

## Dan God 2011

### [Chapter 2011](#)

Although Chen Xiang could refine three Bone level Dan s, he was still regretful that he could not refine more this time. If not for the limited environment he was in, he would be able to refine even more.

"Is it enough to eat it?" Chen Xiang picked up a Bone level Dan.

"Eat it first and see what reaction you have. If you feel a tearing pain in your body, then you must grab the opportunity to strike the place of pain with all of your physical strength. If you succeed, you should be able to condense Bones." Yang Tianyi took a Bone level Dan. He now believed that this was refined by Chen Xiang and the quality was extremely good.

Chen Xiang laughed: "Brother Yang, if you don't believe me, you can eat one and see what happens to you!"

Yang Tianyi shook his head and laughed: "There's no need to try, I have also eaten a few of these Bone level Dan. Although they have been separated for a long time, I am sure that they are real! That year, I ate so many Bone level Dan's medicinal ingredients, it was simply too expensive. If I let you refine them, I don't know how many of them would be made up of Bone level Dan, maybe I would have condensed even more Bones! "

"Little brother, you don't know how expensive the Bone level Dan in Star Law Divine Realm are. If you can sell these three pills you refined, then you can definitely make a huge profit! "Of course, individuals are not allowed to buy or sell pills alone in that place. If they are found out, the people who buy or sell pills will be severely punished."

Mentioning this matter, Yang Tianyi's face was full of unwillingness. It was because of this matter that he was brought in.

Wu Cang watched on from the side, his face full of displeasure. He hated Chen Xiang very much, not only did he destroy the Samsara Sacrifice, he even beat Chen Xiang up when he came in! He also pushed the responsibility of him being trapped here to Chen Xiang.

Right now, he saw Chen Xiang refining a Bone level Dan and was about to cultivate Bones, which made him even more uncomfortable and jealous!

Chen Xiang swallowed a pellet of Bone level Dan, closed his eyes and started to refine the Bone level Dan's medicinal power, waiting for the opportunity to condense Bones to appear.

Half a day had passed and Chen Xiang had already completely refined the Bone level Dan's medicinal strength. He opened his eyes, and said while frowning: "What's going on? Even if there was no opportunity, there should be some use to it. This is a Xiaping Dan, it should have some effect on me. "

Chen Xiang had thought that even if the Bone level Dan couldn't condense Bones, it would at least strengthen his body a little.

"It's like this. Although Bone level Dan are expensive, but I can't guarantee that I can trigger the opportunity to nurture Bones at any time. Back then, I ate a lot of broken grass and flowers to have

some effect. " Yang Tianyi laughed bitterly and patted Chen Xiang's shoulder: "There are still two pills. If your luck is not bad, I should be able to help you condense your Bones."

Seeing Yang Tianyi's smile, Chen Xiang felt that even if he was lucky, he wouldn't be able to condense Bones!

Chen Xiang sighed helplessly as he ate another Bone level Dan and started to refine it.

He had refined it for a good half an hour without any results, but now, after the first two hours, Chen Xiang felt a slight pain in his entire left arm!

He, who initially did not hold much hope, was pleasantly surprised. Yang Tianyi had said before that this was a sign of an opportunity appearing, but this sign was not too obvious. It did not have the tearing pain that Yang Tianyi had described.

He continued for another hour. Suddenly, there was a pain in his left arm. It was as if his bones were shattered and his flesh was torn apart. It was so painful that his brows were tightly furrowed and his head was covered in sweat.

"Hurry up and gather the strength of your physical body at the place of pain!" Seeing Chen Xiang's reaction, Yang Tianyi immediately shouted out in surprise.

Chen Xiang had already condensed the power in his body, controlling the power to continuously rush into his left arm, he only did as Yang Tianyi said, he did not know what would happen after he gathered all his power into his left arm.

"I didn't think that you would trigger this opportunity so quickly. You must seize this opportunity and not miss it. Otherwise, it will be even harder to find you in the future. I was also like this before." Yang Tianyi was a little excited, to be able to see a young man condensing Bones under his guidance, was something that was worth being happy about.

Chen Xiang continued to channel all the energy in his body into his left arm. He only felt that the energy disappeared after it entered his left arm, which made him very surprised, his left arm was like a bottomless pit, crazily devouring the energy in his body. He felt that if he did not have the endless energy to enter, the pain would have disappeared!

The disappearance of the pain meant that he had failed to condense his Bones. In order to succeed, he could only continue to focus his strength on his left arm. This would also cause him to feel more and more pain.

"This kind of pain is not something that an ordinary person can withstand, but it seems like you think it's nothing!" Yang Tianyi recalled that the first time he had triggered this opportunity, it was because he couldn't endure the pain and had to give up. This resulted in him missing out on a very rare opportunity.

Although Chen Xiang felt pain, it was not to the point where he couldn't bear it. Compared to the rough training he experienced many years ago, this kind of pain was nothing to him.

Wu Cang gritted his teeth as he saw this, his fists clenched tightly. At the same time, Yang Tianyi was also looking at Chen Xiang with rapt attention, in case something happened to Chen Xiang.

Wu Cang suddenly flew over, and threw a punch towards Chen Xiang's back, and roared: "Little bastard, go and die!"

Although Yang Tianyi did not notice Wu Cang, when he sensed that something was nearing, he immediately reacted. When Wu Cang's fist was still three inches away from Chen Xiang, his wrist was grabbed by Yang Tianyi.

"The one who should die is you!" Yang Tianyi shouted coldly, he used all his strength to twist Wu Cang's arm, and after a spin, his entire arm was crippled.

"Scram to the side, I'll deal with you later!" Yang Tianyi slapped his palm towards Wu Cang's chest, sending him flying.

Wu Cang was thrown out like a piece of trash. After falling on the ground, he stopped moving, but he did not die.

Yue'er must have accumulated a lot of anger over the years. Only by letting her personally punish Wu Cang, would Yue'er be able to dispel the hatred in her heart. She never thought that Wu Cang was so anxious to court death, to actually plot against him!

Wu Cang fell to the ground after being hit by Yang Tianyi's palm, half-dead. It could be seen that Yang Tianyi's strength was extremely terrifying, and Chen Xiang rejoiced that his relationship with Yang Tianyi was not bad.

"Brother, don't worry, that guy won't be able to get up. All the bones in his body have been shattered." said this, feeling extremely guilty in his heart, he actually did not notice Wu Cang. If he was extremely vigilant, Wu Cang only needed to move a bit, and he would be able to quickly cripple Wu Cang. And just now, he had interfered with Chen Xiang's plans and nearly ruined the big matter.

"Ahh ..." Chen Xiang suddenly roared out, the sleeves on his left arm suddenly burst and became a pile of shredded cloth, the thick and strong arm was extremely red and was swelling up, the muscles and veins protruding, it was sinister and terrifying.

"It's going to be a success!" Yang Tianyi clenched his fists and said excitedly.

## [Chapter 2012](#)

Chen Xiang also felt that the bones and muscles of his left arm were completely reborn a moment ago, as they suddenly erupted with extremely terrifying power. The bones of his left arm seemed to have shattered in an instant, but they quickly reformed, at the same time producing a huge transformation in the meridians and blood vessels of his left arm.

Chen Xiang continuously roared, he only felt that his arm was hot and painful, as though countless red-hot iron needles had pierced into his arm and pierced through his flesh and bones.

After a while, Chen Xiang let out a long sigh as he was about to grind his teeth into pieces. His left arm stopped expanding, and gradually recovered its original form, the redness on his skin also faded, returning to its original tanned and healthy skin color.

Chen Xiang was in so much pain that he was sweating profusely, he was already drenched in the water, his face was pale white, and now he only felt that he was completely exhausted. After he let out a long breath, he laid on the ground, closed his eyes and fell asleep.

After Chen Xiang had slept soundly, Yang Tianyi walked over, grabbed Chen Xiang's arm, and examined the internal Bones. How could this be, I can condense a Double bone level all at once! "

Yang Tianyi was completely shocked and shook his head. "Impossible, an arm can only have one Bones, a body can only have one Bones in nine places, and now he has two arms! What was going on? Does he have one Bones or two? "

An unusual thing happened to Chen Xiang once again. Previously, when Chen Xiang was able to refine a Bone level Dan in the Divine Sense Sea, Yang Tianyi thought that it was very powerful.

