

## Dan God 1061

### [Chapter 1061](#)

The medicine used to refine Qi Shen Dan was very special. Although it was a kind of fruit, it was rooted in its roots and its roots were very long. During the process of growing, it was very likely to have problems, which resulted in a lot of abandoned herbs.

Every fruit was connected to a wrist sized root, and the fruit was only the size of a child's fist, looking like a wrinkled apple. It was slightly red, giving off a faint trace of spirit energy.

Zhang Yanqing quickly picked out two quality profounddi fruit and threw them into the furnace, beginning to refine them! Because these profounddi fruit were of the worst quality, when the two of them were combined, the Medicine aura would be more complete. However, if they did not have some skill, it would be very difficult for a normal Alchemist to fuse two together like this.

This was not difficult at all for Chen Xiang. Forget about combining two, even if it was ten, he would still be able to obtain a hundred portions easily, let alone two.

profounddi fruit s were the only main ingredient in refining the Qi Shen Dan, they were all piled up with a piece of tree root, and this root was not simple at all. As long as one was connected with the profounddi fruit, they could still absorb the spirit energy from the outside, preventing the profounddi fruit from dying quickly.

"What a waste, to actually throw away this cut root, this cut root is as important as the profounddi fruit!" Su Meiyao used her divine sense and saw that when Zhang Yanqing was dealing with the medicinal herbs, he separated the profounddi fruit from the tree root and threw away the tree root.

When Chen Xiang picked up a piece of the tree root, he could clearly feel the strange spirit energy inside. It was indeed a very important thing, but the root was also very strange, it was actually as stiff as iron, and there were even many impurities inside.

"After the profounddi fruit tree absorbed a large amount of spirit energy, it would send the spirit energy into the roots of the tree, allowing them to grow. But when the roots grew very long, they would become as stiff as iron, and then give birth to profounddi fruit s. Therefore, this piece of tree root contained a Medicine aura as unique as the one inside the profounddi fruit! If you can melt this root and extract the impurities from it! This profounddi fruit's quality is just like normal, perfect. " Su Meiyao said.

"This is not difficult for me. I have refined an entire Sparite vein and refined countless mountains before. How difficult can this thing be?"

Chen Xiang directly threw the piece of root and the profounddi fruit into the pill furnace, he had only dealt with a few parts of the trash that could be removed.

"Does he know how to forge pills?" The profounddi fruit was actually thrown in at the same time. Was he refining a weapon or concocting pills? That piece is harder to smelt than iron! "

"Although there are quite a few Medicine aura s in that cut root, to refine this root to perfection is extremely difficult! Even though Zhang Yanqing possessed the Heaven Flame, he still did not do such a thing.

"Don't joke with me. If you guys were the one who threw this piece of tree root in, it might have exploded by now!" Look at them, they are stable in all four directions, the fire's intensity fluctuates between big and small, and the fire's intensity changes quickly, but it's not chaotic. It's very regular. " An old man stroked his long beard.

There were a lot of people watching the competition at the entrance of Xi Yi Pavilion. There were a lot of Alchemist s, but there were not many that could see through a bit, and as long as it was a Alchemist with a high level of alchemy, they could see that Chen Xiang's foundation was extremely deep. Even Zhang Yanqing had no choice but to look at the person in front of him in a new light.

According to the change in the fire force in Chen Xiang's furnace, a small portion of the Alchemist knew that it was Chen Xiang's first time concocting this pill, and could also tell that Chen Xiang had used the Foreseeing Alchemy to correct his mistakes multiple times. If it was let the other Alchemist do the concocting, they would probably be flustered the first time, but Chen Xiang did not.

Lin Xiyi and Fan Yakun knew of Chen Xiang's abilities. They had all been defeated by Chen Xiang in the field of pill concocting and Chen Xiang had taken first place among the Sacred Dan Realm s back then. They now believed in Chen Xiang very much and looked forward to the pleasant surprise that Chen Xiang would bring them.

The difficulty of the Qi Shen Dan's refining process was not very high, but if it was to be refined with that piece of tree root, it would be rather difficult. For Chen Xiang, refining that piece of tree root was not difficult, what was difficult was that in terms of time, it was only for one day, and the other party was an extremely proficient genius who was able to refine this pill. Chen Xiang guessed that Zhang Yanqing definitely had the experience of refining this kind of pill many times before, and that the Alchemist who could turn this type of medicinal herb into a pill was very popular in any power.

As expected, Zhang Yanqing very quickly finished refining a furnace, he had only refined one pellet, and the final result was to compare the number of pellets he had concocted, and after Chen Xiang refined the root, he was confident that he could refine two!

"The heavenly fire is powerful indeed, it is much stronger than my Heaven fire!" Although Chen Xiang had his eyes closed, the situation inside Zhang Yanqing's pill furnace appeared in his mind. As a Spirit Cultivator, he could easily see through it with his strong divine power, not to mention that his opponent's pill furnace had won in an ordinary way.

Not only were the materials hard to incinerate, even the Medicine aura inside them were very "barbaric". If there was a strong enough flame, those Medicine aura would become much gentler under the appropriate strong flames. Having strong flames did not mean that one would burn it hard, but to control the heat of the flames according to the experience of the Alchemist. If one did not suppress the Medicine aura, it would lead to failure in concocting the pills.

However, after your Heaven fire evolved into a Heaven Flames, it will be close to the Code. No matter how strong a Fire of Chaos is, they are still within the Code. " Su Meiyao said.

Chen Xiang was multitasking. As he refined his own set of Qi Shen Dan, he observed the situation inside Zhang Yanqing's pill furnace and learnt from it how to refine pills. He learnt a lot from this.

His speed was extremely fast, causing many old Alchemist who were watching to feel inferior. Many people guessed that Zhang Yanqing would only need half a day to refine all of the Qi Shen Dan's medicinal ingredients, and then, he would even be able to refine all of Chen Xiang's medicinal ingredients!

Even so, Chen Xiang was still very calm, he was not nervous at all, this state of mind was quite admirable, but many people did not look favorably on him.

In a few moments, Zhang Yanqing had refined another furnace and his speed was even faster than before, causing many Alchemist to exclaim in disbelief. Now, many people understood why Zhang Yanqing was called the future Pill Saint!

### [Chapter 1062](#)

That guy still has five hundred and twenty profound fruit s. According to his current fastest speed, he should be able to refine fifty batches in two hours. He can refine two of them in a single pot. Long Xueyi said: "But he can only produce one pill per furnace."

Chen Xiang was still refining his pills at a leisurely pace, not affected in the slightest by the other party's terrifying speed. This was because he was extremely confident in himself, as long as he was familiar with refining Qi Shen Dan, he would assimilate the methods inside the Heavenly Alchemy.

Based on the current situation, even if Su Meiyao understood Chen Xiang's ability very well, she didn't know how he would win. However, she knew that Chen Xiang would definitely use the heaven defying method inside the Heavenly Alchemy.

"He has already made ten batches, he hasn't even made a single batch!"

"Hehe, looks like after he refines this furnace, he will finish refining his own ingredients before going back to refine his. It seems like he's definitely going to lose."

"He won't suffer much loss if he loses. At most, he'll only damage the reputation of the Xi Yi Pavilion."

"With his current speed, he basically has no chance of winning, but why is he still so calm?"

Chen Xiang had now linked his consciousness with the furnace and sealed off the connection to the outside world, making the furnace exist only in his mind. It was as if there was only him and the furnace in this world, because he had reached the most crucial moment!

