

## Dan God 1531

### [Chapter 1531](#)

Ji Ling'er used up four hundred thousand kilograms of Holy stone. In the eyes of this middle-aged man, it was considered very extravagant, because normally, saints would take a hundred years to gather a hundred thousand kilograms of Holy stone, and quicker ones would take several decades.

Chen Xiang knew that Ji Ling'er had bought them for Su Meiyao. In the future, he could bring them out to shop, and he wasn't afraid of danger at all. This made him feel very grateful.

Ji Ling'er knew that Chen Xiang could earn a lot of Holy stone s in the future, which was why she was so straightforward.

In truth, the Heaven Sacred District was only the Rich District. Anyone who could enter here did not care about the hundred thousand jin Holy stone, and there was of course a small portion of people who entered in order to avoid the powerful enemies.

"Most of the things here are very expensive. Back then, I worked hard here for a long time, but I only managed to create a very small cave." Ji Ling'er brought Chen Xiang and walked towards the large mountain in the distance.

She saw Chen Xiang's strange expression and explained: "You should be able to see that there are many mountains in Heaven Sacred District, and there are also many caves there. Even if it's for us poor people, it would be very safe inside those caves, don't worry."

Chen Xiang looked at the tall and big stone buildings that rose from the ground in the middle of the Heaven Sacred District.

"That place." Chen Xiang asked.

"Don't even think about it, that place is outrageously expensive. Buying a room would cost several tens of thousands of kilograms of Holy stone. Some of the more expensive houses might not be able to buy them without hundreds of millions of kilograms of Holy stone." Ji Ling'er lamented.

Chen Xiang was a little confused: "These things are so expensive, then why would your Ji Clan be angry over those three million Holy stone? For a large clan, there is no shortage of these Holy stone."

Ji Ling'er led Chen Xiang towards the large mountain and explained: "Ji Clan can only earn a few tens of millions of kilograms of Holy stone every hundred years, and it still needs a large group of people to raise and maintain many array formations and barriers, and it itself also needs to be accessed a bit, so three hundred Holy stone s are still very important to Ji Clan. It's equivalent to him being taken away by a few million kilograms of Holy stone for a hundred years, do you think they would be in a hurry?"

Chen Xiang nodded. "So your Ji Clan can't even be considered a great clan of Tiandu after all."

Ji Ling'er sneered: "If it wasn't for the wealth of those old fellows' descendants, our Ji Clan must have an estate here. In these past few tens of thousands of years, it was those little brats who had tormented Ji Clan to such an extent, yet they were so harsh on me."

"And thanks to my own hard work, I managed to get myself ranked twelve on the Saintess' List. If Ji Clan had been willing to support me behind my back, I would not have had a problem getting in the top three." Ji Ling'er's voice was filled with resentment.

Chen Xiang laughed: "Seems like you also want to enter the Saintess' List, your father is the patriarch of the Ji Clan, why doesn't he help you?"

Ji Ling'er sighed: "Don't mention it, he's not going to speak alone. He wants all the elders to agree, but there are only a few elders on my father's side, so it's useless."

"Hmph!" She snorted unwillingly: "Originally, I was the worst amongst the group of Holy Maiden, and was even wanted by the Ji Clan. Those Holy Maiden all had the support of a large clan, and most of them are in the most luxurious area of the Heaven Sacred District, while I can only live in the cave."

"I have to see the people from the Heaven Sacred District to choose a Holy Maiden, so I don't have a chance."

Chen Xiang chuckled: "You previously said that you don't care about the Holy Maiden, so it turns out that you care a lot, but I didn't expect that you would have to use your father for the Holy Maiden selection, it wasn't really that big of a deal."

Ji Ling'er snorted: "I don't care, but I originally wanted to bring honor to the Ji Clan, who would have thought that by sticking close to a cold butt, I would be met with the supercilious looks of all the elders. More than half of their sons are doing well in the Heaven Sacred District, buying many businesses, only then are they getting these Holy stones that have secretly taken over the Ji Clan."

Now, Chen Xiang more clearly understood why Ji Ling'er had deviated from the Ji Clan. Moreover, it was a very good opportunity, and the development now was even better than what she had imagined.

Chen Xiang followed her to the stone mountain, and came to the front of a cave. She took out a jade key, and opened the cave's stone door, releasing some restrictions, and brought Chen Xiang in.

This cave dwelling was beyond Chen Xiang's expectations, better than he had imagined. In the center was an exquisite little hall, with two doors at the side. There were two stone rooms inside, one for the bedroom, and the other for the training room.

"How much did you buy here?" Chen Xiang looked at the large luminous pearl at the center of the hall and said with a smile, "Not bad."

"I bought it with eighty thousand kilograms of Holy stone." Ji Ling'er laughed and said: "If you are willing to, before long, we can buy a luxurious house in the central region."

Chen Xiang curled his lips: "Is there any use in buying those things? It's more important to raise my strength, moreover, I still have a lot of things to do in Nine Heaven World."

"It's not that much of a use, but there's a sense of superiority in that place. Think carefully, there really isn't any need for that." Ji Ling'er giggled: "If you have a large number of Holy stone, it would be more useful to buy high quality immortal pills. With absolute strength, you shouldn't be afraid of others looking down on you."

Chen Xiang bent down and laughed: "With absolute strength, you will not even be afraid of your enemies in Heaven Sacred District, and that will be very fun."

"That's asking to die."

When Su Meiyao and Bai Youyou came out of the ring, Ji Ling'er gave them the two bronze tags so that they could fuse and drip blood.

"Meiyao, you guys follow me, I will buy some pretty clothes for you guys." Ji Ling'er pulled Su Meiyao and Bai Youyou, and was about to leave the cave.

Chen Xiang anxiously shouted: "Is this really alright, I'm a bit worried."

Su Meiyao and Bai Youyou never left Chen Xiang's side, which made him extremely worried.

"Then don't concoct pills, just come with us. If something happens, just hide them." Ji Ling'er said.

Just like that, Chen Xiang followed the three girls to the Heaven Sacred District, where they rented a carriage. Chen Xiang was in charge of driving the carriage, and the three girls were chatting inside.

It had been a long time since they last went out for a stroll, and furthermore, they were in a place with a forest of experts. Su Meiyao and Bai Youyou who did not have any strength were still a little worried, but they believed in Ji Ling'er's strength.

When they came out to take a breath of fresh air, Chen Xiang was also very happy.

The horse carriage stopped outside of the city. No one was allowed to enter on this type of carriage. They could only walk or ride the required flying magical equipment.

In order to prevent trouble, Su Meiyao and the other two girls had disguised themselves to make themselves less conspicuous, while Chen Xiang, dressed as his follower, followed behind the three girls leisurely.

In order to take into account Chen Xiang's feelings, Ji Ling'er planned to first bring Chen Xiang to the medicine store to see if he could buy any Grade Two Immortal Yuling bamboo shoots.

### [Chapter 1532](#)

Chen Xiang's group had weak overall strength, but some people did not think that it was so. Everyone here had some skills, maybe it was just to disguise themselves.

The building was over sixty stories tall, but it was relatively short in this area. The entire building gave off a feeling of being made of stone, like it was made of steel. It was pitch black, not like a pill seller at all.

However, this was indeed a medicine store, and it was owned by a large family.

Coming here, Chen Xiang understood why he chose to build a Heaven Sacred District here, it was because the Holy Spirit Qi here was much denser than in other places. Cultivating here for a hundred years, it would last for hundreds to a thousand years.

In the middle of the first floor of the Myriad Treasures Store was a large pill furnace. It was placed there like a small house. There were white flames burning inside, but no one could feel the heat.

"I have someone I know here." Ji Ling'er whispered to Chen Xiang and the others, "Even if your identity is exposed, you don't have to worry."

Chen Xiang was a little worried that his possession of the Green dragon demon-slain broadsword would be exposed, hence Ji Ling'er told him this.

Here, there were many chairs. Chen Xiang, Bai Youyou and the others sat down and waited, while Ji Ling'er went to a young man in charge of sending messages.

Very quickly, a beautiful middle-aged woman came down from the stairs and brought Ji Ling'er up.

Chen Xiang and the others waited for a while, but Ji Ling'er came back soon after.

"What did you find out?" Chen Xiang whispered.

When Ji Ling'er returned, he had been frowning and knew that there would be no good news.

