

Dan God 1841

[Chapter 1841](#)

Chen Xiang continued to stay in the secret room to refine pills. He had only come out after refining the Spirit Soul Shengyuan holy Dan, he had already completed what Feng Yujie had given him earlier, without any pressure, it had become much easier to refine pills.

When he had previously refined Dragon Blood Saint Dan with Spiritual Lights, Chen Xiang had accumulated a very rich amount of experience in this area. Furthermore, the Lingguang Dan he refined was also much better than the other Alchemists, the amount of strength required to produce the pellet was also very considerable, and his speed was even faster than other Alchemists.

Right now, when refining the Shengyuan holy Dan, the methods required were the same. Since Chen Xiang could handle the Dragon Blood Saint Dan well, there was no difficulty in facing the Shengyuan holy Dan at all.

He only used three days to successfully refine a Shengyuan holy Dan that was emitting a light blue light.

"It won't be difficult for me at all." Chen Xiang looked at the Lingguang Dan in his palm, laughed proudly, and walked out of the secret room.

Long Xueyi and Lv Qilian were chatting in the hall, and in the meantime, Lv Qilian had passed down the Alive Slain Method to Long Xueyi.

Seeing Chen Xiang's smile, Lv Qilian asked: "Seems like you've gotten a lot. How many Shengyuan holy Dants have you refined?"

Chen Xiang threw a Storage bag over and smiled: "See for yourself, if I tell you, you might not believe me."

Although Lv Qilian was mentally prepared, after he took out a jade box from the Storage bag, he opened it and saw many light blue pellets. These were all Shengyuan holy Dants.

A hundred Shengyuan holy Dan were piled up together, emitting a light as beautiful as blue flames.

"You finished it so quickly, how did you do it?" Long Xueyi carefully counted. A hundred Shengyuan holy Dan pills, no more no less.

"Hehe, this is the method I just comprehended from the Heavenly Alchemy. Its name is the Original source refining, it's amazing." Chen Xiang laughed, and then he took out another blue colored pill that was wrapped in a barrier of light. This was also a Shengyuan holy Dan, but it was currently emitting a Pill light.

Lv Qilian and Long Xueyi stared blankly at the Shengyuan holy Dan that was greatly energized by the light. They were already surprised that Chen Xiang was able to refine a hundred Shengyuan holy Dants in a short period of time, but other than that, Chen Xiang had also successfully refined a Shengyuan holy Dan that possessed a light aura.

"I'll inform Sister Feng to come and take away these Shengyuan holy Dan. This way, you can get the other Shangpin holy Dan 'recipes as soon as possible." Lv Qilian was also very happy. This Shengyuan holy Dan was Feng Yujie's signature Shangpin holy Dan.

Therefore, she wanted Feng Yujie to give the other type of Shangpin holy Dan to Chen Xiang.

After Lv Qilian left, he leaned against the chair, closed his eyes, and said: "I might be able to create a pill formula right now. I plan to merge the Dragon Blood Saint Dan and the Shengyuan holy Dan together."

Long Xueyi said: "Dragon Blood Saint Dan s can increase the strength of bones and blood, while Shengyuan holy Dan s can increase their strength by leaps and bounds within two hours. There's a huge difference in speciality between them."

Chen Xiang opened his eyes and took out a Dragon Blood Saint Dan. He said: "Shengyuan holy Dan s can only increase the strength of one's divine power, and adding in the Dragon Blood Saint Dan, maybe it can even increase the strength of one's physical body."

Within two hours, if both his physical body and divine power increased by several times, then this pill would be even easier to sell.

"Then hurry up and give it a try." Long Xueyi laughed: "Wait until Feng Yujie arrives, let her see how powerful you are."

Just as Chen Xiang came out, he had this thought and immediately went into the secret room to refine pills.

He found out from Feng Yujie that during the process of refining the divine pellet, he needed to add the finished product as the material for the divine pellet.

In other words, while refining Shangpin holy Dan, it was possible to use this method. However, the prerequisite was that a pill formula was necessary to fuse the two.

Chen Xiang decided to use his Spirit Eyes on the Dragon Blood Saint Dan. If he could see the Spirit blood that was hidden inside the Dragon Blood Saint Dan, then he could fuse the Dragon Blood Saint Dan with it.

When Lv Qilian returned, he did not see Chen Xiang. After asking Long Xueyi about it, he found out that Chen Xiang had gone back to refine pills, and even wanted to create a pill formula to refine a unique Shangpin holy Dan.

"Sister Feng might not come so soon, her situation should be much better now, at least she won't be watched by the Highest Devil God to death." Lv Qilian had only left a secret note that he would come here if Feng Yujie saw him.

The next morning, Feng Yujie came back. This time, she didn't come as last time as she was very energetic, but she was still being monitored.

"Is there something urgent you need from me?" When Feng Yujie came in, he did not see Chen Xiang, so he laughed: "Is that little brat still concocting pills?"

Lv Qilian laughed: "He is concocting pills, it's just that he is refining his own pills, he has already completed the work you gave him."

As she said that, she gave the box of Shengyuan holy Dan s refined by Chen Xiang to Feng Yujie.

A hundred Shengyuan holy Dan would only need two months to refine. Even if it was her, it would still take nearly three months to refine them, without sleep every night.

"How did he do it?" Feng Yujie looked at the big door of the secret room, wanting to grab Chen Xiang who was inside and ask him about it, because this method of training was simply too heaven defying.

Long Xueyi laughed tenderly: "This can't be considered strong, this is the most shocking part about that little scoundrel." She tossed a Spirit Soul Shengyuan holy Dan pill to Feng Yujie.

When Feng Yujie saw the ray of blue light shooting towards her, her heart skipped a beat. She knew what that light meant, but she immediately denied that it was not Spiritual Light.

Lv Qilian smiled and said: "He said that he had comprehended a method from the Heavenly Alchemy, which was why he was able to do it so smoothly.

Feng Yujie took in a deep breath. If it was those Holy Pellets that did not require a medicinal formula before, she would not be surprised if Chen Xiang could quickly refine them like sweet potatoes. But this was only because they were restricted by the medicinal formula.

For Chen Xiang to be able to refine a hundred Shengyuan holy Dan so quickly, it was obvious that he did not follow the steps in the recipe.

Feng Yujie was very sure that there were still leftover of the hundred sets of Shengyuan holy Dan medicine that she gave Chen Xiang.

"I really want to drag him out and ask him. Forget it, I'll ask him next time. I'll go back first." Feng Yujie also didn't want to disturb Chen Xiang; if Chen Xiang could create his own pill formulas, she would of course be happy for him.

"Sister Feng, can you give him another set of pill recipes? The best would be the rare ones." Lv Qilian was thinking for Chen Xiang.

Feng Yujie stuck out his tongue: "Qilian, your relationship with this brat is getting better and better, as if you are his wife.

"I do have the pill formulas, but do you think his hidden potential will be stimulated if I give it to him? So, I think it's better to just let him think of a way. It'll be beneficial to himself."

[Chapter 1842](#)

Lv Qilian and Long Xueyi thought about it and felt that it made sense. Chen Xiang had already started to create his own pill formulas, but they did not know whether he would succeed or not.

Feng Yujie waited for less than an hour, but Chen Xiang did not come out. Thus, she had no choice but to leave, she could not go out for long in order to not be discovered by the Highest Devil God.

Chen Xiang only opened the door of the private room at night, Lv Qilian and Long Xueyi were patiently waiting outside. Seeing Chen Xiang's tired state, they hurried over to help him.

"I'm fine, it's not like I can't walk." Chen Xiang laughed, although he said so, but with the two girls being so considerate, it made his heart feel warm.

After Chen Xiang sat down, he drank a cup of the sweet and hot tea that Lv Qilian gave him and asked: "Has Sister Feng come yet."

"He came this morning and has already left." Long Xueyi laughed: "Your results have truly frightened her to death."

Lv Qilian said: "I've asked around, this Shengyuan holy Dan can be sold for one hundred and fifty thousand divine money, and it's a relatively low price, even more popular than the Heaven holy Dan sold by the son of a god, Li Zhonghan. It's just that they are rarely sold on the market."

"However, that Dan God Ye knows that only Sister Feng knows how to refine pills, so once you sell this pill, it will expose your relationship with her."

Chen Xiang smiled lightly: "If I were to sell Wild Dragon Saint Dan, then there won't be a problem."

Long Xueyi said in surprise: "Wild Dragon Saint Dan, you just created it."

Chen Xiang smiled and nodded: "Shangpin holy Dan s that can simultaneously raise the strength and divine power of their physical body by several times have an additional effect, so I think that even if they are sold for two hundred thousand gold coins, there will still be people who want it."