"My Heaven fire is definitely not weaker than the heavenly fire. Previously, when I was going through the Thousand Refinements Tribulation, I swallowed the Fire Seed condensed by the Robbery power. The reason I am unable to unleash the power of the Heaven fire right now is because in my heart, I am telling myself that after the Heaven fire evolves, it will cause me a great deal of harm! "

Chen Xiang already felt an inexplicable sense of restlessness. He told himself rationally that now was not the time to release the Heaven fire, because once released, his Heaven fire would very likely evolve into a Sky Fire. With his current strength, he simply could not suppress that kind of terrifying flame.

The reason why he had such a thought was because he had seen Li Baojun's strong Heaven Flames. Now, he was even clearer on the convenient place for the genius pill refining competition to use the Heaven Flames, which made his heart crave for it!

"I myself am very clear, that my current physical body cannot withstand the power of my Heaven fire's evolution. I have already mastered Immortal Devil Body, but I am still unable to withstand that flame! It could only mean that the fire was not as simple as the Heaven Flames! What kind of flame would that be? "

Chen Xiang suppressed the impulse in his heart, and allowed himself to become rational. Otherwise, he would lose his mind from the desire in his heart, and make an irreparable mistake.

"The Heaven fire is already very powerful, but I haven't made full use of them yet." Chen Xiang unleashed his formidable divine power, allowing his divine power to drill into the insides of the medicinal herbs, allowing him to clearly see the structure of the herbs. After that, he brought the flames in and permeated through the fine parts of the herbs.

This was the first time he had entered the interior of these medicinal herbs. Inside was a vast world, and this world was filled with many different colors, which was why it was emitting such a beautiful multicolored light! The world inside was full of vitality, which was why there was such a strange life force. After it was consumed by a person, it would produce other effects!

Chen Xiang now understood the meaning of "flower and world". At this moment, he knew that even though he was burning the world inside these medicinal herbs, he wasn't destroying them, but rather allowing them to blossom in the brilliance and color of his beautiful internal world!

In that instant, the profounddi fruit and the chunk of tree root, which were originally difficult to smelt, instantly turned into a ball of soft, dazzling light. Chen Xiang never thought that he would actually have such a breakthrough. Furthermore, the reason why he refined the pellet was to destroy the medicinal ingredients, suppress them, tame the medicinal ingredients, and burn them all to become Medicine aura s.

However, when he saw the inner world of these medicinal herbs, he wanted to make the inner world of these medicinal herbs disappear in the best way. It was beautiful and shocking, like a shooting star! He understood the world of these flowers and fruits, and inadvertently had a strange exchange with them, causing them to give up resisting, cooperating with his Heaven fire, and melted into a colorful Medicine aura!

"I didn't expect it to be wrong for so long!" Chen Xiang opened his eyes and took a deep breath. He had already withdrawn his spiritual will and flames. Seeing him like this, many people thought that he had failed and gave up.

But at this moment, the Medicine aura inside the pill furnace had already gradually fused with the medicinal powder, and quickly turned into a cyclone. Following Chen Xiang's will, the ball of air split into three, turned into three balls of air, and spun quickly.

The most critical and difficult time of concocting the pill, he actually did nothing. However, many people were able to understand what he had done, and it actually caused the Medicine aura in the pill furnace to gather its own consciousness, forming its own pill!

Many Alchemist had noticed that when Chen Xiang had not completed the Core Formation stage, he had concealed all of his power and no longer used his flame and consciousness to control the pill furnace.

Even Su Meiyao didn't know how Chen Xiang did it, she guessed that it was a method from the Heavenly Alchemy, but it didn't seem like it.

Chen Xiang opened the lid of the pill furnace and green light shot out. It was as if a treasure was born, causing everyone to be dumbstruck. What was even more surprising was the three light green pills that floated out of the furnace!

Unexpectedly, there were three Qi Shen Dan s formed, and their quality had reached its peak. The three Qi Shen Dan s had an extremely bizarre life force coiling around them, making people feel as if these three pellets were three little lifeforms, and that the aroma was like the spring breeze, gently spreading out in all directions, releasing a fragrance that would cause one's heart to tremble, showing just how high the quality of the three Qi Shen Dan s was!

To be able to refine three pellets with the roots, it was still unbelievable because even if one used the most perfect and highest quality profounddi fruit to refine, they would only be able to push the price to the limit by three pellets. The three Qi Shen Dan in front of him were like treasures!

There were already people who planned to buy these Qi Shen Dan at a high price after the competition ended.

Hou Feishao sat in the palanquin, watching until his eyes turned red. His heart was filled with jealousy, he could naturally see that this Alchemist was not ordinary, he felt that this genius Alchemist should either be roped in, or killed!

Although he managed to refine more than ten batches, he knew that if they were to compare their value, the over ten Qi Shen Dan s he refined would be far inferior to Chen Xiang. Furthermore, Chen Xiang had only used one portion of the medicinal ingredients, but he had refined ten.

### [Chapter 1063](#)

In front of everyone's shocked eyes, Chen Xiang calmly placed the three Qi Shen Dan s into an empty jade box, and then casually took out ten of them from the pile of medicinal herbs.

After adding some supplementary herbs, he actually stuffed these ten portions into the pill furnace. Today he was going to refine ten portions in one go, and he even had roots. That was equivalent to ten pieces of black iron, how was he going to refine them?

Many old Alchemist were shocked. This kind of refining technique shocked the world, and many old Alchemist suddenly felt that the person in front of them had a very familiar feeling. ka. Lin Xiyi and Fan Yakun's memories of him were still fresh in their minds, and now that they could see Chen Xiang's godly skill again, they were even more surprised.

Before, many people thought that Chen Xiang would definitely lose, that he would definitely defeat Chen Xiang with a very good result. But now, it was hard to say, because Chen Xiang did not use common sense to refine pills when he was refining pills, and had completely broken through many of the iron rules set for when he was refining pills.

After Chen Xiang had comprehended that method just now, he was trying again. He did not even bother to process the herbs, and after placing it in the pill furnace, he released his divine power to explore the world inside the herbs!

Before, when he used the Heavenly Alchemy to refine mountains, refine lands, and even Sparite vein, these things were all extremely large in scale, allowing him to see the "world" of these things very directly. On the other hand, the Heavenly Alchemy could refine the world, and as long as he could see through some things, he could release flames.

The Heavenly Alchemy was able to refine many large-scale objects, and all of them had been turned into intense flames by borrowing the spirit energy of the heaven and earth. And now, Chen Xiang had already observed the insides of these medicinal ingredients, within these strange and unique herbs, there was also a world. It was just that this world was not known to anyone, as long as he could establish a miraculous connection with these strange and unusual herbs, he could make these medicinal ingredients gentle and easily condense them into pills. Now he wanted to use the Heavenly Alchemy, just to get stronger flames, so that he could quickly burn these medicinal ingredients from the inside out!

At this moment, many worlds appeared in Chen Xiang's mind, all of them being the worlds of those medicinal ingredients. They were similar to what he had seen before, and unknowingly, he had already guided the flames in and infiltrated them. However, their speed was not fast enough.

What he needed to do now was to refine ten batches of ingredients simultaneously in a single pill furnace. It was equivalent to refining ten batches of pills in a single pill furnace! This was also the Dawan refining method in the Heavenly Alchemy, but in the past, he had released ten Magic method furnace s at the same time, and now he had released ten Magic method furnace s in one pill furnace. Of course, because the space inside was too cramped, it was very difficult to do it. He could only burn all ten portions of herbs before splitting them into thirty cyclones!

If this wasn't a competition, he could still condense these ten sets of medicinal herbs into a pill, but that would require a lot of time.

