

## Dan God 1361

### [Chapter 1361](#)

Long Xueyi had long finished all the Sacred animal Dan s, but she only complained a little. During the past five years, Chen Xiang had occasionally taken the time to get a pot or two for her to eat, so she was levelling up very quickly now.

"I can't keep leveling up. I'll wait for a period of time before I use it again." Bai Youyou warned Chen Xiang.

Using the Dragon Pearl Gold Pellet to cultivate was equivalent to absorbing the energy of others. This would take a period of time to completely refine, and if this continued, it would have some effect on in the future.

"Go confirm the location of the Sacred Beasts Ancient Realm first. When you have enough strength in the future, you can go there immediately." Su Meiyao said.

Chen Xiang had already thought of that before, now that he had entered the intermediate stage of the Worldly Immortal Stage, although he could still withstand the pressure from the Immortal Monarch, but if he met with the Late period of human immortal, he could still defeat them.

Right now, he had to go to a place far away from the Myriad Dan Immortal Country. Although he wouldn't be discovered even if he were to head there now, there was no longer any need to go there.

In the Heaven Realm, although there were few immortal palaces with flourishing pills, there were still some that only existed in the Myriad Dan Immortal Country.

"Let's go to a palace where there are a lot of immortal beast in human form. We might be able to find out more about the Sacred Beasts Ancient Realm there." Su Meiyao said.

The Heaven Realm was so big, and there were a lot of beasts that had transformed into human form. They were divided into two types of existence, one was to fight against humans, and the other was not to attack one another.

They also learned from humans and built giant immortal palaces to form a large group, which could also protect the weak members of their group.

Although the Ten Thousand Beast Hall was not like those Immortal Country with groups of immortal palaces, the strength of this immortal palace was considered one of the best in the Heaven Realm.

This immortal palace was a little special as there were no Transmission array s inside. In order to enter this immortal palace, one had to first transfer to the nearby Human Immortal Palaces before being able to pass through.

Chen Xiang immediately came to the bottom of the Ten Thousand Beast Palace's main entrance. He did not go in because at this moment, there was a very large snake slowly wiggling its way into the city.

The Ten Thousand Beast Palace's gate was the biggest gate that Chen Xiang had ever seen, but that giant python took up more than half of the entrance. Chen Xiang estimated that this giant python was around three hundred meters wide, similar to those huge Dragon corpse that he had seen before.

"This guy is sick. It seems like he's going to turn into a flood dragon. He only turned into a flood dragon at such a young age, he might even turn into a dragon directly." Long Xueyi said.

The Ten Thousand Beast Palace was a good place for these huge beasts to live, because if these huge beasts were outside, they would be hunted and killed by human experts, so they decided to enter the Ten Thousand Beast Palace instead of hunting these huge beasts, otherwise, they would be surrounded and attacked by a herd of beasts, and even the human Immortal King would not dare to mess around inside.

The giant python finally entered. It quickly crawled away from a very wide street and soon disappeared.

The streets of the Ten Thousand Beast Immortal Palace were very large, and from time to time, one could see huge beasts. Of course, most of them were in human form.

"It's so hard to find someone to talk to here." As Chen Xiang walked on the street, he couldn't help but break out in a cold sweat as he listened to Long Xueyi pointing out the true forms of those people.

"There are many beast immortals in this immortal palace, as well as many beast kings. Moreover, most of them are very harmonious, so it's not strange that they are quite powerful." Long Xueyi said.

Chen Xiang passed by a wall and saw a bounty on the wall. It was placed on him, but not many immortal beast paid attention to it.

Most of the beasts here were beasts, and the pills consumed by humans weren't of much use to them, so their business here was rather poor.

"Don't look down on these fellows who cultivate from the beast race to be honest. They all have some outstanding qualities to be able to survive in such a vile environment, so every single one of the immortal beast here give off a strong feeling. Their intelligence is not low, unless they are the little immortal beast s who have no cruel experiences." Bai Youyou said.

Chen Xiang could also see it, that's why he felt a wave of oppressive aura when he was walking on the street, and these beasts seemed to be able to discover that he was not their own kind, so they were hostile towards him. As long as he appeared, the surrounding immortal beast s would immediately become vigilant and mobilize all their energy.

This was understandable, because most immortal beast s that could take human form had the experience of being hunted down by human experts and hated humans to their bones, even though humans could enter this immortal palace.

"If only there were Sacred animal Dan, Sacred animal Dan should have a market here, I wonder if these transformed immortal beast are rich." Chen Xiang said.

In the process of their growth, they have killed quite a few human experts and powerful beasts. Furthermore, they had spent their days in the deep mountains and in the deep forests, making a lot of treasures, but they did not know the value of a lot of them. Thus, there is a special place for them to value these treasures. Su Meiyao said.

As long as he could afford to pay a price, he could buy the treasures that the immortal beast had collected for many years. However, he was more concerned about the higher levelled herbs.

Chen Xiang walked aimlessly inside the house, passing through many wide streets, when suddenly he saw a huge stone house in front of him with a group of transforming immortal beasts surrounding them, talking about some things.

He quickly walked over and saw that there was a piece of paper pasted on the entrance of the huge stone house. There were some people written on it.

Chen Xiang looked at the piece of paper and read the contents on it in shock. He did not expect the contents on it to have something to do with his purpose for coming here.

"The humans have found some clues about our Beast Clan's Sacred Land. We hope to cooperate with them and search for this ancient Sacred Land that has been lost for many years, initiated by the Fire Divine Palace and the Myriad Dan Immortal Country. If you have any clues, you can provide them and get rich rewards."

This was obviously referring to the Sacred Beasts Ancient Realm, Chen Xiang never thought that the Sacred Beasts Ancient Realm would be so mysterious, it had actually been in a lost state for many years, and no one noticed it.

"It was initiated by the Imperial Dragon Clan ... Perhaps the Imperial Avian Race is also looking for them. In the Heaven Realm, they are the ones with the most clues, the ancestors of these two powerful beasts came from the Sacred Beasts Ancient Realm, I wonder what their goal is, could it be that they know that there are good things in the Sacred Beasts Ancient Realm?" Long Xueyi said.

The Fire Divine Palace and the Myriad Dan Immortal Country both had a good relationship with the Imperial Dragon Clan, it was normal for Long Xueyi to immediately suspect the Imperial Dragon Clan.

### [Chapter 1362](#)

Chen Xiang thought that it would be easy to find the Sacred Beasts Ancient Realm, but who would have thought that even the Fire Divine Palace and Devil-suppressing Divine Palace, these ancient and powerful forces, would have to gather clues here and there.

"They must have some clues about the Sacred Beasts Ancient Realm, but it's not complete. However, I believe that it won't be long before they can confirm the location of the Sacred Beasts Ancient Realm." Long Xueyi said.

"You don't even know where the Sacred Beasts Ancient Realm is?" Chen Xiang asked.

"If I knew, I would have told you a long time ago that there are no related memories in my memories. It seems that even the powerful beasts that came out of there back then would not be able to pass on this memory, could it be to protect the Sacred Beasts Ancient Realm?" Long Xueyi said.

"That is your Sacred Ground. I wonder what happened in that place after the death of the Ten Heavens Supreme Lord." Chen Xiang guessed that this matter had a close relationship with the Ten Heavens Supreme Lord.

"There is a Fire Emperor behind the Fire Divine Palace, and this Fire Emperor might only have a little clue as to where the Sacred Beasts Ancient Realm is. The current Dragon Emperor and those old dragons should also have some clues, that's why they are working together to explore the Sacred Beasts Ancient

Realm." Long Xueyi said: "That was all the beasts' sacred grounds back then, and many people today would have thought that there was something extraordinary inside, if not they wouldn't have raised such a large number of powerful Holy Beasts."

Chen Xiang was a little worried: "They probably don't have that map."

Long Xueyi said: "Actually you have the most clues, because you have two maps."

Chen Xiang had two identical maps. One was obtained from the Treasure Chest, and had the Dan Emperor's mark on it. The other was passed down from Duan Chong's ancestors, and both were in his hands.

"Although I have the map, I don't know where it is located." Chen Xiang sighed, if he knew, he would have gone to the side instead.

"If that map is the entire picture of the Sacred Beasts Ancient Realm, then it would be too small. The Sacred Beasts Ancient Realm should be very big." Su Meiyao said, she and Bai Youyou had repeatedly looked at that map many times.

