

## Dan God 1211

### [Chapter 1211](#)

Chen Xiang was currently hiding in a cave refining Drunk god powder and had already used all of his Drunk god powder to deal with the young Immortal King. If not for that, he simply did not have enough poison to numb the Immortal King.

"That was really dangerous just now. If it wasn't for the profoundhan poison in his body, the two kinds of poison I used wouldn't have been able to deal with him. It's really dangerous, I won't be able to deal with the Immortal King in this way anymore."

If the Immortal King that died before didn't have profoundhan poison s in his body, he wouldn't have become so weak. He only used two kinds of strange poisons, even if the poison in his opponent's body was deep, the other party wouldn't have died immediately. Furthermore, he also didn't have the power to escape, or perhaps, it would have lost his life just by counterattacking before his death.

That's right, you are just lucky, the Immortal King is much stronger than you can imagine, and only two types of strange poisons are unable to kill them. In the future, even if you meet Immortal Monarch, you cannot do this. Long Xueyi said.

Chen Xiang had already used up all his profoundhan poison, and he did not know where he should go to find them. Right now, he only had Magical corruption gas and Drunk god magical poison on him, but they were not enough to deal with Immortal Kings, especially those kind of old immortal kings.

The Drunk god flower s required Chen Xiang to copy for them personally, so Su Meiyao and Bai Youyou did not have a Devil-suppressing Golden Body like him. Usually, he would remind Su Meiyao and Bai Youyou to leave these poisonous flowers to them as they were too weak.

After he used the creation divine liquid to copy some of the Drunk god flower, he immediately took out the Yanlong furnace and refined it into a type of powder. After he refined the Drunk god flower, the poison was even stronger.

This profound Ice City was built by the Fire Divine Palace, he had to pay attention to the movements of the Immortal King. If the Immortal King took action, the plan to attack the Chen Martial Continent would continue, and that was what he was worried about the most, because facing two Immortal Kings at the moment, the Chen Martial Continent had no chance of winning, unless he could get the White Tiger out.

During the nine years he had been sealed, the White Tiger hadn't come to save him, so he knew that the White Tiger must have some reason. At this moment, he didn't go find the White Tiger, unless he was forced into a corner.

Chen Xiang guessed that the three Immortal Kings in the Fire Divine Palace had all taken different paths. Maybe the three Immortal Kings had always been at odds with each other, and their opinions could not be unified, if not the Fire Divine Palace would not be plotted against by Chen Xiang time and time again in these years.

"The ten-year deadline hasn't arrived. Back then, that old fellow said that as long as time was up, he would attack Chen Martial Continent, and the young immortal king probably planned to do the same,

but the power that was led by that young immortal king has already been eliminated by you. Now, only the hall master and the mysterious immortal king has appeared." Long Xueyi said.

I still have some time. I need to use this time to quickly raise my strength, and I don't know about Xianxian's and You Lan's current strength. When the time comes, if these two Immortal Kings join hands and attack Chen Martial Continent, it would definitely be a great danger.

If Chen Xiang wanted to quickly raise his cultivation, he could only listen to the method of consuming pills. Previously, it was already very difficult for him to step into the Nirvana Tribulation, but now, to enter the Eighth Tribulation, it could be said that the difficulty was more than ten times higher than before. Although he could extract the energy from the profoundbing, that method would not last long.

"I need to refine a real Heaven level Pellet and use the Heaven level's medicinal ingredients." This was the only path that Chen Xiang could take, as long as he could refine Heaven level Pills, it would mean that he would be able to refine a large amount. At that time, not only him could get promoted, his friends and the people around him would also benefit greatly.

Right now, Ground level Pills were not very helpful to the Nirvana Tribulation experts. If they had to rely on Ground level Pills to treat their injuries, it would be pretty good, but to raise their strength, they would need a lot of time and resources. If there was a Heaven level Pill, it would be different as well.

"Right now, you need a certain amount of time to concoct a Heaven level Pill, but I'm afraid that it will be very difficult to do so in a short period of time. Right now, you can't even concoct many types of high grade Ground level pills." Su Meiyao said. If Chen Xiang was able to refine a low-grade Heaven level Pellet in this short amount of time, it would mean that Chen Xiang would ascend at a rapid pace in the next few years. With the help of a large number of low-grade Heaven level Pellets, the speed of his growth would definitely be extremely terrifying.

"I can now skillfully refine Relive Dan s, I have already mastered the high grade Ground level pills pretty well, moreover I have rich experience in refining super pills, I feel that I can refine low grade Heaven level Hunyuan Dan s within a short period of time." Chen Xiang said.

Back then, when he was gambling in the Sacred Dan City, he won a portion of the Hunyuan Dan's medicinal ingredients.

Su Meiyao sighed: "Then let's give it a try, I also hope that you can improve more in the area of pill refining, but from the looks of it, the time you have spent in the Dao of alchemy, the requirements for you are too high, although your talent is outstanding, but don't force yourself, after all, it is better to be stable and steady."

In the past, she would probably be more selfish. In order to help herself recover faster, she would force Chen Xiang to level up faster, but it was different now. Instead, she was worried that Chen Xiang had levelled up too fast, so she would leave behind some flaws that she wouldn't be able to fix in the future.

At the same time, he also cultivated the divine way, condensed the divine soul, and entered the realm of perfection. He had strong mental strength, and the Heaven Earth Killing Method he cultivated was also the ancestor of many powerful divine arts.

"Heaven level pill, I'm here."

Chen Xiang took out some medicinal ingredients for the High Rank Ground level Pellet, the Nine quenching body Dan s and the Five Elements Profound Dan s. These two pellets used to be high quality pellets that he thirsted for very much, but now, they were unable to satisfy him.

Su Meiyao said: "Right now, these two pills are only used as a springboard for you. As long as you refine these two pills, you will have even more experience, because the ingredients for these two pills are extremely difficult to process. But even if you can refine them, there is still a long way to go before you can refine Heaven level pills."

### [Chapter 1212](#)

As long as he could concoct a Heaven level Pill, he would be a Dan King. It sounded like there would be a very strong reputation behind it, but Chen Xiang knew that this kind of Dan King would not be much of a big deal as compared to those Immortal Kings, who were simply trash, they would still be able to be killed.

However, in the face of a Immortal King, he was still too weak. If he could become a Pill Saint, he would be able to look down on the entire Heaven Realm, and would even be able to stand shoulder to shoulder with the powerful forces of the Heaven Realm.

"The Heaven level Pill has only just begun."

Once he calmed down, he began to refine the Nine quenching body Dan. This was a type of pellet that strengthened the body, but it was of no use to Chen Xiang's current Body of Heavenly Sage. It could at most help to dispel the fatigue in his body.

Right now, he was inside the profound Ice City, but he was hiding very secretly. Here, he could let Long Xueyi better monitor the Fire Divine Palace's Palace Master, and he would immediately know the moment the hall master makes any movements.

Within three months, Chen Xiang had already learned how to refine Nine quenching body Dan s and Five Elements Profound Dan s, but he did not immediately refine the Hunyuan Dan s for the low-grade Heaven level pellet.

With his current alchemy level, refining Hunyuan Dan s was still far from enough. Even though the upper and lower Heaven level s were only at the same level, there was a huge gap between them that was difficult to cross.

For example, right now, he only needed to be at least at the tenth level of the Foreseeing Alchemy to concoct high quality pills. But in order to refine low quality pills, he would need to refine at least a hundred of them or even more.

"If I were to refine a low-grade Heaven level's Hunyuan Dan, it would probably take me a hundred and twenty stages, and it would take me several months to refine a batch." Su Meiyao said.

This was also the reason why Su Meiyao previously said that Chen Xiang was unable to cross over to the Heaven level Pellet in a short period of time. It was because such a huge difference in strength was something that would take a very long time to shorten and a large amount of time to raise one's Foreseeing Alchemy.

Chen Xiang used several methods to refine a Hunyuan Dan, but none of them were complete because his level of Foreseeing Alchemy was not high enough, and was unable to predict the change in quality of the medicinal ingredients. Furthermore, when the medicinal ingredients were being burned, there were too many types of changes, and it was difficult to make up for it with the experience of failure.

The moment he thought about controlling over a hundred Foreseeing Alchemy, and about making prediction errors, correcting them in time, and training from the moment he corrected them, Chen Xiang's head started to hurt. And during the condensing of the pellet, the kind of correction error and frequent adjustments during tempering was even more so, causing his head to hurt.