This is going to be difficult. The old man was right, there will be a new power rising up soon, and in order to recruit people with potential, we have gathered a large amount of medicinal ingredients, allowing a large number of Alchemist to refine them. Before long, they will be able to gather a large amount of medicinal pills, and at that time, we will be able to find a lot of seedlings with good potential. Ji Ling'er sighed.

"Then what about here? Are they for sale?" Chen Xiang was more concerned with this.

"No, all of the first, second and third grade Immortal Grade's medicinal herbs have been swept away in one go. Now, all that is stored in those stores are just stock, and if they wanted to support their reputation, they would not sell it. Unless you offered a high price, it would not be worth it." Ji Ling'er shook his head.

To be able to buy such a large amount of medicinal herbs in one go, Chen Xiang must have used a lot of Holy stone s.

"Do you know who bought it?" Su Meiyao asked, her beautiful eyes flickering with a bright light: "If we can contact them and get Little Scoundrel to help them refine the pellets, they might not even need to return the favor."

Hearing Su Meiyao's suggestion, Ji Ling'er immediately understood what she meant. She wanted Chen Xiang to refine pills, but normally, only one would be given to him.

"I know. The three Holy Maiden bought them. These three women used to be in the top three of the Holy Maiden. They were all my mortal enemies." Ji Ling'er said in displeasure.

"Their strength should be on par with yours. This way, they can start their own sect." Chen Xiang was a little surprised. According to his guess, that person should be a very strong person.

"Of course it wasn't them who established the sect, it was the person behind them. It seems to be their master. It is said that she is an extremely powerful old woman, a grandmaster who knows how to refine Saint Weapons and is extremely powerful." Ji Ling'er said again.

Chen Xiang said: "Just tell me the location, and I will go myself. They should be needing a large number of Alchemist s right now."

Chen Xiang glanced at Su Meiyao and Bai Youyou, and they both nodded, as they were willing to temporarily separate from Chen Xiang.

"Alright, I'll definitely protect them." Ji Ling'er knew the feelings between Chen Xiang and Su Meiyao, this was the first time in many years that they had separated.

After receiving the address from Ji Ling'er, Chen Xiang bid his farewell to the three women and then arranged to meet at a place.

Because they were inside the Heaven Sacred District, Chen Xiang was more at ease. Before, when he was on his way here, he had seen a few Law Enforcement Saints, and he could feel their valiant auras from afar, they were all extremely powerful, and would not hold back against people who broke the rules. If the Law Enforcement Saints could not handle this, it would be when an elder came out from the Law Enforcement Hall.

Chen Xiang walked for more than an hour before arriving at a tall stone building called the Three Sunsets Pavilion. At the moment, there were many people queuing up from the inside of the building to the outside of the street.

"They are all Alchemist."

Chen Xiang exclaimed in his heart, the strength of these Alchemist s were not weak, most of them were Saints who had completed the Nine Revolutions Saints, and the flames in their bodies were extremely strong. However, the unintentional release of the hot air from these people's bodies made the entire street feel hot.

Quite a few Alchemist s walked out of the building. They looked dejected, and just by looking at them, one could tell that they did not pass.

Chen Xiang stood at the back of the group and patiently waited, but his arrival caught the attention of many people, because the aura being released from his body was too weak. People of this level should be in the Sacred Transformation Arena, but Holy stone s that came to this place should come from some small and medium-sized forces, so no one underestimated him, they just felt that he shouldn't have come.

In this place, the difference in strength was one of the criteria for evaluating the pill refining level. There were so many Rankers who had completed their transformation into Saints that they were unable to pass, thus, in the eyes of many people, Chen Xiang was just not able to pass the Tri-Aurora Restaurant's examination.

The Three Aurora Pavilion was also selling medicinal pellets, but it suddenly stopped during this period of time. It was still buying medicinal ingredients from many large pill stores in Super Old Sacred City and was currently recruiting a large number of Alchemist s.

Previously, Ji Ling'er had told Chen Xiang that the ones in charge of managing this matter were three powerful Holy Maiden, and they had also created this Three Aurora Restaurant.

Chen Xiang waited from day to night until it was finally his turn. The recruitment examination was also held throughout the night, which showed how urgent Three Dawn Tower was.

Chen Xiang was brought to a pill refining room. During the examination, he would definitely need to concoct a batch of pills and finish it within the specified time, and then he would be able to pass.

But there was only a chair here, and a beautiful woman wearing a fiery red dress was sitting there. When she saw Chen Xiang, she slightly frowned her brows, she never thought that Alchemist, who had such strength, would also come here, but she did not say anything.

"What kind of pills are you good at?" The woman in red asked. Within her beautiful and bright eyes, two bright red flames suddenly appeared, startling Chen Xiang. The other party's flames were extremely strong, actually causing the flames in Chen Xiang's body to become restless.

Chen Xiang took a deep breath and suppressed the strong flames in his body.

### [Chapter 1533](#)

This was because all of the Alchemists in the past could not pass her test, and now, she did not underestimate Chen Xiang. This was because the majority of the Alchemists that could control such powerful flames all had Fire Souls, and had to undergo many types of tempering before being able to obtain them.

"Currently, I am only at the Second Rank of the Immortal Realm. I can be considered to be more proficient in this kind of pill." Chen Xiang suppressed the flames in his body that were about to explode, and said indifferently.

The red-clothed female nodded her head and stood up. She cleaned up everything, indicating that Chen Xiang should sit on a clean carpet in front of her.

"This is a second grade Immortal Yuling bamboo shoots. Take a look and see if you're satisfied. If you feel that it's not good, I can help you exchange." The lady in red was suddenly very curious. She wanted to know what Chen Xiang's alchemy level was and how weak his strength was, but his control over his flames was stronger than many strong warriors.

"Satisfied." Seeing that the Yuling bamboo shoots's quality was not bad, Chen Xiang nodded his head.

"Pill refining will require some time. Will this be delaying you?"

The lady in red smiled slightly: "It's alright. It's not like I'm the only one in charge of the exam. Besides, many Alchemists won't be able to pass the previous stage."

Chen Xiang sat on the soft white carpet and took out his Yanlong furnace, preparing to refine it into a Yuxian Dan.

Previously, Ji Ling'er had told him that the three Holy Daughters of the Three Aurora Pavilion were called Hong Xia, Zi Xia and Bai Xia. They were all martial sisters and their master was a very famous Ranker who was extremely rich.

As for the red-clothed female in front of him, Chen Xiang felt that she was the Holy Daughter of Red Clouds. Chen Xiang felt that the power exuding from her body was as strong as Ji Ling'er.

Red Dawn was not sitting on a chair but was walking around Chen Xiang with her beautiful eyes fixed on Chen Xiang who was seriously concocting pills. Although Chen Xiang knew about this, he was very calm.

At this moment, someone lightly knocked on the door, and Red Dawn shouted, "Come in."

The one who entered was a woman wearing a white tight suit. She was dressed very simply, as if she wanted to fight.

This woman in white looked somewhat similar to the red clouds, which made Chen Xiang think that she should be the white cloud Holy Maiden that Ji Ling'er mentioned. The three Holy Daughters of the Three Aurora Restaurant were actually three sisters.

"Third sister, what's going on here? Nothing happened for so long." The white clouds came in and saw someone was concocting pills. She asked, "What pill is he concocting?"

The red cloud pulled her to the side and whispered: "A second stage Immortal Yuxian Dan, although he is very weak, he has very good control over the flames. Even the Holy Spirit Fire in my body is unable to interfere with his flames' emotions, and this sort of thing rarely happens, he seems to be able to easily resist my interference."

"Ah!" Bai Xia exclaimed softly. "How is that possible? Your Holy Spirit Fire is so powerful, even some of the famous Dan Immortal s find it difficult to resist her, but this brat ..."

"That's right, he said that he can refine second stage Immortal stage Yuxian Dan, but his current cultivation is not high, not even Immortal-becoming realm, so I want to see, Second Sister, explain to Big Sis, don't let her think that I'm slacking off." Hong Xia said with a smile.

"He would need at least a day to refine a Yuxian Dan. Alright, now you can be openly lazy." Bai Xia wrinkled her nose and chuckled.

After Bai Xia left, the red light continued to turn around Chen Xiang. Chen Xiang had heard their conversation just now, and it looked like he was concocting pills seriously. However, he was on guard at all times, unable to hide anything from him.

