

Dan God 1891

[Chapter 1891](#)

profoundwu clothing s were Divine Armors for protection. Originally, Chen Xiang needed it very much, but now that he had cultivated the Heavenly spirit kunfu, the defensive power of his body had become very strong. He did not need the profoundwu clothing s, and while training in the Heavenly spirit kunfu, his body would often need stimulation to achieve the best result in cultivation.

"If you find the profoundwu clothing, I suggest that you not use it on yourself. Now that the Gods Realm is hiding a dragon and the experts are as numerous as the clouds, if it breaks, then you will not be able to understand the secret behind the Four Symbols Divine Weapons that Divine Lord's old man." Long Xueyi was a little worried that Chen Xiang would provoke an even more powerful enemy in the future and cripple the profoundwu clothing that he couldn't replicate. At that time, he wouldn't be able to solve the secret of the Four Symbols Divine Weapons.

When Chen Xiang was in the trial grounds, his profoundwu diamond armour was destroyed with a single strike. If he found the profoundwu clothing, and was unable to help the profoundwu clothing cultivate her divine soul and Divine Deity, then the profoundwu clothing's might would be unable to be unleashed.

At the very least, the profound God would not have to worry about death due to the cold. However, there were still dangers in this place, and after so many years, Super God Restricted Area had developed many strong Special god beast s. Now that there was no snow and ice here, these Special god beast were unable to continue absorbing icy cold power to cultivate, and became unusually manic.

Special god beast s that needed to ingest a large amount of icy cold power s to maintain their bodies were currently like lost food, so they were hunting everywhere. If the ones who entered the Super God Restricted Area were no match for them, they would only become food.

"We have to take advantage of this time to get more beast meat, and stock it up. In the future, when the fellows from Divine Prison come out, they will first come here to find this food, and at that time, the Special god beast will become very popular." Long Xueyi saw a giant alligator that was as big as a mountain charge towards her from afar. She licked her tongue and thought to herself that the giant alligator that was crawling on the ground was just like a delicacy.

The crocodile looked cumbersome, but when it started running, it wasn't slow. Its pitch-black body covered in armor was like a black shadow, scurrying towards the crocodile from the distance. On the back of the giant crocodile were tens of sword thorns, flashing with cold light and filled with blood.

"Do you want me to come or not?" Long Xueyi said.

"Allow me." Chen Xiang had already leaped forward, to meet the wild back spikes Giant Alligator head on. This Giant Alligator was a Special god beast, its Super profound God's strength, and the tens of sword spikes on its back were his weapons.

When the Giant Alligator saw Chen Xiang's attack coming towards it, it roared, and the tens of sharp thorns on its back that seemed like swords suddenly glowed with a bloody light, and the sword thorns shot out like dozens of red lights, straight towards Chen Xiang.

Chen Xiang was now a god and there was no pressure in dealing with this kind of Special god beast. He only flew over to attract the Giant Alligator's attack, but he did not attack nor defend.

"To deal with this kind of attack, I should use the Ice and Snow Constellation." Chen Xiang suddenly felt a slight chill on his body, and a layer of frost formed on the surface of his body, causing his muscles to become even more rigid.

After Long Xueyi saw him, he frowned: "This guy is using the Icy cold power to freeze himself, strengthening his body, this is the same as my profounding protection."

Chen Xiang's face looked extremely pale, as if he was about to die from the cold. However, he himself knew that although he looked to be frozen, his movements were extremely nimble.

The Giant Alligator's sharp thorns were already fiercely piercing over, and those dozens of back thorns that were flickering with red light cut through the air, emitting "whoosh whoosh" sounds. They pierced into Chen Xiang's body from the front, back, and even at the places where they pierced into his vitals, one could tell that this Giant Alligator had a lot of experience with this move.

However, when these sharp thorns made contact with the layer of frost outside of Chen Xiang's body, they were unable to advance even a single inch. Furthermore, these sharp thorns were instantly frozen and merged together with Chen Xiang's body, causing Chen Xiang to look like a hedgehog.

"Scorching Sun Heavenly Elephant." Chen Xiang's body instantly went from cold to scorching hot, the sharp thorns that had just been frozen, met with hot again instantly and burned.

Chen Xiang was quite satisfied with the abilities of his Heavenly Physique, and he still had many Heavenly Elephants that he had not used yet. At his current stage, he could only use these Heavenly Elephants for defense.

He took out the God Slaughtering Sword and teleported to the top of the Giant Alligator. With a few swishes, he sliced the Giant Alligator into pieces, leaving the rest for Long Xueyi to handle.

"There are still a lot on the road, it's better to finish it quickly." This kind of cold Qi was very special. Just like how she used to envelop the Super God Restricted Area with the Icy cold power, Chen Xiang understood her intention, which was to attract a large number of Special god beast.

In half a day's time, they had hunted several tens of Special god beast. Now that they had arrived in front of a small mountain, Chen Xiang could clearly feel that the profoundwu clothing was inside.

Other than him, he had no idea that there was a divine tool refined by the Divine Lord in the middle of a small mountain. Although it was a divine tool without Divine Deity, it wasn't something that the ordinary high-grade divine tools could compare to.

I haven't even sensed it, and the inside of this mountain hasn't been infiltrated by the Icy cold power either. " Long Xueyi said.

Although the profoundwu diamond armour on Chen Xiang's body was destroyed, he had already merged with it before. There was still the special power of the profoundwu diamond armour in his body, so he could still sense it.

He walked in front of the mountain and gently touched the mountain wall. He could actually penetrate it with his hand. There was actually a mysterious restriction on the mountain wall.

Seeing that Chen Xiang's arm could enter the stone wall, Long Xueyi also walked over and reached for it, but she could only feel the cold stone wall and it seemed that only Chen Xiang could enter.

"I'll wait for you here, hurry up and come out." Long Xueyi said.

Chen Xiang immediately passed through the cliff and entered inside, he saw the profoundwu clothing.

Previously, when Chen Xiang had gathered the Four Symbols Divine Weapons, he had seen the appearance of a profoundwu clothing. It was dressed in dark red clothes with some black inscriptions, and it was worn by a fake body.

Chen Xiang walked over, and with just a light touch, the profoundwu clothing turned into a ray of light and drilled into his body, then appeared on his body. Right now, he had no choice but to wear it even if he did not want to, he did not expect the profoundwu clothing was the same as the profoundwu diamond armour, and it actually recognized him as its master.

"It's best if we put them in. If those old Empyrean Gods recognize them, it'll be quite troublesome." With a thought from Chen Xiang, the profoundwu clothing entered his body like the profoundwu diamond armour.

Chen Xiang walked out, and when he arrived outside, he saw that Long Xueyi was surrounded by a few big sized men.

Chen Xiang heaved a sigh of relief when he saw that these men were all Super profound God s. These men were all wearing the same type of armor and had all revealed their sharp and powerful Divine Blades. From their attire, one could tell that they came from the War God Shrine.

It was not strange that the War God of the War God Shrine would find this place after Chen Xiang killed Young Master Yuan of the War God Shrine.

[Chapter 1892](#)

Seeing Chen Xiang coming out, Long Xueyi smiled and said to the few big sized men: "Didn't you guys just say that you were looking for Chen Xiang? He is here right now."

Because the snowstorm had disappeared, these few burly men were able to enter deeper into the cave. They saw the traces of Special god beast being hunted and that was why they followed them here.

Chen Xiang smiled and asked: "Why have you come all the way here to find me?"

The Young Master Yuan whom Chen Xiang killed before was Super profound God, although he was usually a little arrogant, but his strength was genuine, and was even killed by Chen Xiang with a few moves.

These big sized men knew that Chen Xiang was terrifying, but Han Deyuan had told them that he had heavily injured his divine soul, and it would take at least a few decades for him to recover. Even if he did recover, they would still have to rest for a few decades before being able to recover, which was why they dared to come looking for Chen Xiang.

But now that they saw how energetic Chen Xiang was and how he wasn't afraid of them at all, their hearts immediately sunk, because Chen Xiang didn't look like his divine soul had been heavily injured at all.

"You killed the young master of our War God Shrine. We're here to capture you." A big sized man mustered his courage and shouted at Chen Xiang.

