

Dan God 1171

[Chapter 1171](#)

Chen Xiang had been trapped for almost four years, yet no one came to save him. This was completely out of Fire Divine Palace's expectations.

This was also where the Fire Divine Palace miscalculated, because they did not understand Chen Xiang. As long as one had an extremely good relationship with Chen Xiang, they knew that if Chen Xiang was unable to escape, they would only drag Chen Xiang down even more and become hostages if they went to rescue him.

Furthermore, he said that Chen Xiang was sealed inside, and could not absorb any spirit energy. As long as it took a long time, the resources carried with it would all be used up, and Chen Xiang's strength would be depleted to the point that he would have to publicly punish Chen Xiang.

Of course, these words were said to scare those who had an extremely good relationship with Chen Xiang just so that these people could come and save Chen Xiang. But what Fire Divine Palace did not know was that Chen Xiang's friends all knew very well that this big spender pills could not die from exhaustion.

Chen Xiang had been sealed by the Fire Divine Palace for almost four years, and that mysterious and powerful Great Clan Elder had not appeared to save Chen Xiang yet. Therefore, at this moment, many powers believed that Chen Xiang would probably be sealed for a long period of time.

The Chen Martial Continent was no longer a continent now because all the seas had disappeared, but this was how everyone in the New Imperial Heaven World called the land. Furthermore, this piece of land was also seen as the future divine land of Di Tian, and there were rumors saying that there was a high possibility that a second dragon vein would be born in the Chen Martial Continent in the future.

Chen Xiang knew that the Chen Martial Continent was not a simple place since long ago, otherwise these Four Symbols Divine Weapons would not have appeared in such a place. What was even more mysterious was that the mortal world where he was born in had suddenly disappeared, and it had not appeared even now.

At first, Huang Jintian, Su Meiyao and Bai Youyou had all told him that they would return to that place. They clearly knew why the mortal world had disappeared, but they had never told him about it.

Some people were preparing to attack Chen Martial Continent, and the news quickly spread. Some people intentionally leaked the news, to see how strong the Chen Martial Continent was. As for when the attack would be, there was no precise time.

As long as it was not an abnormal Immortal Realm Ranker like the Immortal Monarch, the pressure would not be too great on Chen Martial Continent, but the Chen Martial Continent had never had this kind of mentality, they imagined the intruder to be a very powerful person, and even planned out a few countermeasures.

The leaders of the Chen Martial Continent did not need help from outsiders. Their originally powerful allies, Dragon Subduing School and Demon Charming Association, had declined rapidly due to the accident with their leader.

... ..

He could not imagine that outside the Villa that the profoundbings had gathered four years ago, there was an old man looking at the huge building inside that had sealed Chen Xiang.

This old man wore a conical hat and simple clothes. His eyes were listless and listless. He looked extremely tired, as if he had been toiling for years.

"The situation isn't too bad, at least the old man inside the Fire Divine Palace still doesn't dare to make a move. Could it be that he is also afraid of Chen Xiang this brat's assassination?" The old man thought to himself as he shook his head and smiled.

Suddenly, the old man's brows furrowed, he suddenly gathered a strong burst of Spirit Force and shot it towards the huge building that sealed Chen Xiang.

"Chen Xiang... How are you inside? "

Chen Xiang was in the middle of refining pills, when he suddenly heard this weak voice.

"You are..." Chen Xiang was startled, and almost shouted out.

"Elder Duan, it's great that you're still alive." Chen Xiang said excitedly.

The person he was talking to was precisely the Duan Chong who fell into the chaotic space when he was teleported from the Heaven Thunder Purgatory. He was the Patriarch of the Duan Clan, Duan Sanchang's grandfather, and was also an extraordinary person.

It was only after Duan Chong used his very strong divine sense that he could barely talk to Chen Xiang: "Hehe, you're so energetic, you should be living a happy life inside."

"It's not bad... Old Man Duan, try your best to help me tell my friends, don't ever come to save me, and secretly tell them that the Fire Divine Palace will make their move ten years from now. They want to rule over the entire Di Tian at that time ... "

Duan Chong's head hurt, he anxiously retracted his consciousness, because he had been attacked by the array formation. Furthermore, the voice that came from Chen Xiang was very weak, but he could hear it clearly.

To be able to find the way back from the chaotic space, Duan Chong's strength must have increased, but with his current strength, he was unable to save Chen Xiang, so he could only give up and head to Dragon Subduing City.

"Elder Duan is still alive."

Chen Xiang was very happy, back then in the Heaven Thunder Purgatory, Duan Chong had helped him very much, but the reason he was able to obtain the God slain method was also because of Duan Chong, he believed that Duan Chong would definitely be able to go to the Dragon Subduing School, at that time, with such a strong expert there, he would definitely be able to be at ease. Duan Chong might even be able to call over the entire Duan Clan, although the Duan Clan was limited in number, but if they were to actually play, many ancient powers would fear them.

The Duan Clan was one of the few forces that had followed the Ten Heavens Supreme Lord, and surviving until now was not easy either.

"There's still six more years, hurry up and cultivate. Although the Qi Shen Dan is not bad, I feel that even if you refine twenty thousand sets of super Qi Shen Dan, you still won't be able to break through at that time." Su Meiyao said softly, "Little Scoundrel, you should know that your Elder Sister Meng'er has been trapped in this stage for a very long time.

Chen Xiang nodded. He could already feel how difficult it was to step into the seven Nirvana Tribulations, and he felt that his Nirvana Doom would become even more terrifying when the time came.

"sister Meiyao, what should I do now?"

Chen Xiang was at his wit's end. Although he had many high levelled medicine ingredients, such as the Holy level Dragon medicine, they were all medicine that he could not handle, and would torment him to death if he ate them. As for the Heaven level medicine, he would also need to refine them into a pill in order to release its effects, although the effects were there, they were not obvious.

Right now, it was not possible for him to learn how to refine Heaven level Pills, unless he could master the multiple Foreseeing Alchemy well. Even if he did learn how to refine them, it would take a long time, so it was not suitable for his current environment.

Su Meiyao thought for a moment, then said: "profoundbing, don't you have a lot of them? Last time, you only used a little of their powder to refine them, and almost destroyed a city, and those profoundbing were all of poor quality. You now have so many high quality profoundbing, if you can successfully extract that miraculous power from them, then it might be even more effective than those super Qi Shen Dan."

It wasn't that Chen Xiang hadn't thought of it before, but he was worried that he would waste too much time on it.

"Little Scoundrel, don't you still have two Treasure Chests? You should start researching those profoundbing not only to raise your cultivation through them, you should also replenish the energy in the Ice dragon sword sheath and let you open those two Treasure Chests. Maybe there are things inside that Treasure Chests that can help you escape."

Su Meiyao knew what Chen Xiang was worried about, because he was extremely tight on time and could not let it go to waste.

"If the two methods I mentioned before do not work, then there is only one way, and that is for you to fuse with all of the Chaos Fire Token. I believe that at that time, you will not only possess the power to summon the Nine Heaven Devil Palace, but also increase your own strength."

The Chaos Fire Token was Chen Xiang's private box, and was also the only way Chen Xiang planned to use this to kill the Immortal King after going out. Therefore, he had never thought of fusing all of them together here, and it was very risky.

Chen Xiang thought for a while, then said: "No, there is a way out, but it might not work. I need a way that I have a lot of confidence that I can make it through."

"You have no other choice. You should understand that if you want to break through within six years and successfully cross the seven Nirvana Tribulations, this is a better solution." Su Meiyao said.

At that time, Su Meiyao could also clearly feel it, so she was very confident in being able to sense it. However, the premise was that Chen Xiang could still perfectly control the broken profoundbing and help Chen Xiang in breaking through the bottleneck.

[Chapter 1172](#)

Chen Xiang possessed a large number of high quality profoundbing. If he could refine a majority of them successfully, he would be able to unleash a very strong power.

Previously, when he went through the Philosophic stone, he could feel that the profoundbing contained extremely strong destructive power. If he could refine a large number of profoundbing into a pill and use it to attack, the destructive power would probably be able to make him leave this place.

However, he was still inside, when the time came, he would have nowhere to hide from the explosive force, so this method would not work. He could only extract the purest power from the profoundbing s and refine them into edible pellets to increase his strength.

"Those people won't monitor you every day. They are very confident in this seal, so you don't need to worry about them spying on you." Long Xueyi said, she was also monitoring the place closely, if there were any other undulations, she could immediately feel them.

If anyone else wanted to inspect the situation inside, they would have to send their consciousness inside, at that time, they would have to make the seal become weaker, and if they did that, they would be worried that Chen Xiang would use this chance to escape, so they had never monitored Chen Xiang.

Chen Xiang took out the Gold dragon ice's ice crystal powder. That Gold dragon ice was not small, and had turned into a lot of powder, moreover, the quality was very high. If it was refined into a pellet, it would be many times stronger than the one he refined in Heaven Thunder City last time.

Right now, Chen Xiang did not dare to crazily refine too many profoundbing. If he could not control himself, he might fall into it.

"Don't move the Gold dragon ice first, put it aside for later." Chen Xiang did not use high quality profoundbing powder to refine pills from the beginning, but instead used normal profoundbing first.

He got some from the Sky Demon Pavilion, and now he put the profoundbing powder inside the Yanlong furnace, and then took out the Philosophic stone powder. This way, he could use his own flames to burn the profoundbing powder, turning the powder into mist, and then merge it together.

