

Dan God 1241

[Chapter 1241](#)

There were no decent cities in the Devil Continent, or perhaps there was no concept of cities here. The places where people gathered, were just around the Devil Cultivation Sects, where some random buildings were built, and were all nearby Devil Cultivation Sects. Most of the gathered here were disciples who wanted to challenge the Devil Cultivation Sects, or who had hunted some demon beasts to sell to wealthy disciples.

The original Devil Cultivation Sects was either destroyed or annexed. The current Devil Cultivation Sects was something Chen Xiang had never heard of before, and only the people who frequented the Devil Continent would know the details of the current Devil Cultivation Sects.

And Chen Xiang was going to a sect called "Demonic Sect" because the Divine Devil Cult was hiding in a dangerous place next to this sect.

"Soul Captivating Mountain, it is said that those who enter will mysteriously die, and there are no scars on their bodies. However, the sea of consciousness is empty, and has traces of having received a mental attack, as if their souls have been sucked out, and those who have died will die with a very peaceful smile on their faces."

Chen Xiang told Long Xueyi about the dangerous place and sneered: "Looks like there's no doubt about it Divine Devil Cult. They will definitely strengthen their own divine soul by devouring the souls of others. This kind of fellow really has many tricks up his sleeve.

The person who created the Divine Devil Cult called himself Heavenly Slave, was naturally a guy who cultivated the divine way and the devil way. Furthermore, in Long Xueyi's eyes, only the strong people at the peak of the divine way could contend against her.

"That dangerous place has appeared for more than twenty years. It seems like Di Tian was still unstable back then. They really did come from somewhere else and they don't have any plans to take control of the Devil Cultivation Sects now. However, it looks like they will make it soon." Chen Xiang said.

"Their God Demon Pool has nurtured quite a few Devil Cultivator who possess divine soul. There should be quite a few disciples from their Divine Devil Cult." Long Xueyi asked.

It's not that, they do not have many disciples in the Divine Devil Cult, because they are used to travelling alone, and most of them would die in the outside world. Their method of cultivating the divine way would consume a lot of their lifespan, so it is normal for them to be killed wherever they go. They have no effect on killing the Devil Cultivator, and would need some young, untrained people to do it.

"That's good too, those guys are asking for it. This time, we have to kill them all. Otherwise, who knows how many of them will die in order to let them live for ten more days." Long Xueyi said somewhat angrily.

Chen Xiang had already arrived at the gathering area of the Devil Cultivator near the Extreme Demon Sect. He looked around to see the overall strength of the Devil Cultivator.

"Are you going to transform into that arrogant Young Master and sneak into that Divine Devil Cult's lair." Long Xueyi asked.

"No, it's very difficult to pass off as him. The people inside are all cultivators, not to mention that his father is very strong. If I were to be discovered, it would be hard for me to escape from that place." Chen Xiang said, although he had already killed three strong people in the Divine Devil Cult, it did not mean that he could eliminate the Divine Devil Cult easily.

This was, after all, a gathering place for Deity Cultivators. Furthermore, they were also training in the demonic path. The experts within it were extremely terrifying.

"If I were to go alone, it would be difficult to deal with the Divine Devil Cult, but I don't need to completely destroy them, as long as I destroy their foundation. The God Demon Pool is especially important to them, because it is a key thing for them to breed new blood.

This was also the reason why a few disciples of Icy Wind Valley were lured to join the Divine Devil Cult at that time. Furthermore, after entering, they would definitely be imprinted with gods and devils, controlled by the Divine Devil Cult, and wouldn't be able to control themselves.

"I need to refine some Destruction Ice seal Dan. When necessary, I can deal with a large group of people." Chen Xiang thought for a moment, this was the only thing he could do. He was an Alchemist, using pills to strengthen himself was the usual method used by the Alchemist.

It was just that while other people had raised their own cultivation, Chen Xiang had refined that kind of terrifying destructive Ice seal Dan. A small pile of profoundbing powder could create a destructive Ice seal Dan that could destroy a huge city.

Chen Xiang found a quiet place, it was a mountain cave, this kind of cave was very common in Devil Continent, and they would need a few Spar to stay in it.

The formations used by the Devil Continent were very crude, and Chen Xiang had to modify it himself inside the cave to prevent noise outside. This mountain range was where the Devil Cultivators gathered, and these Devil Cultivators were not only born and bred in the Chen Martial Continent, there were also from the Devil Realm. This place was also a place that posed a great threat to the Chen Martial Continent, so after he returned, he had to make sure that other powers were not alerted.

Chen Xiang was already familiar with the way to refine the Destruction Ice seal Dan, furthermore, he did not need to use the Foreseeing Alchemy, he only needed to use the Heavenly Alchemy, and he also had many high leveled profoundbing, which could be used to refine for a very long time.

Although the majority of the profoundbing he plundered from the Fire Divine Palaces were relying on their superior strength, none of them had treasures inside. Those were hundreds or thousands of profoundbing, but he didn't have a single one.

After three days, Chen Xiang had refined dozens of pills. He did not have time to refine powerful super Ice seal Dan, he had only refined a few high quality destructive Ice seal Dan. If a large group of people besieged him, these Ice seal Dan would help him escape easily.

The old man and the young lad that were slapped out by the Divine Devil Cult did not die, but they were still imprisoned inside the square cauldron. As long as they did not die, their life origin orbs would not

shatter, and the Divine Devil Cult did not know that two of their higher status had already died, so the Divine Devil Cult would not be so cautious, and it would be much easier for Chen Xiang to take action.

Chen Xiang arrived outside the Soul Captivating Mountain. It was deathly silent, and at dusk, it looked extremely eerie. From time to time, a gust of cold wind would blow, and the caws of the crows would cause people's hair to stand on end.

He was not afraid at all of anything that could hook one's soul, because he knew that it was done by the people of the Divine Devil Cult. Furthermore, he had turned into a flying bug, and based on the memories he had obtained, he flew towards the direction of the Divine Devil Cult where Di Tian was hiding.

Chen Xiang flew within the forest and quickly found the familiar road that he plundered from his memories. However, there were a few people walking slowly in front of this road.

"Isn't that old man's aura from Devil Race?" Long Xueyi said in shock, a person from the Devil Race actually appeared here.

[Chapter 1242](#)

Chen Xiang felt that the two powers that posed a great threat were Fire Divine Palace and this Divine Devil Cult. Fire Divine Palace was still alright, at least in the dark, and outside of Chen Martial Continent at that.

But the Divine Devil Cult Wine was different. It was hidden very deeply and was still inside the Chen Martial Continent, their hands had even reached inside the Icy Wind Valley. If not for the fact that the Icy Wind Valley had a loyal elder like Pan Yunlan, the Icy Wind Valley might have already fallen into enemy hands.

"This Devil Race is actually two-timing, and at the same time, has allied with the Fire Divine Palace, and now he's even coming to interact with the Divine Devil Cult." Chen Xiang sneered in his heart, and followed along.

"Clan leader, our God Demon Pool is only enough for two people. Your request is for five people from your Devil Race, I'm afraid we can't do that." An elder of the Divine Devil Cult said.

The person from the Devil Race was actually the Patriarch, and he had come to seek refuge in the Divine Devil Cult.

"In that youth's memories, he said that the energy in the Celestial Demon Pool wasn't enough, which just so happens to be enough for two people. Sister You You and sister Meiyao can develop divine soul now, as long as I get my hands on it." Chen Xiang said somewhat excitedly.

They wanted to cultivate the divine soul a long time ago, but had no methods and did not know what to do. In the end, they could only give up, and now that they finally had the chance, although they had lost their cultivation, cultivating the divine way was still okay. In any case, they had a lot of time here, and there was still Long Xueyi, a dragon who had a high attainment in the divine way of cultivation.

"In that case, it can only help two people from our Devil Race to develop divine soul." The Devil chief frowned. He felt that this was a bit of a loss.

The elder of the Divine Devil Cult shook his head. "There is only one spot in your Devil Race, the other is given to the giants of the other forces."

As long as he could win over a powerhouse, he would be able to win over an entire power. Therefore, he had to maximize the benefits from this other spot in the God Demon Pool, or else Divine Devil Cult would lose.

"If your Devil Race is not willing, then forget it." The elder of the Divine Devil Cult did not seem to care about the Devil Race at all.