"It's not small anymore. Sacred Beasts Ancient Realm is very old, so the mountains and rivers inside are very huge. It looks like they're just shrinking now. I think they're at least the size of a Immortal Country." Long Xueyi said.

"But I don't know where the mountains and rivers depicted on the map are. The Heaven Realm is so big, how do you want me to check them?" Chen Xiang felt extremely helpless: "Maybe the place isn't in Heaven Realm at all."

If there really is a treasure hidden within, without a map mark, it would be very difficult for them to find it in such a big place. If you know where the Sacred Beasts Ancient Realm is, then you will be able to reach the treasure location the fastest through the safe route on the map. "Su Yun said in a calm tone." Long Xueyi said.

It was not a bad idea. The two maps in his hands were both marked with a safe route, which meant that it would be very safe to travel to those areas. Furthermore, he would be able to clearly mark out the locations of the most dangerous places.

At this time, the Ten Thousand Beast Hall was in an uproar, the Sacred Beasts Ancient Realm s were like sacred grounds to the immortal beast, everyone wanted to go there.

Many years ago, it was the world of beasts. The dragon race and the Four Sacred Beasts were all incredibly powerful existences, and the Ten Heavens Supreme Lord that governed the nine heavens were also from the Sacred Beasts Ancient Realm.

However, Chen Xiang felt that even if the Sacred Beasts Ancient Realm appeared again, the beasts wouldn't be able to return to their powerful positions. This was because the humans had grown even more powerful over the years, and there were many perfect cultivation techniques, alchemy techniques and formations that beasts could not even compare to with using brute force.

Over the years, humans had seen many existences comparable to Saint Beasts. At the very most, it would be a battle between humans and beasts in the future.

Chen Xiang bought some materials here, rented a secret room and forged a basin-sized piece, then carved that map on the metal board. This kind of thing was extremely simple to him, he could carve it lifelike, and it wouldn't take too much time.

The original map was very large, similar to a large round table. However, it was now carved into a face sized piece of metal and shrunk in size.

He took out a stack of paper and used the iron seal to take the ink, then he printed a map on the paper. Although it was very rough, one could still clearly see the mountains and rivers on it.

Chen Xiang busied himself for a whole day, printing several hundred pieces, and then spread them all over the place, saying that this was the Sacred Beasts Ancient Realm, regardless of whether he believed it or not.

In just a few days, the mysterious maps that were posted all over the Ten Thousand Beast Palace were more than the pictures that were on the bounty for Chen Xiang.

The matter of finding the Sacred Beasts Ancient Realm was spread all over Heaven Realm, and now that the Sacred Beasts Ancient Realm's map had appeared, many people did not believe it. However, many people could not tell where the area described on the map was, because the shape and distance of the mountains, as well as the ten or so large rivers that appeared at the same time were things that many people had never seen before.

There were more than ten large rivers and mountains on the map, and there were also many large lakes. Although the map was small, it would be very vast and shocking if one really went there.

Chen Xiang had originally only printed over a thousand of them, but after he sent them out, he changed his appearance. Now that he was hiding in the Ten Thousand Beast Palace, he discovered something strange, there were actually more and more maps that needed to be purchased.

"F \* ck, this definitely wasn't made according to my photo. This one should be much clearer." Chen Xiang spent one hundred Spiritual crystal to buy one: "I am the one who made this map famous, but later on, there was someone who borrowed the wind from this guy to earn the Spiritual crystal.

"This person must have a map as well. A river is missing from your imprint, but he is showing up here." Long Xueyi said.

Chen Xiang was not very serious when he carved that seal, and he felt that it was fine to have one less river.

"Maybe they're correcting you." Su Meiyao laughed.

"What if his map is marked with a hidden treasure, and that guy is even stronger than me? At that time, won't I lose out?" Chen Xiang felt that this was not a good thing. He had to find the person who sold the map.

After that, Chen Xiang would stroll around the streets every day, and at the same time, investigate the source of the map. Originally, this map was created by him, he had planned to sell it after he became famous, but who would have known that there would be someone ahead of him.

With Long Xueyi using the Heaven Tour, they split up the divine soul to search for him, and very quickly gained a slim figure. The person selling the map lived in a very run-down area, and the houses there were all very cheap.

"Could this guy be ..." Duan Chong. " Just as Chen Xiang arrived, he saw an old man opening the door and walking out.

### [Chapter 1363](#)

Duan Chong had long since passed the Soaring Stage, so it was very difficult for him to think of Heaven Realm, but now that he was here, he did not change his appearance, it was just that he looked a little down.

Deep into the night, Duan Chong was holding onto a big stack of maps. At this time, a few youths came over and took out Spiritual crystal s to buy the map in his hands.

After selling it, Duan Chong immediately returned to his room, but quickly crawled out from the other window, shuttled through the alleyway of the dilapidated house, and came to another house.

This was all seen clearly by the divine soul that Chen Xiang was floating in the air above him. After seeing Duan Chong's actions, he was even more certain that this person was Duan Chong, but why was he here?

Chen Xiang hid his presence, and quietly arrived at the door of the room Duan Chong was in, and lightly knocked: "Elder Duan, quick, it's me."

Duan Chong, who was still inside, was suddenly shocked, but after thinking about it for a moment, he quickly understood that it was normal for Chen Xiang to discover him.

After Duan Chong opened the door, he dragged Chen Xiang inside.

"That map was indeed released by you." Duan Chong laughed: "It's just that you missed a river, I'll help you make it up."

"Old Duan, why are you here? Aren't you in Di Tian?" Chen Xiang asked.

"Leader, in the current Di Tian, our Dragon Subduing School is very strong and stable. I felt that it was too boring over there, and then I came up. I spent a lot of effort to open up a path up there, and I almost died." Duan Chong said with fear still lingering in his heart.

"When did you come?"

"Two years ago, I didn't expect that you would be so popular in Heaven Realm." Duan Chong laughed.

Duan Chong was a Immortal Monarch, and he had a strong concealment ability, so he would secretly spread out his map, making it difficult for others to find him.

"I've looked for a lot of ancient books, but none of them can pinpoint the location of this Sacred Beasts Ancient Realm. However, I'm sure that the Imperial Dragon Clan knows about it, as well as some of the other Tong Tian Aristocratic Family s and Saint realm cultivators. I wonder what kind of thoughts they

have when they see these maps." Duan Chong laughed: "Brat, you have so many clever ideas, if it's not like that, I'm afraid that the Sacred Beasts Ancient Realm will be taken over by those people."

"It's good now, once the map spreads out, there will definitely be people who can see that kind of terrain. Not long later, everyone will know where the Sacred Beasts Ancient Realm is."

Previously, the few big powers represented by the Imperial Dragon Clan had bought all the relevant leads, but now that they had the clues, it was only a public event. Chen Xiang had indeed ruined their plans, no wonder Duan Chong hid away so desperately.

Chen Xiang now also helped to imprint those maps. He asked: "Elder Duan, the clans that followed Ten Heavens Supreme Lord all those years ago held a certain position in the Heaven Realm. Some of them could even be compared with those top powers.

Our Duan Clan is different from the other clans, we will be sealed by a mysterious power from time to time, and until now, we still have a few seedlings that are considered not bad, and the foundation of our clan in the Heaven Realm has already been destroyed. However, legend has it that our ancestors had a grave in the Heaven Realm, and my purpose in coming to the Heaven Realm is to find it and dig it out. Duan Chong said.

Duan Chong went all out to come to the Heaven Realm just to dig their ancestor's grave, and from the looks of it, it seemed like they had agreed to do it.

"Duan Sanchang that brat still doesn't have the ability to dig that tomb right now, so I will train him properly. I don't have enough power by myself, I will go to Human King Immortal Country later on."

Duan Sanchang was also in the Human King Immortal Country. When that little robber's tomb came to the Heaven Realm, it would definitely continue to manage its business. Many of the tombs in the Heaven Realm were filled with hidden treasures.

In just a month, these maps had appeared in many of the Immortal Country's immortal palaces, and they were even confirmed as the Sacred Beasts Ancient Realm because there was once an old Beast King who had come out to prove it.

With this, Duan Chong and Chen Xiang would be able to separate. He also had some important things to do, and he believed that Chen Xiang would definitely be able to return safely from Sacred Beasts Ancient Realm.

There were more and more clues, especially in the Ten Thousand Beast Palace, there were a few old Beast Kings hidden there. Some of them grew up at the edge of Sacred Beasts Ancient Realm, but they did not know that it was actually the Sacred Beasts Ancient Realm.

