

Dan God 1221

[Chapter 1221](#)

Hearing Chen Xiang's words, Wang Qiongjin's old face instantly turned green, and his old eyes stared straight at Chen Xiang, causing him to feel very uncomfortable, but everyone could feel that Wang Qiongjin was angry.

What Chen Xiang had just said was all suddenly told to him by Su Meiyao.

"Hmph, you know quite a bit." Wang Qiongjin snorted, he glared hatefully at the Alchemist, at the disciple of the Bi Xia Dan Immortal, at the elder, whose eyebrows twitched. Someone had revealed the ugly matter of his master, which made him extremely unhappy.

Seeing the obvious effects, Chen Xiang smiled. To dare attack Fire Divine Palace so brazenly, caused everyone to sweat for him, and they all knew that the old lady from Fire Divine Palace was extremely strong.

"sister Meiyao, it worked. Oh right, who did Bi Xia Dan Immortal lose to." Chen Xiang asked with a smile.

"Of course I lost to me, hehe." Su Meiyao laughed smugly: "But that woman was a beauty then, and after that one time, she grew old, and was probably shocked. Furthermore, she was the one who proposed the rules of the game, she originally wanted to take care of me, but she did not know that I would be so powerful.

Under normal circumstances, it would take a lot of time to refine a Heaven level Pill, but it was different now. Right now, it was a competition, and the rules stated that victory or defeat depended on time, thus both sides would do their best to speed up the process. They could not be slower than the other party, or else they would very likely lose in the future.

Li Baojun possessed a flame that even Chen Xiang was envious of, which meant that the Fire Soul in Li Baojun's body should be the Five Elements Fire Soul. Therefore, Chen Xiang was extremely confident in Li Baojun.

At that time, the other party would be shocked by Chen Xiang's words and would almost make a mistake in the beginning, causing the pill furnace to tremble slightly but it would stabilize in the end. It was only four hours later that the old man's forehead was covered in sweat.

"Could it be that my words just now were too harsh, hitting this fellow's heart directly? It has only been four hours, and he has already become like this. To think that he had even suggested refining a Nine-Deadly Flying Dan himself." Chen Xiang thought.

"Maybe this old man was thinking about how his master would run around the city naked when he lost." Long Xueyi laughed.

"Little Naughty Dragon, why do you keep thinking about these things?" Chen Xiang scolded.

"This old fellow's Fire Soul is not bad, but in the Fire Divine Palace's perspective, there should be a lot of high level Fire Souls. They can plunder a large amount of Fire Soul, so they might be able to fuse with it." Long Xueyi said: "It is actually a golden Fire Soul, but looking at the fire Qi that he is releasing, this Fire Soul is not natural, it has been further refined."

It was already dark, but many people were waiting for the results. Not only did they have to watch the battle between the disciples of the two Alchemy Masters, they also had to see the final result, especially the powers in Pill City. If they lost, they would have to start with a new plan to attack the Chen Martial Continent.

After the news of Fire Divine Palace and Dragon Subduing School fighting here spread out, many people began to come over one after another to watch the show. Even at night, there were still many people who came.

Chen Xiang suddenly sensed a very weak yet familiar Qi, he raised his head and looked at the pitch black night sky. At this time, there were many people floating, and they were all looking down from the sky.

"Qianqian, why are you here?" Chen Xiang anxiously transmitted to Wu Qianqian, the lady dressed in a simple white dress was Wu Qianqian.

"Chen Xiang, it's good that you're fine. We were all very worried about you because of the huge incident that happened in Sacred Fire School." When Wu Qianqian heard Chen Xiang's sound transmission, she immediately responded to it with Divine Sense that was left in her mind. That sweet voice was extremely excited.

"What can happen to me? I've always been fine, don't worry about me." Chen Xiang laughed: "Oh right, Qianqian, what level of pills can you concoct now?"

"High quality Ground level, I might need a very long time before I can break through, sigh ..." Wu Qianqian sighed. This was a ravine that every Alchemist would find difficult to cross in a short period of time.

"Heh heh." Chen Xiang only laughed, but in her heart, Wu Qianqian was very surprised, she felt that Chen Xiang had already stepped over the threshold.

"That's impossible." Wu Qianqian's voice was filled with incredulity as she exclaimed in surprise, "Just what method did you use?"

"I'll tell you in the future, I'll find a time to teach you, but the requirements for fire and consciousness are very high. If you can raise fire and consciousness, I feel that using my method will allow you to move much faster than the Foreseeing Alchemy. Chen Xiang said.

"Yes, I will pass through the eight Nirvana Tribulations a little faster. You must teach me when the time comes." Wu Qianqian was extremely happy. She had witnessed Chen Xiang's miracles many times, so she quickly accepted Chen Xiang's breakthrough.

At dawn, the two of them were still concocting pills, and most of the people watching the fight were quite strong, so even if they did not sleep for a few days and nights, they would still be able to recover their spirit easily. Therefore, after watching the competition for an entire day and night, they did not feel bored.

"This Flying Dan is probably from the lower Heaven level, and its main ingredient is the Nine Deathly Soaring Flower. It's just a small flower, but it needs to be tossed around for a long time." Chen Xiang said.

"Don't underestimate the Soaring Flower, since this little flower has the power to resist the heavens, it is obviously not easy to deal with. If the Flying Dan did not have a success rate of only 50%, it would not have been listed in the high grade Heaven level pills. The difficulty of refining the little flower is definitely not any less than refining a middle grade Heaven level medicinal ingredient." Su Meiyao said: "Moreover, the two of them can now be considered to be fast, back then when I was controlling the middle grade Heaven level pills, neither of them were as skilled as they are now."

Chen Xiang suddenly felt an itch on his hand, he really wanted to use his God purification to try and refine the Flying Dan. He felt that this would train him to use the divine power, but the flame aspect was still a hard injury, when he was refining the Hunyuan Dan, the fire power was already at its peak, but he still felt a sense of powerlessness.

The place for the competition was surrounded by tens of thousands of people, it was extremely noisy, but suddenly quietened down, because the two Alchemist's pill furnaces were shaking violently, as though they were about to enter the final stage.

"Is the result about to come out? It's only been a day and a night, and the Flying Dan is about to be released. As expected of the pinnacle duel, it would be great if we could see what's going on inside the furnace." A person exclaimed.

"If Chen Xiang was here, he would have definitely been able to broaden your horizons while he was refining pills. It's a pity that this genius was sealed up by the Fire Divine Palace." Another sighed.

"This Fire Divine Palace is really sinister, sealing his Leader and then running over to his territory to behave atrociously. If they lose to a group of leaderless forces, they would definitely be laughed at to death."

[Chapter 1222](#)

He was the current head Dan Immortal of the Fire Divine Palace s. This Alchemist was able to obtain a high grade pill furnace, which showed that his alchemy level was very high.

Li Baojun was the Alchemist that everyone knew, however, his master Li Tianjun had already lost to the Bi Xia Dan Immortal, so could he win against the disciple of the Bi Xia Dan Immortal to save face for master?

Now, both of them had simultaneously entered the later stages of the Core Formation stage, and their strength was evenly matched. Everyone was looking forward to the result even more.

The two pill furnaces shook and shook. Waves of hot air were released, forming a wave that rose high into the air, causing everyone watching to feel extremely hot and stuffy.

"It seems like both of them might form the core at the same time. If we want to win then it will depend on the quality and quantity." Su Meiyao said: "At most, this Flying Dan can only produce one pellet, it is very difficult to refine two, one Nine Death Soaring Flower is not enough to refine two pellets, but that is not absolute, maybe someone can refine two pellets, it is just that I have never heard of it before."

There were very few Nine Deaths Ascending Flower to begin with, which resulted in such pills being very rare. When many Alchemist were able to refine one, they would only be able to refine one batch at a

time when their skills far surpassed the level of the lower Heaven level. They simply did not have the opportunity to try refining more than one batch.

At this time, Li Baojun's expression was extremely calm, but the flames he released, and the fiery aura he emitted, made people feel as if he was roaring. His master lost to his opponent's master, and now he absolutely could not lose.

