

Dan God 1861

[Chapter 1861](#)

The Heaven holy Dan's pill formulas were nothing to the Dan God in Blue Costume, so he dared to take out the Heaven holy Dan's divine medicines in front of everyone. Those medicines were indeed the few that Chen Xiang was familiar with.

Wu Qianqian also took out some medicinal ingredients. Other than Tyrant body cloud ear, Chen Xiang did not recognize any other medicinal ingredients, even the Dan God in Blue Costume did not know what kind of medicinal ingredients they were.

Chen Xiang was very suspicious, and really wanted to ask Wu Qianqian what those things were that he wanted to use them to refine Bati Dan.

Wu Qianqian had opened the lid of her pill furnace, so she could easily see if there was anything inside. The inside of the furnace was empty, and her furnace was not a good one either, far from the Dan God in Blue Costume's.

The Dan God in Blue Costume had already started a fire to refine pills, and many Alchemist were watching with wide eyes, hoping to see through the pill formula. However, even if they knew the sequence of the ingredients, they would still not be able to grasp the opportunity.

This was because they were unable to clearly sense the control of the fire in the Dan God in Blue Costume's pill furnace. Only if they could clearly see the interior of the furnace and feel any changes, would they be able to steal the pill formula.

Therefore, in the eyes of many Alchemist, Li Zhonghan and the others were just making trouble for no reason previously, because stealing pill formulas was simply too difficult.

Wu Qianqian's refining methods were astonishing, because she had placed the Tyrant Profound Ear and other medicinal ingredients into the pill furnace at the same time.

Dan God Ye said in a low voice: "I knew there was a Tyrant body cloud ear inside, but I don't know what the other medicinal ingredients are, it's hard to believe that this little girl was the one to create this pill formula."

"From the looks of it, she doesn't seem to be under any pressure. She is facing a Dan God in Blue Costume, and this kind of calmness is not something an ordinary Alchemist can possess. It seems like she has a great background." The Rosy clouds Dan Saint said.

Wu Qianqian had obtained Chen Xiang's inheritance and was using the Original source refining s from the Heavenly Alchemy.

The Dan God in Blue Costume had already put in all of the divine medicines and as they neared the end, he began to reveal a portion of his Medicine aura.

Just like Chen Xiang had guessed, even if it was a Pill God, if he used a normal method of refinement, he would still have to rely on leaking Medicine aura s to maintain the balance of multiple types of spiritual energy in order to fuse multiple types of Medicine aura.

Chen Xiang estimated how much more he had left based on the medicinal aura released by the Dan God in Blue Costume.

"As expected of the famous God of Pills, it's already quite rare for him to produce two pills this time." Chen Xiang was secretly surprised, but he knew that Wu Qianqian would definitely win, it was just that his speed would be slower by a level.

If it was Pill Saint who refined the Heaven holy Dan, there would be only one pellet per pellet and it would take a very long time. However, Dan God in Blue Costume only needed half an hour to start condensing the pellets, and his speed was many times faster than other Pill Saints.

"Alright." Dan God in Blue Costume smiled. Although his smile was very faint, it was very confident, as if to say, it's just a little girl, I can win easily.

Wu Qianqian smiled lightly: "Dan God in Blue Costume is indeed impressive, to be able to refine a batch of Heaven holy Dan so easily, this little girl is impressed."

Dan God in Blue Costume laughed: "I will wait for you, don't worry."

Wu Qianqian was really not in a hurry, she continued to concoct pills with her eyes closed.

The two Pill Saints standing behind Dan God in Blue Costume looked proud, as if they were the victors. Li Zhonghan on the other hand, looked at Wu Qianqian with a look of despise, as he sighed in his heart.

It took Wu Qianqian an hour to open the pill furnace, her refining speed was two times slower than Dan God in Blue Costume's. When she opened the furnace, Li Zhonghan laughed coldly: "Conducting a challenge to the Pill God was truly overestimating yourself."

Lv Qilian replied: "Of course we know our standards. There's no need for you to say anything, and we don't have him to challenge the Dan God in Blue Costume."

When Wu Qianqian opened the pill furnace, he used his Spiritual Sense to scan inside and found that there were actually four Bati Dan s inside.

The effects of Bati Dan were better than his own Heaven holy Dan. He admitted this point, so Bati Dan were also slightly better than his own Heaven holy Dan.

If a Holy Pellet of this level was not a pellet god, it would be very difficult to refine two of them at the same time, let alone four, but Wu Qianqian had refined four of them now, even though the time was a little slow.

"I've lost." Dan God in Blue Costume sighed, then cupped his hands towards Wu Qianqian: "Admirable, admirable."

With that, the Dan God in Blue Costume left, and then he heard his stern voice: "The three of you are not leaving yet."

Li Zhonghan and the two Pill Saints did not manage to react at all. Dan God in Blue Costume had actually admitted defeat himself, and had left in such a hurry.

No one understood. It was only when Wu Qianqian took out four Bati Dan s and gave them to Lv Qilian did they finally understand.

Dan God in Blue Costume could only refine two pellets per pellet, but Wu Qianqian could refine four pellets per pellet. Although the refining time was two times that of Dan God in Blue Costume, if Dan God in Blue Costume wanted to refine four pellets of Heaven holy Dan, he would still need the same amount of time as Wu Qianqian.

Therefore, Dan God in Blue Costume lost a lot in this aspect.

The news of the Dan God in Blue Costume being defeated had spread like wildfire, causing the reputation of the shop to increase. Although there was no name for the shop up till now, everyone had already remembered it.

Because Wu Qianqian had won against the Dan God in Blue Costume, once the Dan God in Blue Costume left, everyone started to have enough money for the Holy Pellets. In just half a day, all of the Holy Pellets were sold out.

"Selling so much all at once. It seems like I'll have to wait a while longer if I want to sell out the next time." Lv Qilian returned and counted the divine money.

Chen Xiang anxiously ran back to the shop and went upstairs. He anxiously asked Wu Qianqian: "How did you refine the Bati Dan, those herbs are not right."

Wu Qianqian chuckled: "Those medicinal herbs have changed forms by Sister Qilian, I have quite a few spare ones here."

Medicinal ingredients could also change their form. Chen Xiang looked at Lv Qilian with some disbelief.

"It's the Alive Slain Method, it's not as simple as you think it is. Besides refining the spirit liquid, it has other uses." Lv Qilian laughed: "I had expected this to happen, so I did it earlier. I only changed the color, it won't affect the pill refining."

Chen Xiang gave Lv Qilian a big thumbs up, praising him: "As expected of the future female emperor of the Divine Nations, you are truly not bad."

Lv Qilian snorted: "If I didn't have to, I wouldn't even bother using such a method. If I had the ability, I would directly use my fist to greet him."

Long Xueyi said: "Little Scoundrel, luckily you did not do anything, that Dan God in Blue Costume was hiding in the crowd, it would be troublesome if he caught him."

"Now that we have a fortune, we don't need to be in such a hurry. We will be concocting pills for ourselves." Lv Qilian said: "Wait until news spreads out, we will refine another batch in half a year, and we will continue to raise the price."

Chen Xiang leaned on a chair, and laughed: "You are now the big sister, you can arrange everything yourself."

Hua Xiangyue smiled tenderly: "We worked hard for almost two months and already earned more than six hundred million."

The Dan God in Blue Costume tumbled, but the other Pill Gods did not dare to laugh at him, because they were very clear about the situation at that time. If it was them, it would be the same.

Some of the Pill Gods also thought of something, because a long time ago, there was also such a powerful Alchemist, and that Alchemist held the Heavenly Alchemy.

[Chapter 1862](#)

At night, Feng Yujie sneaked into the shop. Chen Xiang and the rest were still busy working on their own things, and had some medicinal ingredients to concoct into pills for themselves.

Chen Xiang, Wu Qianqian and Hua Xiangyue were all concocting pills in the same secret room, while Xue Xianxian and Liu Meng'er were studying the method of refining the divine book.

Only Long Xueyi and Lv Qilian, who were still in the hall, could make their plans.

"Sister Feng, you should also leave Divine Female Palace and join us." In his heart, Lv Qilian had always hoped that he could be with them, because Feng Yujie had the strength of a god and was very trustworthy.

If I suddenly leave Divine Female Palace, Hallmaster will definitely be suspicious. I have already determined that there is a problem with Hallmaster. Feng Yujie said: "But don't worry, although there is a problem with the hall master, I can handle it, I just do not want to cause too much trouble."

