

Dan God 1311

[Chapter 1311](#)

When everyone arrived at the place, Huang Jintian had already stopped his attacks. Although they could not see his Demon Punisher Palm, there were still many people who were familiar with the aura emitted by his palms.

"You actually dared to attack me, and even used the Devil Slayer Palm." Wang Qiongjin was furious. If she had been hit just now, even if she did not die, she would at least lose a layer of skin.

"So what? I still want to kill you." Huang Jintian also glared at her.

Then, he kicked Wang Qiongjin and the others to apologize. He just did not understand why the people of Devil-killing Summit would choose to refine pills for the sake of earning Spiritual crystal, but when he saw that Huang Jintian's strength was not very strong and that Chen Xiang was only able to refine high grade Ground level pills, he guessed that he was a disciple of the Devil-killing Summit who was scattered outside. It was possible that he was looking for the master of the Devil-killing Summit.

This kind of thing happened a long time ago. People who were related to the Devil-killing Summit were all very strong, especially when it came to alchemy.

"There's nothing left to do here. Everyone, go back and leave. This little brother Yan is still concocting pills for me. If you stay here, you will disturb him." The Sixth Prince left with the rest, and didn't ask Chen Xiang about other things.

After everyone had left, Chen Xiang heaved a sigh of relief and said: "This Sixth Prince really knows how to act like a human being."

"If not for this, he would have met so many powerful people." Huang Jintian's expression was a little serious as he transmitted his voice to Chen Xiang, "Tomorrow, after we hand over the last Relive Dan, we will leave quickly. We cannot stay here for too long, there are a lot of enemies in Devil-killing Summit, both you and I have been exposed.

"Master, you really are someone from the Devil-killing Summit. How is it that I don't know when you joined them?" asked. The Devil-killing Summit was only what Bai Youyou and Su Meiyao had told him. He did not understand much about the Devil-killing Summit, but he knew that the Devil-killing Summit was very powerful, so he guessed that Su Meiyao and Bai Youyou came from the Devil-killing Summit.

"Aren't you?" Huang Jintian asked in surprise.

"I... "No, I just heard about it." After Chen Xiang finished speaking, he changed his words: "Perhaps it can be considered to be true. In short, I have some connections with the people of the Devil-killing Summit."

"Nonsense, you must be. I am the Devil-killing Summit's, you are my disciple, and right now you are the Devil-killing Summit's." Huang Jintian patted his shoulder.

"Ah... The Demon Punisher Palm is so powerful that it scares that old woman's face green." Chen Xiang smiled and asked, they were secretly communicating through sound transmission.

"That won't be easy to learn. I'll ask my teacher about that when I see him in the future and have him adapt it for you to learn." Huang Jintian said: "You go and concoct pills first, leave this place as soon as possible. I have mastered the strength of those fellows, now I want to see what they want with so many Relive Dan."

Chen Xiang entered the secret room. As he came out with the herbs, he asked Long Xueyi. A group of experts had just arrived, but he couldn't see the strength of these experts.

The whole body is very strong, that's why your master chose to leave. Amongst them, there are four Dragon Kings and at least ten Immortal Kings, and if we were to fight, it would be somewhat difficult to fish in troubled waters. However, we can only temporarily leave the palace.

Long Xueyi was also shocked by the reinforcements invited by the Sixth Prince. A Dragon King was a very strong one.

"What's with the Devil Slayer Palm? Is my master really from the Devil-killing Summit?" Chen Xiang said.

"Of course, the Devil Slayer Palm is an ultimate technique of the Devil-killing Summit. Even if there is a cultivation technique, not everyone can learn it. It is specially written by people from the Devil-killing Summit for disciples, and can be learned by people with different cultivation directions. Junior Sister and I are both people of the Devil-killing Summit, and our master, the Ruthless Devil Venerable, is also from the Devil-killing Summit." Bai Youyou said.

"Devil-killing Summit is so powerful, have you guys been there yet?" Chen Xiang asked in surprise.

"No, none of our masters have ever been there. Only our young masters have ever been there, and they are the ones who taught me how to refine pills." Su Meiyao said.

An expert on the level of the Ruthless Devil Venerable had never been to the Devil-killing Summit before. It could be seen how powerful the experts in the Devil-killing Summit were. No wonder that group of people were panic-stricken when they heard that the people from the Devil-killing Summit were here.

Chen Xiang quickly completed what He Feng had given him and finished refining all the ingredients. Just as he walked out of the pill refining room, Huang Jintian rushed over and said to him: "I know what these guys are so anxious about, they are using some secret techniques to create a group of immortals."

Chen Xiang immediately thought of Shen Lingling and his face darkened, "This bunch of bastards."

"Their current technique has improved a lot, unlike what Little Ling said, it won't fail often. Right now, their success is relatively easy, but after succeeding, they will suffer from internal and external injuries, which is why they need Relive Dan to heal them." Huang Jintian caressed the transparent little bird in his hand and continued, "I used this little thing to follow that He Feng brat to see all of these."

Thinking about how the Relive Dan he refined could be used to do such wicked things, Chen Xiang felt extremely angry. He no longer planned to give the Relive Dan in his hands to He Feng, since he didn't have the contract with him.

"What do they need so many of these people for? If the Sixth Prince wants to fight for the throne, he still can't rely on these immortal kings."

Huang Jintian shook his head: "They used a secret technique to create so many Worldly Immortals, they are definitely not here to fight for the throne, my guess is that they are here to mine resources, they definitely lack manpower right now, they probably found some resources to mine."

"They all use some youths to get them. I wonder where they got so many Heaven Pills. In order to get so many Heaven Pills, they must have to kill quite a few immortals. Could it be that they are hunting those rogue cultivators outside?"

Chen Xiang said angrily: "Leave now, we can't help them commit crimes anymore."

Huang Jintian nodded: "Have you decided how to leave?"

"If they don't let us out, we'll rush out. Although there are a lot of formations here, it's still very easy to exit from here." Chen Xiang said.

Huang Jintian shook his head: "Brat, use your brain. You just received a message, someone from your Devil-killing Summit is looking for you, they are outside, they need us to go outside and wait for them to go out. They can talk about a place that is further from the palace."

Chen Xiang had been too impulsive just now. He nodded and said, "Then I'll go call He Feng over right now."

Huang Jintian laughed: "When the time comes, you can go out by yourself. I'm still wandering around here, you know."

Chen Xiang's eyes lit up, and he laughed: "Master, be careful."

[Chapter 1312](#)

When He Feng received the notice, he immediately rushed over, and upon knowing that Chen Xiang was about to go out, he wanted to reject at first, but when he heard that Chen Xiang wanted to see the person from Devil-killing Summit, he did not dare stop him. There was a high possibility that someone from Devil-killing Summit was looking for him, as they wanted to bring him back to Devil-killing Summit.

Over the years, many experts had claimed that they were Devil-killing Summit, but most of them had never gone there, and only received guidance from the experts that came from the Devil-killing Summit. If they could return to the Devil-killing Summit, then their achievements would be even greater in the future.

However, it was true that there were a lot of enemies in the Devil-killing Summit, because many people who called themselves Devil-killing Summit would often cause trouble everywhere, provoking some strong warriors or powerful forces. Over time, many great powers would target the Devil-killing Summit, and no matter who it was, as long as they were people from the Devil-killing Summit, they were enemies of the big powers.

"I will not return to the Devil-killing Summit for the time being. My followers will stay here." Chen Xiang said, this was what Huang Jintian had taught him.

Just like last time, He Feng brought Chen Xiang out of the palace using a carriage. Although it was just He Feng, he was very strong, with enough strength to protect Chen Xiang, as long as it wasn't the Immortal King.

He Feng was still young, and was already at the late stage of Immortal Monarch. He might very well become an Immortal King soon, the royal families in Myriad Dan Immortal Country were indeed very strong.

As he sat on the carriage, Chen Xiang closed his eyes and pretended to rest. He was in the middle of thinking about how to get rid of He Feng.

"The person who came to find me sent me a message. He said that there are special reasons why I am not allowed to enter the immortal palace. He told me to meet him outside. Young master, you only need to wait for me at the shop." Chen Xiang said.

If not for Huang Jintian remaining in the palace, this He Feng would have thought that Chen Xiang wanted to shake him off. Now, he nodded very straightforwardly as he knew that the follower beside Chen Xiang was very powerful.

Arriving at the entrance of the shop, Chen Xiang anxiously rushed over to the Transmission array, and teleported to the exit of the immortal palace. After leaving the immortal palace, he entered the vast forest, concealing his whereabouts.

Initially, there were people following him, but as soon as he exited the immortal palace, he was quickly left behind.

After the people following Chen Xiang were thrown off, they immediately sent a message to He Feng. When He Feng realized that something was wrong, he immediately returned to the palace.

