

Dan God 1151

[Chapter 1151](#)

To be able to produce a little demon from an Primordial profoundbing, many people would not believe it if word of this got out.

If Chen Xiang had not seen it with his own eyes, he would not have believed it to be true.

"The little demoness was a type of demon from the ancient times, and she was usually transformed by some strange plant and could reproduce." The little demoness was a type of demon from the ancient times, and was usually transformed by some strange flower and strange plant. Lv Qinlian herself was also transformed from a strange plant, but she was a bit older, so this little demon girl could be considered her own kind.

"But why does she hate me so much? I let her go." Chen Xiang was very depressed. The little demon girl in Lv Qinlian's hand had her eyes closed at the moment, and a red light shone from between her eyebrows.

Lv Qinlian said in a low voice: "I am currently teaching her the human language, don't look at her small stature, she is still very powerful, if not she would not have been able to live until now."

The little demon spirit opened her eyes and shook her elegant long hair. She looked at Chen Xiang and snorted: "Big scoundrel, you messed up my house."

Chen Xiang really wanted to reach out and touch this cute little demon. He said: "Little demon, you need to know that I saved you. If it wasn't for me, you might have fallen into the hands of some really bad people."

Lv Qinlian quickly explained, and only after talking about the profoundbing did he dispel the misunderstanding.

"I'm not called Little Goblin, I'm called Xiao Yao. Although that's right and saved me, I still feel like he's not a good person."

This little demon's words made Chen Xiang very unhappy, he could only stick out his tongue and make a face at her.

"Xiao Yao, what happened over there? Why are you and your residence inside these profoundbing? You were frozen for a very long time." Lv Qinlian asked. Everyone was very curious about what was happening in profound Cold Ancient Realm.

I don't know, I only remember that it suddenly became very cold. There was a lot of snow, a lot of things were frozen, and at that time, many of my companions were frozen to death, because I myself was a fire flower, so I was very resistant to the cold. When Xiao Yao thought back to this matter, he felt extreme grief, because she was the only one who had survived.

From her, Chen Xiang found out that there had once been a snowfall in the profound Cold Ancient Realm, which resulted in the appearance of many profoundbing.

"Xiao Yao, come with me from now on. You don't have anywhere to go." Lv Qinlian rubbed her little face with her jade fingers.

"En, thank you sister for taking me in. I will repay you." Xiao Yao said with a joyous expression.

"Sister Lian, aren't you afraid that she'll be poisoned to death?" Chen Xiang said softly. This little demon did not have any attack power, but since she was formed from a strange flower or herb, she should have some power.

"Bad guy, you're underestimating me. I'm not afraid of poison. Back then, I lived in a patch of poisonous mushrooms." Xiao Yao said.

Lv Qinlian nodded his head, "In order to protect themselves, little imps have to live by the side of many powerful poisonous flowers and herbs."

"Little thing, I'm not a bad guy." Chen Xiang declared in a very serious tone.

"Hmph, I won't bother with you anymore. You look like a bad person." Xiao Yao flew over to Lv Qinlian's head and turned into a very beautiful pink little flower. It attached itself to Lv Qinlian's hairpin, making him very surprised.

Chen Xiang changed his appearance to another one, and said: "Sister Lian, I will go to other areas that sell profoundbing, wait for me to return, then we will go to Demon Charming Association together."

"Then go quickly, my place is also going to be open for business."

After leaving the Sky Demon Pavilion, Chen Xiang immediately ran towards the nearest large shop and went to the place that displayed the profoundbing. He used the Chaos Divine Eye to observe the profoundbing, searching for treasures inside.

This shop was not very big, only around twenty to thirty profoundbing. Chen Xiang did not find any profoundbing from here, so he quickly left and went to the next shop.

He ran through five of the larger shops in Northern Demon City and returned empty-handed. Although he could see that there was a profoundbing s with something inside, there were no treasures inside, only a pile of very old weeds.

When Chen Xiang returned to the Sky Demon Pavilion, he found out that more than half of the profoundbing here had already been sold.

"Chen Xiang, I can't bring you to the Demon Charming Association yet. One of our large Sparite vein has been taken, all the Spirit Demons there are injured and are on the run. I need to go there immediately to take a look." Lv Qinlian had also just received the news.

Chen Xiang took out a few Relive Dan and handed them over to Lv Qinlian: "These are some of the Relive Dan, maybe they will be useful to you."

Lv Qinlian did not have many Relive Dan, so the more this kind of thing, the better. She did not reject it and accepted it.

Chen Xiang really wanted to know which power actually dared to provoke this group of Poison Spirit Demons.

He had originally planned to go to the Demon Charming Association to see the profoundbing, then go to the profound Cold Ancient Realm. Now, Chen Xiang had no choice but to change his plan.

The illusion of the profound Cold Ancient Realm was very bad, and it was not suitable for people to build cities. Although there were no longer any blizzards or things like that, they would occasionally blow out large amounts of cold air.

It was said that the strength of this kind of ice beast was extremely terrifying. The strong ones could reach the strength of a Worldly Immortal, and the average one had the strength of Nirvana Tribulation. Many of the people who went in as a party were killed by these ice beasts.

Furthermore, this was only a danger outside of profound Cold Ancient Realm. In the depths, there were even more terrifying and unknown dangers. If one did not have the strength to go in, it would not be easy to think of coming out.

After leaving the Northern Goblin City, Chen Xiang headed towards the north, and felt even colder and colder. In less than half a day, he arrived at the world of ice and snow.

There were originally mountains and forests here, but they were all sealed up by ice. In front of them was a large expanse of ice, and cold winds blew in waves. This place was only the borders of the profound Cold Ancient Realm, and was not very deep yet.

Some would even form a group of a hundred people and enter. This way, it would be safer, and if he entered alone, only the strong would be able to enter, but there were very few of these people.

Previously, Lv Qinlian had also advised Chen Xiang to not let him enter the profound Cold Ancient Realm alone, but he felt that his escaping ability would not let him die inside.

After the cold wind died down, it became very quiet, making people feel very eerie. However, at this moment, a loud explosion and trembling broke the dead silence.

There were people fighting, and it was a battle between a large group of people. All of them were very powerful.

Chen Xiang used Heaven tour method, he immediately went to check on the situation.

[Chapter 1152](#)

"Little Ape King, what is the meaning of this? Don't think that just because your father is the Golden Ape King, you can randomly steal other people's things."

Hearing that, Chen Xiang immediately understood that Little Ape King and his group were plundering other people's things, but he was very strong, so he did not give in, but chose to clash with Little Ape King and the rest.

Chen Xiang had long since disliked the Little Ape King, he did not expect to meet her here. At this moment, he had already swam over and was looking down from above.

As expected, the Little Ape King was with the Black Tiger, and they even brought eight people with them. Looks like they were planning to enter the profound Cold Ancient Realm to search for profoundbing.

The one they snatched from was a big bearded middle-aged man, he was tall and sturdy, one head taller than Little Ape King and the rest. Although his clothes were tattered, he did not sustain any injuries.

"Old Rhinoceros, as long as you hand over that Holy Dragon's Scale, we'll spare your life." Little Ape King held a golden blade in his hand, surrounding the bearded middle aged man.

was shocked. He had previously heard that someone had pulled out a gigantic beast scale from a very large profoundbing, but he did not expect it to be a dragon scale.

Although it was just a single scale, a powerful holy dragon was extremely large. That scale was at least the size of a courtyard and was enough to build several sets of armor. It was simply a priceless treasure.

Of course, Chen Xiang did not care about this kind of thing. He had the profoundwu diamond armour, so he was much stronger than the Holy Dragon's Scales.

"Keep dreaming. Even if you die, this daddy will not let you steal away a Spar. You son of a bitch, you have completely lost your father's face."

The man roared, took out two large blades, and rushed towards Little Ape King, his aura extremely fierce, with every step he took, he caused the ice on the ground to crack, and even created a burst of powerful energy, causing the ice on the ground to shatter.

Little Ape King quickly retreated and shouted, "Quick, stop this old rhinoceros."

The others had already started to attack the burly man, but his defensive capabilities were extremely powerful. Black armor suddenly appeared on his body, and as the weapons slashed down, sparks burst forth.

"This old rhinoceros is really powerful." Chen Xiang exclaimed and immediately rushed over.

Little Ape King was chased by the big sized man until he was running for his life. The people following closely behind, no matter how they attacked, could not make the big sized man slow down at all.

This man was made up of an old rhinoceros and could be considered a demonic beast. His strength was not bad, especially his defensive energy. Even after being attacked for so long, he was still able to move as if he was flying.

Using the coordination of the Shrinking step and spatial travel, Chen Xiang caught up to Little Ape King in an instant and suddenly appeared beside him.

The sudden appearance of a person made the Little Ape King pale in fright, and the big sized man behind him along with the others did the same.

"You ... It's actually you. " Little Ape King was even more surprised and shouted.

Because the appearance that Chen Xiang was using now was the disguise of the Black blood magic sunflower.

Chen Xiang only laughed, then took out the Black blood magic sunflower, and waved at the Little Ape King: "I also gave good stuff from the profoundbing, do you want to rob me too."

"Die." When Little Ape King saw the other party take out a poisonous substance like the Black blood magic sunflower, although he was terrified, in order to prevent the other party from using poison on him, he did not care about the big man chasing behind him, and slashed his blade towards Chen Xiang.

