

Dan God 1251

[Chapter 1251](#)

Long Xueyi's power was unfathomable, Chen Xiang felt that she was stronger than him, so he did not need to worry about her, but he was more worried about the Dragon Slaying Clan. Right after arriving here, he did not even have the time to report his name, and had already provoked the violent dragon.

The old man's fiery fist was not weak at all, and it was also very fast. Seeing that his brutal fist was about to land on the body of the charming girl, the hearts of everyone present couldn't help but beat wildly.

However, after this fist landed, it was as if there was a force pushing it. Although the fist charged directly towards her, Long Xueyi's body moved backwards strangely, causing the fist to not hit her body, and the force on the fist also disappeared strangely.

"Hmph, isn't it just the Fire Dragon God Fist? What's so good about it? Furthermore, it's learned so poorly."

Long Xueyi snorted in disdain, and then threw out a punch as well. Her fist was actually burning with a very strong flame, and the dragon head that was formed from her fist was even larger, more lifelike, like a dragon head.

Before the old man could even be surprised, his chest was hit by the Fire Dragon God Fist. At the same time, a Fire Dragon penetrated through the old man's body and flew into the distance with a roar. The place where the Fire Dragon flew past ignited with flames on the ground, as if it was using flames to draw a straight line on the ground.

That sudden burst of power and terrifying flames made even Duan Chong, the strong ones, feel that they were impossible to catch up to. They no longer doubted what Long Xueyi said just now, they only felt that it was weird, since when did Chen Xiang find such a powerful very high Elder, and it was even a woman, so they felt even more impressed by Chen Xiang.

The old man from the Dragon Slaying Clan took a few steps back. There was a large hole in his chest, but he did not know how Long Xueyi managed to do it, as he did not let the old man bleed.

A living person was standing there, but there was a large hole in his chest. This was very strange.

"Speaking of exterminating a dragon, your ancestors aren't even worthy of carrying shoes for me. You actually dare to come here and act presumptuously? You all deserve to die." As Long Xueyi spoke, his body released a very strong "Dragon Slaying Qi". Chen Xiang was very surprised that she had accumulated so much Dragon Slaying Qi, it was much richer than his Dragon Slaying Qi.

This kind of Dragon Slaying Fist, they were extremely familiar with, at this point, they knew that they had kicked an iron plate, this Dragon Subduing School of the Dragon Subduing School, in many ways, had exceeded their expectations, in terms of strength, the Fire Dragon God Fist was much more genuine than the elders of their clan, and the tyrannical Dragon Slaying Qi was also something no one in their clan could compare to.

"If you have something to say, let's talk about it..." Although the old man's chest had a big hole, he was still alive, but he felt that the Qi on Long Xueyi's body was not right, and anxiously shouted.

"Go tell your ancestors." Long Xueyi's eyes flashed with a red light. She gently waved her jade-like palm, and a red light shot out from her palm and into the old man's body.

Just as the old man was about to counterattack, he suddenly froze in place. He did not move, and soon after, a shocking scene appeared. Many red threads appeared on the old man's body, and the old man's body was actually cracking open.

"Flowers fall." Long Xueyi gently snorted.

After that, the old man's body exploded, turning into blood-red fragments that fluttered in the air. It was as if a blood-red flower was fluttering in the wind.

Looking at that bright red beauty floating towards the distant blood-red level, everyone shuddered. That was a single person, yet he died just like that.

"Master..." The middle-aged man who killed the dragon clan shouted in horror.

"Let's go together." Long Xueyi waved her devilish jade hands, releasing two rays of red light that instantly entered the middle-aged man and the young man's bodies.

Seeing this scene, everyone trembled, Long Xueyi was just like a witch in their eyes.

Very soon, the bodies of the young man and the middle-aged man cracked open. The crack emitted a red light that caused one's scalp to go numb, and then it exploded, turning into pieces of red powder that floated in the wind like bright red flowers.

Chen Xiang frowned slightly. He could already tell that when Long Xueyi struck earlier, he had mixed in some other energy, and felt that it was very likely to be the God wind. However, he could not be sure, because the divine power was originally invisible, so it would be difficult to discover when he used it.

Although he also trained in the divine way, and he had also seen the divine way experts of the Divine Devil Cult, he was not considered an official cultivator in his eyes, not even he himself could be considered one.

As for the Long Xueyi in front of him, he was a genuine cultivator from the moment he was born. Even if she revealed a bit of her strength, Chen Xiang was still unable to see her true strength clearly.

"With just that little bit of strength, you dare come to my Dragon Subduing School and clamor, you really do not know your place, to let you all die just like that, you are already considered very courteous."

Long Xueyi said in a smug tone and then suddenly disappeared, while her cold and dignified voice continued to reverberate in the sky.

After returning to the ring, this elegant and cold looking beautiful dragon couldn't stop laughing. Because of what she did just now, she was very happy. She had stayed in the ring for so long, and it was rare for her to have a chance to relieve her boredom.

When the three members of the Dragon Slaying Clan arrived, they were indeed very arrogant. However, they were all dead now. This made everyone feel as if they had died a miserable death. Because no one knew his name, they were all killed.

"With me, the very high Elder, here, they actually dared to come here, and they didn't want to die this way. Serves them right." Long Xueyi laughed. He did not look like that very high Elder just now.

"Disperse." Chen Xiang said to the rest.

Li Baojun had already given some pellets to the injured disciples to eat, their injuries had already improved a lot, and seeing their own sect have such powerful very high Elder, these disciples all felt extremely proud, of course, this was the first time they heard of this very high Elder.

Returning to the Dragon Subduing City, Li Baojun and Duan Chong hurriedly asked about the very high Elder.

"Leader, why haven't we seen this very high Elder before? Did you invite him just now?" Li Baojun asked.

"What a formidable woman. She seems to be even more powerful than the Grand Elder." Duan Chong said.

Of course Long Xueyi wasn't as strong as the White Tiger, it was only because the White Tiger had restrained itself when it attacked, and Long Xueyi's surname was precisely like that. If she had the chance, she definitely wouldn't let it go, even if she wasn't as powerful, she would make others think that she was stronger than anyone else, which was why she gave others this kind of pretense.

With just a bit of bragging, Long Xueyi had already mastered it to perfection. With her own strength, she could easily fool anyone with a little bragging.

"This... It has existed for a long time, but she has always been in seclusion and did not show herself. That's why you all have not seen her. When I have the chance in the future, I will definitely ask her to move around the sect more and give some pointers to disciples." Chen Xiang said in a perfunctory manner.

If she let Long Xueyi teach her disciples, it would be equivalent to letting her brag, and at that time, she would definitely be bragging too much. did not reveal his name as the Heavenly Dragon Supreme Lord just now, and Chen Xiang would already be thankful.

"Is there any latest news from the Fire Divine Palace?" Chen Xiang asked, at the moment he was not personally watching Fire Divine Palace, he needed to train and increase his strength.

"Currently, there is only one piece of news. They are recruiting disciples, so even if they do not cultivate fire, they can still recruit disciples to the Fire Divine Palace. Moreover, they still have some high level pills to attract some strong practitioners." Duan Chong said.

Chen Xiang walked back and forth a few steps, thought for a bit, and said: "Elder Li, you have also started to plan and recruit your followers. As long as you are strong enough to pass through the seven stages of Nirvana, and use the Heaven level pills as reward, if you pass through the eight stages of Nirvana, you can give them Flying Dan s.

[Chapter 1252](#)

In terms of recruiting strong warriors, Chen Xiang would definitely not fall behind in the battle with the Fire Divine Palace.

Just to make them our hanger-ons, not disciples of the Dragon Subduing School, so that when the time comes someone will take advantage of the situation to take advantage of us, and we have to guard against them. As for the benefits, that's better than the Fire Divine Palace, I can afford it. Chen Xiang said.

Li Baojun nodded his head: "If we have Hunyuan Dan s as rewards, then we will definitely attract a lot of strong warriors. That Fire Divine Palace uses all the high grade Ground level pills and a few Heaven level pills, if Leader can truly have a large number of high grade pills, I think our hanger-ons will grow strong very quickly."

"No problem, wait for me for a while ..." Chen Xiang had originally planned to think of a way to raise his cultivation, but it seemed that he would have to first refine a large group of Hunyuan Dan s. As for Flying Dan s, he would leave them to Li Baojun to refine.

He returned to the dragon vein. Right now, he had to condense a large number of creation divine liquid and use them to duplicate a large amount of medicinal ingredients for the Heaven level Pellets.

For example, there were two main ingredients for Hunyuan Dan. For example, Chen Xiang could only copy one of the three days worth of ingredients, which was ten in a month. If it were other Ground level Pills, he would be able to make a huge pile of them in a month.

However, he was already very satisfied. If it was anyone else, they would need to grow ten sets of Hunyuan Dan's main medicinal ingredients. Who knew how long it would take?

"If I had tried my best, I would have been able to produce four pills in a single furnace. There are only forty pills in ten batches, but it's enough to recruit forty people for half a year. Giving them a Hunyuan Dan every six months is a very good deal."

Although Chen Xiang ate Hunyuan Dan like he ate beans, for others, it was already considered good to have one every year.

Now that they are using pills to recruit people to join them, it looks like they will not attack for a while, unless they are able to gather their energy and add a large amount of pills, they will not dare to attack. The prerequisite is that, the Immortal Monarch who was cultivating in the divine way will not take action, if the Immortal Monarch takes the lead, I am afraid that the Fire Divine Palace will attack much earlier. Long Xueyi said.

"Little Naughty Dragon, you revealed a few moves previously. If you make a move, can you kill that Immortal Monarch?" Chen Xiang asked.

