

## Dan God 1081

### [Chapter 1081](#)

There were also a few Alchemists who followed along, and all of them were glaring at Chen Xiang.

"Why did you eat it?" A Dan King said coldly, his old face full of anger.

"If I don't eat this thing soon, he will run away. This is my experience, don't you know what this is?" Chen Xiang asked with a look of disdain.

There were many experienced and knowledgeable old fellows here, but none of them could recognize this thing. Since Chen Xiang could catch this stalk of mysterious grass from so many weeds, it must be a way to differentiate them.

"Grass Wood Spirit is another type of Caomu heavenly Dan. If you get it, you really need to swallow it down immediately, or else this thing will run really fast!" The one who spoke was Ji Meixian, she had previously told him that Chen Xiang had eaten the Caomu heavenly Dan.

"It's actually Grass Wood Spirit. It's said that people who obtain Caomu heavenly Dan and Grass Wood Spirit can obtain the approval of the Earth, and can comprehend the power of the Earth. What a pity!" This kind of good thing was actually eaten by such a fellow. This made everyone want to hack Chen Xiang into eight pieces and then eat his flesh.

Everyone continued to rush, their killing intent towards Chen Xiang becoming more and more intense, but Chen Xiang ignored them, and continued to run as he allowed his Grass Wood Spirit to fuse with the Caomu heavenly Dan.

However, during the process of fusing, the Grass Wood Spirit would release a large amount of pure immortal energy. Chen Xiang circulated his profound arts, refined all of this immortal energy, and condensed it into the heaven pellet in his five Beast statues.

"There's really a lot of Immortal qi! Once I completely absorb it, I'll be one step closer to transcending the five Nirvana Tribulations!" Chen Xiang was extremely surprised. Right now, his Grass Wood Spirit and Caomu heavenly Dan had not been merged yet, so he did not know what kind of effect it would have after being merged.

It made Chen Xiang want to laugh, but this group of people continued to play around for two or three days before giving up. At this moment, everyone was extremely jealous of this "Dongfang Lingyun", as he was actually able to obtain such a good item, but everyone knew that this person did not have long to live, as long as they finished using it, they could kill him.

"There are many people nearby who are very strong. It seems they all know how to use the power of chaos!" Long Xueyi suddenly warned.

Previously, the Super Yuan Sect Leader had said that they had left the area where the ferocious beasts resided, but that did not mean that this place was safe.

As expected, there were quite a number of people lying in ambush nearby. Seeing the black figures leap over, the experts that had been on guard all took action, unleashing terrifying energies that struck at the

black figures that had ambushed them. All of a sudden, all kinds of light rays flashed, and various types of energy auras howled, blowing over the huge trees and ruining the ground.

"It's the Primal Chaos Berserker Tribe!" Super Yuan Sect Leader's voice was filled with surprise, he never thought that such a thing would appear here.

However, Chen Xiang could see that all of these people had very long hair on their bodies, and had very dense Chaotic Force in their bodies. In addition, their bodies were also very bandit, and Chen Xiang saw that many of the Chaotic Berserkers that were attacked only flew out with no injuries.

"These fellows with Chaotic Force are too fierce, they can actually make their own bodies become so strong!" Chen Xiang wanted to understand how this power of primal chaos came about. Previously, Lin Xiyi said that only strong people could have the power of primal chaos, and in the entire Chaotic Mountain, only a few could do it.

There were also beasts and barbarians of primal chaos among them. He didn't know why any of these things existed in the world.

At this moment, even the Prince Imperial Dragon had made their move. When the other young men saw this, they did not want to be outdone and started attacking the Chaos barbarians.

Chen Xiang did not attack. He stood there and observed carefully, the strongest attacking people were Super Yuan Sect Leader, he could send them flying with a single palm and the Three horns Dragon King was also very powerful. As long as they approached his tribe, they would all be tightly grabbed by their black dragon claws.

"Ah... Why can't I use the Innate Qi!?"

"I can't use it either!"

Everyone suddenly started shouting. The first to shout were all the young people, and then it was the group of old men's turn.

"Not good, it's the Drunk god scent, everyone hold your breath!" Super Yuan Sect Leader was also a lot weaker. He could only send two or three Primal Chaos barbarians flying with a single palm strike.

"One of the Super Old poison s!" An old man shouted in fear. At this time, a black figure pounced over and smashed his head apart with a single punch.

Its face was similar to that of a gorilla, and it was incredibly powerful. The old man's head was smashed by a punch, and then it was torn apart by that Chaos barbarian. The scene was extremely bloody.

"Everyone run!" Super Yuan Sect Leader picked up his grandson, and used his fastest speed to throw him aside, but actually ignored the rest of them.

At this moment, the ancient powers' experts had much of their energy drugged. They didn't have much of their power to use, but they could still use it to escape. They were all dragging a few youngsters with them.

At this moment, some of the weaker ones or those unlucky ones were hit by the Chaos barbarians that were flying towards them at an extremely fast speed. Those Chaos barbarians could use the violent

power of Chaos and make a huge hole in their bodies with a single punch, then their corpses would be torn apart and eaten!

Chen Xiang told Long Xueyi to follow the group of people, and he ran towards the direction where the Primal Chaos Barbarians were pouncing!

The Magical corruption gas of the Super Old poison could not do anything to him, so these Drunk god scent were naturally useless as well. The reason why he ran towards the lair of the Primal Chaos Barbarian was to find the source of those Drunk god scent. This was a good opportunity to call the Super Old poison, how could he let it go?

Chen Xiang had already used the Heaven tour method to observe his front and discovered that someone was burning some white flowers. Those flowers were only the size of a palm and as white as snow, they were extremely beautiful.

After Chen Xiang told Bai Youyou and the others, Bai Youyou said with certainty, "It must be the Drunk god flower! This Drunk god scent was refined from the Drunk god flower, as you have seen just now, even those who are stronger would be in trouble, this belongs to the Super Old poison, so it is prohibited to use it. If anyone discovers it, they will definitely be hunted down. "

"I didn't expect to be here. I really don't know how I got here!" Bai Youyou's older sister was a poison expert, so she knew about it.

## [Chapter 1082](#)

Although the Drunk god scent was a Super Old poison, the process of producing it was different from the Magical corruption gas's. Magical corruption gas required a large amount of dead bodies, and it was only produced by chance, and the Drunk god scent was produced from a type of flower.

White Drunk god flower were piled on the ground. A group of Primal Chaos barbarians that were relatively close to humans were burning these Drunk god flower with torches. It seemed that none of them were affected by the poisonous gas.

Chen Xiang quietly walked to the side of one of the piles, grabbed an unlit one and placed it into the ring. As long as it was not burnt, the Drunk god scent would not be in danger, and they were extremely beautiful.

As long as there was one, he could create a lot of them. At this time, he started to follow the group, and as soon as the Drunk god scent appeared, many people would die, as many people were secretly cursing the Super Yuan Sect Leader for running so fast.

In their eyes, this group of Primal Chaos Barbarians were much more terrifying than the previous ones. What was most unbelievable was that even the Three horns Dragon King had no way out with this poison.

"This poisonous dragon is too weak, even Super Old poison are afraid." Chen Xiang thought, at this time, everyone was still in a state of shock, as they were trying to remove the remaining poison aura in their bodies, and those youths had to wait for their seniors to finish expelling the poison, with the help of their seniors.

Those with relatively weaker strength were now mostly completely poisoned, and the Innate Qi in their bodies could not be used. After running frantically for their lives, their bodies were completely powerless and their bodies were weak as they sat there, easily able to kill them.

In order to not attract too much attention, Chen Xiang pretended to be poisoned and was trying to force the poison out of his body. However, in reality, he had obtained the Grass Wood Spirit from refining the poison, so when the audience saw that he was still able to escape alive, they all secretly rejoiced.

