

Dan God 1731

[Chapter 1731](#)

Although Chen Xiang had successfully refined a batch of Tianshen Dan, and eight of them at that, he had used up most of his divine power just to refine the first batch.

"Looks like I have to eat some recovery pills when refining this Tianshen Dan in the future. Otherwise, I won't have any divine power after one furnace." Chen Xiang laid on the ground and ate a handful of Jaded Essence Pills, recovering his divine power.

"Won't it improve in the future? In the past when you were forging, as long as you got used to it, you would consume less energy and even increase your speed." Long Xueyi said: "How about when you refine pills, I can lend you some of my divine power."

"In the past, it was because I was not familiar with that type of pill. But the Tianshen Dan that I am refining now are Jiupin spiritual Dan s, they require fire and god powers to be very strong, and they require me to use all my strength."

Chen Xiang recovered a little and went over to the side of the furnace. He had not opened the furnace yet, so if the Tianhun fruit had not been refined by him previously, he could produce ten pills in one furnace.

After opening the furnace, Chen Xiang took out the Tianshen Dan s. There were eight bubbles of pills, and they were transparent, very similar to the Tianhun fruit's inside. The only difference was that after these bubbles of energy were refined, the quality would become higher and the power would become unique.

After consuming one pellet, he, who was recovering slowly, suddenly felt that it was as if he had entered a huge fight inside the exhausted Divine Sense Sea. There was a huge amount of energy in his surroundings, and the Tianshen Dan was able to help him recuperate quickly.

"As expected of a Jiupin spiritual Dan, just eating two would be enough to replenish my divine power." Chen Xiang swallowed another pill. He, who was originally exhausted from the depletion of his divine power, had become vigorous like a dragon or tiger.

Chen Xiang gave four pellets to Long Xueyi, the girls Dongfang Xinyue, Pearl and Kong Bailing wanted to have a taste of this Jiupin spiritual Dan.

"There are two more. This time, I have to refine even more!" The Tianhun fruit that Chen Xiang had just refined had been exhausted, so he had lost some of his divine power. If he had refined a complete Tianhun fruit, the number of pills he would have dropped would have definitely been more than the amount he had just now.

"Why don't I refine two of them at the same time!" Long Xueyi said.

"No, with my current divine power, I can only barely refine one Tianhun fruit." Chen Xiang shook his head. He also wanted to concoct more medicinal ingredients and concoct more pills.

Previously, he could refine low grade pills, but now he was refining Jiupin spiritual Dan s. It was not easy, he just needed to refine a portion of the ingredients.

Chen Xiang continued to copy the Tianhun fruit, he did not have much spirit liquid left either, he could only copy out ten of them, and if he succeeded in refining all of them, he would have over a hundred Tianshen Dan s.

Just like before, Chen Xiang took two hours to refine the second batch of Tianshen Dan and this time, the number of Tianshen Dan he produced was more than before. Furthermore, this was his best condition, so he gained a certain level of experience.

He ate two pills, rested for an hour, recovered his best condition, and then continued refining Tianshen Dan.

Liu Meng'er and Xue Xianxian had not yet cultivated their divine souls and were still in closed door cultivation, but it would not be long before they could nurture their divine souls. Chen Xiang was also really looking forward to the moment they come out from closed door cultivation.

... ..

A hundred years had passed in the Nine Heaven World but Chen Xiang had only stayed in the Divine Prison for over a month. Because the time laws in the Divine Prison were different from those in other spaces, in order to prevent the people in the Divine Prison from escaping, the time in the Divine Prison was extremely chaotic.

Di Tian, Evil Dragon Graveyard, in a courtyard of the Dragon Subduing School.

"Master, why hasn't Junior Martial Uncle returned yet? He's been gone for over a hundred years." Hua Xiangyue had a face full of worry: "Are you able to save him?"

Huang Jintian shook his head: "I can't save him, he's much stronger than me right now, he can't even leave that place, but if he can't die, then so be it."

Huang Jintian, who was initially in the Sacred Domain, had already returned. He came to Di Tian from the Transmission array in the Sacred Domain, and at this moment, Di Tian and a few other Endless Heaven Realm s already had Transmission array s. The powers in the Endless Heaven Realm were constantly expanding in Di Tian, wanting to take root in this space that was constantly evolving.

Di Tian advanced at an incredible speed, the holy spirit energy in the air became denser and denser. Although it couldn't be compared to the Heavenly Realms as a whole, with this speed, he would still surpass them sooner or later.

Therefore, all the powerful forces in the Realm of Flame Heaven came to Di Tian one after another to occupy the resources and land.

And the dragon vein under the Dragon Subduing School, was originally only a Spiritual crystal, but it was already evolving into a Holy stone. Soon, the entire dragon vein would transform into a Holy stone, and the advancement would continue.

This meant that Di Tian wouldn't stop, he would continue to improve. Perhaps one day, he might even become a higher level space.

The power that originally belonged to Di Tian was now growing increasingly stronger. The powerhouses of those powers were constantly breaking through as well. Without a certain level of strength, sooner or later, they would be annexed.

Among the Di Tian, other powers that came from Endless Heaven Realm s, the strongest were the Dragon Subduing School s, Hundreds of Flowers Palace s, Devil-suppressing Divine Palace s, Ice Dragon Race s, and other established powers.

The most powerful change was to Fire Divine Palace, the half crippled Fire Emperor had suddenly become very strong, stronger than when he was an emperor, he had attacked Evil Dragon Graveyard twice, but was blocked by Jiang Sheng and Qi Shi.

The powerful forces that came from the Endless Heaven Realm didn't dare to act recklessly with Di Tian because the White Tiger and Vermillion Bird were both here and they were both very strong. If they fought, it would probably be even worse than it was back then.

"Sister Xiangyue, Grandpa Huang!" When Wu Qianqian walked over, her face was a little pale, but the indifferent and elegant smile she revealed caused the haggard her to look extremely charming. Wu Qianqian was still the same as before;

Qianqian, after a period of time, the cold poison in your body will be expelled. Hua Xiangyue hurried over to support Wu Qianqian.

A trace of anger appeared on Huang Jintian's face, "That old bastard from the Heavenly Region of Holy Ice actually used profoundhan poison s as disciples from famous sects, and he doesn't care about the rest of the Heavenly Regions."

Hua Xiangyue's jade face also revealed a trace of anger, "Wait until that little scoundrel comes back, we must teach him a lesson!"

Wu Qianqian's eyes were filled with yearning, she had not seen Chen Xiang for a long time.

"The thing we need to pay attention to now is the Mei Emperor, it's all because of this woman." When Qi Shi's voice came, he had already arrived in the courtyard.

"Luckily we have cultivated the Demon Subduing Heart Art. As long as we pay attention, we will not be confused by the Mei Emperor." Huang Jintian nodded his head: "It's just that right now, many of the powerhouses listen to her, and those who come would be hard to guard against."

Qi Shi said: "Fortunately Hell Devil Emperor is now gathering his power to deal with Chen Xiang, otherwise, when he starts to attack Nine Heaven World, we would not be able to get by."

Right now, Mei Emperor and Flower Emperor are mortal enemies. From the looks of it, Flower Emperor can suppress Mei Emperor, but he does not dare to do anything there. Huang Jintian said.

[Chapter 1732](#)

Wu Qianqian and Hua Xiangyue nodded, then left the courtyard and entered a Transmission array, transferring to Hundreds of Flowers Palace.

Seeing the two girls leave, Qi Shi sighed: "If this goes on, the Evil Dragon Graveyard will be breached sooner or later, who would have known that there would be so many Endless Heaven Realms appearing, each more powerful than the other. If they were to join hands and attack, there is no need for the Hell Devil Emperor to mess with them, a big battle will definitely happen to Di Tian."

A hundred years wasn't much to Di Tian, it was merely a matter of time. However, over the past hundred years, Di Tian had undergone many changes, as well as many potential dangers.

The Mei Emperor that Chen Xiang had always been worried about had already appeared, and had also caused a lot of trouble. Adding on to that, more and more Endless Heaven Realm appeared, and they all rushed into Di Tian, all of them staring at the Evil Dragon Graveyard's Holy stone and dragon veins, causing the pressure on Dragon Subduing School to become greater and greater.

"They can't fight, isn't this exactly what the Hell Devil Emperor wants?" Huang Jintian said.

"That's true. If the Evil Dragon Graveyard was attacked, Devil-suppressing Heavenly Venerable, Bai Yaowei, my master and the Vermillion Bird would all be involved. After that, the Hell Devil Emperor would get another batch of Hell Devil Troops and a few Demon Masters. Qi Shi shook his head.

"Is there any way?" Huang Jintian asked.

"The dragon fountain definitely cannot be allowed to leave!" Looks like I can only go to the middle of profound Cold Ancient Realm to take a look. Back then, my master had some dog shit luck there and obtained a set of Divine Deity. " Qi Shi said.

"Alright, you have to be careful." Huang Jintian nodded his head, it was true that the profound Cold Ancient Realm had some kind of treasure buried inside, some of the experts from the Endless Heaven Realm went inside to look for it, but many of the experts started to go over, only very few managed to return.

... ..

For Chen Xiang who was in the Divine Prison, if he knew that a hundred years had passed and so many things still happened in the Nine Heaven World, and that Wu Qianqian was still poisoned, he would definitely return immediately.

It was just that he did not know yet and he felt that nothing big would happen to the Nine Heaven World after he entered the room.

Chen Xiang used two days' time to completely refine all ten Tianhun fruit into Tianshen Dan. Liu Meng'er and Xue Xianxian were also in closed door cultivation.

The green dragon saw that Chen Xiang had come out so quickly, and asked: "What's wrong? Isn't it going well? They came out so quickly! "

From the Azure Dragon's memories, refining Jiupin spiritual Dan was a rather difficult task for Chen Xiang with his current strength. He felt that Chen Xiang would need at least a few months to complete it.