"No, I can't. Unless I have ten more years to live, I won't be able to defeat that guy. The reason I was able to kill the Dragon Slaying Clan was because those guys were too weak ... Actually, it's very much because they were frightened by me. " Long Xueyi laughed tenderly: "So sometimes boasting in battle is also a very strong tactic."

"You also know that you're bragging. You know your own limits." Chen Xiang laughed: "Oh right, are you using the God wind? I keep having the feeling that when you made your move, you were hiding some other energy."

"Not at all... If I am able to use the real God wind, you can bring me to the Fire Divine Palace right now and kill that Fire Divine Palace who cultivates the spirit. Long Xueyi said: "But it's already very powerful, but you can't use it, that's the special ability of my White Dragon Clan, even if we don't use the Divine Powers to transform into Divine Powers, we can still use it to attack."

Chen Xiang nodded, and said: "So it turns out that you have yet to reach that realm."

Long Xueyi replied: Of course it's difficult, but to me, it's just a matter of time. If it was you, you would need a long time to cultivate, become a Worldly Immortal first, and then you would need more divine power, if not you would know how much divine power to condense the God wind, just like how you used the powerful mysterious flame, I think you would be able to drain your divine power in an instant.

Chen Xiang took in a deep breath. He already had a lot of divine power in his current Divine Sense Sea, but condensing a God wind would only take an instant.

"When I've finished preparing the Hunyuan Dan's medicinal ingredients, I'll go look for the Heaven level Pellets that can strengthen my divine soul. It's been a long time since I've looked for the medicinal ingredients, I hope to be able to find them."

Chen Xiang mumbled, closed his eyes, and concentrated on refining the creation divine liquid ... Time passed in the blink of an eye. Two months had passed and Chen Xiang had come out of the dragon vein, arriving at the City Lord's Mansion's City Lord's Mansion, but the moment he arrived, he sensed that there were dozens of powerful auras here. They were all unfamiliar auras, but to this New Imperial Heaven World, he could be considered a group of people that were very strong.

However, these auras were not calm and they would fluctuate from time to time. Obviously, it was because of the influence of their emotions.

Arriving at a large hall, he saw that there were many experts of extraordinary strength here. There were men, women, old and young, and there were also many more of them than he could sense. There were over a hundred of them.

"What's going on?" Once Chen Xiang arrived and saw that it was a noisy place, some people's faces and ears were flushed red, as if they could fight at any time.

Chen Xiang swept his eyes across the people here. All of them had passed through the seven Nirvana Tribulations, and in these two months, Duan Chong and Li Baojun had indeed recruited a few disciples.

The old man and the middle-aged man mostly looked the same, but there were quite a few young ones as well. The old man and the middle-aged man mostly looked the same, and there were quite a few young ones.

"More than half of them are here to poach. They should be sent by the Fire Divine Palace." Li Baojun said, it was obvious that he had gotten used to this kind of thing.

An old man walked out and said loudly: "What poaching, we just do not want our friends to be deceived by you, what's so good about being your Dragon Subduing School's hanger-on, although there are powerful elders who are suppressed by you, but they all seem to be indifferent, everyone knows that your Dragon Subduing School will sooner or later be destroyed by your Fire Divine Palace, if your Fire Divine Palace attacks your Chen Martial Continent, your Dragon Subduing School will definitely help, and

all of your hanger-ons will definitely die, we just cannot bear to see all of these hardworking cultivators, close to flying friends being buried by your hands."

Duan Chong and Li Baojun had other plans as to be able to persuade these people to enter the City Lord's Mansion. If they were to be persuaded to leave, they would not become their hanger-ons, so Li Baojun and Duan Chong was not worried about them arguing with each other here.

Furthermore, in order to gain the confidence of the demons, they allowed the demons to burn, kill and plunder in the Human Realm. However, all of you turned a blind eye, and even bragged about the good news of the Fire Divine Palace every day. Didn't you all see how the Fire Divine Palace was being scolded so badly by the people in the Human Realm? A woman said coldly.

Chen Xiang could already tell that those who were persuaded to leave had already left, but those who stayed behind were mostly itinerant cultivators, who could not bear to see Fire Divine Palace and Demon and Devil Realms colluding with each other. Even if they did not want the pills given by the Dragon Subduing School, they would still join the Dragon Subduing School.

"When we came, we had already decided to fight against the Fire Divine Palace. We didn't have enough power ourselves, so we had to join hands with many knowledgeable people, and we definitely could not let a fellow like the Fire Divine Palace, who has a heart of a snake and a heart of a scorpion, obtain the dragon veins of the Chen Martial Continent. For the future Di Tian, that would only be a disaster." An old man sat on a chair, closed his eyes and spoke indifferently.

"The reason you people came here to persuade us is because you have obtained the benefits of the Fire Divine Palace. You should be worried that you will be ruthlessly killed by the people here in the battlefield in the future before coming here to persuade us." Chen Xiang suddenly said: "If they are not my Dragon Subduing School's hanger-ons, they are all on the side. Let me see who is the one who actually did such an ungrateful thing, don't you know that it is because of the Fire Divine Palace that the Spirit Demon beings are able to invade the Human Realm at such a large scale? Even if there is a force that wants to attack the Spirit Demon beings, they will all be stopped by the Fire Divine Palace, you know that clearly."

"I will remember your faces. Leave Dragon Subduing City quickly and I will not forgive you if I see you again in the future."

Chen Xiang's voice was filled with killing intent: "Before I change my mind, hurry up and get lost."

A few people on the scene recognized this person who had suddenly appeared. The Immortal King Wang Qiongjin of the Fire Divine Palace had previously lost to this person when he was refining pills, and it was a tragic loss at that.

People who concoct pills were very powerful, but they did have a very high position in a force. This was because everyone saw that Li Baojun and Duan Chong, the two elders, were very respectful to him.

[Chapter 1253](#)

This group of people, who were sent by the Fire Divine Palace to openly persuade people to leave, had not been chased away by the Dragon Subduing School even after causing a ruckus here for so many

days. Yet, they suddenly heard such vicious words from them, causing them to be stunned for a moment.

The people who dared to mess around here were all people who were quite strong and had some guts. Now that they were told to scram, they would definitely feel very sullen if they left just like that. However, this was their territory, so they couldn't do anything about it.

Just as they were about to turn around and leave, Chen Xiang suddenly said: "These past two months, I have refined some Hunyuan Dan. Since everyone here is a follower of our Dragon Subduing School, we will definitely not treat you unfairly."

They wanted to see how many Hunyuan Dan s there were. After all, the Dragon Subduing School had forty hanger-ons, it was impossible to only take one pellet per person, that was forty Hunyuan Dan, even for a large force like the Fire Divine Palace, it was still a large number. Even if the Fire Divine Palace had them, it would not be so straightforward.

Chen Xiang took out a large jade box and opened it, a hazy golden mist immediately floated out, the mist dispersed throughout the hall and a rich medicinal fragrance pervaded within, causing one to feel refreshed.

When the hanger-ons saw it, their eyes immediately opened wide. When they came to Dragon Subduing School, Li Baojun had promised to give them the appropriate reward, but they didn't really expect anything, they only wanted to help the Dragon Subduing School fight against the Fire Divine Palace.

Most of these hanger-ons were rogue cultivators, so high level pills were very difficult for them. Even if they painstakingly gathered ingredients, they would still need to find a Alchemist to refine them. If they failed, they wouldn't need to be responsible.

The dozens of golden Hunyuan Dan s in the jade box caused the eyes of those from Fire Divine Palace to turn red. They did not receive such good treatment in Fire Divine Palace.

"Each of you can take one pellet. If nothing goes wrong, you can get one pellet every half year. If you have friends who need to ascend, you can also get one Flying Dan."

Chen Xiang's words caused everyone to be shocked. Half a year later, a Hunyuan Dan.

Although the Hunyuan Dan were low grade Heaven level pills, they were still very connected to the herbs. Every half a year, if there was one Hunyuan Dan, for these rogue cultivators, it would be given an extremely high level of treatment. Even if there were a lot of Spar, they would not be able to buy so many.

Chen Xiang gave the jade box to Li Baojun for him to distribute. He had long known that Chen Xiang was a rich alchemist, but now he couldn't help but feel shocked. If he could produce so many Hunyuan Dan in half a year, then the Dragon Subduing School would surely be able to rule over this Di Tian.

Every half a year, they would receive a single Hunyuan Dan. This would definitely allow them to advance by leaps and bounds, but it was already too late, their appearances had already been remembered, and previously, they had been saying that Dragon Subduing School was in bad shape, but now, if they were to join the Dragon Subduing School, no matter how thick-skinned they were, they would not be able to do such a thing.

After sending out the Hunyuan Dan, Chen Xiang chatted with these hanger-ons for a while before coming to the backyard with Li Baojun.

"Elder Li, this is the Flying Dan's medicine, you can refine some if you have the time. I still don't know how to refine them, and I don't have the time to learn them."

The corner of his mouth twitched. There were actually twenty Nine Death Soaring Flower, which was enough to make twenty batches of pills. However, this type of pill was not a pill that required a lot of energy to refine, if everything went well, he could concoct forty of these pills, which was enough to use.

"If this news gets out, many more people will want to become my Dragon Subduing School's hanger-ons. By then, I'm afraid that there won't be enough pills, would we still have to recruit disciples?" Li Baojun asked.

"100 places is the limit." Chen Xiang said: "We don't need to keep these hanger-ons for too long, as long as the war with the Fire Divine Palace is over, it'll only be for two to three years."

