

Dan God 2021

[Chapter 2021](#)

Hearing the name of these three godly pills, the crowd of pill gods were all amazed, because the pill formulas of these three godly pills were indeed very precious!

If there was such a generous reward for a match between a Demigod, then what about a God and a Highgod? Everyone was guessing!

The Ruler Beast Pill is mainly used to feed the divine beast, as long as you feed it to the Special god beast for a period of time, then it is very likely that this Special god beast will identify you as its master, and even if it is very powerful, it will still obediently listen to you.

The second type of pill, after consuming it, would produce a pill the size of an egg, spitting it out of its mouth. After a period of time, the pill would break out of its shell and become a little person, and after feeding it a God Transforming Pill every seven days, that little person would become exactly the same size as him. He would lose all consciousness and become a little person.

If there were some situations where he had to give up his physical body and run out of divine soul, then this backup clone would have a lot of use! Thus, the divine clone pellet was a very special and rare type of divine pellet.

Although they were both low-grade, but the medicinal ingredients for these two divine pellets could both evolve. If he could find high-grade divine medicines, then he could also refine high-grade ones!

And the prize for first place, the Life Soul Divine Pill, was extremely useful to Chen Xiang!

The Life Soul Pill was similar to the Godly Clone Pill; the Godly Clone Pill mainly focused on cultivating its own spare body! On the other hand, the Life Soul Pellet could cultivate and produce divine soul. It could be said to be a copy of a divine soul that one already had, however, it wasn't like the God Transforming Pellet, where it was guaranteed to give birth to a pellet!

The Life Soul Divine Pellet isn't always the same as the Bone level Dan, but if it succeeds, it can replicate a strong divine soul. Therefore, the Life Soul Divine Pellet is still very precious.

"In addition, you will also give them the divine medicine they need, so all of you must work hard!" Although the Olde Iron Cock looked impartial, in his heart, he was very supportive of Chen Xiang. Even though it was not fair now, but he saw the strength that Chen Xiang had displayed just now, so getting a rank was not difficult at all.

Chen Xiang was worried about the divine medicine just now, and didn't expect that the divine medicine would reward him as well. This would make him work even harder to get the reward that he wanted.

He took a glance at the other four participating Pill Gods. Other than the Six Realms Divine Palace's Pill God, the other three were middle-aged. Most of the young Pill Gods from Dan Hall had all gone to participate in the competition with the Gods, so he didn't see much of them.

"Of these three, two of them belong to our Dan Hall, while the other one actually belongs to our Purple Smoke Divine Mountain!" When Chen Xiang saw the familiar purple attire, he immediately recognized it.

Luo Tianjun sent a sound transmission to Chen Xiang: "The Purple Smoke Divine Mountain and the Six Realms Divine Palace that have been able to enter this match have all gone through the back door. They have given those Divine Nations Rankers who are in charge of managing the competition a lot of benefits.

The Olde Iron Cock said: "I believe the five of you must have been well-prepared to be able to reach this step! And for the next competition, you all need to use your divine medicines to refine the Xiaping Dan that you think is the most precious, and we will be the ones to prepare the pill furnace! "

Before he came here, Luo Tianjun had already warned Chen Xiang many times to prepare the divine medicine he was most proficient in, the best would be those that were sold very expensive or very precious. had participated in these types of competitions many times and he was very experienced with them.

Now, he really had to make adequate preparations!

Chen Xiang secretly sweated in his heart, because he did not have this kind of preparation before, especially for the Xiaping Dan's divine medicine! If it wasn't for the divine medicine Yang Tianyi gave him in the Star Moon Hell, he wouldn't have been able to obtain the Xiaping Dan at all.

"There are only four hours left. After you have finished refining, in order to let all your friends who are watching the competition participate, the Xiaping Dan that you have refined must all be auctioned off, and you are the auctioneers. After the auction, the ranking would be decided by the Shen Yuan stone that were sold! Of course, when the time comes, we will have a special inspection team to prevent competitors from cheating. " The Olde Iron Cock continued to talk about the rules.

Chen Xiang was very clear that if he wanted to win completely, he could only refine Bone level Dan because most of the people that were able to make it here were very strong. They would definitely possess a good Xiaping Dan medicinal formula in their hands, and if he did not refine Bone level Dan, he would not be able to compete at all.

The distribution of the pill furnace was handled by the middle-aged man. After he was done, he solemnly asked, "You guys check and see if there are any problems!"

Chen Xiang carefully checked the pill furnace. This bucket sized pill furnace gave him a pretty good feeling, at least it was better than all the other broken pill furnaces, only a little smaller.

"No problem!" Chen Xiang and the other four Alchemist s said.

At this moment, the pill gods participating in the competition were all nervous, because they were worried that the Xiaping Dan they refined would not sell enough! In order to sell more Shen Yuan stone s, they had to produce more pills, which were of a higher quality and more practical type.

Chen Xiang was clear that the Bone level Dan would definitely be bought by someone else. If he was willing to sell too many pills, then it would be even more expensive! What made him a little worried was exposing that he knew how to refine Bone level Dan, but he had already given it his all. Just concocting a few hundred divine pills in one furnace had already attracted his attention.

"Let's begin. There are only four hours left. You must make full use of this time!" Olde Iron Cock shouted.

This competition was unlike the one before, where there were many preparations, so four hours of time seemed to be very sufficient. However, for the Pill God who wanted to refine a batch of Ultimate Xiaping Dan, it was still very urgent, because to produce many pills, high quality and a precious Xiaping Dan, was extremely difficult.

The participating pill gods immediately took out their own divine medicines, which also made the spectating pill gods very excited. The pill formulas were all extremely secretive, and if one could see the divine medicines, they might be able to figure out their own pill formulas. At the very least, they would know which pill formulas to use.

Even Luo Tianjun, Liang Gaoyi, and the high level divine pellet gods like Xiao Changle were looking carefully at the divine pellets that the divine pellets were taken out!

After Chen Xiang took out the Bone level Dan's divine medicine, both Liang Gaoyi and Xiao Changle immediately frowned, because they didn't recognize any of the divine medicine!

On the other hand, Olde Iron Cock often saw it. Because Feng Yujie often went to Supreme Hall to put up purchase announcements, he often had these divine medicines, and the purchase price Feng Yujie offered was also very high!

Luo Tianjun did not know either, but he could guess what kind of godly pill Chen Xiang refined, he never thought that Chen Xiang would obtain it so quickly! Previously, he did not even support Chen Xiang's high profile, but now, he felt that it was nothing. He understood the attitude of the Divine Nations towards Chen Xiang. He also knew that after this round, Chen Xiang would have to leave.

[Chapter 2022](#)

There were many Rankers in Divine Nations spectating the competition from the side, but if it was said that his status was the most noble, the one with the highest status should be that red clothed man. He was a Pill God, and a Prince of Divine Nations at that!

Within the Divine Nations, the Divine Lord was the strongest. As a prince, his strength was definitely not inferior to Chen Xiang's. When the mysterious prince saw Chen Xiang take out the Blood Bone Divine Flower, Heavenly Tendon Grass and Seven Love Divine Flower, his entire body trembled in shock.

"Young Master... Aren't these divine medicines supposed to be used to refine Bone level Dan? It was nothing to him to have these divine medicines, but why would he have Bone level Dan s? This is your master's signature Divine Pill, in the entire Nine Gods Nation, only four King grade and Pill Gods are able to refine Bone level Dan. Excluding your master, the other two are already dead, and the crippled and crippled are both missing. " He was a follower, and this was the divine pill that his Young Lord was most proficient in, the pill formula actually ended up in the hands of someone else.

The old follower raged, "Young master, I'll capture him right now and force him to reveal where the pill formula came from!"