"Little Naughty Dragon, wake up, what is a Holy Spirit Fire?" Chen Xiang used his divine sense to call Long Xueyi, who was sleeping soundly in the ring.

After a few consecutive rounds, Long Xueyi finally woke up in a daze. With half-opened eyes, he said: "Anyone who has this Fire Soul can use Sacred Fire, but this is only one of the special characteristics. Even more amazing is that people with this Fire Soul can use their emotions to infect the flames or Fire Soul in other people's bodies."

"What's the use of that?" Chen Xiang asked.

"It's extremely useful. It's equivalent to directly controlling the flames in another person's body, making the Fire Soul and flames in another person's body listen to their orders. Not only that, it's useful for beasts as well as naturally formed flames." Long Xueyi sobered up: "You've met a guy with this kind of Fire Soul."

"That's right. She's still around me, a woman." After Chen Xiang finished speaking, he told her in detail about Red Cloud's identity.

Long Xueyi laughed: "You better be careful, the Holy Spirit Fire's spirit is very strong, if you get targeted, it will be very troublesome."

Hearing this, Chen Xiang was a little worried in his heart: "If I were to be targeted, what kind of trouble would there be? I don't even have a Fire Soul anymore, I have already fused with the other things in my body, so I should be fine."

"This Sacred Flame has another miraculous characteristic. If you have a very strong Fire Soul, as long as the Holy Spirit Fire catches some of the soul remembrance of the Fire Soul in your body, the Holy Spirit Fire will imitate your Fire Soul. If she can record ten types of soul remembrances, she can transform into ten different types of soul pets and use different types of flames." Long Xueyi chuckled: "But this woman doesn't seem to have met with a Fire Soul that satisfied her, so now ... .."

"What will happen?" Chen Xiang anxiously asked.

"You only know a few methods to capture your soul remembrance, and this will usually make you suffer a bit." Long Xueyi said.

Chen Xiang suddenly had a worry in this regard. Right now, the red clouds was wandering around him, making him feel uneasy.

While he was deep in worry, he suddenly felt a warm jade hand on his cheek. He did not use a transformation technique to change his appearance, so his overall appearance was still pretty good.

Being touched by the red clouds, Chen Xiang felt good, but he was more worried. He opened his eyes and looked at red clouds.

Hong Xia's hand was still on his perspiring face. She didn't think that Chen Xiang wouldn't be so focused on concocting pills, she had thought that Chen Xiang would be completely unaware of his surroundings.

"Miss, what are you doing?" Chen Xiang opened her eyes wide, looking at Red Dawn's beautiful face that carried a trace of awkwardness.

"I'm... "Wiping your sweat." Hong Xia anxiously took out a silk handkerchief and blushed as she wiped the perspiration off Chen Xiang's face.

"Thank you." Chen Xiang forced a smile and said, this was the Red Holy Daughter who was ranked in the top three of the Holy Maiden Ranking, she was actually helping him wipe his sweat, but he couldn't help to feel happy in his heart. He felt that he was like a lamb who was targeted by a female wolf.

Red Cloud softly laughed, but she was a little puzzled. "Are you very hot right now? Why do you keep wiping more and more? You shouldn't be afraid of the hot stuff."

Of course Chen Xiang was not afraid of the heat, but he was afraid of her, since the difference in strength was too great, if this Hong Qi made a move on him, he could only surrender without holding back.

#### [Chapter 1534](#)

Chen Xiang looked at her while he refined the pills. He was distracted during the process of concocting pills, and was even able to keep the furnace from exploding.

"What's wrong with you?" Seeing Chen Xiang's strange expression, as though she was afraid of something, Hong Xia asked.

"This... I don't know if you are the legendary Red Sunlight Holy Maiden. " Chen Xiang asked carefully.

Red Cloud smiled sweetly. "I thought you wouldn't recognize me."

Chen Xiang forced out a smile: "I didn't know him in the first place, but just now ... When your second sister, Holy Maiden Baixia, came in, I just thought of it. I didn't expect that you two would actually come personally and do such a thing. "

"You are quite calm. Many people who see us sisters are not like you." Hong Xia seemed to understand why Chen Xiang was suddenly sweating.

"I apologize here, because I'm used to being cautious in unfamiliar situations, so I heard your conversation just now. I have also heard the rumors about the Holy Spirit Fire ..." That's why I'm worried. " Chen Xiang revealed the worry in his heart. He could tell that this Red Cloud Holy Maiden was not one of those unreasonable evil women.

Hong Xia giggled and wiped the sweat off Chen Xiang's forehead: "You were worried that I would eat you, since you have a very strange and complicated Fire Soul in your body, I do have an idea to imitate your Fire Soul."

"But if it wasn't your wish, I wouldn't have been able to do it even if I had to. If I wanted to imitate your Fire Soul, you first need to have no thoughts of resisting, and let my Fire Soul's consciousness enter your body, merge with your Fire Soul, and then have a period of fusion. This process won't be that easy." Hong Xia explained with a smile.

Chen Xiang heaved a sigh of relief and laughed: "You scared me to death, but to be able to get big sister Holy Maiden to wipe my sweat, it's worth it even if I get eaten."

Red Cloud giggled and said, "You talkative brat, refine the pills properly. If you do well, I will arrange everything for you in the future."

"Sister Hong, can you let me refine all the Grade Two Immortal Yuxian Dan?"

Chen Xiang asked, he felt that this woman was not bad, although she was a noble Holy Maiden, she did not have that kind of high and mighty attitude, instead, she was easy to approach, and was very beautiful, and very gentle to people.

"This is a little difficult. Although we are in charge of purchasing the medicinal ingredients, we are not in charge of them." Red Cloud softly sighed, "If we three sisters were really that capable, we wouldn't have come out all day to do these chores. There are still many powerful people above us, so we three sisters have to listen to them."

Chen Xiang was a little surprised. He did not think that the three Holy Maiden ranked in the top three would be as impressive as they had imagined. He felt that the reason Red Dawn was able to tell him all this was to give him some sort of signal.

This made him even more curious about the great power that was about to be established.

"If you pass, you can choose to join the big sect that we are about to set up. If you perform well, there will definitely be a lot of preferential treatment." The red clouds continued.

"I only wish to refine some pills and get some compensation. I have no intention of joining any other powers."

Chen Xiang then lowered his voice: "Sister Hong, is there any other way to help me refine a second grade Immortal Yuxian Dan? I will give you some compensation when the time comes."

Although she had the powerful Fire Soul, her Fire Soul was not suitable for refining pills. On the other hand, Chen Xiang felt that her looks were similar to Ji Ling'er in terms of earning Holy stone s.

"Interesting. Tell me, what kind of reward can you give me? Also, why are you refining a second grade Immortal Yuxian Dan?" Red Dawn squatted beside Chen Xiang and looked at him with interest.

Chen Xiang asked: "What is the standard for refining a Level 2 Immortal Yuxian Dan? What do you want in order to qualify?"

Red Cloud immediately replied: "If you want to refine one Yuling bamboo shoots, you have to produce one of high quality."

Chen Xiang laughed: "If I can refine two pills, then the rest can belong to me."

Right now, the pill furnace was already in the Core Formation stage, it was just that Chen Xiang had yet to separate the balls of air, if everything was settled, he would condense more pills, prove his strength, and then combine with the red clouds to secretly make a profit.

Hearing Chen Xiang's words, Red Cloud suddenly understood.

"You really can do it." Hong Xia asked in a low voice, "If that's the case, you can take one extra."

Chen Xiang laughed: "How can I accept it, I will give some points to you, but the condition is that you have to buy me the chance to refine a large amount of Yuxian Dan."

After saying that, the Yanlong furnace started to sway. When the red clouds saw it, their faces were filled with surprise, which meant that it had entered the Core Formation stage.

"Then you have to show me your ability." Red Cloud said,

"You'll see." Chen Xiang smiled confidently.

Using the array inside the Yanlong furnace to speed up, Chen Xiang could do it much faster than usual. Furthermore, he was very familiar with the way to refine Yuxian Dan.

He spent a total of about eight hours to do this, and it was only with his full strength that he was able to do this.

Before, she had noticed that Chen Xiang was not ordinary, especially the control over his flames.

"Done." Seeing Chen Xiang keeping the flames, Red Cloud asked in shock. Because this speed could be said to be extremely fast, and only the most outstanding Dan Immortal could achieve this.