It was all because of the resonance between the profoundbing and itself. As for why, Chen Xiang could not explain it, in short, the Philosophic stone was extremely magical, and previously, it was also because of this Philosophic stone that he was able to cultivate smoothly.

When he injected the Heaven fire, it was very easy to incinerate the profoundbing powder into a cloud of mist that emitted a strong light. However, the mist was very berserk, inside the Yanlong furnace, it was like a demon in Purgatory struggling, wanting to escape at any time.

A faint golden light shot out from between Chen Xiang's eyebrows, a large amount of God Power poured into the Yanlong furnace, forming two golden palms. In the blazing pill furnace, they started to rub the berserk profoundbing Qi, not letting it scatter around inside the furnace.

At this time, the flames inside the Yanlong furnace were extremely strong, it was about the strongest flame that Chen Xiang could release, but after the profoundbing turned into mist, the temperature of the flames became very low. If Chen Xiang suddenly retracted the flames, the entire Yanlong furnace might even be frozen.

As long as a large chunk of profoundbing was stimulated, it would turn into ice crystals that resembled grains of sand. However, after these ice crystals were stimulated by a large amount of strength, they were able to emit the special icy cold power inside them.

"There should be two types of power within the profoundbing. If I'm not wrong, one of them should be the Grain force, and the other should be the powerful and pure energy." At this time, Long Xueyi was also using her consciousness to observe the situation inside the Yanlong furnace. Even though it was filled with ice cold energy, she did not discover too much of it.

"What, there's Grain force inside?" Chen Xiang asked in surprise.

The Grain force was also known as the power of nature. According to what Long Xueyi had said, the Grain force inside should be a type of Spirit grain that was innately born with the ability to change the nature of energy.

"Hmm, that's why this power is a little strange. It's not a natural power, but a pure power. But it's more powerful." Long Xueyi said.

Back then, when he was crossing that powerful Nirvana Doom in the Heaven Thunder Purgatory, a Grain force had appeared, but Chen Xiang had devoured many of them and compressed them into his dantian. He had never had the chance to use them, and those Grain force were also extremely precious, so he could not use them carelessly.

If these profoundbing really did have Grain force s, then they could extract them and obtain a lot of Grain force s. These Grain force s were priceless treasures, and even if placed in the Heaven Realm, they would be extremely expensive.

"You must use your strongest divine power to look inside those profoundbing granules. I think that the reason why they become granules when they shatter is very likely because every single granule has a natural icy Spirit grain formed from Grain force. It's only very small, and it's only in a small pellet of profoundbing."

Although Long Xueyi was lazy to eat, she inherited the White Dragon's memories. The large amount of memories she inherited came from her White Dragon ancestors, so even without learning, she could still learn a lot of things. This was also the reason why a dragon with a memory inheritance was so powerful.

Chen Xiang did as Long Xueyi said, carefully observing those very, very small profoundbing granules. He did this kind of thing quite often, but with his current abilities, there shouldn't be any difficulty in doing it. Previously, he had used this method to see the inner world of the Qi Shen Dan s medicine, and even

established a connection with the spirit inside, allowing him to feel at ease while refining the Qi Shen Dan.

These Spirit grain were all trembling, and would release a certain amount of cold energy every time they trembled. On top of these Spirit grain, Chen Xiang could also see a light purple gas mist curling around them. This purple gas mist was none other than the Grain force.

At this time, Chen Xiang was secretly impressed with Long Xueyi, he actually got hit with her words. If not for Long Xueyi, he might not have understood why these profounding were like this.

In fact, Long Xueyi also only came to this conclusion after he had thoroughly investigated her.

"Not only can these Spirit grain release the power of frost, they can also assimilate anything that doesn't have frost power in their surroundings as long as it takes time to do so." Long Xueyi said: "Try and see if you can separate those Grain force s."

With so many profounding powder, if he had to do all of them, it would be very taxing on his brain. Fortunately, Chen Xiang's Spirit Cultivating, had a strong divine soul and profound strength, which might be difficult for others to accomplish, but in Chen Xiang's eyes, it was not too difficult, it was just that it required a lot of time.

Philosophic stone comprehended the power of nature and comprehended three thousand great Daos. Grain force was also a natural power, so when he used Philosophic stone, he could resonate with the profounding powder.

When the profounding's powder was being burned by the flames, the Grain force released the most intense vibrations and the cold Qi was being released by the Spirit grain, so the current Icy cold power was extremely strong, but it was also beneficial for Chen Xiang to separate the Grain force.

The Grain force was the source of the Spirit grain that supported it to convert pure energy into ice energy. As long as the Grain force was extracted, Chen Xiang would be able to obtain a large amount of pure energy.

If the Grain force was not separated and fused together, it would be a terrifying destructive Ice seal Dan that could be used to attack.

It was much easier to figure out what was going to happen next.

These profounding contained a lot of pure energy, if he could extract and refine them into profounding pellets, it would be much more efficient than refining super Qi Shen Dan. To refine a Qi Shen Dan, it would also require a large amount of medicinal ingredients, it was a very time-consuming process.

At this time, Chen Xiang added some high quality profounding powder on top of the Yanlong furnace. He realized that amongst these high quality profounding powder, the Grain force was a little more, and the Spirit grain was also a little longer. The contained pure energy was many times more than normal profounding, which made Chen Xiang very happy.

Since it was only extracting, extracting high quality and low quality profoundbing s had the same workload, so he stopped refining those low quality profoundbing powders and changed them all to refining high quality ones.

As for low quality profoundbing powder, it was used to refine destructive Ice seal Dan with strong attacks in the future.

[Chapter 1173](#)

A few years ago, the Divine Weapons Heavenly Country was once harassed by the Devil Race, and at that time, it was the two from the Devil Race that brought the members of the Gold Armored Sword Sect and the Ghost Killing School over, but they were all killed, and now that Chen Xiang had been sealed, the Demon Charming Association retreated, and the Divine Weapons Heavenly Country did not have any protection, but had many mines, which caused the Divine Weapons Heavenly Country to be targeted once again.

The Divine Weapons Heavenly Country and the Icy Wind Valley were together, and the person in charge was two women, one was Chen Xiang's wife and the other was Chen Xiang. In the eyes of some people, no matter how strong or how talented these two women were, they were still women, and they were all very weak and would not be that strong.

It was precisely because someone thought so that they would risk their lives to seize all the mines in Divine Weapons Heavenly Country.

As a result, the people who came to occupy the mines all thought that the other party had been scared off, and then called over a lot of elites to guard, and even mined a lot of resources. But just as they were feeling extremely proud, the Divine Weapons Heavenly Country's people arrived, and the people who came were all powerful experts, and one of them was the legendary white-haired beauty.

Leng Youlan was truly beautiful, able to topple cities and overthrow nations. However, when he killed people, he was like someone from hell, incomparably savage. That kind of berserk attack caused people's hair to stand on end.

As long as it was a power that had seized any mines in the Divine Weapons Heavenly Country before, they would be settled eventually. Most of their sects would be exterminated, and the Gold Armored Sword Sect was one of them.

Not only that, the Super Martial School experienced this kind of thing too and after that, the Super Martial School also used the same method of action as the Divine Weapons Heavenly Country, which was to completely eliminate all of those powers.

It was only then that many outside powers realised that the big sects above Chen Martial Continent had joined forces. As long as one side was bullied, they would not fight when they could not win, and would immediately run away, requesting for reinforcements from the other big sects. After quietly gathering all the strong warriors, they would go back and kill everyone.

This way, many great powers were exterminated by the great powers of the Chen Martial Continent on fair and square grounds, and they were even robbed clean.

Their movements were all very secretive, and no one would be able to see through them. As a result, those powers that attacked Chen Martial Continent, it was equivalent to facing off against multiple powerful forces, and not getting wiped out.

With these previous examples, all the powers that wanted to attack Chen Martial Continent knew that if they wanted to take down Chen Martial Continent, they couldn't do so by themselves, because that would be like facing a huge monster, unless they joined hands.

However, there were people secretly scheming, causing some of the powers to be at odds with each other, unable to join hands. There were even many forces that had started fighting, and this kind of good thing was obviously done by the Duan Clan.

Ever since Chen Xiang was sealed, the New Imperial Heaven World became extremely restless. Originally, the demons had been attacking the Human Realm, but many powers in the Human Realm were staring at the Chen Martial Continent, thus allowing the demons to take advantage of the opportunity and gradually expand the territory of the Demon Realm and the Demon Realm.

Chen Xiang also guessed that it would be very chaotic outside, so he wanted to leave even more. He had already planned to stabilize his foundation with Di Tian in order to be able to safely ascend to Heaven Realm, if he wanted to make this place stable, he would have to first increase the strength of his Dragon Subduing School and the Chen Martial Continent, then he would have to kill off the demons inside the Demon and Devil Realms.

In ten days, Chen Xiang would separate the Grain force from the Gold dragon ice's powder and the separated Grain force would enter his dantian. There was originally a Grain force Orb in his dantian, although he did not need it now, when he wants to set up a powerful array in the future, these Grain force would shine brilliantly.

Gold dragon ice were top-grade profoundbing. After the pure energy within was separated out, it was actually equivalent to a Qi Shen Dan refined from five thousand sets of medicinal herbs.

To have such an effect made Chen Xiang very satisfied, because he had quite a few of these profoundbing. He had not used a single one of the profoundbing he got from the Fire Divine Palace's warehouse.

