

Daily Life 1961

Chapter 1961 Natural Catalyst (1/92)

The restless sounds around the non-phase peak quickly attracted the attention of the sect master of the non-phase sect and his disciples.

The sect master's expression was obviously confused. There were clearly three days before the sect competition, so how could the script of the "Six major sects besieging the Radiant Summit" start now?

Moreover, they didn't even have the plot to launch a crusade against the non-phase peak!

"Sect master, what should we do now?" The disciples of the non-phase sect were all in suits and leather shoes, anxiously waiting for the situation of the sect master of the non-phase sect. They didn't have the bearing of an elite cultivator at all, they were still actors, and they would act according to the script. Of course, they would occasionally encounter unexpected situations, so they could adapt to the situation.

But who would have thought that the situation in front of them would be besieged? Within the twenty-one peaks, including the No. 2 training ground, other than their non-phase peak, the other twenty peaks actually formed an alliance in a short period of time and attacked them.

Although their non-phase peak was the first peak, and the overall strength of all the disciples in the sect was also the strongest, not only that, this absolute genius Qu shuling from the rookie elite also joined their non-phase peak, however, it was hard to say whether they would be able to withstand such a flood and fierce beast-like formation.

"Why did they suddenly gather?"

Li Changzhe and Zhang Linyan witnessed this scene. The two people, who had always thought of themselves as smart, saw the huge guardian spirit rushing towards the entrance of the non-phase peak, shaking the earth, their eyes also fell into a daze.

They had never expected this scene to happen, and they could not understand why the other peaks would unite to attack the non-phase peak at this time.

Now, all their attention was attracted by the fierce battle at the entrance of the mountain. The light effects of various magical artifacts interweaved and bombarded each other from afar. Even under this clear sky, the explosions were splendid and dazzling.

Ear-piercing sonic booms continued to ring out. Accompanied by the angry roars of many people, Li Changzhe seemed to hear a few angry roars.

“Charge! Kill this old monster of the dungeon! Attack the raiding group!”

“As long as you clear the dungeon, you will be able to get the code for the undeleted closed beta! Charge for me!”

These were the voices of Super Chen and hero Guo. The two of them had no idea that this was the spirit world’s training ground. They led their men and charged in. Moreover, they were completely fearless in the face of the mountain spirit. They only treated this as a game.

Although the rest of the people didn’t understand what the two of them were talking about, they looked at the two foundation establishment stage self-cultivators charging at the forefront.

A sentence echoed in everyone’s hearts at the same time.

-- F * CK, it’s burning!

No one would have thought that the people of the twenty peaks were actually brought out by the imposing manner of Super Chen and hero Guo, these two foundation establishment stage self-cultivators. They were fearless even in the face of the mountain guardian spirit and charged forward together.

Even the mountain guardian spirit was stupefied. This was the first time it had felt that it was so unpresentable; even foundation establishment cultivators didn’t put it in their eyes.

Unfortunately, it was also an actor who had been invited. Even in this situation, it couldn’t kill them, and could only try its best to resist.

“Our luck... is really good. The mountain guardian spirit has been attracted away in this head-on battle, so won't it be very convenient for us to gather resources?” Li Changzhe scratched his head, when he came back to his senses, he found that Wang Ling was already walking alone at the front.

“Hey, student Wang Ling, Wait for me!”

He shouted, and then hurriedly pulled Zhang Linyan along as they chased after him.

Even Tie Yi and the others were dumbfounded.

After mining in the mine, this was yet another unexpected scene.

Was it a coincidence..

Or should they say that Wang Ling, Li Changzhe, and Zhang Linyan's luck was really too good.

“Oh right, Li Changzhe, you mentioned luck just now. I also think that our luck today seems to be exceptionally good. I heard that student Wang Ling has always been called sixty mascots. I wonder if this has something to do with it?”

Zhang Linyan turned her head and swept her watery gaze over Wang Ling.

”...”

Wang Ling was silent.

In his experience, it was best not to get involved in the topic at this time.

“Haha, maybe I Was Just Lucky; you guys were just influenced by me. Before I came to Songhai city through the city teleportation array this time, I even drew a gold card! And it wasn't a guaranteed card! It directly entered my soul!”

Li Changzhe replied confidently.

He really felt that his luck today was very good, and that it was a natural force of luck; it had nothing to do with Wang Ling at all.

As expected of you..

Wang Ling secretly raised his eyebrows. He was quite satisfied with Li Changzhe's blind confidence.

At the very least, it was a good cover.

"Now that the non-phase peak is being besieged from the front, don't we have as many resources as we want in the Back Mountain?"Zhang Linyan said.

"That's true in theory, but we also have to pay attention to environmental protection,"Li Changzhe said. "All the maps in the trial ground were transplanted from the real world, which means that this place was originally a natural ecological zone. "It's okay to collect them moderately, but it's not advisable to over-exploit them."

"Long-winded, you don't need to say that."Zhang Linyan rolled her eyes.

As an archer, she couldn't be more familiar with the principle that everything had a spirit.

As she chatted with Li Changzhe, she also used the corner of her eye to constantly look at Wang Ling.

As usual, Wang Ling's words were still as few as before, but the more it was like this, the more Zhang Linyan felt that Wang Ling was covered by a mysterious veil.

Now that she thought about it carefully, she felt that there was something strange about him during the first spirit world internal test.

She always felt that Wang Ling was hinting at her to take action, but it didn't feel like it..

"Don't just stand there, come over and give me a hand! There are important materials to repair the spirit gathering great array over there!"At that moment, Li Changzhe's voice rang out again, and he

pointed to a piece of jade shaped like a Ganoderma that was emitting a faint blue light on a cliff wall.

“Emerald Mountain Jade! There are actually such precious heavenly materials and earthly treasures here!”Zhang Linyan was once again shocked.

This was a natural jade that naturally contained rich spiritual energy of heaven and earth. It was ranked at level four, and its value was comparable to a low-grade holy artifact!

However, such priceless heavenly materials and earthly treasures were naturally precious. One needed to pay attention to methods and methods to collect them. If one were to use violent methods to collect them, their value would be reduced by more than half.

As for the identification and collection of various types of heavenly materials and earthly treasures, they were taught in the cultivation high school’s nature class. As elite students, the jade of Mount Cui was precious, but Li Changzhe and Zhang Linyan were still able to recognize it.

Of course, there was one thing that Li Changzhe and Zhang Linyan hadn’t learned from their textbooks at all.

It was this jade of Mount Cui.

In fact, when Wang Ling had passed by just now, it had suddenly grown out of a crack at an extremely high speed..

The spirit energy in Wang Ling’s body was astonishing, especially when he was in a natural environment. He had a constitution that could stimulate the growth of rare heavenly materials and earthly treasures, which made this spirit energy in his body a natural catalyst for spirit plants.

However, under normal circumstances, because of the suppression of the talisman seal, this spirit plant catalyst’s constitution wouldn’t be easily displayed.

Wang Ling had also been startled when this jade mountain had suddenly grown out

At the same time, this also meant that the talisman seal on Wang Ling’s body was probably at the critical point where he was on the verge of exhaustion.

He had to think of a way to complete the replacement as soon as possible..

Chapter 1962 1,958, The First Confrontation With Qu Shuling (1/92)

At this moment, the setting sun in the No. 2 training ground was as red as blood. After the magical equipment collided with each other, smoke filled the air, like a long smoke dragon that stretched across the entire perimeter of the non-phase peak.

No one would have thought that a war would break out before the sect competition. Almost every member of the twenty-one peaks had suffered losses in this battle.

All the fights were closely monitored by the nine heavens fine search academy with sophisticated cultivation scientific instruments. According to the protection mechanism of the No. 2 training ground, as long as a fatal injury was encountered.., or it was easy to cause injuries such as missing arms and legs.

The protection mechanism of the training ground would immediately be activated, forming a protective barrier around the person who was attacked, and then forcing the person to leave the field.

Only the players in the trial ground who had a script and played various npcs could automatically return to the stage later. If a student participating in the trial were to suffer such a fatal or crippling attack in advance.., it would mean that they were eliminated.

Super Chen and hero Guo fought to their heart's content. These two people were too strong. Because of this mechanism, they felt that this was a game.

Moreover, their attacks were even more vicious. This was because they did not need to consider the problem of conserving their strength. They only needed to attack with all their might.

After all, as long as the system determined that their attacks were fatal or maimed, the opponent would forcefully leave the stage.

After mastering this trick, the two of them did not have any considerations when fighting.

“F * ck, you guys are too shameless! Why did you specifically attack the vital parts of others...”

It was already the npcs of non-phase peak who had been killed by Super Chen and hero Guo for the umpteenth time.

They had no strength to complain about the two's precise "Nine yin white bone claw." It was a good thing that they had this protective shield; otherwise, with their accuracy, all the men here would have been blown away.