"If all the other parts of this boy's body were Double bone level, wouldn't he have eighteen Bones in the end? "This is too scary!" Yang Tianyi took a deep breath, and looked at the soundly sleeping Chen Xiang. He could be considered to be well-informed, but this was the first time he had heard of this sort of thing.

Chen Xiang slept for a few days before waking up. When he woke up, he felt hungry, so he quickly took out something to eat to replenish his energy.

"The power brought by the Bones is indeed abnormal!" Chen Xiang looked at his left arm and shook it tightly. He could release the power that came from his body as he wished without any restriction.

"If you can use the power of the Divine Sense Sea to coordinate with it, and add on the Double bone level on your left arm that has been fused with your divine soul, the power would be even more terrifying! You should be a lower god now, there are only two Divine Deity s in Divine Sense Sea! Yet your Double bone level can give you the power of six Divine Deity, or even stronger. " Yang Tianyi said: "Brother, at this rate, you will only become stronger and stronger!"

"Double bone level?" Chen Xiang was startled, he did not notice that, he only felt that there was something inside the bones in his left arm that could make him stronger.

Now, after a careful inspection, he discovered that there was indeed something similar to Divine Deity in his left arm, only that it seemed to be a little smaller than the Divine Deity. It was just these two Bones that allowed his entire left arm to possess a very powerful strength.

"So Bones can actually grow in one place and make this place even more powerful!" Before, Chen Xiang only thought that Bones would allow his entire body to gain power, but now, it seemed that only his left arm was stronger.

Yang Tianyi laughed: "Don't just think that having Bones is useless. If you have the chance, you will know! In the past, the strength of your left arm needed to be matched with the strength of your entire body, but now your left arm doesn't need to be linked with your body to be able to release such a strong power! Even if a major part of your body is injured, as long as you move your mind, power will be generated in your left arm and you can even drag your body! "

Chen Xiang sat on the ground and followed Yang Tianyi's instructions to throw out a punch, and as expected, his body flew out with the left fist, causing him to fly out a distance!

"If it is compatible with the body, then it will be even more terrifying!" Of course, after you leave this place, you can still coordinate with the power inside the Divine Sense Sea, which is how you can display the power of your Bones. " Yang Tianyi laughed.

Chen Xiang looked at Yang Tianyi's legs and asked: "Big Brother Yang, is your Bones on your legs?"

Yang Tianyi nodded his head, "Each of my legs has one Bones, then it's my right arm. I only have three Bones in total!"

Now, Chen Xiang finally understood why Yang Tianyi ran so fast previously. That kind of speed felt like teleportation.

Wu Cang, who had been knocked out previously, had already woken up and was moaning in pain.

"This guy almost killed you. What are you going to do with him?" Yang Tianyi did not kill Wu Cang because he gave her the chance.

As for Chen Xiang, he wanted to give it to Yue'er, but he felt that there was no need for him to do so now.

"Big Brother Yang, this guy is also a space beast. I wonder if his divine soul is suitable for me?" Chen Xiang asked.

"As long as it's a powerful divine soul! This fellow's innate talent is not good, and is unable to display the divine soul on his body. But your innate talent is not bad, and his divine soul will have quite a good effect on your Bones! This fellow is also at the peak of the Supreme God Realm and has eighteen Divine Deity. However, it would not be easy for you to extract all of his Divine Deity and divine soul. Yang Tianyi had already investigated Wu Cang's Divine Sense Sea, and could only find his first Divine Deity and divine soul from within.

Hearing that Chen Xiang wanted to devour his divine soul, Wu Cang became extremely terrified, and shouted with a groan: "I am a loyal subordinate of the Ancestor Emperor, you cannot kill me! Your little bastard's Bones is not worthy of my divine soul at all! "

Chen Xiang coldly snorted. "Don't worry, your divine soul will not appear inside my Bones! I am quite interested in the Ancestor Emperor that you are talking about, his divine soul should be enough to satisfy me. "

With that, Chen Xiang covered Wu Cang's head with his palm and used his most skilled technique to remove Wu Cang's Divine Deity.

"Five Divine Deity and five divine soul, not bad at all!" Yang Tianyi saw that there were five pearls containing small people in Chen Xiang's hand, and could not help but laugh: "Brother, you should be doing this frequently. If you don't have any experience, you can't be able to take out so many at once."

"Brother Yang, do you want it?" Chen Xiang laughed.

Taking the Divine Deity was like taking out a bird's nest in their eyes. Fortunately, Wu Cang was already dead, otherwise, even if he died, he wouldn't be able to rest in peace.

Yang Tianyi waved his hand, "I don't need it now! Are you really not planning to merge this guy's first divine soul into your Bones? "

The first divine soul is the strongest, and there is no way to hide it, so it can usually be grabbed.

Chen Xiang laughed: "Didn't I say it earlier? I am rather interested in that Ancestor Emperor's divine soul. If Big Brother Yang is fortunate enough to be able to go out, then you must help this little brother out! "

Yang Tianyi laughed openly: "I will definitely help you. If I can get out, it will all be thanks to you! However, little brother, when the time comes, you must help me refine a few Bone level Dan s, and it would be best if they are of the upper rank. Right now, I can only condense the fourth Bones if I eat upper rank Bone level Dan s. "

### [Chapter 2013](#)

Just by eating the ingredients, Yang Tianyi was able to eat three levels of Bones. One could imagine how many of those ingredients he had eaten, and it was no wonder that he was targeted by the Star Law Divine Realm. This was because the medicine he bought from the Bone level Dan was too crazy!

Chen Xiang laughed: "That's for sure. If it wasn't for Big Brother Yang, I don't know when I would have found the Bone level Dan's medicinal ingredients, and I wouldn't have had the chance to refine it! Oh right, Big Brother Yang, did you manage to cultivate up to nine Bones in the Star Law Divine Realm? "

"There are some experts who are filled with Bones, but they are extremely rare, and they rarely show themselves. I have heard of them in the Star Law Divine Realm, but I have never seen them with my own eyes! Normally, a fellow with a full Bones would be considered a top-notch existence in the Star Law Divine Realm. " Yang Tianyi said.

"This means that since Big Brother Yang has three Bones, he should be very strong in the Star Law Divine Realm." said in shock. Nine Bones s were already full, and Yang Tianyi already possessed three Bones s.

"It's hard to say. Three Bones s are the pinnacle of a single stage, and I don't have a good divine soul. If I have the chance to leave, I have to return to the Star Law Divine Realm. Yang Tianyi raised his head to look at the dusky sky. He had already stayed here for many years, but now, he had a very good chance of leaving.

"The power of the moon and stars should have already descended, I wonder how things are going outside!" Chen Xiang also looked up in the sky, extremely worried for Yue'er.

The patriarch and the few elders in the Star Moon Divine Race were all very scary, but there was still the mysterious Ancestor Emperor behind them, and it was said that he was even stronger than them. If they were to alarm this Ancestor Emperor, Yue'er's situation would become even more dangerous.

Chen Xiang told Yang Tianyi about the stories outside, as well as some of his own experiences.

Yang Tianyi had been alone in this place for many years, so it was very interesting for him to be able to hear some news.

"I've heard that these nine Divine Nations s are related to the Star Law Divine Realm, and their overall strength is also very strong, especially the nine Divine Nations s. It's said that their strength makes the

other Star Law Divine Realm's forces afraid, but I think that if they were to fight, the Star Law Divine Realm should be able to win." Yang Tianyi said, "You said that the nine Divine Nations are in trouble? could he be from the Star Law Divine Realm? "

Chen Xiang shook his head: "I'm not sure either, I just heard that a new Divine Nations has risen up, so these nine Divine Nations need to focus their energy on this. They should be trying to work together to suppress this new Divine Nations."

"Star Law Divine Realm is in the endless starry sky beyond this space, and it seems like Nine Gods Nation is also on some giant stars beyond this space. It's not easy to go to those places either, you need to travel through the dark starry sky, it's filled with danger! Even if I were to return to Star Law Divine Realm now, it would not be that simple. " Yang Tianyi thought back to the matters concerning the Nine Gods Nation in his mind.

Previously, Chen Xiang did not know where the location of the Nine Gods Nation was, but now he finally found a clue.