Chen Xiang laughed: That's right, that trash called Young Master Yuan was indeed killed by me, do you know why I wanted to kill him?

Because Young Master Yuan saw a female dragon, he wanted to take her as his mount. However, this dragon was the one that led Chen Xiang to his death, so killed Young Master Yuan with one slash.

Young Master Yuan was asking for death, for he had his own father, the Pill God. He wanted to do whatever he wanted, and wanted to take away Chen Xiang's most beloved White Dragon.

Only then did these men realize that this beautiful woman in white was the White Dragon that Young Master Yuan wanted to take away from them.

Long Xueyi laughed: "Last time, Young Master Yuan only got killed by Chen Xiang because he caught me. This time, it's because you guys want to catch Chen Xiang, so it's my turn to take action."

The strength of the white dragon beside Chen Xiang had not attracted any attention. It was also because it was not very powerful, otherwise Chen Xiang would not have been injured at that time. However, the few big men of the War God Shrine suddenly felt that this white dragon was much more terrifying than Chen Xiang.

Seeing Chen Xiang and's smiling faces, a few Super profound God s' hearts suddenly trembled, because the way they looked at them was as if they were looking at an ant.

"Kill!" A bold man suddenly shouted, because he noticed that their spirit power was much weaker than usual. He waved the gold blade in his hand, and slashed towards Long Xueyi's slender jade neck.

The few big sized men also attacked at the same time, and all of them were actually attacking Long Xueyi, because they felt that Long Xueyi was a huge threat and that his divine soul was severely injured. As long as they killed him, they could grab Chen Xiang alive and return to receive their rewards.

Chen Xiang knew that Long Xueyi could handle it, so he did not make a move, with his hands behind his back, he smiled at the few big sized men.

The blade edge stopped an inch away from Long Xueyi's slender neck. On the other hand, half of Long Xueyi's body was already covered in a layer of ice.

The few big men who had just attacked suddenly felt their bodies becoming stiff, and then they could no longer move, the cold energy that Long Xueyi released was extremely similar to the Icy cold power which had just disappeared, and it was even more terrifying than the Icy cold power of Super God Restricted Area.

"Hmph." Long Xueyi snorted coldly, the cold Qi made Chen Xiang feel as if it was penetrating his bones, and the few burly men also ended their lives in that instant.

Long Xueyi did not even move, he only released the extremely strong icy cold power and froze these Upper Heavenly God to death.

"Hurry and take out their Divine Deity. If you're a bit slower, their Divine Deity would have been completely frozen." Long Xueyi turned her head to look at Chen Xiang and smiled daintily, the frost on her body instantly disappearing as well.

Chen Xiang took out their Divine Deity and quickly refined a few cores of the profound God.

"The power of your second life ability is to release this kind of terrifying power of the cold profound ice." Chen Xiang said. Just now, when he took out the Divine Deity, he could feel that terrifying icy cold power from inside it.

Long Xueyi nodded: "That's right, my ability to eat and sleep is the foundation. As long as I have the ability to eat and sleep, I can cultivate Divine Deity more easily."

Chen Xiang looked at the body that had been frozen into an ice cube, shook his head and sighed: "Your attack was a little too heavy. I had originally wanted to look at their memories, but who would have known that even their divine soul had been frozen."

Long Xueyi stuck out his tongue: "The next time we meet, I'll leave it to you."

Chen Xiang and Long Xueyi did not know that the Super God Restricted Area was gathering more and more powerful warriors, because the snow and ice suddenly disappeared and the treasures that dropped during the great war between the gods would also suddenly appear.

The most dangerous place in the Super God Restricted Area, the snow and ice, had already disappeared, and more people rushed in. Previously, only those with profound God's strength could enter, but now, True God Stage cultivators dared to follow these old fellows in to broaden their horizons.

Chen Xiang took out the jade tiger the Devil-killing Heavenly God had given him and prepared to search for his friend.

"In this direction." Chen Xiang looked ahead.

Long Xueyi was extremely familiar with the Super God Restricted Area, so when he saw the direction, he frowned: "That direction is where we are heading towards, could it be that he has already left the Super God Restricted Area?"

The Devil-killing Heavenly God had a few friends, and the one that Yu Hu was guiding was also the closest.

"Whatever, let's go take a look first." Chen Xiang kept his Jade Tiger and held Long Xueyi's hand. Just as he was about to teleport away, he suddenly saw an array pattern appearing in the sky.

When Chen Xiang saw these runes, he felt that they were a little familiar. He whispered, "Let me think, I seem to have seen them somewhere before."

Long Xueyi was already on guard, if these array patterns suddenly appeared, something would definitely happen.

"It's Master." Chen Xiang said: "When Master uses the Heaven extended method, he will create this kind of Spirit grain, this is the Sky Spill Spirit grain."

Long Xueyi frowned: "That old lunatic is extremely mysterious. Although I have recovered my memories, I do not know anything about his race, the Heaven extended method that he used, as well as the ancient books that recorded a large amount of ancient history, these are all things."

Suddenly, the number of array patterns scattered in the air increased, and Chen Xiang and Long Xueyi patiently waited for them. They could tell that these array patterns needed to be combined, and would eventually form a Transmission array.

Huang Jintian's Heaven extended method was very powerful, and was able to calculate many things. Maybe Huang Jintian came looking for him because he had something urgent, which was why he was making the calculations.

"This old lunatic's Heaven extended method is getting stronger and stronger. Not only is it able to find me, it is also able to get these runes over here. It has a certain level of spatial laws." Chen Xiang said.

Long Xueyi nodded his head, "The Heaven extended method is extremely mysterious. I have only occasionally heard the six Divine Kings say that the Heaven extended method is something even scarier than the Four Great Taboo magic.

[Chapter 1893](#)

After the formation patterns were formed, the array suddenly disappeared in a flash, and an old man in grey robes climbed onto the ground. He was Huang Jintian.

Huang Jintian crawled on the ground and shouted, "Brat, why don't you come over and help me?"

Chen Xiang curled his lips: "Child, stop messing around, get up yourself."

Huang Jintian brushed off the dust on his body and stood up. He looked at Long Xueyi and smiled: It seems that she has awakened.

Long Xueyi smiled tenderly: "Grandfather, you know about my matters."

Huang Jintian walked over, took out the ancient book that only he himself could see, and began to record while saying: "I just found out too, my memories are connected to this book, as long as I can flip the pages at the back, my memories will appear."

Chen Xiang looked at the transparent book on each page and patted Huang Jintian's shoulder. "Master, you're so strong now.

Huang Jintian recorded everything very quickly, and then used that book to knock Chen Xiang's head. He laughed complacently: "No matter what, I'm your master, I'm definitely stronger than you."

"Grandfather, why are you looking for him as well?" Long Xueyi asked sweetly. She had a good impression of Huang Jintian, and she also wanted to know some of his secrets.

"Something big. Seeing that the two of you are still so leisurely here, you must not know what is happening here." Huang Jintian looked around and said, "This place was originally a land of ice and

"Chen Xiang, I've finally found you. Following this old fellow is indeed enough to find you." The voice was divine.

A handsome middle-aged man floated in the air and suddenly fell down. The pressure he emitted made the ground sink a few meters. A huge round hole appeared in the ground and Feng Shen held his long sword as he floated above the hole.

"Haha ..." That old scoundrel, the Devil Slayer, has already been restrained by the Hell Devil Emperor, so today, you will definitely die. " Feng Shen laughed maniacally.

Huang Jintian looked at Chen Xiang with an embarrassed expression: "Brat, I'm sorry, I didn't hide properly, how about this, this little dragon and I will go to Bai Ziqian's side first, after you finish off this bastard, I'll come."

Huang Jintian spoke so lightly, as if Chen Xiang could kill Feng Shen anytime, Chen Xiang secretly despised him, because Huang Jintian's strength was not weak either, and he was also strong, so when the three of them teamed up, the odds of victory was much higher.

After all, this Feng Shen was a Upper Heavenly God, and Chen Xiang was just a lower god.

You can't save her. Right now, there are more people who want to kill her than there are people who want to kill you. After I finish you off, I'll go back and join the other Empyrean Gods in killing her.

Feng Shen's sword shook and flames roared out. The huge pit below him was instantly covered in flames. A wave of violent qi surged out from behind him and rushed into the sky, releasing waves of violent roars.

