

Dan God 1941

[Chapter 1941](#)

Those who joined the Supreme Divine Palace were usually the old geezers from the Sword Hall. After obtaining enough resources, they were also interested in refining pills, so they started to learn alchemy and joined the Dan Hall.

That was why people like Chen Xiang and Feng Yujie, who looked very young, would normally not have much ability in the eyes of these old fellows, unless they were the children and elders of the Supreme Divine Palace.

The oldest Gu was immediately angered. He knew that Chen Xiang and Feng Yujie both had decent foundations, Chen Xiang had already passed the Dan Heart Pavilion's assessment, and Feng Yujie's Yuxin Dan that was still able to refine Xiaping Dan was already considered to be very good for youngsters.

Seeing the old man say this, Luo Tianjun felt a little displeasure in his heart, and said to Feng Yujie: "Little girl, didn't you say that you want to register to participate in the group of Zhongpin Dan's competition? Before participating, you would have to undergo the examination in the Dan Heart Pavilion, and pass the Dan Heart Pavilion's certification.

Even the Three Gu Brothers didn't know about this, because Feng Yujie had only told Luo Tianjun about it not too long ago.

After the elders from the other Dan Hall s present heard this, they all felt that it was impossible, because even the most outstanding youths from the Dan Hall s did not attempt to undergo the God's assessment. This kind of assessment was not easy, and for the young Alchemist, refining a Zhongpin Dan was still very difficult.

Feng Yujie had already went through two examinations in the Dan Heart Pavilion before, the first of which was the Holy Pellet exam, and then she had obtained the Yuxin Dan's medicinal formula.

"Hall Master, I have yet to take the Xiaping Dan's test." Feng Yujie said. If she passed the Xiaping Dan examination, then she would have the chance to choose the Zhongpin Dan's recipe. If she passed the Zhongpin Dan's assessment, then she could choose the Shangpin dan's recipe.

Luo Tianjun laughed: "Just directly take the Zhongpin Dan examination. This way, you can pick the Zhongpin Dan s and their pill formulas, and you can directly skip the Xiaping Dan's examination."

Since he was already here, of course Feng Yujie would not decline. He took out his identity jade tablet and walked into the Dan Heart Pavilion.

oldest Gu laughed out loud: "Did you see that? Our little ghost is going to take the God's Pill God's assessment. As for your little ghost, for the sake of not bullying others in the lower God of Pills' group, none of you dare to take the God's assessment, you are just a bunch of cowards."

was a little worried that Feng Yujie would not have enough medicinal ingredients to participate in the competition after he finishes his examination.

"Don't worry about her, she has been in the Supreme Divine Palace for a period of time, and has some knowledge about the rules here, she should be well-prepared." Luo Tianjun said: "When the time comes, she'll need help. I can help her gather enough Zhongpin medicine."

There were only three months until the Dan Hall's competition, which should be enough for Feng Yujie.

Feng Yujie had refined Zhongpin Dan before, and he had even given that pellet to Xiao Chou's wife, Zhu Siqing. Therefore, Chen Xiang was very confident in Feng Yujie, and was sure to pass the examination.

"I want to see if she can really pass it. Refining Zhongpin Dan is not child's play, if she can refine it, I will use ten times the Shen Yuan stone to buy it." The old man still did not believe that Feng Yujie could refine a Zhongpin Dan.

"Hehe, just don't go back on your word when the time comes. The worst Zhongpin Dan would cost at least five hundred thousand, and you would need at least five million to use ten times the price. Can you even get that many Shen Yuan stone from a turtle's head that you've shrunk for hundreds of years?" The oldest Gu said with a smile.

"I was in closed-door training and was never afraid of any challenges." The old man said angrily, "It's only five million, I can still afford it. As long as she can refine it."

Luo Tianjun patted Chen Xiang's shoulder, and asked: "Brat, what about you? You have been obtaining the Xiaping Dan's pill formula for a while, how is your progress?"

There was no longer any pressure for Chen Xiang to be able to refine a Yuxin Dan. If he was going to carry out an assessment, then no one would be able to refine a Xiaping Dan before the assessment. Now that Feng Yujie was going to refine a Zhongpin Dan, he could use the Yuxin Dan to conduct an examination.

"I want to take the test too." This way, the two young men who had just joined the tenth hall were considered to be Pill Gods. Although they were not powerful in their eyes for the time being, they were still good seedlings. If they were to cultivate well, they would definitely become outstanding Pill Gods in the future.

Chen Xiang also had the Yuxin Dan's medicinal ingredients on him, which were copied out by him and Feng Yujie using Spirit Orbs. If he passed the examination, he could choose the Zhongpin Dan's pill formula.

Using the Chaos Divine Eye, he would be able to see the pill formulas inside the secret jade plates. At that time, he would definitely be satisfied.

"Then go." Luo Tianjun pushed Chen Xiang and let him enter the Dan Heart Pavilion.

The oldest Gu laughed: We are all bored anyway, let's just wait here for the results to come out, you guys can personally witness the kids in our tenth hall passing the examination, that's a good thing, I heard that when the other little ghosts from the other Dan Hall came to take the examination, they chased away everyone nearby, worried that they would disturb us, haha ...

"Hmph." The old man who was arguing with the oldest Gu was indeed jealous. He had to admit, even though the Chen Xiang and Feng Yujie in the tenth hall were young Alchemist, they did not become arrogant because of it.

When Chen Xiang entered the Dan Heart Pavilion, the old man was currently entering the secret room with Feng Yujie.

"Elder, I want to take the test as well." Chen Xiang anxiously shouted.

"Oh, give me the jade token. You have to wait for her to finish before proceeding. You two can stay together in a pill refining room, and then I will supervise." The old man was not unfamiliar with Chen Xiang at all. He was the first one to know that Chen Xiang had obtained the Bone level Dan's pill formula, and Luo Tianjun had informed him before to not spread the news. It could be seen that Luo Tianjun's relationship with him was not bad.

"I'll take it with her." Chen Xiang smiled at Feng Yujie and handed over the jade tablet to the old man.

In order to carry out the Xiaping Dan's examination, he had to prepare the medicinal ingredients himself. Chen Xiang and Feng Yujie had already prepared all the necessary preparations.

Although the relationship between the old man and Luo Tianjun was very good, he was very strict with the examination as he carefully examined Chen Xiang and Feng Yujie's medicinal ingredients.

Just like last time, the pill furnaces used were all placed in this secret room, so it was nothing to Chen Xiang.

As for Feng Yujie, she was a bit nervous, because she was going to use the Heavenly Alchemy to refine pills, and this was the first time she was using the Heavenly Alchemy.

[Chapter 1942](#)

Chen Xiang was already very familiar with refining Yuxin Dan, so he wasn't nervous at all.

"What divine pill are you refining?" The old man asked, he saw that Chen Xiang's medicinal ingredients did not look like Bone level Dan's, so he asked.

"Yuxin Dan." Chen Xiang smiled, the old man looked at Feng Yujie and immediately understood, he nodded.

That was why he knew that the Yuxin Dan was Feng Yujie's. If Feng Yujie's Xiaping Dan test was also meant to refine Yuxin Dan, then Chen Xiang wouldn't be able to refine this kind of divine pill now.

And now, Feng Yujie had directly skipped over the matter of Xiaping Dan to refine the middle grade, giving it to Chen Xiang to refine wouldn't be a problem, it wasn't considered a violation of the rules.

"Little girl, what divine pill are you refining?" When the old man saw how nervous Feng Yujie was, he smiled benevolently at her: "Relax."

"Regeneration Dan." Feng Yujie said.

"Oh, this is a pretty good kind of Zhongpin Dan. Not only is it able to regrow the missing parts of its body, it is also able to recover the damaged divine soul from its substantial transformation." The old man was surprised, because the pill formula was Feng Yujie's own.

Chen Xiang and Feng Yujie suddenly felt that since the old man was in charge of supervising the assessment, there would be a lot of benefits, because he knew what kind of ingredients to use to concoct the pill. Although he did not know the exact timing for entering the pill, at the very least, he had some understanding of the pill recipes, and only if he studied them carefully in this regard, he would be able to obtain the pill formulas.

"Alright, I've finished my inspection. There won't be much problem. You can begin." The old man smiled and sat down on a chair by the wall.