"Super Yuan Sect Leader, do you know the origin of these Primal Chaos barbarians? They actually possess such a terrifying thing like Drunk god scent, if we were to be used on a large scale by them, the consequences would be unimaginable, or if it was obtained by some other vicious person, then it would be even more dangerous. I think we should eliminate them. The Prince Imperial Dragon said.

Chen Xiang sneered in his heart, he felt that the current Prince Imperial Dragon and these big shots of the powerhouses would definitely want those Drunk god flower, but they did not have the guts to take it now.

Super Yuan Sect Leader shook his head: "I have always come alone in the past, when I met them, I tried my best not to clash with them. It's just that this time, there are too many of us and we even fought against them, that's why they use this thing! The Primal Chaos Barbarians are not as simple as that. They only attack the ones with the lowest status among us. The strongest ones among them are roughly the same size as us! "

Chen Xiang had also seen those people just now. They were indeed different from the barbarians of Primal Chaos. Now, everyone could tell from the expression of the Super Yuan Sect Leader that those people were not to be trifled with.

"Wait until we find those items. If we increase our strength by a lot, we can discuss further!" Leader Jin Yang said.

"That's right. The Primal Chaos Berserker Tribe possesses such a dangerous item. We can't let them use it to commit crimes everywhere."

Chen Xiang suddenly felt extremely disgusted. If that group of Primal Chaos Barbarians had sent those Drunk god flower over, this group of decent looking fellows might have already fought over them. He had already obtained a Drunk god flower, and when he had time, he would personally use the creation divine liquid to study more.

This could not be done for Su Meiyao and Bai Youyou, as he was worried that he would be poisoned by these two women.

He had mastered two of the more powerful Super Old poison s. He felt that these Drunk god scent were not as powerful as the Magical corruption gas, but rather, they were capable of killing!

"If you can refine the Drunk god flower into powder and sprinkle it onto people's bodies, it will spread even faster. This poisonous gas will only be produced by simply burning it! To create an incredible poison, one has to refine the best thing in it through pill forging! " Bai Youyou had a certain understanding of poison concocting: "If it's powdered, once it's inhaled a little, the poison would

become even more severe than the poisonous gas. It should be able to cause a strong person to instantly lose control of the Innate Qi."

Bai Youyou's words made Chen Xiang restless. He couldn't wait to refine a bunch of Drunk god scents and use the experts here as experiments.

Chen Xiang observed over these people and discovered that Prince Imperial Dragon was the fastest to recover. He seemed to have some kind of miracle medicine and Ji Meixian was completely fine.

"little maid, are you alright?" Even so, Chen Xiang still asked with concern. Ji Meixian had once been a Yu Yi Immortal Fairy above the Heaven Realm, and she was so beautiful as well. In the future, she would definitely become a famous Ranker once again.

"It's fine, what about you? "Where are you?" Ji Meixian responded as she followed the thread of thought in her mind. She did not dare to look around, as she was afraid that it might arouse suspicion.

"Of course I'm fine! You have to be careful. There might be a lot of dangers along the way. Furthermore, you have to stay far away from that Prince Imperial Dragon. This guy is always staring at you. Chen Xiang said.

"I have the blood of the Undying Bird and the Golden-winged Great Peng in my body. The Dragon Clan's guys can easily sense it. I'll be careful of this!"

After confirming that everyone had recovered, they continued on their way. When they arrived, there were nearly two hundred people, but now, there were less than a hundred. They had all lost some of the stronger elders, and some of the older forces had even lost some of their juniors, causing the heavyweights to be in a bad mood.

Although they had encountered extremely powerful items like the Primal Chaos Savage Tribe and the Primal Chaos Savage Beast, they were certain that the treasures hidden in the depths of the cave were extremely powerful.

Back then, when they were on the road, Chen Xiang had heard from the Super Yuan Sect Leader that a lot of stones had fallen from the Primal Chaos Realm. Many of the huge mountains were dropped from the Primal Chaos Realm, but only one of them was found to be very special, later on it turned into a mountain. Many people had investigated it and found many mysterious places within, hence this place which had been struck by many stones from the Primal Chaos Realm was named the Chaotic Mountain.

The traitor who betrayed the Ten Heavens Supreme Lord and an old patriarch of the Imperial Dragon Race came together to this place. They gathered some of the East Hidden Province into the disappeared Chaotic Mountain and then formed it into a map.

Chen Xiang suspected that the ancestor of the Super Yuan Mountain was also one of the traitors, the Imperial Dragon Race had also helped these people to topple the Ten Heavens Supreme Lord!

"Super Yuan Sect Leader, what are the uses of those Chaos Fire Token? How did you get it? " The fact that the Prince Imperial Dragon did not know about the Chaos Fire Token caused Chen Xiang to be extremely surprised. If he wanted the Chaos Fire Token to recognize him as its master, then he had to have dragon blood.

## [Chapter 1083](#)

Super Yuan Sect Leader did not answer immediately. It was obvious that he knew a little, but he could not tell this Prince Imperial Dragon.

"What is the relationship between the Chaos Fire Token and the missing Chaotic Mountain?" The Prince Imperial Dragon asked.

The people here all knew that Chen Xiang had obtained all seven Chaos Fire Tokens many years ago. Before that, these Chaos Fire Tokens had all been divided among the various big shots in the Chaotic Mountain.

At this moment, everyone was very concerned about this Chaos Fire Token, because it was surprisingly fast with the Chaos Fire Token being gathered by Chen Xiang, and Chen Xiang was their great enemy. It had to be known that Chen Xiang had already obtained a dragon vein in Di Tian. He was young but his strength was extremely strong, similar to that of the Ten Heavens Supreme Lords back then.

Since all of you have enmity with Chen Xiang, then I will tell you all this. But you must remember, you must definitely not tell Chen Xiang. Super Yuan Sect Leader thought about it again and again and decided to tell the rest.

Along the way, Chen Xiang also scolded Chen Xiang when he was chatting with others while pretending to be Dongfang Lingyun, so that everyone here knew the grudge between him and Chen Xiang. As such, the Super Yuan Sect Leader didn't mind if he heard about it, not to mention that once he was used, it would be his death date.

"Chen Xiang, this little bastard, once I go to Di Tian, I will definitely tear off his old nest!" Originally, he had been sleeping soundly in the Poison Dragon's Pearl. If he had absorbed the entire Dragon's Pearl's power, he would have been even stronger, but this had been completely destroyed by Chen Xiang.

"If we return successfully, his so-called Dragon Subduing School would be the end of it!" Prince Imperial Dragon's eyes flashed, the three words "Dragon Subduing School" made him feel extremely unhappy, it was clear that he was going against him, Imperial Dragon Race.

Being hated so deeply by so many powerful warriors, Chen Xiang was feeling proud. Not everyone could do such a thing.

The Super Yuan Sect Leader said, "The Chaos Fire Token itself was made from divine iron, moreover, it came from the mysterious Primal Chaos World. There were a total of seven of them, and when the seven enormous Rainbow Stones descended, the Chaos Fire Token was inside those Rainbow Stones. At that time, the experts of the Primal Chaos Clan had to spend several hundred years to obtain the Chaos Fire Token from these stones!"

"After many wars, these have changed many masters. Chaos Fire Tokens are regarded as holy objects of our Primal Chaos Clan's gods. Although we cannot fuse with these Chaos Fire Tokens, they can still play a role as a symbol of status."

Super Yuan Sect Leader stopped and let out a long sigh. He stared at Prince Imperial Dragon and said: "To be honest, these seven Chaos Fire Tokens should have been given to Dragon Emperors, because only

with dragon blood can they integrate them! How Chen Xiang was able to fuse a Chaos Fire Token, I have never been able to understand! "

"He had previously visited the Immortal-poisoning Devil Forest once, and the Poisonous Dragon King died there. He might have soaked the blood of the Poisonous Dragon King within, which was why a trace of dragon blood was left in his body." Three horns Dragon King frowned: "For this kid to be able to stay in Immortal-poisoning Devil Forest so easily, he must have the blood of the Poison Dragon King in his body!"