Feng Shen was an expert in forging divine money, which was why his flames were so powerful. He was a powerful Empyrean God who used flames.

"Grandfather, go over to Bai Ziqian first and tell us his location. Leave this place to us." Long Xueyi smiled blandly, turned into a ray of white light and entered Chen Xiang's Serene Jade Ring.

Long Xueyi could merge with Chen Xiang, and they had already cultivated together, so their fusion would become even more harmonious.

Huang Jintian wasn't worried at all for Chen Xiang, because he already knew that Chen Xiang had gone through the Sovereign Trial and he was in the Heavenly God Realm. This Feng Shen had only just entered the Upper Heavenly God's realm and the last time he was pinched by the Devil-killing Heavenly God, he didn't even dare to say a word.

"Mm, you guys hurry over." Huang Jintian disappeared in a flash.

Chen Xiang secretly cursed in his heart, took out the God Slaughtering Sword, and said to Feng Shen with a cold smile: "Let's forget about the old debts and debts."

Feng Shen killed Dan Emperor, which was something Chen Xiang and Long Xueyi were extremely furious about. Hence, today, they had to kill Feng Shen to get revenge.

Feng Shen's son Li Zhonghan was crippled by Chen Xiang, and he was extremely angry in his heart. In his eyes, only his son could kill others, but others could never touch his son, no matter how wrong their son was.

"I should be the one who said that." Feng Shen was worried that Chen Xiang would run away so he released a fire domain that sealed the space.

[Chapter 1894](#)

Chen Xiang was also a fire expert, but he was currently wrapped up by the fire domain, which made it hard for him to breathe. Although this Feng Shen couldn't beat Devil-killing Heavenly God in terms of strength, it was difficult for Chen Xiang to defeat him.

You and I will definitely be able to get rid of this guy. We will definitely take revenge on Dan Emperor. said as he gnashed his teeth. She began to fuse with Chen Xiang's Divine Sense Sea, allowing him to feel her dual divine soul.

Before, when he found out that Chen Xiang was here, he rushed over and asked around. Chen Xiang was merely around the Super profound God, but now, he was at the Heavenly God Realm.

Chen Xiang quietly waited for Feng Shen to make his move, because he didn't know anything about Feng Shen and this place was covered by Feng Shen's domain. If he made his move first, after Feng Shen, who was much stronger than him, he would launch his unexpected counterattack.

Feng Shen had also experienced hundreds of battles and could tell that Chen Xiang was thinking about something. He was much stronger than Chen Xiang, so he didn't need to worry about anything when fighting. He took a deep breath, and the flames on his body violently spewed out.

Just as he was about to attack, the power of space surged out from outside. This spatial ripple was extremely powerful. As it surged forward, it dispersed Feng Shen's flame domain.

Chen Xiang was also shocked. If he did not rely on an array formation to use such a terrifying spatial energy, then he would definitely need the strength of the Supreme God.

On top of the platform was a purple-clothed female sitting in a meditative pose. She looked extremely weak, but her arrogance did not weaken at all. She immediately saw Chen Xiang, and her purple eyes flashed with a strange light.

These Empyrean Gods had actually joined forces to use powerful formation discs to flee to this place.

The War God Shrine was paying close attention to the movements of the grass in the area. When Feng Shen released his Flame Domain, it created quite a big commotion and was discovered in an instant.

The group of god were also capable, and quickly confirmed that Feng Shen had discovered Chen Xiang, so they hurried over to see if they could catch Chen Xiang alive, and throw him onto the stage.

Feng Shen said coldly, "This is my fight. Whoever interferes will be my enemy."

Bai Zhan's son, Young Master Yuan, was actually killed by him. He also wanted to help Chen Xiang now, but he was a pill god with status after all, so he knew that there was no reason for Feng Shen to interfere since he was the first one to notice it.

Even if he were to defeat Feng Shen now, it would be difficult for him to escape. The Pill Gods who were initially looking for the Nine Oddities Divine Fruit are all here, not to mention the Battle God Hall, the Fire Divine Palace and the Wealth Divine Palace s. These Main Heavenly God s were all of the same strength as the Devil-killing Heavenly God.

Other than that, there were also the few divine gods sent by the Hell Devil Emperor, staring at the scene like tigers stalking their prey.

Today, it was impossible for Chen Xiang to escape even if he had wings, so all the gods present were secretly rejoicing in their hearts. He wanted to catch hold of the successor of the Ancient Poison, Bai Ziqian, and even encountered Chen Xiang, the little kid who had mastered many Taboo magic s.

Chen Xiang looked at the Dan God Ye and Ye Qin in the distance and asked, "Were you surrounding and annihilating me as well?"

Dan God Ye shook his head: "I won't attack."

The other Pill Gods, including the Dan God in Blue Costume, also expressed their opinions. They were just here to watch a show, although Chen Xiang looked to be in a difficult situation to escape from, they had already decided not to pursue this matter with Chen Xiang.

Chen Xiang looked around, but did not see Huang Jintian. His heart immediately calmed down a lot, because Huang Jintian did not follow him, but instead went to look for reinforcements. It was very possible that he went to the Devil-killing Divine Palace to look for the Devil-killing Heavenly God, and was the only expert who could help him out of his predicament.

"Feng Shen, he just crippled your son, so you cripple him and hand him to me." Unwearying Fighting Dan God shouted from afar, his voice carried anger. When he looked at Chen Xiang, his wolf-like eyes were flickering with killing intent, adding to the pressure Chen Xiang felt in his heart.

"I'll try my best." On the other hand, Unwearying Fighting Dan God was an important elder of the War God Shrine. He was an expert of the same generation as the God of Fortune, and a Pill God at that. If not for the God of Fortune being present, he probably wouldn't have had the chance to fight Chen Xiang today.

Chen Xiang looked at the God of Fortune in the distance. Behind the God of Fortune, there stood a man with wooden expression and empty eyes, he was precisely the ice dragon who had been taken in as a mount. Now that he had tormented them to such an extent, Chen Xiang and Long Xueyi became even more furious, and what made him vent his anger was to kill the Feng Shen.

Chen Xiang lowered his head to look at the God Slaughtering Sword in his hand, and actually started to tremble. He didn't know if he was afraid or excited, but he gently caressed the sword's body, feeling the protruding rust on the sword, in order to soothe the God Slaughtering Sword.

Suddenly, not far away from the barrier, a spatial ripple appeared and another large group of people teleported over. Chen Xiang turned to look, only to see a group of beautiful women dressed in white, the leading one was dressed in a white robe, the woman was wearing a white robe, her eyes flashed with a cold light as she stared at Chen Xiang.

This was actually the Divine Female Palace's, and the leading lady was the Divine Female Palace's Palace Mistress.

A few of the Great Temples' disciples had all come, whether it was the Main Heavenly God or their disciples. Now, only the Devil-killing Divine Palace hadn't come.

"Are you here to help him or to watch a show?" Unwearying Fighting Dan God immediately asked with a harsh tone. If it was to help Chen Xiang, even if it was his own Divine Female Palace, he would definitely not let him off.

Goddess Palace Leader looked at Chen Xiang, then looked at Bai Ziqian, and said with a clear and cold voice: "Our Divine Female Palace is a member of the all divine palaces, I am only fulfilling my promise back then. When necessary, I will work with everyone to eliminate the villains on the platform."

"Alright, if we push Chen Xiang onto the killing platform, will you help too?" The Unwearying Fighting Dan God asked again.

"Yes." Goddess Palace Leader's attitude was so firm that Chen Xiang couldn't help but frown. He remembered that he didn't have any grudges with Divine Female Palace.

Even the Dan God Ye did not understand why the Goddess Palace Leader, who had always been indifferent to worldly affairs, would now become like this.

Dan God Ye sighed and said to Goddess Palace Leader, "From today onwards, Qin'er will no longer be a disciple of Divine Female Palace. The grudge between your Divine Female Palace and Chen Xiang has nothing to do with Qin'er.

"Up to you." Goddess Palace Leader coldly replied.

[Chapter 1895](#)

There was definitely something wrong with this Goddess Palace Leader. Everyone present could see that, and even the group of disciples and elders who came with her slightly frowned. They all suddenly felt that they did not recognize their Hall Master.