"Fire Divine Palace, since you have already taken action against me, and even want to use my closest kin to threaten me, don't blame me." Chen Xiang was furious at the thought of this. He hated it when people threatened him the most, especially when people threatened his woman.

The Fire Divine Palace had yet to do so, but he had already made this decision. It was just that the time was not here yet, and the Immortal King in charge of the Fire Divine Palace was extremely patient. He had to wait ten years before he could confirm that no one really came to save Chen Xiang.

If no one came to's rescue during these past ten years and the seal did not have any movement, then it was time for him to make his move.

Chen Xiang knew that the most important thing the Fire Divine Palace was doing was reviving that Ice Emperor, and Chen Xiang found out from Lv Qinlian that the Ice Emperor was not a good person, so he decided that if there were no other urgent matters, he would immediately head to the profound Cold

Ancient Realm to destroy that Ice Emperor, or else he would not be able to resolve the hatred in his heart.

The profoundbing Pellet was pure white, and although the name Chen Xiang's Qi was profoundbing Pellet, it did not contain a very strong freezing energy, only a weak cold Qi.

The profoundbing Core in Chen Xiang's palm was refined from that large piece of Gold dragon ice powder, and this was equivalent to the sum of the five thousand sets of Qi Shen Dan medicinal ingredients used to refine it.

After eating the profoundbing pills here, Chen Xiang began to refine them. What made him happy was that for some reason, the profoundbing pills were refined very easily, and entered his dantian very naturally, entering the five Beast statues to condense the core embryos.

"Oh right, this pure energy has been influenced by the Grain force, and the Grain force is also known as the power of nature. Over time, the energy in the profoundbing also became like this, possessing the spirituality of nature, thus I am able to cultivate so easily."

Chen Xiang was very excited, he never thought that refining profoundbing would produce such a great harvest, at the moment he was full of confidence. If nothing unexpected happened, and he successfully passed through the heavenly tribulation, he felt that he could definitely get rid of this seal within ten years.

Year after year, Chen Xiang had been sealed for eight years.

In his eyes, he only felt that it was like he had stayed here for a few months, and that it had been eight years without him realizing it. Furthermore, when he was refining pills, he would always fall into a crazy state, and wouldn't feel bored or bored, and would always be in high spirits.

In this period of time, he had already refined more than eight hundred profoundbing. One must know that many of these profoundbing were giant high quality profoundbing s, and even though they all looked like exquisite ice sculptures, he did not pity them at all.

At this time, he had already gathered a few more Grain force s. Over the past few years, he had gathered enough Grain force s to set up a huge defensive formation.

"There are still two years left. It would be best for you to leave earlier. Otherwise, when the time comes, something unexpected might happen." Long Xueyi warned.

Although Duan Chong had returned, his strength was limited and his Chen Martial Continent was not small. If he was attacked by a few other strong forces that were similar to his own, then his Chen Martial Continent would definitely fall.

If Chen Xiang left, as long as there was someone who could force the Fire Divine Palace's Immortal King to leave, he would have a way to weaken the Fire Divine Palace's power and even eliminate him. This was because the Fire Divine Palace was already angry at him, and he wished that he could let out all of the Magical corruption gas and Drunk god powder at once.

Of course, that was only a thought that came out of his anger, and that was undesirable. If it was discovered, his good days would come to an end, and he might even implicate many people.

"The core embryo of the Heaven Pill is almost complete. Eating these ten high quality profoundbing pills should be able to help me form the seventh core embryo in one go." All these years, it was only because the Philosophic stone gave him guidance at the most critical time, allowing him to breakthrough bottlenecks time and time again.

What he was most worried about was whether the Nirvana Tribulation would arrive. If it did, what would happen? That was because he was currently in a very strong seal.

[Chapter 1174](#)

In these few years, the Chen Martial Continent had been attacked a lot of times. Some were from the demon side, some were from the Human Realm, and some were allied together, but at most, they could only temporarily occupy a few mines and could not completely control them. In these two years in the New Imperial Heaven World, there were not many forces that could swallow the entire Chen Martial Continent in one go, and the Fire Divine Palace was one of them.

They were worried that the mysterious Great Clan Elder of the Dragon Subduing School, whose lifespan was ten years, would appear. They believed that as long as the Great Clan Elder of the Dragon Subduing School did not appear after sealing Chen Xiang for ten years, they would be able to attack the Chen Martial Continent at ease.

Before, Duan Chong had contacted him, and at that time, Chen Xiang would have him inform the Chen Martial Continent to prepare ten years later. At that time, the Fire Divine Palace would attack.

"If everything goes well, I should be able to leave a year or half a year earlier. I hope everything goes well." Chen Xiang ate the profoundbing pellet in his hand. This was his last crazy attempt and he had to condense the core of the Seventh Heaven Pellet right this time.

The energy that was as vast as the ocean surged inside his body, washed his tibia flesh, and was refined and refined by him into a Innate Qi, which then flowed into his dantian, charging towards the pill embryo of the Seventh Heaven Pellet inside the Beast statue. Under the guidance of the Philosophic stone, the Innate Qi would become extremely intelligent, following the natural Tao technique, it would continuously tap into Chen Xiang's potential, strengthening Chen Xiang's body, and developing the Heaven Pellet for him.

Under normal circumstances, one would only be able to condense Heaven Pellets after surviving nine Nirvana Tribulations, but Chen Xiang already had one long time ago, and it wasn't just one pellet, but every Beast statue had many. For example, right now, he was condensing the seventh Heaven Pellet from every Beast statue.

Using this method, high quality energy could be used to condense a divine pellet that could hold a large amount of the Innate Qi. If not for the help of the Philosophic stone, Chen Xiang was still trying to comprehend how to guide the enormous Innate Qi to merge into the natural Great Way, to strengthen his own dantian.

The ten gigantic profoundbing s had refined an extremely high quality profoundbing pellet. Chen Xiang, on the other hand, was only at the edge of breaking through.

This made him a little excited, but at the moment, he only needed to wait for the arrival of Nirvana Tribulation Seven. After going through the seventh tribulation, he would then obtain the mysterious and powerful Power of giving, which could then be considered a true transformation. At the same time, it would also mean that he had stepped into the later stages of the Nirvana stage, which was also the most difficult stage.

Boom! Boom! Boom!

He took out the Hammer of God, and crazily struck the invisible seal, clashing with the strong seal power. At this time, his power was much stronger than before, he wanted to try and shake the seal power, but it was useless as usual.

What Chen Xiang did not know was that when the Fire Divine Palace sealed him, he assumed that he was an immortal king, and used the powerful array disc that the Fire Divine Palace brought down from the Heaven Realm, as well as a large amount of resources.

If Fire Divine Palace was unable to find a suitable amount of energy within a short period of time to use as resources for this sealing array, Fire Divine Palace would not be able to waste any more, because such a powerful seal would consume an astronomical amount of energy every hour.

If the Fire Divine Palace had not thought that sealing Chen Xiang was worth it, they would not have done this, because it was equivalent to burning Spar. In order to maintain this powerful seal, they had buried countless Spar here.

"How come you're not here yet? I have a feeling that Nirvana Doom is coming, what will happen exactly?" It had already been a few days since Chen Xiang refined the core embryo of the Seventh Heaven Pellet, and he had a feeling that Nirvana Doom was about to arrive.

However, he was currently sealed within this seal which was cut off from the world. He was worried that the Nirvana Doom would be affected because of this, and if he did not descend, he would not be able to break through.

Unless you hide in the profound Realm, it will be hard to escape. Especially to you, as a Alchemist, the Robbery power that appears will be very powerful, and if you can sense what you have, the Robbery power will continue to increase, which requires a certain amount of time. " Long Xueyi said.

Chen Xiang sat there obediently as he waited. He really hoped that his seventh tribulation would be very strong, and it would be best if he could break this seal.

"Head, it's bad." A middle-aged man suddenly rushed into a luxurious study, shouting loudly with a panicked expression.

"What is it? Tell me." Hallmaster hastily asked, because this middle-aged man who suddenly rushed in was in charge of guarding that seal.

"There seems to be a problem with the array disc as it is frantically absorbing energy. The Spar that we just transported over this morning was almost completely sucked dry in just an hour. Could it be that Chen Xiang had done something inside that it has never happened before?"

Hallmaster is an Immortal King, he is extremely familiar with the array discs, he shook his head: "It shouldn't have been Chen Xiang's fault, if he had that kind of ability, he would have done it already, he definitely wouldn't have waited this long, I'll go take a look first."

Fire Divine Palace's Palace Mistress came to the outside of the seal. At this time, many people were busy placing many Spar s into the designated place to replenish the energy of the formation plate and maintain a few powerful formations. This would allow the seal to become unbreakable.

Outside the auction house that Chen Xiang was in, two stacked formation plates were spinning frantically in the air, absorbing many Spar s that could sustain the seals. Those Spar s were basically just put in, but in the blink of an eye, they disappeared, turning into transparent mist and entering into the two formation plates.

Not only were these two array discs absorbing energy, they were also frantically devouring the surrounding spiritual energy, causing a huge energy whirlpool to appear in the sky above the profound Ice City. It was slowly rotating, and a large amount of spiritual energy turned into a pillar of light that fell from the sky, entering the two array discs.

"Hall Master, if this continues, a lot of Spar will be consumed." The two massive formation discs were absorbing energy at an increasing rate, as if they were monsters that could swallow the sea.