Prince Imperial Dragon's face became even more gloomy, because he felt that this object belonged to him in the first place!

"Super Yuan Sect Leader, then what is the use of gathering all seven Chaos Fire Token?" one of them asked.

"According to the legends, there are two uses for gathering seven Chaos Fire Token. The first one is to open a passage to the Primal Chaos Realm, but that requires a very powerful force. It requires strength at least at the level of Ten Heavens Supreme Lord or Dragon Emperor! Second, I can condense a Fire Seed of Primal Chaos in my body, and cultivate a Fire of Chaos, but my body needs to be extremely strong, otherwise I won't be able to withstand the Fire Seed of Primal Chaos! "

The Super Yuan Sect Leader patted on Prince Imperial Dragon's shoulder and comforted him: "This is yours to begin with, there will be a chance to take it back!"

Everyone understood Prince Imperial Dragon's feelings at this moment. No matter how they looked at it, this Chaos Fire Token was tailor-made for these holy dragons. It needed dragon blood and a strong body, as well as the Dragon Emperor's strength.

Long Xueyi scoffed: "Bullshit, it should be my Dragon Emperor's, but I was generous and rewarded this little scoundrel!"

Super Yuan Sect Leader looked at the sky in the distance and took a deep breath. With a serious expression, he said, "Of course, Chen Xiang will probably never be able to open the pathway to the Primal Chaos world, nor will he be able to obtain the Fire Seed. He, a human, is unable to do that! What I am worried about is that he will use these seven Chaos Fire Tokens to summon out the Nine Heaven Devil Palace.

Chen Xiang's heart skipped a beat. The two uses of Chaos Fire Token could be said to be within his expectations, but that Nine Heaven Devil Palace thing was something he did not expect.

When Nine Heaven Devil Palace was mentioned, the expressions of many old fellows suddenly changed. Even Ji Meixian was the same!

"How could it be Nine Heaven Devil Palace? The Chaos Fire Token is actually related to the Nine Heaven Devil Palace! " The astonishment in Bai Youyou's heart at this moment was the same as those people.

"Nine Heaven Devil Palace, the illusory Demon Palace, the place where countless powerful immortals and devils died. Because it destroyed the experts of the 9th Heaven, it became famous!" Su Meiyao's tone carried a trace of fear: "When the Nine Heaven Devil Palace appeared, Senior Sister and I took a

glance from afar and was almost attracted by a mysterious power. It's said that those who went in that time all died!"

Bai Youyou said: "It's all thanks to Ji Meixian, she was chasing and killing us at that time, if not for her sudden appearance, and brought us back to reality, I'm afraid that we would have already entered the Nine Heaven Devil Palace, and now that we think about it, she is really protecting us!"

An expert from the Heaven Realm said: "Rumor has it that the Yu Yi Immortal Fairy and Old Devil Wuqing all went to the Nine Heaven Devil Palace back then. They were once famous human experts, but none of them escaped, and they could not resist the enticement of the Nine Heaven Devil Palace!"

Prince Imperial Dragon nodded his head: "That's right. Not mentioning the human experts, many of the stronger dragons in Imperial Dragon Race have not returned because they went to Nine Heaven Devil Palace! My royal father said that this Demon Palace can confuse people's mind. No matter how determined you are, as long as you look from afar, you will involuntarily walk towards the Demon Palace and enter the Demon Palace! "

"This is the cemetery of a strong cultivator. Every time Nine Heaven Devil Palace appears, countless famous experts would fall, but I heard that although this Nine Heaven Devil Palace is evil, we can still find the Path of God within!"

Super Yuan Sect Leader said: "So we must kill Chen Xiang. If he can summon this Nine Heaven Devil Palace, we will be in danger! Everyone, please do not leak it out! "

Ji Meixian was very clear of how strong this Nine Heaven Devil Palace was, so she did not plan to tell Chen Xiang, but she knew that Chen Xiang was hiding nearby and would definitely hear it.

#### [Chapter 1084](#)

They were worried that Chen Xiang would bring out the Nine Heaven Devil Palace. When they accidentally saw the Demon Palace again, it would be equivalent to them dying.

"Little maid, did you talk about that Nine Heaven Devil Palace? "How did you die in there?" Chen Xiang asked.

"You better not bring out that Demon Palace! Back then, those two little girls were almost confused, I was the one who woke them up! After I chased them away, I went to Nine Heaven Devil Palace myself! " Ji Meixian warned Chen Xiang very seriously.

"Oh? Were you lured in? " Chen Xiang asked.

"At first, I could resist the temptation, but then the voice of the Demon Palace came out and told me that my uncle was inside. He was Ruthless Devil Venerable, the master of those two little girls. I was looking for him then, so I went, and the closer I got, the more I felt my uncle was inside! After I entered the Demon Palace, I really saw his figure! " As Ji Meixian said till here, he could not hide the fear in his voice.

"That must be an illusion. That must be the Demon Palace trying to confuse your mind." Chen Xiang said.

"That's true. This Demon Palace is a weakness that specifically seeks out your soul. At the same time, it will stimulate your body to the maximum, causing you to lose your mind and be unable to extricate yourself!" If I did not have that Divine Robe, I would have died inside. At that time, it was my Divine Robe that released its power to help me escape from the Demon Palace. " Ji Meixian replied, "This is a life-saving talisman that my mother left for me. I don't know how many times she saved me over the years."

"Of course, the Demon Palace is a terrifying place for the experts of the Heaven Realm. The strongest part isn't just that, some of my friends haven't appeared since they entered, it's a place to send those strong warriors to their deaths." If Ji Meixian wasn't Chen Xiang's slave, she would have definitely warned him like an elder right now, because she knew Chen Xiang was a guy that liked to mess around.

Ji Meixian sighed inwardly. She knew that once Chen Xiang found out about the use of Chaos Fire Token, he would definitely bring the Demon Palace out in the future.

After ten days of traversing the mountain ridges, the group finally reached the location indicated by the map. However, it was an extremely large lake, and looked like a sea on land. It was very likely that the Chaotic Mountain was hiding here.

"If not for this map, I'm afraid we wouldn't even be here. The latter half of our route would be very safe, otherwise it wouldn't be so easy!" This is a place that I didn't even dare to enter in the past, but I never thought that there would be such a hidden lake here! "

Super Yuan Sect Leader held up the lake water with both hands and then shouted anxiously, "There's poison in the lake! "Don't touch it!"

However, it was already too late. Not only did a few old men touch it, they even licked it!

Super Yuan Sect Leader's palms had already turned purple, he anxiously used his Spirit Qi to force the poison out, and the purple Qi surged out, the few old men were rolling on the ground, their mouths were swelling terrifyingly, with purple black color, the poison spread extremely quickly, more than ten experts rushed into the old men's bodies to release the poison out!

When the young men saw this, they hurriedly distanced themselves from the huge lake. The water of such a huge lake actually contained poison, but the poison wasn't very strong. Those old men had already recovered their lives.

"The Chaotic Mountain is hiding at the bottom of the lake?" one of them asked.

"It should be!" The Super Yuan Sect Leader nodded his head, "The poison in this lake must have been deliberately carried out by someone. Take out the stone pieces!"

Great Leaders, Chen Xiang and Prince Imperial Dragon all placed their stone pieces on the ground and then combined them together. But this time, it was different from last time, they used the picture on the back, and after combining, they used an octagonal Array.

"Pour your power into these pieces of stone, activate these pieces of stone!" The Super Yuan Sect Leader said.

Chen Xiang secretly channeled the energy within the Heaven Pellet, allowing it to flow into his body. After that, he released it from his finger and poured it into the stone piece, causing it to emit a purple glow.