Chen Xiang looked at Feng Yujie's medicine. Other than a few divine medicines, there were also two big boxes of Shangpin holy Dan s, which numbered a few hundred.

"Sister Feng, the Heavenly Alchemy I passed to you does not have the method to refine Zhongpin Dan. Do you plan on using the traditional method to refine it next, or the Heavenly Alchemy?" Chen Xiang whispered to Feng Yujie.

"I know, that's why I wanted to give it a try. Maybe I can learn new techniques from them." Feng Yujie replied. She had already relaxed a lot, and was no longer as nervous as she was before. This was because with Chen Xiang by her side, she felt extremely safe.

This kind of assessment did not have a time limit, so Chen Xiang planned to slow down a little and accompany Feng Yujie.

Chen Xiang was the first one to start refining, while Feng Yujie had already done a thorough inspection and mental preparation before starting.

Chen Xiang had already successfully refined three batches of Yuxin Dan, so he was imitating the effects of Zhenyang gold ginseng s while he refined them.

Unknowingly, Chen Xiang had already entered the Core Formation stage.

The old man looked at the two of them concocting pills with a calm expression, but he was thinking about many things in his heart. He realized that Feng Yujie's training method was completely different from last time, and just like Chen Xiang, he threw all the medicinal ingredients into the furnace in one go the moment he started to concoct pills.

The most important thing about a pill formula was the order and timing in which the medicinal herbs would enter the furnace. This was the most crucial aspect of a pill formula, so even if one knew about the matching of the medicinal herbs, it would still be useless.

"Half a day has passed." Chen Xiang was able to refine it. This time, he did not hold it back and refined four Yuxin Dan.

The old man looked at the four Yuxin Dan s in his palms and exclaimed, "Is this the Heavenly Alchemy?"

Chen Xiang nodded his head: "Elder, you have good eyesight."

The old man sighed, then laughed: "Besides the Heavenly Alchemy, it's very hard to do."

Feng Yujie had been very calm the entire time, and she was relieved as well. This meant that her anxiety had gone smoothly, and she only needed to wait patiently.

Chen Xiang was still in the secret room. He sat on a chair in the corner with his eyes closed, quietly waiting for Feng Yujie to finish.

Three Gu Brothers rolled up his sleeves as he argued with a group of white-haired old men, as if they were about to fight at any time. Although they were noisy to the point that their faces and ears were red, they did not start a fight in the end.

Luo Tianjun leaned on a rock beside the entrance of the Dan Heart Pavilion and sat cross-legged on the ground. He crossed his arms over his chest and closed his eyes.

Two days had passed and Three Gu Brothers had already scolded several groups of familiar people, but the old man who was arguing with oldest Gu had yet to leave. He had said that he would buy it for ten times the price after Feng Yujie produced the results.

Chen Xiang was originally meditating in the secret room, but he suddenly heard a weak sound. He opened his eyes and saw that Feng Yujie's pill furnace was slightly shaking.

"Is it time to condense the pill?" This was Feng Yujie's first time using the Heavenly Alchemy to refine a pellet, and she was even refining a Zhongpin Dan which was extremely difficult to do. For her to be able to hold on for two days meant that she was already nervous to the last stage.

The old man's reaction was different from Chen Xiang's. He was shocked in his heart, and he was sure that Feng Yujie was using the Heavenly Alchemy as well. The speed at which he was refining the pellet was so fast that it shocked him.

The Zhongpin Dan that Feng Yujie was refining was also very fast. If it was a normal method of refinement, it would take at least three to five days before he could start condensing the pellet.

It was not Feng Yujie's first time refining such a pill, she had concocted two batches of pills in the past, so she was relatively familiar with the Regeneration Dan, so she was confident that she could successfully complete the test using the Heavenly Alchemy.

As the furnace started to shake, Feng Yujie's jade face was also covered in sweat. Chen Xiang was very clear about her current situation, it was a very critical moment, and if Feng Yujie was able to succeed in clearing it, then her mastery of Heavenly Alchemy would be even higher. It would be of great help to her in using the Heavenly Alchemy in the future.

In the blink of an eye, four hours had passed and the pill furnace had stopped shaking. Feng Yujie opened her eyes and took a deep breath, her pale white face had also flushed red.

"Did it work?" Chen Xiang asked with a smile.

"Of course it worked. It went smoothly." She was extremely grateful to Chen Xiang in her heart. She was now able to deeply understand the benefits of Heavenly Alchemy, and the fact that she was able to successfully create a Regeneration Dan with it showed that she had a good grasp of the Heavenly Alchemy.

In the future, it would be much easier to use the Heavenly Alchemy to refine other divine pellets.

Opening the pill furnace, there were three Regeneration Dan s.

Looking at the three divine pellets, the old man took a deep breath. Although the Regeneration Dan was not a high quality Zhongpin Dan, its value was still around average, able to sell for seven to eight hundred thousand. If it was a high quality pellet, then selling it for a million would be fine.

Feng Yujie used three pills in one go, he had fully utilized all of the medicinal ingredients, so the old man was extremely envious of this method of refining pills.

"The Heavenly Alchemy really lives up to its name." The old man sighed, "You have all passed. Come with me to pick your pill formulas."

[Chapter 1943](#)

was secretly happy that they were able to choose a pill formula together. She was also happy because when she heard what method Chen Xiang used to obtain the Bone level Dan's pill formula, Chen Xiang was able to see through the seals on the jade plates.

Feng Yujie was able to obtain the Zhongpin Dan's pill formulas. Now, she and Chen Xiang would follow the old man to the second floor of the Dan Heart Pavilion to choose the Zhongpin Dan's pill formulas.

Entering a secret room that was sealed with many enchantments, Chen Xiang and Feng Yujie immediately saw many jade plates hanging on them. These were all the formulas of the Zhongpin Dan.

Chen Xiang immediately activated Chaos Divine Eye the moment he came in, and carefully examined the contents of the jade tablets.

Feng Yujie didn't have such a method, he could only pretend to look carefully and wait for the results.

The old man was already used to this sort of thing, so he could only wait patiently.

"There are a few pill formulas that look pretty good, I just read them from the introduction. I don't know much about the specifics, let me tell you, do you know about these Zhongpin Dan." Chen Xiang told Feng Yujie the names of several types of Divine Pills.

After Feng Yujie heard them, he replied: "These are all pretty good, but we can only choose between two ... I'll think about which two to choose. "

After a while, Feng Yujie sent a sound transmission to Chen Xiang, "Among the few Zhongpin Dan that you mentioned, these two are of relatively special effects. The other ones are all used to raise the Mysterious power, strengthen the physical body, and heal one's injuries.

Chen Xiang understood, although Yuxin Dan s could be used to heal injuries, their effects were not as good as other pill formulas.

Among the divine pills, regardless of the grade, there were all kinds of healing, strengthening divine powers, strengthening the physical body, etc. Most of them were of average efficacy. Only a few of them had very strong effects, but the pill formulas were all in the hands of a small number of alchemy gods.

Feng Yujie had this kind of pill formula, her previous Regeneration Dan was an extremely good healing pill formula.

Chen Xiang told Feng Yujie the location of the "Spirit Connecting Pill" jade tablet, and told her to go get it while he took out the "Spirit Absorbing Pill".

Even the mind pellet was a kind of magical pellet, not to enhance one's strength or cure the poison, but to make two pellets, and then both of them would drip their own blood on these two pellets. Afterwards, the two of them would have a heart-to-heart feeling, and could communicate with each other at an extremely fast speed.

Even if there was a very strong space ban, it still wouldn't be able to contain the mind pill. The drawback was that after consuming the mind pill, the duration of the pill would be limited and not permanent.

Eating this kind of pellet would allow one to become transparent, and would even be able to hide away one's aura for a period of time. Feng Yujie was interested in the Divine Concealment Pellet, which could evolve into a pellet that even Upper Heavenly God with nine Divine Deity would find hard to swallow, so if he ate a high quality Concealment Pellet, even a small part of him would find it hard to discover.

The drawback of this Spirit Concealment Pill was that one could not use too much power while invisible, otherwise it would destroy the medicinal energy flowing through the body. However, it could also be considered a type of divine pill with a special ability.

Chen Xiang waited for a while after Feng Yujie took the jade tablet from him before he took it out. They couldn't take it out at the same time, in case the old man discovered something.