One of the old beast king said that he would not return there, he said that it was not the sacred place everyone thought it was, that it was hell, he came out from there after a thousand years of hard work, that the so called Sacred Beasts Ancient Realm was very dangerous, even though he had the power of a beast king, he did not want to go back.

There were two other Beast Kings who had similar claims, but many people and beasts did not believe them. They thought that these old Beast Kings were afraid that someone would take over the Sacred Beasts Ancient Realm, which was why they said it was so scary.

What made Chen Xiang anxious was that even now, he still did not know where that place was. Those old beast kings said that they did not want to send too many living creatures to their deaths, so they kept their mouths shut.

This was something that the old Beast King of the Ten Thousand Beast Immortal Palace was unwilling to say. However, the old Beast King of the War Beast Immortal Palace, who was gathered by another immortal beast and had strong enmity towards humans, spoke out.

"Night Devil Hell, this place seems to be very scary." When Chen Xiang heard the latest news, many people were terrified of the Night Devil Hell.

"Sacred Beasts Ancient Realm is actually Night Devil Hell." Su Meiyao said in shock, his voice carried a trace of fear.

"Is this place very scary?" Chen Xiang asked anxiously.

"I have only heard that the Devil-killing Summit is inside, but it is not the center of the Night Devil Hell. It can only be considered to be a side mountain, and no one can go to the center of it." Su Meiyao said.

"Back then, our master wanted to go to the Devil-killing Summit alone, but in the end, he heavily injured himself and came back. Without anyone to guide him, it would be difficult to get close to him." Back then, they were also part of the strong. Their masters were even more powerful, but they suffered losses in that place.

No wonder many people can't see what place it is. It turns out that there are very few people who can get close to that place. It's usually covered in fog, and flying over from high up in the sky is very dangerous as well. If that's the case, then it's no wonder those old beast kings who ran over here don't want to go back. Su Meiyao took in a breath of cold air. Just thinking about it, she felt terrified, because he had once seen her master covered in wounds and wounds and had returned home.

"No wonder they were able to become a beast king when they ran out, and couldn't come out even if they lacked the ability. According to the legends, it was indeed like hell inside, especially at night, they would hear terrifying roars, and the most powerful thing in the legends is the Night Devil at night." Bai Youyou said.

These were all legends, because it was very difficult to come out alive after entering.

"I have a safe route, so I might be able to avoid some danger." Chen Xiang said, because he heard the tone of Su Meiyao and Bai Youyou and knew that they did not want him to go.

#### [Chapter 1364](#)

"Wait a moment, you better find out who's going. You can follow behind those guys." said. Both she and Bai Youyou knew how important the Beast Slain Method was to Chen Xiang, and there was even something inside that the Dan Emperor was hiding. It might even be the lid of the divine cauldron.

Chen Xiang left the Ten Thousand Beast Hall and was teleported to the Demon Suppressing Palace. If he were to head to the Night Devil Hell, there would definitely be people from there, which was why Chen Xiang came here.

The Devil-suppressing Divine Palace's immortal palace was not the largest, but it was one of the strongest.

The majority of the other immortal palaces surrounded the center, creating a central area that only allowed people with a large number of Spiritual crystal s or powerful people to enter, and the central area of the Demon Imperial Palace was constructed with an incomparably large hall, which was the Devil-suppressing Divine Palace.

Chen Xiang did not know how the temple worked, but it was said that only the people in the Devil-suppressing Divine Palace knew about it, and the people in the Devil-suppressing Divine Palace were extremely secretive and would not reveal the details. It was extremely difficult for normal people to enter the shrine, as even the powerful Immortal Kings would have to summon them beforehand.

However, the outside of the Devil-suppressing Divine Palace was still very busy. Because the Immortal Qi was dense near the shrine, many tall and grand buildings were built around the shrine. They were all hotels or inns.

Chen Xiang came here to inquire about the movements of the Devil-suppressing Divine Palace. If the Devil-suppressing Divine Palace was planning to go to that Night Devil Hell, the scale of the trip would definitely not be small.

"Over the years, many experts died inside the Night Devil Hell. I never thought that it would be the Sacred Beasts Ancient Realm, it seems to have changed a lot. It is no longer the cradle of holy beasts, but instead, it has become the cradle of demons." An old man shook his head and sighed.

Chen Xiang was staying at a teahouse. He realised that most of the people inside were here to ask about the movements of the Devil-suppressing Divine Palace, because if Devil-suppressing Divine Palace came out, they would be more at ease. At that time, they would definitely follow behind.

"Devil-suppressing Divine Palace, Fire Divine Palace, Imperial Dragon Clan, Myriad Dan Immortal Country, the Ten Heavenly s, the Ten Saint s, and the other Immortal palace Immortal Country s of various sizes. If they were to head to Sacred Beasts Ancient Realm together, it would probably be the greatest power in history.

"But right now, I still don't know. If these super powers really move out together, maybe they can scare off the Night Devil inside."

Chen Xiang heard these people conversing. This was one of the ways he gathered information.

"Little Scoundrel, tell us what happened with Devil-killing Summit inside. Remember to exaggerate it a bit." Su Meiyao suddenly said.

Chen Xiang immediately understood what Su Meiyao was thinking, and anxiously moved to the table and said: "You all may not know, but the legendary Devil-killing Summit is inside Night Devil Hell, and the big powers might be attacking Devil-killing Summit."

"You should have heard of the Devil-killing Summit's matter. All the monsters that came out were people that once challenged many great powers by yourself. For example, the Ruthless Devil Venerable back then was one of them. And that Chen Xiang was also rumored to be from the Devil-killing Summit."

Chen Xiang's words caused the people of the teahouse to perk up their ears. This was the first time they had heard such a thing, although it sounded unreliable, it was very satisfying.

"Ruthless Devil Venerable is an important figure from over a hundred thousand years ago. Even now, his name is still around and he is indeed from the Devil-killing Summit."

"No wonder Chen Xiang is so powerful, so it turns out he's also from the Devil-killing Summit. However, he probably never went to the Devil-killing Summit, and was instead taken in by a disciple of the Devil-killing Summit who was wandering outside."

"Devil-killing Summit must have a lot of powerful mystical techniques and demonic techniques, as well as a lot of profound concocting techniques. Otherwise, how could Chen Xiang be so powerful."

"In that case, those big powers are really going to attack Devil-killing Summit."

"That's for sure! It was said that there were two people who saved Chen Xiang the other day, but only a few people could see the figures of the two, showing just how powerful they were. Furthermore, they had killed two Immortal Kings in that situation, even the arms of the Dragon Emperor had been severed, and the son of the Holy Dragon who knew how to refine pills in the Dragon Emperor was crippled as well."

"Then why did the Myriad Dan Immortal Country attack the Devil-killing Summit as well? Although their relationship with the Imperial Dragon Clan is not bad, attacking the Devil-killing Summit is not beneficial to them. They do not have any enmity with the Devil-killing Summit."

Chen Xiang heard the others talking about this, and interrupted: "You guys might not know, but Myriad Dan Immortal Country has suffered heavy losses, and Myriad Dan Immortal Country's new king, He Peiqing, has a Holy Fruit. It should originally be a competition's reward, but it was stolen away by someone, and that person is from Devil-killing Summit."

"That's why they endured the pain of taking out the divine cauldron. Although the divine cauldron has one less lid, its value is far higher than the sacred fruit. The sacred fruit can grow back in the future and the divine cauldron will be gone once it's given away."

"So that's how it is. I wonder where you heard about it. Is it true?" An old man asked.

"Of course it's true. This is all from the Fire Divine Palace." Chen Xiang said.

Chen Xiang did not lie. He knew that, before long, these kinds of rumors would spread.

After Chen Xiang stayed in the Devil-suppressing Divine Palace for a few days, he did not expect that a Immortal Monarch in the Devil-suppressing Divine Palace had once mentioned in public that the Devil-killing Summit was indeed in the Night Devil Hell.

"The Devil-killing Summit is inside the Night Devil Hell. Could it be that the people inside the Devil-killing Summit are trying to suppress the incredible monsters inside?" Chen Xiang sat by the window and drank his tea, looking at the incomparably huge Devil-suppressing Divine Palace in the distance.

"I wonder if Human King Immortal Country will go." Chen Xiang was not worried about Liu Meng'er and the others, with their strength, they would not be allowed to go to such a dangerous place.

Now that the situation was so serious, it was impossible for the Devil-suppressing Divine Palace and the rest to hide anything anymore. Chen Xiang was sure that there were already many people gathered at the Immortal palace in Night Devil Hell.

