

Dan God 1341

[Chapter 1341](#)

There was only Chen Xiang sitting alone on the wide competition grounds. Many people suspected that he did not have the ability to quickly refine high level pellets, so they did not struggle and decided to kill him on the Ground level Pellet.

"Granny Rong, if you were to refine a high grade Heaven level pill, how long would it take?" Long Huishan held onto the old granny's arm intimately.

Long Peirong had also been badly beaten by Chen Xiang on the stage, but her mood had improved a lot now. She smiled benevolently and said: "One furnace in two hours, one furnace two pills won't be a problem, in twelve hours, I can definitely concoct twelve pills, that's equivalent to 12,000 points. If that brat concocted a Ground level Pill, he would also have to concoct twelve thousand pills in twelve hours, hehe, even with the arrival of the Pill Sage, it would not be possible for him to do such a thing."

"Pei-Rong, you can't let your guard down. It's definitely no accident that he was able to suppress all of you Dan Immortal. He did it with his true abilities. This competition was not fair to begin with." The very high Elder scolded sternly.

"Dad, I understand." Long Peirong stopped smiling.

Yan Zilan, who was standing at the side, was secretly shocked, she did not think that such a powerful old granny would actually have a father, who was also the very high Elder of the Long family. It was the first time she heard that the Long family only had a very high Elder, and previously, she was believed that the strongest in the Long family was only Long Peirong.

"Imperial Dragon Clan of the Imperial Dragon Clan are also present, but he is very low-key and did not attract anyone's attention." The Long family very high Elder said.

"It's that young man. He has a very dense holy dragon aura, so it should be a holy dragon. He's also very strong, so he'll be able to become a dragon king very soon. He looks very young." Long Peirong nodded.

Right now he was resting, and he had even eaten a few pieces of Hunyuan Dan, sealing the medicinal power in his dantian. He was worried that it would not be enough to concoct pills with the Innate Qi later.

It was normal for one pellet to be worth a thousand, but for people who could not concoct high quality Heaven level pellets, it was a bit unfair. It was just that this competition was just to show off to the Dan Immortal, and the low leveled Alchemist was just to join in on the fun.

If a low level Alchemist came to participate in the tournament and clamored for fairness, it would be a complete joke, because this competition was not prepared for low level Alchemist at all.

"Mistress, you should rest well. Let Master and the others handle the matter of collecting medicinal ingredients." Hua Xiangyue giggled and pinched Shao profoundyun's shoulder.

Shao profoundyun leaned on the chair, fully enjoying the massage from Su Meiyao. At this time, Liu Zongyu, Wu Canghong and the others had all left to help her gather the medicinal ingredients. Only Song Ying, Liu Meng'er and the women stayed behind.

"Aunt Xuanyun, I didn't think that you would be so amazing, being able to get so close to the front." Liu Meng'er looked at Shao profoundyun in admiration, because at that time, Shao profoundyun was just a Alchemist.

"Your mother isn't bad either. If it's a refining competition or something like that, your parents will definitely be among the best." After Shao profoundyun finished speaking, he sighed slightly: "However, compared to the freak in first place, I'm still far too lacking, and the following matches seem to be very disadvantageous for him. It seems like he doesn't plan to refine the Heaven level Pellet."

Liu Meng'er looked at Hua Xiangyue, hinting that he should tell Shao profoundyun some things.

"Master, I don't know if I should tell you something." Hua Xiangyue was a little hesitant, because he had not confirmed whether the person was Chen Xiang or not.

"Don't dilly-dally, don't you know that I hate people like this the most?" Shao profoundyun pouted and said.

"We suspect that the one in first place is our Junior Martial Uncle ..."

"Ah!" Shao profoundyun jumped up from his chair and looked at Hua Xiangyue with an expression of disbelief: "That guy is mine ... "Junior apprentice-brother."

Hua Xiangyue stuck out his tongue, "It's very possible that he is."

Shao profoundyun frowned. She thought for a moment and then smiled: "If this guy is really junior, then I'll let him see how powerful I am. I'm his senior sister, I definitely can't lose to him."

"This must be kept a secret. Right now, Junior Martial Uncle is in danger." Hua Xiangyue warned.

"I'm not stupid, of course I understand. I really hope it's him. I never thought that the first time I met this Junior Brother, I would directly exchange pointers with him." Shao profoundyun was obviously happy.

Song Ying chuckled. "But you lost to him, and lost very miserably."

"Junior Martial Uncle is truly pitiful. Without the Heaven level Medicinal Herbs, I wonder how he would be able to enter the top ten." 's eyes flashed. She was Chen Xiang's slave, and had been involved with Chen Xiang multiple times, so her mind and body was already occupied by Chen Xiang. However, she didn't show that kind of emotion in front of Shao profoundyun and Song Ying, otherwise, it would be very easy for her to be seen through.

The first person to return to the competition arena was a very young man. He had a proud expression on his face and walk with steps that Chen Xiang felt he had seen before.

"This is a holy dragon. If I did not see him alone here, I would not have noticed him. I never thought that this fellow was actually a Alchemist, and concealed himself so deeply." Long Xueyi's voice carried a rare heaviness.

At this time, the competition grounds were much emptier, and some Dan Immortal s could choose to stay far away from them, but Chen Xiang chose to stay at the area furthest from the front desk. At the back of the competition grounds, there were no Alchemist s.

"Because the Ground level Pill's score is a bit low, we can receive five hundred in one go. I believe that everyone will be able to reach this stage and very rarely will they fail to refine pills. I am not worried that everyone will waste our medicinal ingredients." He Peiqing had also returned to the arena. He actually wanted to see how Chen Xiang obtained victory, because in the eyes of the audience, this was an absolutely impossible feat.

Just as Long Peirong had said, even if the Pill Saint came, he would not be able to turn the tide, unless Chen Xiang also refined a Heaven level Pill.

Shao profoundyun had obtained a large amount of Heaven level Pill medicinal ingredients, she intentionally walked past Chen Xiang, and carefully examined the person that might be his junior brother. However, she could not see anything, but she could feel that Chen Xiang was not nervous at all, he just sat there quietly with his eyes closed, as if he had merged with the world.

"Kid, do you really not have the ingredients for the Heaven level Pill?" Li Tianjun sent a sound transmission to Chen Xiang. He knew that Chen Xiang could refine Heaven level Pills, but he felt that it was a pity that he couldn't see Chen Xiang refining the Heaven level Pills with his own eyes.

"Don't worry about me, I already have a plan." Chen Xiang replied.

However, only Li Tianjun knew how terrifying Chen Xiang's bottomless potential was. Even though the rules restricted him, if he could break through the limits and win against the rules that were against him, then it would definitely be a huge improvement.

[Chapter 1342](#)

Chen Xiang was at the back of the group of Alchemist s. He looked at his surroundings and saw that the place he was at was completely empty, he had intentionally chosen this place.

Chen Xiang looked at this group of Alchemist s in front of him and sighed helplessly in his heart. He had originally wanted to try and fight for them, but in terms of refining Heaven level Pills, he was probably inferior to these Dan Immortal s. Currently, these Dan Immortal s who were refining pills could use most of their strength to refine Heaven level Pills.

Even when Chen Xiang used all his strength, he was still unable to compare to them.

"If they don't use the time acceleration array inside the pill furnace, they might still have a chance." Su Meiyao said: "The formations in this era are becoming more and more powerful. They have improved a lot compared to our era, especially the Time Formation."

"sister Meiyao, if you were to go all out to refine high grade Heaven level pills, how long would it take for you to refine a batch of pills?" Chen Xiang asked, he wanted to use this to predict the strength of the Dan Immortal.

"About one furnace in eight hours. It's easier to refine, but two won't be a problem. If I were to use those Time Formation s now, I estimate that it would be completed within six hours." Su Meiyao thought about it and replied.

From this, it could be seen that the refining difficulty of middle graded pills was much greater than low ranked pills, and Heaven level Pills had a thousand points, which was also very normal. The Pills were

rare herbs, so it was impossible for Myriad Dan Immortal Country to provide too many, but if other Alchemist wanted to refine them, they would have to produce them themselves, furthermore, the refining difficulty was very high, and the time required was also very long.

The first person who refined the Hunyuan Dan was the Long family's Dan Immortal. Until now, Chen Xiang still did not know where this Long Peirong came from, he only knew that she was from the Long family. However, from the looks of Long Peirong and the others, they could tell that she had a very big background.

Long Peirong obtained three sets of ingredients for High Rank Heaven level s, but the second completed Dan Immortal was much more surprising to many. It was actually a young man, who was the Holy Dragon that Imperial Dragon Clan sent over, who obtained two sets of high grade Heaven level s.