"Of course it's going smoothly. I have already refined ten batches of Tianshen Dan!" Chen Xiang giggled, took out a Tianshen Dan and threw it at the green dragon: "Just made it. Take a look, how is it compared to Dan Emperor's?"

had only been inside for two days, yet he had already successfully captured the Jiupin spiritual Dan and had refined ten batches of Jiupin spiritual Dan.

"It has just been made!" Although the Azure Dragon wasn't refining pills, he could still see through it.

"The quality is very good. Back then, the Tianshen Dan that Dan Emperor refined were the same as this one!" When the Azure Dragon thought about how Chen Xiang cultivated the Heavenly Alchemy, he accepted the fact. He had heard of how powerful the Heavenly Alchemy was, especially when it came to refining pills.

"Then what are you going to do to start concocting the Holy Elixir?" The Azure Dragon asked.

"With my current divine power, I can only refine Jiupin spiritual Dan! Moreover, refining the Holy Pellet is thousands of times harder than refining a Nine-Grade Dangerous Ground. I am simply unable to do it right now, unless I can cultivate a Emperor soul and possess even stronger divine power. " Chen Xiang said.

"So, you're going to start training your body?" The Azure Dragon asked.

"En!" Chen Xiang nodded his head: "It's just that without the assistance of the sacred pill, cultivating will be a bit more difficult."

"If you want to cultivate a Emperor soul, you don't need to have jade bones. You just need to refine your bones into purplish gold." You have to know that the Divine Prison's time is different from other spaces. The time here is very chaotic, and sometimes a day here is a year in other spaces, or perhaps a hundred years here, is only a day in other spaces. Sometimes it's even more outrageous. "

"Is this true?" When Chen Xiang found out about the spatial seal, he also added a time enchantment that invalidated the laws of space here.

The Space Laws could only be used under normal conditions of time. If time was chaotic, it would be difficult to grasp the rules of the space movement.

"Don't worry, you better be able to cultivate a Emperor soul. Even if you can't get rid of the Hell Devil Emperor's Tracing mantra, it will still increase your strength a lot." The green dragon said.

Chen Xiang nodded.

"Oh right, do you have any ingredients for the Holy level? Although I am unable to refine the pill into a pill, if I eat it, it will still have a good effect. However, it is not as good as the pill. " The Azure Dragon asked.

"Blood ginseng can strengthen the body!" Long Xueyi suddenly shouted: "We can also eat Blood ginseng, but the effect will be much worse than Holy Elixir, but we can only do this now."

The green dragon said in shock, "You actually have a Blood ginseng, that's great!"

Immediately, lightning flashed and thunder rumbled. Violent winds blew, and the scariest thing was that within the violent winds, there were streaks of azure lightning.

"This is my Wind Lightning Domain!"

The green dragon then tightened the power of the wind and thunder to the size of a small house, wrapping Chen Xiang up.

"You can start eating the Blood ginseng and then use the Heavenly Alchemy to refine your body. If you need my Wind Lightning Divine Power, you can just directly absorb it." The green dragon said.

The Azure Dragon knew how to use the power of wind and lightning along with the power of water, and the water contained a strong life force that could make a human's body stronger. Coupled with the stimulation of the power of wind and thunder, the power of water could be absorbed even more.

Chen Xiang swallowed the Blood ginseng and it immediately melted into his body, causing him to feel pain all over his body. He then activated Heavenly Alchemy, and released a ball of flame that wrapped itself around himself, the fire energy released from the fire ball stimulated his body, continuously absorbing the dense blood contract from the Blood ginseng to nourish his body.

"It's not enough!" Chen Xiang then absorbed the wind and thunder energy released by the green dragon, fusing them with his flames, causing his body to be affected by several different types of energy at the same time.

The green dragon's Thunder power was extremely tyrannical, but under Chen Xiang's control, it became much gentler.

Because of the Heavenly Alchemy, when Chen Xiang used his berserk strength to stimulate his body, it would not cause his body to feel intense pain.

The Heavenly Alchemy's Body Refinement Realm was extremely powerful, it only took Chen Xiang six hours to refine one Blood ginseng. After that, he ate another one and continued to cultivate.

Although he was wrapped in the wind and thunder energy released by the Azure Dragon, the Azure Dragon was very leisurely sitting and watching from the side.

"Continue to train for twenty hours, then rest for four hours." The green dragon said.

Just like this, after Chen Xiang had eaten the three Blood ginseng, after he finished cultivating today, he could clearly feel his body becoming stronger.

"I need to eat enough three hundred Blood ginseng!" Chen Xiang felt that this wouldn't take long.

At least three hundred Blood ginseng. When the time comes, there might be some differences. In short, leave the matter of the Blood ginseng to me. The green dragon said.

Chen Xiang rested for four hours before he continued to eat the Blood ginseng and cultivate.

Only with a large amount of sacred medicine would he be able to improve so quickly. Using the Heavenly Alchemy to temper his body, it would not cause his foundation to be unstable in the future, so he could cultivate without worry.

Chen Xiang did not know about the matters of the Nine Heaven World, so he was not in a hurry to go out, he had even planned to go hunt for Divine Deity after cultivating the Emperor soul.

He still remembered that Yu Fan plotted against him. Before he left, he would definitely make Yu Fan suffer, if not he wouldn't be Chen Xiang.

If he could obtain great power, it would not be a bad thing for Chen Xiang. He could hunt for Divine Deity, and when he went to Gods Realm to sell them, he would be able to earn a large amount of divine money. Although it would not go smoothly often, he would definitely try.

[Chapter 1733](#)

Chen Xiang had been cultivating on the second calamity star for five months. With the help of the green dragon, adding on to the fact that he had eaten more than five hundred Blood ginseng s, his physical body was already many times stronger than before.

As the green dragon withdrew its Wind Lightning Domain, Chen Xiang continued to circulate the Heavenly Alchemy, releasing the sacred fire to wrap himself within it. The originally red flames now emitted waves of purple light, indicating that Chen Xiang's bones were turning into a purplish-gold color.

As long as one cultivated their bones to purplish-gold, it would mean that their body would be able to produce Emperor soul!

Previously, no matter how hard Chen Xiang tried, he couldn't cultivate the Emperor soul. However, he found out later on that his body was too weak and had obstructed him, so now that he had cultivated his bones to the color of his own skin, he was able to walk this path.

Xue Xianxian and Liu Meng'er had long cultivated their divine souls inside the ring, and after eating the hundred Tianshen Dan that Chen Xiang refined for them, their divine souls improved at a rapid pace. After obtaining the divine souls, the two of them had become much stronger, especially in the area of artifact forging.

Chen Xiang bought some Holy level materials for them, and they had already refined it into his own weapon of choice. Currently, they were refining that Divine Ship, which could allow Chen Xiang to escape the Tracing mantra.

Of course, if Chen Xiang managed to cultivate a Emperor soul, he could return to Di Tian. As long as the gods did not come down to deal with him, even if there was a Tracing mantra, it would not pose a threat to him. Instead, he hoped that there would be more rankers chasing after him.

"It's a success!" The ball of fire surrounding Chen Xiang flashed, and Chen Xiang's eyes shone with a purple gold light.

"Not bad, not bad. He was faster than I expected." The green dragon nodded and laughed: "Rest for a while longer and familiarize yourself with the power brought by the purple-gold bone. After that, you can begin to cultivate your Emperor soul."

Xue Xianxian sighed: "It's a pity that there aren't any Top stone, and we're about to start refining the hull. Without the Top stone, it's such a pity."

The god ship was made with a lot of good materials. If there was a Top stone, it could make the body of the ship even stronger.

Chen Xiang said: "Xianxian, then don't refine it, I will think of a way to refine it a little."

Long Xueyi suddenly ran out from the ring, looked at the green dragon and laughed: "Old Cyan Bug, you have also stayed in Gods Realm for hundreds of thousands of years, do you have any good materials on you?"

The green dragon knew that Long Xueyi and the other girls were going to refine a powerful Divine Ship, so he helped to smelt some ingredients.

"Aren't you guys rich in materials?" The green dragon said.

"You're still a little short of a Top stone, do you have one?" Although Long Xueyi did not want to refine it, she also wanted to stay in the Divine Ship more comfortably in the future.

"Isn't it just a Top stone? I wonder why, of course I have something like that!" The green dragon laughed and took out a large snow-white rock. It was actually as big as a house.

Xue Xianxian, Liu Meng'er, Dongfang Xinyue and Leng Youlan immediately ran out, as they couldn't believe that the Azure Dragon would actually possess such a large piece of Top stone.

"This is a high quality Top stone, one tael of thousand. For normal Top stone, one tael of silver would make one hundred." The Azure Dragon said with a smile, "I have over 20,000 Jin."

20,000 jin! According to the price that the Azure Dragon mentioned, this was twenty million gold coins!

"Senior, this Top stone is very powerful, we can't train with our current flames." Liu Meng'er sighed.

"Azure Dragon Grandpa, help us dissolve it. To you, it is certainly not a difficult matter." Xue Xianxian held onto the green dragon's arm, and said while grinning.

"Are you sure you want to refine all of these twenty thousand kilograms of purest Top stone into one boat?" The Azure Dragon was somewhat surprised. "If it was really refined, even I might not necessarily be able to injure this ship. Your current strength really cannot be melted."

"We only need ten thousand kilograms." Dongfang Xinyue said.

"Azure Dragon Grandpa, how much do you plan to give us?" Leng Youlan asked in a low voice: "I still want to bring two sets of armor from pure Top stone and a large sword."

"I'll give it all to you." The green dragon laughed: "In any case, it's useless to me. It's just that you have to work hard to raise your strength in the future. In the future, no one will be able to help you get rid of this Top stone."

Long Xueyi patted the green dragon's shoulder. "Old Cyan Bug, don't worry, the little scoundrel will repay you in the future. Once this guy is rich, the first thing I'll do is get you out of here."

"Hur hur, then I'll be waiting!" He knew that Long Xueyi was right. If Chen Xiang could refine a Holy Pellet, he only needed to go to the Gods Realm. After a while, he would be able to get a large amount of divine money.

Xue Xianxian originally thought that it would be fine for the Divine Ship to have ten kilograms of Top stones, but now that it could have ten thousand kilograms, it could make the Divine Ship even more powerful.