Currently, there were very few Nirvana Realm warriors in Dragon Subduing School. Many of them were young people in Dragon Subduing School and would need some time to grow.

Following that, Chen Xiang still had to refine a few Hunyuan Dan to give to Li Baojun, so he could only continue his closed door cultivation to condense the creation divine liquid. After copying the Hunyuan Dan's medicinal ingredients, he had to immediately refine them into Hunyuan Dan s, which was very busy, causing him to not have time to do other things.

Chen Xiang tossed and turned for another two months, and after getting eighty Hunyuan Dan to give to Li Baojun, he finally relaxed a lot, and after that, he needed to think about himself. He also needed to quickly raise his strength, and his friends who were at the same age as him, such as Yun Xiaodao, would all be immersed in their training everyday, their cultivations soaring extremely fast.

If he didn't increase his speed, then he might be the last one to ascend.

"Damn Fire Divine Palace, this makes me so anxious." Chen Xiang said in his heart. Although the Fire Divine Palace would not directly attack the Dragon Subduing School at that time, his Dragon Subduing School would definitely go and help.

Long Xueyi said: "Right now, we do not know when they will attack, but you are worrying all day, why not we strike first, you can't possibly be too passive, at that time I will strike too."

With Long Xueyi's current strength, as long as he did not have to face those immortal kings, no one would be able to do anything to her.

"It's indeed a good idea to make the first move. I had thought of it before, but our strength is still too weak compared to the Fire Divine Palace." Chen Xiang shook his head and said.

"We need to find someone who can catch us off guard. Fire Divine Palace is a powerful force that has allied with the demons and the Human Realm, that's why they think that it's scary. And their Fire Divine Palace's greatest threat are the two Immortal Kings and the Immortal Monarch that cultivates the divine way." Long Xueyi said: "The powers that are colluding with the Fire Divine Palace, are just because of

how strong they are. If we could attack them directly, those powers that are colluding with the Fire Divine Palace would definitely be shaken."

"At that time, they might not form an alliance with the Fire Divine Palace, and at the same time, they won't act against us."

Chen Xiang thought for a while, then said: "If we really have to do this, then we need to know the Fire Divine Palace's base, and also need to gather all our strength to attack. We cannot attack for too long, we have to leave a path of retreat."

"Of course, it's just that you, the Dragon Subduing School, cannot do it alone, so you have to go to the Chen Martial Continent and negotiate with the big shots of those powers, letting them contribute their energy and provide resources." Long Xueyi said.

Chen Xiang and Long Xueyi discussed for an entire night and came up with a general plan. After that, they would look for Li Baojun and Duan Chong and share their thoughts with them, which they all expressed their agreement.

"How about this, Elder Duan, you will train some of the strongest disciples, this is used for surprise attacks, only three to five hundred people will do. Elder Li, continue to refine pills, at that time, you will have enough pills, especially healing and detoxifying pills, don't tell this news to your henchmen for now, not even to the core disciples."

"I will make a trip to Chen Martial Continent to talk with them." Chen Xiang said.

Chen Xiang felt that it was about time for him to show his face. He had to go at that time, and he had to reveal all of his wealth.

He first came to the Divine Weapons Heavenly Country, and went to the Divine Weapon profound Realm, to look for Leng Youlan and Xue Xianxian.

"Elder Pan came to find us, but I never thought that so many complicated things would happen at Icy Wind Valley's side. Also, thank you for extending Elder Pan's life." The moment Xue Xianxian saw Chen Xiang, he hurriedly brought up the matter, and lightly touched Chen Xiang's face.

"There's no need to be polite with me. I'm here for an important matter. Call Youlan over." Chen Xiang also kissed her forehead.

There was no need to shout, Leng Youlan ran in and let go of the white hair that was just tied up, he flung it away and let it fall around his shoulders.

"I thought I was going to give you guys some space, so when I saw you guys coming over, I prepared to go train." Leng Youlan said.

Chen Xiang laughed: "You are preparing to train, why are you still around?"

Leng Youlan stuck out his tongue and said: "If you have something important to say, say it."

Chen Xiang's face immediately became serious: "It's a very important matter, but I need to ask for your opinion on it. That is, we cannot sit still and wait for death, we plan to attack first to attack Fire Divine Palace."

[Chapter 1254](#)

After Leng Youlan heard this, he immediately became excited: "I agree, we should have long been killing these bastards, forcing them to be so tight."

Xue Xianxian thought for a moment, then nodded: "Do you have a concrete plan?"

Chen Xiang said: "I do, but first I need you all to refine a Transmission array Plate that I can carry around with me, and then a Death-haunting arrow like this ..."

He took out the Death-haunting arrow and continued to speak: "Your Divine Weapon Sect's secret hall should have this kind of item. The quality must be good, it requires around 500 of these."

"Our secret hall only has a hundred people, and they are all first-rate assassins who have been carefully trained to be masters. You should know that to use Death-haunting arrow, you need to have a strong concealment ability, and also need a large amount of highly toxic poison." Xue Xianxian said, the refining method of the Death-haunting arrow was something that Liu Meng'er and Dongfang Xinyue had passed on to her.

Refining five hundred at a time, this was a huge feat, and he also needed to refine the Transmission array's array disc. Of course, this was all for the sake of silently attacking the Fire Divine Palace.

"I have the person, so you don't have to worry. Can you guys finish it though? If it was within a year, you guys could probably make a lot of it." Chen Xiang asked.

Xue Xianxian and Leng Youlan looked at each other and said, "If you add in the formation plate, we should be able to complete it within a year, but we'll be a bit busy."

Leng Youlan patted Chen Xiang's shoulder, and laughed: "Brother, it's not like the two of us are going to refine it, when that time comes, we will use the secret refining team from the Divine Weapon Sect to help us.

"So that's the case, I have a strong poison, and a very strong one at that, you don't have to worry about that, when the time comes, I guarantee that I can catch the Fire Divine Palace off guard." Chen Xiang also laughed, his laugh was extremely sinister.

"Then go find Qianqian and have her Dan Fragrance Pure Land refine some more pills. We'll need them when the time comes." Xue Xianxian said.

Although the Dragon Subduing School was also refining pills, that was for the entire Dragon Subduing School. If the Dan Fragrance Pure Land was to join, the pressure on him would be greatly reduced.

"Yes, I will go now." Chen Xiang nodded.

"Just go and discuss the proper matters. Don't go to her place and mess around, don't hurt her ..." Xue Xianxian looked at Chen Xiang with a profound gaze, and said softly.

Chen Xiang was startled: "I know."

After leaving the Divine Weapons Heavenly Country, Chen Xiang did not immediately go to the Dan Fragrance Pure Land, but instead, went there.

The current Leader was called Chen Jiantian, and he was an elder of the Super Martial School in the past. Furthermore, his strength was not bad, of course, he was weaker than Gu Dongchen.

Currently, Super Martial School's overall strength was still very strong. Although Gu Dongchen, Wu Kaiming and Huang Jintian were not present, Super Martial School was still the leader of the Chen Martial Continent.

If they wanted to attack the Fire Divine Palace, naturally they would need the Super Martial School's help.

Inside the Super Martial profound Realm, Chen Jiatian and Chen Xiang were in a secret room. When he found out that Chen Xiang had sneaked out of the seal without anyone noticing, he was extremely shocked, but after being surprised, he felt that it was a very normal thing.

Chen Jiantian was a middle-aged man, and always had a very kind smile on his face. If it was in turn, Chen Xiang should be considered his elder since he was after all the disciple of a few previous Leader.

"Old Chen, I won't waste time with you. This time, I've come to let you all prepare." Chen Xiang went straight to the point, and said: "Prepare to attack Fire Divine Palace, we cannot let them attack us all the time, we need to fight them too."

The Fire Divine Palace was very strong overall, and she even had an Immortal King, but Chen Jia knew that Chen Xiang would never do something that he had no confidence in.

"Tell me what our Chen Martial Continent is going to do first." Chen Jiantian asked.

Before we attack, we will figure out the number of experts they have, and at that time, we will have someone who can fight against their experts. Then, the Super Martial School will have to directly attack the other disciples of their Fire Divine Palace, which is only a temporary plan, so we need your Super Martial School to prepare and select a few good disciples to train with.

"No problem. If the Fire Divine Palace attacks the Chen Martial Continent, then our Super Martial School will also fight. It would be better for us to act earlier so that we can lessen the pressure." "When do you plan to make your move?" Li Jiayi asked.

"Around a year, I feel that the Fire Divine Palace is about to attack the Chen Martial Continent. They had previously had one of their Sacred Fire School killed, so they need to take a breather, and the last time they came to our Dragon Subduing City to provoke us, they lost a lot of pills as well, so they don't have enough strength in the near future." Chen Xiang said.

Fire Divine Palace and that Divine Devil Cult also secretly clashed with each other, causing Fire Divine Palace to suffer a certain amount of losses, which was why Chen Xiang was so sure.

Hearing Chen Xiang mention about the Sacred Fire School, Chen Jie Tian's heart was moved. He had thought that the matter of the Sacred Fire School being killed had a huge secret, and now he was sure that it was Chen Xiang who had killed him secretly.

After greeting the Super Martial School, Chen Xiang went to the Lotus Island again. The island master of the Lotus Island was also a talented person, he was the son of Lian Yingxiao, and the relationship between Lian Yingxiao and him was not bad. One of the sons, Lian Mingdong, was even's friend.

Therefore, Chen Xiang and the new Island Master could not really get along well.

If not, Lian Yingxiao would not have passed on the position to him. He was the same as Lian Yingxiao, he had extremely handsome looks.