And although this move looked simple, it was actually not easy to learn. After all, there was a requirement for precision, and it wasn't easy to imitate.

This was thanks to the way boys and boys usually joked around with each other in school, especially during class breaks, which Wang Ling was almost used to.

It was just that there were indeed very few people who could learn skills from this playful act.

In a sense, Super Chen and hero Guo were also geniuses.

"All is fair in war, as long as it works. And this shouldn't be considered a game bug."

Super Chen smiled and replied, "If you really want to go on the battlefield, in order to fight for your life, you can use any move!"

As soon as he finished speaking, a few male NPC actors rolled their eyes and left the stage. They had originally wanted to use this move of Super Chen and hero Guo.

But who knew that the two of them were extremely strict in their defense of their vital parts.

"You wouldn't have thought, right? This is the iron crotch technique we cultivated in school to prevent this kind of situation! I've already cultivated it to the tenth level!" Hero Guo smiled confidently.

"..." everyone was horrified when they heard this.

What on Earth had these two learned in school!

In comparison, things weren't going very smoothly on Wang Ling's side.

It hadn't been long since his talisman had been replaced, and he hadn't expected it to be on the verge of replacing a new one. The rate at which the talisman was being used up was indeed faster than before.

In the beginning, it had been changed once a year, once every six months, and now once a month.

Wang Ling felt that it might have to be changed every week in the future... unless Wang Ming could analyze the substance in that black stone called "Eternity" and create a new talisman..., otherwise, he and earth would be in danger at any time.

Li Changzhe and Zhang Linyan were working hard to gather jade from the Jade Mountain when a familiar aura suddenly came from afar.

Wang Ling thought to himself, this is troublesome.

He hadn't expected that in this situation, one wave would come before the other, and it just so happened to be at the crucial point where his talisman seal was unstable.

Qu Shuling noticed the situation on the back mountain.

"As expected, you're here."

He came over on the spirit sword, dressed in a suit from non-phase peak, and looked like an elite of society. Under this image, the young man's tone had a sense of maturity.

As the star student of the number one high school in Songhai City, Qu Shuling's aura was indeed stronger than all the high school students Wang Ling had seen in the past. At the same time, he was also born with that self-confidence, standing on the spirit sword, he looked down on everyone, completely disregarding anyone.

"Brother Qu, we don't have the heart to fight. You're not here to cause trouble, are you? Although we're from different sects, we still use the cultivation country as the unit of account," said Li Changzhe, he carefully protected the jade mountain in his hand.

“With me here, they won’t be able to surpass us.”

Qu shuling said as he looked coldly at the three people below. “So you guys are dispensable. None of you are allowed to take the resources here at non-phase peak with you.”

Hearing Qu Shuling’s words, Wang Ling knew in his heart that this battle was already inevitable.

After what had happened in the No. 1 trial ground, QU Shuling had tried to force himself to go alone, but in the end, he had failed in his mission and had been teleported back to the oasis, where he had directly kowtowed in front of Wang Ling and then fainted. Wang Ling could still vividly remember that.

So this time, Qu shuling had actually come for revenge.

And his tone was very unyielding.

It made people uncomfortable.

Before Zhang Linyan could speak, Li Changzhe, this chatterbox, couldn’t hold it in any longer, he immediately crossed his arms and looked at him. “Brother Qu, our school is an ally. I’ve always respected you, but what you said just now was a little too much. “You’re a genius, but the three of us are also head students of different schools. Are you going to fight US one-on-one?”

One-on-three.

Qu shuling indeed had the strength and courage to do so.

It was just that chang-zhe had never thought that they would come this far.

Perhaps it was because Qu shuling clearly knew that the video inside the trial ground would not be released to the public, but the feeling he gave people here was completely different from the feeling he gave people in the real world. It was as if he had become a completely different person.

All along, Chang Zhe had always thought that Qu shuling was wearing a few masks on her face, but he had never thought that the other party would directly take off her mask under such circumstances. Moreover, she did not leave any room for negotiation.

“I only want to prove my strength. For me, this is a great opportunity.”

Qu Shuling’s expression was cold. The next second, he immediately attacked. Without saying a word, he directly started the fight.

Moreover, the first target he locked onto was Zhang Linyan.

In fact, the moment Qu shuling moved, Zhang Linyan also reacted and immediately summoned her bow and arrow. However, she did not know that Qu shuling had even predicted her movements when she summoned her bow. In the instant that she arrived in an instant.., with just a casual flick, the bow and arrow in Zhang Linyan’s hand fell off.

He didn’t hold back at all. After the flick of his sword, he whipped Zhang Linyan’s lower abdomen with a tight leg whip. Even though Zhang Linyan had already reacted and used her arms to block the attack, the force of the whip was still too strong.

Qu shuling didn’t have any intention of showing mercy to the fairer sex at all. He sent Zhang Linyan flying on the spot and crashed into a big tree in the distance.

“You hit a woman as soon as you made your move. You’re really a masculine man!” Seeing this, Li Changzhe couldn’t help but curse.

From the perspective of offensive thinking, it was indeed a good way to strike first, but Qu Shuling’s merciless attack made chang-zhe li know that this person was serious, he didn’t hold back at all.

He also summoned his spirit sword and tested Qu shuling for a few rounds. Then, he was also knocked back by Qu Shuling’s overwhelming strength.

“That’s it?”

Qu shuling couldn’t help looking a little disappointed.

He hadn't expected that in a three-on-one fight, his first attempt had already left chang-zhe and linyan completely defenseless.

Now, there was only one person left who hadn't tried.

The next second, he turned his gaze to Wang Ling and tried to predict his next move..

Chapter 1963 1,959, The Battle Between Geniuses (1/92)

The attack and defense of experts would often predict the opponent's next move.

Qu Shuling was able to win first place in high school competitions at home and abroad because his rich combat experience had allowed him to master "Spirit Vision" at such a young age.

This was not a skill that ordinary cultivators could master.

The so-called spirit vision, as its name implied, was to use mental deduction and visual imagination in the process of battle.

By guessing the opponent's next move, he could seize the opportunity to take the initiative to attack or dismantle the move.

He took the initiative and used this ability against Zhang Linyan and Li Changzhe just now.

Of course, as the top high school students in the elite universities, Li Changzhe and Zhang Linyan also had the ability of spirit vision.

However, after the fight, they immediately realized the gap between them and Qu Shuling.

"He's really strong..." after the two were sent flying by Qu Shuling, they could feel Qu Shuling's strength and difficulty when they looked at each other.

This level of spirit vision was at least at the top of the tenth level!

Zhang Linyan and Qu Shuling had only just broken through to the eighth level, and their ability and speed of pre-reading weren't as good as Qu Shuling's, so they naturally couldn't beat him.

Now, the pressure of the battle was on Wang Ling at once. If even Wang Ling was knocked down, then it was very likely that Qu Shuling would send them down three times in a row at the start of this one-on-three fight.

In addition, Wang Ling was the weakest on their side..

Qu Shuling's move might even directly send Wang Ling away.

"Elder Teng, are you sure you want to cut all the cameras to the back of the mountain? You're not going to care about the head-on battle?" At the same time, a staff member at the command center of Nine Heavens Precision Search Academy asked.

"I don't care! Point all the cameras that can be moved to the back of the mountain!" Teng Luchen ordered.

As he pulled at his beard, he watched the battle in front of him very seriously, even though the plot was developing in a way that he hadn't expected.

But in the end, what he wanted to see the most was how Wang Ling would deal with it..

Every detail of the battle between this legendary genius high school student and the hidden genius he suspected was the focus of Teng Luchen's concern.

On the other side, at the center of the battle.

The moment Qu Shuling had set his eyes on him, Wang Ling had already realized that the situation was starting to get troublesome.

He knew very well that he was being watched by countless eyes in the outside world, and he had to be careful and prudent in his next actions.

Now that the talisman seal was unstable, Wang Ling's instinctive reaction in the face of Qu Shuling's attack was to put some distance between them first.

He could take a beating, but there was no need.

If Qu shuling hit him, it would definitely Not Be Wang Ling himself who would be injured, but Qu shuling.

Furthermore, with the spirit world's protective mechanism, that little bit of power from the protective barrier wouldn't be able to withstand Wang Ling's backlash at all.

Right now, Wang Ling was an unstable substance. As long as Qu shuling hit him, there was a 50% chance that he would directly hit the jackpot and be turned into ashes by the backlash.

Thus, Wang Ling didn't hesitate to escape, and this action was very reasonable in everyone's eyes.

When faced with an enemy whose realm was several levels higher than his, his subconscious escape seemed to be a matter of course. Li Changzhe and Zhang Linyan were both slightly surprised by Wang Ling's calmness.

There was a difference of several realms between him and Qu Shuling, and yet he was still able to show such a calm attitude. As expected, it wasn't unreasonable for Wang Ling to be selected for the spirit world trial.