Chen Xiang's current pressure was not impossible, but he could only try his best to remain calm. The most important thing for him to do now was to defeat the Feng Shen before him, and even if he died, he would at least drag her down with him.

But he did not want to die, because if he died, he would not be able to save Bai Ziqian.

"You must die." Chen Xiang pointed his sword at Feng Shen, and said this word by word with confidence. The God Slaughtering Sword in his hand trembled slightly, and a terrifying God-killing sword roared out, transforming into a form of energy that danced around like a dragon.

This kind of terrifying God-killing sword made all the sword-wielding experts present inexplicably tremble. Many of the old gods here had come into contact with the sword god who was famous for his God Murdering Sword Techniques before; they were extremely familiar with this kind of God-killing sword.

However, the God-killing sword that Chen Xiang had released was actually even more terrifying than the Sword God's.

Chen Xiang found out from Yue'er that the Divine Deity he fused with came from a Ranker called the Six Daos Divine Monarch. These Six Daos Divine Monarchs were closely related to the Six Daos Divine Kings, and they were even too powerful a god.

"If he allowed him to become an Upper Heavenly God, I'm afraid he would be even more terrifying than the Sword God back then." Dan God Ye frowned: "I wonder if he will be able to escape this calamity today. If he could, then these great shrines would definitely not have a good day in the future."

Dan God in Blue Costume sighed: "Looks like we shouldn't rely on these great halls anymore, it's not good to fight and kill all day long, implicate us in it. If the devil slayer suddenly pops up, and thinks that we are too inferior, getting beaten up by him won't be good."

Amongst the Pill Gods, only the Unwearying Fighting Dan God was the most warlike, the other Pill Gods spent most of their time cultivating and refining pills. Because they could refine Divine Pills, they had a high chance of becoming Supreme Gods, so they rarely participated in this kind of battle.

When the Feng God saw Chen Xiang becoming serious and releasing this God-killing sword that he was extremely familiar with, he could not help but feel fear in his heart. Back then, when the Sword God was proud of the God Realm, he was only a little god.

"The one who died was you." Feng Shen gave a stern shout, his eyes burning. The flames on the sword in his hand roared out like dragons.

Feng Shen's figure flashed and appeared right above Chen Xiang. The flaming sword in his hand transformed into an angry dragon that charged down like lightning, releasing a thunderous roar that resonated throughout the sky, and lingered for a long time.

When the Fire Dragon Lightning appeared, everyone did so, especially Fire Divine Palace who was extremely familiar with flames. He was dumbstruck because this was the "Divine Flame Heavenly Dragon Flash" that they were very familiar with.

"This can only be performed with four Divine Deity. Didn't Feng Shen only have three Divine Deity? Even if it was the body of the Upper Heavenly God, it would still break after being hit." An old man from the Fire Divine Palace said anxiously.

When the Fire Dragon Lightning descended, Chen Xiang actually dodged it. However, Feng Shen didn't just send one, he also continuously waved his sword, causing the Fire Dragon Lightning to rain down in a concentrated rain.

The continuous sounds shook the air, causing the crowd to hear the sound of jars ringing unceasingly. Huge pits of fire were formed on the ground as well, and the intense heat was spread all over the place. The Fire Dragon Shrine penetrated deep into the ground, causing lava to spurt out.

Chen Xiang was only able to dodge one attack, and was then struck continuously, and the resistance of his body, made all the Rankers present embarrassed. Upper Heavenly God was extremely afraid of the Divine Flame Celestial Dragon Flash, but when it landed on Chen Xiang's body, it seemed to only cause him to clench his teeth, and that was all.

On a closer look, every time the fire dragon lightning descended, a layer of red would quickly surface on Chen Xiang's body, because it was also the fire dragon lightning that had struck him down at that time, so it was very hard to see clearly, but it was exactly because of this layer that he was able to use his flesh to withstand this terrifying Divine Flame Heavenly Dragon Flash.

"What's that?" Everyone had their own questions, so Chen Xiang deliberately let out his strange flame light to complement with the Divine Flame Heavenly Dragon Flash. However, most of the people present were gods, so they could be seen with a single glance.

Chen Xiang was using the Heavenly spirit kunfu, and he was currently using the Scorching Sun Celestial Phenomenon within the Celestial Phenomenon Art. The Heavenly spirit kunfu could make his body instantly become like a scorching sun, so no matter how hot the flames were, they would not be able to harm him.

Chen Xiang was initially worried about Feng Shen's crazy and fierce attacks, but now he realized that the Heavenly spirit kunfu was much more powerful than he had imagined. It could actually withstand an attack of this level with ease.

"Use the Six Realms' Power in coordination with my ice laws. Prepare to counterattack." Long Xueyi sent a sound transmission to Chen Xiang, "I have the laws of ice, so I can use a very strong power of ice.

Chen Xiang immediately felt the profound meaning of the ice laws. This was all because he and Long Xueyi had been fusing for many years and cultivated divine soul together, allowing him to have such a perfect fusion right now, allowing him to sense the profound meaning of the other party's laws.

Chen Xiang was currently unable to use the spatial laws, because there were many strong Emphyrean Gods working together to set up a barrier as well as a few large formation plates surrounding him, causing his power to be greatly weakened. If he was able to use the spatial laws at will, he would basically be invincible.

Chen Xiang's arm suddenly emitted cold air, as he punched towards the attacking Divine Flame Celestial Dragon. Everyone was confused, because Chen Xiang's body could completely defend against this kind of attack, there was no need to block it.

But in the next instant, they immediately understood, but then immediately found it hard to understand.

Because the moment Chen Xiang's cold fist struck towards the Divine Flame Celestial Dragon's light, the entire lightning fire dragon that was hacking down was actually frozen solid.

The strong cold power was actually able to freeze a useless object like the Fire Dragon Lightning, and it instantly spread to the body of Feng Shen. He was instantly covered by a thick layer of ice.

"God Murdering Sword Techniques, Profound Truths of Time." When Chen Xiang opened his eyes, his surroundings became extremely slow in his eyes. Only he could move at a normal time, and he even increased his speed, instantly flying to the front of the frozen Feng Shen.

The surging of the Six Realms' Power allowed his physical body to wield even more power, allowing the God Slaughtering Sword in his hands to release an even more terrifying sword intent.

He stabbed forward, penetrating the layer of ice and piercing towards the forehead of Feng Shen. Unexpectedly, a flash flashed between Feng Shen's eyebrows, and a burst of intense flames erupted, shattering the layer of ice that sealed him.

"This guy actually has a Soul Protecting Talisman!" Long Xueyi snorted: "I've missed a chance."

Chen Xiang's Profound Truths of Time had disappeared, and the surrounding area had recovered. Feng Shen had also distanced himself from Chen Xiang with his fastest speed, and it had been extremely dangerous just now.

[Chapter 1896](#)

The entire Ice Snow God Hall felt that the icy cold power that could directly freeze fire and lightning was extremely inconceivable. They immediately thought of the Ice Law, and only by grasping the mysteries of the Ice Law would they be able to do so.

"Continue. Although this fellow uses fire, my Ice Laws are able to restrain him now. He doesn't have the Fire Laws, so he can't do anything to my Ice Laws." Long Xueyi said: "Use a large area of the mysteries of ice."

That was in order to prevent something like that from happening. If not for this item, Chen Xiang might have already killed Feng Shen.

In the blink of an eye, Chen Xiang had changed the situation. The God of Fortune frowned, and suddenly became worried, Chen Xiang was already a God of Heaven, but he was still just a lower God. Because he was able to wield the God Murdering Sword Techniques, he was able to unleash that terrifying sword which almost killed the Feng God.

The ground was filled with craters filled with flowing lava. It should have been extremely hot, but at this moment, a chilly wind blew past. Everyone in the barrier felt a strange and strange cold sensation, it was emitted from Chen Xiang's body.

A burst of pale-white flames suddenly emerged from Chen Xiang's body, and a thin layer of frost also surfaced on the outside of his body.

This was the battlefield where Long Xueyi had fallen in the past, and now, Chen Xiang definitely could not let her fall once again. He actually had to carve a path out for himself no matter what, and bring Bai Ziqian along to leave this place alive.

