

Dan God 1201

[Chapter 1201](#)

Floating in the air, Yang Jiutao was forced back several tens of meters by Chen Xiang's punch. He was shocked because he did not feel any of the Innate Qi's power that Chen Xiang had released just now, and he did not know what kind of power his opponent was using, to actually be so strong.

"My blade is a middle-grade immortal equipment, but it actually can't leave any wounds on a meat fist." Yang Jiutao had already felt that the situation was tricky, because not only was the opponent someone who only knew how to use Sound Kill Magic Power, he was also equipped with an unfathomable amount of power.

"Come and help me." Yang Jiutao anxiously transmitted to the few elders, it was impossible for him to escape, he could only ask the other elders for help.

There were many old fellows who came from the Alliance, and most of them were very strong. Fortunately, the rankers from the Chen Martial Continent s were all of good quality.

A few hot energies surged over from all directions and in the blink of an eye, they struck Chen Xiang's body. Violent explosion of flames rumbled like ten thousand thunderclaps, Yang Jiutao and the few elders all used Sacred Fire School's Flaming Thunder Fist to attack Chen Xiang from afar, they did not believe that this kind of berserk attack was useless.

"A bunch of idiots."

Chen Xiang suddenly appeared behind an elder of Sacred Fire School. When he finished speaking, his hand blade had already fiercely slashed at the old man's neck, the blade in his hand was covered with a strong Qi, causing his hand to look like an unstoppable sharp blade, cutting the old man's neck off at an angle as though he was cutting tofu.

He was obviously killed by the extremely strong Fiery Thunder Fist, but he actually ran out without making a sound. This made them think that this person had come out through space, which was why they didn't discover him.

If he wanted to control space steadily and undergo spatial travel, he could only do so by relying on the power of the great formation. If it was a person who wanted to do so, then it would require a lot of strength, which was difficult even for Immortal Monarch.

The battle below was in a state of chaos. Less than half of the million people that the Alliance had brought with them had been killed, and their blood had already turned into rivers.

"You are all too ambitious. This is the reason why you all died so quickly." Chen Xiang's cold voice came out, his fist suddenly appearing in front of an old man.

Bang! With a loud sound, Chen Xiang's violent power caused the elder's body to explode and die. These early stage Worldly Immortals, in front of his Body of Heavenly Sage, could not even take a single blow.

The Body of Heavenly Sage was as strong as an immortal weapon and was an extremely powerful human-shaped weapon. Even if Chen Xiang did not use his divine weapon, he would still possess extremely savage strength.

A purple hill suddenly appeared in Yang Jiutao's palm. He threw the purple hill into the air, and saw that purple hill suddenly turn into a purple mountain, releasing a terrifying pressure that shocked everyone.

"Purple profound Holy Mountain, isn't this the Sacred Fire School's ultimate treasure? It's said that it's a holy weapon, I wonder if that's true or not." An old man said in surprise. He was an elder of one of the powers in the alliance.

When the purple colored gigantic mountain pressed down, it even released a wave of energy that wrapped around Chen Xiang, and after trapping him, it fiercely pressed down.

"Take out the Heaven-suppressed immortal monument, or else you will definitely be suppressed. I never thought that the Fire Divine Palace would actually be handed over to this Leader who is so powerful." Bai Youyou suddenly shouted.

Chen Xiang immediately released his Heaven-suppressed immortal monument. The Heaven-suppressed immortal monument was blank, it did not have a single word on it, and it looked extremely ancient, but the stone tablet was extremely huge, giving off a strong feeling. It was just that this kind of huge stone tablet, could actually withstand the force that the purple mountain pressed down, and was able to support the Purple profound Holy Mountain.

Although the Heaven-suppressed immortal monument was also very big, the Purple profound Holy Mountain was even bigger.

"Pour more power into the Heaven-suppressed immortal monument." Bai Youyou shouted, "This will require Xue Yi's power."

At this time, Yang Jiutao had already controlled the Purple profound Holy Mountain to float in the air, and was prepared to suppress Chen Xiang one more time, but the other three elders were still using their Flaming Thunder Fist to attack Chen Xiang from afar. What surprised them was that the power of their fists had indeed exploded on Chen Xiang's body.

When their fists landed on Chen Xiang's body, they felt as if they were being blown by the wind.

"I'm ready." Long Xueyi said, and immediately, Chen Xiang released the Innate Qi from his body, and together with Long Xueyi's Dragon Power, he poured it into the Heaven-suppressed immortal monument.

"It should be that way." Bai Youyou was not sure either, but she was relieved after that, because the Heaven-suppressed immortal monument suddenly released a wave of extremely strong icy cold power, and a white energy pillar appeared from the top of the Heaven-suppressed immortal monument, shooting towards the bottom of the Purple profound Holy Mountain which was floating in the air.

At this moment, many experts were paying close attention to this area. This was because the cold Qi was too astonishing, causing them to feel as though they would be frozen if they were to even get close to it.

Chen Xiang also felt that it was unbelievable, but what surprised him the most was Long Xueyi's power. This big breasted dragon girl who loved to eat and sleep the most, had an extremely good Inherent Skill.

Yang Jiutao's expression became heavy, because he wanted to make the Purple profound Holy Mountain smaller, but at this moment, the Purple profound Holy Mountain was infiltrated by a burst of energy, some of the formation patterns inside had already suffered serious damage. What made him anxious was, the purple mountain had already started to gradually turn white, the entire mountain seemed to be turning into ice.

All of this was caused by the mysterious stone tablet below.

Here, only a few people knew that the one who used the stone tablet was Chen Xiang, they never thought that after being sealed for a long time, Chen Xiang would still be able to obtain such a powerful item, and his strength was even stronger than before. Even without revealing his own aura, Chen Xiang was still extremely powerful, this kind of progress made those who were familiar with him feel extremely shocked.

"What kind of crappy holy mountain is this, let's get rid of it. This is the power of my Heavenly Dragon Supreme Lord, I'll let you have a taste of my power." Long Xueyi's power crazily flowed away, but she was still incomparably spirited.

Very quickly, the entire huge Purple profound Holy Mountain turned white, and became an ice mountain.

Yang Jiutao had been trying his best to control the Purple profound Holy Mountain to expel the cold energy, but it was now impossible to reverse it.

"Die for me." Yang Jiutao knew that his strength was no match for Chen Xiang, but he still fought with the few elders, using all of his strength.

The moment Chen Xiang sensed that he was being besieged by a few experts, he immediately withdrew his Heaven-suppressed immortal monument and left the legendary space. However, when the Purple profound Holy Mountain didn't have the support of a few Heaven-suppressed immortal monument, he immediately fell down.

A loud noise pierced through the clouds as the frozen Purple profound Holy Mountain was smashed into pieces by Yang Jiutao and the rest.

The Purple profound Holy Mountain was still destroyed by them in the end, which made Yang Jiutao even more furious.

[Chapter 1202](#)

Shattered ice crystals from the Purple profound Holy Mountain were scattered all over the place. This was originally a sacred weapon, but now it had been destroyed by a mysterious giant tablet.

