

## Dan God 1541

### [Chapter 1541](#)

Red Cloud was so excited that she took a deep breath and said, "Thank you. I won't let you down."

This cave was a little small, and Red Dawn was sharing a room with Ji Ling'er. On one hand, it could improve their relationship, on the other hand, it could exchange cultivation experiences.

On the other hand, Chen Xiang was concocting pills in a secret room.

"I wonder how Nine Heaven World is doing. I really want to go back quickly, but if I go back like this, I would be very regretful." Before Chen Xiang left, he planned to buy a large amount of high level medicine to get a large amount of Holy stone and smithing materials before going back.

The next step was to refine the Sacred animal Dan and the Tianlong Dan. There was no difficulty in refining the Sacred animal Dan, he only needed to refine a few batches to master it.

"This Heavenly Dragon Grass looks like cotton, but why is it so hard to burn?"

Chen Xiang felt a headache coming. The Sky Dragon Grass that was like a cotton ball, every time it used a strong flame to burn it, a bit of its heat would be dissolved. When it dissolved the heat, it used the Sky Dragon Grass's energy, and when that energy was used up, the Sky Dragon Grass would be destroyed as well.

If one wanted to refine the Sky Dragon Grass, one must use a very suitable flame, undergo thousands and thousands of adjustments in a short period of time, and finally know the most suitable temperature for the fire. Every Sky Dragon Grass was different, so every time before refining, one had to carry out this adjustment.

Of course, this was something that he needed to do when using the Foreseeing Alchemy. Chen Xiang had tried it before, but his Foreseeing Alchemy was still stuck at the Ground level Pill stage, so he failed right from the start.

"You have to ingest it in the shortest amount of time, or else you won't be able to tame this Heavenly Dragon Grass." Su Meiyao said: "If you use the God purification, then I'm afraid you won't have much time to do it. At least before the Heavenly Dragon Grass releases its heat of energy."

Chen Xiang held the soft and white cotton ball. This was Sky Dragon Grass, no matter how you looked at it, it did not seem to be something related to dragons.

"That time is too short. It should only be for ten breaths of time. It seems that I will have to use my strongest divine power and flames to defeat it in that instant. This is my full power attack!"

Chen Xiang patted the Yanlong furnace: "I don't know if this cauldron can withstand it, but if I make a mistake, it would be equivalent to attacking this cauldron."

Now that Chen Xiang's Saint Force had already fused with the God Power, the God Power he used to refine the pellet was even more powerful.

After throwing the Heavenly Dragon Grass into the pill furnace, he immediately concentrated on circulating his divine power. The divine power formed into two types, one was the sacred fire, and the other was a spiritual attack.

BOOM \*

The pill furnace fiercely jumped up, causing a very strong explosion from inside it, causing Chen Xiang to jump in fright.

"What's going on?" Ji Ling'er who was in the midst of learning the Arts of Change rushed over and knocked on the stone door and asked loudly.

"It's nothing. There was a mistake during the process." Chen Xiang shouted, "You guys continue, it's alright."

After breaking through, it was his first time controlling so much God Power. Because he did not control it well, he made a mistake and did not focus his attacks on the Sky Dragon Grass, instead, he focused on hitting the walls of the pill furnace. The Sky Dragon Grass had also disappeared.

"Motherf\*cker, my divine power right now is too terrifying." Chen Xiang exclaimed in shock, "It was only a change of a Saint, but it already possessed such power. Fortunately, the pill furnace was tough enough, otherwise the entire cave mansion would have been destroyed by me."

"You have never fought in actual combat, so you definitely don't know how terrifying your divine power is. If you were to transform into a God wind, even those who have gone through the Third Cycle of the Sacred Transformation would have to kneel down." Long Xueyi laughed tenderly: "It is only in this higher realm that you can break through so quickly. If you were in the Nine Heaven World, it would take even longer."

This time, Chen Xiang controlled his strength well and weakened it by a lot. He gathered it together and then carefully released the Sacred Flame to burn it.

gathered the invisible powers together and attacked the Sky Dragon Grass. At this moment, the Sky Dragon Grass was already being burned by the blazing sun, and under the bombardment of the God Power, it actually dissolved in an instant, separating into a medicinal powder and a Medicine aura.

"This is way too fast."

Chen Xiang did not expect that in just a few moments, he would have refined the Sky Dragon Grass, and following that, it had already congealed into a pellet. Because it was given to Long Xueyi to eat, Chen Xiang did not divide it into many pellets, but instead directly fused them together to create a pellet of extremely high quality Tianlong Dan.

This Tianlong Dan was a little large, and the other pills were all about the size of a peanut, but the one in Chen Xiang's hand right now was like a pigeon's egg. There were a few lines on it, and the patterns looked like dragons baring their fangs and brandishing their claws.

"Let's give it a try." Chen Xiang placed it into the ring, and laughed: "If it's not delicious, I will not refine it, I will just refine the Sacred animal Dan."

Long Xueyi gasped in admiration and quickly said: "The taste is pretty good, finish refining the remaining Sky Dragon Grass, and then leave some to the Flower Emperor to make a bunch of copies."

Chen Xiang had stayed here for more than two hundred years, and the pace of Nine Heaven World was very fast as well. He did not know what sort of changes would occur after he returned, but he was certain that the Flower Emperor and the others would definitely become stronger. This was because they had come to the Sacred Region before and knew how weak they were.

Because of how special this Heavenly Dragon Grass was, when Chen Xiang used the God purification to refine it, his speed was extremely fast. At the moment, he was even trying to use a Magic method furnace to refine it, but he was unexpectedly still able to succeed. In order to make use of his own strength when refining the pill, he released even more Magic method furnace.

In just a few days of time, he had already refined over a hundred Tianlong Dan, and what followed after was the Sacred animal Dan that he was extremely familiar with, although there were five hundred Sacred animal fruit, but when he released twenty to thirty of them to be refined at the same time, it would be completed in a short period of time.

Chen Xiang was concocting pills in the secret room, and it was isolated from the outside world. Long Xueyi had something to eat and did not sleep, so he would occasionally check on the situation outside.

When Chen Xiang was about to finish refining the Sacred animal Dan, she shouted, "A few people have entered this cave, they do not seem to be friendly, quickly go out and take a look, Super Holy School might have discovered Red Cloud and Ling'er."

Chen Xiang immediately gave up on the twenty batches of pills he was concocting and walked out of the secret room. There, he saw two familiar looking old men and an extremely dazzling young man.

When Red Cloud and Ji Ling'er saw them, it was as if they were facing a great enemy. Their faces were full of caution and anger, and with a single glance, they could tell that they were enemies.

"Aren't those two the elders from Ji Clan? Could that young man be Red Cloud's big senior brother?" Seeing him appear, the two elders were immediately overjoyed.

"This kid is really with you. Haha, I finally found him." A Ji Clan Elder laughed crazily.

Chen Xiang took out a bronze tablet, and said: "You guys seem to have barged in, if you don't leave now, I will call you Law Enforcement Saint."

### [Chapter 1542](#)

Hearing the words Law Enforcement Saint, the expressions of the three people of Super Holy School slightly changed. Even though they were relatively strong, they were very afraid of Law Enforcement Sacred Masters, but when Chen Xiang saw that they did not seem to be very afraid, he immediately became nervous.

"Do you want to fight here?" Ji Ling'er said coldly: "This is the Heaven Sacred District, you had best think about the consequences of being caught by a Law Enforcement Saint."

There were three people who had come. One of them was an elder from the Ji Clan, the other was the Big Senior who used to be Red Dawn, and the other was an old man. The three of them were all very powerful, so Chen Xiang did not think that Ji Ling'er and Red Dawn were their opponents.

"Get the hell out of my cave abode." Ji Ling'er frowned, she was also prepared to call the Law Enforcement Saint over. The reason they spent so many Holy stones to buy that bronze tablet was so that they wouldn't be harassed inside.

"Hmph, just you wait." The eldest senior brother thought for a moment. They were also afraid of provoking that Law Enforcement Saint.

Just as the three of them turned and walked out of the cave, Chen Xiang hurried to catch up.

Sensing that Chen Xiang was coming closer, the three of them turned around fiercely. They felt a gust of air coming towards them, enveloping them within. This stream of air did not have any offensive power, so the three of them were not too worried, but they wanted to disperse it.

"Ling'er, close the door." Chen Xiang suddenly sent a sound transmission to Ji Ling'er, then laughed coldly towards the three of them. He used his divine power to control the air current and sent it into the three people's nostrils.

The three of them were all powerful Heaven Realm beings, and they had already been on guard. The Drunk god magical poison that Chen Xiang had just released did not all enter into their bodies, but rather, some of it was absorbed by them, while the majority of it was dispersed by them.

When she was guarding the mines previously, she knew that Chen Xiang had used a strong poison to deal with the fifteen people. She immediately closed the stone door, not allowing the three people to run out.