The originally blue sky was suddenly covered by thick clouds and cold wind. Waves of cold air came from who knows where, and the ground was dyed white in an instant.

The Super God Restricted Area which had been melted by the snow seemed to return to its original state. This confused the experts.

Some of the older Empyrean Gods seemed to have noticed something. The young man's face suddenly changed as he cried out, "Not good!"

Just as the God of Fortune was about to rush out, a dragon's roar thundered in his ears. The originally dull ice dragon suddenly roared and turned into a huge white ice dragon. It continuously roared furiously as it floated in the air.

"Old Bing, this is your Supreme Dragon blood. Take it." Long Xueyi's voice reverberated between heaven and earth.

The ice dragon's Supreme Dragon blood had always been in Long Xueyi's hands. Back then, when it was taken away by a group of old dragons, it was difficult for the ice dragon to improve in the Gods Realm.

And just now, Chen Xiang had used a miraculous method to release the ice dragon's Supreme Dragon blood, because he knew that the ice dragon was a member of the Beast Divine Palace back then, and would definitely be like Long Xueyi, who was also a god.

When the ice dragon felt the Supreme Dragon blood, his sealed power disappeared. Because he was enslaved, in order to prevent himself from living in pain everyday, he chose to temporarily seal his own memories to make himself look as if he didn't have a soul.

And now, he had been awakened by the Supreme Dragon blood. At the same time that he undid the seal, he had also awakened the memories of the Supreme God's era.

As the Ice Dragons danced in the air, the cold energy that had formed between heaven and earth gradually disappeared, being completely absorbed by the ice dragons.

"Kill!" Chen Xiang and Long Xueyi agreed as they shouted softly. He did not need to worry about anyone stopping him now, as all of this was blocked by the ice dragon.

Although Feng Shen was shocked, he was not afraid. He immediately released a flame domain, but the moment this flame domain appeared, it was immediately sealed and shattered by the ice magic Chen Xiang had released.

"I am now a member of the Four divine soul." Chen Xiang sneered, and his body transformed into a gust of wind and snow, enveloping Feng Shen.

Feng Shen's body was once again frozen.

"Unwearying Fighting Dan God, quickly make your move." The God of Fortune looked at the incomparably furious ice dragon in the sky and charged forward. At this critical moment, his concern was actually not about the Divine Aura, but about catching the fleeing "mount" instead.

"Too late." After Chen Xiang had frozen the Feng God, the Profound Truths of Time immediately appeared. The God Slaughtering Sword was already right in front of the center of the Feng God's brows.

Chen Xiang currently did indeed have four extremely powerful divine soul, which was equivalent to four Divine Deity from a god, and was much stronger than the three Divine Deity Upper Heavenly God s.

Especially now, when he could perfectly fuse with Long Xueyi, and also use his own Six Realms' Power to complement Long Xueyi's ice laws, he was incomparably terrifying.

After using it for a while, Chen Xiang got used to Long Xueyi's power inside the Divine Sense Sea and became familiar with her two divine soul s.

Once the God Murdering Sword Techniques was unleashed, it was as if time had come to a standstill and only Chen Xiang was allowed to move.

If the God Slaughtering Sword could be channelled into the Six Realms' Power, then it would be even more terrifying, but it was enough to kill Feng Shen right now.

Chen Xiang's God Slaughtering Sword pierced through the center of the Phoenix God's brows. This time, it went extremely smoothly without any obstructions.

"Don't take his Divine Deity, kill him is more important, don't waste any time." Long Xueyi was worried that something might happen, and quickly warned Chen Xiang.

Chen Xiang understood what he meant as an endless stream of Six Realms' Power flowed out of the God Slaughtering Sword and poured into the divine Divine Sense Sea. Like a surging torrent, it brought along a burst of heaven refined energy, and fell onto the divine Divine Sense Sea like a blazing sun descending to the ground.

Boom.

Amongst the Divine Sense Sea of the Feng Shen Clan, the sea of divine power was attacked so fiercely and fearfully that even the three divine souls were unable to escape, as they were all enveloped by Chen Xiang's God-killing sword.

The Divine Sea power and the boundless divine power contained in the Divine Deity were ignited by Chen Xiang, causing a very intense explosion.

A layer of the heavenly body's ice and snow constellation instantly appeared around Chen Xiang's body, causing his body to become extremely stiff.

The God of Fortune who had just flown into the air was stunned as he saw the tragic explosion below and the disappearance of the life force of the Feng Shen.

Everyone present were stunned. Unwearying Fighting Dan God who was rushing over had no choice but to retreat in order to avoid the explosion.

Feng Shen was dead, and was killed by Chen Xiang, which was extremely shocking.

In the beginning, everyone believed that Chen Xiang would be crippled by Feng Shen, but now, he was the one who died. He died such a miserable death that even his divine soul had dissipated.

Right now, everyone was even more afraid of the God Murdering Sword Techniques, because Chen Xiang, a lowly god, had relied on this sword technique to kill past the two stages of apocalypse.

"Chen Xiang." Even though he knew that Feng Shen was at a disadvantage, he never thought that Feng Shen would be killed by Chen Xiang. The moment he arrived here, he was already very sure that Chen Xiang didn't have the chance to turn the situation around.

Chen Xiang had fused with Long Xueyi, obtaining a powerful strength after the ice dragon's awakening. This was something that no one present had expected.

The violent explosion actually shattered the barrier. Upper Heavenly God's body exploding was actually so terrifying, after all, those were four Divine Deities and a sea of divine power.

After the barrier shattered, Chen Xiang immediately flashed to the side of the stage and called upon the Six Realms' Power inside the Six Realms mirrors. He instantly extracted most of the Six Realms' Power on his body and used a spatial teleportation technique to force Bai Ziqian, who was sealed inside, out.

Bai Ziqian's entire body was filled with wounds, his entire body was filled with poison, and at the moment, he no longer had the strength to fight. Chen Xiang carried her in his embrace and said gently: "Relax, everything is alright."

[Chapter 1897](#)

Seeing Chen Xiang bringing Bai Ziqian out, all the Rankers were extremely shocked. Bai Ziqian had obtained the inheritance of the Ancient Poison God King, and he held a grudge against them. This meant that he had a much greater potential threat than Chen Xiang.

This time, other than the Pill God who did not attack Chen Xiang, the other gods and profound God all released a powerful force that entered into the formation plate and released a spatial seal that enveloped Chen Xiang.

Chen Xiang and Bai Ziqian could not leave.

"I want to stay with you, don't let me go alone." Bai Ziqian hugged Chen Xiang because she could already tell what kind of major decision Chen Xiang was about to make.

"You must leave, you must take revenge." Chen Xiang had already expected that this group of experts would immediately seal him, and the strength on his body was only enough to allow one person to walk far.

If two people were to enter, the distance would be very short. Even if the two of them were to leave together, they would very quickly be caught up, because Chen Xiang was going to exhaust all the Six Realms' Power in the Divine Sense Sea.

Earlier, when he removed Bai Ziqian from the seal above the stage, he had expended a lot of Six Realms' Power.

If there was only one person passing through the spatial passageway, it would be further away and Bai Ziqian would be safer.

"Let's go." When the Six Realms' Power in Chen Xiang's body surged, the Bai Ziqian in his arms was also sucked into the spatial passageway.

Bai Ziqian's purple eyes were teardrops, but they were also filled with incomparable hatred.

Her venomous voice echoed in the air, causing the elderly Empyrean Gods to tremble. This was the successor of the Ancient Poison God, yet he had actually escaped. If he were to become a Supreme God in the future, they would definitely die.

"You can kill Feng Shen, but you can't kill me." At this time, the Unwearying Fighting Dan God did not dare to attack alone. The hall master of the War God Shrine charged up with him, but they did not enter the barrier.

Because even going in and out of the barrier that sealed Chen Xiang was impossible. If he opened the barrier, Chen Xiang might be able to escape.

In the air, the God of Fortune and the ice dragon were engaged in a great battle. The ice dragon had yet to completely absorb the energy gained from the awakening, but it was still on par with the God of Fortune.

Chen Xiang sat on the ground. Both his and Long Xueyi's energy had been exhausted.

As long as Chen Xiang fused with seven Chaos Fire Tokens, he would be able to summon that terrifying Nine Heaven Devil Palace.