The blade used by the Little Ape King might be a good weapon for others, but in Chen Xiang's eyes, it was just like a piece of scrap metal.

He used his fist, which was wrapped in the White Tiger glove, to hook towards the edge of the blade.

With a "weng" sound, the large blade vibrated, and unexpectedly burst open from Chen Xiang's fist.

Little Ape King was shocked by Chen Xiang's punch. He immediately felt that Chen Xiang's strength was strong enough to break his blade with one punch.

"Hmph." The man who was chasing behind him snorted in anger, and suddenly rushed over, smashing his head fiercely into Little Ape King's chest.

Kacha! The golden armor on Little Ape King's chest shattered, and he flew out, crashing into the ice mountain.

"Kill them." Little Ape King shouted in anger. Although he was hit by the big sized man, he did not die. After all, he was the son of the Ape King.

"Brother, you deal with the one in the back, leave this Little Ape King to me."

Chen Xiang told the big sized man, he then locked onto Little Ape King and used Form Displacement Shadow to teleport him over.

Before Little Ape King could understand why he suddenly appeared in front of Chen Xiang, his face was fiercely punched by Chen Xiang.

"Bastard." Little Ape King was once again sent flying, cursing loudly. His body flashed with a gold light, and soon after, it became a giant golden ape the size of two people.

Transforming into his original body would allow his strength to increase by a lot, but in Chen Xiang's eyes, this was much easier to attack.

Although his body had become a lot larger, his speed was not slow. In a few steps, he had already arrived in front of Chen Xiang. His fist was as fast as lightning, bringing a gold light with it, it struck towards Chen Xiang.

Chen Xiang jumped and dodged, his fist smashing into the ice ground and Little Ape King's other long and big arm also swung towards Chen Xiang, the huge palm seemed to be able to slap Chen Xiang into a knead, the power behind it was extremely terrifying, even the ground was trembling slightly.

"The power of ten thousand mountains." Ten thousand tall and majestic ice mountains suddenly appeared behind Chen Xiang. This ice mountain diagram only flashed by, but it gave Chen Xiang a huge amount of power.

Chen Xiang used the Ground killing, allowing him to wield the power of the earth.

When Little Ape King's palm pressed towards him, he saw a translucent giant palm charging over, smashing into his Golden Ape giant palm.

Boom.

A loud sound shook the forest, and Little Ape King's gigantic body was blasted flying. The gigantic palm that was attacking Chen Xiang was filled with cracks and bloody scars.

Seeing this scene, the people that the Little Ape King had brought no longer fought with the burly man and rushed towards the Little Ape King. If the Little Ape King died, they would all die.

"Great Void Stellar Seal."

A star map suddenly appeared in the sky and fell down fiercely, like countless powerful meteors landing, smashing onto Little Ape King's body with rumbling sounds, causing Little Ape King to wail in pain as blood and flesh splashed out.

Just as Chen Xiang wanted to continue his attack, a roar came from the horizon.

"Stop."

Just as Chen Xiang appeared, a ball of golden light fell from the sky and landed beside Little Ape King.

"Little Brother, this is the Golden Ape King." The big man's face was solemn as he shouted to the Golden Ape King in the distance, "Golden Ape King, how did you teach your son? This little bastard actually wants to kill me and take my things!"

"Brother Rhinoceros, I'll apologize to you here. I promise there won't be a next time. If there is a next time, I'll personally punish this little bastard myself." The Golden Ape King said,

[Chapter 1153](#)

The Golden Ape King gave a pretty good impression, so the rhinoceros didn't pursue the matter any further. After all, the Little Ape King was also beaten badly.

"Father, this guy has a Black blood magic sunflower, he did not sell it to the Demon Empress." The Little Ape King changed back into his human form and glared at Chen Xiang as he spoke. His hand had already shattered and his body was covered in blood, but he could still speak.

"So what? Those are his things, not yours. If you dare to steal someone else's things again, I'll cripple you. Hurry up and apologize." Judging from his appearance, it didn't seem like he was acting. Moreover, his own strength wasn't weak, and if he wanted to kill someone and steal their treasure, he probably would have done so long ago.

Little Ape King clenched his teeth and apologized towards Chen Xiang and the rhinoceros. However, because he was not sincere enough, he was slapped by the Golden Ape King a few times, making his attitude much better.

However, Chen Xiang and the rhinoceros both knew that this Little Ape King hated them to the extreme.

The Golden Ape King left with Little Ape King and the others. The rhinoceros immediately thanked Chen Xiang: "Thank you for your help, if not, the Little Ape King would not have been taken down so easily."

Chen Xiang laughed, "Big Brother Rhinoceros, there's no need to be so polite."

That rhinoceros asked: "Little brother, are you going to the profound Cold Ancient Realm?"

Chen Xiang asked: "That's right, big brother, you too."

The rhinoceros shook its head, "It's getting more and more dangerous inside the profound Cold Ancient Realm, it's just my home outside. If you go in by yourself, it'll definitely be very dangerous."

Chen Xiang did not expect the situation inside to be so dire. "Why would it become so dangerous inside?"

The rhinoceros replied, "Let's walk while we talk."

Chen Xiang and the rhinoceros walked towards the profound Cold Ancient Realm together, but the rhinoceros did not go in.

"There are many profoundbing in the profound Cold Ancient Realm, especially in the depths where we can find all kinds of strange and unique profoundbing, and it is very possible that those profoundbing are growing strange flowers and herbs, because this profound Cold Ancient Realm originally has high level strange flowers and herbs. If it was before, it would be safer to enter, but since a month ago, a group of ice men appeared, it has become extremely dangerous inside."

"I wonder what kind of power that group of ice men actually have to be able to control that group of ice beasts. Also, this group of ice men really like to eat human flesh. If they get caught, they will all be eaten."

Chen Xiang now understood that the reason the profound Cold Ancient Realm was in danger was because of that group of ice men.

The rhinoceros continued, "Those ice men are not only able to control ice beasts, but they also have a very powerful freezing energy. It is said that they can freeze people at will, and after some powerful weapons are frozen, they will break when they fall to the ground."

Chen Xiang followed the rhinoceros to a very high ice mountain. Standing on the top of the ice mountain, looking at the vast ice plains in the distance, the rhinoceros pointed at the vast ice plains and said: "That place is the profound Cold Ancient Realm, it is very safe outside. However, it is very difficult to find profoundbing, and one can only go deeper in, but the deeper regions are already occupied by the ice people."

The rhinoceros knew that Chen Xiang's strength was extraordinary, otherwise, it would not have taken down the Little Ape King so easily. Furthermore, Chen Xiang's attitude towards entering the profound Cold Ancient Realm was very firm, so he did not try to dissuade him.

Chen Xiang bid farewell to the rhinoceros and stepped into the profound Cold Ancient Realm. After walking at a slow pace for half an hour, he had already felt that the's icy cold power was very similar to the one released by the profoundbing.

Chen Xiang came here to find more profoundbings so he could use them to refine pills. This was because the energy contained within the profoundbing was extremely strong and scary.

Previously, he had inquired about the method to find the Primordial profoundbing, which was to walk around randomly. If there was a profoundbing deep underground, one would be able to sense it while walking on it. This was because the cold energy released by the profoundbing was very special and strong.

Walking on the ice plains, Chen Xiang could see many deep craters in the ground. He now understood why some profoundbings were so expensive.

Some profoundbings would even be at the bottom of some huge crevices, which were difficult to dig. Chen Xiang had already passed through a few of them, but he had not sensed any profoundbing at all.

It had already been two days since Chen Xiang entered the profound Cold Ancient Realm. It was like a large frozen ocean inside the profound Cold Ancient Realm, only that there would occasionally be a group of tall mountains, and most of them were flat ice lands.

"Truly amazing. There are many pitfalls." Chen Xiang saw that many of the pits had been dug very deep. It could be seen that this piece of ice was extremely thick, and the thing that was truly frozen should be located very deep in the ice.

"I think that a lot of profoundbings were broken by those powers, maybe some forces already got their treasures from the profoundbing, but they just did not announce it to the public." Along the way, when Chen Xiang saw those pits, he knew that there were many profoundbings that had been dug out.

There was no night in the profound Cold Ancient Realm, the sky was always covered by thick clouds, and from time to time, there would be a cold wind blowing. If someone without any power came in, they would definitely be frozen to death.

Until now, he had never seen those ice men and beasts.

After Chen Xiang wandered around here for five days, he finally felt the profoundbing. It was the cold energy unique to profoundbings, and anyone who approached it would be able to feel it.

Chen Xiang was pleasantly surprised. He released his divine power and probed the exact location of the profoundbing in the depths. Naturally, he would not release it like the others did.

"I found it. There shouldn't be a problem with the distance, but this profoundbing is really big." After Chen Xiang locked onto the profoundbing, he used Form Displacement Transposition and used the power of the spatial laws to bring the profoundbing up.

This piece of profoundbing was very big, it was two people tall, round, and green. It released waves of green light, so it could not be considered a special profoundbing, because its shape was very ordinary, and its color and light were also very common.

After he took the profoundbing out from the depths of the frozen ground, the large amount of special icy cold power released by this round ball of profoundbing quickly spread to its surroundings.

Very quickly, a group of over thirty people arrived in the distance. They were all wearing fiery red clothes, and Chen Xiang could tell at a glance that these were the Fire Divine Palace's clothes.