Chen Xiang could feel his determination right now.

Everyone looked at the two Alchemists attentively. It was extremely quiet, because the results would be out very soon.

After that, the two Alchemists both opened their eyes. It was actually completed at the same time, and this was not a coincidence, but rather the highest level that the high ranking Alchemists could issue out. When refining the Flying Dan, this was their fastest time, and it was also not a coincidence that the two Alchemists did not open their eyes at the same time.

"Hmph."

The Fire Divine Palace was a little dissatisfied with this result. Although there was still no difference between victory and defeat, the other party was actually able to compete with him in terms of time, which meant that the other party was at the same level as him. This made it difficult for him to accept, because he came from the Heaven Realm, and was actually unable to compete with Alchemist, who was born and raised in the lower realms.

"Your time is the same as mine, but that doesn't mean you can be on the same level as me." The Fire Divine Palace said with a sneer: "You are mistaken to think that you can compete with me in this competition, the quality of the ascension is very hard to control, and this is my strength."

The Alchemists of the Fire Divine Palace felt that the quality of the Flying Dan that Li Baojun had refined was inferior to his.

Li Baojun smiled slightly: "Of course I never thought that I would be able to tie with you. Perhaps you will lose."

"Open the pill furnace."

Wang Qiongjin was very curious about the results, but she had a lot of confidence in her Alchemist. She believed that Li Baojun would definitely lose this match, after all, his Alchemist had a very strong Fire Soul, and he had grown up in the Heaven Realm, so he had a lot of resources to use up on his training.

The first to open the pill furnace was at Fire Divine Palace's side, holding a light yellow pill in the Alchemist's hand high up, letting everyone see the Flying Dan.

"It's of high quality." Wang Qiongjin laughed.

"Of course, I haven't refined a low quality pill in a long time." Alchemist said proudly, because he saw that many experts were staring at the Flying Dan in his palm, their faces were filled with worship.

Just a single day and night later, he would be able to refine a Flying Dan of high quality. This level was indeed very high, because according to the rumors, some Alchemists would need a very long time to refine Flying Dan, and their quality would not be guaranteed either.

Li Baojun nodded his head: "It's true that it's of high quality, but this does not mean that you can win."

He opened the lid of the pill furnace and calmly took out the pills. The people in the air immediately cried out in alarm, because they could see the two yellow clouds emitting from the furnace with a single glance.

It was actually two pills. After everyone was shocked, they started to discuss among themselves.

When the people of Fire Divine Palace saw the two new Flying Dans in Li Baojun's hands, they were all stunned. Their expressions were filled with shock, disbelief and jealousy.

"You lost." Li Baojun said indifferently, after he finished speaking, he destroyed his own pill furnace, causing everyone to be shocked once again.

A pill furnace that could be destroyed with one palm, it was definitely not something good. Li Baojun had actually used such a low grade pill furnace to refine a whole batch of Flying Dan.

The pill furnace used by the Fire Divine Palace was a top-grade immortal furnace, but it couldn't compare to the other party's broken pill furnace. Previously, he was so arrogant, but now, he was beaten up so badly by the other party using a broken pill furnace.

Two high quality Flying Dan could easily defeat their opponent, and at the same time, they used the same amount of time. From this, Li Baojun's strength could be seen to be much stronger than his opponent.

"Bi Xia Dan Immortal's disciple is only this strong. I thought he was that strong." Chen Xiang sneered from the side. No one knew his identity, so he didn't have any misgivings. Even though that Wang Qiongjin was an Immortal King, he didn't see through him.

"You ..." The old man snorted, kept the pill furnace and walked behind Wang Qiongjin.

Although they had lost one match, Wang Qiongjin was still very calm. There was no loss at all, it was as if they would never lose.

Wang Qiongjin walked out and said to Li Baojun: "I see that you're the only one in your Dragon Subduing School that can compete with us. I wonder if you'll be able to continue fighting on."

"It's a pity that our Leader is sealed by you." Duan Chong shook his head and sighed. "Even so, it does not mean that only Elder Li is allowed to refine pills."

Fire Divine Palace had always avoided sealing Chen Xiang, since he had sealed someone else's Leader, so it would not be glorious for him to come to another person's territory and cause trouble.

"Next, I'll compete with you. Who are you going to send out?" Wang Qiongjin laughed sinisterly, and glanced at Chen Xiang and the others.

The one who was going to fight in Fire Divine Palace was this old lady, she didn't look like a Alchemist.

Chen Xiang was also very surprised. This Wang Qiongjin was a Devil Cultivator, there were many who knew how to refine pills.

At that time, she was very famous in the area of Heaven level Pills, even among the Heaven Realm. Her flame power was already good, and she had such a high position in the Fire Divine Palace, so it is possible that her alchemy level may have increased a lot. "Ling Chen:" ... " Su Meiyao said.

[Chapter 1223](#)

His opponent was actually Wang Qiongjin, this was a very strong Immortal King, many of the stronger people here could feel that this old lady was very strong.

When the group of demons that came with Wang Qiongjin heard that this Immortal King was also a Alchemist, they were extremely excited. It was because they felt that they were not mistaken and that they were extremely lacking in pills.

"Which one of you can do it?" Wang Qiongjin had always believed that Li Baojun was the only one who was supporting the competition in the Dragon Subduing School.

Li Baojun had gotten himself a match with great difficulty. If he lost in the next match, all of his efforts would be for naught. He would have to start from the beginning and win two matches consecutively before being able to win.

Li Baojun glanced at Chen Xiang and nodded at him.

Chen Xiang walked out and said, "Let me do it."

The person sent by the Dragon Subduing School to fight against Wang Qiongjin was actually a very young man, and also the person who had just spoken out loud about the Bi Xia Dan Immortal. Anyone who knew some of the secrets about the Heaven Realm must have come from the Heaven Realm, but this person was unknown, causing people to think that he and Wang Qiongjin were not on the same level.

"You." Wang Qiongjin sized Chen Xiang up from head to toe, his tone filled with disdain, because the aura Chen Xiang was emitting didn't even seem like it belonged to a deity.

The person sent out by the Dragon Subduing School to compete with her in refining pills was actually someone who had not even completed Nirvana stage. This made her extremely unhappy in her heart, she felt that he was at least at Li Baojun's level.

Chen Xiang laughed: "What, did I break the rules?"

"Of course not, is there no one in your Dragon Subduing School? To actually send you out to compete with me." Wang Qiongjin was an Immortal King, so she looked at others based on their strength, their opponents were not even immortals, so no matter what, she would not put them in her eyes.

"It's enough as long as I can defeat you. Of course, if the Leader is here, I will also be the one fighting, because in terms of pill refining, there is no need for the Leader to do anything."

The smile on Chen Xiang's face made Wang Qiongjin very angry. She really wanted to shout "I am the Immortal King", because she was unexpectedly looked down upon by others. She thought that the opponent did not know her exact strength, which made her feel very aggrieved.

Of the people here, the person who was most clear of Wang Qiongjin's strength was none other than Chen Xiang, who had purposely provoked her.

"I had thought that you all would send some sort of powerful guy, but it turns out that you're actually just an ignorant guy." Wang Qiongjin looked at Chen Xiang with disdain, and then said to Li Baojun. She felt that only Li Baojun fighting with her would make her heart feel better, because she felt that it was kind of an insult to this nobody in front of her.

Chen Xiang said: "Could it be that you don't want to compete with me?"

Wang Qiongjin said: "We will have to compete, it's just that I feel very uncomfortable inside, because sparring with a guy like you, is a form of humiliation for me."

Chen Xiang chuckled: "So that's how it is, but if you lose to me, then you can commit suicide."

Wang Qiongjin suddenly laughed out loud, because this was the funniest joke she had ever heard, "Brat, you aren't even a bug in my eyes. When I was dominating Heaven Realm, your ancestors were not even born yet, so my pill refining skills may not be considered top-notch in Heaven Realm, but many famous Dan Immortal would have to treat me with respect when they see me, and you actually want to win against me."

