

Dan God 1521

[Chapter 1521](#)

The strength of this Super Old Sacred City had allowed Chen Xiang to have a deeper understanding of the Saint Realm.

"It's been a long time since I've seen him, the change isn't too great." Ji Ling'er brought Chen Xiang along as they walked along the busy street, buying a lot of snacks to eat. Although there were a lot of strong warriors, there were still a lot of weak ones.

Ji Ling'er was very familiar with this place. Along the way, she had passed by many shops that she was very familiar with, and they were all food sellers. Those things were all not ordinary, and required Holy stones to buy them.

"Hurry up and tell me what you need to do to quickly increase your strength." Chen Xiang didn't have the time to stroll around here with her.

"Let's have fun again. I've been in charge of supervising the mine for almost a hundred years, so of course I'll enjoy myself now." Ji Ling'er had two million kilograms of Holy stone, so she could buy some things that she previously couldn't.

Chen Xiang took this opportunity to take advantage of her, using the reason of helping his wife buy things as a reason to get her to help buy more than ten sets of clothes that weren't bad for women. Those were for Su Meiyao and, as well as some jewelry and such.

In order to curry favor with Chen Xiang, Ji Ling'er was extremely generous. As long as she met someone Chen Xiang liked, she would pay.

"Little Ling'er, do you have any pills to sell here?" Chen Xiang asked. He had followed Ji Ling'er around for the majority of the day, but he had never seen a shop that sold medicinal pellets.

Of course I do, but I can't help you buy it. It's rather expensive, and the reason why I brought you here is because there are a lot of medicinal pills for sale. If you use the one million catties of Holy stone here, you should be able to break through quickly. Ji Ling'er muttered: "My Holy stone also wants to buy pills for myself, I also need to increase my strength."

"Then why didn't I see those pill shops?" Chen Xiang looked around. It was just like a normal market.

"The Super Old Sacred City is divided into many districts, and right now, this district specializes in the sale of clothes, and then there is the Sacred Transformation Sector, where people from the Immortal-becoming realm are mainly gathered. The medicinal ingredients and weapons sold there are also specially provided for people of this rank, and there is also the Heaven Sacred District, where people with my strength go to."

Ji Ling'er smelled a bunch of fresh flowers that she had just bought, and smelled that flower's fragrance. She closed her eyes and enjoyed that beauty, and then passed it in front of Chen Xiang, letting him feel the strange fragrance of that bunch of flowers.

Chen Xiang pushed the bouquet of flowers away and asked: "I don't have the power of the Immortal-becoming realm yet, where should I go?"

"There is no special area here for you. Hehe, because it's not good enough." Even though Ji Ling'er said this, she did not have the slightest intention of ridiculing him. In her eyes, Chen Xiang was still rather powerful: "Go to the area of the Immortal-becoming realm, there are immortal pills for sale there, it's useful for you."

The sky in the Sky Region was so vast, Chen Xiang reckoned that it should be as big as the Heaven Realm, and it was even better developed than the Nine Heaven World.

Holy stone could be directly used to absorb the Holy Spirit Qi inside, but if there was a high level immortal pill working together, that would be for the best.

"Even if I eat immortal pills, my cultivation speed will be the same. I won't be that fast." Although Chen Xiang had not stepped into the Immortal-becoming realm, he still understood it well.

"You should still be in the Immortal King Stage right? Let's talk about this after you enter the Immortal King Stage Late Phase."

Ji Ling'er brought Chen Xiang into the Sacred Transformation Sector. Upon arriving, Chen Xiang immediately discovered that this place was very different from the previously chaotic regions. There were less people here, but all of them belonged to the Immortal-becoming realm.

Chen Xiang secretly sighed with emotion. Nine Heaven World must have been very strong back then, and the number of people in the Immortal-becoming realm should have been no less.

"Are you familiar with this place?" After Chen Xiang entered the Sacred Transformation Sector, he had a very special purpose.

"Of course I'm familiar with it. This was where I passed the time when I was using the Immortal-becoming realm."

Ji Ling'er had indeed stayed here before, and had even left behind a good mansion.

"Are you not afraid of Ji Clan finding out if you live here?" Chen Xiang anxiously pulled Ji Ling'er back.

"What's there to be afraid of? Back then, when I was in trouble, I was always hiding here." Ji Ling'er shook off Chen Xiang's hand, took out a jade tablet and opened the door to the residence. After pulling Chen Xiang in, he opened up some formation enchantments.

Ji Ling'er stood in the courtyard and laughed: "This place is not bad right? Back then, I spent a lot of effort to get this place."

Although the yard had been left unattended for many years and had grown some weeds, it still looked pretty good. There were some strange bamboo and the houses were also elegantly built.

Ji Ling'er and Chen Xiang spent less than an hour to finish up the house. At this time, Chen Xiang really wanted to go over to the pill shops to take a look, he was the best at concocting pills, he wanted to see what the Alchemist here looked like.

"Little Ling'er, are you not going to the Heaven Sacred District?" Chen Xiang did not want to be with Ji Ling'er right now. He wanted to go out and walk around by himself.

"No, I only see Grade Eight and above elixirs, but even in Heaven Sacred Districts there are very few. I might as well use the Holy stone to cultivate, so I will stay here to accompany you in your cultivation and protect you." Ji Ling'er played with his hair, and laughed: "You want to get rid of me?"

"Of course not, I just want to take a walk by myself." Chen Xiang shook his head.

"If you go out and do bad things by yourself, then I want to be with you even more. Doing bad things in Super Old Sacred City and getting caught is very troublesome." Ji Ling'er revealed a sly smile. Seems like she had already done a lot of bad things here.

Ever since he saw that Ji Ling'er wanted to keep the three million kilogram Holy stone for himself, Chen Xiang knew that she wasn't a good bird.

"Okay, I'll take you, but you have to listen to me." Chen Xiang said with an commanding tone.

"Yes, Ling'er." Ji Ling'er laughed mischievously.

Chen Xiang walked to the door and immediately opened it. After walking out of the house, she obediently followed beside Chen Xiang, making him feel that she was an outstanding female slave.

"Little Ling'er, is there any Alchemist here that can refine a Holy Pellet?" Chen Xiang felt that the Sky Region's refining level should be higher than the Nine Heaven World's.

"Of course there are. However, there are only a few of them and it's very difficult to find them. You have to eat the Holy Elixir." Ji Ling'er asked.

"Of course not, I'm not afraid to tell you, I am also a Alchemist." Chen Xiang smiled and said: "If possible, I'm more inclined to eat by myself."

"Really?" Ji Ling'er had a face full of disbelief, as he looked at Chen Xiang from head to toe, as if looking at him in a new light.

Chen Xiang laughed: "Whether you believe it or not is up to you."

[Chapter 1522](#)

Ji Ling'er stuck out her tongue: "Even if you are, you should be one of those unranked Alchemist. There are too many of these Alchemist here, I'll catch a bunch of them."

Chen Xiang heard her footsteps, turned his head and looked at her: "How can I be considered a mediocre Alchemist."

Ji Ling'er's eyes turned, he thought for a moment, "At the very least, you can concoct immortal pills, and with your current cultivation, you are not even at the Immortal-becoming realm, you should be unable to concoct immortal pills, right?"

Chen Xiang laughed: "I'm sorry, I can coincidentally concoct immortal pills, even though it's just a first grade immortal pill."

Ji Ling'er was startled for a moment. She had indeed not expected this, and then pouted playfully: "Even if I can refine it, it would probably be that kind of lousy stuff."

Chen Xiang did not tell her more because he realized that the pill refining industry in the Heavenly Realm was not as developed as he had imagined. At the very least, it could not be compared to the Nine Heaven World.

In this place, most of the people who were able to concoct immortal pills were only using Immortal-becoming realm, so Chen Xiang did not understand either. At this moment, he was even more curious about the Super Old Sacred City's pill refining industry.

Under Ji Ling'er's guidance, he came to one of the pill stores in the Sacred Transformation area. It was called the Heavenly Cauldron Pill Store.

The inside of the Heaven's Mandate Pill Shop was very spacious, once they entered, it became a very extravagant exhibition hall. The decorations were very luxurious, the old man in charge of selling pills could feel that the Qi on Ji Ling'er was not ordinary, and he also brought in a very weak rookie.

Powerful seniors bringing their juniors to buy medicinal pills was a very normal thing. Furthermore, they were usually very large in quantity.

