

Daily Life 1661

Chapter 1661 1,657, A Major Event! (1/92)

In the illusory realm of nothingness, in the core area of the science and Technology City, a magnificent castle was shrouded in the night sky.

A thin and long beam of light was refracted from the top of the spire at the top of the spire, as if it was connected to the sky. The barrier with no blind spots spread out in all directions with this beam of light as the center, connecting to the outer wall of the core area.

Below the castle was a splendid night market. It was lively, prosperous, and never-ending. It was completely different from the dead silence that enveloped most of the areas in the slums.

The castle was where the legendary ‘Lord’ lived.

The only main road leading to the castle was the main road that was dozens of kilometers long and had been completely cordoned off a dozen hours ago.

There were mechanized cultivators guarding every ten meters, and countless tiny reconnaissance drones the size of fireflies were hovering in the sky.

They were moving around the castle in a regular manner, monitoring all the abnormal movements around the castle.

In an astrology club called “Starry Sky”, Li Xian and Zhang Zichu had successfully infiltrated this place.

That’s right.

Zhang Zishou once again used his old profession to steal two passes for the powerful people in the core area, so that they could come here without any obstruction.

Regarding the theft, as the captain of the team of eternal powerhouses, Li Xian naturally strongly opposed it. However, after Zhang Zishou stole a few times, he was actually forced to accept such a setting.

Even if he didn't accept it, Zhang Zi would still use other methods to get what he wanted..

For example, the large deposit of 10 million gold gear coins that they currently had was stolen by Zhang Zi.

His goal was very clear. As soon as he snuck into the core area, he immediately stole the "Signal base station" installed near the core area and began to send fraudulent text messages.

The specific content of the text messages was also very simple.

He said that he was a closed-door disciple of "That Lord" because of a gambling agreement with "That Lord" for some research and was now collecting research funds, he was confident that he could prove his theory to be completely correct. If he succeeded in the gambling, he would receive a reward that was 100 times more than the research funds. When he got the bonus, he would reward all the research sponsors with a high amount of money..

He didn't know if it was because he was stupid and had a lot of money.

Li Xian didn't expect that someone would actually continue to transfer money into Zhang Zi's new electronic wallet..

In less than a few hours, they had raised a total of 10 million gold cog coins and came to this "Astrology club" that used "Divination" as a gimmick.

The membership fee for this club was 100,000 gold cog coins per person for one year. It was a pleasure for the powerful.

After joining the club, in addition to free fortune-telling once a day and a question-and-answer divination once a week, there was also a star blessing assembly every month to help absorb the fate of the universe through divine power and break away from the non-european Union.

However, after Li Xian and Zhang Zicao's evaluation, they felt that they might be able to find the clues they wanted in this place.

..

Just as they paid the membership fee and entered the door, Li Xian and Zhang Zicao heard the discussion at the next table.

“Have you heard? The black dragon has escaped and betrayed the commander. The government just issued a mobilization order, offering a reward of one million gold cogs.”

“No wonder the martial law has been tightened...”

“It’s not necessarily because of the black dragon. It’s said that a few hours ago, someone saw the mechanical guards carrying a coffin into the castle.”

“It’s just hearsay... there’s no real evidence. I still think it has something to do with the Black Dragon’s escape.”

“So, who is the current commander of the Black Dragon?”

“That Zhu Yuanrun who runs the underground boxing ring in the slums.”

“So it’s him...”

“I think it’s better not to join in the fun. That Black Dragon’s combat strength is extraordinary. Even if we really meet him, it’s still a question whether he has the ability to report the news alive.”

“That makes sense.”

“It’s said that the black dragon is the lord’s proudest work, the first fully mechanized guardian-type cultivator. This uncontrollable incident almost caused the commander who signed the contract to die in his hands. I’m afraid that the Lord is going crazy with anger.”

The three dignitaries held hands with a yellow-haired woman who was dressed like a witch. They gathered around a table and discussed. On the table was a crystal ball.

Before performing astrological divination, one needed to completely relax both physically and mentally.

Therefore, gossiping and gossiping before divination were often the most effective.

As everyone knew, the most relaxing way was actually for a group of people to gather together and say bad things about outsiders..

This was something that anyone who had experienced the school dormitory would have experienced deeply.

The most ridiculous example was that there were four people in a dormitory. Everyone would secretly create three groups to pull in two roommates that they thought were passable, and then they would ridicule the fourth annoying person together. It was so real that it was frightening.

Initially, the few of them were talking about the black dragon.

However, as they were chatting, the topic suddenly changed to “That Lord”. The witch who was in charge of divination immediately spoke up to control the situation.

This was not something that they could discuss.

That Lord predicted everything and monitored everything. She heard that he could hear everything.

This was something that this witch was very clear about.

She had also heard a rumor that it was a light beam refracted from the steeple above the castle, also known as “The Thinker”. Its role was not just a enchantment... at the same time, it could also play a monitoring role.

Although it was just a rumor, in order to avoid trouble, she still smiled and advised in a gentle voice, “Gentlemen, don’t discuss state affairs and avoid getting into trouble.”

The three dignitaries nodded. “What Lady Melissa said is right, we misspoke.”

“No worries. Then, the astrological divination will officially begin...”

The person named Melissa spoke quietly, then, she began the following command process. “Please listen to my instructions. Slowly close your eyes, empty your mind and thoughts, and imagine what the starry sky looks like in your mind... Then, in your mind, ask the questions you want to ask.”

She muttered.

The Crystal Ball on the table also began to flicker with faint starlight after a few seconds of silence.

Huh? It’s... not a swindler?

Li Xian observed from the side for a long time. He thought this kind of club was a place of charlatans who swindled rich people for money. He did not expect that the “Witch” in front of him actually knew some things.

However, she definitely did not.

In the ancient times, he was a famous star traveller.

Controlling the stars, controlling the stars, triggering star tribulations... all kinds of star-type spells could be said to be omnipotent.

Of course, this included the “Astrology” spell.

About three minutes passed.

The woman named Melissa Gently let go of her hand. “Star Lord, I know your request and have given you an answer.”

Then, a girl in a maid’s outfit took out a quill pen from the side.

Melissa quickly wrote down the three questions and the answers on the three pieces of paper and handed them to the three people.

At this moment, Li Xian saw Zhang Zitao move forward with a sneaky look on his face. He immediately knew that this guy was itching to do something again.

“Brother Zitao, what are you doing...”

“Nothing. I’m just taking a look,”Zhang Zitao said telepathically.

To be honest, if Li Xian hadn’t stopped him, he might have really done something to the three pieces of paper.

But now, it was fine if he didn’t take them.

Because his eyes were sharp, he had already seen what was written on the paper.

He said to Li Xian through voice transmission, “Among these three people, the first person asked why everyone called him that Lord, that Lord. Instead of directly calling him by his real name.”

Li Xian asked, “Why?”

Zhang Zichu said, “Because that person’s surname is that, and his single name is taste. After calling him by his first name, he becomes that Lord.”

Li Xian:”...”

Zhang Zitao said, “The second question is, if the science and Technology City is destroyed one day, what is the reason?”

Hearing that, Li Xian could not help but grin. “That’s an interesting question.”

Zhang Zitao said, “This woman named Melissa answered that if the world is destroyed, the most likely reason is that someone fell and caused a big explosion.”

Fallen?

Li Xian was stunned..

Would a fall be enough to destroy the world?

Even if a soul formation cultivator were to occasionally fall on the ground, it would only leave a hole.

To destroy the world, it would only happen if Wang Ling had fallen..

“One last question.”

Zhang Zitao continued, “The third person asked if there was a second season of the immortal King’s daily life.”

Li xian smiled meaningfully, “So, is there?”

Zhang Zicao nodded, “Yes. And, today. At this moment, when everyone sees this chapter, Site B has already announced it.”

Chapter 1662 1,658, The Two Troublemakers (1/92)

Melissa’s calculations were more accurate than Li Xian had expected.

To be honest, this result was a little out of his expectations.

She was not a liar. The accuracy of her astrological divination was still passable in Li Xian’s eyes. The only pity was that the amount of information was still too little.

The accuracy was one aspect, but as an outstanding astrological diviner, it was more important to be able to sort out their own clues from the starry sky and accurately say as much as possible about what they saw.

Although Melissa’s accuracy was high, it also meant that she might have seen very little information.

Because the information obtained from the astrological signs, whether it was true or false, all these required the astrological diviner to distinguish between right and wrong.

For some uncertain information, astrologers would usually choose to keep quiet and only say what they were sure of.

In this way, they would appear to be high and mighty.

For example, “Is there a problem with the second season of the daily life of the Immortal King?”

Melissa only saw that there was.

And Li Xian also saw other information from the astrology.

For example, the second season of Immortal King’s daily life also contained the following elements..

Demon World Chapter (Loopy Toad Chapter) Tick Tick

Wang Ling crushed everything

Beat up demon Saint Tick

Every episode pretentious tick

Invisible Candy Tick

Easy sand carving tick the whole time

..