"My flames are definitely enough, even though I don't have the Heaven's Flame like Li Baojun." Chen Xiang thought that he had enough flames. He did not have any Heaven Flames, but Heaven fire soul was no pushover. He already had the most basic requirements to refine a Heaven level Pellet.

"Foreseeing Alchemy needs a long time to be grasped, if not those immortal kings would not be so old, otherwise, Dan Immortal and Pill Saints would not be so rare. It is already not easy for you to be able to master a high grade Ground level pill in such a short period of time, you can be considered a genius alchemist who has lived for so many years." Su Meiyao consoled Chen Xiang. She was also a Alchemist, and had a deep understanding of the dao of alchemy. She had walked this path step by step over the years.

"According to what you said, I would need two to three thousand years to refine a low-grade Heaven level Pellet." Chen Xiang clenched his fists. "The pellet that you and Sister You You need is a Holy level Pellet. If I want to refine it, I would need to wait even longer. How can you and Sister You You You wait that long?"

"We are happy that you can think of us. It's been a while, but you are my hope. We are full of confidence in you. The longer it is, the longer it takes." Bai Youyou's voice became gentle, this encouragement gave Chen Xiang a lot of strength.

"This won't do. I must hurry up and let you see the sky from a new place, step onto this land from a new place, and stand at the peak of the strong. The reason I have my current achievements is all because I have met you.

Thinking about the two girls still having to stay inside the ring for a very long time, Chen Xiang's heart inexplicably ached. If there was no other choice, no one would stay in that virtual space and spend all day with some flowers and plants. It was such a lonely thing, who wouldn't want to swim arrogantly in the vast world?

To these two former experts, this was an extremely cruel matter. It was like a bird had its wings cut off, and a fish could not stay in the water.

Su Meiyao said faintly: "There is no other way. This is the rule of the Way of Pills. When we initially placed our hopes on you, we made preparations that we could wait, and you never let us down."

Su Meiyao and Bai Youyou could deeply feel Chen Xiang's strong emotions at the moment, but they could not rush such things. He needed a footprint to walk out and he needed countless of time to build it up.

"As long as it's a rule, it was made by humans. Rules are originally meant to be broken. I feel that along the way, I've broken many rules and established my own."

Chen Xiang took a deep breath and thought back to his experiences, suddenly feeling proud of himself.

"Heavenly Alchemy, let me experience the true power of you."

Many profound techniques surfaced in Chen Xiang's mind. He looked carefully at these profound pill techniques with thirst and spent a lot of effort to understand them, because this Heavenly Alchemy was a heavenly book. He understood the words inside, but after combining them into one sentence, it became extremely profound.

Seeing Chen Xiang become so serious and determined, Su Meiyao felt extremely gratified. Bai Youyou sighed lightly.

Chen Xiang just sat there and tried to comprehend the Heavenly Alchemy. The previous Dawan refining method and Earth Swallowing Technique were relatively easy, and he even had the Ten Heavens Supreme Lord's explanation, but the rest were gone. The Ten Heavens Supreme Lord also could not understand some profound techniques.

In these past few days, he did not return to the Dragon Subduing School, nor did he go there. This caused Xue Xianxian and the others to be extremely worried for him, and thought that he had gone missing again. This was also the time when the Fire Divine Palace was the most likely to attack the Chen Martial Continent.

"So that's how it is. I finally understand it now. I can try this method." Chen Xiang who had been sitting motionlessly suddenly blinked his eyes, his face was full of excitement.

"What technique is this?" Long Xueyi anxiously asked. In the past few days, she had called out to Chen Xiang many times, but Chen Xiang did not answer her.

Chen Xiang smiled slightly: "God purification, this may let me say my goodbyes to the Foreseeing Alchemy's refining methods."

### [Chapter 1213](#)

The "God purification" that Chen Xiang had mentioned at this time made Su Meiyao and Bai Youyou extremely curious. They knew that Chen Xiang had spent a lot of effort to find this Heavenly Alchemy.

"What is this God purification like? Is it inside the Heavenly Alchemy?" Long Xueyi anxiously asked.

Originally, there was no Dawan refining method in the Heavenly Alchemy, nor was there the Earth Swallowing Art. That was created by the Ten Heavens Supreme Lord himself through comprehending the Heavenly Alchemy, which was why I was able to easily master it, and now, I need to rely entirely on myself to study this heavenly book and create my own way of refining pills. I finally understand why the White Tiger said that this Heavenly Alchemy was stronger than the Heaven Earth Killing Method.

Chen Xiang clenched his fists in excitement. He could tell that he found something astonishing from the Heavenly Alchemy.

"Why do you understand?" Long Xueyi's heart itched. She only asked Chen Xiang a few questions, but didn't get a definite answer.

"I feel that the Heavenly Alchemy is a true Heavenly Book. It contains all kinds of Heavenly Mystery and the laws of nature's way of operating ... As long as one can understand this book, one will be able to see through the world. Heavenly Alchemy is not able to refine the heavens, it is not able to refine everything, but to refine the heavens. "

Chen Xiang also felt that what he had said was too whimsical and whimsical, but he had indeed seen a lot of vague things from the Heavenly Alchemy, which made him feel that the Heavenly Alchemy was becoming more and more extraordinary.

"Then you must really be careful. Maybe the Ten Heavens Supreme Lord perished because he saw something that he shouldn't have seen through the Heavenly Alchemy." Su Meiyao anxiously warned Chen Xiang, she was worried that Chen Xiang would bring about that kind of heavenly calamity.

How powerful was the Ten Heavens Supreme Lord? Under that natural disaster, they could only bear with it.

"I know." Chen Xiang took out a black fruit that was covered in golden markings. This black fruit was a Hunyuan fruit, the golden markings on it was flickering, and each time it flickered, people would be able to feel the dense energy it contained.

These spirit fruits had been formed after many years of nurturing by the heaven and earth. It could be said that some spirit trees had formed crystals that contained strange powers. After being refined through alchemy, these powers could become even stronger and could be of great help to humans.

Flames suddenly emerged from Chen Xiang's palm, and he immediately burned the Hunyuan fruit in his palm. The main ingredient used to refine Hunyuan Dan was not only the Hunyuan fruit, but also two other very stubborn looking medicines.

"What are you doing?" Long Xueyi saw Chen Xiang burn the Hunyuan fruit just like that and felt his heart ache. Because if the Hunyuan fruit was burned too much, it would explode and the power inside would quickly dissipate into the heaven and earth.

"I'm concocting pills." Chen Xiang's eyes flickered with flames as he gazed at the Hunyuan fruit in his hand.

"I've never seen someone concoct pills with their hands before. If you are going to waste this Hunyuan fruit, how nice would it be for me to eat it?" Long Xueyi pouted. Although she was inside the ring, it did not mean that she could eat as much as she wanted. Although she was hungry, she still listened to Su Meiyao and Bai Youyou's words.

Chen Xiang said: "My God purification, is to use my powerful divine power to infect this fruit, and make the spirit inside the spirit fruit submit to my divine power."

"Before, when I was refining the Qi Shen Dan, those medicinal ingredients were friendly with me, and those kind of medicinal ingredients are more docile, so they were able to establish a connection with my divine soul. However, the vast majority of spiritual medicines are hastily hostile towards humans, and it's difficult to dispel this hostility, so this is the only way."

Previously, when Chen Xiang was refining the Qi Shen Dan, he had thought of this idea. When he was refining the pills in the future, he would communicate with the spirit inside the medicinal ingredients and enter the interior of the medicinal ingredients.

After he went to study the Heavenly Alchemy, he was able to decipher some of the more obscure sentences. He knew that many spiritual medicines were born to be natural enemies with humans, and that this was how they were created.

All things have a spirit, but the spirits in the world are all hostile, which is why there are so many different types of things in the world. There are many different kinds of strange plants and animals, as well as many different kinds of special ores, and if these spirits are not hostile, then it is very easy for them to be compatible with each other. In the end, there is only one kind of existence, and in the case of a spirit being hostile, in order not to be devoured by the other, it would evolve itself.

"There's another explanation for my God purification, and that is that this medicinal plant is in my hands, and I am its god. If I ask him to surrender, he will have to surrender."