Lv Qilian did not expect Chen Xiang to finish it so quickly, and to create an innovative pill formula was extremely difficult in her eyes, at least ten years, or even tens of thousands of years, it was nothing out of the ordinary.

Yet Chen Xiang had completed it in one day, and was actually doing it so easily in Chen Xiang's eyes.

Chen Xiang took out a light blue pill. On top of the pill was a dragon carved from a red Spirit grain, it looked to be of a very high grade.

"Qilian, do you think that it would be more worthwhile if we just directly buy the ingredients for the Blood ginseng and us to duplicate them?" Chen Xiang asked: "We currently have too little divine money, we should earn more to settle down, at least let's talk about the grandeur of the house."

Lv Qilian thought for a moment, then said: "If it was the past, then of course it would be more worthwhile to directly purchase them, but now, the price of the medicinal ingredients are increasing every day, and it is becoming less and less, I have already heard that there are more than ten divine pills competing, and just five years later, when they compete to refine divine pellets, they will need a lot of different types of divine pellets as supplementary materials, so in these five years, whether it is the medicinal ingredients or the divine pellets, they will all increase."

Chen Xiang nodded: "To refine a divine pellet, it requires a lot of support, I didn't have any concept of that before, but after this time, I have some understanding of it, and this is to make up for the lack of materials for the God level, so I need to use a sacred pellet to make up for it."

"I still have sixty sets of Shengyuan holy Dan's medicinal herbs. Qilian, you copy sixty Blood ginseng's medicinal herbs first." Chen Xiang said: "I am preparing to refine a lot of Wild Dragon Saint Dan, now is the perfect time."

It was simply too easy to replicate a Blood ginseng. The spirit liquid that Lv Qilian and Long Xueyi had condensed in the past few days was enough, they didn't need to use those purple spirit pearls at all.

Lv Qilian herself also had Blood ginseng, which was what Chen Xiang had given her back then. She and Long Xueyi had immediately carried it out.

"I need some time to refine this Wild Dragon Saint Dan. During this time, you should go and see where it is selling, and if the price is too expensive, you should all sell these two Spirit Shengyuan holy Dan. You should be careful when selling them, it would be best to go somewhere else." After Chen Xiang finished explaining the situation, he entered the secret room to refine pills.

Back then, Lv Qilian was in charge of the Hundreds of Flowers Palace and was very experienced with such matters. Even if Chen Xiang didn't remind her, she knew what she should do.

... ..

"Father, even though I am able to refine a Spirit Soul Dragon Blood Saint Dan, I am unable to reach this level. This Chen Xiang is indeed a rare pill genius." Ye Qin came out of the pill refining room, looked at the Dragon Blood Saint Dan he had just refined and sighed softly.

Although the Dragon Blood Saint Dan that she had refined also possessed a spirit light, the spirit light that it emitted was slightly weaker than the one that Chen Xiang had refined. Although it was only a little, Ye Qin had refined more than ten batches, but still could not reach Chen Xiang's level.

Qin'er, your strength is already very high, you are on par with the multicolored light, and are on par with many famous Dan Saint Title. As for Chen Xiang, he is a different species, you don't need to compare him with you, he has the Heavenly Alchemy. Dan God Ye lovingly patted Ye Qin's head.

The Dan God Ye had sharp eyebrows and a handsome face. He looked very young, and he was currently in Divine Female Palace.

Ye Qin pursed his lips and said: "But I can't accept this, I've been learning alchemy with my father for many years already, but Chen Xiang doesn't have any pointers from the Pill God, and he also cultivates his own Heavenly Alchemy, so he hasn't been in the path of alchemy for as long as I have. He has to hide and avoid all the Hell Devil Emperor s for all these years."

Dan God Ye laughed: "You will surpass him sooner or later because he doesn't have a pill formula now, unless he can find a master. But now, no pill god dares to take him in as a disciple.

"Qin'er, if you have the time right now, please help me refine some Shangpin holy Dan s. Although there are still five years left, I want to make sufficient preparations. When the ten great pill gods meet up, they will definitely compete.

Just as Dan God Ye finished speaking, Ye Qin stuck out his tongue lightly and pouted: "No, since you have so many disciples, just let them refine it, I want to learn how to refine divine pellets."

"Little girl, you even dare to refuse daddy's request." Dan God Ye laughed and scolded him.

"That Feng Shen's son has really troubled me. As long as I can concoct a divine pill, I'll see if he still dares to pester me." Ye Qin laughed lightly, "Father, don't be so harsh on me. I must let this fellow, Li Zhonghan, see just how powerful I am."

... ..

The Dan God Ye determined that Chen Xiang did not have the pill formulas, so it was difficult for him to improve. But right now, Chen Xiang could already improve based on the methods of others, and create a better and more useful Shangpin holy Dan.

In just over ten days, Chen Xiang, who had been able to steadily refine four batches of pellets every day, had already refined all sixty batches of pellets. Every furnace would produce four pellets, and in total, there would be two hundred and forty pellets of Wild Dragon Saint Dan.

"I'll sell it for two hundred pills, keep forty of them. Two hundred thousand for one pill, that would be forty million gold coins." Chen Xiang was a little excited just thinking about it.

[Chapter 1843](#)

Right now, he still wanted to help Feng Yujie refine pills, because this way, he would be able to get a large amount of Shangpin holy Dan faster. This was much faster than him and Lv Qilian copying the Shangpin holy Dan with the spirit pearls.

Chen Xiang came out of the secret room, went to take a bath, and lied on the bed in the courtyard to bask in the sun while waiting for Lv Qilian and Long Xueyi to return.

Lv Qilian and Long Xueyi would go out everyday to find out the latest market conditions for the medicinal pellets, so that they could find a good method to sell the Wild Dragon Saint Dan at the fastest speed.

Chen Xiang didn't have to wait long before they returned. Seeing that Chen Xiang was bathing in the sun and was in an extremely good mood, the two girls knew that Chen Xiang had succeeded and had already refined many Wild Dragon Saint Dan s.

"I have refined 240 pills in total, but I only intend to sell 200 pills." Chen Xiang laughed: "Now I have to test the effects of the Wild Dragon Saint Dan. Although I can successfully refine it, I have yet to eat it."

As he said that, he took one and the effects of the pill quickly came into effect. Even though he was an Inferior True God, his physical body and divine power were already very strong, but he could still feel that they had more than doubled in strength.

"Sister Qilian, try it." Chen Xiang handed a Wild Dragon Saint Dan over to Lv Qilian. Lv Qilian was a True God, but his physical body wasn't as powerful as's.

After Lv Qilian ate it, his face was filled with astonishment. Clearly, he was feeling just how great the power this Wild Dragon Saint Dan brought was.

Lv Qilian took a deep breath and said, "It has been strengthened by about six times. If it's the Upper True God, it should be five times.

Because Chen Xiang was strong in the first place, the increase in his strength was not that great, unless it was a Wild Dragon Saint Dan with spirit energy.

"It shouldn't be a problem to sell it for two hundred thousand yuan for one pill, right?" asked. Shengyuan holy Dan had such a price, but they were famous for it, and his Wild Dragon Saint Dan had just been created. If it was not widely known, no one would believe the effects of the Wild Dragon Saint Dan.

Lv Qilian and Long Xueyi had thought of this problem before, but they already had a solution.

"No problem." Lv Qilian said with complete confidence: "We don't need to rent a shop, and we don't need to sell these pills to the shop. We can handle it ourselves."

Long Xueyi laughed: "When the time comes, we will set up a stall, and your pills are so beautiful, how do you want to advertise then, just leave it to us."

When Chen Xiang saw that Long Xueyi and Lv Qilian were both wearing their mysterious smiles, he knew that they had already prepared for it.

"Take it out and sell it now." Lv Qilian looked at the sky. It was still noon, so it was still early.

Chen Xiang nodded his head, then followed them through the bustling streets, arriving at a market, specially reserved for stalls, the market was also very lively, there were a lot of people, there were many of them shouting and yelling, and the scene of people bargaining and bargaining till their faces turned red could be seen everywhere.

When he came over, Chen Xiang took a look around. The market was right beside a bustling street and on both sides of the street, there were powerful shops. Amongst them was the Divine Han shop, which was also the shop opened by the son of the god.

Setting up a stall in the market also required a lot of money, but Long Xueyi and Lv Qilian had already rented it. When they arrived at the place, they took out a few banners that said "Wild Dragon Saint Dan's medicine".

Chen Xiang watched on the side, because Lv Qilian and Long Xueyi did not plan for him to interfere. He had initially thought that this would not work, but who knew that not long after the two girls came out of the stall, many people came over.