Feng Yujie smiled at Lv Qilian: "Even though I'm in the Divine Female Palace, I'm still one of you. I'm in the Divine Female Palace, we can look after each other like this."

It was almost midnight, so Chen Xiang and the others came out of the secret room. As long as they were not in a rush, they would refine pills during the day and rest during the night.

"Hello, Sister Feng." When Xue Xianxian and the rest saw Feng Yujie, they greeted him.

Feng Yujie smiled and nodded. "You've earned so much divine money today, and yet you're still so busy. Did this little scoundrel force you to do something?"

Chen Xiang poured a cup of fruit juice Long Xueyi had made for himself, took a sip, and curled his lips: "Don't wrongly accuse me, this is all our own doing."

Feng Yujie laughed, "I was just speaking casually Now that all of you are here, I'll tell you guys something that's more important. "

Chen Xiang and the few girls immediately sat down and listened seriously.

But he is hiding in a dark place, and just today afternoon, Hell Devil Emperor's men appeared in a city to carry out a massacre. Furthermore, he escaped, enraged the Penalty Heavenly God, and personally captured that guy to force him to reveal some secrets.

Chen Xiang's expression changed, because they were currently very weak and these few women were all close to him. If the Hell Devil Emperor were to find out, it would be very dangerous.

Feng Yujie saw Chen Xiang's worried expression and said: "You don't have to worry, Divine Female Palace has already activated the strictest defenses, so we can sense it if anyone from Hell Devil Emperor enters. But in order to prevent any accidents, it's better for you guys to not show yourself."

Liu Meng'er asked: "Sister Feng, you said that Penalty Heavenly God forced some things out, do you know what it is?"

Feng Yujie nodded: "I know, Penalty Heavenly God has already told us. The main point is that Highest Devil God supports Hell Devil Emperor, so Hell Devil Emperor has already secretly mobilized his power, and is prepared to oppose all divine palaces. He wants us, the various divine halls, to be more careful."

Xue Xianxian shook Chen Xiang's hand. She knew clearly that Chen Xiang had been fighting with the Hell Devil Emperor for many years, and that after his defeat, he did not retreat. Instead, he obtained the support of the Highest Devil God and made a comeback.

Lv Qilian asked: "What kind of city is the city that was attacked?"

"Devil-killing Divine City."

Chen Xiang took a deep breath, "Is there any news about the Hell Devil Emperor, such as whether or not he is hiding in a secret place to develop his skills?"

Feng Yujie shook his head: "No, Penalty Heavenly God said they will work hard to find it. If they find it, they will inform us and have the various halls send their strongest War Gods over."

Hell Devil Emperor's return was obviously to take revenge on all divine palaces. This was indeed important news.

Feng Yujie returned to the Divine Female Palace, Chen Xiang and the others returned to their rooms to rest.

... ..

Late at night.

"Qilian, how could you be willing to come with Meng'er?" Chen Xiang embraced the two girls, his two hands respectively placed on their soft and soft chests as he gently caressed them.

Liu Meng'er bit Chen Xiang's arm lightly, while Lv Qilian's face was flushed red, still immersed in the afterglow of the wild joy.

"I thought Sister Feng told us that you want to participate in that damned Supreme Divine Palace Trial." Liu Meng'er spat out lightly and used all his strength to pinch Chen Xiang's chest. His voice was full of blame: "Sister Feng said, that's very dangerous, why do you always have to do this kind of thing."

Lv Qilian lay on his side, with a leg under Chen Xiang's waist. He bit his lower lip and sighed: "When are you leaving?"

With things having progressed to this point, she couldn't say anything. Feng Yujie had already sent a sound transmission to her and Liu Meng'er regarding how dangerous the Supreme Divine Palace's trial was.

"In another month, I will condense more purple pearls with you." Chen Xiang smirked and pinched the two women's chests: "It's time for us to go to Elder Sister Meng'er."

"Unsatisfied little scoundrel." Liu Meng'er scoffed.

... ..

Chen Xiang was going to participate in the Supreme Divine Palace's trial. He didn't tell Wu Qianqian and Xue Xianxian about this matter, he only told Liu Meng'er and Lv Qilian.

Chen Xiang happily spent a month with the few girls, and also refined many Holy Pills. Right now, Liu Meng'er and Xue Xianxian had already started their closed door cultivation.

Wu Qianqian and Hua Xiangyue, on the other hand, continued to refine pills, and would cultivate in separate sets of closed doors.

"Is that okay? Leave without telling them." Lv Qilian frowned and looked at the door of the two private rooms.

"It's fine, it used to be like this." Chen Xiang sighed, "In any case, it won't be for long, and in less than ten years, we might be able to meet again. It used to be like this for the past five thousand years."

Although Liu Meng'er, Xue Xianxian and the other girls were already used to parting ways, Lv Qilian wasn't used to it, because she and Chen Xiang had only gotten used to it during this period of time.

Lv Qilian, who had always been a strong person, had tears rolling down his cheeks.

"Take this divine money." Lv Qilian handed over the six hundred million god money he earned previously to Chen Xiang.

"I want half." Seeing Lv Qilian cry, Chen Xiang wiped away her tears and smiled: "Big sister, take good care of them. If Sister Feng comes, help me bid farewell to Qianqian and Xiangyue, and let her pass some medicinal formulas on to them."

"Yes." Lv Qilian gave three hundred million to Chen Xiang from the Storage bag and left the rest to them.

Long Xueyi laughed tenderly: "Sister Qilian, you don't have to worry, I will take care of this little scoundrel."

Chen Xiang scolded: "I'm taking care of you, Little Naughty Dragon."

After bidding farewell to Lv Qilian, Chen Xiang left Goddess City. He did not leave using the Transmission array, but went out of the city gate, and started to walk according to the Supreme Divine Palace's trial map, preparing to head towards the trial grounds.

Half a day after leaving the Goddess City, Chen Xiang met a group of True Gods who were quite strong. Most of them were Upper True Gods, with a strength of more than a hundred.

"Li Zhonghan is also here." Chen Xiang was shocked. He went closer to look and immediately understood why Li Zhonghan had appeared. It was because Ye Qin had come as well.

"What are they doing here, there are more than 10 Super profound God s, are they fighting in groups?" Chen Xiang did not continue to get closer as he watched from afar.

[Chapter 1863](#)

This group of people did not come from the Divine Female Palace, because the people inside the Divine Female Palace were all women and their clothes were special as well. Furthermore, most of the people in front of them were men, and there were only around a dozen women, but they were not Divine Female Palace disciples.

"This Ye Qin should be coming out by herself. What is she doing?" Chen Xiang was curious in his heart. He waited for more than an hour, but nothing happened as he walked in the direction of the trial grounds.

Ever since he had dripped his blood on the Supreme Divine Palace's trial tablet, there was a map in his mind that would guide him to the trial grounds. Right now, he only had one direction, and he did not know where the trial grounds were located.

Chen Xiang ran wildly around the wasteland for a few days but still didn't encounter anything. This place made him feel like a dead land, although it had a decent amount of divine energy, it did not have any signs of life. It was either a desert, a wasteland, or a bare rock mountain.

Just as he was feeling bored, he suddenly heard a burst of running noises coming from behind him, like the stampede of ten thousand beasts.

He immediately looked behind him, and just as he had expected, there were a large number of vicious beasts roaring and rushing at him at the same time. A billowing cloud of smoke and dust swept towards him like a sandstorm.

"These are Special god beast, these kind of Special god beast cannot change their shape, but they possess power as strong as a True God or profound God. The group of Special god beast you are looking at right now, their strength should only be at the level of a Lesser True God." Long Xueyi said. There were still quite a lot of memories within the incomplete God Soul that she had awakened.

"There are over a thousand of them, and they are all of different species. I don't think they're migrating." Chen Xiang looked at the surging dust and suddenly saw several figures flying out.

This surprised him, because of this group of people, there were two that he was more familiar with, Ye Qin and that Li Zhonghan was inside.

At that time, he was still curious about what they were doing, but now, he seemed to have realized that they were waiting for this group of Special god beast.

"No, they are not hunting Special god beast, they are ..." Chen Xiang realized that there were only a few tens of people who rushed out of the sand, and even a few profound God s were missing.

"They're on the run."

Chen Xiang immediately understood that this group of strange beasts and Ye Qin were being chased by something powerful and terrifying.

"Quick, hide first." Long Xueyi said: "The Special god beast are extremely sharp, even if they sense danger approaching, they would flee ahead of time. For such a large scale escape, it looks like there really is some kind of terrifying person chasing after them."