"No matter how many Spar s we lose, we have to continue filling them in. If Chen Xiang takes this opportunity to escape now, all our eight years of losses will be for nothing. Our plans to attack the Chen Martial Continent will also end here." The Palace Master did not understand why it was like this, but he had no other choice. He could only continue to smash the Spar, or else all his efforts would have been for naught.

The news quickly spread, causing many people to think that Chen Xiang was coming out, many of the powers who planned to join forces to attack Chen Martial Continent had stopped their plans, if Chen Xiang the God of Slaughter came out, then they would be sending themselves to their deaths.

Although the Dragon Subduing School had just been established, outsiders never knew the extent of the Dragon Subduing School's strength. The Dragon Subduing School didn't have a Leader right now, so he had never made any other moves, but if Chen Xiang came out and led the mysterious and powerful Dragon Subduing School to sweep through Di Tian, no one would be afraid, especially the demons.

Many people thought that Chen Xiang was about to come out, and they all had mixed feelings, especially those big shots of the powers, but Chen Xiang was currently lying inside the seal, it was extremely quiet inside, without even the slightest movement, which made his heart burn with anxiety. If Nirvana Doom did not come, then he would have finished his plan.

"Is it Nirvana Doom? I really want to go through Nirvana Doom in this situation." the middle-aged man asked.

"It's not Nirvana Doom because there is no Robbery power. If it was, it would not absorb our Spar, and it is possible that Chen Xiang used some methods inside to weaken our seal. According to this method, he would not last long, we must not open the seal, and that brat is extremely cunning, we cannot open it at all, or else he would have escaped." The hall master had thought it through thoroughly.

This was indeed caused by Nirvana Doom, but this kind of Nirvana Doom was different from normal Nirvana Doom, it was extremely rare. Even the hall master of the Fire Divine Palace had never heard of this kind of Nirvana Doom, which was why he denied it.

Lying on the ground, Chen Xiang suddenly felt something that appeared here, he suddenly sat up, only to see a semi-transparent person appearing, and his body was slowly becoming more obvious.

[Chapter 1175](#)

After Chen Xiang saw this person, he immediately took out the Green dragon demon-slain broadsword. It was because he felt that this person had a very strong killing intent towards him, as if this person was born to kill him.

This was an extremely ordinary looking man. He was dressed in black, with lifeless eyes, as though he was someone who had received a severe head injury, and his expression looked foolish, although it was so, but this person's body was releasing a powerful force, and the killing intent was extremely dense, causing Chen Xiang to be on guard.

"Who are you?" Chen Xiang shouted as he looked at his opponent.

"I am the Law Enforcement Heaven Spirit, the person who has come to kill you." This person's voice did not contain the slightest bit of emotion as he lightly glanced at Chen Xiang with his empty eyes: "A person like you, you must not be allowed to live, you must be eliminated."

"Get rid of your sister."

Since the other party had already said so, Chen Xiang was not courteous at all. Raising his blade, he flashed over, aimed at the man's neck and slashed out a slash at lightning speed, slashing out a Dragon Power that shook the air, with a rumbling sound, in an instant, the divine blade in Chen Xiang's hand sliced past the neck of the "Law Enforcement Heaven Spirit".

But what was truly frightening was that Chen Xiang's powerful slash just now was like a chop in the air, it did not harm a single hair on that person's body, and although that person's body was translucent, he could still speak, so that person should be a living person without a mistake. Even if it was a soul-type, that slash just now would have been scattered.

This guy is not a human, he is just a spirit, and should be called a tribulation spirit. Didn't he just say that he himself is a Law Enforcement Heaven Spirit, so he came here specifically to kill you? That's right, this guy is the seventh tribulation Nirvana Doom that you have to go through. Long Xueyi said.

He never thought that his seventh tribulation would actually be like this. As for that hollow spirit body, he naturally understood that it was the Ancient Spirit Clan's very strong Inherent Skill. Gu Dongchen only knew how to use it, and this Inherent Skill could make his body feel like air, and would not be able to injure him.

"How strong is this guy?" Chen Xiang held onto the Green dragon demon-slain broadsword tightly, staring at the seemingly emotionless Law Enforcement Heaven Spirit, he felt the strange killing intent from the Law Enforcement Heaven Spirit.

Chen Xiang was also slightly angry in his heart, making him feel as if he was not welcome by the heavens.

"Very strong."

Long Xueyi only had two words, and her understanding of these Law Enforcement Heaven Spirit s also only amounted to this much.

"Die." The Law Enforcement Heaven Spirit said indifferently. Just as he said that, Chen Xiang felt a sharp pain from his chest, and he also felt his breastbone breaking. Following that, an incomparable pain came from his chest, a tearing pain that caused him to scream out loud, and fresh blood spurted out along with his scream.

"Bastard."

Chen Xiang lied on the ground and looked at the Law Enforcement Heaven Spirit. Previously, he did not see nor did he sense that the Law Enforcement Heaven Spirit had attacked him, yet he was struck by a heavy punch. If not for the protection of the profoundwu diamond armour, that punch would have penetrated his chest and destroyed his heart.

This Law Enforcement Heaven Spirit was truly powerful, to even be able to beat Chen Xiang up to the ground without him being able to detect anything.

"He didn't die. Continue to kill." Just as Law Enforcement Heaven Spirit finished speaking, Chen Xiang immediately rolled on the ground. Just as he turned around, there was an extra footprint on the ground where he laid, and the entire auction place was shaking for a bit, causing the Fire Divine Palace people outside to be alarmed, afraid that Chen Xiang would run out.

Chen Xiang's heart still had some lingering fear, because that kick just now was aimed at his head. If he hadn't dodged it, the consequences would have been obvious.

It was understandable for this Law Enforcement Heaven Spirit to be so strong, since the powerful Robbery power had produced something that had such intelligence. Although the type of Nirvana Doom that he had endured before was very strong, it did not concentrate all of his strength, and it was all just a large area of attacks. And this Law Enforcement Heaven Spirit in front of him, not only did it not waste a large amount of Robbery power, but also had an extremely lethal attack which made it difficult for Chen Xiang.

With the last two times, Chen Xiang became even more vigilant, releasing all of his divine power to observe his surroundings.

The speed was so fast that Chen Xiang could not see it, and he did not dare to block it either, so he could only avoid it, because with this kind of ethereal body, you could not hit him, but he could hit you instead.

"This guy hasn't fully grown yet. I feel that he is slowly growing stronger, probably devouring the energy outside, and making himself stronger. This isn't a good thing for you. It's best if you kill him before he fully matures." Long Xueyi said.

Chen Xiang also wanted to, but he didn't even have the chance to retaliate, it was already good enough that he didn't get beaten up. But more importantly, he didn't even know how to attack this Law Enforcement Heaven Spirit with an ethereal body.

"Don't you have a Philosophic stone? Try using a Philosophic stone. This thing is very mysterious, you should know how to deal with this Law Enforcement Heaven Spirit." Long Xueyi said.

Chen Xiang secretly cursed himself for being so negligent, and actually did not think of this. The Philosophic stone could comprehend everything about the natural way, and was extremely profound. It might be possible for him to pry into the Law Enforcement Heaven Spirit's weakness.

He immediately took out the Philosophic stone, and at the same time, he felt a strong Qi approaching him, so he quickly dodged. At the same time, he also channeled his divine power into the Philosophic stone, and unknowingly, a diagram of the Innate Qi appeared in his mind.

"This is it, this is the power that can attack this guy." Chen Xiang was ecstatic. Under this state, the overlaid berserk Dragon Power struck the punch that was aimed at his forehead.

Bang, a loud sound echoed from inside the seal. It was the first time Chen Xiang had touched this Law Enforcement Heaven Spirit, and his entire arm was numb, he had retreated dozens of steps, and the Law Enforcement Heaven Spirit had only taken a few steps back. It was clear that there was a huge gap in strength between the two of them.

"This guy is really strong, I just like to fight with guys like him who are much stronger than me." Chen Xiang took out the Green dragon demon-slain broadsword. Just now, from the Philosophic stone, he learnt that this kind of body that could deal with hollow spirits could be created by him using a little bit of Innate Qi to circulate the power of this body.

"Stop resisting." Law Enforcement Heaven Spirit said indifferently, his body suddenly released a burst of gold light, and then disappeared.

Chen Xiang was shocked, he only felt that he was surrounded by the Law Enforcement Heaven Spirit's Qi from all directions, he did not know which side the Law Enforcement Heaven Spirit would come from.

"Up ahead."

Chen Xiang sensed it, and just as he was about to attack, he suddenly realized that he could not move at all. His legs were grabbed by a pair of hands that came out from the ground, both of his wrists were held by two hands that appeared out of thin air, and his waist was held tightly by two arms.

Chen Xiang never thought that this would happen. Seeing that the strong enemy was attacking at him but he could not even move, he could only allow the enemy to destroy his body.

Boom! Boom! Boom!...

The Law Enforcement Heaven Spirit's fists were glowing with a golden light and each of his punches would hit Chen Xiang's body causing explosions. The Law Enforcement Heaven Spirit's punches were extremely ferocious, as if he wanted to punch through Chen Xiang's body with his punches, but he was unable to do so.

"Don't think I'm easy to bully." Chen Xiang roared, his body had already been punched for hundreds of times, even though he had the protection of the profoundwu diamond armour s, but the shock wave from the punch seemed to be able to break all the bones in his body.