"Why don't we refine the Suzaku bow together and gather the Four Symbols Divine Weapons?" Leng Youlan said: "I really want to see what will happen after elder brother possesses the Four Symbols Divine Weapons."

Liu Meng'er nodded, then looked towards the Azure Dragon and asked: "Senior, do you know about the matters concerning Four Symbols Divine Weapons?"

"I know a little, back then when Old Jiang obtained the Divine Book, it contained the blueprints for refining the Four Symbols Divine Weapons, each piece had two refining methods, for example the Suzaku Divine Weapon, there are Suzaku silk and Suzaku bow, the White Tiger Divine Weapon, there are Slaughter God's Hand and Killing-god heart, the Xuanwu Divine Weapon, there are profoundwu diamond armour and the Black Tortoise Divine Hammer, the Azure Dragon Divine Weapon, there are Green dragon demon-slain broadsword and the Azure Dragon Slayer Divine Sword."

"And all the refining materials are from the Four Sacred Beasts! I know that this divine book is related to the deities who founded the Nine Heaven World back then. Back then, our Four Holy Beasts should also have been birthed from their use of the powers of heaven and earth. "

Back then, the deities that founded the Nine Heaven World were very powerful, but in the end, they all died inside the Nine Heaven Divine Palace, so the Nine Heaven Divine Palace also became the Nine Heaven Devil Palace.

Long Xueyi asked again: "Then what about the Seven Dragons Sword? We have gathered all of them, but the Seven Dragons Sword are pointing us to a place in Nine Heaven World! "

"The Seven Dragons Sword are also related to that group of Gods. Since you have the Seven Dragons Sword, then you should know that the Seven Dragons Sword is not used for fighting. Although it is possible, it is just not suitable for fighting, especially with the Tianlong sword as the head of the Seven Dragons Sword." The green dragon said.

Chen Xiang and the rest all nodded their heads.

"Since you all have gathered the Seven Dragons Sword, and pointed to a place, if I'm not wrong, that place should be related to that group of Gods back then, but it should definitely be very safe. Back then, they disappeared very mysteriously, and they definitely knew their own fate, so they left behind some things."

Chen Xiang said: "Let's go back and visit that place!"

Liu Meng'er said: "Four Symbols Divine Weapons mainly deals with offense and defense, although it's not much when compared to the expensive divine weapons that Gods Realm has, but if all four of them are gathered, I think there's a possibility!"

Liu Meng'er had one of the s, and she was also a refiner. She had also studied that divine book, and often studied her Suzaku silk, so she saw through many things.

"What possibility?" The Azure Dragon asked, "I know that if the four parts are gathered together, something will definitely happen, but I can't guess what it is."

Dongfang Xinyue said, "Let me say it. When Meng'er and I had just met, we had studied that divine tree and Suzaku silk together! First of all, we will find the blueprints to refine the Four Symbols Divine Weapons in the Divine Book, the Suzaku silk that the Divine Craftsman refined are exactly the same as the blueprints! It's just that we've discovered a strange thing, that there are many simplified areas on the blueprints, and many Spirit grain are incomplete, but they still have a certain amount of use. "

The green dragon frowned and said, "Are you saying that the Four Symbols Divine Weapons is not complete?"

Liu Meng'er and Dongfang Xinyue nodded.

Liu Meng'er continued to speak: "I think there is one possibility, which is to have an even stronger and stronger Four Symbols Divine Weapons, and one that is right above them. In order to find the strongest and most powerful Four Symbols Divine Weapons, one must first gather all of the Four Symbols Divine Weapons's Four Symbols Divine Weapons."

Dongfang Xinyue laughed: "I have an even more daring guess, and that is that in the Gods Realm, there might be Azure Dragon, White Tiger, Vermillion Bird, and Black Tortoise. and it was back to a very ancient time in Gods Realm! Maybe the god who created the Nine Heaven World was trying to revive the Four Beasts back then, so he created the Nine Heavens. In the end, he successfully resurrected many powerful beasts. "

Xue Xianxian said, "It is very possible that once the Ninth Heaven appears, the most powerful beasts would be beasts. Furthermore, those Holy Beasts are innately strong, so even if they have a bit of their bloodline, as long as they can awaken it, they would be many times stronger than humans."

"Warm Moon and Jingjing are the same." Leng Youlan stuck out his tongue, "They have the bloodline of the Vermillion Bird, so they are not weaker than me."

Although he knew that he was born from the heavens and earth, like many powerful Holy Beasts, it was still too much of a coincidence now. He felt that there must be something hiding behind this, maybe it was just as Dongfang Xinyue had guessed, that they were originally strong beasts from the Gods Realm, but that they had just died.

"Old Cyan Bug, do the Gods Realm have any stronger Divine Beasts? The kind that can create shrines! " Long Xueyi asked.

"No!" The green dragon shook his head. "No wonder our dragon is so precious up there, many deities like to use us as mounts. It seems that those powerful deities should know some things about the Nine Heaven World."

"Looks like I still have a past life where all the mysteries are hidden in the Nine Heaven Devil Palace! But it's too dangerous inside. We can only search for clues from the Four Symbols Divine Weapons and Seven Dragons Sword s, let's start training now! Since there are still stronger Four Symbols Divine Weapons s, then the Suzaku bow that you all are preparing to refine will not need to be added. "

Liu Meng'er and Dongfang Xinyue nodded.

"Then if you guys are refining right here, I'll go find Yu Fan." Chen Xiang looked at Long Xueyi, and asked with a smile: "Are you going or not? Or forge artifacts with them here? "

"I'm not going. You have to be careful!" Tell Little Peacock and Little Pearl to come out as well. " Long Xueyi said.

After Pearl and Kong Bailing came out of the Serene Jade Ring, the green dragon only chuckled and looked at Chen Xiang with a gaze that seemed to understand what he meant.

[Chapter 1734](#)

After Chen Xiang cultivated the Purple Gold Bone, he had more confidence after becoming strong, not to mention that he still had the Azure Dragon Cloak that was lent to him by the Azure Dragon.

He left Bane 2 and quickly arrived at the city where the Feng Shen Native Bank was. He also found a few secret records that Yu Fan had left for him.

Chen Xiang also left a secret record here, inviting Yu Fan to come out and meet with him.

Yu Fan could not see Chen Xiang in the Feng Shen Native Bank, if not he would be found out by the Hell Devil Emperor, he would definitely be scolded by Feng Shen.

Chen Xiang rented a room in the city, then left the city so as to not get targeted by the Hell Devil Emperor. After waiting for the agreed time, he finally returned to the room inside the city.

Yu Fan did not enter his room. Instead, he sent a sound transmission to Chen Xiang from outside the window, "It's good that you're still alive.

"It's just luck!" Do you have a goal? I'm going to start now. " Chen Xiang said.

"Got it, your next target is this City Lord's brother. This guy is not a good person, his strength is not very strong, and because his father is rather strong in Gods Realm, he has a set of Divine Deity." Yu Fan quickly told Chen Xiang the information of the target.

The image that Yu Fan sent over appeared in Chen Xiang's mind.

To Yu Fan, Chen Xiang was his money tree. As long as he could get a single Divine Deity, he would be able to get twenty million. Chen Xiang had already gotten one for him earlier.

But Yu Fan did not tell Chen Xiang that after Chen Xiang killed twenty people, he would definitely be sent to hell to find the Penalty Heavenly God.

From Chen Xiang's point of view, Yu Fan wanted to kill him. Right now, he wanted to kill this bastard who didn't look the same.

Yu Fan was rather strong, he would not dare act rashly without cultivating his Emperor soul, furthermore, he needed Yu Fan to give him a good goal to kill. Furthermore, Yu Fan still had Peng Renyi's Divine Deity on him, so he wanted to take it back, or even take Yu Fan's Divine Deity out.

"Sun You, this guy is not staying in the Gods Realm. Why would he follow his brother here?" Chen Xiang found it hard to understand, because Sun You wasn't sent to the Divine Prison.

Chen Xiang arrived at Tai Qiang's residence in the middle of the night.

"Director Tai, long time no see." Chen Xiang laughed.

"Brother Shen, I've been waiting for you for a long time. Is there something you need me to do?" At least Peng Renyi wanted to kill him, and Chen Xiang had saved him.

"You should think of a way to get Sun You out of the city. This matter should be a bit more mysterious. When the time comes, you can plot against him, injure him, and then leave the rest to me." Chen Xiang said.

"Sun You? This fellow is easy to deal with, he came here mainly because he cannot stay in the Gods Realm, and is always bullied up there. Tai Qiang said: "I can arrange for him to appear, and leave this matter to me."

"Alright, it would be best to make sure of a time." Chen Xiang said.

"Tomorrow at noon, at the desolate hill outside the city." Tai Qiang was very confident in this matter.

Chen Xiang nodded and sent a sound transmission to Tai Qiang: "It's best if you don't let Yu Fan know."

It had been over half a day since he left Bane Two, but no one had come to kill him yet. He guessed that it would take some time before Hell Devil Emperor could send news over from hell.

The next day at noon, Chen Xiang, who was wandering outside the star system, quickly returned to the place he had come to. He quickly found Tai Qiang.

Tai Qiang was fighting a great battle with a man. Tai Qiang's strength was not bad, and the one fighting with him was Sun You. Although Sun You was not strong, the weapon in his hands and the armor on his body were all very powerful, causing Tai Qiang to be unable to injure him.

Chen Xiang quietly came over, without saying a word, he immediately used the water vine, releasing his strongest divine power and tied Sun You up.

Seeing that the other party was suddenly entangled, Tai Qiang immediately understood that Chen Xiang had arrived. He anxiously used all his strength and brandished the gigantic hammer in his hand, and smashed it fiercely towards Sun You.

With a loud bang, Sun You was smashed into the ground. As his body sunk into the ground, cracks began to appear on his body.

Even if there was a full body of powerful equipment, they would still be injured by such a fierce strike without much resistance.