Melissa hadn’t been able to see all of the above information from the horoscope.

Of course, she might have also seen it, but she couldn't tell right from wrong.

Seeing Li Xian and Zhang Zicao staring at her for a long time, Melissa immediately finished her work, she turned to the two of them and said, "Gentlemen, would you like to try divination? You are new users. Today, you can perform both fortune-telling and question divination."

"Fortune-telling?" Li Xian smiled gently. "I know that a good fortune-teller can change his fortune. Can you do that too?"

Melissa gave a professional smile. "According to the changes in the astrology and the constellation that each person belongs to, there are naturally strong and weak fortune-telling. It's impossible for someone to have good fortune every day."

"Oh? There's such a Thing?" Zhang Zi was skeptical.

Actually, he didn't believe in these things.

After all, in the ancient times, every time he took something, it was easy... the only mistake was that he fell into the hands of Daofather Wang.

Daily fortune-telling was free for members.

But in fact, this seemingly free program was actually well-versed in the ways of the game.

Hearing that the two new customers were interested in fortune-telling, Melissa immediately knew that she was going to finish her daily KPI ahead of schedule today.

"The so-called luck-changing is only achieved through some minor props to balance the star of fortune. In other words, it can absorb a little of the luck of the people around them to dilute some of the bad luck on their bodies. That way, they won't look so unlucky."

Melissa spoke with confidence, appearing to be very professional.

But in front of an expert like Li Xian.

This was like showing off in front of an expert.

The fate of the Lucky Star was indeed a special star that could affect the fate of people.

Moreover, it could also be used through some special tools that could cast astrological spells to direct the fate of the person who was most blessed by the lucky star to the person who needed to change their fate.

However, such a method required an extremely high level of skill.

Naturally, Li Xian could do it.

However, Melissa..

He judged that with this lady's ability, she probably wouldn't be able to do such a thing.

However, the situation had not been clarified yet. Li Xian could not directly label Melissa as a swindler.

He said in a probing tone, "Then, Lady Melissa, is there any astrologer stronger than you in this astrology club?"

"No, I'm ranked first."Melissa shook her head.

Li Xian and Zhang Zizi:"..."

Well, it was a real lie..

However, Li Xian was actually very interested in astrology.

After all, their purpose was not to predict astrology, fortune, or fortune-telling.

Instead, they wanted to get some specific information.

Of course, Li Xian could also use astrology to calculate information.

However, to do this through astrology, the quality of the crystal ball used for divination was very high.

The Crystal Ball of this club was too inferior, it might affect the result of the divination.

Of course, the most important thing was.

The opponent was an eternal level powerhouse, he would definitely be on guard in this aspect.

It would not be good if they were to alert the enemy.

Therefore, the best result at the moment was to get information from human flesh.

“Okay, Ms. Melissa, we need to perform fortune-telling.” At this time, Li Xian said.

“Welcome. Then, please follow me. Fortune-telling is in the other room.” Melissa bowed and led the two to a room that was used for astrological fortune-telling.

In order to avoid the influence of fortune-telling and the people around them, fortune-telling needed to be done individually.

After Li Xian and Zhang Zi communicated through their eyes, Li Xian was the first to enter the room that was covered with velvet carpet.

After the door was closed, Melissa put on a special silk coat made of amethyst and wrapped herself tightly.

This was to prevent the astrologer in charge of divination from affecting the fortune-teller’s fortune.

“Sit down, Mr. Li.”

Then, Melissa and Li Xian sat down and faced each other.

Unlike the crystal ball used for astrology in the weekly quiz, the crystal ball used to test fortune was pure black, as deep as a black hole.

Li Xian pretended not to know and asked, “Then, Ms. Melissa, what should I do? Put My Hand on it?”

“Yes, please clear your mind and put your hand on it. Think of a happy thing first, and then think of a sad thing,” Melissa said.

“Okay.” Li Xian nodded very cooperatively.

However, things were still out of Melissa’s expectations.

Because after the first round of calculations, she actually did not see Li Xian’s star position at all.

“This...” the slight surprise in her eyes told Li Xian that there was a problem with Melissa’s astrology.

“What happened, Ms. Melissa?” Li Xian laughed.

Melissa did not admit defeat and closed her eyes. She tried her best to calculate, and then the next second.., she suddenly stood up. “This... This is impossible! Why Is Your Luck So Good? ! I’ve never seen a person whose fate number can reach the full bar!”

“Because it’s not accurate to measure the fate by the Fate Star.”

Li Xian smiled calmly. “With Ms. Melissa’s knowledge, since you know about the Fate Star, you should also know about the existence of the fate seat, right?”

“Fated... fated seat...”

“The so-called fated fate, there is fate, there is fate. Cultivators who have studied astrology can light their fated seat through astrology, thus achieving the goal of eternal fate.”

“Senior, who exactly are you...”Melissa was extremely shocked.

“Do you want to learn? I can teach you.”

Li Xian touched the black crystal ball and laughed. “But the premise is that you have to exchange something for it.”

Melissa heard this and immediately pondered for a long time, as if she was going through an intense ideological struggle.

A few minutes later, Li Xian asked, “How is it? Have you thought it through?”

Melissa seemed to have been awakened by the shock, and then she nodded with determination. “I... I understand, senior.”

Then, she began to take off her amethyst sarong and top in front of Li Xian..

At this moment, Li Xian was horrified and pulled her into his arms. “What are you doing...”

“Didn’t senior say that you wanted to exchange something for it?”

“But I didn’t say that I wanted you to sacrifice yourself...”

Chapter 1663 1,659, Will Guard (1/92)

Li Xian was very glad.

Among the many eternal powerhouses, he was still a gentleman. He would not take advantage of others.

However, if the person who entered the house was Zhang Zicao, then it might not be the case.

The yellow-haired female astrologer who was dressed like a witch was not Li Xian's type. However, Zhang Zicao was a womanizer. Over the years, all kinds of people had "Stolen" from him. There were people of all sizes and skin colors.

It was really hard to imagine that if Zhang Zi had just entered the room, Miss Melissa would not even have a bone left.

"I don't want your body. You should know from my face that I'm not that kind of person." Li Xian sighed helplessly. He was handsome and elegant. He did not look like someone from that school.

In fact, it was Melissa who thought too much and misunderstood.

Moreover, she actually felt that if something really happened between her and Li Xian, it would not be a loss..

After a period of silence and awkwardness, Melissa put on her clothes again and sat in front of the divination table again. After calming down, she asked indifferently, "Then, what does senior want?"

At this time, the two of them had already understood each other and treated it as if nothing had happened.

"It's very simple. You want me to teach you how to craft. Then, you can use some information that I'm interested in in exchange." Li Xian stated his condition.

"Senior's astrology is so strong. Is there any information that you don't know?" Melissa showed an incredulous expression.

"Astrology is not omnipotent. Even I, when facing an opponent who is on guard against this aspect, still have the probability of making mistakes. So, why don't we directly ask someone who might know the information?" Li Xian sighed, he said frankly.

He knew that Melissa actually had her own concerns, so he directly grabbed her hand and placed it on the Black Crystal Ball in front of him, performing a very simple astrological calculation.

Then he said, "Ms. Melissa, your mother doesn't seem to be in good health. "So now you are very short of money. "This astrology club is owned by your boyfriend, but your boyfriend is a scumbag.

He has been fooling around outside, so you have no feelings for your boyfriend. “The reason you stooped down here to trick customers into buying transshipment products is mainly to treat your mother’s cervical spondylosis, right?”

Melissa heard this and revealed an incredulous look.

This was the first time she met Li Xian... it was impossible for anyone to know so much about her.

Moreover, Melissa had never mentioned her mother’s illness to anyone.

At this moment, when she heard Li Xian’s words, she did not hide the shock on her face. “Senior... you...”

“Perhaps it’s a little offensive to Ms. Melissa, but these are the things I just saw. However, there are actually some other private matters involved. If I say too much, it might make Ms. Melissa feel pain. It’s fine if I don’t mention it.”

Li Xian waved his hand and frowned slightly as if he was thinking. He said calmly, “I know a set of ‘Hun Yuan technique’ that can treat Ms. Melissa’s mother’s illness.”

“Hun Yuan technique? Then can senior Li use the Hun Yuan technique to treat my mother’s cervical spondylosis?”

“Of course. This technique is very simple and doesn’t have too many limitations. Moreover, if you only teach the part of massage physiotherapy, you can learn it yourself.”

Li Xian said as he crossed his fingers, he held his chin and said, “I can teach you the method to treat your mother’s illness. At the same time, I can also teach you some new astrology methods. “As long as you master the core skills of astrology, you can completely get rid of your philandering boyfriend in this place. “Isn’t it popular to be an independent woman now?”

With a “Buzz”, Melissa felt her heart beat fiercely.

