Chapter 1671 1667: Wang Ling's Concern (1/92)

There wasn't any blood, only the stench of engine oil, which was extremely similar to the feeling of filling up a car at a gas station.

In the face of this sudden city-toppling sword, the Golden Eyes and the group of bionic men underground had no time to react at all before their heads fell to the ground one after another.

As bionic men, their insides were created with high-precision machinery, so even if their heads left their bodies, they didn't die immediately.

Of course, if it was an ordinary decapitation, with their regenerative ability, they could completely control their bodies to pick up the heads and put them back together again.

But unfortunately, the girl was more cautious than they had imagined. When the sword Qi of the city-toppling sword swept over, it directly destroyed the sensory nerves in their bodies, completely severing the spiritual connection between the heads and their bodies, now they were completely isolated and helpless.

Of course, Lotus Sun was more cautious than that..

At this moment, she took another step forward and inserted ao hai into the ground. A huge whirlpool formed in the field, accurately locking down sixteen broken bodies.

One after another, bodies gathered uncontrollably from all directions along with the attraction of the whirlpool, and then were sucked into the whirlpool, just like the fruits that were sucked into the juicer, in an instant, they were crushed into dust..

And so, in less than a few seconds, the bodies of Jin Tong and the others disappeared, leaving only the round heads.

And it was only now that Jin Tong realized what kind of demon she had offended.

It was too cruel..

Why was there such a terrifying person.

“Mr. Decas, did you kill him? Answer honestly, or I’ll get angry.” At that moment, Lotus Sun bent down and stared at the head of Golden Eye.

Golden Eye was sweating. “Yes...”

“Very good.”

Seeing that Golden Eye had admitted it directly, Lotus Sun nodded immediately.

There was a debt to a debt.

As an old half-tree, Lotus Sun still understood the principle of returning a tooth for a tooth, and repaying it twice as much.

It was another “Moving version of the Vortex Gravity Spell.” Lotus Sun gathered all sixteen heads together, and they circled behind her like the Jade Seeking Dao in an animated movie. If one had to describe it, this scene reminded Liangzi nine temples of a hero called Cinderella in the League of Legends..

Monk Golden Lamp understood. He knew what Lotus Sun was going to do, so he took a step forward and opened the huge wine barrel that contained Decas’ remains.

The remains inside had already been successfully transcended by Monk Jin Deng. Not a single bit was left.

Monk Jin Deng pressed his palms together, his face full of Buddhist light and benevolence. “Amitabha...”

Lotus Sun didn’t say anything else. She threw the assembled heads into the wine barrel one by one.

The golden-eyed bionic man was the last to be thrown in. Seeing that Lotus Sun was about to close the lid., he immediately panicked. “You... What are you doing! And that glowing Buddha over there... aren’t you monks supposed to be merciful and help all sentient beings? !”

The golden lamp raised his eyes and glanced at the golden eye. “Only those with souls are sentient beings. You Don’t even have souls, so what kind of sentient beings are you?”

The Golden Eye was rendered speechless by these words.

They thought they were human, but in fact, they were nothing more than machines created by that scent that possessed a certain degree of artificial intelligence.

Was it pathetic?

Perhaps a little..

She thought so.

At this moment, Jin Deng’s heart was also stirred up. He felt that Lotus Sun had always been a kind-hearted girl, but when it came to matters of right and wrong, she was more clear-cut than he had imagined. She had the air of a chivalrous woman in the pugilistic world.

This made him feel a little happy in his heart. He felt that Lotus Sun had really grown a lot.

“Rong Rong... What on Earth is...”

At that moment, the only person who was dumbfounded was Liangzi Jiugong. She felt like she was on the verge of collapse. She didn’t understand why Lotus Sun had suddenly become so strong... and so ridiculously strong..

“Liangzi, I didn’t mean to hide it from you. So did senior Odd Zhuo. All along, I was the one who told him not to tell you... anyway, this is a very good opportunity. Why don’t I let Senior Odd Zhuo explain it to you?”

Lotus Sun said as she held Liangzi nine temples’ hand.

Then she looked outside the hall. “Senior Odd Zhuo, you’re here, right? Don’t hide outside anymore; I’ve already noticed you.”

”...”

By the haystack outside the house, Odd Zhuo, who was using the earth-burrowing spell to hide underground, couldn't help sighing.

What was meant to come would come..

Because Liangzi nine temples had always thought that Wang Ling was his disciple..

He felt that this wonderful misunderstanding was actually quite good; at the very least, it could help explain a lot of things.

Of course, Odd Zhuo also knew very well that the truth couldn't be hidden forever.

Now that he and Liangzi Jiugong had already established a relationship, he planned to continue to do so in the future..

So this step had to be taken in the end.

Even though he was a little surprised by the development of this matter.

But now...

Odd Zhuo felt that it was time for him to be a man and explain everything to Yoshiko nine temples.

..

On the other side about a few minutes ago.

Wang Ling was playing with a gold coin bulldozer in the game hall in Emperor City.

He was holding a coin, and his hand suddenly paused in the air.

Mm..

He could feel the sword qi fluctuations of Lotus Sun's city-toppling sword.

It seemed that they were already fighting.

And it was a crushing blow to lower the dimension.

Wang Ling didn't know why he would suddenly pay attention to the situation over there when he was playing the game so well, but after learning that Lotus Sun's side was progressing smoothly, he felt a lot more at ease, then, he put his energy back into the gold coin bulldozer in front of him.

This was already the sixteenth gold coin bulldozer that Wang Ling had emptied.

The game coins that Wang Ling had earned were piled up in three sacks.

There were a total of one hundred thousand of them.

According to the discounted exchange rate in the game hall, these one hundred thousand game coins could be converted into gold gear coins at a rate of 1:10.

There were actually quite a few throwing techniques when playing a gold coin bulldozer, and Wang Ling's technique was to attach a layer of magnetic force to the tossed game coin at the same time as he threw it.

So much so that once the game coin entered the machine, it would immediately form an overwhelming momentum, pushing all the game coins out of the machine no matter where it was

"Sir, do you still want to continue... the first few machines that have been emptied have already been filled up with new game coins."The person in charge of the game hall wiped off his cold sweat and stood respectfully next to Wang Ling.

His immediate superior was Jia Bugui.

Whenever Wang Ling appeared in the game hall on a normal day, Jia Bugui would be so afraid that he would tremble all over and scold them for chasing him away no matter what method they used

Like the other bosses who ran video game halls, almost all of the bosses who had been “Robbed” by Wang Ling had a disease that caused them to twitch uncontrollably at the sight of Wang Ling, commonly known as the present-day mental illness.

The person-in-charge had thought that Jia Bugui’s attitude might be the same as before.

But who would have thought that when he went to report today, boss Jia seemed to be in an exceptionally good mood..

Not only did he not let them stop him, he even asked them to send someone to play with this Mr. Jin to his heart’s content.

The most ridiculous thing was that there was no limit to this play..

Jia Bugui had already given him an order.

Even if Wang Ling took away all the game coins in his game hall today, even if the game hall directly went bankrupt and lost all its money... he would still play along

The person in charge of the game hall was dumbfounded on the spot.

“Boss... Are You Serious?” Just a few minutes ago on the phone, he had once again confirmed with Jia Bugui.

Little did he know that Jia Bugui, who had picked up the phone, said righteously, “Of course I’m serious!”

After all.

This was his younger brother’s birthday..

If his younger brother wanted to play, of course he had to play with him!

Even if the arcade goes out of business..

It's not his money..

Chapter 1672 1668, Sheltering Creature Scb-096(1/92)

When the news of the death of the sixteen new ancient divine weapons led by the Golden Eye was transmitted to the taste's brain through the spiritual connection hub, a slight tingling sensation was immediately transmitted.

This tingling sensation had no effect on the body itself. It was purely a signal that the spiritual connection hub had been completely cut off.

It meant that the sixteen quasi-dao deity level neo-ancient divine weapons led by Golden Eye were completely hopeless.

The materials of the neo-ancient divine weapons were very special, and they had the ability to model and regenerate. Under normal circumstances, even if they were severely damaged, they could still be salvaged. Even if a part of the body was lost and the regeneration function was limited, as long as there was still more than 30% of the mechanical organization on the body, it could still survive.

In other words, as long as he still had at least 30% of his mechanical tissues, it was not to the point where the spiritual connection hub was directly broken.

That Smell's face was filled with disbelief. He did not expect that the combined combat strength of Jin Tong and the others that he had sent could not even defeat that "Gong"..

However, this actually made him even more excited.

This proved that his judgment was not wrong. This "Mr. Gong" was indeed a good material for him to further realize the "Ultimate version of the neo-ancient divine weapon".

Of course, the defeat of Jin Tong and the others actually made that flavor reflect on himself.

He felt that in terms of combat power, Jin Tong and the others should not be crushed. Perhaps it had something to do with the order he had given at the beginning to bring this “Mr. Gong” back alive.., it caused Jin Tong and the others to be restrained when they attacked, allowing the other party to find an opportunity.

But now, it seemed that there was no need to be restrained.