The third was Li Tianjun. Ever since he lost to Bi Xia Dan Immortal last time and received some stimulation, he had made great progress.

Fourth was that Bi Xia Dan Immortal, she had the same set of high grade Heaven level medicinal ingredients as Li Tianjun, as well as three middle grade ones, fifth was Shao profoundyun, and sixth was the person Chen Xiang was very familiar with, Du Hai.

Du Hai was not ranked in the previous round, but that did not mean his strength was weak. Furthermore, he was here on behalf of the Sacred Dan Realm, and had probably collected a large amount of Heaven level medicinal herbs.

The seventh was the Dan Immortal from the Devil-suppressing Divine Palace, he had a strong demonic presence.

As for the remaining three people who were able to obtain the medicinal ingredients, Chen Xiang did not know them, but he noticed that when the three Dan Immortal s were receiving the medicinal ingredients, they had an eye contact with He Peiqing, so he guessed that they were Dan Immortal s that had been sent by the Myriad Dan Immortal Country.

Those Alchemist who were unable to obtain the medicinal ingredients felt that it was a little regretful, but before they left, they had already prepared sufficient Heaven level medicinal ingredients, so many of them had faces full of confidence, thinking that they would have the chance to squeeze into the top ten.

Of the thousand extremely high level Alchemist, only ten would be able to enter the finals.

"Now, Alchemist who wishes to receive Ground level Pills, please come up to receive them. After that, I will announce the start of the competition." He Peiqing said as he looked at Chen Xiang, because he was the only one who chose to refine the Ground level Pill.

Everyone had only suspected it before, but they never thought that someone would actually choose to refine a Ground level Pill. A single pill only had one point, and if one used all their might to refine it, they would definitely not be able to defeat those Dan Immortal who were refining high grade Heaven level s.

But Chen Xiang walked up quickly.

"How many more Five Elements Profound Dan do you guys still have?" Chen Xiang asked.

"There are still three thousand of these." An old man replied.

"I can only receive 500 at most. Since there aren't any Alchemist who can receive it now, can you let me receive a little more at once?" Chen Xiang asked.

"It's the same for you. Don't tell me you can concoct over a thousand pills at once." The old man asked in disdain, "Your pill furnace can't hold that many, can it?"

He Peiqing said: "Only five hundred pills at a time, this is the rule that was previously set. We will calculate according to the number of pills that you will give us, and when we count the total, if there are more than ten failures, you will have to leave."

"Five hundred then." Chen Xiang sighed, many people did not understand why he wanted so much at one go, no one could refine so many at once.

Chen Xiang took the five hundred sets of Five Elements Profound Dan medicine and returned to his position.

"The second round of the Myriad Pill Competition will now begin." After He Peiqing finished speaking, a big sized man knocked on a large gong, and after a "clang" sound, all the Alchemists immediately placed the medicinal ingredients into the furnace.

Even the small amount of Heaven levels provided by the Myriad Dan Immortal Country was the same, but the Ground levels he received were still the same. Not only were their quality poor, some of them were even filled with rubbish and mud.

In a very short period of time, those Dan Immortals had already entered the state of refining pills, but Chen Xiang had poured out all five hundred sets of medicinal ingredients he had received.

Everyone saw Chen Xiang release all the broken medicinal ingredients, immediately feeling a headache. Forget about refining them, even if they were to tidy them up properly, it would make them feel dizzy.

Moreover, one pellet each time, would cause the Alchemist to have no motivation.

However, Chen Xiang was carefully cleaning up those medicinal herbs. He did not feel troubled, nor did he look unhappy. Instead, he was filled with confidence, and there was a sense of excitement in his expression.

Although there were a lot of them, Chen Xiang handled them very quickly and carefully. After he finished organizing them, he took almost an hour and there were some people who had already finished training a batch, but that was only for the low grade Heaven level.

"It's about to begin." Hua Xiangyue said somewhat excitedly: "If he is really my Junior Martial Uncle, after this, all of you will see a scene that you will never forget."

"What's going to happen?" Wang Weiquan asked curiously.

"I don't know either, but if he wants to win in this kind of situation, he must use some very powerful methods." Hua Xiangyue said.

"No matter how I think about it, I just can't figure out how to use a Ground level Pill to win, it's only a single point per pill. Even with the pill refining speed he had before, he still wouldn't be able to enter the

top ten ranks. The Dan Immortal within the top ten are all very strong, and right now, they are all refining high grade Heaven level pills." Song Ying said.

[Chapter 1343](#)

Chen Xiang did not immediately start concocting pills, but closed his eyes instead. He did not know what he was doing, even in this kind of situation, he was actually so relaxed, as though he was not participating in a competition.

"Whether or not he is Chen Xiang, it all depends on his performance now, only Chen Xiang can use that mysterious pill refining technique, and now he can only rely on that unimaginable pill refining technique to win this competition." Yan Zilan looked at Chen Xiang with rapt attention, and his voice carried a trace of excitement.

Li Tianjun, Du Hai, Long Peirong, and Shao profoundyun had all been paying attention to Chen Xiang's location. Li Tianjun knew that it was indeed Chen Xiang, while the other three couldn't be sure, but if it was Chen Xiang, they couldn't let their guard down.

"What is he doing? Why is the immortal qi suddenly stronger?" He Feng asked in shock.

This Myriad Dan Immortal Palace had a formation that could absorb immortal qi, but it was not activated yet, but a large amount of immortal qi was flowing in, causing many people to be surprised, because the immortal qi was surrounding Chen Xiang.

Huang Jintian knew that Chen Xiang was serious, and immediately went on guard. He was worried that if Chen Xiang revealed his identity later, someone would attack him.

Chen Xiang opened his eyes, two golden rays of light shooting out, after that, many medicinal ingredients floated up, as though they had a spirit of their own, they combined together.

"A very powerful divine power." Wu Canghong said emotionally. He was a spirit cultivator, but the God Power Chen Xiang released shocked him.

"This divine power ..." Is it from the Imperial Dragon Clan? " Long Huishan opened her eyes wide, she was just cultivating her mind, and that was just the beginning.

"He doesn't belong to the Imperial Dragon Clan, he cultivated it himself." The very high Elder was also surprised.

Chen Xiang used a large amount of divine power to control the medicinal herbs to float in the air, and then make them into parts. This required a lot of energy, so he could only absorb a large amount of immortal energy into his body to prevent himself from exhausting too much energy.

The people of Imperial Dragon Clan were the most shocked, because there was actually a human that could cultivate God Power to such a level, which made them secretly alert.

The five hundred sets of medicinal ingredients were floating in a neat row, forming a circle around Chen Xiang. Now Chen Xiang did not even need to use that Seven Stars Treasure Furnace.

"Dawan refining method."

Chen Xiang shouted in his heart as the divine power within the Divine Sense Sea suddenly surged out, transforming into a hundred Magic method furnace.

If he wanted to quickly refine the Ground level's medicinal ingredients, he could only use the Dawan refining method from inside.

Chen Xiang's arms trembled, and multicolored light gushed out of his body. It was a large quantity of Five elements heavenly fire, but under his control, they entered into the Magic method furnace very accurately.

The herbs inside the hundred Magic method furnace were like a pile of firewood. When Chen Xiang released the Five elements heavenly fire above, it instantly ignited into a raging fire.

"It really is him. Only my Junior Martial Uncle knew how to use this technique. However, before, there weren't that many." Hua Xiangyue said excitedly.

The others were already dumbstruck. This time, Chen Xiang used the Dawan refining method differently, because he used the God purification now. But in his eyes, it was more or less the same.

The Magic method furnace was transparent, so people could not see it, so the herbs were like being refined out of thin air. They did not use a pill furnace, but could still be used to concoct pills, and even had to concoct five hundred sets of ingredients at once. Although it was just a Ground level Pill, at the moment, the hundred balls of herbs that were burning with the Five elements heavenly fire emitted all kinds of colors, causing everyone to be dumbstruck.

The entire competition had just been enveloped by those multicolored lights, and when the medicinal ingredients came into contact with the flames, the multicolored light within was as if it was released by the sun itself. Different medicinal ingredients released different multicolored lights, and normally, they were all covered by the beautiful light of the pill furnace.

The Dan Immortal s present were all shocked. They had been refining pills for many years, but this was the first time they had seen such a method of refining pills. In the past, they did not even think that Chen Xiang would not chase after them.

"It's so beautiful. No wonder he was so confident before." Wang Weiwan was startled for a moment, and said while exclaiming.

"I never thought that refining pills could be done in such a way. Now, it seems that he has a chance of entering the top ten. The rules that originally were very disadvantageous to him are now useless." Liu Zongyu's face was also filled with surprise.