Hearing Wang Qiongjin's words, everyone was secretly shocked at the strength of this old woman.

As Wang Qiongjin laughed, a powerful aura was released, causing everyone to feel a small amount of pressure. They felt that if this old lady wanted to kill them, she would only need to raise her hand.

However, Chen Xiang was extremely calm, and his face still carried that faint smile: "Looks like I can't not win against you today, you better mentally prepare yourself, otherwise, if you lose to me, who is even inferior to an insect, you would be laughed at to death. You already don't have that appearance back then, why would you still have the Dan Immortal treat you with respect?"

Hearing Chen Xiang's words, Wang Qiongjin's face immediately darkened, she did not expect him to actually know about her.

"Who is your master?" Wang Qiongjin asked coldly.

"It scared you to death." Chen Xiang laughed.

Wang Qiongjin immediately sank into deep thought. Previously, she had treated everything that Chen Xiang had said as nonsense, but she had taken Chen Xiang's words seriously.

"Just refine the Hunyuan Dan. You don't have the ingredients for this pill, but if you don't, I can sell it to you." Chen Xiang said.

"Of course."

Wang Qiongjin did not think that the Pill Refining Elder above the Heaven Realm would have such a disciple. She thought that there was someone behind Chen Xiang, who knew about the things in the Heaven Realm, but he was definitely not some strong person.

Li Baojun was able to refine a Hunyuan Dan at such a young age, which was very unreasonable. Unless Chen Xiang had a very powerful Time Formation that could turn a year into a thousand year old Time Formation, but that was impossible, because that kind of array formation was an existence that was supernatural, and even if there was one, it would not be completed in a short period of time. Furthermore, it would require a large amount of energy to replenish.

The pill furnace that Wang Qiongjin used was pure white, it looked like it was carved out of white jade, the patterns on the outside were extremely beautiful, causing Chen Xiang to be unable to resist taking a closer look, it was clear that this pill furnace was also a good pill furnace.

"sister Meiyao, do you recognize this pill furnace?" Chen Xiang asked. In the Heaven Realm, some famous Alchemists used pill furnaces that were very famous.

"Snow Phoenix Furnace? Why is this pill furnace in her hands?" Su Meiyao said in shock when he saw the image that Long Xueyi sent over.

"Isn't that the pill furnace of the Snow Wind Old Man?" Bai Youyou was also surprised: "Could it be that the Snow Wind Old Man died? Otherwise, this pill furnace wouldn't have fallen into other people's hands."

"Who is the Snow Wind Old Man?" Chen Xiang knew who this man was from the moment he heard him.

"A Dan Immortal with only half a foot in the alchemist realm. Because when he refined pills, he would summon a blizzard so everyone in the Heaven Realm called him that. Later on, his information became less and less, and it was rumored that his lifespan was up." Su Meiyao said.

Chen Xiang looked carefully at the white pill furnace and confirmed that there was a phoenix carved on it. However, it was not that obvious as it was covered with patterns.

Looks like this Snow Phoenix Treasure Furnace isn't the same one from back then. As long as you enter the fire, you will be able to hear the cries of phoenixes, which is very magical, and there will even be a gust of cold wind coming from the furnace. When you condense the pill furnace, your surroundings will become very cold because of the pill furnace. Su Meiyao said again.

Wang Qiongjin processed the ingredients very quickly, and finished them in a few moments, and had already started concocting the pills, but Chen Xiang was still looking at her pill furnace. This kind of competition, time was also important, but Chen Xiang was actually looking at other people's pill furnace.

[Chapter 1224](#)

Wang Qiongjin knew that her pill furnace was very beautiful, which was also something she was very proud of. It was just that this was Di Tian, if it was in Heaven Realm, there would definitely be many people who would be shocked by her pill furnace.

"Are you planning to admit defeat? Do you know how powerful we are?"

The old man who lost just now shouted at Chen Xiang. When he saw Wang Qiongjin using this pill furnace, he felt that there were very few people in Fire Divine Palace who would be able to look down on him in terms of pill refinement.

Even Li Baojun was worried. He knew the importance of time, and if both parties had concocted the same amount of pills of the same quality, then it would depend on the time to determine the victor.

"This kind of pill furnace, even if you struggle for your entire life, you won't be able to obtain it. Don't even think about it." The old man sneered.

Compared to the pill furnace, Chen Xiang's Yanlong furnace was not bad, and was ranked among the best even in the Heaven Realm. He laughed and took out a pill furnace of average quality, which was slightly better than the one Li Baojun used before.

Once again, he used a normal pill furnace. Seeing this, everyone thought that Chen Xiang wanted to do the same as before and use this method to make the Fire Divine Palace lose in shame.

When the old man saw this pill furnace, he was not as pleased as he was earlier because he lost to someone who used this kind of broken pill furnace to concoct pills.

If Fire Divine Palace lost again, he would definitely be laughed to death.

Chen Xiang took out some supplementary medicine. Some of the Alchemists that saw Chen Xiang's supplementary medicine frowned, because Chen Xiang had a lot of supplementary medicine.

Because there were too many, it had a huge impact on the process of refining pills. It was the common sense of every Alchemist, but Chen Xiang had used more than half of the supplementary ingredients compared to normal.

"Qianqian, watch carefully. Let's see how I'll refine the Heaven level Pill and how I'll defeat this old woman." Chen Xiang whispered to Wu Qianqian.

Wu Qianqian had already guessed that it was Chen Xiang long ago, and she focused on him.

"There are so many supplementary herbs. Is this guy even a rookie?"

"If he dares to use so many supplementary ingredients on this pill furnace, it will definitely explode."

"He might have thought that with more supplementary ingredients, he would be able to concoct one more pill, but this is very wrong. It would only make the furnace explode faster."

Chen Xiang took out Hunyuan fruit and Hunyuan tree root, both looked to be of good quality. He started to process the herbs, but after he was done, he first threw the supplementary herbs into the pill furnace. The Hunyuan fruit and the Hunyuan tree root had not been processed, and were placed inside a jade box.

Using the Foreseeing Alchemy to refine a low-grade Heaven level pill was something that Chen Xiang could not do, nor did he want to learn, because that method was too complicated and required far too much time. His current God purification could allow him to reach his goal very quickly, but it was very difficult for ordinary people to grasp, because it required a very strong flame and divine sense as a foundation.

After Chen Xiang dealt with the Hunyuan fruit, he placed it on his palm and released a flame to burn.

Everyone was stunned when they saw this scene. He actually wanted to concoct pills in such a manner? This was something they had never mentioned before, nor had they ever heard of.

Although it looked very stupid, no one dared to mock Chen Xiang. The old man on the Fire Divine Palace's side also had a drastic change in expression, because the flames Chen Xiang was releasing right now were extremely powerful.

The most admirable thing was Chen Xiang's ability to control fire, which only made the crowd feel that the fire was very strong, but not even the slightest bit of hot air was released. It had to be known that the flames he was releasing right now didn't even have a pill furnace to shine on them, and didn't even emit the slightest bit of hot air.

Wang Qiongjin frowned, because that type of flame looked no different from normal flames, it didn't seem to be a person who owned a Fire Soul. Otherwise, the flame would have a color, but that type of flame was extremely powerful, close to the existence of Sky Fire. She had never heard of Chen Xiang using this kind of pill refining method before.

Chen Xiang burned the Hunyuan fruit for an hour, but there were no changes to it. This made the Dan King present extremely shocked, they knew Chen Xiang did not use the Foreseeing Alchemy, but using such a strong flame to burn the Hunyuan fruit did not cause any reaction, which made it hard for them to understand.

If it was inside the furnace, then the Hunyuan fruit could explode at any time. It required a very precise flame to slowly refine the Hunyuan fruit into powder.

But the flame that Chen Xiang was currently using was very strong, and it was gradually increasing in strength, as if the Hunyuan fruit was defending and Chen Xiang was attacking with fire.

