

Dan God 2161

[Chapter 2161](#)

Only when the cauldron was fully repaired would Chen Xiang and Xiao Yulan know the secret behind it.

"Princess Yu Lan, the war is about to start. When that happens, will Xianxian and the rest be able to recover? "There's not much time left. With how powerful that cauldron is, it won't be easy to fix it." Chen Xiang asked, this was also something he was more concerned about.

"You don't have to worry about that. I've already made my plans. If I can't fix it, I'll have other plans when the time comes!" Xiao Yulan never thought that the situation would change so quickly. If not for the news of the Divine Nations's treasures suddenly appearing, those Great National Master would not have come in and cause such a ruckus.

Chen Xiang also hoped that Xiao Yulan could become the Divine Lord of Divine Lord. At that time, when the Nine Heaven World annexed the Super God Realm, he would be able to avoid being surrounded and attacked by other forces.

Xiao Yulan knew what Chen Xiang was worried about, so she had to guarantee the safety of and the others. Whether or not she could turn the tables around, would depend on whether or not the cauldron could be repaired.

Chen Xiang left Xiao Yulan's residence. When he returned, the courtyard house was extremely quiet. Xiao Baifeng was currently cultivating the second Bones while Yue'er was at the side guiding her.

He took out a portion of the Nine Yin and yang Dan's divine medicine and thought about it, then shook his head. He was worried that if he refined this Nine Yin and yang Dan, he would fall into a state of obsession very soon.

Chen Xiang sat alone in the hall. He didn't know what he was doing now, the Bone level Dan's medicinal ingredients were all finished concocting, and he didn't have any with him, so he could only wait for Xiao Baifeng to come out.

During the night, Chen Xiang suddenly smelled a fragrant wind, it was Imperial Concubine Lian!

In the middle of the night, Chen Xiang couldn't help but think that the charming Spirit Demon had suddenly come to him.

"This is the divine medicine that you asked me to buy today. I've got it!" Imperial Concubine Lian handed over a large jade box to Chen Xiang.

Chen Xiang took a look and confirmed that all of the divine medicines that the Heaven god fire Dan required were correct. He nodded his head in satisfaction.

"Ten billion Shen Yuan stone!" Imperial Concubine Lian reached out her jade hand, asking for it from Chen Xiang.

"I don't have it right now. I'll give it to you in a few days and help me purchase these divine medicines!" Chen Xiang put away the jade box and laughed.

"You little devil ..." I'm really worried that you will screw over my Shen Yuan stone, their Shen Yuan stone have all been accumulated over the years, don't lie to me. " Imperial Concubine Lian did not expect Chen Xiang to continue delaying. If she did not know that Chen Xiang could refine Bone level Dan, she would have used her strength to force Chen Xiang to give her the divine medicine.

"What are you afraid of? My luck is still pretty good, I just don't have it right now, I'll just wait for Elder Sister Bai Feng to come out of closed door cultivation, you just have to wait for a few more days, then I'll give you some interest! " Chen Xiang changed the topic and asked: "Have you helped Jin'er cultivate his Bones yet? It requires a person to guide her by the side. Seeing how weak she is, will she be able to endure that kind of pain? "

Imperial Concubine Lian smiled. "Don't underestimate my Jin'er, even though she doesn't seem to know anything, she is someone that I, as a Undead Heaven Spirit, have spent a hundred years nurturing and she is definitely not weak. She is an indestructible god of war, she will not suffer when she condenses Bones."

Chen Xiang's brows twitched: "It's really not fair, my Bones is so painful that I want to die, she actually doesn't have any pain!"

"Isn't it? This was the power of the Undying Battle God. In addition, there was an even more powerful force! However, she still needs the help of the Bone level Dan in order to condense her Bones. Imperial Concubine Lian felt that her idea of letting Xiao Jin'er follow Chen Xiang was even more correct. Previously, she didn't know that Chen Xiang knew how to refine Bone level Dan, but now that she knew, she was even more happy.

"Can you spare those ten billion Shen Yuan stone?" Chen Xiang laughed: "Next, help me buy a few more of those divine medicines, and you don't need my Shen Yuan stone s either, I will buy all of your daughter's Bone level Dan s."

"Dozens of billions of Shen Yuan stone! I also want to keep some people to buy things for me. If I really have a lot, then I don't really care, but I'm not as rich as you think! " Imperial Concubine Lian stuck out his tongue: "Anyway, you're so good at refining Five elements Dan, so it won't be long before you earn it back."

"Alright, alright! "I'm going to start concocting pills!" Chen Xiang received a portion of the Heaven god fire Dan's divine medicine and impatiently wanted to refine it.

Imperial Concubine Lian smiled coquettishly as she said a few words to him, then hurriedly left Xiao Baifeng's house.

Chen Xiang came to the underground secret room and took out the pill furnace Xue Xianxian and the others gave him. Right now, he was refining the more precious Heaven god fire Dan among the Shangpin dan, so he had to be more serious.

"Is this thing really helpful in condensing Divine Deity? Even these divine medicines were ridiculously expensive. If they were sold, wouldn't that amount to tens of billions? " Chen Xiang looked at the red flowers, fruits, leaves and grass in the jade box. These were all flowers and leaves formed by the Divine Fire Spirit Tree, and the grass grew under it.

"It's definitely not wild!" Chen Xiang took a look, although the quality was good, it lacked a bit of natural spiritual energy, and said: "If you want to use Alive Slain Method to copy, it seems to require a large amount of purple pearls!"

Even though he had failed ten times with that Nine Yin and yang Dan before, it gave him a lot of experience. Adding to the fact that he had successfully refined the Spirit Soul Five elements Dan, his control over it had improved a lot.

"A pot is ready!" Chen Xiang placed all the divine medicines into the pill furnace, released the flames and started to refine them.

The Heaven god fire Dan's four divine medicines all came from the Divine Fire Spirit Tree, so they could resist strong burning flames. If it was someone else's flame, it would be very difficult to quickly refine it.

But Chen Xiang's flames were different. His Chuangzao fire had a strong solubility, so even if it was a divine medicine that was very resistant to heat, it would be quickly broken under his full strength of flames.

He had refined a mutated Tianhuo Dan before, and it was a smart one at that, so the pressure on him wasn't too great when he refined this kind of Shangpin dan.

"It's harder to refine than normal Tianhuo Dan, but it's about the same as a Spiritual Light Tianhuo Dan." Chen Xiang was immediately full of confidence in himself. He used the Spirit Strengthening Technique and the Original source refining to refine it according to the method he used to refine the Tianhuo Dan.

"It would be difficult to refine a Heaven god fire Dan with spiritual light, but I have to try!" Chen Xiang used half a day's worth of time to smoothly progress to the later stages. Now, he had successfully refined the divine medicine and fused it together.

"After the Shangpin dan refines and fuses with it, it will turn into a medicinal liquid, and it won't be the same as the previous Medicine aura!" Chen Xiang used his Dao heart Eye to gaze at the large mass of fiery-like liquid. With a thought, he cut it into four parts.

If he started to concoct pills, he would be able to concoct four Heaven god fire Dan very quickly. However, he was not satisfied with it.

[Chapter 2162](#)

Chen Xiang did not immediately start to concoct the Divine Spiritual Pill, but chose to rest for an hour instead.

After resting, he checked the pill furnace to ensure that it had sufficient resistance to prevent it from exploding.

"It's about time!" Chen Xiang took a deep breath, and controlled the four clumps of fiery-red medicinal liquid inside the pill furnace to move further and further away. After reaching a certain distance, he suddenly activated his strong mental power, and controlled the four clumps of medicinal liquid to attack each other as fast as lightning.

"He just finished refining the pill and went to sleep! What can I do for him?" Xiao Baifeng looked at the room that was still open.

"He's already asleep! He asked me to buy a set of ingredients for the Divine Pill and I already bought one for him two days ago. The Imperial Concubine Lian gave Xiao Baifeng a jade box: "Tell him that he owes me another ten billion Shen Yuan stone!"

With that, the Imperial Concubine Lian left in a hurry.