"It's the Chaos Fire Token! Run!" An old man from the Ice and Snow Palace screamed. His voice was filled with fear.

Chen Xiang did not start to fuse with the rest of the Chaos Fire Tokens. He was still safe now as the barrier that sealed him was very strong and it was impossible to attack him from the outside and he could not go out either.

If he wanted to prevent Chen Xiang from fusing with the Chaos Fire Tokens, he would have to open the barrier first. However, once the barrier was opened, Chen Xiang might just slip away again.

Some of the elderly gods present had long known that Chen Xiang possessed a Chaos Fire Token, but they had forgotten about it, because Chen Xiang rarely used it anyway.

Chen Xiang had always been curious about the legendary Nine Heaven Devil Palace. Even though he took out seven Chaos Fire Tokens and was about to fuse with the rest, he did not want to, as many seniors had repeatedly reminded him that without sufficient strength, he could not summon the Nine Heaven Devil Palace out.

Summoning the Nine Heaven Devil Palace out, as the summoner, he would definitely be sucked in.

The group of gods knew the Nine Heaven Devil Palace much better than Chen Xiang. Seeing the seven terrifying Chaos Fire Tokens, they scattered like a swarm of bees, and even the God of Fortune, who was fighting with the ice dragon in the air, had no choice but to stop and flee.

Chen Xiang, who was sitting on the platform let out a breath of relief. He put away the seven Chaos Fire Tokens and laid on his back, then said weakly: "That was close, I almost walked onto this path."

A white light fell from the sky as the ice dragon appeared on top of the platform. He had already broken free from the God of Fortune's clutches, and was now in a very spirited state. He looked young and handsome.

"I didn't expect so many things to happen." The ice dragon looked at the marks left after the fierce battle in its surroundings and sighed, then looked at Chen Xiang who was lying on the ground.

Chen Xiang had already used up a lot of energy, he never thought that the group of gods would actually be so afraid of the Nine Heaven Devil Palace. He had already prepared to die, who knew that the moment he took out the Chaos Fire Token, the gods would run faster than anyone else.

"Hurry up and bring me away, I'm worried that those guys will run back with their lives on the line." Chen Xiang said to the ice dragon, then told the ice dragon the location he wanted to teleport Bai Ziqian to.

The ice dragon brought Chen Xiang and quickly left. They were still in the Super God Restricted Area because Chen Xiang was still here searching for his friends.

Not long after Chen Xiang left, the group of divine gods returned as expected, adding another strong divine god like them, who was also Hell Devil Emperor.

The Hell Devil Emperor saw that the platform was empty, and snorted coldly: "You guys missed a chance to run, Chen Xiang has Chaos Fire Token and is unable to summon him out, because he doesn't have the Supreme god bone that Nine Divine Kings refined, and the only one that does have the Supreme god bone is Feng Yujie, but the Chaos Fire Token has most likely already been merged by Chen Xiang, so the Nine Heaven Devil Palace won't appear again."

"Who knows? If they knew, Chen Xiang would have died long ago. I never thought that he would mess with me." The God of Fortune was extremely furious, because Feng Shen, one of his four great disciples, had actually been killed by Chen Xiang.

Of course he would not be sad. He only felt that it was very embarrassing. The disciple that he painstakingly nurtured was actually so useless.

"Devil-killing Heavenly God will arrive shortly, so it would be best for us to find Chen Xiang before he arrives. He should still be here." The Hell Devil Emperor actually did not continue their fight, he had rushed over just in time to capture Chen Xiang.

"It was the ice dragon that took him away. We can feel its aura right now. Chase after it." The God of Fortune said as he looked in a direction.

The Fire God shook his head, "Don't go that way. Chen Xiang is very cunning, he wouldn't leave behind such an obvious aura."

The Hell Devil Emperor who had come into contact with Chen Xiang agreed quickly and nodded: "But we still have to go take a look. Let's split up and chase them from different directions; who will be in charge of this direction with the aura of the ice dragon."

When Hell Devil Emperor asked this question, it proved that he would not walk in this direction. He believed that Chen Xiang and the ice dragon had left these questions behind to confuse them.

"Allow me." Goddess Palace Leader walked out and said coldly.

Hell Devil Emperor nodded at her. From his eyes, she could tell that he knew this Goddess Palace Leader.

The path that Goddess Palace Leader had taken right now was the path that the ice dragon had taken with Chen Xiang. The ice dragon was indeed not cautious enough, and even the exhausted Chen Xiang did not notice.

[Chapter 1898](#)

The ice dragon's speed was extremely fast. It flew with Chen Xiang for more than an hour before it finally saw Bai Ziqian, lying on the ground. Her body was covered by a layer of purple mist, and through the hazy purple mist, one could see that she had opened her eyes.

"Don't come over yet." Bai Ziqian shouted anxiously when he saw Chen Xiang and the ice dragon walk over.

Chen Xiang was fine, but Bai Ziqian was a lot more at ease. After she was sent away by Chen Xiang, she had suppressed her anger to the point where she couldn't wait to kill the group of god.

Bai Ziqian let that layer of purple mist dissipate, then she stood up. Her complexion looked much better, she was using some strange poison to treat her injuries, that's why she made Chen Xiang and the others stay away from her.

"How are you now?" She had received many favours from Chen Xiang and Chen Xiang was already a very important person in her life.

"It's nothing. I just used up too much energy. I'll recover soon." Chen Xiang laughed: "What about you?"

"I'm much better." After Bai Ziqian finished speaking, he frowned: "Aren't you guys trying to hide the cold Qi? They got beaten up and ran away."

Hearing Bai Ziqian's words, the ice dragon finally realised with a guilty face.

"Don't say anymore, hurry up and leave." Bai Ziqian anxiously said.

The ice dragon nodded its head and took out a flying disc for Chen Xiang and Bai Ziqian to sit on. Then, it turned into a white light and flew towards the direction that Chen Xiang had pointed.

Chen Xiang held the beautifully carved Jade Tiger in his hand and frowned: "The direction is always changing, could it be that he is moving around everywhere?"

Even though the ice dragon had been sealed from before, he still had the memories and was very familiar with many things.

"How's it going at Devil-killing Divine Palace?" The ice dragon asked, "When you've recovered, let's go take a look."

Chen Xiang said: "Right now, I am going to look for my friends in Devil-killing Heavenly God. There are a few here, they should be very strong, as long as I can find them."

The ice dragon nodded. "Where's Xue Yi? How is she now?"

"She's sleeping. She's tired now."

They never thought that their powers would increase by so much. It was just that it would be difficult to deal with an old god like the God of Fortune.

Bai Ziqian kept a distance from Chen Xiang and the others because she was covered in poison. She was worried that Chen Xiang and the ice dragon would be poisoned.

"Sister Ziqian, how did you obtain the inheritance of the Ancient Poison God King?" Chen Xiang asked, "What about Sister You You and sister Meiyao?"

"They went to look for Qilian. When I was with them, I had already inherited the legacy of the Ancient Poison God King. The two of them found a dilapidated divine hall. Bai Ziqian said.

Chen Xiang was secretly delighted that they had such a fortuitous encounter. He said: "Ziqian, you should go find Qilian and the others. Be safe and accompany them."

Bai Ziqian shook his head: "I'm worried that my Ancient Poison will hurt them, and right now, my situation has already spread far and wide. At that time, even the Primordial Gods in the Supreme Divine Palace would have to take action, those Supreme Gods have their own ways of doing so, if they were to find me, I will implicate them."

Chen Xiang could understand Bai Ziqian's worry, and it was the same for him back then.

"You can't do it like this. How about you enter my Dark Jade Ring, Xue Yi is inside too." Chen Xiang said: "Right now, you are running all over the place, there will be a day when you will be caught."

Bai Ziqian thought for a moment and nodded in agreement. She had also entered the Serene Jade Ring before, the environment inside was also not bad. She had just received the inheritance of the Ancient Poison God King, she still needed time to familiarize herself with it.

Bai Ziqian had already entered the ring to recuperate, while Chen Xiang was cultivating her divine arts to recover her Six Realms' Power. The in the Six Realms mirrors had already been exhausted, and it would take another month for her to be reborn.

In a situation where he did not have any pellets, his recovery was extremely slow. Fortunately, he was not injured, so if his divine soul were to suffer any more damage, it would take even longer to recover.