Li Baojun's eyes did not blink as he looked at the Hunyuan fruit in Chen Xiang's hand. He had heard of this method of refining pills, but he had looked down on it at the time, thinking that it was just an illusion of a pill refining technique, it did not even exist. Furthermore, it was impossible for it to exist, because that was completely subversive of the traditional method of refining pills.

But right now, Chen Xiang was using this method to refine Heaven level Pills, he knew that this method had one benefit, which was that he could not use Foreseeing Alchemy.

The last few times Chen Xiang refined a Hunyuan fruit, he had not been able to succeed, and had been hit by the Hunyuan fruit until it exploded. With only a small amount left, this time he had to succeed, otherwise, he would not be able to defeat Wang Qiongjin in the strongest possible way.

As the God Power attacked the Hunyuan fruit's elixir spirit, the Heaven fire burned its defense continuously. The two forces were working together to break through the Hunyuan fruit's defense, to refine it into powder, and then put it into the furnace to refine, compress, and unleash all the potential power of the Hunyuan fruit.

After four hours had passed, the Hunyuan fruit in Chen Xiang's hand suddenly shone with a gold light. On the surface of the Hunyuan fruit, there were many golden spots.

The golden light persisted for a moment, and at the same time, Chen Xiang's forehead was drenched in sweat. After the golden light disappeared, many cracks appeared on the surface of the Hunyuan fruit, and following that, it started to collapse inwards bit by bit, eventually turning into a pile of golden powder.

Chen Xiang exhaled a long breath. Because he had succeeded, he had finally succeeded in refining this Hunyuan fruit. He was very happy, he placed the refined Hunyuan fruit into the Yanlong furnace, and then there was the Hunyuan tree root.

Dan King was capable of refining Heaven level Pills, and they had also refined this Hunyuan fruit before, it was even more difficult than the Flying Dan. The time it took was not short, it would at least take two days and two nights.

Seeing Chen Xiang using the method he had just used to refine the Hunyuan tree root, everyone guessed what he should do next. After refining the Hunyuan tree root, they would throw it into the furnace to complete the final batch of pills.

However, many Alchemists also saw that using this method would solve many problems.

[Chapter 1225](#)

At the scene, many Alchemists were discussing this new and powerful pill refining techniques of Chen Xiang's, because he could not use the Foreseeing Alchemy.

"How did he manage to use fire to refine the Hunyuan fruit?"

"When he uses flames, it's always very strong flames. Logically speaking, this method of burning Hunyuan fruit won't work. In the end, it would either explode or dissipate."

"Also, he also needs to control the supplementary ingredients in the furnace as well as the Medicine aura and the medicinal powder. The two would definitely clash inside the furnace."

"He needs a very strong mind to support him. The most important thing is the method he uses to refine the Hunyuan fruit outside. This is definitely not as simple as just using fire to burn it. We are only seeing it on the surface."

Of course it wasn't simple, this was a method Chen Xiang had developed from comprehending the Heavenly Alchemy, and the incantations he used to refine the medicinal ingredients came from the Heavenly Alchemy.

Only Wu Qianqian knew a little, because Chen Xiang had told her before that if she wanted to use this method, it required a very strong flame and consciousness. She felt that a strong flame was not a problem, because she had a way to level up her own Fire Soul, but in terms of consciousness, she needed to work hard to refine the Heaven level Pill, before she could fly up, and at that time, she would be able to get close to the Heaven Realm.

If she really lost to Chen Xiang, she would not have the face to meet anyone. Previously, she said that Chen Xiang had humiliated her in his competition, and said that Chen Xiang was not even an ant, so she could not lose.

Refining the Hunyuan tree root was very easy for Chen Xiang. When he was refining, the Yin and yang god blood in his body would produce a kind of strange feeling, which would allow him to have a kind of weak and wondrous connection with the medicine spirit of the Hunyuan tree root. When he was refining the Hunyuan tree root with fire, he would not encounter such a strong resistance, it could be said to be very easy to refine it.

In just two hours, the segment of black Hunyuan tree root in Chen Xiang's hands turned into a snow-white color and then shattered into a pile of slowly rotating white powder. The Medicine aura outside was also spinning, and it looked like a small vortex that was emitting white light.

Chen Xiang placed the refined Hunyuan tree root into the pill furnace. At this time, he had already entered the process of condensing the pill, and began to condense everything in the furnace.

It had only been six hours, yet he had already reached this stage, causing everyone to exclaim in shock. At this time, many Alchemists wanted to learn this pill refining technique, but they knew that this was definitely someone else's secret. It would not be easy to learn this technique, unless they joined the Dragon Subduing School.

Originally, they had wanted to defeat Dragon Subduing School ruthlessly and win a large amount of pellets, but now, they did not expect that they had already lost half.

But even if the furnace were to explode now, he could still learn from the newly concocted pills. There were no restrictions in terms of quality, number of pills produced, or time limit, so long as he could surpass the other party in terms of quality, quantity, and time, he would still be able to win.

The time needed to condense the core wasn't very long, but this was with the use of the Foreseeing Alchemy, so the God purification that Chen Xiang was currently using would take some time.

Wang Qiongjin had always been worried that Chen Xiang would concoct pills faster than her, but now that she saw that Chen Xiang had not succeeded in concocting pills in the past four hours, she felt a lot more relaxed. She thought that even if Chen Xiang was faster in terms of quality and quantity, he would probably not be able to defeat her.

Everyone was curious about what exactly was happening inside the furnace. Under normal circumstances, when refining a Heaven level Pill Refining Pill, the furnace would slightly shake, releasing the power inside the furnace.

Especially the pill furnace that Chen Xiang was using now, if it was not shaken, it could expose itself at any time, meaning that the energy inside could not be released at all.

But if the furnace was going to explode, Chen Xiang had persisted for so long.

Li Baojun and Wu Qianqian immediately thought of something. They were very familiar with Chen Xiang's pill refining results.

But now, Chen Xiang's furnace did not shake nor release any of the energy within, which meant that Chen Xiang was compressing all the energy that he needed to release together.

Furthermore, it would transform into a berserk energy that raged inside the pill furnace, especially when refining pills. Under normal circumstances, the Alchemist would only use this energy little by little by shaking the pill furnace to ensure the success of the condensing of the pill.

Chen Xiang did not do this because he wanted to give more pills.

Now that he had the time, he wanted to win even more thoroughly, so he used this time to refine an even more perfect set of Hunyuan Dan.

Time flew by, in a blink of an eye it was already dark, and Chen Xiang was still the same as before, there were no movements from the pill furnace, but it was still working inside, everyone suddenly had their doubts about Chen Xiang's new pill refining skills, they previously thought it was extremely fast, but now it seemed like he did not have any advantages, to think that he had taken so long to condense the pill.

Seeing that Chen Xiang did not condense the pellet very quickly, the people of Wang Qiongjin and the Fire Divine Palace immediately felt that victory was in their hands, because the people who came with Wang Qiongjin were all the trusted aides that Wang Qiongjin had brought with him from the Heaven Realm. They all knew her refining level, especially the Heaven level Pellet.

The sky was about to brighten but Chen Xiang still had his eyes closed. He sat cross-legged on the ground expressionlessly and poured flames into the pill furnace.

Just then, Wang Qiongjin's pill furnace suddenly started shaking, causing everyone's eyes to light up. They had been waiting for Chen Xiang for a long time, but he did not move at all, and now, Wang Qiongjin had caught up to them. Although he was a little late at the Core Formation stage, but in the end, the condensing of the pill was still faster than Chen Xiang.

Wang Qiongjin started to despise Chen Xiang because she felt that Chen Xiang's pill refining skills were only mediocre. In the end, he still needed the same amount of time, but that was all.

The sky was completely bright, and the warm morning sun was shining on the competition grounds. Everyone was also worried, because Wang Qiongjin's pill furnace was shaking more and more, and because he had released too much energy at the very last moment, it required him to release it. In other words, Wang Qiongjin was about to succeed.

Wang Qiongjin's snow-white pill furnace shook violently for a while before suddenly stopping. Wang Qiongjin opened his eyes, his face was filled with joy, but Chen Xiang was not done yet, as he still had his eyes closed.