"Welcome, esteemed guests, to our Heavenly Cauldron Restaurant. We have many types of pills here, and there will definitely be ones suitable for you. If the quantity is too great, we will also get a discount." The old man said with a smile,

Ji Ling'er looked at Chen Xiang, signalling him to speak.

"Do you have a Tianlong Dan here?" Chen Xiang asked.

"Heavens ..." "Tianlong" The old man was at a loss for words. "This ... "No."

"Where's the high grade Sacred animal Dan, Third grade Immortal, Fourth grade Immortal." Chen Xiang asked again.

The old man took a deep breath, shook his head and said, "No, no, not even these kinds of pills." It's mainly for the beasts, especially the Tianlong Dan. That was something the Primordial Dragon Clan created to strengthen their own race.

"What about the low rank Sacred animal Dan? It's of the first or second grade Immortal grade." Chen Xiang asked again.

"No, the beasts like to eat these, so they easily discovered it, so it's very difficult for us to pick them. Perhaps the clans and sects that raise Saint Beasts should have them and they rarely buy them, so we don't have any." The old man quickly explained and then looked at Chen Xiang in confusion. He asked in a small voice, "Little brother, are you really not a person?"

Chen Xiang was speechless: "Of course I'm human."

Ji Ling'er patted the old man's shoulder, and said: "He's still a little fairy, hurry up and go up if you want to eat any pills."

"Of course, this is the first choice for Yuxian Dan. If you want to save Holy stone, then buy a large amount of first grade immortals, and buy third grade immortals as soon as possible. But I recommend that second grade Immortals Yuxian Dan are not very expensive, and they are not very slow. The old

man chuckled: "I think that he would need at least a thousand of those level two Immortal Yuxian Dan to help him reach the late stage of the Immortal King Stage. At that time, he would use a large number of them to purchase a Holy Transformation Pill, directly entering the Immortal-becoming realm, and begin to step into the Nine Transformation Saint level."

A thousand Stage Two Immortal Yuxian Dan indeed had such an effect. If it were an ordinary person, perhaps it would be just as the old man had predicted, but he was not an ordinary person. He had five unique Heaven Pills in his body, and his Innate Qi had already been converted into holy energy.

"How many Holy stone are there in ten thousand of them?" Ji Ling'er knew that Chen Xiang was different from the others, so she budgeted more Yuxian Dan.

"One hundred thousand Jin." The old man quickly said, "I can give you some benefits, it's only ninety-eight thousand kilograms of Holy stone."

Just as Ji Ling'er was about to buy it, Chen Xiang interrupted her and asked: "Then how much are you selling the second stage Immortal Stage Yuling bamboo shoots for?"

He would feel heartache for a while, because he felt that it was a bit asymmetrical to use the Holy stone to buy immortal pills. The Holy stone could extract a large amount of holy energy, and it would be of great help to him when he enters the Immortal-becoming realm.

"Yuling bamboo shoots are the only materials used to refine Yuxian Dan s, they can only be refined one pellet per furnace, and the price of medicinal ingredients is usually half that of immortal pellets. A second grade immortal Yuxian Dan s is ten catties per pellet, and the price of medicinal ingredients is five catties per pellet." Originally, he thought that Chen Xiang would buy Yuxian Dan, but who knew that he would actually buy some medicinal ingredients to refine for his elders.

Ji Ling'er frowned, just now, Chen Xiang had said that he knew how to refine Tier 1 Immortal Pills, but now that it's Tier 2, why would he want to buy a Tier 2 one? Just as she was about to speak, Chen Xiang said again, "A thousand of these three kilograms of Holy stone, then you can give me ten of them."

"Little brother, you must be joking. I already said before that I want five kilograms of Holy stone." The old man chuckled.

"Then forget it, let's go."

Chen Xiang used his ultimate killing technique, turned and walked away.

Although medicinal herbs were precious, those that could be grown in large quantities would usually not reach half of the pill. At most, it would only reach 30%. Although this was the Heavenly Realm, it was still a good idea to try it out everywhere.

Ji Ling'er did not understand, she wanted to pull Chen Xiang to buy those Yuxian Dan, so that she could stop tormenting herself. However, Chen Xiang did pull her along.

"Never mind, I'll just sell it to you." The old man quickly shouted. Selling medicinal materials would earn him a lot of money, but the profit was slightly less than selling immortal pills.

Chen Xiang took out three thousand Holy stone, bought a thousand of them, and gave them away as ten.

knew that the other party would definitely sell them. After the successful transaction, he did not continue to stroll around the pill shop in order to not distract himself with other things.

Returning back to the house, Ji Ling'er asked in puzzlement: "Why don't you buy Yuxian Dan s and buy medicinal ingredients directly? Didn't you only know how to refine first stage Immortal Grade s? Furthermore, based on your situation, you need at least ten thousand pills, you only bought a thousand pills.

Chen Xiang smiled and caressed her face: "I don't either, but I can learn it. Alchemist isn't someone who can concoct pills from birth, she only learned it step by step."

"But a thousand sets of ingredients? How long will it take for that to happen? I'd rather be locked up for a thousand years than concocting a thousand batches of pills. I'll die." Ji Ling'er pouted.

Chen Xiang couldn't tell her the exact answer, but he felt that it would be more worthwhile doing it this way.

[Chapter 1523](#)

"I'm going to start concocting pills, you go and play." Chen Xiang said. He now treated Ji Ling'er as a weird little girl.

"I want to see you concoct pills. Can I stay by the side?" Ji Ling'er rolled her eyes and said coquettishly: "I won't disturb you, I just wanted to see how you were doing."

Seeing Ji Ling'er's look of despise, he knew that Ji Ling'er was doubting his ability to refine pills.

"Let me ask you, are Holy stone that heavy? If it was you, how long would it take to use the proper method?" Chen Xiang was also very curious about this, because when he found out that they had lost three million kilograms of Holy stone, the elders of the Ji Clan were very angry.

It's not easy to get, only selling Saint Beasts can come fast, but the Saint Beasts around here are not weak, and they can't be easily caught either. A Saint Beast is only worth around one hundred thousand catties of Holy stone, if you're lucky, it would take more than twenty years to track one.

Ji Ling'er thought for a while, then said: "If I were to help the Ji Clan with some chores, and go out to fight and kill them, with only a thousand kilogram Holy stone, it would take me at least a hundred years to gather a hundred thousand kilograms, and this is under the condition of having other things to do."

"However, I am very powerful. Through the competition within the clan, I can compete to be the guard of the mine, so I can make a lot of money ..." This time, I got two million catties, hee hee. "

Ji Ling'er, this kind of relatively powerful "heaven person", could only earn a thousand Holy stone per year. However, she definitely had other methods to earn some extra money, but she could still see that the Holy stone was more precious. No wonder she took the risk of taking all of those three million kilograms of Holy stone s.

"With my current strength, I can only use Holy stone to increase my strength. High-grade immortal pills are too little and expensive, so Holy stone are very lacking." Ji Ling'er said.

Chen Xiang pinched her face: "Then why did you let me buy those ten thousand pieces of Yuxian Dan, taking away a hundred thousand kilograms in an instant? You must be trying to scam me."

"Nope, she wants to buy it for you." Ji Ling'er's face was filled with hidden bitterness.

"In the future, without my permission, don't randomly buy those immortal pills. I am a Alchemist, so I can only eat the pills refined by myself." Chen Xiang said. Just like the Refiner, he only used the weapons he refined himself.

There was only a secret room here, but it was quite spacious. After Ji Ling'er brought Chen Xiang in, he cleaned up a bit and even made a bed for a bed.

"Why are you doing this?" Chen Xiang really didn't understand.

"When refining pills, doesn't it take a year and a half? I can't just sit there and watch, taking a bath, sleeping, eating, and so on, they shouldn't affect you, right?" Ji Ling'er said naively: "If you want to refine a thousand batches, it would take at least a hundred years."

Chen Xiang curled his lips and said: "Foolish girl who has never seen the world, I will definitely broaden your horizons in a while."

Ji Ling'er could not accept it, and snorted: "You're so weak, what right do you have to mock me? You're the one who has never seen the world, when I first came to Super Old Sacred City, you had a bump-like expression, I even want to laugh when I think about it."

"I am the eldest daughter of the Ji Clan's Patriarch after all, and I have also been to the Sacred Top. I have watched people ascend the Divine Road on scene, and not just anyone can leave this Sacred Domain." I am the eldest daughter of the Ji Clan's Patriarch, and I have also watched people ascend the Divine Avenue on site.