The thirty pieces of stone were placed on the ground. They looked very irregular, but after everyone poured their power into them, they originally gave rise to a myriad of multicolored lights, but now they turned into a golden color.

The ground trembled slightly. Everyone immediately looked towards the huge lake and saw a pitch black mountain slowly floating up from the lake!

The mountain was very big, occupying the entire lake. When it floated up, it was unknown where the lake water went. When everyone stood underneath the mountain, they felt that the mountain was like a barrier that separated the world from the world. It was so tall that they couldn't see the top, the ends of the mountain.

Chen Xiang guessed that this Chaotic Mountain was around half the size of a Chen Martial Continent!

When the Chaotic Mountain appeared, the black substance suddenly melted, and a burst of bright silver white light appeared. A burst of ancient Qi leaked out, causing people to feel like they were back to the time when chaos first began!

When they thought of the seniors who hid this mountain all those years ago, they couldn't help but exclaim in admiration, this was definitely a very huge project, and Chen Xiang had already started to be wary of these people. Now, the last thing he wanted to do was to open the door to the inside.

Super Yuan Sect Leader looked around, and after confirming that there was no danger, he brought everyone to the big door!

On the mountain wall, there was a very flat area. There were 30 grooves there, and they were placed into the stone pieces, so everyone was sure that it was the entrance!

"Did these guys really plunder the East Tibet Province back then?" Chen Xiang could not help but become suspicious: "I don't think so. The things they looted should be used to maintain the inheritance!"

"You'll know when you go in. Maybe those guys found something inside and couldn't take it back then, so it was temporarily sealed away here." Su Meiyao said.

"That's possible, because the collapse of Di Tian was caused by a very strong and mysterious force. If they had such a good item, it would definitely have been taken away by that power. That's why they hid themselves." Bai Youyou said.

Chen Xiang activated the Heaven tour method, observing everyone's expressions, only to see a few youths exchanging glances with the people from other powers, obviously preparing to take action.

"Aren't these guys afraid of being scolded by the Purple Moon Imperial Land? Although the Purple Moon Imperial Land is currently very weak, the Purple Moon Imperial Land above the Heaven Realm is definitely not weak! But it's not strange, these guys' ancestors and ancestor had betrayed Great Yan Jing for ten days, so it's normal for them to sell their allies now! "

Chen Xiang was also preparing himself, he planned to catch these people unprepared. Although he could not kill those old people, it was not a problem to kill a few little ones, who told these people to come here, they were still so dishonest!

### [Chapter 1085](#)

Everyone stood in front of the door and took the chance when Chen Xiang wasn't paying attention to them, to look at each other, then took out stone pieces and threw it towards the grooves on the door. At the same time, they channeled energy into the stone pieces, causing them to emit multicolored light, automatically sticking to the grooves.

Chen Xiang acted as though he was working very hard, that was why he waited until everyone was finished before he threw the stone out. His forehead was covered in sweat, and he looked very tired, causing the young people to sneer in their hearts, because it was easier to succeed this way.

The moment the door opened, the young people that followed them would immediately make their move. This was also what the big shots had discussed in secret to see which power's young people were the most powerful.

After the purple stone in Chen Xiang's hand flew past, it stuck onto the door, causing it to emit "kacha kacha" sounds. It trembled slightly, and a crack appeared in the middle of the mountain wall.

At this moment, those young people suddenly made their moves. Tong Tian Aristocratic Family and the Heavenly Maiden of the Sheng Domain, the grandson of the Super Yuan Sect Leader, as well as the Prince Imperial Dragon, all held various kinds of weapons in their hands.

"little maid, retreat!" In that instant, Chen Xiang sent a sound transmission to Ji Meixian and then used Form Displacement Shadow, changing the position between him and Super Yuan Sect Leader's grandson.

No one would have thought that by the time everyone managed to react, there were already more than ten swords stabbing Super Yuan Sect Leader's precious grandson's body, and Prince Imperial Dragon's dragon claws had even dug out his heart!

After the light rays from the door disappeared, the Super Yuan Sect Leader roared, and smashed towards the group of youths. All of the weapons were shattered, and those who had the power to attack were all severely injured, leaving only the situation in Prince Imperial Dragon a little better!

"This ..."

Amongst these youths, only Ji Meixian who was slightly slower could survive. This was because when Chen Xiang had sent a sound transmission to her, she was already affected, causing the others to be much slower than her! She had thought that Chen Xiang had followed them here!

Super Yuan Sect Leader's eyes were completely red. He wanted to kill Chen Xiang with one palm right now, but he had to save his grandson.

"Where is he!" A big shot shouted, they did not expect Dongfang Lingyun to be so sinister, knowing this kind of method.

"Everyone, be careful, this is my Imperial Dragon Race's teleportation, he must be Chen Xiang!" Prince Imperial Dragon had just been injured by the angry Super Yuan Sect Leader, and there was blood at the corner of his mouth.

A cyan light suddenly flashed, and Chen Xiang who was hiding in space suddenly appeared. Holding an incomparably domineering Green dragon demon-slain broadsword in his hand, he used the Canglang Slash of the Dragon Slaying Seven Killing Slash, smashing towards Prince Imperial Dragon like a tidal wave!

Sensing the danger approach him, he dodged it abruptly. However, Chen Xiang's blade stroke was extremely fast, so even though Prince Imperial Dragon dodged it, one of his arms was still chopped off by Chen Xiang.

"Little bastard!" Seeing Chen Xiang appear, the Three horns Dragon King turned one of his arms into a gigantic purplish black dragon claw and swiped towards Chen Xiang. Chen Xiang stepped on the Shrinking step, dodging it like lightning, in the blink of an eye he was already inside the door.

Prince Imperial Dragon looked at the ground where the Three horns Dragon King had smashed his dragon claw. His entire body was trembling in anger and the dragon blood on his severed arm was flowing nonstop.

"Chen Xiang... Hurry and get out of here!" Prince Imperial Dragon glared at the door that Chen Xiang had disappeared into.

"Take care of him, I will go and get Chen Xiang's head back!" Super Yuan Sect Leader's voice was extremely cold, then he rushed towards the big door.

The elders that were left behind by the big heads, those who didn't have any elders power would be entrusted to the elders of the other powers, as they chased after Chen Xiang.

Ji Meixian did not go in, she praised Chen Xiang's hand endlessly. Originally, these powers wanted to let their own juniors shine, but they did not expect that in the end, they would almost cause the grandson of Super Yuan Sect Leader to die from serious injuries. Prince Imperial Dragon had also lost an arm, and the juniors of other forces were heavily injured.

Prince Imperial Dragon recovered quite a bit after he ate the immortal pellet, and his severed arm also quickly grew back. He was the son of Dragon Emperor, so he didn't accept any immortal pellets at all. When he was almost recovered, he ran through the door.

After Chen Xiang entered the gate, he arrived at a white and huge passage. On the stone walls on both sides of the passage, there were many doors, and each door was ten meters in front of and behind the other.

He quickly arrived at the end of the passageway and discovered that it was also a door of the same size. At this time, there were already people chasing after him.

When the others came in and discovered that there were so many doors, they could not help but have a headache, because they did not know that Chen Xiang had walked through that door, and furthermore, did not know that these doors were the right one!

"Super Yuan Sect Leader, what happened just now ..."

"There's no need to mention it, it's already past, now we have to stop Chen Xiang!" Super Yuan Sect Leader clenched his fists.

Furthermore, on the way here, they had been protecting Chen Xiang. They did not expect that at the last moment, they would actually be ruthlessly schemed against by Chen Xiang. They suddenly felt that they were all idiots!

Especially the secrets of the Chaos Fire Token, they had all been found out by Chen Xiang, and it was the Super Yuan Sect Leader herself who had told Chen Xiang all of it!

"Chen Xiang already knows the Chaos Fire Token's secret!" The Jinyang Leader sighed.