He didn't want to miss out on this rare opportunity. Although he would be temporarily controlled by someone, in the long run, he felt that this would be very worthwhile, but if he was the only one remaining, the other elders of the Devil Race would definitely not agree to it. Right now, it was equivalent to selling the entire Devil Race to the Divine Devil Cult.

Chen Xiang secretly laughed in his heart, because the elder of the Divine Devil Cult did not tell the devil clan leader about his longevity. If the devil clan leader gave birth to a divine soul infant, he would definitely set foot on a path of no return, and would definitely sink deeper and deeper into despair to extend his lifespan.

This Divine Devil Cult had been with Di Tian for a while, but had wasted a lot of the water in the God Demon Pool. They had helped many Devil Cultivator to cultivate their divine soul, but many of those Devil Cultivator were still killed.

Now that there were only two spots, the Divine Devil Cult would definitely treasure it even more, so he wouldn't waste it like before.

At this moment, Chen Xiang did not care about what these people were saying, because they were currently walking on the path of the God Demon Pool. Chen Xiang had absorbed the youth's memories so he knew where the pool was.

"There shouldn't be anyone there yet. If I can get in, the remaining water would be mine." Chen Xiang flew higher. Although he had become a flying insect, the disciples of the Divine Devil Cult all had divine soul.

"I know how those Fiendgod pools of water were formed." Su Meiyao asked.

"He melted a strange rock to get some white liquid, which is the water in the God Demon Pool. I feel that as long as we can get that piece of ice, they have yet to make a move, according to the memories in that kid's head, it would not be easy to melt that strange rock, and it would take some time."

Chen Xiang arrived at the place where the God Demon Pool was, it was a huge mountain and the God Demon Pool was located in the belly of the mountain. Although there was a formation here, it was still a lot weaker than the one inside the Fire Divine Palace's underground palace.

If they were to enter the Soul Captivating Mountain, they would accidentally trigger some restrictions, and very soon, disciples of the Divine Devil Cult would attack and absorb that person's soul. After a long time, no one would come in, so the Divine Devil Cult did not pay attention to defending, moreover, they felt that their array formation was powerful, so even if someone tried to attack them, it would take some time to break it.

Chen Xiang entered the belly of the mountain and arrived at the center of a golden pond. This pool was not too big, allowing the three of them to immerse themselves in the water, and was constructed from a type of stone that could emit a golden light in the darkness, and atop the pool was a square white rock that was as tall as a person. As long as this rock was burned, the stone would melt, becoming a liquid that could nurture divine soul.

"Just what kind of stone is this, to actually have that kind of heaven defying power, this kind of thing is too terrifying, I wonder how the boss of the Divine Devil Cult obtained it, does he actually have a lot?" Long Xueyi really wanted to know, because it was not recorded in her inherited memories.

"The boss of the Divine Devil Cult is at the Heaven Realm. If that guy uses this kind of method to rope in experts, then that guy's Divine Devil Cult will definitely be even more powerful." Chen Xiang shuddered at the thought of this, because if that Heavenly Slave could be wasted on a group of people so easily, he must also have a lot of these things on him.

"If he were to become the strongest in the Heavenly Demon Realm, it wouldn't be long before the Heavenly Demon Realm will be ruled over." Bai Youyou also felt that the Heavenly Slave was extremely terrifying. To be able to grasp such a powerful thing, he would definitely become a great rival for Chen Xiang in the future.

Chen Xiang had broken open a formation that was sealing the stone, and at that time, the entire mountain started to shake, causing quite a commotion.

"It's mine now." Chen Xiang's heart was in ecstasy as he placed the stone into the ring, and then quickly flew out.

The Divine Devil Cult Elder who was walking in slowly outside had a face full of shock, and flew towards the cave entrance.

"Since you took away such an important thing like them, it looks like this Divine Devil Cult will be hard to deal with in the future. Let's just wait outside for a while before deciding." Chen Xiang had already sensed a few strong auras rushing over from all directions, they were all the Rankers from the Divine Devil Cult.

Chen Xiang left the Soul Captivating Mountain and went to the nearest gathering spot of the Devil Cultivator to wait for any news. However, he felt that he wouldn't get any news from this place since the Divine Devil Cult was extremely secretive to begin with.

[Chapter 1243](#)

After the Divine Devil Cult had stolen such an important thing, the higher ups of the entire Divine Devil Cult were furious. They immediately gathered all of the followers of Di Tian and gathered in the Soul Captivating Mountain, beginning to search for some suspicious people. Although they knew that there might not be any results, they could not do anything about it.

Chen Xiang met a few groups of disciples that he had come here to search for. He secretly followed these disciples and from their mouths, he found out that many of the strong warriors of the Divine Devil Cult were gathered in the Soul Captivating Mountain.

"All of them are back. Looks like the situation isn't looking good." Chen Xiang was secretly worried. If the Divine Devil Cult took this opportunity to attack the Chen Martial Continent, then this would give him a very good opportunity.

Furthermore, attacking and taking down Chen Martial Continent is not something their Divine Devil Cults can do. They are only there to hunt down some genius figures, and they probably won't cooperate with Fire Divine Palace. " Su Meiyao said.

Chen Xiang nodded: "Then I will first melt that stone and let you and Miss You You use it. I will let you two develop your divine soul first, you two can begin to cultivate the divine way right now."

He had originally thought that it would be difficult to melt it, but he did not expect it to be this easy. It was as if he was burning ice, and the melted liquid was no different from ordinary water, and there was not the slightest fluctuation in energy. If he did not see it with his own eyes, he would not have been able to tell the difference between this liquid and water.

After Chen Xiang melted, he stored the liquid into a storage jade bottle and placed it inside the ring, allowing the two girls to use it for themselves. With Long Xueyi to look after the ring, he was not too worried.

"You'll need a few days and nights. When that time comes, you will be people with divine soul." Chen Xiang laughed.

"Little Scoundrel, what a pity, you can't see them in the bath with your own eyes, hehe ..." Long Xueyi laughed.

Hearing Long Xueyi's words, Chen Xiang's imagination went wild, and after secretly cursing the little pervert dragon in his heart, he took out the Yanlong furnace.

Chen Xiang was in a cave, refining pills as he waited for the two girls to succeed in nurturing their divine soul.

He was refining Hunyuan Dan, and currently there were not many herbs for Hunyuan Dan. He needed a lot of Heaven level herbs, so he could not replicate quickly like before. Thus, he could slow down in order to refine Hunyuan Dan, so he could cultivate at the same time.

He could eat two Hunyuan Dan at a time and refine the energy inside them to obtain a large amount of Innate Qi s to condense the pill embryo of the eighth heavenly pill. If he could possess the power of the eight Nirvana Tribulations, he would dare to go to the Divine Devil Cult and cause a ruckus.

He had to use a large amount of Innate Qi s to support many of the techniques he had used, and only those powerful attacking techniques could complement his strong physique, unleashing a strong power that could kill experts with cultivations much higher than him. If he did not have enough Innate Qi s, he could only use a few, but dealing with one or two Divine Devil Cult s would be easy, but being surrounded and killed by a large group of people was difficult.

"The eighth day's pill is easier said than done. Even if you manage to refine a Hunyuan Dan and train hard, it would take at least a few years. Don't even think about it in the near future."

Long Xueyi said, she was extremely clear about the situation in Chen Xiang's body. If it was a normal method of cultivation, perhaps it would easily attract the eighth stage of Nirvana Tribulation, but right now, Chen Xiang had the heavenly pellet. He needed to condense five of the Eighth Heaven Pellets, which meant he would need a large number of Innate Qi s.

Chen Xiang only refined one batch of Hunyuan Dan before stopping. After he ate a few, he held the Philosophic stone in his hand and allowed the strange power of the Philosophic stone to guide the powerful energy to condense the Eighth Heaven Pellet.

When he reached this realm, he would need to rely on comprehension to use the refined energy to raise his cultivation level. If he did not have the Philosophic stone, he would definitely need more time to comprehend it, and after using the Philosophic stone, he would quickly immerse himself in cultivation. He would not be able to refine pills while cultivating.

laid on the ground and watched, trying to think hard about and understand this method of giving birth to the soul. No matter how hard he tried, he just couldn't figure it out, unless he knew the exact origin of this mysterious stone.

After three days, Long Xueyi suddenly shouted in shock: "Little Scoundrel, wake up!"

Chen Xiang who was currently cultivating heard Long Xueyi's anxious shout and forcefully stopped his cultivation. He asked: "What happened?"