"Are you all courting death?" The elder from the Ji Clan sneered, he had already struck out with his palm towards Chen Xiang.

At the same time, he released an extremely terrifying heat wave, which seeped into the elder's arm. The elder's sleeves suddenly turned into ashes, and his arms turned completely red, the heat wave continuously emitted from his body. The elder's face flushed red, he did not expect the flames of the red light to be so strong, and the flame that was injected into his arm seemed to want to melt his arm.

Ji Ling'er's reaction was extremely fast. Just as she made her move, she arrived beside Chen Xiang and used her palm to strike at the old man's abdomen, forcing him to retreat a few steps. At the same time, she pushed Chen Xiang backwards, away from the three people.

"What do you mean? Aren't you afraid of the Law Enforcement Saints?" The Ji Clan Elder was furious, but he was secretly shocked. This was because the strength of Hong Xia and Ji Ling'er were not as weak as he had imagined.

The two of them made a move at the same time, but it did not create any big noise, but the force that they used was not weak at all. The red light was like a powerful flame that was injected into the elder's arm, while Ji Ling'er condensed his holy energy and pierced into the elder's body like a nail.

"Very well, since you all dare to attack us, we have underestimated you all. This is exactly what I wanted." The senior brother smiled sinisterly and took out a holy sword, then said to the old man: "Do it, as long as you capture them and quickly leave the Heaven Sacred District, there is no need to be afraid of your Law Enforcement Saint."

Chen Xiang watched from the back, his heart extremely anxious. He had underestimated the strength of the three people, up till now, and the Drunk god magical poison had not acted yet. Although it was only absorbed by them a little, as long as they didn't discover it, the poison would gradually spread.

Ji Ling'er and Red Cloud were not weak in the first place. If they were to fight with their lives on the line, even if they couldn't defeat these three people, they shouldn't think of easily taking them down.

The first senior brother had forced her two elder sisters to death in the past. Now, she was ready to sacrifice everything to kill this person.

"Let's go." Ji Ling'er shouted lightly. At this point of time, both sides had high fighting spirit, and could not care less about being Law Enforcement Saints.

"Capture them alive." Red Cloud and Chen Xiang were both important figures, Red Dawn had Holy Spirit Fire s inside her body, and Chen Xiang had Green dragon demon-slain broadsword s. If they could capture them, the three of them would definitely receive a huge reward.

However, just as the Super Holy School and the other two were about to attack, their faces suddenly changed. They, who had an imposing manner, actually gave up on attacking, instead fearfully dodging Ji Ling'er and Red Dawn's swift swords.

Chen Xiang was overjoyed, because the Drunk god magical poison that he released had already taken effect, the three of them had already sensed that the poison was being forced by the Holy Spirit Qi in their bodies, but they realised that the poison was like a huge wave, quickly spreading throughout their bodies. After numbing the Holy Spirit Qi in their bodies, they used their Holy Spirit Qi as nourishment, constantly replicating the poison, allowing the poison to spread very quickly.

In just a few blinks of an eye, more than half of the holy energy in their bodies had fallen. They glared at Chen Xiang and they had already recalled the scene of Chen Xiang releasing that terrifying poison on them.

After entering the Immortal-becoming realm, Chen Xiang used his powerful divine power to control the Drunk god magical poison to enter the bodies of the three people.

"Little bastard, what did you do to us?" At this time, Ji Ling'er and Red Cloud had already stopped their attacks, because the three of them were just lying there, unable to move.

Chen Xiang laughed, then walked to their side: "You should not be here, this is your own death, you can't blame people."

"Do you dare to kill us? If we die, the Law Enforcement Saint will immediately rush over." That Ji Clan Elder sneered. They still had a sliver of hope in their hearts.

Chen Xiang's thigh suddenly flashed with electric threads, and fiercely kicked towards the face of the Ji Clan Elder, causing a burst of piercing electric light to flash out, and exploded out a burst of muffled sounds, causing the elder's teeth to fly out.

"Who said we were going to kill you? Haha ..." As Chen Xiang laughed, he continued to punch and kick the Ji Clan Elder, causing the Eldest Senior Brother and the other elderly man's heart to jump in fear. Because they had already seen that the upcoming event might happen to them.

At the beginning, Red Cloud was somewhat at a loss, not knowing why those three people would suddenly collapse on the ground. Ji Ling'er explained to her using sound transmission, letting her know Chen Xiang's secret method.

After beating the Ji Clan Elder until his face was bruised black and blue, Chen Xiang softened his fist and looked at the senior brother and the old man sinisterly. "Don't worry, just wait for me to rest for a while, you guys can enjoy yourselves.

### [Chapter 1543](#)

Hong Xia and Ji Ling'er would not do such a crude thing like beating someone up, but they were enjoying watching Chen Xiang beat up those three guys.

"What do we do now? We can't kill them or the law enforcement saints will come." Ji Ling'er asked: "One of them is one of Sister Hong's enemies."

Chen Xiang laughed and took out the divine cauldron: "Put them inside here, bring them out of the Heaven Sacred District, kill them outside, and then destroy the corpses and erase the evidence, what's so difficult about that."

Chen Xiang placed the three people inside the divine cauldron, looked at the red clouds and asked: "You should go out with me, and you should be the one to handle the matter of revenge. Although you are just a small fry, it can still temporarily relieve your anger."

After changing her appearance, she followed Chen Xiang and left Heaven Sacred District, returning late into the night.

Chen Xiang and the two girls were discussing in the hall. They were happy that they could kill three strong warriors from the Super Holy School.

"I didn't expect them to be able to find this place. Perhaps we were too careless and went to purchase so many medicinal herbs, causing their suspicion." Ji Ling'er said.

"Maybe it's because of other reasons, but we can't stay here anymore. These caves aren't safe, and there aren't many enforcers around. If we could go to the central area, they wouldn't dare to break in like they did today." Red Cloud said,

"Buying a house there is very expensive, but in order to be safe, we have to stay there as much as possible. As long as the few great powers that are in charge of this Heaven Sacred District do not fall, we are safe here." Ji Ling'er said.

Hong Xia and Ji Ling'er did not have any backers, and being targeted by such a huge being like the Super Holy School caused them to not dare to casually leave the Heaven Sacred District.

"We need to buy a normal small residence in the central area. How many Holy stone s do we need?" Chen Xiang asked.

"It will cost at least five million kilograms of Holy stone. Although it's very expensive, that place is still beneficial and will be safer. Furthermore, the entire house has many powerful formations and can absorb the large amount of Holy Spirit Qi hidden underneath the Heaven Sacred District." Red Cloud said,

"A Grade Three Immortal Yuxian Dan is one hundred Jin, I have to refine at least fifty thousand of them." Chen Xiang took a deep breath. "The Biyuan Dan is worth two hundred kilograms per pellet, but I'm a stranger to it. I'm not sure if there's any value in refining this kind of pellet yet."

If he could obtain more than three pellets in a single pellet, it would mean that refining Biyuan Dan s would be more cost-effective.

"Wait for a few days for me to refine the Biyuan Dan. Then, I can decide how many herbs I want to buy." After Chen Xiang finished speaking, he quickly ran into the secret room and continued refining the Sacred animal Dan.

He had to quickly gather Holy stone and buy a small house in the central area, otherwise, he would not be able to refine pills in peace here. Also, if there was a place that could absorb the rich Holy Spirit's power, it would be of great help to him in his alchemy and cultivation.

After he finished refining all the Sacred animal fruit, he started to refine the third grade Immortal Yuxian Dan. Previously, he had rich experience in refining the second grade Immortal Yuxian Dan.

However, he was gradually getting better. After he had succeeded for a hundred of batches, he would be able to use the Dawan refining method and refine many batches at the same time in order to speed up the process of refining pills.

This secret room was rather small for him, especially when he used the Dawan refining method. After releasing the dozen or twenty Magic method furnace, they practically filled the space in this secret room. He also wanted a relatively spacious secret room because he had yet to reach his limit.

With the speed of 50 batches per day, he crazily and quickly refined Grade Three Immortal Yuxian Dan. In just over 20 days, he had refined all 1000 Yuling bamboo shoots. In total, there were more than 5,000 Grade Three Immortal Yuxian Dan.

When Chen Xiang was refining pills, Red Cloud and Ji Ling'er would often go out to investigate the channels of some medicinal herbs, making it easier for them to buy more in the future. Although Red Cloud had concealed her identity now, she was proficient in this aspect, so it was easy for her to get on good terms with the big powers who mainly sold medicinal pellets.

Chen Xiang sat in the living room, drinking a bottle of sweet fruit juice on the table, waiting for the two girls to come back. He wanted to give the five thousand Yuxian Dan s to them and have them sell them in exchange for Holy stone s.