"Open the pill furnace and take a look." Chen Xiang nodded.

Red Cloud personally opened the lid of the pill furnace and a warm breath came out. A white light accompanied by a medicinal fragrance drifted out. When she looked carefully, she thought that she had seen wrongly because there were five Yuxian Dan s in the pill furnace.

"Is this true?" Red Cloud took out the Yuxian Dan s in disbelief. Five white Dan King s laid quietly in her jade palm, emitting a gentle white light and a sense of warmth. It was obvious that they had just come out of the furnace.

"Now you should know why I wanted to refine Yuxian Dan. I originally wanted to buy the ingredients myself, but who knows when you bought them all." Chen Xiang said helplessly: "Can we work together now?"

The more powerful Dan Immortal can at most refine three of them, but you can actually refine five of them. "

Chen Xiang laughed: "The specifics are very complicated, you only need to know that I can refine five Yuxian Dan s in one go. If you help me, I can get the task of refining a large amount of Yuxian Dan s.

"I will continue with the Yuxian Dan to increase my strength, so I can't share too much with you." Chen Xiang said: "Right now, I only know how to refine Yuxian Dan."

### [Chapter 1535](#)

Only by eating a Yuxian Dan would Red Dawn be able to verify the authenticity of these Yuxian Dan. She still didn't quite believe it.

After eating, she had no choice but to believe that the Yuxian Dan that Chen Xiang refined was of good quality. He was definitely a genius in alchemy, causing her to have a yearning for talent.

"I'll try my best to help you fight for it. The speed at which you refine Yuxian Dan is that fast, so there's a high chance that I'll get my Big Sis and Second Sis to help out again." Red Dawn had given three Yuxian Dan s, Chen Xiang, and their cooperation had already started.

"You have to tell your sisters." Chen Xiang asked.

"They are my blood sisters. If there's anything good, I'll definitely think of them. Don't worry, I've been with them for a long time and we have great trust in each other. I know they won't leak this out." Red Cloud said, "You can come back tomorrow. You can go back for now."

Red Cloud gave a plate of Chen Xiang. This was the proof of passing the examination.

"Right, what's your name?" Red Cloud suddenly thought of this matter.

"Chen Xiang." Chen Xiang was not afraid to reveal his name, and the only person who knew him was probably Ji Ling'er.

"En, remember to come tomorrow. Don't forget, I will help you fight for it today." Red Cloud reminded him.

Chen Xiang nodded his head, then left the Three Aurora Pavilion with a good mood, and returned to the cave that Ji Ling'er bought outside the city.

Su Meiyao and Bai Youyou followed Ji Ling'er as they strolled around Heaven Sacred District buying a lot of things.

"Ling'er." Chen Xiang knocked on the stone door of the cave and shouted:

Ji Ling'er opened the stone door, and after seeing Chen Xiang, he asked: "How is it?"

"Let's go in first."

At this moment, Su Meiyao and Bai Youyou were arranging the beautiful clothes that they had just bought. Ji Ling'er invited him to sit down and poured some sweet spring water for them.

"The one who is in charge of interviewing me is the Saint Daughter of Red Clouds." Chen Xiang said.

"It's actually her. She's the Holy Maiden ranked third, but I heard that they're preparing to withdraw from the Holy Maiden election and focus on taking care of the sect their master created." Ji Ling'er replied: "The results are right."

"It could be said that everything went smoothly." Chen Xiang drank a mouthful of water. These were all things that Ji Ling'er and the others had just bought, it was so satisfying that Chen Xiang trembled a little: "It's just that some things that I didn't expect happened."

"The Three Suns Holy Maiden is one of the three sisters, she is not as impressive as she looks on the surface. She should only be considered as a lowly servant, slightly better than the others." Chen Xiang said: "So they do not have the authority to let me refine a large number of Yuling bamboo shoots."

"Then you cooperated with them in order to win them over." Su Meiyao could tell immediately.

"I'll cooperate with Red Dawn so I can refine five Yuxian Dan for her to see. After that, I can give one pellet to her each time, in exchange for that." Chen Xiang looked at Ji Ling'er and asked, "How are the three sisters?"

Ji Ling'er said seriously: "Their people are not bad, they helped me before, but when I killed the Holy Beasts, they insisted on having the Beast Pills and gave me that broken corpse, so in the end they had some conflicts, and when they were ranked in the top three, they even beat me up a little."

"That's good." Chen Xiang nodded.

"Apart from these, nothing else has happened. Logically speaking, it's impossible for you to talk so fast." asked. Red Cloud was a Holy Daughter, and although Chen Xiang was pretty good-looking, she was still a kid with a low cultivation.

Then, Chen Xiang told them about the Holy Spirit Fire.

"So that's how it is, red clouds can't settle your Fire Soul, no wonder she's so interested in you." Ji Ling'er laughed: "You might be in some trouble."

On the contrary, Chen Xiang didn't think so. He felt that the Red Cloud Holy Woman was very good, making him feel close to her. Furthermore, the Red Dawn Holy Maiden had said that they had to agree on something.

"Ling'er, do the three of them really have no status at all?" Chen Xiang asked curiously.

"Their strength is about the same as me, and they are only in the top three of the Holy Maiden. I've been so poor, but at most they are only a little better than me. Hearing you say this, I feel that behind them is not only a single master, but also a large group of people." Ji Ling'er snorted: "Women do not have absolute strength here, what status do they have?"

"I will be concocting pills there, you guys stay here and have fun. After I break through, I will think of a way to earn some Holy stone." Chen Xiang said: "Are there enough Holy stone s?"

"Enough, I won't cultivate for now. If I just buy some small things, I won't be able to use them all." Ji Ling'er looked at Su Meiyao and Bai Youyou: "I will bring them for a good stroll around here. Don't worry and go back to concoct pills, come back when it's about time, I'll help you cultivate."

The next day, Chen Xiang arrived early the next day. With his jade tablet, he very quickly saw the red clouds.

Red Dawn brought him to a secret room. With a face full of smiles, he could tell that everything was going smoothly on her side.

"This is seven thousand Yuling bamboo shoots, you can slowly refine it. When the time comes, don't forget about me. We three sisters had great difficulty obtaining it." Hong Xia passed a Storage bag to Chen Xiang.

Chen Xiang received it, and nodded with a smile on his face.

"Sister Hong, wasn't that sect founded by your master? You should have a lot of power." Chen Xiang asked.

"It was created by our Martial Uncle. My Master was only invited to join, and those with more authority are all my Martial Uncle's people, and my Martial Uncle's disciples, including our Senior Brothers, are all more powerful than us three sisters. Not to mention my Martial Uncle's trusted elders, we are just doing odd jobs." Hong Xia sighed helplessly and said, "Moreover, the rewards are very low as well. If necessary, they would let us marry out and form some connections with some of the big powers."

Chen Xiang said in shock: "You guys can also endure it like that, it's fine if your master wants you to marry him, but that Senior Master of yours has a shitty relationship with you guys, it's not like he's the one who raised you."

If it really happened, we would probably end up like that Ji Ling'er. However, Ji Ling'er is much better, he would have taken away at least one hundred fifty kilograms of Holy stone. "

"If I need any help later, I can provide some." Chen Xiang laughed.

"Un, you should start concocting the pills properly. I won't bother you anymore. If you need anything, just come find me. I will stay here forever." Red Cloud said,

Hong Xia thought highly of Chen Xiang, and Chen Xiang also thought highly of her. This was because she had the Holy Spirit Fire in her body, so she might be able to become a strong female Fire Emperor in the future.

Chen Xiang had opened the array formation for this secret room, and was unable to open the door from the outside. This was because he had some skills that could not be seen by others while he was refining pills.

"Seven thousand batches, looks like I'll have to use Dawan refining method, if not who knows how many years I'll have to refine it." Chen Xiang looked at the mountains of Yuling bamboo shoots. After refining, he would have more than 20,000 pills.

In a situation where he was unable to purchase a Yuling bamboo shoots, he felt that this transaction was very worthwhile.

### [Chapter 1536](#)

In order to complete the mission quickly, Chen Xiang had to use his utmost strength to release three Magic method furnace s. Adding his own Yanlong furnace s and his Seven Stars Treasure Furnace, there were five in total.

