal level expert..

Odd Zhuo felt that he was more than qualified to join the sect.

He had won by lying down for so long and was well-versed in the essence of winning by lying down.

It was just that Odd Zhuo hadn't expected that there would actually be a day when he would bring the disciple he wanted to take in and lay out a plan to win by lying down for this future disciple..

He casually picked up two mechanical limbs from the trash mountain and scanned them using the king's eye's recovery ability.

Then, Zhou Ziyi saw these two mechanical limbs actually transform into golden light particles in odd Zhuo's hands, forming a holographic image in the air and rearranging it before quickly materializing again.

This was Wang Tong's "Light of restoration: Home Appliances Edition", which was specially used to repair mechanical products. Odd Zhuo had only wanted to give it a try; he hadn't expected that it would actually come in handy.

In less than two seconds, two brand new mechanical limbs appeared in Odd Zhuo's hands.

At this moment, both of them exclaimed in unison in their hearts.

Odd Zhuo exclaimed in his heart, "So this is what a perfectly good mechanical arm looks like."

Zhou Ziyi exclaimed in his heart, "There's actually this kind of operation! !!"

Aware of Zhou Ziyi's astonished gaze, odd zhuo couldn't help laughing. "Don't be too surprised; it's just an ordinary eye technique."

After rearranging his thoughts, Zhou Ziyi said, "Brother Zhuo, since we're all semi-mechanical cultivators here, shouldn't we change into mechanical limbs as well?"

Odd Zhuo nodded. "Smart. However, at your current realm, you simply don't have enough spirit energy to use the disintegration technique to change your limbs. Even if you learn this technique, I'm afraid the disintegration won't last more than ten seconds."

"Then... What should we do?"

"It's very simple. Just use the illusion spell." The next second, Odd Zhuo activated the ability to share the king's eye and projected the two mechanical arms he had just recovered onto himself and Zhou Ziyi in the form of an illusion spell.

When Zhou Ziyi saw his right hand suddenly turn into a mechanical arm made of metal, he was shocked as well. "So powerful! It's practically like a layer of skin has been changed..."

"This way, it's foolproof."

Odd Zhuo cupped his chin and said, "But this illusory realm is already another country. I guess the currency used is different from what we usually use."

Unlike other mystical realms, this mystical realm had these mechanized indigenous cultivators and their own civilization.

Where there were people, there would inevitably be all kinds of business and transactions.

Furthermore, through the holographic image that the king's eye had sent back, Odd Zhuo had also seen the most central and resplendent core area.

So how to enter there as a legal indigenous without alerting the enemy was the crux of the problem.

Odd Zhuo judged that they had to have enough money if they wanted to move unhindered here.

Thus, at this very moment, in front of the vast and sparsely populated scrap yard, Odd Zhuo found an opportunity to make a fortune..

"Ziyi, go and pick up some spare parts that look usable," odd Zhuo said.

He had the light of restoration: home appliances version of the eye technique, so he could turn waste into treasure and sell it.

"Okay!"

Zhou Ziyi understood and could almost immediately guess what Odd Zhuo wanted to do.

But just as Zhou Ziyi was about to make his move, a tall young man with fair skin suddenly appeared in front of them.

He was dressed in casual clothes and had neat bangs. When he approached them, it was as if they could feel the sunlight coming from his body.

"Brother, you don't seem to be from here."Odd Zhuo frowned.

"I am indeed not... but neither are you."The young man smiled.

"Who are you?"Odd Zhuo's eyes immediately darkened.

This young man from an unknown background could actually see through the king's Eye's illusion? This made him feel incredulous..

"Sorry, Sorry, I didn't mean to eavesdrop on your conversation. I also accidentally fell into this mystic realm." At that moment, the young man lazily raised his hands and made a surrendering gesture.

So he had eavesdropped..

Odd Zhuo heaved a sigh of relief.

"So I just want to ask, where exactly is this place? I heard you say that it seems to be a mystic realm? Have you heard of Northern Yan City? I'm From there," said the young man.

"Northern Yan?" Odd Zhuo was stunned.

Then, he raised his head to look at the person in front of him. "As far as I know, our Huaxiu Nation doesn't have a city called Northern Yan..."

"Huaxiu Nation?"