Fire Divine Palace did not suffer any serious losses, so the rankers hidden in the Fire Divine Palace were also unknown, it was just that Fire Divine Palace had been keeping a low profile during this period of time, so no one knew of his true strength.

Chen Xiang hurriedly put away the profoundbing, but the group of Fire Divine Palace people saw it from afar. It was so big, and also released a green light, it was always a normal profoundbing, and it was very easy for people to think that there was something inside.

Chen Xiang was not afraid of the people from the Fire Divine Palace, and he even liked these people from the Fire Divine Palace a lot. This was because all of them had Fire Souls in their bodies, and from his point of view, these people had come to deliver the Fire Soul to him.

[Chapter 1154](#)

As the people of Fire Divine Palace slowly approached, Chen Xiang suddenly felt that something was wrong, because he saw that behind the group of people from Fire Divine Palace, there was a group of white people following. Their skin and fur were all as white as snow, their eyes flashed with white light and they exhaled white smoke.

The Ice Men mentioned by the old rhinoceros must be the ones in front of him.

What surprised Chen Xiang was that these ice men were actually together with the Fire Divine Palace. This made him wonder if there was any cooperation between the Fire Divine Palace and the ice men, or if the Fire Divine Palace could enslave these ice men.

If that was really the case, it meant that the Fire Divine Palace wanted to use these ice men to drive people into the profound Cold Ancient Realm to search for profoundbing. Not only would they drive them away, they might even kill them and loot their goods.

The group of Fire Divine Palace in front of him were not weak, a few of them were the kind that were only one step away from levelling up.

What was even more surprising was that behind this group of people, on the flat plain, large ice beasts suddenly appeared one after another. These ice beasts were all in the form of wild beasts. Lions, tigers, wolves ... It was just that its size was huge and the icy cold power on its body was extremely powerful, so it was unknown how it was formed.

The group of ice men were all riding on top of those huge ice beasts, and a few sharp ice spears were condensed in their hands as they faced Chen Xiang, ready to throw them at him at any time.

Chen Xiang never thought that the opposing forces would suddenly become so powerful, especially the ice beasts, the cold energy that they released was extremely strong, causing Chen Xiang to be wary. He could feel that the cold energy that the ice beasts and ice men were releasing were very similar to that of the Primordial profoundbing.

The mysterious Primordial profoundbing already contained a lot of powerful energy. If these mysterious ice men and beasts could absorb those profoundbing and turn them into their own energy, then the released cold energy would definitely be very powerful.

If it were only the people from the Fire Divine Palace, Chen Xiang would definitely not be afraid of them. But now, there were those Ice Beasts that were neither human nor ghost, and they were also very strong, he felt that even Magical corruption gas would not be able to deal with these things.

"Let's go, and find a chance to take care of these Fire Divine Palace guys." Chen Xiang was not a match for anyone, furthermore, he was not clear about how strong the ice men and beasts were, so he decided to leave first.

The people from the Fire Divine Palace had already seen that he was about to leave, and anxiously shouted: "Lock him up, don't let him leave, he just obtained a large piece of profoundbing."

Chen Xiang had already kept the profoundbing. Although he heard this, he still turned around and ran.

Just as he took two steps forward, the ground suddenly trembled, and translucent thick ice walls appeared around Chen Xiang, forming a gigantic barrier that trapped Chen Xiang and the group of Fire Divine Palace inside. Chen Xiang who was running frantically crashed into the thick ice walls, and was stopped.

These ice walls were very sturdy, yet his fierce strike did not leave any mark on them.

"Don't even think about running. Obediently hand over that profoundbing and become our slave, then you will continue to live. Otherwise, you will be reduced to the food of the Ice Demons behind me." A middle aged man from Fire Divine Palace said indifferently. Looking at his appearance, one could tell that he did this frequently.

Chen Xiang finally understood why this profound Cold Ancient Realm had suddenly become so dangerous. It was actually caused by the command of a group of powerful Ice Demons so that they could monopolize the profoundbing inside.

What Chen Xiang was puzzled about was, how exactly did the people of the Fire Divine Palace control these Ice Demons? The Ice Demon that the Fire Divine Palace mentioned was extremely powerful, and there were a lot of them as well, and the power of frost was extremely strange, seeing that they could easily create such a powerful ice wall. It could be said that in the profound Cold Ancient Realm, they were the absolute rulers, how could they listen to the orders of these Fire Divine Palace fellows.

Chen Xiang suddenly had an idea and asked, "Ice Demon, the thing behind you is called Ice Demon, aren't you from the Fire Divine Palace? Why are you colluding with Ice Demon, who kills humans in the profound Cold Ancient Realm?"

"You know too much. For you to be able to come here alone means that you have a certain level of strength. You should understand that we won't let you off. You should know what to do now." The middle-aged man's voice became gloomy.

If it was before, Chen Xiang only planned to escape first before saying anything, but now, he knew these ice men were demons, and secretly rejoiced in his heart.

His Green dragon demon-slain broadsword was specialized in suppressing demons, and he had mastered techniques to deal with them. In particular, that Holy Devil-suppressing seal was a nightmare for demons.

Chen Xiang said: "If I were to give you the profoundbing, you would let me go. I will give it to you, but I'm afraid that you all are unwilling."

The middle-aged man became impatient and his voice became even colder, "Of course, you must be our slave."

Chen Xiang laughed coldly, "Since that's the case, you all must die."

Once the word "die" was said, Chen Xiang stepped onto the Shrinking step, his body emitted a burst of cyan light, and flew towards the group of Ice Demon Beasts at an extremely fast speed.

In an instant, Chen Xiang entered the group of ice demons. This action made it hard for the group of Fire Divine Palace people to understand, because in their eyes, this was an act of seeking death, even though Chen Xiang's speed surprised them.

However, they soon felt that something was wrong, because they could sense a very strong aura of a dragon.

Chen Xiang had already taken out his Green dragon demon-slain broadsword. When he flew over, he released the Devil-suppressing holy power and used it to slash at the ice demon riding on top of a giant wolf.

The appearance of the Devil-suppressing holy power caused these Ice Demons to feel extremely terrified. They all shouted out in a high-pitched voice that caused one's hair to stand on end, and their bodies even released a very strong ice-cold aura that instantly condensed into a thick layer of ice armor to protect their bodies.

The Green dragon demon-slain broadsword s were poured into the berserk Devil-suppressing holy power, causing this divine blade to become millions of kilograms heavy. When it violently slashed down, the wave of strong pressure that it emitted collided with the cold energy, and like thunder, it cut down everything in its path.

A rumbling sound was heard, followed by a sharp scream. Before the ice demon could even touch Chen Xiang's divine blade, its body was crushed by the strong air pressure.

By the time the God's Saber had completely slashed onto the ice man's body, the ice man's body had already shattered, and the huge wolf beneath him was also split into two by Chen Xiang.

In just an instant, Chen Xiang killed an Ice Demon.

Under normal circumstances, this Ice Demon would be extremely strong, especially with its defensive power. However, facing Chen Xiang's divine blade and Devil-suppressing holy power, it couldn't even withstand a single blow.

"Green dragon demon-slain broadsword, it's Chen Xiang." The people of Fire Divine Palace panicked.

Chen Xiang's Green dragon demon-slain broadsword and Devil-suppressing holy power were both the nemesis of demons and had a very strong killing power towards them.

Seeing these demons with the powerful icy cold power so weak, Chen Xiang was overjoyed. As expected, these Ice Demons were afraid of the Devil-suppressing holy power and the Green dragon demon-slain broadsword.

"Quickly kill him." The middle-aged man from Devil-suppressing Divine Palace shouted.

Chen Xiang had already leapt to the top. At this time, the group of Ice Demons on the ground all threw ice spears, as waves of angered and sharp cries came out of their mouths.

Shua, with a slash from Chen Xiang, the Green dragon demon-slain broadsword suddenly grew in length and dozens of them appeared. They were like a gigantic fan that enveloped the ice demon and ice beast below and shattered those ice spears.

Before, when the Demon Master of the Heaven Thunder Purgatory was facing Chen Xiang's Green dragon demon-slain broadsword and Devil-suppressing holy power, he had felt that they posed a great threat, but now, these ice men were like paper in Chen Xiang's eyes.

What was even more terrifying was that when the wave of sword shadows from the Green dragon demon-slain broadsword pressed down, a loud noise came out. The sound of thunder was actually the power of the tenth layer of Devil-suppressing power.

All sorts of violent powers exploded out at the same time, enveloping downwards and colliding onto the ice ground. Those ice men and beasts were smashed into pieces by Chen Xiang's blade as if they were made of mud.

"Kill him." The people from the Fire Divine Palace were shocked. They never thought that Chen Xiang would actually be so powerful, killing off the group of powerful Ice Demons and Ice Beasts with a few breaths. They thought that it was all because of the Green dragon demon-slain broadsword, and this made them even more anxious to snatch it.

After Chen Xiang slashed his blade down, he immediately rushed towards the group of people from Fire Divine Palace. With that speed, it could be said to be terrifying, and in half a blink of an eye, he charged into the crowd.

Blood blossomed into the air. The berserk Dragon Power, accompanied by a terrifying killing intent, surged out and filled the entire ice barrier, causing people to feel as if millions of lives had been lost in this battlefield, and Chen Xiang was the god of death here.