"No, keep watching!" The red clothed man was a very special prince and had a sense of belonging to someone who stayed out of worldly affairs. He said, "Besides my master, there are other Pill Gods who know of the Bone level Dan's pill formula. It wouldn't be weird if it would spread! Furthermore, when I

thought about it earlier, my master was responsible for giving the Supreme Divine Palace the pill formulas, and I felt that he must have done it when the Bone level Dan was here! "

The old follower was puzzled. "Why did your master choose to do it himself? Such a precious pill formula, yet he casually threw it to such a damned place. If it was in the Divine Nations, who knows how many supreme dan gods would fight over it! "

The red clothed man smiled faintly: "I also don't know why Master did that. In short, Master definitely has his reasons, since Master is able to become the overlord of our Divine Nations, moreover he is our Divine Nations's number one alchemist god, he definitely wouldn't do something so stupid! From the looks of it, this Bone level Dan's pill formula was in the hands of an interesting person, and that person even knew Heavenly Alchemy! Master is truly a genius, and now I want to see to what extent this Chen Xiang can be refined to, can be considered as me secretly competing with him! "

The old follower shook his head. He felt that this young master's incomprehensible actions were all learned from his master, because the two were too similar. He felt that his Young Lord and Prince had a pretty good status in the eyes of the Divine Lord, and his master also had a great amount of authority and talent, so he was naturally extremely talented. As long as he fought for it a little, the throne would definitely belong to this young Lord and prince, but he didn't have the heart to fight for it, and would just let nature take its course.

... ..

When Chen Xiang previously obtained the Bone level Dan's pill formula from the Dan Heart Pavilion, he was extremely confused why such a precious pill formula would be in this kind of place. He did not know that this was deliberately placed by an outstanding Pill God, and furthermore, the Pill God's disciple was watching from the sidelines.

"This batch of Bone level Dan must be refined well, and must be used to the utmost in order to obtain the middle grade Life Soul Pellet recipe." A very determined voice sounded in Chen Xiang's heart.

"Yu Jie, do you know what divine pill Chen Xiang is refining?" The Vermillion Bird was extremely curious and sent a sound transmission to Feng Yujie, because everyone could see the confident expression on Chen Xiang's face.

Feng Yujie smiled and replied: "When he is done refining, when the auction will begin, wouldn't you already know about it?"

Feng Yujie was actually trying to keep her in suspense and keep her in suspense. She scolded with a smile, "Yu Jie, you're still as naughty as ever!"

Xiao Chou came to Luo Tianjun's side and said, "Old Master Luo, can we buy the divine pills that my master refined?"

Luo Tianjun patted his bald head, and laughed: "No, you cannot buy him from someone he is familiar with, otherwise, it will be deemed as a failure! You don't have to worry, when the time comes, the divine pills refined by your master will definitely be fought over by a bunch of people! To be honest, even I want to snatch it. "

Mu Chen was also intrigued, and asked: "What kind of divine pellet is this? Camel, you can already tell? "

Luo Tianjun smiled but did not speak, as though he would not say it now.

"Xiao Xiao, do you know what kind of divine pill it is?" Seeing Luo Tianjun's smile, Mu Chen asked.

Xiao Changle shook his head, "I can't think of any Xiaping Dan that could be robbed by Lao Luo right now. What kind of divine pill is this? I don't even know what divine medicine it is. "

Yue'er, who was hiding in her bag, also knew what kind of divine pellet it was. She only hoped that Yang Tianyi, who was fusing the star divine soul in the secret room, would finish it quickly, because that Star Moon Ancestor Emperor was already slowly approaching and Chen Xiang was also constantly courting death.

... ..

Inside the building at the side, the middle-aged men who wanted to capture Chen Xiang were also extremely curious. They wanted to know what kind of divine pellet Chen Xiang was refining, because they had seen before how the three types of divine pellets Chen Xiang took out were bought at high prices in the Divine Nations.

"You all saw it just now, this Chen Xiang's pill refining skills are extraordinary, this definitely originated from the Heavenly Alchemy! We must get our hands on the Heavenly Alchemy, that way we can secretly cultivate a group of alchemy gods who can quickly refine pills. Before long, we will also have a pretty good power, and we can also become stronger by relying on a large amount of divine pills. " The Middle-aged Man in Black Armour said.

When the other middle-aged men heard this, they were slightly shocked!

"Is he trying to rebel?" A middle-aged man's voice trembled.

"No, we just do not want to be annihilated. We need to have a certain level of strength, and if one day we are cleansed, if we do not have a certain amount of power, we will definitely die! You should all be aware that the various Divine Lords are preparing to pass down the throne, and our Divine Nations has twelve princes. At that time, we will have to stand in teams. Middle-aged Man in Black Armour coldly snorted a few times.

The other middle aged men did not say anything, but when the time came, it would definitely be the Divine Nations's storm of blood. This was also why the Divine Nations that Yi Bidong had mentioned had met with trouble, but he did not know why the nine Divine Nations would pass down their throne at such a short period of time.

... ..

Chen Xiang was currently using all his strength to refine pills, and he did not know that danger was approaching. The Star Moon Ancestor Emperor had long since woken up, and even though they were on the way here, Yang Tianyi still did not appear. Only Yue'er was extremely worried, because she could clearly sense that the Star Moon Ancestor Emperor was approaching.

Mu Chen was chatting with the White Tiger, his expression suddenly changed, and said softly: "They're here, Divine Lion Race! We expect to arrive in about six hours! "

Xiao Changle also quickly found out the news, they had sent spies far away, they would send them messages if anything happened.

"Come on, I'm going to teach that little bastard a lesson." The White Tiger was extremely furious when it thought of Qi Yan's death.

[Chapter 2023](#)

Although the Divine Lion Race came, Luo Tianjun and the others did not tell him, afraid that they would affect his performance.

And Yue'er wasn't worried about Prince Divine Lions, but that Star Moon Ancestor Emperor! All the Rankers present could resist the attacks of the Divine Lion Race, but when the Ancestor Emperor made his move, if the Rankers from Divine Nations did not make their move, no one here could win against him.

Mu Chen had already prepared himself for the Divine Lion Race's attack. He and Xiao Changle were both hall masters of the two shrines, plus their hall elders and the White Tiger Vermilion Bird, they felt that it would be very easy at that time!

Thinking about it, Mu Chen was no longer nervous, but he suddenly received a message!

Mu Chen and Xiao Changle had arrived at the transmission at almost the same time, and their faces became extremely solemn.

"Star Moon Divine Race is here too! And it's even the entire Star Moon Divine Race's most powerful force that has been mobilized. Even the Patriarch of the Star Moon Divine Race is here, what is going on?" Mu Chen said in shock.

"I also just received a message. If the patriarch of the Star Moon Divine Race comes, wouldn't King Leonis, the patriarch of the Divine Lion Race, appear as well?" Xiao Changle's face did not look good. They had just started the competition and such a thing was already happening. If they could not resist it, the two great shrines would be in a lot of trouble.

Xiao Changle said: "It seems that I have to call all the clan elders of my Six Realms Divine Palace over!"

If the Six Realms Divine Palace and the Supreme Divine Palace joined hands and were unable to resist the two divine beast races from the Beast Divine Palace, then the human side of the divine hall would truly be too weak.

Mu Chen looked at Yi Bidong, who nodded his head, and then left. Clearly, he was going to inform some of the old experts who were cultivating in seclusion!

Many of the people watching were in high spirits. They had no idea that a great battle was approaching!

The competition of the Inferior Tier Pill God could be concluded in half a day. Now, all he had to do was wait for the other pill refiners to finish refining the pill and the competition would be over!

The five Pill Gods were currently desperately trying to refine the most precious divine pellets they could, but in truth, this rule couldn't reflect the strength of the Pill God. This was because some of the precious divine pellets weren't that difficult to refine, and it was only because of the rarity of divine medicines.

Therefore, many people understood that this rule had been formulated on a temporary basis. As for the reason for changing the rules on a temporary basis, there had to be another reason!

Chen Xiang himself felt that this was his plan against some of the participants from the Pill God Realm, because getting first place would allow him to obtain the Life Soul Divine Pill's formula, which was probably very valuable in the Divine Nations, and even the experts that were sent by the Divine Nations would not dare to check for themselves, thus they used this method to obtain it!

"Young master, something's wrong!" The old follower of the mysterious prince suddenly said.

"Speak!" The red-clothed man had been carefully staring at Chen Xiang's pill furnace, wanting to see the method Chen Xiang used to concoct from the Qi emitted from the pill furnace.