"We just need to kill him. We can't let him leave this Chaotic Mountain or us!" The Super Yuan Sect Leader said.

At this point in time, everyone already understood that Chen Xiang had already killed the Purple Moon Imperial Land's men and obtained the stone piece. After that, he would pretend to be one of the Purple Moon Imperial Land's men and sneak in with them, arriving at the Chaotic Mountain with them. This move was indeed very ruthless, if they had not wanted to kill Chen Xiang when the door was opened, Chen Xiang might even have easily left in the end.

"How do we get there now?" Chen Xiang is very sinister, we better not spread things out. "

"That's right, if he still impersonates one of us, then we'll be in trouble!"

"We will use our divine sense to confirm the secret signal. If we enter these doors and accidentally encounter each other, we will use the secret signal to confirm our identity. If we can't find the secret signal, we will immediately act!" After the Super Yuan Sect Leader finished speaking, he sent a sound transmission to everyone and gave them a secret signal before he walked through these doors.

Chen Xiang walked along a tunnel, rubbing his chin, he laughed: "Secret code? I'll find a way to get it! I am a Leader of the Dragon Subduing School. I must kill one or two old fellows here or else how can I boast to Yun Xiaodao and the others in the future? "

## [Chapter 1086](#)

Chen Xiang started running frantically in the passage, but he quickly discovered that the passage could actually move, which meant that the passage did not have a designated location, but he could not do anything right now, because there were so many doors, so he did not know which one could smoothly lead to the destination.

During this half an hour, Chen Xiang had not run into any dangers. At this time, he had also slowed down his pace, as he walked and trained, he had to quickly refine the energy that was brought to him by the fusion of the Grass Wood Spirit. He felt that his own energy was the weakest amongst this group of people, it was not enough at all.

The four walls of the tunnel emitted a silver white glow, just like the light of the Chaotic Mountain. Chen Xiang didn't know what the others were like, and was a little worried that the protection inside would be taken away.

This Chaotic Mountain was already huge to begin with, so it was normal for the passageway to be very long. However, Chen Xiang took his time walking over, and after only a day of walking, he saw a door, which made him immediately rush over.

After opening the door, he came to a very spacious stone room. There were no treasures inside, only four flat high stone walls. Moreover, the path he took to enter was blocked.

"How can there be no way out?" Chen Xiang was running all over the place in this huge stone room, and no matter how he traveled, he could not leave this stone room. This huge stone room was filled with dense immortal energy, but there was no passageway.

Chen Xiang never thought that the door he chose would actually be like this, he was trapped here!

Next, he used the Green dragon demon-slain broadsword s to perform all sorts of powerful martial arts and madly attacked the silver-white walls. Not to mention creating a hole, he couldn't even create a single mark.

"Could it be that I am not one of those traitor powers, and that is why I am trapped here? How long will it take? " Chen Xiang panicked. He used the Green dragon demon-slain broadsword to hack at the wall crazily, but to no avail.

Just as Chen Xiang was about to give up, an aged voice came out.

"Brat, you're pretty motivated. You're not trapped!"

Hearing that voice, Chen Xiang immediately became spirited and shouted: "Who are you? How do I get out? "

"I am the spirit of this mountain!" If you want to leave, you only need to work hard to increase your strength. This is because only half of the people who enter this place can survive! In other words, anyone who enters here will have to fight to the death with one person! "

It was actually the Mountain Spirit of this mountain. Chen Xiang was not surprised that this Chaotic Mountain could give birth to a Flash Spirit.

"Then hurry up and let me fight a guy!" Chen Xiang shouted.

"No, your strength is too weak. No matter which one you meet, you have no chance of winning, unless you raise your strength to a certain level here, then the spirit arrays here will send one person to fight. Now there's someone fighting! But you have the Time Formation in this place, so it will not be a problem for you to cultivate for a long time. " The Mountain Spirit said.

"Why do you have to do this? Weren't the people who built this place in the past the ancestors of the traitors? "

"That's because there was a guy who did something to it later, so as long as someone came in, they would all end up killing each other. But from the looks of it, you don't seem to be the descendant of those traitors. How did you get in?" The Mountain Spirit said.

"It's a long story!" Chen Xiang sat on the ground. He could only hurry up and raise his strength to fight with this fellow and leave this damned place.

"Senior Mountain Spirit, you should know that I am not a bad person. Can you tell me what treasure is hidden here?"

"Well... "I'm not too sure either. I only know that there are 30 boxes hidden in the last place. I don't know what's in each box. In short, those things are all treasures."

What he needed to do now was to raise his strength. Chen Xiang quickly refined the energy brought by the Grass Wood Spirit and quickly formed the embryo of the fifth heaven pellet from every Beast statue.

"Can Nirvana Doom also be attracted here? If I can't, then it will be difficult for my strength to increase!" Chen Xiang asked.

This is because this is the Chaotic Mountain, and all of the Robbery power absorb the energy of primal chaos. Although this is theoretically possible, I am not too sure what the actual situation will be like, I think I will see it soon. " Mountain Spirit said with a smile.

The Mountain Spirit of this mountain did not have a body, but a powerful soul body that was attached to the Chaotic Mountain.

Calming his heart, Chen Xiang quickly refined the power brought to him by the Grass Wood Spirit. However, the Grass Wood Spirit and the Caomu heavenly Dan had not merged;

But Chen Xiang's strength was not enough yet!

"Prince Imperial Dragon should be weaker than me. He is the weakest when he comes here, so you just need to approach him. That means you have to pass through the six Nirvana Tribulations before you can have the same strength as Prince Imperial Dragon." Long Xueyi said.

The reason why Chen Xiang was able to cut off Prince Imperial Dragon's arm before, was because Prince Imperial Dragon was injured by him. Furthermore, Chen Xiang had attacked him unexpectedly, but if they were to fight face to face, he did not have that much of a chance of winning.

"Then what's the strength of the Prince Imperial Dragon?" Chen Xiang felt that Prince Imperial Dragon's Dragon Power should have already surpassed Nirvana Realm, and Long Xueyi himself felt that she was stronger than Prince Imperial Dragon by a little.

"Didn't I already say that? "He's a bit weaker than me!" Long Xueyi giggled.

"Are you saying that you're much stronger than me?"

"This is the truth, alright? You can accept it, if it was me who dealt with that Prince Imperial Dragon, I would beat him down to his knees in a few hits."

Chen Xiang stopped listening to Long Xueyi's boasting. If he listened to too much, he would get infected with this disease.

He still had many Qi Shen Dan that he could use to increase his strength, but he did not plan to use them. The Sky Pill belonged to a Heavenly Child called Feng Ziprofound. Back then, when Feng Ziprofound and his wife chased him to the Ten Heavenly Sacred Mountain, they were scammed by him together.

The Heavenly Pellet contained a very pure energy, it was all the power of immortals, but Chen Xiang did not use much energy, it was already good enough for him to obtain a layer, because the energy inside the Heavenly Pellet was also of a certain level, and was affected by its original owner, so when he was absorbing, he lost a lot of his energy.

Furthermore, he was a Alchemist and had mastered Heavenly Alchemy. As long as he refined this Heaven Pellet into a pellet, he would be able to extract energy from this pellet to the best of his abilities!

### [Chapter 1087](#)

Taking out the Yanlong furnace would allow him to refine the Heaven Pellet more quickly and smoothly.

Human Heaven Pills were different from demon beasts. If it were demon beasts, they could also refine human Heaven Pills into pellets with their body and body. However, because humans were of the same type as Chen Xiang, they would produce a strong repulsion.

This was the first time Chen Xiang had refined a Heaven Refining Pill, but it was all the same. As long as he used the Heavenly Alchemy's method of refining all living things, he would be able to remove all the impurities in the pill, leaving behind the purest and strongest energy. Thus, after Chen Xiang refined countless mountains, he would be able to obtain a pill.