"The water is entering their bodies. Is that true?" Long Xueyi said.

"Nope." Chen Xiang recalled the memories of the youth and the old man, but he did not do such a thing. After immersing himself in the water, he had successfully nurtured his divine soul.

"But... This pool of water is quickly being absorbed by their bodies and will soon be completely flowing into their bodies. What's going on?" Long Xueyi said anxiously: "I called out to them a few times, but they didn't reply. Their sea of consciousness seemed to have already sealed up.

"Nope." Chen Xiang's face became serious, his heart burning with anxiety, but he could do nothing.

"I've finished absorbing them, they seem to be asleep. Their vitality is still very strong, and their souls are also very powerful. There's nothing dangerous about it, it's just that they can't be woken up." Long Xueyi said: "I'll help them get dressed first and get them into bed. What I can be sure of is that they aren't in any danger, it's just that I don't know why they are asleep."

"It's good that they're fine. They might wake up in a few days, perhaps their souls are too strong, and the divine soul they nurture might also be very strong, which is why something like this happened." Chen Xiang said.

There were no other issues, which made Chen Xiang feel more at ease. After that, he continued to refine pills, waiting for Su Meiyao and Bai Youyou to wake up.

However, several days later, these two beauties were still in deep sleep.

"Although they haven't woken up yet, their divine soul have already been developed in their minds and are gradually becoming stronger. How strange, looks like they will need some time to wake up, you don't have to be too worried." Long Xueyi said.

This was a very critical time, it would not be good if Chen Xiang was distracted.

"Well, if anything happens to them, let me know." Chen Xiang said.

"I know, you don't have to worry about me. I can take care of myself, and I won't eat anything planted here." Long Xueyi laughed.

Originally, Chen Xiang was not worried. After hearing her words, he knew that the flowers and fruits that she had been yearning for a long time were going to suffer.

[Chapter 1244](#)

Chen Xiang ate seven or eight Hunyuan Dan and cultivated for a few days, increasing his Innate Qi by a bit. However, it was just a little bit.

After leaving the cave, Chen Xiang returned to the gathering grounds of the Devil Cultivator. After asking around, he found out that nothing major had happened to the Devil Continent, but more and more disciples of the Divine Devil Cult had appeared.

"They sent people to search everywhere, could it be that they have a way to find the person who stole the strange rock?" Chen Xiang saw many Divine Devil Cult s walking around the place disguised as Devil Cultivator, so he could tell what they were looking for with a glance.

"It's possible, maybe this Divine Devil Cult has many powerful abilities, they even have those strange stones, nothing is impossible, so you have to be careful, maybe once they are near you, they will find you." Long Xueyi said.

Chen Xiang thought that he had done it in secret, even with the Immortal King present, he wouldn't be able to discover him.

During the night, a few people started a fire on a piece of barren land and surrounded them. These people were all disciples of the Divine Devil Cult, so Chen Xiang used his Spirit Travelling Technique to secretly follow them.

During the day, when they were wandering around the Devil Cultivator's gathering area, they did not say a single word, but now they began to speak.

This place is a place with dragon veins, the Fire Divine Palace is already prepared to fight. No matter what the price is, they want to take down this place, and our Divine Devil Cult's strength is not weaker than the Fire Divine Palace's, and we are also inside the Chen Martial Continent, so why must we leave, and give this rare opportunity to the Fire Divine Palace? " The loyal followers of the seating Divine Devil Cult, he naturally wished for his own Divine Devil Cult to become very strong.

"This is what the higher-ups are thinking. How can we know?" Another follower drank a bowl of blood, which was carefully concocted to increase their lifespan, and that was the method Divine Devil Cult had to extend it.

"I think it's because our Divine Devil Cult's God Demon Pool was stolen, and an even more powerful guy was targeting our Divine Devil Cult, so the Vice Sect Leader decided to leave first. Furthermore, the other powers in the Chen Martial Continent are all very powerful, even if our followers were to infiltrate, they can't weaken their strength, if a huge battle were to break out, our Divine Devil Cult

would still be severely injured, and our Fire Divine Palace would definitely take advantage of the situation and take care of us and the Chen Martial Continent without any effort, so we won't do such foolish things."

"Right, the Fire Divine Palace doesn't know of our existence, and we also have spies in the Fire Divine Palace. When the Fire Divine Palace attacks the Chen Martial Continent in the future and both of us suffer losses, it would be much easier for our Divine Devil Cult to take action."

If he did not know of the existence of the Divine Devil Cult, it would be easy for him to be evil, and even if they repelled the Fire Divine Palace, it would be very difficult for them to stop the Divine Devil Cult at that time.

What was fortunate was that the Fire Divine Palace and the Divine Devil Cult did not join hands. If they did join hands, then that would be the most terrifying thing.

Here, the Vice Sect Leader of the Divine Devil Cult was the biggest, and the Sect Leader was the Heavenly Slave above him, the one who had founded the Divine Devil Cult. The youth suppressed inside Chen Xiang's square cauldron was the Vice Sect Leader's son.

"Although you are just small fry in the Divine Devil Cult, your guesses are indeed the plan of the Divine Devil Cult."

A voice suddenly sounded, shocking Chen Xiang and the other disciples of Divine Devil Cult. There was someone nearby, but Chen Xiang did not notice it.

"Who is it?" One of the followers immediately shouted, pulling out a weapon.

Just as the followers asked them questions, the fire that they had built became even bigger, and then turned into a middle-aged man. Surprisingly, within the fire, Chen Xiang saw this method and immediately associated it with the divine ability.

"It's a divine ability." Long Xueyi said: "There are indeed experts in the Fire Divine Palace who train in the divine way, this kind of guy is very scary."

"You ..." The few followers naturally could tell that this was an ability, and seeing the middle-aged man dressed in fiery red, they knew that he was from Fire Divine Palace. Their Divine Devil Cult had already been exposed, they had underestimated him.

"It's such a pity, if you didn't have the god and devil brand, I could spare your lives, and let you join my Fire Divine Palace, and become its slaves. But..."

The middle-aged man's eyes lit up, he waved his hand, and a few fire people suddenly appeared, piercing through the Divine Devil Cult disciples' bodies and burning them to ashes.

"This guy is very strong." Chen Xiang thought, after the middle aged man killed the few Divine Devil Cult disciples, his body turned into a flame and flew into the air, flying straight towards the Soul Captivating Mountain.

Do you know what kind of strength this guy has? Seems like they are going to deal with the Divine Devil Cult. Chen Xiang immediately and carefully ran towards Soul Captivating Mountain.

Long Xueyi thought for a while, then said: "The cultivation of the divine way should be about the same as you, to be able to cultivate and become a Divine Sense Sea, and to be able to step into the consummate realm, while the Innate Qi is at the late stage of Immortal Monarch."

The White Tiger had said that only the Immortal King would be bound by the rules. However, if it was the Immortal Monarch, there shouldn't be any problems.

"This guy is going to attack Divine Devil Cult just like that. If he angers the immortal king hiding inside, wouldn't it be very dangerous?" Chen Xiang suddenly felt that it was extremely dangerous. If such a Immortal Monarch were to attack Divine Weapons Heavenly Country, it would be easy for him to do so.

"Why didn't they send this kind of expert to deal with the various powers in Chen Martial Continent?" Chen Xiang knew that the Fire Divine Palace had a lot of powerful warriors hidden inside. If they could sneak attack him with just a few Late period of human immortal Rankers, the Chen Martial Continent would definitely suffer a great loss.

"I'm not sure, but I'm sure they do have concerns." Long Xueyi said.

Chen Xiang came to the deepest part of the Soul Captivating Mountain. More than half of the forest inside was incinerated, and wave after wave of battle exploded outwards, causing the Soul Captivating Mountain to continuously shake.

The battle was extremely intense. Flames soared into the sky, and huge tremors continuously spread out. The aftermath of the battle was like a violent gale, engulfing the entire Soul Captivating Mountain and turning the place into a sea of fire.

"Could it be that this Divine Devil Cult knew that the Fire Divine Palace wanted to take action against them, that's why he planned to relocate? It looks like we cannot underestimate him, this Fire Divine Palace is really powerful."

Chen Xiang faced the intense waves of air that erupted from the battle and got closer and closer to the place where the battle was taking place. He wanted to see who was fighting the expert from the divine way in Fire Divine Palace.

"It really is that brat's father. Could it be that there are no more powerful warriors in the Divine Devil Cult, and the Vice Sect Leader can do it himself?"