However, qu shuling had the "Spirit Vision" ability after all, and Wang Ling's retreat was in fact within his predictions.

He raised his spirit sword and pretended to attack, but in reality, he was using a hidden weapon to cast a spell trap at the same time as he moved. Qu shuling had originally designed a miniature talisman seal, which was only the size of a fingernail.

He would attach it to his fingernail beforehand, and when he used it, he would only need to flick his fingernail lightly, and the miniature talisman seal would automatically burn. It would be arranged in a specific position according to the caster's spirit energy, thus forming a spell trap.

Just as Li Changzhe had guessed, he had been thinking of sending Wang Ling away from the start. As he approached Wang Ling, he also guided him into the magic trap that had already been set up behind him.

Qu shuling had often used this kind of fighting technique in several major competitions, and it couldn't be said to be a dirty trick. After all, Talismans, magic treasures, and spirit swords were all things that could be used in a comprehensive competition, so he was proficient in using them together, it was also a compulsory course for an elite cultivator.

But for Wang Ling, it was a little too child's play to be effective against others.

In the face of absolute strength, any fighting technique was useless.

Wang Ling's eyes were slightly closed, and he couldn't see at all. With his powerful spiritual perception alone, he had already figured out the densely packed magic traps Qu shuling had set up behind him.

They were a series of explosive magic arrays, simple and crude, just like land mines. As soon as they touched one point, they would immediately explode and cause a chain reaction.

But at that moment, Zhang Linyan, who was in the distance, drew her bow at that moment and aimed the arrowhead directly at the magic trap behind Wang Ling.

Although a three-on-one victory was a little unfair, it was also Qu Shuling's own choice. He was extremely arrogant and wanted to fight one-on-three. If Qu shuling succeeded one after the other in this situation., he would be forced into a one-on-one fight, which would be the only way he would fall into Qu Shuling's trap.

Zhang Linyan's arrow was extremely fast, and it was a split-body arrowhead. As it flew, the arrowhead split into multiple arrowheads and shot out.

Wang Ling had been thinking about how to defuse qu Shuling's move as gently as possible, but Zhang Linyan's arrow could be said to have given him a pillow when he was sleepy, and it immediately gave Wang Ling an excellent assist.

Qu Shuling's reaction was also extremely swift and fierce when he sensed an arrow coming from behind him. He immediately drew out the spirit sword in his hand to form an eight-foot sword defense, trying to block all the arrows.

"Brother Qu, don't underestimate us. Three Stooges can defeat Zhuge Liang!" Seeing this, Li Changzhe also formed a spell with his hands and puffed out a thick mist, providing sufficient cover for Zhang Linyan's arrow.

"It's just a useless effort."

Qu Shuling snorted lightly. Such fog was completely useless to him, because when Zhang Linyan shot the arrow, his spirit vision had already accurately locked onto the position of each arrowhead, to ensure that he could accurately block all the arrowheads in the process of brandishing his sword.

However, to Qu Shuling's surprise, under the cover of the thick fog, these flying arrowheads seemed to be endowed with intelligence.

As they rapidly approached him, they began to turn at an almost impossible angle..

Qu Shuling was a little surprised.

He had heard of gunfighting techniques.

But he had never thought that there was actually an archery fighting technique..

Zhang Linyan's cultivation had already reached such a level?

But he clearly remembered that he had never seen Zhang Linyan use this technique in any competition before.

Chapter 1964 1,960. The Second Season Of The Immortal King Animation Will Be Released Today (1/92)

As everyone knew, archery was a course that could only be mastered in the cultivation university stage. It was included in the "Advanced swordsmanship mastery" course. It was a compulsory course for every professional archer. The top ten were the ten pets.

If one could cultivate to the tenth level, one could control multiple arrows to make turns in the course of the arrow.

But it was clear that Zhang Linyan's archery skills were even more exquisite. Qu shuling had never seen before that even split arrows could be combined with the use of "Archery fighting technique".

This required greater precision and control than the multiple arrows archery fighting technique..

Qu shuling immediately frowned, because Zhang Linyan was even stronger than he had imagined.

Boom!

The instant the magic traps behind Wang Ling were blasted apart by the split-body archery arrows, even Zhang Linyan herself was startled.

She had already been ready to shoot for the second time, because judging from the trajectory of the spirit arrow she had shot just now, it didn't seem like it would hit.

In the end, she hadn't expected that the first shot would actually detonate the magic traps behind Wang Ling in advance.

Zhang Linyan was greatly encouraged by this.

Her luck today indeed seemed to be pretty good.

The arrow she had shot out in a moment of desperation had actually been so accurate by accident.

"Hahaha, brother Qu, do you still have enough tiny talismans on your fingernails? You actually detonated them all at once; it's really tragic. I didn't expect you to use such a sissy thing."

"Don't you think it's weird to put something on your fingernails? I thought only the imperial concubines of the Qing dynasty would do that."

Li Changzhe laughed heartily. In such a situation, his chatterbox ability was activated, and an invisible wave of ridicule instantly caused Qu Shuling's expression to change drastically.

Wang Ling knew that Li Changzhe had done this on purpose. Whether it was Zhang Linyan's arrow just now or Li Changzhe's venomous tongue now, it was essentially an act of rescue.

After all, his realm was the lowest here, which would allow Qu Shuling to divert as much energy from him as possible.

Wang Ling was suddenly touched.

He had only known Li Changzhe and Zhang Linyan for a short time, and hadn't expected them to actually be quite reliable at the critical moment.

It had to be said that Li Changzhe's nagging was very effective. Qu Shuling had originally wanted to take care of Wang Ling first, but after Li Changzhe's verbal attack, his entire aura had changed.

Buzz!

In the next moment, spirit energy exploded in his hand, and the spirit energy whistling out actually directly shattered the spirit sword in his hand.

However, this was an ordinary spirit sword from the sect that had been given out by non-phase peak to begin with, and Qu Shuling had never thought of dealing with the three people in front of him seriously in the first place.

But now that he had been provoked by Li Changzhe, it was clear that he was really angry.

With a wave of his arm, he summoned a pitch-black spiritual sword. Its dark luster was like an abyss, giving people an indescribable sense of danger.

This was Qu Shuling's natal spiritual sword -- Night Slayer!

In all the previous competitions Qu Shuling had participated in, it was rare to see him use Night Slayer directly. He would only summon it at a critical moment to use it.

Li Changzhe had done a detailed investigation on Qu shuling. According to all the official records, QU Shuling's probability of winning directly after using the Spirit Sword Night Slayer was... 100% !

Yes, in the crucial competitions, Qu Shuling had never been defeated by this strange pitch-black spirit sword.

He was really angry..

Li Changzhe knew something was wrong. He had mocked Qu shuling because he was desperate. He wanted to attract the enemy's attention, but he didn't expect Qu shuling to take out the sword because he used too much strength.

Qu shuling had never lost in all the previous competitions. Moreover, he had never truly maximized the power of the sword.

At this moment, Qu shuling slowly walked over from the distant smoke with the mysterious pitch-black spiritual sword in his hand. The rustling of the dried leaves under his feet was accompanied by a faint murderous aura that made people sweat uncontrollably.

He looked like a sword demon shrouded in the moonlight.

Suddenly, before he could see Qu Shuling's figure clearly, he was already right in front of Li Changzhe's face in the next moment. The moment his aura approached, all the hair on Li Changzhe's body stood on end.

What kind of speed was this? It wouldn't be an exaggeration to say that he was terrified... when this person got angry, was he like this? He was like a ghost!

Qu shuling came with an obvious murderous intent. Chang-zhe Li didn't know how much power was contained in the sword strike of Night Slayer, but he knew very well that with Qu Shuling's ability, the sword strike would definitely be fatal. It would hit his vital points precisely.

He would be eliminated as long as Qu shuling touched him.

Therefore, the moment Qu Shuling's sword attack approached, Li Changzhe turned into a cloud of smoke to dodge the attack.

This was called "Gas source". It was a substitute-type spell that could temporarily vaporize one's body into a cloud of smoke. However, its weakness was also very obvious. If Qu Shuling attacked back with sword energy, Changzhe would be beaten back to his original state on the spot.

However, this was Changzhe's most familiar move. As one of the few life-saving spells he had, he had already practiced it to the top of the tenth level.

For any self-cultivator, keeping a secret skill was an ultimate skill that they had to practice day and night. After all, only by surviving could they have any hope of cultivating it.

"Brother Qu, your killing intent is too strong. Can't you calm down and speak properly?"

It could be seen that Qu Shuling was really angry and full of killing intent.

As soon as Li Changzhe finished speaking, before his mist-like body could take shape, the night slayer in Qu Shuling's hand actually separated. His body turned into several pitch-black sword lights and stabbed toward Li Changzhe.