"This is the Heaven god fire Dan's divine medicine, Imperial Concubine Lian is really powerful, he could actually buy two of these so quickly." Just a moment ago, she was wondering how Chen Xiang had gotten the Heaven god fire Dan's divine medicine, but now, she understood.

Yue'er laughed: "Elder Sister Bai Feng, you should go and get some Five elements Dan's divine medicine for him now. He owes Imperial Concubine Lian twenty billion Shen Yuan stone."

Right now, it was best to buy the Five elements Dan's divine medicine. Moreover, it was relatively cheaper.

"Even if he refined a batch of Five elements Dan, he would only be able to sell it for thirty million. If he wanted to gather twenty million, he would need to refine a lot of batches of Shen Yuan stone, and it would take quite a bit of time!" Xiao Baifeng said: "Looks like he can only refine Bone level Dan s to sell!"

"Intermediate rank Bone level Dan can sell for seven or eight billion, how many can he refine in one furnace?" Xiao Baifeng touched Yue'er.

"Six pills!" Yue'er said. Last time, Chen Xiang had only been able to refine four Zhongpin bone level Dan, but that was the first time he had done so.

This startled Xiao Baifeng. Intermediate quality Bone level Dan s could not get much per set, but it could be sold for that much.

Xiao Baifeng said: "Looks like I can get Imperial Concubine Lian to help me sell them. If I have six of them, I can sell them for at least 400 billion. Only Imperial Concubine Lian can sell them for this kind of method, so I might be able to sell them even more."

She knew that Chen Xiang was in a hurry, so she decided to let Chen Xiang refine Zhongpin Dan s to sell, thus she immediately bought the Bone level Dan's divine medicine. Chen Xiang still had the Zhongpin bone level Dan's divine medicine in his hands, but she thought Chen Xiang had used it all up.

When Chen Xiang woke up, it was already noon of the second day.

"She was given to you by the Imperial Concubine Lian. She said that you owe her another ten billion Shen Yuan stone." Xiao Baifeng gave a jade box to Chen Xiang.

After Chen Xiang accepted it, he looked inside and saw the Heaven god fire Dan's divine medicine. He nodded.

"How?" Chen Xiang frowned.

"Sell the Zhongpin bone level Dan, give it to Imperial Concubine Lian to sell." Xiao Baifeng said: "You better go and find her now. She used twenty billion Shen Yuan stone s, and probably won't have much left."

Chen Xiang still had three Bone level Dan s in his hands. Last time, he had tried to refine four pills in a furnace and ate one for himself, but because his physical body could not keep up with the pills, he was unable to condense a Bone level Dan.

"I'll go find her now!" Chen Xiang said as he took the Storage bag that Xiao Baifeng handed over. There were ten batches of Zhongpin bone level Dan's medicinal ingredients inside.

Xiao Baifeng drove Chen Xiang to Imperial Concubine Lian's residence.

When the Imperial Concubine Lian saw Chen Xiang arriving, he asked while grinning: "Did you come to return the Shen Yuan stone?"

"No!" Chen Xiang laughed: "I haven't seen Imperial Concubine Lian for two days, my heart was filled with longing, so I came to take a look, is that not okay?"

"Brat, I only have about ten billion Shen Yuan stone left. Hurry and return my Shen Yuan stone." Imperial Concubine Lian pouted.

Xiao Baifeng never thought that Chen Xiang's relationship with the Imperial Concubine Lian would actually be so close, to actually dare to use words to tease the latter.

Chen Xiang walked into the Imperial Concubine Lian's room while grinning. Originally, Xiao Baifeng wanted to stop her without her permission, but Chen Xiang pulled her and stepped into the room.

Imperial Concubine Lian also knew that Chen Xiang had some secret things that he needed to discuss with her.

"If you have something to say, just say it, I'll find Yu Lan and borrow the Shen Yuan stone to buy the divine medicine for you!" Imperial Concubine Lian was currently trying his best to please Chen Xiang, the Alchemist who knew how to refine Bone level Dan.

"There's no need to borrow from her!" Chen Xiang sat on her soft bed and tried to bounce off her, causing Imperial Concubine Lian to snort.

[Chapter 2163](#)

"There are three Zhongpin bone level Dan s!" Chen Xiang took out a jade box and casually threw it towards Imperial Concubine Lian.

"What?" When the Imperial Concubine Lian heard that it was a Zhongpin bone level Dan, she immediately took it in carefully as if it was a treasure. She opened it to take a look, and sure enough, there were three high quality Zhongpin bone level Dan s.

"It's not like it's difficult! "How much can you sell it for?" Chen Xiang laughed: Do you have enough to return your twenty billion?

"Enough is enough, there's still more!" Imperial Concubine Lian hurriedly said: "Are you really willing to sell this kind of thing?"

Chen Xiang would never tell her that he could still refine many more Zhongpin bone level Dan.

"Of course I can. I can't bear the beautiful Imperial Concubine Lian borrowing Shen Yuan stone everywhere." Chen Xiang laughed: "Alright, just sell it. Give the extra to Elder Sister Bai Feng, I'm going back to cultivate."

Just as Chen Xiang walked to the door, Imperial Concubine Lian grabbed onto his hand. Chen Xiang could feel her soft and warm hands and couldn't help but pinch.

"Do you have a lot of these Zhongpin bone level Dan? I'm not willing to sell it!" Imperial Concubine Lian asked.

"Not much, but it's not that hard to get. Sell it quickly!" Chen Xiang urgently needed the Heaven god fire Dan.

Xiao Baifeng said: "Imperial Concubine Lian, you don't have to worry, Zhongpin bone level Dan are easier to obtain for him."

Imperial Concubine Lian nodded his head: "You guys can go back first, I will settle this quickly!"

... ..

Chen Xiang and Xiao Baifeng went back, while Imperial Concubine Lian went to look for Xiao Yulan immediately!

Xiao Yulan looked at the three Zhongpin bone level Dan s inside the jade box and gently frowned: "This Chen Xiang is really much more terrifying than I thought he was, he actually took out three Zhongpin bone level Dan s to sell. Luckily he did not let Bai Feng handle the matter and he definitely does not know what kind of sensation these three Zhongpin bone level Dan s would create if they were to sell!"

"So that's why I came to find you. How many Shen Yuan stone do you plan to accept? What he needs now are divine medicines. I have already helped him buy two Shangpin medicine s, and one of them is worth more than ten billion. Who knows what kind of divine pellets he is playing with." Imperial Concubine Lian leaned against a chair, her hands supporting her cheeks: He already gave me a few Xiaping bone level Dan s earlier, judging from his appearance, these Bone level Dan s are like beans in his eyes, maybe he even gave a few to Bai Feng girl.

"10 billion pills, I'll buy it." Xiao Yulan laughed lightly: "You need a million and two hundred thousand Shen Yuan stone to sell to the Great National Master. No wonder you are so willing to give Jin'er to him, this brat is truly amazing. "

"Hmph, there are a lot of women by his side, Xue Xianxian and the rest definitely are! And this guy is even interested in us, mother and daughter! "You should be careful of Yu Lan..." After saying that, Imperial Concubine Lian began to giggle: "This brat is not someone who is easy to deal with. Your little girl White Phoenix is now his.

... ..

Chen Xiang returned to the secret room and immediately refined a batch of Zhongpin bone level Dan. He only managed to refine five pills, but the refining speed had increased by a lot.

"Heaven god fire Dan, I hope it will be of great help to me!"

Chen Xiang looked at the fiery-red pill in his hand. This Heaven god fire Dan was extremely beautiful, like a red gem, with many faint white glowing patterns on the surface.

After eating this Heaven god fire Dan, the medicinal power quickly erupted, and a wave of warmth immediately caused Chen Xiang's body to feel as if it was being burned by fire, but he did not feel hot at all.

This Heaven god fire Dan was here to help condense Divine Deity, so after he consumed it, he channeled his Heavenly Alchemy and refined the medicinal power. At the same time he refined the medicinal power, the Yang energy in the surroundings immediately entered his body ...