Chen Xiang immediately activated the Azure Dragon Cloak, allowing him to quickly rush over. Waving the Green dragon demon-slain broadsword in his hand, he used the Thunder Slash of the Dragon Slaying Seven Killing Slaying Slash, summoning waves after waves of wild thunder, slashing towards Sun You.

Seeing that Chen Xiang wanted to kill someone, Tai Qiang dodged hurriedly to prevent himself from being hit by the killing intent.

Killing Sun You was not easy either, because Sun You was wearing a Divine Armor. Chen Xiang had to cut down dozens of times with Thunder Slash before killing Sun You.

"We've obtained another set of Divine Deity!" Chen Xiang looked at the Divine Deity in his hands, and revealed a happy smile. After he kept his Divine Deity, he removed Sun You's divine blade and armor.

"This is for you! You'd better not sell it now." Chen Xiang said: "I still need you to help me hunt Divine Deity."

Tai Qiang was extremely excited, because the Divine Blade and Divine Armor that Chen Xiang gave him were both very precious.

Tai Qiang did not dare to go against Chen Xiang, or else he would suffer a backlash. However, he knew that Chen Xiang was not like him, he had never given him anything like this, and he knew that he could quickly get out as long as he helped Chen Xiang hunt enough Divine Deity.

"Don't tell Yu Fan!" Chen Xiang reminded him, "You can go back first. If you discover that Yu Fan is going to poison you, you must escape as quickly as possible.

Chen Xiang did not hope to easily find twenty targets using Yu Fan, it would be good if he could find a few. When he breaks off with Yu Fan, he would have to rely on Tai Qiang who is very familiar with this place.

Of course, Yu Fan's power was sealed, and he could not kill people here either. Otherwise, he would not be able to get out, and he was not too worried about this, just afraid that Yu Fan would cripple him.

"20 million!" Chen Xiang looked at the Divine Deity in his hands. "I don't know if the Elder Sister Meng'er and the others want it, but if they were to merge their Divine Deity here, their strength would also become very strong."

When Chen Xiang returned to Bane 2, he saw that the girls were already busy refining the Suzaku bow.

Dongfang Jing had been in closed-door training for a long time and was still in the ring, otherwise she would have joined as well.

"The few of them work together quite well. Even if they don't have any powerful strength, with such tacit understanding, they can still refine powerful divine weapons." The green dragon watched on from the side while Long Xueyi ate the fruits. She only helped refine some ingredients.

"We are already familiar with Suzaku bows, and we can merge our consciousness and then quickly draw Spirit grain. For me, what is more difficult is the smelting materials, because our fire intensity is limited." Liu Meng'er said.

[Chapter 1735](#)

Refining Divine Weapons required a lot of time, especially to refine Divine Weapons. Chen Xiang didn't look at them for long before he left Bane 2 and returned to Bane 1.

He came to look for Yu Fan again. Yu Fan already knew that Sun You was dead, but Chen Xiang not giving him Sun You's Divine Deity made him a little angry.

"What about Divine Deity?" Yu Fan found the small house that Chen Xiang was in based on the diary that he left behind. The moment he saw Chen Xiang, he immediately asked him through sound transmission.

Of course, Chen Xiang would not give his Divine Deity to Yu Fan, and said: "Although Sun You is dead, his Divine Deity is not in my hands yet. After I killed him, an expert suddenly appeared and snatched the Divine Deity away, that guy's speed is extremely fast."

Chen Xiang casually made up a lie, but he didn't care whether Yu Fan believed it or not.

"How can this be? Tell me about how you killed Sun You." Yu Fan became suspicious.

Chen Xiang had already thought about it, and immediately told the truth with his mouth wide open. Since Yu Fan was not at the scene, he could only believe Chen Xiang this time.

"Have you found the next target?" Chen Xiang asked.

Yu Fan couldn't hide it too many times, he could count every time.

"We already have a target, but it's not in this city. It's not good to kill too many people here. This time, you'll get a city that's very far away from here."

The information about Yu Fan's new target was sent to Chen Xiang through his divine power.

"When I'm done, I'll come back and find you! That's right, Master Yu. The Frisbee you gave me was destroyed while I was still in Bane Two. Can you give me another one?" Chen Xiang wanted to fish for as many benefits as possible from Yu Fan before he broke with him.

"Here's three hundred dollars, go buy one for yourself. I don't have any left!" Yu Fan gave Chen Xiang a Storage bag.

Can you give me a bit more? I also want to buy a good weapon and divine armor. When I fought with Sun You, it was because he had too many good things on him.

"I'll give you three hundred more. You should know how to buy more, right?" Yu Fan thought for a moment, then gave Chen Xiang another three hundred gold. The Divine Deity that Chen Xiang had given him before helped him earn a lot of money, so in order for Chen Xiang to obtain more Divine Deity, he naturally had to be generous.

Chen Xiang secretly despised Yu Fan in his heart, so he gave him this little bit. Right now, he did not care about this little bit of money, but on the surface, he still pretended to be happy.

Yu Fan did not stay for long with Chen Xiang before he hurriedly returned to the Feng Shen Native Bank.

Chen Xiang was walking around the city. The bounty for him was still there, and had even increased to \$50,000.

However, Hell Devil Emperor was not like how it was outside, where it could tell others where Chen Xiang was at any time. Forget about communication between the outside and the Divine Prison, even if they were inside the Divine Prison, with a distance, it would still be difficult to immediately send a message.

Chen Xiang arrived near Tai Qiang's residence and sent a sound transmission to Tai Qiang, asking him to come out.

"Old Tai, leave this city with me today and never come back!" Chen Xiang said: "Yu Fan is already suspicious of me, last time when I killed Sun You, I hid it from him, and after this time, I will definitely not be able to hide it."

Although Chen Xiang did not tell Tai Qiang about him helping Yu Fan hunt Divine Deity, Tai Qiang had already seen through it.

"Brother Shen, you killed someone here. It will be difficult for you to leave this place in the future. You might even be sent to hell." Tai Qiang said.

"You know about this too?" Chen Xiang frowned.

"Others may not know, but I do! In the past, there were a few fellows who barged into the Divine Prison from other places. In order to gather the God's money quickly and leave, they plundered everywhere, and when they finally went to find the Penalty Heavenly God to hand over the God's money, they were sent to hell or thrown onto the third Bane." Tai Qiang said: "You've only killed two now, it's not too serious. At most, you'll need a bit more divine money to get out."

Chen Xiang said: "Yu Fan has told me before, as long as I can help him get twenty Divine Deity, he would give me a thousand divine coins and I would be able to leave this place."

Tai Qiang now understood why Chen Xiang would do so many things behind Yu Fan's back. It was because Chen Xiang already knew that the consequences of killing people here were severe.

"Where are you going now?" After Tai Qiang understood the situation Chen Xiang was in, he nodded.

"I'm going to the Wind Eye City, I want to go there to kill a guy. My name is Yang Yan, there's a luxury hotel." Chen Xiang said.

"The people that Yu Fan has chosen are all not bad. I have heard of that Yang Yan before, who did he come from the Gods Realm with his master? His master looks after a native bank, and should have the same position as Yu Fan.

Chen Xiang's eyes lit up, there were some things that would not come to him out of nowhere. Since Tai Qiang had heard of it before, then there was a high possibility that Yang Yan's master was here to fish Divine Deity like Yu Fan.

"How long has Yang Yan been here? Where's his master? "

Tai Qiang recalled for a moment, and said: "It's probably been tens of thousands of years. Yang Yan and his master have never left this place, his master normally rarely appears, and the main reason he's in charge of operating the native bank is to count the money and send it up to the higher ups."

Chen Xiang nodded his head. Yu Fan also did this kind of work and usually kept a low profile.

"Old Tai, as long as you help me get ten Divine Deity, I will give you enough divine money to leave the Divine Prison ... Right, how much money do you still have left? " Chen Xiang asked.

"As long as I'm in Bane 1, I only need a thousand gold coins. I'm still short of 700 something." Tai Qiang said with a bit of disbelief in his heart. Chen Xiang actually helped him leave this place. "

If Peng Renyi had said this, he might not have believed it, but he did not know why he trusted Chen Xiang so much.

"There are nine Bane Stars here. What are they all for?" asked. Previously, he had asked the Azure Dragon, and the Azure Dragon didn't know what the other calamities were, because the Azure Dragon was unable to leave Bane Two.

"You already know about Bane 1, you should experience the terrifying old man above Bane 2! Bane 3 is a bunch of extremely vicious people. If he wants to leave the Divine Prison, he would need more than a hundred thousand gold and he will basically never be able to leave. "

"From the fourth to the ninth Bane, there are some powerful people sealed inside. I heard that they were gods who once ruled a hall. Because they made a mistake and remembered that they are gods, they were locked up here and didn't go to hell."

"In the Divine Prison, there are only people who are unsealed and can go anywhere they want! "As long as you have the ability, you can go to other Bane and come out again. However, it's very hard to come out even if there's 10% chance of that."

Only now did Chen Xiang understand why the Azure Dragon had stayed there for so long and didn't go out.

[Chapter 1736](#)

Chen Xiang asked Tai Qiang to be responsible for finding a good target to hunt. As long as he obtained enough Divine Deity, he would be able to go to Bane 2 to cultivate in peace. After cultivating the Emperor soul, he would immediately leave this place.

He even gave Tai Qiang a hundred gold coins, then he headed towards the Wind Eyes City by himself.

The Wind Eyes City was a very large city, several times larger than the one in which Feng Shen Native Bank was located. The native bank here was the head of the Four Great native bank s, and the master of this city was much stronger than Feng Shen.

And the person that Chen Xiang wanted to kill right now was the son of the person who was sent to control native bank. He should have the same strength as Yu Fan, who was close to becoming a god.

However, Chen Xiang was not afraid of him, because Yu Fan had said before that for Gods like him who were sent down and had relatively powerful strength, when they came in, part of their power would be sealed by the Penalty Heavenly God, and they could only call for the Penalty Heavenly God when they were in danger.

So, even if Chen Xiang wanted to kill Yang Yan's father, he didn't have the guts to do so.