"What kind of pills are these?" The old man asked in curiosity. Last time, Chen Xiang's luck was not bad, although he could not refine the Bone level Dan now, but with this recipe, he would definitely have a chance to refine it in the future.

"What I have is the Divine Concealment Pill." Chen Xiang dripped a drop of blood on the jade tablet and frowned: "I wonder if the ingredients for this kind of divine pill are good enough to purchase."

Feng Yujie said: "What I have is a Mind Altering Pellet, it looks to be about the same as your Divine Concealment Pellet, they are all magical pellets with a strange function."

The old man said, "I've heard about these two types of pills, and they are indeed rare, weird magical pills. The old man said," I've heard about these two types of pills, and they are indeed rare, weird magical pills, and the herbs shouldn't be hard to buy.

Feng Yujie was satisfied with these two pills. Although she had the Zhongpin Dan's pill formulas, those medicinal ingredients were extremely difficult to find. After all, her pill formulas were all very ancient, and she did not know if the medicinal ingredients for those pill formulas could be passed down from that time.

"Now you can go and choose the Shangpin dan's recipe." The old man said.

"Elder, I want to take a look as well." Chen Xiang laughed: "I want to accompany her and increase her luck."

"No problem." The old man laughed and immediately agreed. He felt that since Chen Xiang could not take away the jade plates, it was fine if he let him go.

Although the secret room where the Shangpin dan's pill formula was stored was very large, there weren't many jade plates hanging on it. After all, it wasn't easy to create the Shangpin dan's pill formula.

Just like before, Chen Xiang secretly opened the Eye of Primal Chaos the moment he entered and carefully checked the jade tablets.

He only had more than two hundred jade plates in total, and Chen Xiang would report one to Feng Yujie just by looking at them. She would decide for herself, because he didn't really understand these pills too well.

"It seems like all the good recipes have been chosen over the years. There is only one that is better, the Divine Sense Sea Pill's recipe." Feng Yujie thought for a moment, then asked Chen Xiang.

Chen Xiang told Feng Yujie where it was located and immediately went to get it. After dripping blood, he got the recipe for the Divine Sense Sea Pellet.

"It's the Divine Sense Sea Pill." Feng Yujie said, and without the old man asking, she said it out loud.

"Oh, it's not bad. A high-grade Divine Sense Sea Pill is capable of absorbing the power of one of the Divine Sense Sea's powers." The old man nodded his head: "The main purpose of this pill is to store the energy in the entire Divine Sense Sea. After the energy in the Divine Sense Sea is used up, eating a pill can instantly restore it to full."

Feng Yujie said: "The bad thing is that I need to store my power inside."

The old man laughed: "This is nothing, if there is nothing important, just pour half of the Divine Sense Sea's power in, or at least drink at the third level, and you can recover in one night. This way, after a few days, you can fill up a pellet completely, and after the Divine Sense Sea's power runs out and needs to recover in a hurry, the effect of this Divine Sense Sea Pellet will not be comparable to any other pellet."

Chen Xiang had experienced the drying up of the Divine Sense Sea last time. At that time, he hardened his heart and used the Heavenly Alchemy to refine a few stars before he could barely recover. If he had this pill, he could have instantly recovered back then.

Heavenly gods with nine Divine Deity could instantly recover their strength, which showed that this Divine Sense Sea Pellet was still very precious. It had to be known that Heavenly Gods with nine Divine Deity had very huge Divine Sense Seas, and the quality of their Mysterious power was also very high. Once it was exhausted, it would be very difficult to quickly recover.

Chen Xiang and Feng Yujie both passed the examination. They walked out of Dan Heart Pavilion and saw that there were a lot of elders waiting for them outside.

"What's the result?" When the oldest Gu saw Chen Xiang and Feng Yujie walking out, his originally somewhat listless expression immediately became lively like a dragon and a tiger.

[Chapter 1944](#)

Seeing that it was so quiet outside, Chen Xiang knew that they were in a truce. If they continued to curse for days and nights, it would be very tiring.

Therefore, she had already passed the examination. Chen Xiang also took out a jade tablet, it was an Inferior Grade Pill God.

"Haha, it's really over. Old Turtle, don't you dare go back on your words." oldest Gu laughed.

Gu Lao Er said to Feng Yujie, "Little girl, what kind of Zhongpin Dan did you refine? Take it out, that guy said as long as you can refine it, you can buy it for ten times the price."

The elder who was in charge of managing the Dan Heart Pavilion walked over and chuckled: "So that means he's about to vomit blood. The Zhongpin Dan that this little girl refined is a Regeneration Dan, it's worth at least a million Shen Yuan stone."

Some ordinary Xiaping Dan would cost over a hundred thousand Shen Yuan stone and Zhongpin Dan were six or seven times more valuable than Xiaping Dan. Moreover, the healing effect of Regeneration Dan was very good; they could treat the injuries on their body and divine soul at the same time.

"It's the Regeneration Dan." oldest Gu said in shock: "Doesn't that mean the old turtle has to take out tens of millions of Shen Yuan stone?"

This was a huge number, and normally, only hall masters could afford it. It would not be easy for a supreme dan god like oldest Gu to take it out all of a sudden.

Feng Yujie chuckled: "This is my first time refining a high quality Regeneration Dan, so I don't plan to sell it. Sorry."

Although Feng Yujie needed Shen Yuan stone, she did not want to make things difficult for others. In the eyes of these elders, she and Chen Xiang were juniors, they were not like the oldest Gu who liked to fight.

Luo Tianjun laughed: "The two of you are tired too, go back and rest. Don't look at the old fellows here, they have rested for half a day and are about to start a war again."

Feng Yujie's words were undoubtedly like a stepping stone for the old man, causing the old man to feel extremely touched. This was because the young genius of his Dan Hall, the Pill Refiner was extremely arrogant, and did not like him at all.

Chen Xiang and Feng Yujie followed Luo Tianjun and left. This group of old men would continue to cause a ruckus later on, this was also their special method of "reminiscing".

Returning to the Dan Hall, Luo Tianjun asked: "Have you all registered yet in the Dan Heart Pavilion?"

"I've registered." Chen Xiang nodded, the old man from the Dan Heart Pavilion had already reminded them to register.

A few days ago, Chen Xiang wanted to enter the underground chamber to concoct pills, but he and Feng Yujie were suddenly summoned by Luo Tianjun to the Dan Heart Pavilion, and they even went through the examination.

"Then go rest." Luo Tianjun waved his hand: "Don't call me over during this period of time, I have to prepare."

Chen Xiang and Feng Yujie nodded, then returned back to their rooms to shower and sleep.

Previously, Chen Xiang had used up a lot of spirit pearls, but now, he and Feng Yujie stayed in the house for a few days and brought out 20 or so pills.

"I'm going to sell the Yuxin Dan you refined and buy my ingredients. The Zhongpin Dan I refined is still lacking a bit." Feng Yujie lightly patted Chen Xiang's handsome face, and then pulled away Chen Xiang's bad hand that was still rubbing her chest.

When Feng Yujie saw Chen Xiang looking at her with his fiery eyes, she humphed and quickly tidied up her clothes, so that Chen Xiang wouldn't be unable to resist and take her down on the spot.

Seeing Feng Yujie leave, Chen Xiang took a few deep breaths to calm himself down, then ran into the underground room and started concocting pills.

Right now, what he wanted to refine was the modified version of the pellet, which was a pellet of Yuxin Dan s. If he succeeded in refining the pellet, among the healing type of Xiaping Dan, the effect would be very good and he could sell it for a lot of Shen Yuan stone s.

Chen Xiang felt that there were no Xiaping Dan suitable for him to raise his strength, and only Bone level Dan s existed. It was just that they were not easy to refine, and required a large amount of Shangpin holy Dan as materials.

As for the Spirit Orb that he and Feng Yujie kissed and cultivated with, the copy speed was not bad. It could quickly refine a Xiaping Dan, so to quickly earn a Shen Yuan stone, the best method would be to refine a Xiaping Dan.

"If I were to successfully refine this kind of pellet, then I would have access to the Bone level Dan's ingredients in the future." Chen Xiang threw a pile of medicinal ingredients into it.

He was already very familiar with the Yuxin Dan's medicine, but now that he had joined the Zhenyang gold ginseng, under the influence of the Zhenyang gold ginseng, the characteristics of the other herbs would fluctuate, so he had to be careful, so as to avoid an explosion, the Zhenyang gold ginseng required two spirit pearls to replicate.