"I thought you were just that powerful." Wang Qiongjin opened his pill furnace and took out two shining, golden Hunyuan Dan s.

Seeing these two high quality Hunyuan Dan s, everyone let out a series of exclamations. The Hunyuan Dan s that could only produce one pellet, Wang Qiongjin used one day and one night to refine two of them.

"Fire Divine Palace lost."

"No matter how powerful he is, he will at most have two pellets. However, his time is slower than his opponent's."

"At the beginning, I thought he was very powerful, but I didn't expect that he was just putting on an act. That's all."

Everyone turned to look at the Fire Divine Palace, wishing for nothing more than to throw themselves into him, because there stood a very outstanding and powerful Alchemist.

[Chapter 1226](#)

Chen Xiang was not even finished refining yet, and there were already people who told him to give up, because from their perspectives, Chen Xiang had no chance of winning.

Wang Qiongjin looked at Chen Xiang with a pair of dark and cold eyes. The method Chen Xiang used to refine the medicinal ingredients was still very powerful, even someone like Wang Qiongjin wouldn't be able to understand what was going on. If it was her, she wouldn't be able to refine the medicinal ingredients into her palm like Chen Xiang previously.

However, Chen Xiang had used a very short amount of time to refine those two main medicinal ingredients, and on this point, Wang Qiongjin could not help but admire Chen Xiang.

Two hours after Wang Qiongjin finished refining, Chen Xiang finally opened his eyes. Seeing his calm expression, his eyes shone with a confident light, and many people shook their heads.

"You won't have a chance to win anymore. Even if you push yourself to death, you can only refine two high quality Hunyuan Dan, but they are faster than you. You are bound to lose."

"Unless you can refine three Hunyuan Dan s, but that's simply impossible. The two main ingredients for Hunyuan Dan s are just like that, and it's difficult for them to condense three Hunyuan Dan s. Even the supreme Pill Saints would not be able to do that."

Just admit defeat. It's not like your Dragon Subduing School has completely lost. You guys have won one, you've lost one.

The old man from the Fire Divine Palace was secretly happy, because he still had a chance to defeat Li Baojun. Right now, he believed that the Fire Divine Palace had already lost, so they still had to continue competing until one of them could win two rounds in a row.

Chen Xiang let out a light breath and said lightly: "There's no need to compete anymore, you have already lost."

He opened the lid of the pill furnace and four rays of golden light shot out from it. They shot straight into the sky, accompanied by a strong medicinal fragrance.

Looking at the four pill lights, everyone was in shock, especially the old Alchemist.

"It's Pill Light" "I never thought that the legendary Pill Light actually exists."

"Four Hunyuan Dan. That's impossible. I must have seen wrongly."

The appearance of this pill indicates that the quality of this pill has reached its peak. It's the Peak quality of the Heaven level Pill, it can be said that this pill has transcended mortality and nurtured a Holy Light.

Inside the poor quality pill furnace, there were four floating pills wrapped in a hazy golden light. When they saw that it was indeed four Hunyuan Dan s, everyone was flabbergasted. The shock in their hearts was indescribable.

A Hunyuan Dan being able to refine two of them was already considered to be an incredible feat, if it was only for three, although it was possible, but everyone believed that only a Pill Saint would be able to do it, but the person in front of them was actually able to refine four, and they were even able to emit a Pill Light.

Chen Xiang's refining skills had completely overturned every single Alchemist's understanding towards the dao of pills, and went against all the rules of the dao of pills.

Wang Qiongjin also opened her mouth slightly in shock, disbelief written all over her face. Forget about four pills, just that pill light alone was enough to completely defeat her. Even if the other party could refine two, just their quality alone would be enough to defeat her.

He did not use the Foreseeing Alchemy, but he did concoct a shocking batch of pills, four of them were Hunyuan Dan, and the appearance of these pills made people think that he was the successor of the Pill Saint.

"You've lost." Li Baojun was startled for a good long while before he said slowly.

"Here you go." Wang Qiongjin threw a Storage bag to Li Baojun, which contained a large amount of pills.

They had all been completely defeated by the opponent with a large gap between them. They had originally wanted to find fault with him, but in the end, they had actually lost and ran off with their tails between their legs.

In order to concoct this pill, Chen Xiang had used up a lot of energy. He only bid goodbye to Li Baojun and hurried back to his room to rest.

"Little Scoundrel, you're really amazing. Just how did you do it?" Even Su Meiyao didn't know how Chen Xiang managed to achieve such a feat. With his level, he would undoubtedly be able to contend against those Pill Saint Dan Immortal s. If he were to compete against those fellows in refining Hunyuan Dan, even if Chen Xiang didn't win, he definitely wouldn't lose.

Su Meiyao had muddled his way through the alchemy world above the Heaven Realm, and he knew that Chen Xiang's current level had already surpassed many of the other Dan Immortal s. It was just that the alchemy grade he could refine now was still low, but he would definitely be able to grow it in the future.

Chen Xiang laughed: "The limit of the Hunyuan Dan's medicine is three and a half pills, but when I put in the supplementary medicine previously, I put in a lot more, and at that time, there were even a bunch of idiots who laughed at me. It was all thanks to these supplementary medicine that I was able to get the fourth Hunyuan Dan, and as for that pill light, I am not sure how it appeared."

Su Meiyao said: "As long as it is a Heaven level Pill and above, the quality surpasses superior. Once the Peak quality is reached, a pill will shine."

"sister Meiyao, I will definitely teach you from now on." Chen Xiang laughed.

Chen Xiang and Li Baojun were both here. The two of them were discussing about things related to alchemy, and when they saw that Chen Xiang was out in high spirits, they all stood up.

Chen Xiang laughed: "I may have to leave for a period of time, but before that, I will simply explain the principles behind my God purification."

Wu Qianqian and Li Baojun nodded, and didn't ask anything further.

Chen Xiang explained the God purification technique in detail, and then explained the key points.

After hearing everything, Wu Qianqian and Li Baojun looked at Chen Xiang strangely, because Chen Xiang's method of refining pills was simply too abnormal. To think that they would want to directly deal with the medicinal spirit within the medicinal ingredients, and also Chen Xiang's consciousness, which would definitely be extremely strong. This was because they were unable to fulfil the requirements Chen Xiang had set, and their consciousness was not strong enough.

"It seems that only by raising my consciousness can I use this kind of God purification." Li Baojun was a little disappointed, but he also felt that it was very normal.

Wu Qianqian already knew that the requirements for the Soul consciousness was very high, so she was mentally prepared. In the future, the first thing she would do when she cultivated her Soul consciousness was to allow her to improve her Soul consciousness while also mastering this mystical pill refining technique.

Chen Xiang said: "In the next period of time, the Fire Divine Palace will not attack the Chen Martial Continent too quickly. They just lost so many pills, so they will need some time to recover.

Wu Qianqian was the first to leave, she had matters to take care of in Dan Fragrance Pure Land, Li Baojun had just brought a large batch of pills and had to split them, so she was busy.

That batch of pellets were all below the top quality of Ground level. There were no Heaven level medicinal ingredients, but the quantity was extremely large. If they could win over the pellets, then Dragon Subduing School would be able to cultivate even more outstanding disciples.

[Chapter 1227](#)

Chen Xiang left the Dragon Subduing City and came to a very remote place. He dug out a huge stone room at the bottom of the ground and then took out the Heaven-suppressed immortal monument.

After obtaining the Heaven-suppressed immortal monument, he had yet to carefully study it. The Heaven-suppressed immortal monument was very powerful, and was even a powerful weapon that could restrain magical equipment formations. The super strong array discs of the Purple profound Holy Mountain and the Blazing Mountain were already destroyed by the Heaven-suppressed immortal monument.

"There must be something powerful inside this Heaven-suppressed immortal monument. As long as it absorbs a large amount of energy, it can release a very strong icy cold power that can freeze everything." Chen Xiang said.