Huang Jintian calculated the time, and when it was about time, he immediately hid himself. He had lived for who knows how many years, although he was sometimes crazy, no one could do anything to him while he was playing dirty.

To suddenly disappear from the palace by yourself was a very scary thing to do. If one were to hide in there recklessly, the consequences would be unimaginable, not to mention that that person was from Devil-killing Summit.

Tengu had already made his move, what was terrifying was that he did not know where the two had gone. Only now did he remember that the Ling maidservant that had always been by Chen Xiang's side had already disappeared, and they could not find any trace of Little Ling.

This immediately made the Sixth Prince and the others think that this was a premeditated plan, otherwise it would not have been so rigorous.

"This Sixth Prince is really amazing. His men are everywhere, and they're all looking for me."

Chen Xiang hid outside for a few days, turned into a young man, and entered the main palace once again. Upon entering, he saw many people on the road who were not weak disguised themselves as regular people.

"That's why that crazy old master told you to leave earlier. If he stays in the palace now, it should be even more dangerous. I wonder if he can handle it." Long Xueyi said.

"I'm not worried about him. He probably won't stop until he kills one or two dragons." If Chen Xiang had not helped her, she would not have been able to escape the Sixth Prince's pursuit so easily. However, Huang Jintian had done it on his own.

Chen Xiang then came to the central area, looked at the high walls of the palace and said: "I'm here to make a fortune, how can I leave just like that."

He had indeed made a hundred billion Spiritual crystal, but that was still too little for him.

"What are your plans now?" Long Xueyi asked because he saw that Chen Xiang had come to the Myriad Dan Building again.

"I've been looking down on that He Hong. Come here and beat him up." Chen Xiang walked into the Myriad Dan Building and entered the third floor.

Although he lost last time, the He Hong still roamed around here looking for some soft persimmon to pinch.

The Elder Uncle Li was also here, and he looked like he was sleeping. When Chen Xiang arrived at the third floor, he saw that Elder Uncle Li's eyelids had twitched, and he was shocked in his heart. He suspected that the Elder Uncle Li already knew about his arrival.

The mysterious Elder Uncle Li was not an ordinary person, Chen Xiang was secretly on guard, as soon as the Elder Uncle Li pierced through him, he would immediately leave, and right now, 60,000 words worth of people were looking for him, even here, there were people sent by the Sixth Prince.

The Sixth Prince had obtained a genius Alchemist, but this genius Alchemist had been eliminated, causing the Sixth Prince to be mocked by the other princes. The Sixth Prince could now confirm that Master Yan was not with the other princes, but he had a goal to infiltrate the palace.

The He Hong brought a few people and strolled around. Chen Xiang walked over and asked Long Xueyi at the same time: "Does this kid have a Immortal Monarch by his side?"

"Nope." Long Xueyi said.

When Chen Xiang walked over, the He Hong was already staring at an old man. He saw that the old man had just finished refining a batch of pills, and walked over with a sinister smile, "Old Ox, your pill refining skills have improved a lot. Are you interested in competing with my first store's Alchemist?"

When the old man heard the He Hong's voice, his thin body slightly trembled, and he said: "There's no need to compete, I definitely can't compare to the Alchemist in your first shop. I just mastered refining high grade Ground level pills not long ago."

"Oh, you dare to reject me? Don't you want to stay here any longer?" The He Hong sneered: "You should be clear about the consequences if you reject me. If you lose, you wouldn't suffer any loss, right?"

"But I don't want to compete right now." The old bull really did not want to compete. Although losing to the He Hong was nothing, he would sneer at him from time to time, which would affect things a lot. This was not just a simple sparring in pill refining techniques, the He Hong had specially tricked him.

Chen Xiang walked over and shouted, "How about I compete with you?"

The He Hong immediately looked at Chen Xiang, and just as he turned around, Chen Xiang flashed and appeared in front of him, following that, Chen Xiang's fist fiercely smashed into his nose.

"It's more interesting that I will compete with you in fists. It's boring to concoct pills all day long." Chen Xiang's fist had already destroyed the He Hong's nose, and right now, the entire face of the He Hong was covered in blood.

[Chapter 1313](#)

Many people had wanted to beat up the He Hong for a long time, but this He Hong was the son of the first prince, so even if they scolded him in front of him, there would be serious consequences if they did it. Now, however, there was actually someone who was not afraid of death and directly punched him in the nose, causing him to bleed profusely.

"Kill him, dismember his body into ten thousand pieces." The He Hong covered its nose and screamed.

Chen Xiang's attacks were very sudden, and no one would have thought that someone would dare attack someone in the Myriad Dan Building, and that the person being attacked was even Wang Sun, which was equivalent to opposing the entire royal family. The normally domineering He Hong's were even more unexpected, so his subordinates were unable to react for a moment.

Chen Xiang only threw a punch and he ran down the stairs like lightning. He quickly walked out of the Myriad Dan Building and blended into the crowd to change his appearance.

Everyone was secretly happy that they were suddenly given the He Hong. Although it did not cause any serious injuries to the He Hong, it definitely hurt a lot just now, and the most important thing was that their face had been severely damaged.

"Leaving after a single punch, you sure are damaging yourself." Long Xueyi laughed.

"One punch is enough, this guy is just arrogant. He can give him some memory, but the father and son duo on the other hand, are all hypocrites. Truly, a vile person is much better than a hypocrite." Chen Xiang said.

After the He Hong was beaten up, a few rankers of the fourth and fifth floor came over. Some of them attacked at the Myriad Dan Building, but it infuriated the higher-ups of the Myriad Dan Building, so they immediately sent people to look for him.

Chen Xiang was far away from the Myriad Dan Building, and would walk past the majestic huge door of the palace from time to time. He needed to pay attention to the movements in the palace at all times, and if there was a fight inside, he would immediately sneak in.

A few days had passed, but there were still no movements from inside the palace. It was clear that the conflict between the two parties was not intense enough, and was probably just speaking out of words, and Myriad Dan Immortal Country did not announce Old Wang's abdication.

"An Emperor Dragon walked out of the palace, and he even followed that He Feng." Long Xueyi said.

When Chen Xiang got close to the entrance of the palace, Long Xueyi sensed the Qi, and immediately told Chen Xiang.

However, Chen Xiang did not see He Feng or Dragon.

"In the direction of the sixth shop, I reckon that they have come out to play. There are a total of two Emperor Dragons, and their strengths are around the Immortal Monarch." Long Xueyi said.

Chen Xiang immediately walked towards the direction of the sixth shop. The shops around the sixth shop were all under the jurisdiction of the Sixth Prince. If the Sixth Prince were to ascend to the position, he would hand it over to He Feng.

When they were nearing the sixth shop, Chen Xiang saw a hunchbacked old man. He had a messy beard on his face and his hair was very neatly combed.

"Little Naughty Dragon, I feel that this old man is my master, what do you think?" Chen Xiang did not sense any aura from the old man's body.

"He should be that crazy old man. When I went to check his strength, it was the same." Long Xueyi said.

Chen Xiang came over and patted on his shoulder. The old man immediately turned his head and inspected Chen Xiang's strength, but was unable to find anything, he immediately knew that the young man in front of him was his disciple who had disguised himself.

Huang Jintian's eyes carried a smile as he sent a sound transmission to Chen Xiang: "Little brat, you're quite amazing, to be able to recognize me."

"I recognize you even after turning into ashes. Master, weren't you in the palace? How did you get out? It took me so much effort to get in." For Huang Jintian to be able to appear on the street and even approach the sixth shop, it was obvious that he had come for those dragons.

"I found a way to enter and exit freely. Now that there are two small dragons out, I followed them out. You will soon be able to taste the dragon meat." Huang Jintian laughed.

Chen Xiang had originally planned to use some sort of poison to kill those two Emperor Dragons, but that would be a given. The difficulty would be a little high, but it would be different now.

"This crazy old man's grilled meat is pretty good. I wonder how he will cook the dragon meat. I really want to eat it." Long Xueyi said while drooling.

"Do you need help?" Chen Xiang asked.

"No need. Wait for me at the twenty thousand pill palaces. Something big might happen tonight, we'll contact each other by secret signal." Huang Jintian said.

"I want to stay as well." Chen Xiang said anxiously, if tonight was the battle for the throne, if he was not here, he would not have gotten lucky.

"Idiot, of course I know you are here to make a fortune. I have calculated using the Heaven extended method, the old king would abdicate tonight, and then some things would happen, the location would

be around the twentieth palace. After I finish off these two small dragons, I will go and reunite with you, and pick up the loot.

Huang Jintian had the ability to foresee the future, so of course Chen Xiang believed him. After bidding farewell to Huang Jintian, he entered the Transmission array and was teleported to Immortal Palace No. 20 in Myriad Dan Immortal Country.

These 20 immortal palaces were very big; however, they weren't as prosperous as the main palace. Moreover, there weren't many people here, and there were very few places with houses. They were very suitable for great battles.