"The green dragon is in Divine Prison. I wonder how he is doing." The ice dragon stood atop the Frisbee, staring at the blue sky in the distance, frowning.

It was because of him that the Azure Dragon had been locked in the Divine Prison.

"Dan Emperor is dead." Chen Xiang said.

The ice dragon already knew. Grief flashed across its eyes and it nodded. "You have already avenged him."

Chen Xiang said: "All of this was caused by the God of Fortune."

The ice dragon sighed, "He isn't the God of Fortune, the true God of Fortune is inside the Divine Prison, this is a fake."

Hearing this, Chen Xiang was immediately shocked, he had long known that the God of Fortune had a problem, it was just that he did not expect him to be a fake, and the true God of Fortune had been imprisoned in the Divine Prison, there must be a conspiracy behind it.

"What's going on?" Chen Xiang was very suspicious about this. After he thought about it, he suddenly thought about how Yang Yan had told him that the God of Illusion had already sent Yang Yan and his son to the Divine Prison because of his master's attitude towards the God of Wealth.

Shining God was the God of Fortune's disciple, but he wasn't like the God of Fortune, who even let Yang Yan and the others know that he disliked the God of Fortune.

It seemed like Divinity also knew about it.

"The true God of Fortune was imprisoned in the Divine Prison many years ago, and the current God of Fortune is just a replica. He is a powerful force who used extremely brilliant methods and copied down a God of Fortune from the beginning.

When the ice dragon said this, Chen Xiang thought of the nine Divine Nations that Long Xueyi had told him about.

The God of Fortune controlled the wealth of the Gods Realm. They controlled the God of Fortune, which was equivalent to controlling a large portion of the Gods Realm's power.

Chen Xiang thought about the hall master of the Divine Female Palace again and he realized that something was wrong. Chen Xiang felt that the Goddess Palace Leader should be a fake one as well, just like the replicator of the Younger Nine Girls back then.

"So Highest Old Devil is related to that power as well." Chen Xiang more or less understood that the control of the Younger Nine Girls was related to that power, and the disappearance of the Nine Divine Kings was also related to that.

The ice dragon said, "Xue Yi should have already told you this. Once their puppets lose their power in Gods Realm, they will attack. Of course, one Highest Devil God is enough to give us a headache."

Currently, Chen Xiang was sure that the Divine Nations's puppets had the God of Fortune, the Goddess Palace Leader, the Battle Shrine and the Fire Divine Palace. He had yet to confirm, but even if they weren't, they were still fellow evildoers.

"They've caught up. They actually dare to come back." The ice dragon shouted in shock. It looked behind it and saw a group of women riding flying discs. They were quickly chasing after them.

Chen Xiang also did not understand. Previously, he was scared to the point that he had to run, but now, he had caught up to the Nine Heaven Devil Palace.

"We have to get rid of them quickly. They should be chasing us separately. It would be bad if they inform the other shrines." Chen Xiang said.

[Chapter 1899](#)

The Ice Dragon increased the speed of the Frisbee, but the distance between them gradually decreased.

This Goddess Palace Leader was truly worthy of being the puppet placed inside the Gods Realm. He had been hiding his strength for many years, but now that it had erupted, it was actually this terrifying.

Chen Xiang said to the ice dragon: "Attack, freeze them. Don't worry about me, they can't do anything to me."

The ice dragon turned into a streak of white light and soared into the sky. It became a huge dragon, covered in ice.

The ice dragon hovered in the sky, roaring and spitting waves of ice at the group of Divine Female Palace women.

"This time, I want you to become my mount." Goddess Palace Leader shouted coldly. He soared into the sky and shot out rays of blue light from his slender sword towards the ice dragon.

Only the hall master could move. She was anxious to catch Chen Xiang, but it was impossible for her to get close to Chen Xiang without taking care of the ice dragon.

Chen Xiang took the chance and used the little bit of Six Realms' Power he had recovered to teleport to the side of the girls who were sealed in ice.

After the Goddess Palace Leader saw this, she suddenly started to worry, wanting to fly towards Chen Xiang's direction. However, the ice dragon would not let her succeed, she anxiously blocked it, and once again fiercely fought with her in the air.

Although the group of girls were frozen, they could still see the outside clearly from inside. When Chen Xiang got closer, they were extremely shocked, they understood Chen Xiang's methods very well.

"You all should be unhappy with your hall master as well. I'll tell you the truth, your hall master is a fake, and there's a chance that the real hall master no longer exists. There should be a few Empyrean Gods amongst you who are suspicious." Chen Xiang sent a sound transmission to them, these girls were only following orders.

They knew that there were a few elders who were suspicious at the time, but those elders were secretly expelled from the Divine Female Palace. In the end, quite a few of them went missing.

Through the layers of ice, Chen Xiang could see the expressions of the girls and confirmed his guess. He continued, "I won't hurt you, I will only temporarily imprison you, after a while I will release you guys, I believe you all don't like this kind of fight, and even more so don't wish to become the tool of a puppet."

The purpose of Divine Female Palace was to not participate in this dispute, but after cultivating in seclusion for so many years, he had become a different person.

Chen Xiang used the power within the Six Realms mirrors and temporarily sealed them within it. They were now like stones, and were easily brought inside.

Seeing the dozens of women who were frozen suddenly disappear, the fake hall master was furious, but he could do nothing about it because the ice dragon was also very strong. It could fight on par with the God of Fortune, so of course it was not easy to deal with.

Chen Xiang was still extremely weak at the moment. The number of Six Realms' Power in the Divine Sense Sea was pitifully small, and he did not have any recovery pills.

"That's the only way." Chen Xiang sat cross-legged on the ground and activated his Heavenly Alchemy, causing the surrounding land and mountains to quickly teleport over.

Right now, he no longer had any concerns, madly refining the mountains and rivers into pure energy for him to absorb, quickly recovering his Six Realms' Power.

In the past, many seniors had warned him that he could not use the Heavenly Alchemy in such a way, and that it would incur the wrath of the heavens. However, he felt that such a thing would never happen, and that the so-called Heavenly Slaves were probably just those angry Divine Nations.

In the blink of an eye, hundreds of mountains appeared in a flash and entered the gigantic Magic method furnace released by Chen Xiang. In an instant, they turned into energy and entered Chen Xiang's Divine Sense Sea.

In merely a few moments, thousands of tall mountains and the surrounding hundred kilometers of land were all engulfed by Chen Xiang. What was even more terrifying was that an enormous white star suddenly appeared in the sky.

This star was even larger than ten cities. Under the pressure of the sky, the surface of the star constantly flickered with gaseous flames, releasing a large amount of pure star power.

From the distance, Chen Xiang could clearly see the seed falling down, it was brought here by the use of the Heavenly Alchemy.

The Heavenly Alchemy could refine all living things in the world, but the Refining Star could obtain enormous energy the fastest.

"This kid." The ice dragon was floating in mid air and seeing countless huge, multi-colored stars falling rapidly from above, it was extremely shocked. Qi Shi had used the same technique back then, but it had brought about painful consequences.

Chen Xiang trained in the Six Realms' Power, so this was the only way to quickly replenish it.

These formed were not ordinary little stars. When they fell to the ground, the towering mountains were as small as ants compared to them.

"Heavenly Smelting Star." Chen Xiang's Magic method furnace grew even larger, enveloping the stars one by one. The terrifying thing happened, and in the blink of an eye, all of the stars, which were so large that they couldn't breathe, were enveloped by a layer of flames and turned to powder.

Then it quickly shrunk inward and entered the Core Formation stage.

The moment they were about to condense into a pill, Chen Xiang controlled the dozen or so Stellar Divine Pills to suddenly collide against each other. The explosions that occurred when they collided allowed the quality of the energy to increase to the greatest extent.

A dozen or so stars clashed into one cauldron, and after a quick contraction, it condensed into the size of a watermelon, appearing in front of Chen Xiang.

Just thinking about it made him feel scared. With over ten giant stars being compressed to such a small degree, the quality was definitely extremely shocking. They were definitely able to reach the divine pill level.

The ice dragon and Goddess Palace Leader continued to fight, but the shock in their hearts was still unable to dissipate. This was the first time they had ever seen such a method of refining pills, and it was simply too shocking.