Chen Xiang gently caressed her face and laughed: "I am indeed a country bumpkin in other aspects, but I have absolute confidence in refining pills. You just need to watch.

"That's more like it. I was chosen into the top ten Holy Maiden of every ten thousand years in Super Old Sacred City. I only got the twelfth place, but I am still very powerful, no?" Ji Ling'er hugged his chest proudly.

"Why didn't he enter the top ten?" Chen Xiang asked: "Which ten thousand years?"

"It was ten thousand years ago. However, I have fallen to the 20th place in this ten thousand year. Why haven't I been ranked ..." The main reason is because I don't care, because I didn't show myself to the public before the selection, so I didn't enter the rankings. However, the saints that are ranked in the top three are all genuine, and have very beautiful looks, high standing, and authority. Only if they speak out, a large number of fools would be willing to serve them at any time. " Ji Ling'er hugged his chest, with a face full of anger: "I don't want to become this kind of woman."

Chen Xiang took out the Yanlong furnace, and laughed: "So that means, after I become strong, I can obtain you, a Holy Maiden who might even reach the top. And now, you still serve me, and are even following me by my side."

Ji Ling'er raised his head, his face full of arrogance: "Of course, now you know how powerful I am right?"

Chen Xiang began to refine pills. Ji Ling'er laid on her clothes, waiting for the beautiful eyes to look at him, showing an extremely peaceful expression. Although she could not understand, she was looking very seriously, but her gaze was mainly focused on Chen Xiang.

Two hours later, Chen Xiang's pill furnace released a "bang" sound.

"The furnace blew up. I know that." Ji Ling'er chuckled from the side: "It's more or less what I expected. The reason you bought those medicinal ingredients was so that you could explode inside the pill furnace."

"Blast your sister, this is called a mistake." said in a bad mood. He had blown up, but for the Alchemist who was concocting a Level 2 Immortal Pill for the first time, this was very normal.

Ji Ling'er laughed even more happily now: "Hurry and push the blame for your mistake onto me. Say that it's because I've affected you, then you'll feel much better."

"I do not have the habit of shirking my responsibilities. Even if you call for the top ten of the Holy Maiden Ranking and strip naked in front of me, I would still not be affected."

Chen Xiang was very confident. He had already experienced this kind of test a long time ago, and the main responsibility was Su Meiyao and Bai Youyou.

Next, he began the second batch of Yuling bamboo shoots. When he bought the first ten, he asked the old man to give him ten, because he had already predicted that the initial stages would fail.

Ji Ling'er charmingly laughed, her laughter carrying a captivating allure, it was clear that she had received training in this area before. She then slowly took off the dress on her upper body, revealing her beautiful collarbone, the skirt slid down, revealing a pair of round, partially wrapped snow peaks.

"The flame when you refine pills makes me so hot." Ji Ling'er twisted her snow white slim waist and coiled her long black hair. She spoke with a soft and charming voice, which was extremely alluring.

Chen Xiang calmly sat there controlling the flames in the furnace and used the God purification to burn the Yuling bamboo shoots. He turned and looked at Ji Ling'er who was trying to seduce him and said indifferently: "With your level, you want to seduce me. Since it's boring to refine pills anyway, why don't you make it even more intense? Otherwise, it would be hard to break my state of mind."

Seeing Chen Xiang's expression, Ji Ling'er was very disappointed, as if the beautiful her was called ugly by others. She started to untie the cloth covering her chest, which was made up of thin white silk that had wrapped itself around her chest.

[Chapter 1524](#)

Ji Ling'er saw that Chen Xiang had turned his head around, so he slowed down his pace even more. It had been a long time since he last made a circle, but now, he could faintly make out a faint blush.

Ji Ling'er, who was originally a little proud, saw that Chen Xiang's eyes were not burning hot like she had imagined.

"Hurry up, why are you dawdling?" Chen Xiang chuckled. Although he said that, it gave people a feeling that it was not important.

Ji Ling'er grumbled, but she did not continue to remove the veil, but instead wrapped it around her, because she did not plan to take it off for Chen Xiang to see, she only wanted to enchant Chen Xiang to see if it was truly as strong as he said, and not be affected at all.

Now she truly believed that Chen Xiang's mental fortitude was beyond ordinary, but she was still disappointed in herself, and actually did not move Chen Xiang's heart.

It wasn't that Chen Xiang hadn't seen beautiful women's bodies before, but rather, he had seen many of them.

Ji Ling'er put on his clothes and lied down on the bed, drinking some delicious ditty as he watched Chen Xiang concoct pills.

Although it was best if no one disturbed Chen Xiang when he was refining pills, it was very boring. A beauty was humming a tune beside him, which Chen Xiang enjoyed very much.

had refined quite a number of Level One Immortal Yuxian Dan before, but now, while refining the Level Two, even though he was using the Yuling bamboo shoots, he felt that it was extremely strange and hard to refine it.

Because Chen Xiang used the God purification, Su Meiyao's pointers were very limited. She could only tell him the specialties of the medicinal herbs and the things he should pay attention to.

Ji Ling'er looked at Chen Xiang's Yanlong furnace in a daze, not knowing why she had the time to do so. Just as she was about to lose her train of thought, an explosion suddenly occurred, scaring her to the point that her delicate body trembled.

"It exploded again." Ji Ling'er laughed, "Do you even know how to refine pills? You already wasted two sets of ingredients in one go."

Chen Xiang wiped off the sweat on his face and said: "This is my first time refining a Yuxian Dan of this level. Failing two times is normal, but when I succeed, it's fine as long as I don't get scared."

"Success means success, what's there to be afraid of." Ji Ling'er said casually. From what she knew, successfully refining a batch of pills was normal, how could it scare people?

Chen Xiang opened the pill furnace and looked at the scattered Medicine aura, frowning and thinking.

"I used the Five Elements Sacred Flame, which was enough during the burning process. Although it's a little difficult to use divine power to refine the spirit, I can still handle it. Why did the Yuling bamboo shoots suddenly explode when I was halfway through it?"

Chen Xiang told Su Meiyao about this discovery. Although Su Meiyao did not understand God purification, she was an experienced Dan Immortal and might be able to give him a solution.

"Give Xue Yi a stalk, let her see if there's anything wrong with the Yuling bamboo shoots itself." There was one in Su Meiyao's hand, so when she looked at it carefully, she felt that this Yuling bamboo shoots was a little different.

Chen Xiang did not notice this problem, he had checked on the Yuling bamboo shoots's medicinal strength to be at the Immortal Second Rank, but he did not pay much attention to the others, and when he was refining, he did not find any difference.

Long Xueyi quickly ate one of it. She chewed on the Yuling bamboo shoots and said with a bitter face: "It's not tasty at all. It's very old, very hard to chew, and a bit bitter ... The Yuling bamboo shoots of the first stage of the Immortal Realm was very delicious, it was sweet and crispy. "

Chen Xiang asked: "There's something wrong with these Yuling bamboo shoots."

Long Xueyi swallowed the last bit of Yuling bamboo shoots with difficulty: "The problem is that there isn't any, the medicinal power contained inside is still very strong. It's possible that these Yuling bamboo shoots were grown using other methods, which resulted in them being different from the Nine Heaven World's Yuling bamboo shoots."

Seeing Chen Xiang standing there in a daze, Ji Ling'er lightly shouted: "What's wrong?"

"Little Ling'er, how do you grow the herbs here?" Chen Xiang felt that the Sky Realm's medicinal herbs probably weren't produced using an array, it wasn't something that grew in a natural state.

"It's very simple. Cultivators of the water attribute are able to release a very powerful type of holy water through some techniques, condensing it into rain clouds and suddenly watering the medicinal herbs. This can allow the growth of medicinal herbs and things like that to increase rapidly." Ji Ling'er said: "Isn't that place yours?"

"No, other than this, are there any other steps?" Chen Xiang asked again.

"Yes, I've heard that when these medicinal herbs grow, they are divided into several stages. Every time a stage is reached, someone will channel energy into the medicinal herbs, allowing them to grow steadily with great medicinal effects." Ji Ling'er laughed: "I learned it before, but it's too boring. In the end, I give up, but if I can control it well, I can still earn a lot of Holy stone."