"There's not enough fire!" As expected, the profounddi fruit's roots are hard to melt! "It's even more difficult than when I was refining mountains." Chen Xiang thought, but he knew that the Spirit Qi contained in the mountains were limited, and had even dispersed, and could not compare to the profounddi fruit's roots. He had to refine many mountains, in order to condense a high quality pill.

Heaven Sacred City was on the eighteenth floor of the Sacred Dan Realm, which was very high. Furthermore, the immortal energy in the city was very dense, Chen Xiang had never tried to turn the immortal energy into fire before.

Using the method in the Heavenly Alchemy, he began to let the furnace absorb a large amount of immortal energy, fusing it with the Heaven fire in the furnace and transforming it into a strong flame.

At this time, everyone present could see a few streams of mist drilling into Chen Xiang's furnace, and the fire energy in Chen Xiang's furnace was getting stronger and stronger, comparable to Zhang Yanqing's, actually borrowing immortal's Qi to strengthen the flames. This method was something many Alchemist looked forward to.

Hou Feishao gritted his teeth when he saw this. This Alchemist with such talent was actually inside the Xi Yi Pavilion. At this moment, he was somewhat regretful that he allowed Zhang Yanqing to mess things up, because this would definitely affect Zhang Yanqing.

Although he was extremely arrogant, he still knew his own limits. He had already refined twenty batches of Qi Shen Dan, and had successfully formed twenty Qi Shen Dan, but when the twenty Qi Shen Dan s were added together, it felt like they were not even comparable to the three perfect Qi Shen Dan s that Chen Xiang had refined!

Chen Xiang was currently in a very good state, his entire body was completely clean. The herbs in the pill furnace were just like before, suddenly they started burning, from the inside, they quickly dissolved into a gentle Medicine aura and medicinal powder, after that the two of them intertwined, fused, and finally merged together, forming a very big ball of air. Chen Xiang only thought about it carefully, and the ball of air automatically turned into thirty small balls.

He had not tried condensing thirty pills in a single furnace before, because the current furnace did not have any special functions. If it was a Yanlong furnace, then there was a lot of space inside, and there was also time to speed up, but even if he did not use the Yanlong furnace, he could still make it this far!

Everyone was dumbstruck, especially when Chen Xiang retracted all of his energy! However, the activity inside the furnace was extremely intense, and many people had already guessed that Chen Xiang was planning to refine thirty pills in one go!

But now that Chen Xiang had stopped, the interior of the pill furnace started to calm down. The speed at which he was refining one furnace was actually faster than Zhang Yanqing's.

The lid of the pill furnace opened, and the green colored light that gushed out was like a dragon emerging from the sea. It howled out and pierced through the clouds, dazzling everyone's eyes and making their souls tremble!

"Is he even human?" Many people could not help but think that the person in front of them was an existence rumored to transcend the mortal world. Only the rare pill and Holy level would have such earth-shattering power when refining pills.

"Thirty pills!" Everyone suddenly felt their bodies go soft, one furnace for 30 pills, the quality was exceptional, they had already threw Zhang Yanqing to the side. Zhang Yanqing had only used around 20 pills, and had even used 40 more sets of ingredients.

At this time, everyone felt that there was no longer any need to compete anymore. The outcome of the battle had already been decided, especially Zhang Yanqing's current state, which had a great impact on him.

Hou Feishao gritted his teeth and clenched his fists. He wanted to kill this genius Alchemist right now, because he knew it would be very difficult to win him over!

Zhang Yanqing took a deep breath. At this time, he had also condensed a pill, and a Qi Shen Dan with a quality not inferior to Chen Xiang's appeared in the pill furnace. This made him immediately feel confident.

Chen Xiang closed his eyes. He did not immediately refine any pellets, but looked like he was recovering his Qi. This made Zhang Yanqing and Hou Feishao extremely happy, they thought that Chen Xiang had to rest because he had exhausted himself.

Many people felt the same way, but was that really the case?

#### [Chapter 1064](#)

Before Chen Xiang recovered, he used up a lot of energy because he was prepared to refine even more in one go, and even if he succeeded, he would need some time to digest the huge gains he had just made. This was a type of breakthrough in cultivation, and only through luck and coincidence could raise his cultivation through comprehension.

Seeing Chen Xiang not making a move for a long time, Zhang Yanqing and Hou Feishao started to mock him in their hearts. And relying on the fact that Zhang Yanqing had the Heaven Flames and his talent in alchemy, the quality of the pills refined within each furnace was extremely high. This was also because of the pressure that Chen Xiang had given him earlier, which was why he had no choice but to improve.

But he still needed two sets of ingredients to concoct a single pill, and he could not refine all of the roots like Chen Xiang did. Many people understood that Chen Xiang had already grasped the trick to refining the roots.

In the blink of an eye, more than four hours had passed but Chen Xiang still remained motionless. He closed his eyes and meditated, while Zhang Yanqing had already refined more than a hundred and thirty Qi Shen Dan s in a hundred batches.

Just in that short amount of time, he was able to turn these abandoned medicinal herbs into so many Qi Shen Dan. This made many people understand more deeply how terrifying a terrifying thing was for a power to possess such a genius Alchemist.

Just when Zhang Yanqing and Hou Feishao were extremely calm and collected, Chen Xiang finally made his move. He actually took out twenty profound fruit s with roots, but the pill furnace definitely could not hold that many, causing everyone to open their eyes wide and look carefully, wanting to see what exactly he was going to do.

However, Chen Xiang had only placed 10 into the cauldron, while leaving the other 10 outside. However, he had not sealed the lid, he had actually wanted to open it to concoct the pill!

If not for the fact that he didn't want to expose his identity, Chen Xiang could have used a relatively large Magic method furnace to refine it, which was much more convenient than his current state.

The cover was useless to him because he could "conjure" a transparent cover and cover it with it. This way, the Medicine aura would not be lost.

This time, he would still absorb immortal energy and enter. Using the Heavenly Alchemy, he turned the immortal energy into a raging fire and assimilated it into his Heaven fire, causing the flames to become even stronger.

Many Alchemist were able to distinguish the degree of melting of the medicinal herbs from the clouds, and the rate at which the clouds were melting was also extremely fast, which meant that the melting

speed was also very fast. This made it hard for people to believe that the ten black iron like roots were like paper, which melted in an instant.

This was something that even Zhang Yanqing could not do. Zhang Yanqing had the Sky Fire, and he had previously tried to melt the tree roots. Although it could be melted, it would take a very long time.

When the flame was burning these strange flowers and plants, the strange flowers and plants would instinctively release their powers to resist, preventing the flame from penetrating inside. When the flame was burning these strange flowers and plants, the strange flowers and plants would instinctively release their powers to prevent the flame from infiltrating inside of them.

But right now, Chen Xiang was directly igniting a fire inside these spirit herbs, and was burning it from the inside out. This was because he was able to enter the world inside these spirit herbs, conduct a profound exchange with them, and open the doors to these spirit medicines, which was why it was so easy for him to burn these medicinal herbs!

However, currently, it was limited to Qi Shen Dan's medicinal ingredients. He did not know if this move would work on other medicinal ingredients, nor did he know what would happen when facing higher ranked medicinal ingredients.

Seeing Chen Xiang using his strength once again, the pressure on Hou Feishao and Hou Feishao was extremely great, especially on Hou Feishao. He loved to show his face, so if he lost, not only would he be laughed at, the legend of their Super Yuan Mountain's genius, Alchemist, would also be broken.

In a few moments, Chen Xiang successfully refined the ten sets of spirit herbs into thirty pellets. This made Zhang Yanqing's eyes turn red, and with Chen Xiang's high utilization rate, he could refine thirty pellets out of ten pellets, but Zhang Yanqing needed sixty pellets to refine thirty pellets!