Back then, his master, Patriarch Heartless, was regarded as the existence of ‘soul chasing in the Underworld’. Even if he was dead, he could be rescued by his crafty mechanical parts within forty-eight hours.

Of course, if he could capture them alive, it would be the best because it would save that Wei a lot of trouble. However, there was no need for that now.

“Pass my order.”

At this moment, that Wei thought for a moment and said to the few spherical guards in front of him, “I want to release the containment device.”

This order caused the spherical guards to be stunned because it was a very dangerous move.

They needed that smell to order them to confirm the order again.

One of the spherical guards warned in an electronic voice, “The order to free the residents has been detected. The order may lead to unpredictable danger. The residents are still in an uncontrollable state.”

Under the castle, there were countless strange creatures that were being taken in.

These creatures were all imprisoned in a specific Rubik’s cube container by patriarch heartless for the purpose of conducting experiments on new ancient divine weapons.

They were strange, powerful, and had a certain weakness, but they could not be completely killed..

“I know.” Na Wei smiled and said, “These guys have never been able to deal with them effectively. Since Mister Wei Gong is so strong, I’m sure he’ll have a way to deal with them, right? “With his help, we can let those lively creatures take in some of their physical strength, and at the same time, wear down his own strength... in the end, we can send a new ancient divine army team to surround him, and we’ll definitely be able to bring him to me.”

At this point, the spherical guards already knew what that smell was trying to do.

It was nothing more than wearing down each other’s physical strength, and in the end, they would just sit back and reap the benefits.

However, it was hard to say if it would really go that smoothly.

This was because those creatures had strange and strange abilities, and they were abnormally violent. Not only were they not easy to control, but they were also very easy to hurt innocent people.

But regarding this.., that flavor seemed to be very confident. “It’s fine. That Mister Gong seems to be a warm-hearted person. To deal with such a warm-hearted person, it would be more interesting to let these uncertainties pass. Even if something really did happen to someone, at the very most, they would just have to pay for it. For the future development of the Emperor City, there are times when necessary sacrifices are needed.”

“Then how does my lord intend to free the host?”

“Directly use the spatial teleportation technique to transport the Rubik’s cube that is used for the host. Of course, before sending it over, you must set up an automatic release program.”

“Understood.”

At this moment, the light of the spherical guard flickered, and then it projected the light from the mechanical eyes, along with the numbers that kept jumping in the void, a series of information about the creatures that were being taken in and the corresponding numbers were clearly projected in the void.

The spherical guard said, “Sir, please choose which creatures to release first...”

That Wei rubbed his chin and laughed. “SCB-096, let’s use it first.”

Scb-096 was an eternal dao deity-level creature, and its current realm and strength had already reached the quasi-dao ancestor realm.

This was a strange creature that his master had captured from the back of the Moon during the eternal era when Patriarch Heartless was still alive.

It was a rabbit and a human-shaped creature. However, it had a strong sense of inferiority because of its rabbit overbite. Usually, it would cover its mouth, only its beautiful ruby-like eyes were exposed... it seemed to be a gentle and refined creature with an extremely gentlemanly aura, but when it was brutal, it didn’t recognize any of its relatives.

No one who had seen his buckteeth could survive..

In order to study the tooth structure of the new ancient divine weapon, that Wei had interacted with scb-096 many times. There were several times when scb-096 had almost killed him and used his buckteeth to bite his throat.

Now that scb-096 was freed again, that Wei had to admit that it actually felt like he was taking revenge for a personal vendetta.

“Are you sure it’s scb-096’s host that needs to be freed?”

“Yes.”

“Okay, the system has understood. In 120 seconds, you will be teleported according to the designated coordinates...”

..

In the game hall, Wang Ling emptied the last gold bulldozer and was content to exchange the 200,000 game coins he had just won for 20,000 gold cogwheel coins.

He wasn't an insatiable person; from the very beginning, he had no intention of eating up all of the game Hall's old capital; all he needed to do was save enough money to buy crispy noodle snacks.

"Take care, Sir Today!" The person in charge of the game hall had tears in his eyes as he stood at the door with his workers to send Wang Ling off. He waved his sleeves, and his heart was filled with gratitude for Wang Ling's mercy, he was even welcome to come back next time.

Wang Ling was very satisfied with this.

He felt that this game hall had a very bright future.

As one of his ATM machines in this world, Wang Ling felt that as long as this imperial city continued to operate, places like the video game hall still had to be preserved.

Of course, he wouldn't just be in a "Sheep-scraping" shop. If the sheep were to be scraped clean, he wouldn't have any place to earn small money..

The Wang family's admonition had always told him that he couldn't use his ability to earn money in the real world.

Wang Ling naturally remembered this admonition.

But he wasn't in the real world right now; he was in a different world!

So it couldn't be considered a violation.

He was about to go to the snack bar that Xiang Yi had opened in the other world to buy crispy noodle snacks.

When he was less than five hundred meters away from the entrance of the snack bar, he suddenly heard an earth-shattering boom.

An eight-meter-long and eight-meter-wide cube fell from a strange direction like a meteor, smashing the snack bar in front of him into pieces on the spot

Wang Ling had seen this scene before.

Seven years ago..

It was the same scene when the gate between worlds had descended.

But this time, it happened to be when he was buying snacks..

Chapter 1673 1669, Host Of A Living Creature (1/92)

When the giant cube with a metallic luster and full of technology appeared on the streets of the downtown area, the spherical guard immediately issued an unusual warning.

This was because there was a difference between the location of the transmission and the actual location. Logically speaking, this shouldn't have happened.

“What’s going on?” That smell furrowed his brows in displeasure. He had wanted to precisely teleport the cube to Lotus Sun and the others, but hadn't expected it to be directly transported to the downtown area. Now the situation had become troublesome, it looked like a lot of people were going to die.

“Scb-096’s abnormal energy fluctuations have been detected. It is suspected that after the containment device broke away from the suppression array, 096 was given a certain amount of spirit energy space, allowing it to use its own ability to teleport the entire cube to other locations, thus causing the coordinates to shift.”

“As expected, it has become stronger...” that smell touched his chin and sneered. “No worries, let’s not bother about it for now. Just release another containment creature that does not have the ability to teleport to that Mr. Gong.”

“Release another one?”

“I think scb-1212 is not bad,” that smell said.

SCB-1212, Chinese name: Mute.

Ability Analysis:

1: it will launch a sudden attack on all objects within its hearing range that make sounds. It will cut open its stomach with its sharp claws. It is a strange humanoid creature with mantis hands. There is only a bloody mouth full of sharp teeth on its head, just by looking at it, there is a strong sense of oppression.

2: all people who come into direct contact with it will involuntarily make “Abba-abba” sounds... even the words “ABBA-ABBA” will constantly appear in their brains, causing them to be unable to think.

3: in the vicinity, every time he hears 100 words of “ABBA”, he will automatically obtain a life and be resurrected immediately after death.

According to that flavor’s understanding of scb-1212, in the past years, 1212 had accumulated at least 1,260,000 lives. In other words, 1212 would have to be killed at least 1,260,000 times before it would be completely destroyed.

That smell was extremely eager to see what kind of chemical reaction would happen when this “Mr. Gong” encountered 1212?

Moreover, this time, 1212 had a certain probability of meeting 096.

In the previous experiments of taking in creatures, these two creatures had never met from beginning to end. If they were to fight, it might provide a breakthrough academic contribution to his research on the ultimate neo-ancient divine weapon.

At that moment, the spherical guard once again issued a confirmation command.

“Are you sure it’s scb-1212(also known as material bundle-1212) that needs to be freed?”

“Yes.”

“Okay, the system has understood. In 120 seconds, it will be teleported according to the designated coordinates...”

..

On the other side, when the huge cube with a metallic luster and a sense of technology appeared on the streets of the downtown area, Wang Ling and the warm girl who had been lying on his shoulder the whole time., they immediately saw the strange creature in the cube.

At the scene, debris from the collapse of the building flew in all directions, kicking up a large amount of dust. At the same time, the terrified voices of passers-by could be heard, and everyone fled in panic, completely unaware of what had happened.

Wang Ling stood in front of the collapsed snack bar with his hands in his pockets, his body trembling slightly.

Now he finally understood what the internet meant by “Shivering in cold air”..

The flying debris didn't hit Wang Ling. He had a powerful holy light protecting his body, which was an ability that came with his physical body after it had become a saint. It could be activated automatically in an unconscious state, it could block all flying spells or props that came close to him.

Although Wang Nuan's physical body was equally powerful, it hadn't reached Wang Ling's current level.

He was worried that the little girl would get hurt, so he expanded the holy light on his body to envelop the little girl as well.

The brother and sister worked well together.

Wang Ling's mind was completely focused on the little girl, while the little girl used the power of her Shadow Dao to control all the flying debris and prevent innocent passersby nearby from being hurt.

“What the hell is going on outside?”

The snack bar they were in wasn't far from the astrology club, and grenade-throwing senior immortal frowned when he saw a huge cube land.

Danger!

This cube was very dangerous!