Chen Xiang was already very familiar with how the other Yuxin Dan s would appear if they were to burn the other Yuxin Dan s' medicinal herbs. All he needed to do now was to carefully pay attention to their appearances.

... ..

After and Feng Yujie passed the examination, as outstanding young Alchemist who had just joined the Dan Hall, they received great attention. Especially Feng Yujie, as a woman, not only did she have a Medial Grade Pill God, she was even able to refine Regeneration Dan.

Many old pill gods had heard of this, but there were no pill formulas, and the pill formulas were also relatively old. Only the Divine Nations had this kind of divine pill, but no one had heard of it.

Originally, she could have sold a Regeneration Dan for millions of Shen Yuan stone, but she did not do so. This caused others to secretly praise her, because in their impression of Feng Yujie, outstanding young people were usually extremely arrogant.

Of course, the ones who were paying the most attention to Feng Yujie were the young Alchemists of the other Dan Hall, because they had already heard some unhappy words.

As a result, the youths of the other Dan Halls who had originally only planned to participate in the group of Inferior Pill Gods, all went to the Dan Heart Pavilion to undergo the examination of a middle stage Pill God. This was because they wanted to be in the same group as Feng Yujie, wanted to defeat Feng Yujie, prove that they were stronger than Feng Yujie, and make the group of old Pill Gods, who were praising Feng Yujie, shut up.

"What's going on, this Zhenyang gold ginseng does not have a Spirit blood."

Chen Xiang was secretly anxious, because the Zhenyang gold ginseng was about to melt, and it had not appeared yet. If it still did not appear, and the Spirit blood could not catch the Zhenyang gold ginseng and fuse with the blood of the other medicinal herbs, then this furnace would be considered a failure.

An hour had passed and the Zhenyang gold ginseng had already been refined into Medicine auras and medicinal powders, which were golden and floated inside the pill furnace. However, Chen Xiang still had not found the Spirit blood.

Ever since he had created the Original source refining, he had never encountered this kind of problem, nor was there any way to resolve it.

"I can only go deeper and search for the Spirit blood. When I'm burning them, my speed is already slow enough and I haven't even burned the Spirit blood out yet. Don't tell me I'm still going to continue." Chen Xiang guessed in his heart as he continued to use fire to refine those Medicine auras.

After he had burned for two hours, the group of Medicine auras suddenly underwent a bizarre change.

[Chapter 1945](#)

The originally golden Medicine auras, after being burnt for a period of time, had actually become purple gold. This change was acceptable to Chen Xiang, but the following changes were completely unexpected to him.

The Zhenyang gold ginseng that was already burnt into a purple gold mist by him had suddenly shrunk back to the size of a pinky finger, which was a few times smaller than its original size.

Chen Xiang was dumbstruck. To think that such a thing would happen even after burning the herbs. It seemed as if the herbs had evolved.

"How could this be?" Chen Xiang did not understand much about Zhenyang gold ginsengs, he only knew that this type of divine medicine was extremely effective in treating the body. If he were to take it directly, he would feel as if his entire body was being burned by fire, and the serious wounds on his body would also gradually recover from the burning pain.

If it was refined with other divine medicines, the burning pain could be relieved.

Chen Xiang only understood this, he had never heard of burning Zhenyang gold ginseng causing a change.

"Could it be that there's a problem with my fire, allowing the Zhenyang gold ginseng to evolve?" A question arose in Chen Xiang's heart. If it was a normal person refining a Zhenyang gold ginseng, this situation would not have happened. According to the pill formula, the flowers that were being refined could already be refined into a pill.

Back then, when he had bought the Zhenyang gold ginseng, Luo Tianjun was also present, and did not tell him about this sort of thing.

"When Sister Feng comes back, let her try and see if it was caused by my Chuangzao fire or not." Chen Xiang could only continue to refine the Zhenyang gold ginseng that had evolved.

His good control could allow his Chuangzao fire to burn and revive some dying medicinal herbs. Different from normal flames, normal flames could be destroyed, and his flames could be regenerated.

He continued to refine the True Sun Purple Gold Ginseng, and six hours later, he was pleasantly surprised to find that the Spirit blood had appeared inside. He immediately controlled the power of the Divine Sense Sea to transform into a spirit body, and grabbed onto the Spirit blood.

He finally found the Zhenyang gold ginseng s and immediately combined them with the other Yuxin Dan's medicinal ingredients.

The fusion went smoothly. After the Spirit blood s fused with the medicinal ingredients, the next step would be to burn the Purple-Gold Pills and turn them into Medicine aura s. Then, he would remove the gaps between the various medicinal ingredients and allow the different types of mist to merge together.

"Done." Although something unexpected happened, in the end, Chen Xiang still succeeded.

Ever since he refined the Yuxin Dan, this was the second time he successfully refined a divine pill, and one that was even improved by him.

Just like before, using the Original source refining would allow him to make full use of all the medicinal ingredients, so he wouldn't waste any of it.

"It's purplish-gold in color. It seems like the entire effect is from the Purplish Golden Ginseng." Chen Xiang opened his pill furnace and saw four purplish golden pellets. He took them all out and ate one of them.

After eating it, he immediately felt that his body was warm and not burning at all. Instead, he felt that this warm current was extremely comfortable.

There were no injuries on his body, so he could not tell how strong the effects were, but he could feel that the effects were very strong, because even after he refined them, he still felt that there were quite a few medicinal effects scurrying around, as if they were looking for an injury to heal.

"Let's call it the Purple-Gold Divine Pill." Looking at the appearance of the pill that Chen Xiang had named himself, he probably wouldn't think of having a Yuxin Dan no matter what. Furthermore, the feeling he gave off when he ate it was completely different from that of a Yuxin Dan.

He felt that even an experienced old pill god would not be able to guess that a Zhenyang gold ginseng was added inside after eating it.

After concocting the furnace pills, it was already night time. Chen Xiang walked out of the secret room and saw Feng Yujie organizing the ingredients on the table.

"I've collected all of them." Seeing Chen Xiang coming out, Feng Yujie smiled sweetly and said happily.

"I succeeded too, but some strange things happened." Chen Xiang walked over, picked Feng Yujie up, and let her sit on his lap. Then, he kissed her on the cheek.

Feng Yujie playfully pouted her lips and pinched Chen Xiang's face: "What strange thing happened, show me your improved pill."

Chen Xiang took out a purple gold divine pill and handed it over to Feng Yujie's alluring sandalwood.

Feng Yujie opened her mouth and ate the Purple Gold Divine Pill that Chen Xiang placed in her mouth. After eating it, she immediately frowned: "The medicinal effect is very strong, much stronger than the Yuxin Dan, this pill is extremely good, that's right, you said something strange happened."

Chen Xiang told Feng Yujie about the strange incident of burning Zhenyang gold ginseng.

After Feng Yujie finished listening, she fell into deep thought with a somewhat serious expression. She walked down from Chen Xiang's thigh, and after walking back and forth a few times in the room, she said.

"Could it be the Zhenyang gold ginseng?" Chen Xiang asked.

This is a very strange phenomenon. There are some medicinal herbs that would have this kind of mutation, and some would even change into a new medicinal herb after fusing with other medicinal herbs. Not only does it retain the original effects, it also has other effects. Feng Yujie explained: "This kind of situation will usually appear on high level divine medicines."

Chen Xiang did not understand, but this was a good thing, because after the change, it would be better for him to refine the Zhenyang gold ginseng.

"When are you going to start purchasing your Bone level Dan's medicinal ingredients?" Feng Yujie asked.

"We can start now. Also, let's hang up the Spirit Concealment Pills and the Spirit Concealment Pills as well." Chen Xiang chuckled: "Let's get some more spirit pearls first. Once we purchase some more, we can duplicate them and then refine them onto ourselves."

Feng Yujie said: "It's hard to sell Yuxin Dan now, so many disciples who have returned are all selling their pills in large quantities. The price is now very low, should we release the better high grade divine pellets for sale?"

Now, she had to sell some high grade divine pellets, which were Zhongpin Dan s. These kind of pellets which Feng Yujie had just refined could be sold for millions of Shen Yuan stone s, and she could make three of them during the previous exam. If she were to hang them up for sale now, there would definitely be people who would buy them very quickly.