Chen Xiang nodded, he now understood why when he was refining Yuling bamboo shoots, it would always explode out of nowhere. It was because inside these medicinal ingredients, there were still some sacred energy left over from others, all carried the consciousness of the original owner. If he used the Foreseeing Alchemy, it wouldn't have any effect.

But his God purification was different. The God purification wanted to suppress all sorts of spiritual energy within the medicinal ingredients so that they would not be able to resist, and then perfectly refine them into Medicine aura s and medicinal powders.

"Knowing this makes things much easier." Chen Xiang took out a Yuling bamboo shoots. As soon as he released his divine power, a large amount of his mental power gushed into the Yuling bamboo shoots. Then, he activated the Devouring magic kungfu and swallowed all the remaining spiritual power within the Yuling bamboo shoots.

He had to master this process well, otherwise, he would absorb the spiritual energy inside the Yuling bamboo shoots. Right now, he could only absorb a portion of the spiritual energy that carried a human consciousness, it did not affect the Yuling bamboo shoots at all.

"Will it work this time?" Ji Ling'er saw Chen Xiang put another Yuling bamboo shoots into the furnace and began refining the third furnace.

Chen Xiang did not answer, but in his heart, he already had an answer.

Chen Xiang's God Power was like a wave as it rhythmically surged towards the inner parts of the Yuling bamboo shoots, causing it to give up on defending, allowing his flames to quickly decompose the Yuling bamboo shoots.

Ji Ling'er saw that Chen Xiang had been working on it seriously for more than six hours, and felt that Chen Xiang had improved a lot compared to the previous two times, because the furnace had exploded very quickly.

The pill furnace swayed for a bit, and Ji Ling'er immediately looked at it seriously. But not long after, she heard a soft sound coming from the furnace, causing her to feel depressed.

"What a powerful Yuling bamboo shoots." Chen Xiang was sweating profusely, but his face was full of joy.

He realized that the Yuling bamboo shoots of the Saint Realm had a great advantage, that was, the medicinal power contained within them were extremely rich, which made it so that he did not expect that the moment the Yuling bamboo shoots was broken up, the boundless medicinal power would suddenly burst forth, catching him completely off guard, and causing him to be unable to react in time, and only then would it explode.

[Chapter 1525](#)

"What are you so happy about?" Ji Ling'er did not understand, she only knew a little about pill refining. Since she was young, she knew that she was not an ingredient in pill refining, so she did not think it was necessary for her to be familiar with this area.

"Nothing, just that this Yuling bamboo shoots is better than I thought." Chen Xiang laughed and wiped away the perspiration on his face. During the continuous concocting of pills, he had to hit hard on his mind and release a large amount of flames, which was why he was sweating so much.

Ji Ling'er didn't understand and stuck out his tongue: "Go and take a shower. You have been continuously going on for half a day and you will also need to rest. I feel tired for you just by looking at it."

"It's nothing. I'm used to it." Chen Xiang laughed and walked towards the bathroom Ji Ling'er had built. It was only separated by a simple screen, and there was a relatively large bath inside.

Ji Ling'er walked over, took out a small gold bottle, and poured some water into the bath.

"This water is no ordinary water. When I was at the mining field, I collected a lot of underground spring water that was soaked by Holy stone."

After Ji Ling'er had filled the bath, she smiled charmingly, "Do you want me to go with you?"

Chen Xiang chuckled: "That would be for the best."

He stripped off his clothes in front of Ji Ling'er and jumped into the bath. Ji Ling'er said with a red face and a tender smile, "You wish."

Chen Xiang heated up the water in the bath until it boiled, and the holy energy that was contained in the water entered his body even more quickly, quickly removing the fatigue from his body.

Lying on his back in the bath, he closed his eyes, channeled the Nine-turn dragon god mantra, and absorbed the dense holy energy into his body through the Nine-turn dragon god mantra.

Chen Xiang returned to the side of the furnace. He did not expect that the Holy stone's water would have such an effect, after taking a bath, it allowed his condition to its peak, allowing him to feel that the energy in his body was boiling.

"The energy contained within this Yuling bamboo shoots is able to allow me to condense at least three or even four pills." Chen Xiang took out a Yuling bamboo shoots, exorcised the human spirit inside, and placed it into the pill furnace.

This was also why he was so happy. Because of the special planting method used by the heaven, the energy within the spirit herbs was different from that of the Nine Heaven World, and it was concentrated with a large amount of high quality energy.

Having had previous experiences of failure, he was able to discover many problems. As long as he could avoid those problems, he would be on the verge of success.

Because he did not completely master how to refine a second stage Immortal Yuxian Dan, Chen Xiang did not use the Yanlong furnace's formation to increase his speed. That ability to increase speed could only be used after being completely familiar with it, otherwise, it would have been used right from the start, and would have easily failed.

Very quickly, six hours had passed. Ji Ling'er had been calculating the time, and when it was this time, she became more alert, because it was right at this time that Chen Xiang failed. She wanted to see if Chen Xiang could hold on longer than before.

"He's coming."

The Yuling bamboo shoots inside the pill furnace was about to melt, and in that instant, it produced a huge amount of Medicine aura s and medicinal powders. Chen Xiang immediately released his strongest power to suppress it, and this energy, that was concentrated in the Yuling bamboo shoots, made Chen Xiang ecstatic once again.

"It's over."

Ji Ling'er thought in her heart. Seeing Chen Xiang's calm face, unlike those previous tense times where she knew Chen Xiang was gradually nearing success, she couldn't help but be a little excited. She continued to lie down and hum a small tune, waiting for the results.

Chen Xiang was ecstatic in his heart: "I never thought that there would be so many Medicine aura and medicinal powders. I wonder how they grew them, which actually allowed the medicinal herbs to compress their own energy."

"I wonder how many pills he can condense." Su Meiyao asked: "Under normal circumstances, it would be one pellet, and this Heaven Realm seems to be the same."

Chen Xiang laughed: "If it was any other Alchemist, they would have opened the lid to let a portion of the energy flow out just now. This way, although I could have avoided the explosion, it would have been too wasteful, and I could have controlled it."

Ji Ling'er had already eaten a second stage Immortal Grade Yuxian Dan before, so she had a very good understanding of the price of Yuxian Dan s. If Chen Xiang was able to refine them, and only bought medicinal ingredients in the future, it would save her a lot of effort. However, she was worried about the time because she knew that it would take a relatively long time to refine all these Yuxian Dan.

Just as Ji Ling'er was thinking, Chen Xiang's pill furnace started shaking again.

"Is it going to explode?" Ji Ling'er anxiously shouted.

"Nope." Chen Xiang forced a smile as beads of perspiration dripped from his forehead.

Previously, when he was refining pills, he had compressed a large amount of Medicine aura and medicinal powder, but none of them were comparable to this time's second grade Immortal Grade s. This was because the large mass of Medicine aura inside the pill furnace was different from the medicinal powder, and it had been condensed to the same size as the previous time.

However, Chen Xiang had a lot of experience compressing this kind of violent energy. In just an hour, he was able to compress it together and enter the Core Formation stage.

The ball of mist was extremely thick, and after Chen Xiang took a deep breath, he used his divine power to split it into five groups.

"This situation seems to be the latter stage of the Core Formation stage." Ji Ling'er was a little shocked, because it had only been six hours. If he had used this kind of time to refine a batch of Yuxian Dan, it would be extremely fast, and she understood this point rather well.

Chen Xiang steadied the furnace, and the five balls of mist inside started to gather up, slowly condensing into a solid state, then condensing into a pill.

"It's done, the quality is very high. If you work a little harder, you might be able to give out some light." Chen Xiang let out a long breath, and relaxed his tensed body.

Ji Ling'er frowned, he got up quickly and walked to Chen Xiang's side and asked: "You have finished refining the first furnace."

Chen Xiang nodded: "What's wrong?"

"Why are you so fast? Although I don't concoct pills, I know that a rookie like you would need at least two to three days to concoct a batch of Immortal Grade Two Yuxian Dan." Ji Ling'er's face was filled with disbelief as he reached his hand out to open the lid of the pill furnace. A thick medicinal fragrance immediately rushed out and a gentle white light flickered inside the pill furnace.

After the mist dissipated, Ji Ling'er let out a cry of shock. Her beautiful eyes stared wide open as she opened her mouth wide and turned her head to look at Chen Xiang, "This ... This was really forged by you. "

Ji Ling'er saw that there were five high quality [Immortal Grade Two] Yuxian Dan in the pill furnace, but to her knowledge, this was definitely not possible. A single batch or two was already very powerful, and only a few Dan Immortal could do that, but Chen Xiang being able to get five at a time gave her a big shock.