"No wonder that little girl Xianxian is so confident in Chen Xiang. Furthermore, she said that if Chen Xiang were to participate in this kind of competition, even if he doesn't win, he would be able to use his most powerful refining skills to shock the entire audience." Song Ying was moved.

Long Huishan laughed loudly, because she had already confirmed that this was Chen Xiang.

"I wonder if Granny Long would be angry if she lost to this kid." Long Huishan laughed.

"God Power, I never thought that he would be able to use God Power so well, these medicinal ingredients were not melted out of thin air, outside of these medicinal ingredients, there is an invisible

pill furnace, this pill furnace is formed from God Power, moreover it is very stable, and won't let the Medicine aura and medicinal powder inside leak out." The very high Elder was very excited, his face flushed red: "Moreover, this is the divine power that you release yourself, the flames can also easily get in, and everything inside can easily be controlled by you."

"I really don't know how he came up with this idea. How come I never thought of refining pills like this before? If that's the case, then I don't need pill furnaces to concoct low level pills. If I control them well, then he could concoct so many in one go and so many in such a short period of time."

Chen Xiang had used this method in the Sacred Dan Realm before, when he was still in Di Tian's time, so some people from the Heaven Realm had long heard of it. At this moment, a few large powers had already begun doubting his identity.

The people in the audience area had also started to spread the news, even those who did not know about Chen Xiang before, had now understood, if this person was really Chen Xiang, then a dispute would definitely arise.

Just by looking at the Green dragon demon-slain broadsword, it could incite a lot of big powers to fight a big battle. Divine Saber Immortal Palace, Imperial Dragon Clan and Devil-suppressing Divine Palace all wanted this blade very much.

Chen Xiang still had the Holy Devil-suppressing seal on him, and that was also something that belonged to the Devil-suppressing Divine Palace. As for the powerful demons, they were most afraid that these things would fall into the hands of the immortals, so they would definitely fight for them, otherwise, it would bring about heavy losses to the demons.

Other than that, Chen Xiang also had the Heaven Earth Killing Method on him, as well as Chaos Fire Token ...

"This brat is truly fat to the point of overflowing with oil. Even I want to snatch him away." Huang Jintian snickered in his heart.

The reason why Chen Xiang was taking such a huge risk now, was also because he wanted to obtain that divine cauldron. After careful consideration, he felt that the divine cauldron was worth the risk.

If Chen Xiang could enter the top ten, these medicinal ingredients would be equivalent to giving them to Chen Xiang for free. That would originally be theirs, especially when they saw Chen Xiang turn these pieces of trash into a large number of high quality medicinal pills. They couldn't help but wish that their own Myriad Dan Immortal Country would have such a genius Alchemist.

[Chapter 1344](#)

In the room where the group of Immortal Kings were located, Wang Qiongjin shouted towards the outside with an ice-cold expression, "The relationship between Chen Xiang and the Demon Empress is very shallow. Black blood magic sunflower appeared previously in the Heavenly Bull Immortal Palace, and during the great battle of the twenty thousand core palace, the first prince He Feng was also struck by this poison.

"Old witch, I said that you're not young anymore, aren't you shouting so that others will know that you've been murdered by the Super Old poison? Moreover, there is no other reason, you are spraying

blood on people, and your Fire Divine Palace must have done a lot of things to forcefully draw Fire Soul, no wonder the Fire Divine Palace accepted you, because the Fire Divine Palace itself is an evil force." The one who spoke was Long Huishan, she was currently a Female Dragon King of the Long family. Having inherited the Ice Dragon's inheritance, her strength was unfathomable and she had enough confidence.

Huang Jintian also shouted at the top of his lungs, "Isn't the Fire Divine Palace the one who sent the Immortal Kings to dominate the Mortal Realm and then be rolled back like homeless dogs? It is said that this was caused by the Leader's all-out counterattack, so it isn't strange for them to be making this up. Before they stole someone else, they always found an honest reason to do so and for all these years, the people who got their Fire Soul did the same thing."

Wang Qiongjin was completely speechless. They had indeed suffered a huge loss in Di Tian, losing an Immortal King and many good seedlings.

In the eyes of many people in Heaven Realm, Di Tian was just a mortal world. Even the Fire Divine Palace there was not in a good condition, so people always treated him as a joke.

For example, the Great Elder of the Dragon Subduing School was extremely terrifying. In an instant, he was able to kill a Emperor Dragon Guard, and in addition, he had met the Dragon Emperor before. The Dragon Emperor also knew that the mysterious Great Elder was extremely terrifying.

Chen Xiang who was currently using Dawan refining method to refine pills was not affected much by it, because he had already been prepared for a long time, and his only goal now was to enter the top ten places in the competition.

"Are you really Chen Xiang? I am Shao profoundyun, the wife of your eldest senior brother Wang Weiquan, and Huang Jintian is also my master. If you are Chen Xiang, then you are my junior brother." Shao profoundyun whispered to Chen Xiang.

"I knew it long ago. Master told me about it, but I should be your second senior brother. You became a disciple later than me, right, junior sister?" Chen Xiang replied with a smile.

"You ... I am older than you, and I have known you for a long time. When your eldest senior brother and I were married, he was in charge, so I am your senior sister. " Shao profoundyun didn't think that her own junior brother would actually see her as his junior sister, which made her a little angry in her heart.

Isn't that just the rule? You became a disciple later than me, so you are my junior sister, and I also won against you in the previous match. I am qualified to be your senior brother. Chen Xiang replied with a grin.

Shao profoundyun never thought that Chen Xiang would still be able to easily tangle with her on this issue, and the big shots from the big powers were all staring at him intently, wishing that they could stab him to death and take away his things.

"No, I can't accept it. You must be my junior brother." Shao profoundyun couldn't refute Chen Xiang, he could only act shamelessly.

"Junior-apprentice Sister, seriously refine the pill, or else you'll be left behind again." Chen Xiang laughed.

She didn't expect this Junior Brother to be so uncooperative, and had already determined that she was her Junior Sister. This made her very unhappy in her heart, and she decided to wait until the end of the competition to properly discuss this issue with him.

The glow that was emitted by the hundred Magic method furnace gradually dimmed and shrunk together. Many people had just seen him release extremely violent Five elements heavenly fire to burn those medicinal ingredients, but those medicinal ingredients did not explode, this was very logical.

Fire Divine Palace and Long Huishan did not argue, if not Long Huishan would reveal all of the disgraceful things that happened in Fire Divine Palace, causing his reputation to be even worse.

"It's about to form the core." Hua Xiangyue said: "This guy is my martial uncle. The reason he dared to take such risks must be because of that divine cauldron."

Every single Magic method furnace had the same progress and changes, this synchronization made everyone secretly admire. Now that everyone had witnessed the scene of refining five hundred sets of medicinal ingredients at the same time, and without even using a pill furnace to refine them at that, at first, everyone was shocked, but after that, they carefully looked at the changes in Chen Xiang's pill furnace, as they wanted to learn from it.

Chen Xiang spent approximately two hours to refine the medicinal ingredients. At this time, they congealed into a ball of air, and this ball of air was split into thirty pieces by him.

At the sight of this, everyone knew that he had to produce thirty pills in a single furnace. Each furnace contained five batches of medicinal ingredients, and under these circumstances, he could maintain his quantity without reducing. This made everyone feel that he was a real Pill Saint.

Chen Xiang's consumption was also huge, because when he was refining pills, he needed to inject some creation divine liquid s into the flames, and controlling a hundred of them wouldn't be an easy task. Furthermore, he would even need to use the God purification, which consumed a lot of divine power and Innate Qi.

Chen Xiang used his divine power to compress the balls of Qi and slowly condensed them into pills. At the moment, when the light was very strong, everyone in the distance could only see a dazzling ball of light, unable to see the details inside.

The person who had suspected him of cheating previously was now completely convinced. This was because Chen Xiang had used the transparent Magic method furnace to let everyone clearly see how he had concocted multiple pills in one go.

But Chen Xiang did not use it. In comparison, everyone felt that the other Dan Immortal present could not compare to Chen Xiang at all, although he could only refine Ground level pills, and that was because he could only make Ground level Pills.

He Peiqing looked at the pills that were gradually condensing and forming, and felt very uncomfortable in his heart, because with Chen Xiang's speed, refining all of his herbs was not a problem. Although it was some abandoned medicinal herbs, but after Chen Xiang turned them into treasures, they would still feel their heartache.

Even though the rules were not's match, Chen Xiang used his superior pill refining skills to tell everyone that the rules were not enough to beat him.