Although he didn't know what was inside, based on the feeling that he had been courting death for so many years, the sealed creature inside this cube was definitely not a secular thing..

"It's to take in creatures,"said Xiang Yi at this moment.

He had already unzipped his sniper bag, he was quickly assembling the 'nine Suns divine sword'. "According to my investigation, in order to cultivate a top-tier ancient divine weapon, the ancient divine weapon has been sealed inside the cube. "Patriarch heartless had the habit of capturing strange extraterrestrial creatures in the past, and these creatures all had unique skills. It was not easy to kill them with ordinary cultivation methods. Thus, they could only be imprisoned in this kind of cube-sealed container in this form."

"Then what exactly do they belong to? It doesn't feel like they're divine beasts born from the chaos..."loopy toad frowned.

Ever since it had first learned of the existence of that divine beast, the groundhog.

Now, it had also evolved into a divine beast.

If the creatures in the cube were also Divine Beasts born from the chaos, or had evolved to that stage later on, they would definitely have resonated with him.

But now, the resonance was almost zero.

"The creatures born from the chaos are not only divine beasts, but also have a certain probability of producing chaotic beasts. And these chaotic beasts are also called unnamable creatures."

"Unnamable creatures? These creatures are related to the outer gods and the old overlords?"

“Maybe.” That was all I knew so far. At least some of the nameless living creatures are related to the old rulers and foreign gods. And others are simply living creatures created by mixing the Great Dao and the power of chaos,”said Xiang Yi.

“I see.”Loopy toad nodded.

He roughly understood.

In other words, the common name for these living creatures was “Nameless living creatures,”but they were divided into two factions. One faction was the -LSB- old faction ], which was created by the fusion of chaos with a part of the avatar and the cells of the old ruler; the other faction was thGreatrDao dao faction ], which was created by the fusion of the power of GreatrDao dao and chaos, it was created.

At this moment, the nine Yang divine sword in his hand had already been completely assembled.

He adjusted the 3.2 billion light-year scope on the sword and nodded in satisfaction. “In order to avoid harming the innocent, it’s better to kill these strange beasts of chaos as directly as possible.”

“There’s no need to hurry. With that person around, this guy shouldn’t be able to jump around for long.”At that moment, Wang Ming reached out to block Xiang Yi’s chance to perform a quick headshot.

Xiang yi: “Who’s Here?”

Wang Ming smiled. “Who else could it be?”

Loopy toad was shocked. “Could it be your Lord... F \* \* K! I was wondering why I felt his aura in front of me all this time! So it wasn’t an illusion because I missed him too much!”

He had actually wanted to say earlier whether Wang Ling had also come to this other world... but he wasn’t very sure.

It wasn’t until now that he saw this extremely familiar scene that he had an answer in his heart.

Seven years ago, he had also crushed a small grocery store and turned from a toad into a dog by accident..

Who knew what would happen to this rabbit man who had also crushed the small grocery store?

At that moment, in the astrology club, everyone in the battle sect was paying close attention to the battle ahead.

They saw Wang Ling slowly walk over to the rabbit that had already left the container.

Loopy toad rubbed its nose. "This... why do I feel that Lord Ling still smells like a Nuan?"

He was sure that he hadn't smelled wrong.

The smell of milk on the baby's body was very obvious.

"That girl Nuan is indeed here, right on his shoulder," Wang Ming said.

"So she's Ling Zhenren's sister? She's too young; Will she be in danger?" Xiang Yi was a little worried. He knew who Wang Ling was, but he knew nothing about Wang Nuan.

In his original world, he and Wang Nuan had never interacted.

"Judging from its appearance, this should be the rabbit person from 091. It has an extremely strong self-healing ability and will kill anyone who sees its buckteeth," Xiang Yi added.

Just as he finished speaking.

Something that everyone hadn't expected happened.

The little girl Nuan suddenly shouted, "Rabbit! Rabbit!"

Then, she jumped off Wang Ling's shoulder and pounced on the rabbit person.

The Rabbit Man hadn't expected Wang Nuan to pounce on him. It had been born on the dark side of the moon four billion years ago, it had never seen such an audacious human being... and there was actually a baby?

091's eyes were filled with disbelief and fear. When Wang Nuan's breath came closer, and it smelled of milk on its neck, 091's thoughts were suddenly stunned.

This..

This familiar feeling..

At that moment, 091's ruby-like eyes were filled with tears.

"Master..."091 let go of the hand that had been covering its buckteeth because of its own death, and let out a faint cry with tears in its eyes.

Wang Ling had wanted to kill 091 with a hand knife.

But when he saw this scene, he instantly felt relieved.

It was because four billion years ago, he had indeed used the Great Dao ability of shadow dao at "Peak of the heavens, Palm Cliff"at that time..

Therefore, 091's birth had a causal relationship with him.

It was because he had used Shadow Dao in advance that year.

It had caused Wang Nuan's Shadow Dao to react with chaos.

And had given birth to 091 on the dark side of the Moon..

Chapter 1674 1,670 -- The Only Way To Avoid Wang Ling's Slap (1/92)

When Rabbit, codenamed 096, showed a tearful and moved expression, Wang Nuan also said that the white and soft fur on the rabbit's body climbed all the way up to its shoulders, she used her small hands to pull 096's ears like pulling a rein.

This feeling of pulling did not make 096 feel any pain at all. Instead, it felt very comfortable.

It had waited for four billion years, searching for the value and meaning of its existence. Even though it had never met Wang Nuan, the resonance ability it had as the master of Shadow Path was not fake.

This made 096 quickly realize that the baby that was riding on its shoulders and pulling on its ears was the master it had been searching for all along, and the entire meaning of living in this world.

Thus, at this very moment, 096, who had never smiled before and had always been alone in grief, suddenly revealed its buckteeth with confidence and revealed an unprecedented smile.

When Xiang Yi saw this scene in the astrology club, he was completely dumbfounded.

Something wasn't right..

Weren't these hosts supposed to be savage and inhumane monsters? Why were they smiling like they had seen Ku Xuan's ten-watch watch today? !

There was clearly something wrong with this picture!

It could only be said that Ling Zhenren's younger sister was indeed worthy of being called a sister. After having the same bloodline connection, there were always things that surpassed normal cognition.

Thus, Xiang Yi soon began to feel relieved. He felt that he had seen too little and seen too much.

Grenade-throwing senior immortal: "So, this 096 is from the [ Great Dao sect ] ? It's a Shadow Dao derivative?"

Loopy toad was embarrassed. “It looks like that’s right... The Aura on this rabbit is very strong, but I didn’t expect it to be one of us.”

This result was also out of Wang Ling’s expectations. The seed that had been sown four billion years ago was only now being recycled... after seeing the vicissitudes of life, he was actually a little moved when he carefully tasted it, he couldn’t help typing “Tearful eyes” on this chapter.

When he saw Ah Nuan playing with the rabbit’s ears as if she was having a good time, his heart instantly softened. Although this rabbit had crushed his snack shop and interrupted his plan to buy snacks,.

As long as the Nuan Girl liked it, it was the same as picking up a free pass.

After all, she was his sister, and also his biological sister.

What could Wang Ling Do? His sister liked it, so of course he could only spoil her.

Of course.

If one day Wang Nuan lost interest in 096,096’s safety couldn’t be guaranteed... it might even be directly turned into a spicy rabbit head..

Wang Ling could tell that 096 was very strong. Although it had lived for four billion years, it had actually spent quite a bit of that time in a storage facility.

In other words, the meat wasn’t as old as it looked, and the taste wouldn’t be too bad when it was cooked.

And just as Wang Ling was thinking about whether he should use braised, steamed or spicy food to cook 096 in the future, 096, who had been unusually well-behaved with a nuan holding its two rabbit ears..., suddenly, there was a fierce look in one direction, and it gave off an extremely hostile look.

“Is there another one...”Wang Ling muttered in his heart.

That was because there was a huge roar not far away, and a new cube container had unexpectedly descended.

096 was giving a low warning cry in that direction, and Nuan had indeed searched the soft hair on its head at that moment. It felt as if his bones had gone soft, and 096's body instantly went soft.

“Another one?”

Inside the astrology club, loopy toad also said vigilantly. It wasn't sure if it was an illusion, but it felt that the creatures in this cube seemed to be even fiercer than 096's.

“It looks like it's 1212,” Xiang Yi said with a frown. Of all the creatures that patriarch heartless had captured, 1212 was clearly one of the younger generation, but because of its special abilities, it was an existence that couldn't be underestimated.

“Don't panic. With senior golden lamp there, I think nothing will happen.” Grenade-throwing senior immortal was calm and at ease, up until now, the master behind Emperor City hadn't made a move. Instead, he had released these dangerous creatures to take the lead, which couldn't help but make grenade-throwing senior immortal feel the hidden danger.

“We can't just take a defensive stance. Are there any brothers willing to go with me to that castle to take a look?” Grenade-throwing senior immortal said after thinking for a long time.

“I agree with Senior Immortal.” At that moment, loopy toad took the initiative to take a step forward.