Chen Xiang asked: "Brother Yang, if you can leave, do you really want to return to Star Law Divine Realm? "You sneaked out of this Star Moon Hell, wouldn't it be dangerous for you to go back?"

Yang Tianyi chuckled: "Even though what I did that year was quite shocking, after all, so many years have passed. Most of the people who heard about me back then are probably already dead now, and after so much time has passed, who would still remember me?"

"I have to find the best divine soul inside my Bones, that way I can become even stronger, in this kind of place it's hard to find, so I have to go back, even if there's danger I have to take the risk. I have already wasted my Bones for many years, and have not found any good divine soul for them in all these years, I feel very sorry."

Chen Xiang also had the thought of merging Wu Cang's divine soul with his Bones, but after thinking about it for a while, he realized since Bones were so important, then he must find a relatively stronger one when merging with divine soul.

After a few more days, Chen Xiang sighed: "I still have to participate in the pill refining competition, looks like I won't be able to make it!"

Yang Tianyi said: "Old brother, your pill refining level is very high. If you were in Star Law Divine Realm, you would have definitely been won over by those big powers! When I was in Star Law Divine Realm, I heard that the most powerful of the Pill Gods could only refine four Bone level Dan at the most! And since you were able to refine three pills in this environment, if you go out, you will definitely be able to refine even more. "

Yang Tianyi had a wide range of experience. When Chen Xiang had refined the three Bone level Dan, he had already seen Chen Xiang's talent. As long as he continued to grow at this pace, he was very sure that Chen Xiang would achieve great things in the Pill Dao in the future.

There were only three days left until the start of the Heroes Gathering Divine City's Great Assembly. Chen Xiang lied on the soil, looking at the grey clouds in the sky with a helpless expression.

Suddenly, he saw a very small dot of light. At the beginning, he thought he saw wrongly, but after hearing Yang Tianyi who was at the side shout, he started to look carefully.

"Something is coming in!" Yang Tianyi stood up quickly and started to be alert. Although he did not know what it was, but in an unknown situation, Yang Tianyi would still treat it as a dangerous object.

Chen Xiang also suddenly jumped up, the light dot was sliding far away from where they were, and there was also a grey mist coming from it.

"Let's go take a look. We have to be careful." Just as Yang Tianyi finished speaking, a spatial ripple spread over, and then, Chen Xiang only saw a white shadow flash over. It was a little white cat with wings.

"Yue Er!" Chen Xiang shouted in surprise. Yue'er had also jumped into his embrace.

"Hee hee, I'm here to see you!" Yue'er was extremely happy, and the fact that she could still come here showed that her memories had returned to a great extent.

Chen Xiang caressed her head and laughed: "It's good that you're okay, I'm worried about you! Can you let us out? "

Yue'er looked at Yang Tianyi at the side and meowed in surprise, "Yang Tianyi, I didn't expect that you would still be alive!"

Yang Tianyi laughed: "Master Cat, look at me, I have been locked in here for a long time. I should be able to leave now, right? I know I was wrong, but I won't do it again. "

"Oh right, Yue'er, did that fellow called Ancestor Emperor come out?" Chen Xiang asked worriedly.

"No, but it should be soon. It should be in these two days. That fellow is truly a bastard. Right now, I have only recovered my memories and have yet to recover my strength. I simply cannot deal with him! " Yue'er looked at Yang Tianyi and said: "Yang Tianyi, I'll let you out and you help me get rid of that guy. I guarantee that when you return to Star Law Divine Realm in the future, you won't get caught again."

#### [Chapter 2014](#)

Yang Tianyi laughed, and patted Chen Xiang's shoulders: "Don't worry, I've already promised brother, kill that stupid cow, and let him take out his divine soul and merge it with the Bones!"

Yue'er was a little surprised, Chen Xiang had actually gotten along so well with Yang Tianyi.

"Chen Xiang, how do you know about the Ancestor Emperor?" Yue'er was a little curious and looked at Yang Tianyi: "Did this guy tell you? Since you were able to condense Bones, it should be because this fellow helped you right!?"

Back then, when Yang Tianyi plundered a large pile of Bone level Dan's medicinal herbs from the Star Law Divine Realm, Yue'er naturally knew that she was in charge of this Star-Moon Hell and she had a very good understanding of the criminals who were imprisoned inside.

"No, it was Wu Cang who told me to come in with this guy. I've already killed that guy." Chen Xiang was already very relieved at this moment, because Yue'er could bring them out.

Yue'er harrumphed, "It's good that Wu Cang died. He's killed me quite a few times!"

Even after Chen Xiang saw Yue'er recover her memories, she actually wasn't affected much. She was extremely impressed with Yue'er's mental state, after all, what she had experienced all these years could be said to be extremely painful.

"Master Cat, when can you send us out? I'm anxious to see the outside world. I've been locked up here for a long time. " Yang Tianyi said with a look of longing.

"I need a bit more time!" Yue'er was not anxious at all, "Yang Tianyi, how many Bones do you have now? Can you beat that stupid cow? That bastard ambushed me when I was heavily injured, if not I wouldn't have been captured by him. "

"I only have three Bones, and I don't have a good one either! After so many years, my strength has also increased quite a bit. That stupid cow does not have much pressure on me! " Yang Tianyi said: "Master Cat, how did you receive such a heavy injury in the first place? As the law enforcer of Star-moon Hell, you should be very strong! "

It's those Divine Nations guys, I met them when I was passing by this place, and they were extremely arrogant, in the end, they surrounded me and attacked me. When I escaped to this place, I met that stupid cow and was ambushed by him! Yue Er said furiously, "I have already remembered that Divine Nations. Once I recover my strength, I will definitely go and find them to settle the score."

Chen Xiang and Yang Tianyi both didn't think that Yue'er becoming like this, would actually have something to do with the Divine Nations!

"Yue Er, when will you recover your strength?" Chen Xiang didn't think that Yue'er also had a common enemy that he wanted to deal with, and that all the Divine Nations s would want to deal with him as well.

"I need to have the next Star-moon Banquet. I can only regain my memories after what happened just now!" Chen Xiang immediately understood what she meant by Star Moon Banquet. It should be that Samsara Sacrifice.

"Can we leave now?" Yang Tianyi was already impatient.

"I need some time. I need two to three days. Be patient!" Yue'er smiled before flapping her wings and flying into the sky.

Chen Xiang and Yang Tianyi immediately saw a circle appear on Yue'er's flying body, accompanied by a few Spirit grain s. She was setting up the formation right now!

The soil on the ground was formed from the power of the stars. It could be used to arrange a formation and produce a very strong force!

"Only she can use the power of the Divine Sense Sea here, she is the master here! It's just that she doesn't have enough strength right now. If she's a little stronger, and is able to control this Star-moon Hell, then maybe she can get that stupid cow back. " Yang Tianyi was now certain that he would be able to leave soon. He was in a very good mood and his face was full of smiles.

Yang Tianyi lay on the ground and laughed: "Look at the sky above this place again, because you will never be able to see it again! After we go out, I'm looking forward to testing my three Bones! I hope that stupid cow is stronger, so that I can have a good time later. "

Chen Xiang was completely speechless. Other people would always hope that their opponent would be weaker and better, but this Yang Tianyi was hoping that her opponent would be stronger and better.

"Brother Yang, don't lose when the time comes!" Chen Xiang joked.

"I know the power of that stupid cow. Although he has enjoyed the power of the Star-Moon Banquet for so many years, he has been sleeping the entire time. He probably could not absorb it that fast, only by that method! Mr. Cat is very special, so she can have the Star-moon Banquet. Only an existence like her can quickly digest this much power, not that stupid cow. " Yang Tianyi said: "When the time comes, I'll kill him and try my best to capture his divine soul. Furthermore, his Divine Deity should also contain quite a bit of the power of Star Moon Banquet, it would be best if I can give it to Mr. Cat."

Yue Er was still setting up the teleportation formation. If she was the one who was going out, it would be very easy for her, but right now she had to get Chen Xiang and the prisoner out, it would take a lot of effort.

"Brother, after I settle this stupid cow, I need to make a trip back to the Star Law Divine Realm to find a divine soul that I am satisfied with and merge it into my Bones as soon as possible! When I finish all of this, I will come back to find you all. I don't have enough strength, so I won't be able to face those Divine Nations s! " Yang Tianyi was also very loyal, he was very clear that the reason he was able to leave this place now, was all because of Chen Xiang and Yue'er.