"I wonder if the demons from Yao Tian and Mo Tian will come." Long Xueyi said, "Imperial Avian Race and Imperial Dragon Clan will definitely return. This place is too important to them, it is their root. Furthermore, there have been no Saint Beasts being born for so many years, that's why they want to obtain the power to become Saint Beasts."

"What if they find out?" Chen Xiang thought of the White Tiger's strength. Even the so called Dragon Swallow City was afraid of the White Tiger.

"It's fine. They won't be able to find you anyway, and they won't be able to rule the nine heavens like they did in the past. There will definitely be human immortals who can fight against them and won't let them do anything rash." Long Xueyi said.

Right now, Chen Xiang was waiting here for the Devil-suppressing Divine Palace. To deal with the mysterious Night Devil, he had to do this even if the Devil-suppressing Divine Palace didn't want to.

#### [Chapter 1365](#)

Chen Xiang waited in the Demon Imperial Palace quietly, waiting for the news of Devil-suppressing Divine Palace's departure. But more than ten days had passed, and there was not a single movement from the Devil-suppressing Divine Palace.

"Outside the main gate of Devil-suppressing Divine Palace, there are basically people crouching and waiting. If there is any large scale operation, the news will spread." Chen Xiang looked at the big door, he thought that Devil-suppressing Divine Palace and the others should make their move soon.

Chen Xiang inquired on the street for information, and in the evening, Long Xueyi said somewhat suspiciously: "I feel a very faint spatial energy being transmitted from inside my face."

"Not good, there might be Transmission array among them, maybe they were teleported in batches, where would they be teleported to?" Chen Xiang immediately thought of this level.

"I should be able to find out about the immortal palace near the Night Devil Hell. Let's go over there first." Su Meiyao said.

Now, a lot of people were waiting here. Before Chen Xiang teleported away, he also released a message that the people of the Devil-suppressing Divine Palace had long been sent to the Immortal palace in the vicinity of the Night Devil Hell through the Transmission array of the huge shrine.

The Night Devil Hell had existed for a long time, and understood the Night Devil Hell very well. It was said that when they went to train, they would often lure the Night Devil out to hunt, so for many years, the Devil-suppressing Divine Palace had built a careful immortal palace near the Night Devil Hell.

This palace was also known as the Demon Suppressing Palace, but it was very small. Furthermore, it didn't have that kind of gigantic Devil-suppressing Divine Palace, but ordinary palaces were still huge.

When Chen Xiang released the news previously, many people guessed that if the Devil-suppressing Divine Palace s were to set off, they would definitely come to this immortal palace. Although the Devil-

suppressing Divine Palace s in this immortal palace did not make any movements, the few gates were still guarded by people.

The Devil-suppressing Divine Palace here was much smaller, and it was only a palace compound surrounded by walls. Long Xueyi and Chen Xiang activated Heaven Tour and floated in the air, they could see the interior of the palace.

"There are a lot of people." Chen Xiang saw that there was a large group of people gathered in Devil-suppressing Divine Palace. Their clothes were all different, as they stood in groups on the plaza.

"There's a Fire Divine Palace here, and there's also more than thirty dragons coming from the Imperial Dragon Clan. It looks like they really are going to enter that Night Devil Hell." Long Xueyi said.

"So many people, are they all going to die? Let's not talk about the strong ones, but there are quite a few who aren't even immortals, daring to challenge Night Devil Hell." Chen Xiang said.

"Before entering the Night Devil Hell, it was already very dangerous, the outside of the Night Devil Hell is not safe, bringing a large amount of weak people to clear the way, it will save a lot of energy, and once those strong people make their move on the outside, it will be very easy to alert and hide those strong beasts." Su Meiyao was extremely familiar with the Night Devil Hell, it was clear that he had been to that place before.

"I wonder if that group of immortal beast will go."

Chen Xiang actually planned to follow behind these groups of powerful forces first, and when they safely entered the inner part, compare the topography on the map, find a safe route, and then go by himself.

He originally thought that Devil-suppressing Divine Palace's group of people would stealthily set off. Who knew that within a few days, they would come out from a big gate and head towards Night Devil Hell in a grandiose manner.

There were a lot of them, with a total of more than a hundred thousand people. Amongst them, Fire Divine Palace and Devil-suppressing Divine Palace were the most numerous, followed by Myriad Dan Immortal Country.

"Those ten Heavenly Master Immortal Country s and ten sage realm Immortal Country s aren't here?" Chen Xiang had heard that these forces were also going to join them.

They might be in other immortal palaces, so these fellows would definitely not be absent. They might have some clues about the Sacred Beasts Ancient Realm, and the ancestors of these powers have all followed the Ten Heavens Supreme Lord, so they know quite a bit about the secret of the Sacred Beasts Ancient Realm. Long Xueyi said.

Along the way, Chen Xiang was one of the few people that followed behind the group. He did not find any major powers like Dragon Emperor or He Peiqing among the group, but there were still a few Immortal Kings.

After exiting the immortal palace, everyone could see a mountain range in the distance, covered in a faint white mist. It could be said to be very close to the immortal palace, they could arrive in just a few more days.

The group of endless mountains could be seen even from afar. One could see how huge it was. Previously, they already knew from the map that the mountains and rivers in Sacred Beasts Ancient Realm were all very large ...

"As long as we enter the foggy area, we will be in a dangerous place, although we won't be considered as entering the Sacred Beasts Ancient Realm there." Bai Youyou said: "If you're talking about Immortal Monarch, it's very safe to roam around outside as long as you don't meet him."

"Night Devil Kings rarely run out, they usually hide inside, only those very stupid Little Night Devils will run out, they are usually the targets that Devil-suppressing Divine Palace kills." Su Meiyao said.

"How strong is the Little Night Devil?" Chen Xiang asked.

"Late stage Worldly Immortal Stage, Night Devil King is equivalent to Immortal Monarch." Bai Youyou replied.

After walking for two days, they were getting closer to the Night Devil Hell. They could already see the faint mist in front of them, and many of the huge mountains were covered with mist. Only the higher parts of the mountains were exposed, and the mist did not dissipate.

When he got close, Chen Xiang realized that the mist was actually formed from dense immortal qi.

"It can transform into immortal qi mist, could it be that there's a dragon vein inside?" Chen Xiang had seen two dragon veins before, so he knew how to form one.

And at this time, the entire huge Sacred Beasts Ancient Realm was shrouded in this dense fog, there was definitely a powerful force gathering immortal qi at every single moment, maybe somewhere deep inside this place, there was a dragon vein.

"In the past, it wasn't immortal qi at all, but just ordinary fog. I didn't expect it to turn into immortal qi now. Maybe there really is a dragon vein inside, no wonder those big powers joined forces to enter." Su Meiyao said in shock.

"I wonder how long it has been like this, if there is a dragon vein inside, then it is very dangerous. To protect myself, the dragon veins formed a natural great formation, making it very difficult for the Evil Dragon Graveyard to break through, not to mention the dragon veins formed by the Spiritual crystal." Chen Xiang's face became serious.

"If it has been here for a long time, there might be a lot of celestial fruits and immortal medicines." Long Xueyi said: "This kind of environment can cultivate Immortal Grade's medicine very well."

The sky turned dark and the team suddenly stopped. It was very easy to meet Night Devil at night when entering the foggy area, everyone was resting in the forest outside, after passing through the forest they would enter the forest, they would need to travel through the mountains to advance, as long as they stepped into the forest in front of them, they would be able to reach the outskirts of the Night Devil Hell, which could be considered as a dangerous area.

"Do all those Night Devils have intelligence?" Chen Xiang leaned against a tree and sat down, looking at the group of Devil-suppressing Divine Palace disciples in front of him.

Those with intelligence are all Night Devil King s, or Night Devil Kings, the majority of them are all very foolish. Other than their own kind, whenever they see something that moves, they would desperately attack it, and if it is a living being that was killed, it would be eaten by Night Devil. Su Meiyao said.

The sky gradually darkened, and many people started a fire in the forest.

Not long after, everyone heard a series of low sounds, like a cat meowing in the middle of the night. It sounded like an infant crying, and the sounds that came out at this moment were like thousands of cats meowing at the same time, making one's hair stand on ends.

"This is Little Night Devil's call. Little Night Devil has come out to cultivate." Bai Youyou said.

As the number of Little Night Devil continued to increase, it was possible to tell that the number of Little Night Devil was gradually increasing.

