

Dan God 2251

[Chapter 2251](#)

When Feng Wu went to open the door, Teng Yong anxiously put away the purple jade pendant on his waist, hiding his identity as a true disciple!

Chen Xiang was worried that something might happen to Feng Wu, so he quickly followed.

After opening the door, there were two people standing outside. One of them was Feng Yuan, who came before, and the other one looked similar to Feng Yuan, but he was a middle-aged man.

"Dad, it was this kid who humiliated me!" Feng Yuan was furious, he really wanted to kill Chen Xiang. An outer sect disciple had actually dared to be so arrogant with him.

"Feng Wu, I heard you have a man, right?" The middle-aged man said coldly, "You clearly know that you want to marry into the Yuan Family, but why are you still looking for a man outside? This is the crime of a criminal family!"

"Feng Clan and I have nothing to do with each other anymore. Previously, I sent back quite a few Shen Yuan stone, but later on, Feng Clan did not pursue the matter further. Did you guys start pestering me again after seeing me become an inner disciple in the Everlasting Mountain?" Feng Wu said in a cold voice, "I have a man, it's none of your business. You two aren't my parents, what right do you have to care about my matters."

After Feng Wu finished speaking, he wanted to close the door, but was stopped by the middle aged man.

"I, Feng NanYi, am your elder after all. You dare to speak to me in such a manner, you've rebelled!" Feng NanYi was furious, and he walked in. Seeing that there were still a few people here, his face darkened: "Could it be that these are all your helpers? "Humph, you are just a bunch of scum that came in from the outer sect. Today, I will teach you, a beast that is rude to his elders."

Chen Xiang hurriedly pulled Feng Wu back. At this moment, everyone could tell that this Feng Nan Yi must have other reasons for hating Feng Wu, as Chen Xiang had already guessed that Feng Wu's parents must have also been stunned in their inner sect before, so they must have clashed with Feng Nan Yi before.

Teng Yong had already stood up, and in the blink of an eye, he flashed over. He looked at Feng Nan Yi, and said in a low voice: "Just now, I said that the dregs that came in from the outer sect were you?"

Feng Nanyi was very happy to see Teng Yong angered. He didn't even see Teng Yong's strength, and he said with a cold smile: "So what if I am? You bunch of outer sect trash, don't block me from teaching this disrespectful junior a lesson, or else I'll beat you up too. "

Feng Nanyi believed that since Feng Wu had just entered the inner sect, he would definitely not be able to befriend any strong disciples. Therefore, in his eyes, Teng Yong had just come in from the outer sect.

Pow!

Teng Yong's huge palm suddenly struck over, causing Feng Nan Yi to fly out, smashing into the stone wall, blood flowing out of his mouth, and even teeth dropping from the ground.

"You ... "You ..." Feng Nan Yi held onto his swollen face, although he was furious in his heart, he was more frightened. Just now, the power of Teng Yong's palm was extremely terrifying, he could clearly feel it, and did not dare to let out a breath.

"You are only a junior in my eyes, how dare you call me a dregs!" Teng Yong took two steps forward and stood in front of Feng Nan Yi, grabbed him up, and gave him another slap.

Hearing the loud applause, Feng Yuan who was watching from the side was also stunned, although his legs were weak, he reacted quickly, and rushed out of the stone door, but was caught by Chen Xiang.

"Senior ... I, I was wrong, please spare me! " Although he was an inner disciple, he did not have the support of the Dan God Institute and the elder courtyard. If he met a true disciple, even if he was crippled, he would not be able to do anything.

"Bastard! You're just a little stubborn. I can let you get away with this, but ..." "Hum, hum, hum!" Teng Yong said, as he waved his fist out, striking Feng Nan Yi in the face. In just a few blinks of the eye, Feng Nan Yi had fainted from the hit.

Back when he entered the inner sect, he was also often bullied like this, so now he saw that no matter what, he had to teach this guy a lesson, not to mention that this woman, who had a good relationship with Chen Xiang, was bullied.

"Scram! Scram as far as you can! Don't let me see you again!" Teng Yong grabbed Feng Nan Yi, and as if throwing a stone, he ruthlessly smashed towards Feng Yuan. Feng Yuan was smashed by his own father who was flying over, and also vomited blood from the strong impact.

From the moment Feng Nan Yi was slapped, he knew that Teng Yong was a very powerful Successor Disciple, so he did not dare to be arrogant again.

Feng Yuan carried his Southern Wing on his back and hurriedly ran out of the cave. He was worried that he too would suffer the same fate as his father. Previously, he had planned to abandon his father and run away.