[Chapter 1155](#)

Just as Chen Xiang charged into the crowd, he instantly killed over ten people, all of them were not very strong, their reaction speeds were not as fast, like weeds, they were all killed by Chen Xiang, some of them had their heads chopped off, some of them were broken at the waist, the scene was extremely bloody, but compared to the intense killing intent that surged out from Chen Xiang, these people were nothing.

As the Killing-god heart jumped, an endless killing intent gushed out from it, causing Chen Xiang's strength to become even stronger, and made Chen Xiang's strength contain an unmatched killing intent.

This wave of killing intent enveloped everyone, causing them to feel that it was the most terrifying thing in the world.

"Don't be afraid of him, he's just bluffing." That middle-aged man roared loudly, making it so that their auras weren't that weak.

At this moment, only a few elders remained. They attacked one after another, throwing out palms and punches in unison. Waves of terrifying fire attacks struck out, actually slowly melting the huge ice barrier that was shrouding them.

The thing that Chen Xiang was least afraid of was fire, so no matter how many experts there were in Fire Divine Palace, he would not be afraid.

Just as he was about to attack, Chen Xiang was hit back by multiple flame attacks.

"Your Fire Soul is not bad, and these flames have a certain degree of vitality, I will accept them." Chen Xiang laughed out loud, he opened his mouth and activated Devouring magic kungfu, locking onto the incoming flame power, and his Dantian also became a Fire Dan Tian.

Hiss.

Chen Xiang inhaled fiercely, and all of the flame energy that was attacking him once again entered his mouth. It only took a few seconds for it to be completely swallowed by him.

With his current strength, it would be a piece of cake for him to refine the flames that had been devoured. At this moment, his body was emitting a bit of fire qi, which was released when he was refining the flames.

Those people from the Fire Divine Palace were stunned, the combined attack just now, even if it was a Worldly Immortal, would not dare to face it head on. However, Chen Xiang was not only unscathed due to the attack just now, he was now consuming their flames.

Monster.

The group of Fire Divine Palace s suddenly realised that Chen Xiang was also a strong flame user, they knew that Chen Xiang was a powerful Alchemist, but they never expected his flames to be powerful to such an extent.

The people from Fire Divine Palace wanted to escape, but the ice shields that the ice men had released became an obstacle in their escape.

"You must die." Chen Xiang roared in anger, and all of the Innate Qi within the thirty Heaven Pellets in his body gushed out, transforming into a berserk Dragon Power, causing a large piece of the ice plains to crack from the shockwave.

"Canglang Slash."

The force released by the Green dragon demon-slain broadsword surged like waves, suddenly rushing forward, the waves were as sharp as blades, and the waves also seemed to be formed from countless sharp blades, sweeping across in a formidable array.

"Ahh ..."

As they screamed out miserably one after another, those from the Fire Divine Palace, in the face of Chen Xiang's full power attack, had no way out. They could only allow the blue wave blade to slash at them, as lines after lines of shocking bloody scars appeared on their bodies.

Now, there were only three people left. One of them was a middle-aged leader, and the other two were old people. Their entire bodies were covered in visible bone blades wounds.

Chen Xiang, who had experienced the Nirvana tribulation, was terrifyingly strong, and was not something an ordinary person like them could compare to. They truly regretted provoking Chen Xiang, and if not for that, they might have continued to lead that group of Ice Demons to sweep this field of ice.

Chen Xiang was unmerciful, he immediately teleported and leaped to the side of the three people. With a swipe of his claw, he pierced through their bodies and activated Devouring magic kungfu, absorbing their Fire Soul.

"You ... You are engulfing our Fire Soul." That Fire Divine Palace middle-aged man's face was filled with shock. It had always been only his Fire Divine Palace who plundered other people's Fire Soul, but now it was their turn to be robbed by others.

Chen Xiang remained silent as he pushed his Devouring magic kungfu to its limits and sucked all three people's Fire Soul out.

"Ah... "Ah ..." Chen Xiang's way of plundering their Fire Soul was extremely barbaric, causing them to feel extremely miserable.

These were three cyan colored Fire Soul s, which had been merged by Chen Xiang and turned into blue colored Fire Soul.

Chen Xiang killed the two old ones, then used the Soul Absorbing Devil Spell to search the middle-aged man's memories. He wanted to know how the Fire Divine Palace controlled those Ice Demons, as well as a few things related to the Fire Divine Palace's activities in the profound Cold Ancient Realm.

"Soul Search... "A spell." The middle-aged man felt his memories being pricked by someone as he shouted in fear.

"You can die now." Chen Xiang used the Soul Absorbing Devil Spell to carry out a soul attack and directly erased the middle-aged man's soul.

Chen Xiang was extremely excited when he found out about this explosive thing.

"I never thought that the Fire Divine Palace would have been here already. Many people were killed by them in secret and a large number of profoundbing were taken by them. Those Ice Demons were let out by them from the profoundbing and they used a secret technique to tamper with the Ice Demon's soul while the Ice Demon was sleeping, allowing them to control a large number of Ice Demons."

"Does this Fire Divine Palace want to rule over the profound Cold Ancient Realm?" Su Meiyao asked.

"That's not it, profound Cold Ancient Realm is still very powerful deep inside, they don't dare to go deep there either. However, they used these Ice Demons to find a large number of profoundbing. I know where they stored them."

This made Chen Xiang excited, because he no longer needed to look for profoundbing s aimlessly. As long as he finished looking over the places where s were stored, he would be able to obtain a large amount.

Now, Chen Xiang knew that all those Ice Demons were from the Primordial Era and were let out by the Fire Divine Palace. Furthermore, the Fire Divine Palace knew that the Ice Demons existed within the profoundbing, and in order to enlarge the Ice Demon Legion, they wantonly swept through the outer circle of the profound Cold Ancient Realm, trying to get as many of them as possible.

As for these ice beasts, they were all native to the profound Cold Ancient Realm, and it was unknown when they came out of it and continued to reproduce until now, but they were still quite powerful. However, these ice beasts did not have much intelligence and could not defend at all against sudden sneak attacks.

Chen Xiang ran up the profound Cold Ancient Realm alone. According to the memories he found, he was rushing to the base the Fire Divine Palace set up here.

The big shots of the Fire Divine Palace seemed to know the uses of these profoundbing. Not only did they gather the treasures inside the profoundbing and the Ice Demon, they were also doing other things as well.

According to the middle-aged man's memories, when the Fire Divine Palace gathered a large number of profoundbing together, it could produce a very strong icy cold power. This kind of icy cold power was extremely special and came from the profoundbing, as for what uses it had, the middle-aged man had no right to know either.

The place where the Fire Divine Palace s were stored was deep underground. They had built an extremely large underground palace there, and over the years, the Fire Divine Palace had kept a very low profile, but the secret was that the profound Cold Ancient Realm was able to control such a powerful force. If Di Tian fully recovered his powers in the future, then among the Di Tian, the strongest person would be the Fire Divine Palace.

Fire Divine Palace's way of keeping a low profile was smarter than those ancient powers. When Chen Xiang found out about this, he couldn't help but feel a chill down his spine.

Travelling through the night, he took three days to arrive next to a huge ice mountain. At the side of the ice mountain, there was a cave that he could enter, but the security was very tight, so it wasn't easy to silently enter.

Such an important place must definitely be guarded by a very strong person. If he were to face the siege of those kind of Worldly Immortals or Immortal Monarch s, it would be difficult for Chen Xiang to resist, so he planned to quietly enter that underground palace and steal away the large amount of profoundbing that were stored inside.

"Now is the time to test the Art of Change." Chen Xiang saw snow falling from the sky, and the snow was being blown everywhere by the strong wind.

"The cave entrance is only guarded by the Ice Demon and Fire Divine Palace's fellows. There aren't many people in the depths, and it's very dark." Long Xueyi said.

Chen Xiang took a deep breath, turned himself into a thumb-sized drop of snow, and floated towards the cave. If he became a butterfly or something like that, it would definitely arouse suspicion, and right now, there was already some snow that was as big as a goose feather blowing towards the cave. Chen Xiang had sneaked into the snow and entered the cave along the wind.

After entering, the lump of snow that was formed from Chen Xiang rolled on the ground for a bit, and under the watchful eyes of the group of Ice Demons and people, it easily entered the depths of the cave, and successfully dove in.

[Chapter 1156](#)

Although he could successfully sneak in, he was still worried that he would be discovered. If he alarmed the experts here, they might let the experts take the profoundbing back, and at that time, it would be very difficult for him to get hold of it. He did not want to miss this chance.

This passage was very wide, so walking along it side by side with seven or eight people wasn't a problem. Based on Long Xueyi's state of mind when he went out to explore, he could see that there was a deep pit at the end of the passage that led to the underground palace, where he could directly jump into it.

Halfway through, there was suddenly someone in front. Chen Xiang immediately turned into a small stone, quietly sitting on the ground.

"What kind of people entered the profound Cold Ancient Realm and actually annihilated one of our squadrons? That group of people are considered very strong in the current Di Tian's eyes, and they even brought a group of Ice Demons with them, they were all exterminated. Based on the situation with the Life Pearl splitting apart, they all died in batches." A person walked out of the tunnel and said.

It should not be them. There are also a few that have that kind of strength, but I have a feeling that if it wasn't them, for example, Zuo Zhenxuan who is going to guard the Devil-subduing College, Chen Xiang who is going to guard the Devil-subduing College, he probably won't come here right now. His wife's Divine Weapons Heavenly Country is currently being harassed by the Devil Race.