“Then senior immortal and this elder Toad will go to the castle. Mr. Ming and I will assist from a distance.” As Xiang Yi spoke, he stroked the nine Yang divine sword that had just been assembled.

“Have you already chosen a sniping location?” Wang Ming looked at Xiang Yi and asked.

“There's no need to choose, just here will do.”

“But shouldn't snipers choose the best angle to shoot from?”

“That’s true in theory, but I don’t use nine Yang divine sword; not only can I see through and aim at myself, but my bullets can also turn.”

”? ? ?”

..

On the other side, as the huge cube landed at dicas’ mansion, a human-shaped monster with long black fur and whose face couldn’t be seen slowly stepped out of the containment device.

It was almost an instinctive reaction, and Odd Zhuo immediately shielded Liangzi nine temples behind him.

He had wanted to tell Liangzi the truth, but hadn’t expected that danger would descend again at this critical juncture.

“Liangzi, I’m sorry. Let us settle everything first, okay? I’ll tell you everything from now on,” Odd Zhuo said.

Liangzi Jiugong’s expression didn’t change when she heard this, but at least it was much gentler than before, because Odd Zhuo had instinctively protected her behind him.

In terms of boyfriend strength, this was an extra point.

It was just that out of hostility toward Qin Zong, Liangzi Jiugong’s expression still didn’t seem to have changed much.

Of course, Qin Zong could actually tell that Liangzi Jiugong had misunderstood him, but this wasn’t the time to explain things.

Wang Mingdu’s voice rang out in his mind almost simultaneously with 1212’s landing, and Odd Zhuo and the others immediately understood what was happening.

“Looks like it’s still coming for me.” Lotus sun sighed. From the intelligence information Wang Ming had shared, this host was clearly not easy to deal with, and was a very troublesome type.

At that moment, in the fog, 1212's huge body outlined a huge shadow, and it exuded an unusually dangerous aura.

"Leave it to me, Liangzi..."odd zhuo gritted his teeth and walked up with his plan in hand.

"Brother Zhuo, be careful,"Qin Zong reminded him from the side.

In the end, a reminder that no one had expected exploded in Liangzi Jiu Gong's mind.

She had just calmed down a little, but Qin Zong had provoked her again. She stomped her feet in anger and yelled at Qin Zong, "You... you pervert who likes men! I... I've tolerated you for a long time!"

Qin Zong:"?"

As soon as she said that, nine temples Liangzi took two steps forward and tried to give Qin Zong a slap.

"Sister-in-law, calm down... Brother Qin is not what you think..."

This situation caused Zhou Ziyi to react quickly. The Peacemaker's personality made him instinctively want to step forward to stop him. In the end, nine temples Liangzi's slap just happened to land on Zhou Ziyi's back.

After that, there was no after.

As the effect of nine temples Liangzi's light had yet to end, the power of this slap was extremely fierce. It actually became a huge boost on the spot.

Boom!

The tight slap on Zhou Ziyi's back caused Zhou Ziyi to instantly transform into an advanced humanoid missile!

Then!

He turned into a ray of light and shot out!

He shot out with the indestructible physical strength of his Michelin tire-like five long Johns set..

He crashed into the body of 1212 in the front of the smoke..

Chapter 1675 1671, Zhou Ziyi, Meritorious Service! (1/92)

The development of the situation had exceeded everyone's expectations, or rather, the effect of nine temples Liangzi's slap had exceeded everyone's expectations.

Due to the effects of the golden lamp monk's "Light-opening technique", nine temples Liangzi's various attributes had exceeded his own realm. It could be said that he had advanced to a higher level.

This slap was the blessing of the most holy of Buddhists, and it was extremely powerful! It was enough to physically transcend everyone below the ancestor realm!

However, when this slap landed on Zhou Ziyi, who was wearing a five-layered long Johns set.

This directly produced a very magical scientific and physical reaction.

That was -- the effects of the force were mutual!

When this explosive slap landed on Zhou Ziyi's back, due to the "Effect of the force is mutual", the backlash force released by the Long Johns quickly landed on Yoshiko nine temples's slap.

However, due to the 'mutual effect of force', when the backlash force landed on the body of the slap, it once again produced a new backlash force.

Then, because the 'mutual effect of force', the new backlash force transmitted from Liangzi Jiu's body once again landed on the long Johns set..

It repeated itself over and over again.

Just as Liangzi Jiu came into contact with Zhou Ziyi in a short period of time, due to the mutual effect of force, the backlash force repeatedly jumped back and forth, directly forming an explosive propulsion force!

It made Zhou Ziyi appear out of thin air at that moment..

It made him turn into light!

In an instant, Zhou Ziyi shot out and hit 1212's abdomen on the spot, pushing forward with a destructive force!

At the moment of impact, 1212's soul shook violently. Although its reaction was already very fast, almost at the same time Zhou Ziyi's hammer came up, it reached out its hand to try to resist Zhou Ziyi's attack.

However, it did not expect that a foundation establishment stage cultivator would have such a powerful destructive force!

His two arms melted on the spot as soon as they came into contact. Zhou Ziyi's entire body was surging with the backlash of the Long Johns, the Scarlet Red Backlash, and the Buddhist holy light that was produced under the influence of the light opening spell, these two forces did not cancel each other out. Instead, they became stronger and stronger under the influence of each other.

An unexpected moment caused 1212 to lose his right and left arms in an instant. The Holy Buddhist holy light was like two bundles of whips, drilling into his body through the wound the moment 1212's arms broke down.

This destructive power and lethality could no longer be stopped.

1212 gritted his teeth. He did not expect to be targeted right after he was resurrected.

He definitely could not keep his life.

Therefore, he could only think of a way to make Zhou Ziyi stop while he was still alive.

Damn it..

This group of damn cultivators must die!

As the representative of the “Old faction” among the indescribable creatures, 1212’s hatred for everyone reached its limit at this moment.

It swore in its heart that it would kill this group of human bastards in the cruelest way possible.

It wanted this group of people to live and endure the greatest pain. It wanted them to see their stomachs being cut open, their guts being torn apart bit by bit, and then it would eat them until there was nothing left!

At the end of its life, 1212 used the power of its hatred to detonate itself. It used the huge impact of the explosion to force Zhou Ziyi to stop his “Human missile” action.

As for Zhou Ziyi, he had been reduced to pieces.

However, 1212 did not die just like that.

It had at least 1,206,000 lives!

Not to mention being blasted into pieces, even if he was blown into ashes, he could still be quickly resurrected.

The body that shot out finally stopped. Zhou Ziyi rubbed his head. He had no idea what had happened. He only felt that he had shifted a very long distance after receiving a slap from Yoshiko nine temples..

When his body finally stopped, apart from a little smoke from the huge air friction, he was completely unscathed.

A team led by Odd Zhuo and Lotus Sun quickly arrived later.

Seeing that 1212 had been turned into cannon fodder by Zhou Ziyi as soon as he had appeared, Odd Zhuo was so happy that he couldn't close his mouth. "Well done, Little Yi! You've done a great job! Well Done!"

The reason Odd Zhuo had brought Zhou Ziyi to the illusory realm was to help him make a contribution, but he hadn't expected that his wish would come true so soon.

Zhou Ziyi was clearly still in a daze and had no idea what had happened.

Liangzi Jiugong had an apologetic look on her face. Given her usual temper, she definitely wasn't someone who would apologize right away; she would definitely use that indirect way to express her apology.

But just now, she realized that she had really been wrong.

"Ziyi, I'm sorry. I didn't mean to hit you," Liangzi nine temples said with a bow.

"It's okay, sister-in-law." Zhou Ziyi rubbed his head, he smiled wryly. "Oh, right, sister-in-law, what I want to say is that brother Qin Zong and brother Odd Zhuo really have nothing to do with each other... besides, brother Qin Zong has a wife."

Zhou Ziyi had actually found out about this by chance while chatting with Qin Zong not long ago.

"..."

When he said this, nine temples Liangzi's face instantly turned red, and she wished she could dig a hole and bury herself in it.

Oh My God..

What had she done.

She had actually suspected that Qin Zong was a pervert who liked men..

“I’m sorry, it was my fault.”Nine temples Liangzi turned around and apologized to Qin Zong again.

He was too ashamed.

“It’s okay, it’s just a misunderstanding.”Qin Zong revealed his trademark smile.

In fact, he was not angry at Yoshiko nine temples’ misunderstanding at all. Instead, he felt that this feeling of jealousy was a little cute.

Young girls in love were probably the same. They always liked to think about random things, but thinking about it would cause problems.

But now, it was obviously not the time to think about random things.

Because 1212 was still alive.

And right in front of them, he had completed the reorganization.

It was also at this time that everyone saw 1212’s appearance clearly.

It was a strange humanoid creature with mantis hands. Its head only had a bloody mouth full of sharp teeth. Just looking at it gave people a terrifying feeling.

“According to the information provided by Mr. Ming, 1212 must be killed 1,260,000 times. I’m afraid it won’t be that easy,”Zhou Ziyi said at this time.