The reason why Chen Xiang was able to obtain this Heaven-suppressed immortal monument was all thanks to the Fire Divine Palace. If not for them being able to find the huge profoundbing in the profound Cold Ancient Realm, who knows how long this Heaven-suppressed immortal monument would have been sealed for.

"What a powerful Heaven-suppressed immortal monument, I have used up both my divine power and Dragon Power." Long Xueyi's voice was extremely weak. Just now, Chen Xiang could feel a strong energy

surging out from her body, able to unleash the powerful energy hidden within the Heaven-suppressed immortal monument.

"Kill him." Yang Jiutao's face was extremely sinister, his veins popping, this sacred artifact was truly powerful, even in the Heaven Realm, it was still a priceless treasure, and this was lent to him by the secret expert of the Fire Divine Palace, in order to allow him to successfully take over the Divine Weapons Heavenly Country.

But now it had been destroyed. Destroying a Holy-ranked Artifact, even in the Heaven Realm, was an earth-shattering thing.

With the Sacred Fire School's power treasures destroyed, the morale of the people on the side of the Chen Martial Continent boosted and they charged even more. Furthermore, they sent out their elites and each of them sent a small team that was well-trained.

Yang Jiutao roared. A red cloud suddenly appeared in the sky, burning with intense flames and steaming hot, causing everyone on the battlefield to look like they were inside a furnace.

"Die." Yang Jiutao's palm descended and the fiery clouds in the sky rolled, turning into a giant flaming palm that fiercely smashed downwards. The strong force caused a large piece of the ground to be torn apart.

In front of this gigantic flaming palm, Chen Xiang was like a mosquito. Even after being struck by the palm, he was still pressed down heavily to the ground.

The huge fire palm imprinted itself onto the cracked ground. The flames were still burning, and when it struck the ground, a torrential wave of fire engulfed the entire battlefield, burning all the corpses on the ground and causing the stench of blood to fade.

"This guy actually used flames to attack me." Chen Xiang was pressed down by the huge palm, and when he was struck ruthlessly, the impact caused his entire body to feel pain, but it was nothing much to him.

"Devouring magic kungfu." When Chen Xiang used the Devouring magic kungfu, he entered into the depths of the abyss like a bottomless whirlpool. As for the giant flaming palm that was suppressing him, it was like an ocean water that crazily revolved and entered Chen Xiang's body.

"I have used more than half of my Innate Qi to activate this Fire cloud palm. Even if I cannot kill him, I can heavily injure him. At this time, my power has not dispersed, and I can at least seal him for a period of time." Yang Jiutao thought, but when he saw that his palm had sunk down, his face changed.

Chen Xiang's devouring speed became faster and faster, because these flames were all formed from extremely pure energy, and he also used the Fire god method to turn his dantian into a Fire Dan Tian, digesting these flames very quickly.

The gigantic flame palm was slowly shrinking, and was being devoured by Chen Xiang, becoming his own power.

After the power of the Fire Palm had weakened and was unable to seal Chen Xiang, he suddenly jumped into the air, dragging a long trail of flames with him. This was the remaining power of the Fire Palm.

"Block him!" Seeing Chen Xiang rushing down, Yang Jiutao bellowed, wanting to call for help and work together to kill Chen Xiang.

But at this time, only his three elders from the Sacred Fire School were not being held back. They had all come to Yang Jiutao's side, and did not dare to rush forward like this to battle with Chen Xiang, who was falling stars.

"It's my turn now." Chen Xiang took a deep breath, and the Genuine qi of five elements in his body suddenly started to seethe with excitement. The five Beast statues seemed to emit excited roars from his dantian, causing the Innate Qi that he released to become even stronger.

The Genuine qi of five elements smashed together, turned into Genuine qi of universe, and poured into Chen Xiang's limbs and bones, fusing together with his valiant Body of Heavenly Sage, causing his current strength to become even stronger.

"The power of earth ..." Chen Xiang channeled the chant within the Ground killing, and through his many years of understanding the Ground killing, he was able to transform the energy within his body into the power of earth.

Chen Xiang seemed to have merged with nature at this moment. Even though his entire body was emitting a very strong aura, it seemed to contain a kind of natural spirituality. When he punched out, the force released from his fist felt like a surging torrent, a surging wave. That kind of aura also made people feel like they were standing at the foot of countless towering mountains.

"Withdraw." Yang Jiutao's expression changed suddenly, because he had already seen through something. He knew that the power the other party used was most likely from inside the Heaven Earth Killing Method.

The three elders of the Sacred Fire School had already escaped at their highest speeds, but they were still shrouded by the terrifying energy. That power seemed to have countless invisible hands, which ripped the bodies of the three elders apart as bloody pieces fell from the sky, causing the hearts of the group of people below to jump out of their chests.

Half of Yang Jiutao's body had already been torn off, and his head was still stuck on that half of his body, not yet dead. His face carried incomparable fear, and he knew that he was going to die, "This is heaven and earth ..."

"Hmph." With a cold snort, Chen Xiang appeared behind Yang Jiutao in the blink of an eye, and using that power, he punched towards Yang Jiutao's head, turning him into a blood mist.

The Leader and the clan elders were all wiped out. Just now, Yang Jiutao had already asked the other powers for help multiple times, allowing them to join hands and take down Chen Xiang.

Right after Chen Xiang killed Yang Jiutao, he felt a familiar aura.

"This guy finally made his move, but he's too late."

This was the Immortal Monarch inside the Sacred Fire School, they were the people from the Fire Divine Palace, someone had already reported what had happened here, but they were still a step too late. By the time the Immortal Monarch arrived, both and Purple profound Holy Mountain were no longer here.

"Elder Li, Elder Duan, Immortal Monarch is here." Chen Xiang anxiously sent a sound transmission to them, the strength of Immortal Monarch was extremely terrifying, only Duan Chong and Li Baojun could fight together.

However, this Immortal Monarch did not plan to participate in the battle.

In order to prevent Immortal Monarch from attacking the weaker people, Li Baojun and Duan Chong immediately rushed over. At this time, the powerhouses brought their own men and quickly retreated, some of the powers had already been exterminated, and only a few old fellows were holding on. In this battle, the alliance suffered heavy losses, because they were too careless.

[Chapter 1203](#)

Their opponent suddenly had a Immortal Monarch joining them, which put a lot of pressure on Chen Xiang and the others. They had originally planned to kill them all.

Chen Xiang then activated his Sound Kill Magic Power on the retreating group of people. When they were retreating, some of them did not have enough time to defend, as a large number of them were killed or injured by the sound wave.

"What an annoying fellow." When the Immortal Monarch saw Chen Xiang and the others chasing after them with all their might, he waved his hand, causing a fire cloud to instantly cover the entire sky, and a huge palm to fall down. It was the Fire cloud palm that Yang Jiutao had previously used, but now, it was unleashed by the Immortal Monarch, which was extremely powerful.

The Fire cloud palm instantly smashed down, causing Chen Xiang and the rest to have no choice but to use all of their strength to block it, otherwise it would be difficult for them to receive heavy injuries.

"I'll chop you guys up next time." After leaving those words, the Immortal Monarch hurriedly left. They, the Fire Divine Palace, had suffered the most losses in this battle.