Chen Xiang wandered around for four hours before he found out that there was only one area with a single person in it, and that it was far from the center.

"An immortal palace is as big as a continent. So this immortal palace should have a lot of empty space. Could it be that this immortal palace is used for fighting?"

Chen Xiang's heart was filled with suspicion. He was staying at a hotel near the Transmission array.

He laid on his bed and patiently waited. However, at this time, he sensed an energy fluctuation coming from the Transmission array, it was a very strong aura fluctuation. This meant that someone was currently teleporting over from a very far place and it was definitely not the Myriad Dan Immortal Country's numerous immortal palaces.

"Who's coming?" Chen Xiang used the Heaven Tour and allowed his divine soul to fly above the Transmission array. The only person who was teleporting over was only a woman, and she was also wearing a mask and a bamboo hat. Although she was wearing a loose black robe that covered her body, Chen Xiang could tell from her footsteps that she was definitely a woman.

He was not interested in the beginning, but some people made him very mysterious. This was normal, but just as he was about to put away the Heaven Tour, he discovered that the woman had left behind some signals. When she passed by a wall, she gently touched it with her hand, leaving behind a very, very shallow mark.

"This signal, is ..." Chen Xiang immediately jumped up from the bed. He did not think that he knew this woman, nor did he think that he would come to this place where a great battle was going to take place.

"It's Sister Ziqian, what is she doing here?" Chen Xiang quickly left the hotel.

"She is currently wanted, and she is related. Many people are looking for her, and she also left a secret signal in a place like this. Could it be that she is looking for you?" Bai Youyou was also very confused.

[Chapter 1314](#)

Chen Xiang walked out of the hotel, and just as he walked past the entrance, he quickly whispered to Bai Ziqian.

"Sister Ziqian, I'm here."

Bai Ziqian turned his head to look at Chen Xiang, and then walked over. He looked like she was very calm, but in her heart, she was very surprised that Chen Xiang would appear so quickly, as if he was waiting for her here.

Chen Xiang brought her to his room. Bai Ziqian took off the mask, revealing a pair of evil and cold blue eyes. The purple-colored scorpion pattern on her forehead emitted a purple colored, demonic glow, and from that look, one could tell that she was a very powerful witch.

"Sister Ziqian, long time no see. How have you been?" Chen Xiang laughed.

Bai Ziqian had an ice-cold expression, but when she looked at Chen Xiang, her eyes revealed a gentle light.

Chen Xiang gave her a large amount of Magical corruption gas and Drunk god magical poison, allowing her to handle the poison easily. This poison was something many poison masters yearned for day and night.

"Do you have more Drunk god magical poison? If they're gone, I'll take some time to get some for you." Chen Xiang knew that while Bai Ziqian was escaping, he would definitely run into a lot of enemies.

"I rarely use any strange poisons. I still have a lot of them here. You and that goblin, are they okay?" Bai Ziqian asked.

"All good." Chen Xiang laughed.

"I was looking for you for a reason. I knew that you were at the main palace, I didn't expect that you would come here too, faster than me." Bai Ziqian said.

"How did you know I was in the main palace? I hid it well." Chen Xiang couldn't understand.

"I guessed." Bai Ziqian said: "I want to borrow some blood from you. Since you have impenetrable, your blood should be able to cure the poison as well."

"How much?" Chen Xiang rolled up his sleeves.

"Full." Bai Ziqian took out a jar and handed it over to Chen Xiang: "I will not treat you unfairly."

Although there was a lot of blood in that jar, Chen Xiang's recovery speed was fast, so he did not care much.

"Take it." Bai Ziqian looked at the jar of blood in satisfaction and handed a small box to Chen Xiang.

Chen Xiang opened it to see, and discovered that it was a blood red pellet.

"Heaven Blood Pill." Chen Xiang said in shock.

"En, eat it." Bai Ziqian had originally thought that since Chen Xiang had lost so much blood, it would probably harm his vitality. However, he still looked as fierce as ever, and she didn't know that Chen Xiang had Jade Dragon Blood s and such things. Now that all of these things had fused together, it made his physique even more terrifying, and could be said to be not a bad body.

After consuming the Heaven Blood Pill, the rate at which Chen Xiang recovered his blood became much faster, and in a short while, he was back to how he was before.

"Sister Ziqian, did you come here to find me? How did you know that I would definitely come here?" Chen Xiang asked curiously.

"If nothing unexpected happens, the war for the Myriad Dan Immortal Country's throne should start here. If you are in the main palace, you will find out soon enough. With your personality, you should come here, so I came here to wait for you." Bai Ziqian said.

Chen Xiang said excitedly: "Sister Ziqian, then do you want to interfere in this matter? That's great."

Bai Ziqian shook his head: "No, I am still wanted. If my identity is revealed, the first one to suffer would be me.

"However, I will wait here for the end of the war. As long as I don't go near the battlefield, I'll be safe."

"Who are the people chasing you right now? Who are the main forces?" Chen Xiang knew that she would probably be hunted down a lot. She had killed an Immortal King, and she had even used a strange poison.

"Devil-suppressing Divine Palace, I killed another Immortal King a while ago. He belonged to Devil-suppressing Divine Palace, it's just that they loved face and did not mention it."

Bai Ziqian's words gave Chen Xiang a fright. Devil-suppressing Divine Palace was an existence that was on par with Fire Divine Palace.

"Don't worry, although they have the means to track me down, I'll leave soon, and won't implicate you ..." Just as Bai Ziqian finished speaking, her expression suddenly changed. She anxiously put on her mask and said solemnly: "The people from Devil-suppressing Divine Palace are here, I'll be leaving first."

Just as Bai Ziqian walked in front of the door, a strong pressure hit him, causing him to shout out loud and pounce towards Chen Xiang. In the next moment, he grabbed onto Chen Xiang's hand and jumped up, breaking through the floor and reaching high up in the sky.

A boom sounded out, and before Chen Xiang could react, he saw a few golden rays of light enter the hotel from several directions, and the entire hotel was enveloped by them.

After the golden light disappeared, the hotel disappeared without a trace. There was only a deep pit there.

Seeing this attack, Chen Xiang's hair immediately stood up. If Bai Ziqian had not reacted quickly, he would have been covered in wounds just now. He could tell that the people who attacked were all Immortal Kings, but what made him furious was that these people actually killed innocent people.

It could be seen how tyrannical this Devil-suppressing Divine Palace was. Even if it was a Immortal Monarch, the attack just now would have made them vaporized. It was unknown whether there were any famous disciples inside, but even if there were, this Devil-suppressing Divine Palace was not afraid.

"It's the five Immortal Kings of Devil-suppressing Divine Palace. Now, you have also been targeted by them." Bai Ziqian clenched his teeth, he then pulled Chen Xiang and flew away from the place where

many people were gathered, if they were to fight, the only place left with people in the 20th palace would be destroyed.

"Go to the wilderness and kill them with poison." Chen Xiang replied: "Anyway, you're not afraid, it's the same if a few more Immortal Kings die."

They are all from Devil-suppressing Divine Palace, their methods of resisting the strange poison are very clever, if I could kill them, they wouldn't have chased me here. Bai Ziqian said.

In the blink of an eye, Bai Ziqian had already brought Chen Xiang out of the wilderness, with the five Immortal Kings following closely behind. They would occasionally release a strong golden light, and along the way, they would destroy several mountain peaks.

"What are they tracking you for, a snout like a Tengu?" Chen Xiang asked. If he did not clarify this, it would be very difficult for him to get rid of these five Immortal Kings.

"No, I've been with them before, and they were able to release a special kind of aura which then seeped into my body, unknowingly accumulating a lot of it. I can't force it out, I think there are some in your body as well." Bai Ziqian said.

"Sister Ziqian, you're so stupid, Sister You You You taught me Devouring magic kungfu, so I can help you absorb all these Qi, and I can get rid of them in the end." Chen Xiang said.

"Let's give it a try." Bai Ziqian's heart was moved. "As long as that aura is condensed in my heart."

Bai Ziqian pulled Chen Xiang's hand over, and pressed it on his own soft chest. "Hurry, they're about to chase us."

[Chapter 1315](#)

Chen Xiang subconsciously grabbed at the soft object as he shouted coldly. His body released a burst of cold energy, causing him to be shocked to the point of immediately releasing his divine power to sense the Qi inside her heart. He quickly sensed that it was indeed special, but he was able to easily suck it out.

"It's done." Chen Xiang completed it very quickly. If it wasn't for the urgent situation he was in, he would have dragged it out for a while. Although it was through his clothes, his hands still felt good.

"Hmph." Bai Ziqian felt Chen Xiang's fingers wiggle slightly, and immediately moved his hand away. Then, he grabbed his wrist and shuttled back and forth in the forest.

"I shook him off." Long Xueyi said: "However, that Qi is indeed strange, even from a distance, you would still be sensed by it. If I did not help you hide, I'm afraid that you would have become the target in the future."