These few days, her reputation was already very high. This would make her pills even easier to sell.

"How many Shen Yuan stone do we still have?" Chen Xiang asked.

"Not much, we have a lot of divine medicines to buy now, and most of them are of high level. Our little Shen Yuan stone are simply not enough, and the fastest way now is to sell my Regeneration Dan." Feng Yujie shook his head, took out a Storage bag and gave it to Chen Xiang. Chen Xiang entered and found that there were indeed very few Shen Yuan stone inside.

Chen Xiang did not want Feng Yujie to sell the Regeneration Dan, because it was a very good type of Zhongpin Dan that could heal injuries.

[Chapter 1946](#)

Feng Yujie thought about it carefully and felt that he should not sell the Regeneration Dan now, because refining this kind of pill was not easy. After all, this was a Zhongpin Dan, and it required a lot of ingredients.

"Sister Feng, if you have the time, see if you can comprehend a method to quickly refine Zhongpin Dan from the Heavenly Alchemy." Chen Xiang said: "Don't sell the Regeneration Dan for now, I will go find Xiao Chou and think of a way. Supreme Hall should have a lot of work to do."

Chen Xiang was already prepared to participate in the Xiaping Dan s' competition, so he had plenty of time right now. The only thing he wanted to do now was to take advantage of the time he was in the Supreme Divine Palace and try his best to buy some rare medicines.

Suddenly, someone knocked on the door. It was already dusk. There was someone coming in.

"Someone is knocking on the door. Who is it?" Chen Xiang and Feng Yujie walked out of their rooms and opened the door together.

During this period of time, Luo Tianjun had to go into closed door cultivation while Three Gu Brothers was outside to reminisce with his old rivals, so only Chen Xiang and Feng Yujie were the only ones in Dan Hall.

If Three Gu Brothers had returned, they could have just opened the door and entered. Therefore, the one knocking on the door was definitely not the three of them.

At first, Chen Xiang thought it was Xiao Chou, but after he opened the door wide, he and Feng Yujie were a little surprised.

Outside the door stood a middle-aged man wearing a black robe. This middle-aged man had come here the last time and Chen Xiang's Zhenyang gold ginseng were bought from him.

This middle aged man gave off a very strange feeling. That kind of feeling felt very familiar to Chen Xiang, but he could not say it out loud.

"I'm here to sell divine medicines. I have a mid-tier Heavenly Heart Divine Fruit and Nine Heart Lotus." The middle-aged man went straight to the point, and immediately revealed his intentions when he saw Chen Xiang and Feng Yujie, because last time, it was Chen Xiang and Feng Yujie who had bought his divine medicine.

Chen Xiang and Feng Yujie were both very surprised that this middle aged man had so many good divine medicines.

The 'Heavenly Heart Fruit' and the 'Nine Heart Lotus' were the ingredients needed to refine the 'Spirit Pill'. The 'Heavenly Heart Fruit' and the 'Nine Heart Lotus' were the most important, and also the most expensive and rarest. The other three were not that expensive.

Chen Xiang and Feng Yujie were in a difficult situation, because they did not have any Shen Yuan stone now. This was a Zhongpin medicine, the price was ten times more expensive than a low grade divine medicine, let alone this kind of rare medicine.

"This big brother, we do not have enough Shen Yuan stone now, can you leave some for us to buy after we gather enough Shen Yuan stone?" Chen Xiang laughed awkwardly: "We cooperated so happily last time, please promise us this time."

"Ten days. You guys come to the Boxing Hall's Heavenly God Nine Hall to look for Xie Ao, a total of four million Shen Yuan stone. If you don't come after ten days, I'll sell you guys immediately if anyone buys you." After Xie Ao finished speaking, he turned and walked away quickly.

"Thank you very much." Chen Xiang shouted as they looked at each other. This Xie Ao was indeed very arrogant, but his arrogance gave others a good impression, so they would not feel disgusted.

After Xie Ao left, he closed the door and said: "Where did this fellow come from, to actually have so many rare and precious divine medicines."

Feng Yujie said: "He seems to be very secretive and judging from his personality, he does not seem to want to talk to anyone else. Could it be that he is hiding his identity, and does not know if there are any people he is familiar with in the entire set?"

"I'll look for Xiao Chou tomorrow. If it really doesn't work, then I'll have to copy the Regeneration Dan's medicinal ingredients and buy some Shangpin holy Dan to let you refine them." Chen Xiang said.

"Ten days might not be enough. How about I sell these three Regeneration Dan first?" Feng Yujie was in a hurry to obtain the main ingredient for the Mind Connecting Pill.

"This guy is selling for so much, he's actually asking for four million Shen Yuan stone, there are only two kinds of Zhongpin medicine, one of your Regeneration Dan is only worth a million, this guy is too evil." Chen Xiang knew that he couldn't negotiate a price with Xie Ao, so if he were to talk about the price with him, he would immediately leave, looking like he wouldn't buy even if he wanted to.

"Only he has it. Even if he doesn't buy it, he'll have to buy it. If he misses it, then he won't have it anymore when he's in a rush." Feng Yujie said: "He caught on to our feelings, which was why he offered such a high price."

These two main ingredients were at most two million Shen Yuan stone s, but they were being sold for twice the price. If it was someone else, they would definitely not buy them, because they could not be used back.

But for Chen Xiang and Feng Yujie, this was not the usual thing. Because they had the spirit pearls, they could mainly get one set and make multiple copies. Although it was outrageously expensive, but in their opinion, it was still worth it, so they wanted to buy it.

"Let's go, we will go and announce the sale of the Regeneration Dan now." Feng Yujie finally made this decision. She had three pellets in her possession, if it was only one pellet for a million, she would only need to sell it for three million Shen Yuan stone s.

Chen Xiang laughed: "Don't tell me that fellow knew that you had just refined a Regeneration Dan and he is trying to kill you?"

Feng Yujie scoffed, "It's very possible, this guy, hmph."

A Alchemist that could refine Regeneration Dan s would definitely not be poor. Xie Ao still felt that it was cheap to sell it to Feng Yujie last time.

Chen Xiang and Feng Yujie came to the Supreme Hall, and when they went to get a piece of paper from the old man, the old man said in a low voice: "Little girl, what's going on, where did you get your Regeneration Dan's pill formula from? There are already a few notices selling Regeneration Dan here, one is only four hundred thousand Shen Yuan stone and the notice says it can be sold for a long time."

"How could this happen?" Feng Yujie did not dare believe it, the Regeneration Dan's pill formula was very ancient, other than her, there would definitely be others who had it, this was not strange.

Strangely, at this critical juncture, someone suddenly came to sell it at a low price, as if trying to show off to her.

"Elder, can you help me check who posted the notice?" Feng Yujie asked.

"It was all posted by the same person. This guy is a young man from the third Dan Hall." The old man laughed: "Seems like you have aroused the interest of the young people of Dan Hall to compete with you."

Feng Yujie sighed, if she was selling the Regeneration Dan too, then the other party would probably sell it even more cheaply. She did not want her Regeneration Dan to be so cheap.

After knowing that the Regeneration Dan had lost so much weight in one go, Feng Yujie did not issue any notice, and returned back to the tenth hall with Chen Xiang.

Once he closed the door, Feng Yujie was so angry that she snorted: "Is this guy declaring war on me? He does have some ability, to be able to sell the Regeneration Dan at this price, he must be trying to show that the Regeneration Dan is nothing in his eyes."

Feng Yujie previously controlled a very large sect, and was originally one of the big shots in terms of power. Now, the aggressive heart that was hidden in her heart was aroused.

"Brat, you should go and find Xiao Chou tomorrow to see if there's any way to raise four million Shen Yuan stone. I plan to try and improve the Regeneration Dan tomorrow. Feng Yujie quickly thought of a plan to fight back.

[Chapter 1947](#)

, who was brimming with fighting spirit, hastily entered the secret room. Seems like she was serious, Chen Xiang shook his head and laughed, then he headed towards the Soul Hall to look for Xiao Chou.

Feng Yujie told him to go tomorrow, but she was going to the Earth Room immediately to refine pills. Tonight, she was not going to train with Chen Xiang in the Alive Slain Method's Spirit Refinement Pellet, Chen Xiang had nothing else to do, so she went to find Xiao Chou ahead of time.

