

Dan God 1571

[Chapter 1571](#)

The Ice Dragon Race lived in an extremely secretive ice mountain cave. Chen Xiang and Huang Jintian were currently in one of the ice mountains.

"Senior, according to the Green dragon demon-slain broadsword's guidance, the Emperor's Tomb should be here, where's the entrance?" When Chen Xiang came in, the Green dragon demon-slain broadsword was already very restless.

"This is the entrance." Long Da said, "When I brought you in earlier, you all should have seen a very large passage, that is the direction to the Emperor's Tomb. If you really want to go, we must immediately leave this place, because when you trigger the mechanisms inside, it will cause great damage to the surroundings."

"Is this what Senior Long Han said?" Chen Xiang asked.

Long Han was the Ice Dragon Grandmaster of the Ice Dragon Race.

Yes, only those who have obtained the approval of the Green dragon demon-slain broadsword can safely enter the Emperor's Tomb, not even by accompanying them. " Long Da smiled with gratitude: "We have waited for you for a long time. Since you are able to come now, you must have already possessed a certain level of strength to enter the Emperor's Tomb. Our mission is also complete, we can leave this place."

Afterwards, Chen Xiang told Long Da about some of the things that happened outside. He mentioned the Ice Dragon Race that Long Huishan was currently leading, and suggested that the ice dragons should meet up with Long Huishan and the others.

Chen Xiang did not mention that his Evil Dragon Graveyard was about to be surrounded. The Ice Dragon Race here had just lost a lot of clansmen, Chen Xiang did not want them to fall into war again.

Long Da accepted Chen Xiang's suggestion. After leaving here, he went to find Long Huishan.

"Right, I heard your clansmen mention that the Thunder Dragon and Fire Dragon had helpers, could they be from the Imperial Dragon Race?" Chen Xiang asked.

With a worried look on his face, he said, "They aren't from Imperial Dragon Race, they're from some places called the Heavenly Regions. There are also dragons in those Heavenly Regions, and a group of dragons from Imperial Dragon Race went to that place back then.

In the past, the dragon race was very powerful and flourishing, but after the green dragon left, it was still as powerful as before. In the end, the White Dragon bloodline was destroyed, the jade dragons withered, and the other old dragons of the Imperial Dragon Race were able to relax and bring a group of outstanding and powerful dragons to the Heaven Realm to develop. The Emperor Dragons in the Nine Heaven World are not as powerful as the ones in the Heaven Realm.

Long Da said, "The dragon race of the Heavenly Realm should be called Heavenly Dragon Race. The Thunder Dragons and Fire Dragons they sent here should have quickly sensed your death, so you should

quickly enter the Emperor's Tomb. At that time, even if they can enter, I'm afraid they won't be able to do anything to you."

"If the Heavenly Dragon Race's base camp comes here, then we won't be able to withstand it ... The ancient book left behind by the Frozen Dragon Ancestor has told us that there is a high chance of a new Dragon Emperor being born in the Heaven Realm. "

Chen Xiang knew very well what kind of place the Heaven Realm was. The Feng Yujie he met in the Sacred Domain was a human emperor level person, his strength was comparable to the Nine Emperors and Five Venerables in the past, and there were new Dragon Emperors that had been born in the Heaven Realm. Chen Xiang was not surprised at all.

"Even if there isn't a new Dragon Emperor there, we can be sure that back then, the Dragon Emperor was also inside there. There are still quite a few people in the Nine Emperors and Five Venerables."

Huang Jintian nodded: "Back then, because Ten Heavens Supreme Lord was targeted by Hell Devil Emperor, Nine Emperors and Five Venerables was also worried about themselves, so they all escaped and took refuge in those Heavenly Realms."

"Dan Emperor, Fire Emperor, Ice Emperor, Dragon Emperor, Sword Emperor, Demon Emperor, Demon Emperor, Evil Emperor, Star Emperor. These are the Nine Emperors of the past. Ice Emperor has confirmed his death. "

"Ice Emperor is dead." Long Da felt extremely shocked: "Back then, I met him here and fought a big battle with him. Since he was injured and was no match for me, it's extremely difficult for me to kill him. Even the Ten Heavens Supreme Lord back then wasn't able to kill him."

Huang Jintian looked at Chen Xiang: "It was all done by this brat, but he didn't use any proper method."

Chen Xiang laughed awkwardly: "I was just lucky ... Oh right, there are those in all five of Nine Emperors and Five Venerables. "

"I only know of Senior Dan, Senior Lei, and Senior Soldier. Senior Dan is the Dan Emperor and the Senior Soldier should be a Divine Craftsman. The remaining two are said to be very secretive." Huang Jintian said, this was what he had seen from the ancient book.

Long Da also knew a little bit, and said, "The Demon Emperor, Sword Emperor, Demon Emperor, and Star Emperor, these four are all neutral. Back then, they did not participate in the encirclement and annihilation of the Ten Heavens Supreme Lord, which made them semi-disabled. Although Senior Dan, Divine Craftsman, and Supreme Thunder are very strong, they are all just carefree wild cranes that don't even know if they will appear in the future."

"How about the Dragon Emperor?" Chen Xiang asked, "Is it your Frozen Dragon Ancestor?"

Long Da shook his head. "Dragon Emperor seems to be a woman I am not too sure about the specifics, but it is said that she is the only woman in the Nine Emperors and Five Venerables, and she is also a very ancient dragon. Just like the Azure Dragon, she is also the first ancestor dragon to be born in this world. "

The corner of Chen Xiang's eyebrows twitched, this was obviously Long Xueyi, the Little Naughty Dragon.

"Could it be a white dragon?" Huang Jintian said with a frown. He knew that Chen Xiang was related to a white dragon.

That Heavenly Dragon Supreme Lord seems to be a white dragon, an ancient legend of our Dragon race. Back then, when the heavens and earth were just born, many different types of dragons were born, and each type of dragon had nine different types. Long Da replied, "Because of this, the White Dragon Clan was the most powerful clan back then, and they ended up in a miserable state."

Huang Jintian sighed, "I wonder if the Heavenly Dragon Race above the Sky Region will come down. You have a dragon vein, you will definitely be targeted by them."

The revived Di Tian immediately possesses the power of the Holy Spirit. Looks like it will be very troublesome. If the Heavenly Dragon Race really comes to steal your dragon fountain, there will be at least two fellows in the Nine Emperors and Five Venerables who will have to come out to help you block it. "

"Let's not talk about this for now, I'll go to Emperor's Tomb to take a look." Chen Xiang frowned. Right now, there were a few Sky Region experts secretly assisting those great powers to attack his Evil Dragon Graveyard, which put him under a lot of pressure. If his Heavenly Dragon Race appeared again, he didn't know how to respond.

Long Da brought Chen Xiang to the passage leading to the Emperor's Tomb and said: "After you go in, wait for a while at the entrance. Once we retreat, you will retreat through that door and when you feel three consecutive tremors, we can begin."

Chen Xiang nodded and walked into the pitch black passage.

Huang Jintian and Long Da quickly left. When Long Da brought Chen Xiang back, he told the other six ice dragons to gather the other tribe members and prepare to leave.

[Chapter 1572](#)

Chen Xiang entered the depths of the passage and took out a Night Illumination Pearl to illuminate the way ahead. He saw a black metal door in front of him, and in the middle of the door was a mighty lion sculpture. Ten Heavens Supreme Lord was a lion sculpture, so it wasn't strange that the door of his tomb had this sculpture.

"Only the new owner of the Green dragon demon-slain broadsword can enter. I wonder why Ten Heavens Supreme Lord has arranged this."

Chen Xiang looked at the door carefully. He suddenly felt that some of the facilities related to the Ten Heavens Supreme Lord, including the passage below the You Ming Deep Abyss that led to the core of the earth, were all constructed by Divine Craftsmen.

When he entered the Sacred Domain, the teleportation station needed Green dragon demon-slain broadsword s to activate it. From the words the Divine Feather School's Leader had said, he could deduce that they had been to those Heaven Regions before.

"Seems like the relationship between the Divine Craftsman and the Ten Heavens Supreme Lord is not bad." Chen Xiang took out the Hammer of God. "Why did he leave behind such a precious thing?"

The Devil-suppressing Heavenly Venerable was the same, the Holy Devil-suppressing seal and Demon Suppressing Pagoda were both powerful things, the dagger left behind by the Demon Emperor, and the two divine swords left behind by the Sword Emperor ...

Back then, the Nine Emperors and Five Venerables had almost always kept the precious weapons and treasures that he carried with him. This had always been difficult for Chen Xiang to understand.