As for Chen Xiang and Yue'er, they both had enmity with the Divine Nations, and he felt that he would have to help Chen Xiang and Yue'er to fight against the Divine Nations to repay their gratitude.

Moon Child's formation took a long time to complete. She had to spend nearly two days to do so!

"That's enough. Quickly come in, I'll be able to leave after opening the formation." Yue'er said, "I hope that stupid cow isn't outside!"

Yang Tianyi laughed out loud: "It's great that he's outside, the moment I go out, I can beat him up!"

Yue'er had brought her own Star-Moon Hell to this place, but was severely injured by the attacks of the Divine Nations. In the end, she was ambushed by the Ancestor Emperor, resulting in her becoming the Samsara Sacrifice's sacrifice.

For many years, the higher ups of the Star Moon Divine Race had been enjoying Yue Er's Star and Moon Banquet, which was why they had become one of the four God Beast Clans!

Yue'er stood on Chen Xiang's shoulder and shouted, "I'm going to activate the formation!"

Chen Xiang and Yang Tianyi nodded, Yue'er's body started to shine with a white light, the dirt on the ground suddenly started to shine! made Chen Xiang and Yang Tianyi feel like they were inside a sea of stars.

This kind of beautiful scene didn't last long before Chen Xiang and Yang Tianyi felt scorching hot flames. They had finally left Star Moon Hell and arrived outside!

"It's not that Star Graveyard!" Chen Xiang asked in shock when he saw that he was surrounded by prairie.

"Of course not. When I came in, I had already moved the triangular star stone." Yue'er was currently standing on top of the triangular flagstone, and the Spirit grain on top of the triangular flagstone was still radiating light.

Yang Tianyi laughed as he sprinted across the dark green prairie. "I'm finally out, I'm finally seeing the light of day again, haha ..."

Yue Er chuckled a few times, then kept the triangular star stone, which should have been taken in by her Divine Sense Sea.

### [Chapter 2015](#)

When Yang Tianyi started laughing crazily, the earth started to shake and an extremely terrifying power burst out from his body. He excitedly tried out the power of the Divine Sense Sea that had been suppressed for many years, and combined it with the three Bones that he had condensed, the power became even more terrifying.

"Quickly stop, this place will be destroyed by you!" Yue'er hastily called out. The plains and the mountains around them were currently violently shaking. Mountains had already collapsed in the distance.

When Yang Tianyi heard Yue'er, he immediately controlled his own strength. It was rare to see flowers and plants, he did not want to cause trouble.

"Save your strength for that stupid cow! "This fellow probably hasn't come out yet, otherwise he would have changed a long time ago!" Yue'er laughed tenderly: "Yang Tianyi, you better not be messing around here. You don't want to be locked in that damned place again, right?!"

Yang Tianyi immediately shook his head: "I'd rather die than go back to that place. Master Cat, you promised me that if I helped you get rid of that stupid cow, I won't be locked in Star Moon Hell again!"

Yue'er smiled. "I did promise you, but only if you don't do something too outrageous. Otherwise, I won't be able to protect you!"

Chen Xiang took a deep breath of the outside air, and then, he also tested circulating the Six Realms' Power to his left arm. After using the Bones on his left arm, his left arm suddenly trembled, because of the sudden powerful force produced when the Six Realms' Power and Bones clashed, causing Chen Xiang, who was not used to it, to have difficulty controlling it.

"So powerful!" Chen Xiang exclaimed: "If he had a little more Bones, his strength could be imagined!"

Although it was just a lower god, Chen Xiang relied on the Double bone level on his arm, his strength comparable to a Upper Heavenly God, so if he fused with the powerful divine soul and entered the Bones, his strength would become even more terrifying.

"Strange? You only managed to cultivate a single Bones, so your strength shouldn't be so terrifying! " Yue'er sat on Chen Xiang's left shoulder, and she could very clearly feel the power that had just exploded out of Chen Xiang's left arm. It was truly very frightening.

Yue'er, who had regained her memories, was a very ancient Ranker, the law enforcer of the Star Law Divine Realm. From the way Yang Tianyi treated her, he knew that a law enforcer like Yue'er was extremely terrifying. Yet now, they did not understand why Chen Xiang's strength was so terrifying!

"This kid is a monster. What he condensed out was the Double bone level, and there's actually two Bones in one of his arms. I have never heard of such a thing." Yang Tianyi only ate two Bone level Dan s before he cultivated Double bone level. Back then, he had eaten a lot of Bone level Dan s medicine and his tongue was numb from it, but he was only able to cultivate three Bones pills.

But the most amazing thing about Chen Xiang was that in his growth dimension, only one set of Bones could be produced from a single place, but he had miraculously managed to condense two. After Chen Xiang combined with the Six Realms' Power, he almost couldn't control that kind of terrifying power.

"Double bone level!" Yue'er cried out in alarm, "Is this for real?"

After saying that, she fluttered her wings and flew up, hugging Chen Xiang's left arm. In just a moment, she had confirmed that there were indeed two Bones s inside Chen Xiang's arm.

When Chen Xiang saw Yue'er, he was startled and hurriedly asked, "Is this a good thing or a bad thing?"

"Of course it's good news! Even though this kind of situation had happened before, it was extremely rare. A fellow who could cultivate Double bone level was extremely terrifying when it came to the later stages, especially when one needed to strengthen their Bones to raise their strength! At that time, it will be extremely difficult to raise even a little bit, and with the Double bone level, you will have an extra set of Bones! "

Yue'er's tone was also filled with jealousy and envy, as she continued, "Do you know what it means to have an extra Bones? that fellow with a lower Bones can be completely crushed like you! "

Chen Xiang laughed: "Right now, I'm still far from that kind of limit. Normally, what level would I have to reach to rely on raising my Bones?"

"The Hundred gods level is the limit. At that time, I will need to strengthen my Bones and use it to break through the limits of my own strength!" In theory, the divine soul contained within can be very strong, and normally, it will enter through the late stages of the divine soul. For example, right now, your Bones already has a set of divine soul.

Yang Tianyi interrupted: "But it's extremely dangerous. The fusion of the two types of divine soul is already very unstable, it's very likely to be like refining pills and explode. One of them is gone!"

Yue'er said, "At that time, in order to increase my strength a little, there's no other way!"

Chen Xiang curled his lips: "You're saying that kind of realm is easy to reach, I only have two Divine Deity s right now, and I still need ninety-eight more Divine Deity s to reach. I still don't know how many years it will take."

Yue'er tenderly snorted, "What do you know, brat? With your innate talent, going to that realm is only a matter of time, so you must definitely choose your first soul of Bones, otherwise you will have to take the risk later when you need to increase your Bones! There were many fellows from the Hundred gods level in the Star Law Divine Realm. After being in the Star Law Divine Realm for so many years, many of

them had already reached the peak of their existence! The so-called peak level is Hundred gods level, the nine Bones! "

Yang Tianyi laughed and said, "Master Cat, do you think it's possible for Brother Chen Xiang to use Double bone level every time he condenses his Bones?"

"This ..." Yue'er thought for a moment, then immediately shook her head: "Definitely not, it's already extremely difficult to come out with a Double bone level. If he comes out every time, he'll end up with eighteen Bones in the end.

When Chen Xiang thought about the ninety-eight Divine Deity he still had to cultivate, he could not help but sigh. This must be a very long road!

"Big Brother Yang, come back with us first!" If that Ancestor Emperor appears, he will definitely come looking for us. It won't be too late for you to take action then. " Bringing Yang Tianyi back to the Heroes Gathering Divine City was no big deal, what's more, this was a very strong guy.

Yang Tianyi nodded his head, "Anyway, I've been locked up for so long, I still want to explore this world!"

Just as Chen Xiang was about to open the spatial tunnel, Yue'er and Yang Tianyi's expressions suddenly changed.

"The stupid cow is awake, this guy actually became so powerful!" Yang Tianyi, are you able to handle it?  
" Yue Er asked with worry.

Yang Tianyi said with a serious face: "You can, but I need to merge a divine soul with my own!"

Yue'er replied: "I'll gift you with a set of divine soul. Although it's not that good, it's still much better than fusing with your own divine soul!"