The glaring rays of light from the Magic method furnace disappeared, and thirty high quality Five Elements Profound Dan were quietly floating in every furnace. There were a total of three thousand, and the three thousand points were obtained just like that.

Adding in the time he had taken to process the medicinal ingredients before, Chen Xiang had spent a total of one and a half hours.

Chen Xiang took the large pile of Five Elements Profound Dan and walked forward, then picked up another five hundred sets of medicinal ingredients from the old man who had an unnatural expression.

[Chapter 1345](#)

In such a disadvantageous situation, to still be able to obtain such a high score, it was all because of Chen Xiang relying on his godly pill refining skills to counter, and once again suppressing the numerous Dan Immortal.

Chen Xiang organized the ingredients, and took a while to organize the 500 sets of ingredients, and he could use this time to recover the huge amount of energy he had lost previously. Right now, he was constantly absorbing the immortal qi, and using his energy to quickly refine it, and at the same time refining the Hunyuan Dan he consumed previously, allowing himself to quickly recover.

Just concocting a hundred batches of pills at the same time had consumed a lot of energy. He had used a lot of Five elements heavenly fire s as well and felt a lot of pressure in the area of Innate Qi.

Regarding Chen Xiang's current identity, many of the big heads could not be sure, because there was no proof that he was Chen Xiang. Although his method of refining pills was very similar to Chen Xiang, but with such a large world, it was not strange for people to have the same method of refining pills.

Although they were not sure, but those Rankers from influential clans had decided to surround Chen Xiang and ask him about it after the competition.

It had already been an hour since Chen Xiang had finished organizing the large pile of medicinal ingredients, and at the same time, Long Peirong had already concocted a batch of high grade Heaven level pills. There were two of them, and they were all of high quality, and even though he had exchanged them for 2,000 points, he was still 1,000 points less than Chen Xiang, and even slower than Chen Xiang by an hour.

Before this, Long Peirong thought that he would definitely get the first place in the competition, but who knew that Chen Xiang would actually use such a miraculous pill refining skill.

"You should be first in the second match. However, in the final match, the rules will certainly be against you. When that happens, it'll be even more difficult." Su Meiyao said.

"We'll talk about it when the time comes. In short, I'll try my best to fight over that divine cauldron." Chen Xiang once again used the Dawan refining method, releasing the hundred Magic method furnace, and began refining the pill.

Although they were only separated by only an hour, seeing Chen Xiang's ultimate move again, everyone was still shocked. They stared intently at the Magic method furnaces as they carefully observed the changes that had occurred inside the furnace.

Right now, it was not Chen Xiang's limit. If he could get more medicinal ingredients, he could refine even more in one go, which was why he had wanted to try and obtain more at once. It was just that He Peiqing did not allow him to.

In only two hours, he had succeeded in condensing the pellet. Like last time, it was still three thousand Five Elements Profound Dan and he already had six thousand points.

"I never thought that Imperial Dragon Clan's little holy dragon would be so powerful. He's now ranked third, and it looks like he's feeling a lot of pressure, afraid that he won't be able to enter the top ten. That's why he's not hiding his strength anymore." Long Xueyi said.

Chen Xiang was very surprised about this, because Li Tianjun and the Bi Xia Dan Immortal were both ranked behind the Holy Dragon, while Shao profoundyun was also a little behind her in ranking, so Du Hai was ahead of her.

"Has there ever been a dragon in your Imperial Dragon Clan that knew how to refine pills? A very strong one." Chen Xiang asked.

"I'm not sure. I don't have any memories of this kind in my memory inheritance, but I think there should be, because we dragons prefer to eat them directly." Long Xueyi said.

After Chen Xiang returned from receiving the medicinal ingredients, he took a look at the small holy dragon. He suddenly realised that this small holy dragon looked similar to the Prince Imperial Dragon that died in his hands.

"Could this guy be a new Prince Imperial Dragon?" Chen Xiang thought: "If that's not the case, then Dragon Emperor would not have come."

He seems to have used some sort of secret method to determine whether or not his son has the potential to become the Dragon Emperor. If the Holy Dragon who is refining pills right now is the crown prince, then there wouldn't be any problems with the Prince Imperial Dragon previously. That Prince Imperial Dragon was just born not too long ago, his strength is very weak.

"The holy dragon sitting here is a Immortal Monarch level holy dragon." Long Xueyi said.

Chen Xiang was concocting pills faster and faster now, which made He Peiqing and the rest secretly grit their teeth. If Chen Xiang finished refining those Five Elements Profound Dan before the end of the competition, then it would definitely be the Relive Dan's turn.

If He Peiqing knew that Chen Xiang had such a heaven-defying refining technique, he would definitely set a rule that would restrict Chen Xiang's abilities. He was already beginning to calculate the rules for the final round.

Chen Xiang arranged the ingredients and started to refine the third batch of pills. But this time was different from the previous two times, he only released fifty Magic method furnace this time, so he could refine ten batches of ingredients in one batch.

If he could control it well, it would save him a lot of strength, and might even be faster.

Seeing Chen Xiang reducing the amount of pills in the furnace, some people could tell that he was trying it out step by step, and had actually improved a little during the competition, which was truly admirable.

Chen Xiang's goal was not only to finish refining the Five Elements Profound Dan, the Relive Dan were also his goal right now. But right now, he had to quickly refine all of the Five Elements Profound Dan's medicinal ingredients so that he could get a high score in the points before he would dare to refine other pills.

Reducing the Magic method furnace to fifty pill furnaces would allow him to control it without releasing too much divine power, allowing him to relax a little. This way, he would be able to release even more stronger Five elements heavenly fire and quickly refine the herbs.

Thus, his current speed was much faster.

"At his current speed, he could probably refine five hundred sets of Five Elements Profound Dan in an hour. If he refines Heaven level Pills at the same speed in the future, then it would be too terrifying." very high Elder was amazed. "I have received inspiration from this kid, so I need to go into closed door cultivation and see if I can create this training method."

Long Huishan laughed: "very high Elder, if this brat is Chen Xiang, I can let him teach you, he is my younger brother."

"That's not necessary. His method might not be suitable. Even if he were to pass it down to me, I might not be able to learn it. It's better to figure it out by himself. Although it's a bit difficult, it's best suited for one's self." The very high Elder shook his head and laughed.

In just an hour, Chen Xiang had completely turned all five hundred sets of medicinal ingredients into pills, and inside each furnace, there were sixty pills. They floated, and they gave off a hazy glow like the stars in the sky.

It had already been eight hours since the start of the competition, yet Chen Xiang was able to refine nine thousand Five Elements Profound Dan. This was probably the shortest amount of time possible for Alchemist s to refine so many pills in the history of the tournament.

Chen Xiang had already scored 9000 points, the participating Dan Immortal felt powerless, and previously, Chen Xiang had also taken first place in a ruthless manner, and now, it was the same, and this second round was actually extremely powerful against Alchemist like them.

In an unfair situation, Chen Xiang was still standing as the top ranker with a high score, causing these Dan Immortal to feel ashamed in their hearts.

Chen Xiang took the batch of pellets that he had just refined and went to collect a new batch of medicinal ingredients. After passing through to Shao profoundyun, he sent her a sound transmission and smiled: "Junior Sister, you have to work hard."

[Chapter 1346](#)

Shao profoundyun opened her eyes and rolled her eyes at him. She could be considered a rather famous Dan Immortal now, and one that was very strong as well. It would be difficult for her to accept Chen Xiang as her senior.

However, Chen Xiang's current score was definitely higher than hers by a lot, and it was in both matches as well. Especially in this match, where she was in a very favorable situation, and yet, she was still being suppressed ruthlessly by Chen Xiang. She was embarrassed to call Chen Xiang Junior Brother now, so being left behind by a Junior Brother, she could not accept it either.

Shao profoundyun did not think anymore. She knew that as long as she could maintain her current state, it would be enough for her to perform steadily, and even if she could not get first, she would at least get a good rank. After all, she was considered very young in this group of Dan Immortal.

That is to say, Chen Xiang will be able to completely refine them in three more times. According to his current speed and the time he has to process the medicinal ingredients, it should only be enough for six hours.

Right now, Chen Xiang was no longer participating in the competition, but was frantically refining pills, because the pills would all belong to him. Myriad Dan Immortal Country originally wanted to take out the medicinal ingredients that had been stored inside for many years, and had a large group of Alchemist help him refine them.

Looking at how anxious Chen Xiang was right now, as if he was going to refine all of the Ground level Pills Myriad Dan Immortal Country provided. With such a large number of pills, if he sold them all, it would be like selling a large batch of Spiritual crystal, which Myriad Dan Immortal Country was giving to Chen Xiang as a gift.