In just an hour, all of the Yang energy in Jade Cauldron Palace was gushed towards Chen Xiang. Even the powerful light released by the blazing sun in the sky was unavoidable, all of the Yang energy being absorbed by Chen Xiang!

When the Imperial Concubine Lian and Xiao Yulan were discussing and felt the power of the Supreme Yang rush towards one direction, they both had the same thought.

"So that's how it is. The divine medicine this kid asked me to buy earlier, was actually used to refine Heaven god fire Dan! Weird, why would Prince Ping give this pill formula to him? " Imperial Concubine Lian said: "Could it be that the Bone level Dan's pill formula was given by Prince Ping as well?"

Xiao Yulan frowned: "It's possible, Chen Xiang has Heavenly Alchemy, maybe he used it to exchange for the Bone level Dan's pill formulas."

After saying that, Xiao Yulan denied his own words: "That's not right, because the White Phoenix has been helping Chen Xiang buy the divine medicine for a long time now, and the divine medicine must have contained Bone level Dan s. Although she did it in secret, it can't be hidden from me. He should have obtained the Bone level Dan's pill formula very early on. "

"The Heaven god fire Dan is a very strong Shangpin dan, he hasn't even reached the Supreme God Realm yet, is he really able to handle it?" Imperial Concubine Lian looked in Chen Xiang's direction: "Forget it, let's ignore him and continue!"

Xiao Baifeng and Yue'er were right above the secret room, so they felt it the most obvious.

However, Chen Xiang didn't feel anything, he only felt that he was soaking in very comfortable hot water, and that he was sleeping comfortably. That comfortable hot water continued to rain down on his body, and as he circulated his energy, it burrowed into the inside of his body, causing him to feel very comfortable.

This was only his current feeling, and at this moment, he was wrapped up by a ball of white Supreme Yang energy, and this ball of Supreme Yang energy crazily drilled into his body and entered his Divine Sense Sea.

"He has condensed his Divine Deity!" Chen Xiang looked at the Divine Deity which Divine Sense Sea had just condensed and was extremely excited: "This Divine Deity is as formidable as the one before!"

This was also the flame Divine Deity, all that was left was the divine soul!

"How long has it been used for?" Chen Xiang had never been able to condense Divine Deity so comfortably before, so he ate another Heaven god fire Dan. This time, what he condensed was the divine soul within his Divine Deity, and he needed a Heaven god fire Dan in order to do so.

Two Heaven god fire Dan s allowed him to condense one Divine Deity and one divine soul. When he walked out of the secret room, only Yue'er was there.

"There are only two days before the start of the competition. I thought that you wouldn't be able to come out!" Yue'er laughed: "How are the Heaven god fire Dan's effects?"

"Very good, I already have seven Divine Deity now. Relying on this Heaven god fire Dan, I can quickly become a Supreme God." Chen Xiang grabbed Yue'er and placed her on his palm to tease her. He liked to pinch Yue'er's soft and fluffy stomach the most, and Yue'er didn't like him to do that the most.

"Where's the Elder Sister Bai Feng?" Chen Xiang asked.

"I went to buy the Bone level Dan's medicinal ingredients for you. She had been busy with this for the past few days because she knew that it wouldn't be that easy to obtain the divine medicine after you went back." Yue'er said: "Right now, the situation is very tense. When Imperial Concubine Lian came over earlier, she had already made Elder Sister Bai Feng ready to fight at any time, and she is also very anxious for her daughter. She couldn't wait for you to bring Jin'er to Nine Heaven World for shelter right now."

[Chapter 2164](#)

As the war neared, but the situation was not settled, Chen Xiang was also very worried, because they did not know if they could successfully repair that cauldron, if they did not, how would Xiao Yulan be able to handle this matter? He had to bring Xue Xianxian and the others back before the great battle.

Chen Xiang didn't plan to do anything else at this moment either. He needed to rest well for the next two days so that he could have a good time to compete with Xiao Ping.

Xiao Baifeng returned after busying an entire day, and only saw him when the sky was almost dark.

"Fifty batches of Zhongpin bone level Dan's medicine, and ten of high-quality! The Heaven god fire Dan's medicine are all at Imperial Concubine Lian's place! " Xiao Baifeng knew that Chen Xiang would leave after the competition, so she wanted to do something for him.

"Thank you!" Chen Xiang looked at the ingredients and smiled at Xiao Baifeng.

I can cultivate two Bones now, which can help me break through my future bottlenecks, not to mention, this is using your Shen Yuan stone! Imperial Concubine Lian sold the three Bone level Dan s that you gave her for thirty billion. " Xiao Baifeng laughed: "Although I haven't been with you for a long time, I'm actually very happy."

"Elder Sister Bai Feng, come with me when the time comes!" Chen Xiang said: "If you can't help Princess Yu Lan here, you might as well come back with me."

Xiao Baifeng had the same thought as well, but in the end, she still decided to stay. She shook her head and said, "The princess has treated me with such kindness, and I want to be with her!"

sighed. At this time, Imperial Concubine Lian walked in, and at this moment, she could enter and exit Xiao Baifeng's house at will. Her relationship with Xiao Baifeng had also become very good.

When Imperial Concubine Lian arrived, she was still bringing along the shy and innocent Xiao Jin'er. Seeing Chen Xiang looking at her with a smile on his face, she immediately blushed, as if her face was about to bleed.

"Brat, shut your eyes!" Although the Imperial Concubine Lian scolded you, her charming face was also full of smiles: "I shall leave Jin'er with you. You two should get familiar with her properly during these two days, so that she won't be afraid of you when the time comes."

"Six sets of Heaven god fire Dan's divine medicine." Imperial Concubine Lian threw a Storage bag to Chen Xiang. She already knew that the herbs Chen Xiang bought were Heaven god fire Dan s.

Chen Xiang took it and looked it over, then asked: "How do you know I refined Heaven god fire Dan?"

"You've been through the winter these days, it's hard for you not to know!" Imperial Concubine Lian reached out her jade hand and laughed: "This is worth sixty billion, and it was even Yulan who came out of the Shen Yuan stone to help you buy it, but I did not give it to you for nothing."

"Take it. There's only this much for now!" Chen Xiang had long since refined a batch of Zhongpin bone level Dan s, even though he only produced five.

"Do you want to come with me to meet Yu Lan?" Imperial Concubine Lian looked at the five Zhongpin bone level Dan. She was now certain that this Bone level Dan was not important in Chen Xiang's eyes at all, and she was also very curious about how many Bones Chen Xiang had cultivated.

"I was just about to go look for her!" Chen Xiang nodded.

... ..

Inside the secret room in Xiao Yulan's residence, the Imperial Concubine Lian had finished pouring tea for Chen Xiang and the others before exiting the secret room.

Chen Xiang drank a mouthful of tea and then asked: "Princess Yu Lan, when will Xianxian and the others be able to follow me?"

Xiao Yulan looked very sad at the moment. She didn't have the usual gentle and approachable smile. She faintly sighed: "You can bring them along after the competition."

"Has the cauldron been repaired yet?" Chen Xiang asked again, he did not want Xiao Yulan to lose in the battle either.

Xiao Yulan shook his head: "The materials required already exceeded my expectations, although he gathered all of the required materials a few days ago, but then something happened again. Although

Heavenly Divine Lord produced the repair blueprints, he did not try it himself! When Xianxian and the others started to fix it, they encountered many troublesome problems. Although they had the ability to solve them, it was too late. "

"What a pity!" Chen Xiang also sighed.

"Chen Xiang, I've been thinking about something important these past few days!" Xiao Yulan suddenly looked at Chen Xiang very seriously, his expression extremely solemn. "Can I trust you or not?"

"That's up to you! However, I can tell you with certainty that you can completely trust me! " Chen Xiang said very seriously.

"I plan to have Xianxian and the others take that cauldron back to the Nine Heaven World to fix it!" Xiao Yulan looked into Chen Xiang's eyes, and at the same time, she gave Chen Xiang a huge pressure: "This is the most important thing to my royal father, the reason why my royal father can become a Divine Lord is because of this cauldron!"