Following his furious roar, a golden gale burst out from his mouth, bringing along flashing cyan lightning as it rushed towards the upper half of Law Enforcement Heaven Spirit, instantly engulfing the entire Heavenly Spirit Realm.

Chen Xiang finally hit the Law Enforcement Heaven Spirit, and the hand that was holding onto him disappeared as well. After struggling free, he took out the Green dragon demon-slain broadsword and chased after it, slashing down fiercely at the Law Enforcement Heaven Spirit, and in that instant, there were dozens of heavy blades, the blades had all trembled the ground, the impact causing the air to explode and it was extremely scary.

Chen Xiang did not expect that the Law Enforcement Heaven Spirit would have flesh and blood. However, what made him curse was, the Law Enforcement Heaven Spirit that was chopped into pieces, actually came back to life. He knew how to reform himself, and his speed was extremely fast.

[Chapter 1176](#)

"You can't kill him?"

Chen Xiang avoided the kick sent by the Law Enforcement Heaven Spirit, he was extremely anxious. At this moment, he could feel that the Law Enforcement Heaven Spirit was becoming more and more powerful, if he was still unable to defeat it, it would be very difficult for him.

Outside, the two array discs were absorbing a huge amount of energy, the people of Fire Divine Palace kept on taking out Spar s, maintaining the array's operation. If it stopped, Chen Xiang might just run out, they were very worried about this.

And this was all because the Law Enforcement Heaven Spirit was absorbing the energy outside, strengthening himself, so that he could kill Chen Xiang.

"Without the overwhelming superpower, it would be very difficult to defeat him. However, he is not invincible. He would need a very powerful strength to use his Void Spirit Body or to reconstruct his body." Long Xueyi said.

Chen Xiang shouted angrily at the Law Enforcement Heaven Spirit, and attacked again. This time, he used the third killing move from the Heaven Earth Killing Method, fusing three of them together, the star diagram above his head, the mountain and river beneath his feet, the Killing-god heart in his heart beating, releasing waves after waves of terrifying killing intent. It merged with the divine power in his Divine Sense Sea, turning into a type of "momentum", causing his strength to become even more powerful, as though he was a powerful fighting spirit.

The Divine Blade slashed out, releasing a dragon cry in all directions, and the green dragon soared out. Its eyes flickered with a red light, baring its fangs and brandishing its claws, it rushed towards Law Enforcement Heaven Spirit.

Roar!

The dragon's roar shook the earth, and when the green dragon shaped power rushed forward, the Law Enforcement Heaven Spirit wanted to dodge, but he was still a bit slow, his body was struck by the dragon head ruthlessly, the berserk power ripping the Law Enforcement Heaven Spirit into dozens of pieces.

Chen Xiang's eyes suddenly lit up, although the Law Enforcement Heaven Spirit was very strong, his body was very weak, facing such a strong attack, he actually broke it, and even if it could be reformed, it was still a big weakness of his, and such a process would consume a lot of energy.

"You're nothing special." Chen Xiang ran over and slapped his palm down towards the few pieces of flesh on the ground. The strong force that was surging through his body transformed into a huge flaming palm that ruthlessly smashed into the pieces on the ground, turning them into ashes.

Boom! Boom! Boom!

Chen Xiang quickly struck his palms a few times, causing all the flesh on the ground to turn into dust.

However, the Law Enforcement Heaven Spirit was not destroyed, and unexpectedly appeared right in front of Chen Xiang. Even if he did not have a physical body, he could still reform it.

"This guy ..." I clearly used the God slain method, so his soul should have suffered some sort of severe injury as well. " Chen Xiang clenched his teeth and said.

"I will not die. As long as the heavens and the earth are still there, they will provide me with endless power until I kill you." Law Enforcement Heaven Spirit's voice was ice cold. His expression was like someone looking down at an ant, as if he could pinch Chen Xiang to death anytime.

Chen Xiang laughed coldly: "Don't think that you are invincible, aren't you also unable to kill me. In my eyes, you are just a heartless dog that has been bestowed with great power.

While he was speaking, Law Enforcement Heaven Spirit had already attacked, releasing a powerful Qi, his power was actually stronger than before.

Bang! Law Enforcement Heaven Spirit fiercely punched Chen Xiang's abdomen.

Chen Xiang was not able to dodge in time, his left rib was struck by the powerful force, causing the bones there to almost shatter, but he did not fly out, but retreated half a step and threw a palm towards Law Enforcement Heaven Spirit's head instead. The violent power of the Heaven Blasting Palm smashed Law Enforcement Heaven Spirit's head to pieces, and blood and flesh flew everywhere.

Law Enforcement Heaven Spirit increased his tempo. Although his head was blown off, his body was still in good condition as he quickly unleashed two more palm strikes, which shook space and struck towards Chen Xiang's chest.

Chen Xiang only felt the bones in his chest being broken as pain flooded his body. The instant he was sent flying, he swept his leg towards Law Enforcement Heaven Spirit's lower body and broke his thighs.

Chen Xiang endured the pain and took out a few pills to swallow.

"This guy's body is just a piece of dregs, but when he attacks, every move will break the bones."

Long Xueyi said: "That's for sure, this guy's body has just been formed and is still unstable. Moreover, he doesn't need a strong physical body, there's no need for that."

"Looks like this guy really can't be killed. Since that's the case, I can only take the risk. I don't believe that this move can't kill him."

Law Enforcement Heaven Spirit was in the middle of condensing his head, and just when he was about to condense it, he was suddenly enveloped by a translucent golden pill furnace.

The Heavenly Alchemy was a super divine technique that could burn the heavens and the earth. Before, he had been warned by the White Tiger many times not to use it excessively, so he had restrained himself a lot and did not refine any more mountains. Now that the Law Enforcement Heaven Spirit was hard to deal with, he could only use this method to refine it.

Even the heavens could refine it. He believed that refining this spirit formed from the energy of heaven and earth shouldn't be a difficult matter, and he might even be able to refine a powerful pill.

The Law Enforcement Heaven Spirit was very strong, if he wanted to refine him, he would have to stay inside the pill furnace obediently, or have an extremely strong divine power to trap him inside the pill furnace, preventing him from breaking through the pill furnace in a short period of time.

"Little Naughty Dragon, lend me your divine power." Chen Xiang sensed that the pill furnace was about to be broken through, and anxiously shouted.

Long Xueyi had already made such preparations a long time ago.

Chen Xiang's Divine Sense Sea suddenly surging with a vast and powerful divine power made Chen Xiang extremely shocked, he never thought that Long Xueyi's divine power would be so strong, it was a good thing for him.

"Don't think about it." Chen Xiang quickly fused with the God Power that Long Xueyi had transferred over, using it to stabilize the pill furnace.

This was a pill furnace condensed from the Heavenly Alchemy. According to the records of the Heavenly Alchemy, as long as one had sufficient strength, even the legendary gods would not be able to escape.

With such a powerful divine power, Long Xueyi was able to stabilize the furnace. Chen Xiang did not know where the Heavenly Alchemy came from, but he believed in its power.

Using the Heavenly Alchemy to refine things, doesn't that require a lot of flames? These flames are formed from absorbing the energy of the world, and are close to the power of the heavenly fire. Long Xueyi asked. Seeing Chen Xiang using the Heavenly Alchemy to refine something powerful, she knew that she would get her hands on something.

Chen Xiang saw the anger on Law Enforcement Heaven Spirit's face and could not help but laugh: "Don't worry, there is a special method to deal with this kind of situation in the Heavenly Alchemy, especially this kind of Law Enforcement Heaven Spirit that is connected to the heaven and earth. He himself is a powerful force of nature, let him burn himself."

Suddenly, many Spirit grains appeared outside the translucent pill furnace. Like threads, they gradually formed and filled the entire surface of the pill furnace.

Chen Xiang had created these based on the methods in the Heavenly Alchemy, these Spirit grain would produce a strange power, which could make the things in the pill furnace flow naturally.

Law Enforcement Heaven Spirit roared out, his body suddenly exploded and turned into a strong flame, burning the pill furnace.

After Law Enforcement Heaven Spirit's body turned into flames, he immediately condensed a new body inside the furnace, then self-detonated inside the furnace, becoming flames again and again, causing the flames inside the furnace to become stronger and stronger. More than ten days later, Chen Xiang could not remember how many Law Enforcement Heaven Spirit's bodies had turned into raging flames, but the flames inside the furnace were already strong enough, and only now did he begin to burn this Law Enforcement Heaven Spirit.

Su Meiyao asked in doubt: "Little Scoundrel, how is this guy going to refine the technique? Will he refine out a body and another one will appear?"

Chen Xiang laughed: "That isn't it, as long as I refine this fellow's body until it is almost broken, there will be a slight pause, and when he recovers completely, we can continue to refine more. In this way, we can form many 'Medicine aura'.

He was obviously sent here to kill, but now he had fallen into someone else's pill furnace, this was probably the first time Law Enforcement Heaven Spirit met with such treatment.

Although the Law Enforcement Heaven Spirit could injure Chen Xiang and break his bones, Chen Xiang's recovery rate was also very strong, so it was difficult for them to have any results if this carried on, but it was different now, Chen Xiang did not need to fight, as he could continuously drain the energy of the Law Enforcement Heaven Spirit.