The stubbornness of medicinal herbs is a headache for every Alchemist. If there was the slightest mistake in the refining process, the medicinal herbs would be destroyed, allowing the fusion of multiple types of medicinal herbs. If there was the slightest mistake, the furnace would explode.

"Why does it sound so mysterious?" Long Xueyi kept staring at the Hunyuan fruit, it was a lower Heaven level fruit and it tasted good, she had only eaten some before, but every time she finished eating, it would have no effect, so Su Meiyao and Bai Youyou did not allow her to eat more.

Chen Xiang had used his palm to refine the Hunyuan fruit for three days and three nights like this. He had not only burned it, he had also focused his mind and used his strong god power to burn the spirit inside the spirit fruit in a unique way, burning the "mind and body" of the Hunyuan fruit.

Finally, the Hunyuan fruit moved, and the seemingly sturdy fruit glowed, and the fruit was slowly dissipating, looking like it was turning into a powder.

It was also at this time that Chen Xiang suddenly felt a slight pain in his head. He, who was originally a little agitated, had now turned pale, and the Hunyuan fruit that was burning on his palm had turned into a burst of golden light and disappeared.

"I got a backlash. Although I didn't succeed, it still proves that this method is feasible. I can quickly refine a low-grade Heaven level pill." Chen Xiang's pale face flushed red from excitement.

Su Meiyao didn't understand his method in the slightest, because she had never studied the Heavenly Alchemy before. She was unable to understand Chen Xiang's peculiar thought process, but she was extremely supportive of it, because she had personally witnessed Chen Xiang repeatedly breaking the rules and making her own.

"What a waste, what a pity, this Hunyuan fruit's taste is pretty good, many spirit fruits do not have this kind of taste, sweet and sour, biting it feels great." Long Xueyi sighed.

"Only your dragon mouth can bite out this kind of feeling. Even if an ordinary person were to bite their teeth to pieces, it would still be difficult to bite off a piece of skin." Chen Xiang said.

## [Chapter 1214](#)

"Is there still time? Aren't you going to go back and take a look?" Su Meiyao could tell that Chen Xiang already had an idea in the area of refining Heaven level Pills, but he didn't know how he was going to achieve his goal.

"With the Little Naughty Dragon staring at the Hall Master, as long as the Hall Master doesn't take action, I do not need to worry." Chen Xiang took out a piece of root. This was one of the main ingredients to refine Hunyuan fruit s, the root of the Hunyuan fruit tree.

Su Meiyao sighed, she knew that he was the type of person who was immersed in refining pills, everything else would be difficult to disturb, and she had the same experience in the past, she would be indifferent to anything.

"Fire Divine Palace has another Immortal King, you should be aware of this point, don't just focus on this hall master." Su Meiyao warned him, she did not want Chen Xiang to delay matters. Although Chen Xiang's strength was greatly different from the Immortal King's, only Chen Xiang had a way to deal with the Immortal King.

Chen Xiang thought, the Immortal King who was hidden was a big problem.

"The Immortal King acted on his own accord, and the Immortal King acted on his own, so he acted on his own, and ended up like that. The Palace Lord did not want the hidden Immortal King to be destroyed like that, and the experts of the Fire Divine Palace were few as well, so it was not a good thing for the Palace Lord."

From this, he was able to obtain the latest news from the Chen Martial Continent. The ones in charge of gathering information in the Dragon Subduing School were Lan Lan and Yan Yanran, and as such, the people in charge of various parts of the Di Tian City were left behind secret signals for him.

Only after he was done with these matters, would Chen Xiang be able to refine the pellets with ease. He had to hurry up and refine the Heaven level Pellet so that he could get past the eight Nirvana Tribulations, and at the same time, use the Heaven level Pellets to recruit a group of secret disciples.

Su Meiyao said: "This Hunyuan tree root is much more difficult to deal with than the Hunyuan fruit. Although the roots aren't as sturdy as the Hunyuan fruit, the inside was extremely complicated. When I was refining the Hunyuan Dan, most of the reasons for failure were because I was unable to control the complex changes to the roots."

Sometimes it was cold, sometimes it was hot, and every time it changed, the temperature would be different. Sometimes it was very hot, and when it steamed the air, it was like a fire coal, but sometimes it was warm and comfortable. When it was cold, it could freeze a basin of water into ice, and when it was hot, it could be used to boil the water.

"This Hunyuan tree root is indeed a miraculous medicine. A cold and a hot one, represents a yin and a yang. I have the Yin and yang god blood, so maybe I can control the changes happening to it."

Chen Xiang opened up his palm, letting the piece of tree root rest on his palm. Then, like before, he released flames to burn the piece of tree root.

He did not know what he was doing, and the root was not tasty, so Long Xueyi did not feel the pinch, but he did not understand the meaning behind Chen Xiang's actions.

Long Xueyi and Su Meiyao had both asked Chen Xiang before, but Chen Xiang didn't explain it clearly to them.

Just like how he treated the Hunyuan fruit before, Chen Xiang sat there without moving, staring at the burning Hunyuan tree root in his hands.

It lasted longer than the previous Hunyuan fruit, and this Hunyuan tree root also changed a bit. It was originally pitch-black, but now it had turned snow-white.

Chen Xiang's expression was calm, but his eyes revealed excitement, as if he had successfully completed something.

"Little Scoundrel, there's an old woman looking for the Fire Divine Palace's Hall Master. They're outside the sealing formation right now, at the place where you were previously sealed." Long Xueyi suddenly transmitted to Chen Xiang, because it was an extremely urgent matter: "That old lady is not weak, and from the looks of it, she should be on equal footing with the Palace Mistress, she should be that hidden Immortal King."

Chen Xiang frowned, the burning white tree root in his palm suddenly burst forth and disappeared, but he was not disappointed, because he had already grasped the first stage of creating God purification.

"Can I eavesdrop on their conversation?" Chen Xiang asked. The appearance of the hidden Immortal King was a good thing for him, because that way he could monitor the Immortal King's movements.

"Sure, I'll pass it to you." Her Perception Technique was better than Chen Xiang's, allowing her to swim faster, faster and more stealthily. She even transmitted the appearance of the old lady into Chen Xiang's mind.

The Immortal King that was hidden in the Fire Divine Palace was a female, although she looked to be in her prime, and was about to run out of oil, she was extremely powerful. Just by wandering around, Chen Xiang could clearly feel her oppressive aura.

In order to not be discovered, Chen Xiang did not dare to go near. In terms of the divine way, he could not compare to Long Xueyi, but Long Xueyi could do it very secretly.

"Wang Qiongjin, what do you mean? You actually suspect that I killed your junior brother? That brat messed up my plans, but it's not enough for me to kill him myself." The hall master's voice was filled with rage as his face flushed red.

Chen Xiang immediately understood that the young immortal king was the old granny's junior brother.

"It's actually Wang Qiongjin. She's still alive." said in an astonished voice. Both she and Bai Youyou could hear the conversation that Long Xueyi had turned around to hear.

Wang Qiongjin was also furious, "Other than you, I can't think of anyone else who has the strength to destroy the entire Sacred Fire Mountain. That Sacred Fire Mountain is an array disc made by the Tianhuo Emperor, and only you know the weakness of it."

If you investigate thoroughly, you will be able to know that the boy was poisoned earlier. He was struck by the profoundhan poison because he made things difficult for the Ghost Killing King, and after the conflict with the Ghost Killing King, the Ghost Killing King died and a large number of people were poisoned. Your subordinates should have informed you about it, right?

Wang Qiongjin's wrinkled old face twitched, and he said coldly: "So that's why you are lucky enough to destroy the formation disc, cause the core volcano to erupt, and destroy the entire Sacred Fire Mountain. Right now, there is no proof of your death, so whatever you say is reasonable, but you must take responsibility for this matter.

If you don't want to attack Chen Martial Continent, you don't have to. But, you have to hand over your men to me. Wang Qiongjin suddenly took out a fire-red order badge, looking at the images that Long Xueyi had sent over, it was extremely dazzling.

"Fine, go and attack Chen Martial Continent. Since you want to court death, I won't stop you. Don't think of Chen Martial Continent as so simple." The head of the palace coldly snorted, then walked into a small residence and continued to guard the sealing formation.

That Wang Qiongjin had left and even brought along a large group of strong individuals with him from the profound Ice City. These were the people that the hall master could command, and could also be considered a part of the strong forces in the Fire Divine Palace.