When that Heavenly Pill was burnt, a large amount of its energy began to dissipate. That energy was either impurities or left behind a mark of the original owner's spirit, after being removed, the energy inside the pill furnace would become very pure, and after being roasted by flames, it would also improve its quality.

During compression, the quality would increase. This way, even if a Heavenly Pill lost a massive amount of energy, it could still maintain a certain value!

Refining Elixirs into Elixirs was also the same logic, so directly eating Elixirs was a waste. This was because after refining Elixirs into Elixirs, the effects would be doubled or even more.

"I remember that after you killed those old fellows, their corpses were still hidden away. Why don't you use them to refine them?" Bai Youyou said: "Originally, I planned to keep it for devouring, but your Heavenly Alchemy is even better!"

Chen Xiang shook his head: "No need, refining those old corpses will only waste my strength. I need a lot of energy right now, the energy impurities in those corpses are too much, it's still good to use them to raise the fire."

Just like that, all the corpses were burned, causing the fire to burn even more vigorously. At the same time, it could also raise the quality of the Heavenly Pill a little bit.

This Heaven Pill had allowed him to refine it for an entire day, until it was the size of a grain of rice.

"It shouldn't be enough after eating this thing!" Chen Xiang threw the small Heaven Pellet into his mouth, and after swallowing it, it exploded in his dantian. It was a very pure Innate Qi, he immediately activated his cultivation technique and used his fastest speed to refine this pellet!

However, he was still far from breaking through. Every time he broke through, he would have to form five Heavenly Pellets in order to draw in Nirvana Doom, and this was not an easy feat.

"After refining the Grass Wood Spirit and the heavenly pellet, I can only form the core embryo of two heavenly pellets!" Chen Xiang looked at the bodies of the five Beast statue in his dantian. Only the green dragon statue and the Vermillion Bird statue had the fifth pellet in their bodies.

"Seems like we can only eat Qi Shen Dan s!" Chen Xiang took out a box of Qi Shen Dan s and grabbed it, sending it into his mouth as if he was eating popcorn.

If it was anyone else who had such a large number of Qi Shen Dan to eat, they would definitely go crazy with joy. But right now, Chen Xiang felt like she was eating poison, because the taste of the Qi Shen Dan was not very good. Even if she were to give it to Long Xueyi to eat, she would despise it.

"The taste of this Qi Shen Dan is the worst I've ever tasted. Seeing you eat it made me feel nauseous." In order to make his appetite better, Long Xueyi's fragrant little mouth was chewing on the sweet fruit flesh.

"Little Scoundrel, when are you going to refine a high grade Ground level Pellet? Those Xuan Beast Pellets are no longer enough for me, I want a higher grade one!" Long Xueyi said.

"Soon, when I leave this place, I will refine it for you." After Chen Xiang finished speaking, he said again: "sister Meiyao, Sister You You, go and get me some more of these Qi Shen Dan's medicinal ingredients. I want to refine a Super Qi Shen Dan, and I suddenly engraved a Spirit grain on top of it! It can be used to help me absorb the immortal qi here, I want this Chaotic Mountain to eat it. "

Last time, when Chen Xiang was refining a Qi Shen Dan, he had already secretly kept a few profounddi fruit and had Su Meiyao and Bai Youyou copy it out a little.

When he finished eating the last batch of Qi Shen Dan, he let out a sigh of relief, moreover, his abdomen was currently very hot, and streams of thick energy were constantly reloading his dantian. One had to know that there were over a thousand Qi Shen Dan in his stomach, if it was anyone else, they would have already burst.

The meridians in Chen Xiang's body were currently like countless large rivers flowing, dense and dense Innate Qi circulated in his body, circulating through his meridians and bones, nourishing his muscles and soul, and then, entering into his dantian, entering into the mighty Beast statue s, entering into a cloud of Qi, and condensing the core embryo of the Heaven Pellet.

The Qi Shen Dan not only produced Innate Qi, it also produced a type of mental energy, and the mental energy surged into the Divine Sense Sea, strengthening him. The larger the Divine Sense Sea, the more divine powers there was, the thicker it was, so although the Qi Shen Dan was hard to eat, it was extremely useful! If not for the fact that refining was relatively easy, this pill would definitely have been a high-grade Ground level pill.

Chen Xiang planned to use the Qi Shen Dan s to specially refine for his own disciples of the Dragon Subduing School to eat. As for the so-called big Qi Shen Dan s, he would use ten sets of ingredients to refine three of them, and after going through a high degree of compression, their quality would increase by leaps and bounds. It was just that the difficulty was extremely high, fortunately, he had a deep

understanding of the Qi Shen Dan s medicinal ingredients, and as long as he burned them from the inside, it would not be difficult for him!

Of course, even Li Baojun would not be able to take this job, so he had to do it himself!

"This brat is indeed a monster. He had snuck into a group of traitors and entered the Chaotic Mountain. Furthermore, his strength had increased so quickly! Maybe he really could beat that little holy dragon. Also, why does this little guy's blade look so familiar, could it be Green dragon demon-slain broadsword s? "Haha, there's something to see!" The Mountain Spirit muttered to himself.

At this time, Chen Xiang also did not know what kind of role the Mountain Spirit was, but even if he knew that the Mountain Spirit was not a good person, he had no choice, because he had no idea where the Mountain Spirit was.

"If only I had the complete Heaven Earth Killing Method, I would have leveled up even faster!" Chen Xiang had already sensed that the cultivation techniques he was cultivating had a certain flaw. Although they were all modified from the Heaven Earth Killing Method, they were not complete.

For example, when he was refining Qi Shen Dan a bit faster, he felt that the speed was very slow!

If these one thousand Qi Shen Dan were to be sold, they could be sold for many of their own. If they were used to eat, the increase in strength would also be quite a lot. But now, after Chen Xiang had consumed them, he had actually only formed the core embryo of half a Heaven Pellet.

Of course, when he was cultivating, he felt that he had slept for a while, he did not know how much time had passed outside, but the huge stone room that he was in had Time Formation, so he felt that it shouldn't take too long.

"I still can't do it, cultivating the Heaven Pill is really difficult, seems like I can only proceed with the super Qi Shen Dan's plan!" Chen Xiang sighed softly.

### [Chapter 1088](#)

This time, Chen Xiang was going to refine thousands of Qi Shen Dan s at the same time and refine a thousand medicinal ingredients into one pellet!

He had a certain level of experience in refining this kind of pill, it was just that this Qi Shen Dan was the highest level pill that he had refined before. Luckily, he had a very thorough understanding of the ingredients used to refine the Qi Shen Dan, and was able to quickly and magically communicate with the spirit herbs.

Right now, not only was he refining a thousand sets of medicinal ingredients into a pill, he was also carving Spirit grain s on top of it, allowing the pill to have an even stronger effect. He had already tried it before, and at that time, he would crazily devour the surrounding spiritual energy at an unbelievable rate.

The space inside the Yanlong furnace was extremely large, there was not even a little pressure when stuffing a thousand sets of Qi Shen Dan's medicinal ingredients! Chen Xiang did not use the method inside the Heavenly Alchemy that would turn the immortal energy into flames, because right now, he wanted to burn thousands of parts of the medicinal ingredients that were as one, and the flames which

could borrow the energy of heaven and earth needed to be very strong, so at that time, it would be very difficult to control.

At the moment he was only using his own flame, although it was slower, he could control it smoothly, and did not have to worry about it exploding, not to mention that when he was carving into the Spirit grain, the requirements for the accuracy of his flame control was very high, at that time he would need God Power to be imprinted on the surface of the Spirit Pill along with the flame.

Fortunately, Chen Xiang had some sort of connection with the Qi Shen Dan's medicinal ingredients and was able to easily let the flames infiltrate the profounddi fruit's body and burn away those very strong roots. The profounddi fruit inside right now were all of high quality, they were not like the abandoned medicinal herbs he refined last time, so it was much easier for him to refine them.