Chen Xiang activated Seventy-two changes and turned into a small rock as he hid far away, quietly waiting for the group of Special god beast, Ye Qin and the others to leave.

"Roar!"

An extremely shocked beast's roar suddenly came over, it shook the ground till the stones jumped up, causing Chen Xiang to be even more shocked.

"What's this?" Chen Xiang asked Long Xueyi.

"This... They seem to be Wind scared beast s, but they are also one of the strange beasts. Their strength is like gods, and their shape is like the wind. Long Xueyi's voice was filled with fear: "Facing him with caution, do not let this guy discover you. No wonder Ye Qin and the others ran."

With so many profound God dead, forget about profound God, even if it was a lower heavenly god, he would probably have no choice but to run. This kind of Wind scared beast was too powerful.

Chen Xiang saw a thick cloud quickly drifting past in the sky. It was the Wind scared beast, and when it drifted past, it would occasionally let out a roar.

Only after more than an hour had passed did Chen Xiang return to his human form, and he took a deep breath: "This place is already very far from the Goddess City, what exactly are Ye Qin and that Li Zhonghan running out for?"

They should be here to hunt Special god beast. The blood of the Special god beast's beast should be able to be used to refine divine pellets, Ye Qin's father is the Pill God, and Li Zhonghan also needs to gather the materials for the Dan God in Blue Costume. There should be a lot of people here with Ye Qin, but they were all called here by the Dan God Ye, not the Divine Female Palace's.

Chen Xiang nodded, and continued to head towards the trial grounds. He was not really planning to head there for the trial, he just wanted to get closer to that place, and then cultivate there to become a profound God before going there.

The direction he was heading towards was different from the direction Ye Qin and the others were running in, so he was not worried about running into Wind scared beast s.

Chen Xiang ran for nearly an hour before he suddenly realised that something was following him. If it wasn't for him releasing his Spatial Detection Domain, he wouldn't have noticed it at all.

"Xue Yi, have you noticed that something is following me?" Chen Xiang asked.

"I didn't find anything. I'll use the Heaven tour method to go take a look." After Long Xueyi had awakened the remnant soul, his consciousness was still extremely strong, a bit stronger than Chen Xiang's. However, if he met someone with a strong concealment ability, it would be hard to detect.

Chen Xiang slowed down her pace, and before long, Long Xueyi realized that something was following him as well. It was just that she did not see it clearly, because if the spirit she released wanted to approach him, it would somehow dissipate.

"This guy isn't strong. I don't know why he chose to follow you, but he doesn't seem like a human." Long Xueyi said.

Although he was currently of no threat to Chen Xiang, being followed by something made Chen Xiang feel extremely unhappy.

At night, Chen Xiang entered a forest. He finally left the desert, and arrived at a place with mountains and water.

The stars in the sky were very bright, making the forest not very dark. Moreover, there were many flowers and plants that could release a red glow at night, causing the forest to be colorful and colorful.

"It's time." Chen Xiang locked onto the thing that had been following him for an entire day, and suddenly teleported over.

When Chen Xiang went over, he only saw a white light suddenly shooting out, jumping towards a big tree.

Surprised that this thing could predict his path, he looked at the branch of the tree and finally saw what it was.

It was actually a very cute little white cat, with a pair of snow-white wings.

"Miaomiao." The little white cat cried out a few times, flapped its wings and flew around the big tree a few times, then stopped on top of the tree branch.

"What the hell is this? Although his strength isn't great, his life-saving methods are quite good." Chen Xiang then saw a layer of sparkling and translucent white light appear on the little white cat's wings. It was very beautiful, upon closer inspection, he discovered that the white light was slowly entering the feathers of the wings.

"These rays of starlight, this little thing is currently absorbing starlight." Chen Xiang was surprised, the Gods Realm's starlight was special, it was not easy to absorb, and even if he absorbed it, it would be very difficult to refine out the power of the stars.

Long Xueyi said: "It really is this kind of thing. This little thing should be called a Star and crescent beast, and it has a very mysterious connection with the star moon. It can easily absorb the power of the star moon, but I don't know about anything else, in short, it's not very strong."

"Little Thing, come here." Chen Xiang took out an low grade Holy Fruit, this Holy Fruit was called the Star Spirit Saint Fruit, it only grow after absorbing a large amount of starlight, to Chen Xiang, it was just a kind of delicious fruit.

After Chen Xiang took out the Star Spirit Holy Fruit, the little white cat meowed and flew over with its normal beautiful white wings. It landed on Chen Xiang's wrist and bit the Star Spirit Holy Fruit.

[Chapter 1864](#)

Long Xueyi did not know much about Star and crescent beasts, he only knew that it was a very unique divine beast with very weak power, but it had other abilities.

"Little thing, why are you following me? Aren't you afraid that I'll stew you?" Chen Xiang patted the little white cat's head and laughed.

The little white cat meowed a few times as if it was angry, because it heard that Chen Xiang wanted to stew her.

"You're not allowed to eat me, I'm not tasty." The little white cat actually spoke, its voice was very soft, like a little girl's voice. She was really worried that Chen Xiang would eat her, so she quickly jumped onto the tree.

"Come down, I won't eat you. Why are you following me?" Chen Xiang laughed and shouted.

The little white cat flew over and laid on Chen Xiang's big hands. She said with her thin voice, "I want to work together with you."

"Cooperate with what?" Long Xueyi also ran out, but the little white cat was not scared, she seemed to have long known of Long Xueyi's existence.

"I can find the divine medicine, but it will be very dangerous along the way. It will be difficult for me to get to that place myself, but you can, I'll guide you there. When the time comes, we'll split the loot evenly, and then you guys have to bring me to a safe place." The little white cat had already jumped into Long Xueyi's embrace.

Long Xueyi hugged the cute little white cat, fondled it lovingly and said to Chen Xiang: "This could be her special ability that allows her to find godly medicines or something similar."

The little white cat said, "Star told me. That's why I know Star also told me that there was a big monster chasing after me. However, I dodged it and found you, so I followed you."

Long Xueyi and Chen Xiang suddenly realized that the Wind scared beast that was chasing after Ye Qin was attracted by this little thing.

"Where is the divine medicine you were talking about?" Chen Xiang asked: "You trust me that much."

"Of course not, that's why we have to make a Star Contract." The little white cat lifted Little Claw up and a Spirit grain array appeared.

"Give me your hand." The little white cat called out softly.

After Chen Xiang stretched out his hand, he made a star contract of some sort with the little thing.

"Take me with you to that place as soon as possible." Chen Xiang was in a hurry to go to the trial grounds.

"Mm, but that place is very dangerous. Don't blame me if you die." The little white cat squatted on Chen Xiang's shoulder.

Chen Xiang tried to let the little white cat enter into the ring, but she refused to go in no matter what. In the end, she could only stay outside, and her spirit sense was extremely strong, even stronger than Chen Xiang's spatial sensing domain.

"Little thing, do you have a name?" Long Xueyi asked. She wanted to give him that kind of long and unpleasant name again.

"Of course, I'm Yue'er." The little white cat's words made Long Xueyi think of a few names that would die from childbirth.

Chen Xiang carried Yue'er and the little kitten, and continuously teleported through the forest at an extremely fast speed.

According to Yue'er's guidance, Chen Xiang took her and ran very far away from their original path, but he didn't care about that for the sake of the divine medicine.

"It's not as dangerous as you say. It's been a few days, and I'm safe." Chen Xiang sat on top of a rock and looked around at the rubble. There had obviously been a great battle here, and all the rocks of various sizes had flown over from the rock mountain in the distance.

Yue'er flapped her wings, circling above Chen Xiang, and said: "Only that place is dangerous, and all along the road, it's very safe. But since you control the power of space, it'll be very easy to obtain that divine medicine, so you don't have to worry about this, and this is also the reason why I chose to cooperate with you."

Chen Xiang was currently resting. Normally, he would only need to rest once after exhausting thirty percent of his energy.

In the past few days, Chen Xiang had seen Yue'er's unique ability. First of all, it had an extremely strong sensing ability, and she could clearly sense it from far away.

Then at night, she could quickly absorb the power of the moon and stars to cultivate. However, she couldn't let herself have a strong power and could only enhance her own special ability.

In addition, her speed was extremely fast. It wouldn't be easy for even Empyrean Gods to catch her, because she had an extremely strange ability that allowed her to predict what would happen next. It seemed as though this was the power of the Law of Time.