Even so, he could only refine fifteen batches a day, which meant that he had to refine a total of seven thousand batches. It would take a very long time, especially for the other Alchemist.

Chen Xiang still found it slow, but that was only for him. For the people of this Sky Capital, concocting so many furnace pills was a very normal thing to do even if they used it for a dozen or twenty years.

Now, not only did he have to control the five pill furnaces to refine pills, he also had to absorb the Holy Spirit Qi inside the Holy stone around him and then condense the creation divine liquid in his mouth.

Chen Xiang would repeat the same thing every day, but it wasn't much to him, because he was basically earning Holy stone s right now and was also raising his cultivation level. He was already very satisfied with it.

Just like this, day after day, more than a year had passed. The Yuling bamboo shoots s given by Red Cloud had all been refined into Yuxian Dan s by him, and because he had to control five pill furnaces to refine Immortal Grade Two pills at the same time, the difficulty was extremely great, and he also needed a lot of strength, so he failed for a total of dozens of batches.

However, compared to the time he had used and the number of pills he had produced, the tens of batches that had failed were not worth mentioning.

He did not come out. He opened the stone door of the secret room and could not help but sigh with emotion, he did not expect that after the time he was refining pills, such a long time had passed, and he was a little worried about Bai Youyou and Su Meiyao.

It was the first time that Chen Xiang and the girls had been separated for such a long time. He couldn't wait to confirm the two girls' safety.

Red Cloud was just like usual. She spent all day here, examining those disciples and Alchemist s who wanted to join their sect. When she saw that Chen Xiang had arrived, she let someone replace her.

"Can't you stay any longer? Come out for some fresh air." Hong Xia asked with a smile, and immediately poured Chen Xiang some good tea.

Red Clouds was still wearing her fiery red clothes as before, but now she was wearing a red suit that made it easier for her to fight. It seemed like she would occasionally use one or two moves when she was testing someone else.

"It's only been a year, what is there to stay for?" Chen Xiang laughed and took out two Storage bags, throwing them at Red Cloud.

"There were seven thousand Yuxian Dan inside and they failed for a few dozen batches, but that's for me."

After Red Cloud received it, she was stunned for a while. The seven thousand Yuling bamboo shoots, in just a year's time, had all been refined into Yuxian Dan.

"This... This is too surprising." Red Clouds took a while to react before exclaiming,

Chen Xiang laughed: "Right now, I want to eat those Yuxian Dan. After my strength increases, I can go even faster."

"Mm, you must come and find me when the time comes." She did not expect that in just over a year's time, she would obtain seven thousand Yuxian Dan and sell them for free. If she were to use her own abilities to earn a sum of Holy stone, it would probably take many years.

Chen Xiang hurriedly left the Three Aurora Restaurant and went to Ji Ling'er's cave. A year's time, for strong people like Ji Ling'er, was equivalent to a month's time, so when she saw Chen Xiang, she was not too excited. Instead, Su Meiyao threw herself into Chen Xiang's embrace and hugged him tightly.

They had left Chen Xiang for so long, and they were not used to it either. They could not help but miss Chen Xiang.

"Check and see if they're missing anything." Ji Ling'er laughed.

Chen Xiang grinned, kissed Su Meiyao on her cherry lips, and then walked into the hall.

"What are you doing these days?" Chen Xiang asked curiously, he had Ji Ling'er take out some delicious things, he had been refining pills over a year, eating some pills everyday, and he also had to condense creation divine liquid s, so his mouth was always bitter and bitter.

Bai Youyou said: "Just playing everywhere, eating everywhere, this Heaven Sacred District is truly a good place."

Chen Xiang laughed, "Are you unwilling to leave?"

"There is one thing, but we still have some important matters to attend to in Nine Heaven World, so we will definitely come back here in the future." Bai Youyou brought up the matter of the Nine Heaven World, his expression heavy.

Chen Xiang naturally knew that they were going for revenge, but it might be difficult for them because they had been unable to raise their strength for many years, but their enemies had become even more powerful.

"Don't worry, the matters of the Nine Heaven World will be resolved soon. I will become even more powerful here." Chen Xiang said firmly, then looked towards Ji Ling'er: "I already have over twenty thousand Yuxian Dan, I can now start to cultivate, I must break through this time."

Ji Ling'er nodded his head: "I will do my best to help you. After I finish consuming all these Yuxian Dan, when the time comes, I think the other pill shops will have a batch of them too, I just don't know if the Three Aurora Pavilion will send anyone to clean the shop."

They also missed Long Xueyi a lot. Because Long Xueyi was a dragon, she was also worried that she would be targeted by some strong people after he came out. That's why she didn't have any intentions of coming out to take a look.

After Ji Ling'er closed up the cave, he and Chen Xiang entered the secret training room and helped Chen Xiang cultivate.

"Ling'er, you powerful Holy Maiden, how do you usually earn Holy stone quickly?" Chen Xiang asked. He was a little curious about it, because Red Cloud seemed to be lacking a lot of Holy stone s. Just seven thousand of them was enough to make her excited.

"I've said it before, if you want to be fast, you have to kill Saint Beasts, or try to get the job of managing the mines. Otherwise, if you were to do some small things in the clan, it would be hard to get a large number of Holy stone." Ji Ling'er sighed, "Forget about us women, even if we were men, it would be the same. Unless we have a powerful father, it would be difficult for us to live a prosperous life."

"In that case, do you also rely on yourselves to obtain your cultivation resources?" Chen Xiang continued to ask.

Every once in a while, a family or sect will hold an exam, and they will be able to obtain rich amounts of cultivation resources in an excellent way. However, there's usually something fishy about this exam, and if there's no one behind you or if you're not good enough, there's a high chance that you won't have any excellent results.

Ji Ling'er placed both of his hands on Chen Xiang's chest and injected a strong and thick energy into her, suppressing the hundred of Yuxian Dan s in Chen Xiang's body to erupt at the same time.

"We all have real ability, so we can always obtain relatively rich resources during the exam, but it still can't compare to those guys with powerful backers. Because my father is the clan leader, he is being watched by many elders, and none of them dare to secretly help me, so if they find out, we'll have to follow the family rules and deal with it." Ji Ling'er's voice was filled with helplessness, "Although we have relatively strong powers, we will never receive too much attention. We just think that when you're useful, we will still pay a little bit more attention to you."

## [Chapter 1537](#)

"Is the Three Suns Holy Maiden like that as well?" Chen Xiang asked.

"Right now, it seems that they should be, otherwise they wouldn't need to be so busy. Those things were originally unsuitable for them to do, but they were forcefully given to them. If they truly have status, they should be cultivating in a very good environment right now." When Ji Ling'er thought about how these three Holy Maiden were similar to her, his heart inexplicably felt much better.

Chen Xiang could tell that Hong Xia was dissatisfied with her current situation, so he wanted to rope her in. He only had that thought, and didn't know what he should do exactly.

In just three months, Chen Xiang had completely digested all twenty thousand Yuxian Dan. This was all thanks to Ji Ling'er's help, as he constantly released his energy at all times to help him cultivate. This made Chen Xiang secretly feel grateful.

Ji Ling'er stood at the side, adjusting his breathing and recovering. However, Chen Xiang was still sitting there, compressing the energy in his dantian. The several tens of thousands of kilograms of Holy stone beside him had already turned into ordinary white stones, and all of the holy spirit energy had been absorbed by him.

When Su Meiyao and Bai Youyou came out from the ring, they saw that Chen Xiang was on the verge of a breakthrough.

Previously, when Chen Xiang ate the five thousand Yuxian Dan, he had already stepped into the intermediate stage of the Immortal King Stage. After eating all the Yuxian Dan, he had a lot of promotions, adding the large amount of Holy Spirit Qi he absorbed, he already had the conditions to break through to the late stage of the Immortal King Stage.

Chen Xiang was currently enveloped by a silver-white mist, and his body continued to emit waves after waves of extremely rich Holy Spirit Qi. Su Meiyao and Bai Youyou who were at the side had absorbed the scorching aura, and they both immediately felt a warm flow of air circulating inside their bodies, which was of great benefit to them.

"His situation is very complicated, and his cultivation is very different from normal. If it was any ordinary person, and with my help, they would have eaten so many Grade Two Immortal Yuxian Dan, he should not be far from the Immortal-becoming realm. But right now, he is only preparing to break through to the late Immortal King Stage." Ji Ling'er recovered quite a bit of his vitality as he looked at Chen Xiang with furrowed brows. Previously, Chen Xiang had told her that he had cultivated five Heaven Pellets in his body.