"I know!" Chen Xiang was extremely shocked in his heart. Xiao Yulan actually made such a huge decision.

"I don't want this cauldron to fall into the hands of others, so you have to help me take care of it. If I die, you must use this cauldron to help me take revenge! If I am still alive, then when you see me again in the future, you must return it to me. " Xiao Yulan said: "I am not really familiar with you, but after these few days of being together with Xianxian and the others, my intuition tells me that I can trust you!"

Chen Xiang nodded, "Don't worry, I promise! In the future, I will also need a strong Divine Nations as a backing. I hope that you can win this battle. "

Chen Xiang did not know much about the powers in the Imperial Nine Palace, but seeing that Xiao Yulan did not have much confidence right now, he knew how powerful Xiao Yulan's enemies were.

"I'll bring you to see Xianxian and the others, they were previously busy, but during this month, they did not rest once, so seeing them so tired made my heart ache. I also advised them to rest once, but they knew that this cauldron is very important to me, so they helped me fix it day and night!" Xiao Yulan brought Chen Xiang into another secret room, where there was a Transmission array.

"I really let them down by abducting them like that! But they still help me. " Xiao Yulan said guiltily: "It's also because of them that I decided to let them bring this cauldron back to repair it."

Chen Xiang laughed: "Since you can make them help you day and night, it looks like they have a lot of trust in you!"

Xiao Yulan opened her Transmission array and brought Chen Xiang to another stone room. She smiled lightly: "You're pretty amazing too, to be able to make them become loyal to you."

Chen Xiang laughed proudly: "The women by my side are not only powerful, there are also many that are very scary."

After walking out of the stone room, Chen Xiang arrived at a very spacious hall. It was extremely hot here, and there were a few extremely large stoves burning in flames, and in the middle of these stoves, there was a three-legged round cauldron that was as big as a small mountain. Xue Xianxian and the rest

were looking at the blueprints below the stoves, but they did not realise that Chen Xiang and Xiao Yulan had arrived.

[Chapter 2165](#)

Chen Xiang looked at the cauldron carefully. The color was green, and it looked like a bronze cauldron, but no damage could be seen. Other than the size of the cauldron, there was nothing else that made people think that this cauldron was powerful.

"Where is it broken?" Chen Xiang walked over and asked. When Xue Xianxian and the others heard Chen Xiang's voice, they immediately looked over.

"Brother, why are you here?" Dongfang Jing hurriedly asked, smiling sweetly at Chen Xiang.

"A big part of it was originally broken on the outside, but now we have repaired it!" But the worst of it is the inside. " Liu Meng'er sighed: "Although it can be repaired, it will take a long time."

Chen Xiang came to the bottom of the cauldron, and touched the pillar sized cauldron foot, and immediately frowned: "What a familiar energy!"

"What is this energy?" Xiao Yulan was shocked, and immediately asked: "I still can't figure out what kind of energy this is!"

Xue Xianxian said: "This type of energy is extremely strange, as if it was formed by containing all the elemental energy in the world."

Dongfang Xinyue nodded his head: "I tried to absorb a little bit. There are all kinds of attributed energy, but this requires a body to have the ability to control all sorts of attributed energy. If one knows how to use the power of space, they can also transform this energy into a very strong power of space."

"This is the Six Realms' Power!" Chen Xiang frowned: "This cauldron is the same as the Six Realms mirrors, it can produce an extremely terrifying Six Realms' Power. If my guess is not wrong, this cauldron should be called the Six Realms Ding!"

As he said that, he took out the Six Realms mirrors and released a very strong Six Realms' Power. Sensing this kind of energy, Xue Xianxian, Xiao Yulan and the rest of the girls were immediately shocked.

"The six Divine Lord's Six Realms mirrors have been completely repaired?" Xiao Yulan was shocked: "I heard that you have it, but the news is that the Six Realms mirrors is severely damaged, and it does not have any power in your hands!"

Chen Xiang kept the Six Realms mirrors well and sneered: "That's because you've been tricked, and because someone wanted to take the Six Realms mirrors for himself, this news spread, and the Six Realms mirrors is almost completely healed. Furthermore, I don't usually use it much."

"Six Realms mirrors have the power to repair itself, this is because they have absorbed a large amount of the six paths of energy, if this is really a Six Realms Ding, then we can perhaps use the Six Realms mirrors to repair themselves." Liu Meng'er replied: "It's just that we don't have much time left."

"Forget it. I've already made the worst case scenario. No matter what, I can't let you get involved in this battle." Xiao Yulan sighed, then said to Liu Meng'er and the others: "You can go back now, do you want me to send you off, or follow Chen Xiang?"

"Follow him!" Liu Meng'er said.

Xiao Yulan had actually already merged with the Six Realms Ding. She could control the cauldron to become smaller and larger, like a palm. She passed it to Liu Meng'er.

Xiao Yulan hadn't told Liu Meng'er and the others about this matter before, so they were extremely shocked now.

"I have already spoken to Chen Xiang. If I die, he will use this cauldron to help me take revenge, and if I am still alive, he will hand it over to me." Xiao Yulan said in a serious tone.

"Sister Yulan, don't worry!" We will definitely fix it and let this little scoundrel bring it back to you!" Xue Xianxian said.

"Yu Lan, you're so strong, you definitely won't die. Don't say that." Liu Meng'er held Xiao Yulan's hand, encouraging her.

Xiao Yulan laughed, "Looks like I really am not fit to be a Divine Lord. Even at this time, I'm still hanging my head in dejection." She looked at Chen Xiang. This was what Chen Xiang had said to her before.

"Indeed. If it's Sister Qilian and Sister Hui Shan, their performances would be completely different from yours." Chen Xiang shrugged his shoulders, looked at Liu Meng'er, and smiled: "Elder Sister Meng'er was also a female emperor in a mortal country in the past, look at her, she's just different from you."

Towards this kind of fight between Divine Kings, small fries like Chen Xiang and the rest would not even have any use, so they did not say anything polite like helping out.

Liu Meng'er and the others entered Chen Xiang's ring. After entering, Dongfang Xinyue clamored about wanting to refine this ring from a new beginning. They were all so strong now, and this ring was something that was a long time ago.

"Princess Yu Lan, I want to take Elder Sister Bai Feng away! I don't think there's much point in her staying here, but this woman is very stubborn and will follow you no matter what." Chen Xiang caressed the ring: "My Nine Heaven World also needs a female Ranker, and the time there is different. When you meet her next time, maybe she will already have caught up to you guys."

"I will order her to go with you!" Xiao Yulan also felt that being the best for Xiao Baifeng. Even though Xiao Baifeng was a thirty Divine Deity Great Saint, if a great battle were to break out at that time, she would very likely be killed.

Chen Xiang and Imperial Concubine Lian returned to Xiao Baifeng's house with Xiao Yulan's "command". When Xiao Baifeng saw this command, she scolded Chen Xiang a little.

"Bai Feng, you go back with him. Help me take care of Jin'er! If we really lose, then only you can help us take revenge." Imperial Concubine Lian touched Xiao Baifeng's face: "I'm with Yulan, you don't have to be too worried."

"I got it!" Xiao Baifeng clenched his fists tightly.

In order to make it easier to leave, Chen Xiang allowed Xiao Jin'er to enter the ring. This way, it could make Xiao Jin'er less afraid of living, and Xue Xianxian and the others treated people extremely well.

This morning, Huang Jintian, Huang Yantian and the others had all come. They were worried that something would happen to Chen Xiang, so they decided to end the competition to protect Chen Xiang.

Chen Xiang, Huang Jintian and the rest got on Xiao Baifeng's carriage and entered the huge square. The first thing they did was to refine pills, and the next thing to do was to compete with array formations and artifact forging, and finally, it was to compete with each other!

Before, he had promised Chen Xiang that as long as Chen Xiang was willing to compete with him to the end, he would let his master, Great National Master, keep him safe.