After the thirty Peak quality s were out, the flames inside the furnace had still not extinguished!

After Chen Xiang placed the Qi Shen Dan into the jade box, he actually hit the side of the pill furnace lightly and pierced a hole in the middle of the pill furnace!

Seeing this scene, everyone started to shout frantically in their hearts, thinking that Chen Xiang had gone crazy, to actually damage his pill furnace at this time!

Bang!

Chen Xiang then pierced through another hole in the middle of the other side of the pill furnace and then created another two holes on both sides of the furnace!

Chen Xiang's actions made everyone puzzled, but Chen Xiang quickly told them the answer!

The flames inside the pill furnace were still burning. Although there were four holes, the flames inside the furnace did not leak out, only seeing that Chen Xiang had quickly filled the holes at both sides of the pill furnace with profounddi fruit s and some supporting medicinal herbs. At the same time, he had also used a secret technique to quickly fill the holes at the bottom of the pill furnace with immortal energy.

Although there were holes on the pill furnace, they were all sealed by Chen Xiang. The light rays from the holes were burning the roots of the trees, while the dregs were shooting out from the mouth of the furnace and into the sky, it was truly a quick method.

Everyone could see that this broken pill furnace seemed to have some sort of mysterious power. It was crazily devouring immortal energy to strengthen the flames, and the speed at which the elixirs melted was extremely fast. All of the impurities sprayed out from the top!

After the spirit medicine in the furnace melted, it rushed to the top layer of the furnace, and slowly condensed into a pill there. And at this time, Chen Xiang once again poured the spirit medicine into the center layer, he actually wanted to continuously "refine the pill"!

He really wanted to know what kind of evil power Chen Xiang used to be able to defy the heavens. This was the first time he had seen this kind of pill refinement technique, and he had never even heard of it before.

Hou Feishao's current gaze could kill, his face was full of jealousy and anger. This was purely because of his own mental state, he could not bear to see others in such a state! He was strong, but in the Sacred Dan Realm, the Alchemist was the king, and Fan Yakun's pill refining skills were much more profound than his. Even Lin Xiyi was much stronger than him, if not for the fact that Fan Yakun was injured, her strength would also have already far surpassed his.

And now, in Fan Yakun's and Lin Xiyi's shop, there was actually such a heaven shocking and heavenly looking Alchemist, even Hou Feishao had to admire his pill refining skills!

The biggest drawback of using Heavenly Alchemy to convert immortal energy into fire was that it consumed a lot of divine power. Furthermore, the fire was not his own, so he needed more control over it, so using it for a short period of time wouldn't be a problem.

Although Chen Xiang's furnace was full of big holes, there was not a single bit of Qi leaking out from within. The entire furnace was extremely smooth, which was truly amazing.

#### [Chapter 1065](#)

The fire within the pill furnace was intense, and from the holes, one could see the raging fire inside, while the surrounding immortal qi was still pouring into Chen Xiang's pill furnace.

Chen Xiang knew that his own divine power wouldn't last long. If he kept at it for too long, a large amount of his divine power would be consumed. Given his current situation, he needed to maintain about half of the power in his body in order for him to be able to avoid danger.

"Come in!" Chen Xiang waved his hand and grabbed towards the pile of spirit herbs, then a huge hand formed from white mist appeared in the air and grabbed all the spirit herbs used to refine Qi Shen Dan, and moved them all to his furnace. Then, he began to crazily stuff the spirit medicine into the furnace and at the same time, seeped his divine power into the inside of the spirit herbs, allowing the flames to burn outwards from the inside.

The spiritual herbs that had just entered the pill furnace quickly turned into mist, and rays of light filled the air.

In the blink of an eye, Chen Xiang had already stuffed dozens of sets of medicinal ingredients into the furnace, causing the Medicine aura s to condense in the furnace, causing the light clouds to become even stronger!

The light beams coming out from the holes in the pill furnace quickly weakened, because Chen Xiang had already condensed the pill. However, the moment the pill was formed, the light beams were extremely bright and gushed out again.

This way, Chen Xiang could condense pills quickly and continuously. This method almost made many Alchemists kneel, as long as it was a Alchemist, there was no one who did not want to reach this level.

Chen Xiang's pill refining skills were strong to begin with, and he had an extraordinary talent. Now that he had cultivated the Heavenly Alchemy, he had once refined countless mountains and vast lands into pills.

Of course, this was also his peak level of alchemy, if he was asked to refine a high grade Ground level pill, he would probably not be able to do so. But he also planned to try it again when he had the time, and use the method to refine a Qi Shen Dan.

Many people were jealous and envious. Even though it was clearly an abandoned elixir, it was still able to concoct such a pill and refine it so quickly, this made many Alchemists upset about the abandoned elixirs that they lost back then.

In just two hours, Chen Xiang had refined all of the abandoned profound fruit. There were four hundred of them in total, and all of them were successful.

"I must buy one of these Qi Shen Dan. Who knows, this person might become a Pill Saint in the future!"

"I have to buy them too. It looks like he's going to win, all these Qi Shen Dan will go to him! He, who can calculate for me, how much is his Qi Shen Dan worth? "

"He... What is he doing? " A person suddenly shouted in alarm.

Chen Xiang came to Zhang Yanqing's side, and actually picked up Zhang Yanqing's medicine, and started to refine pills using his crazy method just now!

There was a rule that stated that if the person who refined the first medicinal herb had more medicinal herbs, they could use it to refine the other party's medicinal herb!

However, everyone felt that it would be better for Chen Xiang, because Chen Xiang gave more pills and the quality was better than Zhang Yanqing!

This action was equivalent to fiercely stepping on the faces of Zhang Yanqing and Hou Feishao, which made them extremely furious. Especially Hou Feishao, he had wanted to attack Chen Xiang multiple times, but he knew that if he did so, he would be mocked by the crowd in the future.

Zhang Yanqing still had more than three hundred pills that he had yet to refine, and they had all been refined by Chen Xiang at his fastest speed!

After another two hours, Chen Xiang had used up more than half of his divine power and Innate Qi, but he had still managed to refine more than two thousand Qi Shen Dan, causing the two's medicinal ingredients to be completely refined!

Zhang Yanqing looked at his own few Qi Shen Dan s, then looked at Chen Xiang's big basket of Qi Shen Dan s, clenched his fists, and a wave of jealousy and hatred rose in his heart. He was the future Pill Saint of the great Sacred Dan Realm, the number one young Alchemist, yet he had lost so miserably!

The victor had already been decided long ago, so no one was surprised at this moment.

"You've lost!" Fan Yakun said excitedly. For Chen Xiang to be able to refine all those abandoned spirit herbs into two thousand Qi Shen Dan, this level was something that no one in the entire Sacred Dan Realm could match.

Zhang Yanqing angrily looked at Fan Yakun and, especially at Chen Xiang's calm expression, making him the most furious. He had defeated, but he was not happy at all, as if winning against him was something insignificant, he had never been looked down upon so much before.

Hou Feishao's eyes were filled with killing intent. He walked out of the sedan, and slightly frowned: "I have never heard of your name before. Are you a Alchemist? Or was it that Fan Yakun had invited them today? "

Chen Xiang said: "I'm just a nameless junior. It's normal that you don't know me. I joined the Xi Yi Pavilion three days ago. As long as you are a Alchemist, you can accept the challenge on behalf of the Xi Yi Pavilion. "

"This doesn't count. You just arrived!" Hou Feishao's eyes flashed, anyone could see the light of annihilation in his eyes, he was actually going to act shamelessly.