[Chapter 1526](#)

Chen Xiang smiled and nodded: "Let's try one pellet and see if it is made delicious by those famous masters."

Ji Ling'er immediately took out one pellet and placed it into her mouth. She gently stirred it and swallowed it before praising: "The quality is very high, this is probably the Yuxian Dan with the highest quality that I have eaten. How did you make it?"

"It's concocted like this, didn't you see it earlier?" Chen Xiang chuckled: "The progress is much more smooth than I thought."

Now that Ji Ling'er saw him in a new light, she knew that not only was Chen Xiang's cultivation mysterious, he was also very good at refining pills. She said, "You still have a thousand sets of ingredients left in your possession, that means you can refine five thousand Yuxian Dan s, which is only one thousand kilograms."

"If we buy one thousand more for refinement, we will have ten thousand Yuxian Dan, and we will be able to sell them for one hundred thousand Jin, but the cost is only six thousand Jin. It seems like we will have to earn a cramp."

He knew that Chen Xiang was not ordinary, and their relationship did not develop by much either. Right now, in her eyes, Chen Xiang was just a rooster who knew how to kill Holy stone.

"I will go and buy a large number of Grade Two Immortal Yuling bamboo shoots now. We will have five million kilograms of Holy stone very soon ... Even a hundred million kilograms. " Ji Ling'er was extremely excited and was about to leave the secret room.

Chen Xiang anxiously pulled her along: "Little Ling'er, the reason why I'm refining Yuxian Dan is to increase my strength. Once I become stronger, I can start concocting pills faster and reach a higher level.

"Also, with so many pills, it won't be easy to get rid of them. You are also being chased by the Ji Clan, so it's best to keep a low profile right now."

Ji Ling'er took a few deep breaths and calmed herself down. She was truly too agitated before.

"After your strength has increased, you won't run away right?" Ji Ling'er was a little worried. In her eyes, Chen Xiang was a treasure, not only could he teach her the Changing Technique, he could also use such a brilliant method to quickly earn a large amount of Holy stone.

"When that time comes, of course, I will leave this place. However, before I leave, I will earn a sum of money before leaving. At that time, you will have benefits." Chen Xiang smiled and pinched her cute nose: "You stay by my side, I'm not so bored while concocting pills."

Ji Ling'er laughed. "If you need me, I can accompany you for a lifetime."

Chen Xiang sat down and prepared to continue concocting pills. He also felt that with his pill refining abilities, he could earn a large amount of Holy stone and when the time came, he could buy some medicinal ingredients before returning.

"Ling'er, if I had a lot of Holy stone, would I be able to meet the Pill Saint here?" Chen Xiang asked. There were people here who knew how to refine Holy Pellets, then there would be Pill Saints.

"You want to eat the Holy Elixir?" Ji Ling'er asked: "I'm not too sure either, but if you need to see, you can try."

"No, I have a friend who is injured. He needs a Holy Elixir to cure him." Chen Xiang said.

"Oh, what kind of injury is that?" Ji Ling'er asked curiously: "Even if I'm wounded in the eyes, I probably won't need a Holy Pellet."

Chen Xiang was also not clear about Su Meiyao's and Bai Youyou's injuries. Their abilities were only at the mid to late stage Immortal King, and they did not need any Holy Pellets, but Su Meiyao had never mentioned that kind of injury.

"I'll go out, I'll show her." Su Meiyao suddenly said.

"sister Meiyao, you're coming out." Chen Xiang was very surprised.

"It's alright, there are no enemies in this Heaven Realm. My enemies should be in the Nine Heaven World, so there's no need to be afraid. She's not bad to you, and she's very strong, so you don't need to worry about me." Su Meiyao chuckled: "But she might be scared when she sees me suddenly appear."

"I'll go out and get some fresh air as well." Bai Youyou also said: "She has passed the Nine Revolutions Saint, maybe she has a way to make us better."

"Fine." Chen Xiang said. Even if he did not agree, Su Meiyao and Bai Youyou could freely go in and out.

Ji Ling'er was waiting for Chen Xiang to answer, but suddenly, two rays of light flashed out. Sensing that there was someone else's aura, Ji Ling'er immediately became vigilant.

"They're the ones who got hurt."

As Chen Xiang looked at the two women who had suddenly appeared, and saw Su Meiyao and Bai Youyou's absolutely beautiful appearance, an unexplainable emotion surged in his heart. He remembered the first time he saw them, and all these things that happened over the years.

Su Meiyao was charming and gentle, her charm was alluring and alluring, wearing a purple dress, it gave her a noble and beautiful temperament.

looked the same as before, but Chen Xiang knew that her heart was different from the geniuses from the past. He could see it from the softness in her eyes.

She admitted that Su Meiyao and Bai Youyou were indeed a rare pair of exceptional beauties. Now, she sort of understood why Chen Xiang could resist her temptation.

"Big Sister Ling'er, can you help look at our injuries?" Su Meiyao smiled sweetly: "This little girl's name is Su Meiyao, this is my senior sister Bai Youyou, she doesn't like to talk, please forgive her."

"Hello." Bai Youyou revealed a rare smile as he greeted Ji Ling'er.

Ji Ling'er laughed, "You guys are much more polite than this guy."

Afterwards, she held Su Meiyao and Bai Youyou's hands and led them to the bedside to let them sit.

"Relax, I'm going to check your bodies." Ji Ling'er placed his hands on top of Bai Youyou's and Su Meiyao's abdomen.

A moment later, Ji Ling'er exclaimed and could not help but say: "You guys are still virgins, aren't you the brat's wives?"

Su Meiyao chuckled, "That little scoundrel met us when he was still a child. We were already heavily injured at that time."

Then she blushed and said, "I can be considered his wife now. This little scoundrel is quite good."

"Did you see anything?" Chen Xiang asked.

"It's a very strange injury. They all have a strange power inside their bodies and it has been devouring the energy inside their dantian all this time. As long as their dantian can condense that power, it will be devoured." Ji Ling'er said as his brows furrowed, "The energy within their dantian has been dispersed, but their foundation is still considered stable."

"They really need a type of sacred pill to recover their original strength."

Ji Ling'er frowned: "However, if we don't expel that strange power from their bodies, even if they took the Holy Pellet, they would quickly return to their original state."

Su Meiyao and Bai Youyou seemed to know it too.

"Big Sister Ling'er, can you help us get rid of that strange power?" Bai Youyou asked.

Ji Ling'er laughed and said: "Of course I can, but I need some time. But as repayment, you all have to tell me some interesting things about this brat."

Su Meiyao looked at Chen Xiang and chuckled: "No problem, some of his matters aren't secret either."

[Chapter 1527](#)

Chen Xiang was still quite confident of his own shady background. He didn't have a lot of dark history, so he wasn't afraid of Su Meiyao saying anything.

Su Meiyao and Bai Youyou sat on the bed. Facing Ji Ling'er, Ji Ling'er placed both of his hands on her chest.

"The person who can release this kind of strange power should be very strong." Ji Ling'er frowned:
"Right now, I can only help you force it out. Without that strange power, your situation should be able to improve."

Chen Xiang had asked around about some things regarding Su Meiyao previously, but because they were mistaken for dead many years ago, their reputation had gradually decreased. Only the older generation could remember them, so he did not know much about them, nor did he know who their real enemies were.

On the other hand, because Bai Ziqian had returned and used the Magical corruption gas, her reputation was still there.

Chen Xiang continued refining the Yuxian Dan of the Immortal Second Stage. With his previous success, it would be difficult for him to fail next, and he had not used the time acceleration array inside the Yanlong furnace yet, as he was still not familiar with the Immortal Second Stage Yuxian Dan.

"Ling'er, how long will it take for you to help them force out that strange power?" Chen Xiang asked.

"I'm not sure yet. It will take at least a few months." Ji Ling'er sighed: "They still have a foundation, they only need to recover their Dantian to recover to their original state, but they need a Holy Core to do so."

"You might be able to meet a pill saint who knows how to concoct elixirs in the Heavenly Realm, but if you can't concoct the elixir, then it will be useless. Don't expect the elixir to help you sell the elixir."

Su Meiyao said: "I have almost collected all the medicinal ingredients. If I can find the Pill Saint, it shouldn't be difficult for him to refine them."