Then, he discovered that all these people had a piece of paper in their hands, which described the effects of the Wild Dragon Saint Dan in detail. It was obvious that Long Xueyi and Lv Qilian had left long ago.

Lv Qilian took out a rectangular transparent crystal chest and placed the two hundred Wild Dragon Saint Dan s inside. This was more than two hundred of them, even some of the larger pill stores would find it hard to guarantee that there were so many of them.

The light blue Wild Dragon Saint Dan looked like a Shengyuan holy Dan, but it was not hard to find. On the smooth surface of the pill was a small red dragon carved with clear carvings.

Lv Qilian and Long Xueyi had already spread the news everywhere over the past few days, so whenever they set up a stall now, most people who passed by would come over to take a look.

This kind of high quality pill was usually placed in those shops, and they were all tightly held in a small jade bottle by the shopkeeper. Now that it could be seen from the stall, many people were suspicious and thought that this was not a real Shangpin holy Dan.

"Little miss, is this really a Shangpin holy Dan that was refined by a pill saint? Is there any proof, your background is unknown, I don't dare to buy it." An old man brought his eyes close to the crystal chest and looked at the Wild Dragon Saint Dan inside carefully.

Lv Qilian smiled: "As long as you eat it, its effects are obvious, but this type of pill is usually consumed when you need it, of course, we cannot let you buy it and immediately eat it for inspection, so we have decided, as long as the top ten customers who buy this Wild Dragon Saint Dan, we will gift each one to you."

Just as he finished speaking, the old man shouted, "I want to buy one ..."

This old man's attire was very ordinary, but looking at how refreshed he was, he should be relatively wealthy. Otherwise, he wouldn't have casually bought a pill worth 200,000 dollars.

Other people still did not dare to buy it, because the Wild Dragon Saint Dan's origin was unknown, but the old man was not afraid, because he had his own strength, and if someone dared to sell fake goods here, they would not leave the city.

Lv Qilian took the old man's divine money and opened the crystal chest. The pill fragrance instantly gushed out like a gust of light breeze, causing everyone's nose to tremble, the dense pill fragrance was able to cause everyone to tremble. There were a few weaker people here, but they had never eaten a Shangpin holy Dan before, so they secretly believed that they were really selling them.

Long Xueyi took out two pills and handed it over to the old man with a sweet smile.

After the old man received it, he said, "If you dare to sell fake items, don't blame me for being impolite."

Lv Qilian smiled and said: "Old senior, don't worry, we will definitely not lie."

After the old man consumed one pellet, his face changed and he revealed a look of surprise and joy. After that, he praised: "What a good pellet, it is much better than that Shengyuan holy Dan."

"I want another ten pills." The old man quickly took out the divine money and bought another ten pills. This time, he didn't give them to him, and he left very quickly as well, because he had to try them out before the effects of the medicine disappeared.

He got two million in one go, and it was sold pretty quickly. Although the old man verified that it was a genuine Shangpin holy Dan, no one continued to buy it.

[Chapter 1844](#)

The detailed introduction of the Wild Dragon Saint Dan was written on a sign beside the stall. It seemed to have the same effect as the Shengyuan holy Dan, but it had one more effect than the Shengyuan holy Dan, which was to increase the strength of the Shengyuan holy Dan's body.

Goddess City was currently gathering a lot of Pill Saints, because the Dan God Ye was here, and many of them came to see if they could have the chance to interact with the Dan God Ye. At this time, a type of

Shangpin holy Dan that they had never heard of appeared, and it also attracted the interest of the group of Pill Saints.

Chen Xiang didn't know what kind of advertisement Lv Qilian and Long Xueyi had made to actually attract the pill masters he saw in the shops of the Divine Female Palace.

Even the Rosy clouds Dan Saint came to join in the fun. Other than them, there was also the surprising daughter of the Dan God Ye, Ye Qin.

Chen Xiang hid at the side and watched. Lv Qilian and Long Xueyi had instructed him not to join them.

Lv Qilian and Long Xueyi had already changed their appearances, and although they looked like two girls with decent appearances, and did not attract too much attention, they had still successfully attracted many people over.

They were both pill masters with impressive strength, able to refine Shangpin holy Dan s. At this moment, they saw with their own eyes that the Wild Dragon Saint Dan was a little shocking, too. Based on their many years of experience, they could immediately tell that it was very similar to the Shengyuan holy Dan, but there was a dragon carved on top of the Spirit grain.

There were also some Pill Saints who thought of carving the patterns on top of sacred pills, but very few of them succeeded, so even if they succeeded, they wouldn't have much use for it. Furthermore, the reason why Chen Xiang carved the Spirit grain was only to restrict it, allowing it to integrate more perfectly with other medicinal ingredients.

"We'll take one each." Ye Qin gave Lv Qilian a Storage bag that had God's money inside.

Lv Qilian counted and got Long Xueyi to take out four Wild Dragon Saint Dan s.

"You guys are the top ten customers, so you guys bought one for me." Long Xueyi smiled sweetly and gave them four Wild Dragon Saint Dan.

Soon after, the other Pill Saints also took out their divine money to buy it. As long as they quickly bought one, they would get one free. With this, the top ten spots had already been snatched.

Ye Qin and the Rosy clouds Dan Saint also ate the gift and used it to test the effects. After eating it, they revealed expressions of shock, and then looked at each other and nodded.

They were all Super profound God, but after eating the Wild Dragon Saint Dan, they could clearly feel their bodies and divine power increasing. Although it wasn't double, but this increase was already considered good for them, because if they wanted to increase their strength now, they could only become gods.

If a middle profound God were to eat it, their strength would increase by one fold. This kind of pill was much better than Shengyuan holy Dan s, but the price was the same as Shengyuan holy Dan s.

"How many pills do you have left? We'll take them all." After sensing the effects, Ye Qin immediately made a decision to buy them all.

Seeing Lv Qilian and Long Xueyi hesitating, Ye Qin swept his gaze over the crystal chest. There were about two hundred pills, and said: "40 million, sell them all to us. How about it?"

Unexpectedly, Lv Qilian said: "This sister, we would also like to sell it to you. However, the purpose of our sale is to sell this sacred pill so that more people can experience the miraculous effects of this pill, so we can only sell fifty of them to you."

The woman of the Pill God had already said that she wanted to buy it all, which was enough to prove whether the Wild Dragon Saint Dan was a good pill or not. It could be said that the promotional effect had already been achieved, but Lv Qilian wanted a good reputation, and at the same time, wanted more people to experience the strong effects of the Wild Dragon Saint Dan.

"50 pills is 50 pills." Ye Qin was in charge of the shop and he knew that Lv Qilian's goal in doing so was to make the Wild Dragon Saint Dan famous.

"Excuse me, but may I ask which Senior alchemist concocted it?" Ye Qin couldn't really tell which great pill refiner refined it, because at this time, the Pill God would only store the best Shangpin holy Dan, so that in the Pill God Tournament five years later, he wouldn't sell such a pill.

"It's inconvenient to inform you about this. Senior has already instructed me to do so." Lv Qilian smiled faintly.

was the daughter of the Pill God. This kind of divine money was nothing to her, moreover, she had bought it on behalf of the Divine Female Palace, so she could easily take it out.

After Ye Qin and the Rosy clouds Dan Saint left, the rest of the people swarmed over, one by one, they took out their divine money to buy the Wild Dragon Saint Dan, and the remaining Wild Dragon Saint Dan were sold out very quickly.

Chen Xiang watched from the side and praised Lv Qilian and Long Xueyi in his heart. They sold out of the Wild Dragon Saint Dan so quickly.

After closing up the stall, Lv Qilian and Long Xueyi returned to their residence with extreme caution. On the way, they discovered that there were people following them, but they quickly got rid of them.

... ..

Inside the Divine Female Palace, Dan God Ye, Rosy clouds Dan Saint, Ye Qin and Feng Yujie sat together, looking at the Wild Dragon Saint Dan on the table.

"These are Shengyuan holy Dan s, but they have added a few other herbs, so they can increase the strength of the body. As for what they added, no matter how I look, I can't find it." Dan God Ye looked at the shattered Wild Dragon Saint Dan in his palm, and said with a frown.

Ye Qin said: "Daddy, how is this person's pill refining level? This looks to be about the same as the Shengyuan holy Dan that Sister Yu Jie refined."

Dan God Ye ate the Wild Dragon Saint Dan that was crushed and carefully savored it, then said: "Normally, high quality pills are hard to differentiate between good and bad, but I can still see that this is a little higher than Yu Jie's pill by a little. This Alchemist's standard is very high."