"This kid is concocting pills?" What kind of pill was it? From the looks of it, it looked like a Qi Shen Dan, but if it was a Qi Shen Dan, it should have been finished long ago. These pill refiners are so bored, they should be able to cross Nirvana Doom and meet with very powerful calamities. " Mountain Spirit thought, he actually knew some knowledge about the dao of pills, it seemed like he was not as simple as the Mountain Spirit.

"Hey, are you okay? Isn't it just the Qi Shen Dan? You have already been refining for two months, you are the weakest Alchemist I have ever seen. Give up now and honestly use the immortal energy here to raise your strength. The Mountain Spirit could no longer hold it in and said.

After Chen Xiang heard this, he was a little surprised: "Senior Mountain Spirit, you've been here for a long time, you must be bored. How about we make a bet?"

Chen Xiang knew that this kind of old fellow liked to pretend to be deep and knew a lot of things, but he just didn't want to tell you how powerful he was, so it was hard to make them speak without using any tricks.

"I don't believe you. Although I am trapped here all day, I still have some understanding of the outside world. Aren't you refining a batch of Qi Shen Dan? Isn't it just that they use more medicinal herbs? The fact that you didn't explode means that you are skilled, but you are still far from relying on this pill to achieve a breakthrough!" The Mountain Spirit said disdainfully.

"Old senior, I'm asking you, do you dare to gamble or not? If you don't dare, then forget it!" Chen Xiang laughed, his laughter carried a trace of contempt.

"Bullsh \* t, do you think I wouldn't dare to bet? However, if you lose, you can stay here with me for a hundred years and just talk to me. " Mountain Spirit was not afraid at all.

Chen Xiang only wanted to satisfy his curiosity, he wanted to dig something out from Mountain Spirit's mouth. Moreover, he was very confident in himself, he was very confident in this super Qi Shen Dan.

Right now, the Qi Shen Dan was already at the final stage of refinement. A thousand sets of medicinal ingredients were melted and compressed into a small cyclone, although it was only the size of a fist, the quality was frightening. If it exploded right now, it could destroy an entire city.

If he did not imprint the Spirit grain, Chen Xiang could already begin to condense the pellet!

And right now, they needed to enter the state of a half condensed pill. This was so that when this cyclone neared Pill City, in that short period of time, the Spirit grain would be carved into this pill.

The Spirit grain Chen Xiang had chosen was a type of Spirit grain that specialized in converting immortal energy into spirit energy. This was originally a formation array, and was usually used for people who could not directly absorb immortal energy.

But right now, Chen Xiang needed him to complete it, and even arrange it inside a small pill.

He had an extremely powerful divine force, so it wasn't too difficult for him!

At this moment, the super Qi Shen Dan was like a ball of paste as it revolved inside the pill furnace.

Chen Xiang permeated his divine power into the pellet, and viewed the inside and outside of the pellet as a very large space. This way, because the pellet was too small, it would not be unable to be carved into the Spirit grain. This was because when he was refining some very small things, such as storage rings, he would need to engrave a large number of profound and complex Spirit grain and use this method to solve them.

Chen Xiang condensed the God Power into visible golden threads, inside the God Power, there was a dense Dragon Power as the base of the Spirit grain, carefully plotting the inside of the pellet.

As the flames continued to burn, the Spirit grain and the pellet became one. Using the energy of the pellet as the base of the formation, the Spirit grain's power was activated.

It took him more than a month to engrave the Spirit grain, so if it wasn't such a supreme dan, he would rarely engrave the Spirit grain, which would waste a lot of time.

Right now, the Qi Shen Dan was like a green paste, slowly revolving inside the furnace. Chen Xiang's mind moved, releasing God Power to compress it, at the same time, he slowly withdrew the flame, letting the pellet solidify, at the same time he did not affect the Spirit grain inside, in the last step, he did it very carefully.

It wasn't easy to condense a pill either. He used two days to slowly condense the mass of energy into a finger-sized pill!

"I'm finally done!" Chen Xiang took a deep breath, his head drenched with sweat and he was extremely tired.

"It's not like there are none that can refine a lot of medicinal ingredients together, but it's not as bad as you, right?" You've been refining for so long, boy, you should just admit defeat! " Mountain Spirit chuckled.

Chen Xiang opened the lid of the pill furnace and a burst of cyan light flashed out. This kind of covering the gigantic stone room caused the silver light in the stone room to become extremely dim!

The Qi Shen Dan slowly floated up, and on the surface of this pellet, many exquisite golden Spirit grain could clearly be seen flashing.

[Chapter 1089](#)

This pellet looked like a cyan gem inlaid with golden silk patterns. Not to mention its effects, just looking at it made people feel that it was inconceivable, the Mountain Spirit saw some clues, because the Spirit grain were not simple, although they were densely packed, they were not chaotic at all. When these Spirit grain gathered together on the pellet, it gave people a feeling that the pellet had a kind of indescribable spirituality.

"Old senior, you must not go back on your promise at that time. If I am able to survive under the Nirvana Doom, you must keep your promise!" Chen Xiang swallowed the [Super Qi Shen Dan].

The Qi Shen Dan entered his abdomen and immediately melted away. His body was wrapped in cyan colored clouds of light, and there were many golden Spirit grains on top of the cyan colored light barrier! At the same time the Qi Shen Dan's medicinal power was cut apart, Chen Xiang was in a place that was like a huge whirlpool in the ocean, while the surrounding dense immortal energy was like seawater, crazily surging towards him and entering his body.

At the moment, the energy that his meridians could contain had already reached their limit, so he needed to compress the energy that was exploding in his body. Originally it was in a gaseous state, but after it was compressed by him into a liquid state, after it was compressed again, it would become viscous, but at this time, the energy that was being absorbed from the Qi Shen Dan was too much, he continued to compress it, and it turned into a type of golden energy that flowed into his dantian, forming the shape of a Heavenly Pellet!

The density of energy in this Chaotic Mountain far exceeded Chen Xiang's expectations. The super Qi Shen Dan was also like this, extremely powerful. Previously, he thought that relying on this pill would give him a seventy percent chance of breaking through, but now, it was a hundred percent.

"This kid, what exactly did he do?" This pill is too fierce, and his body is like a bottomless pit. The energy that he consumes is terrifying. This boy's potential is great, it seems he will lose this time! " The Mountain Spirit started muttering to himself.

Chen Xiang only used ten days to finish forming the core embryo for the fourth pellet. As long as the fifth pellet was formed, he would be able to immediately attract the Nirvana Doom. After crossing the Nirvana Doom, five pellets would be enough!

"This place is truly a cultivation treasure. The energy in this Chaotic Mountain is much more than my dragon vein, and the quality is also much higher! Unless my dragon veins can produce purple immortal qi, it won't be able to match up to this place! " Chen Xiang could not help but exclaim. At this moment, his Divine Sense Sea was also surging with surging waves, because a large amount of God Power was constantly flowing into his Divine Sense Sea, opening up his own Divine Sense Sea.

When he finally calmed down, Chen Xiang's fifth heaven pellet had already been condensed and his Nirvana Doom was about to arrive anytime. Right now, he could only wait quietly.

"So cold, is this an ice tribulation?" Chen Xiang shivered violently. His physique could still be frozen to such a state. Only those goddamned Nirvana Doom had this kind of power.

"That's right, it's an ice tribulation!" Chen Xiang was certain of this, but a beam of cold energy shot towards him, striking his body.

In just a split-second, it was as if countless cold needles pierced his body. Ice quickly spread inside his body, making him unable to move.

"Ice attribute Chaotic Force!" Chen Xiang felt the strong power of primal chaos and immediately let the Heaven fire soul in his body explode with strong flames to warm his body and expel the icy cold power.