As long as she had enough time, she would be able to use that terrifying speed to escape. This was also the reason why she dared to run around.

"Yue'er, what kind of divine medicine are you holding there? If it's an ordinary divine medicine, you should be able to deal with it yourself, right?" In the days that Chen Xiang and the little white cat had been together, he already knew that this little thing looked cute, but it had lived for a long time and possessed a very high intelligence.

"Using the method you humans use, that is a Zhongpin medicine, a tree with four flowers on it. I don't know what you humans call it, but it is very useful." Yue'er replied, "And the tree's circumference is extremely dangerous."

Chen Xiang required four hours every time she rested in order to ensure that she had sufficient energy and was in her best condition.

He closed his eyes and sat cross-legged on top of a giant boulder to rest. Suddenly, he heard Yue Er's panicked yell, "Quickly hide, someone is approaching."

Chen Xiang immediately carried Yue'er and hid under a large boulder.

A few rays of light flew past in the air at a very fast speed, but Chen Xiang still caught the figure of a person.

"Don't go out, there's more coming from behind." Yue'er had just finished speaking when dozens of shadows appeared behind her. They flew past her like a gust of wind and were much slower than the others.

After a while, Yue'er said, "Sorry for the trouble. These guys are heading towards the location of the divine medicine. Those fruits are about to mature. Could it be that the tree was discovered a long time ago?"

Chen Xiang frowned: "The ones flying at the very front should be Pill Gods, and one of them is the Dan God in Blue Costume, they are all extremely powerful."

Amongst the few tens of people that flew past, he saw Ye Qin and Li Zhonghan.

"We still have some hope. These fellows won't be able to obtain that divine medicine that easily. Let's hurry up and hurry up." Yue'er shouted, "Although your speed is slower than those in front of you, they will still need some time to open up a path. There's still time."

Chen Xiang brought Yue'er with him and sprinted forward. However, he said that the direction he was going in was different from those few Pill Gods, so Yue'er wanted him to take a detour around it.

At night, the starlight was rather dim, but Yue'er seemed extremely excited.

"It's right in front." In front of her was an ancient forest full of giant trees. Each of the trees was a hundred feet tall, their trunks thick and stiff. Countless treetops covered the earth, covering the sky and covering the earth. There were a large number of rattan vines in the forest, and they emitted a faint green glow.

[Chapter 1865](#)

As long as one stepped into the ancient forest in front of them, it would mean that they would face extremely terrifying dangers. However, Chen Xiang, on the other hand, was a person who liked to take risks.

"Be careful, use your own spatial energy to protect yourself. Don't let yourself be discovered, otherwise it'll be hard for you to escape." Yue'er instructed Chen Xiang as she flew back and sat on Chen Xiang's shoulder.

As Chen Xiang entered the forest, he immediately felt a trace of a weak and peculiar energy floating in the air. He guessed that this kind of energy could produce a spiritual sense, and the moment something appeared in the forest, it would alarm the master of the forest.

"Little Cat, just how strong are the guys in this forest?" Chen Xiang asked softly. He had the Space Domain, so his voice wouldn't spread outside the Domain.

"Very powerful. He is very famous among you humans a long time ago, so you should quickly call him Wind scared beast. I was chased by this guy for the sake of breaking into this place earlier on." Yue'er also knew that the Space Domain could be isolated from the outside world, but she still spoke in a very soft voice.

Chen Xiang and Long Xueyi had encountered the Wind scared beast before, and Ye Qin's group along with the large group of Special god beast were being chased by the Wind scared beast.

"So it can turn into a cloud, have you seen what the original body of this Wind scared beast is?"

Chen Xiang increased his pace and walked straight ahead. Occasionally, he would hear the sound of wind whistling past him, and the glowing vines within the forest would sway back and forth like ribbons of light. It was extremely beautiful.

"I've seen it before. His main body is just a bunch of things. Last time, he only blew a gust of wind to chase me. If it was his main body that attacked me, I'm afraid I would have been in danger." Yue'er's small voice was filled with fear, "The wind he blows is the same as his main body, it still has a strong attacking power."

Deep into the night, Chen Xiang carefully snuck forward. The wind in the forest seemed to be getting stronger and stronger, Chen Xiang didn't feel it from the Space Domain, but he could see the leaves of the huge trees swaying, the glowing grass and the fluorescent flowers on the ground were all blown to the side.

"When that guy moves, the Wind scared beast is usually quiet. As long as it moves, it can create wind. Judging from the degree of this wind, it's probably because those gods from before made him feel threatened."

Just as Yue'er finished speaking, a roar came from above.

"Roar!"

The deafening howl pierced through Chen Xiang's body, almost scattering his Space Domain. Violent gales swept through the forest, and the rocky ground was blown out from the depths, sweeping away all the flowers that were emitting light. Some of the giant trees' branches and leaves were snapped.

Chen Xiang stabilized his Space Domain, but was not blown away. However, he was still shocked, because he was right inside the forest, very close to the Wind scared beast.

"What a terrifying fellow, my Space Domain was almost destroyed." Chen Xiang took a deep breath and continued to release spatial energy to strengthen the Space Domain, in case the Wind scared beast continued to go crazy.

Yue'er said: "Looks like the Wind scared beast really got angry this time, he rarely roars in this forest, those few god gods should be close to his lair."

Not long after, the Wind scared beast's earth-shaking roars came out again. Chen Xiang was already prepared, so he wasn't like last time, where the energy in his domain was almost dispersed.

Chen Xiang began to teleport. Yue'er had told him that it was very likely that the Wind scared beast was fighting with Dan God in Blue Costume and the others. Therefore, he had to quickly get closer to the Divine Book to pluck the divine fruit.

Li Zhonghan, Ye Qin and the others had followed along to pick the divine fruit. If they went too late, the divine tree would probably be gone.

"Relax, we will be able to get them soon, the Wind scared beast is not only ourselves, the group of brats might not be able to get their hands on them immediately. You need to stay calm and not panic, only then can you control your spatial energy well and take away those divine medicines." When Yue'er saw Chen Xiang desperately trying to teleport forward, she warned him.

Chen Xiang did not panic. He was rushing towards the divine tree to ensure safety because he did not want to make this trip for nothing.

As he approached, he could see a wave of purple light in front of him. It illuminated the forest along with the green light coming from the giant tree, making it even more beautiful.

"It's right in front." Chen Xiang could already see the huge tree emitting purple light, as though it was a king standing in the middle of the forest.

Just like what Yue'er said, there were only a few divine fruits here. This divine tree only bore divine fruits once every many years, and the quantity was extremely few.

"Only four." Chen Xiang had already seen the divine fruits if there were four purple stars hanging above the big tree.

The Wind scared beast had already left the tree to deal with the few Pill Gods, while the Wind scared beast's men stayed there to fend off Li Zhonghan and the others.

After locking onto the four divine fruits, Chen Xiang used his spatial energy to grab them in the air and placed them into the Serene Dragon Ring.

It was also at this time that the Wind scared beast let out a thunderous cry, as if it had already sensed that the divine fruit had been taken away.

"Hurry up and leave." Yue Er anxiously shouted.

Just as Chen Xiang took the divine fruit, he saw Li Zhonghan and the rest rushing towards him, they knew that the divine fruit on the tree had been taken away, causing their eyes to turn red. They waved the divine weapons in their hands and roared as they rushed towards Chen Xiang.

In just a moment, Chen Xiang had disappeared from in front of them, but the Wind scared beast seemed to have gone mad as it roared nonstop.

Chen Xiang quickly distanced himself from the divine tree, and the few Pill Gods were furious when they found out that the divine fruit had been taken first. They didn't even know who had come to take it away, yet they were making them take the blame.

"Withdraw." The divine fruit was no longer there, and the few Pill Gods did not continue to fight with the Wind scared beast. They had not been able to defeat it for so long, which meant that the Wind scared beast was very strong.

Li Zhonghan and the others retreated with hatred. They had come all the way here and had been hunted down by Special god beast all the way, hence they had consumed a lot of medicinal pills. However, in the end, they suffered an infuriating result.

Chen Xiang had already distanced himself from the forest, but he could still hear the heaven shocking roars that resounded in the sky.

"Hurry up, let's leave this place and talk later. Those gods can't leave even if they want to right now. It's no joke to completely enrage the Wind scared beast." Yue'er urged Chen Xiang not to stop, in case he met with any unnecessary trouble.

Chen Xiang ran frantically towards her trial grounds, Yue'er did not say anything, she just needed to stay far away from the forest that frightened her.