"Next time, ask White Tiger. I wonder if Master and the others have recorded anything down in the ancient books of the Undead Race." Chen Xiang thought, he felt that there must be a reason. After all, it was all part of his hard work, and he wouldn't give up unless he had no other choice.

Chen Xiang, who was patiently waiting, finally felt a slight tremble in the ground. After shaking it three times, this was the signal Long Da gave him.

Chen Xiang took a deep breath in and looked at the dignified and serious door: "We can finally begin."

He was also a bit afraid. The Thunder Dragon had said just now that with his current strength, he would be courting death if he were to enter.

"Hopefully, I can find a chance to turn the situation around here and let my Dragon Subduing School pass through this difficult time." Chen Xiang rubbed his fists, then placed his palms on the gigantic iron gate and pushed it open with force.

The door was very heavy. He used his divine power to open it just enough for him to walk in.

It was still pitch black when he entered through the gap in the door. Not long after he entered, the door closed behind him, making his heart pound wildly. He could only continue on this path.

If it was in the past, when Su Meiyao was accompanying him and helping him, he wouldn't have felt too nervous when facing such a dangerous situation. But now that he was alone, and it was the first time he had been in danger by himself, what he feared wasn't danger, but the fear of dying alone.

He steadied his beating heart and took out a Night Pearl, wanting to illuminate the inside. But the strange thing was, although the Night Pearl was emitting an intense light, it was still surrounded by darkness.

"I'm in a completely dark space. Everything around me is pitch black." Chen Xiang thought that after going through that door, they would still be in the ice land.

He took out the Green dragon demon-slain broadsword, but the Green dragon demon-slain broadsword did not give him any more directions. He could only take the Night Pearl and shine a little bit of light, to ease his heart, and then he walked forward.

"This Emperor's Tomb is truly not simple, this kind of method must definitely be made by a Divine Craftsman. So it turns out that the ones who brought the Ten Heavens Supreme Lord's corpse here all those years ago were not only the Ice Dragons and Super Old Fire Beast, but also a Divine Craftsman." Chen Xiang was very sure that this pitch-black space was a type of formation on top of that Divine Book, it was the state of a profound Realm.

After advancing for a short while, he suddenly saw a speck of light in front of him. This caused him to be incomparably excited, and he quickened his pace to rush over. He was sure that the speck of light was the exit.

"This place can't even be considered a Emperor's Tomb. It should be a special space to protect the Emperor's Tomb." Chen Xiang thought, he was very close to the exit, there was a cave in front of him, but that light was not coming from the sun.

He entered the cave and arrived at a wide passage constructed with shining white jade. It was large enough for ten people to walk through side by side.

This passage was three hundred meters long, and Chen Xiang had good eyesight. When he entered the passage, he saw a white stone door, and carved on it was a white stone door, a white lion head, with a mouth wide open, and a control over it, he was able to insert his Green dragon demon-slain broadsword in. Only by opening the door, the Green dragon demon-slain broadsword could be considered to have truly entered the Emperor's Tomb.

Chen Xiang was already a little excited. He had been in this place for so long, yet he had not encountered any danger. He felt that if he used Green dragon demon-slain broadsword s to enter the Emperor's Tomb, it would definitely be unimpeded.

This passage was made using a few jade bricks. When Chen Xiang walked quickly towards it, he suddenly felt that he had stepped on a jade brick.

"Crap." Chen Xiang's heart went cold, he knew that he had stepped on a mechanism, so he immediately released his God Power to cover the surroundings.

"It's coming. What is it?" Chen Xiang was shocked. It was because something had suddenly appeared out of nowhere.

What had shot towards him was a green bead. When Chen Xiang had discovered it, he had used a palm strike that had been condensed from divine power, striking the green bead that was sixty meters away from him with lightning speed.

BOOM *

He hit the green bead, but it exploded into a powerful energy wave.

Although the tunnel was spacious, it seemed extremely small to the powerful energy waves that erupted. However, the tunnel was extremely sturdy and it only shook slightly, not causing the slightest damage. Instead, the energy waves that exploded out struck the tunnel throughout the sky and gathered together, causing the strength to become even more frightening.

"What a pain in the neck." Chen Xiang stood there, unmoving, and allowed the energy waves to strike him. The profoundwu diamond armour on his body had already appeared, and the dazzling Black Tortoise Armor felt the strong attack approaching, and the light became even brighter.

He was overjoyed. This was exactly what he wanted, but when he got close to the door, the door opened and a burst of elastic force actually burst out, sending him flying back, smashing into the energy wave and causing his body to feel like it was falling apart.

The energy wave dissipated and he fell to the ground. His heavy body pressed down more jade bricks. He cursed in his heart as he triggered a few more traps.

This passage was extremely sturdy in many ways. The intense explosion from earlier did not damage this passage. However, a large part of the iceberg above was destroyed by the explosion, and the ground began to crack.

Before Chen Xiang could dodge, his body was struck by the green beads flying towards him. A few strong explosions occurred at the same time, causing Chen Xiang to scream in pain as he spat out a mouthful of blood.

He, who had been blown away by the explosion, stabilized his body after the energy wave had dissipated. He did not want himself to fall to the ground, so as to not touch any of the mechanisms again, he had suffered severe injuries just by standing at the door. He had no choice but to eat a piece of the Jade Dragon Flower's valve and a dozen or so Biyuan Dan s to heal his injuries.

[Chapter 1573](#)

"What a crazy mechanism, those green pearls are all profoundhan poison."

He was sure that these were profoundhan poison s. He looked at the jade bricks on the ground and saw that there were thousands of them, but they were still untouched. If these jade bricks were all made from mechanisms, then wouldn't that mean that there were hundreds of beast cores of Holy ice frog s here?

At this time, he was extremely grateful to the Devil-suppressing Heavenly Venerable, and had him cultivate the Devil-suppressing Golden Body. Otherwise, even if there were profoundwu diamond armour s, his 100 lives would not be enough to die.

"All those Holy ice frog's beast cores have been specially refined, and will explode the moment they meet a person. Could it be that it was refined using the Heavenly Alchemy?"

Chen Xiang looked at the passage. The creator of the passage was definitely a Divine Craftsman, and the one who created the green explosive beads was the Ten Heavens Supreme Lord. The two of them had set up this passage together, it would be impossible if it wasn't powerful.

He floated above the tunnel and returned to the area where there were no traps. He took out the Green dragon demon-slain broadsword and it emitted a green light which shone onto the jade bricks at the top and he could see that there were some arrows on them, indicating to pass through them. Chen Xiang blamed himself for being careless.

He took a few days to recover from the healing panacea and the Biyuan Dan. Circulating his energy, he floated himself up and slowly approached the white door with the Green dragon demon-slain broadsword in his hands. This was because there was a shield in front of the white stone door, which had bounced him off once before.

However, the Green dragon demon-slain broadsword could pierce through the protective shield. He aimed the Green dragon demon-slain broadsword at the white lion head's mouth, and just as the tip of the blade was about to pierce through, he suddenly felt a terrifying power coming from behind him.

"Don't even think about going in."

He had thought that his attack from a distance just now was enough to kill Chen Xiang. Unexpectedly, profoundwu diamond armour suddenly appeared from Chen Xiang's body, and the powerful force that he had unleashed had assaulted Chen Xiang's body, causing Chen Xiang to insert the Green dragon demon-slain broadsword completely into the mouth of the white lion head.

Chen Xiang, who had just recovered from his injuries, was severely injured, and it was even more severe than before. Even his strong golden bones were shattered quite a bit, not to mention the weaker flesh, Qi and meridians.

He turned his head to look and saw a middle-aged man dressed in black clothes. His entire body was filled with dragon Qi and it turned out to be a very powerful Thunder Dragon.

"You actually have a profoundwu diamond armour." The middle-aged man in black was filled with jealousy. A Divine Weapon and Divine Armor were both in the possession of his peers. As long as it was one of these experts, they would all be jealous.

"I can't let you live." The black clothed middle aged man roared sinisterly and threw out a palm strike. That streak of lightning was extremely thick and filled the entire passageway, like a bolt of lightning that had turned into a dragon, roaring crazily as it struck towards Chen Xiang.

Chen Xiang was shocked, he immediately channeled all the strength in his body to protect himself. If this palm strike landed on him, even if he didn't die, he would still be crippled. Just as he was panicking, the white lion head suddenly flashed and turned into a white whirlpool, sucking Chen Xiang in.

BOOM *

When the lightning dragon hit the stone, the entire tunnel only trembled slightly without any damage. At the same time, it triggered all the mechanisms here, as hundreds of green beads suddenly appeared out of thin air, surrounding the middle-aged man and exploding at the same time ...