Chen Xiang told him of his plans to attack Fire Divine Palace, and he agreed to participate as well. He would immediately make preparations in secret, and when that happened, they would work together to catch Fire Divine Palace off guard.

Finally, Chen Xiang went to the Dan Fragrance Pure Land. As for the Proud Sword Sect and the Beast Martial School, these two sects had long since fallen, and there were even some core members of the sect who went to the Fire Divine Palace to seek refuge. That was why Chen Xiang did not go and find them.

She had to be like Chen Xiang, who did not need the Foreseeing Alchemy to refine the Heaven level pills. She knew that if she used the Foreseeing Alchemy, it would still take a very, very long time to refine the Heaven level.

Chen Xiang entered the cave inside the Dan Fragrance Pure Land and arrived at the secret room. Seeing that Wu Qianqian had just opened his eyes, he laughed, "Little Qianqian, you are really working hard."

"I'm older than you, you should call me Sister Qianqian."

Wu Qianqian rolled his eyes at him. Just as he got off the bed, Chen Xiang turned into a gust of wind and flew over, hugging this beautiful tender girl and letting her sit on his lap.

Seeing that Wu Qianqian's elegant and beautiful face had a tinge of redness on it, he couldn't help but kiss that pink lips of hers.

"Cultivating consciousness is truly difficult. I really don't know when I'll be able to reach your level. You're truly a freak, yet your consciousness is this strong." Wu Qianqian lightly leaned on Chen Xiang's chest, and faintly sighed.

Chen Xiang also wanted her to quickly raise her consciousness. After all, it was extremely useful for refining pills, but it wouldn't be fast unless he could find the God Demon Pool Water used by the Divine Devil Cult and help Wu Qianqian cultivate a divine way Soul Nascent Soul.

Even Long Xueyi was unable to quickly raise a person's consciousness.

"Take your time. This kind of thing cannot be rushed. You must have a steady path, or else you will easily go berserk." Chen Xiang supported her hair.

"Yeah, I just don't want the gap between you and me to get bigger and bigger."

Wu Qianqian lifted his head and passionately kissed Chen Xiang for a moment.

At this time, Chen Xiang finally mentioned to Wu Qianqian about the matter of attacking the Fire Divine Palace, but the other powers had already agreed to it, so of course Wu Qianqian would not oppose it. Furthermore, she had wanted to do this for a long time, so every single force within the Chen Martial Continent was being forced into a tight corner.

After greeting all the different forces in Chen Martial Continent, Chen Xiang even went to Devil-subduing College, which was a force that had always had a lot of grudges against Fire Divine Palace. Zuo Zhenxuan promised very quickly, and at that time, he would definitely give his all to attack Fire Divine Palace, because Devil-subduing College was also a big threat to him, so if Chen Martial Continent and Dragon Subduing School were to be killed, it was very likely that Devil-subduing College would be next.

"I'll have to work hard next. Hopefully, I'll be able to increase my strength a little within a year. Once my identity is revealed, quite a few guys will come after me."

Returning to the Dragon Vein, Chen Xiang took a deep breath, then began to condense the creation divine liquid.

[Chapter 1255](#)

Chen Xiang knew that he wouldn't be able to raise his strength much with just a little bit of time, but he wanted to give it a try. He wanted to go all out so that he could see how much he could improve during this year.

"Don't forget to copy those Black blood magic sunflower. When you use those Death-haunting arrow, without any poison, their power will be greatly reduced." Long Xueyi reminded him, afraid that he would forget.

Black blood magic sunflower s were powerful poisons under the effects of the banned poison. During the surprise attack, this poison could be used a lot, so Chen Xiang would definitely not forget about it.

"I know that."

After Chen Xiang's flame increased, he refined Hunyuan Dan at a much faster rate. Previously, when he and Wang Qiongjin were refining pellets, due to the fact that the flame was not strong enough, he used a lot of time. But now, he was more than twice as fast as before, able to refine two batches in one day and one night.

Using the God purification was not always a success, Chen Xiang had already failed three times, but at his current age, he still had such a high success rate for refining Hunyuan Dan, which was considered very impressive. Right now, the majority of people who were able to concoct the Heaven level Pill would have to live for many years, and only people who had trained their Foreseeing Alchemy to over a hundred would be able to successfully refine it.

Right now, he was not in a hurry to refine other Heaven level pills, because the current situation was extremely tense, he had no intention of learning to refine new pills. Moreover, right now, with Hunyuan Dan, he would be able to hold on for a very long time.

After the news that every six months, a few disciples that went to the Fire Divine Palace first had a change of heart and went to the Dragon Subduing School, but not everyone in the Dragon Subduing School had accepted them. The conditions to become a guest of the Dragon Subduing School were very high, so a large number of people were rejected outside the door.

Even if they could not join the Dragon Subduing School, those people did not plan to go there anymore. Right now, everyone could tell that the Dragon Subduing School was extremely powerful, with such a rich medicinal base, in this aspect, he had already surpassed the Fire Divine Palace. If they were to join

the Fire Divine Palace, if they were to fight with the Dragon Subduing School in the future, maybe they would lose their lives.

As for the hanger-ons of the Dragon Subduing School, they were all people that Li Baojun and Duan Chong had checked on, and were not afraid of the Fire Divine Palace, so even if the Dragon Subduing School and the Fire Divine Palace clashed in the future, these strong warriors would not cower.

These hanger-ons were all rogue cultivators, they could be said to be the top rogue cultivators in the New Imperial Heaven World over the years. Some of them even lived for tens of thousands of years, but there were only a hundred.

Although this group of rogue cultivators were at the peak of Nirvana Realm, they were still lacking when compared to those sects. Therefore, not only did Li Baojun give them some Hunyuan Dan, he also gave them quite a few Ground level Pills, which were extremely helpful to these rogue cultivators.

The Divine Weapons Heavenly Country had already refined five hundred Death-haunting arrow and sent them all to the Dragon Subduing School. It had only been half a year, and during this period, Chen Xiang had come out once, and that was to take out the refined Black blood magic sunflower and let the disciples familiarize themselves with the Death-haunting arrow s using the poison.

However, this matter was handled by Duan Chong, and their Duan Clan was extremely familiar with this kind of thing, so Chen Xiang did not need to focus on it.

A year passed by quickly. When Chen Xiang came out of the dragon fountain, he had been working hard to cultivate. Although his Innate Qi had improved, he was still a long ways away from attracting the eight Nirvana Tribulations.

Everything was ready, the next step was to investigate the location of the Fire Divine Palace, and then bring the Transmission array disk over, allowing the one in the lead to go over first and catch the Fire Divine Palace off guard.

The array disc had already been delivered. Leng Youlan, Xue Xianxian, and the Divine Weapon Sect's Grandmasters had been busy for a whole year before they managed to refine it. It was extremely rare.

During this year, all the various sects in Chen Martial Continent had been working hard to prepare for their attacks. Now, they were all waiting for the right time to attack.

Before this, Chen Xiang had gone to the other sects in the Chen Martial Continent to tell them that he would be able to attack them soon.

All the sects had secretly set up Transmission array s and connected them to the formation plate. They could very quickly send a large number of disciples to attack.

The strength of the Fire Divine Palace, these sects all knew about it, but even so, they could not wait for them to kill them. Ever since the news of the Chen Martial Continent possessing the dragon vein spread, the pressure on the people in the upper echelons of the Chen Martial Continent was not small, and they were constantly worried that a large group of strong forces would attack them.

The various sects in Chen Martial Continent did not want to remain in a passive position, so they retaliated, fighting back with all their might.

When Chen Xiang went to the sects, he saw many young faces. Although the disciples were young, they were all strong, there were many in the Nirvana Realm, and some of them even went through the seven or eight tribulations of the Nirvana Realm.

Chen Xiang obviously did not want to send such young and talented disciples to their deaths, so he went to White Tiger profound Realm.

When the White Tiger heard that Chen Xiang was going to attack Fire Divine Palace, it was a little surprised. It thought that all this while, the information that it had received would be that the Fire Divine Palace would attack Chen Martial Continent at any time, but now, everything had been reversed.

"You want to borrow the members of our White Tiger Fighting Race." After all, Chen Xiang's Dragon Subduing School and Chen Martial Continent did not have a strong Ranker like the Immortal King Immortal Monarch. If the Immortal Monarch took action, no matter how strong the elites they sent over would be, they would all die.

"Yes, there is a very powerful Immortal Monarch in the Fire Divine Palace. He cultivated the divine way and easily killed that Vice Sect Leader of the Divine Devil Cult." Chen Xiang said: "When the time comes, you all can avoid coming out to fight, as long as you stop those Immortal Monarchs, it will be fine."

"Divine Devil Cult, that fellow who cultivates both gods and demons has indeed established his own sect. However, according to his surname, this Divine Devil Cult shouldn't be anything good."

However, you're different, I can ask Bai Zhan to bring some little fellows over. No matter what, I am still the Great Elder of the Dragon Subduing School. "

Chen Xiang had let him obtain the Dark Rule spiritual bead, and had allowed him to grasp the terrifying power of the Ancient Code. Just by this point, he felt that it was difficult to repay Chen Xiang.

Chen Xiang was the patriarch of the White Tiger Fighting Race, so he didn't know how strong he was, but it was fine if he was strong. He led the two old men and the thirty young men to follow Chen Xiang out of the White Tiger profound Realm.

Bai Zhan was extremely familiar with Dragon Subduing School, upon his arrival, Lan Lan, Yan Yanran, Duan Sanchang and the rest all rushed over to pay their respects. They had been together for a while, and were very respectful to this benevolent looking old man.