"If this Yang Yan is like his father, and has hunted quite a few Divine Deity in the past few years, I only need to get their Divine Deity." Chen Xiang suddenly changed his plans. For the time being, he would not kill Yang Yan and instead go closer to him.

If he wasn't chased around by the Hell Devil Emperor, the plan in Chen Xiang's mind would have gone smoothly.

He used the Azure Dragon cloak and quickly arrived at the Wind Eye City. The city was very strange and there was a huge pit in the middle of the city. This pit was emitting waves of light wind at every moment, so that was why the city got its name.

Legend has it that the pit was dug from the Black Sage Iron.

Chen Xiang came to the hotel opened by Yang Yan. This hotel was very luxurious, it was ten stories high, and every floor was extremely spacious, allowing many people to eat and sleep inside.

After changing his appearance, Chen Xiang went to the inn and released his divine power to check around. He wanted to see if Yang Yan was there, but he did not succeed, the inn was not normal, and the divine power could not penetrate through the floors.

"Manager, I want to see your boss, can you help me pass a message?" Chen Xiang came to the counter and asked.

"There are many people who want to see my boss every day. If my boss sees everyone, won't he tire himself to death?" The manager laughed.

In order to express his sincerity, Chen Xiang took out a Tianshen Dan.

The Jiupin spiritual Dan is also very precious here, he laughed: "Manager, this is a little gift from me, sorry to trouble you!"

Even though the shopkeeper had never seen a Tianshen Dan before, he had heard that even though he could afford it, he was still very willing to accept it as a gift.

The shopkeeper laughed, "Then please wait a moment, I'll go send him a message. It's your business if you don't see me."

Chen Xiang knew that even if he wanted to pass the message, he would have to wait for the shopkeeper.

"Boss is willing to meet you, please go up to the tenth floor." After the shopkeeper returned, he smiled and said to Chen Xiang.

After Chen Xiang went up to the tenth floor, he arrived at a great hall, where the boss was already waiting for him.

"This brother has given quite a good gift to Manager Yu. I think you really have something urgent to discuss with me." The one who spoke was Yang Yan, a sturdy young man. He smiled: "Please take a seat!"

After Chen Xiang sat down, he looked around: "Boss Yang, this place is not very convenient, the things I have to discuss with you are more important."

Looking at his face, Chen Xiang felt that he was a good person, not someone who would do whatever he wanted. Previously, Yu Fan had told him that the people he killed were all those kind of people who committed evil deeds, such as Peng Renyi.

There were other people in the hall, and they were all Yang Yan's important guests. What Chen Xiang had said made Yang Yan a little unwilling.

"This is related to Yu Fan!" Chen Xiang whispered to Yang Yan.

Sure enough, hearing that it had something to do with Yu Fan, Yang Yan frowned and immediately stood up: "Follow me."

Yang Yan bade farewell to his guests and brought Chen Xiang to a secret room.

"Yu Fan just came here a few decades ago, but he always had a grudge against us. However, no one else knows about this matter, how do you know? "You are a prisoner!" Yang Yan asked.

"Because he told me to kill you!" Chen Xiang said: "Even though you think I'm very weak, I can really kill you!"

After Chen Xiang said this, Yang Yan actually smiled slightly, and did not immediately take precautions.

"You don't believe I'll kill you?" Chen Xiang also laughed.

"If you want to kill me, you definitely won't come to me to talk about Yu Fan, and even more so, won't tell me that Yu Fan asked you to kill me." Yang Yan laughed: "As expected, you came to find me for a very important matter."

"Tell me, why did Yu Fan let you kill me? Do you know how serious the consequences will be if you kill someone like me who came down from the Gods Realm? " Yang Yan asked.

"I don't know what serious consequences there will be, and I don't want to know either. Because I'm currently in a very bad situation, otherwise, I wouldn't have been led astray by Yu Fan." Chen Xiang said with a serious face: "Yu Fan told me to kill you and take out your Divine Deity for him!"

"However, I know that as long as it isn't someone who is a prisoner, their Divine Deity will be imprinted with a seal. Yu Fan had also told me before, not to mention that Yu Fan himself is a member of the Wealth Divine Palace.

Yang Yan nodded his head: "You are very smart, you didn't kill me! I'm very curious now, why did you take the risk of going to hell to kill me? "

Chen Xiang had already thought that there was something fishy about this matter, but Yu Fan had become suspicious of him. Although killing this Yang Yan was fine, but from the looks of it, if he were to kill this Yang Yan now, he would be in big trouble.

In order to cooperate with Yang Yan, Chen Xiang had restored his original appearance. Seeing his face, Yang Yan only needed to think for a short moment before understanding a lot of things.

"Yu Fan doesn't need you anymore, so he told you to kill me. He had probably let you help him hunt Divine Deity before, and at the same time, made you choke. " Yang Yan laughed coldly: "However, no

matter what, you are someone who has been offered a few pieces of Divine Deity by the Hell Devil Emperor, he is still underestimating you. You are indeed very smart."

Chen Xiang said honestly: "I helped him get one Divine Deity before, and he gave me twenty of them!"

"Twenty? This fellow's appetite was too big! For someone like him, it is already a huge sum of money. However, he is still satisfied and knows that you are not easy to deal with, so he wanted to quickly eliminate you. "

Yang Yan laughed coldly, "You probably don't know this, but Hell Devil Emperor has already taken a step forward. I don't know how much he has paid to actually send two War Gods over, but they haven't arrived yet."

"War god?" Chen Xiang didn't know what War God meant, and the Azure Dragon hadn't told him either.

"You might not know much about the affairs of the Gods Realm, so you should know about Feng Shen and Yao Shen here." Yang Yan said: "They are all the four great disciples of the God of Fortune, and also very powerful Gods."

"And wargods have that kind of status. As for strength, I think you probably have that kind of concept."

Chen Xiang nodded his head, "That is to say, the strength of the War Gods are below the God of Fortune and the others."

"That's right, even if there were ten or a hundred of my teachers, they would still not be able to defeat them. As long as they come, your situation will be even more dangerous, and Yu Fan is worried that you will tell them about his situation before you die."

was very vexed that two War Gods had actually come, but he knew that the Azure Dragon would definitely be very happy.

"Then wouldn't I die for sure?" Chen Xiang sighed: "Fortunately I didn't kill you, otherwise I wouldn't have known about this."

"It seems that I have to thank you. If you do anything to me, I feel that I will definitely be killed by you. Although you look very weak, I still feel that way." Yang Yan laughed, "However, if you kill me, it is very likely that you will go to hell to get captured by Hell Devil Emperor even faster."

"Also, you let me catch some information on Yu Fan."

Chen Xiang secretly cursed in his heart. He did not want to let Yu Fan get away with it so easily, but if he were to make a move against Yu Fan, Penalty Heavenly God would definitely make a move.

I helped Yu Fan get a set of Divine Deity, but I didn't manage to get anything. " Chen Xiang clenched his fists tightly. Actually, he had also obtained a piece of Divine Deity.

"You want revenge?" Yang Yan asked.

"Of course I want to, this Yu Fan wants to kill me too." Chen Xiang said hatefully.

"But when Yu Fan encounters life threatening danger, Penalty Heavenly God will make his move. When the time comes, he will send you straight to hell." Yang Yan said: "But I have a way, which is to think of a way to catch him, as long as I don't kill him, and don't let him encounter any danger."

As long as he could capture Yu Fan and bring him away from Divine Prison, at that time, he would be able to kill Yu Fan.

"Actually, if you want to leave this place now, you only need ten or twenty thousand God's Coins. I can give you this God's Coin for no other reason but to make this friend of yours." Yang Yan took out a Storage bag and scanned it with his God Power. Then, he saw a pile of God's money.

He never thought that this Yang Yan would actually be this kind of person. Although he didn't know what intentions he had, it didn't seem like he was going to do anything to him.

"I don't want it anymore. I don't plan to leave this place that quickly." Chen Xiang laughed: "But don't worry, although I don't want your divine money, but I will be friends with you."

This shocked Yang Yan: "I told you about those two War Gods before, they aren't weak. If you take the divine money and leave, you can avoid being hunted down by them."

"To be honest, I had thought of capturing you before, then thinking of a way to get more Divine Deity from you and your master. However, that was just a thought." Chen Xiang laughed, "I have my own ways to deal with those two War Gods."

Yang Yan shook his head and sighed: "No wonder the Hell Devil Emperor paid such a heavy price to capture you. He ordered two war gods to come down, and each of them required at least a billion god's money.

"You and I will let his divine money go to waste!" Chen Xiang laughed, "I'll be taking my leave now. I need to make some preparations before those War Gods come."

Yang Yan cupped his hands towards Chen Xiang: "I hope that in the future, we can have a nice drink together in Gods Realm. Although we are friends, we couldn't even drink a little, what a pity!"

[Chapter 1737](#)

Although Chen Xiang had only just met this Yang Yan, he had left a good impression on him. After Chen Xiang left the Wind Eye City, he immediately returned to Bane 2. He wanted to tell the Azure Dragon about Hell Devil Emperor's latest operation.

Amongst the second calamity star, the Azure Dragon was helping Liu Meng'er and the others to refine equipment.

"You got another set of Divine Deity?" When Long Xueyi saw that Chen Xiang had returned so quickly, she asked while giggling. In terms of refining, she could only help refine the ingredients.

The green dragon saw Chen Xiang's serious expression and asked: "Big trouble?"

Chen Xiang told her about Yu Fan sending him to kill Yang Yan, as well as what he said when they met each other.

"Two wargods?" The green dragon's eyes lit up, and he immediately revealed an excited expression. He was so happy that he almost jumped up.

"Then that's what Yang Yan said. I can't be sure if it's true or not." Chen Xiang said.

"It's best if it's true. Hell Devil Emperor should be determined to win by sending two War Gods over. When the time comes, I can also move my muscles." The Azure Dragon said with a smile, "Don't worry, I can handle it."

Although the green dragon was not worried, Chen Xiang was.

"Do they want to go somewhere else?" Chen Xiang looked at the few busy women.

"For the sake of safety, it would be best to enter the ring. I don't know when wargods will come, but they will definitely be strong." Long Xueyi said.