Chen Xiang tried to force it out on the way, but it was difficult, so he was not worried.

"Haha ..." They split up and looked for it. " Long Xueyi laughed, she had been using the Heaven Tour to observe the Immortal Kings.

Chen Xiang said to Bai Ziqian in a low voice, "Sister Ziqian, they have split up to look for us. Do you think we should kill one or two of them together to make them feel bad?"

Bai Ziqian stopped in her tracks. She had also sensed that no one was chasing after her, and the aura that had been gathered together had split into five.

Even if he did not use poison, in a one on one fight, Bai Ziqian could defeat an Immortal King from the Devil-suppressing Divine Palace.

"Alright." Bai Ziqian pondered for a moment, then pulled Chen Xiang and ran in one direction. She seemed to be able to sense where the Immortal Kings were.

Big Sister's strength is much stronger than the Immortal Kings of Devil-suppressing Divine Palace, but Devil-suppressing Divine Palace has their own demon Qi Methods, so Big Sister should be more pressured by them, you should be clear about this, wait for a moment and watch out for the opportunity to take action, secretly aiding her. Bai Ziqian said.

Chen Xiang chuckled: "Of course, although this kind of thing is disgraceful, I am still more willing to do it."

Chen Xiang was the best at releasing hidden arrows, and he would frequently fire them, so he rarely missed out on any of them.

However, Bai Ziqian did not plan to have Chen Xiang help. Chen Xiang had just ascended, and facing Immortal King level experts, he basically did not have any power to resist. Even if there was some strange poison, it would not be of much use.

"You wait for me here, I'll go chase after that guy myself. This should be the more powerful Immortal King amongst them." Bai Ziqian threw Chen Xiang under a big tree. This huge tree was extremely big, and required dozens of people to hug it.

Regardless of whether Chen Xiang agreed or not, after Bai Ziqian stuffed Chen Xiang into a tree hole, he chased after a Devil-suppressing Divine Palace's Immortal King at lightning speed.

Chen Xiang had promised to help Bai Ziqian before, as he turned into a bird and flew quickly in the forest. However, his speed was not as fast as Bai Ziqian's, unless he used the spatial laws to travel through space.

"Witch, you are courting death." A loud roar came from the sky, shaking the forest and causing the leaves to dance in the air.

"You provoked me first." A blue light flashed in front of Bai Ziqian, not knowing what she had done, the trees within a few hundred meters of her suddenly turned into powder, and were blown away by the strong wind.

The Immortal King in the air released a few rays of golden light that carried the power of suppressing devils, and struck Bai Ziqian like lightning. However, the blue light that flickered on Bai Ziqian's body had a bizarre power, as it bounced off, causing the powerful suppressive devils to spread out in all directions, like countless of golden needles flying out in all directions, causing the trees that were hit to instantly turn into ashes.

"The battle between immortal kings is indeed fierce. I almost got into trouble." Chen Xiang was crawling on the ground now, but he had turned into a tiny bug.

"You deserve to die if you use the Super Old poison, everyone has the responsibility to chase and kill you." The Immortal King of Devil-suppressing Divine Palace drank.

"Hmph, then why did that fellow who died in my hands get me to hand over a poison? He should have killed me immediately. If the Super Old poison was in front of you guys, I'm afraid you guys would probably snatch it away like a group of hungry mad dogs." Bai Ziqian ridiculed.

"Nonsense, don't slander us." The Immortal King bellowed and swooped down like a golden meteor, striking straight at Bai Ziqian.

"A very decent guy." Bai Ziqian bellowed, her body flickered with blue light as her jade fists suddenly turned purple and black.

"Are you going to use the Magical corruption gas?" Chen Xiang said in shock. He never thought that Bai Ziqian would actually be able to refine Magical corruption gas into his body. He was very curious how he did it.

The Devil-suppressing holy power on both of his hands were extremely powerful, and when it shone on Bai Ziqian's body, it made her feel an incomparable amount of pain. However, when the Demon Immortal Suppressing King saw the change in Bai Ziqian's expression, his heart was also shocked, but he was not afraid.

"Witch, accept your fate." The Demon Subduing Immortal King laughed sinisterly, his fists suddenly glowing with a golden light, an even more powerful demonic suppressing force.

Boom! Boom! Boom! The ground was shaken by the strong force of the explosion, causing large cracks to appear. Strong wind swept up the broken rocks on the ground, causing large areas of land to be engulfed in black dust.

In the midst of this wave of energy, Chen Xiang carefully traveled through space to approach them.

"Haha ..." Your Magical corruption gas is useless to me, but you have even hurt yourself. Witch, I will capture you alive, and then we will convene a Devil Slaughter Conference. " The Demon Suppressing Immortal King laughed.

The corner of Bai Ziqian's mouth had purple blood flowing out of it, his face was pale, his blue eyes had also dimmed by a lot, and his fists were covered with purplish black blood.

Even a Demon King as strong as Bai Ziqian was unable to defeat them.

"There are already Immortal Kings from other Devil-suppressing Divine Palace coming. Hurry." Long Xueyi urged.

Chen Xiang clenched his teeth, he immediately teleported back and forth between Great Duan Kong and the Demon Immortal King.

"Who ..."

The Demon Suppressing Immortal King roared, the sound was extremely furious, because half of the green blade suddenly appeared from his stomach, causing him to be extremely shocked, because there were many Magical corruption gas hovering around the blade.

Chen Xiang used most of his strength to pull out the Green dragon demon-slain broadsword. Fortunately, the Green dragon demon-slain broadsword was very sharp and had a strong defense, so it was able to pierce through the Demon Lord's Immortal Robe and break his defense.

"Green dragon demon-slain broadsword." He already knew who this person was, other than Chen Xiang, who else had Green dragon demon-slain broadsword s? However, he did not expect that Chen Xiang actually had such a large number of Magical corruption gas s, and when he stabbed him a moment ago, he had injected a lot of them.

Devil-suppressing Divine Palace had wanted to capture Chen Xiang for a long time, because he could obtain the two treasures, Green dragon demon-slain broadsword and Holy Devil-suppressing seal.

[Chapter 1316](#)

"Accept your fate." Chen Xiang laughed coldly, he waved his blade and with a swoosh, the Immortal King that had been poisoned to the bone marrow, was slashed all over.

The body of Demon Immortal Suppression was still very strong. If it was anyone else, they would have already been smashed into pieces.

"You ..."

Chen Xiang sensed the Qi approaching him and quickly gathered his strength. He released a ball of multi-coloured heavenly fire and struck the Demon Lord's body, burning his soul away.

"Hurry up and leave." Bai Ziqian's injuries weren't too serious yet, so she pulled Chen Xiang and escaped once more. Even if Chen Xiang didn't appear, she could still escape.

Just as they thought to themselves, the four elders suddenly appeared beside the unextinguished seven-colored heavenly fire. As they looked at the seven-colored light radiating from the heavenly fire, their expressions became extremely grim.

"I haven't seen this type of flame in a long time. Someone who can release this flame definitely isn't a fiendish demon. I didn't expect the witch to have such a powerful person by her side. Another Immortal King has died. It seems it's time to report to the Dao Shrine." An old man said solemnly.

"Who the hell is it? There are only a few people that can release the seven-colored heavenly fire, so it's necessary to have the Head Palace Master find those few guys and ask. Now, two Immortal Kings have died."

The Death Immortal King was a very serious matter for a super power. Although the Heaven Realm was vast and had a large number of people, but there were very few Immortal Kings. When the Devil-suppressing Divine Palace was chasing after Bai Ziqian, two of them had already died.

Now that they had lost track of Bai Ziqian, they felt uneasy when they saw an expert who knew how to use Rainbow Heaven Flames beside Bai Ziqian.

Bai Ziqian brought Chen Xiang and flew far away in one breath, but they had not left the immortal palace yet, so it would be difficult for the Demon Lord to find them.

"Is it serious?" Chen Xiang asked in concern.

"It's fine. It'll be fine soon." Bai Ziqian had just seen the Rainbow Heaven Flame that Chen Xiang had released, and that had also surprised her, because people who knew how to use this kind of flame were as rare as phoenix feathers and qilin horns in Heaven Realm. Chen Xiang had only just ascended, she had not expected Bai Youyou and Su Meiyao to cultivate to be so strong.

Deep in the night, Chen Xiang and Bai Ziqian were in the forest, and Bai Ziqian's complexion had improved a lot. To be able to kill a Devil-suppressing Divine Palace's Immortal King, she felt extremely satisfied.

If Chen Xiang had not suddenly appeared and stabbed the Immortal King with his blade, injecting a large amount of Magical corruption gas, it would not have been that easy to obtain victory.

"The battle for the throne is about to begin, I need to leave as soon as possible. If the Devil-suppressing Divine Palace spreads the news, I'm afraid all seven princes will search for me." Bai Ziqian said.