If his body was completely sealed in ice, then he wouldn't be able to be saved at all, even if he had Yulong blood s.

Chen Xiang had heard of Ice Calamity that had only one goal, and that was to freeze you, then turn your body into a pile of shattered ice. Even though it looked like a very gentle Nirvana Doom, it was still very frightening.

"Hmph, don't even think of making me suffer twice!" Chen Xiang's fist was like a flash of lightning, releasing golden flames, striking towards a white light that was aimed towards him, instantly dispersing the ice energy that was condensed inside.

At first, it was only a beam of light, but in the end, there were many, but Chen Xiang was able to handle them all. With his fist and the boiling power in his body, he scattered all the cold energy that suddenly attacked him.

The further one went, the more powerful the Robbery power became. Right now, there were already dozens of strong cold rays of ice shooting over, Chen Xiang could only circulate the vigorous Xuanwu Innate Qi and form a water shield to block these terrifying cold attacks.

Even though the profoundwu cover hood was powerful, it was still unable to withstand the cold energy. In an instant, it was frozen into a thick layer of ice, and then it shattered into pieces.

If the water didn't work, Chen Xiang would use fire. A pair of gigantic fire wings suddenly appeared on his back, and wrapped around his body!

Sou sou sou!

The biting cold power of the ice attack made a sound that made people feel cold. When it hit the Suzaku fire wing, the cold Qi entered the fire wings, releasing waves of white mist.

The Vermillion Bird flame was originally burning with flames, but when dozens of ice beams struck it at the same time, it gradually extinguished. Chen Xiang immediately activated his Innate Qi, allowing the Suzaku fire wing to burn once again.

The Robbery power became stronger again, and attacked hundreds of times in one breath. Now, Chen Xiang couldn't use his fist to disperse the Robbery power like before, he could only stand at his original spot and defend.

Every time they attacked, they would extinguish Chen Xiang's golden wings. However, Chen Xiang was always able to burn his wings again in an instant to withstand the terrifying power of the cold.

"Seems like the final strength of the Robbery power will be ten times greater than it is right now!" Chen Xiang quickly swallowed a Five Elements Profound Dan and recovered his lost Innate Qi.

This was also why the demons were strongly against him possessing a weapon like the Green dragon demon-slain broadsword. Especially those traitors. This was because the traitors were worried that they would have evil intentions in the future. When he faced the Green dragon demon-slain broadsword, would be harvested by Chen Xiang like a blade of grass.

The last wave of Robbery power attacks ended. Chen Xiang straightened his back. Stand there. Cold air was emanating from his body. He did not use any external items. He would have successfully passed through the Nirvana Doom.

"Power of giving. "Come on." Chen Xiang clenched his fists tightly. He vented the excitement in his heart. As long as the fifth batch of Heavenly Pills was successfully formed. He had already stepped into the Nirvana Tribulation. He would have to keep his word. Go and release the Super Old Fire Beast beneath the You Ming Deep Abyss.

The mysterious Power of giving descended. It poured into Chen Xiang's body. This kind of power seemed to be specialized in helping living beings resist the heavens and the earth. After every breakthrough. They all bestowed power upon the living. It allowed the creatures to become even more powerful.

After absorbing the Power of giving. Ten days had passed. Every Beast statue in Chen Xiang's Dantian. Each had an extra Heavenly Pill. There were now a total of twenty-five pills.

"I've broken through." Senior Mountain Spirit. You better not hide. " Chen Xiang laughed. He then asked, "When will I meet the opponent who is waiting for me? I just broke through. I can't wait. "

"Don't be complacent. Your own potential is indeed quite good. However, you are far from being able to face that little holy dragon. " The Mountain Spirit said. He had already told Chen Xiang clearly. His opponent was the Prince Imperial Dragon.

The people who entered this place. Only half of them could go to the place where the treasure was kept. Therefore, they had arranged for people to come in and fight to the death.

"Ask what you want. I can only say that I know. Or what I can say. " The Mountain Spirit said.

"I want to know what is going on in the Chaotic Mountain. "Who was the guy who arranged for us to have a life-and-death duel?" Chen Xiang felt that this person's skills were very familiar to him.

"It's a dragon. That's all I can say. " Mountain Spirit's answer made Chen Xiang sink into deep thought.

In the past, Ten Heavens Supreme Lord had two friends. One was a dragon. One was a Flame Lion. The hiding place of the Green dragon demon-slain broadsword was arranged by these two friends. And that Flame Lion was the Super Old Fire Beast that Chen Xiang met in the You Ming Deep Abyss. And the Super Old Fire Beast said. He was trapped there by the dragon.

Chen Xiang felt that everything was arranged here. It should be that dragon.

But he didn't know if the dragon was good or bad. Because the dragon had trapped the Super Old Fire Beast. So he had doubts. Was it because the Super Old Fire Beast was not a good thing? That was why he was trapped by the dragon. He had an agreement with the Super Old Fire Beast. As long as he possessed the strength of the five Nirvana Tribulations. Then he would have to help the Super Old Fire Beast escape.

That dragon is very powerful. You can make a way to the center of the earth. Furthermore, at that time, Di Tian still hadn't broken apart yet. The earth's core was extremely powerful.

"Senior Mountain Spirit. Are you even a Mountain Spirit of this mountain?" Chen Xiang asked again. This mountain came from the chaosworld. He wanted to know some things regarding the chaosworld.

"It can be said to be true. "It can also be said that it isn't ..." The Mountain Spirit sighed: "I was originally a Mountain Spirit of another mountain. But I did come from the chaosworld. And that mountain could also be considered a Chaotic Mountain. Only the mountain had been destroyed. That guy wants to give me a place to stay. That's why I'm here. It's that dragon. "

This Sacred Dan Realm only appeared when Di Tian was about to collapse. At that time. This was the place where traitors came to hide their treasures. That dragon might have brought the Mountain Spirit here before this.

"I came early. At that time, the group of traitors had yet to find the mountain. When they tie things up here. I'll tell the dragon. Let him do something here. They were going to use it to swindle the descendants of those traitors. I just didn't expect a weirdo like you to sneak in. " The Mountain Spirit said, "So you better not die."

"Senior. "How does the chaosworld look like?" Chen Xiang clenched his fists. He was excited. Because it was a very mysterious world. Mountains that fall from there are so terrible.

"How should I put it? It was a very chaotic world. There was no order. It's not as harmonious as these worlds. And here, the Primal Chaos clan. It was from there. The people of the chaosworld had come to punish them. I just dropped down a lot of huge mountains. Back then, he had killed many powerful experts. And there was also the Chaos Fire Token ... As well as a palace specially designed for harming people. Cough cough. I said too much. "

A palace for harming people. Chen Xiang immediately thought of the Nine Heaven Devil Palace. It was actually the work of someone from the chaosworld. Chen Xiang found it hard to believe the vision of that world that many strong warriors had. He actually made such a thing to harm others.

Chen Xiang was suspicious at the moment. The death of Ten Heavens Supreme Lord all those years ago. The split with Di Tian. Perhaps it was the people of the chaosworld who were behind this. The White Tiger had also said so. That power was very powerful.

"Enough. I've said enough. Rest first. After that, he released his strongest power. If it was successful. You will meet that little holy dragon very soon. " The Mountain Spirit said.

Chen Xiang took a few deep breaths. Don't let your imagination run wild. Because the more he thought about it, the more it seemed to him. The more uneasy he became. This was because after he felt that he was strong ... It was very likely that he would face the mysterious power of the Primal Chaos world. And those traitors might once again get the support of the forces behind the scenes.

Innate Qi s from the twenty-five Heaven Pellets suddenly surged out. Like a dragon's roar, it sprayed out from Chen Xiang's body. Shocking the entire stone room. It was also at this time. White light exploded in the stone room.

Following that ... He saw the Prince Imperial Dragon. His battle with the Prince Imperial Dragon. It was finally here.