At this time, Yan Yanran and the others were even more sure that Chen Xiang had returned, it was just that he had hidden himself, otherwise, they would not be able to invite Bai Zhan and the others here.

[Chapter 1256](#)

Where the Fire Divine Palace was, many people did not know. Because the headquarters of the Fire Divine Palace was a secretive place, they had definitely considered the possibility of being attacked by others.

Everyone only knew that Fire Divine Palace had a profound Ice City over there, but that was definitely not the Fire Divine Palace's headquarters.

Chen Xiang was now thought to be sealed inside the profound Ice City, guarded by a Immortal King herself. However, when necessary, this Immortal King could come out.

Didn't you follow them to the Devil Realm last time? Long Xueyi reminded Chen Xiang.

"Wang Qiongjin is a Devil Cultivator, so it's not bad to be at Devil Realm, but I feel like the place she stayed at last time wasn't Fire Divine Palace's headquarters." Chen Xiang said.

Now that everything was ready, he just had to clearly investigate the situation in the middle of Fire Divine Palace.

Only Chen Xiang was qualified to do such a thing.

Chen Xiang first came to the Devil Realm. He wanted to look for the core members of the Fire Divine Palace in order to find out where the Fire Divine Palace's headquarters was.

"Fire Divine Palace should be like you guys, nurturing some outstanding disciples and waiting to attack Chen Martial Continent." Long Xueyi said.

Chen Xiang searched through a few cities in Devil Realm, but he was unable to find anyone.

"They have joined up with the demons, I think they should be together, if they were to attack, they would definitely not establish a good Transmission array in the Chen Martial Continent like last time. That would only end up killing the people there, so they should also be using an array disc, the Fire Divine Palace does not lack these things."

Chen Xiang thought for a moment, then continued: "When the time comes, the demons will definitely be one of the main forces, and it will also be the type to charge and charge, with so many of them, the combined power of the demons will definitely be quite a lot, so the Transmission array that they are using here should be very large, the demons and the Fire Divine Palace's disciples should be gathered together, to facilitate the teleportation, and do not need to build too many Transmission array s."

"If you want to build this kind of gigantic Transmission array, you have to rely on a relatively large Sparite vein. There aren't many Sparite vein in this group of demons, so you'll understand after checking a bit." Long Xueyi said.

The Demon and Devil Realms also used Spar, but Chen Xiang had many of these things, so he quickly obtained news about all the Sparite vein in the Devil Realm and the Devil Realm.

In the end, Chen Xiang decided to head towards the area where the Demon and Devil Realms met up with the Sparite vein.

Because the two Sparite vein were not too far away and were located on either side of the Demon and Devil Realms, if they were used in this way, it would not cause any conflicts between demons and the establishment of the Transmission array would also allow them to borrow the energy of the two Sparite vein.

The Demon and Devil Realms's Sparite vein were not dominated by one force like the Human Realm's, because there were simply too few Sparite vein here. So most of them were developed together, and if one wanted to occupy them, that was fine, but that was only if one had extremely strong power, and could defend against multiple forces.

Chen Xiang travelled through the night, and there were many people waiting for their news. As long as he replied them and opened the array, Chen Martial Continent, Dragon Subduing School and the others would immediately send their specially trained elite disciples to kill him.

Of course, the first batch would definitely be the five hundred people from Dragon Subduing School who used Death-haunting arrow.

Only after running for about ten days did Chen Xiang get close to that place. He also asked around along the way and found out that it was relatively dangerous because those powers that divided up such large Sparite vein s would not allow anyone to get near them. If they were discovered, they would usually be killed.

This place was filled with bare high mountains. If one looked for miles, they would see desolation, but the spiritual energy here was extremely rich.

Chen Xiang used his mind to explore around, and arrived at the place with the densest spirit energy. That should be the place above the large Sparite vein, and the divine soul that he used to explore from there looked down from high up in the sky, and he discovered that there were caves all over the huge mountains below. Some of the huge mountains were even covered by the large formation, and there were even many Devil Cultivator s who were not weak patrolling around.

It had to be known that in the Devil Realm, just the names of those few great devils and powers were enough to scare many Devil Cultivator, and many Devil Cultivator did not dare to approach them.

Chen Xiang felt that he found the right place, the Heaven Tour was much more nimble than him, he had already activated it and split into many different sets of divine soul, going through the array formations and entering the caves.

"No one from Fire Divine Palace, but there are indeed some with decent strength training inside. This place is still not their base." Long Xueyi said.

Chen Xiang looked in one direction. It was the place where the Devil Realm and the Devil Realm met.

Passing through many bare mountains, Chen Xiang suddenly felt the aura of a weak array formation in front of him. If not for the fact that he and Long Xueyi were divine cultivators with strong divine powers, it would be difficult to discover them.

The mountain here was even taller than before. Moreover, it was not as bare as before. There were all sorts of green trees on it, giving off a lively vibe.

Chen Xiang ran all the way here. He did not dare to fly in the air, afraid that he would be discovered.

"If you touch that formation, it might be troublesome. It should be here." Long Xueyi said: "I will go investigate first. I think they are hiding underground and from a high altitude, I can see that they are all green mountains. They do not have any buildings, but they have a very powerful formation."

Chen Xiang patiently waited for the results of Long Xueyi's investigations. Half an hour later, Long Xueyi's voice became serious: "It's right here, but the overall strength of these fellows are indeed very scary, I never expected them to secretly train so many top-notch powerful demons, as well as fire elementalists of the Fire Divine Palace. If they were to attack the Chen Martial Continent at the entrance

that they just recruited, even if the sects of the Chen Martial Continent can retreat, the civilians above would definitely not be able to escape the doom."

Chen Xiang asked anxiously: "What kind of strength do you have?"

Seeing how nervous Chen Xiang was, Long Xueyi laughed, "There are a lot of Nirvana Realm demons, but you don't have to worry. If there's a surprise attack, winning over a few will not be a problem, they built a huge underground palace. They can open up the formation plates there and teleport people here for a surprise attack."

Chen Xiang used the power of the spatial laws to travel through space, passing through the powerful formation, then turned into a small flying bug, and flew towards the direction that Long Xueyi had discovered.

He carefully flew for an entire day before finally arriving at the underground palace. It was indeed huge, even bigger than the one he met in the profound Cold Ancient Realm. It was just that it was not as strict as the one he met in the profound Cold Ancient Realm because it was filled with humans, demons and monsters.

[Chapter 1257](#)

Below, there was a very large plaza. There were many disciples of the Spirit Demon and Fire Divine Palace were sparring and conducting combat training. There were many strong warriors present to guide them.

When Chen Xiang came to this place, he understood why Long Xueyi was so serious when he spoke earlier. Within this incomparably enormous underground plaza, there were tens of millions of people gathered here.

If such a power suddenly descended upon the Chen Martial Continent, then the consequences would be unimaginable. It would definitely cause the Chen Martial Continent to lose a large amount of blood.

The demons in this place were extremely vicious. Although it was just a spar, sometimes it was more real. They killed each other to death, and sometimes, there would even be mass fighting.

The thing that made Chen Xiang most disgusted was that once the demons died, a group of demons would immediately pounce on him and snatch their bodies away, so the disciples of the Fire Divine Palace were all far away from the demons.

Not long after entering, Chen Xiang saw many demons that had just died, and were so strong that not a single strand of hair remained. When the blood dripped down, a group of demons would rush to lick it, causing Chen Xiang's scalp to go numb.

"Fire Divine Palace." Chen Xiang looked at the tens of thousands of Fire Divine Palace disciples in the distance. Although they did not have many people, they were all very strong and were elites, different from the Fire Divine Palace disciples that Chen Xiang had talked about.

"If you want to kill them, you have to kill these Fire Divine Palace fellows first." Chen Xiang was secretly furious in his heart. Fire Divine Palace was a force of the Human Realm, but now they had to join hands

with the fierce demons to attack the Human Realm. Once this group of demons reached the Chen Martial Continent, all they had to do was leave and it would be easy to control them.

"I can't sense the presence of the Immortal King, but the Immortal Monarch that cultivates the divine way is here." Long Xueyi said.

"Looks like I can only let Bai Zhan come over first."

Chen Xiang looked at the underground plaza and sneered in his heart, "You guys dug a good grave yourselves."

Of course, Chen Xiang really wanted to destroy this place in one breath, but the array protecting this place was very strong, even Immortal King would not be able to destroy it.

"Let the five hundred life roaming crossbow guards kill their elites first, and then send the disciples of the other sects over to deal with the demon using their combat skills."

Chen Xiang believed that, in this place, only the elites of the Fire Divine Palace was a huge threat. If those demons were to face a person who was proficient in the art of beheading demons, they would become extremely weak.

Chen Xiang quietly turned into a Devil Cultivator, walked to a resting place on the side, and then slowly approached the area where the group of Fire Divine Palace disciples were. At the same time, he used his Communication jade Symbol paper to transmit messages, telling those who had been waiting a long time, that the great battle was about to begin.

"Senior Bai Zhan, come over here first. There's a very powerful Immortal Monarch here, you might have to make a move when the time comes." Chen Xiang sent a message to Bai Zhan.

Bai Zhan brought 32 white tigers over, two of them were old white tigers, they were very strong as well, and as for the 30 young white tigers, they were not weak either. Long Xueyi had said it before, these white tigers would basically all be able to return alive, unless very strong people attacked them, Bai Zhan and the two old white tigers would definitely stop them.

On the other side of the Dragon Subduing School, the five hundred people held onto Death-haunting arrow, stood in the same Transmission array as Bai Zhan and waited for Chen Xiang to use the formation plate to guide them over.

When the disciples of the Fire Divine Palace saw that one of them had reached the boundary, they immediately frowned.