Five days later, Chen Xiang stopped because in front of him was a huge pool of water. It wasn't like an ocean, and it was extremely calm as well. The calm water surface looked very dark, so dark that it made one's heart tremble, as if they would be engulfed by an endless darkness if they were to jump in.

[Chapter 1866](#)

Chen Xiang and Yue'er stared blankly at the black lake for a while, before realizing that they should be distributing the gains from before.

The divine medicine taken from that forest was a type of fruit, which could be eaten directly or refined into pills. It was just as Yue'er had said, it was a Zhongpin medicine, and was also one of the most precious divine medicine that required 100,000 years to mature.

Previously, Feng Yujie had imparted a large amount of knowledge to Chen Xiang on medicinal pellets, so he was very familiar with the purple divine fruit, it was called the Nine Strange Divine Fruit. It contained nine different kinds of abilities, which could only be revealed after combining them with other kinds of divine medicines, and required a recipe to refine nine different kinds of strange divine pellets from the Nine Strange Divine Fruits.

"I'll take the two of you. We agreed on that." Chen Xiang placed the fist-sized Nine Qi Divine Fruits on the ground. Yue'er, this little white cat, didn't seem to be as big as these two fruits. She excitedly fluttered her wings and hovered around the two fruits.

Looking at her character, she resembled a greedy little dragon like Long Xueyi.

Yue'er smiled charmingly and said, "Let's have a happy cooperation."

Chen Xiang nodded to her and asked: "Are you going to eat these two fruits now?"

Yue'er shook her little head. "Of course not. I want to eat again when I break through."

Just as Chen Xiang wanted to ask her how to hide these two fruits, a silver collar suddenly appeared on her neck. Yue'er meowed twice, and the two Nine Qi Divine Fruits disappeared in a flash.

The silver ring that suddenly appeared on her neck was clearly a Storage magic treasure, and it could even be considered invisible; Chen Xiang didn't even notice it before.

Chen Xiang and this little white cat worked together very happily. This little white cat was also a very good divine beast, as long as he was together with her, he might be able to find good divine medicines. This made him suddenly not want to be separated from the little white cat.

"Yue Er, you should be lonely wandering alone. Do you want to be with me?" Chen Xiang asked.

Yue'er flew around Chen Xiang a few times, thought for a while, and answered: "Alright, but don't put me in the ring on your finger, I can't stay in that place, I'll die."

Chen Xiang laughed. If Yue'er could follow him, it would be fine, but he was still curious. "Why would you die inside the Storage magic treasure?"

Yue'er lay on top of Chen Xiang's head, and said: "My physique is rather special, if I enter this kind of refined Storage magic treasure, the space inside would collapse, and I would also collapse with someone, to death, unless it's a divine object birthed from heaven and earth, otherwise I wouldn't go in."

Chen Xiang looked at the endless black water body, floated up and said: "Yue'er, I should be fine underwater right? Do you know what kind of place this water body is?"

"I don't know. At the moment, I don't feel any danger. Just keep moving forward." Yue'er had been wandering solitarily for many years now, and she was quite satisfied with the rare encounter with someone like Chen Xiang, who wasn't considered too bad a human either. Therefore, she also wanted to be together with Chen Xiang right now.

After obtaining the two Nine-ranked Divine Fruits, Chen Xiang made Long Xueyi eat one of them. Long Xueyi, who possessed the ability to live through sleep, went to sleep after eating them, and didn't know when she would wake up. This was after she had eaten an entire middle ranked Divine Fruit.

"Where are you going? Are you wandering aimlessly?" Yue'er could see that Chen Xiang seemed to be heading towards something.

Chen Xiang did not immediately reply. He was considering whether or not he should tell Yue'er; he was worried that Yue'er would be scared off after knowing about Supreme Divine Palace's trial.

"Speak." Yue Er raised her voice, but no matter how high her voice was, it was still soft and delicate.

"Let me tell you the truth, I want to participate in the Supreme Divine Palace's Trial, it will be more dangerous. But before the Trial begins, I will let you leave first." Chen Xiang had already teleported countless of times, so he could not see the shore. He and Yue'er were both floating above the black colored lake, and looking down, the deep black lake looked like a gigantic bottomless pit.

When Yue'er heard this, she immediately mewled, "You, why didn't you say so earlier?"

Chen Xiang sighed: "You've indeed heard of the Supreme Divine Palace's trial. Forget it, I won't force you, after all, that's a place that's very dangerous."

Yue'er scoffed: "You make me sound like I'm afraid of death. To others, the Supreme Divine Palace's trial is indeed very dangerous, but I am not afraid, and furthermore, I understand the trials of the Supreme Divine Palace very well. If you had told me earlier, I might have helped you prepare so that you could pass this trial more easily."

"You're pretty bold, profound God isn't even strong enough and you dared to undergo this trial."

Chen Xiang didn't quite understand her words, and asked: "It's not too late for me to tell you now, you can still help me prepare, and I don't plan on going to the trial right now, I plan to stay near the trial grounds to cultivate for a while longer."

Yue'er flew from her left shoulder to her right shoulder, saying, "It's too late. You have already entered the trial ground, so this should be the first stage of your trial ground. After you step in, the lake will disappear, which means you have already entered the trial space."

"What?" Chen Xiang cried out. He didn't want to enter the lake so early, he now understood why this lake was so strange. He didn't expect it to be a training grounds.

"The trials set up by the Supreme Divine Palace are very mysterious. The trials are filled with all sorts of strange things, so even if you ask those who have passed the trials, the experience gained would be useless to you." Yue'er used her little claws to scratch Chen Xiang's shoulders and said: "Don't worry, although your strength is weak, this trial is based on your own strength, you have a huge advantage even if you come so early."

Chen Xiang suddenly became curious, "Yue'er, how do you know so much about this trial?"

Yue'er snorted. "Don't ask. This is my problem. You only need to know that I will help you."

Chen Xiang felt that this kitten was probably the one that came out of Supreme Divine Palace, it could be one of the Supreme God's pets.

"Why do I have such a great advantage when I'm weak? Before I entered, many people said that I was too weak and that there was no way I could pass the trial. That's because those very powerful Emphyrean Gods had all died in the trial." Chen Xiang heard from the mouths of the Penalty Heavenly Gods that their disciples and sons were all extremely outstanding. Their strength was around the same as theirs and some of them were even stronger than theirs.

Yue'er said, "What do they know? It's not like they've personally trained before. Of course, those that have entered this trial are the kind of people that are unable to break through bottlenecks. It's also because of this that they haven't been able to return, so for all these years, there have been very few people that have passed the trial.

"In fact, the key point of the exam is to keep on breaking through during the exam, for example, your first trial is to match your current strength, so you need to break through at the first trial, because the next trial's content is to match your strength after you break through. If you can't break through in the first trial, even if you can withstand the next trial, you won't be able to pass the third and fourth trials."

Now, Chen Xiang understood that if it was really as Yue'er had said, it would be extremely difficult for those at the peak of the God Realm to break through.

[Chapter 1867](#)

Unknowingly, Chen Xiang had entered the trial grounds and started the Sovereign's trial that was filled with unknown dangers.

Not long after he flew above the black lake, a large group of people suddenly appeared where he and Yue'er were.

These dozens of people had a huge round plate under their feet. This was a Transmission array plate, and it was a very high level one, capable of teleporting.

The people who appeared were the Pill God, Li Zhonghan and the others.

"Strange, this should be the place, but there's no one around here." An old man with a long beard was on top of the formation plate, gently stroking the snow-white squirrel on the back of his hand, which was squeaking.

"Did your precious Snow Spirit Mouse sense it wrongly?" The Dan God in Blue Costume said, "It would be fine if we come over, but the other party definitely doesn't know about it."

The bearded elder shook his head. "Carefully sense it. There is still the aura of the Ninedust Deity Fruit remaining here. There can't be any mistake."

So it turned out that when Chen Xiang gave the two Nine Oddities Divine Fruits to Yue'er, the Snow Spirit Mouse that was tens of thousands of kilometers away had sensed them, and a few Pill Gods had brought Li Zhonghan and the others over.

"Could he be hiding in space?" Dan God Ye looked at the wasteland in front of him and frowned. "What a strange feeling, is there a hidden space ahead?"

After Chen Xiang entered the black lake, the black lake disappeared from the land and was separated from the space of the Gods Realm.

"Zhonghan, you two stand guard here. Only you two recognize that guy. You must find him." The Dan God in Blue Costume said.