After Chen Xiang was sucked into the gate, he arrived at a grassland. In front of the Prairie, there was a huge Lion Mountain, who looked like a fine and meticulous stone lion lying on the ground. That design of the Lion Mountain looked extremely similar to the hundred thousand Lion Mountain s in the Ten Thousand Heavenly Sacred Mountain, but there was only one of them, and there were no trees growing on top of it.

"I almost died, that should have been the powerful Sky Dragon. Little Naughty Dragon didn't cause any trouble in Nine Heaven World, could it be that she went to the Sky Region where Heavenly Dragon Race is?"

Chen Xiang was suddenly very worried about her, because Heavenly Dragon Race who had been developing in the Heaven Realm for so many years would definitely be very strong.

He laid on the ground and looked at the blue sky. He realized that the clouds were all lion shaped, and then he looked at the blazing sun, like a lion's head burning in flames. This space was obviously custom-made for Ten Heavens Supreme Lord.

"Just what is the relationship between a Divine Craftsman and a Ten Heavens Supreme Lord like this? It seems like the relationship is definitely not ordinary."

Chen Xiang squinted his eyes and looked at the glaring lion head scorching sun. He suddenly felt a little afraid, because this space was extremely terrifying.

"Emperor's Tomb is indeed not ordinary."

After eating two pieces of the Jade Dragon Flower Flap, Chen Xiang stood up with difficulty. Looking at the gigantic Lion Mountain, he saw that the lion head that had just been raised had a giant hole in its mouth.

Chen Xiang did not dare go over immediately. He was currently covered in wounds, and needed some time to recover from them. These two injuries almost took his life, and with Long Xueyi not by his side, he had to be extremely careful, and almost died twice along the way.

"Master, this old lunatic must still have something that he didn't tell me. That Devil-killing Summit didn't mention it either. The Devil-killing Summit that was established beside the gates to hell must also have some kind of enormous secret."

Chen Xiang sat on the soft grass as he thought about all kinds of mysterious things. He felt that these secret things were all related.

In order to prevent triggering the mechanism, Chen Xiang held onto the Green dragon demon-slain broadsword the entire time, not daring to take it back. He spent twenty days to completely recover, and was glad that his own dantian had merged with the Divine Sense Sea's, if not the powerful lightning strike from the Sky Dragon would have destroyed his dantian.

Compared to the strong Sky Dragons of the Realm of Flame Heaven, Chen Xiang was still too weak.

"I hope Emperor's Tomb can bring me a pleasant surprise." Chen Xiang hacked at the Green dragon demon-slain broadsword and waited until daybreak before carefully walking over to the gigantic Lion Mountain.

Their gigantic bodies could not be seen, and these huge dragons circled in the sky, blocking the sky as they constantly spat out terrifying energy along with their earth-shaking dragon roars, aiming for the huge black door. However, the huge black door did not move at all, as if it was hard to break through.

Even with more than ten Sky Dragons attacking together, they were unable to break through the outermost defense. This showed just how powerful the defense of the Emperor's Tomb was.

"If we don't break through the spatial defense outside, we will be unable to use our original body to attack inside. The inside is filled with profoundhan poison s, and it will be hard for us to defend without using our original body."

"Then let's continue."

The ten plus heavenly dragons attacked the black door again, this time they used even more power, causing a large part of the ice mountain inside the profound Cold Ancient Realm to shatter, the entire profound Cold Ancient Realm was enveloped by the shocking dragon's roar.

[Chapter 1574](#)

Chen Xiang who was inside the Emperor's Tomb did not know that a group of Sky Dragons was attacking him from the outside. He was extremely quiet inside, and the crazy attacks from the outside could not shake the Emperor's Tomb.

Chen Xiang walked towards the Lion Mountain. He walked slowly, maintaining his vigilance in all directions. It was simply too quiet here, the Lion Mountain looked somewhat scary, so he had to be on guard, in case he accidentally activated some traps.

This was not a very long road, but he felt that it would take a long time to walk it. When he arrived at the bottom of the Lion Mountain, he was already sweating profusely.

"He's actually fine." Chen Xiang turned his head to look at the path he took before, he was still in a state of shock, and he did not know why, but the closer he was, the more pressure he felt, and the harder it was for him to breathe.

He was about to climb onto the lion's head and enter the Lion Mountain from its open mouth. Just in case, he did not even use a spatial travel, afraid that it would cause some movement and trigger some terrifying mechanism or attack array.

After resting in place for a while and sweeping away the nervousness, Chen Xiang carefully controlled the God Power in his body and levitated himself up. He wanted to use such a gentle method to reach the lion head, but as soon as he started to levitate, he felt a huge pressure pressing down on him, pushing him down to the ground, causing him to sink into the mud.

"What's going on?" Being struck by the strong pressure that suddenly appeared, Chen Xiang was terrified in his heart. At this time, the pressure was still on his body, so he was unable to turn around.

After a while, the pressure dissipated, and Chen Xiang, who had been struggling this whole time, was finally able to sit up, gasping for breath. Just now, he was pressed down by the force, making him unable to resist, as if he was pressed down by an expert, unable to move at all.

"Do I have to climb up?" Chen Xiang looked up at the sky, the thought of jumping in his mind had already been dispelled.

However, this was only seen from Chen Xiang's current location. He planned to first circle around this Lion Mountain, and look for any other convenient places to climb up to. Otherwise, if he wanted to climb up, he would have to suffer for a very long time.

Before he could complete his detour, he saw a straight flight of stairs at the location of Lion Mountain's legs. It looked to be the top of Lion Mountain and there were many levels of stairs, but it was nothing for Chen Xiang.

He wanted to use the Heaven tour method to explore the way, but thinking that this place was abnormal, he didn't dare to recklessly try it out, in case it led to some unnecessary disaster.

He began to climb the stairs. The top 100 steps were still easy to walk on, but after passing the 100th step, his feet suddenly became very heavy. It was as if there was a huge mountain pressing down on his shoulders, making it difficult for him to move.

"It really isn't that simple." When Chen Xiang climbed up the 300th step, he was already panting heavily, his legs were weak, and this flight of stairs still had a long way to go.

"Is that all my strength can do?" Chen Xiang looked down. The distance to the ground was very low, he had not walked very far, but he was still very tired. He also discovered that every hundred steps, the pressure he had to bear would increase, and he was unable to estimate how much pressure he would have to endure when he reached the top.

He took a few deep breaths and then continued to tread with heavy steps up a flight of stairs. As he walked, he started to sweat profusely.

Five hundred steps ... He could no longer walk down any further. He could only sit there and rest, planning to wait for his recovery.

He took out a few Holy stones and quickly absorbed the pure holy spirit energy inside to recover the almost exhausted spirit energy. Just as he was about to start his recovery, he suddenly frowned, he sat on one of the stairs and looked down. He carefully counted the steps, he was only on the 450th step.

"Damn, this Heaven Stairway will move. Don't tell me that it won't allow me to stop and rest?! Isn't this bullying too much?" Chen Xiang carefully looked at the stairs, while absorbing the holy energy from the Holy stone, and then a while later, indeed he saw several tens of stairs shrink into the ground in a very strange way, and he couldn't feel it at all.

"Looks like I can't stop. If I continue to rest, I'll return to my original spot." Chen Xiang took out a Holy Beast Core and activated Devouring magic kungfu, swallowing a large amount of pure Holy Spirit Qi inside it to make up for the energy he had lost.

He continued to climb the mountain, and just now he had not rested for long, as if he had ascended the 100th step for nothing, absorbing the Saint Force to replenish his energy, while gritting his teeth to ascend this strange Lion Mountain. Although the pressure was getting heavier and heavier, he could not stop, and could only desperately climb up, otherwise he would not be able to enter this Lion Mountain.

This Emperor's Tomb that was specially made for this purpose had sun, moon, and stars. With each day and night, Chen Xiang left from noon all the way to night and only climbed one thousand steps.

"I still don't know how many years it will take before I can go up. Isn't it just entering a Emperor's Tomb? Why are you tormenting people like that?" Chen Xiang secretly groaned in his heart. If he knew that this was the case, he would not be coming, because his Evil Dragon Graveyard would be surrounded soon. If he stayed here for too long, when he returned, all the yellow flower vegetables would be cold.

At that time, everyone would be resisting the attack, and he would be the only one missing. He felt extremely sorry for that.

If there was a way out, he might turn back right now, but after he entered this space, he couldn't find a way out. His only hope was to stay in the lion's mouth, but to get there, he had to climb this Heaven Stairway.

The gigantic Lion Mountain was very tall, and the white clouds floating in the sky were not even half as tall as the mountain. He roughly estimated that if one was to reach the top, this staircase had to be around 100,000 steps high.

If it was an ordinary staircase, he would think that it was nothing, not to mention a hundred thousand or even a million, but the stairs in this place were extremely deadly. It was as if he was carrying a mountain as he climbed, and it was getting heavier and heavier.