Chen Xiang sent a sound transmission to Li Baojun, Duan Chong and Zuo Zhenxuan: "I'll leave this place to you guys. I need to continue to mix in with them and get the news from First hands."

If not for that, there would not have been such a victory today, inflicting heavy injuries to the powers who were eyeing the Chen Martial Continent. Although many people had died, this scale of war could only be considered small, and the Chen Martial Continent had only sent a small amount of elites.

At this time, Chen Xiang had already become the Red Face Ghost Killer King and arrived at the Sacred Fire Mountain. The number of people who could hold meetings here had decreased by more than half, and every person had varying degrees of injuries. The vacant seats were all reserved for the other powers, so they had already sent people to inform the upper echelons of the other forces to send people to attend the meeting.

They had originally thought that they would be safe, but now that they had lost so miserably, they did not expect that after the death of Divine Weapons Heavenly Country, the various powers of the Chen Martial Continent would react so quickly, with many of their elite soldiers gathered in the Divine Weapons Heavenly Country, ready to attack the moment anything bad happened.

They thought that without Chen Xiang, the Dragon Subduing School would become dispirited and depressed all the way. However, right now, they were secretly developing to be so powerful, with so many elite disciples participating in the battle, becoming the person who killed the most enemies in the previous battle.

Seeing Ghost Killing King's mask, everyone was very unhappy, because the one who suffered the least was this Ghost Killing School, and not a single person went. Although the Ghost Killing King had promised to go look around, but they did not even see a shadow of him.

Xue Xianxian and Leng Youlan, as well as a few elders from the Divine Weapons Heavenly Country were not present on the battlefield, so no one suspected the Ghost Killing King at all. Because in today's situation, if Xue Xianxian and his son Leng Youlan could participate, it would definitely happen, because even the Dan Fragrance Pure Land's Wu Qianqian had come.

No matter how much they suspected, they would never suspect the Ghost Killing School. Previously, the Ghost Killing School and the Devil Race had colluded and provoked the Divine Weapons Heavenly Country time and time again. Some people from both sides had died, so no one would think that the Ghost Killing King and the Divine Weapons Heavenly Country were allied.

Of course the Ghost Killing School would not join hands with the Divine Weapons Heavenly Country, but Chen Xiang knew, and Chen Xiang could be the real Leader, because he had killed the Ghost Killing King, so he had the qualifications to sit in this position.

Another thing that made everyone unhappy was that the Immortal Monarch did not attack from the start, but only appeared at the end. Otherwise, they would not have suffered so many casualties.

Of course, they didn't dare to say anything now, because none of the Leaders and elders were able to return. Adding on the destroyed saint artifact, this Immortal Monarch would definitely be even more furious.

"This time we've lost so much, we can't just let it go like this. Let's get ready for the decisive battle." The Immortal Monarch said: "When the time comes, I will fight, and that senior."

To be a senior of the Immortal Monarch, their abilities did not need to be mentioned, they were definitely the Immortal King, the crowd was secretly unhappy, if they had this power, they would not have sent them out earlier, and would have stayed behind to watch them die.

The Immortal Monarch and the Immortal King did not join in the battle because they had their reservations. Although they could be considered as top rankers that were few in number, it did not mean that they could slaughter people without any restrictions, especially humans.

When Chen Xiang heard Immortal Monarch's words, his heart became heavy, because he was most worried about the Immortal King and Immortal Monarch participating in the battle. If it really came to that day, if White Tiger Fighting Race did not intervene, no one could force the two experts to join.

Right now, all the powers were severely injured, and they could not attack Chen Martial Continent in the near future. Unless those Immortal Kings made a move, they would have their reasons for not helping the Immortal Kings, and they too would not want to take down Chen Martial Continent.

"In a few days, that senior will come out of seclusion. If any of you want his guidance, you can stay here for now, or come back later." At the end of the meeting, the Immortal Monarch's words made everyone's eyes light up.

Many people stayed there for the sake of that senior. After all, he was an immortal king, and in their eyes, he was an extremely powerful existence. Right now, they could only look up at him in admiration.

Chen Xiang did not leave, he wanted to see if there was really a Immortal King hidden in the Sacred Fire Mountain, if that was true, then the Fire Divine Palace had invested a lot of resources, and wanted to make the two Immortal Kings sacrifice a large amount of cultivation time to come to the sky that was filled with dense spirit energy, this would very likely destroy the future of the two Immortal Kings, although it was very difficult to raise their cultivation level, but at this stage, no one would give up on the opportunity to raise their strength.

Deep into the night, Chen Xiang sat on his bed and closed his eyes to rest. He did not sleep, this was the enemy's lair, how could he sleep deeply?

"Who?" Chen Xiang suddenly sensed that someone had appeared outside the door.

"I am the Great Clan Elder of the Devil Race. Can we have a chat inside?" It was the voice of an old man.

"Come in." said coldly. Previously, the collusion between Devil Race s must have been related to that dead Ghost Killing King, but now that the Ghost Killing King was new, if Devil Race wanted to continue working with the Ghost Killing School, they had come.

The Great Clan Elder's name was Mo Xu, he was an old man who looked like he was about to puke, but he was actually very strong.

Mo Xu said with a gentle smile on his face: "We had always been cooperating with the Ghost Killing School, but we didn't expect the exchange to be so quick. If you're willing to continue cooperating with us, there will definitely be benefits."

Chen Xiang asked: "How do we cooperate?"

Mo Xu immediately sent a sound transmission to Chen Xiang: "Help us kill people, kill all those fellows who want to deal with Devil Race, and replace them with that Ghost Killing King who hasn't even completed the tasks that we entrusted to him, so I hope that you can complete it."

[Chapter 1204](#)

Chen Xiang sent a sound transmission to ask, "Reward."

"Sir, you should know who the person you want to kill is first, it won't be too late to ask." Mo Xu chuckled: "The one you want to kill is Ancient Wasteland Devil Sect's Second Elder."

"No problem. Now we can talk about the rewards. I care more about that." Chen Xiang was extremely willing to kill anyone from the Ancient Wasteland Devil Sect s.

No matter how curious Chen Xiang was, he would never ask about it. Otherwise, it wouldn't be like how it was in the Ghost Killing School.

Ancient Wasteland Devil Sect and Devil Race were both powerful forces of the Devil Realm, so there were definitely schemes and battles in the shadows. But to develop to this point, this was already a very serious matter, especially at such a critical juncture, the powers within the Devil Realm were not as harmonious as Chen Xiang had imagined.

Chen Xiang suddenly realised that this point could be used to allow the Alliance to engage in internal strife. As long as there were benefits to be had, he could instigate them.

"One trillion Spar." Mo Xu said.

"Alright, this is the first time I'm cooperating with you guys. I won't be haggling anymore, it's a good start." felt that it was worth it if he could get one trillion Spar just by killing one. Not everyone could do it through this kind of business.

He will go to the Demon Realm's Snake City. You can make a move there, the best would be if you were to create the appearance of someone being killed by the Evil Demon, and that way, you won't be suspected anymore. "Su Yun said in a low voice.