Xiao Chou's name was extremely resounding in the Soul Hall. He came to the First Hall of the Soul Hall, and said that he was looking for Xiao Chou, and someone immediately went to report to him.

Chen Xiang sat in the great hall of the First Hall of the Soul Hall. The great hall gave him a feeling of extravagance, and this hall was much larger than the Tenth Hall of their Dan Hall. It was equivalent to a small plaza, and there were many luxurious tables and chairs.

The number of Soul Hall s were more than the number of Dan Hall s, and the number of elites in the first Soul Hall s were also more than the number of people in each hall.

Let alone the first Soul Hall, even the profound God of Zhang Zhuo, who was killed by Chen Xiang, was more luxurious than his tenth hall.

This did not mean that the Dan Hall was weak, it just showed that the threshold for the Dan Hall s was too high, leading to the fact that there were very few disciples in the Dan Hall s, but the effects of the Dan Hall s in the Supreme Divine Palace s still could not be underestimated. All of the Divine Pills here were provided by the Sovereign Dan Hall s who had the least number of people.

Xiao Chou quickly came. He came by himself, and that innocent wife of his did not come with him.

"Master, what's the matter?" Xiao Chou asked. She was clear that Chen Xiang must have something that brought her here, so she did not waste her breath with him.

"How many Shen Yuan stone do you have? I need around 4 to 5 million of these," Chen Xiang went straight to the point and stated his purpose for coming here.

Forget about Xiao Chou, even some of the old Alchemist s couldn't take out the four or five million Shen Yuan stone s in a short period of time. They had to sell some things in order to get it.

"Not that many, I only have five hundred thousand Shen Yuan stone on me." Xiao Chou curled his lips: "Master, why do you need so many Shen Yuan stone."

"How are you so poor?" Chen Xiang never thought that Xiao Chou would be so powerful and mighty in the Soul Hall, but he was actually so poor.

"Are you very poor? I don't think so, I'm considered relatively rich. Although I can't afford some high level divine pellets, the divine pellets that are supplied to us are all given to you by our hall elders, if you perform well you will be rewarded with a divine pellet," Xiao Chou said, surprised: "Among the Dan Hall s, there aren't many who can take out four to five hundred thousand Shen Yuan stone at any time, especially ones with strength like mine. If it's someone who's too godly, then it's a completely different story."

"Looking at the entire Supreme Divine Palace, the other young men and women of the Heavenly God level, I am considered very rich."

Xiao Chou was not convinced, and continued to explain, wanting to prove that he was not poor.

This little bit of Shen Yuan stone was nothing in his eyes. Not long after he entered the Supreme Divine Palace, he already used it a lot, much more than Xiao Chou this little bit of Shen Yuan stone.

"Master, don't tell me you think it's so easy to earn money? The Yuxin Dan that you just refined is only sixty to seventy thousand, and you can't just keep refining the divine pellets endlessly right? These divine pellets are very hard to refine, and the ingredients are extremely hard to obtain too, besides the cost, you didn't earn much, and it was very hard for you as well," Xiao Chou said as he saw Chen Xiang's smile.

Chen Xiang walked to his side and patted his head: "That's other Alchemists, let me tell you, the Regeneration Dan that Sister Feng refined before could be sold for millions of Shen Yuan stone, but now there's a guy fighting over business with her, selling each pellet for 400,000 dollars, so she's very angry, and is preparing to make an even more powerful divine pellet."

Xiao Chou said: "I just heard about this matter, that guy who was snatching away Master's wife's business is also a prodigal son, he does not have many Regeneration Dan and only has around ten or so of them."

"Also, not just anyone can buy his Regeneration Dan, he thinks that you're not pleasing to the eye and will not sell it to you. Although it's like that, it really does affect mistress, because this will make many people feel that the Regeneration Dan is only worth four hundred thousand Shen Yuan stone, so they won't buy Mistress, unless Mistress also sells for four hundred thousand."

Chen Xiang snorted: "This bastard, truly does not benefit himself by taking advantage of others. He obviously came to make Sister Feng sick."

Xiao Chou nodded his head: "It's an obvious thing. Mistress has painstakingly refined a Regeneration Dan, but its price dropped so much that I feel angry just thinking about it."

The Zhongpin Dan that Feng Yujie gave to her wife, Zhu Siqing, was a Regeneration Dan.

"Xiao Chou, there are a lot of missions in Supreme Hall, and all of them will receive Shen Yuan stone after the mission is completed. You should have some understanding of this," Chen Xiang said.

"Master, are you planning to get a few million Shen Yuan stone in one go? There are indeed bounty notices for this kind of thing, but of the ten people who go and do such dangerous things, nine of them won't be able to get back. The one that can get back is also half crippled."

Chen Xiang slapped his bald head, and scolded with a smile: "If you go with me, nothing will happen. I only need a capable fighter right now, when did you become so timid ... "Hehe, I understand. I don't blame you, I don't blame you ..."

Now that Xiao Chou had a wife, he was no longer as free to risk his life as he used to be.

Xiao Chou laughed dryly: "There's nothing I can do. If her grandfather knew that I was going to risk my life, he would have first taken mine. I do want to go with you, how about this, I'll lend you five hundred thousand Shen Yuan stone ... "It's fine if you don't return it to me in the future."

In three months, it would be the competition for all the halls in Supreme Divine Palace, and Xiao Chou was the main force of the first Soul Hall.

Chen Xiang very impolitely received Xiao Chou's five hundred thousand Shen Yuan stone, and then left the First Soul Hall, heading towards the Supreme Hall.

It was Feng Yuji's first time trying to improve a divine pellet for himself, and it was a very complex Zhongpin Dan as well, so he definitely couldn't do it within ten days. However, Xie Ao had said before that he needed to gather enough Shen Yuan stone within ten days, otherwise, he would sell them to others.

Those who wanted to take advantage of her would definitely come and fight her for it now. Therefore, after ten days passed, without enough Shen Yuan stones, the divine medicine in Xie Ao's hands would definitely be sold quickly.

There were a lot of missions in the Supreme Hall, and completing one was very difficult. It was said that even the Supreme God did not return.

"I can give this a try."

Chen Xiang suddenly saw an order, it said that they were going to the Beast God Realm to find a special stone, this kind of stone could only be found in the Beast God Realm's mountain range, the mountain range was very big, and inside the mountain range were many strong Special god beast, even the Supreme Gods did not dare to casually enter.

[Chapter 1948](#)

It was because Chen Xiang saw that the Beast Divine Palace that he could try to reach the Beast God Realm, that was why he felt that it was possible for him to go there and see if he could find Yue'er, the little kitten. It was very mysterious.

There was a number on the token. Chen Xiang remembered this number and went to the counter to look for the old man ...

"Clan elder, please give me the details of the nine hundred commission order" Chen Xiang said in a low voice.

"What? Did you remember wrong? Number 900? This is very dangerous!" The old man was very surprised. He could tell that he had a very deep impression of this order.

Chen Xiang laughed: "Yes, I want to go take a look."

The old man's face was stern, "Brat, are you crazy? There's only three months left until the competition? Even if you want to go, you have to wait until the competition in the various halls of Supreme Divine Palace is over. You asked your hall master if he did such a dangerous thing?"

"Elder, I have a friend in the Beast Divine Palace. I'll go ask him first. He's definitely very familiar with that place. If he doesn't recommend me to come back when the time comes, I'll come back." Chen Xiang said.

The old man thought for a while and sighed. "Since you insist, I won't stop you anymore. Remember, you have to come back alive or else we'll be together forever."

"This information originally needed two hundred thousand Shen Yuan stone. I saw that you didn't have it, so I'll give it to you." The old man handed over a jade tablet to Chen Xiang.

"If you can complete it, then the person who gave this mission would be the Chief Hall Master of the Soul Hall. He went there himself and lost half his life." The old man said.

Isn't the chief hall master of the Soul Hall Xiao Chou's wife's grandfather? Chen Xiang heard Xiao Chou talk about how not only was the chief of the first Soul Hall but also an elder of the first Soul Hall. Furthermore, it was a very powerful descendant of the Herculean God Tribe.

"Asking ten million Shen Yuan stone for such a difficult task is a little too little, isn't it?" Chen Xiang casually said that ten million Shen Yuan stone was nothing to the Chief Hall Master of the Soul Hall.