Hearing this, the young man was stunned. He rubbed his chin in thought and couldn't help muttering, "Oh no... Did I fall into another space?"

"Brother, aren't you going to tell me who you are? I keep feeling that this is very rude," Odd Zhuo said vigilantly. He felt that the young man in front of him was indescribably strange.

The main thing was that the other party's combat strength wasn't ordinary.

Even though the young man hadn't deliberately released his spirit energy.

But through his king's eye, Odd Zhuo could clearly see that the spirit energy in the young man's body was as boundless as the sea... it was almost comparable to dao gods.

“Then in exchange, I hope that you’ll tell me who you are after I say this.”

The young man smiled warmly and then stretched out his hand at Odd Zhuo. When he heard Zhou Ziyi Call Odd Zhuo Brother Zhuo earlier, he also said, “Hello, Brother Zhuo, my name is Qin Zong. Qin Shu, Chu Tian’s Qin, is a free and unrestrained free and unrestrained free and unrestrained free and unrestrained free and unrestrained free and unrestrained free and unrestrained free and unrestrained free and unrestrained free.”

“Qin... Zong?” Odd Zhuo was instantly stunned by this name.

He felt as if he had heard it somewhere before.

At this moment, Odd Zhuo hadn’t realized it yet.

This was a historic meeting..

Chapter 1649 1645! This Fool! (1/92)

There were a lot of abilities in the shared version of the King’s pupil, but at the same time, there were restrictions on access. In fact, Odd Zhuo had yet to obtain access to many heaven-defying abilities.

It wasn’t that Wang Ling was stingy, but that once these abilities were abused or used inappropriately, they might have a very serious butterfly effect.

On the other hand, Odd Zhuo hadn’t actually reached the level of spirit energy required to activate these heaven-defying abilities.

He sized up the young man in front of him and felt as if he had heard this name somewhere before, but for a moment, he couldn’t quite put his finger on it.

Zhou Ziyi stared at Qin Zong. Although he also felt that the sudden appearance of Qin Zong was a little suspicious, for some reason, he felt that Qin Zong looked exceptionally kind.

“How about it? Do you want to cooperate? From the looks of it, you’re planning to sell these pieces of junk, right?” Qin Zong had actually seen most of what had just happened. He knew that Odd Zhuo had the ability to turn trash into treasure, so he immediately proposed to join the cooperation.

“That depends on what you can do,” Odd Zhuo said.

“Hey, I’m just here to join in on the fun. If I can help you, I hope you can help me think of a way to get me home,” Qin Zong replied.

This was the first time Qin Zong had seen falling into a spatial turbulence and causing the space and time to be out of order. He could basically determine that he had fallen into another space.

This was a big problem.

With his current realm and strength, he still couldn’t reach the ability to correct space and time.

Of course, he didn’t know if Odd Zhuo would be able to help him.

But based on his past experience,.

He felt that following Odd Zhuo was definitely the right thing to do..

Because he was lucky enough.

Otherwise, he wouldn’t have heard Odd Zhuo and Zhou Ziyi discussing their plans at this desolate waste recycling site as soon as he had fallen out of space, and he found that he was just right to be of use.

“Are we cooperating? After all, we don’t know you, so I think we should consider it...” Odd Zhuo said.

He didn’t really dislike Qin Zong, but he was too unfamiliar with Qin Zong and didn’t know what the other party’s real purpose was here.

Also, if Qin Zong joined... It might affect Zhou Ziyi’s contribution.

As he was thinking, Qin Zong crossed his arms, he burst out laughing. “I’m not a bad person. If you’re worried that I’ll take the credit, you don’t have to worry. I’m the best at assisting people.”

It wasn’t that Qin Zong had used some mind-reading ability; he had simply analyzed Odd Zhuo’s micro-expressions to make a mental guess, and then had hit the nail on the head.

Odd Zhuo pursed his lips. “It’s not impossible for you to cooperate, but you have to follow my plan...”

“Of course, I’ll listen to you.”Qin Zong nodded.

“Then you and Ziyi can go pick up trash together,”Odd Zhuo ordered.

Odd Zhuo hadn’t expected a dao god level cultivator to pick up trash.

He had thought Qin Zong would be angry, but in the end, the other party seemed to be in an exceptionally good mood. It didn’t look like they were picking up trash at all; instead, it felt a little like they were searching for treasure.