"En, Sister Ziqian take care, I want to look for you in the future, I will do something big, you will leave a signal at the entrance of the immortal palace to contact you." Chen Xiang said.

"You have to be careful too. Take good care of You You." Bai Ziqian looked at Chen Xiang gently and patted his shoulder: "Take care."

Bai Ziqian left for the night. He returned to the only place in the immortal palace that had people everywhere. If Huang Jintian wanted to kill the Emperor Dragon, he wanted to know if it was a success.

In the sky, Chen Xiang had finally returned, and on the streets here, a portrait of Bai Ziqian would appear at intervals. There were still colors on it, completely imprinting her charming and seductive face down, making people somewhat captivated by her portrait.

Mo Tian, the former daughter of the Bai Clan's Demon Emperor, Bai Ziqian, was known as the Devil Scorpion Princess, and was proficient in using poison. Now, she had already used one of the Super Old poisons, the Magical corruption gas, to kill three Immortal Kings ...

Chen Xiang tore a bounty and placed it into her ring. He asked in shock, "Sister You You You, your father is actually a Demon Emperor."

"Others sealed it for him. He had never admitted it before. Didn't you see that it was the former Demon Emperor?" Bai Youyou's voice was ice-cold. It was clear that she did not have any feelings for the Demon Emperor's father.

"Sister Meiyao said that he died once in the Great War between Three Realms." Only now did Chen Xiang remember that Bai Youyou and Su Meiyao had probably experienced the Great War between Three Realms once, which was a hundred thousand years ago.

"But there's also the rumor that he survived. Ever since he died, the Bai Clan in the Devil Realm has declined, and my elder sister was pressed down by the Demon Suppressing Tablet in the Great Devil Mountains for a hundred thousand years. As for me ..." Bai Youyou sighed softly.

Chen Xiang saw the secret signal left behind by Huang Jintian, but he didn't hear any news of a royal dragon being killed in the main palace.

"Did my master fail? Hehe, let me look down on him for a bit. He lost such a good opportunity and still has the face to come and find me." Chen Xiang was secretly delighted, following the signal, he arrived at a hotel.

Huang Jintian disguised himself as a robust old man, and stood at the door.

"This hotel has a backyard, it's almost time for the next one." Huang Jintian whispered to Chen Xiang.

Chen Xiang thought that Huang Jintian would stay here to pay, but he didn't expect that he would wait for him here to pay the bill.

"Two small rooms will do. This hotel is so luxurious and expensive." Although Chen Xiang still had a lot of Spiritual crystals, he would not use them carelessly.

"Cut the crap, are you asking for a beating?" Huang Jintian glared at him.

Chen Xiang had no choice but to rent a courtyard house. In the villa behind the hotel, there were over a thousand Spiritual crystals.

"Master, did you not succeed? What are you doing here if not?" Chen Xiang originally thought that if Huang Jintian made a move, he would definitely succeed, but he was disappointed.

"Stinky brat, how do you know I didn't succeed? You actually underestimated me, Master." Huang Jintian knocked his head heavily.

"I've asked around, but there hasn't been any news from the main palace. Two little royals secretly leaving the Dragon King's side. That's a good opportunity, and you've just missed it." Chen Xiang scratched his head and said resentfully.

"Little bastard, I have no choice but to beat you up. You underestimate me so much, but I've gone through so much trouble to capture those two little Yellow Dragons alive in exchange for your contempt." Huang Jintian had already rolled up his sleeves.

"Capture him alive." Chen Xiang shouted in shock, Huang Jintian's fist had already landed on his body, in a blink of an eye, Chen Xiang was struck by the two fists for a few hundred times, causing him to be in extreme pain.

"Aiyo, Master, I was wrong."

He also wanted to tell Huang Jintian about his battle achievements. He had killed an Immortal King from the Devil-suppressing Divine Palace, but there was nothing to show off about that.

Long Xueyi and the other two girls were even more surprised. Long Xueyi thought that it was already considered good that Huang Jintian had managed to get a small piece of the dragon meat, but he had actually managed to catch them alive.

"Hehe, it's good that you know this. Although you have done many things that even I admire, but don't be too proud. I am a master no matter what I say. If I were to seriously play, the things I've done would definitely not be worse than yours." Huang Jintian withdrew his fist and laughed complacently. Then, he said sinisterly, "When I kidnapped these two little Emperor Dragons, I even used the Emperor's Feather Qi that only the Imperial Avian Race had."

[Chapter 1317](#)

Chen Xiang looked at Huang Jintian in shock: "Sovereign ... "Huang Yueqi."

Huang Jintian had just said that even though he had used Emperor's Feather just now, Huang Jintian actually knew how to use this kind of power.

"Just like the Dragon Power, it is an aura unique to Imperial Feather Race. However, I can only use it a little. This is not as easy to learn as the Dragon Power, and its not that useful." Huang Jintian said.

"This means that the Imperial Dragon Clan will definitely suspect the Imperial Feather Race and this war will arrive soon. What about those two Little Emperor Dragons?"

Chen Xiang did not have any good impression of the Imperial Dragon Clan, he had already been enemies with him before, and last time, the Dragon Emperor had even wanted to capture Xue Xianxian and the others to threaten him.

"I haven't killed them yet, they're all Immortal Monarch level ... It should be called Dragon Lord, if it is killed, then their original form will appear, their original form will be too big, and my Storage magic treasure cannot fit inside, so I just knocked them out, and placed them inside a Storage magic treasure that can pretend to be alive. " Huang Jintian laughed heartily: "This dragon meat is probably not tasty, it might be the same as snake meat, royal birds have wings, it should be like chicken wings or something like that."

"Master, what do you plan to do with those two little Emperor Dragons now?" Chen Xiang rubbed his chin and thought. These two little Emperor Dragons were both Immortal Monarch s, so the dragon pearls must be very strong. Even if he wanted to refine them into pills, it would take a very long time.

"Kill them, kill them right here. When the time comes, we'll definitely lure the Imperial Dragon Clan and the Sixth Prince over." Huang Jintian was still a little conflicted: "But the problem is how to deal with the Dragon corpse. The Dragon corpse are very big, it would be a waste to throw it away."

Long Xueyi said to Chen Xiang: "If you can burn them, and use your fire energy to burn the Dragon corpse to a crystal, that's all pure energy, and not a lot at that."

"Extinguish the fire." A few things flashed through Chen Xiang's mind. He had previously told him that this Extinction Fire was a type of flame that only Jade Dragon could release. It was specifically used to commit suicide, so that no one could obtain the precious Jade Dragon Blood.

"Even though your Jade Dragon Blood fused with other things, it is still inside your body, so you can still use it. This kind of flame has a lot of destructive power to the dragon's body, otherwise, the Jade Dragon would not have killed yourself with this kind of flame." Long Xueyi said: "If you don't know anything, I'll teach you. This kind of flame doesn't need to be learned, it only needs to be guided."

Chen Xiang put a hand on Huang Jintian's shoulder: "Master, I have a way. I can use a type of flame to burn Dragon corpse to crystal, then it will be easy to protect."

Huang Jintian looked at Chen Xiang with wide eyes and said in shock, "Could it be that the fire was extinguished without a trace?"

After that, Huang Jintian casually touched Chen Xiang's body, and Chen Xiang laughed: No, I'm still a human.

"In that case, you have obtained the Jade Dragon Blood." Both Chen Xiang and Long Xueyi were very surprised that Huang Jintian knew so much.

Chen Xiang smiled and nodded.

"Good boy, this is a good thing. If it can give you an indestructible body in the future, then it will be easy." Huang Jintian looked at Chen Xiang with a gaze that made him feel like he was drinking blood.

"There's one more thing. I heard that in the next few days, some royal birds will be coming here to inspect the battlefield. If possible, bring them to the place where I killed the dragon." Huang Jintian laughed sinisterly.

"I see." Chen Xiang knew what Huang Jintian was calculating. If by chance someone from the Imperial Dragon Clan comes over and finds out that the Imperial Feather Race is also here, the Imperial Feather Race will not be able to escape.

That night, Huang Jintian brought Chen Xiang to find a good place. At that time, Huang Jintian just needed to escape from the two Emperor Dragon's dragon pearls, exterminate the divine soul, and then chop off the head.

You have to watch out for the time to lure those fellows from the Imperial Avian Race over here. When that time comes, you'll have to leave the Imperial Avian Race to me and then you can come and burn the dragon's body. You have to leave before the Imperial Dragon Clan and the Sixth Prince arrive. Huang Jintian said in a serious tone. If the group of Immortal Kings were to come, it would be very difficult to escape.

After confirming the location, Chen Xiang and Huang Jintian returned, waiting for the Imperial Feather Race to come over.