"This would require at least one or two types of Holy level medicinal herbs. I never thought that you would be able to find them in the Nine Heaven World." Ji Ling'er was a little surprised. The Holy level s were just as precious in the Heaven Realm.

If he really could find a Holy Pellet, then he would have to give some benefits to the Pill Saint. For Alchemist of that level, Holy level medicine was the best reward, so Chen Xiang planned to condense some creation divine liquid s and copy some Holy level medicine during this period of time.

"If only Lv Qilian was here. Help me get some Holy level medicinal herbs quickly." Chen Xiang thought.

... ..

After Lv Qilian and Little Lizhi parted ways, they hurried back to the Nine Heaven World. This Heaven Realm was not a place they could enter as they wished. During that period of time, many people had already returned, and the door would continue to open for a period of time, waiting for those who were still alive to return.

Several months had passed, and Wang Weiquan stood at the main entrance. The Shao profoundyun beside him tightly gripped his palm, because they were waiting for Huang Jintian.

Huang Jintian was their master, and had originally gone in with them, but he still had not come out, causing them to be extremely worried. Now, they had to prepare to close this door, because practically everyone who was still alive had already returned.

You guys don't have to worry too much about your masters. Chen Xiang is also inside, they might have already met and planned to stay inside for a while longer. Back then, Chen Xiang did not enter through this door. Right now, her impression of Chen Xiang was much better than before. She was fully aware of Chen Xiang's abilities and methods, and felt that Chen Xiang might be able to obtain a lot of benefits from this place.

"Close the gate. If we continue to waste more time, we will lose a large amount of Spiritual crystal." The half crippled Fire Emperor of the Fire Divine Palace shouted from afar.

Wang Weiquan and Shao profoundyun were feeling helpless at the moment. They sighed and nodded towards Lv Qilian.

"They will return. You should all be well aware of how powerful your master and junior apprentice-brother are." Lv Qilian patted Shao profoundyun's shoulders, and ran towards the Fire Emperor, closing the door behind them.

Everyone worked together to remove the formation plate that kept the door open before sealing the explosive force. Not only that, they also needed to reinforce this space so that the powerful Saint Beasts in the Heavenly Realm wouldn't come running over. To them, this was a disaster.

After opening the door for so long, the holy beasts inside knew that someone had entered, but they did not enter the Nine Heaven World. They did not even manage to pass through the sky curtain.

Come to think of it, after Chen Xiang was taken away by Ji Ling'er that day, Huang Jintian, who had escaped, had reunited with Mao'er. They had waited for today, and returned to the mining area.

Half of the Holy stone that Huang Jintian obtained were given to cats, and he had them escort him out. On the way, Huang Jintian used the Heaven extended method to calculate the location of a few Holy Beasts, and then led the cats to attack them. On the way, they killed a few Holy Beasts, causing Huang Jintian to be unable to hide his smile.

Just when Huang Jintian thought that he was going to return with a full load, and return to the Nine Heaven World, he realized that the door was gone.

"Damn it." Huang Jintian stomped his feet in anger, there was a teleportation platform at the side, but only Chen Xiang could use that teleportation platform.

Huang Jintian had no choice but to find a rock and engrave a few words on it before tossing it to the side of the teleportation portal. When Chen Xiang returned here, he would be able to see it and tell Chen Xiang to wait for him before taking him away.

After doing all this, Huang Jintian returned to the forest in the Heavenly Realm to find a cat to help him kill the Holy Beasts.

When Mao'er left the area with the enchantment, she could use Sacred Energy. Huang Jintian also imparted some cultivation techniques to him, such as some of the dragon martial arts, they could make Mao'er stronger.

Unknowingly, half a year had passed while Chen Xiang was refining a Level 2 Immortal Yuxian Dan. Right now, he was using three pill furnaces, namely the Yanlong furnace, the Seven Star Treasure Furnace, and a Magic method furnace. Only by doing this could he increase his speed to six batches per day.

After he revealed this move, Ji Ling'er was quite frightened, and it made her excited for a while, because this meant that Chen Xiang could refine a lot of pills that he could sell in a short amount of time. What Ji Ling'er admired the most was that Chen Xiang rarely failed, and he always produced five pills, and the quality was also good.

"A thousand Yuling bamboo shoots have been refined. I have more than five thousand Yuxian Dan now." Chen Xiang also felt a little tired, but he was happy because he was able to see Su Meiyao and Bai Youyou everyday.

Ji Ling'er helped them heal their injuries everyday and forced them to use that kind of strange power.

He had three beauties accompanying him. From time to time, they would give him some advantage, wipe his sweat, chat with him, or seduce him so that he wouldn't feel bored while concocting pills.

"They're almost done, but I still have some work to do."

Ji Ling'er stretched lazily. Now that she knew Chen Xiang was a Alchemist with a lot of potential, she got even closer to Chen Xiang because he had used half a year's time to refine more than 5000 pellets of second stage Immortal Yuxian Dan. This was equivalent to 50,000 kilograms of Holy stone.

[Chapter 1528](#)

Chen Xiang swallowed a Yuxian Dan and asked: "Why are you so busy? Isn't it just lying there watching me cultivate? I have to eat these Yuxian Dan next, this isn't an easy time."

Su Meiyao laughed tenderly: "I don't know how many people are envious of you for being able to eat so many Yuxian Dan s in one go. You still think eating these pills is tiring, if word of this gets out, people will die of jealousy."

She came behind Chen Xiang, took off Chen Xiang's clothes, and helped him go take a bath. She had already treated Chen Xiang as her own man, something that she should do.

Ji Ling'er saw that Su Meiyao was treating Chen Xiang gently and tried to tease him: "Meiyao, I've worked so hard to treat your injuries, why don't I see how you treat me so well?"

"Death Spirit, do you want to steal my woman?" Chen Xiang had already entered the bathing pool, and said while grinning. Every time he got tired from refining pills, he would come here to soak for a bit, and immediately become spirited.

In order to provoke Chen Xiang, Ji Ling'er brought Bai Youyou over. With a charming smile, she said: "You are mine, in the future, don't even think about getting ahold of her, or else I won't forgive you."

Bai Youyou had long since gotten used to this kind of playfulness. Inside the Serene Jade Ring, Long Xueyi and Su Meiyao did this frequently as well. She only smiled, then leaned on Ji Ling'er's soft chest.

Chen Xiang laid on the side of the bath, looking at the two girls on the bed. Su Meiyao gently rubbed his thick and broad back.

"You You kissed me before. She's been mine since a long time ago. Hehe." Chen Xiang giggled, making Bai Youyou glare at him.

Ji Ling'er was very surprised with this, because in the past half year, she had understood Bai Youyou, the cold beauty. Chen Xiang was most afraid of her, and she had always been looking at him with a gaze that could make Chen Xiang's greasy lips close. A hot, hot, seductive lady like Su Meiyao, acting in an emotional manner towards her due to being lonely was not really a surprise to Ji Ling'er, as he was a very outstanding man after all.

Seeing Ji Ling'er's astonished application, Chen Xiang was very pleased. Then, she grabbed onto that soft jade hand on his back and tugged with a little bit of strength, pulling Su Meiyao into the bath.

"Ahh ..." Su Meiyao let out a lovely cry as she fell into the water. She, who was originally dressed lightly, had her alluring body soaked in water, making her look extremely alluring and charming.

Ji Ling'er immediately frowned, she had a premonition that something bad was going to happen. As expected, Chen Xiang skillfully took off the thin layer on Su Meiyao's body.

Halfway through writing, Su Meiyao's proud and beautiful body emitted a hazy jade light, making her look extremely holy and holy. However, it also possessed a devilish charm and temptation, so much so that even Ji Ling'er was struck dumb by it, let alone a close-up witness like Chen Xiang.

In the past, she and Su Meiyao would be together, sleeping together, eating together, and bathing together. The two of them were very familiar with each other's bodies, but she still snorted lightly.

"Little Scoundrel, why didn't you greet him?" Su Meiyao laughed very charmingly, praising Chen Xiang. Just as she finished speaking, her charming lips were covered by Chen Xiang, and following that, the two of them started to kiss intensely. Chen Xiang's hands were greedily moving on Su Meiyao's perfect jade body.

Bai Youyou groaned. A screen on the side suddenly moved, blocking the two hungry and thirsty people inside the bath.

Ji Ling'er, who was enjoying his time, stuck out his tongue and said in a low voice: "You An, Meiyao's body right now still can't handle that little scoundrel, they won't go overboard, it will have quite a huge impact on Meiyao."