Chen Xiang lied on top of a mountain that was scorched extremely hot, and looked at the two figures in the distance who were continuously attacking him like two rays of light. Their speed was extremely fast, and they were very far away from him, but he could still see them clearly.

[Chapter 1245](#)

From up above, Chen Xiang could see many burnt corpses flying everywhere from the waves of air. Some burnt corpses were even torn into pieces, and those who were disciples of the Divine Devil Cult and possessed divine soul all died just like that, causing Chen Xiang to feel extremely regretful.

"Fire Divine Palace, as expected, it was you who did it. You stole our strange rock, and now you're even attacking us with the ability to destroy. Our Divine Devil Cult will remember you." Facing the attack of the Fire Divine Palace's Divine Path expert, the Vice Sect Leader was actually suppressed.

The flame ability that the middle-aged man from Fire Divine Palace used was indeed very powerful, and it made Chen Xiang secretly admire him.

"Your Divine Devil Cult isn't some good stuff either, to actually send Protectors to capture our two Immortal Monarchs. Do you think we wouldn't know that the two Immortal Monarchs' Pearl of Life have already shattered?" The middle-aged man from the Fire Divine Palace sneered. With a wave of his hand, violent flames turned into large seals that were covered with Spirit grain and smashed down on the Vice Sect Leader of the Divine Devil Cult one after another.

Unexpectedly, two of the Fire Divine Palace's in Fire Divine Palace had been killed, Chen Xiang was secretly delighted in his heart.

"Hmph, weren't our protectors still not back yet? Those two protectors are both Immortal Kings, other than the two Immortal Kings in your Fire Divine Palace, who would be able to stop them?" One could tell that he was under a lot of pressure at the moment.

Suddenly, Chen Xiang felt that the Divine Devil Cult was not as good as the Fire Divine Palace. The two Immortal King protectors that he sent out were actually kept by the Fire Divine Palace, or perhaps they had already died, which was why the Divine Devil Cult wanted to quickly evacuate. Who would have known that the Fire Divine Palace would find their lair so quickly, and even call them back.

It was also your protectors who took away our Immortal Monarch and killed them, if not our Immortal King would not have made a move against them. We never had any enmity towards your Divine Devil Cult and we even wanted to cooperate with you, but who would have known that you would extend your hands to us? The Fire Divine Palace middle aged man suddenly shouted, and a large fire cloud suddenly appeared in the night sky.

"It's the Fire cloud palm." Chen Xiang had experienced the impressiveness of Fire cloud palm before.

"It was your Fire Divine Palace who stole our strange stone first ..."

The Vice Sect Leader roared in despair. A massive palm formed from fire pressed down like the heavens themselves.

With a boom, the wave of fire that erupted engulfed the entire Soul Captivating Mountain, even the large forest surrounding the Soul Captivating Mountain was not spared.

"Who is it?" As soon as the burly man closed his eyes, he could feel that there were people alive in the sea of fire below.

"This guy is really powerful. I'm really troubled to be able to sense life from the flames he released." Chen Xiang sprinted through the sea of flames. This time, he finally got to see the kind of existence that was below the Immortal King Fire Divine Palace, with just a simple Fire cloud palm, he burned a vast expanse of land, and many tall mountains were burnt to ashes.

After all, that was the Immortal Monarch. Even in the Heaven Realm, he was a very strong figure and he also cultivated the divine way.

"The powerful people in the Divine Devil Cult have basically all been killed. What's left are some small fries that can be ignored, but just who is the person hiding in the sea of fire? How could his speed be so

fast that even I can't catch up?" The big fellow muttered: "When I was coming down, Master told me that there have always been many strong warriors hidden in New Imperial Heaven World. Indeed, to be able to run so fast in my fire domain, I'm afraid only the Immortal King did not attack me. It seems like he doesn't want to fight me."

The Demon Empress and the Evil Snake King are both recuperating, so it can't be them. The strongest Demon King in the Devil Realm is Wang Qiongjin, and other than the old man that hall master, there shouldn't be any other Immortal Kings in the Human Realm. "

Chen Xiang had originally planned to teach this middle-aged man a lesson after getting heavily injured with Divine Devil Cult's Vice Sect Leader, but who knew that the latter would be so strong?

Long Xueyi could hear the middle-aged man mumbling to himself, and she told Chen Xiang this.

"Since we know that there are no Immortal Kings in the Human Realm, why didn't they attack the Chen Martial Continent? If this Immortal Monarch leads the way, the Chen Martial Continent would be in danger." This was what Chen Xiang was most worried about.

"Maybe the Chen Martial Continent is hiding someone that they are afraid of, someone that they are worried about luring out. There are many strange things that happen in the Chen Martial Continent anyway." Long Xueyi said.

Chen Xiang left the sea of fire, using the power of the spatial laws and the Shrinking step, he activated both to their limits, and rushed towards places closest to the Transmission array.

"This Divine Devil Cult is really stupid, sending so many Divine Devil Cult disciples to search for suspicious people, exposing their hiding place, that's why the middle-aged man came to find them and killed them." Long Xueyi said.

"This is not a bad thing for us, we should be grateful to Fire Divine Palace for helping us kill such a powerful Divine Devil Cult. I think the Heaven Realm will definitely know, and will definitely get into trouble from above." Chen Xiang laughed.

There was a Fire Emperor behind the Fire Divine Palace and a Heavenly Slave behind the Fire Divine Palace. Both of them were very powerful people and these two forces might become two of the strongest powers in the Heaven Realm in the future.

Soul Captivating Mountain's super big fire had burnt that place to the ground overnight. This matter had stirred the entire New Imperial Heaven World, no one knew what was going on, they only thought that it was a natural disaster.

Chen Xiang came to Icy Wind Valley, and upon knowing that he had returned, Pan Yunlan immediately came to see him. Currently, it had already been five days since Soul Captivating Mountain was set ablaze, and the flames there had yet to extinguish.

Of course Pan Yunlan knew about the Soul Captivating Mountain, because she knew that the Divine Devil Cult was hiding in the Soul Captivating Mountain and Chen Xiang had previously said that he would go kill the Divine Devil Cult, so she had always been paying attention to the news there.

"You did it." Upon seeing Chen Xiang, Pan Yunlan asked in shock.

"No... It's a powerful fellow from the Fire Divine Palace who killed the Vice Sect Leader of the Divine Devil Cult in a few moves." Chen Xiang's tone was extremely serious, because that fellow was a huge threat.

Of course, that could be considered as him killing them indirectly, because he stole the strange stone, causing the Divine Devil Cult to suspect that it was the Fire Divine Palace who did it. Thus, he immediately sent two Immortal Kings to capture the two Fire Divine Palace s and tortured them to death.

In the end, the Fire Divine Palace and the Divine Devil Cult started to fight secretly, it was all because of the strongest guys. Chen Xiang did not know how those Immortal Kings did not trigger the power of laws that restricted the Immortal King, but they fought a big battle and even killed the Immortal King.

Chen Xiang told this Pan Yunlan about the conflict between Fire Divine Palace s. After all, Pan Yunlan had always been assisting the masters of Icy Wind Valley s and Divine Devil Cult s, so he had a certain level of experience in this kind of thing.

[Chapter 1246](#)

Pan Yunlan knew that at this time, Chen Xiang was worried that Fire Divine Palace, the powerful Immortal Monarch, would bring a large group of people to attack Chen Martial Continent.

After a moment's thought, she said, "They didn't dare attack us, so they might have been worried about that."

"What are you worried about?" Chen Xiang asked anxiously.

"Your hometown... Do you remember where you were born? Xianxian and You Lan were also born at, and Meng'er went to investigate some things that year. After that, she coincidentally bumped into Xue Xianxian and took him in as her disciple. "

Pan Yunlan's words were like a bolt of lightning that struck Chen Xiang's body. His father, his clansmen were all in that world and his sudden disappearance at that time was not a small blow to him.

Now that he heard Pan Yunlan's words, he finally remembered that the place he was born in, was a place that hid some sort of secret.

"What happened to my hometown?" Chen Xiang had always wanted to know, but Su Meiyao and Bai Youyou seemed to know a little. His master Huang Jintian, Gu Dongchen and the others also knew a little.

"That is... In truth, this is nothing much to us, but to the people from that place, it might not be a good thing, but your family members will not die, so it will be fine. Your master has always been hiding it from you, but he was worried that after you find out about the things there, you would do something excessive.