The old subordinate said, "Two great armies are approaching. They are the Divine Lion Race and the Star Moon Divine Race, and they are even being personally led by their Patriarch. They are rushing here aggressively, so they might come into conflict. Should we stop them?"

The red clothed man shook his head: "No need to bother, we came here in secret. Moreover, royal father had said a long time ago that we should not interfere too much in things here!"

He didn't know that they were all here for Chen Xiang. He was only really looking forward to Chen Xiang's Bone level Dan being born, because he himself was also here to refine Bone level Dan. However, he could only compare it to his master.

However, the comparison was different when compared to Chen Xiang. He felt that Chen Xiang was about the same, that he had not had a single opponent for many years, which made him a little lonely.

The hourglass was about to leak out. None of the five alchemy gods had finished refining their hourglass, so it seemed that they had set the time. After all, if the duration was longer, it would have a more stable effect on the quality of the elixir.

The first one to finish was the old man from the Six Realms Divine Palace, followed by Chen Xiang and the others who also finished it, Chen Xiang grasped the time very well, it was not too difficult for him to use four hours to refine the Bone level Dan, it was just that he needed to use his full power!

"We will proceed according to the order of the later auctions. The divine pills in your pill furnaces must be kept secret for the time being!" The person in charge of the evaluation was the middle-aged man, while Olde Iron Cock was only in charge of starting.

Chen Xiang frowned, he thought that he could immediately open the lid of the pill furnace, but if that was the case, he would be at a disadvantage, because he was the last one to complete the mission.

The other four Pill Gods were definitely not weak. If their divine pills were all good, then when they finished auctioning off the first round, the number of Shen Yuan stone in the hands of the people present would definitely not be many!

But it was not absolute because everyone was refining Xiaping Dan and the majority of the people who bought the Xiaping Dan all had low cultivation. On the other hand, the people who bought the Bone level Dan were different;

Thinking about this, Chen Xiang relaxed a lot in his heart. He was not worried at all about selling his Bone level Dan to those real rich people.

The old man from Six Realms Divine Palace was expressionless, but his eyes were filled with confidence. He opened his pill furnace and took out three translucent pills.

"Divine Deity Pill! Xiaping Dan s that can help profound God condense the second Divine Deity are relatively rare and precious, especially to profound God! " The middle-aged man exclaimed, "These three Divine Deity pellets are all of high quality!"

He could condense the second Divine Deity and become a god, but this stage was very difficult for many profound God. Even if they had the confidence to condense the second Divine Deity, it would still take a while to do so. If they could condense it immediately, even if they had to pay a few Shen Yuan stone, they would still be very willing.

Other than profound God s who had the urge to buy them, there were also many gods who wanted to buy them for their own juniors to quickly break through!

And most likely, the profound God would only be able to compete with their stronger god or god!

There were only three pills in total, so it was obvious that the bidding war would be very intense!

"Let's begin now. We will not set a low price and we will bid as we please!" The middle-aged man was in charge of opening the auction. He was also a pill god, so he could have thrown out the Bone level Dan just now.

"Five hundred thousand Shen Yuan stone!" When someone shouted, many profound God s started to shout, the scene was extremely chaotic.

However, the middle-aged man was extremely powerful. He could hear everyone's voices, and could even tell who these voices came from.

"1.2 million is the highest price this old man has called out!" The middle-aged man pointed at an old man on a walking stick in the distance.

To have such a price just for a Xiaping Dan, this could be considered to be very good. The Regeneration Dan that Feng Yujie refined, was only a million Shen Yuan stone.

And that was not the end, because there were still people raising the bid!

[Chapter 2024](#)

The bidders were all spectating at the side of the plaza, while the ones with more money were on the pavilions beside the plaza. If these tycoons were to make a move, these people on the side would definitely not be able to compete with them.

"1.3 million already, are there any more bids?" The middle-aged man shouted, his voice enveloping the entire square, everyone could hear him clearly.

"One million and five hundred thousand!" The old voice was unhurried, coming from those pavilions.

If it was someone from the pavilion, even if someone intentionally offered a high price, it would be difficult to judge!

But a Xiaping Dan that could sell for two million was already considered rare. If all three of them could be sold at this price, then it would be six million Shen Yuan stone! The final rankings were calculated based on the total bid. It would be difficult to surpass a single batch of Xiaping Dan and six million Shen Yuan stone!

No one continued to bid, and an old man came to the pavilion, paid the Shen Yuan stone, and took the Divine Deity pellet and left.

That old man was from the Heavenly God Lake, so he wasn't the type to raise prices on purpose!

There were still two Divine Deity Pills to be auctioned. As soon as the middle-aged man finished speaking, he once again began his noisy bidding, and the price quickly soared to one million Shen Yuan stone. When it reached this level, it basically quietened down. After a few more rounds of bidding, the price had actually risen to two hundred Shen Yuan stone!

And the last pellet, also auctioned off one million and seven hundred thousand Shen Yuan stone, bringing the total up to five million and seven hundred thousand. These Shen Yuan stone also all belonged to the Six Realms Divine Palace's Pill God.

A pot of Xiaping Dan was able to earn that many Shen Yuan stone, which made many Inferior Grade Pill Gods exclaim in their hearts. Therefore, the pressure on the participating Pill Gods was extremely high, and only Chen Xiang was able to easily earn that many Shen Yuan stone, so he believed that the Bone level Dan was definitely not inferior to the Divine Deity Pellet.

However, it was only effective for Gods and Demigods. This kind of divine pill was also quite useful, especially for Gods who had the same five attributes as themselves. Eating this kind of divine pill could help one break through the bottleneck.

This Pill God's standards were not bad. In such a short period of time, he could produce three pills in a single furnace. After all, they were not using Heavenly Alchemy s like Chen Xiang!

Chen Xiang secretly sighed with emotion. This Super God Realm was indeed a crouching tiger and hidden dragon.

The price of three Five elements Dan s was one million three hundred thousand, one million one hundred fifty thousand, and one million. Adding up, it was three million four hundred and fifty thousand Shen Yuan stone, a lot less than the price of the old man.

The third pill god was from the Supreme Divine Palace, and he was refining a kind of strange divine pellet, which was the one that had a strange usage, called Bone Shrinking Divine Pellet!

"This kind of divine pill is rather rare. After consuming it, one's bones will shrink and become a child!

"After the bones have shrunk, the strength of the body will not weaken. In addition, the body can develop its bones and muscles again through cultivation, and the process of development will also strengthen the body. This is a rather unique method of strengthening the body." That middle-aged man was very knowledgeable about pills, and explained in detail the uses of this godly pill.

"However, if the body is too strong, or has too many Divine Deity, eating it will not have too good of an effect. Eating below three Divine Deity is the best, including three Divine Deity."

At this time, everyone had a certain understanding of this godly pill. Especially those who were tired of living, they also wanted to experience the feeling of rejuvenation. After all, this was a rare godly pill, and its uses were quite good, perhaps it could be sold at a higher price.

There were only two of them in total. After a round of competition, they were all sold out, the first one being sold for 1.8 million Shen Yuan stone, and the second being sold for 1.7 million. There was a total of 3.5 million, which was 50,000 more than the previous three Five elements Dan!

Being able to get such a high price for a single pellet was beyond Chen Xiang's expectations. After all, he did not understand the curiosity in many people's hearts.

The fourth type was the Blood Sea Divine Pellet, and the one who concocted this pellet was also from the Supreme Divine Palace, just like the one before, who looked like a middle-aged man.

The Blood Sea Divine Pill was rather famous and rare. After consuming it, one would be able to produce several vats of blood, but he would not suffer a huge loss of strength! The quality of the blood he released was also extremely high. Sometimes, refining pills or equipment required a large amount of his own blood.

Of course, the thing that used blood the most was to refine one's own Divine Weapon or Divine Weapon, these things consumed the most blood. If one took one Blood Sea Divine Pill, they wouldn't have to worry too much about their vital energy being damaged after being drained, so these things were extremely useful.

There were only two Blood Sea Divine Pills, so Chen Xiang guessed that the final price should not be too low.