This change of move caught Li Changzhe off guard. Zhang Linyan, who was far away, once again drew her bow and tried to follow the trajectory of night slayer. However, the speed of night slayer was too fast. She couldn't predict it at all.

She looked in Qu Shuling's direction for a long time before she shot an arrow in a panic.

It was a good opportunity.

At that moment, Wang Ling, who was in the shade, also seized the opportunity.

Even though Zhang Linyan's arrow was very flustered, as long as he was there, he could guarantee that it would hit 100% of its target.

This time, Zhang Linyan didn't use a split-body arrowhead; it was just an ordinary arrow.

However, Qu Shuling was clearly prepared. When he saw Zhang Linyan's arrow shoot over, he directly controlled Zhanye to pierce through a split-body sword light to intercept it in the air, on the spot, Zhang Linyan's ordinary arrow was accurately split into two halves.

“Petty tricks...”

Qu shuling snorted in his heart

When he saw that Zhang Linyan's arrow had already been destroyed by him, he no longer paid attention to that area.

What he never expected was that the arrow, which had been accurately split into two, was still advancing according to its original trajectory.

Not only that, during the flight, the arrow that had been split into two was actually plated with a faint layer of gold..

Strengthened?

At this moment, Qu Shuling's head was full of question marks.

Chapter 1965 1,961, The Seedling Of A Genius (1/92)

Not only was the split arrow not interrupted, but it was following its original trajectory. Even the body of the arrow that had been split into two had turned a faint golden color.

Such superb swordsmanship not only made Qu shuling speechless, but even Teng Luchen, who was watching the battle, was stunned.

It was very obvious that Zhang Linyan had already perfected her “Archery fighting technique”and had even strengthened her arrows in advance.

“Excellent prediction ability...”Teng Luchen was astonished. His original goal had been to observe Wang Ling, but he hadn't expected Zhang Linyan to be so strong.

Apart from the accuracy of their arrows, a top-notch Archer's prediction ability was also very important; he had once been involved in a hostage kidnapping case on a floating high-speed train.

The top archer could maintain the speed of the arrows that were shot at the same time as the high-speed train, and accurately calculate every inflection point in the course of the trajectory.

Then, when the criminal was caught off guard, he would suddenly accelerate and accurately hit the vital parts of the criminal to save the hostage.

But to do that, he had to be at least a top archer of grade 10. This kind of person was usually proficient in archery, and most of his strength was above that of an itinerant immortal..

What about Zhang Linyan?

She was only a girl in the middle stage of the Golden Core Stage!

Although she was an elite among high school students all over the country, this kind of skilled archery skill was a bit too exaggerated.

"What a good seedling. At the very least, she has the skills of an eighth grade archer... she might even have reached the ninth or tenth grade."Jing heqiu sighed at the side.

Zhang Linyan's performance was too outstanding. It was beyond their expectations.

The two strengthened golden arrows that had been separated spun like a top, bringing with them a biting cold sharpness.

Qu shuling had never thought that Zhang Linyan would also hide her hand. The Zhang Linyan today seemed to be very different from what he had seen before. He clearly remembered that Zhang Linyan seemed to only have a fourth grade Archer's certificate, but now, the strength she displayed had far surpassed that of a grade four archer.

Two very dangerous arrowheads!

If they hit his vital parts, it was very likely that they would trigger the protective mechanism and send him away directly.

Qu Shuling didn't dare to be careless this time. He held the night severing sword in his hand and split into several sword lights again. He completely gave up on pursuing Li Changzhe. Instead, he swarmed forward and concentrated all his strength to block Zhang Linyan's golden arrow.

Boom!

At the scene, when the pitch-black sword lights collided with the Golden Arrow, there was a big explosion. The strong blast sent everything in the surroundings flying.

With the battlefield as the center, all the vegetation within a hundred meters fell down along with the storm created by the explosion.

The impact was too strong!

When Qu Shuling withdrew night Slayer again.

The pitch-black sword body actually showed a few cracks under the light.

This made Qu Shuling's expression instantly turn ugly.

Since the start of his competition, Zhan Ye had cast it so many times, but he had never suffered such serious damage.

The degree of damage now meant that he couldn't rely too much on Zhan Ye in the following battles, or else this spirit sword would be in danger of being shattered at any time.

"So Strong." Jing heqiu couldn't help but sigh when he saw all this.

The fights between elite high school students nowadays were truly a battle between gods and Immortals. The fight between fist and flesh was far more exciting than the fights between upper-level cultivators who fought with magical equipment.

Those cultivators with high realms often used magical equipment to fight in place of themselves in order to save their lives. What they fought was who had the stronger magical equipment, and not purely a contest of strength.

Of course, Zhang Linyan herself was the most unbelievable person among all the people present.

She had also seen that arrow..

As usual, it was just an ordinary arrow. Who would have thought that it would have such an effect.

That explosion just now was no different from a small nuclear explosion... the power was too shocking! It was an arrow that far exceeded her current level.

“Sister Zhang, you’re amazing. How did you do it?” At this moment, Chang-zhe couldn’t help but applaud.

The Arrow repelled the number one genius Qu Shuling and severely injured his natal spirit sword, Zhanye.

If this matter was publicized, Zhang Linyan would instantly become famous in one battle. She might even become a rising star whose reputation surpassed Qu Shuling’s.

Zhang Linyan herself was also dumbfounded. “Who’s your sister Zhang...”

She secretly sneered at Li Changzhe for being really good at getting close to her. At the same time, she was also carefully pondering over what had happened with her arrow just now.

She clearly felt the same way when she held the bow. Could it be that in order to save her teammate’s adrenaline burst, she shot an arrow that exceeded common sense?

But even if it was really an accident, it wasn’t that outrageous!

It wasn’t that she didn’t know archery, but her archery skills were basically the kind that wouldn’t work at the right time. A fourth-grade Archer’s archery skills couldn’t achieve a 100% success rate, right now, she could only achieve a success rate of a little over 50% .

As for the enhanced arrow, it was even more impossible for it to be her own operation.

It was clearly an arrow that was split into two halves by Qu Shuling, and in the end, it was directly enhanced!

Where did this trick come from..

If she were Qu Shuling, she would have called the police!

“I didn’t expect you to be the strongest among the three of you. I underestimated you.”

At this moment, Qu Shuling’s cold voice was heard. He stared at Zhang Linyan, and the expression on his face was the joy of meeting a worthy opponent.

Geniuses and geniuses always appreciated each other, especially when they met an opponent that was on par with them.

It wasn’t that Qu Shuling hadn’t investigated Zhang Linyan before. According to Zhang Linyan’s previous intelligence, in Qu Shuling’s heart, she was just an opponent who wasn’t worthy of being called an opponent.

Although they were both top-notch elite high school students, in reality, he had never placed Zhang Linyan in his eyes.

But now, everything was different.

Zhang Linyan’s arrow just now coincidentally proved that this person was an out-and-out genius!

“Three against one, I really underestimated my opponent.”

At that moment, Qu shuling excitedly stood up and pointed his sword at Zhang Linyan. "Now, I apply to have a one-on-one match with you!"

Wang Ling heaved a sigh of relief at this scene.

At last, Qu Shuling's line of sight had shifted away from him.

Faced with Qu Shuling's gaze, Zhang Linyan was at a loss for words. "I..."

"Are you afraid? Or are you looking down on me?"

Qu shuling chuckled. "The fact that you were able to shoot that arrow just now proves that your Archer's grade is at least above sixth grade!"

Zhang Linyan replied, "I really don't have a sixth grade..."

She was speechless. In her heart, she was certain that the arrow just now was just a coincidence.

In order to prove that, Zhang Linyan once again aimed her bow at Qu shuling. "That arrow just now was really just a coincidence. If you don't believe me, I'll shoot another arrow now. I guarantee that you'll be able to catch it!"

"Fine, I'll catch it. What's there to be afraid of!" Qu shuling sneered as she held the night Slayer in her hand, waiting for Zhang Linyan to perform.

That arrow just now was really too exciting. Even he wanted to watch it again and study it in depth.

Zhang Linyan felt that with her normal strength, she would definitely not be able to shoot that kind of mysterious arrow a second time..

However, to her surprise.

The moment the arrow left her hand.

Buzz!

The arrow actually began to double in size in front of everyone!

The huge arrowhead swelled to the size of a small mountain and headed straight for Qu Shuling!

Qu shuling was so shocked that she couldn't help cursing loudly. "Zhang Linyan! You still say you don't know martial arts? ! How dare you lie to me!"

Zhang Linyan:"..."

Li Changzhe:"..."

"..."

At this moment, Wang Ling silently looked away.

Chapter 1966 1,962. Qu Shuling Had Gone Mad (1/92)

In front of the huge monitor, Teng Luchen and Jing heqiu were wiping their eyes.