Feng Yujie already had the answer in her heart. She had heard from the Rosy clouds Dan Saint and Ye Qin that the pill sellers were two girls, and it was very obvious that they were Long Xueyi and Lv Qilian.

She also knew that Chen Xiang was going to improve this Shengyuan holy Dan previously, but she never thought that Chen Xiang would complete it so quickly.

It was just that she was denied by the Dan God Ye because the Dan God Ye was very sure that there were no Blood ginseng s. It was because the Blood ginseng could not even fuse with the Shengyuan holy Dan's medicinal ingredients and there would be many conflicts between them.

The Dan God Ye shook his head: "Could this Alchemist be creating a pill formula? But he shouldn't have refined so many of them to sell? Could it be that he really lacks money?"

The God of Pills did not lack money.

Feng Yujie said: "If they still continue to sell this Wild Dragon Saint Dan, it's very obvious, the pill refiner behind them is very short on money."

Right now, she wanted to ask Chen Xiang and the others how exactly to refine this Wild Dragon Saint Dan, she also wanted to learn.

had already tasted the sweetness of refining Wild Dragon Saint Dan and was able to reap so much wealth in a short period of time.

Chen Xiang said: "Are we still refining the Wild Dragon Saint Dan? We don't have anymore medicinal ingredients, we need to duplicate them. If we were to go and buy them, we might not be able to do so."

Long Xueyi was thinking about what he should buy with the divine money.

Lv Qilian said: "We'll talk about it after a while. This 40 million is enough for us to buy a good shop. I've been watching it for a long time."

[Chapter 1845](#)

Right now, Chen Xiang only wanted to quickly concoct a Divine Pill, and only then would he have enough strength to participate in the Supreme Divine Palace's trial within ten years.

Lv Qilian said: "The Wild Dragon Saint Dan has just been sold, and its reputation will spread very quickly. As long as we wait patiently for a while, we can let many people know, and at that time, if we sell again, we can raise the price."

Chen Xiang asked: "Sister Qilian, when you buy the shop, help me buy a few more famous Shangpin holy Dan. I want to see if I can find the pill formula from the completed Holy Elixir."

"Alright, I'll do it now. It won't be long before we move into that new store as well." Lv Qilian planned to lay her foundation in the Goddess City. With Chen Xiang's help, she would be able to get started easily.

Lv Qilian and Long Xueyi left the room. Chen Xiang returned to the secret room and practiced the Seven devil-slain kungfu that he had mastered once.

After finishing his practice, he waited in the hall for the two girls to return.

When it was dark, Long Xueyi came back and laughed: "Sister Qilian has already bought a shop, I will bring you there now."

Divine City s in Gods Realm rarely sold their shops, yet Lv Qilian was able to purchase them so quickly, which made him admire Lv Qilian's speed in handling affairs.

The shop was very big, there were a total of seven stores, each of them extremely spacious. There were a total of seven floors, made of stone, and every floor was protected by a divine formation. Lv Qilian was currently on the seventh floor, and the divine formation on this floor was also the strongest.

Lv Qilian had already set up her room. It was extremely spacious and the fragrant bed was also very big.

"These are Heaven holy Dan s, ten each." Lv Qilian gave Chen Xiang two jade boxes.

After Chen Xiang received it, he laughed: "Sister Qilian, it's really you. You managed to settle so many things in one day."

Lv Qilian smiled lightly: "Divine money is naturally easy. This is all thanks to you, without you concocting pills, it would be difficult to earn that much in a short period of time."

The power that Chen Xiang had displayed caused Lv Qilian to be extremely satisfied and proud. She kissed's lips and gently said, "You've cultivated, aren't you tired? Wash and sleep."

After saying that, Lv Qilian took off her clothes, quickly revealing her mesmerizing and beautiful jade body, and slowly walked towards the hot bath.

She had other reasons why Long Xueyi was willing to enter Chen Xiang's ring, so she could only avoid it.

Chen Xiang snickered, instantly took off his clothes, and pounced towards Lv Qilian.

After the sun rose, Lv Qilian who was completely sparkling and translucent like jade was hugged onto one arm as she struggled out of Chen Xiang's embrace. She took out a jade box, and saw that there were a lot of purple beads inside, and these were all spirit pearls condensed from the Alive Slain Method that she and Chen Xiang had cultivated together.

Recalling the joy he brought with his cultivation with Chen Xiang, Lv Qilian could not help but let out a sweet smile, his face becoming flushed red. He turned to look at Chen Xiang who still had a naughty smile on his face, then donned his clothes, and did not wake Chen Xiang up.

Long Xueyi also ran out from the ring and left the room with Lv Qilian.

... ..

"Xue Yi, take this divine money. We will separate these great Divine City s later and leave a secret note for them to use in contacting their sisters." Lv Qilian handed over a divine coin to Long Xueyi. Although this divine money was brought over simply, she did not spend it carelessly, as it was used on the right path.

In order to manage a shop, there were not enough people, and Lv Qilian could not always let Chen Xiang refine pills, so she only planned to find another woman first, and only open this shop when there were more people around.

After Chen Xiang woke up, and was unable to find Lv Qilian and Long Xueyi, he could only enter a quiet room and take out the Shangpin holy Dan he had asked Lv Qilian to buy.

"Heaven holy Dan s can strengthen their divine power and unearth the potential of their divine power. That's why it's much easier to sell them." After Chen Xiang ate one pellet, he immediately had a very weak feeling. The divine power had indeed increased, but it was only by a little bit, he felt that he would need to eat more, maybe it was because his own divine power no longer had any potential to develop.

"Chongprofound Dan, this is one of the Four Great Sacred Pills. It's said that one pellet is worth three hundred and fifty thousand gold coins, so right now, it should be even more expensive. Chen Xiang looked at the Chongprofound Dan, and carefully probed its interior with his divine power.

Therefore, it was called a Chongprofound Dan. After eating it, it would be able to continuously stimulate the divine power in one's body, causing the divine power within to circulate miraculously, allowing one's divine soul to receive a type of nourishing profound energy, thereby allowing the interior of the divine soul to cultivate up to the Mysterious power.

The Mysterious power was one of the most obvious features of the profound God, and was the power that came from the evolution of one's innate ability.

"I have yet to reach profound God. I wonder if it will be effective after I eat it." The reason why Chen Xiang consumed these pellets was mainly to search for the pellets' formula from within, and then improve it. He would add other pellets to make these pellets even more perfect.

After the Chongprofound Dan was refined, it instantly turned into a miraculous profound energy and rushed into his Divine Sense Sea. It surrounded his divine soul which had turned into a little person and started to nourish his divine soul. He also did not feel anything special about it.

"If you want to become a profound God, you need a large number of these Chongprofound Dan." Chen Xiang took out another Chongprofound Dan and placed it in the furnace, releasing the flames to burn, he then used his Spirit Essence.

The quality of the Chongprofound Dan that he had chosen was rather poor. This was usually because it was not easy to fuse with, so it was the easiest to see what the origin was.

Very quickly, he had gained something. He saw seven Source Energy from the Chongprofound Dan, one of them was a little messy and blurry, he suspected that it was because he had added in a pill.

"The other six should have three high-tier medicinal herbs and three low-tier medicinal herbs. They have a lot of raw materials." Chen Xiang memorized the shape of the origin, and he still had to familiarize himself with a large number of sacred medicines before he could analyze what kind of ingredients were used.

Next, he tried out the Heaven holy Dan. He discovered that it only used two high quality panacea and one low quality panacea. It used very little raw materials, no wonder it was sold so cheaply.

"Heaven holy Dan s are able to excavate the potential of their divine power. If I add more, I can also excavate the potential of my fleshly body and strengthen my divine soul, then I can definitely sell them better than Heaven holy Dan s." Chen Xiang's heart stirred, he had already decided what kind of divine medicine he would add.

, who sold Heaven holy Dan s, was the son of the Divine Aura, and Chen Xiang hated the Divine Aura, so he planned to fight over the business with the Divine Han store. Although the Divine Han shop was still

rather far from here, if his pills were good, he could definitely take away the business of the Divine Han store.

After an idea came to Chen Xiang's mind, he walked out of the secret room and into the room.

[Chapter 1846](#)

Hanging from the top of the room, he opened the door and saw a masked woman knocking on the door, calling out to the crystal ball.

Through this crystal ball, he could send a sound transmission to the owner's room on the seventh floor, which was also the supporting equipment for the shop. Chen Xiang channeled his divine power into the crystal ball and heard a familiar voice.