The boundary was wide, with a distance of over a hundred feet, the demons would not be able to enter into this boundary, and some of the Fire Divine Palace disciples had already shouted out loudly.

Chen Xiang immediately stopped, but the Fire Divine Palace disciples still took action, a long sword shooting over, the Fire Divine Palace disciples all had a teasing smile on their faces, as though they were hunting their prey, thinking that they could kill their prey with one strike.

But, the sword was actually waved away by Chen Xiang, and when he waved his hand, it released a ray of golden light, which immediately expanded out and turned into a wave, rippling towards the monsters.

The monsters that were swept away by the light immediately turned into white ashes, as though they had been cleansed.

The Devil-suppressing holy power that Chen Xiang used was not a joke, it was the super strong flames that he had just levelled up, it was easier to kill these demons than ants.

Seeing this scene, the disciples of Fire Divine Palace were stunned, the demons were also stunned, Chen Xiang then took out the array disc, and placed it at the place where it was cleared out, the array disc appeared, and quickly expanded, it was around a hundred metres wide, and Chen Xiang was also shocked by the array disc, he never thought that Divine Weapons Heavenly Country would produce it so quickly, he suspected that Divine Weapons Heavenly Country had already refined it long ago, and had only processed it slightly.

When the array disc appeared, it immediately became the largest. Before anyone could react, it lit up with a bright white light, then five hundred Death-haunting arrows appeared, followed by the black clothed man who had already finished condensing the Innate Qi poison arrow. Bai Zhan and Duan Chong followed beside him.

"Kill!" Chen Xiang roared, and those five hundred black clothed men immediately jumped out of the array disc, and shot their Death-haunting arrow towards the group of Fire Divine Palace disciples who had just reacted.

These black clothed men were all trained, their bodies were all strong and powerful, they all had pills in their mouths, and they also brought some with them. What they wanted to do was to quickly release Innate Qi, so that the Innate Qi could absorb the poison from the bottle on top of the Death-haunting arrow, condensing it into a powerful Innate Qi poison arrow.

Swoosh, swoosh, swoosh.

The tens of thousands of people were already blocked, attacking, and dodging, but none of them could get close. As long as they were hit by the poison arrows, they would immediately lose their ability to attack.

In just a short moment, the bodies of many disciples from the Fire Divine Palace had exploded into bursts of black blood, and the entire ground was filled with a pungent smell.

At this time, the demons also attacked, and the Transmission array plate lit up again. This sudden group of disciples from the Dragon Subduing School were led by Yun Xiaodao, Zhu Rong, Xu Weilong, Teng Ying, Lian Mingdong and the team led by them. Each of them had around 10,000 points of strength, and the moment they appeared, they rushed towards the direction where the evil demon Qi was extremely dense.

Within this underground palace, roars and screams filled the air. Killing intent surged in the air, and the scene was extremely intense.

More and more people started to be transferred over. The Divine Weapon Sect, Icy Wind Valley, Super Martial School, Lotus Island and those people from the White Tiger Fighting Race, in a short period of time, hundreds of thousands of elite disciples were being transferred over.

"You bastards." An angry roar rang out, carrying a berserk pressure with it. Some people were so shocked that they vomited blood.

The Immortal Monarch who trained in the divine way was about to attack.

[Chapter 1258](#)

The Immortal Monarch only knew that there were people ambushing this place, but when he came out, he saw that most of the Fire Divine Palace's disciples were lying on the ground, and their bodies had exploded one after another into a pool of blood. He was enraged, and with a wave of his hand, he used Fire cloud palm.

Just when everyone felt the terrifying pressure, a strong killing intent appeared out of nowhere and Bai Zhan also took action, transforming into a white shadow, he instantly appeared above and punched at the gigantic flame palm, the White Tiger Fighting Race's berserk power exploded out like a white tiger's roar, causing the entire plaza to shake slightly.

The destruction of the Fire cloud palm by Bai Zhan's fist caused the Immortal Monarch to be extremely shocked, he never thought that his opponent would have such a powerful expert.

It was very possible that this place would be destroyed. Bai Zhan was also afraid of hurting his own people, so he immediately ran to a place far away, then the Immortal Monarch would naturally chase after him. If he could severely injure one of the s, then that would be a great accomplishment, although many of Fire Divine Palace's disciples would be killed by him.

The disciples that were transferred from the Chen Martial Continent had all learnt the Demon Subduing Martial Arts, especially the core students and teacher level experts of the Devil-subduing College. They were even more powerful.

"You Lan, where's Xianxian? Hasn't she come?" In the midst of the chaos, Chen Xiang suddenly saw Leng Youlan. Her white hair was extremely eye-catching, furthermore, this violent dragon girl was extremely savage, wherever the big sword in her hand went, blood and flesh would immediately fly everywhere.

Leng Youlan had held it in for a long time, the Divine Weapons Heavenly Country had been attacked multiple times, all they could do was resist, but now it was finally their turn to retaliate.

"She's over there with a group of people." Leng Youlan hurriedly replied.

Chen Xiang shook his head, looking for Xue Xianxian, and indeed saw Xue Xianxian bringing a few older Ranker, specially looking for stronger Spirit Demons to kill, this could prevent the stronger Spirit Demons from attacking the weaker disciples.

"We have to get rid of these demons as soon as possible." Chen Xiang thought, and took out the Green dragon demon-slain broadsword.

The Green dragon demon-slain broadsword that was hiding in the snow for a long time suddenly appeared, and sensed such a strong demonic aura, it immediately became excited. The blade slightly trembled, and released wave after wave of low and low dragon roars filled with might.

Many people here knew that the terrifying aura that suddenly appeared was from the Green dragon demon-slain broadsword.

The one who planned the ambush was Chen Xiang, but only a few knew of it, and the people who came here, were all clan elders of the sects who were familiar with Chen Xiang, as well as a few elite disciples.

Chen Xiang suddenly appeared here, and the surprise attack was so smooth, everyone immediately understood that it must be because Chen Xiang was here.

Furthermore, upon seeing Leng Youlan and Xue Xianxian, they immediately understood that they had all been faking death, luring the Fire Divine Palace to attack the Divine Weapons Heavenly Country on purpose and then lying in ambush halfway there.

Taking out the Green dragon demon-slain broadsword meant that Chen Xiang had revealed his identity. At this moment, many demons were extremely terrified.

The sealed Chen Xiang actually appeared here, and the demons knew that the Fire Divine Palace's seal had failed.

Chen Xiang's body flickered with holy light. Just the aura of the Devil-suppressing holy power from his body was enough to melt some of the weaker demons.

"Quickly kill him." One of the Devil Cultivator roared, and rushed towards Chen Xiang.

In just an instant, dozens of Nirvana Realm Devil Cultivator s rushed towards Chen Xiang from all directions, and even let out terrifying cries from their mouths, as if they wanted to swallow Chen Xiang whole.

With a stomp of his feet, a Tai Chi formed from golden light suddenly appeared under Chen Xiang's feet. It quickly spun, and after the incoming Devil Cultivator s stepped into the Tai Chi diagram, the Green dragon demon-slain broadsword in Chen Xiang's hands stabbed into the ground, and then several Green dragon demon-slain broadsword came out from the ground, spinning with someone on the Tai Chi diagram. The Devil Cultivator s that entered the Array were all smashed into pieces.

This was because Chen Xiang had used the power of the spatial laws to duplicate the Green dragon demon-slain broadsword that was stabbed into the ground.

Dozens of Nirvana Realm Devil Cultivator s instantly turned into a large piece of meat. Some of the stronger demons in the distance saw this and felt a cold shiver down their spines, as they did not dare approach Chen Xiang.

When the others saw this scene, they felt that Chen Xiang had become even more powerful. They didn't know what Chen Xiang had been doing for the past decade, and what he had become so terrifying.

"Seize his divine blade." While speaking, a red blood shadow suddenly leaped towards Chen Xiang.

"It's the Seven Blood Bat Demons, Chen Xiang is dead for sure, the seven Blood Bats are all from the Demon Immortal Grade, they are fast, have fierce attacks, and can suck his blood in an instant." A demon sneered.

Sensing that there were actually seven dangerous auras pressing down on him, Chen Xiang laughed coldly in his heart. If it was before, he might have felt a lot of pressure if he still had not cultivated Body of Heavenly Sage, but with his current physical strength, he could stand shoulder to shoulder with a

Worldly Immortal. He was not afraid even if he was in the late stage of the Worldly Immortal Stage, let alone these demons.

If it was a demon, it would be easier to kill.

Chen Xiang suddenly took out a copper mirror. As soon as the copper mirror appeared, Chen Xiang poured a lot of Devil-suppressing holy power s into it, causing the copper mirror to look like a small blazing sun.

"Using Devil-suppressing mirror s is enough to deal with these guys." Chen Xiang threw the Devil-suppressing mirror in his hands into the air, and the light released by the Holy Light Shining Mirror shrouded Chen Xiang's entire body, as if it was a golden domain.

Chen Xiang controlled the Devil-suppressing mirror with his God Power and shot seven rays of light into the body of the Blood Bat Seven Goblin.

The Blood Bat Seven Goblins were accurately hit before they could even get close to Chen Xiang. The Holy Light might not kill them, but it made them feel extremely uncomfortable, causing their speed to become much slower.

Just as they stopped, Chen Xiang disappeared. When he appeared, one of the Blood Bat Demons had already been broken by his hand that was emitting the Holy Demon Suppression Light.

The fusion of the Devil-suppressing holy power and Body of Heavenly Sage made the demon even more powerless to retaliate in front of Chen Xiang.