Ji Ling'er and Hong Xia came back, seeing that their faces were slightly ugly, he anxiously asked: "What's wrong, what grievances did you have with me?"

"Hmph, even if it's not that Super Holy School, they actually tried to snatch the Yuxian Dan's medicinal ingredients from us. They started sweeping through all the Yuling bamboo shoots in the medicine stores again, and the price was very high, almost double the original price." Ji Ling'er's face was filled with displeasure: If we buy it at the same price, then no one will be willing to sell it to us, because in their eyes, the Super Holy School is a big customer.

"Where did they get so many Holy stone." Chen Xiang was very suspicious of this, he looked at Red Cloud. In the past, Red Cloud was also responsible for buying Yuxian Dan s as well.

"I'm not sure either. I just know that these Holy stone were all created by that old fellow." Hong Xia shook her head. The old fellow that she spoke of was her original senior uncle, the one who wanted to obtain her Holy Spirit Fire. He was currently Leader.

Chen Xiang tossed over a Storage bag to Red Cloud. "These are five thousand of third grade Immortal-ranked Yuxian Dan."

Ji Ling'er and Hong Xia were startled, and couldn't help but exclaim: "We refined it so quickly."

Chen Xiang laughed: "If the place is big, then I will refine it faster. I will then refine the Biyuan Dan, I wonder if they will buy a large amount of Biyuan Dan."

"Of course not, because Biyuan Dan are more difficult to refine, and even some of the more famous Alchemist s would often fail. The reason why Super Holy School needs Yuxian Dan is so that he can quickly raise a group of outstanding seedlings and quickly strengthen his base." Red Cloud said,

Chen Xiang asked again: "Are Biyuan Dan easy to sell? If you sell them all at once, will it be easy to sell them?"

Red Cloud gently smiled and said, "Don't worry, I will help you sell as many pills as you have. Although this kind of pill is not often used, it can help you recover from your injuries."

"Alright, I will start refining the Biyuan Dan now." Chen Xiang had just rested for a short while before returning to the secret room to refine pills.

Red Cloud and Ji Ling'er couldn't help but admire Chen Xiang when they saw how hardworking he was everyday, and in a short twenty days, he had refined five thousand Yuxian Dan. Besides the cost, he had also earned over four hundred thousand kilograms of Holy stone, which for a person with Chen Xiang's strength, was extremely impressive.

#### [Chapter 1544](#)

Chen Xiang sat in the secret room, looking at the Jasper gourd in his hands. This was the immortal medicine used to refine Biyuan Dan, it was called Jasper gourd.

Back then, after Yan Zilan was injured by the Thunder Tao Double Venerables, Lv Qilian made Little Lizhi deliver a bottle of Biyuan Dan s.

"sister Meiyao, what's so difficult about refining this Biyuan Dan? Is it about the Foreseeing Alchemy?" Chen Xiang asked Su Meiyao. This kind of healing pellet was usually hard to refine.

"The main reason is that there will be a strong vibration inside the Jasper gourd, so when refining it, you have to calculate the defensive power that will be released when the vibration occurs, because that kind of strange vibration can disperse the strong flame." Su Meiyao said.

Chen Xiang was not surprised at how high level herbs were like this. He heard that there was a type of immortal medicine that, after obtaining the Spirit Qi, could even fly in the air and escape the earth. It could even release its power to attack creatures that wanted to destroy him.

And this Jasper gourd was one of them. When it was being refined, it would produce a very violent vibration.

Chen Xiang threw a palm-sized Jasper gourd into the Yanlong furnace s. He had never refined one, so he did not know how intense the shaking was.

He released the Five Elements Sacred Flame, a five-colored flame surged within the pill furnace, burning the Jasper gourd. He patiently and vigilantly waited for the Jasper gourd to tremble.

After an hour, Chen Xiang suddenly felt that the Jasper gourd was shaking slightly. He immediately braced himself, but after that slight shake, the Jasper gourd suddenly started shaking violently, and even jumped and jumped around inside the Yanlong furnace.

This was the first time Chen Xiang had encountered such a situation, after being stunned for a moment, he immediately released his divine power to suppress the flying Yanlong furnace, or else the stone room would have been smashed apart.

BOOM \*

After the furnace fell to the ground, a violent explosion occurred from the inside of the furnace. The Jasper gourd was indeed powerful, he wandered around for a while and then exploded again. Now he understood why the Biyuan Dan was so hard to refine.

"This thing is really naughty." Chen Xiang opened the furnace and looked inside. There was no damage inside, which made him sigh in relief. The degree of vibration just now made him worried that the furnace would be damaged.

"You must know your limits." Su Meiyao laughed.

"I know, but I will also let him know how powerful I am." Chen Xiang took out another Jasper gourd, threw it into the furnace, and laughed: "Little thing, I coincidentally learned how to refine Tianlong Dan, I will use the method to deal with that Heavenly Dragon Grass right now to you."

When he refined the Tianlong Dan, he condensed a flame and divine power at the same time, and then poured it all into the Sky Dragon Grass, instantly dispersing the spirit inside the Sky Dragon Grass. Furthermore, the flame which he controlled precisely also exploded with an extremely precise heat, and melted away the Sky Dragon Grass.

This method was named "Divine Flames Flash Technique" and was able to refine high grade medicinal herbs within a short period of time. However, he had tried using this method in the Yuling bamboo shoots and other medicinal herbs but to no avail.

Chen Xiang began to condense his spirit energy and flames, preparing to use lightning to finish the Jasper gourd when it was about to explode. If it was really successful, the speed of refining the Biyuan Dan would be faster than the Yuxian Dan, even if there were less pills, it would be very worthwhile, not to mention that it was difficult to find the materials to refine the Yuxian Dan on the market right now.

"It's about to begin."

When Chen Xiang saw the Jasper gourd, he trembled for a moment and immediately threw his condensed Divine Holy Fire towards it. Like a strand of hair, it charged into the inside of the Jasper gourd and then, like a net, the Divine Holy Fire spread out, disintegrating the Jasper gourd from within.

Chen Xiang held his breath as he looked at the interior of the pill furnace. He did not know the result yet, but he saw that there were cracks of fire on the surface of the Jasper gourd. Just when he thought that he had failed, the Jasper gourd suddenly exploded.

That was the Jasper gourd's medicine. He did not think that it would actually succeed, which made him incomparably excited, because he had grasped another powerful pill cultivating method. This was something that he had comprehended from the Heavenly Alchemy.

"It seems that it won't even take two hours for me to concoct one furnace." Chen Xiang was extremely excited, if it was him at this speed, he would very quickly be able to live in the center of the small house.

"Little monster, you really did not disappoint me." Su Meiyao laughed. Seeing that Chen Xiang had refined a Jasper gourd in less than an hour, she was shocked, and now she had to see Chen Xiang condense a majority of pellets.

Very quickly, Chen Xiang had fused the Medicine aura and medicinal powder into one ball of air. He estimated, and separated the balls, into four groups, which meant that he could get four pills, which made him very satisfied, although it was one pellet slower than the Yuxian Dan, it was much faster than the Yuxian Dan. The price of a pellet was one fold that that of a Yuxian Dan, and Jasper gourd's price was the same as Yuling bamboo shoots.

Just like before, he was first familiar with it, only after refining hundreds of batches would he be able to use Magic method furnace. During this process, he would also fail, and after knowing the reason for his failure, he would be able to avoid it in the future.

Only when he was very familiar with the Biyuan Dan would he dare to use multiple Magic method furnace to refine it, because if he failed, it would cause 20 Jasper gourd to tremble, and the entire mountain would probably shake.

He stayed in the secret room for a day and refined a total of ten batches. He was very satisfied with the quality of the Biyuan Dan and the number of pills produced.

Ji Ling'er and Red Cloud who went to sell Yuxian Dan had already returned. Looking at their smiling faces, Chen Xiang knew that everything was going smoothly.

"They were all sold." Chen Xiang laughed, "It's rare to see you smiling so sweetly. Did you guys eat a lot secretly?"

Ji Ling'er laughed as she walked to his side, gently massaging his back: "How can that be, we were just selling it at a pretty good price. Because Super Holy School bought a large number of Yuling bamboo shoots, the overall price of the Yuxian Dan was raised a little, allowing us to earn an extra fifty thousand kilograms of Holy stone, and we even managed to get a good relationship with one of the five great pill stores in Heaven Sacred District."

Chen Xiang curled his lips and said: "To earn an extra fifty thousand kilograms of Holy stone, and to let you guys be so happy, you truly have no future."

Hong Xia laughed charmingly, came to Chen Xiang's side, and laughed: "Our Boss Shen, how much do you think we should earn in order to be happy."

### [Chapter 1545](#)

Chen Xiang could quickly refine Biyuan Dan, and if nothing unexpected happened, he could quickly refine Biyuan Dan to earn a large amount of Holy stone.