There were so many Little Night Devil with the strength of a mid to late stage Worldly Immortal, and now, Chen Xiang understood why those large powers had sent over a hundred thousand people.

Then, Chen Xiang sensed a few strong auras approaching him. They belonged to the Dragon Emperor and He Peiqing.

This was all something that Chen Xiang was more familiar with, but the following Qi made Long Xueyi and Chen Xiang shocked.

"Why is this aura so familiar, yet also strange ..." Chen Xiang said.

Dragon Emperor and the rest were here to meet with the large group, but there was still a group of strong people here.

"It's from the Imperial Avian Race, the true king of birds has come. Looking at this aura, it should be a phoenix." Long Xueyi said.

"Phoenix, isn't this already extinct?" Chen Xiang said in shock.

As soon as he finished speaking, he saw a young man with a cold expression slowly walking over. He wore a white robe, and his expression gave off a very cold feeling. However, there was a very hot aura erupting from his body.

It was as if he had suddenly appeared here, and slowly walked towards the Dragon Emperor in front of him.

Not long after he appeared, a loud bird cry rang out. Golden light suddenly exploded in the forest, and a middle-aged man appeared. This middle-aged man was the Golden Roc King, and he followed behind the young man in white.

"So this is the phoenix? Why does it look like a man?" Chen Xiang said, giving people a strong feeling.

"The phoenixes are divided into genders as well. The males and females are the phoenixes, but later on, they were all referred to as phoenixes. I wonder if it's good ..." Long Xueyi licked his lips: "He should have a son and woman, little phoenix, hehe."

Chen Xiang also had no interest in knowing what would happen to the Phoenix and Dragon Emperor s, he was only concerned about them.

If he were to live in a nearby immortal palace, he wouldn't be scared by the howls and screams coming from Night Devil Hell. If it was his first time hearing it, even if he wasn't afraid, he would be annoyed.

Chen Xiang saw that a few of them had already made up their minds to return at daybreak.

What followed was the arrival of the ten Heavenly Master Immortal Country s and sage realm Immortal Country s. They were all king level existences.

Excluding those powers, there were more than a hundred thousand people here to take advantage of them. Those powers had even more than five to six hundred thousand people, Chen Xiang felt that it was already not bad if half of them came back.

When dawn arrived, Chen Xiang didn't sleep the whole night and only took a simple rest. At this moment, the forest was in an uproar, because the several tens of thousands of people from the great forces had already set off.

### [Chapter 1366](#)

Chen Xiang rubbed his eyes as he followed behind a group of people and entered the misty area ahead.

Originally, there were people flying, but they were called down. This was because flying was extremely dangerous, especially when flying into the forest.

Although it was the outskirts of the Night Devil Hell, the trees outside were huge. I heard that the Night Devil was hiding in the trees, and if they flew too high, I don't even know how they died, it would attract the attention of the group of Night Devil.

In addition, Chen Xiang and Long Xueyi discovered that there was a poison mist in the sky, this poison mist did not have a strong poison aura, even if they absorbed it, it would not cause much trouble, but after accumulating it, it would create a strange energy that would obstruct their blood channels, preventing the Innate Qi from being released.

"Could this mist be the natural formation formed by this dragon vein?" Chen Xiang felt that the poison aura's production might have something to do with this.

He couldn't fly, and he had to follow the group. He couldn't run fast, and he had to cross mountains, so his journey was very slow. When he entered the misty area, he could only see things a few hundred feet away.

Previously, the Imperial Dragon Clan and the Imperial Feather Race had fought to gain control of the Myriad Dan Immortal Country's throne, but now that they saw the emperors of the two clans didn't have any conflicts, Chen Xiang was a little surprised.

Chen Xiang walked in front and could see the Dragon Emperor and the phoenix walking side by side. They were in the middle of the group, but the Golden Roc King's expression was not very natural.

"Only two from Imperial Avian Race came."

Everyone could see that there were a lot of Imperial Dragon Clan's dragons, but there were only two Imperial Avian Race's birds.

"They are indeed very powerful, but if the Imperial Avian Race wants to fight for the treasures inside, just the two of them will not be able to do much." Long Xueyi said.

Soon, it was night. They had let go of a few tall mountains and were resting at the foot of the mountain. However, everyone was on their guard now.

At night, a chilling wail could be heard from within the dense fog. This time, it was even clearer. Moreover, it seemed to come from all directions, causing one to feel as if there were tens of thousands of demons and ghosts hiding within the fog.

This was a flat piece of land, and a bonfire was set up here. However, the amount of light it could illuminate was limited because of the dense fog. With several hundred thousand people here, only a small amount could be seen, making everyone feel even more terrified.

However, it is better for us to get closer to the Devil-suppressing Divine Palace. If the Night Devil appears, those fellows can be dealt with. Chen Xiang was not the only one with this thought, many people did. All those places were already filled to the brim.

"Night Devil has appeared." Long Xueyi shouted.

The moment her words left her mouth, a scream sounded out. Everyone immediately looked over, but they could not see anything. All they saw was a thick fog that reflected the light of the fire.

After that, more and more miserable cries came out, all of them were the people who were attacked by the Night Devil, and all of them were the people who followed along to join in the fun, but did not have a lot of strength.

"It's over there. Let's go take a look." Chen Xiang stood up, he also wanted to see the Night Devil.

Everyone was squeezing towards him, but when he walked towards the Night Devil, it made everyone think that he had gone crazy.

Chen Xiang could smell the scent of blood, but he could not see any traces of blood. Looking carefully at the ground, he realized that there were traces of blood droplets, and also messy footprints.

"They were eaten, these Night Devil ate very cleanly, or they might have been taken away." Bai Youyou said.

"Be careful!" Long Xueyi shouted.

Chen Xiang also sensed some movement from above. These Night Devil s actually swooped down to attack them from above, no wonder they were so easily dealt with.

"These Night Devil aren't much either." Chen Xiang took a step forward, and avoided the attack from the Night Devil. This was Little Night Devil, stupid as expected.

Chen Xiang did not use the Innate Qi, he only used his physical body's strength to feel the energy source in Little Night Devil's body.

His body shape was the same as a person's, except that his skin was green black, his arms were long, reaching all the way down to his knees, his body was tall and sturdy, he looked very strong, just that the muscles that suddenly appeared, along with the green and black color, gave people a very disgusting feeling.

This Little Night Devil had a human face, but his teeth were black. Moreover, they were very sharp, and the Little Night Devil's mouth was filled with blood.

"A group is coming." Long Xueyi said.

They all came from the sky and swooped down at an extremely high speed. Chen Xiang struck his Heaven Blasting Palm towards the sky and the impact of his palm caused the ground to crack.

With a boom, Chen Xiang's palm power pierced through the few incoming Little Night Devils. The Heavenly Core like object in Little Night Devil's body was shattered, causing an intense explosion.

Many people felt that it was unexpected. They knew that the people fighting the Little Night Devil right now were not the people from Devil-suppressing Divine Palace, but those who had followed them here.

"All these guys are covered in venom, this poison is the same as the venom in the air, it seems like this Little Night Devil can rely on absorbing the venom to strengthen itself." Chen Xiang realized that these Little Night Devils were not simple.

This place was only the outskirts, so the number of Little Night Devils were not many. The only few were already destroyed by Chen Xiang, who returned with the first Little Night Devil he killed.

He threw it on the ground. Everyone around was shocked, they actually brought back the corpse of a Little Night Devil.

With your cultivation at the late stage of the Worldly Immortal Stage, you are good at attacking from the sky. Your hands are very long and powerful, your nails can penetrate some armor and are even poisonous, if you don't want to die, then go back tomorrow. If you want to enter deeper into the world, as long as it is night, there are as many of these things as locusts.

After Chen Xiang left these words, he disappeared into the dense fog. He came to the side of the large group, and wanted to let them stay within his line of sight.

Deep in the night, there were many screams. However, there were no more screams. When dawn arrived, many people had already left. Only a few powerful people continued to follow the group.

"The Imperial Avian Race is here, there's more than twenty of them." Long Xueyi shouted excitedly.

"That Small gold eagle is more than enough for us to eat for a long time. Don't keep thinking about other things." Chen Xiang laughed.

The Imperial Avian Race had around twenty plus people, but the one walking in front was a red-clothed female with a long ponytail. The female's face was elegant, and even though there was a cold and arrogant expression on her face, her eyes made people feel that she was amiable, giving people a noble yet very gentle feeling.