"Demons, you want to get the Chen Martial Continent, you are too naive, you are just fools used by the Fire Divine Palace, even if the Fire Divine Palace takes the Chen Martial Continent down, you don't even get a fart."

These Blood Bat Demons were unable to defend against Chen Xiang's sudden disappearance and appearance. In the blink of an eye, another one was killed by Chen Xiang with a single palm.

When the sealed Chen Xiang came out, not only did he not become weaker, he became even stronger. With just his power alone, he killed the famous Blood Bat Seven Goblin, Demon Realm.

"They retreated, and let me deal with them. You all going to kill Chen Xiang is equivalent to suicide, don't you all know that he has cultivated Devil-suppressing holy power? He still has Devil-suppressing holy power and Green dragon demon-slain broadsword with him, even if Demon Lord comes, he would probably be injured."

An old man whose entire body was covered in blazing flames landed in front of Chen Xiang. His entire cannon was wildly dancing, and his eyes were blazing with fire.

"It's the Fire Divine Palace again." Chen Xiang released his divine power, enveloping a large area of demons. After that, he slashed down, and countless Green dragon demon-slain broadsword suddenly appeared out of thin air, slashing onto the demons that were locked on by Chen Xiang's divine power.

In but a single blow, more than a hundred thousand monsters had perished.

"Using the space laws really consumes a lot." Chen Xiang knew that the power of the spatial laws could be used in many different ways. Not only could it be used to dodge, it could also be used to attack in a large area.

"Little Rascal, do you really think that you can win against us here today? You guys came here today just to die, you're overestimating yourselves. Don't think that our Fire Divine Palace only has this much power." the old man said angrily.

"The old man here is from the Late period of human immortal, do you need help?" Long Xueyi asked.

"Not now."

The old man had already launched his attack. His first attack was a very fierce one. Countless fist-sized palms came flying towards him. The powerful palm along with the powerful flames created a huge crater on the ground.

Within a circumference of three hundred meters, it was enveloped by countless fire palms. Veins popped out on the elder's forehead as he frantically attacked Chen Xiang.

Seeing that the Fire Divine Palace warriors were about to attack Chen Xiang, many demons felt at ease. At this time, in a few caves at the side of the underground palace, a large group of people dressed in the clothes of Fire Divine Palace suddenly ran out.

"The heavyweight of the fiendish demons is here."

Chen Xiang rushed out of the sea of flames, waved his Green dragon demon-slain broadsword and slashed at the old man. Canglang Slash, Lightning Slash, and Angry dragon slay struck out continuously, and the old man could only block them all in the face of this berserk attack.

"Old dog, I don't have time to play with you here. I can only send you on your way." Chen Xiang activated his Ground killing, and the earth suddenly started to shake violently. The ground started to shake crazily, and all of the shaking power that exploded out from the ground rushed into Chen Xiang's body.

"Boom." Chen Xiang waved his blade and attacked ferociously, like lightning.

The old man from Fire Divine Palace was shocked when he saw the situation. He did not have time to dodge and could only use the greatsword in his hand to block.

The power of the earthquake was one of the scariest powers on earth, but Chen Xiang was able to use this power right now. It could absorb this power into his own body, and then release it to shake a single target.

Ka, before the sword in the old man's hand could touch Chen Xiang's divine blade, it was shattered by the formless ripple.

When the divine blade swung down, the old man could only release all the Innate Qi in his body, forming a defensive barrier.

An incomparably violent shockwave landed on the old man's body. The ground immediately cracked like a spider web, and the shockwave and sound waves crushed the surrounding corpses into dust.

He knew that Chen Xiang had not gone through the Nine Nirvana Tribulation. The current Di Tian, after going through the Nine Nirvana Tribulation, would definitely ascend to Heaven Realm. No matter how strong Chen Xiang was, he would not be able to avoid this rule.

What he did not know was that Chen Xiang's fleshly body would have already transcended the mortal realm and become a saint's body. Although it was only at the initial Body of Heavenly Sage, with the other powers on Chen Xiang's body, he would be able to compete with the experts of the Late period of human immortal.

After Chen Xiang unleashed his blade, he knew that the old man in front of him was not ordinary. Just by using the Innate Qi on him, he was able to block his attack.

"Let's see how many moves you can block." Chen Xiang shouted, and the ground shook again as he transmitted a strong vibration to Chen Xiang's body.

Chen Xiang slashed down again, releasing the vibrating power that was entering his body.

Seeing that Chen Xiang had such brutal strength, the demon powerhouses who had come to reinforce him did not dare to come closer. The Green dragon demon-slain broadsword in Chen Xiang's hand was their nightmare, not to mention them, even the powerful Fire Divine Palace had no choice but to be continuously attacked by Chen Xiang and could only resist.

Chen Xiang's crazy attacks, hacked at the old man time and time again, all using the seismic power from the Ground killing. Adding the power of his Body of Heavenly Sage, he might attack the old man with his life, but he did not believe that he would not be able to break through the old man's defense.

"This little bastard is really giving it his all." The old man was extremely shocked. Chen Xiang's every blade did not show any signs of his strength weakening, and he was getting stronger and stronger.

Seeing Chen Xiang being able to escape the seal, the divine way Immortal Monarch in the distance was extremely shocked, because he was very clear on the power of the seal formation. He quickly thought about what had happened all these years and guessed that it was related to Chen Xiang, while the hall master of his Fire Divine Palace was like a silly hat that had been bitterly guarding the place for many years.

"Little bastard." The Immortal Monarch could not help but curse. He pointed his finger at Chen Xiang and released a hot stream of flames that entered Chen Xiang's body in the blink of an eye.

"Someone like you, hurry up and die. You don't even know what your cultivation is, you're actually plotting against someone so much weaker than you." Bai Zhan was furious, a set of white armor suddenly appeared on his body, his eyes were completely red, his fist had also turned into a pair of big tiger claws, the sharp claws, seemed to be able to tear apart everything.

What shocked the Immortal Monarch the most was the tiger tail on Bai Zhan's waist. Adding the killing intent on Bai Zhan, he knew the background of this old man whose killing intent was so berserk.

White Tiger Fighting Race, and one of the super strong ones at that.

Not giving the Immortal Monarch time to think, Bai Zhan's claws had already reached over, digging out a few wounds on his arm that could even touch bones.

Bai Zhan was furious. After transforming, his power had increased a lot as he attacked the Immortal Monarch fiercely ... On Chen Xiang's side, after he was ambushed by the Immortal Monarch, he was only sent flying. His body was very strong, and with the protection of the profoundwu diamond armour, he didn't receive any injuries.

Seeing that Chen Xiang was sent flying, the old man immediately rushed forward, releasing all the energy in his body into his fist and struck towards Chen Xiang. The intense heat caused some of the demon corpses in the distance to be burnt to ashes.

"It's great that you're here." Facing such a powerful punch, Chen Xiang did not feel any fear. At the same time, he welcomed the punch with his own.

The two fists collided, and a huge fireball appeared, covering a radius of several hundred meters. The semicircle of flames in the air were like a giant mushroom, and the entire underground palace was engulfed by the heat wave.

After the old man threw a punch earlier, he did not harm Chen Xiang and was extremely furious. At this moment, he felt that his body was slightly cold and he wouldn't be able to disperse the heat in his body even if he were to trigger it.

After Chen Xiang saw that his opponent had been hit by his Hail magic wind, he immediately withdrew his Green dragon demon-slain broadsword. If he had to use the Green dragon demon-slain broadsword to attack directly, even if he could defeat his opponent, he would have to expend a lot of energy. Right now, many people were waiting for him to use up most of his energy before besieging him.

"You ... "How dare you underestimate me." When the old man saw Chen Xiang keeping the Green dragon demon-slain broadsword, he was immediately enraged and was about to punch.

However, Chen Xiang had already rushed over extremely quickly, and his punches were even faster than his. His fists were like countless of lightning, and when his fists landed on the body of the elderly man, he released true berserk lightning. At the same time, he imbued traces of Hail magic wind into the elderly man's body.

The Hail magic wind only numbed the old man's feelings and consciousness, causing him to think that he was sealed in ice. At the same time, he would also feel cold, so cold that he couldn't release his powers, but the old man wouldn't discover it, he would only feel a cold energy invading his body, thus he would constantly incite fire energy to expel the cold.

After a series of crazy punches, the old man was already shivering from the cold.

"This must be... It's the Hail magic wind." This old man could be considered very knowledgeable. After confirming it, he started with his own consciousness, but the problem was that he didn't have the time to do so.

"That's right, but it's too late for you to recognize him now." Chen Xiang's palm landed on the old man's chest hastily. This was the power of the Bone-melting magic palm, it directly melted away half of the old man's body, causing his bones to soften.

If it was before, it would definitely be difficult for Chen Xiang to get to him using the Bone-melting magic palm, because the opponent's Innate Qi was truly very strong and could defend himself. But after being invaded by the Hail magic wind into his consciousness, the old man's entire body was paralyzed by ice and it was difficult for him to activate the Innate Qi.

Without the bones, the old man's body would not be able to hold up and break together. Even if he could circulate the powerful Innate Qi in his body, he would not be able to unleash its full power.

"Fire Divine Palace will definitely disappear from Di Tian today."

Chen Xiang called out the Divine Blade, and slashed at the elderly man on the ground, using the power of earthquake, adding the huge force of the Divine Blade, the Divine Blade could not even touch the elderly man's body, and had shattered him into pieces.

"Dead."

Many of the Fire Divine Palace's disciples felt a chill in their hearts. One must know that the old man was a stronger elder beneath the Immortal Monarch of the divine way.