"Where did they go?" Chen Xiang immediately moved, following the person Wang Qiongjin brought away, the hall master was no longer worth of monitoring, he was only curious what the hall master was afraid of, and actually did not dare to attack the Chen Martial Continent anymore.

"She went to a place in the Devil Realm. It seems like she has been hiding in the Devil Realm the entire time. Let's go, I'll tell you what city they teleported to." After Long Xueyi finished speaking, he asked again: "sister Meiyao, do you recognize that Wang Qiongjin?"

Back then, she was also a great beauty in the Demon World, with countless pursuers. Her master was a strong Sky Demon, and was as powerful as our master, Ruthless Devil Venerable. However, in the end, she went to the Nine Heaven Devil Palace and did not come back. "

"I didn't expect her to have a Junior Brother. I heard that she's fallen in love with her Junior Brother. Is he the guy you killed? That's great, hehe ..." Su Meiyao suddenly giggled, laughing extremely happily: "I don't know what happened to make her become so old, back then she cared a lot about her looks, because I heard that your Miss You You was prettier than her, so she chased after her for a few hundred years, and in the end, even involved me. At that time, she was taught a lesson by my junior and junior sisters, and in the end provoked the masters of my two families to come out and fight for her."

Chen Xiang never thought that such a thing would happen between the two of them, and couldn't help but sigh.

## [Chapter 1215](#)

Su Meiyao laughed tenderly: "If we were to appear in front of her now, it would definitely be enough to shock her. It's just that I don't know how she managed to join the Fire Divine Palace, but the Fire Divine Palace is actually a disciple of the Heavenly Devil Realm."

Bai Youyou scoffed, "She is just a bored person, her talent is not bad, but in order to earn the title of the number one beauty in the Heavenly Demon Realm, she fought so many battles, killed countless women, still did not give up after provoking us, and targeted my sister, and was poisoned to death by my sister in the end. She had to spend a lot of effort in order to restore her appearance, if it wasn't for such a terrible thing, she would have used her energy to cultivate, and she wouldn't be like this now."

Chen Xiang was secretly surprised, that Bai Ziqian was actually so vicious, that he killed many people just so that he could be ranked a little closer to the top, yet he destroyed that person's face. This hatred should not be able to be dispelled, he felt that women were sometimes a lot more vicious than men, and were also a lot more bored.

"Little Scoundrel, you have killed her little lover now. If the beauties in Heaven Realm who were chased by her were to find out, they would definitely be grateful to you." Su Meiyao chuckled.

"So it's like that. When the time comes, I will definitely accept their thanks with great enthusiasm. Hehe." Chen Xiang laughed sinisterly.

Chen Xiang came to an older, but very large city in the Devil Realm. This city was located in the center of the Devil Realm, and Chen Xiang did not know the distribution of power here.

Chen Xiang had to admit that the Fire Divine Palace's overall strength could actually penetrate all the way to the Devil Realm. He suspected that the Demon Realm also had its own branch hall.

The Devil Cultivator in the Devil Realm were also humans, so the cities here were not as unbearable as those established by the Evil Demon. Even though they were a bit old and worn out, they still made people feel comfortable.

Chen Xiang decided to stay in a tavern and choose the type of courtyard he wanted. Furthermore, he needed to have an underground training room to allow him to concoct pills below and at the same time, allow Long Xueyi to observe and eavesdrop on Wang Qiongjin to find out their plans to attack the Chen Martial Continent and the power of their attacks.

There were only two main ingredients for Hunyuan Dan. Chen Xiang had already experimented on them before, and now it was finally the time to refine them.

"Is it really okay? No matter how I think about it, I just can't understand how the people who created the Foreseeing Alchemy could succeed in refining the Hunyuan Dan without using the Foreseeing Alchemy. There are a lot of changes in the high-grade medicinal ingredients, and it's very difficult to predict how many layers of Foreseeing Alchemy will be able to solve this problem. Su Meiyao said.

"sister Meiyao, you'll know when I refine it. I think that when you recover your strength in the future, you'll be able to learn this secret technique of mine."

Chen Xiang was very confident in his God purification. He took out the Yanlong furnace, but only threw a large number of supplementary ingredients into the furnace to burn.

It was very easy to burn the supplementary herbs. In a few moments, it would be reduced to medicinal powder and Medicine aura.

After taking care of the supplementary ingredients, Chen Xiang took out the Hunyuan fruit and burned it on his palm like before. It was just that this time, the burning time was different from before, he used an even stronger flame this time, and he also released a barrier that covered his palm to prevent the energy from exploding out.

What made Su Meiyao feel that was somewhat inconceivable was that when he used to burn spiritual medicines in the past, spiritual medicines would always release a very strong glow, and some spiritual medicines would even release colorful strong lights. Previously, when Chen Xiang used his palm to burn, the flames weren't strong enough, so it was normal for them to not emit light.

But now that the flames were so strong, even the spirit medicine did not react at all.

Although he could not see it, he could still feel Chen Xiang's mental exhaustion right now. He had done the same thing last time, in order to not let the spirit inside the spirit herbs resist him, so that the spirit herbs could completely refine the spirit herbs. It was just that it was not easy, he had not achieved the final success the last two times, but it was possible, because he had already started to refine the spirit herbs slowly.

Using a raging fire to burn the Hunyuan fruit made it extremely unstable, and its reaction was extremely intense. It fiercely swayed in Chen Xiang's palm, and looked as though it could explode at any time, while Chen Xiang also felt a very strong pressure at this moment.

"I never thought that when these invisible spirits are burned by the flames, they would become so many times stronger. Even if my divine power is so strong, I could still stubbornly resist for so long. If it wasn't for the path of cultivation, I'm afraid it would be difficult to use the God purification. No wonder the Heavenly Alchemy and the Heavenly Alchemy were placed together back then." Chen Xiang thought, and continued to use his divine power to attack the stubborn spirit inside the medicine.

This situation continued for more than three hours. Suddenly, with a "boom", the Hunyuan fruit exploded and shone with a gold light. The gold mist lingered over Chen Xiang's palm.

Seeing this, Su Meiyao sighed: "Let's just use our Foreseeing Alchemy honestly. Isn't it just spending a bit more time? Senior Sister and I can afford to wait."

"No need." Chen Xiang suddenly laughed, he blew a breath of air, and the gold mist above his palm flashed, and a small pile of golden powder and golden mist appeared in his palm.

"This ..." Su Meiyao was shocked, although there was only a small amount of powder, but it meant that Chen Xiang had already succeeded, and as long as he did not explode like before, he would be able to obtain more powder.

The golden powder was the medicinal powder refined by the Hunyuan fruit, and the mist was the Medicine aura. The traditional method of refining pills was to complete these procedures inside the furnace, but Chen Xiang did not need to rely on the furnace to complete them on his own.

As a Alchemist, Su Meiyao quickly understood Chen Xiang's thoughts. He knew that Chen Xiang had used some secret methods in the Heavenly Alchemy to first refine the herbs into medicinal powder and Medicine aura outside, then throw them into the pill refining furnace and fuse everything into a pill.

"So that's how it is. This Heavenly Alchemy is indeed extraordinary. No wonder the White Tiger told you to use it with caution." Su Meiyao sighed, she suddenly felt that Chen Xiang had already graduated, because in terms of alchemy, Chen Xiang had walked down an unusual path, and she was no longer able to guide him, but in a certain aspect, Chen Xiang's current achievements had already surpassed hers.

"Fire is a difficult problem. With how powerful my current flames are, I should be considered one of the top experts among the majority of Alchemist, but it's still so arduous. This kind of refinement method has a high requirement for fire, and it also has a high requirement for divine power." Chen Xiang placed the small amount of medicinal powder and Medicine aura s into the furnace for preservation.

As for the flames, it will be very difficult to raise them. However, after you have passed through the nine Nirvana Tribulations and become an immortal, you should be able to try activating the fire energy that is hidden in your body. It should be able to allow your Fire Soul to reach a higher level. Su Meiyao said.

Chen Xiang had more and more hidden flames within his body. The previous heaven's fire seed, as well as the Earth's mind crystal, would allow him to completely unleash these hidden flames if he needed it, allowing him to nurture an even stronger Fire Soul. However, he was worried that his body would not be able to endure the powerful Fire Soul.

Currently, Chen Xiang's breakthrough was not just limited to allowing him to refine Heaven level Pills, but also allowed him to open up a unique method of refining pills. It was possible that he did not do such a thing in the last ten days at Great Yan City.