Liu Meng'er and the others also heard what Chen Xiang said just now and immediately stopped their work.

"If you need smelting materials, take them out and I'll help you refine them. Then, find a place to place them in." Liu Meng'er and the others could be considered stronger amongst the women, but if those powerful War Gods were to suddenly attack, the green dragon could not guarantee that it could protect them.

"How much longer do I need to finish refining the Suzaku bow?" Chen Xiang asked.

"It will take at least a year! and also needs Grandpa Azure Dragon to help us." Xue Xianxian said: "The more troublesome part is inscribing the Spirit grain. For us to cooperate, to be able to do so within a year, is already considered very fast."

The Azure Dragon nodded. "They are indeed very talented in refining. Being able to refine a Divine Weapon in such a short period of time is indeed very rare! It's just that their flame skills are lacking. If they had the flame at my level to smelt powerful materials, their forging speed would be even more astonishing. "

Even Suzaku bow that did not add Top stone would have to be refined for a year. Chen Xiang could imagine how long it would take to refine that divine ship in the future.

Xue Xianxian and the others brought back the crafting furnace and all kinds of tools back into the ring, allowing Chen Xiang to feel more at ease.

"Kid, you better stay here too. If you are targeted by those two wargods, even my cloak won't be able to save you." The green dragon said.

Chen Xiang did not want to run around either, he just wanted to quickly cultivate and leave this place as well.

"Come, practice with me. I'll let you get familiar with your purple bones as soon as possible." Even though the green dragon had told Chen Xiang to attack him, he had already made his move. In an instant, he flashed to Chen Xiang's side, and chopped at Chen Xiang's shoulder with his palm.

Chen Xiang did not even have a Emperor soul, and the Azure Dragon was even stronger than those War Gods. Of course, he could not obtain any benefits from the Azure Dragon.

Although the difference was great, Chen Xiang was still very excited. To be able to fight with such a strong Ranker, not everyone had a chance.

Chen Xiang spent six hours everyday practicing by fighting with the green dragon. This was also a type of cultivation that could increase Chen Xiang's battle experience.

"It's been two months, and none of those guys have come!" Chen Xiang had already completely familiarized himself with the current purple-gold bone.

"Don't worry. It could be that time has changed a lot between here and the outside world. Maybe it's only been a moment or two since we've been here two months."

That's right, the time inside the Divine Prison was very chaotic. Not long ago, Chen Xiang had entered, and it had only been a hundred years since Di Tian went to the Divine Prison. Now, he had stayed in the Divine Prison for two months, and Di Tian had only stayed there for more than twenty days.

"That means, even if the Hell Devil Emperor were to determine my position, it would be very difficult for her to tell the people here of my location at the first possible moment." Chen Xiang said.

The green dragon nodded his head and smiled, "So, you don't have to be too worried. The Hell Devil Emperor knows about this as well, otherwise, he wouldn't have sent two War Gods over."

"Senior, I heard that there are gods imprisoned on Bane here. I wonder if that is true? The strength of these Gods are all at the level of Empyrean Gods who are in control of their divine halls. " However, he was just thinking about it. After all, those gods were not as easy to deal with as the Azure Dragon.

[Chapter 1738](#)

The Azure Dragon frowned, and sank into deep thought. Chen Xiang did not disturb him.

An hour later, the green dragon regained his senses and said, "There is indeed such a thing. I had previously heard of a god being sent to the Divine Prison! However, these Gods did not break the rules, but had instead been harmed by some fellows. "

Chen Xiang said in shock: "Is this true? Were those Empyrean Gods in danger? I want to take a look! "

"Don't go, it's very dangerous!" The green dragon said.

Chen Xiang's face was filled with disappointment as he sighed.

"Oh right, Senior, how is the God's strength divided? War god? "An Empyrean God?" Chen Xiang was suddenly curious about this.

"Generally speaking, with the Emperor soul's jade bones and Divine Deity, he would be a demigod! If one could unleash the entirety of their Divine Deity, they would be able to become a True God. Above a True God would be the profound God, and finally, the God of Heaven! True Gods, profound God, and Empyrean Gods were divided into the lower, middle, and upper levels! For example, I, am now a middle profound God! "

After the green dragon had finished speaking, he took out a silver tablet. On the tablet, there was a dancing green dragon with the word "profound God" written on it. Next, there was a small Chinese character at the side.

"This is my plate, I used a hundred thousand God's Coins, obtained from the Wealth Divine Palace. I heard that the refining method is the same as the God's Coins." The green dragon replied, "But it's useless. It's just a symbol of strength! "Speaking of benefits, there are also places to go. It would be more convenient to have this kind of brand."

Chen Xiang took the divine badge from the green dragon. The workmanship was not bad, he suspected that there was a Top stone inside.

"This is also a divine artifact. At critical moments, it can be used to block the attacks of others." The Azure Dragon laughed.

"You can do it just because you gave the God money?" Chen Xiang asked: "I also want to get one of them. It should be more convenient to go to Gods Realm in the future."

"Of course not! First, you have to go to the all divine palaces to challenge it. Then, the all divine palaces will give you a proof of qualifications and ask you to go to the Wealth Divine Palace to exchange your divine money for a brand. " The green dragon said, "Only with the qualifications from the profound God can you take the War God title exam! Of course I can pass it, but it's not necessary. "

"Wargods are mainly meant to be fighters. If there is a warlord tag, then they will be more popular!"

Chen Xiang returned the plate to the green dragon, and asked: "Are there many gods in Gods Realm?"

The green dragon said, "There are many people in the Gods Realm. Although it is the highest level world, it is connected to countless spaces like the Nine Heaven World, so there are also many gods! However, only the strongest Upper Heavenly God would be qualified to create a Divine Palace. "

"Senior, you have been in the Gods Realm for so long. Is it fast or slow for you to train to the God level?" Chen Xiang felt that it would be easier to mess in Gods Realm with the power of at least the Azure Dragon, otherwise there would be a lot of scruples.

"It's too soon!" I feel that I will break through very soon, and I should be able to reach Super profound God's power level by cultivating here. " The green dragon looked at the sky, "If those two wargods come soon, then I can break through faster."

Chen Xiang's brows twitched: "You're going to devour them?"

The Azure Dragon laughed out loud, "Of course not, I need to use the stimulation of this battle to break through. But when the time comes, I can't kill them, or else I will go to hell."

Chen Xiang laughed: "Then let me do it, their Divine Deity must be very valuable!"

"Then we'll have to see if you have the ability to withdraw their Divine Deity."

Chen Xiang decided that after this, he would have more God-eclipse powder. If the quantity was higher, it would not be impossible for it to corrode the God's body.

The profound God's Divine Deity and soul were great supplements for Chen Xiang!

Chen Xiang and the green dragon started their battle again. At this moment, Chen Xiang was also hoping that the War Gods would hurry up because the green dragon had said that if he were to beat the dragon to the ground, the corpse would be handed over to him.

In the blink of an eye, another four months passed. The green dragon that was impatiently waiting suddenly roared and stopped its battle with Chen Xiang.

"You here?" Chen Xiang looked around, he could not see anything, and he could not sense any Qi.

The further away from here, the better. But, do not leave the side of the bane, we, the profound God, are fighting a great battle, and the aftermath will not be something you can handle. " The green dragon said as he kicked Chen Xiang, sending him flying into his line of sight.

Chen Xiang was kicked into the ocean. Just as he was about to complain about it, he suddenly saw the sky turn green and flash with lightning.

"Is this the Wind and Thunder Domain?" Chen Xiang said in shock. He was currently very far away from the Azure Dragon, and on the other side of the Bane of Calamity, even if he flew quickly himself, it would still take a few days!

But now, the Azure Dragon's Wind and Thunder Domain covered the entire Bane. Only now did he realize that the Azure Dragon had only used a tiny bit of its power when battling him.

Chen Xiang really wanted to go and take a look, but he knew that when he went there, the bottom of the pit would be wiped away by the aftermath of the God Battle.

"How's it going, my darlings?" Chen Xiang asked the beauties in the ring.

"We're halfway there. What's the situation outside?" Liu Meng'er asked.

"I don't know. The green dragon kicked me flying." Chen Xiang very much wanted to know as well.

"We're out of seclusion. With her, our progress will be even faster." Dongfang Xinyue's voice was filled with joy, "After quietly absorbing the Vermillion Bird's Inheritance Fruit, it has become very strong. It might even be stronger than me."

At this time, Dongfang Jing's delicate voice came out: "Big Brother, don't listen to aunt. I'm not that powerful."

Dongfang Jing did not like fighting and killing, she was worried that Leng Youlan would drag her into fighting, although she was already used to it, she was still unwilling.

Chen Xiang lied on the surface of the water, thinking about how strong his Emperor soul would be.

"Little Naughty Dragon, which convenient direction do you think my Emperor soul will go?" Chen Xiang was even more curious about this because his own Emperor soul was about to be completed soon.

"Hard to say!" Long Xueyi was not sure either, "At that time, I did not know that my Emperor soul's ability was only its ability to eat and sleep."

"What is the ability of the Azure Dragon's Emperor soul?" Chen Xiang replied: "I didn't dare to directly ask him."

"I don't know either. It's very mysterious. I asked him about it back then and he brought it over while squeaking." Long Xueyi said: "It should be very shameful, otherwise the old cyan bug wouldn't keep this a secret."

"What do you mean shameful?" Chen Xiang said: "Could it be that his Emperor soul's abilities are weak?"

"I don't know. This is a puzzle that I have been trying to solve for many years." Long Xueyi sighed: "Every time I think of it, my heart will always feel itchy."

"Meng'er, if you want to make the flames stronger, do you need me to do something?" Last time, when he saw the few girls' faces filled with envy at the power of the Azure Dragon's flames, he had always wanted to help them strengthen their flames.

"This kind of thing can't be rushed." Xue Xianxian said: "Grandpa Azure Dragon is a powerful middle profound God. It's normal for flames to be stronger than us. I never thought that I would be able to possess his kind of flames in an instant."