"That's for sure. Back then, this Heaven-suppressed immortal monument wanted to use it to suppress the ice sky and make it more stable, allowing it to release its icy cold power all year round. I just didn't expect it to land outside the nine heavens, Di Tian." Bai Youyou said.

Chen Xiang took out the Ice dragon sword sheath. This sword sheath was the key to opening the treasure chest, and he still had two treasure chests that he had to open, but it was difficult to replenish the energy inside the Ice dragon sword sheath, so he wanted to use this Heaven-suppressed immortal monument to try.

He obtained three treasure chests from the Chaotic Mountain and opened one of them. There was a handful of Hammer of God and the remaining two must also have good items, so he had always been thinking about it. He had initially planned to use the energy extracted from the profoundbing to fill it up, but it was not going to work.

Chen Xiang placed his hand on top of the Heaven-suppressed immortal monument and started to pour his power into it. The top of the Heaven-suppressed immortal monument indeed released a very strong power of frost, causing the stone walls of the cave that was deep down to become covered in frost.

After the extremely cold energy was released from the top of the Heaven-suppressed immortal monument, he immediately used Devouring magic kungfu to absorb it. Then, he placed the icy cold power into the Ice dragon sword's sheath.

"There's movement." Chen Xiang was immediately overjoyed. The Ice dragon sword sheath in his hand emitted a weak glow and was surrounded by a faint white cold mist. He did not expect it to succeed, and it was replenishing it very quickly as well.

The recovery speed was very fast, but Chen Xiang's exhaustion was also very fast, and in just a short while, he had lost seventy to eighty percent of his Innate Qi.

Luckily he had a large number of pills to replenish his Innate Qi, and after consuming those pills, he was able to recover after meditating for a while, and then continue to replenish the Ice dragon sword sheath.

"Judging from this speed, I should be able to open those two Treasure Chests very soon. What exactly is inside? It shouldn't be that much inferior to that Hammer of God, right?" Chen Xiang thought excitedly in his heart. The Hammer of God was already a powerful being in his eyes, he felt that the treasures in the two treasure chests shouldn't be more powerful than the Hammer of God.

After three days, the mysterious cold energy within the Ice dragon sword's sheath had already recovered to its fullest. He immediately took out a treasure chest and excitedly inserted the Ice dragon sword sheath into the keyhole, then carefully rotated the Ice dragon sword sheath. At the same time, he could feel the energy inside the Ice dragon sword's sheath draining away at a rapid pace.

After a crackling sound, all the energy in the Ice dragon sword's sheath was gone, and the treasure chest was already opened. Chen Xiang opened the lid with all his might, only to see a piece of yellow paper inside.

It was actually a piece of paper, but Chen Xiang was not disappointed. If there was some powerful mystical technique recorded inside, then this piece of paper was extremely precious.

This piece of paper was very big, with a round table. Chen Xiang looked at the thing on this piece of paper carefully, it was a map, and he did not recognize any of the names on it.

"What is this place?" Chen Xiang stroked his chin, and looked at the names.

This treasure chest had existed many years ago, so this map must be very old. The names of those places might have already been changed, and the topography on the map would have greatly changed. It wasn't easy to find a place that matched this map.

"It shouldn't be just a crappy map, right?" Long Xueyi said in disappointment. She had been looking forward to it for so long, but it was actually just a lousy map.

When Chen Xiang turned the page, he only saw a pattern on the back. The pattern was circular and was as big as a washbasin, but the patterns on the back looked like they were made by chicken claws, he had no idea what the pattern had meaning, and it was not the Spirit grain s either.

"Eh, this pattern looks familiar. Let me think." Su Meiyao suddenly said.

After Chen Xiang waited for a while, she was shocked by Su Meiyao's sudden scream, and shouted in shock: "I remember what kind of background this pattern has, it's a symbol unique to Dan Emperor!"

"What? Who is this Dan Emperor?" Seeing Su Meiyao being so shocked, Chen Xiang felt that the Dan Emperor must have some background.

"I don't know, I only know that he is a very powerful pill refiner, an existence that surpasses the Pill Saint, hence he is called Dan Emperor, but that was just a legend, back then my master told me about this Dan Emperor before, and this pattern was something that only he could draw. The one that I saw was very small, and this one was very big, so I couldn't think of it for a moment." Su Meiyao said.

Chen Xiang looked at the Glyph Devils and pondered, "Could it be that this Dan Emperor is also one of the Nine Emperor Kings? I wonder how strong this guy is, and this map might be related to him.

Although the Fire Divine Palace would not attack the Chen Martial Continent for a short period of time, Chen Xiang was worried that he would not be able to find the treasure based on the map.

"Let's open the remaining treasure chest first. Hopefully, it isn't some bullshit item. Back then, the ice dragon said that the items in these treasure chests weren't very good." Long Xueyi said.

Chen Xiang kept the map. If he wanted to go, he would need to find those places, and it would take him a long time to find them.

He continued to use the Heaven-suppressed immortal monuments to restore the Ice dragon sword sheaths to their original state.

He was finally able to open the last treasure chest. Because the last treasure chest was not very good, Chen Xiang was not as excited as last time, but even if the remaining treasure chest could not produce a good item, he would not be too disappointed, because he had already obtained a Hammer of God, and would be very satisfied.

"The last one, let's see what's inside." Chen Xiang rotated the sword sheath, releasing all the energy from the sword sheath. This time, he was surprised, the lid of the treasure chest suddenly popped open,

only to see a burst of red light coming out, followed by a blood red dagger floating out of the treasure chest.

Opening the treasure chest actually took out such a lethal weapon, the demonic Qi alone made Chen Xiang feel extremely uncomfortable, the dagger released a glaring evil blood light, which flew over, Chen Xiang had no time to dodge, the dagger stabbed at his chest, but his profoundwu diamond armour appeared at the first moment, and blocked the life stealing attack.

[Chapter 1228](#)

Although it looked no different from an ordinary dagger, the scene just now had shocked Chen Xiang. If not for the fact that profoundwu diamond armour had appeared quickly, he felt that after the dagger had pierced into his body, it would have released a strong demonic energy that wreaked havoc in his body, destroying his dantian and destroying his Divine Sense Sea. This demonic energy was simply too terrifying.

"That was close. That strike just now, even a Immortal Monarch would have died." Chen Xiang said with fear still lingering in his heart, after that he picked up the dagger, other than it being slightly heavier, it looked really no different from an ordinary dagger, only that its shape was somewhat old and rough.

"This thing must have been used by a powerful warrior from the Devil Cultivator, it has been refined using his own demonic energy for many years, even a Divine Craftsman would not be able to create it in a short period of time, so which powerful Devil Cultivator is it?" After Bai Youyou finished speaking, she began to think deeply, recalling some of the ancient secrets she had told him.

"This treasure chest was left behind when Di Tian was finished. It should be the experts of that period of time. We will definitely not know how many experts there were during that period of time, maybe Duan Chong or the White Tiger will know about it." Su Meiyao said.

"Among the ten kings of the Nine Heavens, could there be a Demon Emperor? Perhaps that dagger was left behind by the Demon Emperor?" Long Xueyi guessed: "I think only Devil Cultivator of that level can make a normal dagger this powerful."

Chen Xiang held the dagger and poured it into the Innate Qi, only to see it once again emit a red glow, but it was extremely weak. However, when the red glow appeared on the dagger, Chen Xiang felt that the dagger was extremely powerful, he swiped at the stone wall lightly, and an invisible Qi flew out, which actually left a deep scratch.

"Amazing, he might really be a Demon Emperor. I wonder if the Demon Emperor is among the Nine Emperor Ten Kings." Bai Youyou was the Devil Cultivator, so she was very curious about the Demon Emperor and felt that there should be one.

Chen Xiang said: "Go and ask the White Tiger, I have some things to do with him, this dagger is a good item, in the future when I meet the Devil Cultivator, I will use this to scare them."

Chen Xiang was very satisfied with the last treasure chest. In order to obtain the map and the dagger, he had no choice but to find the White Tiger.

The place where the White Tiger profound Realm was located was at the edge of the Chen Martial Continent. However, ordinary people would not be able to enter even if they knew that there was a profound Realm there.