"Why doesn't it count?" Fan Yakun was slightly angry.

"I admit that I have underestimated your Xi Yi Pavilion. I originally thought that all of your Alchemist s were a bunch of unranked fellows. I didn't know that your Xi Yi Pavilion had such a Alchemist, otherwise I would have invited even better Alchemist to compete with you. " Hou Feishao laughed complacently.

"So you're saying that you're asking Zhang Yanqing to challenge our group of unrated people, is that also telling us that Zhang Yanqing is unranked?" Chen Xiang sneered: "I think that a few skilled Alchemist would be able to tell that this is my first time refining a Qi Shen Dan, and at the very most, I can only refine a middle grade Ground level pellet. According to what I know, this Alchemist you invited can refine a Heaven level Pellet!"

Zhang Yanqing was so angry that his teeth were about to shatter.

Hou Feishao's face froze as he gritted his teeth and said angrily, "Arrogant fellow, I'll smash your mouth to pieces today!"

While talking, Hou Feishao's fists were like lightning, it was wrapped with a layer of terrifying golden mist, it looked to be a very powerful trap, on top of it were many sharp thorns, it looked extremely terrifying.

"Stronger than a fist?" Chen Xiang laughed inwardly, and without dodging at all, he actually punched out to receive it, and his aura was even more overbearing than Hou Feishao's.

Hou Feishao suddenly attacking Chen Xiang was already within many people's expectations. Previously, Hou Feishao had done many of these things, but Fan Yakun had always been at such a disadvantage.

When everyone saw the Golden Thorny Fist, they thought that Chen Xiang was done for, but after seeing Chen Xiang's fierce counterattack, they were all shocked. This seemingly weak Alchemist, her strength was actually this strong.

Bang!

The two punches clashed, causing a loud sound to ring out, the ground trembled for a moment, then crackled with a crackling sound, Hou Feishao's arm seemed to have some sort of explosion, the flesh and bones within cracked and shattered, and flesh flew everywhere!

"Ahh ..." Hou Feishao cried out miserably, as he cried out in pain, "It's the power of chaos ... Who the hell are you? How do you know how to use the power of chaos! "

### [Chapter 1066](#)

The little bit of Chaotic Force that Chen Xiang used was something that he had absorbed from Fan Yakun's body. Although it was only a little, after he mixed it with the Dragon Power, it unexpectedly had an unexpected effect and directly subdued this Hou Feishao. /

The few experts who were protecting Hou Feishao rushed forward, but were stopped by Hou Feishao: "Let's go!"

Those who could use the power of primal chaos, definitely could not be trifled with. Although Hou Feishao was rude and unreasonable, his grandfather had often reminded him so, especially when he met people with no known surname!

How could Hou Feishao forget about his previous pill refining skills? The Chaotic Mountain was very big. Although it was very chaotic right now and the Super Yuan Mountain was the strongest, there were still many experts in the Chaotic Mountain, especially some great alligators or Dan Immortals.

In the Chaotic Mountain, there were only a few people who were familiar with how to use the power of primal chaos. Therefore, even if Hou Feishao suffered a huge loss, he could not continue on.

Zhang Yanqing and Hou Feishao were escorted by the elders and before they left, Zhang Yanqing looked at Chen Xiang with a gaze that made everyone's hearts tremble.

The danger of the Xi Yi Pavilion had finally been resolved. Chen Xiang gave Fan Yakun a thousand Qi Shen Dan, and Fan Yakun did not want them for free. He gave Chen Xiang a lot of medicinal ingredients and high quality pills, such as those high quality Ground level s and Five Elements Profound Dan s.

After exiting the city, he rushed towards the Zi Lan Mountain Valley. Before he left, he also warned Fan Yakun and Lin Xiyi to be on their guard against Hou Feishao, and to escape the moment things went wrong, even if there were mountains ahead of them.

"These guys are really annoying, I knew it would be like this!" Chen Xiang did not change his appearance. Instead, he left the city the day he competed with Zhang Yanqing in pill refining, which was why he was followed.

But Chen Xiang did it on purpose, if he was to leave the city quietly, no one would notice him. Like he had expected, Zhang Yanqing and Hou Feishao were here, he had disguised himself and followed behind the two old men.

"It seems like they don't have any intention of plotting against you!" Long Xueyi said.

"Could it be that they wanted to confirm that you had left the Heaven Sacred City and then make their move against that young couple?" Bai Youyou laughed coldly: "This is our chance to get rid of them and prevent future troubles!"

That was why he was able to change his appearance and lure all of them out. However, he felt that Hou Feishao and the others must have followed him for some other reason.

"This Super Yuan Mountain really does have some strength. The two old fellows that they sent out are not weak either, and should be able to match up to those sage realm experts. If you don't use Magical corruption gas, you won't be able to kill them." Long Xueyi said.

"They are indeed very strong. If I move further away from the Heaven Sacred City, would they attack me?" Although he had a different identity now, if he was discovered using the Magical corruption gas, it would harm Fan Yakun and the others greatly.

Chen Xiang used Heaven tour method, allowing his own spiritual will to transform into an invisible spirit body, and floated out, approaching and eavesdropping on the people following him.

After leaving the Heaven Sacred City, Hou Feishao and the others who were following him suddenly increased their speed and approached him!

"This fellow is not from our Chaotic Mountain, he uses the power of chaos that he does not. Fortunately, the two elders were able to see through it, so we can act against him and force him to hand over that pill refining method!" Hou Feishao laughed sinisterly: "I have solved it, I'm not afraid of that brat Fan Yakun anymore. Lin Leyan will be mine sooner or later."

"Then let me kill him with my own hands!" Originally, his fame had plummeted when he lost to Chen Xiang, which made him even more furious at Chen Xiang.

"You guys should move faster. Don't forget that we still have to go to the meeting. You, Great Elder Primordius, is waiting for us!" An elder said indifferently.

"Is that meeting important? When Grandfather sent the message back, his voice was very serious!" Hou Feishao said.

"It's important, it's related to the treasures in Chaotic Mountain. You should know that a group of people suddenly came over from another world some time ago, and those people were strong and weak, all of the big shots in the different forces have a map." An elder said.

"It is said that Chen Xiang, who caused great losses to our Chaotic Mountain in the past, came over at that time, and killed many people of our Super Yuan Mountain. I heard that Du Yanyao from the Du Family is his good friend!" Hou Feishao could not help but reveal a trace of jealousy on his face: "But to think that he would fall in love with Leader's grandson's eyes, this guy refused to back down in the slightest, and insisted on snatching it away from me!"

After hearing their conversation, Chen Xiang could immediately guess that the broken map was the piece of stone in his hands. The piece of stone was hidden by the ancestors of the Purple Moon Imperial

Land, and now that one had fallen on his body, it meant that the ancient powers had obtained a complete map.

"Let's do it from the front!" Hou Feishao said.

After Chen Xiang heard this, he quickened his pace and entered a forest at the side. This made Hou Feishao and the others anxious.

Just as they were unable to see Chen Xiang, Chen Xiang had activated the power of the spatial laws within his body, allowing himself to travel through space to stay away from Hou Feishao and the others.

However, the Perception Body he released before was still staring at Hou Feishao and the others. Hou Feishao had such a strong killing intent toward him, and he even planned to kill Fan Yakun and the others mercilessly.

"He's in the forest, there's traces of his aura here. He's on guard, it seems like we've been discovered, chase him!" An elder said anxiously.

This was an aura that Chen Xiang had intentionally left behind, and it was something he had done to delay them.