Chen Xiang immediately left Sacred Fire Mountain, heading towards its Thousand Snake City.

Otherwise, if the Second Elder of the Ancient Wasteland Devil Sect died here, he would definitely be suspected. He disguised himself as the same Evil Demon whose body emitted the aura of poison, and in the Ten Thousand Snake City, there were many demons who were like this.

The City of Ten Thousand Snakes was very dilapidated. It was not as tidy as a human city. Many of the shops here were made of random stones, and the streets were filled with potholes. If it rained, it would definitely be muddy.

Why did the Second Elder of the Ancient Wasteland Devil Sect come to this place? Chen Xiang was curious, he felt that he must be here to meet someone, and this person might be a strong Ranker from a force in the Demon Realm.

In this run-down city, a tall and sturdy old man wearing gorgeous clothes suddenly appeared, immediately attracting many people's attention. This was because the monsters here were mostly serpent demons, which looked very thin and weak. Only a small portion paid attention to their own clothes.

"It's this guy. He came here with such high profile. It looks like he's very confident." Chen Xiang could feel that the Demon Qi in his opponent's dantian was extremely thick. He should be a Devil Cultivator that had undergone eight or nine tribulations of Nirvana Tribulations.

"Ancient Wasteland Devil Sect, I never thought that we would meet again." Chen Xiang thought and continued to follow the Second Elder of Ancient Wasteland Devil Sect with his divine soul.

The second clan elder's name was Ji Chong, and his position in Ancient Wasteland Devil Sect was very high. Even though he was the second clan elder, Leader had to see his expression sometimes, and Ancient Wasteland Devil Sect's Great Clan Elder had already gone into closed door cultivation for a while now, and had yet to come out.

The moment Ji Chong arrived at this city, he quickly walked towards a relatively dignified stone tower. As for Chen Xiang, he could already feel that there were a few powerful auras inside the stone tower.

"Is there a powerful guy in that tower?" Chen Xiang asked a little serpent demon.

"Not just one, but a few. Those are the greater demons from the Ten Thousand Snake City. Those who evolved from snakes to flood dragons are the five great black flood dragons that have already transcended the nine Nirvana Tribulations. If they advance a bit more, they might be able to turn into dragons." The little snake demon said with a face full of yearning.

Chen Xiang followed along and headed towards the stone tower. There were five Black Jiao's, which meant that their strength was considered top-notch in the Demon Realm, so the Second Elder must have something important to discuss with the five Black Jiao.

Ji Chong was brought to a stone room underneath the tower. Inside the stone room sat five black-armored men, their bodies emitting a poisonous gas, it seemed like they were five poisonous dragons that knew how to use poison.

"I never thought that you would be able to keep your promise on something like this. I heard that you guys suffered heavy losses when you attacked the Divine Weapons Heavenly Country." A Black Flood Dragon said. Its voice was extremely cold and emotionless.

"Even so, we absolutely cannot miss such an important matter. Did you all bring that thing?" Ji Chong asked, and then took out a large jade box.

As they were making the trade, Chen Xiang became curious, because they seemed to be exchanging for some incredible thing, otherwise they would not have advanced so quickly, because after Ji Chong had entered the stone tower, the other Spirit Demon beings inside were all chased out, and no one was allowed to go near.

"We need to see your stuff first." A Black Flood Dragon stared at the jade box. Although its voice was ice-cold, its eyes were emitting a fervent light. It stretched out its hand to grab the jade box.

Ji Chong pressed a hand on the jade box. I can let you see, but you are not allowed to touch it.

These five black Flood Dragons slightly frowned. Looking at their appearances, they really did not understand the rules of the trade, and Chen Xiang also did not know what Ji Chong had taken a fancy to, to actually have to endure these fellows.

"Yes." A Black Jiao took out a black box. This time, it was Ji Chong's turn to have a passionate look.

"Now you can open it for us to see, right? If you are sure, then we will fight with each other." The Black Jiao said, a big hand pressing down on the black box. The black box was made extremely well, with good materials, it did not seem like something that the Demon Realm would have.

Ji Chong opened the jade box and saw that inside the jade box, there were five transparent pearls, and at the core of each pearl, there were five separate black dots, which looked like five drops of black blood.

"This is the blood of the Evil Dragon." Long Xueyi gritted his teeth and said: "Evil Dragons are not good people, and these five drops of blood can allow these five Black Dragons to step into the path of the Evil Dragon."

Seeing Long Xueyi like that, Chen Xiang knew that the Evil Dragon blood was not simple: "How did you get hold of the Ancient Wasteland Devil Sect's Second Clan Elder, such a thing should be very difficult to obtain."

"Of course it's difficult, I also want to know, maybe there is a part of the Evil Dragon's body in Ancient Wasteland Devil Sect, back then, the Evil Dragon was killed by the many strong beings, but some of them still preserved a part of the Evil Dragon's body, the Evil Dragon's body is eternal for ten thousand years." Long Xueyi said.

Chen Xiang did not attack immediately, because the five Black Jiao were not weak either. He also wanted to see what was going to exchange the Evil Dragon's blood for.

"Now that it's your turn, you all should be able to see that this isn't fake, right?" Ji Chong said as he closed the lid of the jade box, and then firmly pressed down on the jade box.

[Chapter 1206](#)

After killing Ji Chong, he had obtained the profoundhan poison, and also received the thousand billion Spar s' gratitude from the Devil Race. He never thought that not long after he had become a Ghost Killing King, he would already have such an abundant income.

After burning Ji Chong's body up, Chen Xiang immediately returned to the Sacred Fire School. He also wanted to meet the mysterious Immortal King hidden in the Sacred Fire School.

As Ghost Killing King, it was normal for people to appear and disappear, and the experts that gathered in the Sacred Fire School were no longer surprised. However, the Ghost Killing King made them feel extremely fearful of him, because no one knew what kind of appearance or background he had, and the scariest thing was his ability to assassinate people.

In order to not expose himself, Chen Xiang tried his best to avoid conversing with others, but Mo Xu was an exception.

When Mo Xu saw that the Ghost Killing King had returned, he immediately sent people to investigate. He wanted to confirm if the Ji Chong was really dead, and it would take a period of time. Chen Xiang was not anxious, even if he could not obtain the one trillion Spar, it would be considered good enough for him to obtain some.

Chen Xiang was worried about when the Fire Divine Palace would attack the Chen Martial Continent. Although he had already lost a lot, he knew that the Fire Divine Palace was definitely not just a little bit of strength, and there were definitely hidden forces in the Fire Divine Palace, but if he were to fight again, the huge losses that would result from that would shake the foundations of the other big powers.

However, this did not mean that they would not fight, because the conflict between them and the Chen Martial Continent was no longer possible to resolve. And the advantages that the Chen Martial Continent had, allowed the various powers above the Chen Martial Continent to become very powerful

in the future. If they allowed those powers above the Chen Martial Continent to continue developing, in the future, once they had enough power, they would be the first to be annihilated.

Furthermore, they had already lost so much previously, they could not afford to lose it for nothing. Therefore, they hoped that the two Immortal Kings of Fire Divine Palace would take action.

The reason the Fire Divine Palace used so much power to seal him was also because of this.