Chen Xiang took out the Hunyuan fruit again. Just now, a large portion of them had exploded, and the remaining small amount was not enough, he could only increase it with this method. He knew that it would be impossible for it to go so smoothly in the beginning, but for him, it was already a big step forward.

"It looks like Hunyuan tree root s are easier to refine, but in the eyes of us Alchemist, Hunyuan tree root s are much more stubborn than Hunyuan fruit s, but in your hands, it's different." Su Meiyao said.

"Because I have the Yin and yang god blood, I'm not afraid of its alternating between cold and heat. I can sense that kind of change ahead of time, so I'm prepared." Chen Xiang said: "It can be said that the Hunyuan tree root and I have some closeness, so I was able to progress further last time in one breath."

Last time, Chen Xiang was disturbed by Long Xueyi, so he did not reach the last step. However, he was sure that he would succeed in the end.

### [Chapter 1216](#)

In this situation, Chen Xiang looked extremely relaxed, but he was also trying his best to calm himself down and concoct pills, so how could he not be anxious when Wang Qiongjin was going to attack Chen Martial Continent? Now that Long Xueyi was watching him, he could go and concoct the Heaven level Pellet in peace.

This time, the Hunyuan fruit still exploded, but left half of its powder and Medicine aura, which was a little more than the last time.

"It seems like the flame is my current bottleneck, and I don't have enough divine power." Chen Xiang sighed, took out his Hunyuan fruit and continued refining.

"Maybe I have enough fire. Maybe I don't know how to use it cleverly enough for me to cross the river by myself. It is indeed difficult." Chen Xiang looked at the raging flames in his palm and thought to himself.

Long Xueyi said: "Your divine power is not weak. Although I don't know how much energy you need to consume to use this method, I just feel that you have not used your divine power to the best of your abilities, or perhaps did not fully display your divine power's power. You've frequently encountered such situations before, so your usage of the divine power still needs strengthening."

Chen Xiang nodded, he thought so too, and asked: "Did that old woman make any movements?"

"There are no big movements, but there are quite a lot of small movements. It is possible that she is from the Heaven Demon Realm, so she is very unsettled in Devil Realm, and many of the big shots and powerhouses are giving her face, and will temporarily stop the war at the Human Realm, and withdraw all of her power. Furthermore, she seems to have to go and contact the strong warriors of the Demon Realm." Long Xueyi said.

Chen Xiang frowned, this was not a good thing, this Wang Qiongjin could use his prestige to pull many powers to ally with the Fire Divine Palace, and this time, he would be even more powerful than last time.

"The good news is that this old woman does not plan to attack Chen Martial Continent herself. It seems like even immortal kings like them do not dare to do anything." Long Xueyi said: "I heard her say this herself. She said that she will lead from behind and will not participate in any battles."

"If these Immortal Kings can make a move, then they wouldn't need to gather so many people, but for what reason can't they do so, if the White Tiger doesn't appear in Di Tian, it would be hard for anyone to defeat them, but their Fire Divine Palace has three Immortal Kings, although they can't rule over Di Tian, but taking down the Chen Martial Continent will not be a problem."

Chen Xiang found it hard to understand. These three Immortal Kings really wanted to take down the Chen Martial Continent, and it would be extremely easy for them to do that. However, they did not do that, but instead sent many of the disciples of the Fire Divine Palace to their deaths.

"I don't know, but it's a good thing. At least we don't have to worry about facing a guy of that level. You already have the luck to kill another one, you have to understand that you were only lucky to kill that old woman's lover." Long Xueyi solemnly warned Chen Xiang. She wanted Chen Xiang to understand that he was definitely not a match for the Immortal King right now, and asking him not to foolishly go and fight with the Immortal King.

"I know that, but there will be a day when these immortal kings will be trampled underfoot." Chen Xiang frowned, and said softly, and then continued to refine the Hunyuan fruit with the God purification.

As long as he could refine some more powder and Medicine aura s, this part of the Hunyuan fruit would be considered a success, and the following Hunyuan tree root were not that difficult to refine, because they belonged to the yin and yang attribute and had a mysterious feeling of affinity with him.

After a period of time had passed, Chen Xiang's blazing palm suddenly released a weak golden light. A few cracks appeared on the Hunyuan fruit, but this was the sign of an explosion, and every time this

happened, a burst of extremely strong and bizarre spiritual energy would surge out from the Hunyuan fruit, directly hitting his divine soul. It was the same this time, he felt his divine soul tremble slightly, then he strengthened his flames, allowing his divine power and flames to fuse together and burn the Hunyuan fruit's demon spirits.

This was, after all, a Heaven level Spirit Medicine, even though it was copied from a creation divine liquid, the power contained within it was not weak at all. All of these Heaven level Spirit Medicines were nurtured by the Spiritual Qi of Heaven and Earth for more than ten thousand years, and contained within them was a unique and unique power that was unique to the heaven and earth.

"It seems like I didn't succeed completely this time. What's the problem?" Chen Xiang sighed in his heart, followed by a booming sound. His palm was shrouded in a golden mist, and he closed his eyes as he recalled the things that happened during his previous failures.

"The inability to suppress the spirit inside the Hunyuan fruit led to the spirit medicine controlling a portion of the spirit beast's power to counterattack, causing the spirit beast's power to become violent and unpredictable, and it was hard to suppress it, unless the spirit beast could be destroyed or the spirit beast could be completely suppressed."

He stored this half of the medicinal powder and Medicine aura s in the Yanlong furnace. This Hunyuan fruit part would be concocted in three different sessions, which would waste more than half of it. At this time, the Yanlong furnaces were fusing together, forming the complete part of the Hunyuan fruit, and there were even more of them.

Next was the Hunyuan tree root. It could be said that the progress of the Hunyuan tree root was very smooth, and during the refining process, a strange feeling appeared, allowing him to easily refine the Hunyuan tree root into white powder. The Medicine aura and the medicinal powder did not lose anything.

He felt that the reason he was like this was because of his Yin and yang god blood. However, not every medicinal ingredient was of the yin and yang attribute, so he could not have any sort of lucky thoughts. In the future, he would have to continue using his strength and perfect the God purification.

He, who was used to not wasting any herbs to refine pills, would waste more than half of the herbs when he was refining the Hunyuan fruit, which made him have a knot in his heart that was difficult to get rid of.

Generally speaking, the last step was the hardest and most crucial part. But for Chen Xiang, the last stage of refining the medicine was the most difficult one, and compared to the later stages of condensing the medicinal pellet, it was easier. It was the most difficult stage of refining the medicinal ingredients, and it was also the most difficult stage for him to condense the medicinal pellet.

Inside the Yanlong furnace, all sorts of separately refined medicinal ingredients were finally about to gather together. Chen Xiang injected the flame, and under the heat, the Medicine aura and medicinal powder inside seemed to have been refined, as they emitted bursts of dazzling light. At the same time, they were squeezed together by the divine power released by Chen Xiang, forming a ball of air that slowly rotated in the pill furnace, and sucked all the Medicine aura in.

"That old woman is about to make a big move. What does she want to do in the middle of the night?" Long Xueyi anxiously said, because she saw a large group of people gathered in a huge villa in the city. From her judgement, she could tell that this group of people were experts from the Devil Realm.

Chen Xiang did not ask, because they were almost at the Congealing Pill and he could not afford to be distracted. As long as he could concoct this low grade Heaven level Hunyuan Dan, he would have taken a big step forward.

### [Chapter 1217](#)

Only now did Chen Xiang understand the difference between refining a real Heaven level Pill and refining a super pill. When refining this Heaven level Pill, the tyrannical power was much more difficult to deal with than when he was refining the super pills.

These super pills had all been squeezed together by many different ingredients. If one refined them like this with a thousand of them, they could reach the effects of the Heaven level Pill, but it would take a lot of time to refine them. Furthermore, the actual effects would definitely not be as good as the Heaven level Pill, so one could say that the refinement process was not that big, as long as one could afford to waste time.

But right now, what was truly required was a large amount of energy and experience to refine a Heaven level Pill. For example, Chen Xiang currently had no experience, so dealing with the endless changes during the process was extremely difficult.

The cyclone in the furnace was as large as any other low-grade pills, but it contained countless times more energy than those low-grade pills. If they were to be pressed together and solidified, the explosion of energy would be extremely powerful.