[Chapter 1177](#)

However, when he was about to be completely melted, Chen Xiang would pause for a moment, allowing the Law Enforcement Heaven Spirit's body to return to its original state, and then continue to burn. In just three days, a large amount of energy had accumulated inside the furnace, which could be used to produce flames or could be used to condense pills.

"No wonder that white cat told you to use the Heavenly Alchemy so carefully. It's too abnormal, it turned that guy into a dog." Long Xueyi laughed and said.

"Senior White Tiger said before, that back then Ten Heavens Supreme Lord caused trouble because of the excessive use of the Heavenly Alchemy, and I am unable to use it now. Hopefully it is not like Ten Heavens Supreme Lord, or else it would be hard for my power to resist it." Chen Xiang was also worried.

Chen Xiang was enjoying his training inside, but the Fire Divine Palace outside were in a miserable state. Over the past ten days, they had been consuming a large amount of Spar s every day, and they had to call over Spar s from various businesses that they had established in the Fire Divine Palace in Di Tian. They had already used up all of their Spar s in the profound Ice City.

Moreover, they did not know when would be the end. If they knew that their Spar s had all been refined into pellets by Chen Xiang, they would definitely vomit blood right now.

The profound Ice City was protected by many powerful formations, which was why it was warm in the winter and cold in the winter. However, the spirit energy inside the profound Ice City was currently being crazily absorbed by the two arrays sealing Chen Xiang, and the one absorbing the spirit energy was the Law Enforcement Heaven Spirit.

What made the Fire Divine Palace jump was not only the consumption of a large number of Spar to stabilize the seal, but also the few big defensive arrays, showing signs of weakening and accelerating. In other words, the power of the few big defensive arrays were losing and rushing into the seal that trapped Chen Xiang.

"Hall Master... We do not know how long we will have to endure for. If this continues, all of our Fire Divine Palace will be hollowed out, so we might as well kill Chen Xiang." an old man suggested.

As long as we capture Chen Xiang's wife alive, Chen Xiang will obediently hand over the good stuff that he has. The value of the Green dragon demon-slain broadsword and the dragon vein far surpasses everything that we have right now." The Palace Lord said, "We can't stop now. This might be Chen Xiang messing around with something inside. If he wants to escape, we definitely can't give him the chance to do so."

"You have to understand, if the seal is removed now, even I might not be able to trap him any longer. I absolutely cannot relax. It would be too difficult to seal him once."

The powerful Law Enforcement Heaven Spirit also submitted in front of Chen Xiang's furnace at this moment. He didn't know why, but after staying inside for a month, he stopped struggling and sat there cross-legged. His body was slowly incinerated by the flames, never to be reborn again.

This surprised Chen Xiang, he still hoped that the Law Enforcement Heaven Spirit would last a little longer, and then he would be able to concoct a batch of pretty good pills without spending any effort, but the pills that were being concocted now were not bad either.

If they were to continue for another year or so, the Fire Divine Palace outside would be exhausted. At this moment, the seal had stopped devouring energy, causing all the higher ups in the Fire Divine Palace to heave a sigh of relief. These past few days had been like a nightmare for them.

Chen Xiang did not know about what was happening outside, but that was a good thing for him. He was focused on condensing the pill, and there was a large amount of energy inside the pill furnace.

The other thing that caused Chen Xiang to cheer was that he could already feel the Power of giving entering his body. As he was fusing with the Power of giving, he was also compressing the pill furnace's energy.

If he did not understand Heavenly Alchemy, he might still be fighting with the Law Enforcement Heaven Spirit that was hard to kill, and at the end, he would be the one dying.

When this news spread, it made many people shocked. They all thought that Chen Xiang had used more than a month in that seal, and had almost used up all of the Spar in the Fire Divine Palace.

But now that the seal had returned to its original state, it did not have any movements, everyone thought that Chen Xiang was just gathering his energy for a strike, maybe he would not be able to do this anymore, it was truly a pity.

The appearance of the Law Enforcement Heaven Spirit was related to Chen Xiang, so it could be said that those Spar were consumed because of Chen Xiang, but Chen Xiang did not know, so he managed to indirectly obtain the energy of those Spar s, which was the pellet that he was refining right now.

After transcending the seven Nirvana Tribulations, the Power of giving that he obtained was different from before. Not only did these Power of giving gradually take the form of his Seventh Heaven Pellet, it also transformed his body and made it stronger than before.

The most miraculous thing was that even though his body was already very strong, he was still able to improve greatly under the effects of the Power of giving.

Therefore, those who had undergone the Nirvana tribulation would usually have a Devastating Golden Body, which was the symbol of a person who had undergone the Nirvana tribulation. Even the strength of the body would have the power to destroy it.

Of course, if the original body's foundation was very strong, then the Devastating Golden Body would also be stronger. Many people would become more hardworking after going through the six Nirvana Tribulations.

For someone like Chen Xiang, who had mastered Immortal Devil Body to a large degree, he was probably the only one. As a result, he did not know how strong his physical body was.

In three days time, his seventh Heaven Pill had already formed, and it was still increasing. In the future, he would cultivate to perfection and then condense the eighth Heaven Pill's core.

But the Power of giving was not over, and was still altering his body. At the moment, his body was shining with a bright golden light, and when the light flickered, he released waves after waves of powerful auras. Even he felt that it was inconceivable, because all of this was the power of his body.

The pellet in the furnace had already been refined, it was two white pellets, but right now, Chen Xiang did not have the time to eat it, but had the Philosophic stone s in his hands, allowing him to unleash the Power of giving better. Right now, it was extremely important to him, he felt that his body had to break through his Immortal Devil Body, to reach a whole new realm, thinking of this, he was extremely excited.

The power of his body combined with the power of the Innate Qi, its might was limitless. From his point of view, the power of his body could make the Innate Qi stronger, and the strength of his Innate Qi, could also make his divine power stronger.

"If you look at it this way, you should be able to break through the Immortal Devil Body this time, and what kind of physical body would be there when the time comes. We personally witnessed this little scoundrel during the first stage of the Immortal Devil Body, but not too long later, his Immortal Devil Body reached large success, and he even stepped into a realm where even I do not know how strong his physical body is."

Su Meiyao thought back to this matter and sighed. When they first met Chen Xiang, they did not expect him to grow so fast.

Bai Youyou's heart was also filled with emotions. She couldn't help but think back to the first time she met Chen Xiang, when she was completely naked with him, and this made her cold and elegant jade face to feel a little hot.

"If the body of the little scoundrel grows any further, it might even be the legendary Body of Heavenly Sage." Long Xueyi exclaimed: "It's not easy for a human to reach such a state. If it's really like that, then his body will become even more abnormal than his own Innate Qi."

"Body of Heavenly Sage, Body of Heavenly Sage ..." Bai Youyou muttered to himself, and said: "Isn't this the realm that Master has always pursued the body."

"Xue Yi, if this little scoundrel reaches that level, how strong would his physical body be?" Su Meiyao asked in surprise.

Body of Heavenly Sage should have this kind of power at the early stages, I never thought that such a strange thing would happen to his body. The realm of his fleshly body has already surpassed mine by so much, but in the future, it will be difficult for his body to improve. " Long Xueyi was also looking forward to how Chen Xiang's body would change after the battle.

Chen Xiang closed his eyes, focused on holding the Philosophic stone, and then following the Philosophic stone's guidance, he started using the Power of giving, to achieve the best results. But now, he could clearly feel how fast his body was becoming stronger.

[Chapter 1178](#)

Inside this run-down auction hall, Chen Xiang sat in the middle as the golden rays of light on his body flashed dazzlingly, like the hot noon sun, making it hard for people to look straight at him.

Chen Xiang began to feel a little pain in his body. He discovered that the blood, bones, and muscles in his body, under the nourishment of the Power of giving, were constantly being destroyed, reborn, reborn, reborn. With so much food being eaten and reborn, it was as if he was being reborn anew.

Only the powerful Bone soul inside his bones had not been destroyed. That was where his soul resided, the Bone soul s, the two of them combined, causing his recovery speed to be extremely divine.

He did not know how long this situation would last, but he was certain that his physical body was constantly growing stronger.

"It's always growing stronger. What terrifying physical strength." Long Xueyi used his divine power to peer inside Chen Xiang's body. That kind of shocking enhancement speed made her doubt believe that if Chen Xiang's body really evolved into a Body of Heavenly Sage, then the power of his body would surpass the power of the Innate Qi.

Su Meiyao and Bai Youyou had never heard of this kind of situation before, moreover, their physical bodies had not yet reached large success of Immortal Devil Body, and their flesh bodies had surpassed the Immortal Devil Body. This was a realm normally pursued by people at the peak of the Immortal King Realm.

But Chen Xiang was getting closer and closer to the realm that many Heaven Realm Rankers dreamed of. 's failure to escape caused Chen Xiang's friends to feel extremely regretful, but they were still impressed by Chen Xiang's ability. This was because the Spar that Chen Xiang had used up all of Fire Divine Palace's energy, even if it was revealed, it would have left them tongue-tied and tongue-tied. Even if Chen Xiang did not come out, it would have caused the Fire Divine Palace to bleed greatly.

Everyone said that they did not know that the seal devoured a large amount of energy because of the Law Enforcement Heaven Spirit. Chen Xiang had transcended the seven Nirvana Tribulations and met a strong Law Enforcement Heaven Spirit, but in the end, this Law Enforcement Heaven Spirit was refined into a pill by Chen Xiang, and in the future, he would become a powerful part of Chen Xiang.