"There are a total of forty Biyuan Dan." Chen Xiang passed the Biyuan Dan he refined to the two girls, and laughed: "Now you two can go and purchase the Biyuan Dan's medicinal ingredients, buy as many as you can, I am going to crazily refine the Biyuan Dan right now."

Seeing how confident Chen Xiang was, Red Cloud and Ji Ling'er knew that Chen Xiang had already captured the Biyuan Dan and was refining it very smoothly. They had already started to calculate that they needed to refine a majority of the pellets in order to buy a house in the central area.

"If there are a lot of Biyuan Dan, can they be sold at once?" Chen Xiang asked, he was more worried about the sales.

Seeing the high quality of those Biyuan Dan, they were definitely rare in the market. She patted her chest and said: "No problem, we are really big today, just with this Super Old Sacred City alone, we can consume a large amount of Biyuan Dan. Not to mention selling it elsewhere, you don't have to worry about this."

"We are going to purchase the Biyuan Dan's herbs now. You still have a lot left, you should start refining them first, maybe we will have to quietly leave the Super Old Sacred City to go somewhere else to purchase them." Ji Ling'er laughed, she had already seen that it wouldn't be long before she would have Holy stone s that she couldn't spend.

Hong Xia and Ji Ling'er, who had just returned back to their room, only rested for a moment before leaving in a hurry.

Chen Xiang could refine a batch of these Biyuan Dan in two hours, and after he mastered it, he would be able to use many Magic method furnace, at that time the refining speed would increase by ten or twenty times, as long as he could endure the loneliness, he would be able to finish refining all of them.

He still had a thousand Jasper gourd on him, which was more than enough for him to refine for a period of time. After refining this batch, he would be able to exchange for quite a few Holy stone, which was definitely much easier than digging for the Holy stone's veins.

What worried him the most was that if he sold so many pills in the future, it would definitely arouse suspicion from others and might even harm the interests of some of the big powers. At that time, it would be very troublesome for him, Ji Ling'er and the others, so he decided to wait until he settled down in the center area and find a strong backer.

After two days of refining, he had already become very stable. He was able to refine ten batches of Biyuan Dan, and four pellets would be produced each day. If nothing unexpected happened in the future, he would not fail too many times.

"I can't hold it in anymore, let's try out the Magic method furnace."

Fortunately, he managed to control it and only allowed two batches to be destroyed. The losses weren't too big, and at the same time, he grasped the difficulty of refining with multiple Magic method furnaces.

Seven days passed and Chen Xiang walked out of the secret room. When Red Cloud and Ji Ling'er saw that he had come out, they immediately took out some juice to dispel their fatigue and handed it over. They were very considerate.

"I'm going to take a bath first." Chen Xiang stretched his back. He had been concocting pills for seven days straight and his body smelled like sweat.

The bathtub was in Red Dawn and Ji Ling'er's room, they had long prepared that kind of sacred spring water. After Chen Xiang jumped in, he gasped in admiration, and the fatigue on his body gradually dispersed.

"How many Jasper gourd have you bought?" When Chen Xiang saw their coquettish smiles and their light clothing, his heart shook and he really wanted to drag them into the water ... ..

"Twenty thousand. How many days do you think it'll take for you to complete it?"

Ji Ling'er sat at the side of the bath, immersing her snow-white calves and tender jade feet in the water, and continued to shake those flowery white calves beside Chen Xiang. The skirt on her thighs had already been rolled up, tightly holding onto the middle of her big white legs, making people want to see it, it was extremely alluring.

The most frightening thing was that, like Ji Ling'er, Red Cloud also rolled up her skirt and revealed her long, white, jade-like legs. She soaked in the water and kicked the water in order to play with it.

Chen Xiang was soaking in the bath while leaning on the side. Both of his arms were spread out to the side of the pool, and two beautiful Holy Maiden sat on both sides of him.

"Hey, what are you thinking about? I'm asking you a question, are you able to handle twenty thousand Jasper gourd?" Ji Ling'er's charming eyes flashed as she giggled.

"It's definitely not a problem to take care of twenty thousand Jasper gourd, but it's a little difficult to take care of two Holy Maiden." Chen Xiang laughed wickedly as he placed his hands on Ji Ling'er's and Red Cloud's white thighs and began to massage them.

The two ladies spat and removed his evil hands. Their faces were red, but they did not feel disgusted.

"Little Scoundrel." She had long known that Chen Xiang was not an honest guy, but she had also thought that it was normal since Chen Xiang was a man after all.

Chen Xiang looked wronged, "You guys are the bad ones. You seduce me in broad daylight and even watch me take a bath. When you take a bath, you definitely won't let me see it like this."

Ji Ling'er understood Chen Xiang better, and she knew a lot about Chen Xiang from him, especially some of the more gossipy things, such as Chen Xiang's emotional problems. She knew that there were a lot of outstanding women around Chen Xiang, but Chen Xiang only had three of them.

Forget about Nine Heaven World, even if Chen Xiang had that kind of abnormal pill refining ability, just by relying on a large power alone, it would be normal for him to have a few outstanding Holy Maiden, because Chen Xiang's speed of earning Holy stone was too fast, so who wouldn't want to own such a treasure?

Right now, Ji Ling'er and Hong Xia couldn't bear to leave Chen Xiang, and Chen Xiang was very good to them both. Although his strength was much weaker than theirs, his ability to earn Holy stone s was much stronger than theirs.

"I remember you saying before that there will be forces plotting to enter the Nine Heaven World this day, right?" Chen Xiang asked.

"This is only a legend, but I think that it should be true. The Nine Heaven World is growing up too fast, and will eventually threaten this place, so they planned to suppress the Nine Heaven World before he grows up." Ji Ling'er said.

"Super Holy School might have the same idea. Although Nine Heaven World is not as advanced as this place, he still has other rich resources. Otherwise, there would not be a place where he could nurture powers that could threaten this place." Hong Xia leaned close to Chen Xiang and gently pinched his thick shoulders.

Chen Xiang gently rubbed Hong Qi's greasy leg, and then slowly moved it to his thigh. Hong Xia only snorted lightly.

On the other side, Ji Ling'er was also not spared, she was only worried that Su Meiyao would be jealous, so she did not take Chen Xiang's hand away.

Chen Xiang rubbed the two Saintess and said, "I will leave this place, but before I leave, we will arrange for you to cultivate here with sufficient resources. Maybe in the future, you will attack Nine Heaven World, and I will need you to protect me."

"When are you leaving?" Ji Ling'er was a little reluctant, she moved her jade hand to Chen Xiang's chest and gently rubbed it.

#### [Chapter 1546](#)

"Of course, the faster the better, because I have urgent matters at Nine Heaven World. But before I leave, I need to get a large number of Holy stone so that you all don't have to worry about the Holy stone and the medicinal pellets." Chen Xiang leaned his head against her chest.

The relationship between Chen Xiang and her was merely that of a friend, but they had acted this way for her sake, causing her to be moved. They had lost the support of a powerful force, so it would be difficult for them to live a peaceful life in the Super Old Sacred City in the future.

Chen Xiang immersed himself in the God's Spring for an hour, looking as energetic as if he had slept for a whole day.

"These are Biyuan Dan, there should be around four thousand of them. I have already completed the previous one thousand." Chen Xiang took out a Storage bag.

If it was in the past, Ji Ling'er and Red Cloud would definitely have been shocked, because Chen Xiang was actually able to refine this Biyuan Dan that was extremely difficult to refine faster than the Yuxian Dan.

Ji Ling'er and Red Dawn handed over the twenty thousand Jasper gourd that they had bought to Chen Xiang. Chen Xiang couldn't help but to admire Red Dawn's ability, to be able to get her in such a short time, and at a very low price at that.

Chen Xiang never asked about Holy stones, he himself owed Ji Ling'er two million, but Ji Ling'er didn't bring it up much anyway. She knew that the benefits Chen Xiang brought her wasn't just two hundred kilograms.

After the two girls left, Chen Xiang returned to the secret room. The reason he was trying so hard to refine pills was also because he wanted to find an opportunity to meet the Pill Saint here. If they could come to an agreement, Su Meiyao and Bai Youyou could quickly recover.

Ever since the Super Holy School's people had come to find them, Ji Ling'er and Red Cloud became even more cautious when they went out. Although they cooperated with some of the big powers, those big powers no longer knew where they lived, so this small cave was no longer disturbed.

Meanwhile, the Super Holy School continued to search for Ji Ling'er and Red Cloud. They seemed to already know that the two Holy Daughters were together, and Red Dawn and Chen Xiang who possessed the Green dragon demon-slain broadsword were priceless treasures in the eyes of the Super Holy School.

If they did not go out to buy and sell pills, Red Cloud and Ji Ling'er would rarely go out and stay in the cave to cultivate.