Chen Xiang had a White Tiger Divine Weapon, so when he came here, as long as he sensed the profound Realm and released his power, he would be able to open a door.

As Chen Xiang entered, he appeared in a sea of flowers. Standing on top of a small hill, he greedily breathed in the fragrant air that was accompanied by the flower fragrance, and looked at the large expanse of flowers in the distance.

After passing through the beautiful green plains, he entered a forest. Tall and straight trees lined up neatly in an orderly manner. All kinds of bird calls made this forest bustling with activity, bringing endless life.

Someone had entered. It didn't take long for the patriarch of the White Tiger Fighting Race, Bai Zhan, to arrive. He knew that Chen Xiang was here, so he wasn't too nervous.

"I really want to stay here for a while." After Chen Xiang saw Bai Zhan, he sighed.

"Anytime." Bai Zhan treated Chen Xiang as if he were of the same generation, because he knew that Chen Xiang had obtained the White Tiger Divine Weapon and the members of the White Tiger Fighting Race knew very well that it would only be obtained by defeating the White Tiger.

The White Tiger had already changed its residence. It was no longer on the large tree from before, but inside a simple and unadorned small courtyard. He was not surprised that Chen Xiang had arrived.

The White Tiger wore a white robe. Although he had extremely strong strength, he did not make anyone feel any pressure. On his face was an amiable smile. At that moment, he was sitting next to a pond and he was actually fishing.

"A big white cat that likes to eat fish, that's how boring it is." Long Xueyi snorted.

Chen Xiang came to the White Tiger's side and also sat down by the pond. He was already very familiar with the White Tiger and was like friends with it, so he did not need to be courteous.

"You actually didn't come to save me. You are my Dragon Subduing School's Great Elder." Chen Xiang joked.

You are a dignified Leader, you don't even need me, the Great Clan Elder, to help you. Look, aren't you out now, and this is pretty good as well.

If the White Tiger went to save Chen Xiang, the Fire Divine Palace might just disappear right away. After the sound of the wind blowing, they could come out and cause some more trouble.

Chen Xiang recalled how, in order to escape, he couldn't help but let out a long sigh: "At that time, I almost couldn't get out, it was really difficult for me to break free from that seal."

The White Tiger changed its hand to the fishing rod and said with a smile, "But you're still not out yet."

Chen Xiang laid down and looked at the dark blue sky within the White Tiger profound Realm. He especially yearned for the tranquility here, but he knew that he was not fit to live such a peaceful life.

"Did you take revenge on the Fire Divine Palace?" The White Tiger looked at Chen Xiang and asked.

"Of course they did, they destroyed one of their Immortal Kings, what made them most distressed was the fact that the Ice Emperor was completely destroyed by me, but they didn't know that I did it, they still thought that I was sealed." Chen Xiang laughed proudly.

"Ice Emperor, this guy is still alive." The White Tiger frowned and pulled up the fishing rod, then threw the fishing hook out. He also felt very surprised when he heard about the matter with the Ice Emperor, and he had even been completely killed by Chen Xiang.

"Fire Divine Palace wants to revive the Ice Emperor, but it just so happens that I know their plan. After I came out of that damned seal, the first thing I did was to send that Ice Emperor on his way."

Fire Divine Palace is currently half dead, if I were to revive the Ice Emperor, it would definitely be able to provide them with a lot of power. Back then, Qi Shi had a great battle with them, but they were not killed completely, and at their level, it would be difficult for them to die entirely. I never thought that you would actually kill them, how did you do that?

"If I say it out loud, you won't despise me, right?" This was a big secret of Chen Xiang's, but he could confess it to the White Tiger as it would allow him to obtain more of the secrets of the past from the White Tiger.

The White Tiger thought for a bit. It knew that Chen Xiang had many wicked tricks, but no matter how it thought about it, it just could not understand how Chen Xiang had completely killed the Ice Emperor. Even the Ten Heavens Supreme Lord would not be able to do that, otherwise the Ice Emperor and the Fire Emperor would not be able to live past this era.

[Chapter 1229](#)

The White Tiger thought for a while, and still felt that it was better not to know, he had already seen some things from Chen Xiang's eyes.

"You didn't come to me just to show off how you killed Ice Emperor, right?" The White Tiger did not continue asking Chen Xiang how he killed Ice Emperor.

Chen Xiang looked at the pond, grabbed a handful of grass and threw it in. Looking at the rippling water, he asked: "What fish is in the pond you're in, you're so bored."

"There must be fish." The White Tiger laughed, "If you have something to say, just say it directly. Don't beat around the bush."

Chen Xiang scratched his head and said: "Right now, there are two powerful Immortal Kings in Fire Divine Palace. If they want to attack Chen Martial Continent, it would be very difficult for me to stop them."

This was one of the reasons why Chen Xiang was looking for the White Tiger.

"If it was before, I'm afraid I would have made my move. Now you don't have to worry."

After Chen Xiang heard this, he became even more suspicious. Previously, he felt that the Immortal Kings were worrying about something, so he did not dare to personally attack the Chen Martial Continent, otherwise, it would only take a day or two and it would not cause the Fire Divine Palace to lose so many people.

The white tiger said, "In this New Imperial Heaven World, there is a new law, which is a very mysterious power. This law will change with the growth of the New Imperial Heaven World, and this law power is born to allow the reborn Di Tian to grow in a more equitable environment. At the same time, it will also prevent the newly born Di Tian from being destroyed by a powerful force."

"In other words, the power of law would deal with those immortal kings. If those immortal kings were to make a move, would they be annihilated by this power of law?" Chen Xiang was secretly rejoicing in his heart. The power of the Ancient Code was extremely mysterious, it was a powerful force that could maintain the flow of the world.

The White Tiger shook its head and said, "It's not destroying the Immortal King, but destroying the world. If the Law Energy senses that this newborn and fragile Di Tian is threatened by a powerful force, that power will destroy all living beings in this world and give birth to new ones. This way, the world won't split apart again."

When Chen Xiang heard this, he sucked in a breath of cold air. He was no longer worried about the threat of the Immortal Kings to the Chen Martial Continent, but rather the threat of the entire Di Tian.

If this came out from someone else's mouth, Chen Xiang would think that these words were mysterious, but since it was said by the White Tiger, he had no choice but to believe it.

Seeing Chen Xiang's expression, the White Tiger laughed and said, "You don't have to worry about them taking action to kill all of you. I won't let them destroy this world, which is also why I am in this world."

Of the Four Divine Beasts, only the White Tiger was still here. Chen Xiang only thought that he was reincarnated because he had been killed by someone stronger than him.

"You are here to protect the New Imperial Heaven World." Chen Xiang asked.

If I could protect him, then he wouldn't have broken down. I am just an unlucky person who was forced to stay here by all sorts of means, I am only responsible for allowing the New Imperial Heaven World to grow. Once the New Imperial Heaven World is fully matured, it will not be something that I can control, and at that time, the power of the Ancient Code will not be restricted anymore. The White Tiger smiled bitterly.

With regards to the matters of the New Imperial Heaven World, that was still far in the future. Knowing that the Immortal Kings would not interfere, Chen Xiang felt more at ease.

"Grand Elder, how much do you know about the matter of the Nine Emperor Kings back then?" Chen Xiang asked.

"The Ten Kings of the Nine Emperors, is this something that was passed down?" "I have never heard of the Ten Kings of the Nine Emperors before, but I know that the Nine Emperors are fellows who rule over nine realms. The Five Emperors are five experts who are very strong, unworthy of the title of Emperor, and are respected by many. Their strengths are all around the same level."

The story of the Nine Emperor Ten Kings was something that Chen Xiang had heard from Duan Chong, but when it came to the White Tiger, there was a huge difference.

The White Tiger continued, "Perhaps some of the records that were passed down are too ancient and are mistaken for the Nine Emperor Ten Kings. Although it's said that they're from the Ninth Heaven, how can the Emperor be compared to them?"