Sure enough, after a while, the two Blood Sea Divine Pills were sold. Each pellet of one million and eight hundred thousand Shen Yuan stone, added up to a total of three million and six hundred thousand, which was a hundred thousand more than the previous pellets!

At this time, it was finally Chen Xiang's turn. As long as Chen Xiang's divine pellet was sold, he could immediately decide his ranking!

Everyone present was deeply impressed by the terrifying amount of pills that Chen Xiang had produced. Many people present hoped that the Xiaping Dan in his furnace would be like the ones before, piled up inside like beans so that they would have the chance to buy these divine pellets.

"How many will it be? The fact that he could refine it in four hours was already not bad! When I first started refining low quality Bone level Dan, I was only able to do so after a period of time." The red clothed man was a little nervous, as if he was about to begin the battle. As a noble prince of Divine Nations, he had not felt such excitement in a long time.

Whether he won or lost, he would definitely feel satisfied in his heart. This was because it had been a long time since he had held such a competition, even though he was the one who had "thought too much" about it and was fighting with Chen Xiang alone.

At this moment, Feng Yujie and the others were also looking forward to it very much, especially Luo Tianjun. Because he knew that Chen Xiang was refining Bone level Dan s, but he didn't know how many of them.

Mu Chen and Xiao Changle were also looking forward to it, because they knew that the divine pellet Chen Xiang refined was not an ordinary one.

Right now, they seemed to have forgotten the two approaching great armies of the Divine Beasts, as they waited for Chen Xiang to open the pill furnaces!

The entire audience was silent, their hearts shouting "Hurry up and open". Carrying the pill furnace, Chen Xiang walked to the side of the middle-aged man, because he wanted to give the middle-aged man a look at the quality of the divine pellet.

[Chapter 2025](#)

Chen Xiang brought the pill furnaces up, the next thing to do was the middle-aged man. These pill furnaces were originally theirs, after refining, they would have to take them back, and after Chen Xiang took the Shen Yuan stone, it would be fine.

The middle aged man was also very curious about the pill refining competition, he was in charge of supervising it. Previously, when Chen Xiang took out the Bone level Dan's medicinal ingredients, he did not recognize any of the divine medicines.

Now that Chen Xiang brought the pill furnace up, he couldn't wait to go up and open the lid!

There were six supreme dan beads inside. Although the experts on the pavilion were far away from the center of the arena, they could still see the six divine dan beads inside the pill furnace and were unable to recognize them!

These six Bone level Dan s were milky white in color. When the middle-aged man took them out from the pill furnace, he let everyone see more clearly.

Of course, what they were most curious about was what kind of godly dan were these six? They were not precious!

... ..

"Young master, is this a Bone level Dan? Why is it different from the one you refined, I remember that you refined it with a light yellow color! " The old follower exclaimed in surprise when he saw the six pure white divine pellets.

The red clothed man frowned and did not say a word because he was also not sure if it was a Bone level Dan or not. "I am also clear because what my master refined is also light yellow! However, the divine medicine he uses is indeed the three that are needed to refine Bone level Dan! "

Xiao Changle asked curiously: "Old Luo, what exactly is this divine pellet? "I've never seen it before. Didn't you say that you would know once it's out of the oven?"

When Luo Tianjun saw the six divine pellets, he was stunned for a while. Luo Tianjun had never seen Bone level Dan before, but he knew from the books that Bone level Dan were light yellow in color.

"This... What divine pill is this?" The middle aged man asked Chen Xiang awkwardly. He was already experienced and knowledgeable, not only was he unable to recognize the divine medicine that Chen Xiang was refining the pills, he could not even recognize the completed products of the divine pills.

Many people suspected that this was a divine pill that Chen Xiang himself created! If it had a good effect, it would sell for a good price, but he needed to prove the effectiveness of this pill.

"Bone level Dan!" Chen Xiang said one word at a time. Everyone in the plaza could hear his loud voice.

Hearing these words, everyone was shocked, but they did not believe it, because all the pill gods present had understood from their books what a Bone level Dan looked like. Right now, it was completely different from Chen Xiang's.

The middle-aged man said: "But this Bone level Dan is different from the ones in the books. I come from the Divine Nations and have personally seen the Bone level Dan. As for your color, it is pure white. Furthermore, the aroma of the medicinal pills is stronger! it is completely different from the Bone level Dan I know. "

The red clothed man inside the pavilion also nodded his head, because the Bone level Dan that he had refined himself was exactly the same as what the middle-aged man had said. At this moment, he also could not believe that Chen Xiang had refined a Bone level Dan, and perhaps it was because Chen Xiang had produced too many pills in one go.

Chen Xiang smiled faintly. Before, he had also read about Bone level Dan s, and it was indeed just as the middle-aged man had said, but the reason it was different now was because his method of refinement was different. His method was to bring out the best of the divine medicines, Original source refining, but a Bone level Dan of the highest quality.

"Senior, then have you eaten Bone level Dan before?" Chen Xiang asked.

"I have never eaten before, even in Divine Nations, Bone level Dan are extremely precious! Low rank Bone level Dan is also priceless, and even if I had Shen Yuan stone, I wouldn't be able to buy it! " The middle-aged man shook his head. If there was really a Bone level Dan in front of him, he would definitely buy it too.

Chen Xiang asked again: "Then Senior, did you manage to cultivate Bones?"

The middle-aged man in front of him had an extraordinary strength, and he was even a Pill God. Chen Xiang guessed that his strength had already surpassed the Supreme God, and people with this kind of strength would really want to cultivate Bones.

"No!" The middle-aged man looked a little helpless, because up till now, there was no direct method of cultivating Bones.

Chen Xiang said: "Then, Senior, if you eat my Bone level Dan, can you confirm that this is a Bone level Dan?"

The middle-aged man thought for a moment: "Yes, I know what it feels like to eat a Bone level Dan. Although I have never eaten it before, I can definitely tell it from the feeling described in the book."

"Alright, in order to prove it, then I'll give you one, senior. This is my gift to you!" Chen Xiang smiled slightly. In his heart, he was also quite depressed, the Bone level Dan that he refined were the best, and the things that were recorded in the books were not good enough.

The middle-aged man hesitated for a moment, then placed a Bone level Dan into his mouth. When the divine pellet entered his mouth, the feeling described in the book immediately emerged, the middle-aged man's face was filled with ecstasy, it seemed like he could already confirm that this was the Bone level Dan!

"This is the Bone level Dan, upon eating it, it feels exactly the same as what is written in the book, or maybe even stronger. Could it be that your divine pellet is of better quality, so the color is different?" The middle-aged man said with a trace of excitement in his voice.

After the middle-aged man confirmed the news, the plaza immediately erupted with noise. The Bone level Dan had appeared, and it was for sale!

Even in the Divine Nations, it was something that had a price but no market. If it was auctioned here, the price could be imagined, not to mention a higher quality pure white Bone level Dan!

... ..

The red clothed man above the pavilion looked at the people in the plaza and whispered: "I must buy one, I must personally confirm if it is a Bone level Dan, even Master cannot refine a white Bone level Dan, while he can, can only refine six!"

"With young master's wealth, it won't be a problem for him to buy them all!" The old follower said: "If this is a fake Bone level Dan, then we must make this brat look good!"

The red clothed man said, "If I'm not lying, then the materials must be real!"

... ..

The middle aged man had eaten one of Chen Xiang's Bone level Dan, so he was in a hurry to conserve the medicinal energy, in case he wasted all his energy on it, when he was done with all of this, he would have to refine the medicinal energy, and maybe trigger the chance to condense the Bone level Dan.

"Everyone should know the value of Bone level Dan, so when you bid, you should have a rough idea!" The middle-aged man said, "Let's begin!"

Xiao Changle was shocked: "This is really a Bone level Dan, could it be that Master Guo is right, the quality of the pills Chen Xiang refined is the best, thus the color is different!"

The middle-aged man in charge of supervising the competition was Master Guo. Since he had the title, he must have some status too, and he himself had interacted with Bone level Dan before, so his words were authoritative.