"Isn't her face the same as the phoenix? Could it be that this is Imperial Avian Race, and she looks very much like her Phoenix Father, but her strength is not as strong as her father's, and can't even be compared to He Feng. She actually dares to come here and throw her life away, and she has already lost a Small gold eagle. Long Xueyi said.

### [Chapter 1367](#)

Chen Xiang also felt that it was unwise for the Imperial Avian Race to bring a weak phoenix here.

"Perhaps this phoenix has the talent to undergo rebirth, which is why it isn't afraid of death." Long Xueyi said.

"Can your Heaven Tour go deeper in? I used some just now, and before long, the power of my divine soul dissipated." In this sort of environment, it was very easy for the god to explore the path, but right now, the god could not swim too far.

"I can't either. There's a type of energy in the fog that can corrode God Power. If our God Power is too far away from us, it will easily corrode and can only be used nearby." Long Xueyi was also in the same situation, except she could put it a little further than Chen Xiang.

The Night Devil would not appear during the day, so during the day, everyone would rush there, but that did not mean that it was absolutely safe, the danger was not limited to just the Night Devil.

Chen Xiang felt that even if he had the map, it would still be very difficult to follow the route on the map. This was because he was unable to see the terrain here and could not find the correct path compared to the map.

There were hundreds of thousands of super powers in front, and only ten to twenty million people at the back wasn't scared of death. Originally, there were more than two hundred thousand people, but after the appearance of Night Devil last night and the deaths of a few, many people had already retreated and left at dawn.

After walking for more than an hour, Chen Xiang arrived at the top of a tall mountain. He used the Chaos Divine Eye to look into the distance, and even though he could not see those mountains clearly, he could still see their contours through the Chaos Divine Eye.

"I haven't found him. It seems that he hasn't entered the Night Devil Hell yet." Chen Xiang shook his head and looked down. At this time, the several hundred thousand people had already reached the mountainside, and there was a small mountain in front of them.

Of course, Chen Xiang could not see clearly, he had used the Chaos Divine Eye to see through the dense fog and the outline of the mountain. Just as he was about to go forward, he realized that the small mountain below him had gone east for a while, he knew that he was not wrong.

This was the Sacred Beasts Ancient Realm, and there were many powerful beasts here. Of course, there would be some that would run out, and these beasts were one of the dangers in the outer area of the Night Devil Hell.

After Chen Xiang realized what had happened, he stopped in his tracks immediately. Through the Chaos Divine Eye, he saw a red blob that suddenly flew out.

"The phoenix has made its move. I wonder if it's that Phoenix Princess or that Phoenix King." Chen Xiang was unable to sense the Qi in front of him, because the strange mist could stop the Qi from spreading.

"It's that little phoenix girl, I didn't expect her strength to be so much stronger than I expected." Long Xueyi said.

"Much stronger than you." Chen Xiang asked with a smile.

"Hmph, you should be asking me how much stronger she is than me. This kind of bird isn't my match at all, if I were to attack, I would be able to kill her with a swing of my tail. She is only a Phoenix Princess, while I am a Heavenly Dragon Supreme Lord, I am not even comparable to her." Long Xueyi bragged proudly, as if the Phoenix Princess would immediately kneel down and worship him when he appeared.

"Alright, honorable Heavenly Dragon Supreme Lord, go and capture her. The taste of the phoenix meat should be pretty good, right?" Chen Xiang laughed.

"The phoenix meat isn't tasty. It's very hard and sour, and it'll be very bitter when heated. Moreover, it's not easy to cut. Compared to the taste of the Golden Roc meat, it's like heaven and earth."

"You have." There were very few phoenixes in the first place, and he had never heard her say it before, especially since he had been with Long Xueyi for so long.

"I've never eaten it before, but there's a reference to it in my inheritance of memory. It can't be wrong." Long Xueyi said.

The Phoenix Princess's strength was not bad, and he managed to get rid of the gigantic beast blocking his path in an instant. All he heard was the beast's angry roar, and then there was nothing else.

"What a waste, it turned to dust in an instant. There are a lot of Spiritual crystal on that beast." Chen Xiang said with a look of pity.

"I am a Phoenix Princess, I lack these Spiritual crystal." Long Xueyi said.

Chen Xiang ran down from the top of the mountain. At this point, he was already lagging behind a lot of people, and the group of people at the back felt extremely relaxed, because the group in front led the way. The ones at the back didn't need to worry about anything, they just had to be careful of the Night Devils.

Chen Xiang felt that it would be good if this group of people could return ten percent alive. As for the disciples that the big powers called, they would probably all be sending themselves to their deaths. In any case, these big powers did not lack disciples from the bottom rankers, there would be a lot of people who would want to join their forces every day.

As the sky darkened, the screams became louder and louder. Not long after, everyone felt as if they were enveloped by the screams, all around them, and even more loudly, as if someone was wailing in your ear. It was as if someone was wailing in your ear.

Chen Xiang did not mind, he could just directly seal off his hearing, so that he would not be affected, and only used his divine force to observe his surroundings.

"This place can already be considered a Night Devil Hell. If a Night Devil appears, it wouldn't be a few more." Bai Youyou said: "Based on the voices, the group of Night Devil here is commanded by a Night Devil King. Night Devil King is intelligent, and not one bit inferior to humans."

Hearing Bai Youyou's warning, Chen Xiang immediately became vigilant, he did not want to be injured the moment he stepped into Night Devil Hell.

The leaders of the big powers seemed to have sensed the danger at hand, but they did not need to worry too much about themselves, they were all very strong, as long as it was not Night Devil King who attacked them in a group, they would not feel pressured, and they would just use the energy released from their bodies to form a protective shield, and the Night Devil would not dare to approach them.

Chen Xiang's God Power could be released to a circumference of a hundred meters. He was already on guard in the sky, because those Night Devil were all launched a sneak attack from the air.

There are a lot of them. Although they are all Little Night Devil s, but with so many of them, even an Immortal King would not be able to hold them off. Long Xueyi exclaimed.

"How many?" Chen Xiang swallowed his saliva, and then took a deep breath.

"At least two hundred thousand."

Hearing this number, Chen Xiang trembled a little. It was also at this time that the ground shook slightly.

"It's all over the sky and on the ground." Long Xueyi said.

"There's a Night Devil underground."

Chen Xiang shouted, and then jumped up quickly. At the same time, he released the profoundwu cover hood, using the powerful Water Attribute Innate Qi to protect himself, so that the Night Devil in the air wouldn't be able to touch his body.

### [Chapter 1368](#)

Whoosh.

The moment Chen Xiang jumped up, the ground suddenly bulged and a large group of Night Devil s appeared. Originally, there were many bonfires, but they were all extinguished by the Night Devil s that appeared from the ground.

Chen Xiang felt that he had bumped into many, and there were even countless Night Devil s biting at him or using their hands to tear him apart, but they were unable to break through the thick water barrier that was being infused with the power of the Demon Suppressing Orb.

There was no longer any light. It was now pitch black and the ground was filled with miserable screams. The strong stench of blood and the murderous aura from Night Devil caused everyone to feel disgusted and terrified.

In the darkness, there were occasionally some rays of light that emitted out. Chen Xiang could sense that there was a very strong aura coming from the direction of the great powers, and those big shots had also joined the battle.

"So many." Chen Xiang felt as if he was floating in an ocean formed by the Night Devil. Even if he did not use the energy in his body, he could still float in the air.

"If this continues, I won't be able to hold on much longer. This group of things is too terrifying." Chen Xiang felt that his profoundwu cover hood was weakening bit by bit, because all of these Night Devils were in the mid to late stages of the Immortal Realm. They were frantically attacking him and had very strong powers.

"Of the people who came here to join in on the fun, you are the only one left now. The rest of them don't even have bones left, and there are three Immortal Monarchs amongst them." Long Xueyi said.

"What?" Chen Xiang was shocked. He had only just stepped into the Night Devil Hell and he already encountered such a terrifying attack.

Even three Immortal Monarchs wouldn't be able to hold off this group of hungry Night Devils for long.

"Motherf\*cker." Chen Xiang was enraged, his hands suddenly released profoundwu cover hood, releasing a few balls of Heaven Fire.

The Heaven Flames of the Heaven and Earth were released using the Devil-suppressing holy power, it had a huge destructive power on these Little Night Devils, and these Little Night Devils were all squeezed together. In a short moment, the Heaven Flames spread out, burning a large portion of the Little Night Devils.