"But you should have a lot of room for improvement now!" Chen Xiang said: "If you guys are at this level of cultivation, then the flames will be very strong, which means that your starting point will be higher and higher, and you guys will be stronger and stronger in the future."

Chen Xiang was like that, although his cultivation was low, his strength was strong, and the requirements to level up in all aspects were many times higher than normal people, but it would make his strength stronger.

"If we had the fire and ice type Holy Fruits, it would be of great help to You Lan, Warm Moon, and Jing Jing. I don't know about that, but they all have powerful bloodlines now." Liu Meng'er's voice sounded.

"Youlan has the White Dragon Vein, so she can eat any kind of sacred fruit! The Warm Moon and the Silent Vermillion Bird bloodline are fire attributed, they need a holy fruit of fire attribute, or a medicine that strengthens the body like the Blood ginseng." Long Xueyi chuckled: "It's best if you have more varieties, eating too much will make you tired of it. You should know after eating Blood ginseng."

"Okay, after the green dragon takes care of those two War Gods, I will go to Bane One to find Yang Yan and ask if he can help me get those Holy Fruits."

Chen Xiang felt that since he had a good relationship with Yang Yan, he could obtain some of the Gods Realm's medicinal herbs. Although the price of the Holy level's medicinal herbs was relatively high in the Gods Realm, it was still more than the number of Nine Heaven World's medicinal herbs.

The sky was still covered by the cyan colored thick clouds of lightning, and the sea surface was undulating up and down. Chen Xiang had already waited for an entire day, but the battle still had not ended.

"Seems like the fellow battling the old cyan bug is very powerful. I wonder if he'll be able to withstand it!" Long Xueyi said: "Now I'm a bit worried about him."

The battle would become more and more intense, Chen Xiang was also not allowed to go near to watch, he could only wait patiently!

Previously, he had doubted Yang Yan's words. Now that the War God had come, it proved that Yang Yan's words were true, and that two War Gods had come here.

He also guessed that Chen Xiang would definitely receive the protection of the Azure Dragon on Bane Two, so he could not afford to risk his life and recruit two War Gods to deal with the Azure Dragon. Otherwise, if Chen Xiang could get the help of the Azure Dragon for a long period of time, he would have done a huge favor to Chen Xiang by forcing Chen Xiang into the Divine Prison.

This was something that the Hell Devil Emperor did not want to see. Previously, he did not know that the Azure Dragon would be locked up here, but it was only because Chen Xiang had stayed in Bane # 2 for too long that made him suspicious. When he investigated later on, he did not expect that there would be such a coincidence.

What the Hell Devil Emperor was most worried about was Chen Xiang getting rid of his Tracing mantra. If Chen Xiang was allowed to continue on his carefree journey, all that he had done in the past few years would just be a wasted effort, and he would suffer heavy losses.

If the Hell Devil Emperor knew that Chen Xiang could refine Jiupin spiritual Dan and also duplicate a large number of Holy level medicinal herbs, he would definitely be furious, because this would allow Chen Xiang to quickly become stronger.

"Hell Devil Emperor, if these two War Gods were killed by the Azure Dragon, you would be defeated! I think you should end it here! You can be considered a god already, what's the point in fighting with a small fry like me? You might as well wait until I go to Gods Realm in the future and we can fight face to face." Chen Xiang muttered.

[Chapter 1739](#)

Chen Xiang was tormented by Hell Devil Emperor to the point of being unbearable, he really wished that Hell Devil Emperor could temporarily stop them from killing him! Of course, even after this round, the Hell Devil Emperor would still not let him go, he had nothing to be afraid of, because he would soon cultivate a Emperor soul and at that time, he would be even stronger. Within the Nine Heaven World, as long as he was not a god, he would not be able to do anything to him.

Furthermore, Liu Meng'er and the others would be able to create that Tracing mantra that would allow them to get rid of the Hell Devil Emperor.

Chen Xiang had waited for five days, and the dense cyan clouds and dense lightning finally dispersed! The battle between the green dragon and the war god had already ended, but no one knew who won.

"The Azure Dragon's Wind and Thunder Domain covers the entire Bane, if he wins, he'll definitely come find me." Chen Xiang did not dare to go to the battlefield, afraid that there would be an accident.

Not long after Qing Yun left, Chen Xiang suddenly heard the Azure Dragon's sound transmission, "Why aren't you coming over yet, do you think I've lost?"

Chen Xiang's heart was in ecstasy. He quickly took out the green dragon cloak and flew in the direction of the green dragon.

The place where the green dragon had landed was surrounded by a barren mountain. Now, it was completely flat, and there were many places with bottomless pits.

After the battle, there were still strong auras left on the battlefield!

Azure Dragon's clothes were in tatters, but he looked very energetic, with a ruddy complexion and an excited expression.

"How amazing. You haven't even transformed into your original form and you can already defeat them?" Chen Xiang saw two strong men in tattered and thick armor lying next to the green dragon's feet.

"They do have a bit of strength and a lot of potential. They just passed the wargod exam, but once they met me, they admitted their bad luck." The Azure Dragon chuckled, "I'll leave it to you. Their physical bodies and souls were severely damaged by me and they have already lost their consciousness."

"If I wasn't worried about going to hell, I would have definitely helped you extract their divine souls and Divine Deity. Now, you can only act on your own."

Chen Xiang nodded, amongst the prisoners that were sent to Divine Prison, as long as they killed someone, the Penalty Heavenly God would quickly discover them, so the green dragon did not dare to act rashly.

But Chen Xiang was a foreigner, so the Penalty Heavenly God would not take the initiative to attack him. Unless Chen Xiang killed a large number of people, infused himself with a large amount of killing intent, and then went to find the Penalty Heavenly God, at that time the Penalty Heavenly God would definitely throw him into hell mercilessly.

He looked at Chen Xiang from above and sent a sound transmission to Chen Xiang, "This is the body of the profound God, and is many times more powerful than jade bones. Even if you have a divine weapon, it would still be difficult to easily harm their bodies."

"They are currently severely injured and in a coma, but their bodies have the power to defend themselves. With your current strength, I'm afraid it will be difficult for you to enter their Divine Sense Sea."

Chen Xiang knew his strong physical body. Even if he did not have consciousness, his self-defense was still very strong, which could protect both his physical body and the Divine Sense Sea from harm. Of course, this was only for those with weaker strengths. If it was the Azure Dragon, it would naturally be very easy.

Chen Xiang tried to use his own Soul Absorbing Devil Spell to break the defense of the two wargods.

"I will primarily take away their Divine Deity and divine soul. As long as we destroy their physical bodies, when their divine souls and Divine Deity do not have a powerful physical body to protect them, I can succeed."

Chen Xiang was already prepared. The reason he used so much spirit liquid before was to create a very strong God-eclipse powder.

"We have to be fast, or else their souls will be trapped in hell." Long Xueyi said.

Chen Xiang carefully held a box of God-eclipse powder and sprinkled it on one of the War Gods' body.

"What's that?" The green dragon hurriedly asked.

"Whether or not I can achieve it depends on this." Chen Xiang laughed.

This was the first time Chen Xiang's God-eclipse powder had truly been used on a god. Now, he wanted to test if the God-eclipse powder could live up to his name.

When the God-eclipse powder touched the God's body, it immediately emitted a wave of silver-white light mist, which was quickly corroding the powerful profound God's body.

"It's a success!" Chen Xiang was excited, he anxiously activated the Devouring magic kungfu.

This wargod's soul is very powerful, but he isn't devouring this soul right now, he's just storing it and sealing it in a crystal ball.

As for that Divine Deity, he didn't dare to merge it now either. Otherwise, the powerful consciousness inside would control his body and turn him into someone else.

"God-eclipse powder! This thing is indeed as frightening as the rumors said it is. I had originally wanted to make some of it, but after searching in the Gods Realm for a long time, I couldn't find any clues. The Azure Dragon was very surprised.

"This can only be used against this kind of unconscious god of war. If they are alive and kicking, then no matter how many God-eclipse powder I use, it would be useless."

Chen Xiang reaped a War God's Divine Deity and a powerful divine soul. As long as he could use them well, he hoped that Yue Yang could improve by leaps and bounds.

Next, he used the same method to collect the other wargod's soul and Divine Deity!

"Done!" Chen Xiang laughed mischievously as he looked at the crystal clear Divine Deity in his hand. This Divine Deity was hidden within the Divine Sense Sea, and his soul was also an illusory and intangible object that contained the universe.

Chen Xiang had already tried to hide things inside the Divine Sense Sea before, so he had successfully hidden the storage ring inside it so that he wouldn't be discovered. He felt that he had to make good use of the Divine Sense Sea in the future.

"You just became a War God and you were exterminated like this. If this were to spread to the Gods Realm, it would be even more difficult for you to get along with me in the future! The fact that you have a God-eclipse powder must not be spread out. " The green dragon suddenly appeared beside Chen Xiang, his voice serious as he warned Chen Xiang.

"I know!" Chen Xiang laughed: "Oh right, what's the price for this profound God's Divine Deity?"

"You actually want to sell such a good thing?" "Of course the price is very high, usually it's for auction. I'll leave it for you to use, your physique is so special, with this thing you can help him improve faster." The green dragon patted Chen Xiang's head, "You must not sell it in the Gods Realm. Those two Divine Deities might not have left their brand mark on it, it's very difficult to sell them! It is very likely that those two wargods have joined the Wargod Hall. "

"Aren't the Divine Deity of normal gods who have been sent to Divine Prison erased, along with the imprint of the Divine Palace?" Chen Xiang frowned: "Don't these two wargods have it?"

"It's a matter of the War God Shrine being erased. The War God Shrine is doing business with the Hell Devil Emperor and deliberately allowed the War God to come here. The War God's Shrine obviously wouldn't erase the imprint of their Divine Deity!" The Azure Dragon explained, "Generally, the reason why the shrine's brand was erased was because those shrines were afraid of damaging their honor."

Chen Xiang understood. "In that case, the Hell Devil Emperor and the War God Shrine have agreed on a price and the War God Shrine will send people down!"