[Chapter 2026](#)

"obtained the Bone level Dan's pill formula from the Dan Heart Pavilion. At that time, I was worried that he would attract trouble, so I made him hide it! The old man in charge of the Dan Heart Pavilion knows about this as well. At that time, I told him to keep quiet! Therefore, since Chen Xiang has the Bone level

Dan's pill formula, there is no need to doubt this point. " Luo Tianjun said with certainty: "Looks like he has already found the Bone level Dan's divine medicine and can refine it!"

The White Tiger laughed, "What a pity, we can't go to bid. I think it's time for me to prepare to cultivate my Bones, since it's very obvious that this thing will increase its strength."

Luo Tianjun laughed: "You don't have to worry, this guy can casually refine six pills, when the time comes we can find him and buy them at a friendly price!"

Very quickly, the first Bone level Dan that was auctioned off shot up to three million, but each pellet was sold for this price. Now, he could already confirm that Chen Xiang was the first in the competition.

The bidding was extremely intense, and there were even some experts from the Divine Nations who were having difficulty buying Bone level Dan s. Now that they could meet one here, they would naturally not let it go!

They all believed in Master Guo. Master Guo had tasted it himself and confirmed it. That was why they believed it to be the truth!

In the blink of an eye, it was seven million Shen Yuan stone!

Previously, when Chen Xiang obtained the Bone level Dan, he already knew that although it was of low quality, the price would definitely surpass that of many Zhongpin Dan.

If it was a middle ranked Bone level Dan, then the price would be even higher!

Chen Xiang felt that refining a batch of Bone level Dan was much more worthwhile than refining many of them, and the amount of spirit pearls he used was even less! If he and Feng Yujie were to dual cultivate Alive Slain Method, condense a large amount of Spirit Orbs, and then refine Bone level Dan together, then, before long, there would be more and more rare Bone level Dan!

"10 million!" The red clothed man lightly shouted. His voice had an innate aura to it. Although his voice wasn't loud, it contained an imposing aura that made many people in the pavilion quieten down.

The ones who were fighting the most fiercely were the experts from the Divine Nations. These experts all came from different Divine Nations, and they were in charge of observing the competition and came here to see how the development was going!

When they heard the red clothed man's voice, they didn't dare to raise the price anymore. This was a prince of the Divine Nations, the son of a Divine Lord! Even if they were stronger than the prince, they didn't dare to offend him!

Chen Xiang was able to deduce something from this. Previously, it was a million Shen Yuan stone, but now, there was only a voice of ten million, it was completely silent.

Yue'er said to Chen Xiang through sound transmission, "He's a member of the Divine Nations's Imperial Family, I can't forget about his aura. I never thought that someone with this identity would actually come, it should be something like a prince!"

As a pill god, he knew that the Divine Nations's royal family had very high expectations for the pill god. Therefore, he thought that Chen Xiang would have a bright future, but he did not know that Chen Xiang and the Divine Nations had some contradictions with each other.

The first Bone level Dan was sold for ten million, and the person who came up to buy the divine pellet was the red-clothed man's old follower.

Although they did not manage to buy the first one, there were still four remaining. The rankers from Divine Nations could only hope that the Prince of Divine Nations was not too greedy and would snatch the Bone level Dan from them, the small fry.

He himself knew how to refine Bone level Dan, of course he did not lack this, even if he did not know how to refine it, with his identity as the Divine Nations Prince, it would be easy for him to get Bone level Dan.

"Young master, are you sure? If it's fake, then I will immediately go kill that brat and fool around with him! " The old follower was extremely sincere towards this prince, and couldn't bear to see this prince suffer even the slightest bit.

After the red clothed man finished eating, he lightly sighed, and looked as if he was sincerely convinced: "It's a real Bone level Dan! It's much better than what I and my master refined! The light yellow color that Master and I refined can only be considered to be of low quality, but his was close to that of the Peak quality. If we were to sell it in the Divine Nations, twenty million Shen Yuan stone s would be considered very cheap! "

He mocked himself, "It seems like I've picked up a big bargain!"

The old subordinate saw that his Young Master had received such a huge blow and became angry, "Young master, this must be because of the Heavenly Alchemy. If you possess the Heavenly Alchemy, you can definitely be like him, or even surpass him! I'll help you snatch the Heavenly Alchemy right now! "

"No!" The red-clothed man indeed had a trace of intention to snatch the Heavenly Alchemy just now, but he told him in the depths of his heart that he could not do so, because this would go against his original intentions.

A prince of noble birth, with guidance from a master, with abundant resources. But in terms of refining Bone level Dan, Chen Xiang had far surpassed him.

"We can't touch him!" The red clothed man spoke very sternly. He understood his old follower very well, which was why he was so strict with him.

The old follower nodded and sighed.

Chen Xiang sold all five Bone level Dan, for a total of sixty-seven million. He was very satisfied with the price. Of course, if he were to sell it in the Divine Nations, it would sell for even more!

"Chen Xiang has obtained first place. This is the Life Soul Divine Pill's medicinal formula and ingredients!" Master Guo gave the rewards to Chen Xiang and even gave him a Storage bag. There were

tens of millions of Shen Yuan stone inside, and he did not want to make Chen Xiang's Bone level Dan for nothing. By doing this, he would leave a good impression on Chen Xiang.

After Chen Xiang received the prize, he quickly left the stage!

Just as he walked out of the plaza, Yue Er immediately transmitted her voice to tell him about what just happened.

He walked towards the pavilion that Feng Yujie and the rest were in, which was at the side of the plaza. Just as he reached the bottom of the building, he saw a few figures flying out from upstairs.

At the same time, roars of lions erupted outside the city!

The Divine Lion Race is here!

The elders of the Supreme Divine Palace all flew to the top of the city wall, while the Divine Lion Race and the Star Moon Divine Race were outside the city.

Feng Yujie brought Shui Bingyan to Chen Xiang's side and said: "Hall Master said, the Transmission array here is usable, what are your plans? Would you like to teleport out of here or stay here? "

"Of course we're staying here! Where's Big Brother Yang? " Yang Tianyi had actually not recovered, but Divine Lion Race and Star Moon Divine Race had already come. He could guess that the reason why Star Moon Divine Race had come was because Star Moon Ancestor Emperor had called him.

[Chapter 2027](#)

Yang Tianyi was still fusing with the star divine soul that Yue'er had given him, and the time needed to do so exceeded Yue'er's expectations.

The experts from the Divine Nations also wanted to watch the show, because when they came, they were instructed not to interfere in the matters of the, especially the conflicts between some of the forces. To the Divine Nations, the weaker the forces here were, the easier it was to control them.

Yue'er said: "Yang Tianyi is still in closed door cultivation, he should be coming out soon! Let's go up the city wall and take a look. If that stupid bear comes, then we won't dare to act rashly for the time being. There's the Prince of Divine Nations here, so he will more or less worry about him. "

The competition had also been suspended as all the Supreme Divine Palace warriors ran up the walls.

Chen Xiang and the rest arrived quickly as well. Standing on top of the wall, they saw a large empty space with hundreds of gigantic Silver lions outside, all of them dragging gigantic caravans. Other than these, there were also many different colored gigantic lions, all of which were Divine Lions that the Divine Lion Race could not transform into human forms!

On the other side, there were many Star and crescent beast in human form. There were many of them, several tens of thousands of them, and their overall strength was very strong.

The Divine Lion Race's gigantic Divine Lions were set up outside the city, one of them was even taller than the city walls, the other Divine Lions roared suddenly, the sound waves shaking the city walls, the sound waves spreading far away could be heard, all the mountains were collapsing, the earth was being

torn apart, this kind of grand and imposing aura was extremely shocking, causing many weaker humans to tremble in fear.

"Divine Lion Race, does our Supreme Divine Palace have no enmity with you? What does that mean?" Mu Chen was not scared by the aura, she floated in the air and asked loudly with a loud voice.

His voice was like thunder, but the aura of a man was not any weaker than the roars of the lions.

"You bullying the princes of our Divine Lion Race is equivalent to bullying our entire clan. This is an irreconcilable hatred, this is the reason why we have come! Now, we will give you two choices, either to fight, or to kowtow to our Divine Lion Race and apologize." An ice-cold voice came out from a carriage house. This must be the patriarch of the Divine Lion Race ... Divine Lion King!