After six hours, Chen Xiang very punctually refined all of the remaining Five Elements Profound Dan medicine. He had a total of 18,000 points, which was more than the number of Dan Immortal who were ahead of the first round. The Dan Immortal s behind did not have any hope of beating him, as long as he could enter the top ten, it would be considered good.

Sure enough, Chen Xiang started to have plans to take the Relive Dan s as he received five hundred sets of Relive Dan's medicinal ingredients.

"The quality of this Relive Dan's medicine is so high, there's no need to go through so much effort to deal with it." Chen Xiang was secretly happy. There were still five hours of competition left, and he wanted to strive to refine more Relive Dan. Of course, he wasn't using them, but selling them.

As for the other Dan Immortal who were refining the high grade Heaven level pills, their maximum points would probably only be 12,000, unable to surpass Chen Xiang. Right now, they could already confirm that Chen Xiang was the champion of the competition, and he was still as vigorous as a dragon and as ferocious as a tiger, able to continue refining pills.

"If you can refine four pellets in a single furnace, then He Feng and He Peiqing both know that you producing four pellets in the Myriad Dan Building would cause quite a sensation. If they were to see you refining four pellets in a single furnace, they might even claim that you are the Great Master Yan." Su Meiyao said.

No need to be afraid. After I obtain the divine cauldron, my master will immediately take me away. I believe in the strength of this crazy old man. Chen Xiang had also thought about this before. If he had suppressed it a little, with three pills in each batch, it would probably not arouse any suspicion from He Peiqing.

He Peiqing had lost his Tianshan holy fruit, so they would pay attention to this matter.

"They don't have any evidence to prove it's me, so don't worry." Chen Xiang said.

After organizing the Relive Dan's ingredients, Chen Xiang started to refine the pills. Fifty Magic method furnace, each with ten portions, just like before.

"Father, if he can get four pills in a pot, does that mean he's Master Yan?" He Feng asked softly. He hated Master Yan a lot, because he was the one who brought Master Yan out back then.

"No, because Master Yan's refining technique is different from his, and we don't have any evidence to prove that he is Master Yan, but we will definitely keep an eye on him." He Peiqing kept looking at Chen Xiang.

If this person was truly Master Yan, then it would also mean that he was Chen Xiang. If what Wang Qiongjin said was true, then all of the major events that happened in the Myriad Dan Immortal Country were all done by Chen Xiang alone, as well as the matter regarding the Heavenly Bull Immortal Palace's Holy Spirit Rabbit.

Chen Xiang was already very familiar with Relive Dan. Although this was the first time he used this method to refine a pill, he didn't feel any pressure. It was just like when he was refining a Five Elements Profound Dan.

It only took him about an hour to reach the Core Formation stage. At this moment, everyone was staring at the ball of mist with their eyes wide open.

Chen Xiang then separated the large lump of mist inside the Magic method furnace into forty parts. Seeing this scene, the entire audience exclaimed.

This meant that Chen Xiang's portion of medicinal ingredients could produce four Relive Dan, and not long ago, Master Yan who appeared in Myriad Dan Building could do the same. It was just that the people participating in the competition were currently refining five hundred pills in one go.

Relive Dan were easier to sell, especially of high quality. Now that Chen Xiang had used this kind of savage refining technique to refine them, it meant that the crashing Spiritual crystal would enter his Storage magic treasure s.

"Father... It must be him, Master Yan must be him." He Feng clenched his fists and said: "Who knows, maybe the entire matter of the Tianshan holy fruit is related to him. Arrest him and ask him about it."

The person who cheated the Tianshan holy fruit back then had your immortal sword in his hand, and knew about the poison in the Black blood magic sunflower. It might even be the Devil Scorpion Princess, so why don't you listen to that crazy old woman Wang Qiongjin's nonsense. He Peiqing reprimanded her with a sound transmission.

"But ..."

"Do you think that this guy won't have a powerful guy protecting him by refining five hundred sets of medicinal herbs in one go? Maybe he's on the scene. If we act rashly right now and the scene is in chaos, then we will lose face." He Peiqing said.

He Feng no longer spoke, but he believed that this person was Master Yan, which meant he was Chen Xiang.

"Junior Martial Uncle is so lucky. If there's a chance, you have to trick him properly." Hua Xiangyue scoffed.

"With his speed, both Relive Dan and Five Elements Profound Dan will receive a large number. I wonder how he will be able to get rid of us then." Liu Zongyu said: "I wonder if we can sell him to our Human King Immortal Country?"

"Please don't, Junior Martial Uncle is very evil. In the past, Eldest Senior Martial Brother was heavily deceived by him. Now, Eldest Martial Brother doesn't even dare to do business with Junior Martial Uncle anymore." Hua Xiangyue anxiously said.

"Dong Chen also told me about this." Wang Weiquan smiled slightly: "This Junior Brother of mine really doesn't recognize any kin at all in this matter."

"If it's Xianxian, even sending him off is possible." Hua Xiangyue laughed, "You guys are regretting that you didn't bring Xianxian here now, right?"

Hua Xiangyue still wanted to say that, in fact, Liu Meng'er could do it too, but she did not dare. She wanted to let Liu Zongyu and Song Ying know that her own daughter, Master and disciple were captured by Chen Xiang, and the consequences would be dire.

[Chapter 1347](#)

Time flew by quickly. In comparison to the Alchemist on the competition grounds, they felt that they did not have enough time.

Chen Xiang's current rank was obviously the highest, at twenty thousand. Right now, when he refined the Relive Dan, he could get two thousand points in two hours, and the competition would end in eight hours.

Long Peirong was still in second place. Just as she had predicted before, she had refined eight pills in one furnace for four hours, which was a total of eight thousand points.

Li Tianjun, Bi Xia Dan Immortal and the Holy Dragon Dan Immortal were fighting with each other, and then with Du Hai, Shao profoundyun and the Dan Immortal s, and then with the Dan Immortal s, and finally, the Dan Immortal s sent by He Peiqing were fighting with each other.

"Those fellows have quite a bit of Relive Dan s' medicinal herbs. I wonder how long they have been storing them for. I never expected them to be so easy on me. I still have eight hours to get five hundred sets in two hours." Chen Xiang was secretly delighted in his heart. Even if he did not obtain the divine cauldron in the end, just the high grade Ground level pills he had refined during the competition would allow him to exchange for a large number of Spiritual crystal.

In the end, he had no choice but to use half of the Longevity fruit to exchange for it. He did not want to encounter such a predicament again, and felt that if he met with the medicine that he liked, he would only be satisfied if he threw a large number of Spiritual crystal out to exchange.

In the blink of an eye, the time for the competition had arrived, yet Chen Xiang was still steadily displaying his powers, controlling them extremely precisely. In an hour, five hundred sets of medicinal ingredients caused the faces of the elders who were in charge of managing the medicinal ingredients to turn green, especially when they saw Chen Xiang giggling while coming up to receive the medicinal ingredients, they could not help but want to slap him.

Although he was the new king, his heart was bleeding as he saw the large amount of high-grade Ground level s that were being stored in the Myriad Dan Immortal Country being swept away like the wind and clouds.

If it was given to them to refine, they would at most get two Relive Dan pills each. On the other hand, Chen Xiang had four pills, causing the price of the ingredients to double, which was why their hearts would ache.

It was done.

Chen Xiang exhaled, and the two thousand Relive Dan were completed. It was also at this time that He Peiqing ordered someone to ring the gong, and the competition ended.

Chen Xiang refined a total of ten thousand Relive Dan s and eighteen thousand Five Elements Profound Dan, making a total of twenty-eight thousand points. He was ranked first and second place was still Long Peirong.

The third place was a bit unexpected. It was neither the Bi Xia Dan Immortal nor Li Tianjun, but the Holy Dragon Dan Immortal. The fourth place was Li Tianjun, the fifth place was, the Sixth Devil-suppressing Divine Palace, the seventh was Du Hai, the eighth was Shao profoundyun, and the ninth and tenth place were the mysterious Dan Immortal that He Peiqing had sent.

According to what they had agreed upon, Chen Xiang being able to obtain the pellet that they refined made many people jealous and envious. This was a huge amount of wealth, some people even felt sorry for He Peiqing, even though he had just become the king of the Immortal Country.

"Alchemist who have not entered the top ten, please leave the stage. Everyone, rest for six hours. Then, we will continue with the finals and cannot leave the stage." He Peiqing was afraid that Chen Xiang would leave after getting a huge sum of money, and was also worried that he would be taken away by someone else after walking out of the competition grounds. He naturally suspected that Chen Xiang was related to the Tianshan holy fruit, so he wanted to capture Chen Xiang as well.