After killing the old man, Chen Xiang ran over to Leng Youlan's side, because some strong demon powerhouses were attacking her.

"Youlan, I'll come help you." Chen Xiang leaped over, chopped off the arm of a Devil Cultivator who was swinging his sword, and then came to Leng Youlan's side.

"Bro, are you okay? So many strong guys were cut by you, you're really amazing." Leng Youlan also did not expect Chen Xiang to be even more brutal than she was.

"You Lan, don't hide anymore. Reveal all your strength, I believe you won't just have this little bit of strength." Chen Xiang laughed.

Leng Youlan had the White Dragon Vein, and her White Dragon Vein had already been awakened, so she also had some memory inheritances. However, she had not used any of them here, so it could be seen that she was hiding them.

Leng Youlan laughed loudly: "Brother, watch carefully, don't be scared by me."

After that, a burst of white light lit up Leng Youlan's body, the big sword in her hand turned into a coiling dragon white longsword, the tattered armor on her body had disappeared, and a set of snow white awe-inspiring armor that looked like a dragon had appeared. Her white hair was decorated with dragons, making her look extremely tyrannical and majestic, especially the tyrannical dragon Qi that was emitted from her body, making people think that she was a dragon.

[Chapter 1260](#)

The sudden appearance of Leng Youlan gave Chen Xiang a big fright, especially the aura of the Dragon Power that she was releasing, it was extremely powerful.

After transforming, Leng Youlan's strength had increased by a lot. When he brandished the greatsword and attacked the Demon Dao experts, the powerful Sword Qi that came out left bloody marks on the bodies of the Demon Dao experts.

Seeing that Leng Youlan had that kind of strength, Chen Xiang was no longer worried, after killing the few Devil Dao Innates, he ran towards the group of Fire Divine Palace Innates, all of them brandishing his Divine Blade, forming a bloody path, killing a large amount of Spirit Demon beings.

The reinforcements coming from the Fire Divine Palace were also very strong. After feeling the pressure, Teng Ying and Xiao Chou also released their strongest power, causing Teng Ying to transform into a Kylin thunder eagle. He flapped his steel wings, and his stiff wings shot out like a short arrow, engulfing the group of demons like a storm, killing them in an instant.

On the other hand, Xiao Chou turned into a giant, using his Great Strength Race Spirit Qi, he punched the ground, the force of the punch could shake all the demons in the area to death, the power was extremely terrifying.

"Not good, there's a very strong guy approaching You Lan." Long Xueyi suddenly shouted out, and then she left the ring.

Leng Youlan's body had White Dragon Vein, in Long Xueyi's eyes, it was equivalent to being her family.

With Long Xueyi personally coming out, Chen Xiang did not have to worry, and now, the people from the Fire Divine Palace that came out from the depths of the Heavy Earth Palace were all quite strong.

Therefore, Chen Xiang had to stay here and stop this group of people. At the same time, he also called for White Tiger Fighting Race's group of young white tigers to kill these demons, to these white tigers, killing them was not a challenge at all.

With White Tiger Fighting Race joining them, Chen Xiang became much more relaxed. The people of Fire Divine Palace were also blocked and were fighting against Chen Xiang and the others.

Long Xueyi came out of the ring and immediately came to Leng Youlan's side. Just as she arrived, a short and skinny person came flying over. It was actually a demon, and one that was extremely strong at that.

"Damned smelly bird, you're so amazing, you actually dare to bully a little girl?" Long Xueyi bellowed, he waved his hand and released a red light that struck the short elder.

Leng Youlan also felt the scariness of the short elder, and at the same time, was curious about the identity of the woman who suddenly appeared beside her.

After the short elder dodged the ray of light, he said in shock, "Could it be that you are the very high Elder?"

When Long Xueyi killed the three Dragon Slaying Clan members who came to provoke him, his reputation rose greatly. The Dragon Subduing School seemed to be more powerful than the Great Clan Elder, and thus, caused many people to pay attention to him.

"You do know me, my aunt." A white sword appeared in Long Xueyi's hands. She shook it lightly, and the sound of the sword rose up like the roar of a dragon, releasing a white light that made the surrounding demons feel even worse than when they were facing the Devil-suppressing holy power.

"What is this?" The short elder had the strength of a late stage Demon Immortal, but this sword made him feel incomparable fear.

Chen Xiang could also feel the power of the sword from afar, "It must be the White Dragon Sword, and this Little Naughty Dragon tricked me saying that she lost it. It was clearly by her side."

Long Xueyi gently waved the White Dragon Sword in his hand, seemingly very casually and simply, but he released thousands of gigantic White Dragons, which intertwined together and rushed towards the old man, forming a gigantic white wave that soared to the sky, slapping the ground to cover him completely.

Long Xueyi continuously brandished the white dragon sword in his hand, and waves after waves of white dragon waves rushed out like monstrous waves, drowning a large portion of the plaza. But strangely, only the demons who were already at Fire Divine Palace would be affected by that kind of power, and the others would not be harmed at all.

Just with a few moves from Long Xueyi, majority of the demons in the plaza had already been cleaned up and turned into dust by Long Xueyi's strange and terrifying power.

"I knew that this Little Naughty Dragon was very powerful, otherwise she would have let me down. I fed her a lot of food." Chen Xiang thought in his heart. The Dragon Tide that Long Xueyi had released all came to him as well, and all of the disciples of the Fire Divine Palace were killed, leaving only white ashes.

Only some of the stronger demons had not suffered, but when they saw that their opponent had such a powerful being, their hearts filled with fear.

"This is the legendary very high Elder. A woman is actually this powerful."

"It looks like we'll win this time."

At this time, some people felt much more relaxed and began to discuss in low voices.

"You ..." Leng Youlan looked at Long Xueyi, speechless, and she didn't know why.

Long Xueyi stroked her white hair and laughed: "Work harder, you still have a long way to go."

Leng Youlan nodded, she could clearly tell now that the woman in front of her was a dragon, and a white dragon at that. She had a huge relationship with her, and ever since she awakened her White Dragon Vein, she knew that the White Dragon bloodline was extraordinary even after obtaining the inherited memories.

Long Xueyi disappeared in a flash and returned to Chen Xiang's ring. Just now, she had released such a big move, she must have consumed a lot of energy, so she was in a hurry to go back and eat to replenish her energy.

"Youlan, are you alright?" Xue Xianxian walked over to Leng Youlan's side. Seeing that Leng Youlan had changed into such a state, she was also shocked.

"What could have happened to me? It's you, Senior Sister, who is covered in so much blood. Are you hurt?" The normally crude Leng Youlan asked worriedly.

"It's all someone else's blood. I'm fine." Xue Xianxian laughed and continued: "Let's go together."

Long Xueyi's previous move had let everyone heave a sigh of relief, they had all gathered together and rushed towards the group of demons, and the people from Fire Divine Palace were almost all dead.

Chen Xiang rushed at the front and used his Green dragon demon-slain broadsword s and Holy Devil-suppressing seal s to attack the demon leaders. No matter how strong the demon powerhouses were, they felt powerless in front of these two divine instruments that specialized in suppressing demons.

It had only been more than two hours, but of the tens of millions of demons, only a few million were left.

"Stop." A burst of strong light suddenly appeared in the square that was filled with the aura of death, following that, he saw a large group of Fire Divine Palace people standing on an array disc.

It was actually the Hall Master of the Fire Divine Palace and Wang Qiongjin. The two Immortal Kings of the Fire Divine Palace had come, but most of the Fire Divine Palace disciples here were already dead.

Bai Zhan immediately retracted his hand and came to the side of Chen Xiang's group. At this moment, Chen Xiang's group was more than thirty meters away from Fire Divine Palace, and both sides were filled with killing intent. The demons behind Fire Divine Palace's group shouted as they escaped.

Fire Divine Palace's Palace Master looked at Chen Xiang who was holding onto a Green dragon demon-slain broadsword, his expression extremely ugly. He did not know when Chen Xiang came out, and even though he had guarded there for more than 10 years, Chen Xiang still ran out without him even knowing.

"When did you come out?" This was something that the Palace Mistress wanted to know the most. Similarly, everyone else also wanted to know.

"The second year after I was sealed, I came out." Chen Xiang said lightly: "Don't worry, I won't treat you as an idiot. You being able to stand guard there for ten years, I still admire you a lot."

Although Chen Xiang said this, it was to tell the Palace Master that you are a fool.

Everyone was secretly laughing in their hearts. He had only been sealed for two years, but he had guarded this spot for over ten years.

Of course, the reason why Chen Xiang lied just now was to piss off this Palace Master.

Wang Qiongjin asked with overflowing anger. "You were the one who did this to Sacred Fire School."

Chen Xiang had already heard from Su Meiyao that the Immortal King in the Sacred Fire School was Wang Qiongjin's little lover. The matters in the Sacred Fire School were indeed done by him, and he even killed the Immortal King.

That was why he immediately denied it: "It has nothing to do with me, I really did plan to make a move on the Sacred Fire School. I stayed nearby for a while, and found that it was difficult to make a move, but in the end, it was destroyed by the Divine Devil Cult."

Divine Devil Cult.

At that time, they suspected that it was the Divine Devil Cult who did it, and after the Divine Devil Cult killed their people, and now that Chen Xiang said it, they believed it silently.

The Divine Devil Cult had already been eliminated, and there was no way to prove it now. Therefore, Chen Xiang decided to blame the Divine Devil Cult for this, although killing the Immortal King was a glorious thing, but it would bring Chen Xiang a lot of trouble. Especially now, there were two Immortal Kings in front of him, and one of them was the deceased Immortal King's lover.