Hearing that something bad was going to happen there, Chen Xiang suddenly grabbed onto his father tightly. He did not wish for his father to be in danger, as he was his family.

"What the hell is going on there?" Chen Xiang lowered his head, his expression extremely solemn.

It is said that there is a very powerful tomb here, and the place where this tomb is located will disappear at a special time, and then appear again. And the people who are at the top of the tomb will all become tomb watchers, and they have very strong powers, but they are all restricted by the tomb, and as for the consequences, we are not too clear. "Yun Che's eyes flashed with a trace of coldness.

"Is this the Ten Heavens Supreme Lord's tomb?" Chen Xiang immediately thought of this. Ten Heavens Supreme Lord's grave had always been a mystery, he did not know where it was.

"We are not sure either. In short, that tomb belongs to a strong Ranker, and as for whether it is Ten Heavens Supreme Lord's tomb, we are not sure either." Pan Yunlan shook his head.

"Then why is the Fire Divine Palace afraid of that place? Didn't that place already disappear." Chen Xiang asked again. That place had already disappeared, so there was no reason for Fire Divine Palace to be afraid.

The energy of the Chen Martial Continent is just used to maintain that world's circulation. If they send out too many strong warriors to attack the sects here and disrupt the balance here, then that mortal world might appear and the people guarding the tomb would come out to start a massacre. "Ling Chen said in a low voice. Pan Yunlan said.

If the Immortal Monarch were to make a move, they could destroy an entire place. If there were a lot of casualties here, then a lot of death aura would accumulate. If there was a lot of death aura, it would corrode the spirit energy here, causing a lot of energy to dissipate.

"What tomb is that? Doesn't that mean my father is the tomb watcher? Do they even have their own intentions?" Chen Xiang asked, he really couldn't imagine how his father and clansmen could have been saved from that place.

When the secular world disappears, the people in the upper echelons will all gain in strength. If you want to know if your father and the others are in any danger, it would be best if you know who the owner of the tomb is. If it's a good person, then they shouldn't be in any big trouble. Pan Yunlan said.

Su Meiyao and Bai Youyou were also aware of this matter, Chen Xiang thought that they should also not be clear about who the tomb master was, if not they would have reminded him when he was looking for the Emperor's Tomb, and they might not be sure whether or not the tomb was the Emperor's Tomb.

"Actually, with regards to the Chen Martial Continent, the local sects can solve their own problems, and the hidden strength of our place is not weak either. You can cultivate in peace, and make your preparations to fly up, Heaven Realm is what you youngsters should go to, if it's really peaceful here at that time, I will also go to the Heaven Realm." Pan Yunlan smiled at Chen Xiang.

Chen Xiang left the Icy Wind Valley and returned to the Divine Weapons Heavenly Country. He did not talk too much with Xue Xianxian and the others, but only told them that Pan Yunlan would come over and explain everything clearly. He then returned to the Dragon Subduing School, and arrived at the dragon vein deep in the middle of the Evil Dragon Graveyard.

The mysterious tomb was clearly absorbing the energy of the Chen Martial Continent, and in the future, a dragon vein would appear in the Chen Martial Continent. If he connected the two together, he could guess that the person in the tomb might use the dragon veins to revive themselves.

"Little Naughty Dragon, what do you think about this? Didn't sister Meiyao and elder sister You You You say a lot about that tomb?" Chen Xiang lied in the place where the dragon veins used to store the dragon pearls. He hadn't returned for a few years, and the quality of the Spar that made up the dragon veins had also improved a lot.

"He didn't tell me, but you can ask White Tiger. Maybe he knows something." Long Xueyi said.

"I don't think so, but I don't think that tomb had anything to do with that period. Otherwise, those ancient powers would have attacked the Chen Martial Continent a long time ago." Chen Xiang shook his head.

He had asked Duan Chong before, and Duan Chong did not know about this matter, so he thought so.

"To be able to cause the Fire Divine Palace to worry, it seems that the owner of that tomb is very strong, but he is not from the Ten Heavens Supreme Lord. Chen Xiang was very curious in his heart, and there was no way to investigate it. Of course, this was all to find out whether or not his father was safe there.

Chen Xiang had returned to the Dragon Vein, and the growth of the Dragon Vein was extremely fast, so he did not need to worry about the Dragon Vein being used up just because he was cultivating here.

For many years, the energy of the great formation of the Evil Dragon Graveyard and the Evil Dragon Graveyard was maintained by this dragon vein, but not only did the energy of the dragon vein not decrease, it had even increased.

Chen Xiang had secretly returned, and other disciples were forbidden from entering this place, so very few people knew that Chen Xiang had returned, only the patriarch and the few old men from Earth's Core Race knew about it.

"Let's see if I can cultivate the Fire Soul here. The flame is my bottleneck right now, and without strong flames, it would be difficult for me to refine a medium-grade Heaven level pill. Even refining a low-grade Heaven level pill would be a little difficult."

Chen Xiang closed his eyes and began probing into the geocentric crystal. He wanted to trigger the energy within to strengthen his Fire Soul and at the same time let the seed of Heaven Fire sprout. If he could fuse all of these together, perhaps his Fire Soul could ascend a very large step.

"You just refined a low grade Heaven level Pellet, and you're already thinking of middle grade? Take it slow ..." Refine some low grade Heaven level pills that are suitable for me to eat first, I have been waiting for a long time. " Long Xueyi said.

"I know that, but it's already difficult for me to refine a Hunyuan Dan now, and I might even fail if I don't. It's not like you don't know, if it wasn't for the resonance between the Hunyuan tree root and mine, it would be extremely difficult for me to refine a cauldron of Hunyuan Dan." Chen Xiang said: "This Hunyuan Dan is relatively easy to refine. If it was a Flying Dan, then I think that my current flames should be difficult to deal with."

"Flying Dan are not useful to you, if you don't go through the tribulation, it's equivalent to wasting an opportunity to improve yourself, will you be willing to part with it? I heard sister Meiyao say before that there is a type of pill called Tianlong Dan, which is specially made for dragons to eat, rank is determined

by the quality of the medicinal ingredients, if the medicinal ingredients are of the lower Heaven level quality, it can be refined into Tianlong Dan of the same quality. Long Xueyi said.

"Alright, I'll help you collect the medicinal ingredients when I have time." Of course Chen Xiang had to agree to her request. Raising this little dragon to be strong was beneficial to him.

Long Xueyi did not want to disturb Chen Xiang's cultivation at this time. The fact that Chen Xiang's flames could grow meant that he could refine even more high levelled pills. This was a good thing.

Previously, Chen Xiang had had a chance to trigger the hidden flame energy in his body, and could instantly fuse it into a very strong Fire Soul. But at that time, he knew that his own body could not endure it, which was why he did not do it.

However, it was extremely difficult for him to bring out the hidden potential.

[Chapter 1247](#)

Su Meiyao and Bai Youyou were both deep asleep now, and Long Xueyi could not give Chen Xiang any advice either. Chen Xiang had sunk into a state of confusion once again.

Previously, when he did not want to level up Fire Soul, that opportunity had popped up again. Now, he wanted to level up, but he could not find that key point.

Just as Chen Xiang was feeling anxious because of this, suddenly, a very cool energy spread throughout his body, causing him to feel extremely comfortable. It was only then did he remember that this energy was released when Caomu heavenly Dan and Grass Wood Spirit were merging.

He had obtained the Caomu heavenly Dan from the Ten Heavenly Sacred Mountain, and he had obtained the Grass Wood Spirit on his way to Chaotic Mountain. The two had been fusing since long ago, and although it had already been a long time since they last merged, they had not completely succeeded.

"Once the Caomu heavenly Dan and Grass Wood Spirit fuse, I wonder what will happen. These two things can bring people closer to nature, I wonder if it can help me raise my Fire Soul."

Chen Xiang finally found a way out. Now that he allowed himself to enter the realm of selflessness and didn't do anything, it could make the fusion of Caomu heavenly Dan and Grass Wood Spirit even faster.

Unknowingly, Chen Xiang felt that his body was very light, it was as if he had fused with the entire dragon vein, and he could even feel the boiling Flame Essence in the earth core, making him feel as if he had fused with the earth.

The environment of the earth's core was very harsh. Under the ground, the fire essence was like waves of crazy waves crashing against each other. Sometimes, the waves formed by the fire essence would collide with each other, and the energy coming from the impact would be very strong, penetrating into the air and forming the spirit energy.