When necessary, he could also merge his own divine soul into his own.

## [Chapter 2016](#)

Yue'er took out a pearl from nowhere and handed it to Yang Tianyi.

Yang Tianyi looked at the blue flickering flame inside the bead, and asked: "This divine soul is very familiar, I think I've seen it somewhere before!"

"This is Star divine soul. After the destruction of some sun-like stars, it is possible that they would give birth to this kind of Star divine soul. I have only collected this for many years!" Yue Er said.

Yang Tianyi was surprised, and laughed: "Your divine soul is not bad, why didn't you just give it to this kid? That Ancestor Emperor's divine soul might not even be as good as this. "

"No, that stupid cow has quite a bit of divine soul. If we give it to Chen Xiang to retrieve the soul, he only needs to take out most of the divine soul and the Divine Deity of that stupid cow, and then let him refine everything into a whole. That would be the strongest." Yue Er said.

Chen Xiang had the Heavenly Alchemy, so fusing divine soul and Divine Deity that were of the same origin was simply too easy. This was something Chen Xiang had never thought of before.

Yang Tianyi nodded his head, he knew that Chen Xiang had very good pill refining skills, and laughed: "Then I will not be courteous, it is just that when the time comes, I will need some time to fuse them."

Currently, in this place, the Ancestor Emperor who had just woken up was the strongest, no one could deal with him unless he personally took action. However, Yue'er knew that the Ancestor Emperor was also connected to the Divine Nations.

Yue'er had a very bad impression of those Divine Nations. When she first arrived here, she was attacked by the strong warriors of the Divine Nations.

So Yue'er placed her hopes on Yang Tianyi, and furthermore, after Yang Tianyi killed the Star Moon Ancestor Emperor, he could still obtain Divine Deity from them!

Yue'er was very clear that the reason she had the chance to recover her memories was all because Chen Xiang had risked his life to save her and she also liked to stay by Chen Xiang's side.

"Go back to the Heroes Gathering Divine City and fuse with them. When the time comes, we will provide you with a place. But when you go to that city, you must converge and not destroy it!" Just now, Yang Tianyi had almost destroyed this beautiful grassland.

Very quickly, Chen Xiang and Yue'er brought Yang Tianyi back to Heroes Gathering Divine City!

The Heroes Gathering Divine City's Great Assembly was called the Assembly of the Supreme Gods. The elites from the various forces in the Super God Realm were gathered here to compete with each other, and if there were any good seedlings, they would be selected by the Divine Nations and sent into the world of the Divine Nations to be nurtured.

This was something that many outstanding young disciples looked forward to, so when the time came, everyone would definitely fight with all their might.

Chen Xiang brought Yang Tianyi to his shop. Right now, the shop was closed, but there was someone inside.

Feng Yujie and Shui Bingyan were both here. When they saw Chen Xiang and Yue'er had returned, they were extremely happy because they were extremely worried about Chen Xiang.

"BingYan!" Yue'er shouted with her sweet voice, then happily threw herself into Shui Bingyan's embrace.

"Hello Elder Brother Shen, this big brother is ..." When Shui Bingyan saw Chen Xiang, he immediately greeted him and then looked at him.

"He's Big Brother Yang. He needs a basement now." Chen Xiang smiled and caressed Shui Bingyan's hair.

Yue'er replied, "I know where it is. I'll take him there!"

Yang Tianyi cupped his fists towards Feng Yujie and Shui Bingyan, and then hurriedly followed Yue'er.

"Who is this person?" Feng Yujie hurriedly went forward to hug Chen Xiang, because she found out from Yue'er that Chen Xiang had met with danger. Otherwise, he wouldn't have not returned even at the start of the convention.

Chen Xiang kissed her small mouth and said: "It's alright, just now, Big Brother Yang was a good person who helped me. Furthermore, he still has to help Yue'er to defeat the enemy."

"Right, aren't you going to watch the convention begin?"

Feng Yujie shook his head: "I didn't hear any news about you, I don't want to go anywhere! The White Tiger and Vermillion Bird have also gone to join in the fun, they have been chatting with Mu Chen and Xiao Changle very much. "

Yue'er flew back, saying with a smile, "That guy has already gone into seclusion. Once he defeats that stupid cow, we'll be safe."

Feng Yujie asked curiously: "What exactly happened to you two? I keep having the feeling that you are hiding something big! "

"Let me say! Let me say it! " Yue'er hurriedly shouted, because the moment she recovered her memories, she immediately told Feng Yujie and Shui Bingyan that she was in trouble, and then hurriedly left. She didn't even have time to tell Feng Yujie and Shui Bingyan about her own matters.

Chen Xiang asked: "The Great Games have begun, is it okay if we don't go?"

"It's fine, we are only announcing the start of the conference. Today, we will be competing in other matches, we will be refining Xiaping Dan tomorrow." Feng Yujie said.

Yue'er began to recount her experiences, how she was besieged by Divine Nations Rankers and then ambushed by them, becoming their sacrifice ... Finally, she went to the Moon Slaughter Devil Nest to save Chen Xiang.

"This is the Bone level Dan's medicine!" Chen Xiang took out two copies and gave it to Feng Yujie, then laughed: "This is very easy to refine, you don't need me to teach you! These Bone level Dan's medicinal ingredients are all low-grade, we have to make high-grade ones! "

Feng Yujie's face immediately blushed a little. She and Chen Xiang had been separated for a period of time, and thinking about the pair cultivation's sweet and intoxicating feeling, she couldn't help but feel lost in her heart.

Chen Xiang still had a Bone level Dan, he said: "BingYan, try eating one first, after cultivating Bones, you will become stronger."

Yue'er said: "BingYan is a dao spirit, she has already cultivated a body similar to a human's, and might even be stronger than a human's. Furthermore, her comprehension towards natural strength is deeper, so cultivating Bones isn't too difficult! Let me teach her! "

Feng Yujie rubbed Yue'er's back, and laughed: "Yue'er, you can't possibly have always been a little kitten, right? You were definitely not like this in the past, you should have also cultivated out your Bones by now! "

"Of course, I only need to have the Star and Moon Feast to recover my strength. At that time, I can also take human form." Yue'er smiled and said, "BingYan, let's go!"

Yue'er had already seen through the expressions of Chen Xiang and Mu Yurou just now.

Chen Xiang and Feng Yujie did not enter the room, but went into the Pill Refining Room instead. They still had some Bone level Dan's ingredients, and Feng Yujie also needed to condense his Bones, so they decided to first refine the pills, and as for dual cultivation ... That was tonight.

Chen Xiang spent a lot of time refining Bone level Dan in the Divine Sense Sea, but it only took four hours to refine a furnace outside. There were a total of five pills!

"Are you going to eat now?" Chen Xiang asked.

"No, we'll eat after the convention ends. At that time, we might need some time." Feng Yujie shook his head.

When they came out of the refining room, they saw Yue'er and Shui Bingyan in the hall, and knew that Shui Bingyan did not manage to cultivate Bones out of the pellet.

"There are still nine pills here, take them!" Chen Xiang refined five pills, Feng Yujie refined four.

"It will definitely work this time!" Yue'er and Shui Bingyan then entered the secret room.

## [Chapter 2017](#)

On the morning of the second day, Chen Xiang who was sleeping soundly heard Yue'er's sweet laughter, and immediately woke up. Last night, he did not dual cultivate with Feng Yujie to condense Spirit Orbs, but rather went through the sweetest time with her. That kind of gentle and intoxicating sweetness also made him sleep very soundly.

"Bing Yan has cultivated the Bones, and after she assimilates the divine soul, she will become stronger." When Yue'er saw Chen Xiang walking out, she quickly told him the good news.

"So fast." Chen Xiang was also happy: "How many Bone level Dan were used?"

"Four pills." In her eyes, condensing the first Bones from ten Bone level Dan to less was not bad at all.

"Sister Feng, when will you start? Let me teach you." Yue Er said.

"When I'm done with the competition, I'll have to trouble you." Feng Yujie smiled gently and carried Yue'er over. She was liking this little kitty more and more.

"There's no need to be polite, we're all on the same side." Yue'er giggled.

Chen Xiang sat down and started to eat the dim sum Shui Bingyan had made. During this time, Shui Bingyan had learnt to cook a lot of food.