Every time Chen Xiang came out, it meant that they had something to do, and could quickly obtain a large amount of Holy stone.

Although her cultivation did not increase, she was able to unleash a lot of the power that was hidden in her body. Especially regarding the use of the Holy Spirit Fire, she knew very clearly that the cultivation method of the Fire god method could not be measured using the Holy stone, and in her heart, she was extremely grateful to Chen Xiang.

The change techniques that Ji Ling'er trained in had made quite a bit of a breakthrough as well. It was able to make her into a variety of people, as well as a few small and medium-sized beasts.

They were both cultivating in the same secret room and could see each other's progress.

"It's been almost four months. It's been a long time since I last saw that little scoundrel. I miss him very much in my heart." Ji Ling'er squatted by the side of the pool, and softly muttered while caressing the holy spring that was prepared for Chen Xiang.

"Ling'er's heart is moved." After the red clouds heard this, they smiled coquettishly and said,

Ji Ling'er rolled his eyes at her, then asked: "Sister Hong, if he can refine a Holy Pellet like this in the future, wouldn't that be extremely terrifying?"

"Of course, but the Holy level s are a problem. It's only a matter of time before he becomes a pill saint." Hong Xia nodded.

"I never thought that we would be able to be friends with a Pill Saint. When that group of old guys from Ji Clan find out, they will definitely regret it until they die." Ji Ling'er laughed.

Red-clouds came to her side, pinching her face as she smiled, "If his strength is sufficient, wouldn't you be pledging your life to him?"

Ji Ling'er stuck out his tongue, and asked: "What if it was you?"

Red Cloud did not answer and the two girls stayed silent for a while. At this time, Chen Xiang's laughter rang out: "What are you guys talking about? I think I heard that our two holy maiden beauties have taken a fancy to that family's young man."

When Chen Xiang came out of the secret room, he went straight here. Along the way, he took off his clothes, and then walked into the bathing pool naked.

Red Cloud and Ji Ling'er heard their conversation earlier from Chen Xiang's ears. She blushed a little and wanted to leave, but Chen Xiang released two water vines and wrapped it around their waists, pulling them into the bath. The two girls started to cry out.

"I've been concocting pills for so long that I'm going to die of boredom. You all still don't intend to talk to me, you can't be so cruel."

Chen Xiang smiled as he looked at their wet bodies. After the light dresses were soaked, it stuck closely to their jade bodies, outlining their beautiful and alluring bodies. Adding on to that wet long hair, it made Chen Xiang smile even more ruthlessly.

"Damn scoundrel." Who knew that her waist was already being embraced by Chen Xiang, and the same went for Red Cloud. What made them the most embarrassed was that Chen Xiang's bad hand was extremely agile as he swam towards their chests, invading their sacred snowy peaks.

Instantly, in the pool, Chen Xiang, who was naked, was playing with two Holy Maiden in thin clothes. When the sounds of clothes tearing came out, the girl's delicate shout and her endless spring color filled the entire room.

After having fun in the bathtub, Chen Xiang also took advantage of the two girls. Hong Xia and Ji Ling'er could only nag him, they did not dare to use their terrifying holy power to fight him, and were worried that they would hurt him.

In the hall, it was already easy for the two girls. They knew that Chen Xiang had refined a large batch of Biyuan Dan s after concocting pills for such a long time, and might even have finished refining the twenty thousand Jasper gourd s. They were going to sell the Biyuan Dan s now.

"I'll go with you guys this time and pack up as well. We might not be coming back." Chen Xiang laughed.

"You really finished refining the Jasper gourd." Ji Ling'er was slightly excited.

"If that's really the case, then the business we need to do now will be very big, and we will have a large number of Holy stone." The same was true for the red clouds, it was hard to conceal the excitement in their hearts.

Chen Xiang was actually very calm, because in his eyes, these kind of Holy stone were definitely not enough.

"There are a total of eighty thousand pills. I can produce four in a single furnace." Chen Xiang passed over two Storage bag to the two of them. Inside the bottles, there were Biyuan Dan s inside, so even if they had to count, it would still take a while.

Even Red Dawn and Ji Ling'er, who were already mentally prepared, couldn't help but be dumbstruck at this moment. If it were Holy stone s, then it would be over five million kilograms.

"Calm down, have you decided who you want to sell to?" Chen Xiang laughed, "According to the two hundred Jin Holy stone s, I should be able to get sixteen million Jin of Holy stone s. When the time comes, I will use six million Jin to buy a decent house and buy more fourth grade Immortal medicine."

Red Cloud took a deep breath and said: "Don't worry, we have a good idea of what kind of house you want to buy, right now you want to sell those Biyuan Dan, there shouldn't be any problems, if that big force could store so many Biyuan Dan, we can't even be happy about it."

Chen Xiang changed his appearance and asked: "Have you found any news about the Pill Saint?"

Ji Ling'er shook his head: "We can't find anything. Only the leaders of the super big powers will know some clues, but it's difficult for us to get hold of them right now."

Chen Xiang said as his brows furrowed, "He wouldn't even bother to pay attention to selling those eighty thousand Biyuan Dan."

The red cloud said: "To value is to value, but to not appear, because the Biyuan Dan is of no help to himself, just leave it to the elders."

"What is the name of the power that you have been working with for a long time?" Chen Xiang followed the two girls out of the cave. He planned to meet the big shots of the big powers.

Divine Feather School is not a match for him, he is one of the five great forces of the Heaven Sacred District. Usually, we can only see a few elders, and even if it's an elder of the Divine Feather School, it would be very difficult to see their face. Red Cloud said,

Chen Xiang thought for a while, "I will find a way to meet him."

He felt that the Leader of this Divine Feather School should be those people with the same strength as the Nine Heaven World in the past.

Ji Ling'er understood that Chen Xiang wanted to see the Pill Saint because of Su Meiyao and Bai Youyou. She was very clear about the relationship between Chen Xiang and the two of them, and she did not doubt what Chen Xiang had said.

There was a large mountain range there, and huge stone towers that pierced through the clouds stood up. Divine Feather School was one of the five big powers of the Sky Capital, and had a very solid foundation, there were many places in the Sky City where they could mine their Holy stone, they could do all kinds of business there.

Chen Xiang and the two girls were on the top floor of a stone tower in the Heaven Sacred District. From there, they could see the huge stone tower in the distance, which was the domain of the Divine Feather School.

"The three of you, because there are some matters that need to be taken care of within the sect, I've made you all wait. I'm very sorry." An old man with kind eyes suddenly appeared behind Chen Xiang and the others, and asked with a smile.

This old man was an elder of the Divine Feather School, he was mainly in charge of managing business, his name was Luo Qi,

"Elder Luo, it's alright. This time, we brought a lot of Biyuan Dan. I wonder if you guys can buy them all." Hong Xia smiled apologetically.

Luo Qi looked at Chen Xiang, and did not immediately discuss the deal, but asked: "Is this your Alchemist, that doesn't look like it, but for him to be able to follow you, I think it should be him, as expected of someone who cannot be judged by his appearance."

"Elder Luo, if we can come to a conclusion this time, I still have a small transaction. I think your Leader might be interested." Chen Xiang laughed heartily, giving people a feeling that he was unfathomable.

He said that he had nothing to do with the matters of this world. If you can get him out of the mountain by locking yourself up all day, it would be a good thing for our Divine Feather School. "Ling Chen:" ... ... The meaning behind his words, was to tell Chen Xiang that only some extremely extraordinary things would be able to cause their Leader to be interested.

### [Chapter 1547](#)

Chen Xiang was very confident in the items in his hands and felt that it would be very easy to meet the Leader. He smiled at Luo Qi, then looked at Red Cloud and Ji Ling'er, indicating that they could sell those Biyuan Dan s.

"Elder Luo, you should remember that we mentioned before that we would bring a batch of Biyuan Dan later." Red Dawn took out a Storage bag.

Luo Qi nodded his head: "I heard that you all bought a large amount of Biyuan Dan's medicinal herbs, and didn't expect you guys to find a group of outstanding Alchemist s to refine the pills to sell, this is indeed a good way to earn Holy stone, only the profits are not high."

Hong Xia gave a sweet smile and passed the Storage bag to Luo Qi: "I wonder if you can buy them all."

Both Ji Ling'er and Red Cloud knew that their profits were shockingly high because from beginning to end, Chen Xiang was the only one who refined the pellet, and the amount of pellets produced and the refining speed was extremely terrifying as well.

After Luo Qi received the Storage bag, he saw that there were eighty big jade boxes inside. He took out one and placed it on the ground, although he had not opened the big box, he was surprised at the number of Biyuan Dan inside.

The moment he opened the lid, a piercing green light shot out. The thousands of Biyuan Dan s inside were like many jade beads that were emitting light.