"Is anyone here?" Chen Xiang could see her every move clearly from the crystal ball. The lady was Feng Yujie, but she had changed her mask.

With a thought, Chen Xiang opened the door from within the crystal ball. After Feng Yujie entered, he controlled the door to be closed, it was extremely convenient.

"I'm on the seventh floor." Chen Xiang sent a sound transmission to Feng Yujie, and then he went to the guest hall, just as he was thinking to have Lv Qilian practice, he did not expect Feng Yujie to actually find him here.

Feng Yujie came up very quickly, and upon entering the hall, she immediately took off her mask, revealing a look of displeasure on her face.

Feng Yujie pouted and said: "My goodness, you modified my Shengyuan holy Dan yet you still didn't tell me."

Chen Xiang laughed: "Sister Feng, I was just looking for trouble with you, how did you find me here?"

In order to make Feng Yujie happy, Chen Xiang hurriedly poured tea for her.

"Someone just bought this shop. I checked and found out it was a woman. I knew it was you." Feng Yujie looked at the pretty good living room and said: "Although this shop is big, the location is still a lot worse. It's a pity that the divine formations and all kinds of facilities are here."

Chen Xiang laughed: "It's alright, since Sister Qilian has bought it, she will definitely have a way to manage it, Sister Feng, this time you are not worried about Highest Old Devil."

Feng Yujie scoffed, "That bastard was taken away by the Supreme Divine Palace. Fortunately, the Nine Divine Kings left me something in the past that I could contact the Supreme Divine Palace."

"Tell me honestly, how did you refine your Wild Dragon Saint Dan."

Chen Xiang ran to the back of Feng Yujie and played with her smooth and beautiful long hair, laughing: "I just added Dragon Blood Saint Dan in and refined it, and also obtained a little bit of Spirit grain, so I succeeded, but I used the method inside the Heavenly Alchemy to successfully refine it, ordinary methods won't work."

"So if you want to learn, sister, you can only learn Heavenly Alchemy first. I'll be happy to teach it to you."

Chen Xiang was very generous to Feng Yujie because he wanted the Younger Nine Girl's Supreme god bone and he felt guilty about it. But Feng Yujie was Younger Nine Girl's elder sister, so even though some things had happened before, they still had a deep sisterly relationship towards each other.

"I'm too lazy to do so. The Heavenly Alchemy is so difficult, it's not that easy to learn." Feng Yujie pushed the hair on his back to the front and hung it over his chest, preventing Chen Xiang from messing around there.

Chen Xiang placed both of his hands on Feng Yujie's shoulders and gently kneaded them, massaging her while laughing: "Sister Feng, you are now the Second Palace Master of Divine Female Palace, can you lend me some God's money to spend? I'm really lacking right now."

Feng Yujie leaned on the chair, enjoying the massage from Chen Xiang, and quietly said: "I would like to, but I do not care about God's money, and I did not have much foundation since I have only come up recently, so I do not have much God's money. Even if I wanted to refine God's Pill, I would have to buy some medicine."

"Where's Qilian and Xue Yi?" Feng Yujie looked at the direction of the room and asked.

"They're all out, I don't know where they're going." Chen Xiang rubbed Feng Yujie's shoulder. Looking down, he saw Feng Yujie's proud chest. Even though it was separated by his clothes, he was still unwilling to shift his gaze.

Feng Yujie purposely said fiercely: "Behave yourself, brat. You've earned so much divine money, and you still want to cheat me of my divine money. You really aren't worth it."

Chen Xiang suddenly said to Feng Yujie: "Elder sister, please calm your anger. I want to confirm, you really aren't being watched by the Highest Old Devil anymore."

When Feng Yujie saw that Chen Xiang had sent a sound transmission to her, secretly, he knew that Chen Xiang had something important to tell her.

"If the sound transmission is not accurate, then my divine soul will enter your Divine Sense Sea World. This will be absolutely safe." Feng Yujie replied.

"Alright." immediately shouted. Last time, a very wonderful thing happened precisely because Lv Qilian's divine soul entered his Divine Sense Sea World.

Looking at Chen Xiang's excited expression, Feng Yujie seemed to have guessed something, and scolded: "Little bastard, are you thinking wrongly, trying to do something to me in the Divine Sense Sea World, I'm not afraid of you."

Chen Xiang said in an aggrieved manner: "Of course not, I really have something important to tell you."

"Relax, I'll enter your Divine Sense Sea right now." Feng Yujie said as she opened her palm, only to see a bottle sized beauty suddenly appearing in her palm.

After Chen Xiang saw this, he couldn't help but extend his hand out, wanting to use his fingers to soft that cute little face of hers.

Pa! Feng Yujie immediately opened up his assailant and shouted, "Don't touch my divine soul."

Following that, the divine soul in her palm flew up, transforming into a white light that shot into Chen Xiang's chest, disappearing without a trace.

As long as it was a True God, one's divine soul would be able to materialize, so Feng Yujie's divine soul was a mini version of Feng Yujie's just now.

Feng Yujie had already appeared in Chen Xiang's Divine Sense Sea. Chen Xiang's Divine Sense Sea World looked like he was surrounded by a sea, the originally golden ocean of divine power had already turned blue.

"This is your Divine Sense Sea World. It looks very ordinary, so it turns out you've always wanted to live like this."

Feng Yujie looked around. Here, the sky was blue and white, the waves were accompanied by a cool sea breeze that caressed the beach, on an island, the mountains were clear and the water was beautiful, the forest was green and verdant, and the forest was filled with birds chirping. Multicolored beautiful flowers were blooming, and the fragrance of flowers was everywhere.

Feng Yujie flew over to the stone table and sat down. He was surrounded by a sea of flowers and there were many butterflies dancing with the beautiful chirping of birds in the forest.

"Divine Sense Sea World reacts to what everyone desires the most in their heart. I never thought that what you desire the most is actually this." Feng Yujie was very surprised with this, she had originally thought that Chen Xiang was a person who had great ambition, but who knew that he would actually yearn for this kind of life, even though it looked pretty good.

Chen Xiang shook his head and smiled: "These ordinary and carefree days are what I desire the most, it's just that it's not easy to obtain. Right now, I simply cannot stop living like this, I do have a lot of goals, but this is probably the hardest one for me, so I constructed my Divine Sense Sea World to be like this."

[Chapter 1847](#)

Before, Feng Yujie had thought that she understood Chen Xiang a lot, but now that she saw his Divine Sense Sea World, she knew that she did not truly understand him.

"I want to see your Divine Sense Sea World." Chen Xiang laughed: "But from the looks of it, you won't let me see it."

Feng Yujie laughed tenderly: "You can take a look if you want, but with your current divine soul, once you enter my Divine Sense Sea World, you will definitely be bullied by me."

divine soul were too weak, and entering a Divine Sense Sea World that was too strong was extremely dangerous. Just like the last time Lv Qilian entered Chen Xiang's Divine Sense Sea World, Chen Xiang could do whatever he wanted as long as he wanted.

"Hurry up and tell me. If you have anything important to say, tell me." Feng Yujie urged, but seeing that Chen Xiang did not immediately answer, with an appearance that he was pretending to be mysterious, Feng Yujie strongly pinched his face.

"It has to do with the Younger Nine Girl. The Six Realms mirrors is with me ..." Chen Xiang was still thinking about how to tell Feng Yujie earlier, so he needed to tidy up a bit. Now that Feng Yujie was pinching his face, it made him feel an endless amount of pain, which was why he roared out loud.

Feng Yujie stood up abruptly, and shouted in shock: "What, are you speaking the truth?"

Chen Xiang nodded his head: "I'm not lying, I wanted to tell you before, but you were being watched by the Highest Old Devil, and I was worried that I would leak out this matter, so I did not."

"Then how is she now? Where is she?" Feng Yujie was extremely worried for the Younger Nine Girl. She was the first to ask about the Younger Nine Girl, not the Six Realms mirrors.

"She was sent to Divine Prison by Penalty Heavenly God. Penalty Heavenly God said that it would be the safest place for Younger Nine Girl so she was told to temporarily hide inside." Chen Xiang said.

"Why does Highest Devil God think that the Six Realms mirrors is with Younger Nine Girl? What happened?" Of course, Feng Yujie could guess that Chen Xiang would definitely be involved in this matter.

Chen Xiang then explained everything that had happened, and then he spread out his hands and said: "This is what happened, don't blame me for harming Younger Nine Girl, I also saved her back then, and helped her take her revenge."

snorted. The Six Realms mirrors was obtained by Chen Xiang, but the Younger Nine Girl had to take the blame for him. They had no choice but to hide in Divine Prison.