The spirit power that was absorbed into it had entered into the beast type Heavenly Pellets, making them even more powerful. They rolled around actively in the inner parts of the Heavenly Pellets, causing the five beast type Heavenly Pellets to look like clouds that were emitting multicolored light. When the mist merged together, it formed a silver white energy that overflowed from Chen Xiang's body.

Just as Chen Xiang was running his cultivation technique to cultivate, while carefully observing the beast-shaped Heavenly Pills, he suddenly saw a shocking scene. The five small, exquisite Beast statue opened their eyes.

This kind of eye was like a living beast's eye, it had a bit of Spirit Qi, and the eyes before was just the kind of eyes that belonged to statues. This really scared Chen Xiang, he did not expect that his five beast type Heaven Pills would actually give birth to his own Spirit Qi.

At this time, the aura around Chen Xiang's body became more and more berserk, like a ferocious beast that was surrounding him, as if it was going to grab and break him to pieces.

"What happened? It wasn't like this when I broke through." Ji Ling'er said in shock: "Could it be that he is about to enter the Immortal-becoming realm, that is impossible."

No matter how they looked at it, it did not seem to be a good thing. They clearly knew that Chen Xiang's cultivation method was indeed different from that of an ordinary person, and they had no idea what would happen if they were to continue walking forward. There were simply no instances that could be used as reference.

"He's absorbing a huge amount of Holy Spirit Qi." Ji Ling'er sensed that the Holy Spirit Qi in his surroundings had become extremely thin, and a large amount of it was sucked out by Chen Xiang in an instant.

Seeing that, Ji Ling'er anxiously took out many Holy stones and stacked them beside Chen Xiang.

Not long after the Holy stone was taken out, five illusions appeared on Chen Xiang's body. Azure Dragon, White Tiger, Vermillion Bird, Black Tortoise and a gigantic beast covered in red scales. These illusions released five different colored light.

"What on earth is in his body?" When Ji Ling'er saw the five Divine Martial Holy Beasts appearing from Chen Xiang's body, he could not help but shout out in alarm. The Spirit Qi inside the Holy stone was dissipating extremely quickly.

Bai Youyou frowned: "Originally that should be an elephant, but now it seems to be evolving ... "Don't tell me he's going to turn into a Qilin?"

Su Meiyao nodded his head: "That's right, it looks like a Qilin. Over the years, he has mainly focused on fire, and never would have thought that he would turn the divine elephant that is guarding the great earth into a Fire unicorn."

Chen Xiang was also very shocked by the quick change in his body. This change happened all of a sudden, and in the beginning, it was still the beast type Heaven Pills that opened their eyes, but in the end they left his body and ran out. He was completely unable to guess what would happen next.

What made him at ease was that his current situation was quite stable, and the rate at which he absorbed the Holy Spirit Qi had become extremely fast. As long as he continued to operate multiple divine arts, this situation would continue.

Seeing that Chen Xiang had gradually stabilized himself, Ji Ling'er heaved a sigh of relief and said: "Looks like he has really triggered an opportunity. The reason he could directly enter the Immortal-becoming realm might be due to the Holy Spirit Qi that he had converted in his body before.

"Ling'er, don't worry. He'll return those Holy stones to you in the future. Right now, take them out and let him get past this first." Su Meiyao said.

"Do I look like such a petty person?" Ji Ling'er giggled. In this past year, her relationship with Su Meiyao had become very good.

"It seems he still needs a long time to train." Bai Youyou said: "Ling'er, you must continue to suffer."

The secret room was not very big, but Chen Xiang needed a lot of Holy stone. Ji Ling'er was responsible for providing the Holy stone to Chen Xiang to absorb, so she took out a huge pile of Holy stone and arranged the Holy stone neatly in a few circles around Chen Xiang.

At this time, Chen Xiang had already completely lost contact with the outside world. He realized that the Divine Sense Sea had already lost control of himself and was rolling around non-stop, while his dantian that was covered by the grayish-black mist seemed to be slowly entering the Divine Sense Sea's body.

Seeing such a thing happening, Chen Xiang was wild with joy, because this was the sign of the fusion of the Holy Spirit and Divine Spirit Realm. He did not expect himself to enter this stage before advancing into the late stage of the Immortal King Realm.

"Looks like I'll have to move my dantian into the Divine Sense Sea from now on, but I'll have to continue cultivating my body. My divine soul and body are both equally strong." Chen Xiang thought:

### [Chapter 1538](#)

The Divine Sense Sea could be said to be an unreal existence, and was only closely related to the brain. However, it was not in the brain, Long Xueyi had said before that the Divine Sense Sea was inside the divine soul, but the divine soul was actually inside the Divine Sense Sea, and Chen Xiang was confused by what he heard. In the end, he understood himself that the Divine Sense Sea was just a divine soul, and the divine soul was the same as the soul, which could not be seen with the naked eye, just like a light wisp of smoke.

But now, Chen Xiang had actually managed to cultivate a divine soul inside his soul, and then a Divine Sense Sea, which made him feel that it was unimaginable that when he entered the Ninth Cycle of the Sacred Transformation, everything in his dantian would actually need to be integrated into the Divine Sense Sea. This meant that he wouldn't have a dantian in the future, and his Fire Soul and Thunder soul would all be merged with his divine soul.

Moreover, there might only be Jade Dragon Bloods and Bone souls in his body, things that belonged to his body in the first place.

Chen Xiang really wanted to ask Long Xueyi, but he couldn't control his own thoughts. However, he knew that Long Xueyi must be clear about his current situation.

At this moment, it was as if he was floating in an ethereal void, and he could occasionally see the Beast statue of those gigantic martial spirits. Those five giant beasts seemed to be right in front of him, guarding this place.

Not knowing how much time had passed, Chen Xiang realized that his dantian had already completely disappeared. However, his strength had not weakened, but it had become even stronger.

He anxiously looked inside the Divine Sense Sea, and suddenly discovered that there were five Beast statue inside his Divine Sense Sea. The four sides were the Azure Dragon, White Tiger, Vermillion Bird, and Black Tortoise, and the one in the middle was no longer a Giant Elephant, but a Mighty Martial Qilin with golden flames spewing out of its body.

His divine soul floated above the center of the sky, and was the same size as him.

"These are Heaven Pills, right? They have become a little larger." Chen Xiang was pleasantly surprised. His large dantian had already perfectly fused with the Divine Sense Sea, but the Five Heavenly Pellet Beasts were still too young. Compared to his divine soul, they were just like kittens.

He observed the five Heavenly Pill Beasts carefully and found that there was a light pattern revolving on their bodies, just like butterflies, circling around the beast type Heavenly Pill.

"This should be the Sage Transformation Spirit grain that only exists in the Immortal-becoming realm." Chen Xiang couldn't help but ask.

"You are now at the First Cycle of the Sacred Transformation Realm, with only one circle of the Sacred Transformation Realm Spirit grain. These Spirit grain are constantly revolving around your Heaven and Earth Pellet, absorbing the energy of the outside world, and then raising the Heaven Pellet's internal energy." Long Xueyi said: "Congratulations, you've entered the Immortal-becoming realm."

Chen Xiang opened his eyes and saw that the surroundings were filled with white bricks. He took a deep breath and exclaimed: "All these were originally Holy stones, and were all absorbed by me."

At this time, Ji Ling'er pushed himself against a wall made of white bricks and looked at Chen Xiang resentfully. "That's right, do you know how many years you have cultivated and how many Holy stones you have consumed?"

This greatly startled Chen Xiang, and he anxiously asked: "How long have I trained, why do I feel that it is only for a few years?"

"Not too long ago, it was just over two hundred years ago." Su Meiyao walked in and chuckled. She was very happy to see Chen Xiang becoming a Holy Emperor.

Chen Xiang pulled Su Meiyao into his embrace, and gently caressed her back. "Is this for real?"

This was the longest time Chen Xiang had been in closed door cultivation.

Su Meiyao hugged him tightly, and laughed softly: "You have used up all of the Holy stone Ling'er brought from Ji Clan, so that we could continue to stay here, Ling'er even sold some of her valuable things in exchange for the Bronze Jade Plate."