Li Xian’s words directly hit her soul. It had to be said that she had a strong feeling of being moved.

After all these years, the simplest reason was to protect her family.

After careful consideration, Melissa looked up with tears in her eyes. “Then, what do you want me to do?”

Li Xian smiled calmly. “I want to ask about that Lord.”

Melissa was not stupid. After seeing Li Xian’s methods, she had already guessed Li Xian’s intentions.

She did not say anything. She just turned around and opened a secret compartment and pressed a button.

In an instant, the four walls of this fortune-telling room were flipped over like fish scales. Almost every compartment had a different color crystal embedded in it.

After doing all of this.., melissa said nervously, “Senior, I’ve decorated this room for a long time. “I don’t know if it’s useful, but it’s the best way to stop the explorer, but time is limited... once the crystal’s energy is used up, it won’t work.”

“The Explorer?”

“This is something that the lord used to monitor the overall situation... It’s also known as the will guard.”

Melissa said, “All of our wills are under the Lord’s surveillance... senior should have seen the light beams above the castle, right? Unless there’s a way to stop those light beams...”

As soon as she finished speaking, the energy of the crystal in the room had already been used up.

It had only lasted for less than a minute.

At this time, Li Xian had completely understood.

Melissa didn't dare to say anything. She didn't even dare to think about that "Lord" in her heart.

The operation of the will surveillance was a huge deterrent to all the mechanized cultivators in this technology city.

However, people like Li Xian and Zhang Zichu who had infiltrated the city from the outside would not be threatened like this.

"As long as the light beam on the castle is blocked, it will be fine."

At this time, Li Xian muttered to himself and then transmitted his voice to Zhang Zichu outside, "What do you think, Brother Zichu?"

"It's just stealing light. I'll go and try it." Zhang Zichu received Li Xian's request.

Without a word, he disappeared from the divination club like a ghost.

..

At the same time, in the Shijia Tavern in the slums, Battle Sect's group was also discussing a plan to destroy this illusory realm.

After hearing about the will guard, Battle Sect's group was in high spirits.

"The will guard, is it?"

Wang Ming used Jia Bugui's body to raise his eyebrows. "This method of monitoring the will has been a long-standing speculation in the core area."

"That's right. I only confirmed it after hiding here for a long time. But this will guard is ineffective against us outsiders who sneak in. It's just a potential deterrent to the local residents here," Xiang Yi replied.

Then, everyone turned to look at Wang Ming..

Wang Ming felt his hair stand on end from being stared at. “You don’t have to look at me like that; I’m not a mole. “Although I’m controlling Jia Bugui’s body right now, the brain wave signals can’t be captured by the will guard. What the other party is still capturing is Jia Bugui’s signal. “And right now, Jia Bugui’s condition is like he’s sleeping, so there won’t be any suspicion.”

“Then, Mr. Wang Ming, do you have any way to connect to Jia Bugui’s will?”

At this moment, Qin Zong and Xiang Yi asked almost simultaneously, and their thoughts actually coincided.

They looked at each other and smiled.

Wang Ming immediately understood what they meant.

If they could manipulate Jia Bugui’s brainwaves and release false signals, it would be a perfect cover for their next move..

But there were also technical difficulties with this kind of operation.

Because once Wang Ming’s brainwaves entered Jia Bugui’s brainwaves, the two brainwaves would merge into one, and the slightest carelessness would expose them.

“I’ll try.”

At that moment, Wang Ming slowly closed his eyes.

He had hypnotized himself countless times in his heart, while muttering to himself, “I’m Jia Bugui... I’m Jia Bugui... I’m Jia Bugui...”

“Brother Zhuo, what is Mr. Ming doing?”Zhou Ziyi didn’t understand.

Odd Zhuo replied indifferently, “Don’t you understand? He’s trying to hypnotize his brain waves first to ensure that there are no other risks after the intervention.”

In fact, when Wang Ming started operating, it wasn't just odd zhuo; even grenade-throwing senior immortal, loopy toad, Qin Zong and Xiang Yi were deeply shocked.

This was clearly just an ordinary person..

But an ordinary person who didn't have any spirit energy at all could actually develop the ability of his brain to such an extent.

It was simply terrifying.

If you lied a thousand times, it would be true.

If you wanted to deceive others...

You had to deceive yourself first..

Chapter 1664 1,660, Battle Clan Building Activity (1/92)

As a user of brainwave control, Wang Ming naturally knew the dangers of connecting the two brainwaves together.

It was easy for him to hypnotize himself into "Jia Bugui" and completely disguise himself as Jia Bugui, but if he was too immersed in the character, he might not be able to get out in the end.

However, this section of brain waves was only a small part of what Wang Ming had differentiated. If anything really happened, at most this small section of brain waves would be assimilated, it wouldn't have any effect on his original body in the outside world.

After a few minutes, he opened his eyes with a flushed face. Jia Bugui's body had clearly become scalding hot from the operation of the brain waves, and steam was even coming out of the top of his head.

"For now, it's a success." Wang Ming nodded. "I've already homogenized his brain waves and can be connected to him at any time without being discovered by the will guard. "In terms of actions, I've already used my own brain waves to carry out the suggestion implantation. You only need to use a specific hand gesture or voice to control boss Jia's body to move."

“In other words, you haven’t fully connected yet, right?” Grenade-throwing senior immortal asked.

“That’s right. Completely connecting the brain waves and twisting them into a rope was the last step that I had no choice but to take. “Because once I connect, I’ll become Jia Bugui, and it’s really hard to say whether I’ll be able to withdraw,” Wang Ming replied.

At present, he was still half-connected.

Because of his brain waves, he had become “Jia Bugui”, which was probably unexpected for patriarch heartless and his disciple.

Wang Ming also knew very well how important his role was.

Thus, he had to use his identity to make every move.

The slightest mistake would expose everyone here.

Grenade-throwing Senior Immortal’s painstaking plan of entrusting senior Xiang Yi with this place for so many years would completely turn into a bubble.

The people sitting here weren’t idiots; they could naturally imagine what Wang Ming could think of and all the concerns in his heart.

Just as Wang Ming had said.

This was the final step in using Jia Bugui’s identity to trick patriarch heartless and his disciples into falling into their trap through the “Will Guard.”.

At that moment, Qin Zong stared at Wang Ming’s “Jia Bugui” face for a long time, he suddenly thought of something and asked, “Speaking of which, we shouldn’t be the only group that sneaked into this world, right? I met Brother Zhuo and student Ziyi, and then I met you.”

Grenade-throwing senior immortal: “I saw a text message from Miss Rong and Miss Liangzi. At that time, Brother Dog and I were investigating Shouchong’s robbery, and we didn’t expect to be able to trace it to the edge of this illusory realm.”

Odd Zhuo was shocked. “It was actually a message from mistress? No Wonder Liangzi followed us... It looks like she was probably there when I sent her that message.”

Grenade-throwing senior immortal was ashamed. “So they came here because they saw brother Zhuo’s message? and also called Senior Golden Lamp?”

“I’m afraid that’s right...”

“Then how did you know about this illusory realm?”

“Naturally, it was senior Li Xian and senior Zhang Zicao. They should be the first group to explore this illusory realm.”

”...”

Hearing this, everyone fell into a long silence.

It turned out that the real purpose behind this series of dolls was actually to change the map and start a clan-building campaign?

“Are these two seniors very strong?”Qin Zong asked at this moment.

He wasn’t the only one; even Xiang Yi had a puzzled expression on his face.

After all, in this clan-building campaign, only the two of them were outsiders.

“These two are eternal level experts...”loopy toad, with its green hair, also said with a face full of sweat.

Thus, after the current analysis, everyone in the tavern suddenly found an extremely stiff problem.

The first group to enter was: Li Xian and Zhang Zicao.

The second group was: Odd Zhuo, Zhou Ziyi, Qin Zong.

The third group was: Lotus Sun, Liangzi Jiugong, and Jin Deng.

And now, the fourth group: Grenade-throwing Senior Immortal, loopy toad, Xiang Yi, and Wang Ming had already merged with the second group and formed a group.

The current plan of their group was to use the will guard to deceive patriarch heartless and get more information out of him.

But now, their actions didn't match.

It was very likely that they would make a huge mistake. The other two teams, completely unaware of their plan, would directly rush over and get rid of this will guard..

Obviously, everyone thought of this and couldn't help being a little worried for a moment.

"It looks like we have to enter the core area and meet them as soon as possible." Grenade-throwing senior immortal smiled wryly. To be honest, he was also to blame for the situation that had developed during this trip to the illusory realm.

He had originally wanted to hide something and investigate it in secret, but he hadn't expected that everyone else would also notice this place.

"But to enter the core area openly, we need to prepare a pass. The market price of the pass is now 20 million gold cog coins. Adding in the 60 million silver cog coins that brother Qin Zong earned, I'm afraid it's still not enough for us," Odd Zhuo said.

"That's easy. If you count my money, it's no problem to buy a few." At this moment, Xiang Yi stepped forward.