Bai Youyou seemed to have already gotten used to it and softly replied: "It's alright, they had already done this before. That little scoundrel himself is clear that they are just messing around now, in the end, they will only make themselves feel uncomfortable."

You An, were you able to use your divine power to control the movement of the screen just now? Your original strength should only be at the mid to late stage Immortal King. Ji Ling'er praised.

"Junior Sister and I both only came out after being heavily injured. It was all thanks to that little scoundrel." Bai Youyou said: "We soaked in a type of liquid and then, we developed divine soul. We also did not expect that we would have divine soul so early."

Ji Ling'er's beautiful eyes flickered, "It seems that this little scoundrel is really quite capable. There are so many benefits to following him."

"Yes." Bai Youyou nodded: "There are indeed many benefits to following him."

After the passion had passed, Chen Xiang and Su Meiyao were wrapped up in a hug and soaked in a bath. Because Su Meiyao was still injured, he was not satisfied that Chen Xiang did not cross that line.

After resting, Chen Xiang prepared to start his cultivation and take out a large box of Yuxian Dan. What was giving him a headache now was that it would take a very long time to digest these five thousand Yuxian Dan.

"I'm busy." Ji Ling'er suddenly came to Chen Xiang's side and lazily sat in front of him, looking at him.

Chen Xiang was puzzled: "You already said that you were going to be busy earlier, what help do you have? Can you help me eat Yuxian Dan s?"

Ji Ling'er pounded his chest: "I'll help you cultivate. With this many Yuxian Dan, it'll take you a long time to refine them all by yourself. If you have me to help you with your cultivation, it'll be a lot faster."

"Is that okay too?" Chen Xiang looked at Bai Youyou and Su Meiyao who were sitting on the side of the bed.

"Ling'er will not only help you refine the Yuxian Dan, she will also channel the sacred energy within her body to help you stabilize your foundation." Su Meiyao said.

"Some of the more powerful seniors often assist the younger generation in this manner. There is no need to worry." Bai Youyou helped Su Meiyao comb his hair, and it could be seen that all of them had this kind of experience.

Ji Ling'er urged: "Hurry up and start, eat dozens or even hundreds of them in one go."

Chen Xiang was a little worried. "I eat so much, what if I lose control and my stomach explodes?"

Ji Ling'er chuckled: "If it explodes, then I will help you make up for it. If you want to quickly raise your strength, then you have to take the risk, you need to know that it is very rare to have a Holy Maiden to accompany you in cultivation."

Chen Xiang clenched his teeth, grabbed a handful of Yuxian Dan and stuffed it into his mouth.

"It's not enough yet. Eat this box, you can gather a hundred pills." Ji Ling'er pressed one jade hand onto Chen Xiang's abdomen, and the other on the location of his heart, then poured a somewhat hot power into it, causing Chen Xiang's stomach to stop expanding any further.

Chen Xiang listened to her and grabbed another handful of Yuxian Dan to eat. Although the taste was good, he didn't feel like he was enjoying it at all.

"You can start circulating and refining it." Ji Ling'er said in a serious tone.

Chen Xiang circulated various cultivation techniques, and combined them together to circulate the energy, causing the medicinal energy that had exploded out to flow inside his body, expanding all of the veins in his body, making his body somewhat painful.

[Chapter 1529](#)

Chen Xiang opened his eyes and frowned as he looked at Ji Ling'er. Although it wasn't as painful as he had imagined, it still made him feel extremely uncomfortable.

"Endure it for a bit longer, and you'll be fine soon." Ji Ling'er's entire body was surrounded by a pale white mist, making her look extremely sacred. Coupled with her cold expression, she looked like a noble Holy Maiden.

At first, Chen Xiang felt that the energy that Ji Ling'er had given him was scorching hot, but now, he started to feel that it had become ice-cold. The medicinal power in his body was originally circulating extremely violently, almost bursting his meridians, but now it had slowed down and became much gentler.

Before long, Chen Xiang could sense that inside his body, there was a large amount of Ji Ling'er's power.

Ji Ling'er's Saint Force was very strong, and was able to suppress the berserk medicinal force very easily.

If it wasn't for the suppression from the outside, Chen Xiang wouldn't dare to eat so many Yuxian Dan s, and would only be able to refine a small amount of Holy Spirit Qi every second during refining. But it was different now, he had a large amount of medicinal power in his body, and during refining, he would have more medicinal power every second than before.

Ji Ling'er grew up here and absorbed the Holy Spirit's power since she was young. The Holy Spirit's power was pure in her body and she herself had great talent, so the Holy Spirit power she injected into Chen Xiang's body could be of great help to him.

"Ling'er, are you training in the Holy Bone?" Bai Youyou suddenly asked.

"Not yet. If I reach that realm, then I don't need to be looked down upon by those stubborn old fogeys from the Ji Clan." Ji Ling'er shook his head: "My bones are currently only at the Purple-Gold rank."

"This little scoundrel is pure gold, his Body of Heavenly Sage has reached large success, and then there's the platinum skeleton, and then there's the purple skeleton, and then there's the crystal skeleton above the purple skeleton, and finally there's the jade bone. The jade bone is the sacred bone."

Chen Xiang said in surprise: "I never thought there would be such a long way to go. I thought I was close to the Holy Bone."

Ji Ling'er snorted lightly: "If you get close to the Holy Bone, then even if you don't use the Holy Spirit Qi in your body, killing me with one palm isn't a problem."

She strongly pressed onto Chen Xiang's chest and lightly shouted: "Don't speak, focus on your cultivation. You still have over nine hundred Yuxian Dan left to eat."

After Chen Xiang entered his cultivation state, he sealed his five senses. At this time, Ji Ling'er was chatting with Su Meiyao and the others, so he didn't hear anything.

As long as the Heavenly Cores in his body were able to absorb enough energy, they would become a little bigger, and the quality of the Heavenly Cores would suddenly soar. In the future, the Saint Force he used would be even stronger, which meant that he had broken through.

With Ji Ling'er's help, in just ten days, he refined a hundred second stage Immortal Yuxian Dan.

"I still feel that it's not enough, take out a few Holy stone and place it around you. While you absorb the holy energy from within the Holy stone, merge it with the medicinal energy. When you refine it, you will be able to quickly refine the holy energy and pour it into the Heaven Pellet." Ji Ling'er said.

Chen Xiang shyly took out more than 100 kilograms of Holy stone. 100 kilograms was already a lot, even a Immortal-becoming realm Ranker would fuss over it.

"If my divine soul and Saint Force are strong enough, I might be able to control even more pill furnaces." Chen Xiang said: "When the time comes, the refining speed will be even faster."

Ji Ling'er's eyes lit up, "Then quickly enter the Immortal-becoming realm, at that time, the sacred and divine powers will fuse together."

had also said it before, but Chen Xiang was still a little confused. He asked: "Ling'er, you train in divine soul as well, but why are you still using Saint Force?"

"Sigh, I only refined the divine soul after the ninth cycle of the Immortal-becoming realm. If I cultivate the divine soul before the Immortal-becoming realm and transform the divine pellet from the divine pellet to the divine pellet, then the divine pellet will merge with the divine soul and it will be known as the divine power." Ji Ling'er replied: "Don't you know?"

"I don't really understand. In other words, when the time comes, God Power can be used as Saint Force, and the original God Power will also become stronger." Chen Xiang asked.

"That's right, divine power is the power of divine soul and divine power is the power of divine power that the Innate Qi transformed into after transcending worldly realm. When the two fuse together, it is sacred and powerful." Ji Ling'er said with envy, "You guys already have divine soul before you become Nine Transformation Saint, once you step into the Immortal-becoming realm, the two of you can fuse together. For people like me, I would need a period of time to raise my divine soul."

Chen Xiang said in anticipation, "At that time, can we use the God wind or something like that?"

Ji Ling'er nodded, "Furthermore, there won't be much of a commotion." What she was looking forward to was the scene of Chen Xiang controlling multiple pill furnaces in one go. Su Meiyao had told her before, that Chen Xiang could control hundreds of pill furnaces and concoct a large number of pills in a short period of time.

He just wanted to quickly enter the Immortal-becoming realm, and at that time, he would just have to return to the Nine Heaven World. He wanted to obtain the things left behind by the Devil-suppressing Heavenly Venerable, and look for traces of the Devil-suppressing Heavenly Venerable.