"I don't know what Younger Nine Girl owed you in her previous life, but her Supreme god bone was with you, and the many years she searched for you were also taken away by you. In the end, she had to hide in Divine Prison, and yet you are here, living a carefree and carefree life." Feng Yujie said in an extremely displeased tone.

Chen Xiang also felt a little guilty, and laughed dryly: "Sister Feng, I will make it up to you in the future. Believe me, I have the ability, in fact, I'm not much better off now, I only have ten years to go to Supreme Divine Palace to participate in the trial, so I'm rather busy right now."

Feng Yujie didn't really blame Chen Xiang, at least she knew where the Younger Nine Girl was. Although the place they were at wasn't exactly right now, it was still very safe.

"Did you drip your blood into that brand?" Feng Yujie said anxiously, "Don't you know that if you don't pass this trial, there's a high chance that you'll die."

"I know, but I think I can do it, even though time is a bit tight." Chen Xiang was extremely confident in himself.

Feng Yujie scoffed a little worriedly, stamping her feet on the ground, "What do you think you can do, you're a fool. You're in such danger, why didn't that old bastard Devil-killing Heavenly God stop you back then?"

"They tried to stop me, but I still decided to try." Chen Xiang laughed: "Sister Feng, don't worry, I won't waste Nine Divine Kings's Supreme god bone."

was a little angry at the moment, but Devil-killing Heavenly God stopping her was akin to using her life as a joke. She immediately reached out and pinched Chen Xiang's face, causing him to scream out loud like a pig who was being butchered.

Because Feng Yujie's divine soul was stronger than Chen Xiang's, it was especially painful when Chen Xiang's divine soul was pinched.

"Oh yeah, don't tell Sister Qilian and the others about this, I don't seem to be worried about them." Chen Xiang said as he rubbed his aching face.

"Hmph." Feng Yujie only snorted, she then extended her hand out, scaring Chen Xiang, causing him to jump up fiercely, but Feng Yujie still grabbed him and tapped his forehead with her jade finger, her voice carried a trace of anger: "This is the pill formula to concoct the divine pellet, go and look for the ingredients yourself."

The two divine pill formulas appeared in Chen Xiang's mind. It seemed to be related to raising his strength, which made him extremely happy.

"Thank you, Sister Feng." Chen Xiang smiled as he pounced over and hugged Feng Yujie, burying his head against her soft chest and rubbing it.

Before long, Feng Yujie teleported to another place and scolded, "Brat, trying to take advantage of me, have you forgotten about the pain just now?"

Chen Xiang immediately said: "I was just excited for a moment. Oh right, Sister Feng, can you please pass some of your knowledge to me."

"Come here, don't get too excited this time." Feng Yujie crooked his fingers at Chen Xiang.

After Chen Xiang walked over, his face was strongly pinched by Feng Yujie again, causing him to be in so much pain that he did not dare to approach it. At the same time, a lot of knowledge related to medicinal ingredients appeared in his mind, helping him to decipher those pill formulas.

"I'm going back. If you need any help, come find me again. If you want to borrow God's money, then forget about it." Feng Yujie was very clear how terrifying the Supreme Divine Palace's trial was, so she tried her best to help Chen Xiang.

Chen Xiang hurriedly nodded, then sent Feng Yujie downstairs.

An hour later, Lv Qilian and Long Xueyi returned as well.

"Sister Feng came by just now. She has broken away from the Highest Old Devil. In the future, you can go and play with her at any time." When Chen Xiang mentioned Feng Yujie, he couldn't help but rub his face. Although his divine soul had been pinched, at this moment, he felt that his body was hurting as well.

"Really? That's great." Feng Yujie treated them very well, as long as they were not borrowing a large amount of divine money, Feng Yujie would generally be willing to help them.

"Where did you go?" Chen Xiang asked.

However, Sister Feng is no longer being watched by the Highest Old Devil. We can ask her to look for the whereabouts of her sisters and see if we can gather them. " Lv Qilian said.

Chen Xiang immediately became excited: "That's great, I miss them a lot."

Long Xueyi laughed: "I guess you want to eat their tofu."

Lv Qilian and Long Xueyi who had just returned went out again in a hurry. She was going to look for Feng Yujie.

Chen Xiang obtained knowledge about a lot of medicinal herbs from Feng Yujie, and began to analyze the characteristics of the medicinal herbs based on their appearances, so as to fit the Heaven holy Dan and the Spirit blood.

Soon, he had listed more than twenty items. Because he was not sure, he could only buy these herbs first. Then, he would use his Source Spirit Eyes to look through them. After comparing them, he would be able to understand them clearly.

[Chapter 1848](#)

When Chen Xiang listed out the names of the medicinal herbs, Lv Qilian and Long Xueyi had already returned. Seeing that their beautiful faces were filled with smiles, Chen Xiang asked: "What's the matter, why are you smiling so happily."

Long Xueyi said, "Meng'er and Xianxian will be back very soon. It's a pity that Warm Moon and Jingjing met the Vermillion Bird, so they followed the Vermillion Bird and left. Otherwise, it would have been even more lively."

Dongfang Xinyue and Dongfang Jing both had her bloodline in their bodies, so the Vermillion Bird was very good to them. The two of them had just arrived in the Gods Realm, so their strength was not strong.

"Help me look for these medicinal herbs..." Right, is that enough money? " Chen Xiang asked, the divine money was not in his hands, he did not know how much the two girls spent.

"There's still some more, it should be enough." Lv Qilian took the paper, and without asking too much, he took Long Xueyi and left.

Chen Xiang did not bother thinking about the divine pellet right now. Although he already had the recipe, refining it was not easy, and he needed a lot of ingredients, especially the completed divine pellets. He now understood why the group of divine pellets would need so many when competing with each other to concoct the divine pellet.

The pills Feng Yujie had given him were all formulas from Xiaping Dan s, but the final product of a Holy Pellet was extremely shocking, much less the high-grade divine pellets that the Pill God had given him.

"Heaven holy Dan can't add Dragon Blood Saint Dan in. Although Dragon Blood Saint Dan strengthen the body, the blood aura is too strong, and it might not match the medicine inside the Heaven holy Dan, and it will affect the effect."

Chen Xiang was currently thinking about how to improve the Heaven holy Dan.

"Tyrant's Cloud Ear, this is a high-grade divine medicine, and it's a relatively mild medicine, but it's rather rare." After Chen Xiang carefully studied a large amount of divine medicine, he decided to add this kind of divine medicine.

It was said that once a child of a few years old ate it, he would have the strength of ten thousand jin. Furthermore, as his body grew, the medicinal strength would constantly be released, forming a wooden ear, but it was jade white in color, mainly growing on the peaks that entered the clouds. Sometimes, it would fly along with the clouds, jumping onto other mountains, so it was called the 'tyrant body cloud ear'.

As for the Chongprofound Dan, he had yet to decipher the recipe, and it was somewhat difficult because a pill was added within. If he was able to determine which types of ingredients the Chongprofound Dan was refined from, he would be able to roughly guess what kind of pill was added to it.

Lv Qilian and Long Xueyi returned in the evening. They had gone for so long, they must have been running around everywhere.

"We have finally found them all. Some of the stores don't even have anything, so we have no choice but to run to the other Divine City." Long Xueyi took out a jade box and placed it in front of Chen Xiang.

Chen Xiang smiled: "Thank you for your hard work. You will recover after this period of time."

Lv Qilian nestled beside him, and said gently: "What do we care about this, you are the one who has the hardest time of all."

Long Xueyi said softly: "We have almost used up all of the divine money, the main thing is that we used the most to buy the Chongprofound Dan, five hundred thousand per pellet, we bought ten pellets, and the quality is still not good."

Chen Xiang laughed: "Don't worry, we will have some divine money again soon. Let's wait for me to bring out the recipe for the Heaven holy Dan."

He first asked Lv Qilian to copy one of the twenty types of Holy Medicines he had bought, then took out the pill furnace and placed each and every one of them into the furnace to be refined. His main purpose was to use his spirit essence to examine the Spirit blood, to see if it could match the ones he had seen from the Heaven holy Dan.

Very quickly, he found the same bloodline shapes as the Heaven holy Dan and inner Spirit blood among the twenty different divine medicines.

"The Chongprofound Dan must have added the White Profound Holy Pellet, which is worth around fifty thousand gold coins. It's a mid-grade Holy Pellet, which can mainly produce weak Mysterious power." Chen Xiang already knew which six types of medicinal ingredients the Chongprofound Dan would use to refine it, so he could already tell what kind of sacred pill the Chongprofound Dan had added to make it.

Chen Xiang asked: "How much money do you have left? Do you still have enough to buy the Tyrant Body Clouds?"