Odd Zhuo was shocked again.

He suddenly felt a little regretful that he had agreed to join Qin Zong just now..

Why did he always feel like he had dragged a lunatic onto the boat?

After less than fifteen minutes, Zhou Ziyi and Qin Zong returned at the same time.

“Master, the storage bags are basically full. They look like they can be used,”Zhou Ziyi said. He basically picked up the broken limbs that looked new and did not have much dust. In total, he picked up a hundred storage bags and filled them up. The results were full.

After saying that, he looked at Qin Zong. “Then, Brother Qin Zong, how many did you pick up?”

With a smile on his face, Qin Zong took out a piece of grey stuff from his storage bag. It smelled of engine oil and looked like a lotus root that had just been dug out of the mud.

“Ah, this... can I sell it for money...”

Zhou Ziyi said with some doubt.

Qin Zong, on the other hand, was very confident in himself, and the smile on his face didn't fade.  
“You'll know when it's repaired.”

..

After a while, the three of them brought the mechanical arm that Odd Zhuo had repaired with the light of repair: home appliances edition to a shop that sold and recycled mechanical limbs.

Qin Zong glanced at the shop's name: Pigeon boss mechanical limbs shop, and suddenly had mixed feelings.

As soon as they entered the shop, the fat shop owner was counting the money in the container, and he seemed to be muttering something.

Staring at the account book, he couldn't figure it out, he looked distressed. “I just sold 2,000 yuan worth of goods, why isn't the cash in this cabinet changed? Did I not learn my functions well? My math teacher is clearly still in good health...”

“Boss, do you want to recycle the Mechanical Arms?” Odd Zhuo asked at that moment.

The fat shop owner immediately put down the work in his hands and put on a big smile again.  
“What do the three of you want to sell?”

Odd Zhuo handed over Zhou Ziyi's storage bag first. “100 mechanical arms, different models and styles. Boss, please appraise them. I hope you can give me a suitable price. If you want to sell them in a package, it's no big deal to give them to the boss at a lower price.”

He looked like an old man and didn't have the slightest sense of guilt from a foreigner.

The fat shop owner was stunned for a moment, then turned around and poured the mechanical arms from the storage bag into the huge pillar-shaped machine at the back.

Buzz! --

After the red beam of light lasted for more than ten seconds, the 100 mechanical arms formed a long list and were pulled out from the bottom of the machine.

“As I expected, they’re all old models.”

The fat boss sighed and showed the list to Odd Zhuo. “Sir, Look, my machine is connected to the internet. Almost 99% of all models have mechanical arms, and you can scan them.”

He went on and on.

“The specific model, the number of years of production, the manufacturer, the price at the time of production and the current market price.”

“Although this batch of mechanical arms looks especially new and looks like they haven’t been used before, they can only fetch a little more than the normal recycling price. I’ll give you a maximum of 5,000 silver cogs for 100 of them.”

“This is only 5,000?” Odd Zhuo frowned.

It seemed that the idea of making a fortune by repairing broken mechanical arms was a bit of a failure.

He roughly knew that this boss was exaggerating, but from a business point of view, there was nothing wrong with this boss being meticulous.

Normally, he would definitely sell them for more than 5,000.

Perhaps this boss had understated the price a little, but Odd Zhuo guessed that the difference was only a few thousand.

Was he missing by a few thousand yuan? He wanted to directly become a tycoon by selling mechanical arms here! He had to at least make a hundred million first!

So Odd Zhuo couldn't be bothered to bargain, and directly agreed to sell this bag of mechanical arms.

The boss directly took out five 1,000-yuan banknotes from the cabinet and handed them over to Odd Zhuo. There were silver gear designs and a special anti-counterfeiting seal on them, and spirit energy fluctuations told Odd Zhuo that these weren't counterfeit banknotes.

Because it was impossible for counterfeit banknotes to be so complicated to make, they had even deliberately set up an anti-counterfeiting seal.

"Thank you for your patronage!"

After taking this sack of mechanical arms, the shop owner couldn't stop smiling.

After this round of price differentials, he had a net profit of about 3,000 silver gears.

It was at this moment that odd zhuo said, "Wait, I still have mechanical arms here. I'd like to ask the boss to see how much they're worth."