Little Night Devils were swept by the Heaven Flames of the Heaven and Earth, they released many sharp shouts, they wanted to escape in all directions, but they were helpless as they were surrounded by extremely many Night Devils.

These Little Night Devils were really stupid, they were all used to it. Now, they didn't even need to fly, and just piled them all up here.

After Chen Xiang released the Heaven Flames, he felt much more relaxed. At least he wouldn't be squeezed together by the countless Little Night Devils.

"This kind of number of Little Night Devils should be directly commanded by a Night Devil King. Normally, a Night Devil King would have at least a hundred Night Devil Kings, and these hundred Night Devil Kings would bring at least ten million of them." Bai Youyou said.

At least ten million Little Night Devils, just thinking about it made Chen Xiang shudder.

"If you were yourself, you probably wouldn't attract the attention of these Little Night Devils." Su Meiyao said: "You will follow this large group of people, so you will be easily discovered. Once you find the route on the map, don't follow them."

The Heaven Flame that Chen Xiang released was very difficult to extinguish, once it was ignited a little, it would quickly spread throughout his entire body.

"There's actually such a powerful being in that group of humans. This kind of flame is actually on par with mine." Phoenix Princess had a serious face as he looked at the raging flames outside the barrier.

The place where this large group of people were, was protected by a gigantic barrier, and the Little Night Devils were all covered outside of the barrier. The Heaven Flames that Chen Xiang had released had already spread to this place, and the people inside all killed the Little Night Devils through the barrier.

"Father, what kind of flame is that? I can't tell." She waved her hand and released two fiery red rays of light. After passing through the barrier, they struck the Little Night Devil's bodies, but their burning speed was not as fast as Chen Xiang's.

"The Heaven Flame with the power to suppress demons, this kind of Heaven Flame is better than the Five elements heavenly fire." The Phoenix King said.

"This person is not from my Devil-suppressing Divine Palace. There aren't many in my Devil-suppressing Divine Palace that can use Sky Fire at this level. It could be that he is a rogue cultivator who has learned our technique." An old man from the Devil-suppressing Divine Palace said.

"Everyone, be careful, this is a surprise attack from the Night Devil King, they are currently planning to wear us down, towards this kind of small thing, we do not need to take action, and only have the power to deal with the Night Devil King and the Night Devil King." The one who spoke was the Dragon Emperor, he seemed to understand quite a bit about this place.

"Damn it, if that group of fellows weren't here, I would have easily taken care of them with either the Holy Devil-suppressing seal or the Green dragon demon-slain broadsword." Chen Xiang said. Although he had burned a lot of Little Night Devil, these Little Night Devils were like locusts, hard to kill.

"With Heaven-suppressed immortal monument, there won't be many people who will know about this. Even if they do, it doesn't matter." Su Meiyao said.

The Heaven-suppressed immortal monument was something that Chen Xiang had obtained from a huge profoundbing. That profoundbing was originally discovered by the Fire Divine Palace, and shipped to a volcano to be melted, only then did the Heaven-suppressed immortal monument appear.

Chen Xiang had once used this Devil-suppressing monument to destroy a Holy-ranked Artifact and a Super Array Plate.

When the Heaven-suppressed immortal monument appeared, cold air overflowed everywhere. Previously, Chen Xiang was still using flames, but in the blink of an eye, he had used such a strong power of frost, which was very surprising.

Chen Xiang controlled the Heaven-suppressed immortal monument to float in the air, and those Little Night Devils didn't dare to approach it. This Divine Stele, which had once suppressed the heavens and earth, contained a very, very powerful and terrifying cold energy.

The Heaven-suppressed immortal monument floated into the air and with a loud shout, it fell down ferociously. At the same time, it extracted a large amount of immortal qi from the thick mist. Chen Xiang's divine power and Innate Qi were also extracted in large amounts.

Phew, when the Heaven-suppressed immortal monument pressed down, it created an extremely cold pressure, causing a gust of ice astral wind to blow away all the Little Night Devils around Chen Xiang.

Those Little Night Devil who were blown away were also frozen up at the same time, smashing into each other and turning into pieces of shattered ice.

The Heaven-suppressed immortal monument had fallen onto the ground and everything around them was covered in ice. When Chen Xiang sat on the gigantic Heaven-suppressed immortal monument, the Little Night Devil did not come any closer because they hated the cold energy released by the Heaven-suppressed immortal monument.

Chen Xiang was currently very close to those several hundred thousand people. Because of the Heaven-suppressed immortal monument, the surrounding Little Night Devil had disappeared as well.

The hundreds of thousands of people could see through the Qi barrier that there was a young man sitting on top of a Heaven-suppressed immortal monument that was emitting a holy and white light.

### [Chapter 1369](#)

The cold energy released by the Heaven-suppressed immortal monument was suddenly surrounded by ice, and many broken limbs of the Little Night Devil could be seen inside the ice.

Just one person was enough to suppress so many Little Night Devil s, this kind of strength was truly admirable. A few big shots all knew that Chen Xiang had burnt several hundred thousand Little Night Devil s to death with his flames, and the moment the Heaven-suppressed immortal monument appeared, another hundred thousand Little Night Devil s all died.

Right now, all the experts were looking at the Heaven-suppressed immortal monument that Chen Xiang was sitting on. There were no inscriptions on it, and other than the large stone monument, there was nothing special about it.

"Be careful of Night Devil King." Phoenix Princess that was inside the Qi barrier shouted.

Chen Xiang had been on guard this entire time. After the Heaven-suppressed immortal monument appeared, the surrounding mist had dispersed, making it possible to see very clearly, and the range of his divine power was even wider.

Chen Xiang had killed so many Little Night Devil, if they appeared, they would definitely attack him.

"Bad things for me." Just as he shouted out in anger, a beam of red light shot out from one direction towards Chen Xiang's head.

The Dragon Emperor was right there at the side. The great enemies of the Devil-suppressing Divine Palace and the other Devil-suppressing Divine Palace were also there, so Chen Xiang didn't dare to reveal himself too much.

"I've been waiting for you for a long time." Chen Xiang quickly waved his hand and threw out a dagger. It was the Devil emperor dagger that could devour the power of myriad demons.

The Devil emperor dagger flew out, and after swallowing the red light that carried an extremely strong demonic aura, it pierced towards the incoming Night Devil King.

"Ancient Demon Weapon ..." The Night Devil King was shocked. The power contained within the Devil emperor dagger made him feel like he was facing a powerful demon god.

Night Devil King immediately dodged the Devil emperor dagger, seeing that he knew the dagger was not to be touched, but just as he dodged, Chen Xiang already controlled the Heaven-suppressed immortal monument, and it fiercely smashed down.

"You're not strong enough." The Night Devil King struck towards the bottom of the Heaven-suppressed immortal monument, using his powerful strength to shatter the Heaven-suppressed immortal monument's power. He exchanged blows with Chen Xiang and knew that Chen Xiang wasn't that strong, or else the Heaven-suppressed immortal monument's attack just now would have heavily injured him.

Night Devil King's arm was already stiff, he anxiously used his power to remove the cold energy.

Now, Chen Xiang could finally see the Night Devil King very clearly. Compared to the other Little Night Devil, she looked a lot whiter, more like a human. However, her two arms were still so long, and her skin still had a hint of black Qi, but she didn't look that scary.

If Chen Xiang used his full strength right now, with Long Xueyi's strength, he could deal with the Night Devil King with things like the Green dragon demon-slain broadsword and the Holy Devil-suppressing seal, but his current conditions did not allow it, and he did not plan to fight to the death with them either, because there was still a large group of experts at his side.

"Seems like he isn't too strong after all." Phoenix Princess looked at Phoenix King and nodded at her.

With her permission, two hoops of flame appeared in Phoenix Princess's hands. The weapon she used was a relatively unpopular one, so she threw out a fire hoop from afar. The fire hoop was like a light arrow, dragging a long fire tail as it shot towards Night Devil King.

Seeing that someone had joined the battle, Chen Xiang quickly kept his Heaven-suppressed immortal monument and left the battlefield, entering into a thick mist.

Seeing him slip away so quickly, the Phoenix Princess was a little unhappy and he let out a low snort.

Both the Dragon Emperor and the Phoenix King frowned because Chen Xiang's concealment abilities had surprised him. In such a short period of time, it was as if Chen Xiang had evaporated, and he could not detect even a trace of his aura. Furthermore, he was not attacked by the Little Night Devil.

"This Phoenix Princess is really nosy, but I have to thank her. If not for her help, I would have been exposed sooner or later." Chen Xiang had become a leaf on the ground, and no one could find him.