At this time, the main palace had already sent out news regarding the search, and they had received a lot of rewards. The twenty million Spiritual crystal were both used to search for the two Royal Dragons that were kidnapped.

could not help but admire Huang Jintian. After kidnapping the two Emperor Dragons, he did not make any big movements, causing the Imperial Dragon Clan to not have any clues at all, so he left Huang Yu He at the scene. However, the Imperial Dragon Clan was still very cautious, it was just a suspicion, and they had also sent people to investigate the Imperial Feather Race's side.

If the Imperial Feather Race used it to threaten them, they would have to withdraw, because the two Emperor Dragons were good seedlings, and one of them was a Holy Dragon.

"Master, if we kill these two Emperor Dragons, do you think the Dragon Emperor will appear?" Chen Xiang asked.

"The last time the Dragon Emperor appeared, it was because of his precious son's death. Although these two little Emperor Dragons are precious, they are not precious to the point of being like his precious son. Don't be afraid, even if he comes, we are still very safe. Huang Jintian said.

If it were any ordinary person, forget about the Dragon Emperor, even dragons would not dare to provoke them. However, this pair of master and disciple dared to kill an Emperor Dragon, and were not afraid of the Dragon Emperor at all.

There are three from the Imperial Avian Race s. Although all of them are Immortal Monarch s, you should be able to deal with them. " Huang Jintian's face revealed a smile: "Soon, I will be able to see the big show of biting the dog."

"Leave it to me, I'll go." Chen Xiang anxiously ran out of the hotel and ran in the direction of the Transmission array.

Just as the three Immortal Monarch s came out of the Transmission array, they released a powerful aura, making everyone retreat far, far away, not daring to approach them.

"Didn't you say that Imperial Feather Race is very low-key? Why are you being so arrogant now?" When Chen Xiang ran over, he felt an extremely arrogant aura, as if he was looking at someone who he disliked and wanted to kill.

"We are all Immortal Monarch, you better be careful." Long Xueyi replied, "If that's not possible, I'll come out and help you."

"I can handle it." Chen Xiang had already seen the clothes of the three Imperial Feather Race Rankers were as if they were made of feathers and shone with a piercing red light. They were all red and steaming hot, as if they were all made of fire.

"Hurry up and get lost, this Transmission array will be ours from today onwards." As a man shouted, he released his imperial feather aura, intimidating everyone present.

"Then how are we going to get out of here?" one of the braver ones asked.

"Go to hell, so you don't have to leave." The man from the Imperial Feather Race sneered. With a raise of his hand, he released a streak of fiery light that struck towards that man, burning him to ashes.

"All of you, scam a bit further away. When I see you weak fellows, I want to crush you to death. Quickly, scam."

"If you don't scam, I will burn all of you. If it wasn't for the fact that I don't want to dirty my hands, you would have already died."

Facing these three tyrannical and powerful Imperial Feather Race, everyone could only grumble in their hearts, before leaving the Transmission array one after another.

When Chen Xiang saw them, he quickened his pace.

These three Imperial Feather Race s had arrogant smiles on their faces. Looking at the people who were fleeing everywhere, they still had murderous intent in their hearts. They raised their hands and gathered their powerful flame energy, preparing to attack ...

Seeing this, Chen Xiang calculated the power of the spatial laws and then appeared in front of the three Imperial Feather Race s.

"Imperial Avian Race, it's not your turn to be arrogant here." Chen Xiang very loudly shouted. He swept his palm across, and very accurately slapped the three Imperial Feather Race s in the face, which released a "Pa" sound.

Slap his own face to injure it, thinking himself to be superior. Imperial Feather Race who was standing in the ninth heaven was actually slapped ruthlessly, and the power of this slap was very strong, causing their faces to swell up.

Chen Xiang channeled the Dragon Power in his body. The one he was currently using was slightly different from the one he had used before. This was the The power of the holy dragon, the one he had cultivated from consuming the Holy Dragon Pellet last time.

"The power of the holy dragon, Imperial Dragon Clan's." A Imperial Feather Race shouted, but he felt much better because he had been beaten up by a holy dragon. If he were to be slapped like that by a human, it would truly be shameful.

"That's right, I was the one who hit you." After Chen Xiang finished speaking, he immediately dodged to the side to avoid the attack, and a Imperial Feather Race spat out a burning flame.

Originally, these three Imperial Feather Race s thought that the other party would launch a fierce attack and have a great battle with them. However, after Chen Xiang dodged that attack, he jumped into the air and flew away.

[Chapter 1318](#)

"Don't run." Naturally, the three from Imperial Feather Race would not let this go, they were slapped mercilessly, and they did not even manage to take a single hair off their opponent. How could they endure such a loss?

What Chen Xiang wanted was precisely this kind of reaction from them. If he were to fight with these three Imperial Feather Race s, he wouldn't be able to beat any of them.

"These three pigs will be eaten sooner or later." Long Xueyi scoffed, "As expected, Imperial Feather Race is still the same as always, not changing at all. I don't know how they managed to pass down their teachings for so long, but this kind of arrogant fool, who can be compared with Imperial Dragon Clan, would only humiliate Imperial Dragon Clan."

"If you have the ability to sneak attack us, then don't you have the ability to face us head on? Imperial Dragon Clan is such a guy after all, hmph." Imperial Feather Race who was chasing from behind shouted.

"For bullies like you who only know how to bully the weak and fear the strong, I feel that hitting you all would dirty my hands. Now, even if you guys were to stretch your other face over for me, I wouldn't even bother hitting you guys." Chen Xiang mocked.

Although their speed was fast, it was not comparable to Chen Xiang using spatial travel. It was just that Chen Xiang had expended a lot of energy, and if not for Huang Jintian supporting him from the front, he wouldn't dare to use the power of the spatial laws so recklessly. He simply wasn't able to burn the Innate Qi rapidly in the Heaven Realm.

"Almost there." Chen Xiang was a little nervous. The mountain that had been split in half was the place where Huang Jintian had slayed the dragon.

The moment he saw the gigantic mountain, he saw a burst of reddish-gold light suddenly appearing in front of him. The light expanded out in the blink of an eye, enveloping almost half of the immortal palace.

"The Roar of the Dead Dragons." After Long Xueyi finished speaking, a burst of intense dragon roars came out, shaking the entire immortal palace till it started to tremble, a strong voice spread out in all directions, enveloping the entire Myriad Dan Immortal Country.

"Did two dragons die at the same time? What's going on?" A Imperial Feather Race shouted in shock.

"Why didn't I do this when I first killed Prince Imperial Dragon?" Chen Xiang and the others were stunned by the sight of the death of the dragon.

"Prince Imperial Dragon's strength is too weak, so there weren't any movements when he died. However, dragons of this level are different, and they're even royal dragons." Long Xueyi said.

After the blinding light disappeared, there were two incomparably large dragon bodies lying in front of him. One was golden, while the other was red. Under the sunlight, the countless dragon scales on the two dragon bodies shined with a dazzling light.

"Brat, it's your turn. I'll deal with them." Huang Jintian suddenly rushed forward.

Chen Xiang did not expect these Dragon corpse to be so huge, it would be very difficult to burn them using [Obliterating Flame].

"You need at least half of your blood to burn these two Dragon corpse. Hurry up, when the time comes, I'll guide you to release the Obliterating Flame." Long Xueyi said.

If these two Emperor Dragons had died, with such a large movement, they would definitely attract the attention of the main palace. If they did not make a move soon, then they could only watch as these two Dragon corpse were taken away by the Imperial Dragon Clan.

Chen Xiang stood on top of the golden Dragon corpse, a strange feeling suddenly came to his mind, and then he heard Long Xueyi shout: "Your heart thinks of transforming your blood into flames, so that you can release it, remember, you only need a small ball of it."

Chen Xiang immediately followed his orders and released a small ball of flame. This flame was snow-white in color and didn't have any temperature at all, but it still made Chen Xiang feel that it was extremely frightening.

He placed the flame on top of the Dragon corpse beneath his feet and stuffed it into a large piece of dragon's scale. Then, he jumped onto another Dragon corpse and released a ball of fire that disappeared just now and stuffed it under the dragon's scale.

After doing all of this, Chen Xiang floated high in the sky and said with a frown, "Why is there no movement."

"It's already there. The interior is burning, but when this Eclipse Burn is ignited, you can't see it, nor can you feel the temperature." Long Xueyi said, "This flame is completely transparent."

Sure enough, Chen Xiang didn't have to wait too long before he saw an astonishing scene. He saw the two gigantic Dragon corpse disappear bit by bit, as if they were going to melt.

Huang Jintian, who was fighting with the three royalty in the distance, released a very powerful Dragon Power that was actually able to suppress the three Imperial Feather Race s. He glanced at the two Dragon corpse s and realized that they were melting.

Not long after, the Dragon corpse completely disappeared. The three Imperial Feather Race s also saw this scene, but they did not know that this was the extinguishing of flames. There were some secrets regarding the Jade Dragon, so of course they would not know, but they felt that it was extremely strange.