And underneath the dragon vein, because there were countless fine channels that formed lines that contained dao runes, even more spirit energy was born. It even turned into liquid and flowed into another place before finally condensing into a crystal shape and turning into a dragon vein.

"So that's how it is. No wonder the Super Old Fire Beast were so angry at me for obtaining the mind crystal back then. The crystal is in its strongest form." Chen Xiang seemed to have grasped something.

Feeling the fusion of the Caomu heavenly Dan and Grass Wood Spirit, time passed quickly. In the blink of an eye, more than ten days had passed, but Chen Xiang had no idea about it at all. Right now, his only thought was to raise his Fire Soul, but he already had a direction.

"The Core Crystal contains a very strong flame energy. I always thought that I would need to release the fire energy inside in order to strengthen my Fire Soul, but now I'm wrong."

This was what Chen Xiang thought when he saw the energy that was rising up from below the earth's core condensing into a crystal. He planned to nurture something similar to a dragon's vein inside his body, but with a different nature from a dragon's vein. What he wanted to nurture was a Fire Soul Divine Veins.

There was a Fire Seed of Divine Flame in the Core crystal, he could use this to combine the Sky Fire Seed and the Heaven fire soul in his body.

When he thought about it, he immediately did as he was told. Using his powerful divine power, he absorbed the Fire Soul and the seed into the gem. Although he did not know what the result would be, he felt that it would definitely increase his fire power by a level.

Not long after he started cultivating, an accident happened. The Earth Core Crystal suddenly produced a very powerful suction force, which slowly absorbed the Heaven fire soul that was fused with his soul and body, causing his entire body to feel incomparable pain. The Sky Fire Seed had long been absorbed into the mind crystal, but he did not expect that the Earth Core Crystal would be able to even absorb the fusion of the Caomu heavenly Dan and Grass Wood Spirit.

"Little Scoundrel ..." What happened to your body? " Long Xueyi suddenly shouted, because she saw that the dragon vein's spirit energy was turning into liquid and permeating into Chen Xiang's body at an astonishing speed.

Chen Xiang did not answer. His entire body was shaking, and he was in extreme pain, but the Earth Core Crystal appeared in the middle of his Dantian, right above the deity statue in the middle, and started to spin crazily. It turned into a ball of fire, absorbing the Innate Qi and Heaven fire soul inside his Heaven Pellet.

The Innate Qi s stored in the Heaven Pellet were being extracted quickly, but they were also quickly replenished by the dragon fountain, which was why the dragon whisker could see Chen Xiang absorbing the dragon fountain's spirit energy so crazily.

"He's absorbing Genuine qi of five elements, is he going to evolve into a Five elements heavenly fire, just like Li Baojun." At this time, Long Xueyi sent his God Power into Chen Xiang's Dantian, and when he saw the Earth Core Crystal twinkle with multicolored light, he immediately said in shock.

"It could also be the Heaven and Earth Flame."

Before long, Long Xueyi saw another huge change in the gem. "This ... It's actually a seven-colored cloud of light, is it a seven-colored heavenly fire? "

"No." Chen Xiang said with great difficulty: "Sister You You You and the Yin and yang god blood that sister Meiyao gave me are also slowly entering this mental crystal, my Fire Soul, Divine Veins, and bones are all merging into one."

"What? How can these things be fused together?" Long Xueyi was shocked. If it was fused together, it would definitely be powerful, but she was worried that Chen Xiang's body would not be able to withstand the explosive power released when these things merged together.

The sound of thunder and lightning was extremely loud. Right now, he was inside the dragon vein, and the amount of energy he absorbed was astonishing to the point that even the Earth's Core Race near the dragon vein had hidden themselves. Because the sound was too great, it was as if the entire dragon vein was roaring.

This situation continued for more than a month before stopping. At this moment, Chen Xiang had also fallen into a coma.

"Little Scoundrel, wake up, wake up ..." Long Xueyi shouted anxiously, but she was actually unable to see the condition of Chen Xiang's Dantian, and there was not a trace of Innate Qi's energy inside his body, as though his Dantian had been crippled.

"What's wrong?" Chen Xiang opened his eyes. The pain in his body had already disappeared, and at this moment, he felt as if he had fallen asleep.

"Where's your dantian? Why can't I sense it? Did you do something rash and disappear? Why don't you feel any aura from the Innate Qi? What's going on? Is your Body of Heavenly Sage still around?" Long Xueyi was extremely worried.

Chen Xiang looked at his own Dantian and was stunned. The five Beast elephant inside were still there, and the heavenly pellet was normal too, but there was no change. The Yin and yang god blood, the Heaven fire soul, and the gem had all disappeared.

He could feel the Yin and yang god blood's aura from within the black mist, and he felt that he could also release fire, which would be even stronger.

"My dantian became a large gray space, and with the five Beast elephant inside, the Innate Qi's aura will not be emitted. Also, if I release the Innate Qi, it will come out from that grey colored ball of air, and if I come in contact with even the slightest bit of that mist, it would be very difficult to feel it, so I simply do not know if that's the Innate Qi." Chen Xiang said.

However, he felt that the large lump of grayish-black thing was not perfect yet, but it had a very mysterious power protecting his dantian. He felt that even if someone stabbed into his dantian, he might not be able to destroy the thing inside, and his dantian did not seem to be inside his body anymore.

In other words, even if his body was destroyed, the Innate Qi that he was cultivating in would still exist. This kind of strange phenomenon was something that made even Long Xueyi exclaim in surprise.

"You little scoundrel, you're one step closer to becoming immortal. Quickly take a look at your current flames, sister Meiyao and Sister You You You are asleep, so you just need to randomly mess around. Fortunately, it's not a bad result." Long Xueyi urged.

Chen Xiang released a ball of flame into his own palm. It was actually a very ordinary ball of fire, which startled both him and Long Xueyi.

However, something strange happened. The flames he released started to change color ... First, it was red, orange, yellow, green, blue, and purple. These colors rapidly changed, and behind them, the white, gold, and black eyes slowly changed.

In the end, five dazzling rays of light appeared. It was actually a Five elements heavenly fire.

"What's going on? I feel like I can use many different forms of flames." Chen Xiang followed his will and released another ball of ordinary flames, but this was indeed a Heaven fire.

"Amazing, is there an even more powerful flame? I saw rainbow-colored light appearing in your dantian before, maybe you can release the Rainbow Heaven Flame." Long Xueyi said excitedly.

[Chapter 1248](#)

Chen Xiang did not know what happened in his Dantian previously. When he found out that the multicolored light of the Rainbow Heaven Flame had appeared in his Dantian, he was extremely shocked.

"Quickly, give it a try. The seven-colored heavenly fire is very beautiful." Long Xueyi urged.

Chen Xiang controlled it with his mind, causing a ball of flame to emerge from his palm. Seeing the ball of fire, Long Xueyi cheered, and the seven-colored light shone brightly as the surrounding Spar shone with seven-colored light, becoming even more gorgeous. At the same time, the place was also filled with a truly hot and scorching heat.

"The consumption rate of the Innate Qi is very fast, the seven-colored heavenly fire is indeed powerful." Chen Xiang said in shock: "In just a short moment, the Innate Qi in a Heaven Pellet has been completely used up."

Right now, he had thirty-five Heaven Pills. At this rate, it wouldn't be long before the seven-colored Heaven Flames would completely consume all the Innate Qi in his body.

"It seems that you can use a variety of colors of flames at will. Are these all controlled by your own will? Can you even use an even more powerful flame? I have a feeling that the flame potential you've ignited isn't only limited to this, it should be even stronger." She had always followed Chen Xiang and had even merged with Chen Xiang's energy before. She was the clearest about the situation in Chen Xiang's body.

"I'll try again." Chen Xiang frowned as he looked at the center of his palm. He used his mind to control the power in his body and turned the Innate Qi into an even stronger flame and spewed it out.

"Still not enough." Long Xueyi asked, seeing that there was no flames at all on Chen Xiang's palm.

"He's coming." Chen Xiang suddenly let out a strange cry, a burst of flame suddenly lit up from his palm, but disappeared afterwards. Just now, a cluster of flame appeared, but it only flashed for a moment, and did not continue burning.

But just at that moment, all the Innate Qi s in Chen Xiang's body were sucked out, showing how powerful that flame was. Long Xueyi also cried out repeatedly in alarm.