Lv Qilian took out a Storage bag and said: "I still have five hundred thousand, that's enough to buy."

Chen Xiang nodded his head, "Go and buy it. We don't have much God's money now, we can only rely on duplicating the required medicinal herbs."

With that, he laughed sinisterly, looked at Lv Qilian, because he needed to dual cultivate to create the extremely powerful purple spirit pearl, causing Lv Qilian to spew out information as he pulled Long Xueyi and left.

"The Heaven holy Dan's medicinal herbs are already considered cheap, to actually be able to sell for one hundred thousand gold coins. My improved ones should be able to sell for one hundred and fifty thousand gold coins."

"The two Shangpin holy Dan s required a total of only fifty thousand Spirit Stones. Although the Congealed Holy Flower and the Golden Plum Blossom Blood Thorny Grass are high-grade Holy Medicines, they are the cheaper ones, and adding the low-grade Flowerless Holy Fruits, it would at most be sixty thousand Spirit Stones. If it was the previous price, it would only be thirty to twenty thousand, and growing them yourself would be even cheaper."

After Chen Xiang obtained the knowledge of the medicinal herbs that Feng Yujie had passed down to him, he understood all of this very well.

At night, Lv Qilian and Long Xueyi returned and bought the Tyrant body cloud ear. When Chen Xiang took it over, he wanted to enter the secret room to refine pills, but after thinking about it, it was already night time, so he had to do what he needed to do at night. Moreover, he wanted to get more of those purple spirit pearls so that he could quickly copy a large amount of medicinal ingredients.

... ..

Chen Xiang woke up and took two breaths of the remaining fragrance of his wonderful body. He hastily dressed, only to see Lv Qilian using the purple spirit pearl to copy the medicinal ingredients, he had told Lv Qilian last night how many medicinal ingredients he wanted to copy, and Lv Qilian had started doing this very early.

A purple spirit bead could turn a high quality medicine into four, but a copy of the low and middle quality medicine would only need to be refined by them.

"The Heaven holy Dan's medicinal ingredients are here. There are now fifty of them." Lv Qilian pointed to a Storage bag.

"Why are there so many?" Chen Xiang was a little surprised.

One purple pearl can produce ten copies, which should be considered to be a middle-level divine medicine. The Tyrant Body Cloud Ear is more normal, and can only be changed to four. In total, it used up half of my purple pearls. Lv Qilian said.

Chen Xiang chuckled: "Don't worry, if we stay together for a few more days, we will have a lot of purple pearls."

Long Xueyi curled his lips and said: "Quickly refine the pill, otherwise Big Sister Qilian would not let you give birth to the little pearl."

"I need enough divine money to collect the materials for the divine pill. I'd better not waste any more time right now and grab some time to get some divine money."

Chen Xiang entered the secret room and started refining pills. In his opinion, Wild Dragon Saint Dan were much harder to refine than Heaven holy Dan, so refining Heaven holy Dan would definitely be very easy. Of course, the improved Heaven holy Dan would be named as Bati Dan.

The first furnace took a relatively long time because he needed to solve the problem of fusing the Tyrant body cloud ear and the other medicinal herbs. In the end, he could only use the method of carving a Spirit grain to perfectly fuse them.

If it was not perfect, the refined pill would allow him to see the Spirit blood s inside, just like those Heaven holy Dan s and Chongprofound Dan s that he had seen through with his spirit essence.

[Chapter 1849](#)

Just as Chen Xiang had expected, when he used the Original source refining, he was able to easily fuse the s and the Heaven holy Dan's original medicinal ingredients together, and successfully formed four pellets.

"Bati Dan, if the effect of this kind of pill is as I expected, then it can at least be sold for one hundred and fifty thousand gold coins, or even two hundred thousand gold coins." When Chen Xiang finished refining the pill, he took the four pellets and walked out of the secret room.

Long Xueyi and Lv Qilian were cultivating their Alive Slain Method in their room, refining the spirit liquid, at the same time they were waiting for Chen Xiang to come out, because sometimes Chen Xiang needed them to do something.

Hearing the sound of the secret room's stone door opening, Lv Qilian and Long Xueyi immediately started cultivating, while Chen Xiang had already arrived beside the bed and passed over two Bati Dan, smiling: "This is called Bati Dan, let's see how its effect is."

Lv Qilian took it and looked at it carefully. This Bati Dan looked like a milky white jade pearl, it did not have any light on its surface, unlike how the Wild Dragon Saint Dan released beautiful blue light.

Lv Qilian swallowed the Bati Dan, and immediately felt the medicinal power in her body quickly spreading out, she anxiously used the cultivation technique she was training in to guide the medicinal power to circulate in her body, fusing it with her flesh and blood.

The Bati Dan's medicinal power was split into two parts, one part was the Divine Sense Sea that rushed into her, causing the divine power in her Divine Sense Sea to change, and increase by a little, while the other part was spread out evenly throughout her body following her cultivation technique, nourishing her muscles and bones, strengthening them somewhat.

"Not bad, its effect is much better than the Heaven holy Dan." After Lv Qilian finished his cultivation, he opened his eyes with a satisfied smile on his face: "I didn't expect that the higher ups of the God Power would be more powerful than the Heaven holy Dan."

After Long Xueyi ate it, she did not sense any great changes to her body. That was because her physical body was very strong to begin with, and her soul was also very special.

"Alright, then I will start the large-scale refining. You guys go and buy the White Profound Holy Lotus. The White Profound Holy Lotus is used to refine the White Profound Holy Pellet, after I finish refining the Bati Dan, I need to start connecting the Chongprofound Dan." Chen Xiang instructed as he rushed into the secret room and continued refining the Bati Dan.

He had already successfully improved the Heaven holy Dan and changed it to have an even better effect, allowing the Bati Dan to be successfully refined as well. The following Chongprofound Dan also needed to be improved, and this was also the most difficult part, because the Chongprofound Dan were already very complicated to refine and still needed to add a medium-grade White Profound Holy Pellet.

When Upper True God wanted to become a profound God, he could also transform it into a Mysterious power based on his cultivation method and absorb the divine spirit energy. However, it would take a very long time before he could obtain enough Mysterious power to break through into the next realm.

If one ate a few Chongprofound Dan, they would be able to greatly increase their speed, quickly acquire Mysterious power, and then break through the bottleneck.

Therefore, if Chen Xiang wanted to improve the Chongprofound Dan now, he had to start from here and add the sacred medicine that could give birth to Mysterious power s, allowing the Chongprofound Dan to produce more Mysterious power s.

Chongprofound Dan was one of the Four Great Sacred Pills, and only a few Pill Gods had this pill formula. Although some of these Pill Gods had already passed it down to their disciples, there were not many of these pills, and the effects of the Chongprofound Dan were already very strong.

Chen Xiang could directly create the Chongprofound Dan, but he needed to prove his identity when selling it. If he could not tell them the origins of the Chongprofound Dan s pill formula, then he would be deemed as stealing the pill formula. The consequences would be severe, and he would be punished by the pill gods who owned the formula.

Of course he could let these pill gods know that he had the ability to decipher the pill formulas, so he had to improve. What he refined were not Chongprofound Dan s, but rather, the effects of the Chongprofound Dan s.

If I add them again, I can only add the Jade Origin Sacred Fruit and the Profound Sky Sacred Leaf, these two are both relatively rare high-grade divine medicines, and they are also of the mild-mannered type. If I use the Original source refining to refine them, I will definitely be able to fuse them into the Chongprofound Dan s.

Chen Xiang was a little worried, but he felt that if the effect was twice that of the Chongprofound Dan, then there would definitely be people who would buy it, since there were not many Chongprofound Dan left.

This was not a good time for those who wanted to buy the Holy Elixir because the price would skyrocket in the Pill God's Tournament. However, there was nothing they could do about it. When they needed it, they could only buy it.

For Alchemist who made money from refining pills, this was a good time, because the pills in his hands could be sold at a very high price at this time.

Therefore, Chen Xiang wanted to make a huge profit by refining the Holy Elixir at this stage. After the competition with the other pill gods over, the price of the Holy Elixir would drop again.

Chen Xiang, who was in the midst of refining pills, had his soul float out and send a sound transmission to Long Xueyi and Lv Qilian, telling them to use up their last bit of divine money just to buy the Jade Origin Holy Fruit and the Profound Sky Sacred Leaf.

"The Profound Sky Sacred Leaf can directly grow into a Heavenly Sacred Tree. The leaves are all the same big, but the leaves are useful. When the time comes, I'll need a lot of Spiritual Beads to make this tree grow." Chen Xiang told Lv Qilian all of these so that she could buy it and not copy it using the same method she did before, and so that its leaves could take root and grow into trees.