They were sure that they hadn't seen wrongly..

Zhang Linyan's arrow was a "Giant graceful arrow"! It was Huaxiu's only grade ten archery god, Chu Tianjue's unique secret skill!

In the archer world, Chu Tianjue's name was like thunder, the top of grade ten.

Some people even thought that if the grade could be expanded to the eleventh grade, Chu Tianjue's level would also be at the eleventh grade!

However, Teng Luchen had never heard of this tenth grade archery god Chu Tianjue taking in a disciple before..

“There’s no mistake, elder Teng. This is Chu tianjue’s giant graceful arrow.”. The system’s data had already been analyzed and compared. Whether it was the power of the shot, the angle of the shot, or even the speed of the body of the arrow after the shot, they were all exactly the same!”Jing heqiu was astonished, he used his fastest speed to carry out his own verification.

Back then, when the demon world and the cultivation world were still entangled, Chu Tianjue had used this giant arrow to instantly kill a demon king.

And the current data recorded in the system was Chu Tianjue’s arrow back then.

Today, Chu Tianjue was roaming the world and was used to the life of an itinerant cultivator. He did not have a fixed residence, so it would not be so easy to find his whereabouts.

Many years ago, Teng Luchen had met Chu Tianjue once. In the modern cultivation environment, it was hard for him to imagine that there were still people who could lead such a primitive life.

Therefore, on Teng Luchen’s side, he gave Chu tianjue the nickname of “Cave Man on the mountaintop.”.

However, when did this cave man on the mountaintop take in a disciple..

Teng Luchen really didn’t know.

“Is there any way to find Chu Tianjue Now?”Teng Luchen asked with a frown.

“Elder Teng has dealt with teacher Chu before. This person’s whereabouts are mysterious and elusive. I’m afraid it won’t be that easy to find him. If we want to find him, we can only try our best...”Jing Heqiu said.

“Forget it.”Teng Luchen waved his hand. “He doesn’t even need a cell phone. It’s easier said than done to find this cave dweller. But this old man can be sure that this Zhang Linyan is definitely his disciple. You even have the data to compare. I just scanned it, and it’s exactly the same!”

“Old Teng is wise...”

“The gains from this spirit world trial are still very big.”Teng Luchen was also happy.

Although he had originally come to test Wang Ling, he hadn't been able to find anything about him so far. Instead, he had dug up Zhang Linyan, who had inherited the bloodline of the god of arrows.

“It's really like the saying, ‘The new wave surpasses the new.’”

Jing heqiu couldn't help sighing in this regard. Zhang Linyan had never used this move before, and now that she had used it on Qu shuling, it could be considered as confirming his identity.

However, at this moment, the battle on the monitor wasn't over yet.

When Zhang Linyan shot this arrow, Qu shuling could be said to have been caught off guard.

From Wang Ling and Li Changzhe's point of view, Qu Shuling was about to be directly sent away by Zhang Linyan's arrow.

The destructive power of the giant graceful arrow was far beyond imagination, and with Wang Ling's secret blessing, the spirit energy released by this arrow was already far beyond Zhang Linyan's realm.

It was an arrow that no one could defend against, and as long as anyone was hit, they would be directly sent away.

Faced with this sudden giant arrow, qu Shuling's expression also changed in shock. He could no longer maintain his initial calmness, and bean-sized beads of sweat rolled down his cheeks.

Then, he used all of his strength to block the explosive power of the giant arrow.

He had also obtained quite a number of magical artifacts from the spirit world. In order to protect himself from being eliminated, almost all of them were thrown out in an instant.

However, these spiritual artifacts couldn't block the trajectory of the giant arrow at all. The moment they were thrown out, they were directly smashed by the sharp edge of the giant arrow.

“Brother Qu, it seems that you will be sent away today. I didn’t expect that you wouldn’t be able to last until the sect competition in three days.”Li Changzhe had already laughed out loud in advance.

He really didn’t expect that even Qu shuling would have such a day.

Looking at this high school student who looked down on everything being defeated, chang-zhe Li felt an unspeakable pleasure in his heart.

Boom!

In the end, the arrow landed on Qu Shuling’s body. It was obvious that the protective shield had been activated. The system determined that this giant arrow had already posed a threat to Qu Shuling’s life.

When the giant arrow collided with the protective shield, the impact of the explosion shook everything within a radius of 100 kilometers. The huge blast swept backwards, blowing the dense forest into a barren land.

The group of miners who had followed them were all dumbfounded. They were watching the battle in a daze and silence. At this moment, many of them were swept up by the blast and were thrown off their feet.

This high school student’s duel was too intense, exceeding their expectations and imagination.

Although they didn’t understand why the current high school students could be so fierce, they were greatly shocked..

And most importantly...

The protective shield mechanism had been activated.

Qu shuling, the popular person in the trial, was about to be eliminated.

This was something that exceeded everyone’s expectations.

“It’s finally over.”Li Changzhe was delighted. Without Qu shuling, this troublesome and arrogant fellow, their subsequent trials should be much easier.

And the key point was that Zhang Linyan had risen!

Once the identity of the god of archery’s disciple was made public, it would definitely shake the entire Huaxiu nation’s high school student circle!

Although Zhang Linyan’s school ranking couldn’t compare to shengke, she would definitely become famous because of this. With this identity, she would directly stand shoulder to shoulder with Qu shuling and Su Xingyue.

After a few minutes, when the dust from the explosion was about to die down, along with a gentle breeze from the valley, the fog at the scene was blown away.

Qu shuling, who had been blown into rags, was still standing there with the pitch-black night Slayer in his hand

“What’s going on? The protective shield has clearly been activated.”Wang Ling was puzzled.

He hadn’t expected that such a good wave of attacks just now wouldn’t be able to send Qu shuling away.

“I understand!”Li Changzhe said in surprise. “It must be a special card! Qu shuling must have used that special card to keep himself here! It turns out that the special card is actually a resurrection coin!”

He was also stunned when he saw Qu shuling. After thinking for a long time, he finally understood that it was all because of the special card that Qu Shuling was not forced to leave the scene after the Protective Shield was activated!

“The disciple of the god of archery, is it...”Qu shuling smirked and sneered.

”...”Zhang Linyan was speechless.

She really wanted to say that she had nothing to do with Chu Tianjue.

The huge arrow shot out just now was really just a coincidence.

However, Zhang Linyan felt that no matter what she said, Qu Shuling wouldn't believe her.

Moreover, it would anger Qu Shuling and make him do something even more extreme.

Because his current state was already very wrong.

No one had ever made this decent genius look so miserable.

He stood on the battlefield in ragged clothes, and his face was shockingly full of excitement. "So... you're all hiding..."

Then, he looked at Wang Ling. "You're a mascot..."

Then he looked at Li Changzhe. "Then what are you? You must also have a hidden identity, right?"

Chang-zhe li:"..."

Chapter 1967 1,963: Qu Shuling Goes Crazy (2)(1/92)

Wang Ling's heart was as clear as a mirror as he looked at Qu Shuling's expression as if he had been played with.

There was a high chance that this person was going to follow in Yi Zhiyang's footsteps... thinking back to Yi Zhiyang back then, it seemed that he hadn't completely recovered from his post-war injuries. Wang Ling hadn't expected that it had only been a few months since then, in the end, he had gone crazy again.

Wang Ling sighed in his heart. Honestly speaking, there were times when he felt that he had been quite sinful; in fact, he didn't want Qu Shuling to become like this.

But since it had already happened.

At that moment, Wang Ling had no other choice but to continue taking things one step at a time.

The setting sun was like blood, and large balls of fire clouds pressed down on the horizon in the distance, like pieces of a jigsaw puzzle about to fall to form a picture of deep space fire clouds.

This scene reminded Wang Ling of the demon world.

From this, it could be seen that the structure of the world in the trial ground wasn't completely extracted from the scenes on Earth. This oppressive sky was exclusive to the demon world.

Wang Ling had been to the demon world before, so he had a deep impression of the scene in the demon world.

Qu shuling stood on a pile of ruins that had been swept clean. His clothes were tattered, and the mottled cracks on his sword could be clearly seen under the setting sun.

His face was dark as if he had been possessed. His gaze was fixed on Li Changzhe as he repeatedly said, "Hide your identity... show it... you hide it too... quick, show it and fight me..."

Although he had used the privilege card in his hand to force himself to stay, Qu shuling had also been injured by Wang Ling's secret "Giant Arrow of pure grace".

If he continued to fight stubbornly, there was really a chance that there would be aftereffects.

Nine Heavens Fine Search Academy's command center looked at the screen on the monitor, jing heqiu also looked very worried. "Elder Teng, should we intervene?" Qu shuling was injured now, and it wouldn't be worth it if there were aftereffects during the trial. "After all, there's an even more important plan on the core of the earth that needs him to lead the team."