"Thank you, Little Ling'er. I'll definitely return it to you." Chen Xiang smiled to Ji Ling'er, his heart full of gratitude towards her.

Ji Ling'er laughed: "Your sister Meiyao has already said it. If you don't return it to me, you must pawn her and You You You to me."

"We are risking our lives to be female slaves." Bai Youyou said.

Chen Xiang chuckled: "Sister You You You, who would dare to accept you as a female slave? That would be too dangerous, don't worry, I will be able to pay off my debt soon."

Ji Ling'er wasn't too worried. She and Chen Xiang had interacted with each other for so long, they both trusted each other greatly.

"I'll go look for Red Cloud. She has a Three Sunset Pavilion. With her help, I'll be able to find something to do soon." This was one of the reasons why he had to build a good relationship with Red Cloud before this.

Speaking of red clouds, Su Meiyao and the other two girls couldn't help but sigh.

Chen Xiang had been in closed door cultivation for more than two hundred years, so what could happen outside. He anxiously asked: "What happened to Red Cloud?"

Ji Ling'er sighed: "Even the Purple Clouds have died. Rumor has it that they were killed by her fellow sect members, right outside Heaven Sacred District."

"What's going on? Can we still find her?" Chen Xiang asked anxiously. She was a good person, but seeing something like this, Chen Xiang felt that it was not surprising at all. After all, she had lost two of her sisters who had been together with her for thousands of years.

"She's still inside. If she leaves, she'll become very dangerous." Ji Ling'er said: "I wonder what the three sisters did to infuriate an elder of the Super Holy School."

"Super Holy School is the faction that just appeared right?" Chen Xiang asked with furrowed brows: "When did Red Cloud's two elder sisters die?"

"A hundred years ago." Ji Ling'er said, "At that time, they were already Super Holy School's elders and their master's position in the Super Holy School was not low either. No one expected such a thing to happen."

Chen Xiang frowned and thought: "I'm going to look for her, something must have happened."

Ji Ling'er stuck out his tongue: "I already knew, you planned to pull her over with us."

"You are both women, can't you help each other out? Red Cloud is not simple, the Holy Spirit Fire in her body is very powerful, I think it is also because of this reason that she is able to return to Heaven Sacred District alive." Chen Xiang said.

"Alright, since there is no blood feud between her and I, I am very willing to help her. They have once helped me as well." Ji Ling'er sighed, "I'll bring you to look for her. She should be thinking about how to take revenge now."

When Su Meiyao and Bai Youyou entered the ring, they also wanted to start cultivating, mainly to cultivate their divine soul, and then use the Holy Spirit Rabbit's blood to improve their flesh. Once Chen Xiang was able to get a Holy Pellet to help them recover their strength, they might very well step into the Sacred Transformation Realm.

Chen Xiang hurriedly took a bath and followed Ji Ling'er out of the cave. Right now, the Red Cloud also lived in these remote mountains, after all, she no longer had a backer, and since there was a grudge between the Super Holy School and herself, they must secretly obstruct her, making it difficult for her to stay in the middle of the Heaven Sacred District.

[Chapter 1539](#)

Chen Xiang had originally planned to build a close relationship with a few people who were worthy of him knowing, because he would be coming back to this place in the future. At that time, he would also have someone to take care of them, and his best candidates would be Ji Ling'er and the Three Suns Holy Maiden.

"Ling'er, when you see her in a bit, be a bit more polite." Chen Xiang reminded her:

"I know, I'm not the type of person who likes to hold a grudge, but you have to think carefully, if you have a relationship with her, and the Super Holy School finds out, it's not a joke. Although this power was just established a short time ago, it's still very powerful, I don't know what methods they used to recruit many powerful families." Ji Ling'er said in a low voice: "My Ji Clan has also joined the Super Holy School."

Chen Xiang felt that this was not a good thing, "If the Super Holy School had the power to shake the Heaven Sacred District, what would happen?"

"At that time, they will be able to do whatever they want to steal the holy treasures that are hidden under the Heaven Sacred District." Ji Ling'er thought about this, and his heart jumped.

"There are treasures under Heaven Sacred District." Chen Xiang's eyes lit up, the Heaven Sacred District's Holy Spirit Qi was so dense, it made him feel that there was a dragon vein, a dragon vein condensed from Holy stone.

thought that it would be difficult for the Super Holy School to succeed. Even if he had that kind of thought, it wouldn't be achieved in a short period of time.

Ji Ling'er looked at the stone door of a cave with great effort. After knocking on it with a "bang" sound, it created quite a big commotion and she had already brought Chen Xiang to Red Dawn's cave.

The stone door of the cave opened. The red clouds were wearing a simple red dress, and it no longer had its threatening aura. However, she was still very beautiful.

Hong Xia didn't recognize Ji Ling'er, but she did. Earlier, she had been waiting for Chen Xiang to come find her, but so many years had passed and she still hadn't come.

Now that Chen Xiang had appeared in front of her, she was extremely surprised and quickly welcomed him.

Red light invited Chen Xiang and the Terminator Spirit to sit. She smiled lightly: "I don't have any more luxurious places to entertain you. I hope you don't mind."

Since Chen Xiang was able to find this place, it meant that Chen Xiang already knew about her situation. She was very touched that Chen Xiang was able to come here, because she was now an enemy of the Super Holy School.

"Of course I don't mind. Your place is much better than mine." Ji Ling'er bit a fruit and looked at the beautifully decorated little hall. It was indeed much better than where Ji Ling'er was at.

Hearing Ji Ling'er's voice, Hong Xia immediately frowned, she hesitated and asked: "You are Ji Ling'er."

"That's right, I didn't think you would still remember my voice." Ji Ling'er chuckled, she took off her makeup and revealed her extremely beautiful face.

Seeing the friendly and gentle smile on Ji Ling'er's face, Red Cloud sighed: "Of course I remember, you two were actually together."

The red clouds stared at Ji Ling'er and smiled back. At this time, their past contradictions had already been resolved, and it was not like there was any blood feud between them, it was just a small conflict between women.

Chen Xiang said: "All these years, I was cultivating in seclusion, she was the one assisting me. I know a bit about the past, and that's not a big deal."

Hong Xia naturally knew that Ji Ling'er had always been wanted by the Ji Clan. What made her more suspicious was that after more than two hundred years had passed, the Ji Clan still had not let her go.

"Are you two together very early?" Red Cloud asked.

"To tell you the truth, it was only with his help that I managed to successfully obtain the three million jin Holy stones from the Ji Clan. However, he had cultivated for more than two hundred years and had exhausted most of those Holy stones."

Ji Ling'er saw Hong Xia's strange expression and immediately explained: "I'm only friends with him, not that kind of relationship. Don't misunderstand."

After Red Cloud heard this, she chuckled and said, "I don't have that kind of relationship with him, so you don't need to explain."

Chen Xiang coughed dryly a few times. "Let's get down to business. What we lack the most right now are Holy stones. The fastest way to earn Holy stones is to buy a large amount of medicinal ingredients for concocting pills, and then I'll quickly refine them to sell."

Ji Ling'er looked at Red Cloud and asked: "Red Cloud, how many connections do you have right now? There are no longer any large powers going around looking for goods, so we can use a relatively low price to purchase a large amount of medicinal ingredients."

Chen Xiang shook his head: "I don't plan on refining a second stage Immortal Yuxian Dan, the profit from that is too little, and how much are the two types of pills?"

Hong Xia said: "Although I am wanted by the Super Holy School, but if I am going to buy a large amount of medicinal ingredients, many medicinal pill shops would still give me some face. The medicinal pill shops of the big sects and big clans don't need to worry about how the Super Holy School feels."

"A Grade Three Immortal Yuxian Dan is one hundred Jin one pellet, which is ten times more expensive than a Grade Two Immortal Yuxian Dan. A Biyuan Dan is a healing pellet unique to a Grade Three Immortal Grade. Although the demand is not too big, many people would buy it for defense, and the price would be two hundred Jin one pellet."

"Because these are all Immortal Grade Three, they are not as easy to cultivate as Immortal Grade Two. Therefore, the price of medicinal ingredients is rather high and the quantity is not that high."

Ji Ling'er asked: "Chen Xiang, you can now concoct Tier 3 Immortal pills."

Chen Xiang smiled lightly: Let alone third stage, fourth stage is possible, but before that, I have to refine some second stage Immortal Tianlong Dan that I am familiar with, can you help me buy them?