"The heat that exploded just now might not even be this hot. If someone was beside you and you didn't control your anger properly, you would definitely be burnt. What kind of flame is this?"

Long Xueyi could feel that all of the Innate Qi in his body had been consumed, but he was only able to maintain that flame for a moment, if he was to use that flame for a long period of time, it would consume a lot of Innate Qi, which was not something Chen Xiang could use now.

"It seems that you have already completely unearthed the power of the flames inside your body. If you had enough Innate Qi, you might even be able to release a flame that was even more powerful than before." Long Xueyi said.

Chen Xiang also thought so. He planned to try to release that flame again, even if it would consume his Innate Qi, it didn't matter. He wanted to confirm whether he could really release that kind of powerful flame, or only be able to do it by chance.

After recovering the Innate Qi, Chen Xiang tried again. This time, it was the same as before, there was only a flash of fire, but it exploded with a strong heat. If this place was not inside the dragon vein, but in a forest, everything around him would be burnt to ashes.

"Even if I were to become an Immortal, I would probably only be able to use a very short period of time." Even if I were to become an Immortal, I would probably only be able to use a very short period of time. Chen Xiang said.

Long Xueyi nodded: "According to the light rays, it's the same as your Heaven fire, they're all no different from normal flames. Could it be the Heaven and Earth Flame, but logically speaking, the Heaven and Earth Flame should be a fusion body of the Five elements heavenly fire, you can just use the Five elements heavenly fire to merge and gather them together. You shouldn't consume so much Innate Qi, and it shouldn't be that powerful."

Chen Xiang meditated and recovered his Innate Qi once again. After he recovered fully, he released the Five elements heavenly fire and then merged the five colors of the Five elements heavenly fire into one, turning it into the same color as normal flames. The flame was also stronger than the original Five elements heavenly fire, so he was now certain that the fire released by the Innate Qi throughout his body was not the Heaven and Earth Flame.

"Even if I can use my strong flames now, my Innate Qi won't be able to keep up with the energy consumption. Even if I absorb the spiritual energy outside to refine it into Innate Qi, I won't be able to keep up with the energy consumption rate."

This was one of the more depressing things for Chen Xiang. He could release Five elements heavenly fire s, Heaven Flames, or even Rainbow Heaven Flames that were even more powerful than Heaven fire s, but if he used Heaven Flames, he felt that in just two hours, he could completely use up all the Innate Qi in his body.

It had to be known that even if the Heaven and Earth Flame from before was released continuously for an entire day, it wouldn't be enough to exhaust his Innate Qi.

Although the consumption of Innate Qi was large, the flame was still many times stronger. If he were to use the Foreseeing Alchemy to refine pills, no matter how strong the flame was, it probably wouldn't be able to increase the efficiency. At most, it would only have a little effect.

Of course, he did not only need to raise the flames, he also needed to raise the level of his divine way. Right now, he had just stepped into the Perfection Stage of the divine way realm, and this was only considered a starting point for cultivating in the divine way.

Even if he had the God slain method and the Nine-turn dragon god mantra, he would not be able to improve so quickly, unless he was like Long Xueyi, who was born to practice the divine way. Only then would he be able to be like Long Xueyi, who does not cultivate much, and whose cultivation can only increase on his own.

"If I were to advance in the Divine Path, how powerful would I be?" Chen Xiang asked.

"Cultivating the divine way is different from cultivating the Innate Qi. Raising the realm of the divine way is very difficult, and one's realm is also very small. For humans, being able to raise their realm by one after many years is already pretty good already. Long Xueyi said: "If we continue to raise our realm, then it will be the realm of Spirit Transformation."

"Becoming a god to become an astral form. How powerful are you? Are you able to reach that level now?" Chen Xiang asked anxiously.

"Hehe, I won't tell you this." Long Xueyi laughed tenderly: "You people who cultivate the Innate Qi, should know that the Astral Energy is very strong. By condensing the Innate Qi into an Astral Energy, the released Innate Qi is like a sharp blade. With a casual wave, you guys can release the Astral Energy and break a huge mountain."

"That's right. What about the Divine Powers that have transformed into Divine Powers? They're also extremely powerful." Chen Xiang was immediately curious.

If you guys cultivate the Innate Qi, your strength will increase by several times, or even ten times, compared to before. However, cultivating the divine way is different. Long Xueyi said.

"Mn, before I reached perfection, my divine soul was very weak, and before I became a divine power, that kind of power wasn't very useful." Chen Xiang nodded.

Long Xueyi said: "If you can condense the divine power into the God wind, when the time comes, the divine power that you can use will be even more powerful. Of course, this is certain, but the biggest use of the divine power is to use it like the Innate Qi, releasing it as it is used for substantive attacks."

Chen Xiang took a deep breath, and immediately felt a surge of emotions in his heart. If he combined the God wind and True Divine, in addition to his powerful physical body strength, then the power he released would be extremely terrifying.

[Chapter 1249](#)

However, these supernatural powers usually require some time to be unleashed. For example, the Heavenly dragon seal, as well as the Art of Change, the God Power will transform into a strange energy that will change the structure of the human body and assimilate it into other things. Originally, all living

things in the world would originate from the same source, but this is the point where the transformation technique is used.

Whenever she talked about the divine way, Long Xueyi would always talk about it, so she really hoped that both Su Meiyao and Bai Youyou would have the divine soul, then she could impart to them all the knowledge of the divine way every day.

Long Xueyi continued to speak, "Divine power is a product of the evolution of the consciousness, and the special characteristic is that it can accommodate the same amount of soul power, but it is many times stronger than the divine power. However, if you use these two powers directly, at most, it can only be used as a mental attack.

"So that's how it is. Then what happened to your Dragon Power?" Chen Xiang asked.

"We were born with a Dragon Power, but we also have a God wind. If we can cultivate a God wind and use it together with a Dragon Power, that would be the strongest." Long Xueyi said.

Chen Xiang was shocked. The dragons of the Imperial Dragon Clan were powerful indeed, and these things were naturally theirs. No wonder there were only a few of them, but they had a place in the vast worlds of other races.

"If I can cultivate the God wind, can I use it to release flames?" Chen Xiang asked.

"Of course you can, but I don't know how strong you are. I'm a White Dragon, and although I can release fire, I don't have a professional fire dragon that's familiar with this sort of thing." Long Xueyi said.

Chen Xiang felt that if he wanted to release that super strong flame, just using Innate Qi would not be enough. He felt that even if he himself became a Immortal Monarch, he wouldn't be able to use that flame for too long.

"Leader, Elder Duan had just sent a message from the Dragon Subduing City that someone was here to cause trouble, and he even hit one of our people." The patriarch of the Earth's Core Race, Tie Li, was sending a message to Chen Xiang from outside.

The message that came from outside would stop inside a jade pearl. As long as Chen Xiang finished cultivating, he would check if there was any news from inside the jade pearl.

"Elder Iron, do you know who has come to cause trouble? What's the actual situation?" Chen Xiang did not want to go out right now. He still planned to refine some pellets and condense the embryo of the eighth day pellet. After he could improve his Innate Qi, he would then find some medicinal ingredients that could strengthen his divine soul and use them to refine pills.

"There are only three of them, but they are very strong. The strongest one should be in the intermediate stage of the Worldly Immortal Stage, but Elder Li and Elder Duan find it difficult to deal with them." Tie Li said.

Duan Chong and Li Baojun were both powerful immortals of the Late period of human immortal, but they were unable to deal with the intermediate Worldly Immortal Stage. This meant that those who came to cause trouble were frighteningly strong, with great potential.

"Isn't he from Fire Divine Palace?" Chen Xiang asked again, he was already outside.

"No, I heard that they were called the Dragon Slaying Clan, and they said that they went through so much trouble to come down from the Heaven Realm, and they were here for us." Tie Li said.

Chen Xiang frowned. Running down from the Heaven Realm at this time must have used a lot of power, and this was all for the sake of the Dragon Subduing School.

Chen Xiang obviously would not reveal his identity at this time, but he had to take a look. He used the Transmission array that had just been set up here and went to a secret room in the Dragon Subduing City.

"What dogshit about exterminating the dragon race? I've never heard of that before. I really want to go out and see just how capable these guys are." Long Xueyi was very unhappy. The reason she allowed Chen Xiang's Dragon Subduing School to exist was because she wanted to go with Chen Xiang to kill dragons in the future, and kill those old dragons in the Imperial Dragon Clan that she hated the most.