It was impossible for him to kowtow and apologize, and this matter was caused by the Prince Divine Lions being too arrogant! Mu Chen was only wondering; Divine Lion Race should not have gotten into a fight over this, but now, other than Divine Lion Race, there was also another Star Moon Divine Race.

"Star Moon Divine Race, what about you? You all don't have any arrogant princes who would come here to humiliate themselves!" Mu Chen was already prepared for battle, so he did not hesitate to speak.

"There was once a little white cat that appeared in your Supreme Divine Palace, wasn't there! We came here for this. This kitten is still with you, so as long as you hand it over, we will leave immediately. If you don't hand it over, then we can only fight." An old man with long white hair floated in the air and spoke to Mu Chen.

Yue'er was right here, and she wanted to say something, to delay a little, and only need to wait for Yang Tianyi to come out. From the looks of it, they were evenly matched, and if they were to fight, both of them would definitely suffer, while the Star Moon Divine Race was still hiding behind them.

Even if the humans could suppress the beasts, the last one laughing would definitely be the Ancestor Emperor. He had yet to make a move yet, and was waiting for the best opportunity.

Yue'er had been plotted against by that Ancestor Emperor back then, and she was extremely clear about how sinister that Ancestor Emperor was.

Mu Chen and the others only knew that the little white cat was with Chen Xiang, but he wasn't with them right now.

"Last time, your Star Moon Divine Race sent an elder over. That little white cat left by herself long ago. That elder confirmed it too, so she isn't here." Mu Chen said. Right now, he did not see the little white cat following Chen Xiang either.

"Then we can only look for it ourselves!" The old man from the Star Moon Divine Race sneered.

"Let our Divine Lion Race attack!" A giant lion had already rushed over at an extremely fast speed. Moreover, the entire body of the lion was still emitting intense flames. As it ran, its steps shook the earth continuously and cracks had already appeared on the ground.

This Divine Lion that was as tall as a city wall was very strong, possessing the strength of the Great God level. If it were to charge over like this, it would definitely cause harm to the protection arrays of the Heroes Gathering Divine City.

At this moment, the White Tiger and the Vermillion Bird were already prepared to sell them and repel the massive Blazing Demon Lion!

"Yao, stop!" When the voice was heard, a figure suddenly appeared above the giant lion. Chen Xiang and the others were very familiar with this voice.

Hearing that voice, Chen Xiang knew that Qi Shi was here! He was the real Leonis!

As soon as Qi Shi arrived, those Divine Lions who had yet to take form all crawled down, as if they were worshipping their emperor! A long time ago, Qi Shi gained a lot of prestige in the Divine Lion Race. And those giant divine lions here were all teachers back then, so they naturally remembered Qi Shi's aura.

Qi Shi had gone to the Lion Emperor's Tomb, so for him to be able to return at this time, he must have already obtained the inheritance of the Lion Emperor.

The gigantic Flame Lion called Ah Yao had already stopped, he was listening to Qi Shi's words very much!

"Yao, I once told you that you would grow up to be a big man in the future. Now, sure enough!" It was a pity ... "Ah Yan is dead!" Qi Shi clenched his fist tightly, his killing intent surged, enveloping the entire Divine City. Black clouds instantly covered the blue sky, and streaks of blood-red lightning danced about incessantly as thunder roared.

The Ah Yan that Qi Shi was talking about just now, was his little brother Qi Yan, in other words, his Super Old Fire Beast!

After knowing that Qi Yan had passed away, the Divine Lions that were crawling on the ground raised their heads and roared loudly, their howls filled with sorrow.

Mu Chen and Xiao Changle, the two hall masters, were naturally aware of Qi Shi's situation. They were very surprised that Qi Shi had come at this moment.

"Ah Yan was killed by that Prince Divine Lions!" Qi Shi bellowed, his eyes shooting out two rays of golden light which entered a gigantic RV.

"Little bastard, come out!" With a furious roar, Qi Shi shattered the carriage into dust. Prince Divine Lions had already lost his usual calmness and fear filled his face, because he had never felt the anger of several hundred divine lions gather together to such a terrifying degree!

Within the Divine Lion Race, most of the divine lions were bred by Qi Shi back then, and now that they had grown up, when they found out that Qi Shi was still alive, they only recognized him as their king.

Divine Lion King could not sit still any longer. He stood up and said coldly, "Everyone, don't believe him. He is just a loser!" His appearance was similar to Prince Divine Lions's.

The current Divine Lion King and Qi Shi were brothers as well, but they had a different mother.

[Chapter 2028](#)

Qi Shi's arrival allowed Chen Xiang and Yue'er to feel a little more at ease. At the very least, this could delay Divine Lion Race and Yue'er for a period of time.

At this time, if the Ancestor Emperor came out, even if Qi Shi came out, it would be very difficult!

The Divine Lion King floated in the air, the golden armor on his body shone brightly in the sun. Although the Divine Lion Race Divine Lions did not listen to his orders, he was still confident that as long as he could kill Qi Shi, the Lions would follow him. They only followed the strong warriors.

Back then, Qi Shi was one of the strong War Gods in the Divine Lion Race, so when these Divine Lions saw Qi Shi's appearance and felt his aura, they all pledged their allegiance to him.

"I am a failure, but you are a coward! If I did not risk my life that year, the Divine Lion Race would have been annihilated, but you actually hid behind my back, and waited for us to die so you could take over the throne of the Divine Lion Race. If it wasn't for the fact that I used my life that year, the Divine Lion Race would have been annihilated, but you instead hid behind my back, and waited for us to die so that we could take over the throne of the Divine Lion Race. Qi Shi looked at the terrified Prince Divine Lions and shouted.

The Divine Lion King was unable to refute this point. Although the Divine Lions present were idiots, they still remembered these things, because they respected the strong warriors and respected the brave warriors. Back then, Qi Yan and Qi Shi had both sacrificed themselves to protect the Divine Lion Race, and they had all remembered this point.

The largest flame lion suddenly roared, the sudden explosive roar made everyone's heart jump, the flame lion also spat out a ray of flame, aimed straight at Prince Divine Lions!

"Humph!" The Divine Lion King immediately flew over and waved his palm. At the same time the blue light flashed, the terrifying flame was refracted. At the same time, a blue mist of air dragged a long tail of light, shooting towards the gigantic Blazing Divine Lion like a meteorite.

Although the Blazing Demon Lion King was gigantic like a mountain and strong enough, the one attacking him was a prince of the Divine Lion Race, such a powerful force was not something he could withstand.

Seeing that, Qi Shi roared, at the same time he rushed towards the blue mist, his body releasing an intense white light, directly scattering the blue mist that was condensed with a terrifying power.

In the blink of an eye, Qi Shi broke through the ball of air and arrived in front of the Divine Lion King.

The moment this warblade appeared, all the lions let out earth-shattering roars!

"Lion King's War Saber, you went to the Lion King's Tomb ..." The Divine Lion King was shocked. To be able to obtain this in the Lion Emperor's mausoleum meant that Qi Shi had already obtained the recognition of the Lion Emperor.

Qi Shi did not speak further, the blade had already slashed down rapidly, the blade contained Qi Shi's anger and strength, the moment the blade was unleashed, a powerful roar came out from the blade, the entire ground immediately caved in, flying up with layers of stone and earth. A gigantic black lion vaguely appeared in the midst of the dust.

This slash was extremely terrifying. The Divine Lion King had been trembling when Qi Shi had attacked, especially when he saw that this was the Lion Emperor's blade. He had already lost the will to fight with Qi Shi.

Divine Lion King dodged the blade, but Qi Shi's blade was not aimed at him, it directly slashed at Prince Divine Lions who was so scared that he could not move due to the blade's power.

The moment the sword slashed down, it was as if a black lion had drilled into Prince Divine Lions's body. The Prince Divine Lions let out a miserable roar, and transformed into black fragments.

"Qi Shi... You actually killed my son! " As the Godly Lion King looked at the scattered black fragments, his entire body trembled in anger.