"Forget it for now, since there's such a guy in profound Cold Ancient Realm, we shouldn't go out during this period."

Tap, tap, tap.

Chen Xiang who had turned into a small stone was kicked by one of the fellows, rolling on the ground.

"Bastard." Chen Xiang secretly cursed in his heart. According to the conversation between the two, Fire Divine Palace already knew that the group of people were dead.

Fortunately, he did not impersonate that group of people. Otherwise, he would have been easily discovered.

After the two of them left, Chen Xiang turned into a small worm and continued moving forward.

This pit is very deep, and you can tell that it was built to allow for a large number of people to enter and leave. At this moment, he guessed that there should be a large number of people or ice demons in your underground palace.

It was not easy for Chen Xiang to descend either. There were many layers of formations around, and they could not be touched. Fortunately, his formation could be considered passable as well, as the formations laid along the way could be easily avoided.

From this, it could be seen that this underground ice palace was extremely tight, but Chen Xiang still managed to sneak in.

Chen Xiang roughly estimated that it was at least 2000 meters deep. If it continued, there would be over 300 array formations, and if there was anyone that wanted to enter, there would be a special array master that would control the closing of the array formation, allowing those people to pass through.

When Chen Xiang went down, there were already a few people coming up from below. These people were all patrolling back and forth, and one could tell that they protected this place very well.

"Judging from the traces of digging, this must have been built more than ten years ago." Long Xueyi said.

More than ten years ago, the Fire Divine Palace was already here. Chen Xiang did not expect them to arrive so early.

Arriving at the underground, it was yet another vast passage, but it was not very bright and was very suitable for Chen Xiang to enter stealth. There were many people guarding here, although they were not very strong, but if this group of people worked together, Chen Xiang was not confident in being able to kill them in one strike, even if he could exterminate all of them in a short period of time, it would cause a huge commotion.

If he did not have absolute confidence, Chen Xiang would definitely not make a move, so he had already missed out on two people who possessed Fire Soul.

They had to pass through this passage to reach the underground palace.

Chen Xiang went through a narrow crack at the middle of a thick metal door and arrived at a very grand hall. Even though it was very dark here, Chen Xiang could see it very clearly.

"What is the Fire Divine Palace trying to do, to build a palace for their Emperor in the future? But they shouldn't build an underground palace. Chen Xiang thought in his heart. He carefully flew towards a door based on the memories he had swallowed.

Behind the door, was the road that led to the huge warehouse. That place was located at the center of the underground palace, and was just below it.

On one hand, these array formations were to prevent people from barging in, and on the other hand, if anyone touched those array formations, they would alert the experts guarding this place, so Chen Xiang was extremely careful, he had already walked a large portion of the way, and definitely would not fall short.

There weren't any guards patrolling this path, but there were many extraordinary formations and they were all very powerful and very difficult to break through. If a very powerful formation master were to enter, it would take a few days to silently break through the formation.

But Chen Xiang only used more than six hours to pass it. He only understood how powerful the power of the Ancient Code was when he was here, otherwise he would not have been able to come here so easily.

Of course, his current strength was still too weak and he was still unable to fully display the power of the spatial profound pearl. Otherwise, he could have easily gone to that warehouse.

"This warehouse is very powerful, I can feel that the terrifying icy cold power is being transported to a certain place, could it be that there's something extraordinary up there?" Long Xueyi said in shock.

"Can you check inside?" Chen Xiang asked.

"I couldn't detect it, but it's filled with the strange icy cold power that the profoundbing released. It's very dense, and you know that my consciousness can't see through the profoundbing, so my consciousness was blocked by the dense icy cold power." Long Xueyi said.

In front of the warehouse, there was a huge sealed iron door. Chen Xiang could only go through space to enter.

"I hope there's nothing powerful inside. Even if there is, it's best not to discover me." Chen Xiang said in his heart.

He, who had transformed into a mosquito, did not lose any strength in his body. Therefore, he could use the power of the laws of space to allow him to traverse the space through this door.

Under normal circumstances, traveling through space would cause fluctuations in space, which could be easily felt by others, but he wouldn't. This was because the law of space he grasped was one with nature, so traveling through space was very natural.

"There's actually someone here." Chen Xiang was shocked. Although he couldn't see anything from here, he could feel it.

This warehouse was filled with profoundbing of all sizes. There were many different kinds and colors, and most of them could release light.

Chen Xiang estimated that there were at least five thousand profoundbing here.

Such a large number of profoundbing, and they were all of good quality. The released icy cold power were all extremely dense, which showed that the profoundbing that could be put into this place were all meticulously selected.

As for whether or not there were any treasures inside, Chen Xiang did not know right now, he did not have the time to check it out. What he needed to do was to wait for the people inside to leave, and then quickly move the profoundbing inside.

Even if the profoundbing did not have any treasures, they would make him salivate just by looking at them. If he were to sell them, they would be of sky-high prices.

"These two fellows are very strong. I never thought that the Fire Divine Palace would actually hide such a powerful guy. Seems like they are at the Late period of human immortal, or perhaps at the early stages of the Immortal Monarch." Chen Xiang could feel that the two fire attribute Innate Qi s inside pierced through the dense icy cold power.

However, even if these two Rankers were powerful, they would need to use the power in their bodies to protect themselves from the icy cold power at all times.

"I wonder when we will be able to complete the orders from the higher ups and revive the Ice Emperor. Sigh, why did we have to do it when the Ice Emperor was revived? The two of us came here and obtained quite a few Fire Soul s, but none of us received any rewards." From the sound of it, this was a young man.

When Chen Xiang heard his words, he was extremely shocked. They actually wanted to revive a fellow called "Ice Emperor".

"Little Naughty Dragon, do you know who this Ice Emperor is? He can't be as powerful as you, right?" Chen Xiang asked.

"How would I know? But I think it should be related to this profound Cold Ancient Realm. Didn't that big white cat say that this place was filled with snow and ice before?" Long Xueyi said.

"The White Tiger did indeed say it again, but at that time, this place was also very dangerous. Even Ten Heavens Supreme Lord and the White Tiger did not dare to enter deeply, so what's with the appearance of the Ice Emperor here?"

Chen Xiang started to think of a plan to move the profoundbing away without the two of them noticing. If he could get half of it, that would be good enough.

[Chapter 1157](#)

Chen Xiang did not dare make any big movements, the two guards in the warehouse were both strong, if he were to alarm the two of them, it might cause many stronger people to come over.

So he had to be very careful, which made it even more difficult.

"Looks like we can only kill them. If they die, even if the people outside discover it immediately, they would need some time to rush over. You can take advantage of this time to take the profoundbing away." Long Xueyi said.

Chen Xiang did not agree with his thought: "No, what if those people come really quickly? I think I can use the Drunk god powder, they were just poisoned, and with their strength, they wouldn't be killed instantly by the poison. When they expel the poison, it would be me doing the deed."

"This will expose the Drunk god magical poison, but they don't know your true identity, so it shouldn't be a big problem. You just need to hide your identity, and don't let them see through you." Long Xueyi said: "You have to be careful, they will notify others to come over, for example, they will use Communication jade Symbol paper s."

Chen Xiang thought for a moment, then said: "That's easy, keep an eye on them. If they want to use it, just destroy their jade talismans, you should be able to do it right?"

"That's not a problem. I'll help you keep an eye on the outside, so you can act faster later."

Chen Xiang and Long Xueyi discussed for a while, but only this way was feasible.

"In another month, that whatever profoundbing will start, and at that time, we will definitely have the most profoundbing in the Fire Divine Palace. It's the strangest, and perhaps we can even sell it for a good price." The two men began to chat again.

"I heard that there are many famous forces that were not invited to the profoundbing Society."

It is said that at that time, we will also establish a profound Ice City, and this city will specialize in selling profoundbing. This way, it will be easier for us to find the profoundbing's people to find a good place to look for our teammates, and at that time, we can all ... "Heh heh."

Chen Xiang already knew that this group of people from the Fire Divine Palace were not good people, he never thought that they would actually plot against him. If he didn't get rid of this place by itself, then in the future, those who would enter the profound Cold Ancient Realm to search for profoundbing, would mostly fall into the hands of the Fire Divine Palace.

Right now, Chen Xiang was sure that the reason the Fire Divine Palace gathered the profoundbing was to provide that kind of special icy cold power, so that a guy named "Ice Emperor" could revive.

Since these profoundbing are here, then Ice Emperor must be here as well. Chen Xiang really wanted to destroy this place, but this underground palace was extremely sturdy, and would not be easy to destroy. Furthermore, there should be other rankers protecting this place.

"If only Bai Xing was here, I could have let her use that secret method and summon some meteorites." Chen Xiang turned into a hunchbacked old man, took out his Death-haunting arrow and hid all of his presence to the extreme. Then, he quietly condensed his Qi arrow and mixed the Drunk god powder into it at the same time.

Even if the two arrows could not pierce into the two people's bodies, the Drunk god powder s that burst out would be able to quickly enter their bodies, instantly paralyzing them and preventing them from moving or even talking, making them look like drunkards.

When they went to look for the Chaotic Mountain in the future, the Super Yuan Sect Leader would know that it was the Drunk god scent, and he would be the fastest one to run. This showed how terrifying the Drunk god magical poison was, Chen Xiang suspected that the Three horns Dragon King was affected by this, and thus was killed by the Super Yuan Sect Leader.