He looked at the stairs and groaned in his heart: "At my current speed, who knows how many years it will take for me to reach the top, I have already been in profound Cold Ancient Realm for one month, and in about four months, those big powers will attack my dragon fountain. At that time, maybe Sky Region will join in as well, if Heavenly Dragon Race comes, I hope they won't do anything and just run away."

When he thought about the Heavenly Dragon Race, Chen Xiang thought of the unknown Long Xueyi and sighed inwardly: "I never thought that this Little Naughty Dragon was really the Heavenly Dragon Supreme Lord. She will definitely be very strong in the future."

[Chapter 1575](#)

"If she knew, would she despise me, saying that I have to climb this ladder for hundreds of years?" Chen Xiang thought about this and his heart felt uncomfortable. In his mind, he could not help but think of Long Xueyi's mocking words.

"You can't even climb this stairs, and you still want to be the man of the Heavenly Dragon Supreme Lord?"

Chen Xiang shook his head vigorously and stood up. Under the shine of the moonlight, he looked at the stairs in front of him and gritted his teeth as he let out a wild roar. Then, he used all his strength to walk up.

"My strength is not only limited to this, the mysterious soul inside the Killing-god heart had once used my body to slash out such a terrifying sword strike, but I was unable to do it myself, even now, the gap between my and that sword is huge. It can be seen that I have never been able to unleash my own strength."

Chen Xiang's expression was firm, he felt that this was a very good opportunity, as this object could clearly squeeze out all the energy that he had yet to release. He firmly believed that if he could complete this Heaven Stairway, his strength would definitely increase by leaps and bounds, and he might even be able to defeat enemies that were stronger by a few levels.

"I want more power." When Chen Xiang climbed these stairs, he was no longer tired, but instead, he felt pain all over his body. Every time he climbed a step, he felt as if his body was going to split open from the pressure, it was extremely uncomfortable, but he endured the pain and endured.

Previously, he was sweating, but now he was bleeding. Fortunately, he had Yulong blood s, and they were able to quickly repair his cracked skin due to the strong pressure.

Even he couldn't believe it was possible for him to walk so fast. Although the whole way here was painful, as if he was going to die at any moment, he was not dead yet, and was only forcefully resisting the pressure, causing some injuries both inside and outside of his body.

"We have to continue, try our best to enter the Emperor's Tomb in the shortest amount of time, and find a way out."

Under his incomparably firm will, this Lion Mountain seemed so small to him. The pain on his body made him feel as if he was itching, and he firmly believed that he would be able to reach the top of the mountain in a short amount of time.

The staircase was already dyed red, Chen Xiang had not rested, and the staircase did not sink into the ground either. Blood and sweat were sprinkled all over this terrifying heavenly body, making this originally very terrifying Sky Stairway even more strange.

In this kind of frightening exhaustion and trauma, Chen Xiang had no choice but to continuously swallow Blood ginseng, Phoenix Fruit, and Blood Exquisite Fruit, these medicinal herbs that could mend blood and heal injuries.

The more he climbed up, the stronger the pressure became, but Chen Xiang was also working even harder. No matter how much more pressure he felt, he could always maintain his speed, and even if he tried to climb up, he wouldn't let his speed slow down.

His clothes had already been drenched in blood. After drying up, his clothes were melted by hot sweat, falling onto the stone steps and solidifying in the middle of the Heaven Stairway.

It had been eleven days since Chen Xiang stepped on the stairs. At this time, the sky had just lit up, and he, covered in blood, had climbed to the top of the mountain with much difficulty. He saw the lion head sun above the clouds currently blooming with beautiful and warm multicolored light that shone on his body, causing him to feel the pain and exhaustion in his body weakening bit by bit.

"I'm finally up." Chen Xiang looked at the endless sea of clouds, shining brilliantly under the sunlight, like a raging flame.

He sat cross-legged on a piece of flat ground, watching the lion head rise slowly into the sky, and walked forward, especially for the last 1000 steps, every time he climbed a step, the strong golden bones in his body would crack, but the Yulong blood was able to quickly repair it. He did not know how much his current strength had increased, but what made him happy was, the Yulong blood was that under this kind of constant and frequent recovery situation, he was able to train himself to a very fast rate of recovery.

The top of Lion Mountain did not have that kind of pressure. He ate some pills, took out a few Holy stones and placed them beside him.

"What's going on?"

The island was at least ten times larger than before, and the stars in the sky were much brighter than before. He called out the five beast-shaped Heavenly Pills that were originally as big as kittens, and now that they were a size larger than before, there were two halos spinning around their bodies.

"Two laps, this is the Second Cycle of the Sage Transformation." Chen Xiang looked at the terrifying Heaven Stairway. He did not expect that in just a short ten days, he would be able to step into the Second Cycle of the Sacred Transformation. Not only did this stimulate his undeveloped powers, it also increased his cultivation by a stage.

His current strength was undoubtedly a lot stronger, which made him feel that the pain he had to bear from climbing the Sky Stairway was worth it.

After resting for a few days, he walked towards the raised head of the lion. There was a small path that led to the mouth of the lion.

"What's next?" suddenly had some expectations in his heart, he had benefited greatly from passing the Lion Mountain's test. Now that he was getting closer to the Emperor's Tomb, he did not have much hope for the things inside the Emperor's Tomb, but cared a lot about the test that made him stronger.

"No matter what, I will not be afraid." Chen Xiang clenched his fists and stepped onto the small path. He flipped through the rows of teeth in the lion mouth and went inside the huge mouth.

Chen Xiang looked around to see if there were any mechanisms or traps in the surroundings, but he did not discover anything. He took out the Night Light Bead and injected his energy, causing it to emit a strong light, and then walked into the tunnel.

It was very quiet along the way. Chen Xiang's footsteps were light and gentle, making no sound at all. This made him feel even more terrified as he walked through this terrifyingly quiet and pitch-black tunnel.

Because he was going down, he only took two hours to reach the bottom. Under the light of the Night Illumination Pearl, he saw a stone door of normal size. In the middle of the stone door, there was a small lion head opening its mouth.

This was also where the Green dragon demon-slain broadsword was inserted into to open the door, but the Green dragon demon-slain broadsword was extremely huge and was unable to be inserted. Chen Xiang could only make the Green dragon demon-slain broadsword become thinner and pierce into the keyhole.

With a flash of the stone door, it created a strong suction force that sucked him in, just like the time in the white tunnel.

"What is it this time?" Chen Xiang came to a brightly lit round hall. The four walls of the hall were all covered with tall and thick golden stone pillars with carvings of dragons, phoenixes, lions, tigers and other huge beasts.

In the middle of the Main Hall, there was a circle of black stone slabs filled with profound Spirit grain s.

"What is this place?" Chen Xiang said to himself. He looked around, trying to find a door or something.

"Where I want your life, prepare to die as soon as possible."

Hearing this voice, Chen Xiang was shocked in his heart. If it was another voice, he might not be so shocked, because the voice just now and the tone in which he spoke were exactly the same.

[Chapter 1576](#)

Not long after the voice appeared, a person who looked exactly like him stood in front of Chen Xiang. He was dressed in black, his expression was cold, and in his hand was a long sword with a green dragon carved on it.

"Azure Dragon Sword." Chen Xiang was shocked, this was one of the Seven Dragons Swords, Long Xueyi had said before that this was an existence which was closest to the divine sword, if the user was strong, they could fight against the divine blade.

"That's right, although the Green dragon demon-slain broadsword in your hand is stronger than this sword, in your hands, it is like a piece of wood." The person who looked exactly the same as Chen Xiang said.

"Who are you?" Chen Xiang originally thought that this was an illusion but it was actually so real. The person who looked exactly like him seemed to be extremely powerful.

"I am not a person. I am only protecting a Spirit Body here, but I have a very terrifying ability. It is to become exactly the same as others, including having the same strength as him, but I will definitely be stronger than you because I can use all of my power and you can't." The man sneered.

Chen Xiang held onto the Green dragon demon-slain broadsword, and vigilantly looked at this fellow who had the same face as him. Just now, the other party had threatened to kill him.

"So you're saying that you've become a lot of powerful people before, so why didn't you turn into those powerful people to deal with me?" Chen Xiang asked, holding onto the divine blade tightly.

This talent of mine can only be used once. I was captured here to wait for the first person to enter this place, then to become him, to kill him, to obtain his soul, to become him. This is the only way I can leave this place, I have already thought of a name for myself. That Zhou Fei laughed, his face full of confidence: "Although you are very weak, you still managed to climb the Heaven Stairway with difficulty. Luckily you managed to climb it, otherwise, I do not know how long I would have to wait."