Teng Luchen frowned and waved his hand. "No... Let's wait and see... Since he's the number one genius in high school, he might be able to unleash even greater potential under adversity."

Hearing this, Jing heqiu roughly understood what Teng Luchen meant.

This was a kind of two-way pressure.

On one hand, it was to force Qu Shuling to continue developing his body's potential in the face of adversity.

On the other hand, it was also Teng Lusheng who was curious whether Li Changzhe was also a hidden talent.

The fight just now had directly forced Zhang Linyan, the hidden disciple of the god of archery!

If they waited another round, perhaps Li Changzhe would also give himself away!

At this time, Qu Shuling, who was holding Night Slayer in the middle of the battlefield, was almost going crazy.

“Come, fight with me... use your strongest ability! Today, none of you can escape!”

Then, he became excited. He rushed forward like a berserker with his ragged and wounded body and started to fight with Chang-zhe Li.

The sound of weapons clashing could be heard from the scene. Although Night Slayer was already cracked, his strength was still shocking. Chang-zhe Li held his Natal Spirit Sword Broken Cloud and fought with Qu Shuling, who was holding Night Slayer, for dozens of rounds, under this strong attack, the palm between his thumb and forefinger was numb.

Li Changzhe sneered in his heart.

Qu Shuling was indeed fierce. Under such circumstances, she was still not at a disadvantage when fighting with him.

On the other side, Zhang Linyan was hiding in the distance. She wanted to shoot an arrow, but when she raised her bow and arrow, she was stunned again. She didn't dare to interfere at all, afraid that she would accidentally shoot another “Graceful giant arrow”..

If she strangely shot the arrow of the god of archery, she would definitely send Qu Shuling away, right?

Although she didn't like Qu Shuling, it wasn't to the extent of killing her.

Zhang Linyan sighed endlessly in her heart. The people outside had probably already seen the matter of the Terpsichore Arrow. Her identity as the disciple of the god of archery had probably already been confirmed.

Moreover, no one would listen to her explanation.

Zhang Linyan had never expected that there would be an extra persona in this trial..

Now that she thought about it, she suddenly felt quite envious of Wang Ling.

How great was the persona of the mascot! It was so harmless!

At that moment, she stared at Wang Ling.

Wang Ling was currently sitting in front of a rock, watching the fierce battle between Li Changzhe and Qu Shuling with a relaxed expression. There wasn't the slightest hint of panic on his face.

"Could it be that Li Changzhe really has a hidden identity?" This time, even Zhang Linyan was puzzled. She had definitely picked up her identity as a disciple of the god of archery, but she couldn't guarantee that Li Changzhe really did have a hidden identity.

And for some reason, after entering the No. 2 Spirit World Trial Ground this time, Zhang Linyan could clearly sense that the relationship between Li Changzhe and Wang Ling had become much closer.

Naturally, only boys knew the secrets between boys. In other words, it was very likely that Wang Ling knew that Li Changzhe also had a hidden identity, which was why he had maintained such a calm attitude as he watched the battle.

At this thought, Zhang Linyan couldn't help feeling enlightened, as if he had figured everything out in an instant.

“Brother Qu, calm down. If you keep fighting like this, it’ll be bad for you and bad for me.”Li Changzhe tried his best to persuade him as he took the attack.

In his opinion, there was no need to continue fighting in the current competition. The most important thing was the final competition between the sects.

After all, the final score was the total points of the elite high school students sent by the cultivation countries. Fighting here was tantamount to increasing the internal consumption.

If they really fought to the point where their spiritual energy was exhausted, no one would be able to win the last day of the competition between the sects.

However, Qu Shuling, who was now red-eyed with killing intent, was not willing to care about this. His face was full of ruthlessness. The more Li Changzhe tried to persuade him, the fiercer his attacks became.

“Shut up! Shut Up!”Qu shuling said fiercely, “Are you looking down on me? Show me your hidden identity and fight me!”

” ...”

Li Changzhe was really dumbfounded.

How could he have any hidden persona.

Qu Shuling’s speech made him feel extremely wronged.

He was just an ordinary little brother of the No. 2 High School in Huaxiu Nation, Jingmen No. 8 high school... If one were to say that his only specialty was his unique secret skill, the “Mist dispelling technique.”.

Previously, he had used this technique when he sneaked into Vermilion Bird sect. This was a spell that could split his body into mist, but he had only cultivated it to the third level.

The senior cultivator in the world who had invented this move, “Luo Lan,” was also Li Changzhe’s idol!

He was the only top-notch expert in the world who had cultivated the spirit root of mist into a flower. At the same time, he was also a genius who specialized in obscure spells, mist spells!

He was the only tenth grade mist spell cultivator in the world..

His cultivation level was too low; how could he possibly have such a master as his master?

Chang-zhe was filled with endless emotions.

But he had never imagined that Wang Ling would hear all of these words..

Chapter 1968 1,964: Every Daoist Spell Is Within Range (1/92)

Every Daoist spell in the world was a branch of the Heavenly Dao. No matter how profound and abstruse it was, as long as one grasped the relevant Heavenly Dao, they could easily analyze the principles behind the spell.

Wang Ling had a total of 30,000 Heavenly Dao in the ten universes, so every Daoist spell was within his range.

Wang Ling had never learned the giant arrow before, but as long as he had seen it once, or even heard someone describe the relevant data of the spell, it wouldn’t be difficult for him to copy it.

Luo Lan, a grade ten fog mage, came from Shuangxi City’s Shuangbi district. She was also one of the model itinerant cultivators who had fought the invasion of the demon world many years ago and had been awarded the honorary title of “City Hero.”

It was very difficult for others to imitate such an obscure and unpopular fog technique, especially since Wang Ling not only had to imitate it, but also had to use Li Changzhe’s hand to imitate Luo Lan’s feeling, normally, it sounded like an impossible task.

“Master, have you heard all of Luo Lan’s information clearly?”

At that moment, Odd Zhuo’s voice rang out in Wang Ling’s ears.

His electronic bracelet had originally been given to him by Wang Ming.

With the communication port that Wang Ming had deliberately set up, the data that Wang Ling needed could easily be transmitted to him at the first opportunity through the other insiders.

So in fact, at the Nine Heavens Precision Search Academy Command Center, Teng Luchen and the others were closely monitoring the other side of the screen, while the Battle Ancestor Command Center was also monitoring this battle simultaneously, they were also promptly feeding back the data that Wang Ling needed.

“The fog resolution spell, huh.”

With the clear data feed back, Wang Ling’s mind suddenly became much clearer. At the same time, he was glad that he had patiently listened to Odd Zhuo’s data.

Otherwise, if he directly copied the “Fog resolution spell”, it would be a little too forceful. Luo Lan’s fog resolution spell wasn’t as strong as he had imagined, although it was a lot of gimmicks..

The mist spell was just an ordinary fourth-level spell.

It was not easy for Li Changzhe to enter the third level at this age. If he wanted to enter the next level, he would have to repair it for dozens of years.

However, even if it was a fourth-level spell, it would still have a great effect on the battlefield after being trained to the top level.

Luo Lan was famous because he had trained this fourth-level spell to the tenth level and had a special title: Mist Mirror Flower.

Under the water mist mirror flower state, the human body could be atomized for up to an hour! Not only that, under this special atomization state, a part of the atomized body could be turned into a real body to attack, thus catching the opponent off guard and making it impossible for the opponent to predict the defense.

Qu Shuling had done his homework on Chang-zhe Li. He knew that Chang-zhe Li's biggest idol was "Luo Lan."

And now, if Chang-zhe Li really had a hidden identity, it was highly likely that he was Luo Lan's disciple.

This made Qu Shuling's heart waver for a short moment. As a lonely genius, he didn't want to accept this unimaginable result..

Since he was young, he had trained alone from loneliness. He had groped his way to this day, but he had never received any help from anyone, all the resources he had received had been earned through his hard work after he climbed up to the top of the "Genius" throne.

There was a time when Qu Shuling had yearned for a master to accompany him on the path of cultivation.

But now, as he gradually got used to the path of cultivation, he suddenly realized that the people around him who were also called "Elites" and "Geniuses" all had masters!

"You also have a master, right, Chang-zhe Li..." Qu Shuling's eyes were bloodshot as he fought fiercely with Chang-zhe Li with one hand holding Night Slayer. Sparks flew everywhere as he slashed with his sword.

"I don't have a master, Brother Qu... Shouldn't you calm down? I think you're already a little confused." Chang-zhe Li was incoherent, he didn't know how to explain to Qu Shuling that he really didn't have a master.

Even if he did, his master had to be Luo Lan, but what kind of person was Luo Lan... one of the city's heroes! Odd Zhuo of No. 60 High School was a legendary itinerant cultivator who had been given the same honorary title back then.

How could it be easy to take such a person as a Master?