After all, he had long since been asked to be stationed in this world as the station chief of a waste recycling station, so he had accumulated some money.

“How much can you buy?”

“Based on my family’s assets, with my meager savings, I can probably buy three?” Xiang Yi said after doing some calculations.

“Three... sixty million gold cog coins? ? ?” He and the others were stunned and looked at him with admiration.

Was recycling so profitable now?

“It’s just a trivial trick,” Xiang Yi said with a modest smile.

Even so, except for Wang Ming, who had the status of Jia Bugui, there were still three people in their group who didn’t meet the conditions to enter the core area.

“If it’s 3 + 3, it might work,” Wang Ming said.

“What does Mr. Ming Mean?”

“It’s not like there aren’t poor people in the core area. But those poor people are mostly slaves and servants bought by these powerful people from the slums outside.”

Wang Ming said, “How about this? Let’s continue with the current grouping.”. Let brother Xiangyi give the three passes he bought to brother Odd Zhuo’s group. Then Senior Immortal, Brother Xiangyi, and loopy toad will have to go into the city with me.”

“Of course not.”

Grenade-throwing senior immortal said, “Then where will we meet after entering the city?”

“Jia Bugui has an astrology club in the core area. We’ll meet there,” Wang Ming said at this moment.

Chapter 1665 1,661, Forward This Koi Carp... And Then, Danger! (1/92)

When Wang Ming decided to use Jia Bugui’s identity to lead the fourth group of grenade-throwing senior immortal’s people into the core area, the faces of a few women instantly flashed through his mind.

As one of the few powerful people in the core area who operated all kinds of brothels and had almost formed a monopoly, even though Jia Bugui had a natural advantage in the core area, he actually had a lot of debt.

This debt wasn’t money, but real, romantic debt..

Wang Ming had always been single-minded when it came to matters of the heart. He had never really fallen in love with anyone, but once he gave it his all, he would see it through to the end.

In fact, when his brain waves had interfered with Jia Bugui’s body, Wang Ming had his own concerns.

It was mainly because he had sensed Jia Bugui’s promiscuous personality and was worried that it would pollute his pure self and make him unclean.

However, considering that Jia Bugui’s identity was indeed helpful to their mission plan, they decided to take control of his body in the end.

Thus, they completely activated Jia Bugui’s brainwaves and merged them into one..

This was the final step for Wang Ming to be unafraid of death.

In any case, this was just a small part of his brainwaves that had been separated from his main body. If it were to be contaminated later, he might as well not put it back.

It was actually a better choice to stay here forever..

They set off one after another.

In order to avoid arousing suspicion.

The two carriages led by Odd Zhuo and Wang Ming deliberately set off after a period of time.

Odd Zhuo and the others went first.

After passing through the exclusive main road.

In the core area of science and Technology City, this imperial city, which was shrouded in the aura of jewels and emitting an extravagant aura, appeared in front of everyone.

Above the ancient castle in the Central District, a light beam connected to all the will guards and a powerful defensive barrier was released from the top of the tower, forming an umbrella-like protection like a bird cage, it enveloped everything in this emperor city.

“It looks like that’s the target...” Odd Zhuo saw this scene from afar and felt a little surprised. He had thought that he had witnessed quite a number of big scenes by Wang Ling’s side over the past few days.

But now that he was standing here, the scene in front of him made his body tremble slightly, and he couldn’t control it.

Was this... the power of an eternal level expert.

Although he had already felt a faint sense of oppression in the slums, when he really entered the core area of Emperor City, he couldn’t help feeling a little shaken.

When this world, which had been constructed by eternal experts using supreme laws, was presented in front of him, it couldn’t be said that his heart wasn’t shaken.

For the first time, Odd Zhuo had an incomprehensible feeling.

Of course, what made him feel even more out of reach at this moment wasn’t the oppression brought about by these eternal experts’ laws.

It was that he was thinking of another thing..

That was Wang Ling.

He knew very well how powerful Wang Ling was.

But in fact, Wang Ling had never displayed 100% of his battle strength in front of him.

The laws constructed by these eternal experts already made him feel this way.

If one day Wang Ling completely unsealed the talisman, what would it look like?

In the [team voice space] , Odd Zhuo, Zhou Ziyi and Qin Zong pulled up a separate space to secretly communicate so that the hired coachman driving in front wouldn't hear their plan.

“That’s the light beam that connects to the will guard.”Qin Zong rubbed his chin and narrowed his eyes.

They were still a long way from the ancient castle, but the light beam from the top of the castle made him feel uneasy.

“This light makes me uncomfortable,”he said.

“Me too.”Zhou Ziyi shivered.

He was the weakest among all of them, and if he hadn't been wearing five layers of long johns, Odd Zhuo even suspected that he would have fainted as soon as he entered Emperor City.

“But no matter how uncomfortable I feel, I have to endure it first. Right now, I still have to think of a way to draw out the smell of forefather heartless and his disciples. There should be many ways to destroy this beam of light.”

As Odd Zhuo said this, he suddenly asked Qin Zong, “Speaking of which, I don’t think I’ve seen you use any magic treasure before?”

“I have a weapon too, but I don’t use it very often.”

As Qin Zong said this, he spread out his hands. “And it’s been a while since I upgraded it to a chaos weapon. It’s just that every time before I use my knife, the matter has been resolved perfectly, so there’s no place for me to use it.”

“Are you showing off something...”

“No, Brother Zhuo. I’m telling the truth.”

Qin Zong laughed. “I’m just a little luckier than the others, but you can’t blame me for that.”

Snap!

At that moment, a shutter flashed, and Odd Zhuo took a photo of Qin Zong.

Qin Zong:”? ? ?”

Odd Zhuo: “Didn’t you say you were luckier? Let me see if I can retweet your photo and see if this mission can go a little smoother.”

Zhou Ziyi clutched his stomach and burst into laughter. “Brother Zhuo treats brother Qin Zong like a Koi! Repost for good luck?”

For a moment, the atmosphere in the carriage fell silent.

After a few seconds, Qin Zong suddenly felt the atmosphere drop to a visible freezing point..

Odd Zhuo held his phone; it was obvious that he was trembling..

“Brother Zhuo?”Qin Zong asked tentatively.

“I... I sent it out...”

Zhou Ziyi and Qin Zong:”? ? ?”

“F * * K! isn’t this illusory realm equivalent to a different world? ! Why is there a mobile signal? !”

Odd Zhuo was endlessly horrified.

Was this the same world, the same mobile..

He had originally wanted to post Qin Zong’s photo on his wechat moments alone. He had planned to set it as a private photo, which meant that only he could see it, in order to avoid a misunderstanding with Liangzi Jiugong.

In the end, just as he had been in a trance, he had directly sent it out..

And it just so happened that he was going to die.

Liangzi Jiugong hadn’t only seen it! He had even... given him a like..

So now, cold sweat instantly trickled down Odd Zhuo’s back.

“It’s over... It’s all over...”at that moment, inside the carriage, Odd Zhuo felt as if he was looking up at the dark sky.

“With me here, sister-in-law shouldn’t do anything to you.”Qin Zong laughed heartily.

To be honest, he wasn’t too sure why such a coincidence would happen.

But under normal circumstances, it looked like Odd Zhuo was out of luck... as long as he was with him in the world, Qin Zong felt that because of the condensation of their luck, there would definitely be other aspects, they would have extraordinary luck.

“In short, brother Zhuo, don’t think too much...”

“I’m wondering if I should go to the coffin shop now and order a coffin for me.”

Odd Zhuo facepalmed. “In this Emperor City, Jia Bugui, who is possessed by Mr. Ming, is extremely resourceful. He’ll definitely find a way to find the other two groups of people led by Master’s wife and senior Li Xian.”

That was true, but Odd Zhuo felt that he was already a little too ashamed to face nine temples Liangzi.

“Hahaha, Brother Zhuo is right. But have you ever thought that we might run into sister-in-law on the way?” Qin Zong said.

“No Way...” Odd Zhuo suddenly raised his head when he heard this.

Qin Zong had just been making a joke.

Unexpectedly, as soon as he said this,.

Outside the window of the carriage, three familiar cloaked people brushed past them..

”...”

Odd Zhuo looked at Qin Zong in horror. “Excuse me... have you ever opened your mouth before?”

Qin Zong:”?”

Chapter 1666 1,662, Hit The Nail On The Head (1/92)

Although this group of people wore masks and cloaks, odd zhuo could still sense a hint of coldness from beneath the cloak as they passed by the carriage. He could sense that one of them was Yoshiko nine temples.

He broke out in cold sweat on the spot, which made Qin Zong very nervous for a moment. He had only wanted to make a joke and hadn't really planned to meet Yoshiko nine temples on the road.

But he hadn't expected that luck would be used in such a way, and he had hit the nail on the head.

Of course, Qin Zong hadn't expected odd zhuo to be so scared. It looked like he would most likely be a strict wife type in the future.