"Yue'er, is that Star Law Divine Realm using Shen Yuan stone as well?" Chen Xiang asked: "I never thought that Shen Yuan stone flowed this much."

"It's normal, because Shen Yuan stone are easier to absorb. Sometimes, Shen Yuan stone that are exchanged with ordinary herbs get a stronger power than those medicinal herbs." Yue'er nodded her head: "However, if you want to sell pills in Star Law Divine Realm, then you definitely won't do. Once you are discovered, you will definitely be arrested."

Chen Xiang had already heard this from Yang Tianyi before, so he felt that he would definitely go to the Star Law Divine Realm in the future.

"Let's go and participate in the convention." Feng Yujie said: "We were the first to fight in the tenth hall."

As the youngest disciples of the tenth hall, Chen Xiang and Feng Yujie were also extremely outstanding. The Regeneration Dan they refined had long ago become very famous, and as a result, they earned a lot of Shen Yuan stone.

The competition venue was in that huge plaza. When Chen Xiang and the others arrived, they saw that there was a huge flag on the plaza, with the word "Pill" written on it.

When Chen Xiang and Feng Yujie arrived, it caused a huge commotion. Back then, the Regeneration Dan s Chen Xiang refined with his palm shocked many young disciples of Alchemist and other forces.

Chen Xiang could easily refine a middle stage Regeneration Dan, but now he had to participate in the Xiaping Dan's competition, which made the pressure on the disciples participating in the Xiaping Dan competition to be huge.

In the ranking of the Inferior Stage Pill Gods, there were also many Medial Stage Pill Gods who could refine Zhongpin Dan. They all felt a little regretful now, as they felt that participating in the Medial Stage Pill God would be much easier than this.

The competition between the Inferior Stage Pill Gods started first, and ended in three battles to determine the victor.

The competition would end in the morning, so many Alchemists were under a lot of pressure. A single morning was only that little bit of time, yet they had to compete three times.

"Disciples, please enter the stage." The one who presided over the competition was Olde Iron Cock, he walked to the competition venue of the lower stage God of Pills.

Only after the competition between the Demigod rank had finished did he reach the level of a God.

Chen Xiang used the plate he got from registering to enter the competition.

Before entering, Chen Xiang had already heard Luo Tianjun's sound transmission in his mind, telling him about his important opponent.

Luo Tianjun and Three Gu Brothers didn't see Chen Xiang yesterday, so they were very worried, thinking that Chen Xiang had gone out to play again.

... ..

In a few of the buildings beside the competition plaza, a few well-dressed, middle-aged men who seemed to be very powerful were all looking at Chen Xiang.

"That's him. He cultivates the God Murdering Sword Techniques and the Heavenly Alchemy." A middle-aged man dressed in gold pointed at Chen Xiang, and said: "And the Six Realms mirrors is also in his hands."

The other red-clothed middle-aged man said, "What should we do now? These things are all on him. If we let him continue growing like this, he will become another Heavenly Divine Lord or six Divine Lord."

A middle-aged man wearing a blue robe said coldly: "It wouldn't be easy for him to kill him. Didn't you see that he had a profoundwu clothing on him?"

"Killing him won't be easy, but crippling him won't be difficult." The golden-cloaked middle-aged man said: "It's just that when the time comes, who will stop him? The Lord Hallmaster of Supreme Divine Palace should be able to do that, but it's easier to deal with him."

The middle-aged man looked at the others and asked for their opinion.

"In the end of the competition, we'll secretly make a move and capture him. We'll see if he's willing to submit to us. If he's unwilling, we can just kill him. If he really can't be killed, then let him become trash." Middle-aged Man in Black Armour who had not spoken all this while spoke out. His ice-cold voice was filled with power, and it was obvious that he had a lot of prestige amongst the few middle-aged men.

The other middle-aged men nodded.

I wonder if the other Divine Nations s are hiding here, and don't let them snatch them away. Furthermore, they should have already heard about Chen Xiang's situation, with the Six Realms mirrors, God Murdering Sword Techniques and Heavenly Alchemy on him, even if we cannot obtain them, we cannot let them obtain them. " The Middle-aged Man in Black Armour said.

The golden-cloaked man said, "Isn't this inappropriate? If they knew that we did so, that wouldn't be appropriate."

Middle-aged Man in Black Armour laughed coldly: "So when we attack, we have to hide ourselves and we can't let them know. We have to be faster than them, of course, even if they knew, what can they do to us?"

... ..

Chen Xiang who was familiarizing himself with his opponents on the stage did not know that on the buildings around the plaza, the experts sent by the Divine Nations were hiding and scheming how to deal with him.

Although Chen Xiang did not know, but he could guess that the Rankers sent by the Nine Gods Nation would definitely make a move against him during this period of time. Thus, he had already asked Feng Yujie to rope in some of the Rankers within the Supreme Divine Palace to help him find a helper.

Of course, with the Vermillion Bird and the White Tiger around, he was extremely at ease. With Yang Tianyi, who had cultivated up to the third Bones, at the bottom of the shop, he was even more at ease.

There were more than two hundred participants participating in the Demigod's competition, and compared to the crowd of disciples that stood around the plaza, these two hundred named Demigod could be said to be very few, and there were only about ten young faces. Other than Supreme Divine Palace's people, there were also Six Realms Divine Palace's people as well as the other powerhouses, and there were also young Demigod.

At this moment, over two hundred strong men walked in with a large vat filled with all kinds of low grade divine medicines.

These brawny men walked to the side of the two hundred over alchemy gods and put down the large vat. This should be the magical pill used in the competition.

### [Chapter 2018](#)

There were a lot of divine medicines in the huge vat, and they were all of good quality. At this moment, all of the Alchemist in the arena could tell the quality based on the smell of the divine medicines.

The disciples that were participating in the competition all stood up and carefully looked at the divine medicines within the large vat. Many of them frowned because they did not recognize these divine medicines.

Chen Xiang didn't know either, in the knowledge that Feng Yujie had passed on to him, there was nothing related to these divine medicines.

"These divine medicines were all obtained by those fellows from Divine Nations. They will give you the pill formulas later and have you all refine them according to the formulas." Luo Tianjun whispered to Chen Xiang.

Chen Xiang quietly swept across the crowd and realised that there were a few who were calm, three of them were young, and the other two were old. They all looked calm when they saw the strange divine medicines, and Chen Xiang suspected that someone behind them was also telling them what the rules were.

"In these vats, there are two jade plates and pill formulas. The first round of the competition is to refine the Xiaping Dan s within the limited amount of pills. Once the sand in the hourglass is emptied, this round will be the end of the competition." Olde Iron Cock pointed to an hourglass in the distance. It looked relatively small, so he could only hold on for four hours at most.

In just four hours, he would have to refine two batches of Xiaping Dan, and it was the kind of Xiaping Dan that had never been refined before.

What Chen Xiang was more concerned about was that there were only two types of pill formulas, but there were too many divine medicines in the huge vat. There were at least a hundred types of low-ranked divine medicines, and there were even more than ten large black tree roots beneath them.

Chen Xiang suspected that these two Xiaping Dan would need to use up all of the divine medicine in the huge vat. If that was the case, then refining one of the Xiaping Dan would require at least 10 different sets of low rank divine medicine.

"You can start looking for the pill formulas now." After Olde Iron Cock finished speaking, the hourglass started to flip and the disciples participating in the tournament started to curse in their hearts.

Before this, Chen Xiang had already clearly seen the inside of the large jar with his divine sense, so he quickly took out two jade tablets and dripped some blood into his divine sense to take a look. Just as he had guessed before, the two divine pellets that he wanted to refine required dozens of sets of divine pellets!

Inside the jade token, there was only the recipe, not the name of the supreme dan!

"What is the purpose of these divine pellets?" I can't see anything from these ingredients, these Divine Nations are really mysterious. " Chen Xiang planned to first refine the pellets that required the most amounts of mystical pills, and he would need seventy of them!

Picking out the divine medicines from the vats also required a lot of time, as this was a huge test of the Alchemist's speed in recognizing the divine medicines. Right now, many of the Alchemists were complaining in their hearts, because they felt that just picking the divine medicines out of the vats and handling them a little was already a long time ago.

Chen Xiang did not feel anything, he treated it as a challenge!