"Qin'er, you should stay here as well. Let's first contact the Deity who is familiar with the power of space and have them come and take a look." Dan God Ye patted Ye Qin's shoulder.

Ye Qin was a little unwilling, because she did not want to be with Li Zhonghan. This time, the few Pill Gods had allied themselves, and that was why she was together with the disciples and children of the other Pill Gods.

... ..

Ever since Chen Xiang knew that he had entered the trial, he did not dare to wander off, because he was not ready yet.

"That map still has a long way to go. I just walked a short distance before I started the trial." Chen Xiang complained, because it had deviated from his plans.

"Everyone says that you have a great advantage. You are only a True God now. If you can pass this first stage, then you will be able to advance one stage. The next stage will be much easier." Yue'er said: "That map is the map of the training grounds. Follow the map to the end, even if you pass the trial, you will be able to enter the Supreme Divine Palace."

Chen Xiang could only brace himself and charge forward. He had no way out at all.

"Then what do I do now?" Chen Xiang asked: "How can you help me?"

Yue'er made Chen Xiang feel a lot more at ease knowing so much about the trial.

Yue'er said, "I can help you see through some of the traps, or else you will have a headache if you fall into one of these traps. These traps are not dangerous, but they are extremely annoying.

This type of trap was indeed a trap, and if he could avoid it, that would be for the best.

"There aren't many who managed to complete the Sovereign's Trial, and the majority of those who managed to do so are at the peak of the Emyrean God level. The speed of breaking through is extremely fast, and none of those Emyrean Gods survived the trial." Yue'er replied, "Right now, you cannot be afraid. You must have confidence, or else it will be very difficult to pass the trial."

Chen Xiang nodded. Right now, he was much more confident than before, and according to the instructions on the map in his mind, he continued to advance forward.

Yue'er flapped her wings and flew behind Chen Xiang, maintaining a distance from him. This was because this kind of trial was extremely dangerous, even if she went near Chen Xiang, she would still be attacked.

"Something has appeared." Just as Yue'er reminded Chen Xiang, a big black hand suddenly reached out from beneath Chen Xiang's feet, and grabbed onto one of his ankles.

Chen Xiang wanted to pull his leg away, but he found it difficult to move. At the same time, a cold killing intent attacked him from behind, he immediately used his spatial energy, but to no avail.

"Hmph." The God Slaughtering Sword suddenly appeared in Chen Xiang's hand. He swung the sword and it rapidly rose into the air, shooting out a sword beam that cut off the black hand that was tightly grabbing onto's ankle.

He could already see what was attacking him. It was actually a head.

This person's hair was pitch-black, his hair was wildly dancing in the wind, his teeth were blood-red, and his eyes were purple. He was extremely terrifying, and at this moment, he opened his mouth full of sharp teeth.

Just as the tongue was about to stab into the throat, Chen Xiang's sword had already struck out, opening up the head and releasing a clear "Dang" sound, the head was actually extremely sturdy.

Chen Xiang still had some lingering fear in his heart. If he had reacted even a little slower, his throat would have been pierced by that needle-like tongue, and if that mouth had bit down, it would have been able to bite his throat off.

"Yue Er." Chen Xiang shouted, and the head was gone, the black hand grabbing onto his ankle was also gone.

Yue'er was just by his side a moment ago, but she suddenly disappeared, causing Chen Xiang to feel anxious.

Unable to find Yue'er, he could only continue forward, flying above the black colored lake. After flying for a short while, he suddenly sensed that something had appeared.

This time, there were two black arms coming at him from both sides. Their speed was very fast and they instantly grabbed his wrists, preventing him from moving.

After his hands were firmly locked in place, Chen Xiang frowned, he wanted to struggle free, but realised that he no longer had time to think, because two legs had suddenly appeared. One in front and one behind, they were flying towards him.

The attack this time was extremely fast, so Chen Xiang was basically unable to do anything about it. His back and chest were ruthlessly sprung up at the same time, and he felt two extremely berserk energies enter his body from the front and back, and even attack each other. The impact instantly exploded within his body, wreaking havoc within his body and causing his internal energy to be dirty, causing him to be in so much pain that he wished he was dead.

"Bastard, it hurts." Chen Xiang growled. At this time, the two legs came flying towards him again, trying to attack him the same as before. But this time, he suddenly jumped and avoided the attack, and he even struggled free from the two black hands.

In that instant, Chen Xiang had used the change in strength from the Seven devil-slain kungfu, causing his bones and flesh to become extremely soft, and turning his arms into mush. Only then could he quickly pull them out from those two tightly clawing black hands.

"Fortunately, there is a Supreme god bone. Otherwise, that strike earlier would have shattered my body." Chen Xiang locked onto the two arms, waved his sword, and his figure flashed as he flew towards the two arms that were just about to disappear.

The change in time and power did not allow the two arms to feel the change in process, and pieces of fragments were already formed from Chen Xiang's Swift Sword.

"This guy is really hard to deal with." Chen Xiang looked at the rapidly reforming pieces of flesh and cursed lowly. With a wave of his palm, a silver flame sprayed out, covering the pieces of meat that were about to be combined.

"I'll burn you to death." Chen Xiang used the Heavenly Alchemy and his World Creation Flame to mercilessly burn that pair of arms.

Very quickly, the two arms disappeared into the sea of fire.

Just as Chen Xiang was about to retract the flames, he heard a bone chilling shout, "Give me back my hand."

[Chapter 1868](#)

Chen Xiang turned his head, and saw the head that was about to pierce his throat with its tongue, but it had a complete body, and only two of its arms were missing.

This person was very tall, taller than Chen Xiang by two heads. His entire body was black, with sinister muscles, his black hair was wildly dancing, his sunken eyes emitted two clumps of purple light, his extremely sharp tongue had already turned soft, licking his pitch black lips.

"Still no return, but I can make you the same as your arm." Chen Xiang kept his God Slaughtering Sword. The Evil Realm being in front of him could separate his body and live, furthermore, he moved it very freely. Even if he was chopped into pieces, he could quickly recover.

It was impossible to deal with him with normal methods.

Chen Xiang activated his Divine Power and his body shone with light. A Taiji array appeared under his feet and started to spin slowly, creating a suction force.

"Come in and die." Chen Xiang roared, the Taiji array flames beneath his feet suddenly erupted, causing the suction force to become even stronger, and the evil being that was suspended in the air was instantly pulled in by the suction force.

The Taiji array started to spin quickly, silver white flames with a sacred light enveloping Chen Xiang and the evil person.

"Tai Chi."

Chen Xiang and the Creation Flames were frantically burning the evil being until he completely disappeared.

After exterminating the evil being, Chen Xiang exhaled, he had finally seen Yue'er, during the battle just now, she had suddenly entered a dimension.

"That guy just now wasn't very powerful, but his speed and strength is extremely terrifying." Yue'er said, "You sure have quite a few tricks up your sleeves. You've really broadened my horizons."

Chen Xiang realized that his strength was still not enough. If he was given a little more time, it would not be so difficult to master a little more Devil-killing Heavenly God and God Murdering Sword Techniques.

"What should I do to pass the first stage?" Chen Xiang asked. From the map, he could see that there were still many ways to go.

"I'm not too sure either. In short, you'll follow the route on the map and pass once you reach the end. So, you have to be careful on the road." Yue'er landed on Chen Xiang's head.

Chen Xiang said: "I'm not going. Can I cultivate first?"

Yue Er shook her head. "No. If you stay here for too long, the previous item will appear again. It will return to the time when you entered this place, and everything will return to how it was before."

This gave Chen Xiang a headache, he could not stay here any longer, he did not know when he would be at the end of the road, and he would have to continuously break through bottlenecks.

Yue'er replied, "I have an idea. You can slow down and walk on it step by step. As long as you don't stop, time will not start anew. However, is it helpful to you?"

Chen Xiang nodded: "Yes."

He took out a Divine Deity, swallowed it and assimilated it into his own Divine Sense Sea. Then, he used the Heavenly Alchemy to refine this Divine Deity within his own body and absorbed a large amount of divine power from it.

If the situation wasn't so tense, he wouldn't have used Divine Deity this way. He had planned to refine Divine Deity into a pill, as it would be much easier to absorb.

The Divine Deity he devoured was the Divine Deity of a True God, and the divine power contained inside was refined by him using the Heavenly Alchemy and was quickly absorbed by him, causing the ocean of divine power to churn violently within the Divine Sense Sea World.