Chen Xiang already understood that this strange spirit body was just a trap placed here, waiting for him to come.

"You want to become me? Dream on, you have the same strength as me, but you don't have the same soul as me. You have the same impossibility of becoming me, and I will absolutely not give you a chance." Chen Xiang was not one bit afraid of Zhou Fei.

"Haha ..." Zhou Fei raised his head and laughed maniacally. The Azure Dragon Sword in his hand continuously flashed. He was quickly pouring a terrifying divine force into it.

Chen Xiang was very familiar with that power, it was from his body, as though it was extracted from his body. If he did not see it with his own eyes, he would not have believed that such a strange spirit body existed.

"Thank you, for granting me such a satisfactory power, thank you for allowing me to obtain the Heaven Earth Killing Method, this is a peerless divine art, haha ..." As Zhou Fei spoke, he had already disappeared.

Sensing the spatial energy, Chen Xiang was greatly shocked in his heart. This Zhou Fei was actually able to completely duplicate his energy, and was even able to use the power of spatial laws. What surprised him the most was that after Zhou Fei became his replica, he also managed to grasp the Heaven Earth Killing Method.

Chen Xiang suspected that his soul had been copied by Zhou Fei.

"There can only be one me in this world." Zhou Fei's maniacal laughter echoed in the luxurious hall, "So you must die."

Just as Chen Xiang was slowly spinning, Zhou Fei suddenly appeared in front of him. The green dragon sword in his hand that had been infused with his powerful god power had already pierced into his heart.

The profoundwu diamond armour on Chen Xiang's body suddenly appeared, but Zhou Fei's sword attack was extremely powerful and sent him flying.

Seeing Chen Xiang's profoundwu diamond armour, Zhou Fei frowned, his face had a trace of anger, he did not know that Chen Xiang had such a holy armor.

After Chen Xiang was sent flying, he stood firmly on the ground. He was completely fine, he had been very sure that Zhou Fei would not be able to replicate the Divine Weapon, so he did not have any profoundwu diamond armour s or Killing-god heart s.

However, the other party's physical body was as strong as his, and he also had the Devil-suppressing Golden Body, so his poison had no effect on him.

Chen Xiang stood there, his eyes gleaming with excitement. The Zhou Fei in front of him was equivalent to a very strong him, it was easy to defeat others, but very difficult to defeat himself, this was a very rare opportunity.

"Defeating him is equivalent to defeating myself." Suddenly, Chen Xiang kept his Green dragon demon-slain broadsword and profoundwu diamond armour. He decided not to use his divine weapon.

Zhou Fei's sword attack just now had made him believe that Zhou Fei had truly displayed his entire body's power to the fullest. This was something he could not do, but now he had to do it, or else he would be defeated.

"What are you laughing at now?" Zhou Fei saw Chen Xiang keeping the Green dragon demon-slain broadsword, and he found it hard to understand. "Could it be that you want to admit defeat?"

"How could I admit defeat? Your appearance is extremely important to me, and also extremely difficult to come by. Right now, I am extremely eager for power, and you ... It will become a stepping stone for me to become stronger. I will defeat you with my bare hands and defeat myself." Chen Xiang was full of confidence. After going through the hundred thousand Heaven Stairway, he had already trained to the point of having an incomparably firm conviction.

Zhou Fei was a spirit body, and he had cultivated his own intelligence. He knew how to be angry as well, because Chen Xiang's words made him instantly turn furious.

It was just that this slash was much more terrifying than the one Chen Xiang released previously, because the vast wave of Sword Qi that was used like wild waves, with the force of killing the heavens and the earth, this spirit that had just replicated his power, was able to nimbly use his power from the start. This made Chen Xiang even more excited.

Looking at the vast and mighty Sword Qi, it was as though it could destroy the heaven and earth and envelop Chen Xiang.

Chen Xiang was very serious at the moment, and he felt that the power was similar to the heavenly tribulations of the hundred thousand Heaven Stairway. Although it was very scary and looked as if he couldn't go up, he still relied on his will and his firm heart to do what he thought was impossible.

At the same time, his eyes became empty, and a faint white light appeared in his eyes. He slowly raised his fist, and the aura he suddenly gathered around him, seemed like the collapse of heaven and earth, the overturning of the seas, the absence of any aura, but the aura was extremely terrifying.

"Heaven and Earth Annihilating Fist." A technique suddenly appeared in Chen Xiang's mind. When the Vast Waves Sword Qi struck him, he instantly digested the technique and slashed out towards the invisible but terrifying Vast Waves Sword Qi.

Chen Xiang's fist faced that terrifying Sword Qi, and the two forces brought along the might of heaven and earth, as they fiercely clashed against each other, and released that roar, as if the heaven and earth were crying out in grief, and the two of them were being forced to retreat by the surging waves. What made Zhou Fei surprised was, the Azure Dragon Sword in his hand almost flew out from the impact, the two of them were separated by dozens of meters, but their clash through the air was also extremely terrifying.

[Chapter 1577](#)

Zhou Fei did not expect Chen Xiang to suddenly unleash a strong power that was hidden within his body. Surprisingly, he did not expect Chen Xiang's punch to land on his arm.

"It seems that I've underestimated you. Since that's the case, I will make your defeat even more thorough."

He felt that he had copied Chen Xiang's everything, and he himself was a spirit body that had lived for hundreds of thousands of years. He felt that he understood the use of power even more than Chen Xiang did, and knew how to use his own strength.

In Zhou Fei's eyes, humans did not have a good image to begin with, and he hated humans even more. Right now, he wished that he could defeat Chen Xiang immediately, leave this place, and go massacre in the human world.

Zhou Fei's figure flashed, darting towards Chen Xiang from left to right. He used his spatial energy, becoming extremely proficient when he traveled through space, changing his position continuously in the spacious hall.

Before he even reached Chen Xiang's side, Chen Xiang suddenly sensed a sharp Sword Qi approaching from the side. In that extremely short period of time, Chen Xiang suddenly extended his hand and grabbed, just in time to grab the tip of the Azure Dragon Sword.

He suddenly retracted his hand, pulling the Azure Dragon Sword back. The sword strike he used just now came through space, and at this moment, he was at Chen Xiang's other side. Chen Xiang did not expect that by the time he discovered it, Zhou Fei would already be laughing wildly, throwing a heavy kick at his face.

Zhou Fei's kick was extremely vicious. It was as if tens of thousands of mountains had crashed down upon him, and there was even the sound of waves flowing through the water.

Chen Xiang's face was kicked to the side, causing his bones to be in extreme pain, as though his face was about to shatter. His entire body was sent flying by the powerful force, as though he was a flying meteorite, quickly and ruthlessly loading himself onto the stiff stone wall of the great hall.

Almost at the same time he collided with the wall, he fiercely thrust out his sword. The Deep Cold Sword Qi that caused people's back to turn cold could repeatedly penetrate through everything, and this sword was aimed at Chen Xiang's throat.

After Chen Xiang sensed the Sword Qi that was filled with endless killing intent, under this situation, he immediately used all of his strength to dodge and appeared behind Zhou Fei. He waved his fists, using the Heaven and Earth Killing Fist, he smashed at Zhou Fei's back violently.

After going through the tempering of the Heaven Stairway, Chen Xiang was already able to unearth a lot of energy that was hidden in his body. At this time, he crazily unleashed Heaven and Earth Killing Fist combined with the spatial laws, causing his fists to fly in all directions.

Boom! Boom! Boom! Each of these fists contained a terrifying killing intent that caused the heavens to tremble. The killing intent emitted bursts of roars, as if it were a demonic spirit that filled the entire hall.

The space around Zhou Fei had long been shaken by Chen Xiang's Heaven Earth Killing Method, and thus could not maintain its stability, causing Zhou Fei to be unable to teleport. At the moment, his entire body was being crushed by Chen Xiang's pair of berserk fists, and every punch that landed on his body contained the power of an earthquake that could destroy ten thousand mountains.

"Ah!" Chen Xiang only took a few seconds to smash his body with multiple punches, he never thought that he would be in such pain, blood already flowed out from the corner of his mouth.

Zhou Fei roared, all the energy in his body exploding out, forming a burst of powerful Qi wave, like a roaring sea, it swept up waves of energy wave, ripping Chen Xiang who was beside him away, after that, he used the force of the roar, and pierced towards Chen Xiang once again.

The angry Zhou Fei's eyes were bloodshot, the Azure Dragon Sword that was originally glowing with a green light was now emitting a black gas. Zhou Fei seemed to be burning with evil energy, his body spewing out an extremely evil aura, which made people think that he was a cruel and bloody evil demon.