"More?" The shop owner's eyes lit up. "How many more?"

Odd Zhuo stretched out a finger and smiled. "One."

This was the one that Qin Zong had found, and he had just finished repairing it.

When this mechanical arm that Qin Zong had dug out was restored, Odd Zhuo was also a little surprised because it was a mechanical arm made of bronze and looked very heavy.

He didn't understand the value of the mechanical arm and was purely an amateur, so he didn't believe that Qin Zong understood it.

This bronze arm clearly didn't look very valuable, but Qin Zong had been full of confidence since the beginning.

"Boss, how much is it?" Qin Zong's smile was still full of sunshine.

In fact, when Odd Zhuo showed this bronze arm, the fat boss' gaze instantly changed.

Unlike when he had poured a storage bag's mechanical arm into the column scanner earlier, he took out a one-sided magnifying glass and a flashlight from his small drawer and carefully examined the entire bronze arm.

The entire shop was silent for a good few minutes.

The fat boss suddenly cried out in surprise, "That's great! Sparassi! How... How did this thing appear here? !"

Odd Zhuo and Zhou Ziyi: "???"

Odd Zhuo: "Boss, why don't you put it in the machine to be appraised?"

The fat boss: "Bronze arms are very rare to begin with, and this is exactly what I said earlier: the back-end library can't scan 1% of the model."

Zhou ziyi: "Is the workmanship very fine?"

The fat boss shook his head and exclaimed, "No... rather than saying it's workmanship, it's more like it's collectable value!"

After saying this, the fat boss instantly realized that things weren't looking good.

He still wanted to pretend to be calm and try to trick odd zhuo into giving him this bronze arm cheaply.

But when he saw this mechanical arm, he really couldn't hold back his excitement.

"If my eyes aren't wrong, this one should be... a thousand years ago, the BDWIN-46 royal luxury limited edition mechanical arm produced by CJG's mechanical arm factory!"

He said excitedly, "Look! On this robot arm! It was also engraved with the signatures of over a hundred aristocratic family heads in the core area! It was carved in small characters! You had to use a magnifying glass to see it clearly! After a thousand years, I'm afraid the value of this bronze arm is very difficult to estimate."

"..."

"Brother Qin Zong is so strong..."

Odd Zhuo and Zhou Ziyi were completely dumbfounded by what they heard.

This..

God had dug up a limited edition in one go..

"So, Boss, you can't trade?" At that moment, Qin Zong continued to ask.

"Sigh, to be honest, it's not that I don't want to buy it, but this bronze arm. Other than the wealthy families in the core area, I'm afraid there's not a single shop in the outer ring that can buy it."

The fat boss smiled helplessly and spread his hands. "We're all just poor people. If it doesn't work, the three of you can try it."

Qin Zong cupped his chin and pondered for a short while.

If it was really as the shop owner had said, only the core area had the same amount of financial resources to recover this bronze arm, then it was equivalent to falling into a dead cycle.

The three of them had made money in the first place so that they could use the power of money to buy a legal identity and sneak into the depths of the outside ghetto.

Odd Zhuo and Zhou Ziyi didn't say anything; both of them secretly wanted to see what Qin Zong would choose.

At that moment, after thinking for a while, Qin Zong raised his head again.

He had a disappointed look on his face; there was no trace of a performance at all. "Sigh, so this treasure is going to fall into my hands?"

The fat boss smiled in his heart.

He knew that his chance had come!

"Actually, if you are willing to sell it, it's not that I can't buy it... but I have already warned you in advance, sir. With the value of this treasure, it's not worth it to throw it into our hands. "Our recovery price is definitely far inferior to the core area."

"Then how much can the core area offer?"

"They, I think they have to offer at least one million silver cogs."

"One million silver cogs?"Zhou Ziyi asked.

"No, it's one million gold cogs! According to 1:100 conversion, it's equivalent to 100 million silver cogs!"The Fat Boss said.

"Then how much can you give?"Qin Zong asked.

"Me... I can only give at most 100,000 gold cogs... and it's silver cogs."The fat boss scratched his head and said.

“The gap is really big.”Qin Zong laughed. “How about this, Boss? If you are willing to accept it, I can sell it to you. We are short of money recently.”

The Fat Boss was dumbfounded. He couldn’t believe his ears. “What? You... you are willing to sell it to me?”