In the carriage, a few people tacitly didn't disturb Lotus Sun and the others. Instead, when the carriage passed by an alley, they secretly gave the coachman some money so that he could quietly follow Lotus Sun and the others.

Odd Zhuo had mustered up his courage to make this decision, even though he only dared to have the coachman secretly follow him at the moment..

The main reason was that he didn't know what kind of drastic action Liangzi would take if he discovered him.

The purpose of their trip to the astrology club was also to find the remaining two groups of people as soon as possible so as to avoid a blunder. In the end, they had run into Liangzi Jiugong on their way here, and it was simply the act of giving him a pillow when he was dozing off.

At first, Odd Zhuo had thought that the cell phone signal wouldn't work in this "Other world space,"but after the incident with his circle of friends just now, he was instantly enlightened.

He immediately edited two messages and sent them to grenade-throwing senior immortal, telling them about their current location and the situation with Liangzi Jiugong.

The other message was sent to Li Xian and Zhang Zicao..

However, for these two eternal seniors, grenade-throwing Senior Immortal's body notification was still more reliable.

In comparison, the two of them had only just come into contact with modern things like mobile phones, so they weren't particularly skilled in using them, so it was inevitable that accidents would happen.

After doing all this, Odd Zhuo let out a slight sigh of relief. He quietly pulled open the curtains by the carriage and used one eye to secretly look out at Liangzi Jiugong and the others walking in a hurry.

"What on Earth are mistress and the others doing?" Odd Zhuo muttered. "And they even seem to have specially changed their masks with Liangzi. Are they afraid that Liangzi will be targeted? Do they want to protect Liangzi's safety?"

Odd Zhuo's words inspired Qin Zong, who rubbed his chin, suddenly, he said, "The tournament in the underground boxing arena will cost nearly six million gold cogs and a pass. And sister-in-law's employer is the police commissioner, dicas. He himself came for the pass. "Then how did sister-in-law and her party get the pass?"

"Oh, right." Zhou Ziyi nodded at the side. "Even if the Commissioner gave all the prize money to sister-in-law, a core area communication card with a market value of 20 million gold cogs is still not enough to buy it."

"Bingo! So the only explanation is that someone sponsored them."

Qin Zong snapped his fingers and said with a calm expression, "The most likely person to sponsor them is that boxing field manager, Zhu Yuanrun."

"Is it because senior golden lamp saved him from Black Dragon?" Odd Zhuo frowned.

From the hostility Zhu Yuanrun had shown them in the beginning, he had always felt that this person wasn't that particular and kind-hearted.

Moreover, this extremely cunning person, who had tried every means to use improper means to trip them up in the competition, had actually admitted defeat so openly.

Odd Zhuo had a faint feeling that something wasn't quite right.

“It looks like brother Zhuo and I are thinking the same thing -- this Zhu Yuanrun isn’t a good person.”

In the carriage, Qin Zong folded his arms and analyzed the situation. “In the end, this Zhu Yuanrun is just a capitalist who won’t get up early unless there’s a profit to be made. It’s impossible for such a person to do a losing business. So someone must have been helping this Zhu Yuanrun with the extra pass to lure the enemy in.”

When Odd Zhuo and Zhou Ziyi heard this, they fell silent and fell into deep thought.

It was mainly because Qin Zong’s calm analysis sounded so reasonable that it could almost be described as flawless.

Of course, Qin Zong himself wasn’t too sure about this conclusion. “AH, that’s just my opinion. Just listen to Brother Zhuo and brother Ziyi; they might be confused too.”

“Confused? How can a koi fish like you be confused?” Odd Zhuo laughed in his heart.

In fact, Qin Zong hadn’t told Odd Zhuo his true identity at all, but Odd Zhuo already regarded him as a koi fish in his heart... everything was so natural.

At that moment, the wheels of the carriage came to a stop again.

The Coachman in front lifted the curtain. “My Lords, this area is a private residence, so the carriage can’t go in. I see that the Lords you’re chasing have already gone in through the entrance.”

“Okay, thank you.” Odd Zhuo nodded, and they immediately got out of the carriage.

As the coachman had said, what entered Odd Zhuo and the others’ eyes was a magnificent manor with carved beams and picturesque buildings. There were all kinds of patterns of ancient mechanical beasts carved on it, perfectly blending the style of this world. This included the neon sign on the door, and the words “Di Manor” written on the flickering lights.

“So it’s that director’s Manor?” Odd Zhuo stood at the door in a daze, then immediately paced around and followed Liangzi nine temples and the others in.

His instincts had always been very accurate.

He had a feeling that something bad was about to happen.

Even though Odd Zhuo knew very well that with the golden lamp monk here, it wouldn’t be a problem no matter how big the danger was.

But in the end, he still had to protect his own woman.

This was what a proper boyfriend should look like.

..

In the other carriage, grenade-throwing senior immortal and the others, who had entered core city as servants, had indeed successfully received news from Odd Zhuo.

“Sure enough, brother Odd Zhuo’s luck is very good. Not long after entering the city, he ran into Miss Rong and Miss Liangzi,” grenade-throwing senior immortal said with a smile.

He had actually already expected this outcome.

After all, he was right next to Odd Zhuo, and the only koi in the cultivation world was following him..

“Then should we still go to the astrology club now?” Xiang Yi asked.

“We still have to go. Every week, a large number of dignitaries flood in there to divine the stars and their personal fortunes. Although finding two people in this imperial city is like finding a needle in a haystack, it’s not as difficult as I thought.”

Wang Ming nodded as he said this, and used his brain waves to transmit the astrology club's location to the minds of the others.

This was a real-time map, and the flashing red moving light dots were their current location. The astrology club at the end was marked with a yellow asterisk, and it was clear at a glance.

"It's actually this astrology club?"

Xiang Yi was instantly stunned when he saw the mark on the map.

"Why, have you been there before?" Loopy toad asked with raised eyebrows.

"Yes! Speaking of which, I actually run a liquor and tobacco snack shop next to that astrology club. It's the behind-the-scenes owner of that shop. And today is the day of the sale!"

"Sale?"

"All kinds of snacks. Limited edition figs, limited edition lollipops, limited edition bubble houses, limited edition crispy noodle snacks, and so on... those small gadgets may not be looked upon by those powerful people, but the children of those powerful people buy them happily. They often move boxes to their homes for the snack gathering activities."

Xiang Yi laughed. "As expected, children's money is the easiest to earn. Otherwise, how do you think I got that 60 million gold gear coins?"

"..."

Upon hearing this, everyone from the battle sect couldn't help but fall silent.

A limited edition crispy noodle snack..

And a limited edition crispy noodle snack from another world..

For some reason, everyone from the battle sect had a feeling at this moment.

Maybe.

That Man..

Was coming..

Chapter 1667 1,663: That Man's Seventeen Years Old (1/92)

Tomorrow was his birthday, and Wang Ling had never had much hope for it, because there had been so many mishaps on his birthday in previous years that he had long since passed the age when he would look forward to it.

Every birthday told Wang Ling that he had grown a year older and had become a hundred million points stronger.

For Wang Ling himself, before he had found a way to completely control his battle prowess, his birthday every year was nothing more than a reminder that God had stuffed another spoonful of gunpowder into his body..

His peers were all looking forward to his birthday now, but Wang Ling hoped that time would slow down a little.

Ever since Wang Ling turned seven, he hadn't had a birthday party in his memory.

It was hard to imagine that he could even blow out a candle and create the visual effect of the fire escape fireball spell, directly burning down his home..

So this year's birthday present was the same as the previous years. With Wang Ling's permission, father and mother Wang still gave Wang Ling the option to cash out and let him buy something he liked.

Seventeen years old.

This year's cash out gift seemed to be a little more generous than in previous years.

Father Wang was surprisingly not stingy, and the couple stuffed seventeen thousand yuan into it.

To Wang Ling, this was shockingly a huge sum of money.

When he opened the red packet, Wang Ling received the couple's heartfelt wishes. On each bright red note was written in beautiful pencil: "Happy Birthday, son."

Father Wang had been fiddling with these one hundred and seventy banknotes in his study for a long time last night.

He had written a lot of blessings online, and after sorting out his thoughts, he planned to transcribe them bit by bit on the banknotes.

Later, he realized that there were too many blessings, and it seemed that these one hundred and seventy banknotes weren't enough to fully express his feelings.

Thus, in the end, there was only one sentence left: "Happy Birthday."

But Wang Ling didn't plan to use all of this money.

The main reason was that he couldn't think of what he wanted to buy, and the snacks he really wanted to buy were so cheap that he didn't need that much money at all.

After putting the money away, Wang Ling planned to make a trip to the bank and deposit this huge sum of money into his account first.

Just as he was about to teleport out, little girl Nuan had crawled over and pulled on his pants.

In fact, Wang Ling had recently discovered that Little Nuan liked to stick to him.