After waiting here for a few days, he heard the news of the Second Clan Elder's death. The Pearl of Life had already been broken, which meant that he was dead.

Once they went to the Ten Thousand Snake City, they would die. People couldn't help but wonder if the five Black Jiao's of the Ten Thousand Snake City had that kind of strength.

Ji Chong was quite famous in the Devil Realm. Many experts of various powers in the Human Realm knew of this powerful being, but now that he was dead, it was related to the Demon Realm's City of Ten Thousand Snakes.

At this time, Mo Xu had also acknowledged the power of the new Ghost Killing King. It was done very beautifully and very quickly, but it was not completed after going out for a short while, so after he confirmed that Ji Chong had secretly given him a billion Spar s after he died.

Previously, Chen Xiang had absorbed all of Ji Chong's memories and knew why Mo Xu wanted to kill him. It was because Mo Xu and Ji Chong were good friends, and they had even done some things that could not be exposed to the world. For example, Mo Xu and Ji Chong had secretly teamed up, and quietly devoured a lot of the benefits of the Devil Race.

Because the two of them were greedy beyond compare, it made Mo Xu suspicious, but in the end, Mo Xu still got rid of all the suspicions, it was just that Ji Chong was using this method to force Mo Xu to help him take the position of Ancient Wasteland Devil Sect.

That was why he wanted Chen Xiang to kill him. That way, he would be able to rest in peace, and Ji Chong didn't know that, so he told Mo Xu about his whereabouts, allowing him to grasp Ji Chong's whereabouts at all times.

When Ji Chong thought about this matter, he could not help but let out a sigh. This was because not only was it the Devil Cultivator s, even within the Human Realm s, such a thing was normal.

As everyone was discussing the matter of Ji Chong's death, the Immortal Monarch suddenly walked out and said in a low voice: "That senior has come out."

The hall immediately quietened down, all of them tidying up their clothes, all of them hoping for the Immortal King to nod his head and attack Chen Martial Continent, at that time, they wouldn't have to put in so much effort.

Chen Xiang had already felt a strong aura, it was indeed at the Immortal King level, its strength was similar to that of the hall master, but he did not know what position the Immortal King held in the Fire Divine Palace.

What surprised everyone was that the Immortal King looked to be very young, young and pretty, with delicate features, a high nose bridge, fair skin, and a beautiful face. This also meant that the Immortal

King might be a young Immortal King, and this made everyone happy, as long as they could persuade the Immortal King to make a move, the Chen Martial Continent would be theirs from now on.

Even though the young immortal king didn't seem to have any airs of arrogance, the arrogance on his face was extremely obvious. However, this was to be expected, because the people sitting here could be casually crushed to death by him.

When the young Immortal King saw Chen Xiang, he couldn't help but frown, and his voice carried a trace of ice: "What do you mean by not taking off your mask?"

Other than the Immortal King, everyone here was a little afraid of the Ghost Killing King. They also knew the habits of the Ghost Killer, and normally did not reveal their true appearances.

Chen Xiang never thought that the mask would displease the Immortal King, but he suddenly felt a resistance, even if the Immortal King was strong, he did not want to follow his orders, even if he had to remove the mask it would not affect him, because he could change his appearance and not be afraid of being recognized.

"Didn't you hear me?" The immortal king's tone became even colder.

Chen Xiang sighed in his heart, he had to continue staying in the Sacred Fire School and find out more things that would benefit them, so he could only endure.

He extended his hand to remove the mask, revealing an extremely ordinary face. It did not seem to fit his identity as a Ghost Killing King in the slightest.

"Hmph, you are disrespectful to me for appearing here with that mask on. However, seeing as you can help the Fire Divine Palace with just a little, you only need to kowtow and admit your wrongs." The Immortal King snorted, he did not even look at Chen Xiang, in his eyes, the ordinary face had tainted his eyes.

This immortal king was not an ordinary one, but he had the right to be arrogant. He was an immortal king, a lord. No matter how mighty the people here were, in front of an immortal king with extraordinary powers, they could only swallow their anger.

Chen Xiang stood up, and everyone's heart was suddenly filled with an indescribable pleasure, because Ghost Killing King, whom they were usually afraid of, was now kneeling down like a grandson to apologize. Although he was not kneeling down to them, they were still very excited.

"What if I don't apologize?" Chen Xiang also said with an ice-cold voice that carried anger.

[Chapter 1207](#)

Hearing Chen Xiang's words, everyone secretly took in a cold breath, to actually go against the extremely powerful Immortal King, this was simply looking for death, although enduring and crying out loud, kneeling down to kowtow and admit fault was very embarrassing, but being able to live, being able to live is more important than anything, to not even be able to live, you really do not need face at all.

But Chen Xiang didn't think so, because he felt that he could survive even if he didn't kneel down, he chose not to kneel down. Although his current identity was Ghost Killing King, if he had to do this, he would still feel humiliated.

That young immortal king's countenance sank, and a layer of gloom covered that handsome white face. Anyone could tell that this immortal king was in a bad mood. His voice was filled with killing intent as he spoke, "Are you talking to me?"

Chen Xiang suddenly clenched his fists and asked: "Are you deaf?"

"You're courting death." The Immortal King snorted, he had already disappeared, and suddenly appeared above Chen Xiang, and with his luxurious big chair, he floated above Chen Xiang, with one palm slamming down, the force of the palm, caused all the experts present to tremble, even Immortal Monarch felt cold, because even he, would be burnt to ashes by the palm strike.

However, Chen Xiang dodged. The moment he dodged was extremely strange, as though the Immortal King's powerful palm strike had pushed him away, and was not able to harm him at all.

"You are courting death. So what if you're an Immortal King? I will also make you suffer a big loss." Following Chen Xiang's control, the black Qi appeared like a ghost beside the Immortal King and coiled around him. The black Qi that was emitted also floated around the hall, causing the faces of many experts to turn ashen, because they already knew what the cold energy was when they were sucked into the Immortal King's body.

The profoundhan poison actually had this kind of thing, and it was even used in a place with so many people, wasn't this just bringing them down with them? Just a moment ago, they were still gloating over the misfortune of the Immortal King, but they didn't expect that not long after, they had already entered into an unprecedented life crisis.

"To actually use Super Old poison, I will tear you apart alive." The Immortal King was furious. His originally handsome white face now had some black qi. His body could be seen trembling because of the profoundhan poison.

"If you have the guts, then come. My Ghost Killing King has killed countless people, but I have never killed an Immortal King before. In my eyes, you are just a fellow that can lose his life easily like ordinary people." Chen Xiang laughed out loud: "If you're sent down here, you probably won't be able to survive, right?"

A flaming big hand suddenly smashed down, ruthlessly smashing into Chen Xiang, the big flame palm caused Chen Xiang to lie on the ground.

"Get down." Although he was poisoned, he did cultivate fire and could temporarily defend against the cold poison. He gathered the most powerful force he could muster and struck Chen Xiang who was lying on the ground and vomiting blood again.

A huge hole had also appeared where Chen Xiang had just been lying on the ground. The palm strike from the Immortal King caused Chen Xiang to be able to penetrate the island, but he was pressed down by the strong force of the palm and fell right into the volcano underneath the island.