"His cultivation went berserk, this is true. This guy suddenly obtained such a strong power, and his mentality isn't good at all." Chen Xiang turned his head to avoid the sword, and indifferently looked at Zhou Fei whose eyes were completely red: "You are truly very strong, especially this sword, I'm afraid even a Fifth Cycle Sacred Transformation would have difficulty resisting against it."

As he said that, Zhou Fei who had lost his mind, had already crazily thrust out his sword dozens of times, and Chen Xiang dodged them all.

"However, you have completely lost control of this power, and right now, the one controlling this power is not you, but the evil in your heart. After grasping the strong power, the dark side hidden in your heart is a side that everyone has, but people will be restricted by all sorts of restrictions, and they will be able to suppress this dark side.

Chen Xiang only wanted to fight him fair and square, but Zhou Fei had already become an evil demon who had lost all sense of reason, all the strength in his body carried a very evil attribute. If he used the Devil-suppressing magic power, it would be much easier for him, but it was not much of a challenge for him.

"None of your business." Zhou Fei roared, his fist and the Azure Dragon Sword clashed as he crazily attacked Chen Xiang. He did not care for his life, he just released a powerful attack, which burned his strength crazily.

"Right now, my strength is the strongest, so you are unable to do it. It is impossible for you to do it. Other than dodging, what else can you do? If you have the ability to attack me, you can't hurt me at all." Zhou Fei laughed sinisterly, his fists and swords crossing over, he was so fast that many shadows appeared, and he stepped on the Shrinking step, chasing after Chen Xiang's berserk attack.

Chen Xiang also stepped on the Shrinking step, and the two of them seemed to slide quickly on the ground, their figures moving extremely fast, extremely blurry, and unable to see their movements clearly, they moved extremely fast.

"Really? Do you really think I'm that weak?" Chen Xiang's eyes flashed, the light aura being released was extremely sharp, in that moment, it was as though his entire being had changed, he suddenly extended his hands out and grabbed onto Zhou Fei's wrists.

It had to be known that Zhou Fei's current attack speed was extremely fast. It was not easy for Chen Xiang to grab his wrist, but he appeared to be so simple.

Chen Xiang looked at the face that looked exactly like him, with an extremely serious expression, and said word by word, "Your current strength is indeed terrifying, but you are unable to fully utilize the essence of my strength. You have replicated my strength, but you are unable to replicate the respect and trust I have in it.

You can't control this power at all. You don't have any feelings for this power, and you have never thought of using it properly. The container of your current strength, even though you have a strong physical body, is only a walking corpse.

Chen Xiang grabbed onto Zhou Fei's wrist with all his might, and suddenly felt the power inside Zhou Fei's body enter into his body crazily, which surprised him, but the power was so familiar, so close, and did not reject him from entering his Divine Sense Sea, fusing into his Heavenly Pellet.

[Chapter 1578](#)

Zhou Fei discovered that the power in his body was flowing towards Chen Xiang. He was immediately enraged and kicked at Chen Xiang's abdomen, but a burst of power surged out from Chen Xiang's body, blocking his kick.

"Do you think I didn't manage to get anything from that Heaven Stairway?" Chen Xiang sneered: "Climbing that Heaven Stairway, I have lost a large amount of precious medicinal herbs, but my harvest was even bigger, allowing me to have a deeper understanding of the hidden power in my body."

Chen Xiang used the Devil-suppressing magic power to increase his strength and both of his hands to increase his strength. With a "kacha" sound, the bones on Zhou Fei's wrists were crushed, causing him to scream out in pain and kick Chen Xiang crazily.

He had walked up from the Heaven Stairway, and had unintentionally unleashed all the potential in his body. He believed that he could now use the soul inside the Killing-god heart to control the terrifying sword thrust out of his body.

Zhou Fei was firmly frozen by Chen Xiang. He roared, cursed, and continuously kicked at Chen Xiang, but he was blocked by the force of Chen Xiang's body. The speed at which the energy in his body flowed into Chen Xiang became faster and faster.

The power of Zhou Fei's copy of Chen Xiang was just as strong. Chen Xiang did not know why it was so strange, but Zhou Fei had actually copied his beast type Heavenly Pellet cultivation method.

Right now, it could be said that Chen Xiang was devouring Zhou Fei, but he did not use his Devouring magic kungfu. He only grabbed onto Zhou Fei, and the energy consciously entered into his body, he believed that although the energy was copied, it was still his.

Because this was originally his power, he was able to perfectly fuse it, just like how it had always been.

It was not only a large amount of divine power, Zhou Fei's soul, Heaven Pellet, and all the other powers in his body all entered Chen Xiang's body by themselves.

"You ... You are the Evil Demon, you have devoured my power." Zhou Fei's face gradually shriveled up as he screamed in horror. His previous imposing manner was now completely gone.

"You should be well aware that the force entered my body by itself." Chen Xiang said indifferently:
"There can only be one me in this world, my power can only be on one person, so you must die. I will thank you."

"Ah!" Zhou Fei cried out in disbelief. His body had already completely dried up, but he still had a lot of energy entering Chen Xiang's body.

"This is the power inside his bones, his bones are also gold in color."

Chen Xiang closed his eyes and looked at the Divine Sense Sea. With Zhou Fei's power, he had already stepped into the Fourth Cycle of the Sacred Transformation. His divine power was becoming stronger and stronger, especially his bones.

The beast type Heavenly Pill had also become rather big, he did not expect that fighting with this replica would result in such a huge harvest.

"In this way, my Yulong blood will become even purer, but I do not have the special surname of the Draconian, I wonder what will happen to me in the future."

Chen Xiang picked up the Azure Dragon Sword, waved it around to memorize what it was, and then put it away.

"I already have the Seven Dragons Sword, Holy Dragon Sword, Fire Dragon Sword, Azure Dragon Sword, and Thunder Dragon Sword. I still need to collect the White Dragon Sword and the Tianlong sword."

Chen Xiang had always been curious about what would happen if he gathered all the Seven Dragons Sword. Right now, he was already a little excited, because there was a high possibility that the White Dragon Sword and the Tianlong sword were in Long Xueyi's hands.

After being lightly touched by Chen Xiang, Zhou Fei's body turned into a pile of ashes. His power had been lost so much that he couldn't even preserve his body.

"This guy is already dead. What's next, is this the Emperor's Tomb?" Chen Xiang looked around, searching for a door. However, he felt that this place was so big, it had already taken up a lot of space inside the Lion Mountain.

The lobby was very tall. Chen Xiang felt that there shouldn't be any hidden stone rooms above, even if there were, it should only be deep inside.

Just as he was searching for the entrance, the ground suddenly shook. He felt a violent tremble beneath his feet, as well as a powerful force rushing towards him. He immediately jumped away.

In the middle of the hall, a small stone tower that was seven stories tall suddenly rose up.

The stone tower looked like it had some ideas, and it was not very particular when it was built. It looked rough on the outside, but it gave off a very sturdy feeling.

"Could it be in this tower?"

Chen Xiang circled around the tower in the distance and started to carefully observe it. The tower looked extremely small compared to the majestic structure that was the Devil-suppressing Divine Palace, it didn't look like the place where the Ten Heavens Supreme Lord's corpse was kept at all.

"I can only go in and take a look." Chen Xiang could only enter the tower now, because there was no other way out of this place.

Just as he entered the entrance of the stone tower, Chen Xiang saw a simple and cracked stone chest placed in the middle of the tower. He wanted to go over to open it, but he decided to wait and see before doing so.

He continued to ascend. The third, fourth, fifth, and sixth floors were devoid of anything, and the interior was extremely simple and crude. The walls had not been cleaned and the floor was paved with uneven stone bricks.

Chen Xiang slowly stepped onto the stairs of the seventh floor. He felt that there was at least something on this floor, so he was already mentally prepared, but he couldn't help but be shocked because of this. In the middle of the floor, there was actually an old man wearing a tattered grey robe, whose head of white hair covered most of his body.

His hair and eyebrows were long and white, which was why Chen Xiang felt that he was an old man. However, his face was young and very handsome, as if he was a handsome young man.

If he had trimmed and blackened his hair, he would have looked like a very energetic young man,

"Who is this guy?" Chen Xiang thought: "Isn't this the Emperor's Tomb? There should be a corpse here, could it be that this is the Ten Heavens Supreme Lord's corpse, but it doesn't look like a corpse."

Chen Xiang carefully circled the white-haired teenager, using his divine power to check his body, but didn't find anything.

He looked at it for a long time, but still could not tell what it was. He was a bit worried because this was the only clue he could find in this tower.

"Senior ... Are you still alive?" Chen Xiang could not help but ask.

"If I'm not alive, you won't be able to see this tower." The man actually replied him, Chen Xiang scolded himself in his heart, he should have asked earlier.