And he wasn't someone who liked to be stuck to.

Perhaps it was because they were related by blood, but he didn't reject Little Nuan's stickiness at all.

Wang Ling looked at Wang Nuan. “Do you want to go with me?”

“Ah!”Wang Nuan exclaimed.

Thus, he half-squatted down and picked Nuan up. The whole set of movements could be said to be smooth and fluid, and naturally, there wasn’t a single mistake to be found.

In fact, this was also the result of Wang Ling having secretly practiced with loopy toad many times. The main reason was that he was afraid that his hugging movements would be too stiff and make his sister uncomfortable.

Seeing Wang Ling pick her up, Nuan also became happy. Her chubby body leaned on Wang Ling’s shoulder like a little fat bird resting on his shoulder; she liked to snuggle in her brother’s position.

The whole scene was so warm that it was inconceivable. If someone else was watching, they would definitely feel that it wasn’t real.

Although Wang Ling hadn’t shown any expression from the beginning to the end, this kind of gentle action and the cautious way he treated his younger sister, when he was with this “Role model of our generation”like Wang Ling., there was always a feeling that it wasn’t real.

It took less than half an hour for him to finish saving the money.

The specific time taken was as follows.

He used the “Great teleportation spell”to move to the nearest bank.

The whole process took less than a second.

When Wang Ling found that the ATM was under maintenance, he took the initiative to take out the number and wait for manual processing.

There were a lot of people on Saturday.

After waiting in line for a full 27 minutes, he was called.

Then came the manual deposit segment, which took another two minutes or so

But thanks to the time he had spent in line, Wang Ling had also sorted out his thoughts on what gift he wanted this year.

Mm..

He felt that the foreign world version of crispy noodle snacks in the illusory realm seemed pretty good.

It was just that the currency in the real world couldn't be used to buy that crispy noodle snack.

But in fact, Wang Ling also had some savings in that world.

That was because not long after grenade-throwing senior immortal had realized that there was an "Illusory realm" in the North Pole, Wang Ling had actually noticed the existence of that place..

Because there was a limited-flavor version of crispy noodle snack in the foreign world, and these crispy noodle snacks were sold in limited quantities every year.

In fact, it was only then that Wang Ling resisted the urge to uproot this strange foreign world.

Of course, he also knew exactly what these people were planning..

Whether it was old or new ancient divine weapons.

Wang Ling thought that if someone really thought that they could rule the universe with these pieces of scrap metal, it would be a bit too whimsical.

In fact, whether it was old or new, it was impossible for an ancient divine weapon to withstand the power of a single punch from him..

..

Today was his birthday, and it was also the day that this world's limited edition gear crispy noodle snacks would be on sale.

It was said that as long as you drew a crispy noodle snack with a golden gear card in the package, you would receive a free package of neon rainbow crispy noodle snacks.

Wang Ling didn't know how good it tasted compared to other crispy noodle snacks, but he knew a thing or two about its effects.

It was said that as long as he ate the "Neon rainbow crispy noodle snacks" and went to the toilet in the next few days, the things in the toilet would also turn into a very nice rainbow color, which could last for a full seven days

Sometimes, the limited edition of crispy noodle snacks might not necessarily sell the taste, but it could also be sold as a "Novelty hunt."

In a situation where ordinary crispy noodle snacks were already unable to satisfy Wang Ling's needs,

These novelty seeking crispy noodle snacks could indeed give Wang Ling a different feeling.

It gave him a sense of satisfaction.

Of course..

Wang Ling also had an identity to hide when he entered the illusory realm.

His name in this illusory realm was a single name, which was the word "Today" after removing a bit of the word "Ling."

This name was a nightmare for all the bosses of the game halls in the core area.

This was because the game hall was the main source of income for Wang Ling to earn money in this world.

Thus, when Wang Ling put on the White Fox mask that he had prepared beforehand and swaggered into a game hall in Emperor City, the game Hall went into first-level alert mode almost in an instant.

“It’s today! The God of today has appeared again...”

“Is he going to break the boxing machine again today?”

When the person in charge of the game hall saw a familiar figure enter from the monitoring room, he instantly broke out in cold sweat as he stared at Wang Ling’s figure, he immediately ordered the person next to him, “Quickly find someone to calm him down, then immediately inform boss Jia and ask him if he has any countermeasures...”

“Didn’t boss go to that underground boxing ring?”

“He came back early... he’s now in the astrology club next door!”

“Okay! I’ll go ask right away!”

Chapter 1668 1664, The Fury Of Hibiscus (1/92)

The illusory realm, the core area of the Imperial City, in the central hall of the huge castle.

On the shining throne that was embedded with all kinds of beautiful crystals, an old gentleman wearing a pair of gold-rimmed one-sided glasses sat upright on it. He held the black scepter in his hands with both hands, squinting his eyes into a slit, he had an indiscernible bearing. The most eye-catching part of his extremely distinctive face was the pitch-black mole at the corner of his mouth.

“My Lord, the black dragon has been captured. However, when he was captured, he had already killed three past commanders.”A floating spherical guard entered the palace and reported the current situation electronically.

“This matter should not be made public. The past commanders have also made back-up avatars. Have they been replaced?”Na Wei held onto his scepter and replied indifferently.

“They have all been replaced with newly developed new ancient divine weapon bionic humans. Up until now, the families of the commanders who have been killed have yet to react.”

“Mm, this matter has been handled beautifully.” Na Wei revealed a smile. “Shouchong and the black dragon have already taken control and are in position. The merging of the brain of God has already been completed. “Now, we can only wait for Mr. Mei Gong to take the initiative to offer her body... have they already arrived?”

“Yes, Lord Mei. They have already entered Dica's mansion.”

“Send someone over immediately and surround the mansion. We must capture Gong alive. Try not to destroy her body.”

“Yes, my Lord.”

After arranging everything, Wei finally let out a long sigh of relief from the throne.

Back then, his master, forefather heartless, had divided a portion of his brain into two portions.

One portion had already been implanted into his body when the black dragon had been created.

The other portion was in Shouchong's body.

After painstakingly planning for many years, the God's brain had finally been assembled. This made Wei unhappy.

Of course, what made him even more happy was that.

He had found a body that was more suitable for creating new ancient divine weapons for mass production..

If he could get such a body, he could replace the existing materials according to the latest bionic technology.

His new ancient divine weapons would be unrivaled..

..

Following the address given by dicas, Lotus Sun and the others successfully arrived at this magnificent private residence in the Di residence, dicas had already built and operated in the core area through his own connections and channels when he was still in the slums.

He had been waiting for the day when he would obtain a pass and become a true master, so that he could directly bring his family and move into this magnificent residence.

This was the lifelong wish of all the people of the lowly birth.

Although dicas was different from the ordinary “Lowly birth”, he was the person who had the best chance of entering the core area among the “Ascenders” in the slums and moving to live in this large and resplendent imperial city, however, the ‘untouchables’ were still classified in the ‘untouchables’ area in the archives.

The only difference was that their assets and connections were not comparable to the ordinary untouchables. They were considered high-level untouchables.

However, now, the situation had completely changed. dicas had finally achieved the dream that he had been dreaming of for many years. He had moved into the large mansion that he had already arranged properly and could settle down comfortably in the imperial city, he would take ten or eight wives, raise a bunch of cute children, and live the life he wanted.

At least, that was what Lotus Sun and Liangzi Jiugong thought when they saw this mansion.

But when they actually entered the mansion, the unusual tranquility was indeed beyond Lotus Sun and Liangzi Jiugong’s expectations.

As a powerful ascendant, dicas had already begun to set up the interior of the imperial city since he had the ability to stay far away in the slums. It was impossible that this huge mansion didn’t even have a single hired servant.

“It’s a little strange, Rongrong...”Liangzi nine temples couldn’t help but feel a little nervous as she held onto Lotus Sun’s cloak. She could clearly sense that something was wrong with the atmosphere in the mansion.

“I can sense Mr. dicas’aura. It should be in this room in front of us...”Lotus Sun led the way, but she also had an ominous feeling in her heart.

Relying on her powerful passive sensing ability of being one with the sword, Ohai was still able to recognize dicas’s aura in this mansion, but it was very weak.

It was completely different from dicas when they had parted on the main road to the core area.

When they arrived at the core area, their first reaction was not to complete Zhu Yuanrun’s mission and really go after the black dragon, but because of monk Jin Deng’s words, they wanted to catch up to dicas as soon as possible to avoid dicas’s danger.

But judging from the current situation, Lotus Sun realized that they were still one step too late.

Although dicas had left before them, the time between them had only been less than an hour!

“Mr. dicas...”

In front of the main door of the inner hall, Lotus Sun knocked on the door. The door wasn’t completely locked, but with a light knock, it easily opened.

After Lotus Sun’s shout, the deathly silent inner hall let out a strange and light whimper.

The sound was muffled, so no one could hear what it was saying. And if they didn’t listen carefully, they wouldn’t even notice it.