Divine Sense Sea s expanded continuously, and their divine soul were then nourished by more and more divine powers, allowing them to absorb a large amount of the essence energy emitted by divine powers. This way, it would be easier to mobilize a large amount of divine powers, allowing them to circulate their divine soul as they wished.

Chen Xiang walked one step at a time. He walked forward very slowly because he wanted to cultivate. After engulfing that Divine Deity, it only took him a few days to step into the realm of Gods. That Divine Deity still had many divine powers that he had yet to refine out.

Chen Xiang stopped cultivating because Yue'er had said before that before even passing a stage, the matching trial's power would increase. If he raised his cultivation too quickly now, it would be troublesome later on when he couldn't break through his bottleneck.

On the road, he met two more evil people like before, and each of them was stronger than the last, especially the last one, one that almost killed him in the process.

"I've finally passed this trial."

Yue'er looked at the desert before her and said, "So an environment is considered a hurdle. It's getting harder and harder to continue."

Chen Xiang nodded, and took the recovery pellet, walking forward slowly to recover from his injuries.

"Continue your training." After Chen Xiang walked for a while, his injuries had more or less recovered. They were all flesh wounds, and they could quickly recover.

He had not finished refining the Divine Deity he had devoured, but he knew clearly that the Divine Deity that he had yet to finish refining would absolutely not help him break through his current realm.

"Hey, why aren't you leaving?" Yue'er saw that Chen Xiang had stopped and was extremely puzzled.

Chen Xiang had already completely refined the Divine Deity of the True God, but he had not made a breakthrough yet.

"I still have the Divine Deity of a True God. After I absorb it, I should be able to advance to Upper True God, but it will take some time, so I can't keep going." Chen Xiang said: "Even if I have to look back at it from the beginning, it would only return to the surface of the lake. The things there are not considered too powerful."

Chen Xiang thought that if he was able to stop here and break through, even if he had to turn back and go back to the lake to fight the three Evil Realm beings, he would not feel any pressure at all.

Yue'er curled her lips: "Idiot, if you make a breakthrough and return to the lake, then the power of the trial will be compatible with your Upper True God. In other words, if you pass the trial of the lake and come to this desert, the power of the trial will be on the level of profound God. Don't be too naive, the Sovereign's Trial doesn't have such a big loophole."

This caused Chen Xiang to suddenly stand up, feeling troubled in his heart. He suddenly felt that, even if he had made preparations before, the pressure he was facing now would be the same.

Yue'er said: "You need to have confidence in yourself, the fellow inside this desert should have the strength of the Upper True God. Even though you are now a True God, you have a lot of means and skills, and you can definitely deal with it. And after walking out of this desert, you need to hurry up and become a profound God, otherwise the next trial will be dangerous."

At most, he would only be able to endure through the second stage, and the third stage would definitely be his death, because the second stage would be the strength of the Great God level, and the third stage would definitely be much stronger than the second stage. It should be the second stage of the Primordial God Realm.

He still took out the true god's Divine Deity and swallowed it. He did not know how big this desert was, he could only try his best to step into the profound God Realm the moment he walked out of this desert. Otherwise, it would be extremely dangerous for him.

This was the Zhi Zun Trial, if one wanted to enter the Supreme Divine Palace, they had to endure this kind of severe trial.

[Chapter 1869](#)

Chen Xiang deliberately walked very slowly, because this would give himself more time to refine that Divine Deity. Right now, he was at the level of a middle True God, and here, he would be facing the Upper True God's devil beast.

He entered the desert, and after a few hundred paces, Moon flew away from him.

Having experienced before, Chen Xiang knew that Yue'er sensed that something was nearing from nearby before she left him. This meant that he was going to fight again, and he had no choice but to stop refining his Divine Deity now.

On the black lake in front of him, what he met were all those Evil Realm beings with limbs that could separate their bodies, and what appeared in the desert, even if they were not those Evil Realm beings, they were definitely more powerful than those Evil Realm beings.

Chen Xiang waited in place for a while, but nothing attacked him. Furthermore, he could also see Yue'er who was flying far away, and if he was attacked by her earlier, he would have been trapped in a special space until the end of his battle.

"He's coming." Yue'er shouted. Chen Xiang saw a whirlpool appear in the sand in front of him, and a ray of yellow light shot out from it, revealing a man in yellow.

was a little disappointed. If it was some kind of evil demon, it would be easy for him to deal with using the Seven devil-slain kungfu.

The yellow clothed man's eyes were ice-cold. When he saw that Chen Xiang only had the cultivation of a middle True God, he sneered in disdain.

"Being able to make it to this stage isn't bad. No wonder you sent me here. It's actually a guy like you that is undergoing a trial." The yellow-clothed man sneered and took out a golden spear.

Chen Xiang curled his lips and said: "You aren't very strong either, you aren't even profound God, only Upper True God, I didn't expect you to be inside Supreme Divine Palace, but being sent here, you should be just a small role in Supreme Divine Palace right?"

"Shut up, trash." You should have cultivated for thousands of years, and I am only twenty years old. I have grown up in the Supreme Divine Palace since I was young, and have received the guidance of many Supreme Grand Masters, yet you, an ant, actually dare to look down on me. "

Chen Xiang was indeed shocked, to have such a cultivation level at the age of twenty, it was extremely astonishing, causing him to be even more curious about the Supreme Divine Palace, he felt that there should be many such youths in the Supreme Divine Palace.

"My mission is to send you to your death. You better cooperate. I don't want to waste too much time on you." The yellow clothed man waved the spear in his hands and thrust it forward, the spear tip coming in contact with the center of Chen Xiang's eyebrows. With a flash of light, it was able to pierce through Chen Xiang's head at any time.

Chen Xiang laughed: "I am here for the trial, I want to pass it smoothly, how about you cooperate with me a bit, you go back, I will continue walking my path, that way we won't waste any time on anyone."

"Humph, I really don't want my spear to be stained with your blood." The yellow clothed man's face was filled with impatience. He activated his divine power and the long spear in his hand fiercely flashed. An extremely strong penetrating force surged out from the tip of the spear. The spearhead also pierced forward at an extremely fast speed.

Previously, the spear tip was only a finger away from Chen Xiang's forehead. The yellow clothed man thought that his attack would definitely succeed, but after he pierced through, he saw that Chen Xiang had gradually faded away.

Chen Xiang had already dodged it long ago, and now he knew that the yellow clothed man was arranged by the Supreme Divine Palace to stop him.

During the trials, there were actually experts from the Supreme Divine Palace coming here. If it was other words from the Heavenly God level, then that person would be even more powerful. He

understood even more clearly how other people from the Heavenly God level came to participate in the trials.

"A little trick."

The yellow clothed man quickly confirmed Chen Xiang's hiding spot, with a flash of his body, he was already in front of Chen Xiang, the long spear in his hands had already pierced through, in an instant, it shot out hundreds of times, the long spear that was fiercely thrusting towards him was like an illusion, the sound of it tearing through the air, if it hit him, his body would definitely be filled with holes.

Although Chen Xiang dodged, he was also affected by the force. The profoundwu diamond armour on his body blocked most of the powerful God Power, but because of this it was damaged and turned into a pile of broken pieces.

Although the yellow clothed man was arrogant, his strength was strong. Chen Xiang did not dare to be careless now either.

"Since this guy is sent by the Supreme Divine Palace, his mission is to stop me from advancing, and he also wants me to die. Since that's the case, if I want to pass the trial, I can only let him die." Chen Xiang summoned the God Slaughtering Sword, his expression becoming extremely solemn.

"Even this kind of trash can actually block 90% of my power." The yellow-clothed man looked at the pile of broken armor on the ground and couldn't help but sneer. "Now you know how strong I am. It's better for you to obediently come and die. I promise I won't let you suffer any pain."

Seeing Chen Xiang's face filled with killing intent, the yellow clothed man stopped talking and appeared in front of Chen Xiang in a flash. He thrust his spear and countless shadows flashed as he charged towards Chen Xiang like a storm radiating golden light.

This attack was extremely fast, even faster than before. Chen Xiang was simply unable to dodge, if not he would not have let his profoundwu diamond armour be destroyed earlier.

Since he could not dodge, Chen Xiang could only block. With a thought, the energy in his body started to circulate, and he used the rigid and soft transformation within the Seven devil-slain kungfu, allowing his own body to become extremely strong and flexible.

And now, he had allowed his body to transform in a soft and rigid manner, preventing the force from piercing into his muscles from entering his body. Only half of it was bounced off.

Even so, he suffered a great deal, but the pain was short-lived and did not harm him.