The fact that this person could speak surprised Chen Xiang, and he quickly came to the front of the man. This man's eyes were already opened, and his gaze was as deep as the ocean, revealing an indescribable vicissitudes of life.

"Senior, who are you?" Chen Xiang asked: "Are you Ten Heavens Supreme Lord?"

[Chapter 1579](#)

Chen Xiang just thought that this place had been sealed for a long time, but there was still a living person here, so he suspected that this was the Ten Heavens Supreme Lord.

"Ten Heavens Supreme Lord is lying in the sarcophagus below. If you want to see him, you can leave right now, but he can't speak. He's dead." The man said as he looked at Chen Xiang.

The Ten Heavens Supreme Lord was actually placed inside that broken coffin like that, causing Chen Xiang to be stunned. He was unable to connect the Ten Heavens Supreme Lord and that broken coffin with each other, as that did not fit Ten Heavens Supreme Lord's identity at all.

"Then you... who is it?" Chen Xiang asked again, of course he would not open the coffin to look at Ten Heavens Supreme Lord, it was extremely disrespectful.

"My name is Jiang Sheng."

"Jiang Sheng." Chen Xiang tried very hard to think of the things that Long Xueyi had told him to look for something with this name. He felt that since Jiang Sheng could live that long in this place, he must have been an extremely powerful and famous person back then.

His memory was extremely good, and he was sure that Long Xueyi had never told him this person's name before.

"Senior Jiang... I was guided here by this Green dragon demon-slain broadsword, and now I can't go out, and I have urgent matters to attend to outside." Chen Xiang took out the Green dragon demon-slain broadsword: "I wonder what methods do you have to force me out?"

Jiang Sheng extended his hand, indicating that Chen Xiang should pass the divine blade to him.

Chen Xiang didn't know why, but he felt no hostility or vigilance towards this Jiang Sheng. He passed the Green dragon demon-slain broadsword over, and when he did, he actually felt that it was trembling slightly, as if it was very excited.

"I never thought that this blade could be passed down until now. I can have a decent master, so I won't be lonely with him. You already have two companions." Jiang Sheng caressed the Green dragon demon-slain broadsword, looking as gentle as if he was caressing his own children.

Chen Xiang suddenly felt that Jiang Sheng was most likely a Divine Craftsman.

"Senior ... "Are you a Divine Craftsman?" Chen Xiang asked somewhat excitedly.

"Well, you've heard of me." Jiang Sheng returned the Green dragon demon-slain broadsword to Chen Xiang: "My matter should not be spread further. Could it be that that piece of history has not been destroyed yet?"

"No... During this period of time, the news of the Nine Emperors and Five Venerables has spread like wildfire. " Chen Xiang took a deep breath, his heart was thumping hard. He had a lot of Divine Weapons in his hands, forged by the Divine Craftsmen.

Divine Blacksmith was the supreme soldier, one of the Five Great Monarchs. His status was extremely high and many Emperors did not wish to make him their enemy.

"Senior, why don't you want your hammer and divine cauldron?" Chen Xiang immediately took out the divine cauldron and divine hammer. "Now that these items have returned to their rightful owners, these things are basically a waste in my hands. I'll just use them to fight."

Jiang Sheng laughed: "One of the reasons that I created these two things was for fighting."

He fiddled with the divine hammer and the small cauldron, exclaiming, "I never thought that you would actually be able to find the lid. Back then, the lid was taken away by that old man Tang Ying, then he went to the Sacred Beasts Ancient Realm and entered the seal.

"Tang Ying is Dan Emperor's name." Very few people knew the name of the Nine Emperors and Five Venerables, perhaps only they knew of it.

"That's right, you also went to the Sacred Beasts Ancient Realm." Jiang Sheng frowned as he looked at Chen Xiang, "How did you come out?"

Chen Xiang sat down and sighed: "It's a long story..."

He told Jiang Sheng about the Sacred Beasts Ancient Realm.

"I never thought it would be like this, in order to come out, that old man did not hesitate to give up his own body, I wonder how he is doing now, is he still in Nine Heaven World?" Jiang Sheng sighed: "He should be learning the Beast Slain Method."

"You should keep these things. Back then, the reason I threw them away was to give them to a fated person. Now that they are all gathered by you, it seems like you and these items are fated to be together." Jiang Sheng pushed the divine cauldron and hammer towards Chen Xiang.

"Thank you for your gift, senior." Chen Xiang kept it well. He had already seen that Jiang Sheng was the kind of person who had nothing to worry about. Otherwise, he wouldn't have stayed here for so long.

"You still lack the Suzaku Divine Weapon and the Qilin Divine Weapon, it's a pity that my book is missing, otherwise I would have been able to find the forging blueprints on it. But I can still remember it, I'll find a time to get a copy for you." Jiang Sheng looked at the Slaughter God's Hand that Chen Xiang took out, his face full of memories.

"This... I have the Vermillion Bird's corpse, and the book you mentioned should be in the Divine Realm right? I've already obtained it, but I don't have the strength to forge a Divine Weapon right now." Chen Xiang said: "The Suzaku silk has already merged with one of my wives."

Just as he had thought, outside of the Four Symbols Divine Weapons, there were also the Qilin Divine Weapons.

"The Land of Divine Communication ..." Jiang Sheng muttered, he then sighed, his face had a look of regret.

Chen Xiang did not know what he was regretting about either.

"Senior, why did the Green dragon demon-slain broadsword lead me here?" Chen Xiang was more curious about this.

Jiang Sheng shook his head: "This is Qi Shi's decision, I don't know why, go and open his coffin, maybe I can tell you his corpse."

Chen Xiang suddenly felt goosebumps. Ten Heavens Supreme Lord's dead body would tell him:

"Let's go together." Jiang Sheng slowly stood up, his body crackling. He was stretching his muscles and bones, and it could be seen that he hadn't moved them for a long time.

"You must be under a lot of pressure outside since you've gotten so many good stuff." Jiang Sheng chuckled, and patted Chen Xiang's shoulders: "Back then I thought that these so called treasures, were actually just some trouble, so in the end I threw them all away and gave these headaches to someone else."

"It's not bad... Your descendants chase after me and chop me all day, and I am enemies with them now." Chen Xiang said.

"I have no descendants." Jiang Sheng frowned her long white brows. "Someone is actually pretending to be my descendant, how preposterous is that."

"Said it was passed down by his disciple all those years ago." Chen Xiang said in shock: "No wonder the Spirit grain they used didn't have a trace of your style."

"I have a disciple, but I didn't let that guy inherit it in my name. And that guy didn't even learn anything from me back then. He actually had the nerve to help me inherit it." Jiang Sheng suddenly became angry.

"But right now, they are not really any trouble. My biggest trouble are the Heavenly Regions, Heavenly Dragon Race ... And there's also Fire Emperor, they're preparing to attack my dragon fountain." Chen Xiang sighed: "I have to get out quickly, or else many of my people will die."

They had already arrived at the side of the broken coffin on the first floor. Jiang Sheng smiled and said, "You are much stronger than this dead person. Back then, he had to suffer for many years in order to attract the Sky Region's attention.

"They're almost going to destroy me." Chen Xiang said snappily.

[Chapter 1580](#)

A thought flashed through Chen Xiang's mind, he was worried that there was someone from the Nine Heaven World who did not come to stop the battle, so wasn't there one more person that was easy to talk to? After staying here for so long, the Divine Craftsman must be stronger, it shouldn't be too difficult to deal with the other experts from the Heaven Realm.

"Senior, the Nine Heaven World is in such a mess right now, and they are also facing danger. Don't you intend to go out and join in the fun?" Chen Xiang asked.

Jiang Sheng was patting the broken coffin, and from the looks of it, he seemed to be undoing the restrictions on it.

"I don't want to die yet, so I'm in the safest place. This is a small realm of telekinesis that I've used a long time to open, even if the Nine Heaven World were to be destroyed, this place would still be safe for a long time." Jiang Sheng said.

Chen Xiang never thought that a Ranker with such strength like Jiang Sheng would actually be so afraid of the Rankers who had descended upon the Nine Heaven World. However, he knew that the Rankers in the Nine Emperors and Five Venerables all escaped the Nine Heaven World to protect their lives after Di Tian was destroyed.

"Senior, you are worried about Hell Devil Emperor." Chen Xiang asked.

"I'm worried about what he's doing. He doesn't even need to do anything to kill me." Jiang Sheng laughed at himself: "Although I am called a Divine Craftsman, my abilities are extremely limited.

Chen Xiang was startled, he could see that the Divine Craftsman was worried about many things.

"This is also why I don't want to go out. Once I go out, I'll be killed. When the time comes, I won't be able to do anything."