With great unease, Lotus Sun finally walked up to a wooden wine barrel hidden behind the inner hall.

And dicas’ Aura.

It was inside this wooden wine barrel..

Lotus Sun gritted her teeth and mustered up the courage to open the lid of the wooden barrel. A foul stench immediately assailed her nostrils. It was a complicated and unbearably rotten smell, like a meat product that had been pickled for a long time and had gone bad.

Lotus sun and Liangzi nine temples were both dumbfounded.

Because in this wooden barrel, an eyeball was looking at them. Even though she could no longer tell what dicas looked like, Lotus Sun could still tell that it was dicas' eye.

"Mr. dicas..." Lotus Sun's eyes instantly turned red as she tried to use the healing sword Qi of the ocean of AO to repair it.

But it was useless.

Dicas had already been killed before they arrived.

Such a large body had been chopped up and put into the wine barrel along with the scattered parts..

"This is the calamity he should be facing. The Healing Sword Qi can save people, but it's useless against the dead." Monk golden lamp sighed. He bowed to the barrel and condensed the light of the Buddha of rebirth in his hand.

This light could quickly end dicas's pain and allow him to enter a new cycle of reincarnation.

However, before this light was shot, golden lamp seemed to have thought of something. He extracted the inaudible sobs from the wooden barrel.

They gathered into a short string of words..

This was the death message dicas had gathered with his obsession before he was killed.

There were only two words: run.

“Perhaps it was because he left the address earlier that he predicted that we would come looking for him. That’s why he left this message.”

Monk golden lamp sighed. He opened his Buddhist hand, and golden light shone from it, it carried a divine power that was boundless in Buddhist dharma. “Mr. dicas, this little monk and the two ladies have received your message. Have a safe journey... this little monk has predicted that you will be extremely happy in your next life...”

A Ray of rebirth light shone down.

In the wooden barrel, dicas carried his final obsession and turned into a speck of gold dust that drifted toward the Pure Land of bliss..

After doing all this, he saw that the two emotional ladies had misty eyes, he quickly comforted them, “Miss Rong, and... Miss Liangzi. The battle is not over yet. Let’s continue forward.”

He didn’t think his words were comforting.

Modern cultivators hadn’t experienced too many wars in the past.

However, the peace they were used to had faded away, and the true path of cultivation was often much crueler than modern cultivation.

This truth could only be experienced after personally experiencing it.

Touching the cycle of life and death..

Except for that man, no one had the ability to change the predetermined outcome.

“Senior golden lamp, I understand.”

After wiping away the tears from the corners of her eyes, Lotus Sun raised her eyes and scanned her surroundings with her spiritual sense. “Come out... I will treat Mr. Di and return his pain to you double!”

As soon as she finished speaking.

A powerful sword aura suddenly whistled out of Lotus Sun's body!

In the span of a breath, even Liangzi nine temples was shocked.

"Rongrong..."she felt as if Lotus Sun had changed into a completely different person, or rather... her understanding of lotus sun in the past had been completely incomplete.

The sword qi emanating from her body was too powerful..

Liangzi of the nine temples believed that ever since he had grown up, he had only felt this kind of shock once when he had the honor of meeting the famous sword saint in Huaxiu Nation!

And now, the sword Qi that erupted from Lotus Sun's body... seemed to be even more intense than the shock she had felt when she had met the sword Saint!

This was the true fury of Lotus.

Chapter 1669 1,665. Even Someone In The Foundation Establishment Stage Was This Brave?
(1/92)

More than a dozen cold and gloomy auras came from all directions with boundless coldness, and their target was in the hall of the mansion Lotus Sun was currently in.

These malicious spirit energies seemed to be duplicated, and were identical in strength and smell. Lotus Sun could immediately tell that these people were most likely the new ancient godly weapons that monk Jin Deng had mentioned earlier, only artificial cultivators with strict regulations could have such a sense of harmony.

From the aura and spiritual energy to the malevolence seeping out from the inside, they were all identical.

Liangzi nine temples was terrified. It wasn't like she had never seen a big scene before, but the new ancient godly weapons that surrounded them now, even if they weren't the final product that had been finalized.., each one of them had the combat strength of a quasi-dao god.

Although they weren't at the level of the black dragon, they were outnumbered at the moment. The accumulation of malicious intent would have a huge impact on Liangzi nine temples, an aurous core stage cultivator.

Surrounded by so many combat machines with a huge gap in realms, Liangzi nine temples' face instantly turned ugly. But while her face was pale, Lotus Sun's face was glowing red, she looked as if she was ready to fight.

This made Yoshiko nine temples even more confused... wasn't Lotus Sun only at the foundation establishment stage? Was the foundation establishment stage so brave now?

Because she had become good friends with Lotus Sun, Yoshiko nine temples didn't feel embarrassed, but rather incredulous,

could it be that senior golden lamp had also enlightened lotus sun?

Liangzi nine temples thought about it, but the doubt in her heart grew bigger and bigger. After all, she had also been enlightened by the golden lamp monk, so she knew what it felt like.

It was true that her physical strength would become stronger after being enlightened, but in the face of such a huge difference in realm, the fear of falling behind couldn't help showing itself.

When she had been dealing with the black dragon earlier, Liangzi Jiu's mind had been filled with scenes of odd zhuo and that pretty boy "Lovey-dovey", and the more she thought about it, the angrier she became, which had directly caused her to have no time to think about anything else... But now., their group was surrounded by a dozen quasi-dao gods' neo-ancient divine weapons, and the situation had fundamentally changed.

Liangzi nine temples wasn't stupid.

Even though she found it inconceivable, she could sense that the sword Qi on Lotus Sun's body was definitely not from monk Jin Deng's enlightenment... it came from her own power.

At this time, outside the inner hall, more than a dozen shadows turned into black shadows through the hazy window paper and appeared in front of them. Each of them wore a uniform black dress

with a very special black hemp rope tied around their waists, each of them wore a clown mask on their faces.

One of them went around to the roof, and his eyes shone with a golden light through the hole in the clown mask. “His Lordship requests that this Mr. Gong be captured alive. The rest can be killed.”

“Yes!”

The Golden Eye closed its mouth, and at the same time, the surrounding cold aura shot out of the inner hall and locked onto Lotus Sun almost at the same time!

Lotus Sun’s heart skipped a beat. She thought to herself that it was a good thing that she had switched masks with Liangzi nine temples earlier, and that she had used the passive ability of the Ao hai man-sword unity.., she had used the “Mirage illusory aura technique”to simulate Liangzi nine temples’aura, causing the group of people to lock onto her.

“Senior golden lamp, protect Liangzi!”

“I understand.”Golden lamp pressed his palms together, then took a step forward to protect Liangzi nine temples behind him.

He hadn’t organized Lotus Sun’s operation because this was a rare opportunity for her to gain experience. As a senior, competing with a junior for experience points was a very unethical thing to do.

“Thank you, Senior!”

With monk golden lamp in charge of logistics, Lotus Sun would have no qualms about taking action later.

She then looked at Liangzi nine temples and smiled. “Liangzi, I know you have a lot of questions right now. I’ll explain it to you when I find an opportunity later.”The situation was urgent, so she only left this sentence with her, she stepped lightly on the ground, rose into the air, and broke through the ceiling with her ao hai in her hand.

Bang!

Accompanied by the shattered debris, the girl's figure appeared with Azure Sword Qi, like a lotus flower emerging from the water. The boundless aura of the sea swirled around her, forming a sword wave that rushed in all directions.

The golden eye on the roof clearly didn't expect that Mr. "Gong" would choose to take the initiative to fight under such a combined attack. When Lotus Sun's Sword Qi rushed over, his face also revealed contempt, he had wanted to stretch out his hand to block it.

But when his hand touched Lotus Sun's seemingly inconspicuous sword wave, golden eye was stunned to realize that it wasn't a normal wave at all, but a stormy wave!

The unexpected impact brought with it a wave of overbearing power, which made his entire right arm go numb on the spot!

Golden Eye's reaction was swift and fierce. A large amount of combat techniques had been input into his brain. In the face of such an unexpected and fierce impact, even if he suspected that he had underestimated the enemy, there was still a way to remedy it.

In such a situation, a head-on confrontation would only cause him to lose an arm for nothing. Therefore, he very cleverly made use of the idea of "Catch-transform-hair-" in Taiji fist.

It looked like he was receiving the attack, but in fact, he was using the transformed force. He used a force of four taels of silver to push a thousand catties, causing the fierce and fierce force brought by this sword qi to leak out from one point to the surroundings and spread out continuously.

As long as this force was dispersed, even if his arm was hit, it would not be to the extent of being completely broken.

Finally, accompanied by the sound of bones dislocating, Jin Tong took a step back.

He used the combat techniques that he had entered into his brain to resist the trouble caused by underestimating the enemy. In the end, the price he had to pay was only dislocation.