From the very start of the match, he wasn't competing with anyone else, but rather, he was fighting against time! These Alchemists had very high requirements in many aspects. If they were impatient, they would start to get very irritated right now, so when they were sorting through the divine medicines, it would also have a huge impact, causing their speed to become very slow.

Those who weren't confident enough would have the thought of giving up, feeling that they would definitely lose. This sort of person was already destined to lose.

Of course, there were many outstanding Alchemists present who were able to keep their cool and calmly go over to pick and choose the divine medicine.

Chen Xiang had already heard quite a few sighs and complaints, because there were other kinds of mystical pills inside the huge vat. They were not used to refine the two types of Divine Pills, but were purposely mixed inside to increase the difficulty of the competition.

"The divine medicines that have been mixed in are somewhat similar to the divine medicines used to refine the competing divine pellets. If one is not careful, they will be able to recognize their mistakes!" Is this a test of your ability to discern medicinal herbs? " Chen Xiang also felt that it was a little difficult to refine at this time.

After half an hour, finally, someone started to refine pills. This caused many people to focus their gaze on this person, it was an extremely luxuriously dressed old man, the Alchemy God of Six Realms Divine Palace.

The pill furnace used by this old man was also very big. As he refined the pills, he sorted out the divine medicines he had poured out of the vat. He also had to sort out the second type of divine pills that were needed to concoct in the competition.

This way, a great deal of time could be saved, and many of the participating disciples also planned on doing so. It wasn't easy to do this, especially when one was concocting a strange divine pill. If one was distracted and went to pick and choose divine medicines, it was very easy to fail.

Chen Xiang did not do that, because these types of Divine Pills were unfamiliar to him, he had to be careful, since he only needed to succeed in refining two types of Divine Pills in this competition.

"That old man is Xiao Changle's disciple that he just accepted. Although he is very old, his strength is not bad and he is very talented! His talent in pill refining was dug out by Xiao Changle! " Luo Tianjun sent a

sound transmission to Chen Xiang, "According to what I know, there are at least five people here who have refined those two divine pellets. This is because the people that the Divine Nations has sent have all come in contact with these five Pill Gods before.

Chen Xiang immediately understood why the old man from the Six Realms Divine Palace would be so fast and nimble. This was the only way to gain the most time.

Chen Xiang changed his strategy. He would first pick out two types of miracle medicines before starting to refine them!

In a short period of time, there were more than twenty people participating in the competition who started fire to concoct pills, but Chen Xiang had yet to begin, and now, an hour had already passed!

Chen Xiang picked out the divine medicine and carefully examined it again. If the divine medicine was wrong, it would be equivalent to failure, so Chen Xiang chose this point very carefully.

"I'll just use this cauldron. It should be sufficient!" Chen Xiang took out a relatively large pill furnace. This pill furnace was very ordinary, he had asked Feng Yujie to prepare these for him.

It was not that Chen Xiang did not want to use a good pill furnace, it was just that he had not found anything satisfactory, so he brought a lot of normal pill furnaces with him.

"There's still an hour left, it should be enough!" Chen Xiang looked at the hourglass and then placed the first batch of God's Pill's medicinal ingredients into the furnace. There was a total of 70 sets.

Chen Xiang was very famous amongst the Inferior Level Pill Gods, especially with his miraculous pill refining skills, it did not follow common sense at all.

According to the pill formulas, there should be a sequence of 70 types of godly medicines, but he threw them all in one go!

What was shocking was not only that, but also that he threw the other sixty sets of ingredients in. Those sixty sets of divine medicines were meant to be used to refine the second kind of Xiaping Dan!

If one pill furnace could concoct two similar divine medicines at the same time, it wouldn't be surprising at all. Even a pill god with a decent level would be able to do so.

But right now, the divine pellets Chen Xiang refined were two different kinds. There was a huge difference between the two types of divine pellets, but he actually threw them into a furnace to refine them, and this was his first time refining one.

## [Chapter 2019](#)

This was also because Chen Xiang had no other choice. He had planned to use two pill furnaces, but with two pill furnaces, he needed to be distracted even more! Now that the two divine pills were in the same furnace, although he needed to be distracted, it wasn't as serious as the two pill furnaces.

The Alchemy that Chen Xiang used was a [Original source refining] that he had comprehended himself. Using this [Alchemy] to refine Divine Pills was easier to control, which was why he did it.

On the surface, it seemed like he had to take both sides into consideration, but in reality, he had now divided the hundred over divine medicines into more than a hundred separate regions, and was going to use his flames to quickly refine them and search for Spirit blood s.

In the past, when he refined those divine pellets that he had never refined before, he would only use the Original source refining to refine them bit by bit. But now that he had the time to do so, he could only use the flames to quickly refine them according to his own experience.

... ..

"He's using the Heavenly Alchemy now? I have heard of the Heavenly Alchemy, but I have never seen how it is used, so I can't tell how he refined it either. " He was also from Divine Nations, and although he looked very young, and his clothes were relatively ordinary, his status was much more noble than the middle-aged men who were discussing how to kill Chen Xiang previously.

The red clothed man watched from the window, and an old man beside him said: "Young Noble, how about we capture him and have him teach you Heavenly Alchemy? I can make my move now! "

"No, I heard that cultivating the Heavenly Alchemy requires a lot of luck, I don't want this kind of forceful method, I want to let nature take its course! Don't do it, I want to see how this Chen Xiang passed this competition, and see if he is as godly as the legends say! " The red clothed man's voice was somewhat severe. He was obviously criticizing the old man for his barbaric actions just now.

The old man's expression turned to one of fear as he hurriedly said, "Young Master is right, this old servant knows he is wrong!"

"It's good that you know your wrongs." The red clothed man nodded his head, then asked: "In the competition arena, the first few Inferior Grade Pill Gods who started refining pills were all chosen by the other Divine Nations, right? Our Divine Nations would definitely not do such a thing, we must select the truly outstanding Alchemist s to cultivate."

"Sir, if Chen Xiang wins, are you going to bring him back to the Divine Nations? I heard that many Divine Nations want to capture him, even if they can't, they have to destroy him! " The old man said.

"I've heard of this before, so let nature take its course!" The red-clothed man casually said. He didn't force anything, everything was as it should be.

It had already been two hours, and many of the participating disciples were sweating profusely. As for the old man from Six Realms Divine Palace, he had a relaxed expression on his face, as if victory was in his grasp.

But the one who attracted the most attention was Chen Xiang, because he was refining two different divine pellets within the same furnace, but there were many different divine pellets, two unfamiliar divine pellets. Seeing that he persisted for so long without making any mistakes, one could tell that he had a chance.

"So that's how it is. This first round isn't about pill refining, but about mental state. Actually, these two pills are all very easy to forge. They are just a test of one's patience and confidence!" Chen Xiang never thought that he would find Spirit blood s from the divine medicines so quickly. Furthermore, it was very easy to fuse them together.

Chen Xiang was curious now, why would those Divine Nations open a backdoor for some of the disciples here? Could it be that he had already been selected by the Divine Nations?

"Completed!" The old man from Six Realms Divine Palace opened his eyes and said indifferently. He was the first to start a fire to refine pills, and also the first to refine a pill.

He opened the pill furnace. Inside were four dazzling divine pills. Although he did not know what kind of pills they were, they looked pretty good.

Next, he began the second batch. As he began, more and more people began to complete the first set of divine pills!

Currently, ten people had already finished the first furnace and were beginning to refine the second furnace. As for the second furnace, it was the most difficult and had a lot of medicinal ingredients.

Another hour passed in the blink of an eye. It hadn't been long since the end of the competition.

... ..

"Chen Xiang has not been refined yet, is there a mistake? It's all been lit here!" Gu Lao San said.

"What's the rush? Can't you see that Chen Xiang is still very calm?" The oldest Gu replied, "It's not like you didn't see this little brat using his palm to refine pills last time. I wouldn't even be surprised if he had any tricks up his sleeve."

Feng Yujie laughed: "Even though you say that, he is always able to catch me by surprise."

Luo Tianjun scoffed: "These divine pellets are all useless divine pellets, they can be merged anytime they want. Eating these kind of divine pellets, is just making me feel comfortable, it's really a scam."

Luo Tianjun had already looked at those medicinal ingredients very carefully just now, so he could recognize some of them.