Just as the two of them were getting more and more excited, a 'swoosh' sound was heard, and two dark arrows flew out.

To be suddenly attacked in a place like this was very hard to imagine. It was because in their eyes, no one could come to this place without making a sound.

Even if they did not expect that someone was here, the reaction of the two elderly men caused Chen Xiang to be shocked. In that moment, they sensed that someone was ambushing them and immediately released a strong shield of Qi, blocking the two hidden arrows that Chen Xiang had shot out with his Death-haunting arrow.

Compared to the two elders, Chen Xiang was still far behind in terms of strength, so he was easily able to block the Qi arrow that he had condensed. Fortunately, he had already considered such a situation, so after being blocked by the Qi arrow, it still exploded.

"Who is it?" The old man let out a roar and quickly looked around, but he did not see anyone around.

At that moment, the other old man's face fell. He quickly sat down cross-legged and circulated the power within his body to resist the strange energy that had suddenly appeared on his body. The power actually went as far as to numb his body.

The old man who shouted also found out, his face ashen, because he recognized what the thing that paralyzed his strength was, it was one of the Super Old poison, the Drunk god magical poison s.

The Drunk god powder s all entered the two old men's bodies. They would not be able to die nor move for a while, so they could only sit there and use all their strength to expel the poison.

What Chen Xiang wanted was this kind of effect. If these two people died, once their life origin orbs ruptured, it would be discovered by outsiders and Chen Xiang wouldn't have the time to remove those profoundbing.

Although those two old men had ugly expressions on their faces, although they were unable to move, they opened their eyes. They wanted to see exactly who it was that had actually managed to use this sort of strange poison to ambush them.

Very quickly, they saw a hunchbacked old man skillfully taking away the pieces of beautiful profoundbing. In the blink of an eye, he had lost four or five of them, and it was by choosing the best one to take away as well.

However, they could only bleed in their hearts. The profoundbing here had taken them many years, and they had spent a lot of manpower and resources to collect it, but now it had been taken away by a hunchbacked old man.

"Quickly, it seems like someone noticed." Long Xueyi urged because she already heard some noise coming from outside.

Chen Xiang had already taken away more than two thousand pieces, and there was still more than half of them here. If he wanted to take away these profoundbing and touch them with his hands, he had already used his maximum speed.

In the blink of an eye, there were more than a thousand less profoundbing left. The two old men sat in the middle and watched as the profoundbing s around them disappeared one by one, and they felt blood welling up in their hearts, but they could do nothing. They could only watch as the man brought the profoundbing away.

had also felt that it was enough and rushed to the back of the two old men, releasing all the fire Innate Qi from his body, and poured it into the bodies of the two old men.

The two old men were just like ordinary people after being struck by the Drunk god magical poison. Even though their bodies were strong, they would still become like tofu after being struck by the poison.

Chen Xiang waved his sleeves, collecting all the ashes, then turned into a mosquito and flew towards the direction of the big door. In the next moment, dozens of Immortal Grade Rankers also rushed in, because the number of profoundbing here suddenly decreased, and they did not have much icy cold power, so they could immediately feel that there was a problem here. Adding the fact that they were not able to contact the two elders with their jade talismans,

After the group of people entered, they saw that there were so few profoundbing here. All of them were extremely shocked and quickly searched, yet they could not find anything.

Chen Xiang was already familiar with the road, and quickly left the underground palace. After reaching the deep pit above, the people outside were also blocked by a group of experts, but Chen Xiang easily passed through them.

He could not destroy this place now, but he would definitely remember this matter. In the future, he would come again, and he also had to figure out who exactly this Ice Emperor was, to actually be able to put in effort to set up this underground palace. He also searched everywhere for profoundbing s in order to revive him.

In short, in Chen Xiang's opinion, the Ice Emperor was not a good person because he was mixed in with the Fire Divine Palace.

In order to make things smooth, Chen Xiang did not stop at all and continued to fly for several days and nights, leaving that underground palace behind without any restraint. This trip also allowed him to have a deeper understanding of the hidden strength in the Fire Divine Palace, and he needed to quickly inform Lv Qinlian of this so that he would have an eye for the Fire Divine Palace.

Chen Xiang kept having the feeling that there might be Immortal King level experts in the Fire Divine Palace.

[Chapter 1158](#)

Chen Xiang made a trip to the profound Cold Ancient Realm. Although he did not enter any very dangerous depths, he had profited greatly, and the profoundbing he obtained was probably the sum of the hard work of many great forces over many years. There was a total of 3,700 pieces, so he was not in a hurry to open them.

He returned to the Northern Demon City, and then with that appearance, he came to the Sky Demon Pavilion. The charming demoness there welcomed him enthusiastically, yet Lv Qinlian still hadn't returned.

When he had previously been heading towards that underground palace, he had heard that Lv Qinlian had been plagued by some troublesome matters. He was very curious about what had caused Lv Qinlian, the Demon Empress, to go there for such a long time.

Chen Xiang was a distinguished guest here. He had called for the female owner of the Sky Demon Pavilion, a mature and attractive demoness.

"Where did your Big Sister go? Why hasn't she come back yet?" Chen Xiang was in a hurry to go to Demon Charming Association to help Lv Qinlian look at the profoundbing.

"She went to take care of things. She should have mentioned to you that the Sparite vein of our Demon Charming Association was taken away by someone else." The woman replied very gently.

"Where is that mine? I'll go find her and maybe I can help her. She's already so strong, and she's been working on it for so long. The ones who took over your mine shouldn't be weak, right?" Chen Xiang said.

"Yes, that group of people are very strong. Even now, we still don't know where they came from. Young master, I can tell you where Big Sis is now. If you have something urgent, you can go look for her."

Some of the Spirit Demons here called Lv Qinlian king while some even called her elder sister. In short, Lv Qinlian did not have much prestige in the Demon Charming Association, even if it was outsiders. Furthermore, Lv Qinlian's personality was very gentle, and he looked very amiable and approachable. Hence, the Spirit Demons in the Demon Charming Association got along well with her.

After Chen Xiang found out the location from the shopkeeper, he immediately rushed over. He wanted to ask Lv Qinlian if he knew about the Ice Emperor, and he also wanted to see who the guy who dared to provoke the Demon Charming Association was, to actually be able to stall Lv Qinlian for so long.

The Sparite vein was inside the Demon Realm, but it was very close to the Human Realm and belonged to the border region of the Demon Realm. After Chen Xiang stepped into the Demon Realm, he passed by a large expanse of ice mountains that were covered in ice and snow, and he saw a rolling black cloud in the distance above him.

Although they had seen it from afar, they could tell that the battle was extremely intense.

Lv Qinlian was controlled by the Demon Charming Association, and she had already transferred most of the Heaven Realm's power to Di Tian. Although she was called the Demon Empress, there were even more people who called her the Poison King on Di Tian.

Therefore, Chen Xiang was extremely shocked. Furthermore, he guessed that the person who was fighting Lv Qinlian should be able to suppress Lv Qinlian's poison, and have the same strength as him, otherwise it wouldn't be like this.

This caused Chen Xiang to be secretly worried in his heart. He originally thought that other than the White Tiger and Lv Qinlian, there was no one else with great strength that could compare to Lv Qinlian in Di Tian, but now such a strong guy suddenly appeared. Furthermore, it seems that he was stronger than Lv Qinlian.

Previously, Chen Xiang had mentioned to the owner of the Sky Demon Pavilion that the person who suddenly appeared to seize the Demon Charming Association's Sparite vein had a mysterious background. Thinking of this, Chen Xiang became even more worried.

No wonder this power dared to take over Demon Charming Association's Sparite vein. So it turns out that they had a powerful Ranker supporting them, and they seemed to be doing it on purpose to steal it, and provoke the Demon Charming Association. Could it be that it was to lure Lv Qinlian out?

could already see that there were many seductive spirit beasts in Demon Charming Association holding onto weapons and fighting with a group of people who were unable to tell whether they were male or female. The people who were fighting with the group of spirit beasts in Demon Charming Association

were also demons, but they were extremely beautiful, with a slim figure and long hair that covered their shoulders, making them difficult to distinguish between males and females.

"These guys all have the smell of snakes. Don't tell me they're all snake demons, and from their aura, they seem to be ancient foreign species? It's said that these snakes can change their surname to either female or male, depending on the situation so that they can continue their reproduction and maintain the orthodoxy of their bloodline." Long Xueyi said in surprise.

With just a few steps, Chen Xiang rushed into the battlefield. He formed a palm blade with his hand, using Holy Spirit Qi, he arrived behind a fighting Devil Snake, aimed his attack at the monster's back, and slashed out with his blade.

Chen Xiang used the Devil-suppressing holy power on top of its lightning speed and slashed down, causing the snake demon's throat to shatter. At the same time, the female spirit who was fighting the snake demon also pierced through the snake demon's chest.

"Where's Sister Lian? Is she fighting with a very powerful guy?" Chen Xiang hurriedly asked the spirit demon lady.

These are all Evil Snake Demons, they came from Evil Snake Mountain, I don't know why such a force suddenly appeared. In short, every two or three days, these fellows would come out to provoke us. She recognized Chen Xiang, a VIP from the Sky Demon Pavilion. Now that she had come to help, she was naturally very happy, and this VIP was also very strong.

"Evil Snake Demon, don't you all know how to use poison? Why don't you use poison to deal with them?"