"Other than the ten million Shen Yuan stone, there's also the high quality Beast God Soul that he gifted you." The old man said: "If your friend from Beast Divine Palace can help you complete it, then you'll earn a lot. You know what, even if I went to find that guy to buy the Beast God Soul, he wouldn't sell it to me."

It wasn't long before Xiao Chou possessed three divine souls to become a God of Heaven with the help of the Chief Hall Master.

When Chen Xiang received the jade tablet, he injected the divine stone into it and got a detailed explanation. The first thing he did was to instruct him on how to leave the Sovereign God Realm and enter the Beast God Realm.

"The contents are all from a long time ago, so they can only be used as a reference!" The old man said.

"I definitely won't be able to return within ten days." Chen Xiang sighed, "Going to the Beast God Realm requires a very long journey."

The old man asked: "Do you really need Shen Yuan stone? I can lend you some first, but you have to return some to me."

"Mn, I need four million Shen Yuan stone," Chen Xiang said. "Can I?"

"No problem." The old man stayed here all day and knew that Feng Yujie had already sold quite a few Yuxin Dan s previously. He had sold quite a few Shen Yuan stone s that were refined by Chen Xiang, so he was not worried that Chen Xiang would not be able to pay it back.

"Then are you still going to the Beast God Realm?" The old man could already tell that the reason Chen Xiang had accepted the dangerous mission order was to earn Shen Yuan stone.

"Go, go! I have something to do in the Beast Divine Palace, I have to go see him!" Chen Xiang laughed and continuously thanked the old man.

After borrowing the four million Shen Yuan stone, Chen Xiang immediately went to the Boxing Hall to find Xie Ao. However, he was told that Xie Ao no longer had a choice but to return to his own Dan Hall.

The Transmission array that the Supreme Divine Palace s did not have direct access to could only rely on Chen Xiang to walk as soon as he walked out of the Supreme Divine Palace.

Deep into the night, Chen Xiang did not rest and continued to run through the forest.

"Tracking me?! I didn't even use the spatial teleportation?! There were quite a lot of traces left behind!?" In order to investigate if there were any birds or beasts nearby, Chen Xiang released a very wide spatial sensing domain. However, he discovered that there were people hiding in the distance, following the traces he left behind carefully.

Chen Xiang could not understand why she would be targeted in the Supreme Divine Palace. She did not provoke anyone, so he immediately released his divine soul to check who was following him.

His soul quickly flew over, and he only saw two black-clothed men. They wore masks, so only two eyes could be seen ...

"From the Sword Hall?" Chen Xiang could feel a faint sword intent at this moment. Only those with profound attainments in the way of the sword could have this kind of strength which was at least similar to that of the Heavenly God level.

Chen Xiang continued his journey. This time, he used the spatial travel technique to increase his speed. He did not want to clash with the two gods from Sword Hall.

"Don't tell me they found out that I killed Zhang Zhuo and the others?! If they found out that I did it, they would definitely make a ruckus!" Chen Xiang's heart trembled. He was indeed worried in this regard right now, "Could it be that they are following me for evidence or the people they sent out have already found Xu Lingfei and the others?"

All sorts of bad guesses suddenly popped up in Chen Xiang's mind, making him very worried.

Originally, he planned to shake off the two Sword Hall Gods behind him but now, he stopped using spatial travel. It was because he wanted to know why the two of them were following him and to prevent him from thinking too much along the way.

He guessed that the two gods following him were planning to wait until he was far away from the Supreme Divine Palace before making his move, so he did not continue to use the spatial shuttle. Instead, he increased his speed and ran, leaving behind traces so that the two behind him could catch up when they were about the same distance away ...

When released his Spatial Perception Domain again, he discovered that the speed of the two people behind him had increased by a lot compared to before.

After running frantically for an entire night, he was already far away from the Supreme Divine Palace. Furthermore, it was also a good opportunity to strike when he was deep in the mountains and forests.

Chen Xiang intentionally did not run over and sat there to rest, waiting for the two people to catch up ...

"I know you two are from Sword Hall." Chen Xiang only waited for a short while before the two people appeared in front of him.

In response to Chen Xiang, two sharp and ice-cold longswords pierced towards him. Chen Xiang used teleportation to avoid the two swords, while the two who were following him did not pose much of a threat to him.

[Chapter 1949](#)

These two cold swords were extremely ruthless, they condensed with very strong power, as though they were going to destroy Chen Xiang with a single sword strike, bringing along a deep cold killing intent, and the Mysterious power that was condensed inside the divine sword shot out from the sword blade, penetrating deep underground and exploding deep, causing the stone ground to suddenly burst out, forming a large hole in the ground.

Chen Xiang who had teleported away saw this and took a deep breath. If he did not dodge just now, he would have suffered greatly.

Chen Xiang now understood the purpose of these two Sword Hall Gods who were following him. They were undoubtedly here to kill him.

These two gods had come to kill him, but he did not know why. If he wanted to know, the most effective way would be to kill these two gods, and then use the Soul Absorbing Devil Spell to search their memories.

They were both Sword Hall's disciples, and more or less, they had one or two good swords in their hands. However, the God Slaughtering Sword in Chen Xiang's hands looked very weak, and could not be considered a sword in their eyes.

If it was before, he would not have believed that the God Slaughtering Sword in his hand was a divine sword, but now, it was, for the sword already possessed Divine Deity and sword spirit, and it had become extremely powerful.

Chen Xiang's Six Realms' Power surged into the divine sword as he channeled the new technique of the God Murdering Sword Techniques.

"As expected of the God Murdering Sword Techniques, kill, showing no mercy." With that, the Chen Xiang in front of them disappeared.

In the blink of an eye, they felt as if their bodies had been touched by something. That kind of feeling was extremely light, and by the time they had reacted to it, they saw that their two arms had already fallen to the ground. Following that, a slight pain came from their necks;

The time it took for Chen Xiang to use the God Murdering Sword Techniques was full of mysteries, and he killed the two men in black in an instant. He kept the God Slaughtering Sword well, grabbed the heads of the two men in black and activated the Soul Absorbing Devil Spell to find out what he wanted to know.

"Fortunately, they didn't find Xu Lingfei." The worry that Chen Xiang had always been worrying about could finally be put down, because from the two people's memories, he also found out that Xu Lingfei and his grandson had long since gone to the Heavenly God Lake.

There were some contradictions between the Heavenly God Lake and the Supreme Divine Palace, especially among the numerous Sword Hall s, who often had conflicts with the disciples of the Heavenly God Lake.

He cleaned up the scene, then left the place in a hurry. The two gods had come to kill him, mainly because he had the God Murdering Sword Techniques in his hands. This was what an elder of the Sword Hall had told them.

Chen Xiang continued to rush to the Beast God Realm. The reason the elders of the Sword Hall wanted to kill him was not because they suspected him of killing Zhang Zhuo but because the elder told the two black clothed men that it was because of the God Murdering Sword Techniques. However, Chen Xiang felt that it was not so.

When he was in the Nine Heaven Devil Palace, he had met a noble from the imperial family who came from the Divine Nations. This noble from the imperial family was with Hell Devil Emperor and his group of puppets at that time, this group of puppets all listened to this person's orders, and this noble from the imperial family was actually able to easily enter the Nine Heaven Devil Palace.

"Looks like Divine Nations is going to attack me. I wonder when Yi Bidong will return?" Chen Xiang started to worry. Previously, Yi Bidong had said that he was going to the Divine Nations, and this matter was related to him. The Divine Nations s who were in control of the Supreme Divine Palace already knew that he was in the Supreme Divine Palace.

Chen Xiang did not want to leave the Supreme Divine Palace at the moment, because he was doing pretty well in there. The hall masters and Three Gu Brothers s treated him very well, and Xiao Chou was also inside there.

The Great Divine Lord he met in the Nine Heaven Devil Palace had told him that he would be fine staying in the Supreme Divine Palace. This was because the Supreme Divine Palace also had the power of their Nine Divine Kings, but now it seemed that the power they had left was already very weak, so he could not believe too much in these words.

Five days later, he finally arrived at the Beast God Realm. After entering the Beast God Realm, he had a different feeling, even though the Beast God Realm and Supreme Divine Palace were unobstructed, there was still a strange barrier between them, and when he stepped into it, he would have a very distinct feeling.

Furthermore, the Divine Spirit Qi absorbed by the Beast God Realm was also very different from that of the Sovereign God Realm.