Moreover, Chen Xiang was currently in his Myriad Dan Immortal Country. As the king, how could he let others capture him in front of him? The Green dragon demon-slain broadsword and cultivation techniques on Chen Xiang's body, of course he would also think of it, it was something that could raise his strength by a large amount.

Chen Xiang sat down on the ground and closed his eyes to rest, just at this time, the Holy Dragon Dan Immortal stood up and walked over to him.

"That guy is approaching in full fury, it seems like he's here to cause trouble." Long Xueyi said, "If it really comes down to it, I'll make my move and join hands with you to kill him. Then, I'll have your master take you away."

If they met Imperial Dragon Clan, Long Xueyi would always want to kill them. He did not understand why there was such hatred between Long Xueyi and the current Imperial Dragon Clan.

"No need, he wouldn't dare to do that." Chen Xiang said.

Seeing the Holy Dragon Dan Immortal walk towards Chen Xiang, everyone's eyes lit up, they knew there was hope.

They were only suspecting that he was Chen Xiang now, but they could not confirm it, and this Holy Dragon Dan Immortal was extremely aggressive, it seemed like he dared to do it because of the Dragon Emperor's support, and He Peiqing and the others did not plan to stop him, but they hoped that this Holy Dragon Dan Immortal would do something, and confirm that he really wanted it to happen.

Chen Xiang sat there without moving, his eyes still closed, as if he had fallen asleep.

"Are you Chen Xiang?" This Holy Dragon Dan Immortal was extremely direct, and immediately asked him the moment he arrived at his side.

Chen Xiang did not answer and pretended not to hear. He felt that there was no need to answer.

"You don't even dare to say who you belong to? What's the point of you living like this?" The Holy Dragon Dan Immortal sneered, his handsome face full of ridicule.

Chen Xiang originally only wanted to face it silently, but the other party had provoked him so fiercely, he could not tolerate it anymore.

Chen Xiang laughed: "In the previous round, I have already defeated you twice. You think that there's no meaning in me living, but you can't even compare to someone like me, who doesn't deserve to be alive. Why don't you hurry up and die?"

In any case, Chen Xiang had already gifted him a Holy Dragon for death before. With a certain level of experience, he wasn't afraid of killing this dragon in front of him.

The Holy Dragon Dan Immortal was a bit angry, but he kept his cool and asked, "Are you Chen Xiang or not, you only need to answer whether I am or not."

Chen Xiang stood up, and the smile on his face disappeared, and he said coldly: "Who do you think you are, why must I tell you?"

Hearing Chen Xiang's words, everyone secretly perspired for him, he actually dared to say what this holy dragon was. He had a Dragon Emperor on him, it was possible that he was this holy dragon's father.

However, everyone was even more certain that he was Chen Xiang. This was because only Leader s would not be afraid of dragons, and they would always be at odds with dragons.

Looking at Chen Xiang's expression, he seemed to want to attack even more than the holy dragon.

"You ... "Could it be that you don't know ..."

Chen Xiang suddenly sneered, and interrupted him: "Oh, I thought you were powerful, but I didn't think you would have to move your backer out, although I am weak, I have never done such a shameful thing."

The Dan Immortal was furious. Walking in the Heaven Realm, using the name of the Imperial Dragon Clan and the father of the Dragon Emperor was indeed harmful, just his reputation alone was enough to scare people to death. But if he were to bring it out now, it would be a sign of weakness.

[Chapter 1348](#)

The Holy Dragon Dan Immortal was speechless. He had thought that the person in front of him would be extremely afraid of him, because the Dragon Emperor was also here. Furthermore, he was a Holy Dragon himself, but who would have thought that he would actually contradict him like this?

Chen Xiang sat down and closed his eyes to continue his rest. The Divine Dragon Dan Immortal was furious and anxious, he really wanted to kill Chen Xiang with a single palm strike. He endured the pain in his heart as he turned around to return to his seat.

Chen Xiang wouldn't admit his identity now, because the finals were about to start. He would be able to obtain that divine cauldron very soon, and if he admitted it now, then something would happen that would make him unable to participate.

"This guy must be joking." Long Xueyi said with a laugh, "He thought that everyone would be extremely afraid of their Imperial Dragon Clan, and that you would answer whenever he casually asked."

"He should be very inexperienced. Because of his own [Holy Dragon], he is very arrogant, and I think it would be the same even if he was in the Imperial Dragon Clan." Chen Xiang said.

"This guy definitely thinks that he is too high up in the world, so he won't go into the mortal world to train. His background and the environment he grew up in is what he is destined to be, unless he comes to some realization later on." Long Xueyi understood these Emperor Dragons very well.

Right now, it was resting time. Originally, they had thought that there would be a show to watch, but who knew that the Divine Dragon Dan Immortal would actually submit.

Most of the people present were sure that the Pill Refining Madman was Chen Xiang, because there were some astonishing deeds regarding Chen Xiang's pill refining that had been passed over from Di Tian previously, even some of the Alchemists knew about it.

At the same time, they also wanted to see what kind of existence this Leader, who had founded the Dragon Subduing School with the slaughter of the dragons as the purpose of the sect, was. At the same time, they also wanted to see the Green dragon demon-slain broadsword that was renowned throughout the nine heavens.

"Junior brother, don't be afraid, your eldest senior brother and I will protect you. Furthermore, the king of Human King Immortal Country is here as well, and Meng Er's parents are also here. Our strength is not bad, so we will definitely not let anything happen to you." Shao Profoundyun felt the atmosphere become a little tense, because the people around him were all discussing how the great powers would deal with Chen Xiang.

"Thank you, Junior Sister. However, I don't need you to focus on me for the time being. I have long prepared for this." Chen Xiang replied.

"Hmph. Can't you just call me senior sister?" Shao profoundyun scoffed.

"Hehe, can you not call me senior brother? We are all alchemists, and I should be qualified to be your senior." Chen Xiang laughed.

Shao profoundyun no longer bothered about this matter with Chen Xiang, or else she really would have submitted and lost later. She didn't want to be this brat's junior sister.

"Is Master here too? Why haven't I seen him?" Shao profoundyun asked.

"He's here. Like me, master is a troublesome person, so he doesn't want to disturb the quiet life of the two of you." Chen Xiang said.

"We're not afraid of being disturbed at all. With him around, I'm relieved." Shao profoundyun sighed softly.

Just now, Shao profoundyun was having a hard time refining pills, so she only chatted with Chen Xiang for a bit before resting.

Chen Xiang recovered very quickly, with the help of the Yin and yang god blood in his body, he was able to absorb the Immortal Qi at an astonishing rate. Adding on the medicinal pills he had consumed, he would quickly recover to his peak condition.

After about two hours, Long Huishan's voice suddenly appeared in his mind.

"Chen Xiang, is that you? I'm your big sister Long." Long Huishan asked.

Chen Xiang pondered for a moment, then replied to the divine sense in her mind: "Big sister Long, long time no see, how have you been."

Long Huishan was only able to send a sound transmission to Chen Xiang through a large formation with the help of the very high Elder.

"Brat, you didn't even come to the Heaven Realm to look for me. Do you think I'm not powerful enough to deal with a god of pests like you?" Long Huishan's tone before was still very gentle, but now it had become extremely berserk.

"That's not it... "I just want to try it by myself. It's good for me, so I thank elder sister for her concern. Oh right, how is Little Ling doing at your place?" Chen Xiang asked.

"She is your little sister, and also my little sister, so you don't have to worry about her. I gave a dragon pearl to her, and she is currently in a deep slumber while fusing with the dragon pearl. Once she is done fusing with it, her body and other aspects will improve greatly, and the disadvantages of having her strength increased will gradually disappear." Long Huishan said: "What about you, your current situation isn't too good. Do you want me to make a move?"

"No need." Chen Xiang said, but his heart was warm, because many people still cared about him.

"Hmph, you've helped me so much, can't you let me help you? If the competition ends, those big powers will definitely surround you. When that time comes, how can you break out? At least our Long family can make a hole for you to escape." Long Huishan said in dissatisfaction, because she really wanted to help Chen Xiang.

"Big Sis, just watch. After the competition is over, I'll go look for you after I've dealt with my matters." Even if Huang Jintian was not here, he could still have run away by himself. He did not want the Long Family to face off against so many forces.

The three hours of rest quickly passed by. Currently, there were only ten Alchemist on the wide competition grounds and they were about to enter the finals.

This was also what Chen Xiang was looking forward to very, very much. At the same time, he was also a bit worried, because the rules for the competition wasn't something that was set completely at the start, but rather something that was announced just before every match. This made Chen Xiang extremely dissatisfied.