Last time, Red Cloud and Ji Ling'er had brought over a thousand Biyuan Dan, but there were still many big boxes like these inside the Storage bag.

"There are 1000 pills in each box, a total of 80,000 pills." Ji Ling'er smiled slightly: "Elder Luo, please take a careful count. If your Divine Feather School wants to eat these eighty thousand Biyuan Dan, it shouldn't be a problem, right?"

Luo Qi took out the eighty big boxes, counted them one by one, and then exclaimed: "Of course we can eat them, it's just that we haven't seen such a big deal in a long time, your Alchemist is really outstanding, able to refine a batch of high quality Biyuan Dan in such a short period of time."

"You guys wait here, I'll go get some Holy stone. I don't have that many on me, the price should be the same as last time."

"Yes, two hundred kilograms of Holy stone." Red Cloud nodded.

After Luo Qi left, Hong Xia and Ji Ling'er's hearts became a lot more at ease. Previously, they were still a little worried that Luo Qi wouldn't take so much in one go.

After half an hour, Luo Qi returned with a set of Storage bag s. Inside, there was a huge pile of sixteen million jin Holy stone s, which Hong Xia and Ji Ling'er were responsible for counting.

"We will continue to cooperate in the future." laughed, Biyuan Dan were a type of rare pill, to be able to stock up a batch, it was definitely not a loss, furthermore the quality of these pills were all very high.

"Elder Luo, if I have a type of Holy level medicinal ingredient, can I directly talk to your Divine Feather School s?" Chen Xiang suddenly asked.

Holy level medicine ingredients, no matter where they were, were extremely expensive and rare. Even if they were useless to him, if there was a chance, he would try his best to seize them.

"You're willing to give it to me." Luo Qi was a little shocked. He could already tell that Chen Xiang seemed to have something urgent when he saw their Leader.

"If he can help me with something, I can give it to him as a gift." In order to make Luo Qi believe it, Chen Xiang had taken out a Blood Linglong Fruit. Luo Qi had managed such a large industry in the Divine Feather School, he would definitely be able to recognize this Blood Linglong Fruit. This was a holy healing fruit, able to strengthen the blood in one's body.

Ji Ling'er and Hong Xia were both shocked as they looked at the red crystal-like round pearl in Chen Xiang's hand. Hong Xia exclaimed: "It's a Blood Linglong Fruit, this is a Holy Fruit."

Luo Qi took a deep breath and said: "Follow me, I will bring you to see Leader."

Chen Xiang sent a sound transmission to Ji Ling'er and Red Cloud, telling them to settle the matters regarding the house, and then reunited here. The sixteen million strong Holy stone were all placed in their hands, transferred by them, allowing them to purchase even more medicinal ingredients, which were of the fourth grade of Immortal Grade.

Luo Qi brought Chen Xiang into a teleportation room of the Divine Feathers Tower. Through the Transmission array, they teleported to a place that seemed to be the belly of the mountain.

Chen Xiang thought that the Divine Feather School's Leader would be inside those tall and big stone towers, but he never thought that it would be inside a cave. The construction of this place was very rough, as if the inside of a mountain was hollowed out, and then a few caves were dug out from the uneven stone walls.

"Wait here, I'll go talk to Leader." Luo Qi walked quickly towards a cave, leaving Chen Xiang standing alone in the middle of the cave.

After a long while, Luo Qi finally came out with a nod of his head: "You can go in now, our Leader wants to talk to you."

Chen Xiang politely smiled at him, then walked into the cave.

In his eyes, the Leader should be a being at the same level as the Nine Emperors and Five Venerables, but the place he lived in was so simple and crude.

kept walking forward even after entering the dark mountain cave. He still could not feel the aura of a strong practitioner even here, so it would be quite difficult for a strong individual to conceal the powerful strength within his body.

At the end of the cave, there was a spacious and bright stone room. Judging from the decorations, it should be a living room with a few chairs.

Beside a simple and crude stone table, there was a middle-aged woman in a plain white dress. Although she was not beautiful, she did not have any noble temperament, just like an ordinary woman in a village. Her skin was not very good, some were rough, and there were fish tails at the corners of her eyes.

He was a very ordinary person, the only thing he gave others was that she looked very comfortable. When she saw Chen Xiang, she even smiled, it was a very kind and gentle smile.

"Please take a seat. You're welcome." The middle-aged woman politely made a gesture. Her voice was somewhat hoarse, and her voice was also somewhat hoarse. It was as if she had not spoken for a very long time.

Chen Xiang was secretly surprised, he never thought that Leader of the Divine Feather School would actually be a woman, and how ordinary it looked.

"Brat Chen Xiang, greeting senior." Chen Xiang immediately bowed, he was sure that the woman in front of him possessed power as terrifying as that of the Nine Emperors and Five Venerables, because when he saw the White Tiger back then, he had the same feeling.

"Sit, don't call me senior, my name is Feng Yujie, you tell me to call me Aunt Feng." After Feng Yujie invited Chen Xiang to sit, he poured a cup of clear water for him.

Chen Xiang could not understand why would lead such a life.

"Aunt Feng, I have a very important matter that requires your help." Chen Xiang got straight to the point.

"I heard from Luo Qi that you guys are selling us with a lot of immortal pills, and that you even have Blood Linglong Fruits." Feng Yujie slightly smiled and also sat down, looking at Chen Xiang seriously.

Chen Xiang nodded, "Aunt Feng, can you ..."

Feng Yujie interrupted him and smiled: "You must be from the Nine Heaven World."

#### [Chapter 1548](#)

"Yes." Chen Xiang replied.

"Can you tell me how that world is faring now? I'm quite curious, the Nine Heaven World should not be able to recover so quickly, but you can refine eighty thousand Biyuan Dan in such a short period of time. A genius like you might not even be able to compare to the Sacred Dan Emperor in the past." Feng Yujie's face was full of curiosity, waiting for Chen Xiang's reply.

Chen Xiang had long suspected that the strong warriors here had interacted with the people of the Nine Emperors and Five Venerables before.

"As for Nine Heaven World... I have been here for more than two hundred years, and the change there is very fast now. Furthermore, Di Tian is gradually recovering, and the Fire Emperor back then was still half crippled. As for the rest of the Nine Emperors and Five Venerables, they have not been found yet, as for me, I am an exception. Chen Xiang laughed.

As a Leader of a Divine Feather School, it was a very normal thing for Feng Yujie to be able to tell with a glance that those eighty thousand Biyuan Dan were made by a single person.

Feng Yujie chuckled: "Little guy, you're not being honest at all, you're not only successful in creating medicinal pellets."

Chen Xiang laughed foolishly: "Aunt Feng, don't tell me that this brat still has some good points, can you tell me?"

After stepping into the Immortal-becoming realm, Chen Xiang's dantian had already merged with the Divine Sense Sea, so he felt that if he were to conceal himself, he would be like an ordinary person.

"Your dantian is gone, but you deliberately used some energy to send out your aura to confuse others. If I'm not mistaken, you were previously a Divine Cultivator, and after entering the Sacred Transformation,

your dantian fused with your Divine Sense Sea, which is why this situation occurred." Feng Yujie smiled gently and told her that Chen Xiang was a Divine Cultivator.

Chen Xiang laughed and said: "So that's also considered good."

Feng Yujie lightly snorted: "Since you have a request for me, then you should be more obedient."

Chen Xiang restrained his smile and said seriously: "Alright, since my strength is so much weaker than yours, I will answer honestly. In your eyes, I am just a little lamb that you can kill."

"How did you come here from the Nine Heaven World?" Feng Yujie asked.

"I am..."

Feng Yujie saw Chen Xiang's expression fluctuate, and rolled his eyes at him. "Don't lie."

Chen Xiang sighed: "Inside the Nine Heaven World, I entered a deep underground cave and a teleportation station. I used the Green dragon demon-slain broadsword to open a teleportation portal, and arrived here, and then encountered some powerful Holy Beasts outside, I was lucky enough to escape, and in the end I escaped to a Holy stone mine. I was caught by the guards at the mine, but with my help, I managed to acquire three million kilograms of Holy stone s, and hid here to refine pills and earn the Holy stone."

Feng Yujie was not surprised at all, and laughed: "A little kid that can get the Green dragon demon-slain broadsword is indeed not simple, it can be done over and over again."

"Aunt Feng, I heard that a few of the great powers here want to attack Nine Heaven World and suppress its growth. Through this, we can guarantee that this Absolute Monarch Sanctuary will not be invaded." Chen Xiang asked, he was more worried about this.

But you guys don't have to worry, the Nine Heaven World won't be defeated easily, right? Feng Yujie smiled blandly: "What are you worried about? You are afraid that others will steal your Green dragon demon-slain broadsword s, anyone who knows a little about them will know that this blade is for themselves a master. It's useless even if it is isolated from your body."