Chen Xiang had already released a large amount of divine power to "surround" the ball of air whirl, but the medicinal powder and Medicine aura made from spirit medicine were still mixed with a large amount of spirit energy, these spirits were born with strong resistance power, and after fusing together, they became even more tenacious.

At this moment, Chen Xiang felt as if his divine soul was standing on the shore of a ocean, being hit by wave after wave of extremely strong waves, as if he was about to disperse. This was the unprecedented sense of danger he was facing in Alchemist, and in the worst-case scenario, his divine soul might be heavily injured.

"In my furnace, you have to listen to me, I control everything." Chen Xiang's face sunk, the Divine Sense Sea suddenly flickered with sets of golden lightning bolts, like the rolling divine power in the ocean, they turned into golden dragons and jumped out from the Divine Sense Sea, striking the ball of air and splitting it into two parts.

"Let me handle it." Chen Xiang released the Dragon Transformation skill's God Power and injected it into the Yanlong furnace. The two cyclones were surrounded by a few small dragons, and the Dragon Transformation skill was slowly shrinking, squeezing the two violent air cyclones into two pellets. Clang clang clang clang clang.

During the process of being squeezed, the quality of the air whirl kept on increasing, and the power that exploded out was also terrifying. If the Yanlong furnace had become transparent, that kind of light would definitely be able to blind normal people.

As the furnace gradually stabilized, Chen Xiang's tensed mind also relaxed. After a moment, he took a deep breath, although he was very tired, but his face was filled with joy, because he had succeeded.

"My God purification succeeded." The reason for Chen Xiang's happiness was this, the God purification was a divine concocting method he had created based on the Heavenly Alchemy. If he could succeed now, he would no longer need to use such a complicated method like the Foreseeing Alchemy, which was hard to grasp.

He opened the Yanlong furnace and two pellets that were emitting a resplendent golden light floated into Chen Xiang's jade box. Although he had wasted a lot of Hunyuan fruit before, when he took out the pellets, he still maintained his style and gave out as many pellets as possible.

"This little scoundrel... and he actually succeeded. He didn't even need a hundred layers of Foreseeing Alchemy, and was only able to refine two Hunyuan Dan, with such high quality ... " Su Meiyao looked at the jade box that Chen Xiang had given her.

Chen Xiang's breakthrough this time had completely overturned her previous understanding of the dao of alchemy and made her unable to accept it. However, she had to admit that Chen Xiang had already walked down a path of his own and did not need her to guide him in the field of alchemy anymore. Furthermore, she could not offer any pointers, at most she could give him some advice and hints based on her own experience.

Chen Xiang took out a few medicinal pellets and ate them. He closed his eyes and rested as he lightly said, "I really want to have a good sleep, but I can't do it now. I still have a lot of things."

"Little Scoundrel, you're amazing. You don't need to use that damned Foreseeing Alchemy to concoct a High Rank pill, you must have really learned from me back then." Su Meiyao muttered, the hardships she went through in refining the pill back then, she could not bear to look back.

"sister Meiyao, I will definitely teach you in the future. This God purification is still incomplete, I believe it will be easier to master in the future." Chen Xiang laughed, "I said it before, I must use the shortest amount of time to help you recover your strength."

"Do you really want us to leave you like this?" Su Meiyao snorted: "Did you think that without us, it would be more convenient for you to pick the flowers and provoke the grass?"

Chen Xiang looked wronged, "No way ..."

Long Xueyi laughed. "Allowing sister Meiyao to recover his strength is because he can take her, right little scoundrel."

"Little pervert, I really want to take you in right now." Chen Xiang said snappily: "The things that your dragon race has in mind are all so filthy as expected."

"Keep an eye on that old woman. When I recover, I'll have to carefully plan out how to deal with her in secret."

Long Xueyi said in a tender voice, "I understand ... The old granny gathered this group of people here for a meeting, but from their conversation, it seems like they do not intend to attack the Chen Martial Continent at the very beginning. "

Chen Xiang was a little surprised, and asked: "Oh, then what do they want to do?"

Long Xueyi said: "They plan to go to the various big shots of Chen Martial Continent and have a talk with them, because they have already confirmed that there is a dragon vein there, and they want to get a part of the Chen Martial Continent's power to be given to them, and also, let them, these Demon and Devil Realms, as well as some other powerful forces of the Human Realm, to build their own mountain gate above the Chen Martial Continent, and own their own territory."

"Bullshit, only an idiot would agree with that group of bastards, they had no good intentions from the beginning. Entering the Chen Martial Continent and giving them a portion of Dragon Bloodline, isn't that equivalent to letting them become stronger? Even pigs wouldn't do something like feeding tigers and causing trouble." Chen Xiang said angrily: "If Chen Martial Continent does not agree, they can continue to attack, right?"

"They are planning to do this. If they truly come to an agreement, they will be able to own their own land in the Chen Martial Continent, wait until they become strong, then they will annex the original powerful forces in the Chen Martial Continent, and with the Fire Divine Palace as the main force, they will dominate the entire New Imperial Heaven World, occupy all resources, and take in all other forces." Long Xueyi said, "At that time, they will use the reason of seizing the dragon fountain as a peace to persuade Di Tian and the others to put pressure on the Chen Martial Continent."

Chen Xiang recovered and asked: "When do these people plan to move?"

"I don't know yet, but they will first go to the original Pill City in Continent of the King. With their great efforts, the situation there has gradually gotten better. That place is more lively now, and it is being controlled by the Fire Divine Palace." Long Xueyi said: "They have another reason to go to Pill City, because that place is close to Dragon Subduing City, and they seem to be planning to make a move on him."

### [Chapter 1218](#)

To make a move against the Dragon Subduing City, Chen Xiang raised the corner of his brows: "Was it that old granny who did it?"

"Yes, the old lady said that the Dragon Subduing City was very inconvenient, but she did not dare enter the Evil Dragon Graveyard. She was afraid of the defenses there too." Long Xueyi said.

"Motherf\*cker, I don't know if the Immortal King can withstand the attacks of the Dragon Subduing City, but I have to return quickly." Chen Xiang suddenly started to worry for the Dragon Subduing City.

"Don't worry, she only said that she would go and mess with the Dragon Subduing City and didn't say that she would destroy it." Long Xueyi said.

"That still won't do! That's my city! Don't think that I can make them do whatever they want just because I'm not here. Whoever dares to step on my face will be stepped on by me." Chen Xiang was enraged and immediately left the city and rushed back to the Dragon Subduing City.

Last time, when the Fire Divine Palace and those powers wanted to ambush the Divine Weapons Heavenly Country, they were met with a strong counterforce, and the Dragon Subduing School was one of them. Although Chen Xiang was sealed, but in the eyes of outsiders, the Dragon Subduing School was secretly growing stronger, its overall strength was extremely strong, and all of the disciples inside were extremely fierce, all of them used extremely powerful martial skills, and all of the treasures and weapons they had were high grade goods.

Knowing that Wang Qiongjin was going to Dragon Subduing City to cause trouble, Chen Xiang immediately went back to wait for her. As long as this Wang Qiongjin did not attack, he felt that it should not be a problem to retaliate fiercely.

Inside a hall in the City Lord's Mansion, Li Baojun and Duan Chong was discussing some offensive tactics when Chen Xiang suddenly rushed in with extreme force, startling them.

"Leader, what is making you so anxious? Could it be that the Fire Divine Palace is about to launch an all-out attack?" Li Baojun asked anxiously. Ever since he knew that the Ghost Killing King used profoundhan poison s and was thrown into the volcano, he had always been worried, not because he was worried that Chen Xiang would die, but because he was worried that Chen Xiang would be sealed again.

Only a few people knew that Chen Xiang had the identity of a Ghost Killing King. When they learned that Chen Xiang had used a profoundhan poison, although they were shocked, they secretly laughed.

At this time, the entire Sacred Fire Mountain and even the Immortal King had been destroyed. As long as they knew that Chen Xiang had infiltrated the Sacred Fire Mountain at that time, they all suspected that he was the culprit. Chen Xiang killing one of the Immortal Kings in the Fire Divine Palace, they couldn't believe it.

"It's about time, but it's not attacking the Chen Martial Continent, but trying to find trouble with us." Chen Xiang said with a serious face: "An old lady of the Immortal King level wanted to bring a group of Demon and Devil Realms fellows over to our place to cause trouble. You guys hurry up and think of a way to deal with it."