"Your son deserves to die, he killed the warriors of my Divine Lion Race. Even if I do not kill him, the members of the Divine Lion Race will not let him go." Qi Shi's strength had actually become so terrifying. After killing the Prince Divine Lions, his warblade had already reached the neck of the Divine Lion King.

At this time, everyone could see that there was a layer of faint black mist on the Golden Armor of the Divine Lion King. Seeing this mist, Chen Xiang immediately looked at the White Tiger beside him.

"Tell me, why did you come here? The trouble caused by your son is not enough for you to use the power of your entire clan!" Qi Shi asked. The Divine Lion King was weaker than Qi Shi, hence Qi Shi had even more prestige in the Divine Lion Race.

Divine Lion King did not reply, he looked at the long haired old man from the Star Moon Divine Race. The old man waved his hand, and a red light shot out and struck Qi Shi's blade.

With a "ding" sound, the blade in Qi Shi's hand was almost knocked flying.

It was also at this moment that the old man from the Star Moon Divine Race came to the side of the Divine Lion King.

Yue'er transmitted to Chen Xiang, "This guy is our Star Moon Divine Race's Star-Moon Beast King."

Qi Shi seemed to recognize the other party as well and frowned: "It's you? I didn't expect you to be at this height! "

His cold old face raised a stiff cold smile: "Qi Shi, you better not bother about today's matters, you can leave now, I guarantee that you will still be able to live in the future, the matters of your Divine Lion Race will be resolved elsewhere, as long as you don't meddle in today's matters!"

"So what if you are the Star-Moon Beast King? My Divine Lion Race's matters are not up to you to cause trouble, don't tell me that I want to kill this fellow and have you nod your head? " Qi Shi sneered: "Don't think that I don't know about that Samsara Sacrifice thing. For you bastards to have such strength today, you must be sacrificing that little white cat!"

Qi Shi's words caused the Star-Moon Beast King's expression to drastically change, because this was their Star Moon Divine Race's secret. They could not let anyone else know about it, nor should they let the clan members of the Star Moon Divine Race know about it.

"I didn't want to kill you, but you talk too much!" The Star-Moon Beast King bellowed angrily, a ball of red fire burst out from its palm and flew towards Qi Shi at a close distance. Looking carefully, it was a meteorite that carried a terrifying power. slashed with his back, at the same time as the blade Qi split the meteorite apart, it shot towards the Star-Moon Beast King. At the same time, a roar came out, and the White Tiger had already launched its attack.

This was one of the Four Protectors of the Beast Divine Palace in the past. Now that he had regained his strength well and grasped the very mysterious and terrifying power of the Law of Darkness.

"Ancestor Emperor, save me!" He was very surprised by the sudden appearance of the White Tiger. With Qi Shi and the White Tiger attacking him, he could only die.

When Chen Xiang heard the Star-Moon Beast King's roar, he immediately told the White Tiger and Qi Shi, "You guys hurry up and leave, this Ancestor Emperor is very powerful!"

[Chapter 2029](#)

Chen Xiang had just finished sending them the sound transmission when a blazing star that was over ten times the size of a city descended from the sky swiftly. When it pressed down, that scorching aura made everyone feel as if they were in a furnace.

When Mu Chen and Xiao Changle saw it, they immediately soared into the sky. The Vermilion Bird was also involved, followed by Olde Iron Cock, Luo Tianjun, Zhu Xiangyuan and the other elders.

Fortunately, they were high up, so they were able to block in time!

The flaming star landed in a mountain forest far away. A violent earthquake came. The green mountain range was pushed to the ground by the flaming aura. The scorching fire spread out to a radius of a thousand miles.

At this time, the entire Heroes Gathering Divine City and the Supreme Divine Palace were being attacked by the flames. The flames were wreaking havoc on the land, and the villages near the Supreme Divine Palace had all disappeared.

A large part of the forest was destroyed!

Everyone was incomparably shocked. If that star had directly landed on the Heroes Gathering Divine City, then the entire Divine City would have definitely disappeared and this place would have turned into a deep pit!

In a few moments, this entire place had turned into a sea of fire. Only the Supreme Divine Palace and the others had not been affected!

... ..

The red clothed man floated in the air and looked down at the raging sea of fire. He exclaimed, "Where did this guy come from? If we fall into the city, we might even suffer! "

The old follower was furious: "Young master, you must tell Divine Lord about this matter, you were almost killed just now!"

The experts from the Divine Nations were all extremely shocked, they never thought that the dispute in the Super God Realm would actually reveal such a terrifying expert, they were already considered strong, but the power of the Ancestor Emperor was enough to kill them.

Not long after the sea of fire appeared, it began to rain. In the blink of an eye, the fire was extinguished. Moreover, the ground was even frozen.

At this moment, a young brawny man walked out from the ice. This man had thick eyebrows and big eyes, his fierce face was full of anger. He did not get angry, but his appearance alone gave people a sense of fear and oppression.

This was the stupid cow that Yue'er and Yang Tianyi always spoke of, the Ancestor Emperor!

"He specializes in consuming young stars for cultivation, but those young stars are all of good quality. He can devour all kinds of stars with different attributes, so it's not strange that he can use both ice and fire. Why is Yang Tianyi that bastard still not out yet!" Yue Er was extremely anxious. "Even Divine Nations and those guys are afraid now, they probably won't be able to withstand it. If this stupid cow brought one or two more stars over, Divine City would be gone."

It was obvious that it was this fellow who released the stars, and everyone felt that it was definitely not a real star, but rather someone condensed the power of a terrifying star in an instant. Thinking of this, everyone shuddered.

"Hand over the kittens and you'll be fine!" Ancestor Emperor's voice was hoarse, it sounded like muffled thunder that covered the entire sky.

Seeing the appearance of the Ancestor Emperor, the Star-Moon Beast King became more confident, but at the same time, the group of elders from the Star Moon Divine Race all rushed forward to attack the White Tiger and Qi Shi.

When the Vermillion Bird saw that the White Tiger had been surrounded, it didn't care too much about it and immediately rushed over. Mu Chen, Yi Bidong and the others were also chatting with the White Tiger previously.

"The kitten is hiding in this direction, I can sense it! Did you mean to hide her? Alright, I'll kill you guys first, then slowly search for it." A flaming long blade appeared in Star Moon Ancestor Emperor's huge palm and chopped at the white tiger from afar.

Just as the White Tiger was about to be hit, it turned into a cloud of black qi and dodged!

At this moment, Qi Shi and the others were fighting with the elders of the Star Moon Divine Race. What they did not expect was that another gigantic star appeared in the sky, this star was much larger than the previous one, and it landed on the Supreme Divine Palace and the Heroes Gathering Divine City. If it were to smash down again, it would definitely turn into ashes.

The Rankers from the Divine Nations did not plan to intervene at the moment. They were happy to see the strength of the Super God Realm weakened, and it was a good thing for them!

The gigantic flaming stars emitted red light, enveloping the entire sky above Heroes Gathering Divine City. At this time, the people from Heroes Gathering Divine City all flew out, and looked at the sky from inside the Divine City and the shrine, as if they were pressing down from the heavens.

Chen Xiang immediately flew high into the sky. He only wanted to use his own strength to stop the formation of the falling spirit stone, but at that moment, he saw a big fellow standing on top of their shop in the sky.

It's Yang Tianyi! He came out, he's on the roof of the shop!

Yang Tianyi must have definitely been shocked awake from such a huge commotion, and he must have fused with the star divine soul at such a critical time!

Yang Tianyi stood on top of the building, his palm faced the sky and released a ray of white light!

The white light that he released was only the size of an arm. Compared to the gigantic flaming star that could cover a hundred cities, it was simply too small!

However, just as the white light touched the blazing star, cracks appeared on the surface of the blazing star, following that, Yang Tianyi's white light became a little thicker, bigger than a water jar, and pierced through the entire star.

At this moment, everyone could see that not only did this intense white light pierce through the stars, it also caused the surface of the stars to be filled with cracks. It even slowed down the falling speed of the stars.

"Stupid cow, you're nothing much!" Yang Tianyi laughed out loud, and the white light that was originally the size of a water jar suddenly became extremely huge, enveloping the entire fiery star!

This beam of white light appeared for a very short time, almost in a flash, and then the blazing star vanished with the white light.