Chen Xiang was afraid that after Di Tian reappeared, the Evil Dragon Graveyard that protected the dragon vein would be destroyed.

"Will you come out to fight when the time comes?" Chen Xiang asked again.

"Of course I won't, but since my Divine Feather School knows how to, I will just stand to the side and watch." Feng Yujie said with a mischievous smile.

"Cripples of the Nine Emperors and Five Venerables, dead or dead, missing or missing, when the time comes, you will have defeated them." Chen Xiang muttered.

"Do you really think that only the Absolute Monarch Sanctuary will take action? When the other Heavenly Regions appear, they will only treat the Nine Heaven World as a battlefield and will only indirectly fight with it." Feng Yujie said.

Chen Xiang said in a bad mood: "You came to our Nine Heaven World to fight, it's not good. Back then, this was how the Nine Emperors and Five Venerables was destroyed, wasn't it?"

"Back then, it was due to the existence of someone like Ten Heavens Supreme Lord. As a result, none of the experts in the other Heavenly Realms were able to divide up the Nine Heaven World, causing them to suffer a great loss in terms of vitality. The Ten Heavens Supreme Lord had also paid a very painful price, and Di Tian, as the main battlefield, had even shattered and turned into many small worlds." The look in Feng Yujie's eyes suddenly became very distant, as if he was recalling what happened back then. "Now, it seems like that kind of thing is going to happen again."

Chen Xiang said: "Aunt Feng, I have satisfied your curiosity, now we can talk business. Once it is settled, I will give you the Blood Linglong Fruit."

Feng Yujie stretched out his hand and said: "Show me the Blood Exquisite Fruit."

Chen Xiang could only take it out. He was a little worried that Feng Yujie would not return it to him, so he held it in his hand and looked at it carefully. It was so easy to play around with, but it looked like he did not want to return it.

Seeing Chen Xiang's pained expression, Feng Yujie giggled. "You said it's for me, but it's mine now."

Chen Xiang's heart skipped a beat, and he anxiously laughed dryly: Aunt Feng, you still don't know what kind of help I need you to help me with.

"Tell me, I don't think it will be too hard. I should be able to do it." Feng Yujie was very confident in herself, so she kept the Blood Linglong Fruit.

"Help me find a pill saint. I want to concoct a sacred pill. I'll pay for the ingredients myself, so I'll give him a decent reward." Chen Xiang said directly: "For Aunt Feng, this shouldn't be too difficult."

Hearing Chen Xiang's words, Feng Yujie frowned and sighed: "I'm afraid that's a little difficult. There's a Pill Saint in this capital, but I don't even know them, so it's very difficult to find them for you. I'm really sorry that I can't help you."

Chen Xiang was startled for a moment, but inwardly he sighed, his expression did not look good. He looked at Feng Yujie, and stopped speaking.

Seeing him like this, Feng Yujie couldn't help but laugh.

"I won't tease you, I'm just a pill saint. Although I can't find other pill masters for you, I can still help you concoct pills." Feng Yujie chuckled.

No matter how he looked at it, she didn't seem like a middle-aged woman, but instead a mischievous little girl who played with the dead without paying with her life. Chen Xiang cursed in his heart, then smiled: "Aunt Feng, you're still a child."

Feng Yujie's smile became even happier, causing Chen Xiang to secretly look down on her. As the Leader, she didn't have the slightest bit of an appearance as a Leader, causing him to worry for quite a while. Even now, he still couldn't believe that Feng Yujie was a Pill Saint.

[Chapter 1549](#)

"Aunt Feng, are you really a Pill Saint? No matter how I look at it, it doesn't seem like it. In my impression, you should be that white-haired old man." Chen Xiang's face was full of doubt, causing Feng Yujie to scowl and glare at you like a little girl who had lost her temper, causing Chen Xiang to immediately break out in a cold sweat.

Seeing that Chen Xiang was scared to death, she started to laugh coquettishly, making Chen Xiang have the urge to smash his head into a wall. This kind of old woman being mischievous was much harder to deal with than those little girls.

"Don't tell me that you want me to concoct a batch of Holy Elixir for you to see. You have to wait and see as well." Feng Yujie said as he took out a silver white pill furnace, "This is my pill furnace, you are also a pill refiner, you should know that this is not an ordinary one."

Chen Xiang looked at it and laughed: "Forgive me for being stupid, but I really can't see any good points."

Feng Yujie patted Chen Xiang's head: "This is the best pill furnace in the Sky City, it's called the Holy Spirit Treasure Furnace, and there are a few Saint Fire Souls inside."

"What kind of Holy Elixir do you want to refine? You don't have the materials, but with your current strength, if you just eat the Holy Elixir, you might be able to find some other materials." Feng Yujie pinched Chen Xiang's arm, and a surge of divine power continuously entered Chen Xiang's body. And it's even a golden bone, man. "

Seeing Chen Xiang's discontent face, Feng Yujie laughed: "I just want to see if you can handle the Holy Pellet. This is for your safety, take out your Holy level medicinal ingredients."

Feng Yujie gave Chen Xiang a unreliable feeling, but now he had no choice. Although Feng Yujie was very mischievous, she was indeed a genuine Strong of Lord Stage, and Chen Xiang could only choose to believe in her. She was a little mischievous, but she was good.

"I'm not concocting for myself, I'm just helping people heal. Their dantian is gone, so I need a sacred pill to recover." Chen Xiang immediately explained.

"Oh." Feng Yujie's eyes turned as he said in shock: "There is only one type of this pill, and it is even a recipe that Dan Emperor came up with .... "I think it's called the Saint Revitalizing Pellet."

"That's right, the Saint Revitalizing Pellet." Su Meiyao sent a sound transmission to Chen Xiang, but it attracted Feng Yujie's attention. She immediately poked Chen Xiang's body, making him cry out loud.

"Brat, is there anyone hiding on you? Quickly release them. There shouldn't be an old ghost hidden, right?" Feng Yujie seemed to be angry, her jade-like hands quickly touched Chen Xiang's body.

Su Meiyao replied: "It's alright, tell Senior Sister and I to go out and explain it to her. There aren't many people who know about the Holy Recovery Pill, she should be a Pill Saint."

Chen Xiang shouted to stop the mischievous Feng Yujie: "Aunt Feng, wait a moment, I'll let them out right now, you better not bully them."

"Give them back. It seems there are quite a few of them." Feng Yujie softly snorted.

Su Meiyao and Bai Youyou immediately came out of the ring and bowed towards Feng Yujie.

"Su Meiyao, Bai Youyou said Aunt Feng."

Seeing that two beautiful girls had suddenly appeared, Feng Yujie's expression became a lot more gentle. He looked at Chen Xiang and snorted, "So it's because there are two beautiful girls hidden."

It was just as Chen Xiang had said. His dantian had been heavily injured, and only by using the Holy Recovery Pill, would he be able to recover.

Afterwards, the clever Su Meiyao told them about how they met Chen Xiang after getting injured, and that they had been waiting for this moment for a long time.

The fact that Chen Xiang had gathered all of the ingredients needed to refine the Saint Revitalizing Pellet also surprised Feng Yujie.

"Fine, but concocting the Holy Elixir will take a long time. You might not be able to wait for this time, and it's two of them at that." Feng Yujie looked at Chen Xiang and said: "Leave them here, go busy yourself with your own things. I will teach them while I refine pills."

Chen Xiang was a little reluctant, Su Meiyao and Bai Youyou were two women that he liked a lot, he felt empty inside as he was suddenly forced to leave him for a period of time.

"How about this, I'll take them in as my foster daughters. You should be able to relax now, right?" Feng Yujie laughed, his smile was filled with mischief.

Chen Xiang had a bad premonition, if this happened, when he was with the two girls in the future, Aunt Feng would definitely make things difficult for him, but Su Meiyao and Bai Youyou seemed to be very happy. Chen Xiang did not understand why these women would suddenly have such good feelings when they just met.

"Meiyao pays his respect to mother."

"Mother." Bai Youyou smiled sweetly, and then looked at Chen Xiang with a mischievous gaze.

Chen Xiang was a little dumbstruck. All of these things happened too fast and suddenly, as if they met a mischievous old woman. Then, this old woman became Su Meiyao's and Bai Youyou's mother once more.

"Alright, Aunt Feng, I'll let you raise the two of them from now on. You can also protect them, I feel a lot more at ease." Chen Xiang sincerely said.

"Of course, take out those medicinal ingredients." Feng Yujie laughed: "I like these two daughters, from now on their matters are all under my control, I am already this age, and have never been a mother."

Chen Xiang curled his lips, took out four batches of Holy level ingredients used to refine the Saint Revitalizing Pellet, and said: "There are four of them in total, three of them want you to refine them into a Saint Revitalizing Pellet, and the other one is to give you your seat compensation. Although they are already daughters, it is reasonable to say that you can save on the compensation, but they have helped me, and in the future, I will have to let you take care of them, so this is my way of being filial."