“That may not be the case. Although most of the nameless creatures have the ability to resurrect, as long as they don’t want to resurrect and stop the idea of continuing to resurrect, they don’t necessarily have to kill 1,260,000 times.”At this time.., monk golden lamp smiled and stepped forward. “I do have a plan.”

“Senior golden lamp, what’s your plan?”Lotus Sun was curious.

“It’s just a plan I just thought of. As long as it can make this young benefactor voluntarily give up on the idea of reviving.” Monk Golden Lamp revealed a kind smile, he felt that his plan had a very high success rate. He might be able to make 1212 voluntarily give up on the idea of reviving.

“Despicable humans... I’m going to kill all of you!”

At this time, 1212 had finished reassembling himself. Disgusting mucus was released from his bloody mouth.

However, the golden lamp was even faster.

He quickly arrived behind 1212 and patted the ground behind him. A solid earth wall was instantly constructed behind 1212. Along with the light-switching technique, the golden lamp also opened the light on the wall.

“Everyone, have you played table tennis before?” The golden lamp asked.

Everyone:”?”

At this time, the golden lamp didn’t say anything. He took a step forward and lightly patted Zhou Ziyi’s back. Then, Zhou Ziyi once again turned into a beam of light and shot out.

And so, a miraculous scene happened in front of everyone’s eyes.

1212 stood in front of the wall that had been lit up and turned into a human pillar.

Zhou Ziyi was sent out by the golden lamp monk with a palm strike, shattering 1212.

Before 1212 could finish cursing, he was already planned.

Then, Zhou Ziyi bounced back from the wall behind 1212 and was sent out again, shattering 1212 after being resurrected..

Palm after palm, the cycle repeated again and again.

It was like a ping-pong fixed-point strike training..

When it reached the 1,600 th round.

1212 completely fell into despair and gave up the thought of resurrection.

It was instantly killed as soon as it was resurrected. It did not want to continue this life without any gaming experience..

1212, it went very peacefully..

Chapter 1676 1672, Tool User Zhou Ziyi (1/92)

In the endless cycle of resurrection and instant death, 1212 finally gave up on the idea of survival and chose to manually delete his account.

When Zhou Ziyi's last wave dispersed 1212, golden lamp stopped what he was doing after confirming that there was no possibility of the meat paste 1212 had transformed into being resurrected again.

"I-is it solved..."Zhou Ziyi looked at the scene in front of him in disbelief. During the time he was being used by monk Golden Lamp, although he kept bouncing back and forth, to be honest., he didn't feel uncomfortable at all. Instead, he felt a sense of comfort from being massaged all over.

This period of time seemed to be very long, but also very short.

When he came back to his senses, 1212 was already unable to rise again.

"Almsgiver Zhou, your merit is boundless."The Golden Lantern Monk put his palms together in a Buddhist salute and praised him to his face.

"Ziyi, you've worked hard! You should take the credit for this!"Odd Zhuo was so happy that he couldn't close his mouth.

Because in this way, 1212 had truly been killed by Zhou Ziyi, and no one could get in the way to steal his head.

On the other hand, Zhou Ziyi had a guilty look on his face. He rubbed his head, completely clueless as to what had happened, and could only marvel in his heart at the powerful defensive capabilities of these long Johns

Odd Zhuo didn't lie to him; these long Johns were really very strong! And they were ridiculously strong!

But Zhou Ziyi felt that something was a little strange..

"Brother Zhuo told me to put on these long Johns before he brought me here. He said that he wanted to protect my safety..." Zhou Ziyi muttered in his heart, the more he thought about it, the more he felt that Odd Zhuo's goal was probably not as simple as protecting his safety. Why did it look like he had deliberately arranged for him to pick up scraps?

For a moment, Zhou Ziyi became a little flustered.

It couldn't be said that his calculations weren't accurate. It was almost all part of Odd Zhuo's plan, and it made Zhou Ziyi feel that Odd Zhuo was particularly familiar with this aspect.

As Zhou Ziyi's imagination ran wild, hot steam suddenly emitted from his body. First, it seeped out from all the pores on his body, and then gushed out from the top of his head, it was like a human-shaped chimney.

"This is..." Zhou Ziyi was stunned.

"When spiritual energy has been accumulated to a certain extent, it will be released from the top of the skull to complete the breakthrough. This is a sign of advancement. Congratulations, Ziyi." Qin Zong understood what had happened at a glance.

Zhou Ziyi was horrified again. "I... I Advanced?"

"Yes, if my judgment is correct, it should be the peak of the late foundation establishment stage."

"..." Zhou Ziyi's mouth was wide open, and he looked dumbstruck.

God damn it..

He could advance this way!

Seeing Zhou Ziyi successfully advance like this, Odd Zhuo was even happier. “Ziyi! You’re too outstanding!”

Zhou Ziyi:”...”

All this time, Odd Zhuo had actually been looking for the next logical successor to the “Skimmer King.”

Now, it looked like Zhou Ziyi indeed had the ability to inherit his mantle.

Not only had he gotten rid of a troublesome creature during this experiential learning trip, he had also unexpectedly advanced to a new level.

Peak Late Foundation establishment.

At Zhou Ziyi’s age, this level was enough to be considered a genius!

Zhou Ziyi’s next step was the golden core stage.

Before entering university, very few cultivators could directly break through to the golden core stage.

This once again proved Zhou Ziyi’s excellent talent in cultivation.

At least in Odd Zhuo’s opinion, Zhou Ziyi was much stronger than he had been back then.

On the other side, when 1212’s vital information had completely disappeared, Wei, who had been sitting upright, finally had a drastic change in expression.

He had never expected that one of the two creatures he had sent out to receive him would be instantly killed!

1212! This was the most brutal one among the newly recruited creatures!

Moreover, he had unlimited resurrection abilities..

He actually died just like that?

Wei felt that the situation was somewhat unreal.

“Where’s 096! What’s 096 doing?”He slapped the table, unable to contain his anger.

The spherical guard then used the surveillance flying bug that was hovering around the castle to transmit the image he saw.

At this moment, 096... was being ridden by a baby. His face was slightly flushed, and his snow-white rabbit fur was quivering as he ran down the street. He was so happy that he was like a lotus flower..

When the smell saw this scene, he almost vomited three liters of blood.

He had released two creatures to receive him.

One was instantly killed, and the other was used as a mount

Wasn’t this just one giving people experience and another giving them equipment?

“Where did this brat come from?”The taste of Wang Nuan’s sudden appearance was unbelievable.

This was just a baby girl who looked less than a year old. How could she subdue 096 so easily?

“Find out which family this child belongs to!”

“Reporting to my Lord, the baby girl’s database doesn’t have any data on her identity. She is suspected to be an illegal tenant.”

”?”These words gave that smelly brain a heavy blow.

Illegal tenant?

A child... smuggled in from the slums?

Although he couldn’t be bothered to take a look at the slums, the identity census was still in place. Everyone was recorded in the records. It was unlikely that someone would sneak in from the slums.

Then, the only possibility was that someone might have infiltrated the illusory realm and brought the baby girl in.

”...”although that odor felt that this was inconceivable, he couldn’t completely rule out this possibility.

As his body trembled violently, a boundless hatred came one after another. That odor originally wanted to teach “Mr. Gong” a lesson, but he didn’t expect that he had underestimated the ferocity of this group of people.

Although he still hadn’t completely given up on the “Ultimate version of the new ancient divine weapon plan,” the successive failures had finally caused that odor to become a little intoxicated.

This was his master and his imperial city!

In his territory, he had always been the only one who bullied others. It was impossible for others to bully him like that!

“Pass down my orders! Increase your strength! Destroy this group of people!” Seeing that the illusory realm might have been invaded by foreign enemies, under such changes, that odor could no longer sit back and do nothing,

thus, he decided to carry out the following three plans..

“What does Sir Plan to do?”

“In the core area, liberate all the creatures in the scb001-010 region!”

“Also, dispatch the 10,000 neo-ancient divine weapons that can be mobilized to completely search for usable elements!”

At this point, that person also stood up. “Also, I’ve decided to take action personally...”

In order to ensure that there was no infiltration outside of the illusory realm, he had no choice but to do this.

Shouchong’s brain had already been harvested.

The Divine Brain of elder heartless, which was made from Shouchong’s brain cells, had also been completed.

Now, he only needed to combine that divine brain with his own brain.

He would become the most intelligent existence in this world... No! Even in the universe! A perfect dimension-reducing blow!

Chapter 1677 1673, The Most Exciting Thing In Life (1/92)

It was as if he had slept for a very long time. When shouchong regained consciousness, he felt that his soul had left his body.

A somewhat familiar human brain was immersed in the turquoise spiritual liquid, connecting to an unknown body through a catheter.

After an intense mental pain, he felt that his soul was floating, as if it was attracted by something. When he came back to his senses, he was already imprisoned on an electric chair in the pitch-black space.

“This is... The Wisdom World?”

As Shou Chong, who had once been selected as an intelligent youth, he understood what this place was at a glance.

The world of wisdom was a special spiritual domain that only the most intelligent people possessed. It was a place forged by the Niwan Palace, which usually gathered spiritual power, those who were slightly stronger could temper their Niwan Palace into a memory palace or other derivative space.