"Little Naughty Dragon, hurry up and use the Heaven tour method and use the fastest speed possible to go to Zi Lan Mountain Valley. Bai Xing was a Starry Sky White Tiger Race, after awakening the inheritance of her memories, she had become very strong. If she were to come here, even if she could not beat the two elders, but if she were to summon her stars, she would definitely be discovered by the White Tiger.

As long as the White Tiger arrived, he had nothing to be afraid of.

"I wonder if the big white cat can sense it." Long Xueyi knew what Chen Xiang was thinking, and muttered a few words, before immediately following Chen Xiang's instructions. Her divine power was stronger than Chen Xiang's, and her Heaven tour method was also much stronger than Chen Xiang's.

An old man from the Super Yuan Mountain shouted at Chen Xiang: "Don't run, we have no ill intentions towards you, we only want to invite a person like you to our Super Yuan Mountain as a guest, we will definitely treat you as an important guest!"

"Even a fool wouldn't believe you!" He continued to flee in all directions in the forest, trying to buy as much time as he could so that Long Xueyi could find Bai Xing.

### [Chapter 1067](#)

Moreover, they had chased him for so long. They could only occasionally catch a glimpse of Chen Xiang's shadow, which made them extremely impatient.

had just refined so many Qi Shen Dan that he could finally use one now to recover his Innate Qi and divine power. Even if he were to eat one, he would be able to rely on the power of the spatial laws to travel through space and circle in the forest when facing powerful old fellows.

They did not use their fastest speed because Ao Hou Feishao and Zhang Yanqing could not keep up with their speed. However, if they were to lose sight of Hou Feishao and Zhang Yanqing, they would be worried that these two juniors would be set up again.

Now that they were stuck in a dilemma, they definitely couldn't withdraw because their actions had already been discovered. If they couldn't take down this person in front of them, who knew what kind of revenge they would take? The two old men had lived for so long that they were able to see the origins of the person they were pursuing. Otherwise, they wouldn't have that supreme pill refining technique and Chaotic Force that even they couldn't cultivate.

Chen Xiang, Hou Feishao and the rest of the four walked around the forest for more than an hour, causing the two old fellows to wish that they could destroy the forest, but they could not guarantee that they could kill Chen Xiang. Their original goal was to capture Chen Xiang alive and force him to reveal the secret manuals for refining pills, but they no longer had that thought, they only wanted to kill Chen Xiang quickly.

"Elder, why hasn't he left the forest? Is there a trick here?" Hou Feishao said worriedly. He was already out of breath, and using all his strength, he and Zhang Yanqing could only barely keep up with the two elders.

"No, he didn't know that we were following him. He only found out later that he was fighting against us in this forest because he wanted to find an opportunity to kill you two!" The elder's words scared Hou Feishao.

"Why don't we go!" Hou Feishao clenched his teeth, although he wanted to kill Chen Xiang very much, but he suddenly felt that his life was in danger, and could not help but feel afraid. He had lost an arm to Chen Xiang, so he was very clear that the elder did not speak ill of him.

His arm had also only recovered from the treatment of some precious medicine. Now that he saw that the person in front of him was so difficult to deal with that the two elders were unable to take him down, he felt scared.

If this person doesn't die, then we will be in trouble in the future. He is currently fighting with us, and he did not use the fastest speed, moreover, he has an extremely strong concealment ability, if we let him go today, then once you guys leave Super Yuan Mountain, it will be very troublesome. "Su Yun said in a low voice. The elder said.

The other elder nodded in agreement, "This person is constantly maintaining his peak state. He's keeping an eye on the other two."

Zhang Yanqing's face paled as he clenched his fists tightly and gritted his teeth: "Clan elder, does that mean that he's purposefully fighting with us because he wants to kill the two of us?"

"That's right!" However, you don't have to worry. As long as the two of you are by our side, it will be difficult for him to have a chance.

Chen Xiang was extremely calm, and he had the same thoughts as the other two elders. He must kill the four people who were chasing him, otherwise, Fan Yakun would be in deep trouble in the future.

"We got in contact with the little white cat. She just happened to leave the Zi Lan Mountain Valley. I have already used your voice to send a message to her!" Long Xueyi said: "Wait until she gets closer to here before we can talk to her."

Chen Xiang owed a debt of kindness to Bai Xing, allowing this lonely Starry Sky White Tiger Race to know that she was not the bane of beasts. She also knew that he was a strong race and that he had given her great power.

The distance from here to Zi Lan Mountain Valley was quite far, but Bai Xing was from there, so of course she had her heaven defying abilities. She turned into a shooting star and flew towards the forest at a high altitude.

Chen Xiang dragged this group of people for another hour, and at this time, Bai Xing had already entered the forest. When Chen Xiang's Divine Sense entered and saw Bai Xing, he immediately sent a sound transmission to her, "Sister Bai Xing, quickly hide!"

"Chen Xiang, I never thought that you would get into so much trouble the moment you arrived at the Sacred Dan Realm! Rest assured, you have done us four sisters such a great favor, I will definitely not let anything happen to you." Bai Xing's clear and sweet voice came out.

"Four sisters?" He only remembered the three sisters Yan Zilan, Yun Zhu and Bai Xing!

"And Yanyao, she's already one of us!" Bai Xing replied with a chuckle, but there was a trace of a sigh in his laughter, because a major change had just occurred in Du Family and Du Yanyao had also received a huge blow.

After Bai Xing entered the forest, she immediately concealed herself. She knew that Chen Xiang's true strength wasn't very strong, but his potential was incomparably great. That day, when they thought that Chen Xiang had died, they couldn't wait to kill Primordius. Now that they found out that Chen Xiang was still alive and had created a big commotion, they were extremely happy.

"Currently, the people chasing me are Zhang Yanqing, Hou Feishao and two elders from Super Yuan Mountain. I can take care of them, but those two elders are too troublesome." Chen Xiang sent a sound transmission to Bai Xing, and Bai Xing slowly got closer to them.

The Starry Sky White Tiger Race was a branch of the White Tiger Fighting Race, and there must be a Celestial Slain Method in the inheritance of memories so that they could dominate the Star Domain. Back then, the White Tiger had also said that when he obtained the Heaven Earth Killing Method, he would generously give it to the other powerful people to learn, allowing everyone to choose the most suitable sect to cultivate and pass on their legacy.

Of course, at that time, the White Tiger was passed down to his friends, but later on, the descendants of his friends were all unfriendly towards the White Tiger Fighting Race, with many conflicts, and their strengths were equal.

"Is it really this little demon? This is the grandson of Primordius, and his talent is not bad. If we kill him, Primordius will definitely be very angry!" Bai Xing's voice carried a mischievous smile.

The terrifying fists of the two Super Yuan Mountain Elders smashed onto the small piece of meteorite. In that instant, a deafening explosion accompanied with a burst of water-like light that stirred up an incomparably berserk astral wind, swept across the entire piece of land, and the forest where Chen Xiang and the rest were in, was even more severely damaged.

There was some distance between this place and the Heaven Sacred City, but everyone in the Heaven Sacred City knew about it. Moreover, there were many powers near the Heaven Sacred City, so this kind of earth-shattering event had already alarmed many big shots.

"Are you okay?" At that time, Bai Xing had already hidden high up in the sky, she looked down at the ground that was filled with hot air, and sent a sound transmission to Chen Xiang through the divine sense Chen Xiang left in her sea of consciousness.

"I'm fine!" Chen Xiang walked on this land that was filled with ruins, completely unharmed. This was because just now, he used the power of the spatial laws to travel to a space that was separated from this place and hid within. However, he had used up a lot of his energy, so he could only hide for a short period of time.