"It should be, but these two wargods should have obtained a lot of benefits as well. Maybe the Storage magic treasure on them even has 2-3 billion god's money, but they just disappeared now." The Azure Dragon let out a long sigh of regret, "With so much divine money, it will be very difficult to earn."

[Chapter 1740](#)

Chen Xiang also felt that it was a pity, but it was all the Hell Devil Emperor's divine money, and it would only be heartache.

"They have earned so much. They have to have a life to spend it." Chen Xiang saw that the two corpses had already been completely corroded.

The Azure Dragon stroked his beard and laughed, "This time I have fought quite well. After so many years, I can finally relax my muscles!"

Chen Xiang said, "If these two War Gods were sent down by the War God Shrine and they were to die now, would the War God Shrine still send down more War Gods?"

"Whatever they are, just kill them all. If they send the Super profound God down, I would risk it all to help me break through my bottleneck." The Azure Dragon laughed, "Unless they send their god down, but if he were to be sent to Divine Prison, he would not be locked in this place with me. This Number Two Bane Calamity is mine alone."

"Why are you enjoying Bane 2 alone?" Long Xueyi was a little confused, "Even god does not have that kind of treatment, but you actually do. Even if your relationship with Penalty Heavenly God is good, you shouldn't have such treatment, right?"

"I heard that Bane Two was specially set up for fellows who came from the Nine Heaven World. There are only a few who go to the Gods Realm from the Nine Heaven World, and there are even fewer who get sent to the Divine Prison for crimes, so it can be said that I have it for myself."

Long Xueyi asked again, "Those two wargods that have been sent to the Divine Prison should have gone to another calamity fiend. How can they be free?"

The green dragon laughed, "Maybe Penalty Heavenly God knew that I was bored and purposely allowed them to have the right to freedom."

Chen Xiang looked at the bane of star # 1 and said: "Yang Yan is quite interesting. I hope that he and I can really become friends."

"Bring me to see this guy. If I can trust him, let me see if I can get him to bring some good stuff down from Gods Realm." Long Xueyi laughed: "I really want to taste the flavor of the divine fruit."

"Didn't you eat Earthly fruits before?" Chen Xiang curled his lips: "The divine fruit is very expensive, I can't afford to buy it."

"You can think of a way!" Long Xueyi said as she entered the Dark Dragon's Ring, "Whether or not he succeeds, you have to ask him whether or not you have a way to get his hands on it."

The green dragon patted Chen Xiang's shoulders, and laughed: "With a little glutton like him here, you will have a hard time in the future."

Chen Xiang had a helpless look on his face: "I'm going to Bane One!"

"You be careful, maybe the Hell Devil Emperor has some tricks up his sleeve!" With a word of advice from the green dragon, Chen Xiang immediately disappeared.

This time, Chen Xiang easily saw Yang Yan. This time, Chen Xiang was brought to a quiet and elegant small hall.

A few days ago, Yang Yan had already known that two War Gods had arrived at the Divine Prison. Now, seeing that Chen Xiang had arrived here safely, he was extremely shocked.

"As expected of brother Shen!" To be honest, I thought I'd never see you again. " Yang Yan laughed heartily: "Now we can drink two cups happily!"

Chen Xiang looked at the imposing man in front of him, and started laughing out loud, saying: "Aren't you afraid that I'll cause you trouble?"

"Of course I'm not afraid. No one dares to barge into this place." Yang Yan had already called him up and arranged the feast. Seeing the sumptuous meal table, Long Xueyi could not sit still anymore and quickly walked out of the ring.

Seeing that there was suddenly a beautiful girl, Yang Yan could not help but be cautious.

Chen Xiang immediately explained, "This is my ..."

"I am his woman. Just wait and drink as much as you want." Long Xueyi said while grinning. He already sat down and started to plan what to eat first.

Chen Xiang really wanted to pat her, but she suddenly popped up.

"Big brother Yang, is my little girl preventing you from drinking?" Long Xueyi looked at the astonished Yang Yan and stuck out his tongue.

Yang Yan was unable to react, upon hearing Long Xueyi's words, he immediately laughed: "Of course not, you're brother Shen's wife, of course I welcome you."

"I'm sorry, but this little girl is just greedy. After seeing the dishes on the table, she couldn't help but run out." Chen Xiang lightly pinched Long Xueyi's face.

"No problem, just eat!" Yang Yan said very straightforwardly, and right after he finished speaking, Long Xueyi started moving, and started tasting the dishes on the table.

Chen Xiang heaved a sigh of relief in her heart, because the current Long Xueyi did not have that disgusting appearance of devouring food like a wolf. Her rather elegant way of eating was a wonder in Chen Xiang's eyes.

Yang Yan laughed, and raised his cup to Chen Xiang, and the two of them continued to drink, while chatting. Long Xueyi's speed of eating also gradually increased.

Yang Yan owned a hotel, and he did not plan to make money opening a hotel. Chen Xiang could tell that he was a person who liked to make friends, so he was very generous and straightforward. Seeing that Long Xueyi liked to eat, he even got someone to serve him a table, handing over all the delicious dishes in the hotel.

"Both of them are disciples of the God of Fortune, why is the difference so huge! You, Yu Fan, are very sinister!" Long Xueyi was not afraid to say all these in front of Yang Yan, because he did not care at all.

Yang Yan laughed: "Although we are the disciples of the God of Fortune, I am following him. He is a righteous man, righteous and righteous, so in order to become his disciples, we have to be like him."

"Doesn't that mean that there are very few disciples who can bring glory to the gods?" Chen Xiang said: "Yu Fan said before, there are a lot of disciples and juniors of the Feng God, but I have never seen the Feng God more than a few times."

My master is his youngest, youngest disciple, and also the weakest disciple. He was sent here to gain experience, and he is very good to both my master and me.

"Oh right, big brother Yang, is the one in charge of native bank your father or your master?" The quality that Chen Xiang had obtained from him before, was that they were father and son.

"He's my father, he's my master!" Yang Yan said: "I am my father's only son, but in order to join the Illuminating God's Sect, I have to acknowledge him as my master! God Feng is everywhere to take in disciples, and his disciples are fighting and scheming to get the God's injuries. Although this will allow them to produce very powerful disciples, the conduct of these disciples is very bad."

Long Xueyi was in complete agreement: "Then Yu Fan is that virtuous person, a very sinister guy, I have to kill him."

"It's not easy to kill him! He has the Penalty Heavenly God watching him, so it's not easy for him to make a move." Yang Yan shook his head and laughed.

"Didn't you say we could just arrest him?" Chen Xiang felt that it was not that difficult.

"That's right, but when you capture him, you have to make him lose consciousness in an instant, and make him faint without feeling a single bit of vigilance. Otherwise, the moment he becomes alert, he will trigger the divine will the Penalty Heavenly God left on him, and the Penalty Heavenly God will act." Yang Yan said: "This is extremely difficult."

"We absolutely cannot let him obtain one Divine Deity for no reason." Long Xueyi's face was filled with resentment.

"Of course, but he will not leave this place for the time being. As long as his Divine Deity is in his hands, he will have time to think of a way to take it back from him." Yang Yan drank a cup of wine and laughed: "Perhaps I can help you think of a way."

Long Xueyi laughed: "Big brother Yang, I heard that you are also in the business of hunting Divine Deity, is this true?"

Seeing Long Xueyi being so sloppy, Chen Xiang was a little worried, but he knew that Yang Yan was also that type of person.

"That's right, but actually, this is something that the higher ups have tacitly approved of. It's just that it's not easy to get an unbranded Divine Deity from here, there were many people who fell for it in the past! As long as we do not touch the bottom line of the Penalty Heavenly God and do not cause any big trouble, this is something that the people above have tacitly approved of. "

"Doesn't that mean we can make a huge fortune when we are sent down here to serve?" Long Xueyi said.

Yang Yan smiled slightly: "Did Yu Fan tell you all that it's unfortunate that he was sent down?"

Chen Xiang and Long Xueyi nodded. Back then, Yu Fan acted as if he was sent down to suffer.

"You guys might not know this, but Yu Fan and his master are people who are valued more by Feng Shen. Otherwise, how could Yu Fan have such good arrangements?"

Long Xueyi spat out: "This guy, he said that he was pitiful at first, saying that he has never met Feng Shen before, and that he is weak. When he leaves the Divine Prison in the future, he will be left in the dust by his own fellow apprentices."

Chen Xiang said: "No wonder he could help me get a good target so quickly, he had already set it up a long time ago, he is only missing a good hunter."

Long Xueyi laughed: "Since Big brother Yang is a tycoon, then I won't hold back!" With that, she started to wolf it down, causing Yang Yan to laugh out loud.

"Big brother Yang, Chen Xiang is a good hunter, take a look at him, will he be able to cooperate with you?"

Yang Yan said: "Of course you can, I can provide brother Shen with a good goal, and I do not want anything, but brother Shen you must understand, if you kill too many people here, it will not be easy to get out, especially the Penalty Heavenly God trial, and the risk of being sent to hell! If you were not beaten to death, Penalty Heavenly God would not normally look for you. "

"I don't want to kill too many either. I just want to obtain a few Divine Deity s! Then, you can get some divine money from Big Brother Yang and ask him to help me buy some things from the Gods Realm. I wonder if it will be too troublesome for you. " Chen Xiang had a Divine Deity on him, which could be exchanged for a lot of divine money. It was enough for him to buy a lot of things.

"Of course it's not troublesome, it's just that I need some time to buy things from the Gods Realm, and the things I buy can't be too precious. For example, Holy Pellet and Divine Pellet, they take a longer time." Yang Yan said.

"What about the Holy level medicinal ingredients or the sacred fruit?" Chen Xiang only needed these, especially the fire and ice type Holy Fruits.

"You can get it pretty quickly!" Yang Yan laughed: Brother Shen, could it be that you plan on staying here for a long time, before you leave?

"I do have such an idea!" Chen Xiang planned to increase his strength before he left, but he would not stay for too long. If he managed to cultivate Emperor soul and refine the Divine Boat with Liu Meng'er, he would be able to leave the Divine Prison.