"Red clouds... How many Holy stone on your body, all of my Holy stone have been used for this brat's cultivation?" Ji Ling'er said in embarrassment.

"I still have 800,000 pounds. It should be enough for us to use for transportation." Chen Xiang said. Long Xueyi had not eaten anything good for many years, and although she did not make any noise, Chen Xiang felt a little apologetic in his heart. Hence, he decided to properly make up for it.

Hong Xia came to Ji Ling'er's side and said with a smile: "I still have over a million kilograms of Holy stone, that should be enough. Let's first earn a few more Holy stone s and get everyone to buy some high level pellets to increase their strength.

It had been more than two hundred years since her two sisters had been killed, and she had already recovered from her grief. That was why she looked so cheerful right now.

"Sister Hong, can I ask you something about your two sisters?" Ji Ling'er said in a low voice: "If the time comes, I can help. After all, the Purple Clouds have helped me before."

Hong Xia sighed, "Thank you very much, but I would like to do this myself ... They were killed by one of my senior brothers, who is also the eldest disciple of my uncle. "

Chen Xiang said: "I heard that your master also took action at that time, why is that?"

#### [Chapter 1540](#)

"That's right. Right now, many people are guessing whether we have some important information or know some secrets that we shouldn't know. That's why we were killed." Red clouds hung her head, her expression was full of helplessness, "This is not the reason."

Chen Xiang saw through something and asked, "It's because of your Holy Spirit Fire."

Ji Ling'er was startled, she had indeed not thought about it, because Holy Spirit Fire were nothing in her eyes, but now that she saw the red clouds, she knew that Chen Xiang had said it carefully.

"That's right, because my senior master wanted my Holy Spirit Fire, he arranged for us three sisters and that senior apprentice brother to go out and do things, and only when we leave Heaven Sacred District would they dare to take action. At that time, we did not know, but after following the senior apprentice brother to their ambush point, they caught us and forced us to hand over the Holy Spirit Fire."

Seeing Red Cloud's sorrowful face, Ji Ling'er walked over and hugged her to comfort her.

"Just as I agreed, Big Sis and Second Sis resisted, and the Big Senior fought with them. In the end, in order for me to escape, all of them ... "He self-detonated." At this point, tears were already streaming down Red Cloud's face.

Previously, Chen Xiang knew how powerful the Holy Spirit Fire was, he didn't think that he would be targeted so quickly.

"At that time, your master was there as well." Chen Xiang asked.

"She is no longer my master. I no longer have a master like her. She betrayed us three sisters for the sake of a sacred pill." Red Cloud's face was full of anger and hatred. She clenched her jade-like fists and gnashed her teeth, "One day, I will make them wish they were dead."

"This sort of thing can't be rushed. Take your time and prepare." Chen Xiang said: "You have the Holy Spirit Fire, if you use it well, it will allow you to obtain a very strong power."

Ji Ling'er asked curiously: "Why does your Senior Master want your Holy Spirit Fire? I know that the Holy Spirit Fire are strong, but how strong are they?"

"Although Holy Spirit Fire s can't refine pills, they can be used to control strong flames. They can easily control a large amount of natural sacred fire and cultivate in the body, and can also easily fuse a large amount of Fire Soul s to make themselves stronger."

Ji Ling'er immediately understood. "If he can obtain it, then his strength will definitely be many times stronger than normal. When that time comes, the several super powers in the Heaven Sacred District will not be able to restrain him, and it will be a disaster for the Heaven Sacred District."

What Chen Xiang was more worried about was that Ji Clan would tell Super Holy School about him possessing the Green dragon demon-slain broadsword. Ji Clan was now a subsidiary power of the Super Holy School.

"Big Sister Hong, you should sell this cave and move to my place." Ji Ling'er wiped away the remaining tears on her face with his thumb.

"Yes, Ling'er." Hong Xia and Ji Ling'er hugged each other tightly, their feelings for each other becoming extremely deep.

After that, Chen Xiang returned to Ji Ling'er's cave alone. After changing their appearances, Hong Xia and Ji Ling'er went to handle the matter of refining pills.

Chen Xiang himself was in the secret room, forcing out a large jar of creation divine liquid s from his body. These creation divine liquid s were condensed while he was cultivating in his sleep, and because there were too many of them, he swallowed them.

"I didn't expect that to be so much." Chen Xiang was very excited as he took out the Holy level s. They were the Jade Dragon Flower, the Holy Lotus Seed, the Blood ginseng, and the Tianshan holy fruit.

Even if there was only one type of medicinal herb, it would still be able to concoct a sacred pill, let alone four.

Chen Xiang could not imagine how powerful the Sacred Dan Meeting that was made of these four medicinal herbs was.

"Four copies." Chen Xiang had this plan. If he could find a Pill Saint, he would entrust him with the task of refining the Holy Pellet and give him four sets of ingredients. As long as he could concoct three Holy Pellets, the remaining Holy level ingredients would be his reward.

There was definitely a pill saint in Tiandu. Hong Xia had said before that her animal master sold them out for a holy pill.

"Sister Meiyao and Sister You You You will recover soon." Chen Xiang suddenly became excited. He felt that the moment was getting closer and closer.

He used them to make a few Immortal Grade Four Sacred animal fruits, and then threw them over to Long Xueyi to temporarily satisfy her craving. As long as he worked hard in the future, he did not lack any, and in Super Old Sacred City, he could easily buy them.

Red Cloud and Ji Ling'er returned. They went to buy Tianlong Dan's medicine, and also went to sell Red Dawn's cave.

"Only over a hundred Heavenly Dragon Grass. There are five hundred Grade Two Immortal Realm Sacred animal fruits. It should be enough for you to practice, right?" Ji Ling'er laughed tenderly: "I didn't spend much on the Holy stone, buying medicinal ingredients is indeed the most worthwhile."

Hong Xia nodded her head: "Yes, I bought a thousand sets of Third Grade Immortal Grade Yuxian Dan and one thousand sets of Biyuan Dan. In total, I only bought sixty thousand Holy stones."

Chen Xiang took the Storage bag they passed to him and asked: "What about the Immortal Fourth Pin?"

"There are no Grade Four Immortal Yuxian Dan, only other types of immortal pills, but most of them require two types of immortal pills as the main ingredient. The price is quite high and there aren't many of them, you have not been able to refine them yet, and it will definitely be very difficult." Hong Xia said: "Now that you have refined the Yuxian Dan of the Third Grade Immortal, after I sell it, I can make a name for myself. It will be much easier to buy those of the Fourth Grade Immortal."

"En, let's talk about Tier 4 immortal pills later. Come over and sit down."

Seeing that the two girls were confused, Chen Xiang laughed: "I want to pass on my techniques to you, it might be of some help to you two."

Hearing that Chen Xiang wanted to pass the cultivation technique, Ji Ling'er immediately skipped over to Chen Xiang's side and sat down. She had been thinking about Chen Xiang's change in technique for a long time, she had already fulfilled her promise and helped Chen Xiang increase his strength, and stepped into the Immortal-becoming realm.

After Ji Ling'er sat down, he placed one hand on her forehead, and then, using the secret technique that Long Xueyi had taught him, he passed down the change in technique that he was familiar with to Ji Ling'er.

Very quickly, the image of the transformation appeared in Ji Ling'er's mind, making her jump into Chen Xiang's embrace in excitement, and she kissed Chen Xiang's lips.

"Sister Hong, it's your turn." Chen Xiang touched his lips, licked his lips and laughed.

Ji Ling'er hurriedly ran towards the secret room without even greeting Chen Xiang. Chen Xiang and Red Cloud knew that she was going to train.

Hong Xia didn't know what kind of contribution Chen Xiang was going to teach her, but she still sat down. Even if she didn't learn, it wouldn't harm her at all.

Chen Xiang had passed on the Fire Divine Palace's Fire god method to her. This was a godly skill that the Fire Emperor was known for being a hero in the past, and it was said that the Nine Heaven World did not have it in the first place.

After obtaining the Fire god method, Red Dawn immediately stood there in a daze, trying to comprehend the cryptic chants written above. Just by skimming through, she was able to tell that the Fire god method was extremely powerful.

"This is not my main cultivation technique, but it is very useful to me. I hope you can expand it." Chen Xiang said.