“But you also know that this 100,000 silver cog coins must be sold for less. Besides the money, I think you should also give us some subsidies. What do you think?”Qin Zong narrowed his eyes and said with a smile.

“This...”

The Fat boss pondered for a moment, he said, “Then how about this, if you are willing to sell it,. I will give you the tickets to tonight’s underground boxing match! Tonight, I received reliable news that the champion, Jian Xiaoqiang, is going against that Master Niu Baoguo! Master Niu Baoguo will definitely win! If you bet on it, according to the odds, you will be able to get 1 million silver cogwheel coins in one go!”

“A sure win?”

Qin Zong laughed. “The boxing match hasn’t started yet. I don’t believe the rumors.”

At this moment, the fat boss gritted his teeth and decided to use a method that looked a little risky, but to him, it was actually the most profitable method. “How about this, I’ll give you another 50 chances at the lottery. “As you can see, although my shop isn’t big, it has top quality goods. Whether you can get one depends on your luck.”

As he spoke, he pressed the button on the counter and sealed the door of the shop on the spot.

With the sound of gears turning, the hidden mechanism display cabinet inside the shop was displayed in front of everyone.

This was his treasured mechanical arm, and there were more than a hundred of them in total.

“These are all my trump cards. I usually don’t show them to the public easily.”

He pointed at his hidden display cabinet and said, “The second-to-last floor above is SS district. Almost all of them have just been eliminated from the core area. However, the average selling price here is 100,000 silver cog coins.”

“The next floor is S district. The average selling price is 50,000 silver cog coins.”

“The average selling price of a district is 10,000 silver cog coins. What’s left are some B goods that are worth thousands of dollars and C goods that are only worth a few hundred dollars.”

After saying this, the fat boss turned around and carefully took the bronze arm from the cabinet and placed it on the top of the display case. “All these years, I’ve been wondering if there’s any SSR-grade goods...”

Odd Zhuo and Zhou Ziyi:”...”

“So what do you mean, Boss?”

“It’s a lottery! As long as you’re willing to sell me this bronze arm, I’ll let you draw all the mechanical arms in my shop, including the one you sold me!”

The fat boss said excitedly, “There are many small iron balls in the glove box over there! Black is C, Gray is B, silver is A, gold is S, purple gold is SS... and the one that represents SSR is the jade ball.”

“I see.” Qin Zong nodded thoughtfully.

“How about it? In a word, do you dare to bet with me? If this bronze arm is fated with you, maybe you can draw it back again.”

The Fat Boss continued to lure Qin Zong into this bet.

He looked very confident. He was almost certain that Qin Zong would not be able to draw it if he was in love with him.

The store's lottery system was always the same. The prizes were very tempting, but the probability was very small.

There were 100,000 small balls in his suitcase.

According to the distribution, most of the balls were gray and black balls. The silver balls representing A and the golden balls representing S only added up to 100 balls, and the purple and golden balls representing SS were 10 balls.

Of course, the most outrageous was the SSR jade ball that the shop owner had just made on a whim.

There was only one ball in 100,000 balls..

As he spoke, he even deliberately opened the suitcase and showed the key jade ball to Qin Zong, Odd Zhuo and Zhou Ziyi, as he spoke, he added two more balls into the suitcase. "I'll add two more for you! Isn't that enough?"

"Excuse me, boss... Don't you have any other alternatives? Are We really going to draw the lottery?" Qin Zong asked repeatedly.

"No. I'm poor, so I can only gamble on my luck."

The fat boss laughed. "If you don't sell it, I'll look for other shops. I guess you'll have to draw the lottery too."

"Oh, okay. I'll draw." Qin Zong laughed.

The fat boss was delighted. "You mean..."

Qin Zong nodded. "Yes, I'll sell this bronze arm to you. But if I draw something good, don't go back on your word, boss."

The fat boss smiled slyly. "Don't worry, we're all serious businessmen."

As soon as he finished speaking.

Both of them sneered at the same time in their hearts.

Qin Zong: “Ha... this fool!”

The fat boss: “Ha... this fool!”

Three out of 100,000 probability, I let you draw 50 times, you can kill me?

Chapter 1650 1,646, Odd Zhuo! Danger! (1/92)

In less than ten minutes, Odd Zhuo and the other two had already left this pigeon shop with a full load.