Previously, there were many first-tier Divine Kings who had withdrawn from the struggle for the throne. However, after knowing that there were treasures of the Divine Nations, they all joined in, and there were even some who had joined together in secret. This was because there were many treasures of the Divine Nations's treasures, and at that time, it would already be good if they could obtain a small part of them.

There were many people, around a hundred thousand of them, but Chen Xiang was unable to find the location of those first-tier Divine Kings, nor was he able to sense their auras. And the people he saw now, were just a few small fries, as well as Alchemist participating in the competition.

[Chapter 2166](#)

Chen Xiang took out a jade tablet and Xiao Ping then entered the center of the competition grounds. This competition grounds was very high, allowing many people to see the people on it.

There were only a hundred or so Alchemist that could make it to this stage!

"Prince Ping, where is your master?" Chen Xiang stood beside Xiao Ping.

"He'll be here in a moment!" Xiao Ping chuckled, "My master rarely shows his face, but today ..."

Xiao Ping had just finished speaking when a white-haired, ruddy-faced old man appeared on the stage. He looked like an expert.

The other Alchemist on the stage immediately revealed looks of reverence. Chen Xiang was now certain that this old man was the legendary number one pill god in the Divine Cauldron Nation, Xiang Hongdao.

He kindly glanced at Xiao Ping, then seriously sized up Chen Xiang. How could he not know about the match between Chen Xiang and Xiao Ping? On one hand, it was to watch Chen Xiang use the Heavenly Alchemy to refine pills, and on the other hand, it was to protect Chen Xiang from being ambushed.

"In these two rounds, the first round is to refine a godly pill that everyone is very familiar with. The first is a Tianhuo Dan, the second is a high rank Five elements Dan, I will provide the ingredients!" Xiang Hongdao held his hands behind his back in front of the crowd of Pill Gods, as he walked back and forth, he explained the rules: "As everyone knows, today's competition is to reveal the potential to become a

Great National Master, and for me to set the rules, even though it is harsh, if I can pass, I will have to personally nurture it."

"As long as it meets my requirements, I'll take as much as I can." Xiang Hongdao saw the doubtful look on everyone's faces and asked.

Because Xiao Ping's level was very high, if Xiang Hongdao only used Xiao Ping's standard to specify the rules, then most of them would not have a chance.

"Don't doubt who I favor. If you do not meet my requirements, it will prove that you are qualified to be my disciple! Even Xiao Ping is the same. If he doesn't reach the standards that I set today, then I will also expel him from my sect." Xiang Hongdao's words caused a stir in the plaza.

Perhaps only he could say such words to drive Xiao Ping away. After all, he was Divine Cauldron Nation's number one Pill God!

"First is the Tianhuo Dan. Its overall quality must reach six hundred!" Xiang Hongdao took out a round disk. He had tested Xiao Ping's quality before with this divine artifact!

If the total quality was to reach seven hundred, wouldn't it mean that one would need to refine six pellets in a batch, and then refine a hundred pellets each? This was simply too difficult, before Xiao Ping refined the Five elements Dan, he could only keep each pellet at ninety, and the quantity was less than these six pellets.

Hearing this request, only a few Pill Gods knew that this was something that could only be achieved by concocting a high quality Spiritual Light Pill. This was truly difficult! However, thinking that this would be the standard of the future Great National Master, it was understandable even if it was difficult.

"After you guys pass this test, I'll then talk about the standard of high rank Five elements Dan. You guys can start collecting the divine medicines and use your own pill furnaces, but you must inspect them for me." Xiang Hongdao said: "Five hours of time!"

Five hours! These ten-odd people immediately stood out. They simply could not do it. Even if it was ordinary refining, it would take them more than five hours!

Xiao Ping looked at Chen Xiang and smiled, "Are you feeling pressured?"

Chen Xiang laughed faintly: "Not at all, I feel that you will lose to me in this trial, and to a worse extent! Of course, you don't have to be expelled from the sect."

"You're really arrogant!" Xiao Ping chuckled.

"I don't want to be arrogant with ordinary people! But you are different, you are a noble prince, are also a disciple of the Great National Master, and furthermore, you have the strength of a Third Rank Divine King. I must suppress you in terms of alchemy, this way I will feel a great sense of accomplishment." Honestly speaking, whether it was Xiao Ping's position or strength, he was much higher than. If Xiao Ping could defeat him, then it would bring about an increase in his mental state.

This was why he was so confident in himself. He believed that the Great National Master Xiang Hongdao here would definitely be able to do what he did, possibly even be better than him, which was why he was able to come up with such a standard.

Xiao Ping didn't feel any pressure right now, so it was obvious that he would definitely be able to do the same!

"Want to take a gamble?" Xiao Ping received the divine medicine and smiled towards Chen Xiang: "This will add a bit of pressure to both of us, don't you feel that we don't have any pressure now? "There's no atmosphere at all. It's just like when I was refining pills."

But right now, they had been ignored by Chen Xiang and Xiao Ping. Furthermore, they also felt a large amount of pressure at this moment, whereas Chen Xiang and Xiao Ping were chatting happily, even saying that the pressure was not enough.

"I don't have anything to bet on!" Chen Xiang wanted to have a good time and play, he was very confident in himself, but this Xiao Ping was a prodigal son, he could casually take out frightening things to gamble on.

"How about a bet on Divine Deity? If you lose, then take out one of your Divine Deity and gift it to her. " Xiao Ping's shocking words immediately sent the entire audience into a frenzy of discussion.

Taking out his own Divine Deity would not only require him to endure immense pain, it would also cause his cultivation to regress! It was said that after he took out the Divine Deity, it would be difficult to cultivate it back.

But Xiang Hongdao, the master, didn't have much of a reaction, as if he was encouraging this kind of behavior.

"If it's like this, you're at a disadvantage. You're a Third Rank Divine King, and each Divine Deity is at least equal to several of mine. Are you willing to play like this?" Chen Xiang's heart was also beating extremely fast, this was the first time he was betting on Divine Deity, but he wasn't afraid.

Just as Xiao Baifeng wanted to stop Chen Xiang, he was stopped by Imperial Concubine Lian, who shook his head at her: "Don't worry about him. Even if he loses, Great National Master will guarantee his safe passage out of here."

Huang Jintian laughed: "This kind of gambling is awesome, if there's a chance, I will try it too!"

Huang Yantian laughed sinisterly: "How about we take a gamble now? "Let's see if that little ghost can win!"

"I will definitely support my disciple. Don't tell me you want to support Prince Ping? That's for sure! " Huang Jintian curled his lips.

Huang Yantian did not reply, because he also supported Chen Xiang!

Xiao Baifeng was speechless. In her eyes, Chen Xiang and the other master and disciple were all madmen who dared to joke around with a Divine Deity that she had painstakingly condensed out. It would be extremely difficult for her to even form a single Divine Deity!

"I don't have a problem with that!" Xiao Ping faintly smiled, "Are you willing to bet?"

"Good!" However, I can't give it to you right after I lose, at least until the end. " Chen Xiang nodded his head. They didn't look like they were gambling on Divine Deity at all, but they looked like they were gambling on stone instead.

Chen Xiang felt that this Xiao Ping was very courageous. Before this, Xiao Ping had already seen his Five elements Dan with spirit light and knew that his Heavenly Alchemy was very strong.

Yue'er sent a sound transmission to Chen Xiang: "This Xiao Ping might have used something like the Time Formation to increase his own strength by a lot of time, so don't underestimate him!"

[Chapter 2167](#)

Chen Xiang never thought that Xiao Ping would use the Time Formation to buy more time. It wasn't strange for Xiao Ping to have this thing, Chen Xiang had already used it before, with his status, it would be too easy to obtain it! If that was the case, then Xiao Ping must have improved by a lot.

Since he had already agreed to the gamble, Chen Xiang could not go back on his word now. Therefore, he could not lose, or else he would have to give up the Divine Deity that he painstakingly condensed.

"All of you should have received your divine medicines. Then, let's prepare to begin." Xiang Hongdao swept his eyes across the participants.