The yellow-clothed man's attack on Chen Xiang this time, was stronger than before, no matter in terms of speed or strength. Previously, Chen Xiang had the protection of the profoundwu diamond armour, but this time, he blocked his attack with his own body.

"This bastard is really merciless." Chen Xiang's face was expressionless as he activated the Seven devil-slain kungfu. His sword stabbed forward, as this was a change in speed that could change the power of laws of time.

However, the yellow-clothed man had suddenly disappeared in front of him, unexpectedly dodging his attack.

Although he dodged, the yellow-clothed man still had a lingering fear in his heart. He was very clear that if he was a little bit slower, he might have been pierced by Chen Xiang. That strange change in time made it impossible for him to see Chen Xiang's moving trajectory.

The Upper True Gods that came out of the Supreme Divine Palace were indeed extraordinary. If they were from the other divine halls, Chen Xiang's attack just now would have ended the battle.

[Chapter 1870](#)

The yellow clothed man had already realized that Chen Xiang was extraordinary. If this carried on, not only would it waste a lot of his time, even he himself would probably be injured.

Therefore, he had only just dodged Chen Xiang's space-time sword, and immediately attacked.

Chen Xiang could already feel that his skin was about to be burnt. The yellow-clothed man was extremely fast, and had even used all his strength this time.

"Die." In that moment, Chen Xiang saw the golden spear pierce through his chest, and the yellow clothed man was standing behind him, the divine spear piercing through his body.

The most frightening thing was that the moment it pierced his body, the long spear even used a violent burning power to burn through his limbs and bones. That kind of burning pain penetrated deep into his bones, causing him to uncontrollably roar out.

"God Murdering Sword Techniques." Chen Xiang roared in his heart. He had practiced the God Murdering Sword Techniques many times in the past few days, and now, he could finally use it.

The yellow robed man saw that he did not stab Chen Xiang to death with his spear and pulled Chen Xiang out. The moment he pulled it out, he felt a terrifying sword intent gushing out from Chen Xiang's body.

Towards this sword intent, the yellow robed man felt an indescribable fear, but after that, something related to this sword intent also surfaced in his mind, he immediately understood, this was the God Murdering Sword Techniques.

Ever since Chen Xiang had inexplicably unleashed the God Murdering Sword Techniques, it was difficult for him to use it again. In these past few days, he repeatedly practiced in his mind, at the same time, he was also pondering about the profoundness of this God Murdering Sword Techniques. Now that he was in a critical situation, he could only place all his hopes on this sword.

Just like last time, everything around him had become extremely, very slow. He could clearly see the terrified expression of the yellow robed man freeze on the ground as he slowly withdrew the spear in his hand. It seemed like he was about to stab again.

After using the God Murdering Sword Techniques, the time and space around Chen Xiang would undergo a great change.

Chen Xiang's own speed had changed normally, but the yellow-clothed man had become extremely slow. In such a comparison, he was already countless times faster than the yellow-clothed man.

The yellow clothed man seemed to be frozen in front of him, he angrily slashed out his sword, cutting off the yellow clothed man's arms, then his head, he used his Devouring magic kungfu to swallow his Divine Sense Sea.

"You ... You want to devour my Divine Sense Sea, ah ... " The moment the yellow clothed man died, divine soul cried out in fear.

Chen Xiang did not answer him. Even if she did, he would not be able to hear her because he was already completely dead.

After exterminating the yellow-clothed man, Chen Xiang sat on the scorching sand as he looked at the fist-sized hole in his chest. His heart still had lingering fear;

"The God Murdering Sword Techniques is as powerful as the legends say. Do you have the God Slaughtering Bloodline? That sword intent just now was very pure." Yue'er flew over, and a jade bottle was carved in her mouth.

Chen Xiang knew that the jade bottle was for him, so he reached out to take it off and opened the lid, only to find a blood red liquid inside.

"I don't have the God Slaughtering Bloodline, I'll tell you about this later." Chen Xiang raised the jade bottle in his hand and asked: "How do I use this thing?"

Yue Er said, "Drink it directly. This is the sap from a Superior Grade Tree God. It can allow the body of a Supreme god bone to quickly grow muscles and bones. One drop is enough, so drinking a lot will be of no use."

Chen Xiang dripped a drop on his tongue, and very quickly, he felt his heavily injured body quickly recovering.

"Give it back to me. This is an extremely precious item." Yue'er called out softly. It was obvious that she took this bottle very seriously.

It was not easy for Chen Xiang to use his sword just now either, now that he was sitting on the ground, he could not even stand up, and his divine power was almost depleted.

Fortunately, he had the Supreme god bone. Adding on the things that Yue Er had just given him, his recovery was extremely quick. He was able to stand up in a short moment, but he was still swaying.

"You have to keep walking. If you don't move, you're going to fall back. Maybe you'll encounter someone as powerful as that guy."

Hearing Yue'er's words, Chen Xiang could only continue walking forward.

Yue'er replied, "Tell me about the God Murdering Sword Techniques. You don't possess the bloodline of a god slayer, but that God-killing sword just now was so orthodox. This is abnormal."

Chen Xiang sighed, he had never understood why this was happening. Now that Yue Er had discovered that he had the secrets of the God Murdering Sword Techniques, he decided to take this opportunity to ask her, because Yue'er knew a lot of things that were trustworthy.

Chen Xiang told Yue'er about the first Divine Deity he had fused with, because he suspected that his possession of the God-killing sword was related to that Divine Deity.

Yue'er, who was originally flying in the air, stopped on top of Chen Xiang's head and fell into deep thought upon hearing this.

Yue'er had known that Chen Xiang possessed the Heavenly Alchemy before, and now that she also had the God Murdering Sword Techniques, when she found out about the matter of the Divine Deity, many things surged in her mind.

"Your Heavenly Alchemy was obtained from that Divine Deity, and now, you're even connected to it." Yue'er muttered softly, "And this guy is already dead. Many years ago, there were a few who learned these two Taboo magic s at the same time, but with the Heaven Earth Killing Method, there's only one left."

Yue'er really knew who the owner of the Divine Deity was. The white tiger had refined the Divine Deity into a Killing-god heart, but it had harmed him, and even Qi Shi had been implicated, making it much better for him. Furthermore, it had brought him great benefits.

"Who does it belong to? Even though I have completely refined this Divine Deity, to be able to let me possess the God-killing sword makes me feel very uneasy." Chen Xiang said.

Yue'er replied, "This guy doesn't belong to Supreme Divine Palace, but the Deities Templar that he resides in is as powerful as Supreme Divine Palace."

Chen Xiang was shocked once again. Other than the Supreme Divine Palace s, there were actually other powerful divine halls.

Yue'er saw Chen Xiang's surprise and explained: "You might not know, but the few shrines that are tied to the Supreme Divine Palace are known as the Three Great Temples. The owners of that Divine Deity should be from inside the Six Realms Divine Palace."

This immediately made Chen Xiang and the Six Realms mirrors associated with each other.

There are a few things that the Supreme Divine Palace will help you with. The master of your Divine Deity, even though he was from the Six Realms Divine Palace, was considered a top-notch Supreme God in the Six Realms Divine Palace. However, I don't know why he fell in the end, nor do I know where the Six Realms Divine Palace and the Supreme Divine Palace died.

"I never thought that he would actually die in Nine Divine Kings's territory. How did he die, this guy shouldn't have died."

Hearing Yue'er's words, Chen Xiang immediately thought of the God Battle inside the profound Cold Ancient Realm. There were many strange things that had happened there, and it was still a mystery up till now.

"If the Nine Heaven World that Nine Divine Kings created was able to kill the Six-Daos Divine Monarch, then only that Nine Heaven Devil Palace should be able to do it. It was the Nine Divine Kings who ran out of the Nine Heaven Devil Palace to kill him." Yue Er muttered to herself.

Chen Xiang asked: "Yue'er, what exactly is the background of Nine Divine Kings? They are so powerful, and they actually have the power to deal with them.

Yue'er shook her head and replied, "Highest Devil God is just a little god of the demonic way, responsible for sending the message from the Six Paths Demon Palace. He doesn't have that kind of power at all, and being called the God King is extremely powerful.

It was clear that Yue'er wasn't too clear about how the Nine Divine Kings got trapped inside the Nine Heaven Devil Palace either.

"But don't worry, your Divine Deity shouldn't have any adverse effects on you, otherwise it would have already begun. It's just that there are some things that you cannot completely refine, such as the God-killing sword. This is a good thing for you." Yue Er said.