The fat boss stood at the door with wide eyes and a look of astonishment on his face. He felt like a soulless walking corpse.

His shop was empty..

Qin Zong had taken away all the valuable things in one wave, including the bronze arm that Qin Zong had just sold him.

This loss was estimated to be more than 1.1 million silver cogwheel coins! It was a direct loss to his grandmother’s house!

Zhou Ziyi: “Brother Qin Zong is so amazing... he was the first to get the jade ball! Aren’t You Too Lucky?”

“Maybe it’s not that I’m lucky, but Ziyi, you might be more lucky. I just picked up the bronze arm with you when we were picking up trash,”Qin Zong said humbly.

Actually, he didn’t want to go that far.

But who asked this boss to compete with him in the lottery just to trick his bronze arm..

When he was holding the lottery, he saw the boss's face turn the color of a pig's liver bit by bit. Out of concern for the boss's health, he directly let go and let Zhou Ziyi and Odd Zhuo help him draw a few rounds.

But unfortunately, his luck was too strong, which directly caused Zhou Ziyi and Odd Zhuo's luck to be extremely good.

The three of them took turns to deliver the goods one after another. Nearly ninety-nine percent of the grayish-black balls had been awarded fifty times, but none of them had been awarded..

The mechanism of luck radiation had started a long time ago. As the only koi fish in the cultivation world that had been appointed by Qin Zong himself, after his constant cultivation, the passive ability of luck radiation was now able to reach the level of accurate radiation.

In other words, as long as Qin Zong subconsciously listed him as an "Enemy," even if Qin Zong was present, the luck radiation wouldn't reach that person.

Thus, boss Pigeon was out of luck.

However, this also reminded Qin Zong of another thing.

That was that he indeed now regarded Odd Zhuo and Zhou Ziyi as his teammates.

"Strange... This is clearly the first time I've seen them, but why does it feel like they're very familiar..." Qin Zong muttered to himself.

He had also discovered this problem.

He felt that there seemed to be a tacit understanding between Odd Zhuo and Zhou Ziyi.

This kind of tacit understanding was very strange, especially between Odd Zhuo and himself, but he couldn't tell why.

Odd Zhuo's usually strict attitude told him that it was clearly the first time they had met, but he had directly agreed to work with this stranger. This was definitely not his usual style.

Unfortunately, this time, it was a special case.

Because he felt that Qin Zong's face was inexplicably familiar, and there was an indescribable sense of familiarity.

But he didn't show it, and still maintained a cautious look, but the guard in his heart was already a little down..

"I've done some calculations. If we win tonight's underground boxing match, our starting capital will be at least three million silver cog coins. If we can enter the core area and sell off this bronze arm, we'll directly become landlords," Qin Zong said with a smile.

"Heh, it's just so-so." Odd Zhuo nodded his head indifferently.

In fact, he had also discovered the problem of good luck.

Although Qin Zong had said that Zhou Ziyi had been lucky just now, in fact, the changes in his luck before and after had been very obvious.

Odd Zhuo knew that he had never been the Emperor of Europe... Although his current official career wasn't bad, he couldn't be called the real Emperor of Europe if he was lucky once in a while.

The Real Emperor of Europe was someone who was exceptionally lucky no matter what he did!

He had only spent 648 points on three lists last night, and in the end, he had only put up three guarantees!

How could he be called the European emperor..

As for Zhou Ziyi, there was even less to be said about him.

Clearly, he wasn't a lucky person who had been born with excellent luck; otherwise, his leg wouldn't have been so miserable as to have been amputated when he was young.

So from Odd Zhuo's judgment, the real problem was probably Qin Zong's body.

"This person... is really a little weirdly lucky..." Odd Zhuo sighed dejectedly in his heart, but he didn't show it. Instead, he planned to observe again.

"Brother Zhuo, I thought after that wave just now, we were already on the same boat. But why do you have so much hostility towards me? What did I do wrong? HM?" Qin Zong folded his arms and looked at Odd Zhuo with that gentle smile.

An ordinary girl wouldn't be able to resist this star-like face and this smile.

Odd Zhuo couldn't help feeling lucky that he hadn't brought Yoshiko nine with him.

His wife might have been abducted..