"Look, that old man has finished the second furnace. This guy is really amazing." Xiao Chou shouted, he did not know that the old man was at the back door, he had already refined it once, which was why he was so fast.

After becoming the first person to complete the task, the elder did not have any expression on his face. He slowly took out the four white divine pills from the pill furnace and handed them over.

Chen Xiang felt that it was strange. If he and a few others who went through the backdoor were already selected by the Divine Nations, why would they come and participate in this kind of competition?

"Could it be for the sake of entering the Divine Nations in name?" Chen Xiang suddenly understood: "Looks like all these fellows gave the people sent by the Divine Nations a lot of benefits!"

Those who came from the Divine Nations were definitely rich and powerful, but they were still bribed. From this, it could be seen how expensive the few people from the backdoor must have paid.

Chen Xiang suddenly thought, that the old man from Six Realms Divine Palace had entered the Divine Nations, could it be that it was arranged by Xiao Changle? Most likely, only the hall master of the Six

Realms Divine Palace, Xiao Changle, could come into contact with the experts sent by the Divine Nations and give them some benefits so that they could bring the old man back to the Divine Nations.

There was not much time left, only six people could finish it, while Chen Xiang was still refining pills, he was not in a rush, because he believed that he could finish it before the time was up.

"Alright!" Chen Xiang shouted, patting the lid of his pill furnace, it was half the height of a man, it was as big as a water jar!

After he was done, there were still some hourglass left.

Previously, many people were nervous for Chen Xiang, because the time was almost up. Seeing that he had finished shouting, they also wanted to see if he had really completed it. After all, he was concocting two pills in a single pill furnace.

There was a middle aged man by Olde Iron Cock's side. This middle-aged man was responsible for inspecting the divine pellets that were refined, and it looked like he came from Divine Nations. He said to Chen Xiang: "Take out the divine pellets that you have refined!"

Chen Xiang did not immediately take out the Divine Pill, but instead walked towards the middle-aged man who was in charge of inspecting the pill furnace.

## [Chapter 2020](#)

The pill god who was in charge of inspecting and accepting the divine pill raised his hand, and indicated that Chen Xiang should not continue carrying the pill furnace up, and said: "There's no need to bring the pill furnace up, you can just directly give the divine pill to me."

The divine pills refined during the competition were not his own. This point was not objected to by all the participants. As long as the divine pills were to pass, he would pass the first round.

Chen Xiang continued to walk up, and said with a smile: "It's extremely necessary."

The middle-aged man did not say anything and waited for Chen Xiang to bring the pill furnace over.

The road was not far, Chen Xiang quickly walked to the stage and put down the pill furnace.

They were high up, invisible to the gods below, only visible to those on the buildings at the edge of the field.

Chen Xiang opened the lid of the pill furnace and a ray of red light shone. The light enveloped the entire hole in the furnace, making it impossible to see what kind of godly pill was inside.

Seeing these clouds of light, many pill gods' first reactions were that they thought this was the spirit of the divine pill! Generally, only the highest quality divine pills would be able to reach the peak of perfection.

In the past, Chen Xiang had also refined pills of this quality, it was just that they were all below the Holy Pellet level, he had never refined a Divine Pellet before, and very few people had the strength to do so.

"It's not Pill Light, but ...." When Luo Tianjun saw it clearly, he was so shocked that he couldn't say a word.

At this time, many people had also seen it. The reason why there was such a strong light was not because of the divine pills, but because there were too many divine pills inside.

The middle-aged man who was in charge of inspecting the pill furnace was stunned. He had seen it clearly the moment he had opened the lid.

He was stunned for a while before recovering from his shock. He took a deep breath and said with a trembling voice, "A total of 347 pills!"

The disciples that were originally spectating at the side of the plaza were all whispering to each other, when they heard the middle-aged man's words, they all immediately quietened down.

The person who produced the most pills was Six Realms Divine Palace's Pill God, he was the first to complete it. His output surprised many Pill Gods, though it was just a few pills!

But now, Chen Xiang had more than three hundred pills! Many people had not seen it with their own eyes, so they would rather believe in the sun formula than believe that Chen Xiang could refine a few hundred pills in one go. Although it was just a Xiaping Dan, it was still difficult to refine.

The middle-aged man held up the pill furnace and poured out the more than three hundred divine pills, each of which was glowing brightly. These were the two types of pills combined, one was golden and the other was white.

These over three hundred supreme dan beads were piled up in a small pile on the ground. One glance was enough to tell that these were absolutely supreme dan beads! The pill gods that produced the pills from before, all added together, were not as many as him!

Because these pills were all useless and had so many medicinal ingredients, Chen Xiang was able to refine two or three of them using his refining method. That was why he had so many pills in the end.

... ..

"Gongzi, you're also an apothecary. What's going on?" The old man behind the red-clothed man was extremely astonished. His face was filled with disbelief.

The red clothed man frowned as he pondered, shaking his head, "I don't know, I've already refined this kind of divine pill before. Back when I was taking the exam to refine these two kinds of divine pills, the difficulty of refining them wasn't too high. At that time, I could only refine three pills each! "

"Young master, the reason Chen Xiang is so powerful is definitely because of the Heavenly Alchemy, we must definitely get him!" Greed flashed in the old man's eyes.

The red clothed man said indifferently: "It's mine, it will always be mine! If I were to snatch the Heavenly Alchemy, I think I wouldn't be able to be like him, because the Heavenly Alchemy doesn't belong to me in the first place. If the Heavenly Alchemy is mine, then I don't even need to snatch it. "

The old man couldn't help but sigh, because his Young Master was such a person. "Young master, if you can obtain the Heavenly Alchemy, then the Emperor's seat would most likely be yours. The Emperor had repeatedly hinted that the Emperor's position and everything about him would be passed on to the most capable prince! "Young master, although you have decent talent, but the other princes ..."

The red clothed man faintly smiled: "I've never thought of fighting for the throne. I just need to watch from the side. If I participate in this kind of boring and foolish thing, wouldn't I be watched by others?"

The old man was speechless. If one obtained the throne, they could control a Divine Nations and had supreme power. If they received the inheritance, their strength could rise to another level. There were so many princes and princesses in the Divine Nations. However, only the red clothed man did not have such thoughts!

... ..

The Rankers sent by the Divine Nations were even more eager to get the Heavenly Alchemy. They all thought that as long as they could get the Heavenly Alchemy, they would need to refine a few hundred of the divine pellets just like Chen Xiang had done.

Chen Xiang already knew that the Rankers sent by the Divine Nations were nearby, so he purposely put on a high profile. The reason he did that was to make these people take action against him, and at that time, he would let Yang Tianyi kill them all.

After Chen Xiang had passed, there was still one more person who had finished refining the hourglass when it was just finished. Now, there was a total of five people who could enter the next round!

Originally, there were many disciples who entered the competition, but now there were only eight left, showing just how difficult the next round would be. Right now, it was no longer the Pill God who was competing with the Pill God, but rather challenging the harsh rules of the competition.

Three matches were going to take place in half a day, so time was of the essence!

The Olde Iron Cock announced the rules of the second round, "There is no need for the second round. "The five people who produce the most pills can enter the final round!"

Hearing this rule, the three pill gods who produced the least amount of pills felt extremely unwilling, but they did not dare to say anything. They could only walk out of the arena with regret!

Chen Xiang guessed that the rules for the second round had definitely been changed at the last minute, because such a rule was simply too general, but there was nothing that he could do. After all, no one objected, and as a disciple participating in the competition, he naturally didn't dare to say anything.

Just when Chen Xiang was guessing this way, Luo Tianjun sent him a sound transmission: "The rules for the second round were not like this, they suddenly changed! This should be because someone is worried about an uncontrollable situation occurring in this match. "

Olde Iron Cock continued to speak: "Now, the third round, if you can enter the top three, you will receive a reward! The second and third place had two precious Xiaping Dan recipes! And the one in first place will receive the Zhongpin Dan's pill formula! "

Olde Iron Cock paused for a moment, then continued: "The third rank's pill formula is the beast spirit pellet, the second rank is the clone spirit pellet, the first rank is the Life Soul Divine Pellet!"

Now that he had announced the rewards for the divine pellet formulas, Chen Xiang felt a lot more at ease. Otherwise, if he were to suddenly receive a ranking, he would temporarily decide to give some garbage divine pellet formulas.