The two elders of the Super Yuan Mountain were powerful as expected, not only did they destroy that small star, they also managed to preserve Zhang Yanqing's and Hou Feishao's lives. If not for them breaking that meteorite in time, then if it had hit the ground, the power would have been even stronger. But they were hurt.

Hou Feishao and Zhang Yanqing sat paralyzed beside the two clan elders, with blood flowing from their mouths, there was even a silver white light barrier on their bodies, that was used to protect them.

"This... Is this something that guy made?" Hou Feishao's face paled. He never thought that his opponent would be so powerful, to actually be able to injure two elders of the Super Yuan Mountain s.

"It shouldn't be... Because he has already disappeared. It seems like he is a meteorite that came from beyond the heavens." An elder was also uncertain. However, he still chose to believe that this was the power of nature. Otherwise, it would be too terrifying.

Zhang Yanqing heaved a sigh of relief and could not help but laugh. "Haha ... Even the heavens do not like him. Good, good, good, good!"

Hou Feishao also laughed out loud, "There's nothing left of you, your soul is gone, your death was truly tragic, this is the result of going against me."

Just as they were laughing, Chen Xiang had traveled through space and arrived behind Hou Feishao. The moment Chen Xiang appeared, the scorching ground that had been destroyed by the meteorite was suddenly enveloped by a strong killing intent, causing gusts of fierce winds to blow between heaven and earth!

Chen Xiang's Killing-god heart crazily throbbed. The Killing-god heart's thought of killing, had turned the energy in his body into an extremely terrifying killing power. Combined with his God slain method, he had an even more brutal strength!

"Humph!" Chen Xiang was like a god of death, the killing intent around his body was captivating. The white tiger glove on his fist was filled with killing intent, making him look like a god of slaughter.

The two clan elders of the Super Yuan Mountain were so frightened by the killing intent that they retreated a few steps, but just as they reacted, Chen Xiang's fist that was filled with killing intent rushed towards the smiling Hou Feishao!

Bang!

The fist directly went through the light barrier released by the immortal robe, violently smashing on Hou Feishao's nose, causing his entire face to cave into the ground. At the same time, the boundless killing intent rushed out from the fist and poured into Hou Feishao's body, destroying his body and turning it into black qi!

After the fist landed on Hou Feishao, its power did not diminish at all but continued to sweep through him. It turned into a wave of energy which struck towards Zhang Yanqing and pierced through the silver light barrier before striking him in the chest, instantly killing him and turning him into a black mist!

After killing two people, the terrifying murderous intent that had enveloped the world suddenly disappeared!

In the past, Bai Xing was so shocked that she couldn't even speak, making her suspect that Chen Xiang was the Battle God's reincarnation. Right now, she was sure that Chen Xiang was extremely familiar with their Battle God's ancestor, the White Tiger.

When the White Tiger killed people at the auction, it killed them in a single blow, turning their bodies and souls into black mist.

Although the two of them were injured, they were still very powerful, and one of them punched over. The oppressive force caused Chen Xiang to be apprehensive, he anxiously stepped onto the Shrinking step to dodge, and at the same time, the place had already turned into a huge pit, the space had already collapsed, and was self-repairing itself.

"What happened?" The voice in the air was like a thunderclap, full of an oppressive aura.

"It's Primordius!" Chen Xiang was shocked, the space in the sky started to collapse, and a person walked out.

"This Primordius' strength has increased by a large amount!" Chen Xiang realised that this Primordius was much stronger than before.

"Grand Elder, your grandson was killed by this person." An elder said angrily.

### [Chapter 1069](#)

He wore a snow-white robe, and upon hearing those words, his face suddenly changed. He looked terrifying, and an imposing manner surged out from his body, his robe fluttered wildly, causing the earth to tremble violently as cracks appeared on it. His eyes were bloodshot, and anger and killing intent immediately enveloped the area. /

"Capture him! We can't let him die too easily! I'll torture him for 10,000 years!" The angry roar of Primordius was like that of a beast that had lost its mind.

Bai Xing had no choice but to take action at this moment. She had previously summoned that little star and consumed a lot of her power, but both she and Chen Xiang did not expect that the mixed element would suddenly appear.

"Hurry up, leave this to me!"

Bai Xing sent a sound transmission to Chen Xiang, transforming into a white light that swooped down, he waved his hand at the two elders who were rushing towards Chen Xiang, the two energy stars filled with a dense killing intent struck the two elders' bodies, causing them to vomit blood.

"Aren't you from Zi Lan Mountain Valley? I never thought that your Zi Lan Mountain Valley would actually kill my grandson.

Both of Primordius's eyes were completely red. With a whoosh, he arrived beside Bai Xing and punched out like a violent thunderbolt towards Bai Xing.

Looking at the terrifying force coming at her, Bai Xing was unable to dodge at all. Her body was actually locked on by a kind of power, she lowered her head and saw that her body was surrounded by a bloody red light. When the punch was about to destroy her, in a flash, she actually escaped from the shackles of the red light!

He was also shocked, because what suddenly appeared in front of his fist was actually a large broken rock!

Chen Xiang felt a splitting headache, he had just used Form Displacement Shadow to exchange for a rock. This consumption was too huge, because Bai Xing was very strong, when Bai Xing was condensing his energy to resist the outside world, he used this technique with difficulty, but he was still able to do it.

"Catch that brat, don't kill him!" I said I would never let him die too easily. " He then rushed towards Bai Xing.

The two injured elders immediately threw themselves at Chen Xiang. They had suffered heavy injuries one after another, and it was extremely difficult for them to deal with Bai Xing, but to deal with Chen Xiang, they felt that it was still okay. At this time, they could see through Chen Xiang's strength, if Chen Xiang was strong, they wouldn't have been able to dodge them.

Bai Xing had not recovered yet, but facing Primordius, she basically did not have the strength to fight back.

Chen Xiang felt that he had brought Bai Xing into this mess and must not let her be injured. He said to Long Xueyi: "Lend me your God Power!"

Then, he stepped on the Shrinking step, dodging the attacks of the two Super Yuan Mountain Elders.

After obtaining Long Xueyi's divine power, Chen Xiang immediately used Form Displacement Shadow to help him once again avoid the overwhelming attack of the Primordius.

"Sister Bai Xing, I'm sorry for putting you in such danger!" Chen Xiang held Bai Xing's hand, and directly brought her through the dimension.

"How are you?" Bai Xing hurriedly helped Chen Xiang up. She was surprised to see him clad in terrifying armor.

"He won't die!" Chen Xiang spat out a mouthful of blood and then tightly held onto Bai Xing's hand. He planned to use his last bit of strength to send Bai Xing away first and then talk after that. He had already planned to use all of his techniques to fight to the death with this Primordius.

"You guys go kill that woman!" He suddenly felt that losing a grandson was nothing, because to let him meet this profoundwu diamond armour, this was one of the Four Symbols Divine Weapons, a very powerful Divine Armor.

The two clan elders rushed forward, holding sharp swords in their hands, and with immortal swords, they stabbed fiercely at Bai Xing.

He felt that if the three of them worked together, they would definitely be able to take down the other party.

Just as Chen Xiang was about to use a secret technique to send Bai Xing away, a familiar aura suddenly appeared. At this moment, he heaved a sigh of relief.

At the same time the three of them rushed over, the earth trembled. The power that confined the space suddenly broke, and a few beams of black light shot towards them.

"Who are you?" His sinister old face was filled with surprise, but after the two elders of the Super Yuan Mountain were penetrated by the black light, their bodies suddenly turned pitch black, and gradually dimmed down.