If it was a strong Ranker who was the same strength as her, suddenly taking out so many Holy level herbs, she would feel that it was more normal. But a little brat like Chen Xiang had so many Holy level herbs, it made her suddenly think of something.

"This is all produced by the Alive Slain Method." Feng Yujie took it and looked at it, then asked.

"Not exactly, but more or less. But I really need time and energy to do it." Chen Xiang looked at Su Meiyao and his sister, and gave them a complicated look.

Bai Youyou walked next to Chen Xiang, tightly embraced him for a bit, and even kissed his cheeks: "If you can't wait, you should go back to the Nine Heaven World first, at that time, I'll definitely come find you, and at that time, we won't be your burden."

"You have never been my burden. You are my spiritual support." Chen Xiang gazed at Bai Youyou deeply.

Su Meiyao also walked over and hugged Chen Xiang for a bit before snorting, "Little scoundrel, now that we're not with you, you'd better not be fooling around with flowers and grass."

At this time, Feng Yujie looked at him with a smile that was not a smile, as if he had already seen through his unruly heart. Then he smiled: "You will still be staying here for a while, you just need to rely on your pill refining skills to get some Holy stone and then go back. You can sell them all to my Divine Feather School."

"Aunt Feng, your alchemy skills should be very high. When you refine the Saint Restoration Pills, can you refine a few of them in one go?" Su Meiyao had already left his embrace and was standing together with Bai Youyou. They seemed to have already figured out that Chen Xiang had other intentions.

"How is that possible? Even the Saint Dan Emperor wouldn't be able to do it, let alone me." Feng Yujie shook his head: "Even if you want to save medicinal herbs, you can't."

Chen Xiang laughed: "I refined 80,000 Biyuan Dan, do you know how many of them I used? Although I can only refine third stage Immortal Grade Biyuan Dan and Yuxian Dan, it would be better if we competed in, and met a rare Pill Saint."

### [Chapter 1550](#)

When Feng Yujie heard that she wanted to compete with the Pill Saint in pill refining, she raised her head and laughed out loud. She knew that Chen Xiang was good at pill refining, but he had not reached the level where he could challenge her.

Su Meiyao and Bai Youyou did not think that way. They understood Chen Xiang very well, if Chen Xiang was only competing to refine a Level 3 Immortal Pill, they felt that Chen Xiang had a better chance of winning.

On one hand, Chen Xiang wanted to see the pill refining level of this Feng Yujie. Even until now, he still couldn't believe that this Feng Yujie was a Pill Saint.

Chen Xiang saw Feng Yujie's scornful and wild laughter, but he was not angry, and asked while smiling lightly, "You look down on me."

Feng Yujie retracted his smile and said: "It's not that I'm looking down on you. You're still quite good at refining those Biyuan Dan, but you're still too inexperienced to challenge me."

"It's just a competition to refine a Tier 3 immortal pill, and it won't take up much of your time. Honestly speaking, even a pill master can be considered to be in the third or ninth tier. I feel that your level might not be too reliable." Chen Xiang laughed, he was not afraid of angering Feng Yujie at all, so he intentionally provoked her.

Feng Yujie thought for a bit, then laughed: "I'll compete with you, but my time is extremely precious, if you lose, you have to compensate me with the lost time."

"What if I win?" Chen Xiang asked, this Feng Yujie obviously wanted some benefits. In Feng Yujie's eyes, he was a big spender with a pile of Holy level medicinal ingredients, although she was a Pill Saint, it was not easy for her to obtain some Holy level medicinal ingredients.

"So what if you win? Weren't you the one who issued the challenge to me?" Even if Feng Yujie knew that she wouldn't lose, she didn't want to bet with Chen Xiang at all.

Chen Xiang took out a phoenix fruit and laughed: "If I lose, this is for you. You should recognize this thing right?"

"Of course I recognize him. Let's start now then." Feng Yujie was secretly delighted. It was just as she had guessed, Chen Xiang still had the precious Holy level s and herbs on him.

Chen Xiang said: "The rules are set by me, so let's compete in refining the Biyuan Dan. The fastest is the one with the most pills out, and the one with the best quality will win, moreover the pill furnace is not allowed to be used."

At first, Feng Yujie thought that it was pretty normal, but in the end, she frowned: "You don't need a pill furnace, you sure you've already reached that stage."

"In other words, Aunt Feng has done the same." Chen Xiang smiled with confidence. Not only did he manage to do it, he could also control hundreds and thousands of Magic method furnace at the same time.

"Of course I can do it, but it's not easy. I only mastered it when I was refining a Tier 7 immortal pill. I didn't expect you to be so much more powerful than I imagined." Feng Yujie took out a large, clean carpet and laid it flat on the ground.

"I'll be the one to produce the ingredients." Feng Yujie laughed lightly and threw a Jasper gourd to Chen Xiang. This Jasper gourd was no different from the ones he had refined before. He suspected that Feng Yujie would refine some pills here from time to time.

Su Meiyao laughed: "Then let us be the judges. Are you all ready?"

Chen Xiang also suddenly became serious, and the battle intent in his eyes ignited. The two looked at each other for a moment, then nodded at Su Meiyao.

"Begin." As soon as her voice fell, Feng Yujie threw the Jasper gourd in his hands high up into the air.

Chen Xiang did not start, but looked carefully at Feng Yujie. He wanted to see clearly how the Pill Saint did not rely on his pill furnace to concoct pills.

The Jasper gourd floated above Feng Yujie's head. She opened her arms and released a snow-white flame that was like a snowball, wrapping the Jasper gourd inside.

Chen Xiang immediately activated Chaos Divine Eye, and peeked inside the white ball of fire, only to see the Jasper gourd quickly being refined, and upon seeing this scene, he immediately released his Magic method furnace. He could already see that Feng Yujie's refinement technique was extremely fast, and was probably not slower than him, if he did not hurry up to refine it, he would probably be slower than her.

Feng Yujie was extremely interested in Chen Xiang. She had planned to see how Chen Xiang would refine the pill from the very beginning, but who knew that Chen Xiang would actually not take action. Instead, he would look at her.

"Using divine power to create a pill furnace is indeed a method. Indeed, it requires divine power to do so." Feng Yujie had thought of doing this before, but she felt that it would be slower, so she thought of a way herself.

Chen Xiang placed the Jasper gourd into the transparent Magic method furnace, released the Five Elements Sacred Flame, and burned the Jasper gourd.

While it was being burned, the Five Elements Sacred Flame gave off a dazzling and beautiful multicolored light. The heated Jasper gourd also continuously emitted a dark green light, orbiting around the pill furnace, allowing people to clearly see the changes inside the pill furnace.

As Feng Yujie refined her own Biyuan Dan, she also observed Chen Xiang carefully. To her, Chen Xiang's method of refinement was extremely novel, and there were many things that she could learn from him.

"Five Elements Sacred Flame. Your control over fire has already surpassed that of many Alchemists." Feng Yujie could not help but exclaim. From the beginning to the end, Chen Xiang seemed to be extremely outstanding, as though he was truly a good seedling. However, she did not think that Chen Xiang could defeat her.

Although Chen Xiang had defeated her, he didn't think that he would win any treasures. He only had a vengeful heart, because Feng Yujie had teased him before and looked down on him.

"Aunt Feng, you are going to lose." Chen Xiang laughed. He had already condensed a very strong divine power and flames, storing them in his body. As long as the Jasper gourd started to move, he would be able to use Divine Flame Flash Technique to instantly refine the Jasper gourd.

Feng Yujie did not think so, and laughed: "Aren't you making your judgement too early, I am preparing to enter the Core Formation stage, and you have just started practicing, you should still be very young, no matter how proficient your control over the Foreseeing Alchemy is, you are not as proficient as me."

Chen Xiang laughed loudly: "That's right, my control over the Foreseeing Alchemy is actually very weak. I can only use the Foreseeing Alchemy to refine the Ground level pills, it's been many years since I've used the Foreseeing Alchemy to refine pills."

As he finished speaking, a ray of light suddenly shot out from his palm into the inner part of the Jasper gourd, and at the same time, it entered the Five Elements Sacred Flame. The slightly swaying Jasper gourd was struck by the God Power and flames that he had condensed, causing a burst of strong green colored light to burst out, enveloping the entire stone room in this dark green colored light.

When Feng Yujie saw this scene, her expression suddenly changed. That sudden event happened too fast, and before she could even react, she saw that a ball of air had already appeared within Chen Xiang's Magic method furnace.

Now, even though an hour had not passed, and it had only been a short moment, Chen Xiang had actually refined a Jasper gourd and directly entered into the Core Formation stage.

This was Chen Xiang's superb performance. Whenever he was competing with others, he would perform better than usual.