After Yang Tianyi extinguished all the stars, he instantly flashed high up into the sky, then flashed outside the city walls. Standing in front of the Star Moon Ancestor Emperor, the two were of average height!

When Star Moon Ancestor Emperor saw Yang Tianyi, he frowned: "I don't know you, why are you meddling in my affairs? Who exactly are you? Only the Divine Nations has someone with such strength! But Divine Nations promised me never to interfere in my affairs! "

"You don't know me, but I do! You are the famous Star Swallowing Divine Cow in Star Law Divine Realm!" Yang Tianyi said indifferently. When the Star Moon Ancestor Emperor heard this, he immediately took a few steps back.

"Are you the enforcer?" Star Moon Ancestor Emperor shouted in shock.

"No, but killing you is enough!" Yang Tianyi did not waste any more words, his fist had already smashed into Star Moon Ancestor Emperor's face.

Star Moon Ancestor Emperor was immediately sent flying far away, and he could no longer be seen with the naked eye, but the battle here continued. This was a battle between White Tiger, Qi Shi and the rest of the Star Moon Divine Race!

At this moment, many people were confused. According to the clues they had gathered, all of this was caused by a kitten! This is ridiculous! For a little kitten, he almost destroyed a Divine City and shrine. If he did not experience it personally, he would not have believed it.

"It's really dangerous, we were almost finished just now!" Jiang Sheng laughed as he came to Chen Xiang's side. He had initially gone to look for Qi Shi, but it seemed that he had already found him.

Chen Xiang immediately recognized him from his aura. He was the White crocodile of the Beast Divine Palace back then.

[Chapter 2030](#)

Jiang Sheng's strength was limited, so he could only watch from the side. Chen Xiang and the rest were also like this, facing such a strong Primordial God, they were simply unable to help.

Yang Tianyi and the Star Swallowing Divine Cow had erupted into an extremely intense battle in the distance. Although they could not see their figures from the city walls, they could see that in the distance, a piece of the ground that was covered by the lava had become completely red.

They were evenly matched. If this continued, even if they wanted to determine the victor, it would take a long time, and it would take a long time to do so. After all, with so many things happening here and the strong warriors sent by the Divine Nations, the Divine Nations would probably intervene!

If that was the case, Divine Nations had made a promise with him. If he was in a crisis, Divine Nations might come and save him. After all, he, the Swallowing Star Cow, had decent strength.

Although the elders were fighting with Qi Shi and the rest and were suppressed by them, they had no choice but to let their entire clan attack!

However, at this time, many clan members of the Star Moon Divine Race turned into birds and beasts, transformed into streaks of white light, and disappeared in four directions!

"These bastards!" He did not expect such a thing to happen.

Yue'er was extremely popular in the Star Moon Divine Race, so it was natural that many Star and crescent beast would listen to her. Especially after knowing that the Star Moon Ancestor Emperor was treating Yue'er in such a manner, they became even more furious.

This group of Star and crescent beast were originally nurtured by Xing Yue's essence, and were gathered in the Star Moon Divine Race. Only a small portion of them were born through reproduction, so they did not have much sympathy for this Star Moon Ancestor Emperor. They liked Yue'er, who often brought them joyous laughter, and Yue'er had also helped them over the years.

"Kill them all!" Qi Shi's target was the Divine Lion King. At this time, the Divine Lion King was mixed with the elders of Star Moon Divine Race, if they wanted to kill the Divine Lion King, they would need to eliminate the Star-Moon Beast King.

The moment Qi Shi gave the order, the Giant Divine Lions, who were ready to move, launched their fierce attacks together with Qi Shi and the others. They condensed some energy in the distance and released it, and very quickly, the elders of the Star Moon Divine Race did not have any chance to reverse the situation, they all lost their fighting spirit, and only wanted to get rid of Qi Shi and the others quickly so that they could escape from this place and save their lives.

"Qi Shi... You and I are still brothers ... " When the Divine Lion King saw that he had lost his power, he anxiously shouted, but Qi Shi did not care about face, he mercilessly slashed with the Lion Emperor's blade.

Qi Shi scoffed, "Qi Yan is also a brother, but what did you do after he was killed by your son? If you really treat us as brothers, then you shouldn't bring your precious son here, and even more so, you shouldn't let him continue to be so arrogant. "

When Qi Shi was killed by the Prince Divine Lions, when Qi Shi thought back to this matter, he definitely would not show mercy. He raised the Lion Emperor's battle blade in his hand again, and when it swung down, it turned into countless of blade shadows.

After the Divine Lion King had been killed, Qi Shi joined the battle between the White Tiger and Elder Xing Yue. They wanted to end the battle quickly so that they would have a better understanding of the Divine Nations and avoid delaying any further.

Not long after, all the elders of the Star Moon Divine Race were killed. Although they had powerful strength and had lived for many years, under the attacks of the terrifying Primordial Divine Beasts of the White Tiger family, they were completely annihilated.

"Fortunately, the Divine City and the divine hall are fine!" Mu Chen floated in the air and looked down. Although the Divine City and the surroundings of the shrine had been turned into a wasteland, he was not harmed at all.

Right now, everyone was watching the intense battle between Yang Tianyi and the Swallowing Star Divine Cow. They didn't dare to get too close to a battle of this level, and when they recalled the blazing star released by the Swallowing Star God Cow, they felt a lingering fear.

Yue'er sent a sound transmission to Chen Xiang: "What the hell is this Yang Tianyi doing? He still hasn't used the power of Bones up till now, so he should end this battle quickly! "

Yang Tianyi had merged with his star divine soul, his strength had greatly increased, but he did not use this kind of power!

It was unknown if it was Yue'er who suddenly transmitted to Yang Tianyi, but the activity in the distance became even more intense, and there was even a terrifying amount of star power!

Yang Tianyi came from the Star Law Divine Realm, and had been locked in the Star Moon Hell for many years full of the power of the stars and moon. His star power was also extremely terrifying.

"He's finally used it. This guy isn't lazy, he's performing well!" Yue Er transmitted her voice.

Chen Xiang also wanted to test how powerful his Bones would be once they fuse with a strong one. He already had the Bones right now, so his strength had increased by a lot but it just hadn't been done yet!

"Who is this person?" We actually don't know about it! " Mu Chen frowned, he looked at Chen Xiang.

"He's a senior from the Star Law Divine Realm. He's already been in the Super God Realm for a while, I was the one who saved him." Chen Xiang said, but he did not say anything about Yue'er, because Yue'er had enmity with the Divine Nations.

"Star Law Divine Realm? I think I've heard that this place is very mysterious, very far away, and much more powerful than the Divine Nations. " Qi Shi said.

"I don't know much either!" Chen Xiang did not really want to go to the Star Law Divine Realm.

After a short while, silence descended in the distance. Everyone was puzzled. They thought that the battle would last for a period of time, but now it had quieted down. Could it be that the battle had ended?

Sure enough, the battle had ended. Yang Tianyi flew over while carrying a fiery-red cow on his back. Yang Tianyi's body also had many shocking wounds, and there was even a bloody hole on his abdomen.

There was blood on the horns of the cow he was carrying. The hole on Yang Tianyi's abdomen should have been caused by the horn.

"Brat, it's your turn. This guy only severely injured Divine Sense Sea and his body, so he doesn't have any strength to fight back right now." Yang Tianyi let out a light breath. Looking at his current state, one could tell that his injuries were not light.

Chen Xiang immediately jumped off the city wall! He had already agreed that the Star Swallowing Divine Cow's divine soul was his, and that he would merge it with his Bones.

Chen Xiang's movements were extremely fast. As soon as he arrived beside the Star Swallowing Divine Cow, he immediately activated his Soul Absorbing Devil Spell and swallowed the Star Swallowing Divine Cow's divine soul.

"Stop him!" A voice suddenly came from the sky. It was the voice of a Middle-aged Man in Black Armour warrior.

This group of Divine Nations experts finally realised that Chen Xiang wanted to take away the Star Swallowing Divine Cow's divine soul. This kind of powerful beast's divine soul was incomparably precious, and it was also extremely difficult to find.