"To collect the crystals is called extinguishing fire, but to burn the corpses and turn them into many crystals, that is a very pure energy." Long Xueyi shouted.

Chen Xiang released his divine power and felt around the areas that the two dragon bodies had covered. He discovered that there were quite a few small crystals that were as big as small beads, and he used his divine power to lock them all in.

There weren't many of these dragon crystals, only two jade boxes. But, the pure energy contained within them was enormous.

"The Imperial Dragon Clan is here, there's still a large group of Immortal Kings, let's quickly retreat." Huang Jintian rushed towards Chen Xiang as fast as he could and transmitted his voice to him.

"He's coming. He's very fast." Long Xueyi said nervously.

Huang Jintian flew to Chen Xiang's side and grabbed him. Then, for some reason, Chen Xiang's vision went black, and he walked right through the darkness.

"I'm underground. I'm far away from that place now." Huang Jintian said.

Long Xueyi was still monitoring them from afar, "Those three royal birds are already dead. Once a Holy Dragon King from Imperial Dragon Clan appeared, he blasted them to death, leaving nothing behind."

"Looks like there's no proof that they died. They won't know that we did it." Chen Xiang laughed.

Huang Jintian brought him to a river bank. He used the Earth Escape Technique and the Water Escape Technique to escape quickly.

"Well done this time, we Master and disciple have teamed up, is there anything we can't do?" Huang Jintian laughed heartily as he took out two Dragon Orbs, radiating with golden and fiery red multicolored light.

"Half-way. You want the Holy Dragon's and you want the Fire Dragon's." Huang Jintian asked.

"It's probably the Fire Dragon's. It might help my flame a little." Chen Xiang said as he also took out the two jade boxes, which were the dragon crystals he had collected.

"I want the Holy Dragon. I never thought that you would be able to use the The power of the holy dragon, it should be the Prince Imperial Dragon's doing." Huang Jintian chuckled as he received the jade box from Chen Xiang's hands.

"If we lack Spiritual crystal, then we can exchange for quite a few Dragon Crystals from them. This Dragon Pearl is even more so." Huang Jintian took out a Dragon Crystal and examined it carefully. This was Holy Dragon's, it contained a rich The power of the holy dragon.

"If you are crazy, then take the dragon pearl and sell it." Chen Xiang put it away. This was all used to raise his strength, he was lacking something like this right now.

"If it's used to exchange for precious medicinal ingredients, then that's more like it." Chen Xiang said again, he also needed this.

Huang Jintian took out a few Dragon Crystals and threw them into his mouth to swallow, causing Chen Xiang to scream in shock.

"I have to recover my strength first. Bringing you along to run has consumed too much of my energy. You should also properly adjust your condition. If you can only give out this little bit of wealth, I'm afraid it won't satisfy you." Huang Jintian grinned.

Chen Xiang smiled and nodded, this immortal palace would become a battlefield, and the Heaven Pills of the Immortal King Immortal Monarchs would also be good stuff. If he could open up their Storage magic treasure, or pick up one or two Dragon King Dragon corpse, or even the corpses of royal birds, then he would profit greatly.

Huang Jintian and Huang Jintian were resting right now, when the earth suddenly started to shake. Huang Jintian opened his eyes and looked at the beams of light in the blue sky, and said seriously: "The war is about to begin, it seems that both sides are fighting strongly, and the old king has already left the Myriad Dan Immortal Country. The battle for the throne has already started, I wonder who will be the new king of the Immortal Country."

"Anyway, it's not us, and these guys are all dog-eat-dog. That Sixth Prince's cooperation with Fire Divine Palace is definitely not something good, and he even used such a cruel and inhumane way to make slaves. If possible, I really want to make him suffer a bit." Chen Xiang said.

"That's for sure, especially those fellows from the Fire Divine Palace, they actually wanted to force you to teach them that pill refining technique. After we rest well, we'll rush over and let them know why the flowers are so red." Huang Jintian sneered.

[Chapter 1319](#)

The Heaven Realm was so big, not only Chen Xiang and Huang Jintian had the idea of making a fortune, there were also many other people who were willing to risk their lives to come to the battlefield of the battle for the throne to try their luck.

At this time, the majority of the people participating in the great battle in the palace were Immortal Monarch and Late period of human immortal, and they were all from famous big powers, so all the equipment that they brought were Divine Equipment, even if they were damaged, they could be sold for

a good price. If they were lucky, they would be able to get a piece that was intact, and that would be great.

"Brat, you must be the one who did the Heavenly Bull Immortal Palace thing, right?" Huang Jintian was now full of energy, he had already recovered to the peak, and could go to that battlefield to cause trouble at any time.

"You know about the Heavenly Bull Immortal Palace as well." Chen Xiang stood up, patted his butt and asked in shock.

"Other than you, I can't think of anyone else with this kind of skill, nor can I think of anyone with such a good relationship with women. You must have gotten that Holy Spirit Rabbit for your woman, let me remind you, you definitely can't use it yourself, unless you're tired of being a man." Huang Jintian looked at Chen Xiang with a serious expression.

Chen Xiang chuckled: "Master, you don't have to worry, I will never become your female disciple."

Huang Jintian grinned: "It's not bad having a female disciple, but a brat like you is so happy as a man, even if I beat you to death you wouldn't go and be a woman right?"

"We can set off now, master. When I use some poison or something, there shouldn't be a problem." Chen Xiang said, with his current strength, if he wanted to cause trouble, he could only do so.

"I heard that when you were in the Heavenly Bull Immortal Palace, you used the Black blood magic sunflower's poison. This poison isn't forbidden, so just use it as you like. Huang Jintian rubbed his hands together as he smiled.

"When the time comes, we'll split up and move out. Don't come together, otherwise, we will attract some experts that will implicate you. However, you need to be careful. If you see the Immortal Empire charging over, quickly run." Huang Jintian warned.

Chen Xiang nodded, then was pulled by Huang Jintian and rushed towards the distant battlefield that was engulfed in violent oppression. At this moment, the place was densely covered in black clouds, lightning flashed, thunder roared, winds rose and clouds surged, roars, explosions rang unceasingly, and the battle situation was extremely intense.

"Let's stop here. See you in the future." Huang Jintian tossed Chen Xiang at the foot of a bare mountain, then flew towards the battlefield not far away.

Chen Xiang looked at the barren hills around him, they were caused by the Qi waves released by the great battle. Originally, there were many big trees here, but they were all destroyed the moment the great war broke out.

"Whether it's the early stage of Immortal Monarch or the Late period of human immortal, everyone stay away from the rest. There are two Late period of human immortal s fighting in front of us." Long Xueyi said.

Chen Xiang immediately rushed over: "In these two big battles, the ones that died the most should be Worldly Immortals. As long as we don't meet the Immortal King, it would be difficult to kill them, unless we meet someone strong with poison ..."

Long Xueyi said: "This method of fighting, is also to weaken the opponent's strength, so that they cannot have enough power to control the entire Immortal Country, while the other forces only used a very small amount of power, the main force is still on the side of the Sixth Prince and the other princes."

In front of Chen Xiang, there were two middle aged men who were wielding Immortal swords, and were performing beautiful yet powerful sword techniques to fight fiercely.

"There's no Imperial Avian Race. These should all be Myriad Dan Immortal Country's people." Chen Xiang hid behind a huge boulder and slowly took out his Death-haunting arrow.

"Who cares. Let's get rid of them first. They only have middle-grade immortal swords, so they can sell a few Spiritual crystal." Su Meiyao said.

Chen Xiang used the Death-haunting arrows to condense a large amount of Innate Qi to shoot one arrow, and then poured the Black blood magic sunflower's poison powder into it, waiting for an opportunity to shoot two birds with one stone.

After waiting for a moment, the two Worldly Immortals finally started to fight back with their swords.

"He's coming." Chen Xiang's heart moved, he released the poison arrow that he had been preparing for a long time. With a "whoosh", a strong Qi arrow that was infused with a large amount of Black blood magic sunflower poison powder shot out like light, and when it reached the middle of the two Worldly Immortals, it suddenly exploded, causing a black poison mist.

"Extremely poisonous, it's a Black blood magic sunflower." One of the Worldly Immortals shouted in shock.

"Good eye."

Chen Xiang suddenly appeared, holding onto the Devil emperor dagger, he stabbed it into the Worldly Immortal Stage cultivator's abdomen, and took out the heavenly core inside, then quickly took out the sword, passing through space, to the back of the other Worldly Immortal, the dagger stabbed in, straight into the Heavenly Pill, after taking the sword, Chen Xiang used one of the immortal swords to kill the two Worldly Immortal Stage experts.

"Hurry up, a Immortal Monarch has noticed us." Long Xueyi shouted. Chen Xiang moved extremely quickly, after absorbing the poison mist, he immediately left the place.