And the highest realm was the world of wisdom.

It was an existence that encompassed all the Niwan Palace’s advanced spaces!

In theory, people who possessed the world of wisdom could use the brainwaves emitted from their brains to do anything through the power of spiritual transmission.

But Shouchong never thought that his brain would one day be used by others to merge and become a subordinate of others..

Now, he was imprisoned in the wisdom world.

If this situation was explained in a similar academic language in the cultivation world, it was actually a different kind of possession.

“Possession?”

At this time, in the boundless darkness of the wisdom world, the owner of this body transmitted an ethereal voice, the words fell clearly into Shouchong’s ears. “Shouchong, you’d better not make a mistake. I’m just taking back something that belongs to me for my master.”

“Your master?” Shouchong frowned.

When his spirit was wandering, he had seen the owner of this body with his own eyes.

In his limited memories, he did not seem to have a grudge with this person.

However, to that odor, everything seemed to be less important. In his eyes, Shou Chong was only a tool used to revive the divine brain. Although the Divine Brain had not been completely constructed, it was only about 70% activated.

However, that odor still felt that with his current spiritual power, he could become an omnipotent existence.

No one would have thought that the brain of the universe's number one sage, forefather heartless, would be inherited by him, the only true disciple, in such a way.

That odor sneered.

He held a metal cane in his hand and wore a blood-red cloak as he walked out of the palace step by step.

He had no intention of explaining anything to Shouchong.

Because once the divine brain was activated to 100% , it meant that Shouchong's brain would completely fuse with his. At that time, Shouchong's personality would be completely destroyed, thus, it would be a matter of a snap of the fingers for him to keep his own.

To completely eliminate the foreign enemies was the most important task for Shouchong.

..

Outside the castle, when the huge ten cubes were transmitted to different locations in the core area at the same time, the powerful oppression brought by these unknown creatures immediately radiated the entire majestic imperial city below.

Inside the astrology club, Xiang Yi was lying on the ground. Using the scope, he could clearly see the serial number of these storage devices. "It's No. 001-010..."

Although Xiang Yi had gone to the storage area below the castle to test it a few times, he did not have the time to thoroughly investigate it,

because there were too many storage devices, there were nearly ten thousand of them.

And most of the creatures in the region 010-010 were kept in the depths.

There was no way to know the specific information. The only trouble was that they did not know what strange abilities these creatures had.

However, using 096 as the standard, the average strength of these creatures was at the peak of the Dao God realm. The strongest one was only at the Dao ancestor realm who had just entered the ancestor realm.

“There’s nothing we can do.”

At this moment, Xiang Yi sighed slightly and focused his gaze on the scope.

He and Wang Ming said in unison, “We have no choice but to kill them all.”

After saying this, Wang Ming and Xiang Yi looked at each other and smiled.

Great Minds think alike; this was more or less the case.

“This is the first time Mr. Ming and I have met. How did Mr. Ming know that I had the ability to kill them all?” Xiang Yi smiled bitterly.

“It’s the first time, that’s right. “But I’m actually very confident in brother Xiang’s strength.” Wang Ming also smiled. “In addition, my brother was also there, and Lord Wei in the castle probably didn’t expect that he was holding a one-on-one match and jumping around in front of Wang Xiu.”

”...”

Wang Ming’s words made so much sense that Xiang Yi couldn’t refute them for a moment.

To be honest, he felt that Wang Ming wasn't wrong at all..

After all, with Wang Ling here, even if the sky fell, there would still be someone to hold it up.

At this thought, he looked at his "3.2 billion light-year crosshairs" and became abnormally excited, his fair face instantly turning red.

"Are you that happy?" Wang Ming smiled.

"Of course!" Xiang Yi said excitedly. "You don't have to worry if you know Ling Zhenren is backing you up. If I can steal one or two more heads from Ling Zhenren, I Can Brag about it for the rest of my life!"

Wang Ming:"..."

That's right..

Except for those who knew Wang Ling well.

No one knew how exciting it was to be able to steal a head from Wang Ling.

In fact, Xiang Yi wasn't the only one who had this thought..

..

Before the ten containment cubes were unsealed in front of everyone's eyes, Odd Zhuo and Liangzi finally explained their relationship with Wang Ling all this time.

Because of the huge amount of information, Liangzi was still digesting it. "This... this... you mean that classmate Wang Ling isn't your disciple at all, but... Your Master?"

"Yes." Odd Zhuo nodded. "Liangzi, I've been very sorry all this time... I didn't mean to lie to you; I actually wanted to say it back then... but I still have to get my master's permission on this matter."

In that instant, Liangzi nine temples instantly understood.

The “Truth” she had been searching for all these years had also come to an end at this moment.

Because according to the timeline, the ten-year-old youth that the sun ghost had seen back then should have been Wang Ling..

All the indecipherable points were connected at this moment.

“Liangzi, don’t blame senior Odd Zhuo. I was the one who asked him to keep it a secret back then. After all, the fewer people who know about classmate Wang Ling, the better,” Lotus Sun said.

In fact, she had already made a plan.

If Liangzi nine temples really couldn’t accept Odd Zhuo’s question of hiding it, she would go all out... she would use ao Hai’s sword Qi to manually erase Liangzi nine temples’ memory..

Although this kind of behavior smacked of a plastic sisterhood, at least it wouldn’t destroy their relationship.

In the end, Liangzi nine temples’ reaction was much better than she had imagined.

Even though it seemed like it had taken him a long time to digest this matter, he had at least accepted it.

On the other hand, Zhou Ziyi and Qin Zong had indeed lowered their heads when they heard this, looking pensive..

Lotus Sun knew that she would have to give an explanation after this.

But for now, it was more important to deal with Liangzi Jiugong’s side.

Fortunately, she saw that nine temples Liangzi wasn't angry. Instead, like Zhai Yin back then, she was very curious about Wang Ling's true strength.

Nine temples liangzi: "Then... how strong is student Wang Ling exactly? Nascent soul? Soul Formation? Or..."

At that moment, monk golden lamp suddenly stood up and said, "Miss Liangzi, have you seen those containment devices in the sky? You've just experienced the strength of those containment devices, haven't you?"

"With senior Golden Lamp's strength, I think he should be able to instantly kill one of them," said nine temples Liangzi.

"Yes." Golden lamp nodded. "If this little monk were to go all out, I would indeed be able to kill one with a palm strike. However, Ling Zhenren is different."

Nine temples liangzi: "What's the difference?"

Golden lamp: "He is, one palm strike, one hundred million."

Nine Temples Liangzi: "???"

Chapter 1678 1,674: A Hundred Million Men In One Palm (1/92)

When the Unknown Creature 001-010 was standing in the void, that powerful aura was also released randomly, sweeping across the entire place. Their containment devices were so destructive in the air, that ancient light seemed to have lasted from the ancient times until now, and had a sense of eternity.

Everyone in the imperial city was shocked by this scene. Those nobles fought with each other, trying to escape from the core area. However, at this moment, their legs froze. Each and every one of them was shocked by these cube creatures.

The fear that originated from the spirit made every Aborigine in the imperial city feel timid, shivering, and at a loss.

"What... What's going on?"

“Why did it suddenly turn out like this? Is this a natural disaster? What exactly are these cubes?”

Everyone was stunned. Even the most powerful nobles in the imperial city didn't understand what was happening.

In the void, the ten containment cubes burst out with brilliant light. After the continuous light, as the cubes gradually opened up, a desolate aura immediately rushed over.

For a moment, the aborigines in the Emperor City saw the same illusion. They saw a large amount of blood spurting out of the cubes like a waterfall, it brought with it an extreme murderous aura that attacked everything in front of them.

Rubbing their eyes, this bloody sea of murderous illusion disappeared in an instant. What followed was a series of explosions that sounded like the roar of the Great Dao!

Ten humanoid monsters of various shapes and sizes emerged from their cubes, bared their fangs and brandished their claws!

But completely different from the previous 1212 and 096, these nameless creatures looked as if they had been controlled. They stood obediently in their original positions and didn't make any big movements.

Wang Ling's mind was calm. Through his king's eye, he swept his gaze over and saw the spirit threads connected to the heads of these ten creatures.

It was just as he had thought -- someone was manipulating these ten creatures.

To be able to control ten unnamable creatures at the same time, Wang Ling felt that this person was quite fierce.

But that wasn't too bad.

The situation in front of him could be controlled.

“The creatures of the old school?” At this moment, Wang Ling stared at these creatures, his calm gaze seemingly able to see through ancient times. A while ago, he had fought with the tomb god, who claimed to have inherited the bloodline of the old overseer, he hadn’t expected to bump into it again.

He still had that strange pupil in his hand, although he couldn’t find any connection with the king’s pupil at the moment, however, Wang Ling firmly believed that the pupil might be able to think of other ways for him to perfectly suppress his power.

Clearly, now wasn’t the time to test it out. There were too many innocent people in Emperor City, and in the end, he had to move these ten creatures to another place.