The pill furnace that Chen Xiang had taken out right now was the one that Xue Xianxian and the others had given him. It was not exactly a good pill furnace, but it was currently his only best one. Previously, Xue Xianxian and Liu Meng'er had said that they would help him refine a better one, and even asked for the ingredients from him.

Chen Xiang had refined a batch of Tianhuo Dan before, and although it had exploded in the end, it could be said to be successful. Now, he was even more confident that he would be able to concoct a batch of Tianhuo Dan like last time.

After Xiang Hongdao announced the start of the competition, all the pill gods took the time to refine the Tianhuo Dan based on the pill formulas.

Chen Xiang looked at Xiao Ping. Xiao Ping was still refining the pill according to the recipe, and it could be seen from the step in which he placed the divine medicine in, but he would not underestimate Xiao Ping because of this!

Only the steps of his refinement were different from those of the other alchemy gods. He threw the divine medicine directly into the furnace and started the incinerating process!

Regarding this, many Pill God knew that many people had seen it the last time Chen Xiang and Xiao Ping competed in the preliminaries.

This method of refinement was obviously not a common method. In other words, one did not need to follow the instructions in the pill formula, as long as the divine medicine was correct, everything would be fine!

The time limit was also very short. Before, Chen Xiang had used a lot of time to refine this Tianhuo Dan, but he felt that success now wasn't a problem. He had the experience from before, and the pill furnace this time was much better than last time!

Therefore, Chen Xiang didn't plan on competing with Xiao Ping's speed right now, as long as he maintained a stable pace, produced more pills and had higher quality pills. Of course, he would also need to complete it within the specified time.

Not long after it started, Chen Xiang saw that the other Pill Gods had failed! Although the standard to pass this stage was very high, if one failed, they could start from the time they received new medicinal herbs. Everyone was allowed to fail five times! As long as it was completed within five hours.

Chen Xiang felt that he had a lot of time, so he was not worried at all. He could not rush it when he was refining pills, if he was relieved, it would lead to a huge mistake!

"Concentrate your efforts. This time, not only will we compete against Xiao Ping, but we'll also surpass my previous match!" Last time when Chen Xiang refined the Tianhuo Dan, the conditions weren't very good. Not only was the pill furnace not good, it was the first time it was being refined, so he felt that there was still a lot of room for improvement.

Chen Xiang used the Dao heart Eye and looked inside his own furnace. Right now, his eyes were only focused on his own furnace, he completely ignored everything outside.

The divine medicines in the pill furnace had become even after he used the Strong Spirit Method. When he used the Dao heart Eye, he could clearly see the strengths and weaknesses of the various divine medicines, so it was very easy for him to control the balance.

At this time, Xiao Ping was also very serious. A few of the pill furnaces at the scene had already exploded, but he couldn't disturb Chen Xiang and Xiao Ping! They looked as if they were immersed in their own world, but in their own world, there were only pill furnaces. Everything else didn't seem to exist.

This state was also the peak state of the Alchemist in the Alchemist! Seeing the two of them being so serious, Xiang Hongdao secretly nodded his head. At this moment, he was also very serious about watching the changes happening inside Chen Xiang's furnace.

Chen Xiang's pill furnace was not a very good one, but it could prevent others from peeping at it, but it couldn't prevent Xiang Hongdao who was close to the peak of his pill god from having it.

Xiang Hongdao could clearly see all the changes happening inside Chen Xiang's pill furnace.

"I have been refining the divine medicine since the beginning. Although the flames are very strong during the refining process, there is a certain flexibility within the flames. This flexibility will not allow the divine medicine to produce a strong resistance!" As Xiang Hongdao watched, he analyzed the situation. He knew that Chen Xiang was using the Heavenly Alchemy, so he wanted to learn from it.

"Strange, even so, we can't let the divine medicine calm down like this. What kind of method did he use?" Xiang Hongdao continued to pry with rapt attention. He did not know the secrets of the Original source refining that Chen Xiang had created, so of course he would not be able to understand it.

Just when Xiang Hongdao was at a loss, he was once again shocked. It was already very strange for those divine medicines to be so calmly refined into medicinal liquids, but after the various divine medicines turned into medicinal liquids, they actually fused together so easily.

"What is this? How did it turn purple?" Xiang Hongdao was inside the pill furnace so he could not immediately see the purple light emitted by the magical medicine when it changed.

It was Chen Xiang's second time refining a Tianhuo Dan, but he did not expect that there would be a change just like the last time! This allowed him to be certain that the change was definitely not by chance and definitely had something to do with his Chuangzao fire.

However, this time, Chen Xiang had experience from last time, so he handled it very well. He did not let the medicinal Qi leak out during the process, as he had skipped quite a bit last time.

After the Shangpin medicine was refined, it would turn into medicine, and the quality would become much stronger than the Zhongpin Dan. And at this moment, after the purplish-red medicine was fused together, it burst out a strong light within the pill furnace, like a purplish-red scorching sun.

"It actually changed!" Xiang Hongdao was after all the number one Pill God of the Divine Cauldron Nation, and he also knew about the changes that had occurred, which greatly shocked him. Even though he had refined the mutated Divine Medicines before, he was still a minority, and did not expect that he would be able to see with his own eyes the changes that the other Pill Gods underwent while refining the mutated Divine Medicines.

The fusion of the mutated medicinal liquid was very stable for a moment, and did not produce any huge fluctuations. This was only because Chen Xiang controlled it with all his might, and only then was it stable, because if huge fluctuations were generated, it would cause the energy of the medicinal liquid to drain away. As long as the medicinal liquid erupted and vibrated, it would consume a lot of energy, and the energy would also pass through the pill furnace.

In just an hour, Chen Xiang had progressed to this stage, which made Xiang Hongdao extremely shocked. He couldn't see through the Heavenly Alchemy any longer, and although he had heard of it before, the Heavenly Alchemy Chen Xiang displayed now was very different from what he had heard. It was completely not the Heavenly Alchemy that he recognized.

Chen Xiang didn't think that he was fast, because from his point of view, refining high quality Tianhuo Dan had only just begun!

[Chapter 2168](#)

In order to guarantee the stability of the furnace, Chen Xiang used the method inside the Heavenly Alchemy called "Eight Heavenly Ocean Refining". After using it, he was able to turn the Six Realms' Power into a square formation that enveloped the inside of the furnace.

After he displayed it, Xiang Hongdao frowned, because what he saw was suddenly extremely blurry, and there was only a ball of shadow left.

Chen Xiang did not know that Xiang Hongdao could see the interior of his pill furnace. The reason why he had used the Eight Heavenly Refining Mountain was only to guard the interior of the furnace, because he was going to do something extremely berserk.

Just like last time, he split the purplish-gold medicinal liquid into six clumps. Under his control, these six clumps of medicinal liquid gradually distanced themselves from the center, reaching the edge of the pill furnace.

However, Chen Xiang did not condense a pill yet. The inside of his pill furnace was still in a state of chaos, and what he collided with just now was not the Crash method used by other Alchemists to concoct Divine Spiritual Pills! During the earlier collision, he poured in quite a bit of the fire energy formed from the Six Realms' Power into his body. Through his many fire Divine Deity and Bones, he created a very strong force that caused the collision to be even more violent!

This was originally just an idea, because he felt that the violent collision just now would definitely have scattered the group of Flame power. Right now, it was just as he had imagined, the six waves of Flame power he had poured in were dispersed, and the scattered Flame power were absorbed by the mutated medicinal liquid!

When forging iron, one would not only need to forge a piece of iron. Along the way, they would also need to add other items and other materials to change the quality of iron, making it even better.

Chen Xiang was now adding Flame powers that were compatible with Tianhuo Dan! He poured in a lot of Flame power, and when they violently collided, the Flame power and the medicinal liquid were both in the same form, and the spiritual medicinal liquid instantly swallowed the Flame power to strengthen itself!

After absorbing Chen Xiang's Flame power, the quality of the medicinal liquid greatly increased! However, there was now a problem. The medicinal liquid within the pill furnace would not automatically fuse with each other like before. Instead, the medicinal liquid within the pill furnace was in the form of droplets of water!