"What? The Immortal King brought his team here to cause trouble? How are we supposed to defend ourselves?" Duan Chong said in shock: "Hurry up and start the defense mode of the entire city, f \* ck, how could these immortal kings do such a disrespectful thing. If it spreads to the Heaven Realm, they will definitely be laughed to death."

"I do not know how they will deal with our Dragon Subduing City, but they will definitely cause trouble. Oh right, the Pill City is controlled by the Fire Divine Palace, maybe they are here for the Pill City." Chen Xiang said.

"That's right, the reason why Pill City was able to reignite its ashes is because of the support of the Fire Divine Palace. However, with us, the Dragon Subduing City, here, Pill City is just like that." Li Baojun nodded.

Just as Li Baojun and Duan Chong were about to order for the city's most powerful defense to be carried out, a message suddenly came in from Pill City challenging the Dragon Subduing City.

This challenge was a challenge for pill refining.

"Leader, is it convenient for you to come out now?" Li Baojun said, he knew that Chen Xiang was an expert in handling such challenges.

"Elder Li, of course I can fight, I'll just have to conceal my identity, but the pills I can refine are not of high quality, you should be able to refine immortal pills now, right?" Chen Xiang scratched his chin and thought: "Could it be that the old granny used this method to cause trouble in the Dragon Subduing City, and there are many people in the Fire Divine Palace who are good at pill refining, I'm afraid there will be some pressure."

"That's right, most of the fellows in the Fire Divine Palace have powerful Fire Soul." Li Baojun nodded his head: "How about we reject their challenge? What if this is a trap set up for us by them, we know their character very well, and at that time, we won't be able to do anything about them."

Duan Chong opened the letter of challenge, and said with a frown: "We need two Alchemists to compete, and they also want to compete inside the Dragon Subduing City. As for the loser, they will need to give the opponent as many pills as possible."

Chen Xiang said: "We can't let them enter the city. Just stay outside the city."

"It's a challenge from the Fire Divine Palace. I think they're lacking pills, so they want to use this method to quickly obtain a large amount of pills. Currently, from Di Tian's perspective, our Dragon Subduing Dan Hall's pills are very famous." Li Baojun said.

"It seems that the Fire Divine Palace is already determined to attack the Chen Martial Continent. Furthermore, he even wanted to obtain some pills from us. His plan is really too clear." Chen Xiang smiled and said: "I just don't know if this Fire Divine Palace will keep his word. They have an Immortal King, if we win against them, wouldn't it be a loss?"

Ignore them, continue to carry out defense throughout the city, sealed the city gates and Transmission array, you can only teleport out, you cannot teleport in, this Fire Divine Palace might be worried and kind, if they do not have the Immortal King, we are not afraid. Li Baojun considered for a moment and made a decision after seeking the views of Chen Xiang and Duan Chong.

Outside the city, there were already many people. Looking from the city walls, it was as though the entire Pill City was filled with people, as if they were all outside the Dragon Subduing City.

"Without Chen Xiang, the Dragon Subduing School has become so weak, to the point that she doesn't even dare to take on a small competition to concoct pills." Wang Qiongjin shouted loudly, his tone filled with ridicule.

"I really do not dare to compete, if it was just a simple exchange of pointers, of course we would not be afraid, but you are Fire Divine Palace, and Fire Divine Palace eats people without spitting out their bones, regardless of winning or losing, we are afraid that you will swallow us down to nothing." Li Baojun immediately replied.

The meaning behind his words was that the Fire Divine Palace was unreliable, causing people to be worried. Everyone understood the Fire Divine Palace's character after being doubted like this, because the Fire Divine Palace had allied with the demons and attacked the Chen Martial Continent. This was a point that many people in the Human Realm hated.

"I've brought a group of powerful demons with me. I wonder what this old woman will do." Long Xueyi said. Others may not be able to recognize the demons that were hiding their Qi, but she could.

"It's just a peaceful exchange, our Fire Divine Palace will definitely not do anything bad. Before, Fire Divine Palace did this because of the mistakes made by the other people in power. Now that that person is dead, I will make the Fire Divine Palace return to how it was before." Wang Qiongjin said loudly, causing everyone behind her and all the people in Dragon Subduing City to hear.

### [Chapter 1219](#)

Chen Xiang never thought that Wang Qiongjin would actually say that his dead lover made a mistake. If it really was like this, then Wang Qiongjin was someone who would use any means possible to achieve his goals, and would be even more difficult to deal with than he imagined.

Regarding Wang Qiongjin's words about peaceful communication, Chen Xiang and the others treated it as farting. As long as one wasn't an idiot, one wouldn't believe such a thing, he knew that Wang Qiongjin had bad intentions by bringing a large group of Demon and Devil Realms over here. It seemed like he was prepared to use this method to give a ruthless beating.

It was enough to shake the Dragon Subduing Dan Hall's foundation, so Chen Xiang and the others were very careful with this matter. In truth, they were very confident in their pill refining skills and thought that they would definitely win, but they did not trust their opponent, and were worried that the other party would act shamelessly.

"You just need to make us believe that you won't go back on your word. We are only worried about this, and that the elixir exchange is indeed needed, and that it will raise our alchemy level, but the things that your Fire Divine Palace did previously made it difficult for us to trust you." Li Baojun said loudly. After everyone heard this, they thought that it was very reasonable.

Anyone with a discerning eye would be able to tell that this wasn't an ordinary exchange. Losing would come at a very heavy price. Worrying that the other party would go back on their word and not accept the challenge was a very rational move.

The Fire Divine Palace was quiet, they made such a big noise, and almost called everyone in Dan City over, all for the sake of getting stronger, and for the purpose of getting the people from Dragon Subduing City to come out and fight, but now the people they brought, were all behind them discussing, and expressing their doubts towards the credibility of the Fire Divine Palace.

Wang Qiongjin thought for a while and the decision she made surprised them. She actually mentioned to make a contract with them, looks like she really needed a lot of pills, and they were very confident that they could win.

"They need so many pills, is it because they want to attack Chen Martial Continent?" Chen Xiang said, but Li Baojun had already gone out to make a contract with Wang Qiongjin.

"It's possible, but as long as we win, killing two birds with one stone, one is equivalent to weakening the power of our Dragon Subduing School pills, two is, allowing them to obtain a large amount of pills, they already know that our Dragon Subduing School has a very solid foundation, the last time they attacked our Divine Weapons Heavenly Country, the strength we displayed had already made them wary, if they

were to launch an all-out attack on our side, we would provide a large amount of pills, which would be a huge hindrance to them." Duan Chong said.

Chen Xiang nodded his head, feeling that Duan Chong's analysis was extremely logical, but he thought that even if they lost this competition, they would not be able to shake their foundation in pills. As long as he gritted his teeth and went into closed door cultivation for a month or so, he would be able to replicate a large amount of medicinal herbs.

When Li Baojun returned, he smiled and said, "I don't know what that old lady is planning, but she has really signed a contract with me. If she goes back on her word or wreaks havoc on the Dragon Subduing City during this period of time, she will be in trouble."

Only after Chen Xiang confirmed that the contract was valid did he open the city gate and let the large group of people in.

"The rules have been agreed." Chen Xiang was more concerned about this, because if it was a rule that was disadvantageous to their situation, it would make it harder for them.

As long as one side wins two consecutive rounds, they will be considered as the final victor. As for which pill is concocted, each side will take turns to call for the pill to be refined, and the first is for them to call for the pill to be refined, and then the second is for us to call for it, and the result will be decided by the quality, quantity, and timing of the pills we concoct. Li Baojun said.

Chen Xiang frowned and thought for a moment, then said: "What if they call us pill refining, we do not have the ingredients for them, this Fire Divine Palace is from the Heaven Realm, if we refine something like an immortal pill, we will lose for sure."

There are high restrictions, and you can't call them Immortality Pills. As for the ingredients, you can buy them from them if you lack them. They call them concocting pills, but they aren't lacking. Li Baojun said: "I've already asked all these."

"They're the first ones to call out." Chen Xiang still had some doubts, "Since there is a maximum restriction, then there should be no minimum restriction."

In terms of quality, quantity, and time, he definitely would win. If it was a high level pellet, then he was not so sure.