Thus, the moment Wang Ling opened his king’s eye, the three-petaled golden lotus in it suddenly bloomed.

A golden vortex appeared in the sky, which gradually expanded from the size of a coin to the size of a vast lake. Then, it swept out in all directions and spread out, giving rise to countless golden vines.

“What I see is... a city?” Below, the people in Emperor City were dazzled by the Divine Pond, and their explanations were horrified by this miraculous scene.

Above them, a vast group of buildings appeared, and the ancient buildings with tall watchtowers shone brightly, exuding boundless divinity that covered the entire sky.

This was a heavenly city! It was as tall as the sky, and it was another ability that Wang Ling had never shown before!

-- Heavenly King’s Eye!

The “Heavenly World” formed by the King’s Eye’s enormous ability, it was superior to the ‘Supreme World’, ‘core world’, ‘Intrinsic Spirit Field’, and the supreme space above all worlds of all sizes..

Falling into someone else’s space meant that the ruler of space could control you.

The ruler was a god-like existence.

But in fact, there was a limit.

If the other party had a greater spatial ability than the ruler of space, they could reverse it and directly annex the space! Not only could they reverse the two poles, but they could even absorb the other party's space for their own use!

This meant that as long as Wang Ling wanted to...

When he had been in the Grave God's supreme world back then, he had been able to completely eat the grave God's supreme world.

But that world had been stained with too much blood.

Wang Ling was worried that his heavenly world would hurt his eyes after eating the supreme world, so in the end, he didn't make a move.

"This is... the city of the heavens?" Xiang Yi could see everything clearly with his 3.2 billion light-year scope, and he couldn't help muttering in a low voice.

This was really outrageous. Just like that, a golden city of the heavens, which no one could see the end of, appeared in front of everyone. All the buildings inside were covered in magical light, and every brick and stone was engraved with powerful law imprints.

It wasn't just a main road!

The powers of various main roads intersected on top of each other and then spread out!

That indescribable sense of grandeur and grandeur struck everyone's heart, making their hearts palpitate with fear.

In the imperial city, everyone who saw this scene was dumbfounded.

Including the smell of leading the team to search the entire city for suspicious individuals, everyone stood rooted to the ground at this moment.

He had clearly fused with the divine brain, and had already activated it to 70% , but he still couldn't stop trembling..

This huge heavenly city had an unimaginable sense of oppression. Just by being connected there, it almost made people want to kneel down and worship it.

Even monk Jin Deng was completely stunned.

With one look, he knew that this trick must have come from Wang Ling's arm, so he naturally couldn't help sighing. "Heavenly City... Ling Zhenren is the only true God in the world!"

Even golden lamp let out such a sigh, and Lotus Sun and Liangzi Jiugongzi's faces naturally paled.

In addition, Zhou Ziyi and Qin Zong were naturally the ones who had suffered the blow.

When Odd Zhuo had laid his cards on the table to Liangzi Jiugongzi earlier, Zhou Ziyi had only just found out that Wang Ling was Odd Zhuo's master.

He thought it was a joke.

In fact, it felt a little surreal.

How could the mighty hero of the world, the delicate Chu Zhuo of the cultivation world who had obstructed the sky-swallowing toad back then, be the junior of a foundation establishment student

And now, with the appearance of Zhutian City, Zhou Ziyi realized that he was too young!

Then he understood everything.

No Wonder Odd Zhuo was so eager for him to contribute to this operation. At first, he had thought that this was Odd Zhuo's test for him, but in fact, this was basically an application to join his sect.

If he could become Odd Zhuo's disciple and Wang Ling's grand-disciple... he would truly take off on the spot!

It wouldn't matter even if he lost two legs in the past decade or so.

In the next few years, he may even grow up faster than others!

Of course, for those who were most affected by this scene,

At this moment, Qin Zong is the best..

He had heard so much about Wang Ling from Gu Shunzhi.

But I never thought that I would actually fall into Wang Ling's world line.

Qin Zong would never have expected it.

The man he worships at his altar all year round.

Now flesh and blood appeared in front of him!

With those familiar dead fish eyes and the faint sound of breathing... Alive!

Chapter 1679 1,675, Thrashing (1/92)

Qin Zong had always admired Wang Ling from head to toe. He had never seen Wang Ling in person, but had heard a lot of legends about him from Gu Shunzhi.

Now that he had actually seen him in person, his emotions were actually very complicated. There was a mixture of excitement, disbelief, and the urge to laugh out loud.

Perhaps he should have thought of it long ago. When grenade-throwing senior immortal said the name "Senior GU" in that little tavern called excellent era, he should have realized which world line he had fallen into.

For Qin Zong, seeing Wang Ling was actually a powerful sedative, because it meant that he didn't have to worry about not being able to return to his original world.

After all, the Great Ling Zhenren was omnipotent!

These ten hosts were all controlled by that smell under the control of the Divine Brain, but the truth was that no matter how much mind power that smell used to control them, it couldn't control their bodies in the slightest.

From 001 to 010, when the ten most powerful and indescribable creatures appeared in the vast and boundless golden heavenly city, which was filled with the epic of the vast sea, it was as if they had fallen into a petrified state and were completely motionless.

In the world of heavens, ten thousand spells were extinguished.

In the face of this overwhelming power, no creature was strong enough to contend with Wang Ling. Countless golden vines hung down from the Golden City of heavens and aimed at the host creatures at an extremely slow speed, but at an incredible speed, they instantly bound all the host creatures and pulled them into the world of heavens.

When Wang Ling opened his eyes again, the world in the sky had already turned upside down. He was standing on a golden city, and every brick under his feet was transformed from a Supreme Great Dao.

In front of him were ten host creatures that seemed to have just reacted.

In just an instant, after Wang Ling's eye power had been withdrawn.

In just a breath, the ten powerful host creatures had been absorbed into the heavenly world of the King's eye.

“Roar!”

Number 001 struck the ground with his hammer and let out a strange cry. He had six iron arms, and the moment Xiao Shan's fist touched the ground of the heavenly world, it was hit by the power of the Great Dao on the ground, and it rolled on the ground as if it had been electrocuted.

Wang Ling hadn't made a move, and hadn't even used the divine power of the heavenly world to crush it. Because of this simple strike, number 001's creatures had fallen into a life-threatening situation.

However, number 001's miserable state didn't cause the other hosts to feel any fear. Most of these nameless creatures had self-healing abilities, so they would generally turn a blind eye to the injuries on their bodies.

On the contrary, when they saw number 001 get injured, they actually pounced on him one by one and began to dismember him inhumanely.

In just a short while, 001 had been reduced to a pile of bones.

Then, the other nine host creatures instantly became even more powerful. From their aura to their body size, they received a brand new boost.

Wang Ling had actually never thought that the host creatures would actually have this ability. They were so brutal that they would devour his "Companions" to activate his new power.

However, this power was still not enough for Wang Ling. No matter how these host creatures devoured and grew, they wouldn't be able to change the situation in front of him.

He stretched out his index finger and pointed at 002 in front of him

Boom!

Golden Light shot up into the sky, and 002 exploded on the spot, disintegrating into pieces.

Then, the pieces of meat that had been blown up in all directions turned into worm-like strips of meat that reassembled in all directions.

Were they not affected by the serious injury effect.

Wang Ling was a little surprised.

Because in the past... There was almost no possibility of reassembling and healing the creatures he had beaten up.

But perhaps because of their different physiques, these creatures were completely unaffected by the serious injury effect.

Thus, Wang Ling, who had originally thought that fighting was a little boring, became a little more spirited.

This meant that he could try out some other spells that he had never used before..

Normally, he wouldn't have had the chance to experiment at all.

..

On the other side, as Wang Ling and the ten great host creatures entered the world of the heavens, the overwhelming sense of oppression also dissipated in Emperor City.

He didn't know what exactly was going on, but after Wang Ling left, he suddenly felt that he could do it again.

"Listen to my command, clear them out immediately!" He used his divine brain to connect with the wills of tens of thousands of neo-ancient divine weapons, and began to control these neo-ancient divine weapons in a square formation. He also immediately locked onto a target!

It was Wang Nuan, who was riding 096 around.

He was certain that this foreign baby girl must be in contact with other outsiders, so he decided to attack her. In this way, he might be able to attract other outsiders.

After all, she was just a baby.

Even though he seemed to be playing well with 096, 096 was willing to be her mount for some reason and did not attack her.

However, 096 was just a host after all. How could he be a match for his thirty thousand completed neo-ancient divine weapons?

When that smell gave the order, the nearest neo-ancient divine weapons formation quickly surrounded Wang Nuan along the street.

There were more than a Hundred Dao God level neo-ancient divine weapons.

This made 096 feel a little nervous.

Wang Nuan grabbed 096's rabbit ears, her face expressionless.

Xiang Yi, on the other hand, looked through his high-powered scope and was extremely worried. "Mr. Ming, this girl is surrounded..."

"Don't worry, It's okay." Wang Ming was calm.

Sure enough, not long after Wang Ming finished speaking, a familiar emerald-green light was emitted from Wang Nuan's body.