"Law of Darkness!" He took a few steps back and a black shadow appeared in front of Chen Xiang and Chen Xiang. Then, the black shadow slowly turned into an average looking middle-aged man.

Chen Xiang kept his profoundwu diamond armour and coughed out a few mouthfuls of blood, then said with a forced smile, "Old Ancestor, you're finally here.

"You little bastard, I will deal with you later. You actually brought this little girl here to mess around!" However, he was still very happy to see the clansmen of the Starry Sky White Tiger Race right now. Moreover, he could tell that Bai Xing was not an ordinary Starry Sky White Tiger Race.

The White Tiger wandered around the Sacred Dan Realm and knew that Chen Xiang had stirred up a lot of trouble before, but now it was in a good mood. It was fortunate that he managed to make it in time, otherwise this rarely seen Starry Sky White Tiger Race would have gone extinct.

"Who the hell are you? There's no benefit in opposing our Super Yuan Mountain. If you know what's good for you, then obediently leave!" Primordius said.

### [Chapter 1070](#)

The White Tiger's face was filled with anger. The little white tiger from Starry Sky White Tiger Race was almost killed, but the person in front of it was actually telling him to obediently leave.

"Didn't you hear? This is my Super Yuan Mountain's matter, if you don't want to go against my Super Yuan Mountain, hurry up and leave!" He knew that this average looking middle-aged man in front of

him was very powerful, but he thought that he should have about the same level of strength as himself. If they were to fight, he felt that he could still defeat him.

The White Tiger frowned and looked at Chen Xiang, then asked, "What is the Super Yuan Mountain? I've only heard of Chaotic Mountain! "Right, what kind of hatred do you have with him?"

Chen Xiang said: "Super Yuan Mountain is a power within the Chaotic Mountain. They want to rule over the entire Chaotic Mountain! This fellow's grandson and the elders from the Super Yuan Mountain wanted to kill me, but I was unable to defeat them.

Chen Xiang looked at Bai Xing and continued: "I really didn't provoke them, and they are the ones who want to cause trouble for me. These kinds of people are used to being unreasonable and always cause trouble for others, it's not like you don't know that."

"Humph! You killed my grandson, so I'm going to kill you! It's only right and right!" Primordius shouted coldly.

"Your grandson and the others wanted to kill me, so it's only right that I kill them to protect myself!" Chen Xiang sneered: "You should have taken a fancy to my profoundwu diamond armour. If I were to strip it off to you, I'm afraid that it doesn't matter how many of your grandchildren you die to!"

He glared as he threw a palm towards Chen Xiang and Bai Xing, the power of chaos transforming into a gigantic palm print that rushed towards Chen Xiang and the others.

The white tiger waved its hand and released a black light, covering the huge palm print. The palm print gradually dimmed, then it disappeared. The power of the Law of Darkness was indeed very strange, it made Primordius angry.

"I only ask you, do you have to kill them?" the white tiger asked.

Bai Xing looked at the white tiger's back. She didn't know why, but the person in front of her had a sense of familiarity, but there was a kind of majesty about him, causing her to feel reverent. She looked at Chen Xiang and heaved a sigh of relief when she realized that his injuries were not serious.

"That's right, we must kill him! But it seems like I can only kill you now. "

His eyes were sharp and filled with killing intent as he looked at the White Tiger. That killing intent was indeed very frightening, but the one standing in front of him right now was a true God of Killers, only, he had obtained the Profound Bead of the Law of Darkness and was using the power of the Law of Darkness to attack and at the same time, conceal his identity.

"Roar!" Primordius roared in rage. A silver light burst out from his body and flew towards the white tiger like a silver arrow.

"Then I can only kill you!" The White Tiger raised its hand and drew a circle in front of itself. Black gas immediately began to rise, and a jet-black, heart-trembling black hole appeared in front of it.

When Primordial Yu saw this, he hastily stopped. He also felt how terrifying that hole was, but he rushed over too quickly. He didn't expect that the White Tiger's Law of Darkness could be used to such an extent, he already couldn't escape!

"Ahh ... " After that, the black hole turned into a mass of black qi and dissipated. That black qi carried with it the unique aura of a God of Death, which was his own power.

Now that he was able to combine the Law of Darkness with his own killing power, although his cultivation level didn't increase, his strength had increased by a lot.

"You are ... "Who?" Bai Xing's elegant face carried a trace of timidness, her head drooped slightly as she asked softly. She only felt that the person in front of her was related to her, and was also very strong.

Chen Xiang laughed: "Sister Bai Xing, he is the White Tiger."

Bai Xing opened her mouth wide, suspecting that she had heard wrongly. She raised her head to look at the White Tiger, who had a kind smile on his face as he nodded to her.

"There are members of my Battle Tribe in Sacred Dan Realm. I had told them to look for you before. Although they know where you are, they did not come to find you because they know that you have a better life." The White Tiger stroked her head.

Bai Xing was extremely nervous at this moment. She felt a little speechless and excited, because she knew that there was still a race in this world that had the same blood as her.

The White Tiger glared at Chen Xiang, "Little guy, did you ask her to come and help you intentionally so that you could lure me over to kill that guy just now?"

"Unjustly accused, I did not expect that guy to appear! I really did intend to lure you out so that you could meet again! " Chen Xiang immediately denied it.

Bai Xing also spoke up for Chen Xiang: "Patriarch, Chen Xiang helped me a lot, don't blame him."

"This kid is just like this. Oh right, is there any places in your memories that your parents have been to before? Starry Sky White Tiger Race has disappeared for so long, I want to know what happened to them in the end. " The White Tiger asked.

"Yes, but in the Heaven Realm's Star Domain ..."

Bai Xing had not finished speaking when the White Tiger suddenly disappeared along with her.

"I will look for the traces of the Starry Sky White Tiger Race with her and also go to the Star Region to learn something on her behalf! "So, you'd better behave for the time being. When the time comes, I won't be able to save you in time." Chen Xiang's mind resounded with the White Tiger's sound transmission.

Chen Xiang moaned: "This guy is actually worried that I'll bring Sister Bai Xing harm? Am I that kind of person? "

"No matter how I look at you, you look like that kind of person!" Su Meiyao chuckled.

Chen Xiang used his fastest speed to leave the place and rushed towards Zi Lan Mountain Valley. After getting punched just now, his injuries were not light, and his speed was much slower.

In the midst of the beautiful forest, Chen Xiang consumed a few pills to help himself recover faster. Primordius's fist had injected a lot of Chaotic Force into his body, but as long as he was able to suppress the Chaotic Force, it would be refined by him.

"That little girl is awake!" Su Meiyao suddenly shouted: "Hurry up and get her out of here, talk to her!"

Dongfang Jing had been taken good care of by Su Meiyao and the others and had changed into clean clothes. When Chen Xiang let her out of the Youyao Ring, she opened her eyes in a daze.

After seeing Chen Xiang, Dongfang Jing's eyes became teary. She had not interacted with many people, but the majority of them were bad people. Although Chen Xiang was also bad in her eyes, he was very good to her.

Dongfang Jing hugged Chen Xiang, leaned on Chen Xiang's chest, and cried softly. Chen Xiang let out a light sigh, lightly patted her delicate back, and comforted her.

"Mm. Father told me that I'll be the only one left in the future. I want to be strong!" Dongfang Jing sobbed. Even though she said that, her tears still couldn't stop sliding down her haggard and beautiful face, making people's hearts ache for her.

Chen Xiang laughed: "And me, and your aunt, if you don't mind, I can be your brother, I will treat you as my own sister!"

"Hmph, another sister. She definitely has bad intentions!" Long Xueyi humphed from inside the ring.