"Don't think that we're already friends; it's just a simple partnership." Odd Zhuo's voice was cold, and his expression was emotionless. He looked angry, but in fact, he wasn't, he was even a little calm in his heart.

As soon as his attitude was revealed, Qin Zong suddenly laughed. "I say, Brother Zhuo... You're not a tsundere, are you?"

Odd Zhuo's eyes widened in horror. "Nonsense! I don't know what you're talking about!"

Zhou Ziyi couldn't help laughing when he heard this.

Actually, he also felt a little.

After all, he had lived with Odd Zhuo for a while, and he knew very well that Odd Zhuo's personality wasn't that tough, so it was very unnatural for him to suddenly become tough.

Of course, with Zhou Ziyi's clever little brain, how could he not have thought that Odd Zhuo's cold attitude towards Qin Zong was actually from the perspective of being on guard.

But Odd Zhuo's current feeling of having different opinions was indeed like that of his master's wife.

He couldn't help exclaiming in his heart.

Tsk..

As expected of a couple.

After living together for a period of time, even their personalities had started to assimilate with each other!

Seeing Zhou Ziyi Snicker on the side..

Qin Zong knew that he had probably guessed right about his "Nonsense" again.

Immediately, the corners of his lips curled up. "Let's go, I Won't talk about this anymore. It'll hurt the peace. Let me treat you to a drink."

Then he reached out to push odd zhuo and Zhou Ziyi's backs up a path.

Odd Zhuo: "Do you know the way... Don't walk around blindly..."

Qin Zong laughed. "I don't know, but it's definitely this way!"

Odd Zhuo: "..."

This sweet confidence again..

And now Odd Zhuo seemed to have begun to understand Qin Zong's confidence a little. It was possible that this guy also knew that he was an extremely lucky person!

A luck-type cultivator?

There was such a person in this world?

Odd Zhuo was stunned.

After pushing Odd Zhuo and Zhou Ziyi a few steps, a shabby-looking snack bar actually appeared within their line of sight, selling drinks that the three of them had never seen before.

Although the drinks were different, the types of drinks were pretty much the same, and even the marketing campaigns were similar to the ones in the outside world.

“Young man, what do you want to drink? There’s a soda campaign going on recently.”

“Then buy a soda.”

Qin Zong nodded, then pointed to a drink that looked like a fat otaku’s happy water.

Odd Zhuo smiled. “You’re not going to treat us to a drink? You should spend your own money, right?”

Qin Zong nodded. “Of course, I’ll do what I say.”

Then he opened the cap of the beverage bottle in front of the boss.

The boss pushed up his glasses and narrowed his eyes to see the words below the cap.

[ one more bottle ] ..

The boss smiled when he saw this and accepted the cap. “Forget it, young man. You’re lucky. There’s no need to pay, this bottle is yours.”

Qin Zong nodded in satisfaction at the expected situation.

Then, he reached out and took two more bottles of soda from the shelf.

The boss said, “You have to pay me two silver cogwheel coins, young man.”

Qin Zong smiled. Then, he opened the caps of the two bottles of soda and gave them to the boss.

Two more [ one more bottle ] ..

“This...”the boss looked incredulous.

There was clearly only a 1% chance of one more bottle of this soda!

Three bottles in a row?

“Thank you, Boss. I wish you a prosperous business,”Qin Zong politely thanked the boss.

Then he handed the opened bottle of soda to Odd Zhuo and Zhou Ziyi, fulfilling his promise.

Odd Zhuo took a sip and savored it carefully. The soda in this technology city slum actually tasted like orange; it actually tasted like it had when he was a child.

He looked at Qin Zong and asked with a smile, “Do you often skip tickets like this?”

Qin Zong shrugged. “Brother Zhuo, this is also called a skip ticket? I’m just a little lucky...”

He knew that what he had done was actually a little unkind, so he even gave the boss a blessing when he left.

With this blessing, this small store owner should be able to keep breaking records for the past few years.

Odd Zhuo: “I see your ability; you’re lucky. But why don’t you pay and then screw the cap? It’s very inconvenient to drink drinks without a cap!”

Qin Zong: “On one hand, you said you wouldn’t spend our money and that I would have to pay for it myself. Of course, this is the best way. On the other hand... it’s actually for the boss’s good to just open the cap.”