It was already a miracle that Chen Xiang was attacked from the front by the Immortal King, he did not turn into a mist of blood, but his entire body was in pain, his entire body was still being suppressed by the residual palm force, causing him to sink deeper and deeper into the fire droplets.

"This bastard." The Immortal King's expression was extremely ugly: "Fortunately it's the profoundhan poison, we were able to stabilize the spread of this poison, and lead them to the training room to borrow the flame's power to expel the poison. If we are lucky, we might even be able to expel the poison in a year or so."

This Immortal King was the most poisoned, and he had absorbed the most profoundhan poison.

The Immortal Monarch looked at the hole that was penetrated through and said, "If you fall in, you should be dead."

"You're definitely dead. Even if you didn't take my palm and fell into the depths below, you would have died." The Immortal King grunted, "Quickly find out where his profoundhan poison came from."

Fortunately, it was a person with very weak strength who was using profoundhan poison s. If his strength was stronger, and if he used it suddenly, he might already be dead. At this moment, he had an even greater fear of the strange poison.

"This guy really sent me to such a good place. Since I can't continue on like this, then let's fight to the death. Even if you're an immortal king, you still can't defeat the power of nature." Chen Xiang took out the Fire Dragon Sword s and hid the surrounding Flame Essence. This would allow him to have an empty space deep within the Flame Essence and at the same time avoid being burnt by the Flame Essence.

He was severely injured by the Immortal King's palm, and almost fell apart. Luckily he had a Body of Heavenly Sage, and also the protection of the profoundwu diamond armour.

After eating a few pieces of Relive Dan, his body was quickly recovering. He had two Bone soul s, so the speed at which he repaired his bones was extremely fast, and Yulong blood s could also play a large role when his meridians and muscles were damaged.

"Unfortunately, if you use Magical corruption gas s, you might be able to take them down." Long Xueyi sighed.

"I originally thought so, but that Immortal King still had some strength, at that time he was already on guard against me continuing to poison, and from the looks of the palm he used, he can't use too much power, and when the time comes, I won't be able to take him down, and he might even be able to block me." The moment Chen Xiang said that, he thought of many things.

"But it's different now. They all thought that I died, and they should all be detoxifying themselves."

Long Xueyi laughed sinisterly: "So that's how it is, if I were to sneak in, using that poison again would be different."

"That's not it, I think it's even worse." Chen Xiang paused for a while, and said: "This volcano shouldn't be this stable, but it is currently so calm. There should be a large array controlling this volcano."

"This volcano must have been suppressed for a very long time. If it was damaged to that large array, it might suddenly erupt, and the fire essence that it spewed, was suppressed for many years. The lowest kind of fire essence is enough to destroy that island, and destroy Fire Divine Palace and Sacred Fire School in one breath."

Although there was an Immortal King on the island, it was not all of Fire Divine Palace. Chen Xiang had always thought that the Fire Divine Palace was hiding a lot of power inside this Di Tian, so he would not relax just because he destroyed the island above.

[Chapter 1208](#)

Those who were struck by the profoundhan poison all borrowed this warm energy to expel the cold poison from their bodies, while the young Immortal King also expelled the terrifying cold poison from his secret room. Although he was a Immortal King, he still had to be careful when facing the Super Old poison, otherwise, it would be very easy for him to die because of this.

This was only a profoundhan poison, the weakest type of Super Old poison, otherwise others would not even have the chance to expel the poison. They were secretly rejoicing in their hearts, Chen Xiang could only use a profoundhan poison.

If not for the presence of an Immortal King, after Chen Xiang released those profoundhan poison, he would have killed them all. All these people would have all died, so whenever they thought about this, they would shiver uncontrollably, because not long ago, they had just brushed shoulders with death.

Within Di Tian, Ghost Killing King was never a guy with a good reputation. However, Sacred Fire School only told the public that this matter could be kept a secret.

Within the Chen Martial Continent and Dragon Subduing School, only a small portion of people knew that Chen Xiang had snuck into the Sacred Fire School, and played an extremely important role there. Now that news of such an event had spread, they were extremely anxious to know about Chen Xiang's current situation.

The reason why the Sacred Fire School had released the wanted news about the Ghost Killing King was only to take over the Ghost Killing School, or to clean up the Ghost Killing School, so no one would say anything more.

Chen Xiang was currently in the Flame Essence deep inside the volcano. He had the unique power released by the Fire Dragon Sword, which was able to block the Flame Essence and come closer, allowing him to find a small space to move below the volcano.

"Can you find traces of the formation? They must have set up a formation to stabilize the volcano." Chen Xiang said. He had already asked Long Xueyi to use his divine power to carefully inspect the outside of the volcano.

"I haven't found it yet. This method of setting up the array is not simple, the formation masters of the Fire Divine Palace are truly powerful. To be able to set up such a powerful formation to suppress this volcano, but not leave any traces behind." Long Xueyi had not been able to find anything for a long time, which was why she sighed.

Chen Xiang was still not fully recovered yet, otherwise he would have gone to look for the array.

"Look again, maybe it's somewhere else." Chen Xiang thought for a while, then said: "Go check out that island. If you haven't found any traces of an array formation on the volcano, then it is very likely that it is on that island."

Long Xueyi immediately followed her instructions and checked the bottom of the floating island. She had already searched through the entire volcano, but could not find any clues.

After a while, Long Xueyi made a huge discovery, and shouted in shock, "Found it, I didn't expect this island to be the case."

"What's the situation?" Chen Xiang asked anxiously.

"This island is a huge formation plate. If the Immortal King didn't heavily injure it earlier, it would have been difficult for me to discover it. They also know how important this formation plate is, so they hid it very well, not wanting others to discover it." Long Xueyi said: "When I went to investigate, I saw many people who were trying to cover up that this island is just a camouflage of the formation plate."

Chen Xiang smiled, and said: "As long as you know, it's good enough. Once my injuries have healed, you can go and see what you need to do to quietly destroy the array disc's structure."

"This is not easy to destroy. Earlier, the Immortal King knocked you down and created a hole in the array disc, but the array disc wasn't affected at all. Furthermore, it seems to have the ability to repair itself, but the recovery speed is very slow." Long Xueyi said.

"In any case, I have already clashed with the Sacred Fire School. No matter what, I will destroy this island." Chen Xiang had already made up his mind that no matter the cost, he would destroy this island no matter what.

Chen Xiang was peacefully recuperating as he was fiercely slapped by the Immortal King. Luckily his body was strong and he had the profoundwu diamond armour s, so his injuries were not too severe and he could recover in a short period of time.

Chen Xiang was currently trying to buy time. He had consumed a large amount of healing pellets, and with the help of the Yulong blood and his bone veins, he would be able to recover in the shortest time possible.

If it dragged on for too long, he was worried that the Immortal King would succeed in detoxifying the poison, because this was a volcano, and the Immortal King was a fire cultivator, he learned many powerful fire attribute cultivation techniques in the Fire Divine Palace, which could effectively suppress the profoundhan poison.

As long as he could make his move before the Immortal King completely exorcised the profoundhan poison, he was not worried that the Immortal King would stop him.