The Heavenly Profound Tree wouldn't grow very big. It could be grown indoors when it was fully matured, but it would take a long time for it to grow from a leaf to a tree. If the Spiritual Bead was used as fertilizer, it could quickly grow to maturity.

Chen Xiang continued to refine Bati Dan. If they had a shop, they wouldn't be able to sell only one type of pill, so he would have to refine a few good ones and make these holy pills famous.

Ten days later, Chen Xiang finished refining all the ingredients, he had obtained a total of two hundred Bati Dan pills. He opened the stone door and walked out of the secret room, but saw two people that he had missed for many years.

Wu Qianqian and Hua Xiangyue were actually here, Chen Xiang was pleasantly surprised.

When he came back from Divine Prison, he had not seen them, and it had been a long time since they had parted ways with Chen Xiang. It was because Chen Xiang had lost five thousand years of time, and they had not.

Hua Xiangyue was still as charming and charming as before, and her entire body emitted an enchanting aura which could captivate one's soul. Yet despite being together with Wu Qianqian for so many years, she was still able to maintain that kind of elegant and simple temperament, which was completely different from Hua Xiangyue's.

The two of them wore light purple cheongsam, and although they had smiles on their faces, their beautiful eyes were filled with tears.

Chen Xiang immediately dashed over and hugged the two girls tightly. He breathed in the familiar scent of their bodies and tightly hugged onto their soft and warm bodies, conveying the yearning he had for them from the depths of his heart.

[Chapter 1850](#)

Chen Xiang and the two girls embraced each other for a while. Then, they heard Hua Xiangyue's coquettish voice sound out: "Alright, little scoundrel. There's still something important to say."

It was only then that Chen Xiang saw that Lv Qilian and Long Xueyi were also here. It must be because of the memory that they had left behind that had helped, allowing them to find Hua Xiangyue and Wu Qianqian.

"What's the matter?" Chen Xiang could not bear to let them go.

Hua Xiangyue and Wu Qianqian both held onto Chen Xiang's arms, pulling him to a chair for him to sit down. They also knew how hard it was for Chen Xiang to refine pills.

After Chen Xiang sat down, Hua Xiangyue and Wu Qianqian also sat opposite to him.

It was only now that Chen Xiang realised that Flower Fragrance and Wu Qianqian both had the strength of Gods, which was pretty good, at least a little higher than his cultivation.

Hua Xiangyue saw that Chen Xiang's eyes were staring at her and laughed: "When we came to the Gods Realm, we went to look for the Dan Emperor, and we received his inheritance."

"Who knows..." Then she sighed softly, a trace of sadness on her face.

"I didn't know that he had already died. I didn't expect that after that generation of Dan Emperor, he would end up like this after coming to the Gods Realm." Wu Qianqian said with a depressed mood: "He can be considered our master. We received his inheritance, and it will be of great help to us in the area of alchemy."

Chen Xiang respected the Dan Emperor very much from the bottom of his heart. He did not expect that after the Dan Emperor came to the Gods Realm, he would actually die.

Hua Xiangyue's voice was filled with anger as he said, "He was once enslaved by Feng Shen for a period of time to refine pills."

Chen Xiang clenched his fist tightly. This actually had something to do with Feng Shen.

The ice dragon was now being enslaved by the God of Fortune, and this was also the fate of the Dan Emperor.

Wu Qianqian, who looked very relaxed at first, said indignantly: "Senior Dan Emperor, he ... Because he wanted to save the ice dragon, the God of Fortune caught him and gave him a reward. In the end ... Sigh, to die tragically at the hands of a god is to be tortured to death. "

Long Xueyi was even more furious. Dan Emperor had a good relationship with her before because the consequences of saving the ice dragon were so tragic that she wished to immediately rush to Wealth Divine Palace to save him.

Chen Xiang took a deep breath, "I will definitely save the ice dragon and help Dan Emperor take revenge."

Lv Qilian said: "Feng Shen's son is here. This guy is also selling pills at the medicine store. This guy is also not a good person."

Chen Xiang nodded her head, "At that time, I will ruthlessly suppress his shop so that he won't be able to sell even a single pill."

Hua Xiangyue said softly, "It's been so long since we've met, we shouldn't be saying all this. Right, the Dan Emperor's inheritance is actually related to the Heavenly Alchemy, that's because of his comprehension of the Heavenly Alchemy, so Qianqian and I are also learning the Heavenly Alchemy."

Wu Qianqian said, "Back then, Chen Xiang passed the God purification down to me. After I comprehended it myself and learned the Dan Emperor's Heavenly Alchemy, I improved even more."

Chen Xiang was overjoyed, and said: "This can't be the best, I am also a student of the Heavenly Alchemy, during this period of time I will pass on my cultivation experience to you guys."

"Originally, Xue Yi and I were going to buy the Heavenly Profound Sacred Leaves and the Jade Origin Sacred Fruit, but we ran into Qianqian and Xiangyue. They had these two medicinal ingredients, so we were left with a divine sum of money."

After Lv Qilian finished speaking, he looked at Chen Xiang with an ambiguous gaze, and chuckled: "I've already passed the Alive Slain Method to them."

In these ten days of Chen Xiang cultivating and cultivating in seclusion, Hua Xiangyue and Wu Qianqian had already learned a lot of things about Chen Xiang from Long Xueyi's mouth, but they did not seem to know that the most powerful usage of Alive Slain Method, was merely dual cultivation.

Chen Xiang secretly praised Lv Qilian in his heart. As expected of his palace master.

"Are both Bati Dan refined using the Heavenly Alchemy? What method do you need to refine the sacred pills for these pill recipes? You don't seem to follow the steps in the recipes to refine them." Wu Qianqian looked at the Wild Dragon Saint Dan that was given to her by Lv Qilian.

She only found out about the effects from Lv Qilian's mouth and did not eat them. She also knew that Chen Xiang could refine four pills in a single furnace, which was quite shocking, because any pellet with a recipe could only be made in one furnace.

"After I comprehended the God purification, I also comprehended many types of refining methods from the Heavenly Alchemy. I will teach you all this one by one, but it's best if you use your soul to communicate." Chen Xiang said.

Lv Qilian taught them the Alive Slain Method this way too, so they could understand now that it was equivalent to fusing memories.

"Qianqian, you go first." Although it looked like his smile was normal, both Hua Xiangyue and Lv Qilian who were familiar with him knew what Chen Xiang was planning to do now.

She had been together with Wu Qianqian for so many years, so she was very clear on just how deep Wu Qianqian's relationship with him was. However, she had only kissed him once.

"Yes." Wu Qianqian smiled and nodded. Then, he walked over and held her hand as he walked in.

Wu Qianqian and Chen Xiang met each other at the Super Martial School. At the beginning, there was a little conflict between the two, but at that time, the two never thought that they would come to the Gods Realm. They had experienced a lot in the past few years, especially Wu Qianqian.

After Chen Xiang and Wu Qianqian entered the spacious room, he did not begin to pass down the Heavenly Alchemy to Wu Qianqian.

Wu Qianqian sat on the side of the bed, her head slightly lowered, her cheeks flushed red.

At this time, there were only the two of them, Wu Qianqian naturally understood what was going to happen.

"Qianqian ..." Chen Xiang also sat down and spread the news. Her two hands gently held Wu Qianqian's jade face, causing her to slightly raise her head, and looked straight into her beautiful eyes.

"Yes." Wu Qianqian replied softly, then opened her pink lips slightly, uncontrollably moving her sweet lips closer to him.

However, Chen Xiang's speed was even faster than hers. He grabbed onto her slender waist and held onto her fragrant lips, and as the two passionately kissed, they dragged their clothes along as they quickly indulged in the sweetest and happiest moment between a man and woman ...

... ..

Outside the room, Long Xueyi, Lv Qilian and Hua Xiangyue looked at each other. They seemed to be embarrassed, as if they all knew that Chen Xiang wasn't transferring martial arts to them.

Long Xueyi suddenly said: "Do you guys want to peek?"

Lv Qilian laughed somewhat embarrassedly: "What's there to peek at?"

Hua Xiangyue smiled charmingly, "The technique transmission is obviously not good to look at, but the technique transmission ... The other thing is different. Not only is it beautiful, it's also very happy. "

Lv Qilian's jade face reddened, she never thought that Hua Xiangyue would actually say these things. She did not tell Hua Xiangyue about the matter of her and Chen Xiang's cultivation, but now that Hua Xiangyue had said it like this, she seemed to have realized something.