Chen Xiang punched a serpent demon that was charging towards her from the side. Three thunderous booms sounded and released three layers of Devil Subduing Method power, causing the snake demon's head to explode into pieces. The female spirit was completely shocked, because the Devil-suppressing holy power and Devil Subduing Method that Chen Xiang used was extremely terrifying.

"These guys aren't afraid of poison. Even our Big Sister can't kill these little Devil Snakes with her most powerful poison. We just need to use the normal method to fight these Devil Snakes." Many of her sisters were injured, she hoped that Chen Xiang could help the other Spirit Demon beings.

After Chen Xiang asked about the details of the situation, he immediately went to help the Spirit Demon beings who were trapped in the bitter battle. Although these Spirit Demons normally used poison, under the situation where they did not use poison, their fighting strength was still extremely strong.

The sudden addition of Chen Xiang into the battle made the serpent demons furious, because he had killed one of them with one move. The Devil Subduing Method that he used, was the very terrifying power of these serpent demons, it not only easily dispelled the evil energy in their bodies, it also had the mystical ability to fight against demons, and it could cause huge injuries to them. If combined with the Devil-suppressing holy power, as well as the profound meaning of the word "suppress" by the Holy Devil-suppressing seal, Chen Xiang could kill a serpent demon with one slap.

He had initially wanted to suppress the Demon Charming Association's female Goblin, then kill them all, or capture some of them back alive. However, he did not expect that such a perverted person like Chen Xiang would suddenly appear, and cause the group of Snake Demons's plans to be disrupted.

Clear thunderclaps sounded out one after another, and the Devil Snakes were also relatively fewer in number. At this time, the Evil Woman's aura also became stronger, and since they had more of them, the situation quickly reversed, and the Devil Snakes were completely suppressed by the Evil Woman.

Although these female demons were all cute and dainty, when they attacked, they were not as slow as they used to be. The long swords danced in the air and blood splattered everywhere. Broken limbs were scattered all over the ground.

Very quickly, this group of little Devil Snakes were completely annihilated, and not far away, there were even stronger Snake Demon and the Evil Woman fighting, there were only a few of them, and those Devil Snakes knew that the little Devil Snakes that they brought with them were exterminated, and they became furious, immediately calling over a sturdy Devil Snake which was roughly at the Nirvana tribulation level.

This Devil Snake was different from the other beautiful Devil Snakes. This Devil Snake had a distinct male body, a fierce-looking face, a set of stiff black armor, and a huge black blade in his hand. He wildly rushed forward, trampling the corpses of the Devil Snakes into a pile of meat paste.

Chen Xiang stood in front of the group of female demons who were terrified by the application, and said in a deep voice, "Leave this guy to me, do your best to find a safe place to hide. If you two are safe, your Big Sis can fight with more peace."

Lv Qinlian was close to these female demons, so she was sure that she was extremely anxious right now. This was the first time they had met such a fellow who was not afraid of poison.

[Chapter 1159](#)

"I had thought that the Spirit Demons of the Demon Charming Association were all female. Could it be that all of you are like us, able to turn one of you into a male when you need them?" An extremely handsome man with phoenix eyes said with a magnetic voice.

This handsome man's palms were pressed tightly against Lv Qinlian's jade palms. His palms were actually as beautiful as Lv Qinlian's, and they were even more slender and tender.

The two demon kings were fighting each other. This was an extremely dangerous action.

"Evil Snake King, shouldn't you worry about your subordinates now?" Lv Qinlian's voice was cold, but she secretly heaved a sigh of relief in her heart. Even though she and Evil Snake King were far away, she could still see the situation from afar. She knew that Chen Xiang was here, so with him here, her Demon Charming Association demon would be much safer.

If we work together, then Di Tian will become our world in the future. If we work together, we can steal the resources that Di Tian has now, and that will allow us to progress further in our strength, but right now, we are only sharing the resources evenly, don't tell me that you are willing to continue like this, and wait for Di Tian to return to how he was back then, for the experts of the Nine Heavens of Heaven

Realm to rush over, there is simply no place for you to speak. Evil Snake King said, a pair of beautiful eyes that could make women jealous filled with enchantment.

"Let me be your woman. Pfft, don't even think about it. Back then, before I transformed into a human, I was almost swallowed by you several times. I don't want to be with someone like you who wants to swallow me at any moment." Lv Qinlian shouted in anger.

"Don't you like men? Then I can become a woman as well." Evil Snake King laughed out loud.

"Hmph." Lv Qinlian was secretly anxious. She really wanted to release the bizarre Poisonous scent on her body, but no matter how she thought about it, those Poisonous scent would not come out. She still could not completely control them.

If she used Drunk god powder s, then she was also worried that Evil Snake King would be able to escape even if she was poisoned. When the time came, they would spread the rumours that she possessed this unique poison, and she would be in even more danger.

"Actually, I quite admire you. You've already gotten used to using poison, I didn't think that the Innate Qi in your body would be so powerful." The Evil Snake King said.

"You should care about your men." Lv Qinlian was paying attention to where Chen Xiang was, and the sturdy snake demon that was flying towards Chen Xiang made her feel uneasy.

As long as that brat dies, all of your imps will fall into our hands. That is the last resort that I left behind, you and I both know, the reason why we are unable to continue staying in the Heaven Realm is because we do not have much power in the middle levels, and are all small fries. If not for us, who are King level existences, we would have all been captured by him.

Although many of Evil Snake King's subordinates had been killed, he did not feel any heartache at all.

"This time, you will definitely lose to me. I can already see the fear hidden deep within your eyes. You are worried about your little demoness. You worry too much and you will never be able to progress." The Evil Snake King laughed sinisterly.

Lv Qinlian shouted coldly, "Shut up, the one who will definitely lose is you. When have you ever been able to defeat me, you heartless and heartless fellow, let alone me, you will never understand the power a group possesses. This is also the reason why Ten Heavens Supreme Lord could be called emperor for many years."

The one standing in front of Chen Xiang was a sturdy giant who was taller than him. He held a gigantic Wolf Teeth Club in his hands, and his fierce-looking face was filled with malevolence and killing intent. A pair of eyes that were filled with a strange green light was staring at Chen Xiang.

"Human, I never thought that you would actually be together with these spirit demons. The spirit demons from Demon Charming Association are beginning to raise men, haha ..."

While laughing, this big fellow swung his staff horizontally, the strength behind it was very terrifying. It caused the space to fluctuate, and it seemed like it was about to split open.

The most shocking thing was that this was only the strength of the physical body.

The Spirit Demon girls who were hiding in the distance were all shocked, their hearts full of worry for Chen Xiang. They could tell that the big guy was much stronger than Chen Xiang.

That is the Evil Snake Mountain's Snake General, we do not know how strong this kind of Snake General is, but we do know that their bodies are soaked in some evil techniques, not only their bodies are strong, the Evil Force in their bodies are also like that, Young Master Shen, you have to be careful. None of them were stupid, they had already figured out Chen Xiang's identity. Only Chen Xiang was able to use the Devil-suppressing holy power and control its profoundness.

Although he had strong limbs, his brain was not simple at all. He laughed sarcastically: "A guy like you should become a woman, you don't have the guts to accept the challenge, you're not even comparable to those female demons."

A cyan light flashed in Chen Xiang's palm, and a large cyan shining blade appeared out of nowhere. The blade was surrounded by cyan dragon mist, and as Chen Xiang injected the Devil-suppressing holy power, it released a golden mist, accompanied by a weak dragon cry.

Green dragon demon-slain broadsword.

Originally, he was relatively calm, but in his heart, there was an unspeakable unease. Originally, he had victory in his grasp, but suddenly a Chen Xiang appeared out of nowhere.

"You ... You are Chen Xiang. " The snake general looked at the Green dragon demon-slain broadsword in Chen Xiang's hands and felt an incomparable threat. When the light shone on his body, it was as if flames were burning his body.

Chen Xiang sneered: "Originally, I only liked using this blade to slay dragons. Seeing that your snake has some power, I will let you die with this blade."

The snake general was furious in his heart, he raised his spiked mace and flew towards Chen Xiang, his speed suddenly increasing.

"Damn human, don't think that you can use this blade to kill me. I am not one of those useless soldiers." The snake would let out an earth-shaking roar, allowing him to dispel the fear he had of the Green dragon demon-slain broadsword.

Chen Xiang laughed in his heart. There were many shrimp soldiers and crab generals who died under his blade, but there were also many powerful fellows like the Prince Imperial Dragon.

The mace swung wildly, emitting waves of terrifying evil Qi. It was as if a demon from hell was howling miserably; it was absolutely horrifying.

Chen Xiang had already revealed his identity, and was not concealing his strength at all right now. Taking a step forward, the Shrinking step skillfully dodged, and at the same time brandishing out the divine blade, the Devil-suppressing holy power flowed endlessly, charging into the divine blade.

Boom! Boom! Boom!

In that instant, an incomparably shocking sound resounded through the horizon, shaking the heavens. The burst of holy light was even brighter than sunlight, causing the sun and moon to lose their luster.

The ground had been destroyed to the point that it was full of holes and dust was flying everywhere. But at this time, he could see a very safe and broad back figure.

Following the scattering of the dust, those charming female demon spirits whose faces were filled with fear saw that the snake general's Wolf Fanged Mace had already exploded into a mess, scattering all over the ground.

"This snake general's body is so strong, yet it still can't block one of his slashes. Dragon Subduing School's Leader is indeed as strong as the rumors say."