"Before, everyone's performance was very outstanding. Now that we've reached this step, it's not easy. There's still one more match, and we'll know who's the winner."

"Now we announce the rules of the tournament. Our rules have always been very fair and just, and the same goes for the third match."

"The third round will be different from the previous matches. We will use a method that will determine the victor in this round. This way, everyone can focus even more on concocting a batch of pills and be able to unleash all of their strength."

In terms of numbers, no one could compare to Chen Xiang, so the third round did not depend on numbers to win. It was equivalent to weakening Chen Xiang's advantage.

"In this final round, we will only focus on the quality of the pills. In order for Alchemist to focus on refining pills, we will not compete in speed or quantity, but in quality."

Hearing this, Chen Xiang laughed coldly in his heart, because these were all his forte. In this way, it was equivalent to weakening his two advantages.

"If we're just looking at the quality, then this isn't easy to judge. Because at our level, the quality of the pills we concoct will be of the highest quality." The Bi Xia Dan Immortal said.

"That's not right, high quality goods also have Peak quality s." Du Hai said.

"However, how should we judge if everyone is refining a high-quality pill together?" What Bi Xia Dan Immortal said was also what everyone wanted to ask.

"Is there a requirement for everyone to concoct a type of pill when concocting pills? If it's a high-grade pill, it would be unfair to the Alchemist who can only concoct low-grade pills. If it's concocted low-grade pills, some Alchemist would not be able to display their abilities." Long Peirong said.

He Peiqing laughed and continued to speak: "Everyone, I've thought of the problem earlier, that the Alchemist would come up with a high quality immortal equipment."

He Peiqing took out a round plate. In the middle of the plate, there was a depression in the ground, and on it He Peiqing placed a low-grade Ground level low-grade, and extremely poor quality, pill. He only saw the pointer on the round plate turn, and then, it stopped at the word "three".

"The quality of this pill is only three." As He Peiqing said that, he took another high grade Heaven level pellet, which was of poor quality, and with the spin of the needle, it stopped at "4".

Following that, He Peiqing even had the Alchemist who was in the finals inspect it carefully to confirm that there were no problems with the immortal equipment.

They tried putting the pills into various ranks, and the quality was similar to what they had expected. The highest quality pills ranged from 50 to 70, and there were a few with extremely high quality pills that could reach up to 80.

That disk's index finger mark was at most one hundred.

"If it exceeds a hundred." Shao profoundyun asked.

"The Peak quality refined by our Myriad Dan Immortal Country's seventh stage Dan Immortal has reached the 97th stage, but there hasn't been over a hundred of it yet. If there are over a hundred, then the array will spin a bit more and our Refiner thinks that a hundred is considered to be the peak." He Peiqing said.

Chen Xiang had Long Xueyi inspect the immortal equipment carefully, but he did not find any signs of connection with other people, so he was not afraid of He Peiqing and the others cheating. Furthermore, they did not dare, because the big powers, Imperial Dragon Clan, Fire Divine Palace and the Long Family were participating in the Love Competition.

[Chapter 1349](#)

That is to say, when everyone is refining pills, you all can choose to refine your own best pills, and everyone should have the herbs, if not, you can also buy them from us, and in the end, you all have to judge by the quality of the pill, and everyone has tried that immortal equipment, so no matter what pill you choose, everyone should be able to see the results of the test.

"As long as you refine the pellets that you are most adept at, and raise the quality to the peak, you would be considered an extraordinary Alchemist." He Peiqing said.

Chen Xiang secretly heaved a sigh of relief. He never thought that the final round would be so fair.

"We have the immortal equipment used for that test too, I didn't think that Myriad Dan Immortal Country would be able to get it out, there shouldn't be a problem, this is considered fair, looks like Myriad Dan Immortal Country would use this method in the end, I believe they are confident in their two Alchemist s." Liu Zongyu said, then looked at Liu Meng'er and asked, "Meng'er, how powerful is that Chen Xiang in terms of the quality of pill refining?"

He was once able to refine Peak quality s in the Sacred Dan Realm, and even two of them. Right now, he must have made a huge breakthrough in the area of alchemy, but he shouldn't be able to refine them all at that time, but if he wants to win, he should be very confident in winning. Liu Meng'er said.

Wang Weiquan laughed: "Seems like Yun'er had an exchange with junior brother, and will let the two of them have a go at this. Honestly speaking, I really don't know who should win."

On the other hand, he had decided to refine a Hunyuan Dan, and he still had a portion of Hunyuan Dan's medicinal ingredients on hand.

The best quality pills Chen Xiang had refined was not the Peak quality, but pills that had produced Holy Light.

Chen Xiang was very confident in himself, but the others did not see him in that way, especially He Peiqing. He had racked his brains to come up with such a rule, because if he did, he would be able to increase the distance between Chen Xiang and the other Dan Immortal.

In common sense, the pills refined by the Dan Immortal were much better than those refined by the other Dan Kings. Especially when the Dan Immortal was extremely serious about refining pills, it was easiest to refine Peak quality without chasing after speed or quantity of pills.

He Peiqing stayed in the Myriad Dan Immortal Country for a very long time. He had never seen a Dan King or Pill Sect that could refine a Peak quality, and most of them could only do so by using the Dan Immortal's themselves.

Of course, this rule also favored the two mysterious Dan Immortals that he had sent over. Because those two Dan Immortals were extremely skilled in refining Peak quality, they also had a fighting chance, and two of them at that.

Using twelve hours to focus on one furnace of pills, he would definitely not be lacking anything. Previously, everyone had seen how terrifying Chen Xiang was when he was refining pills, but they were more inclined to the way Chen Xiang did it, because he was fast, he produced a lot of pills and the quality was high.

"The match begins."

The gong vibrated, and Alchemist took out the herbs. Right now, they were not in a hurry, because there was no need to rush it anymore. This way, they could truly display their abilities very well.

Chen Xiang took out the Hunyuan Dan's medicinal ingredients. Seeing the Hunyuan fruit and the Hunyuan tree root in his hands, everyone was a little surprised, because everyone originally thought that he did not know how to refine the Heaven level Pellet.

However, in the previous match, he did not refine it, but thinking about it, he could understand, because he could win even if he refined a Ground level Pill, so of course he would refine a Ground level Pill, and also get a large amount of Ground level Pellets.

Chen Xiang took out the Seven Star Treasure Furnace. Currently, every Alchemist was carefully organizing the medicinal ingredients, and a few elders who were in charge of supervising the competition walked down to check every Alchemist's pill furnace, in order to prevent anyone from hiding things inside in advance to cheat.

And according to the legends, the pill furnace Chen Xiang used was similar to the Yanlong furnace refined by Yan Long Zi, it was a Holy level dragon artifact, and was many times more precious than the

top-grade immortal equipment, but now, he still did not take it out at this crucial point, making people wonder if he was Chen Xiang.

Now, Chen Xiang did not need to hide it anymore, it was just that everyone did not understand how the water jar furnace could help Chen Xiang with his Foreseeing Alchemy.

Of course, it would be better to use Yanlong furnace, but no one could be sure if that was the Yanlong furnace before, so he did not plan to take it out. There were too many people who knew what was happening, and once he took it out, they would definitely recognize him. Chen Xiang observed for a while and discovered that the other Dan Immortals had all chosen to refine high grade Heaven level pills. Previously, when they went to gather the ingredients, they still had a lot left, so they did not lack high grade Heaven level ingredients, but to refine immortal pills, twenty-four hours was simply not enough.

Moreover, it was not something that could be casually bought. In order to purchase a Superior Grade Heaven level Pill, one had to first pay a fee of Spiritual crystal at some large pill stores and then wait for the notification. Sometimes, it would take up to a year or so to arrive.

Furthermore, most powers would not sell high grade Heaven level pills. This was because it was very useful to Worldly Immortals and they had the most number of Worldly Immortals in each power.

"Do you want to use that method?" Su Meiyao asked.

The method she was talking about was letting the herbs be refined by hand, which would allow him to better control the quality of the ingredients. If he were to use the God purification in the pill furnace, the results wouldn't be that good, after all, he was pursuing the highest quality.

"This is the only way. For the sake of the divine cauldron." Chen Xiang said.

Only Wang Qiongjin had seen everyone here, so once Chen Xiang used it, he would be able to immediately confirm Chen Xiang's identity. Initially, this was how Chen Xiang defeated her, but at that time, Chen Xiang had turned into an old man, pretending to be a mysterious elder of the Dragon Subduing School.