"Don't worry, there won't be any consequences if I play this kind of game. Even if the Feng Clan comes, he can't do anything to me!" Teng Yong said. He was a Hundred gods level after all, and as long as it wasn't for the Bones, he would be fine. After all, he was already sealed off by the Dan God Institute, so there was nothing to be afraid of.

"Thank you, Big Brother Teng!" Feng Wu immediately thanked him.

"There's no need to be polite, I just entered the inner court and was humiliated by this!" Those of us who came in from the outer sect should unite together to fight against the inner sect. " Teng Yong said to Chen Xiang: "Big brother, I have a few friends. Although they are not Hundred gods level s, they are not bad people, they are people that I trust. They are all friends who have gone through hardships, and also came from the outer sect.

"If possible, let them come over and talk to me. Shangpin bone level Dan s are definitely not few in number." Chen Xiang nodded his head, "We outer sect disciples should unite together. This way, we won't have to look at the inner sect's face."

Hua Lang said: "The outer sect disciples have long had this thought, for so many years, there have been people who have planned to do this, but the Dan God Institute and the elders do not care, because they are not a threat at all. And if they really do this, as long as the Dan God Institute blocks the high level divine pellet and do not distribute it to this group of people, it will naturally disband after a period of time."

Teng Yong said, "Back then, there was also a big brother who gathered us all together, but we couldn't hold on for long. Without the help of the divine pellet, we could never improve, so in the end we could only disperse and continue to listen to the orders from the Dan God Institute and the Elder Hall."

The Pill God was controlled by a large power, and was also the core of a large power. Therefore, it was very difficult for Teng Yong and the others to recruit the Pill God back then, because they did not have enough resources and resources to have the Pill God help them. Furthermore, the position of the Pill God was extremely respected, and since they were a motley crowd, the Pill God would naturally not be with them.

But it was different now! Since Chen Xiang was able to provide the Bone level Dan, Teng Yong had already guessed that Chen Xiang was a Pill God. It was just that he was very curious as to why Chen Xiang did not enter the Dan God Institute.

"I will go and find my brothers now. Ah Lang, pay attention to the movements of the father and son just now, maybe they will gather all of Feng Clan's disciples here. As far as I know, Feng Clan also has two Successor Disciples here." Teng Yong said.

[Chapter 2252](#)

Teng Yong left very quickly, at this time he was also very happy, to be able to make an acquaintance with the Pill God who came in from the outer sect, and furthermore, this Pill God was very low-key, he was not willing to be with the Dan God Institute, this was a blessing for them!

"Big brother, I've asked around for you. The Qingxin spiritual lotus are indeed in the Dan God Institute. A little servant in the Dan God Institute told me this, and when the time comes, I would use a Xiaping bone level Dan instead of a Shen Yuan stone!" Teng Yong said: "A Xiaping bone level Dan is worth a billion."

Chen Xiang asked: "Ah Lang, then do you know how many Bone level Dan's divine medicine are needed to buy?"

Hua Lang thought for a while, then said: "It should be around a few hundred of them, or even a thousand. It's hard to say. The requirements are all of high quality. "

Although it was just a Xiaping bone level Dan, Chen Xiang was still able to easily duplicate it easily, and quickly refine it!

"Help me check where the auction will be held and what the conditions are for its participation!" Chen Xiang said.

"Alright, I'll go now!" Hua Lang left quickly.

After Feng Wu closed the door, he laughed: "Really?! To be able to recruit such a strong Successor Disciple in an instant!"

Chen Xiang laughed: "Nothing much, I have always been this capable. Feng Wu, continue to train in Bones and try to condense three Bones s to become a Successor Disciple. "

"Un, I'll go now!" Feng Wu knew that Chen Xiang needed a strong helper, and she was still not strong enough. It was tough even on Holy level s, so she quickly entered the room and continued to cultivate her Bones.

Chen Xiang returned to his room and started refining some Zhongpin bone level Dan s. There were sixty in total, and then he refined thirty of them! They had just started preparing the last Xiaping bone level Dan, and this Xiaping bone level Dan was meant to be used for the auction.

"Six pills out of one furnace. I need around two hundred batches, and I need over a thousand Xiaping bone level Dan. Otherwise, it won't be enough for the Bone level Dan." Chen Xiang began to copy the divine medicine, and the low rank divine medicine was relatively easy to obtain. He currently had fifty Life-Killing Divine Deity s, in addition to the unique liquid that the Six Realms God Cup s had condensed, which could allow him to replicate even faster and cultivate the low rank divine medicine.