"I think she was the one who was interested in you. She was the one who warned you before as well." Long Xueyi smiled ambiguously.

"Although I am very confident in my charm, I am not overly confident. How could I be captivating this Phoenix Princess all of a sudden?" Chen Xiang just felt that the Phoenix Princess was more kind-hearted.

"Don't underestimate yourself. There are many powerful women who are interested in you, at least my Heavenly Dragon Supreme Lord is interested in you. Do you think I am not as good as that Phoenix Princess?" Long Xueyi laughed.

Chen Xiang had even gone through a great mental upheaval with her, so in a sense, this Little Naughty Dragon could already be considered one of his people.

"So powerful, in a few moves, he killed Night Devil King." Chen Xiang exclaimed.

After conversing with Long Xueyi for a while, the Night Devil King was smashed by the two fire rings that flew around for dozens of times.

After just killing one Demon and Devil Realms, a large group of Little Night Devils rushed over from the sky and the ground. The Phoenix Princess frowned, and a ball of fire suddenly emerged from her back.

No Little Night Devil could sense Chen Xiang, so Chen Xiang was currently very safe. He would not risk his life to attack those Little Night Devils like he did before, as it would not benefit him at all.

"With the Night Devil King here, the other Immortal Kings would not take action much. They all want to deal with the Night Devil Kings, seems like there are a few Night Devil Kings watching." Bai Youyou said.

"Are there a lot of Night Devil Kings here?" Chen Xiang asked.

"There are a lot of Night Devil here, I don't know how they came about it, but even if they were killed, there are still a lot of them, and even if they don't eat humans, they can still survive. After a long time, they can evolve to become the Night Devil King, and over the years, very few experts have entered this place to kill the Night Devil.

"Most of these Night Devil Kings would first send a large group of their Little Night Devils to their deaths, using up their opponent's strength, and then find a chance to launch a sneak attack. It would be very detrimental."

The Qi barrier released a faint multicolored light. Chen Xiang who was hiding at the side could see that the people who were attacking the barrier were all from the weak powers, while the Immortal Kings were only commanding from the side.

"If this continues, it will continue to be wasted until daybreak." As long as day broke, these Little Night Devil would hide away for some unknown reason.

"Yes, if there wasn't a chance, those Night Devil Kings would not have intervened, because there are a lot of Little Night Devil here, they don't care about the lives of those Little Night Devils at all." Su Meiyao said.

The Little Night Devil were covered in venom, and the energy sources in their body were not Heaven Pills or anything like that, the corpses were useless to them, causing Chen Xiang to feel that it was a pity. Otherwise, with so many corpses, if they were to be used at all, it would be extremely useful.

### [Chapter 1370](#)

When dawn was about to break, the large group of Little Night Devils suddenly dispersed. No one knew why they would all fly away before daybreak, but these Night Devils were not afraid of the light at all.

"If it's daylight, they're not that powerful. Once the sunlight shines on them, they'll turn into mist." Bai Youyou said, "My master tried it all those years ago, and even the Night Devil King would not dare to appear in broad daylight."

"Then, do you know where they are hiding?" Chen Xiang asked.

"Deep underground."

This made Chen Xiang think of the group of Earth's Core Race in the dragon vein. They couldn't appear during the daytime, so if the sunlight shone on them, they would die.

"Could it be that these Night Devil and the others are the same, cursed?" Chen Xiang had doubts in his heart, because the births of these Night Devil had always been a mystery.

When the sky brightened, everyone breathed a sigh of relief because they hadn't suffered any losses from last night. Those who had died were only those who had followed them.

Chen Xiang turned into a fly and followed behind these hundreds of thousands of people. Right now he was extremely safe, even if something powerful suddenly appeared, it would be directed at the group of people in front.

He followed this group of people because he wanted to find the route marked on the map to enter the Night Devil Hell more safely. If that route was safe, he wouldn't need to follow this group of people.

They had already reached the Night Devil Hell's side last night, and today, they would definitely head deeper into the Night Devil Hell.

"Now that we are inside the Night Devil Hell, it will not be as safe as it was before. There are dangers everywhere inside." Bai Youyou said. Right now, she felt that the inside of the forest was extremely dangerous, because it was extremely quiet inside the dense fog.

After going over two mountains, it was already noon. On the summit of the mountain just now, Chen Xiang checked the terrain ahead, making him curious. He used the Chaos Divine Eye to look through the dense white fog, but he did not see the outline of the mountain.

"Seems to be close." Chen Xiang was suddenly excited, because on the map, there was a large piece of flat land, and it was very close to a safe route. Now that he knew where he was on the map, it was very easy for him to reach the safe route, so he did not need to follow the group of people in front.

"There's movement." Long Xueyi said.

"The people in front have stopped. The ground is shaking. It seems like there is a large group of things charging over." Chen Xiang looked at the ground and noticed that the ground had traces of slightly trembling.

There was dense fog all around, and they couldn't see what was in front of them. Furthermore, they were on a flat land, and the mountains were all around. If something were to rush over, it might very well be beasts, because Night Devil only appeared at night.

"It's a beast tide. This group of people are in trouble. I think more than half of them will die." Long Xueyi said.

Chen Xiang immediately used his Chaos Divine Eye. Through the clouds, he could see many dense and dense groups of people running towards him, like a tide, they were extremely turbulent and crazy, the way they ran caused the ground to shake.

The countless beasts suddenly roared at the same time, causing the roars to shake the earth, scaring many people to the point that their faces turned pale, because they knew that this thing that came over was different from the Little Night Devil from last night. Although those Little Night Devils were only in the intermediate stage of the Worldly Immortal Stage, they were extremely afraid of the power of the Devil-suppressing Divine Palace.

However, there were many giant beasts rushing over at this moment. Furthermore, there were even a few very powerful auras. It seemed that these were not only ordinary giant beasts, but also powerful beast kings and beast kings.

"Hurry to the safe route." Su Meiyao said.

There were at least a few hundred thousand of them. They had obviously been waiting here for a long time, and the moment someone stepped in, they would immediately rush over in a grandiose manner.

Chen Xiang floated in the air and changed back into his human form. Then, he activated Chaos Divine Eye to its limit and looked at the mountain in front of him.

There was a large mountain next to this gourd-shaped mountain, and within this mountain, there would be a small crack, just big enough for two people to walk through side by side. It was unknown if it was formed naturally, or if someone had intentionally dug it, but in short, the deep crack was very safe, the beast would be difficult to attack, and it would not be easy to be discovered.

Chen Xiang immediately flew towards the entrance of the safe route. Not long after he flew, the sounds of a great battle came from behind him, accompanied by intense beast roars.

Even the flying Chen Xiang had been greatly affected, causing his speed to become much slower.

"Wow, even Dragon Emperor and Dragon Emperor joined the battle. No wonder elder sister You You's master was so heavily injured that year. Night Devil Hell is indeed very powerful." Long Xueyi said in shock.

Chen Xiang could also sense the auras of the Dragon Emperor and the Phoenix King. For them to make a move, it must be because a very strong Beast King had arrived, and it was not only one of them.

Chen Xiang took half an hour to distance himself from the battlefield. At the moment, he was completely unaffected, and his speed had increased by a lot.

"Almost there." Chen Xiang increased his speed and used the power of the spatial laws to teleport.

Not long after, he saw the small crack on the mountain before him. If it wasn't for his good eyesight, he probably would have seen it too.

Now, he also discovered a strange phenomenon. The area he was in actually no longer had that white fog, which allowed him to clearly see the scenery in front of him.

"There's someone." Chen Xiang was shocked. She thought that he could see them clearly, that was why he could see the people in front of him.

"It's that Phoenix Princess. No wonder I couldn't sense her aura earlier. I didn't expect her to already be here." Long Xueyi said.

"And He Feng ... The others should be sent by the big powers. I never would have thought that they also know where this safe entrance is. Could it be that there are a lot of maps? Chen Xiang sensed that something was wrong, because this person was here and he had obviously already known about it.

"Look at that map carefully. There are many forks in the road. Perhaps the forks in the road on their map are different. Perhaps yours is the most correct." Long Xueyi said.

Phoenix Princess, He Feng and the rest did not fight with the group of beasts, but instead, came here.

"They're fighting, He Feng is actually fighting with the Phoenix Princess..." Long Xueyi was shocked. Phoenix Princess was an existence similar to Prince Imperial Dragon, but right now, he was actually provoked by a prince of Myriad Dan Immortal Country.