Chen Xiang nodded and asked, "Then are the Dan Emperor and the Demon Emperor among the Nine Emperors?"

"Logically speaking, it should be hard for you to know about this. After so many years, even some of the old bastards in Heaven Realm wouldn't know about this. How did you know?" The White Tiger was very curious about this.

"Why is it that these things have to be sealed off? Even if it were to be passed down, it wouldn't be that big of a deal." From the White Tiger's reaction, it could be seen that the Dan Emperor and the Demon Emperor existed.

"Because..." The White Tiger sighed and did not say it out loud, causing Chen Xiang to secretly curse a few times in his heart.

"Why are you asking about the Demon Emperor and the Dan Emperor? Did you have news about them? Among the Nine Emperors back then, only the Ice Emperor was able to determine whether they were dead or alive." The White Tiger laughed.

Chen Xiang took out the map and the dagger.

After the White Tiger saw the dagger, it hurriedly put down the fishing rod. Moreover, its murderous aura was also released, as if it was attracted by the mysterious dagger.

"It really is the Demon Emperor's item." The White Tiger took a deep breath and suddenly recalled the past. It couldn't help but sigh.

"It looks like the Demon Emperor has been using this dagger for many years in order to cause this to happen. But a character like the Demon Emperor often uses this dagger ..." It doesn't quite make sense. " Chen Xiang said.

"Hehe, the Demon Emperor is a very insidious guy, he was also known as the Great Emperor of Assassination. He was originally a very ordinary mortal, but due to a stroke of luck, he became an assassin, and then grew up step by step. He cultivated the demonic way, and became a strong warrior in the Devil Cultivator.

The White Tiger picked up the dagger, played with it for a bit, and then returned it back to Chen Xiang.

The white tiger took up the map that seemed very old, and continued to say, "Logically speaking, this dagger should have belonged to the Demon Emperor. It should have been nurtured by his demonic energy for many years, so it wouldn't be wrong to say that it is a Divine Soldier. But, why would it flow out? Could it be that he died?"

This was what Chen Xiang had taken out from the treasure chests, and the treasure chests were left behind by the ancestors of the ancient powers that were hidden in the Chaotic Mountain for their descendants.

[Chapter 1230](#)

"How did you get it?" The White Tiger asked.

"It's a long story..." Chen Xiang was a little embarrassed to tell the White Tiger about the Chaotic Mountain, because he did not explain everything to them.

It was also at that time that they attracted the attention of Long Yanjing, and even killed a small Holy Dragon. Now that he thought about it, that Prince Imperial Dragon was really done in by Chen Xiang, and it was even framed on someone else's body.

Thinking back to this matter, Chen Xiang had disappeared during that time and appeared again later.

"You brat, you are truly too reckless. However, I still do not understand some things. Back then, there was someone who personally saw that Super Yuan Sect Leader killing someone." From Chen Xiang's expression, he could tell that the Prince Imperial Dragon was done in by him, although Chen Xiang did not go into detail.

"The person who I saw with my own eyes was my insider." Chen Xiang chuckled, and then explained in detail what happened in the Chaotic Mountain's Treasure Chest.

Chen Xiang took out the Hammer of God. He knew that the White Tiger had definitely seen this thing before. As expected, after he took it out, the White Tiger immediately became excited.

"I didn't think that this thing would fall into your hands. You should be using this thing to hit people all day long. I wonder if the old man would be angered to the point of spitting out blood if he found out." Based on Chen Xiang's personality, he could guess that Chen Xiang had used the hammer to kill many people.

"Quick, take a look at this map. This should be something from the Dan Emperor. Three Treasure Chests. It's the most inferior one to the Dan Emperor right now." Chen Xiang said.

The White Tiger opened the map and took a look. After a brief look, its expression changed and became very serious.

"Within the Nine Emperors and Five Venerables, the Dan Emperor is one of them and is rumored to be the strongest of the Nine Emperors. Moreover, this guy is pretending to be two identities, and both the Dan Emperor and the Senior Pill Elder are him. I only found out later." The White Tiger said.

One person was enough to earn two titles in Nine Emperors and Five Venerables. This person was truly powerful, and made Chen Xiang feel that there was a future for him to refine pills.

"Then what's the use of this map?" Chen Xiang was most concerned about this. If the White Tiger knew the location of the map, he would definitely go there.

"I don't know, but the Dan Emperor himself drew it, there is a pattern on it that he can only draw, the thing at the north is just a mess, only he can draw it with such charm, so it must be his hand, as to what exactly he is hiding, you have to take a look to know." The White Tiger said.

"Where?" If he knew where it was, Chen Xiang might have already gone over, "Is this Di Tian?"

"No, it should be above Heaven Realm. You can go there in the future and find those places, but that place is very dangerous, so before you go there, you must make sufficient preparations, and must have sufficient strength to do so. Otherwise, you will very easily die there."

It was very obvious that the White Tiger knew what kind of place that was, but it did not say it explicitly. He knew that no matter what, Chen Xiang would definitely go and take a look.

Chen Xiang kept the map. He was a little disappointed that he was not at Di Tian's level.

You don't have to worry about those immortal kings, at most they are just people who are plotting behind their backs or guiding them when it comes to cultivation. They won't do anything, and if they dare to use the power of the immortal king, then I will be able to sense it too, so I will immediately go out and stop them. The White Tiger said.

Chen Xiang was relieved a lot now, and left the White Tiger profound Realm at ease. Even if he revealed his identity now, those Immortal Kings would probably not dare to make a move against him, and that was also the reason why the Fire Divine Palace Palace Mistress was always guarding the seal. Because he missed this chance, the second time would be when he could not use his strongest power, otherwise, he would be killed.

After leaving the White Tiger profound Realm, Chen Xiang looked at the blue sky outside. Even though it was very quiet in the wilderness, there was a little less peace.

Chen Xiang ran towards a nearby city. There was a Transmission array there, allowing him to quickly reach the Divine Weapons Heavenly Country, but he saw a large group of people on the streets.

Amongst these few hundred people, there were more than a hundred who were children, and a few dozen who had turbid Innate Qi s in their bodies. However, their strengths were all average, and their strongest were only at the peak of the Extreme realm.

It was obvious that this group of people had escaped from somewhere else and came here. Although the Chen Martial Continent had always been under attack from other forces, it was just that the border was a little chaotic. It was very safe inside the Chen Martial Continent, so it wasn't strange for them to have fled here.

Chen Xiang walked over and asked a big sized man, who was also the strongest here, a rogue cultivator.

"Brother, where did you come from? What happened over there?" Chen Xiang asked, since he had met with this, he could not ignore it, he suspected that it was caused by the invasion of the Spirit Demon beings.

He had obtained most of the inheritance from the Devil-suppressing Heavenly Venerable, so he definitely could not sit still and do something like using the Green dragon demon-slain broadsword.

"Over there, the demons are attacking our city. We are the only ones that survived." The man sighed and looked at the refugees.

Chen Xiang looked at the direction the big sized man pointed, then went through space and disappeared without a trace. This made the big sized man startled, but he knew that he was definitely an expert, and one that wanted to kill the demon.

He quickly passed through a large mountain range and saw the city. However, the city was no longer there, it was just a wasteland, and when he looked around, he did not find anyone alive there. There were also no demons there, but it was filled with a dense demonic aura, so it should be the Devil Cultivator that came from Devil Realm.

"There aren't many of them, only 20-30 of them. But if they're very strong, destroying an entire city would be a piece of cake." Long Xueyi said: "I'll look for traces of them right now."

Chen Xiang came to the side of the burned and smashed city and could not help but angrily say: "This should be a city without any powers protecting it from behind, otherwise it would not be attacked by such destructive attacks. The Devil Cultivator inside the Devil Realm is really too overbearing, there are already many resource-rich areas in the Human Realm that they occupy, they do not even need to lay their hands on this kind of city that has no value at all."

"These Devil Cultivator are not ordinary Devil Cultivator. Could they be those fellows?" Bai Youyou said. Although she was a Devil Cultivator, she had a very strong self-binding ability and would definitely not do such a thing.