In merely half a day's time, Chen Xiang had already recovered to his best condition, and currently, he was quickly floating upwards.

Although the Ghost Killing King had made them afraid, even though they had a Super Old poison like the profoundhan poison, they had already fallen into the bottom of that terrifying volcano and were even hit by the Immortal King. Thus, they believed that the Ghost Killing King had already died.

Amongst these people, the one who felt the worst was Mo Xu, because he was secretly cooperating with the Ghost Killing King before. It could be said that their relationship was not bad, but he didn't expect that before the Ghost Killing King died in a counterattack, he would also drag him inside, and let

him be infected by this kind of damned profoundhan poison. Also, if the Ghost Killing King didn't clash with that Immortal King, he could still use the good relationship he had with the Ghost Killing King to cooperate in the future, and remove all obstructions.

Chen Xiang flew out of the volcano, turned into a wisp of smoke, and rose up to the bottom of the island above. Looking from below, the island seemed to be filled with potholes, it was extremely irregular, it was hard to tell that this was an array disc, and it was so huge, and it carried a lot of mountains.

In order to dominate Di Tian, Fire Divine Palace had invested a large amount of energy and resources. It could be said that the Fire Divine Palace's thoughts were even greater than those of the Tong Tian Aristocratic Family and Sheng Domain who had lost previously.

"This array disc is very powerful indeed. If you want to destroy it, the most direct method is to use the strongest power possible to destroy everything in one go. However, this array disc already has a very strong self-defense; even if I were to join hands with you, I still wouldn't be able to shake it at all." exclaimed. He had merely investigated the array disc's internal structure and found many things.

[Chapter 1209](#)

Chen Xiang's mind worked quickly as he thought of a way.

"If you have the time, you can refine a Destruction Ice seal Dan, just like the one you used to break the seal last time." Su Meiyao said.

"I'm afraid that won't do. If that Immortal King recovered, it would be easy for him to be discovered." Chen Xiang shook his head. It would take a very long time to refine into a destructive Ice seal Dan of sufficient power, and at that time, who knows how many people would be on this island.

Chen Xiang guessed that the Sacred Fire School must have gathered all of the disciples to protect the island. This was because many of the strong warriors on this island were infected with the poison, and needed a period of time to expel the poison.

"Where's the Heaven-suppressed immortal monument?" Bai Youyou asked. Although she understood the power of Heaven-suppressed immortal monument more than her, but Chen Xiang had used it before, so he knew the power of Heaven-suppressed immortal monument much better than her.

"You can try, but if you don't succeed, there won't be a second chance." Chen Xiang pondered for a moment. In the end, he still decided to use the Heaven-suppressed immortal monument because he had already used it to destroy the powerful Purple profound Holy Mountain.

Long Xueyi said: "Just use up my power. Keep your power, so that nothing else happens."

Chen Xiang took out his Heaven-suppressed immortal monument and used it to hold back the island. At the bottom of the island was a gigantic formation plate.

"What a strong power, this formation plate should be absorbing the power of the volcano. Such a terrifying power, I wonder if the ice power released by the Heaven-suppressed immortal monument can completely freeze this island." Chen Xiang began to worry. He felt that just using Long Xueyi's power was not enough.

Long Xueyi's power had already been transferred over, and at this time, he decided to pour his power into it as well.

"With my power, this formation plate is condensing its power to counterattack. We need to freeze more than half of the formation patterns and stop the power from passing through them before the power is gathered. Otherwise, we will miss this chance." Chen Xiang said.

Long Xueyi's Dragon Power entered Chen Xiang's body and perfectly merged with the Dragon Power that Chen Xiang released, forming a silver white colored terrifying Dragon Power. The two of them never thought that when their Dragon Power fused together in its peak state, it would become so strong, so powerful that even they felt a little fear.

As the strong wave of Dragon Power poured into the Heaven-suppressed immortal monument, it caused it to spew out a large amount of ice sealing power. In just a few blinks of an eye, the bottom of the island was covered in a layer of frost, which gradually condensed into a thick layer of ice, and the inner structure of the Heaven-suppressed immortal monument also started to turn into ice.

However, this did not completely freeze the gigantic formation disc. At this moment, Chen Xiang and the others could clearly feel the array disc's strength slowly approaching them.

"Prepare yourself to retreat. This surge of strength is so strong that even the Immortal King has to avoid it." Long Xueyi shouted.

"It will definitely succeed." Chen Xiang said as he furrowed his brows. He had already used all of his strength, and even part of his divine power.

The array disc was slowly turning into ice. Just as the energy was about to rush out, at the most critical moment, the energy suddenly dissipated. This was because the important structure inside the array disc had already turned into ice.

The power that the Heaven-suppressed immortal monument had displayed at this moment made both Chen Xiang and Long Xueyi extremely excited.

"Success, continue." Chen Xiang said excitedly. Long Xueyi's power was also continuously being transferred over, becoming one with Chen Xiang.

"Strange... Why do I still have so much power?" Long Xueyi suddenly asked with suspicion. Last time Chen Xiang used Heaven-suppressed immortal monument to deal with that Purple profound Holy Mountain, she had quickly drained her powers, yet this situation had persisted for so long.

"After your Dragon Power and my Dragon Power merged, it became many times stronger, so with just a little bit of your Dragon Power, it was able to allow Heaven-suppressed immortal monument to achieve such an effect." Chen Xiang said, he also felt this was extremely strange, because previously, when he and Long Xueyi's Dragon Power fused together, this did not happen. Although the fusion had become a little stronger previously, it was not as strong as it was now.

"Let's figure it out in the future. Anyway, when I'm with you, little scoundrel, the strange thing that happened wasn't only this." Long Xueyi suddenly had a feeling that she was becoming more and more reliant on Chen Xiang. She could not imagine how she would live after leaving Chen Xiang, and she did not want to think about it.

After breaking through the defensive array, the seal of ice released by the Heaven-suppressed immortal monument was unobstructed, charging straight up to the top, the defenseless mountains instantly turned into an ice mountain, the people inside Sacred Fire School did not know what happened yet, they only felt that it was suddenly very cold, then a strong cold Qi invaded their bodies.

If those experts had not been struck by the profoundhan poison and did not have the powerful strength to resist the invasion of the cold energy, they would not have been frozen instantly.

Boom, a series of explosions came out from above, Chen Xiang could also feel that it was the aura of the Immortal King, only the Immortal King was able to resist the cold Qi and not get frozen. None of the others were able to escape, they all became ice men, and the inside of their bodies became ice, this was the power of the Heaven-suppressed immortal monument.

The Immortal King attacked the island that was gradually turning into ice. Initially, he thought that the entire island was covered in a layer of ice. However, when he bombarded, he discovered that the entire island had turned into ice.

"Let's leave quickly. The volcano has already gone out of control." Long Xueyi said: "The fact that the Immortal King was not frozen was within our expectations."

The gigantic volcano below was shaking frantically, the lava was churning, Chen Xiang only felt some regret, he did not manage to kill the Immortal King in one breath.