"There are countless stars in the sky. Even if I refine hundreds of billions of stars, the stars will still be so bright." Chen Xiang was not worried at all.

The Magic method furnace floating in front of him glowed with a deep blue light, and the watermelon sized cyclone contracted again, condensing into a normal sized pellet. The pellet looked as beautiful as a sapphire pellet.

After Chen Xiang ate it, he circulated the Six Realms magic kungfu and Heavenly Alchemy and quickly refined this pellet.

In the midst of his exhausted Divine Sense Sea, the Six Realms' Power gradually rose back up. The speed at which it was being restored was visible to the naked eye, causing a smile to appear on his face.

Just as Chen Xiang was smiling, the ice dragon suddenly shouted, "They are here, get ready."

Of course, the ones mentioned by the ice dragon were the God of Fortune and the Hell Devil Emperor. However, this time, the Pill Gods did not follow them.

Although he was not afraid of causing trouble while watching the show, if he were to be dragged into it, it could only be said that he was reaping the consequences for himself.

Chen Xiang opened his eyes and saw a group of aggressive gods flying towards him from the sky. Among them, the Hell Devil Emperor was the most glaring, with a black robe, his fiendish face was filled with killing intent, a wave of evil Qi surged out, no one dared to approach him, and he was also rushing to the front.

[Chapter 1900](#)

When Hell Devil Emperor and his group of divine gods arrived, their imposing manner was like an enormous wave that pushed forward. Chen Xiang currently stood at the bottom of a ten thousand meter high wave.

"Infernal domain." Hell Devil Emperor turned into a black shadow and flashed. Chen Xiang and the ice dragon were enveloped in a light black transparent domain.

No wonder he could stay with Devil-killing Divine Palace for such a long time. In the past, Devil-killing Heavenly God had a godly technique to suppress the power of demons, so he was basically not Devil-killing Heavenly God's opponent. But now, he could actually fight with the Devil-killing Heavenly God at the same level.

"Chen Xiang, die." The Unwearying Fighting Dan God roared and flew forward, already flying in front of the Hell Devil Emperor.

Hell Devil Emperor shouted coldly, "Come back."

But Unwearying Fighting Dan God did not care about him, he continued to fly forward, with Hell Devil Emperor extending his hand, a black shadow flashed out from his arm and hit Unwearying Fighting Dan God's body, sticking onto him and pulling him back.

"You can't kill him yet."

Evil aura surged from Hell Devil Emperor's body. Although the Unwearying Fighting Dan God that he brought back was furious, he did not dare to say anything else. This was because Hell Devil Emperor's strength had already deeply intimidated him.

"Hand over the Six Realms mirrors." The Hell Devil Emperor arrived in front of Chen Xiang in a flash, and did not attack him.

The ice dragon and Goddess Palace Leader had ended their battle. The ice dragon stood behind Chen Xiang, and the Goddess Palace Leader stood behind the Hell Devil Emperor, staring angrily at Chen Xiang. Because Chen Xiang had hidden those goddesses that she had brought with him, she couldn't let Chen Xiang die either.

The Hell Devil Emperor's Infernal Domain was extremely overbearing, causing the God of Fortune and the other powerful gods to feel uneasy. This was because they were currently in someone else's domain and were unable to break through.

Hell Devil Emperor's eyes brimmed with black aura as he exerted mental pressure on Chen Xiang.

The other gods now understood why the Hell Devil Emperor could not let Chen Xiang die. This Six Realms mirrors was extremely important to them, and all the gods present knew it.

"No, not even if I die." Chen Xiang replied very calmly.

But when he punched towards's nose, he felt that it was soft. In that moment just now, Chen Xiang used the change in the tenacity and softness inside the Seven devil-slain kungfu to make his head go soft, so he did not receive any injuries at all, and Hell Devil Emperor only used the power of his flesh.

"Seven devil-slain kungfu." Hell Devil Emperor was furious the moment he saw the Seven devil-slain kungfu, because he had lost many times to it.

Hell Devil Emperor retracted his fist and with a flash of black light, he punched towards Chen Xiang's nose once again. This time, Chen Xiang's head turned into a ball of mist and his fist directly rushed over, while Chen Xiang's body also instantly turned into mist and flew to the side before merging together once again.

This was the Cloud and Cloud Constellation of the Heavenly Body. It allowed the body to turn into a cloud to avoid attacks.

Chen Xiang stood there motionlessly as he was being punched by the Hell Devil Emperor. The Hell Devil Emperor had punched him twice in a row but Chen Xiang was completely fine.

"You are about to die, don't make unnecessary struggles. If you hand over the Six Realms mirrors and listen to my orders, hand over the God Murdering Sword Techniques and the Heavenly Alchemy, and I can guarantee that you will live well in the future." Hell Devil Emperor took a deep breath and said.

Chen Xiang was indeed an extraordinary person. If he couldn't kill him, it would be best to subdue him.

Chen Xiang said: "Even if I die, I won't give it to you. This thing definitely cannot fall into your hands."

The Six Realms mirrors was extremely important, and Chen Xiang knew that the Hell Devil Emperor would not kill him.

"Then I'll call until you give me one." Hell Devil Emperor roared in anger, his patience was limited, his fists had already turned blood-red, the veins on them were extremely sinister looking, releasing a purple light, waves after waves of Evil Qi surged forth, filling the entire Underworld Domain with a terrifying Demonic Suppression.

An ice sword appeared in the ice dragon's hand, and just as it was about to attack, the God of Fortune hurriedly flew over, "You should just be an honest mount."

The ice dragon got angry and began to fight with the God of Fortune again.

"Hmph." Hell Devil Emperor suddenly flashed over, her two fists that were filled with red fiends created a bloody afterimage of her fist, and swept towards Chen Xiang like a gale.

Chen Xiang remained calm as he circulated the Fierce Sun Heavenly Elephant of the Heavenly spirit kunfu, causing his body to become scorching hot and stiff, causing the evil energy that was invading his body to be cleansed under the intense sunlight.

This move had an effect, Hell Devil Emperor's attack actually did not harm Chen Xiang.

Chen Xiang did not plan to fight back at all, as long as he was not seriously injured, although the situation was very serious, he had to delay as long as he could, so that he could refine the Star God Pellet, and at that time, both he and Long Xueyi could recover a certain amount of energy.

"Aren't you afraid that I'll summon the Nine Heaven Devil Palace?" After Chen Xiang endured this attack, he said with a cold smile.

is the only one who has a Nine Divine Kings, and you have fused with a few other Chaos Fire Token, so the Chaos Fire Token is already ineffective. It should have been used by Feng Yujie, but the Nine Heaven Devil Palace will never appear again. Hell Devil Emperor said with complete confidence.

Chen Xiang now understood why these group of God Realm warriors had been so afraid, but had now quickly caught up. It was because they had met the Hell Devil Emperor on the way, but after hearing his words, they dispelled their misgivings towards him and turned back.

"I'll give it a try right now. If what you say is true, then with all of you accompanying me into that damn place, even if I die, I'll still laugh." Chen Xiang immediately took out all of the Chaos Fire Token.

The Hell Devil Emperor did not stop him and laughed wildly: "The matter regarding the Chaos Fire Token was told to me by the Highest Devil God. Back then, when we were manufacturing the Chaos Fire Token, he also gave me some advice.

The God of Fortune and the others believed what the Hell Devil Emperor said, because they already knew that there was a god behind the Hell Devil Emperor, and this was something they knew.

Chen Xiang had already secretly sent a sound transmission to the ice dragon, telling him to prepare to leave. He believed that he could summon out the Nine Heaven Devil Palace, and he had only just learned of the fact that only Supreme god bone with the Nine Divine Kings could summon out the Nine Heaven Devil Palace.

The ice dragon didn't plan to leave, and he also planned to take a look at the Nine Heaven Devil Palace s. Because Chen Xiang had helped him a lot, he wanted to accompany Chen Xiang to the end.

Chen Xiang forced out a few drops of blood and poured them into the remaining Chaos Fire Token.

The protective Sovereign light of the Chaos Fire Token was extremely strong, but these gods had long prepared to block it. They all knew that it was this protective Sovereign light that Chen Xiang used to successfully kill enemies who were many times stronger than him.