Odd Zhuo and Zhou Ziyi:”? ? ? ?”

Qin Zong sighed. “Have you ever experienced the feeling of using the money from a bottle of drinks to empty the supermarket?”

Odd Zhuo and Zhou Ziyi:”...”

Zhou Ziyi: “Next, are we going to the boxing ring?”

Qin Zong nodded and smiled exceptionally brightly. “Of course! This is a chance to turn over the money we have!”

Odd Zhuo rolled his eyes secretly.

He thought to himself, ‘who’s with you is with us...’

..

And just as Odd Zhuo and the other two were about to head to the underground boxing ring, they weren’t too far away. Three cloaked people appeared, and the body under one of the cloaks trembled slightly..

“I knew it... I knew it...”Liangzi nine temples hadn’t expected it.

She had just found Odd Zhuo when she saw the three of them buying drinks from a distance.

However, she wasn’t in a hurry to acknowledge them.

She chose to secretly follow behind them.

In the end, she saw this scene again..

The pretty boy who had just appeared next to Odd Zhuo had an ambiguous tone as he kept saying “Our money” and “The money we have”, which made Liangzi nine temples feel very uncomfortable.

“Liangzi... you have to calm down. It may not be what you think.” Lotus Sun facepalmed.

“We originally agreed that he would only bring Ziyi here, so why is there a man next to him? !” It could be seen that Liangzi Jiugong was now very angry.

“He’s just a man...”

“That’s why you don’t understand, Rongrong! The competitive pressure for us girls is actually very great! It’s not enough to just guard against women! You have to raise your awareness!”

” ... ”

“Do you think a normal man would screw the cap of a beverage bottle for another man? Odd Zhuo isn’t a girl, and he’s helping him screw it... doesn’t he have his own hands? !”

Liangzi jiu said angrily, “And... and just now, that person seemed to have said that it was our money? What Money? ! This Odd Zhuo actually went out with a third man, and not only did he not tell me, he actually hid a small treasury! If he needed money, he could have come to me! He could have asked for as much as he wanted! It’s not like I don’t have any...”

“Liangzi... calm down first...”

Lotus Sun didn’t know whether to laugh or cry. She felt that Liangzi nine temples was really too sensitive. “Senior Golden Lamp, help me persuade him...”

Under the cloak, the monk's voice was cold. "Monks have long seen through the secular world. Please forgive this penniless monk for not being able to understand worldly love."

"..."

Hearing this, Lotus Sun could only sigh, she looked at Liangzi nine temples and comforted him. "Liangzi, don't be anxious. It's all your own thinking now. We don't know the exact situation yet. I think they were talking about the boxing match just now. Do you want to follow them?"

"That's fine." Liangzi nine temples nodded. "But the currency in this world is completely different from ours. It doesn't seem like we can do it without money at all. In a place like that, they shouldn't let us in without money, right?"

"Let me think about it..." Lotus Sun was currently having a headache over this matter.

She had been thinking about the legal way to earn fast money in this world in a short period of time since she had entered the illusory realm and discovered that currency wasn't common.

At this time, Monk Golden Lamp suddenly said, "Look, there seems to be someone putting up a notice over there."

Lotus Sun frowned. "It seems to be a wanted notice?"

"Wanted notice? By the way, if it's a wanted notice, there should be a reward, right?" Liangzi nine temples' eyes lit up.

With a tinge of excitement, the three of them gathered in front of the wanted notice and began to take a closer look.

According to the wanted notice of the police in the Science and Technology City.

This was a middle-aged man's swindling group.

They had swindled the owner of a shop for 2,000 silver cogwheel coins with their bare hands.

But at the moment, he only had the sketch provided based on the victim's description. Since the sketch couldn't be used to identify personal information through the database, he suspected that it was a black account or a disguise.

If he could provide specific information or clues, he would be rewarded with 20,000 silver coinage..

PS: the year-end results, please help me.

Liangzi Jiugongzi looked at the two portraits and suddenly felt that they looked a little familiar.  
“Rongrong, don't you feel that these two people look a little familiar?”

Her words were like a bolt of lightning, instantly waking lotus sun up.

She was shocked beyond words.

This wasn't a matter of resemblance!

This was simply Li Xian and Zhang Zicao!