Because of the huge difference in the number of people, the Sword Spirit's Savior contract was once again triggered.

Thus, Leng Ming was summoned here from the sword King Realm.

Although it had only been a few days since the last battle, Leng Ming's combat strength had undergone a completely different change every time he appeared on the battlefield. He had grown even more.

"The city Lord wants us to arrest her. If you don't want to die, move aside." Among the new ancient divine weapons, the person in charge of leading the team was a blonde, the appearance and hairstyle of these people were automatically created through the distribution of big data. Each of them had a different appearance.

“This is baffling. I’ll return this sentence to you,”Leng Ming said. He stood in front of Wang Nuan and floated slightly in the air. His agile training clothes fluttered even though there was no wind, showing his divinity.

The group of ancient divine weapons were stunned, but they quickly turned into anger.

Their hundred-plus divine-level auras stacked together and bombarded Leng Ming, trying to teach him a lesson.

However, Leng Ming did not even take a step back.

“I’ve already warned you, Don’t blame me for attacking.”Leng Ming snorted lightly. He opened his small palm, and a small green grass appeared in his palm.

“Little friend, are you trying to kill someone by taking this grass?”The golden-haired man and the troops behind him instantly laughed.

Leng Ming didn’t say anything else.

Boom!

He took out that small grass and streaked across the street!

His attack was so fast that it was inconceivable. This small grass instantly split the street into two, and actually opened up a bottomless abyss! Countless neo-ancient divine weapon troops were unable to react in time and fell into it on the spot.

After that, the fissure in the Abyss rapidly closed up in a state visible to the naked eye, allowing the streets to return to tranquility..

Because at that moment, Leng Ming recalled what Jingke had taught him.

Jingke had told him that destroying the environment was not right..

Thus, Leng Ming felt that he only needed to destroy and then repair it.

This was not considered going against his master's wishes..

Chapter 1680 1,676, Showy Style (1/92)

No one would have thought that the power of a single blade of grass could be so terrifying.

It was only a few inches long, but when it passed through, it emitted an incomparable divinity. It shone brilliantly, illuminating eternity.

It carried a terrifying sword intent that seemed to pass through the ages. It split the Earth under its feet into two and opened up a Chaos Abyss, burying all these new ancient divine weapons of the Dao God level into the chaos of the Abyss!

Then, the cracks on the ground merged. At the location where the cracks were formed, a long row of grass grew along the sword intent that had just been released.

In a short instant, one-tenth of the 30,000 dao God level neo-ancient divine weapons were killed by Leng Ming's grass on the spot!

This kind of deterrence could not be said to be small!

If it were not for the fact that there were other innocent people on the street, Leng Ming felt that he could make a bigger commotion. He might be able to clear the scene by himself.

He was only at the level of a Dao God. Now, with his ability, killing a dao god was like cutting vegetables. It was no problem at all.

This was the result of Jingke and Bai Qiao's special training every day and night.

Moreover, there was another benefit of helping Leng Ming, which was that he would learn from others.

Not only had Leng Ming improved, but Jingke and Bai Qiao had also improved compared to before.

This meant that once Jingke and Bai Qiao combined into Jingbai, the strength of jingbai would increase by more than one order of magnitude.

In the blink of an eye, he had lost 3,000 neo-ancient divine weapons.

When these spiritual links were severed from his divine brain, that Wei's divine brain immediately fell into a momentary standstill. The nerves in his brain that were connected to the neo-ancient divine weapons were instantly severed in large numbers, like fragile noodles.

At the same time, the pain caused by the spiritual backlash came one after another. However, this pain did not last for too long, and soon, Wei regained his senses.

When he regained his senses, the fury that followed immediately surged into his brain.

He was furious. He immediately stomped his feet, and his entire body soared into the air, soaring high up into the sky. In an instant, all the neo-ancient divine weapon formations moved at the same time, turning into streams of light that gathered from all directions, they actually wrapped around his body, limbs, and head to fuse together.

At this moment, an extremely powerful aura was continuously stacking up and converging on that smelly individual's body!

When a total of 27,000 neo-ancient divine weapons with Dao God Power finished assembling in the sky, an ancient god giant that was 600 feet tall also appeared in front of everyone!

The sky above his head and his feet stepping on the ground. With just a wave of his arm, he unleashed an endless amount of power!

An astonishing amount of energy was being released, instantly engulfing the entire illusory realm!

This was an automatic search through the divine brain, because that scent possessed the information of all the aborigines. If they knew the information of the Aborigines, they only needed to go through the elimination method.., and they would be able to pull out the "Ants" that had snuck into this world.

"I will kill all of you!"

The ancient god Giant, which had been formed with that Smell's divine brain at its core, pressed its mountain-like palms together and formed a seal, grenade-throwing Senior Immortal, loopy toad, Xiang Yi, Qin Zong, nine temples Liangzi, and the others were all sucked into its supreme world.

This supreme world, which had been built in the center of the giant stone array, was filled with large, irregular-shaped stones. They were piled together and densely covered with obscure, chaotic magic patterns, which made it feel dizzy just by looking at them with the naked eye.

"Why did you suddenly come here?" Grenade-throwing senior immortal and loopy toad were astonished.

They had originally planned to directly destroy the nest that housed the creatures, but hadn't expected to be brought into the supreme world by that smell not long after they had gone in.

"Oh No... Mr. Ming is still outside!" Holding the nine Yang Divine Sword in his hand, Xiang Yi was extremely nervous.

"Ah!" At that moment, Ah Nuan lay on Leng Ming's back and cried out softly.

"What did Zhenren Nuan Say?" Xiang Yi was extremely puzzled.

This was baby talk; others might not understand it, but as a sword spirit, Leng Ming naturally understood it.

Thus, Leng Ming translated, "Ah Nuan said that she has already sent 096 to protect Mr. Ming, so there's no need to worry about him."

Hearing this, Xiang Yi gulped.

It could only be said that he was indeed a big shot..

He could actually predict that he would be sucked into the Supreme World in advance, and immediately contacted 096 to protect Wang Ming.

At this time, Xiang Yi just wanted to say to himself that he was still too young.

Sure enough, whether it was Ling Zhenren or Ling Zhenren's sister, they were both standard monsters, and monsters couldn't be measured by normal cultivator logic.

At this moment, in the supreme world, Na Wei originally thought that by doing this, he could increase his deterrent power.

However, in fact, it didn't seem to be what he thought.

These guys were clearly outsiders, and they had been sucked into his supreme world.

But what made Na Wei feel very strange was that this group of people didn't seem to be afraid at all. Not only were they not afraid, but they were even chatting..

"I didn't expect this guy to have such a trick, to actually be able to absorb and combine these new ancient divine weapons for his own use. "If we really let him carry out the plan to replace the entire illusory realm with new ancient divine weapons, I'm afraid his strength will be even more terrifying." Odd Zhuo said with a frown.

"Then what should we do next? If we can't defeat this big guy, I'm afraid we won't be able to break free from this supreme world either, right?" Lotus Sun asked. She held a 'hai in her hand and was eager to give it a try, feeling very relaxed and at ease.

After all, she had just laid her cards on the table with nine temples Liangzi, which meant that there was no need to be afraid now.

"This penniless monk suggests that it's better for Miss Rong to take action later. First, this penniless monk, little friend Xiang Yi, little friend Qin Zong, little friend Leng Ming, and Daoist Nuan will take the lead."

"Then, True Lord, Little Friend Loopy toad, Mr. Zhuo, and little friend Ziyi will take the second lead."

"In the end, Miss Rong and miss nine temples will finish up."

Lotus Sun and Liangzi nine temples:”...”

This plan indeed sounded flawless.

But why did it always sound like they had picked up a loophole? !

What made Lotus Sun even more horrified was that Zhou Ziyi could actually play the second round!

But when she thought about how Zhou Ziyi had been treated like a ping-pong ball earlier, Lotus Sun instantly felt relieved.

“Then we’ll do as senior Golden Lamp said.” At this moment., qin Zong couldn’t help but laugh. “This ancient god giant used some sort of method to reorganize his power. Although this supreme world is indeed a genuine supreme world, it’s also flashy and unreal. If we can defeat it, the power of the supreme world will be weakened bit by bit. “Senior golden lamp, this skill is very effective.”

Golden lamp waved his hand and quickly stretched out his palm. Golden Light was overflowing from his palm, and the golden light of the Vairocana gathered in his hand. “Then, everyone, let’s follow the agreed plan. In the first round, I’ll snipe the head.”

Xiang Yi quickly climbed down and began to adjust his nine Yang divine sword. “Then, I’ll focus on my left and right arms.”

Qin Zong nodded. “That’s great. Then the left and right legs belong to me.”

Wang Nuan: “Ya! Ya Ya Ya!”

Xiang Yi and Qin Zong:”?”

Leng Ming: “Nuan said that she’s going to attack the middle.”

At that moment, all the men in the field couldn’t help but tense up..

Only the smell made their scalps go numb.

This group of people..

In his supreme world, they were actually discussing how to attack him so calmly?

He is not giving any face at all! He is not showing any virtue!