"He is good-looking, and his strength is so strong. Fortunately, we did not make him our enemy and even established a good relationship with him. Otherwise, the consequences would have been unimaginable."

"No wonder elder sister treats him so well. So he isn't an ordinary brat."

The Spirit Demon beings behind were all discussing, their eyes flickering with the light of love as they looked at Chen Xiang.

Chen Xiang slowly let out a breath of golden mist. Just now, he had used the power of the Holy Devil-suppressing seal in order to heavily injure the Snake General with that blade.

He paused for a moment, allowing the Innate Qi in his body to become much smoother, and immediately traveled through space, arriving in front of the Snake General.

One of the arms of the Snake General was destroyed, but the other was completely undamaged. However, the moment he raised his foot, he was ruthlessly kicked by Chen Xiang, the bottom of his feet was filled with golden Devil-suppressing holy power, and upon stepping on it, ten thunderclaps suddenly sounded out, the power of the Devil Subduing Method pierced through the thick arm, and was crushed to pieces by Chen Xiang's stomp, as though he was stepping on tree juice.

Chen Xiang looked at the roaring snake general indifferently, he kept his Green dragon demon-slain broadsword and said with disdain: "Looks like you are not worthy enough for me to use this blade to kill you."

Finished speaking, Chen Xiang's fist was like cast gold, spitting out power that shook the earth, he punched towards the snake general's head.

[Chapter 1160](#)

The snake was about to be killed by Chen Xiang, and the group of female demons were cheering as they ran over, wanting to see Chen Xiang's true appearance at a closer distance.

"Ladies, all of you leave this place first. This place is currently very dangerous."

Chen Xiang looked at the few Goblin ladies in the distance, they were all being entangled by a group of powerful snake generals.

"Chen Xiang, these serpent demons all came from the Sky Demon Realm, I don't know when they moved to Di Tian, but they were very cunning and hid themselves until now. The strongest part of these serpent demons, is that they can withstand many strong poisons, but they themselves aren't good at using

poison, because they don't have the patience to grow poisonous flowers or poisonous plants, so their goal is to swallow our Demon Charming Association."

Lv Qinlian whispered to Chen Xiang from very far away, allowing him to understand the origins of these Devil Snakes. Perhaps, it would be of some help to him.

If it was a demon, even if their strength was stronger than Chen Xiang by a few levels, as long as Chen Xiang used his full strength, he would be able to shake him. Right now, he was holding onto the heavy Green dragon demon-slain broadsword, and was sprinting towards another battlefield in the distance.

If it was a Worldly Immortal, Chen Xiang might not dare to rush over like that, but if it was a Demon or Demon Immortal, with his cultivation of Devil-suppressing holy power and the Demon Subduing Martial Arts, coupled with Holy Devil-suppressing seal and Green dragon demon-slain broadsword, these special tools to restrain demons, he would be able to fight with them.

The fighting Devil Snakes had already sensed a surge of energy that was extremely dangerous to them. Earlier, they felt that this wave of energy was still far away, but the speed at which it was moving was so terrifying that it caused them to tremble in fear.

Demon Charming Association's Banshee Immortals also felt the strong sense of threat, but the aura of the power was not directed at them. Furthermore, they already knew that someone was helping them, but they did not care who.

"He's coming." A serpent demon shouted in shock, because Chen Xiang had suddenly appeared. Just a moment ago, he was still far away, but in the blink of an eye he had arrived in front of them.

They came, just as these two words were shouted out, a green arc of blade light appeared, slanting towards the back of one of the Devil Snakes. Although the Devil Snake was not cut into two, the cut on its back was very deep, the bones on its back were almost cut, and the two halves only had a thin layer of flesh and skin connecting them.

Adding the Devil-suppressing holy power, even if the serpent demon didn't die, it was already extremely uncomfortable. That kind of power was like burning his soul, and his body was even tormented by that kind of power until it felt like it was in a blazing furnace.

Chen Xiang's arrival had pleasantly surprised the female demons of Demon Charming Association, but those serpent demons were filled with anger and fear, especially the Green dragon demon-slain broadsword that was radiating holy light. They hated and feared the aura that was being released.

Swoosh.

A Banshee Immortal thrust her sword out like lightning, piercing into the body of the Snake Demon that was just hacked by Chen Xiang, directly piercing through the Snake Demon's beast core.

"This damnable fellow, everyone attack him together. Let's kill him first, otherwise we'll all die." A charming snake demon gritted his teeth and shouted.

"You won't succeed." One of the Demon Charming Association's female demons shouted coldly. "Sisters, don't let them hurt Young Master Shen, you have to hold them back."

There were seven serpents, and five female Immortals. Therefore, it had been extremely strenuous for them. Some of the female Immortals had shocking injuries on their bodies, causing their hearts to ache.

They were even aiming at Chen Xiang. Looking at their aggressive appearance, it was as if they were planning to use all their strength to break through the defenses of the Banshee Immortals and then kill Chen Xiang together.

"Holy Dragon's Bind."

Chen Xiang said in his heart, and a burst of golden light suddenly appeared on the ground. Just as the Snakes stepped into the golden ground, they saw that a golden holy dragon had come out from the ground and wrapped itself around the legs of the Snakes, causing them all to stop moving.

It has to be said that after Chen Xiang refined the Prince Imperial Dragon into a Holy Dragon Pellet, he ate that Holy Dragon Pellet and allowed him to wield the power of the holy dragon. This kind of power was the same as the Devil-suppressing holy power, it was extremely destructive towards demons.

But if he had to deal with snakes, the power of the holy dragon would be even more powerful, because snakes were even more afraid of dragons.

All of a sudden, she was entangled with this holy force that carried a dense dragon aura, causing all the Devil heart snakes to be extremely terrified. The female Immortal from the Demon Charming Association was originally prepared to die together with the snake demons, but they did not expect Chen Xiang to have such a plan, causing them to be overjoyed, their killing intent became even stronger.

The five slim and beautiful female demons were emitting a strong killing intent as they arrived beside the serpent demons. They swung their swords and pierced fiercely, causing blood to spurt out of the serpent demons' bodies. The blood blossomed and danced with the elegant and graceful sword wielded by the fairy, causing the scene to be extremely beautiful but also extremely bloody, which was so strange that it caused one's heart to tremble.

It had to be said that these Devil Snakes were extremely powerful. Although they couldn't move, they used all their strength to protect their vital parts. Although there were many bloody holes on their bodies, they were still alive.

However, when they saw Chen Xiang who was standing not too far away suddenly walking over, their expressions became even uglier, they could already see the divine blade in Chen Xiang's hand killing them.

The Holy Dragon's Binding could not hold on for long, and the Devil Snakes still had a powerful force in them. While protecting themselves, they resisted the force that was binding them under their feet.

"Heh." Three of the Banshee Immortals seemed to connect their hearts together. As the Devil Snakes broke free from their bindings, they thrust out their swords, piercing through the defense of the Devil Snakes, and even the Heavenly Core of the Devil Snakes.

At this moment, the Devil Snake Sect was riddled with injuries and had no desire to fight. They only wanted to escape, but the Banshee Immortal would not let them escape so easily.

Chen Xiang did not dare to use his Devil-suppressing holy power on a large area, as he was worried that he would harm the female demons. Now that the situation had been completely reversed, he did not need to use any more strength.

"Weren't you planning to kill me just now? Why are you running now?"

Chen Xiang took a step forward, teleporting through space until he arrived in front of the female serpent demon, his thighs condensed with vigorous Devil-suppressing holy power, he swung his leg towards the female serpent demon's face. What was most shocking, was that when Chen Xiang's leg landed on the female serpent demon's face, it caused several thunderous booms to ring out.

The Snake Demon cried out miserably as she was sent flying. Coincidentally, there was a Demon Charming Association fairy waiting there, when she flew over, she swung her sword and struck down, breaking the Snake Demon's waist and even smashing the Heaven Pill on her feet.

As the number of Devil Snakes decreased, the Immortal Banshees grew more and more imposing, and soon, another two Devil Snakes were killed.

used the Shrinking step to quickly swim around the battlefield, and from time to time, he would attack the serpent demons, slashing across the mountain, kicking on the ground and punching on the ground, breaking the defensive capabilities of the serpent demons, while the female demons always worked together with Chen Xiang to eliminate the serpent demons after Chen Xiang attacked the serpent demons.

After a while, the ground was filled with the remnants of the Snake Demons. Chen Xiang released a flame and burned the bloody things on the ground.

Although the female demons were injured, it did not affect their charm and charm. Right now, all of their faces were full of flirtatious smiles as they shot glances at Chen Xiang. Two of them even ran over to ask if Chen Xiang was injured.

"What kind of deal does this Chen Xiang have with you two to actually stand up for you two? As far as I know, this kid does not lack women."

Evil Snake King's face became ugly, all the subordinates that he brought with him had all died, although he did not care on the surface, but his heart was in pain, because they were the elites of Evil Snake Mountain.

Lv Qinlian laughed out loud: You will never know what a friend is, Chen Xiang is my friend, so he will naturally help me, and he doesn't need anything in return. If he has any difficulties, I will also do my best to help him.

Humph, don't be arrogant. Do you think that I only have a little bit of strength? Do you think that I would not hesitate to use Dou Force in such a dangerous manner in order to stall you?

Evil Snake King channeled the dense demonic energy in his body, causing his palm to turn red all of a sudden, and released traces of red mist.