"Ahh ..." Chen Xiang suddenly let out a long roar, the roar released a strong penetrating force, causing all the sealing formations to tremble, the sound penetrated out, resonating in the air above profound Ice City, the aura that looked down upon the entire world, made many people feel fear, as though they were facing a god with the power to destroy the world.

The golden light on Chen Xiang's body disappeared. It seemed like he did not have much of a change, but the power inside his body had undergone a tremendous change, becoming countless times more powerful. With the power of the thirty-five Heaven Pellets in his body, he could now fight against the Immortals.

"Immortal Ascension of the fleshly body." Long Xueyi took a deep breath. "Is this Body of Heavenly Sage?"

Chen Xiang clenched his fist, sensing the powerful strength contained within the Body of Heavenly Sage, he felt that he could kill a Worldly Immortal with one punch.

"Hah."

Chen Xiang stood up, suddenly shouted, and punched towards the sky. There was no Innate Qi, but the strong force was able to cause ripples in space.

"I can leave very soon, you bastard of Fire Divine Palace, wash your neck and wait for me to cut it off." Chen Xiang clenched both his fists tightly, as his heart surged with emotions.

Su Meiyao and Bai Youyou were both extremely excited, because they had personally witnessed Chen Xiang cultivating his Body of Heavenly Sage step by step, and Chen Xiang was the person closest to them. He was the person who would be able to help them recover their peak level strength in the future.

"Even though your physical body is now strong, it will be difficult for you to have more room for improvement in the future. You have already reached the boundary of humanity." Long Xueyi lamented: "Body of Heavenly Sage have always been something that could only be cultivated by powerful dragons. I never thought that you, a human, would succeed so early. Although it's only at the initial stage, it's already very rare."

Long Xueyi, who usually liked to brag, had no choice but to admire Chen Xiang at this moment.

Chen Xiang laughed out loud, and said: "It's rare that Heavenly Dragon Supreme Lord praised me, and surprised and flattered me."

Long Xueyi scoffed, "Hmph, don't be too pleased with yourself. Even though you made a breakthrough, you can't get out now either."

This seal was very strong and was built according to the standards of a sealed immortal king. Just now, Chen Xiang had punched the air and he knew how stable the space inside was. Even though his current strength was strong, he was still unable to use the power of the spatial laws to leave this place.

"Looks like this is the only way." Chen Xiang took out a few dozen profoundbing s and said: "I refined these profoundbing into destructive Ice seal Dan."

Chen Xiang explained further: "Even if I borrow all of your strength, I'm afraid that I won't be able to break this seal. But with this added on to the fact that we might still have a chance the moment the Ice seal Dan breaks out, and my body is not afraid of ice at the moment. I also have the profoundwu diamond armour, so I can defend against the power produced by the Ice seal Dan's explosion."

A single profoundbing was enough to destroy the entire city, but now, with dozens of them merged together, their might was not only increased by just a few dozen times.

"Understood, quickly start." Long Xueyi said.

As long as the Grain force was extracted from the profoundbing powder, the remaining pure energy would not be destructive. If the Grain force was kept, it could be refined into a destructive Ice seal Dan.

"Maybe dozens of profoundbing wouldn't be enough, so I might as well use a hundred." Chen Xiang thought for a while before he added another profoundbing.

was very careful. If it were to explode, his Yanlong furnace might even break. However, Chen Xiang did not dare to do it because he did not want his Yanlong furnace to explode.

When he first refined it, it was because he did not know enough about the profoundbing and was not prepared well, that was why it exploded. But it was different now, he had a very thorough understanding of the profoundbing and had refined it many times, so he was confident that he could refine a hundred pieces of high quality profoundbing into a Destruction Ice seal Dan.

More than ten days had passed, and all one hundred profoundbing had disappeared. They were all inside the Yanlong furnace, and currently the Yanlong furnace was trembling as it condensed into a ball of ice the size of a watermelon.

This ice ball was still too big and its power was very small. Only by compressing this ice ball into the size of a grape could it be of a higher quality.

"Lend me your divine power. I need to speed up a bit." Chen Xiang said to Long Xueyi.

At any moment, Long Xueyi would have enough power to lend it to Chen Xiang. She had exchanged blows with Chen Xiang before, and her divine power was able to fuse perfectly with Chen Xiang's divine power in an instant.

Chen Xiang controlled the strong and huge divine power, wrapping the ice ball inside the Yanlong furnace. At the same time, he released strong flames, causing the structure of the ice ball to loosen up a lot, and then controlled the strong divine power to squeeze the ice ball, compressing it.

It had to be known that the ball of ice was filled with the Grain force and a pure energy that was as vast as the ocean. If it exploded out, the power would be unimaginable.

The Fire Divine Palace thought that after Chen Xiang struggled to escape, there was no other way to escape. At this time, they also began to implement their plan, they would send people to discuss with the powers that wanted to attack the Chen Martial Continent, and rope them in. At that time, listening to them, the Fire Divine Palace would only know, which would make it easier for the Fire Divine Palace to attack the Chen Martial Continent, and the losses would also belong to others.

As for whether the other powers would agree to it, it would still depend on Fire Divine Palace's sincerity and strength.

Chen Xiang had been trapped here for almost nine years, he could guess that Fire Divine Palace would definitely have a lot of tricks up his sleeves, he was worried that the Immortal King from Fire Divine Palace would make a move, in Chen Martial Continent, other than the White Tiger, no one else could fight against him.

If he could get out, he could only use those Super Old poison to kill that Immortal King.

"Just a bit more. Hold on." Chen Xiang's divine power was also almost used up. The ice ball that was originally as big as a watermelon inside the Yanlong furnace was now as big as a walnut, and it was quickly compressed into a destructive Ice seal Dan.

An hour later, the shaking Yanlong furnace stabilized itself. Chen Xiang let out a long sigh of relief, then laid on the ground, gasping for air.

"I've finally succeeded. I'll be able to leave very soon." Chen Xiang was very confident in the might of this destructive Ice seal Dan.

He needed to rest. As long as he recovered to his peak, he could proceed with the next step.

There were always people watching this sealing array, the guards were not weak, they were all Worldly Immortals, and could be considered to be one of the stronger powers in the Fire Divine Palace. They were sitting leisurely at the place, and had no idea that Chen Xiang was about to come out.

Chen Xiang consumed the pill and quickly recovered. He was full of vigor and vigor, and when he thought about how he could leave the place and use the powerful energy of his Body of Heavenly Sage to take revenge on the Fire Divine Palace, he became extremely excited.

"Lend me your strength." Chen Xiang took out that destructive Ice seal Dan and his hands couldn't help but start trembling. If he threw this destructive Ice seal Dan out, as long as he received a fierce stimulus, it would explode.

A golden and dazzling set of armor emerged on Chen Xiang, making him look like a God.

Long Xueyi's vigorous Dragon Power could already be used by him as he wished.

"Ready." Chen Xiang took a deep breath. After adjusting his condition, he fiercely jumped into the air and at the same time threw the Ice seal Dan s out, causing the pellet that contained a terrifying destructive ability to crash into the invisible seal that was shrouded over them.

At the same time, he transformed the power of thirty-five of his Heaven Pellets into Dragon Power, and fused it with the boundless Dragon Power that Long Xueyi had sent over. Adding in the power of his own Body of Heavenly Sage, his current power became incomparably powerful.

Boom.

The Destruction Ice seal Dan exploded, and a powerful burst of cold air accompanied by a burst of Qi spread out in all directions. In that moment, Chen Xiang used the explosive force to blast out a punch towards the transparent seal, it was condensed with the powerful energy that he was able to use, accompanying the explosive force of the Destruction Ice seal Dan.

Amidst the rumbling sounds, the entire auction place started to shake violently, and in an instant, it became a world of ice and snow. Chen Xiang's entire body was covered with profoundbing s, and he was struck by the force of the impact, he was in extreme pain, but that was better, the soldiers did not heavily injure him.

"There it is." Chen Xiang suddenly caught a glimpse of a crack in the ground where he had been attacked by a powerful force.

Chen Xiang immediately shot towards the crack, and the crack was quickly healing, he had underestimated the power of the seal array, he originally thought that he would be able to create a big hole, but there was only a small crack.

"I must get out." In the instant that the crack was about to close, he used up all his power from Divine Sense Sea and used the profound movement skill inside the transformation technique. He turned himself into a wisp of smoke and quickly passed through the crack ...

The people who were guarding the sealing circle felt it shake violently, and immediately turned pale in fright, and anxiously called for the hall master. The commotion just now was too intense, they did not understand how Chen Xiang could use such a powerful force to shake the terrifying sealing circle.

Furthermore, he could not open it. He was worried that the moment it was opened, Chen Xiang would suddenly appear, and at that time, it would be very hard to grab hold of him.

"He's only at the end of his strength. This sealing formation is unbreakable. He's still inside, and he's only struggling uselessly. Hmph." He was an immortal king, so he was well aware of how powerful this grand formation was. Even if he was sealed inside, he wouldn't be able to come out.

Everyone heaved a sigh of relief, but what they did not realize was that in that moment of violent shaking, a light wisp of smoke floated out and floated along with the breeze into the patch of grass at the edge of profound Ice City.

Because the profound Ice City was protected by a large formation, flowers, plants and trees could be grown in the snowy lands of the profound Cold Ancient Realm, and they were extremely lush and flourishing.