Jiang Sheng shook his head and sighed. Under his slaps, the broken sarcophagus had flashed with many shining Spirit grains, and Chen Xiang was glad that they did not open it when he came in. Otherwise, it would be very troublesome.

"Are they really that scary?" Chen Xiang was in disbelief: "I've seen Divine Feather School, it's a woman, she's called Feng Yujie, do you know her?"

"I do. Her strength is not bad. If I were to fight with her, it wouldn't be any good." Jiang Sheng suddenly frowned: "I never thought that you would have met her before. She's still alright now, she's one of the few people in the past who didn't sell their souls."

"She's alright, but she goes into seclusion all day ..." He looks just like you. Fade out of the mortal world and don't care about worldly affairs. " When Chen Xiang thought back to Feng Yujie, he realized that he looked really similar to Jiang Sheng. Other than that, there was also the White Tiger.

The first time he met the White Tiger, the White Tiger gave off this feeling. This kind of expert that stood at the peak of the ninth level all those years ago actually didn't have that kind of fighting spirit anymore. Only the White Tiger was a bit better.

"I've even seen a White Tiger before, and he's the same as you. Why have you guys been unable to recover since the time of the Ten Heavens Supreme Lord?" Chen Xiang found it hard to understand.

Jiang Sheng sighed: "Because I'm powerless to turn the situation around ... Do you know why it is so hard to kill Fire Emperor and Ice Emperor? Even Qi Shi couldn't kill them. "

"This... "Why?" Chen Xiang only thought that Fire Emperor and Ice Emperor were very stubborn, but they were still beaten half to death by Ten Heavens Supreme Lord. In the end, Ice Emperor still died in his hands.

"Because they are immortal." Jiang Sheng said in a heavy voice, "Those experts from the Realm of Flame Heaven have already sold their souls to Hell Devil Emperor. Hell Devil Emperor promised them that after they die, they would not extract their souls from their bodies, and as long as their souls remain in their bodies, they will be able to revive as long as their souls remain strong for a long time."

"They are all immortal, and only by destroying their souls can they be considered to be completely dead. However, the Hell Devil Emperor has strengthened their souls, so it's extremely difficult to destroy them."

Jiang Sheng shook his head and sighed, "No matter how we kill them, we can't kill them all, so we can only let it go and hide. Unless we can find a good way to deal with them, because with the Hell Devil Emperor supporting them, in all aspects, they will definitely improve.

Chen Xiang rubbed his chin, thinking back to how he killed Ice Emperor, and said: "Could it be that I didn't kill off Ice Emperor then, I remember he didn't even have a corpse, as for his soul ... "That's hard to say. If this guy is still alive, then wouldn't I be in trouble?"

When he killed the Ice Emperor, his methods were quite vicious. He used the Magical corruption gas s and the God-eclipse powder s, these two things even scared the gods.

"What? You killed the Ice Emperor? That's unlikely." Jiang Sheng was in disbelief. He opened the coffin's lid and a wave of cold air leaked out, causing Chen Xiang to shiver.

"This is Qi Shi's corpse. I have refined some special ice, along with some restrictions, it can prevent him from becoming a big lion after he dies." Jiang Sheng pointed inside and said.

Chen Xiang could only see a piece of white ice that was emitting a lot of smoke. He could not see what the Ten Heavens Supreme Lord looked like at all.

"I really got rid of the Ice Emperor back then." Chen Xiang said in a serious tone, and then lowered his voice. "I used a God-eclipse powder."

Upon hearing the God-eclipse powder, Jiang Sheng suddenly opened her eyes wide and raised her long white eyebrows: "If it's the God-eclipse powder, it's possible to get rid of his body, and maybe even melt his soul. But his soul doesn't perish, and he can only travel the world, so it will take him a very long time to recreate his body."

"I'm afraid that the Hell Devil Emperor will help him rebuild his body."

Chen Xiang was confused: "Why would the Hell Devil Emperor cooperate with them? Why do they need their souls?"

"Hell Devil Emperor is equivalent to a god. He controls the evil spirits that have died in the Nine Heaven World and the various Endless Heaven Realms. As long as there are people who have died in his hands, they will be treated as evil spirits and then enter hell."

These evil spirits will become the cultivation products of the Hell Devil Emperor, especially those who are very strong. For example, the Nine Emperors and Five Venerables, these kind of people are all the highest grade nutrients for the Hell Devil Emperor, but he would rather these people protect the world that he controls, so that some future evil spirits that might not be able to escape from his control.

This Chen Xiang had heard from the White Tiger that the soul of the Ten Heavens Supreme Lord was not bad.

"Therefore, every once in a while, the Hell Devil Emperor would let his subordinates plan for a great battle, and at the same time, he had even signed a soul contract with those strong warriors, so that those fellows who worked for the Hell Devil Emperor would be unable to escape the control of the Hell Devil Emperor. As long as they don't go against the Hell Devil Emperor, they will never die."

Chen Xiang took a deep breath, "The great battle that happened on Di Tian back then, as well as the Great War between Three Realms afterwards, were all planned by someone. No wonder."

Jiang Sheng nodded his head and said, "It was all planned by that group of fellows from the Heavenly Realm. It was precisely because Qi Shi was aware of this at the time, that caused him to rule the entire Nine Heaven World, and let everyone work together to bring about peace and stability for a long time. This caused the Hell Devil Emperor to not receive a large number of evil spirits for a long time, which was why something happened to Qi Shi."

"Sigh... It's no wonder that I wasn't targeted by the Hell Devil Emperor, because I wasn't a threat to him at all. Instead, I provided him with a large number of evil spirits for him to cultivate." Chen Xiang curled his lips: "Looks like this Hell Devil Emperor is the true Great Emperor of this Nine Heaven World."

In this world, there are still many people who do not need to go to hell after death. However, the Hell Devil Emperor is only using the loopholes of the rules, so there are still a lot of power that can restrain him.

This was the first time Chen Xiang heard this saying. He thought that the Hell Devil Emperor was an invincible existence.

Seeing Chen Xiang's face filled with curiosity, Jiang Sheng continued, "Since you know about the God Realm, then you should believe that there is still another Gods Realm, also known as the Primal Chaos Realm. It was established during the Primal Chaos Era."

"Senior, because you can't go to that Gods Realm, you gave up on yourself." Chen Xiang laughed, he had already guessed this a long time ago. He was at the highest level world today, the place where the heavens and earth were set and activated.

"Even if I can go there, I think I would be a miscellaneous person. But I heard that after a few people die, their souls would directly ascend to become gods at that place, and there are also creatures that can pass the God's trial with their own strength, entering the Gods Realm."

"Although I am called a Divine Craftsman and was able to refine Divine Weapons, I still haven't passed the assessment. The main reason is that my strength is too weak." Jiang Sheng sighed: "If I was as powerful as Qi Shi, I might be able to pass the God's assessment."

Chen Xiang rubbed the ice that had sealed Ten Heavens Supreme Lord s, and asked: "The Green dragon demon-slain broadsword must have guided me here, so it can't be that they want me to bring you out right? Now that I have seen the Ten Heavens Supreme Lord, there isn't any reaction at all."

"Take out the Green dragon demon-slain broadsword and take a look." Jiang Sheng said.

Chen Xiang took out the Green dragon demon-slain broadsword. The divine blade did not have any reaction, and then he placed the divine blade on that snow-white block of ice.

Not long after the Divine Blade was placed on the blade, a burst of cyan light appeared.

"It's a remnant soul of Qi Shi, and he actually sealed a remnant soul inside the Green dragon demon-slain broadsword. In this way, as long as this remnant soul enters his body, he might be able to come back to life." Jiang Sheng suddenly became excited: "No wonder he was so desperate to isolate himself with the Green dragon demon-slain broadsword. So that's the reason, otherwise the Green dragon demon-slain broadsword would have had to follow him into hell."

Looking at the ice that flickered with green light, Chen Xiang became excited as well, "Senior, why didn't he give you the divine blade back then?"

Even though this blade was created by me, he didn't approve of me. Furthermore, he knew how to fly in the sky and escape into the ground, so in the end, it took a lot of effort for Long Han and that big size guy to seal it up. The remnant spirit might need to find a new master to gradually awaken, but Qi Shi didn't tell us that.

Chen Xiang had already guessed that the people involved in this matter were Divine Craftsmen.

Jiang Sheng began to melt the ice, allowing the remnant soul to enter Ten Heavens Supreme Lord's body. The Green dragon demon-slain broadsword had already returned to Chen Xiang's Divine Sense Sea.

Now, Chen Xiang understood why when he was using the Green dragon demon-slain broadsword before, he felt that this divine blade had a very strong consciousness, and was releasing the power of the divine blade.