"Let's go." Chen Xiang kept his Heaven-suppressed immortal monument and continued to travel through space. As long as he escaped in a random direction, he would be able to leave the volcano. Although he could enter the depths of the volcano, the volcano had lost control, and the power that erupted was not something he could withstand.

Although the Immortal King who was high in the sky had not completely removed the profoundhan poison from his body, he could still use a part of it under his control. He suddenly recalled that the Purple profound Holy Mountain of his sect were also destroyed like that, and immediately checked his surroundings.

Many resources were piled here. Many Fire Divine Palace s had carefully groomed many talents for many years, but they were all destroyed just now, because this was the responsibility of this Immortal King. Even if he survived, he would definitely be held accountable by the hall master.

Who exactly are you? You have fought against our Fire Divine Palace so many times, you have this kind of strength, why are you still acting so sneakily? The Immortal King chased after Chen Xiang, his speed extremely fast, as he gradually approached Chen Xiang and shouted loudly.

[Chapter 1210](#)

Chen Xiang wore the blood red mask and turned his head. He glanced at the Immortal King and only sneered.

When the immortal king saw that the person in front of him was actually wearing a red mask, he immediately understood many things.

"It's you." The Immortal King had heard the reports about the attacks on the Divine Weapons Heavenly Country, so he quickly realised that the Ghost Killing King was just an internal attack.

The Purple profound Holy Mountain was destroyed after being frozen, and the island was the same.

Just when the Immortal King understood many things, a violent roar came from behind him. The volcano erupted, and the commotion was extremely shocking. It actually produced such a roar. The moment the island erupted, it was also vaporized by the intense heat.

"Who the hell are you?" From the beginning till the end, their Fire Divine Palace had been tricked by this person. He was secretly cursing that Ghost Killing School, and if it wasn't for the fact that Ghost Killing School liked to wear masks and have such lousy rules, he wouldn't have allowed such a person to sneak in.

This person was also very powerful. After being ruthlessly slapped by him, he actually didn't die. Instead, he even destroyed that island and was still able to run so fast.

The only thing he was sure of was that this person couldn't beat him. Otherwise, he wouldn't have run away now.

"You have been chasing me the entire time, aren't you afraid that I will use the profoundhan poison again?" Chen Xiang finally spoke.

"You can't kill me. If you have the guts, then use the profoundhan poison to deal with me right now. This time, I'll definitely kill you myself. "You should not have destroyed that island. Because of this, you revealed your identity, and you, who uses the profoundhan poison, joined forces with the Chen Martial Continent. If I were to tell anyone, that Chen Martial Continent would definitely attract more enemies."

The strong forces of the humans in the Fire Divine Palace, even if they did not resist the invasion of the demons, they should not have teamed up with the demons, and even more so, should not attack the Chen Martial Continent, the forces specializing in dealing with demons. You should not go and take a look, how many people hate your Fire Divine Palace to the bone, who would believe your words?

Fire Divine Palace had always been the most active in defeating demons. Now that Chen Martial Continent was trying to prevent them from getting annihilated by Fire Divine Palace, he had no choice but to retract the power to suppress demons to protect himself. Therefore, right now Fire Divine Palace's reputation was extremely bad, and there were already a lot of people who had received favors from Chen Martial Continent gathered in Chen Martial Continent, preparing to deal with Fire Divine Palace.

If the news of your island being destroyed spread out, a majority of the people would cheer. Your Fire Divine Palace has committed too many sins and is not welcomed with Di Tian, and even more so, I won't let your Fire Divine Palace dominate Di Tian. Chen Xiang's voice was very powerful and filled with determination.

With your dog like power, you want to destroy Fire Divine Palace? There are three Immortal Kings in Fire Divine Palace, sooner or later, your Chen Martial Continent will be destroyed by us, so sooner or later, Di Tian will be ours. The Immortal King sneered.

Chen Xiang was secretly shocked, there were actually three Immortal Kings in the Fire Divine Palace, other than the one chasing after him and the hall master, there was actually one more, this made him break out in a cold sweat.

"What? Scared? Stop your pointless struggle and accept your death."

Taking the risk of the profoundhan poison spreading throughout his body, this Immortal King used a portion of his power to resist the Evil Poison, causing his own speed to increase. He instantly appeared behind Chen Xiang's back, and smashed his palm towards the area of Chen Xiang's Dantian.

"The chance has come." Chen Xiang was waiting for this exact moment, and his reaction was also very fast. He flipped in the air, avoiding this powerful palm strike.

"Let's see how long you can block for." The Immortal King slapped his palm towards Chen Xiang again with lightning speed, his strength increasing.

Chen Xiang shouted, and also threw out a palm attack towards the Immortal King.

The two palms fiercely struck together, and Chen Xiang's arm let out a series of crisp sounds. All of his bones were broken, and his entire arm was bleeding.

"You overestimate yourself." The immortal king smirked. In his eyes, Chen Xiang was too weak to withstand a single blow.

"Hmph." Although one of Chen Xiang's arms was injured, there were no major internal injuries on his body. At this moment, he actually laughed, was even more pleased and happy than the Immortal King.

Just as the Immortal King felt puzzled, his expression suddenly changed. It became incomparably ugly and filled with fear. He discovered that there were two more poisons inside his body.

He swallowed his saliva because he had already determined what kind of poison these two poisons were. Magical corruption gas and Drunk god magical poison were two kinds of Super Old poison, and both of them were stronger than profoundhan poison.

These two poisons were not able to control fire like profoundhan poison, and the poison properties of these two poisons were very strange, so the rate of their spread was also very fast.

The muscles on the face of the Immortal King twitched, it was already gradually turning black, his entire body was becoming weak and weak, this was the effect of the Drunk god magical poison's poison, the energy in his body was being numbed.

"You ... You will die a horrible death. " The Immortal King said malevolently.

"Haha ..." The one who should be dead in a bad way is you. You have three Super Old poison in your body, so you will definitely die in a horrible way, but you should be happy about this, because there are very few people who can die under these three Super Old poison. "

Chen Xiang laughed out loud, then took out a black hammer. Seeing his hammer, the Immortal King's face changed, he knew that profound Cold Ancient Realm had destroyed the ice palace, and that Ice Emperor had suddenly revived and participated in the battle, but was killed in the end by a person holding a black hammer.

"You were the one who killed the Ice Emperor." The immortal king's forehead was dripping with sweat.

"That's right. You were able to die in my hands like the Ice Emperor. You should be proud of yourself now." Chen Xiang struck his hammer forward. With the energy of his Body of Heavenly Sage and Dragon Power, the punch caused the air to crumble and fall down ruthlessly from the air above the Immortal King's head.

The moment the hammer landed, the strong pressure released tore apart the Immortal King's body. At the same time, a strong wave of Heaven fire surged out and burnt that bloody object to ashes.

"There are two more. This Fire Divine Palace is so powerful, they have sent three Immortal Kings, I wonder how many Immortal Kings they have in the Heaven Realm." Chen Xiang looked at the Godly Hammer in his hand and sighed.

When the Sacred Fire Mountain was destroyed, the Immortal King Immortal Monarch and the experts sent by the Alliance all died. This news quickly spread to the whole of Di Tian, making many people happy.