The fierce impact from before had caused the medicinal liquid to scatter, and the scattered medicinal liquid had become independent after absorbing Chen Xiang's Flame power, unwilling to merge together. Therefore, the interior of the pill furnace was currently in complete chaos.

Chen Xiang tried to fuse the countless water droplets, but he discovered that it was extremely difficult. The water droplets and water droplets kept a small distance between each other, as long as he passed the small distance, it would produce an extremely strong repulsive force. With so many water droplets rejecting and resisting each other, it was extremely difficult to fuse them.

"Being able to fuse them together is already not bad. Looks like I should skip the second collision!" Chen Xiang was currently in a bit of pain. Previously, he had planned to not rush to condense a pill after a single fusion, and go through a second impact to substantially improve his quality. However, from the looks of it now, if he were to fuse with this scattered medicinal liquid, the quality would also be shockingly high.

Chen Xiang released the Dao heart Eye and observed the Spirit bloods inside all the water droplets. He did not see the Spirit blood, but he saw that the color of the water droplets were different.

"The attributes can be changed, the extremes can be reversed!" This liquid was originally a miraculous medicine after the mutation. After going through such a violent collision, changing its attributes was very normal! I never thought that these water droplets would all look fire red, but the energy particles within all have different attributes, and some even have a thunder attribute. " Chen Xiang realised the problem, what he needed to do now was to use the flames to refine the different type of medicinal liquid drops.

As long as he could convert them all into the same fire attribute, fusing with it would be easy!

"There's still time, we can't be anxious. If something goes wrong, this small drop of water will explode and cause a chain reaction. This pill furnace won't be able to suppress it." Chen Xiang was extremely excited at this moment, because this method seemed to have opened a mysterious door that no one had ever opened before.

This Tianhuo Dan's divine medicine was considered to be of a lower grade among the Shangpin dan, but Chen Xiang had gone through various kinds of mystical methods to refine it, and yet, he had constantly broken through the limits, causing the quality of the Tianhuo Dan's divine medicine to continuously improve. In the end, he himself could not imagine how far it could improve.

[Chapter 2169](#)

Six hours had passed. Xiao Ping sat there, not understanding. His pill furnace was very calm, and it didn't emit any heat! On the other hand, Chen Xiang who was in front of him, had the highest level of heat emitted from the pill furnace, as if flames could spew out at any time.

No one knew what he was doing, not even Xiang Hongdao, the Pill God. He really wanted to know, at this moment, it was becoming harder and harder for him to find out what Chen Xiang was doing.

Chen Xiang had originally planned to burn little drops of water one by one, changing their attributes, and then turn them into fire type drops one by one. However, he felt that it was too complicated and it was not too late, so he decided to use his Chuangzao fire s to burn them all.

He burned for more than four hours, and when he used Dao heart Eye to look, he discovered that the colors were almost the same, only a small amount was not enough. He continued burning for another hour, making all the droplets have the same color, and then he started to carefully search again.

Why was it that after going back and forth, he only had half an hour left!?

At this time, Xiao Ping also raised his eyes. He had completed his task. His forehead was only dripping with sweat, and he still looked quite relaxed!

Seeing that Chen Xiang was still knitting his brows and training, Xiao Ping smiled faintly. He then opened his pill furnace and took out seven pellets that were shining with a golden red light!

He had actually refined seven Tianhuo Dan with spiritual light, causing the entire audience to let out thunderous cries of alarm!

It was already impressive for ordinary Tianhuo Dan to produce two or three, but now that Xiao Ping had refined seven of them and they were even of high quality, it only took him eight and a half hours!

This was the Great National Master's disciple. Although Xiao Ping did not represent any of their strengths, there was no need to doubt his potential to become the Great National Master. These seven High Rank Tianhuo Dan were the best proof of that.

When Xiao Baifeng saw Xiao Ping produce the pill, he also frowned. Last time, Chen Xiang had only refined six pills, but this Xiao Ping had only refined seven.

"Can the little ghost win? This Prince Ping is too terrifying, as expected of the great disciple of the Great National Master! " Imperial Concubine Lian also didn't want Chen Xiang to lose, but seeing Xiao Ping's strength, and the discussions of the crowd below, she also felt that it would be difficult for Chen Xiang to win.

The Alchemist on the stage were all very good as well. In less than five hours, almost all of them had produced pills, with the most being five pills. However, they couldn't produce spirit energy like Xiao Ping, so it seemed that only Xiao Ping could make it into the next round.

Chen Xiang was the slowest, the inside of his pill furnace was still "a pile of sand" and he had only just finished modifying the other medicinal liquid drops. What surprised him the most was that after all the medicinal liquid drops had the same properties, they actually started to fuse together on their own. After all, their Spirit blood had already been merged by Chen Xiang to begin with. Although they had turned into many drops of medicinal liquid, all of them were the same.

After the fusion, a ball of medicinal liquid emerged from within Chen Xiang's pill furnace, flickering with purple gold and red!

"Although it looks like liquid, it is almost solid. It can be split into ten parts and ten pellets will come out!" Moreover, condensing a pill will also be very easy! " Chen Xiang looked at the lump of liquid in detail. If it was before, this liquid was equivalent to a ball of water, but now it was like a lump of mud. If it solidified, it would be crystal, and the quality would definitely be higher.

Chen Xiang felt that if they collided twice, they would definitely be able to crystallize. He didn't know what kind of divine pellet they would become after the crystallization. The moment he thought of this, he became very excited. It was just that time was not allowed right now. Otherwise, he would definitely have tried it.

Chen Xiang found his way here. Originally, he could have split the pills into ten portions, but he decided to split the pills into five parts!

This was because the quality of the medicinal liquid was currently very high. If he divided it into five portions and compressed it to a high degree, he felt that it would be close to the state of crystallization. The quality would definitely be higher than the sum of the ten portions added together.

Chen Xiang, who was immersed in the mysterious domain, did not notice in the slightest that everyone was waiting for him. Originally, Xiao Ping could have conducted the quality test, but Xiao Ping had to wait for Chen Xiang.

As for the others, they had already gone through the tests, the highest one being only four hundred and ninety, which was still a bit far from the six hundred in quality, while there were a few who had reached more than four hundred and fifty quality, which was considered very good for many Alchemist. After all, none of them were Xiao Ping.

In the past, when Chen Xiang refined the pellet to the last pellet condensation stage, the pellets he split were all air masses of Qi, and when the Shangpin dan was refining, it was only liquid, but now it was even higher than liquid. When it was in a solid-state liquid state, he separated the gold and red "cement" into five small bundles, and then began to compress them.

It was extremely difficult to compress it. He had no choice but to use his strongest strength, otherwise he wouldn't be able to compress it within the time limit.

Just when he was using all of his strength to condense the pill, his pill furnace started shaking violently, and started making "dang dang dang" sounds. Chen Xiang was shocked, he never thought that when compressing the mud ball, there would be such a large movement, it quickly became hard like a metal ball, uncontrollably smashing into the pill furnace, colliding against each other and even touching the pill furnace!

What made him at ease was that the impact did not result in any loss of medicinal strength. From this, it could be seen how strong the pills were!

He himself also greatly admired himself for being able to refine some divine medicines to such an extent.

"Why do I feel like there are so many pearls clashing inside his pill furnace?" Someone shouted, "Don't tell me this guy is playing with pearls in the pill furnace!"

It was as if there were a few beads inside the box, and then, he shook the box with all his might.

Xiao Ping looked at Chen Xiang's furnace in surprise. He didn't know what Chen Xiang was doing, but there was actually such a sound.

There was still a little bit of time until the fifth hour, so Chen Xiang's shaking pill furnace finally quieted down. Chen Xiang who was sweating profusely opened his eyes and sighed: "It's finally completed!"

"What are you doing? I always felt that there was a stone in your pill furnace. " Xiao Ping smiled. "No matter what, you're finally in time. Let me see the divine pill you've refined."

Chen Xiang laughed dryly: "Something has happened, I don't know if it's a success or not!" His words caused an uproar among the crowd. They didn't know if he succeeded or not, but wasn't it clear to them that he succeeded when concocting pills?