Chen Xiang had already exhausted all of his strength. Seeing the warm light that was being emitted by the light barrier that enveloped the profound Ice City, his lips curled into a smile.

"I'm finally out. A year earlier." Chen Xiang was very satisfied with this. He would definitely not let the Fire Divine Palace know that he had come out.

After four hours, he had completely recovered. He had turned into an unassuming middle-aged man. He walked around the city, inquiring about what had happened during the past nine years.

What made him more pleasantly surprised was that the Chen Martial Continent's defensive capabilities were very strong. The strength of the entire body exceeded his expectations, and was able to resist the invasion of multiple powers from the third realm of the Human Demons over the past few years.

"Since they are all fine, then I am relieved. Fire Divine Palace, oh Fire Divine Palace, you shouldn't have tried to kill me, and even more so, shouldn't have thought of using Xianxian to threaten me." Chen Xiang's eyes suddenly turned incomparably cold, and he walked towards the city gate.

The profound Ice City was inside the profound Cold Ancient Realm, and the Fire Divine Palace's secret underground palace was also inside. It was also a place that the Fire Divine Palace attached a lot of importance to, so Chen Xiang decided to rush over there right now.

It was not easy to build that underground palace, he thought that the Fire Divine Palace would not move the Ice Emperor away, and he felt that that place was most suitable for the Ice Emperor to absorb energy to revive.

Chen Xiang didn't know what the relationship between the Fire Divine Palace and the Ice Emperor was, but he knew that the Fire Divine Palace was in a hurry to revive the Ice Emperor.

Not long after he left the city, Chen Xiang saw some hidden codes on the ground, which only Duan Chong knew about, and they were the contact method that Duan Chong had given him.

Following the secret signal, he found a piece of Communication jade Symbol paper.

"Elder Duan" "Where are you?" Chen Xiang used a jade talisman to send a message to Duan Chong. After falling into the chaotic space, Duan Chong came back alive.

[Chapter 1180](#)

"Little brat Chen Xiang, you really came out? Stay there and I'll come looking for you." was very surprised. He, the Clan Chief of the Duan Clan, had read through many ancient books in many of the families and he was very clear on the power of that great formation. It was used to seal the Immortal King.

When Duan Chong came to the profound Ice City through the Transmission array, he discovered that it was still very calm here. He immediately understood that no one knew when Chen Xiang ran out, and he secretly exclaimed in admiration at Chen Xiang's ability to actually escape from the powerful sealing formation without anyone noticing.

He quickly left the city to find Chen Xiang.

Duan Chong had also changed her appearance before, although there were very few people who had seen him, but when Chen Xiang saw him, he immediately recognized him.

Duan Chong was surprised to see the middle aged man in front of him. If he were not at this place where Communication jade Symbol paper were buried, he would not have believed that the middle aged man in front of him was Chen Xiang. Seeing Chen Xiang smile at him, he nodded his head.

"Follow me."

Duan Chong brought Chen Xiang into the city. They arrived at a basement with many array formations.

Chen Xiang sat down and smiled: "Elder Duan, it's really good to see you again."

Duan Chong also laughed: "I wanted to tell you this too, I didn't expect you to actually kill that Heaven Thunder Devil Lord, it's such a pity that I fell into a chaotic space and couldn't witness the instant you killed that Heaven Thunder Devil Lord, that guy hurt me."

"It's good that you're back." Chen Xiang had always felt guilty about this matter, because he had opened the spatial door at the time, and Duan Chong had lost it when he had first stepped into the spatial door.

Duan Chong didn't ask too much about how Chen Xiang came out. He smiled and said: "I'm now your Dragon Subduing School's Elder, our Duan Clan doesn't have any other abilities. We only know how to steal tombs."

After Duan Chong came out, he found Duan Sanchang, this grandson of his, who was always at work in the Dragon Subduing School, and found out that the Dragon Veins were in Chen Xiang's hands, and the Ironlion Army was also in the Dragon Subduing School. Without saying a word, he directly brought the Duan Clan's few people to the Dragon Subduing School, ending their many years of wandering.

With the Duan Clan joining the Dragon Subduing School, Chen Xiang would of course not mind them.

Chen Xiang smiled and said: "Of course I welcome Elder Duan to my Dragon Subduing School."

Duan Chong laughed, "Hehe, I never thought that my grandson and I would both be elders, and actually be of the same generation."

Chen Xiang had a rough understanding of what had happened in the past few years, so he did not have much to ask. He was more concerned with the lost history that Duan Chong had collected.

"Elder Duan, is there anything related to the Ice Emperor in the history you've collected?" When Chen Xiang asked this question, he did not expect much, but he did not expect Duan Chong's reaction to be so intense.

Duan Chong's face was filled with surprise as he anxiously asked: "How do you know about the Ice Emperor? He is an extraordinary person."

Chen Xiang immediately became excited and said, "Tell me what you know first. I urgently need to know more about him, and the Demon Empress of Demon Charming Association doesn't tell me much, just a little. She says that the Ice Emperor is one of the ten kings of the Nine Emperors."

Duan Chong nodded. "That's right, Ice Emperor of the ten kings of the Nine Emperor Palace are vicious, cold, heartless, and addicted to killing. As long as Bingtian was unconvinced with his actions, they would all be wiped out, and the entire clan would be angered to the point of incurring the wrath of the Ten Heavens Supreme Lord and engaging in a great battle with the Ten Heavens Supreme Lord."

Chen Xiang asked, "The Demon Empress said that one of Ten Heavens Supreme Lord's arms was cut off by him, is that true?"

Duan Chong shook her head: "Ten Heavens Supreme Lord did indeed lose an arm during that great battle, and suffered a great loss of vitality. However, it was not done by Ice Emperor alone, and there is still Fire Emperor."

"At that time, during the great battle, only Ice Emperor and Ten Heavens Supreme Lord were left. However, in the end, the ambushed Fire Emperor suddenly appeared and plotted against him, allowing him to gain an advantage and freeze one of Ten Heavens Supreme Lord's arms before shattering it."

Chen Xiang was surprised. The two of them had actually teamed up, and they were even so despicable.

"And the last."

"Both Ice Emperor and Fire Emperor have fallen."

The alliance of the two emperors was actually killed by the Ten Heavens Supreme Lord, the power of the Ten Heavens Supreme Lord was something that Chen Xiang was extremely impressed with.

Chen Xiang pondered for a while, then said: "I know that Fire Divine Palace wants to revive the Ice Emperor ... Could Fire Divine Palace be related to Fire Emperor? "

Duan Chong frowned and said in shock, "Fire Divine Palace wanted to revive the Ice Emperor. As expected, the Ice Emperor is still with Di Tian, for people like them, it would be difficult for them to die completely. Back then, the Ten Heavens Supreme Lord was probably also heavily injured and did not kill all of them."

"The Fire Divine Palace is related to the Fire Emperor, and should be established by the Fire Emperor. I think that the Fire Emperor's body was probably destroyed, and his soul was still there, or else the Fire Divine Palace would not be able to continue living until now, because back then, after the Fire Emperor had fallen, the Fire Divine Palace would quickly disappear, and only appear in the Heaven Realm after Di Tian broke up, becoming a strong power. It is very likely that the Fire Emperor wanted to revive the Ice Emperor."

As expected, Duan Chong knew a lot of things and was very excited about it.

"Elder Duan, do you know why the Ten Heavens Supreme Lord perished back then?" Chen Xiang really wanted to know about this.

"According to what I know, it's because of the things that the Ten Heavens Supreme Lord did that shook the position of those fellows, that's why those fellows secretly supported the traitor powers to deal with the Ten Heavens Supreme Lord, and even sent some Demon Masters after them. Afterwards, there was even an earth-shattering battle, and it was said that Di Tian also broke down at that time."

Chen Xiang took out the Green dragon demon-slain broadsword, caressed the blade, and asked: "Ice Emperor and Fire Yan Jing have a chance of reviving, maybe Ten Heavens Supreme Lord can also do it, maybe Ten Heavens Supreme Lord is still alive, or maybe he has been reborn."

The White Tiger had been reborn, so there was nothing impossible about it.

"I don't know, but in short, no one in the real Emperor's Tomb knows where it is. Maybe after you have gathered all the Heaven Earth Killing Method, there will be other ways to find the place where his bones are buried. How many Heaven Earth Killing Method you have now?" Duan Chong knew that Chen Xiang had found the Celestial Slain Method in the Heaven Thunder Purgatory.

"It's still the same, but I have the location of the Beast Slain Method, in Sacred Beasts Ancient Realm." This was what the Super Old Fire Beast had told Chen Xiang. The Super Old Fire Beast had also said that this was the place where he and the Ten Heavens Supreme Lord were born.

Duan Chong exclaimed: "As expected, this is the place where powerful beasts were born back then. Ten Heavens Supreme Lord was also born here, I wonder how it is like right now, but I can feel the danger inside."

Chen Xiang had always wanted to know where the Sacred Beasts Ancient Realm was. He had originally planned to ask the White Tiger about it, but he didn't expect that Duan Chong seemed to know about it.

"Where?"

"This will have to wait for me to find. During Di Tian's reorganization, the positions in many places have changed. I will calculate the position from a new point of view when I return." Duan Chong knew that gathering all the Heaven Earth Killing Method s was very important to him, but that place was also very dangerous, so he decided not to tell Chen Xiang about it first.