Like most neo-ancient divine weapons, they did not feel pain. dislocating their arm was not a big deal at all.

His face was calm and collected. He used his left arm to twist it, and his right arm was reattached.

“This person’s reaction is so fast.” Lotus Sun was also surprised after testing out Jin Tong’s quick reaction.

“It’s not that they’re quick. All the combat experience of the new ancient divine weapons is the same. They’re like calculators, able to quickly find ways to deal with different moves in the database.” At that moment.., sun Ying ‘er analyzed in Lotus Sun’s mind.

“So that’s how it is.”

Lotus sun nodded. She tightened her grip on Ao Hai’s hand, and a confident expression appeared on her face.

If the other party had fought her according to the program that had already been set.

In Lotus Sun’s opinion, the following battle would be very easy to handle.

After all, the program on the computer was still artificially inputted. Even if it had the ability to learn on its own, if it encountered a problem that had not appeared in the program before, it would be difficult for it to react in time.

As the number one foundation establishment cultivator on Earth, Lotus Sun’s logic was extremely clear.

“Ohai... give me a hand...” she called out to Ohai in her heart, gradually unsealing this passive ability of being one with the sword.

When the aura of the Heaven’s path Rubik’s Cube was slowly released from Ohai’s Azure Sword, Golden Eye was once again stunned.

Heavenly Dao Rubik’s Cube?

There was such a thing?

He suddenly understood why the girl's sword aura was so fierce.

It was just a Heavenly Dao Rubik's Cube... as long as he was careful, he should be able to successfully complete the capture plan.

However, what Jin Tong didn't expect was that.

After Lotus Sun broke the seal of the first Heavenly Dao Rubik's Cube, the aura continued to rise..

"So there are two Rubik's cubes..."the golden eye couldn't help sweating.

Then, his sweat became more and more fine, almost as if it was raining

Because the number of Rubik's cubes he felt wasn't two either... there seemed to be more..

After a few seconds, the Golden Eye's brain almost stopped working.

Before he accepted this mission, he was still full of confidence.

But now, even if he didn't want to admit it, he had to say that he was already a little flustered..

After all, before this mission, no one told him that a spirit sword could actually fuse a total of six Heavenly Dao Rubik's cubes..

This question was already a little over the top for Golden Eye.

He even had the same question as nine temples Liangzi.

Were Foundation establishment cultivators so brave these days..

Chapter 1670 1,666, A Battle That Transcended Normal Understanding (1/92)

The divine power of the Six Heavenly Dao Rubik's Cubes in the body of the Ohai sword was now operating together, and under the effect of the superimposed power, it formed a sword pressure that could be said to be crushing; it was so shocking that it was hard to imagine.

It was true that the remaining three Rubik's cubes had now fallen into Wang Ling's hands, which meant that it was only a matter of time before Ohai truly became a "Nine-core spirit sword" in the future.

But even if there were three missing now, the pressure was so great that it made one's hair stand on end.

"How could this be..." led by Jin Tong, the leader of this batch of new ancient divine weapons, everyone was dumbstruck for a moment, their eyes wide open, it was very similar to the scene from the first episode of Little Treasure's novel in the new deer tripod.

How could a young girl whose strength was only at the foundation establishment stage be able to control this spirit sword which had six Rubik's Cubes in it?

Jin Tong realized that at this moment, his memories were starting to go haywire. His mind was blank, and he couldn't think of a way to deal with this situation.

The girl holding the six-core arcane sea was too powerful. Just by standing there, her body sent out a tsunami, and the powerful sword pressure that was like the impact of Doomsday made all of them freeze, unable to move an inch.

This was also the first time that Lotus Sun had fully displayed her strongest combat strength in front of an outsider.

She hadn't reached such an absurd level when she killed the old God with her sword, but now she was clearly stronger than before.

No one could have imagined that a foundation establishment stage cultivator could actually obtain a monster-like combat strength through a spirit sword.

That's right.

At that moment, Lotus Sun was nothing more than a monster in the eyes of these ancient new divine weapons led by the Golden Eye.

This couldn't go on... they had to think of a way!

Watching Lotus Sun approach her step by step, the Golden Eye began to forcibly control her stiff body, which had been suppressed by the sword. At the same time, the ancient new divine weapons below her., those who could also be called Bionic people also adopted the same method.

They were too close to Lotus Sun and couldn't move. They could only forcibly break out of their stiff state and pull as far away as possible.

But this action was also a laughable and face-smacking action.

Because before coming here, golden eye had thought that this would be an extremely easy mission.

Even though this Mister Gong was very powerful, they had the advantage of numbers. They might be able to subdue him and bring him back to that Lord alive and unharmed.

However, Jin Tong felt that the situation had completely changed.

"Listen to my orders and set up the formation! As long as we ensure that Mister Gong lives... even if we break his limbs and cripple him. As long as we ensure that he lives, there's no need to think about anything else." Golden Eye gave the order.

It was a helpless move. Initially, they wanted to bring 'Mister Gong' to that smell alive and unscathed.

But now, it was obviously impossible.

This was a battle that required all their strength. The necessary casualties could not escape.

Just as Golden Eye finished speaking, more than a dozen golden psionic arrows shot out from the holes around them, splitting the space like waves, directly ploughing out pitch-black cracks in the void that the arrows passed through.

This was the combat strength of a quasi-dao god, and tearing through space was a common occurrence.

These golden arrows brought with them terrifying power, and rapidly flashed through the void at a speed that couldn't be seen by the naked eye. They dragged along the ferocious spatial cracks, beautiful and beautiful, they were unusually concentrated and shot toward Lotus Sun on the roof from many directions.

If these powerful psionic arrows collided on the roof, the mansion would be instantly razed to the ground by the huge explosion.

Lotus Sun stood on the roof. Aohai's sword energy had completely covered the entire imperial city. She could clearly sense the positions of the dozen or so android, including the barriers they had deliberately set up around the mansion before coming here.

This was to prevent accidents like this from happening when they attacked, so that the impact of the explosion would spread to other places.

But in fact, this action had also helped Lotus Sun.

She stood rooted to the ground, her body protected by Ohai's sword Qi. In addition, the golden lamp monk had cast a permanent light-opening spell on her body in the last "Yin-yang death tribulation", this made her body incredibly strong.

Hum!

Ao Hai's Protective Sword Qi was automatically released, forming an eggshell-shaped sword barrier with a radius of eight feet. The golden arrows that came from all directions failed to break through the sword barrier.

When they were only eight feet away from Lotus Sun, they froze in midair as if time had stopped, unable to take another step forward.

Then!

A horrifying scene happened!

These golden arrows with enormous energy were actually devoured by Lotus Sun's protective sword qi!

Like a clay ox entering the sea, they fell into the endless and deep sea and were quickly drowned, leaving no trace behind.

At this moment, Golden Eye was once again in a daze. He looked at Lotus Sun's expressionless face, and while he was shocked by this scene, he also noticed the girl's gaze.

It was a look of contempt that completely disregarded them..

"It looks like the next round is mine."

Lotus Sun held the sword in her hand. At this moment, the body of Ao Hai's sword was already filled with a mysterious blue color. It was crystal clear and incomparably brilliant. It had the boundless heritage of the sea and was deep and profound. At the same time, it was emitting an endless aura of life.

"City-toppling sword," she said calmly. With an extremely graceful and beautiful body, she waved the azure sword and drew a circle around herself.

The last time she had used this powerful city-toppling sword, it had been when Ao Hai and the white scabbard had merged together.

But now, because Ao Hai had six heaven's path Rubik's cubes, this city-toppling sword had become a common skill for Lotus Sun.

The only change was that the last time, it had been a straight slash! It had sent out a sword energy of more than 10,000 meters!

And this time, it was a circular sword energy that slashed out around her, like a beautiful waltz. The instant it was unleashed, it had already caused her scalp to go numb!

Of course, she had even more powerful moves, such as the country-toppling sword or the ball-toppling sword..

But if she used these two more powerful moves at this time, Lotus Sun was a little worried that the enchantments these people had set up around the mansion would be directly shattered by her one move, and the other innocent residents would be affected.

Buzz!

The round sword Qi of the city-toppling sword rushed out, carrying a supersonic wave that couldn't be heard even with the ears of a Dao god, and slashed out in all directions.

The 16 bionic men, including Jin Tong, were filled with shock.

To each of them..

This question had completely exceeded their expectations!

It was not a level that they could deal with!

Even their battle prowess was not on the same dimensional level!

Although they were bionic men that had been created and were only tools to follow orders, they also valued their own lives. After realizing that they had completely underestimated this "Mister Gong"'s combat strength, the first thought in everyone's mind was to retreat.

However, Ao Hai's sword Qi was too fast..

It swept out in all directions, sweeping through an army!

Just as these sixteen bionic humans were about to retreat, their vision suddenly tilted.

It turned out that their heads had already left their bodies..

16 quasi-god level heads.

In the span of a breath.

They all fell to the ground..