With the help of Ji Ling'er, the extremely strong Holy Maiden who surpassed the Immortal-becoming realm, to refine the medicine, Chen Xiang could quickly refine the Yuxian Dan, and without any problems. This way, his cultivation speed would increase a lot, no wonder Ji Ling'er said that he was confident that it could help him increase his strength.

Long Xueyi had given her a lot of Holy stone, which had helped her a lot. Right now, she was sleeping on a big bed made from Holy stone s, snoring while holding a big Sacred animal fruit in her hands. As she slept, she would occasionally take a bite.

With Chen Xiang's way of eating it, he managed to eat all five thousand Yuxian Dan in a month. However, he did not feel bad about it at all, because the Holy stone that was used to eat three thousand kilograms was like cabbages in his eyes.

"Looks good, just eat another ten thousand pills, and you will be able to enter the intermediate Immortal King Stage." Chen Xiang's face was full of smiles. He predicted that in another one to two years, he would be able to advance into the intermediate stage of the Immortal King Stage.

Ji Ling'er replied, "If it was anyone else, they would have already entered the intermediate stage of the Immortal King Stage. You even have ten thousand pills."

Chen Xiang had a lot of pills in his body, and his cultivation was five times that of other people. He said, "I might even need twenty thousand of Heaven Pellets. I have five in my body."

"So that's how it is. No wonder I keep feeling like your stomach is like a bottomless pit." Ji Ling'er exclaimed, he patted Chen Xiang's abdomen.

They had already stayed here for more than half a year. Originally, Chen Xiang wanted to take Su Meiyao and Bai Youyou out for a stroll, but he was a little worried about other things happening because he was unwilling. Although the Super Old Sacred City was very safe, Su Meiyao and Bai Youyou didn't have the slightest ability to protect themselves.

After the two girls entered the Serenity Ring, Chen Xiang and Ji Ling'er left the secret room and walked out of the house, ready to buy a large amount of Yuxian Dan medicine.

[Chapter 1530](#)

Yuxian Dan s were not rare in the Super Old Sacred City, so Chen Xiang was not afraid that he would not be able to buy it.

"Go back to that shop ... How about I buy some Third Grade Immortal Yuxian Dan? The effect should be even better. " Ji Ling'er said.

Chen Xiang shook his head: "I have just grasped a second grade Immortal Yuxian Dan and if I go to refine a third grade spirit pellet, I will definitely fail many times before succeeding. After I have refined this for a period of time and become familiar with the other second grade immortal pills, I will then be able to start refining the third grade immortal pills."

Ji Ling'er and Chen Xiang came to the pill shop last time. When the old man saw them come, he was not as enthusiastic as last time, because he had almost completed a huge business deal last time.

"You two, are you here to buy medicinal ingredients or immortal pills?" Out of politeness, the shopkeeper asked with a smile,

"Last time, I bought a thousand Yuling bamboo shoots. There were too many failures, and I could only concoct a few pills. Although it took a lot of time, it was still quite worth it." Chen Xiang laughed, hearing his words, he knew that Su Yun still wanted to buy more Yuling bamboo shoots s.

The shopkeeper sighed and said, "Why would there be a need for that? It would be better to just buy a large amount of immortal pills. It would save you a lot of trouble and allow you to breakthrough in a short period of time."

Chen Xiang smiled and said, "The road of cultivation is very normal after ten thousand years or so. I also do not need to save that bit of time."

"How much?" The shopkeeper asked, for Chen Xiang to have this kind of mentality, it was indeed not bad.

Of course, if he knew about Chen Xiang's abnormal pill refining speed, he wouldn't think this way.

"I want 4000 gold coins, the same price as last time. I don't need you to give me any extra." Chen Xiang stretched out four fingers and laughed.

The storekeeper took a light breath, "I can only release a thousand of them. A while ago, someone just happened to buy a large amount. It might take some time before the goods will be available."

Ji Ling'er who had been silent all this while suddenly asked: "Someone is sweeping the goods."

"En, we still have a lot here, but you should know that we need to leave a large portion of the storefronts, otherwise, if others come to us and we cannot afford them, it will harm our reputation." The shopkeeper explained,

Chen Xiang had run a medicine shop before, so he understood a lot about it.

"Many of the first, second, and third grade Immortal Grade in the Sacred Transformation Arena have already been bought. Don't you know about what happened a while ago?"

Ji Ling'er said as his brows knitted together, "Did something happen in the sky? Someone is actually spending so many Holy stone s to sweep away so many medicinal ingredients."

"When this happens, there will usually be powerful individuals who start their own sects. Isn't that obvious? We'll know who it is after a while."

Ji Ling'er and Chen Xiang left the shop and went to another store. In the end, they could only gather a thousand Yuling bamboo shoots.

"I'm still two thousand Yuling bamboo shoots, it's not enough." Chen Xiang sighed, if only he knew who the buyer was.

As Chen Xiang walked on the street and muttered softly, he saw that Ji Ling'er had suddenly stopped in his tracks, and looked towards the end of another street.

There was a portrait of a beauty painted on it. It was Ji Ling'er and there were a few words written on the side.

This was actually a bounty for Ji Ling'er. They said that Ji Ling'er colluded with outsiders and stole the three million jin Holy stone s from the Ji Clan's Holy stone mine, but in the end, they did not know what was going on.

Chen Xiang sent a sound transmission to her: "It seems like Ji Clan does not dare to spread the matter of the Green dragon demon-slain broadsword. Moreover, they think that I have kidnapped you.

"I can't stay here anymore. I have to find another place." Ji Ling'er pulled Chen Xiang and quickly left the place.

"Why?" Chen Xiang was a little doubtful.

"I'm afraid they have other ways of finding me." Ji Ling'er said in a serious voice: "We can't go back to that place, go to the Heaven Sacred District, it's safe there, they won't dare to casually capture me."

Ji Ling'er had told him about the Heaven Sacred District before, they were all experts who had completed the Nine Transformation Saint. As long as they did not break the rules of the Super Old Sacred City, if anyone tried to kidnap or kill someone inside, they would all be severely punished.

However, entering the Heaven Sacred District required one to pay one hundred thousand kilograms and one could stay there for a hundred years.

Through the Transmission array, Ji Ling'er and Chen Xiang arrived outside the Heaven Sacred District. This Heaven Sacred District did not have a tall and big wall surrounding them, but there was a very powerful barrier around them.

At this time, Chen Xiang was standing outside the transparent barrier, and he could feel how powerful it was. If he tried to break through, he might turn into dust, which would cause him to suddenly think that there was a large amount of energy source array bases in the Heaven Sacred District, otherwise he wouldn't be able to create such a terrifying barrier.

It was the entrance to the Heaven Sacred District. From afar, the bronze door looked very grand, there were a few old scars on it, as though it had been attacked countless times, and it was filled with an ancient aura.

The streets were spacious and clean, but it was not as lively as the other places. After all, those who could enter this place were the strongest people in the capital, and their numbers were limited.

There was a small house beside the huge bronze door. Ji Ling'er brought Chen Xiang and walked over, as she took out two hundred thousand Holy stone and shouted to a middle-aged man inside: "Give me two pass."

"A drop of blood." The middle aged man took out two bronze tablets, and threw it on the counter. Ji Ling'er cut his finger with his dagger and dripped a few drops of blood, causing the bronze tablet to glow green, and then floated towards Ji Ling'er.

Chen Xiang was completely bewildered. He didn't understand why he would do such a thing.

"Quick, drip some blood." Ji Ling'er urged.

When the big sized man saw how weak Chen Xiang was, he knew that it was his first time here. He then explained, "After you bind it with blood, this bronze tablet will be your pass, and it will be effective for 100 years. Once a 100 years has passed, the energy will disappear, and if the Law Enforcement Saint finds out that your plate is ineffective, he will chase you out."

"Also, if you die in the Heaven Sacred District, the Enforcement Hall will immediately sense you. If you are in trouble, you can also use the Bronze Plate to call for help. The Enforcement Saints near you will immediately rush over to save you."

Chen Xiang did not expect this item to be so high levelled, and quickly dripped with blood to buy it.

"The hundred thousand Holy stones are not for free. It is equivalent to paying a protection fee. However, if they are famous villains, if they are recognized inside, their fates will be the same."

Ji Ling'er thought for a while, took out another two hundred thousand kilograms of Holy stone, and said to the middle-aged man: "Buy another two, and use it to prolong your life in the future."