Moreover, Luo Lan had also said back then that if he wanted to recruit disciples, that person would have to cultivate the "Mist dispelling technique" to at least the sixth level before he was qualified to take him as a master.

Now, he was only at the third level..

To train to Luo Lan's level of "Mist-resolving technique" was simply nonsense!

Chang-zhe felt extremely wronged. He was not good at close combat. What he was better at was using the "Mist-resolving technique" to launch guerilla attacks. By attacking, he would wear down the opponent's physical strength and then seize the opportunity to win with one move.

However, Qu shuling was almost a hexagonal warrior. In such a wounded state, his physical strength was still terrifying. Chang-zhe felt that if this continued, he would definitely lose.

"Mist technique!"

With no other choice, he had no choice but to use his specialty again to split himself into a cloud of mist. Through the mist technique, he could get a chance to rest and recover some of his physical strength.

Under normal circumstances, the "Mist dispelling technique" of the third heaven would not last more than three minutes. This was the longest time that Chang Zhe had ever used before. If his spiritual power was exhausted.., it was already his limit to last for one minute.

Hiding in the mist dispelling technique, Chang Zhe was trying hard to think of a countermeasure. He could not continue fighting with Qu shuling like this. He had to seize the opportunity to send Qu shuling away after the next materialization.

However, what surprised chang-zhe was that.

This time, his fog seemed to have no end..

Three minutes..

Four minutes..

Six minutes..

Chang-zhe was completely shocked. He estimated that the time of his fog was far longer than the limit of the technique he used before!

What... What was going on?

He couldn't believe it.

Even Qu shuling was getting impatient. "How much longer do you need to hide in this mist? Come out and fight me!"

Six minutes had passed, and chang-zhe Li's heart rate had completely recovered. In the middle of the silent battlefield, there was only Qu Shuling's somewhat miserable roar.

"What the hell..."chang-zhe Li was extremely surprised. His mist spell had already lasted for more than ten minutes. According to the calculation of a normal spell's realm, this was at least the standard of the fifth level of the spell.

"Did my mist technique perform better than usual?"?

For some reason, chang-zhe Li suddenly felt that he was in a very good condition.

While he was secretly shocked, he threw a tentative punch at Qu Shuling's face while he was using the MIST technique.

When the mist fist got close to Qu Shuling's face, it was obvious that the part of the mist fist froze and turned into a physical body for a short time!

Bang!

An unbelievable scene happened.

Li Changzhe's fist landed on Qu Shuling's right cheek. Before he could react, he was sent flying..

In front of the monitor, Teng Luchen couldn't sit still anymore. He stood up and exclaimed, "It's the tenth level of the mist-resolving technique! Mist-reflecting flower! I was right. He is Luo Lan's disciple!"

Chapter 1969 1,965, Gradually Forgetting The Purpose (1/92)

The tenth stage of the mist dispelling technique, water mist mirror flower..

This unique technique, Luo Lan, had only been used once by the public, so the data was extremely precious.

It could only be said that the nine heavens fine search academy was indeed worthy of being the vanguard organization for gathering talents. Even with such rare data, they still had records in their background database.

Under Jing Heqiu's synchronous search, the data comparison results quickly appeared.

"It's exactly the same... it really is the tenth stage of the mist resolution technique, the Water Mist Mirror Flower!" He was extremely surprised.

In fact, before Teng Luchen confirmed that Li Changzhe had used the water mist mirror flower, many people present had already fallen into a state of shock.

After all, this was a unique skill that Luo Lan had only used once in public. Now that such a unique skill could be reproduced, it was definitely not something that could be learned through hard work alone. She must have received guidance from Luo Lan!

In other words, Li Changzhe's identity as the disciple of this fog master Luo Lan was practically confirmed!

"Good, good! What a great harvest!"

Teng Luchen was grinning from ear to ear. This joy stimulated his mind and made him completely forget about Wang Ling for the time being.

"Congratulations, elder Teng! Congratulations, elder Teng! We've found two more hidden true talents!"

Jing heqiu hurriedly led the crowd in a bow and rejoiced. “Although it doesn’t seem like we’ve found out whether student Wang Ling has a hidden identity this time, we’ve also found out that Li Changzhe and Zhang Linyan are two crouching dragons and phoenixes at the same time... Elder Teng’s foresight is indeed accurate! This is simply Heaven’s will!”

Teng Luchen was very pleased with himself, and this praise made him even more elated.

But after all, in front of so many people, he still didn’t show it on his face.

After clearing his throat., he hurriedly said, “Old Qiu, immediately activate the talent care plan. Special attention and protection must be given to student Li Changzhe and student Zhang Linyan. At the same time, someone must be sent to secretly contact their families; we absolutely can’t let these two be poached by foreign schools.”

“Understood.”

Jing heqiu nodded. “Then student Wang Ling...”

“There’s no rush. We’ve already reaped a bountiful harvest this time. In any case, there are still a few days before the sect grand competition. If he really is a talent, he’ll definitely give himself away,”Teng Luchen said with a smile and a wave of his hand.

At that moment, all his attention and mental energy were on Li Changzhe and Zhang Linyan, and he felt inexplicably at ease.

Although he hadn’t completely given up on tracking down Wang Ling yet,.

After discovering the two hidden great master disciples, chang-zhe Li and lin-yan Zhang, for a moment, Teng Luchen felt that Wang Ling didn’t seem to be that important anymore.

“Oh, right, Old Qiu, don’t forget to look for the whereabouts of the Arrow god Chu Tianjue and the fog god Luo Lan. I want to know where they were last seen, and I need to be accurate. I will personally handle the matters related to them,”Teng Luchen said.

“Understood, elder Teng.”Jing heqiu nodded and bowed respectfully.

..

On the other side of the battlefield, Qu Shuling, who was already injured, was sent flying by Li Changzhe’s unexpected “Water mist mirror flower”.

The punch hit Qu Shuling’s cheek. Although it wasn’t a vital part, it happened to hit the edge of Qu Shuling’s skull precisely because it was unexpected, the shockwave from the collision knocked Qu Shuling out on the spot.

He was already injured, so it was reasonable for him to be knocked out by the punch.

Seeing that Qu Shuling didn’t move anymore, Chang Zhe turned his body back into a solid body. For some reason, he felt that he was far from reaching his limit today.

If Qu shuling hadn’t fainted, his mist-dispelling technique would have been able to continue for a few more hours..

That was strange. Although it wasn’t the time when he didn’t perform well in the past, today’s performance wasn’t exceptional at all. It was an ultimate evolution!

“Good for you, chang-zhe... you really are related to the mist god Luo Lan! That move just now was definitely the mist-dispelling mirror flower!”

Zhang Linyan preemptively asked, “Don’t try to fool me. This move is not ordinary. Without years of hard work, you wouldn’t be able to get it by chance!”

”...”chang-zhe Li was instantly speechless. He stared at Zhang Linyan and thought to himself that women were cunning. She had just shot Chu Tianjue’s giant arrow! But now, she turned her attention to himself!

“You still want to ask me? Why didn’t you say that you...”

Just as he was about to retort, Lin-yan Zhang immediately changed the topic and looked at Qu Shuling, who had fainted. “Now is not the time to talk about this. The key is still Qu Shuling. How should we deal with him?”

Chang-zhe Li sighed. “It is indeed difficult. It would be a bit unkind to send him away while he is unconscious. Besides, it is not good for us to eliminate him. After all, we are still a gang.”

“But if he wakes up, he will definitely not be satisfied. If he still pesters us, it will be difficult.”

Zhang Linyan had a headache. “Oh right, I have a spirit binding God here. It is a spiritual artifact that I obtained after entering the trial field. Why don’t we tie him up first?”

At this moment, a group of miners who had been hiding in the distance, shivering and watching for a long time, walked over under Tie Yi’s lead.

The script had once again developed in a way that no one had expected. As the leader of the miners, Tie Yi had naturally received new instructions from the command post.

He immediately looked at Wang Ling and the other two and said, “How about this, the three of you, I’ll do as Miss Zhang says and tie him up with a spirit weapon first. Then we’ll send a few brothers to take turns keeping an eye on him.”

“But what if he wakes up?” Zhang Linyan asked.

“Don’t worry, Miss Zhang, we brothers won’t let him wake up...”

“Big Brother Tie Yi means...”

Zhang Linyan looked terrified. “But it’s not very good to kill him...”

“No, I didn’t say kill him... Miss Zhang, you misunderstood.”

Tie Yi wiped his sweat. “Although it’s a mess around here now, I know that we should go deeper into the back mountain. There is a kind of spiritual fruit called deep dream. “Grind the collected deep dream into jam and give him some every four hours to ensure that he will not wake up.”

“There is a deep dream fruit here?” Chang Zhe raised his eyebrows.