"Yes, the lowest restriction is that it is a low-grade Heaven level Pellet. If Leader is unable to refine low-grade Heaven level Pellets, I can handle all of them myself. There are no restrictions that prevent one person from concocting continuously." Li Baojun said.

Duan Chong asked, "If it's like this from the very beginning, then wouldn't we have to continue?"

Li Baojun nodded his head: "That's right, continue until one side wins twice in a row, and if things don't go well, then this will be a competition of endurance. If one refines many stoves, after the Heaven level Pills are more or less done, they will turn to the Ground level Pills, until there is a result."

"We have to win two matches from the start. We have to defeat them with overwhelming force. Let's see how they will continue to act so arrogantly in the future." Chen Xiang suddenly laughed.

"Leader, are you going to fight as well? How is your skill at concocting Heaven level Pills?"

Li Baojun was very curious about this, because according to common sense, for Chen Xiang to refine a Heaven level Pellet, he would need to grasp more than a hundred sets of Foreseeing Alchemy. That was not something that could be done with a single genius' brain, and it would take a very long time for him to accumulate every single bit of it.

Chen Xiang smiled mysteriously: "I'll just not drag you down, could it be that you don't trust my standards?"

Li Baojun and Duan Chong looked at each other, the expression on their faces were extremely weird. Although Duan Chong was not a pill refiner, he still understood a lot about refining pills, and at his age, it could be said to be impossible for him to concoct a low grade Heaven level pellet, because that kind of abnormal Foreseeing Alchemy required one to master more than 120 stages, which required a lot of time to accumulate.

How many years had Chen Xiang lived for now? To be able to reach that level was truly unbelievable, and there had never been someone who could use such a short amount of time to grasp multiple Foreseeing Alchemy.

"Prepare a place. Since they sent us the medicinal pills, we must have it." Chen Xiang smiled, and then changed his appearance.

The reason why Wang Qiongjin had brought such a large group of people to rebuild Pill City was to use this to destroy the might of the Dragon Subduing City. One could tell that they were extremely confident in their abilities, as if they could easily defeat the Dragon Subduing City

#### [Chapter 1220](#)

Although Chen Xiang had long known of Wang Qiongjin's existence, it was still his first time seeing her with his own eyes, and she was even older than the image Long Xueyi gave him. Furthermore, Su Meiyao and Bai Youyou didn't dare to release their soul consciousness to prevent Wang Qiongjin from finding out.

The location of the competition was in the open space in front of the Dragon Subduing Dan Hall. It was a place where low level Alchemist would usually sell low level pellets, and sometimes used to hold such competitions. There were many people standing around, and in order for the audience to see the competition, they were allowed to float in the air and watch.

The Alchemist sent out an old man. This time, they were the ones deciding what pill to concoct.

"What I want to refine is the Nine Death Flying Dan, do you have any medicinal ingredients?" The old man asked Li Baojun, who was the pavilion master of the Dragon Subduing Dan Hall and had an extremely high level of alchemy. He was already quite famous in Di Tian.

Just as Li Baojun was frowning, Chen Xiang said, "We do."

Chen Xiang had already gotten his Nine Deadly Flower, so he had a few of them out as well, but he did not plan to use Flying Dan s to help him ascend. He felt that if he did not use Nirvana Doom, it would be a loss to him, even faster than he had experienced before.

However, since Di Tian had been reborn, with the fusion of different realms, there had been a lot of high level pellets, which allowed the overall strength of the people here to increase by quite a bit, and the odds of winning when crossing Nirvana Doom had also increased by a lot. However, if there were Flying Dan s, there were still a lot of strong people who wanted them.

Chen Xiang took out two small black flowers and handed it over to Li Baojun, which immediately attracted the attention of the experts in the Fire Divine Palace. The people from the Fire Divine Palace had already guessed that it was very likely that he would be the one to participate in the second round.

"Elder Li, have you refined a Flying Dan before?" Chen Xiang secretly transmitted to Li Baojun, the Nine Death Soaring Flower was very rare, and Flying Dan rarely appeared, so Chen Xiang suddenly started to worry about Li Baojun.

"I've never refined one before, but you don't have to worry. I'm confident that I can do it better than the other party." Li Baojun received the Nine Death Soaring Flower, and there was even a Storage bag. Chen Xiang had given him the supplementary ingredients, and these supplementary ingredients were all top-notch, having been stored and nurtured by the creation divine liquid.

The Fire Divine Palace's old man's expression was calm, and from between his brows, he revealed a sense of confidence, as though he was certain that he would win. He took out a jade pill furnace.

"Formidable." Chen Xiang asked.

"Yes, back then I really wanted this pill furnace, but my master still couldn't find it after searching for a long time. It actually fell into the hands of the Fire Divine Palace. No wonder, this is a top-grade immortal equipment." Su Meiyao said.

"Then I'll think of a way to get it and give it to you." Chen Xiang laughed.

"No need, you just need to help me find my original pill furnace. Although my master didn't help me find this jade furnace, I did make a pretty good one myself. It's a pity that it was taken away from me that time." Su Meiyao sighed.

It was when Chen Xiang met this peerless beauty at the bottom of the cliff that the two of them were robbed clean.

"The Jade Immortal Furnace. I never thought that I would be able to see this pill furnace in my lifetime. I heard that this is the pill furnace of the Bi Xia Dan Immortal." Li Baojun was also someone who knew what was good for him, but he said that the most powerful pill furnace would be Chen Xiang's Yanlong furnace, that was what was good for him, just that Chen Xiang's current level was still insufficient to reveal the might of the Yanlong furnace.

"That's right, Bi Xia Dan Immortal is the head Dan Immortal of my Fire Divine Palace. She gave me this pill furnace." The old man said.

Everyone heard and exclaimed in their hearts, they had never heard of Bi Xia Dan Immortal before, but they knew that it was a guy from Dan Immortal who could refine immortal pills, and was even the head Dan Immortal. How powerful was he?

"Bi Xia Dan Immortal, this slut really did go to Fire Divine Palace. Consider her lucky, otherwise we would have stripped her clean." Su Meiyao scoffed.

Chen Xiang and Bai Youyou were done in by them, but their enemies should all be girls, he never thought that even Heaven Realm would have so many strong female warriors.

"Who is the guy that robbed you?" Chen Xiang asked.

"Don't ask." Su Meiyao avoided the question.

When the old man from the Fire Divine Palace saw that everyone was looking at his Heavenly Jade Treasure Furnace with burning gazes, he couldn't help but feel proud of himself.

In comparison, the pill furnace Li Baojun had taken out could not compare to his opponent, and from this point, the Dragon Subduing School had lost by one level. However, the pill refining competition was not about pill furnaces, but rather, people.

Wang Qiongjin sneered: "Li Baojun, you should be Li Tianjun's disciple."

"That's right." Although there were some rumors about him, they were never sure. They never thought that Li Baojun was really the disciple of the Dan King who dominated Mortal Realm back then.

Wang Qiongjin laughed contemptuously: "Do you know that your master was severely defeated by his master on top of the Heaven Realm, and lost everything when he competed with him? And this person you are sparring with right now, is the disciple of your master?"

Just a moment ago, everyone was still shocked that Li Baojun was Li Tianjun's disciple, but after hearing that Li Tianjun had lost miserably at Heaven Realm, they all started to sigh in their hearts.

Li Baojun was not affected by it much, he only said lightly, "This is a good thing for my master, he needs this kind of training, as long as he doesn't die, he can still concoct pills, so what if he loses? Won or lost, isn't it normal?"

As he spoke, Li Baojun had already processed a large pile of medicinal ingredients, and then closed his eyes, throwing the medicinal ingredients into the furnace. That Wang Qiongjin's words did not affect him in any way, which made Wang Qiongjin clench his teeth in his heart, and Li Baojun's extremely strong state of mind also made everyone secretly admire him.

Chen Xiang suddenly laughed: "Bi Xia Dan Immortal is the woman who once lost and ran naked in Heaven Realm, hehe, I remember that time when she fought with him, competing continuously with him, refining pills, taking off a piece of clothing every time he lost, and finally losing not a single piece of clothes, and walking around on the streets of a big city."

Hearing that, everyone started to imagine, but Chen Xiang's following words, made them feel as if they had eaten a fly.

"Everyone, don't think too much. Bi Xia Dan Immortal is already old. As for what he looks like, haha ..."  
Chen Xiang chuckled as he looked at Wang Qiongjin.