The moment Chen Xiang walked out of the secret room, he immediately sensed an extremely dense aura of the Dragon Power.

"Looks like it's very strong. It should be due to the cultivation of the powerful Dragon extinction that it has such power." Chen Xiang muttered, and rushed to the direction where the Dragon Power was released.

"Hmph, I really want to go out and teach this arrogant guy a lesson." Long Xueyi had a kind of inexplicable hatred toward that aura, and it was even the kind that she hated so much. As for why, she couldn't explain it either.

Chen Xiang arrived at the location of the incident. This was outside the city, Li Baojun and Duan Chong were there, and there were a lot of people standing and watching from outside the city.

Behind Li Baojun and the others, there were a few young men who were injured and lying down. It seemed like they were the ones that Tie Li had mentioned earlier.

Duan Chong and Li Baojun were facing three people who were dressed in snow-white robes. One of them was an old man, one was middle-aged and the other was a young man.

"These three fellows are really bored to death, they came down from the Heaven Realm to be so arrogant. They must have spent a huge price to come down, and it wouldn't be easy for them to go up there." Long Xueyi said.

The young man looked at Li Baojun and said: "I already said, ask your Leader to come out and see me, and don't try to fool me with any more reasons. If your Leader is really sealed, then don't open this Dragon Subduing School, and shut it off immediately."

You just came down from Heaven Realm, so you don't know the situation. Most people in this New Imperial Heaven World know that our Leader is sealed by the great array of the Fire Divine Palace, and that the seal can even seal the Immortal King. Duan Chong said.

Chen Xiang walked over and when they saw him, a few of them anxiously said: "Look, isn't that the powerful pill refining elder from Dragon Subduing School? His pill refining skills have already reached a higher level and it's going to be interesting."

Chen Xiang had appeared this time because he wanted others to know that there were many powerful elders in the Dragon Subduing School.

I only have one seal here. Although it is not as powerful as the one that sealed the Immortal King, it is more than enough to seal the three of you. Chen Xiang said without a trace of politeness.

Then, he looked at Li Baojun and Duan Chong, and asked: "Where did these three guys come from? Did they injure our people?"

"You ... Let me tell you this, we are the genuine Dragon Slaying Clan, we have an extremely strong destructive capacity. Even in the Heaven Realm, our name is well-known, and after knowing that you guys have a Dragon Subduing School in Di Tian, we thought that you aren't qualified enough to have that name. That's why we came down to have you give control of the Dragon Subduing School to us." The middle-aged man shamelessly said,

[Chapter 1250](#)

After hearing everything, Li Baojun, Duan Chong and the others immediately started to laugh maniacally.

"You are of the Dragon clan, how many powerful dragons have you killed? Our Dragon Subduing School's elders have killed an Emperor Dragon Guard in front of the Prince Imperial Dragon, have you ever killed them, I'm afraid you won't even dare to yell at the entrance of the Imperial Dragon Clan's dragon nest. You actually came all the way here from the Heaven Realm to act presumptuously, did you get kicked in the head by a donkey or had your head pinched by the door?"

The matter of the White Tiger killing the Emperor Dragon Guards that day had indeed caused quite a big commotion. Most likely, even the people from the Heaven Realm knew about it, so everything Chen Xiang said was true.

"With their stupid brains, donkeys won't even bother kicking them." Duan Chong laughed.

They knew that the Emperor Dragon Guards had been killed, that was why they sent people over to discuss the truth. But after they arrived, they found out that the Dragon Subduing School's Leader was sealed up by the Fire Divine Palace, and that it was a seal made by an Immortal King. The seal formation they used was also very powerful, and it was very famous in the Heaven Realm.

They did want to take advantage of the fact that the Dragon Subduing School was no longer here and occupy the Dragon Subduing School, but they could not figure out the specific strength of the Dragon Subduing School, so they decided to make a ruckus and see if a strong person could come out.

From the discussions of the crowd, they knew that the elder who had just come out was a very powerful alchemist. However, in their eyes, he was just like a mortal, with not a single trace of Innate Qi.

After Chen Xiang's dantian went through a large scale fusion process, a bizarre change occurred. The dantian was surrounded by a grayish-black aura, so the Innate Qi inside would not leak out. Forget about the other party, even Long Xueyi could not feel the Innate Qi's fluctuations.

"Let me deal with these three guys. I want to see how they destroy the dragon." Long Xueyi suddenly said, causing Chen Xiang to be slightly startled, and Long Xueyi immediately left the ring.

Then, a white light shot over from the distance, releasing a very dangerous aura. Especially that extremely strong Dragon Power, it made people feel that what was flying over was a super dragon, and the ground also crumbled due to the white light. In that instant, the place where the white light passed by, became as deep as a dried up river.

This is Long Xueyi, she had immediately went to the Evil Dragon Graveyard just now and flew over from there, making people think that she came out from the Evil Dragon Graveyard.

That domineering aura alone was enough to intimidate many people. It was as if they were facing a supreme expert that could be killed at any moment.

However, what was surprising was that the person with such a strong aura was actually a woman. Although she was wearing a veil and a white skirt, just looking at her curvaceous back made one's imagination run wild.

To think that there was such a powerful woman hidden in the Dragon Subduing School. Everyone felt that with her strength, she should be able to instantly kill that Dragon Slaying Clan member.

"You ... "Who are you?" The old man from the Dragon Slaying Clan finally spoke, his voice carried incomparable shock, because Long Xueyi's Dragon Power was just too strong, as though it could crush heaven and earth. Furthermore, his body carried an extremely terrifying pressure, and the pressure not only caused ordinary dragons to feel fear, it also caused humans to tremble.

Long Xueyi was half-veiled, and only the upper half of her face was revealed. However, it was already possible to see that she definitely had a beautiful face, and her pair of beautiful eyes, was enough to hook many men's souls.

You only need to know that I am Dragon Subduing School's very high Elder, you do not deserve to know my name. I have just come out of seclusion for a hundred thousand years in the Great Void Sect, and I already knew that someone had come to provoke our Dragon Subduing School. Don't think that just because that little brat Leader isn't here, you can easily trample over our Dragon Subduing School.

Long Xueyi's voice was very cold, but even his voice was able to make people feel a chill, making them feel like she was an aloof and exalted goddess, whom they could only look up to.

Chen Xiang hurriedly told Long Xueyi: "Little Naughty Dragon, don't pretend too much. Others' IQs are not low, don't think that everyone's head was kicked by a donkey."

What Long Xueyi said just now was indeed nonsense, if it was anyone else, they would have been mocked, but this time, this beautiful person with a protruding front and back was releasing an extremely strong destructive pressure, making people feel that she had the power to destroy the heaven and earth.

This was the first time they knew that the Dragon Subduing School was hiding such a very high Elder, and it was even the first time a girl was hiding here. Although the woman in front of them was very strong, they were still half convinced and half doubting what she was saying.

"You ..."

"You what? Are you doubting my words? When I was slaying the dragon, your ancestor that annihilated the dragon clan might not even have been born." Long Xueyi said in a domineering tone. She usually spoke with this tone when she was bragging, so she was not a stranger to her now.

"You're going to kill us." The old man calmed down, but the Dragon Power that was being released from Long Xueyi's body was still able to make him feel fear. This was the first time he had seen a Dragon Power of this level, even the strongest person in the Dragon Slaying Clan could not compare to it.

"Killing all of you will only dirty my hands. I will kill all of you." Long Xueyi said very arrogantly. It was rare for him to show up once, and if he wasn't arrogant, how could he bear to face the fact that he was sleeping and eating at the Dark Jade Ring, working so hard to raise his strength for so long?

Chen Xiang had always known that Long Xueyi was very strong, much stronger than him. It was just that she didn't have the chance to display it normally, so she couldn't be sure of her strength.

"Then I'll have to kill you first." That old man was enraged. Although the other party was powerful, he still looked down on them with such contempt. Furthermore, he had a resolute heart to kill them. Thus, he could only make a move first.

This old man had clearly communicated with the middle-aged man and the young man earlier, telling them not to interfere and to just watch from the side.

The old man was strong indeed. Even Immortal Monarch did not dare to face the power of the Late period of human immortal casually.

A punch came over, the fist turned into a burning fire dragon, releasing a loud dragon roar, shaking the entire sky, the pressure released by the Dragon Power made the ground tremble.

A violent punch that brought about a strong pressure that shook the earth and struck towards Long Xueyi's towering chest at an extremely fast speed ...