“Yes, we are also very surprised.” Tie Yi smiled awkwardly. “When we were in the middle of a fierce battle, a few of us went out to explore and found that there was a deep dream fruit here... it was as if a large patch of it suddenly grew.”

Li Changzhe laughed heartily when he heard this. “How could such a rare spirit fruit suddenly grow out in such a large patch without any catalytic magic treasure?”

Wang Ling:”...”

It could only be said that the deep dream fruit was a very rare fourth-grade spirit fruit.

When combined with other spirit plants to refine medicine, the fruit would have an unexpected effect.

It was a famous pill tranquilizer that could neutralize some wild natural treasures, making it easier for the refined pill to be absorbed by the human body.

But if it was just used as an ordinary sleeping pill, it would be a bit wasteful.

But now, this seemed to be the only way to stabilize Qu shuling.

The deep dream fruit was harmless to the human body. Moreover, Qu Shuling was injured now. With the help of the deep dream fruit, it could also help him recover from his injuries during sleep.

It could only be said that Chang Zhe and Zhang Linyan had considered the consequences.

Although they didn't like Qu Shuling, he was indeed a top-notch genius in many people's eyes. If they eliminated Qu shuling due to internal strife., all of the elite cultivators from Huaxiu nation might face ridicule from the outside world.

After making the decision to place Qu shuling, chang-zhe Li looked at Zhan Ye, who was standing beside Qu Shuling's body. The blade of his sword had already split open.

He thought for a moment, and ultimately decided to disarm him.

Then, Li Changzhe directly picked it up, he handed it to Wang Ling. “Brother Wang Ling, I’ll leave Brother Qu’s Zhanye with you for the time being. The sword spirit and the Sword Master are telepathically linked. Brother Qu is now unconscious, and the sword spirit is also in a coma, so you won’t be in any danger if you take him.”

“You’re the weakest, and you’re still using that useless peach wood sword. Although this Zhanye is split open, it’s quite useful. It can be used for self-defense.”

Wang Ling:”...”

Chapter 1970 1,966: Wang Ling’s Thoughts (1/92)

Wang Ling wasn’t too surprised by Qu Shuling’s decision. In essence, Li Changzhe and Zhang Linyan were both kind-hearted people.

He realized that as long as they were close friends by his side, they didn’t lack this quality.

Although they didn’t really like Qu Shuling’s attitude, and even started to hate him after they had participated in two spirit world trials and learned his true colors, they were still willing to believe that Qu shuling could be changed.

Of course, the bigger reason wasn’t just because Li Changzhe and Zhang Linyan foolishly believed it, but more importantly, because of his nationality..

Wang Ling lamented in his heart that it was his nationality that had saved Qu Shuling’s life.

Although Li Changzhe was a talkative person on the surface, he was actually very shrewd. Qu shuling now represented the top class image of elite high school students.

There were countless people watching him from outside the trial ground. If he directly eliminated Qu shuling in the trial ground now, it would undoubtedly be an act of destroying people’s jobs.

Although he could feel good for a while, at the same time, he would also draw fire on himself.

“Just let Wang Ling use this cracked spirit sword. Moreover, the strength of the spirit sword itself is the reason why the sword spirit fell into a coma along with the sword master. How strong can this crack be? We have to think of a way to repair it.” Zhang Linyan suddenly said, directly interrupting Wang Ling’s train of thought.

“There’s an old weapon refining furnace in the good people sect that can be used to repair it. “But... we have to figure out what exactly this Zhan ye is made of. Otherwise, we’ll have to repair brother Qu’s sword,” said the first senior brother of good people peak.

“That’s easy. “It’s just repairing the crack. We’ll use a little bit of material to mash it up and fill in the crack. Then, we’ll go back to the furnace and bake it again.”. “Eldest brother, don’t get involved in this matter. If we want to repair Zhan Ye, I’m afraid the old furnace on good people peak will explode.”

Li Changzhe put his hands on his waist and smiled. “There are so many heavenly materials and earthly treasures in the back of the mountain. There are tier 4, tier 5, and even higher ones. Isn’t this better than Zhan Ye’s own materials? I think we should wait until we’ve collected the materials before we discuss it.”

“This...”

The audience was at a loss for words after hearing what the Prodigy had to say.

Although the vast majority of people here weren’t artifact masters, the steps to repair a crack... didn’t seem to be like filling the crack with materials and then roasting them again.

Li Changzhe’s words overturned many people’s understanding.

He was deliberately trying to trick Qu shuling..

Wang Ling Thought for a moment, and as he stared at the cracked night Slayer in his hand, a different thought arose in his mind.

About an hour later, at the entrance of the non-phase peak, a pitch-black spirit sword with cracks on it was carrying a bundle across the sky in front of the commander-in-chief’s camp where the twenty peaks were gathered.

When the people of non-phase peak saw this scene, their hearts instantly turned cold. They knew this sword; they knew that it was Qu Shuling's natal spirit sword..

Now that a crack had appeared, and it had suddenly appeared in front of the enemy's commander-in-chief's camp, this was definitely not the result of Qu Shuling's own manipulation.

Qu shuling... had been defeated!

This scene undoubtedly raised the morale of the people of twenty peaks.

What kind of character was Qu Shuling?

A lofty and unworldly genius had actually been taken down by their combined efforts!

"This game is really interesting. Are they sending US trophies?" Super Chen stretched out his hands in front of the commander-in-chief's camp, and saw Zhan ye firmly holding the package in his hands.

Lotus Sun saw this and quickly walked over; she knew that this was from Wang Ling.

Although there wasn't any information about Wang Ling on it, now that she had become one with the Ohai Man Sword, her sword heart was bright, and her six senses were infinitely magnified, her sense of smell was also multiplied.

She could smell Wang Ling on this night slayer..

It proved that Wang Ling had touched this sword and had even delivered it here.

Lotus Sun immediately opened the package, which was filled with tier four and tier five heavenly materials and earthly treasures, blinding everyone on the spot.

In the group voice transmission spell, Gu Shunzhi spoke to Lotus Sun. "I understand, Miss Rong. Ling Zhenren wanted us to repair this spirit sword, so he brought so many heavenly materials and earthly treasures with him. But..."

Gu Shunzhi was silent for a moment and couldn't say the second half of his sentence.

Because he could see that most of the heavenly materials and earthly treasures in this package came from the back mountain of the non-phase peak in No. 2 training ground, but there were some heavenly materials and earthly treasures inside... which absolutely couldn't appear in this training ground, and were now mixed in this package.

These heavenly materials and earthly treasures were very small in size, so they were easily overlooked. They were hidden in these large heavenly materials and earthly treasures, so they would not be easily discovered.

However, people who knew the goods could still distinguish them with a glance.

This was because the spiritual Qi concentration of high-level heavenly materials and earthly treasures had a difference that surpassed the essence. Even if they were small in size, the concentration was also extremely shocking.

For example, under this parcel, there was a spiritual jade that was only the size of a dollar coin. Gu Shunzhi could tell with a glance that this was an eighth-level high-level material, the heaven-connecting wall.

Moreover, this material couldn't be found in the real world or in the trial grounds, because it was a heavenly treasure from the Divine Dao planet and belonged to the divine realm.

As a keeper of order, Gu Shunzhi's ability to identify things was online, and any cultivator with a bit of experience could actually see it.

At that moment, he and Zhenyuan were both staring at the sky-piercing wall, and their expressions were very interesting as they tried to figure out Wang Ling's intention in providing this level eight material.

So this was..

He wanted them to use these high-level materials to repair this night severing sword?

As for the level four or five heavenly materials and earthly treasures they had collected on the back mountain, was this just a cover-up?

Gu Shunzhi was a little confused.

Qu Shuling's relationship right now should be hostile.

This night severing sword was his personal possession, and using such good cosmic materials to repair it was simply a waste..

However, Gu Shunzhi decided to do as Wang Ling asked for the time being.

This was Ling Zhenren's decision!

How could ordinary people like them figure it out?

"Senior Gu, don't say half of the words, okay? But what?" Lotus Sun asked.

"It's nothing," Gu Shunzhi said. "Ling Zhenren is right in wanting us to repair this sword, but the heavenly materials and earthly treasures used to repair it have already been specified. "In this bag of heavenly materials and earthly treasures... only one of them is used for repair, and the others are all disguises. "There should be a ready-made and excellent tool-refining furnace on non-phase peak. As for the repair work, I think we'll leave it to fellow Daoist Zhenyuan."

"Oh, right!" Lotus Sun suddenly realized.

She had almost forgotten.

This senior Zhenyuan was the real boss of the tool-refining world!

After all, this was the existence that created the gate between worlds back then!

To immortal Zhenyuan, repairing a high school student's spirit sword was definitely a matter of hand.

But now, even Zhenyuan's hands were trembling..

After all, he had to fill a universe-grade material into a high school student's spirit sword... if he made a mistake, things would become very awkward.