Chen Xiang opened the lid of the pill furnace and threw all the supplementary ingredients in. Surprisingly, no main ingredient was put in, which made people feel weird, because most of the situations were done at the same time.

One of the Hunyuan Dan's main ingredients, Hunyuan fruit, was currently on top of Chen Xiang's palm. He slightly frowned, looked at the Hunyuan fruit in his palm, and a ball of multicolored flames suddenly rose out of nowhere, covering the entire palm of his hand, burning the Hunyuan fruit.

"What is he doing?" Long Huishan said in shock.

"He's refining Hunyuan fruit, his pill refining method was originally the same as before, but before, it was done in the pill furnace, and now, he directly uses the medicinal ingredients on his own body, allowing him to better control the quality of the medicinal ingredients refined." The very high Elder immediately saw through it. If Chen Xiang was here, he would definitely be surprised, because he could roughly guess the principles behind the God purification.

"It's actually him." Wang Qiongjin's expression changed greatly, and then he told her about when she went to Dragon Subduing City to compete in pill refining.

"This bastard, I didn't think that he would run out of that Divine Seal Array a long time ago and play the part of an elder to fiercely defeat me. I didn't think that he would be the one to defeat me." Wang Qiongjin's face was filled with anger.

"This little b * stard is definitely going to win. The pills he concocts will definitely have a light to them, and their quality has already exceeded the limit." Wang Qiongjin's words caused all the other big shots of Fire Divine Palace in the VIP box to be shocked. They were all strong practitioners who controlled strong flames, so they knew about the pill refining process and the pill light.

Chen Xiang was not someone who could give out elixirs with a single furnace of Hunyuan Dan. After that one time, he had also refined many pots of Hunyuan Dan, but none of them could give out elixirs.

"It seems like the pill's appearance was coincidental. If you don't have a breakthrough now, I'm afraid you won't be able to obtain the pill's glow and might not get first place. I believe you already have a plan." Seeing that Chen Xiang was so confident, she must be confident in refining a Hunyuan Dan that could emit the light of the pills.

Chen Xiang did not reply. Instead, he carefully looked at the Hunyuan fruit on his palm that was being incinerated by the multicolored heavenly fire. After a while, he said.

"Mm, don't disappoint me." Su Meiyao chuckled, "And your You Ye Sis."

[Chapter 1350](#)

At this moment, the competition arena was completely empty. Only the ten Alchemist s were here, and moreover, there was no longer the nervous atmosphere from before, because currently, the Alchemist s were competing not in terms of speed, but in terms of extreme quality.

In order to allow these ten Alchemist s to display their level of power, the competition had even activated a sound-isolating array, which could isolate the noise outside and allow the Alchemist to have a quiet environment.

Right now, they were only a step away from becoming first place. In order to refine the highest quality pellets, they had to use their strongest power to refine pills, and every Alchemist had a serious expression on their face, not relaxing in the slightest.

Other than Chen Xiang, the other nine had all been Dan Immortal s, and some of them were extremely famous. When Chen Xiang saw that all of the Dan Immortal had given their all, he immediately felt a lot of pressure.

He would not allow such a thing to happen, so he chose to use his most powerful pill refining abilities.

"That's the only way." Chen Xiang frowned, the flames spewed out from the center of his palm suddenly flickered with a burst of strong light, after which it erupted with multicolored light, shining in all directions.

Seeing this scene, everyone was silent for a moment before they suddenly cried out in alarm.

"Isn't that the legendary seven-colored heavenly fire?"

"It is said that there are only a few people in the nine heavens who can use the seven-colored heavenly fire. I did not expect that I would actually see it with my own eyes in this competition. It is really amazing."

"Isn't the Long family's Dan Immortal able to release the sacred fire? He might already be using it right now, and it's even stronger than the seven-colored heavenly fire."

"That's not necessarily true. The Sacred Flame is too powerful, and it doesn't mean that it can be used. Releasing it wouldn't be of much use if you can't control it well. But now, this person can control the Rainbow Heaven Flames so well, so much better than releasing the Sacred Flame."

Everyone had heard about the 'Rainbow Sky Flame'. However, they were able to witness it with their own eyes. They felt that their trip this time around had not been in vain.

Chen Xiang had released the Rainbow Heaven Flame, but the other nine Dan Immortals all felt a great amount of pressure, because being able to control this flame to refine pills was extremely helpful in raising the quality of the pills.

Legend has it that Long Peirong could use the Sacred Flame, but the competition had lasted for a long time and the other Dan Immortals had yet to sense the Holy Fire Aura Long Peirong released from her furnace.

Although the Rainbow Heaven Flame was strong, and was very useful in refining pills, it was currently crazily burning the Innate Qi in Chen Xiang's body. Chen Xiang had already calculated this beforehand, so even if he used the Rainbow Heaven Flame, the powerful Nine Heavenly Pellets in his body would be more than enough to use up the vast Innate Qis.

"Very high Elder, if Granny Long uses the sacred fire, can she refine a pill that can release the sacred light?" Long Huishan was also surprised to see Chen Xiang able to use the Rainbow Sky Fire. She did not expect to actually grow so fast without seeing Chen Xiang for a period of time.

Yan Zilan asked curiously, "Is Granny Long's Sacred Flame really as those people say, unusable?"

Then, he looked at the ball of flames in Chen Xiang's palm that was shooting out multicolored light, and said: "Letting out the sacred flame itself already requires the consumption of a large amount of Innate Qi. Last time I taught her how to use it, she had only released a hair's size, and the Innate Qi on her entire body was completely used up."

"How strong was she back then?" Long Huishan asked.

"Late stage Immortal Monarch, although she is now an Immortal King, the sacred fire won't take long. Whether she can use a little of the sacred fire to refine pills will depend on herself, if possible, this will undoubtedly be a huge breakthrough." The very high Elder sighed.

Yan Zilan was now even more respectful to the very high Elder. To be able to teach others how to use the Sacred Flame, his cultivation must not be simple, perhaps he had already surpassed the Immortal King.

When Chen Xiang refined the Hunyuan fruit with the Seven-coloured Heaven Flame, he had even injected a special kind of energy from the Rainbow Heaven Flame into the medicinal powder. The powder was a divine energy that had been baked by the Seven-colored Heaven Flame, mixed with the medicinal herbs, causing the quality to be even higher.

After four hours, Chen Xiang very slowly and earnestly refined the Hunyuan fruit, and at this moment, he had a ball of mist in his palm that was radiating light all around.

He carefully placed the refined Hunyuan fruit into the Seven Star Explosion Furnace, then took out the Hunyuan tree root and continued to use the Rainbow Heaven Flame to refine it, and he also poured a small amount of the Rainbow Heaven Flame into the furnace to refine it.

Just as Chen Xiang had just started to refine the Hunyuan tree root with the Rainbow Heaven Flame, he suddenly sensed a burst of strong fire aura floating towards him.

Chen Xiang was not the only one who sensed it, everyone in the arena could feel that. He Peiqing anxiously took a few steps back, because the feeling of danger from the flame was simply too great.

"Is this the sacred fire?" Chen Xiang frowned, beads of perspiration actually appearing on his forehead. The other Dan Immortal s were also moved, because that berserk flame was inside Long Peirong's pill furnace, it seemed as if it could erupt at any time.

"It is precisely the sacred fire. It is indeed terrifying." Su Meiyao said.

"The flame Little Scoundrel released last time ... which means that the flames inside his Innate Qi can be consumed in one breath. Long Xueyi asked.

"I don't know yet, but it seems that it is much more terrifying than the Sacred Flame. I wonder what kind of flame it is?" Su Meiyao said: "The Junior Master who taught me alchemy in the past, was also able to use the Sacred Flame. He was different from the flames that Little Scoundrel used, so the one he used wasn't the Sacred Flame."

Once Long Peirong used the Sacred Flame, his face immediately became serious, and the Sacred Flame did not last for long, but in the eyes of many, it was extremely powerful, and could be used for a short period of time, which would be of great help in refining pills.

Of course, Chen Xiang's Rainbow Heaven Flame was even better, but it was just that it was not easy for him to cultivate it. As for how to cultivate and master these powerful Heaven Flames, he had never found a way to do it, and it was said that the majority of it was due to his fortuitous encounters, while the Sacred Flame was a method of cultivation, but it was not something that anyone could use, because the consumption of Innate Qi was too terrifying, even an Immortal King would not be able to withstand the consumption.

If it was in the past, a cauldron like this would only last six hours at most, but now, after six hours, no one had opened the pill furnace. It was obvious that it was of high quality, and every Alchemist would slow down their pace and diligently refine it.

Chen Xiang had already refined the Hunyuan tree root and placed it into the pill furnace.