Chen Xiang opened the furnace, but the furnace did not release any spirit light! When Xiao Ping opened the lid of the pill furnace a moment ago, the spiritual light that shot into the sky was also very shocking.

There was no divine pill floating out of the furnace, it was Chen Xiang who poured it out!

The divine pills that fell out of the pill furnace left everyone dumbstruck. It turned out to be five small stones. These stones were only the size of a thumb, and their shapes were very irregular. In short, they were not circular.

The small stone was rather special. Its surface was extremely smooth, as if it was a broken crystal. Its entire body was purplish-red, and its luster was golden.

Xiao Ping raised an eyebrow, "What is this? The Tianhuo Dan? "

Chen Xiang frowned, and nodded: "I guess so! "Although it's not round, it's after all made from those godly medicines, so it should be edible!"

Everyone present agreed, but they were all impressed by Chen Xiang's ability. Being able to refine the divine medicine into small stones was also a very strange ability, they did not think that this was a divine pill. No matter how they looked at it, it did not look like it was meant to be consumed. Because it was obvious that there was a mistake in his control, it was not a round pill.

"Let's start with the testing of quality, I'll go first!" Xiao Ping also felt this was very strange. This was because he didn't sense any medicinal efficacy or the smell of a divine pill from those small stones. It didn't seem like a divine pill at all.

[Chapter 2170](#)

Xiao Ping had refined seven Divine Spirit Tianhuo Dan, and normally, high quality divine pellets would have a value of ninety percent when testing them with the divine tool that tested the quality of divine pellets. The divine pellets that had a quality higher than that of the divine pellets, therefore he had already reached the standard that Xiang Hongdao had specified.

There was no doubt that the combined quality of the seven Tianhuo Dan he had refined would reach six hundred, but he was still very concerned because he still had to compete with Chen Xiang.

The Tianhuo Dan that Chen Xiang had refined was completely different from Xiao Ping's, regardless of color or shape. If one did not personally see it being poured out from his pill furnace, it would be hard to believe that it was made from several divine medicines.

Xiao Ping placed the divine pill he had refined onto the concave point of the disk. The crystal on the disk suddenly began to flash, showing a number of 150.

Seeing this result, Xiang Hongdao was also a little shocked, looks like he did not know that his disciple had actually become this powerful, he said: "The high quality Tianhuo Dan s sold on the market should be worth around seventy to eighty, this number should be about right, your pills are about the same as the other two, but the quality cannot be considered the peak, normally, the Peak quality of the Shangpin dan can reach up to 500, and of course there are those higher, it's just that I have never seen them before."

Everyone was shocked. It was already impressive for the pill god to be able to concoct at least 90% of the pills, but 500 for it to reach the peak. It seemed like there was a huge difference in strength between the pill gods.

Xiao Ping was surprised. "A maximum of five hundred? Master, can you even do that?" Even if he worked so hard to refine it, it would only have a hundred and fifty percent quality.

Xiang Hongdao smiled and nodded: "I can do that, but it will require me to compress the amount, so if you have the chance, you have to try out the highest quality pills."

Xiao Ping tested the quality of the Tianhuo Dan s one by one, Chen Xiang couldn't help but admire his control. Seven Spirit Soul Tianhuo Dan, each one was actually a hundred and fifty, the sum total reached more than a thousand, which was already far above the standard that Xiang Hongdao had set down.

Those defeated pill gods were all jealous and envious, and most of them revered and used the same divine medicine. Others could actually refine even more superior quality and produce even more divine pills. This was the difference between them.

"It's my turn." Chen Xiang laughed: "Although this isn't round, but I guarantee it will have the effects of a Tianhuo Dan, it's a Tianhuo Dan, I don't want to lose, I gambled with my own Divine Deity."

Xiao Ping chuckled. "If you hadn't said so, I would have forgotten. We still have a bet to bet on."

After betting on a Divine Deity, they all forgot about it in the blink of an eye.

Chen Xiang picked up a stone like Tianhuo Dan and placed it into the hole on the plate. The crystal board that was displayed on the plate quickly lit up.

"One hundred and ninety." Xiang Hongdao was slightly shocked as he shouted.

"Formidable, he actually surpassed me by forty." Xiao Ping also exclaimed, "It seems that your control is not bad. Even your shape has changed, but your quality is still so high. How exactly did you refine it?"

The other Pill Gods were also confused, during the compression, they would need to control the liquid to spin and condense the pill, which would result in a round shape and high quality, but Chen Xiang was obviously not like that.

Xiang Hongdao held the Tianhuo Dan that was tested by Chen Xiang and frowned: "It should be because there was a problem during the process of condensing the core, which is why it ended up like this. In other words, during the process of condensing the core, this Tianhuo Dan should have become extremely sturdy, and should have reached a state close to the Condensing Crystal.

After doubling his cultivation, it was close to four hundred years. Xiao Ping's expression was extremely grave; Chen Xiang's level was actually so high, and he had actually gone into closed door cultivation before.

Chen Xiang had only refined five pills in total, but he was confident that the total quality would surpass Xiao Ping's. He started to test the second pill.

The quality was two hundred and sixty, which was seventy times more than the previous one. Xiao Ping's expression suddenly changed, if according to what Xiang Hongdao had said just now, that Chen Xiang could succeed, and the quality would double, then it should be five hundred and twenty now, and that would be more than what Xiang Hongdao could refine.

Xiang Hongdao also thought of this point, so he started to ponder. Since he was able to refine the quality to 500, he naturally knew the difficulty of breaking through the limit, and Chen Xiang spent 5 hours to concoct 5 pills. If he could perform better, then when refining the Tianhuo Dan, he would have completely surpassed him.

's refining process was also extremely arduous, and almost failed. Furthermore, to him, this furnace was not considered successful, but because it was extremely sturdy halfway through condensing the core, it did not dissipate in the end, only having an irregular shape.

The third grain was two hundred and forty seven, the fourth was two hundred and fifty, and the sum was a thousand and seventy.

Xiao Ping's seven pellets added up to a total of 1050. Chen Xiang was twenty years older than him, so the difference between the two was extremely small.

"I've lost. Can I take one and see?" Xiao Ping was willing to accept his defeat. He pointed at the few small stones that were held by the Tianhuo Dan in Chen Xiang's hands.

Chen Xiang laughed: "Of course you can, and besides, this divine pellet needs to be given to Great National Master."

Xiang Hongdao immediately ate one pellet. Although it was very hard, the medicinal power immediately melted after swallowing it, as if it erupted from within his body, and contained a very vast amount of medicinal power within.

Xiao Ping also felt the same way after he ate it. The two of them were very shocked, because they felt that there was a huge difference in the medicinal efficacy compared to the test results. The medicinal efficacy was far higher than the test results.

This was because the pill Xiao Ping had eaten was one hundred and fifty quality pills, but compared to the pills he had refined, the effects were much stronger.

He had refined similar quality Tianhuo Dan s before, but they were much weaker than the one Chen Xiang had.

"It seems like the divine tool used to test the quality of these divine pills is unable to completely test the quality of the ones you forge." Xiang Hongdao sighed: "In the future, I need to make some modifications."

This was a very big blow to Xiao Ping, but he felt very happy. This was because he had met a pill god that was even stronger than him, otherwise he might not have been able to think of a way to break through his limits in the future.

Seeing that everyone had a new level of respect for Chen Xiang, Imperial Concubine Lian also laughed: "This brat is truly extraordinary, even Great National Master values him so much."

Yue'er said: "He is indeed very powerful, he is not even a Supreme God yet, but in terms of alchemy he has already reached such a level, especially that kind of Jingshen Dan, it is the highest quality form of performance. Although he did not succeed, he will definitely be able to do it in the future because he has already touched upon this domain, and it is difficult to imagine that he had already figured it out by himself."

"Jingshen Dan." The Imperial Concubine Lian shouted lightly: "Isn't the Jingshen Dan supposed to appear only because of the King grade's divine pellet?"