The Immortal Monarch that came over was a handsome middle-aged man. He looked at the traces of a fierce battle and frowned: "Strange, there were two pretty strong Worldly Immortals fighting just now, why did they disappear all of a sudden. From the looks of the death aura, there should be two dead people here.

"It's He Tang, isn't he the eldest son of the first prince?" Chen Xiang was shocked, this He Tang was a very powerful being.

"He Tang, are you running away?" This was He Feng, the eldest son of the Sixth Prince. He had once destroyed a Demon Palace by himself and was very strong.

When He Feng arrived, the Immortal Sword in his hand had already been pierced, the powerful Sword Qi gushed out, immediately ripping the ground apart, setting up two strong gales, blowing in two different directions.

"This fellow is indeed powerful. No wonder he was able to exterminate this Demon Palace." Chen Xiang exclaimed.

He Tang was not someone to be trifled with, with a wave of his hand, a black blade appeared. The blade brimmed with black Qi, it attracted bursts of lightning, and when He Feng's sword pierced over, he used his blade to block it, releasing tens of lightning bolts, and the sound of the explosion made Chen Xiang's Qi and blood boil, causing many of the boulders on the ground to be shaken into powder.

"The Myriad Dan Immortal Country's Wang Sun is indeed powerful." Chen Xiang sighed in his heart.

"They are all princes now. The future king of Myriad Dan Immortal Country will definitely be strong." Long Xueyi said.

The sound of battle between He Tang and her was extremely intense. In a very short period of time, numerous huge craters had already appeared here, and the deep cracks on the ground caused people's hearts to palpitate.

Chen Xiang had originally planned to stay far away from these two people's battlefield, but when he thought about how hypocritical He Feng was, taking his Relive Dan and doing those wicked things, he immediately got angry. Hiding in a ditch, he took out his Death-haunting arrow and secretly injected it into the Innate Qi.

"A little Seven Colored Sky Fire can break through the defense." Su Meiyao said: "Otherwise, with that little bit of Innate Qi, it wouldn't even be able to shake his Innate Qi's barrier, and the poison mist would be useless."

[Chapter 1320](#)

When he was in the Heavenly Bull Immortal Palace, the Immortal Monarch that Chen Xiang fought against were not very good. But this He Feng was different, he was at the peak of the late stage of the Immortal Monarch, and could be considered as half a Immortal King. Unless he used a large number of Magical corruption gas s, together with a high level God-eclipse powder, it would be very difficult to shake his defense.

"Alright."

Chen Xiang released a thread of the Rainbow Sky Fire onto the arrow head. This kind of flame could not guarantee that it would completely destroy He Feng's defense, but it could cause cracks to appear on the protective shield. When the time came, the exploding Black blood magic sunflower poison gas would seep in through the cracks and into He Feng's body.

He Feng and He Tang were battling fiercely, the two of them had both used very strong power, their defense was also extremely terrifying. If they did not have the same strength as, even if they tried to sneak attack him, it would be difficult to win, and they might even be killed.

"Just a bit of the Rainbow Heaven Flame had consumed twenty percent of my Innate Qi. I hope it will have some effect." Chen Xiang popped his head out from a crack in the ground. He Feng and He Tang were far away and Chen Xiang could already shoot an arrow but he had to wait for a good opportunity.

"They are all moving at high speeds. We have to get closer." Long Xueyi said.

Chen Xiang still could not go near, otherwise, he would be easily discovered. Furthermore, with the large commotion in front of him, he could release a very strong wave of air at any time.

"Seems like I can only use this opportunity and travel through space to shoot another arrow." Chen Xiang used Heaven Tour and looked down from the sky.

After a while, when He Feng was thrusting his sword, he was suddenly blocked by He Tang's blade. He Tang's palm struck his own blade, releasing a very strong force and sent He Feng flying.

"Here's your chance, He Feng, f * * k you." Chen Xiang immediately teleported to the back of He Feng who was flying backwards and shot an arrow at him.

He Feng immediately felt a weak vibration behind him, he twisted his body, wanting to avoid the unknown attack, but Chen Xiang's arrow still accurately shot towards him.

"Who are you?"

He Feng bellowed, the arrow did not cause him any harm, because the protective Qi barrier on his body was extremely strong, and although Chen Xiang's crossbow arrow was extremely powerful, its power was very weak, and the Qi barrier that struck his body exploded.

He Tang had also seen that this was a good thing. He had already seen Chen Xiang as an ally.

Just as He Feng was about to swing his sword at Chen Xiang, his expression suddenly changed: "Black blood magic sunflower."

"You guessed right." Chen Xiang laughed sinisterly, he immediately teleported in front of He Feng and slashed across his neck with the Devil emperor dagger, leaving behind a ray of demonic red light.

He actually wanted to kill He Feng, but this He Feng was too powerful, he managed to dodge it in an instant, and even planned to kill Chen Xiang with a slash, but Chen Xiang's speed was faster than he imagined. While cutting the sword, the Devil emperor dagger just happened to cut off his wrist.

When He Feng unleashed his cut off arm, black blood spurted out violently. It seemed like the poison had already spread within his body.

"Bastard, I will tear you into eight pieces." He Feng roared sinisterly, then took out a snow white pill and swallowed it.

"That's the Dew Snow Lotus Pellet. It can cure the Black blood magic sunflower's poison and heal injuries ... "Quick, run." Su Meiyao shouted.

Chen Xiang had already seen that He Feng's recently severed hand was growing back out, and his complexion had also quickly recovered. He could clearly feel how strong He Feng's protective shield was.

"Come here." Chen Xiang waved his hand, using his divine power, he grabbed the immortal sword and kept it into the ring.

"Go to hell." He Feng was enraged, he had already recovered from the attack and his fists shot out like lightning.

Chen Xiang slipped and used the Shrinking step, and instantly dashed several dozen steps away. As for He Tang, he had already attacked with his black blade, it carried several streaks of lightning as it hacked towards He Feng.

"I'll leave it to you, Eldest Young Master." Chen Xiang shouted, and then disappeared.

He Feng trembled with He Tang again. He was currently extremely furious, he had almost died just now, he had lost a high grade immortal sword and a precious Snow Gauze Lotus Pellet, but he was still unable to kill the person who poisoned him.

He Tang never thought that person would be so powerful. With just that bit of strength, he dared to sneak attack He Tang, broke his opponent's palm, took away his Immortal Sword, and even gave He Feng a Rainy Snow Lotus Pellet.

Chen Xiang had already left the battlefield far away, and when he thought back to it now, he felt a lingering fear.

"That guy really does have some ability. He didn't die even like this, and he's still able to turn the tide." Chen Xiang hid in a deep ravine as he looked at He Feng's high grade Immortal Sword.

"What kind of immortal pill is that Rain Dew Snow Lotus Pill? It's so powerful; it can cure poisons and even give birth to a palm." Chen Xiang asked after he wiped the consciousness in the Immortal Sword.

"A Tier 5 immortal pill, it's not strange that he has such a pill. It's best if you don't touch these princes and grandsons of Myriad Dan Immortal Country, they have a lot of high grade immortal pills." Su Meiyao said.

Long Xueyi observed the battlefield and helped Chen Xiang find a better target, but she quickly discovered that something was wrong, "Many people from the Sixth Prince know about the appearance of the Black blood magic sunflower poison, and so does the Eldest Prince. They all know that you are not on their side."

"Although the Black blood magic sunflower poison is not banned, if you use it at this time, it will definitely attract anger." Bai Youyou said: "Back then when my sister participated in the great war, it was also because she used poison that many of the great powers came into contact with her."

Chen Xiang said disdainfully: "This group of fellows, if they had a strong poison, they would definitely use it even more ruthlessly than me. They are just jealous of me, because they don't have a strong poison."

He was carefully hiding in the battlefield. After half a day, he shook his head and sighed: "If I had the power of the Immortal Monarch, I might have already killed quite a few of them. Master would definitely reap a bountiful harvest, when we talk about this matter in the future, he would definitely look down on me."

"Up ahead." Long Xueyi shouted.

When Chen Xiang saw a person falling from the sky, he immediately used his Earth Vine to trap the Immortal Sword with the person and dragged it to the ground to get to the person's side. He was currently hiding in the deep ravine and no one had noticed him.

"Low-grade Immortal Sword? You actually dare to fight with such a thing? No wonder you were killed." Chen Xiang was a little dissatisfied and kept the Immortal Sword, then took out the person's Heaven Pellet.

Many Immortals had died, but most of them had been broken into pieces. It was rare to find a complete corpse like this, and he even had a complete sword in his hand.

"Someone from the Imperial Avian Race is coming. It seems like he is here to look for the corpse." Long Xueyi's voice was a little agitated: "You have to get rid of it, it's best if it's complete. Don't use poison, otherwise you won't be able to eat bird meat."