"I will first go to Beast Divine Palace to find Yue'er. It should be much more convenient with her help." The jade tablet that the old man gave him also recorded the way to Beast Divine Palace.

Although the Beast Divine Palace had started a war with the humans before, it was no longer a hostile relationship. According to his knowledge, there were powers planted by the Divine Nations s, and it may not be as many as the Beast Divine Palace s.

The nine Divine Nations s needed to be in control of the movements of the three divine halls at all times, so there were people from them in the light and dark of the three divine halls.

Chen Xiang's speed was extremely fast. He had travelled continuously for five days, using the power of space to travel continuously, bringing about some gods who were fast enough to fly for more than ten days.

"This Super God Realm is much bigger than I imagined. Even my furthest teleportation can allow me to traverse a very long distance, but I need five consecutive days to reach this place." Chen Xiang looked at the shadow that stood erect between heaven and earth.

This faint shadow was a gigantic mountain, and the clouds and mist could only cover the side of the mountain. The Beast Divine Palace was built on top of the mountain.

Chen Xiang understood that there were countless caves of varying sizes in this enormous mountain, and those caves contained a large number of divine beasts or Special god beast that were unable to change their shape.

"It looks like I need to strengthen my training in the Space Laws so I can teleport a longer distance away." He had already understood that the Super God Realm was a world that was even vaster and grander than the Gods Realm. He had a faint feeling that the nine Divine Nations were hiding in this world, which was larger than the Gods Realm, on every side.

Half a day later, he arrived at the foot of the mountain. The bottom of the mountain was extremely large. If he wanted to walk around the mountain normally, he would need at least half a year.

"And the stairs, who built them? I wonder if they can fly up." Chen Xiang raised his head to see how tall he was, but he couldn't see the top.

Just as Chen Xiang wanted to fly up, he suddenly heard a small sound coming from the sky. He raised his head and saw a small dot.

"It's one person ..." He fell. " Chen Xiang anxiously dodged, waiting for the man to fall to the ground.

He waited for a moment, and the man finally fell, crashing to the ground.

"Another reckless human, if you could just fly up, why would you want this staircase? You're courting death!" An old man walked over. From his tone, he should be a God Beast in human form.

[Chapter 1950](#)

Chen Xiang felt that it was strange, the person who fell down did not look weak, why was he not floating in mid air? His body was already strong, even though he was smashed down from such a high altitude, he was only unconscious and did not become a mess.

"Senior, why can't we fly up? How long will it take to walk up there?" Chen Xiang asked.

"Only Special god beast can fly, flying up to a transformed form of a Divine Beast like us is simply courting death." The old man flipped the fallen man over and shook his head, "This guy will probably be lying on the ground for a month or so."

Chen Xiang did not get a satisfactory answer, "If we fly up, wouldn't it be faster to reach the shrine at the top?"

The old man laughed, "Legend has it that the one who built this staircase took this staircase for everyone, so he made this rule. Otherwise, his Heaven Stairway would have been built in vain."

Chen Xiang laughed: "Senior, normally, how long does it take to walk up there?"

"The faster you are, the more you will reach the top in a day, while the slower you will need two or three days." The old man raised his head and looked at the sky. "It might be a little cold up there. Take care to guard against the cold when you go up there. The cold air is still very strong."

"If you come down, can you just jump down?" Chen Xiang laughed: "Then it will be faster."

The old man pointed at the man on the ground and smiled, "Of course it will be faster, but that's the way it will be. If we're unlucky and the others get their clothes off and steal everything away, then they'll be completely unlucky."

Chen Xiang greeted the old man and then went up the Sky Stairway.

The Heaven Stairway was extremely steep and was created by circling the gigantic mountain. Chen Xiang tried it out and realized that he could use teleportation without incident, hence he continued to use it. After more than two hours, he was already close to the peak.

At this moment, the clouds and mist in the sky had completely dispersed. He looked at the ground and saw that everything on it was extremely small, and he could not see the group of people walking about.

It was just as the old man had said. It was very cold here, and there was a strong and strange chill in the air. To him, this was not a problem.

"Looks like it's not easy for ordinary people to come to Beast Divine Palace." If Chen Xiang did not use his spatial energy to come up, he would have definitely vomited after running this Heaven Stairway.

From high up in the sky, one could see the occasional flying beast flying straight up before finally entering the giant palace at the top.

The Beast Divine Palace at the top of the mountain was equivalent to a huge city. There were many powerful Divine Beasts at the Beast God Realm inside the city, which was one of the reasons why Beast Gods were suppressed back then.

Amongst them, the dragon race was the most severely suppressed, and there were no longer any dragons left in the Beast Divine Palace.

There was not much distance between him and the Beast Divine Palace at the top of the mountain. Soon, Chen Xiang arrived at the peak.

Although the Beast Divine Palace was very big, not just anyone could enter there. Chen Xiang was also aware of this matter, and wanted to enter the Beast Divine Palace.

However, he had a way to get in. This palace was like a city, and the center of the temple was surrounded by shops and streets. If he wanted to get in, he would need to show his identity card.

The Beast Divine Palace was open to the other two shrines as well as to some sects here. He went to a small hut outside the gate and handed over his identity plate by the window.

"This Beast Divine Palace is so complicated, looks like it's not easy to find Yue Er." Walking on the wide street, Chen Xiang saw many birds and beasts.

The most eye-catching person in front of him was a black-armored giant ape. It was like a small moving mountain as it walked quickly on the wide street.

Behind him was a golden python that crawled forward, but when it passed by him, that thick snake body was actually taller than him by a lot. Seeing the golden scales that were giving off a golden light, Chen Xiang could not help but take in a deep breath.

This city was built for this kind of unshapeless and powerful behemoth, so the people and beasts walking on the streets were used to it. In any case, people would avoid these behemoths when they saw them.

The management of the city was very strict. Although there were all kinds of giant strange beasts walking around, there were very few conflicts. All the strange beasts here possessed intelligence. Although they could not change their shape, they possessed extremely high intelligence.

"How can I find Yue Er?" This was the problem Chen Xiang was facing. As soon as he entered the city, he had seen over a hundred cats, most of them jumping on the rooftops on both sides of the road.

"They are coming up to the main hall. One thousand Shen Yuan stone and there are twenty more seats." Chen Xiang suddenly heard a low and rough voice from behind him. He turned his head to look and almost cried out in fright.

There was a white crocodile behind him, its head as big as a small house. Its body was very long, and its four thick and powerful legs could support its gigantic body covered in white scales.

There was a row of seats on the back of the giant white crocodile, and there were dozens of people sitting on it. Although the giant white crocodile walked very fast and twisted its body, its back was very stable.

Chen Xiang thought about it and walked over to ask: "How do I give it to you?"

The Giant Alligator's huge round pearl moved, looked at Chen Xiang, and emitted a faint white light, looking somewhat scary.

"Throw it into my mouth." The crocodile's mouth was wide open, revealing its teeth that shone with a cold light like a gigantic sharp sword.

Chen Xiang took out a thousand Shen Yuan stone and threw it over, piling up into a pile. The Giant Alligator ate the Shen Yuan stone and said: "You can come up now."

Chen Xiang jumped up lightly and landed on the back of the Giant Alligator, praising the magic of Beast Divine Palace in his heart.

He quickly discovered that these God Beasts that could not transform into human forms were very intelligent. He even saw a few that could fly and run around with their people. These were all Shen Yuan stones.

The giant alligator he rode was extremely gentle. Its surname did not match its frightening and domineering appearance.

"Human child, this is your first time coming to the Beast God Mountain, right?" the Giant Alligator asked. At this time, Chen Xiang was the only one on the Giant Alligator's back.

On the road, many people had already come down. Their goal was not the great hall, but rather, to see what they wanted to buy before leaving.

"Yeah, it's amazing. I really want to stay here forever." Chen Xiang chuckled: "Being able to get along with a big guy like you, is truly an interesting thing. If I meet a big guy like you outside, either he goes after me or I go after him, or we fight each other to the death."

The Giant Alligator let out a loud "boom" laugh, "That's right, but such a thing wouldn't happen on the Beast God Mountain. The purpose that the Beast Divine Palace had set up back then was exactly as such."

"Actually, even if we're not fighting with humans outside, we would be fighting with the same kind of people. This is a very normal thing, so we can accept humans here." The White crocodile said.