He realized, putting the Six Realms God Cup on top of the Six Realms mirrors, and letting it absorb the Six Realms' Power from within the Six Realms mirrors, the effect would be even better!

In just a day's time, he had created thirty sets of Xiaping bone level Dan's divine medicine, and it would only take seven or eight days to obtain two hundred of them. He felt that there was still time.

Teng Yong said that he would go find his brothers and friends, but after a few days, he did not come back. Instead, Hua Lang came over a few times to provide useful information to Chen Xiang.

The main reason was because the auction would be held ten days later, and would be held in the Thousand Ancient City, which was also a huge city near the Everlasting Mountain. It was under the jurisdiction of the Everlasting Mountain, and there would be many powers participating in the auction, giving out precious divine medicines in exchange for Xiaping bone level Dan.

"might even participate in this kind of auction, as Feng Clan has Bisheng immortal lotus! I don't know if there's enough time, but I won't have to rest at night and focus on duplicating the divine medicine. Without two thousand Xiaping bone level Dan, I might not be able to snatch those divine lotuses. " Chen Xiang thought, he was not familiar with the market, so he could only try to refine more Xiaping bone level Dan.

Ten days and nights later, Chen Xiang kept replicating the divine medicine and refining Xiaping bone level Dan s, but he was only able to refine eighteen hundred of them, which made him a little apprehensive. If that was not enough, he would have to use the Shangpin bone level Dan s to exchange for them.

Chen Xiang had already told Hua Lang to register to participate in the auction, if he was not a powerhouse of a certain power, he would need to pay a Xiaping bone level Dan in order to obtain an entrance jade tablet. All the reputable people who went to the auction were free of charge.

"Feng Wu isn't going?" Hua Lang looked around the hall, but he did not see Feng Wu.

"She's still in seclusion!" That's right, where's Teng Yong? I haven't seen him these days! " Chen Xiang asked.

"His brothers are out on business. He's been trying to find ways to contact them these days. If I can find them, they wouldn't have to work so hard for Dan God Institute. " Hua Lang passed Chen Xiang a jade tablet: "Big Brother, this is the jade tablet to enter the auction. Although I want to go, after thinking about it, I feel that there is no need to waste the Bone level Dan."

"That's right, after that Southern Wind Wing got beaten up, did he do anything?" Chen Xiang asked.

"Yes, they went to look for their Successor Disciples, and have indeed gone to look for their Successor Disciples, but they have not made any movements yet, I think that the Successor Disciples of the Feng Clan are also afraid of Brother Yong." Hua Lang laughed: "Big brother, you don't have to worry about this matter. If those two fellows come again, I will be able to hold them off for a while."

"Alright, I'm going to the auction now!" Chen Xiang patted Hua Lang's shoulder, then walked down from Everlasting Mountain.

When he arrived at a place with no one around, Chen Xiang changed his appearance and changed his clothes. He then released a faint cold air to camouflage the aura on his body, so that he would not be recognized.

The Millennium City was very big and it was also very lively right now. It was because an auction like this was being held, and many big powers from the Wang Ancient Heavenly Star would gather here, and at that time, not only would they be able to auction high level divine medicines, they would even have high level divine artifacts. For example, high level divine artifacts and King grade s.

Chen Xiang did not need any Divine Weapons now, his Heavenly magic sword s were Emperor Grade Divine Weapons, the six Divine Weapons were all Emperor Grade, and there was even that Chuangshi god furnace, a Chuangshi artifact that surpassed the Emperor Grade!

The auction was in a very grand hall. It was surrounded by several floors, and each floor was filled with people. The people in front of each floor all held the highest positions within their power.

As Chen Xiang sat at the back, he saw the people of Everlasting Mountain with a single glance. They were all dressed in white, the only difference was that their clothes had a picture of white flames on them, this was the symbol of Dan God Institute.

"Isn't this Master? They're here too! " Chen Xiang quickly took out the Communication jade Symbol paper and used the Sound Transmission Technique to tell Huang Jintian and Huang Jintian that they were sitting in a corner.

"Master, why have all of you come?" Chen Xiang sent a message: Aren't you afraid of being discovered? There are many powerful guys in this auction. "

"If I'm afraid, I won't be coming." Huang Jintian laughed: "You should be aware of the Qingxin spiritual lotus inside the Everlasting Mountain's inner sect. I also heard that the Everlasting Mountain is going to auction it."

"Mn, it's just that I wonder if Feng Clan will take out the Bisheng immortal lotus." Chen Xiang said. The two divine lotuses that the Three lotus Dan needed had already fallen, so there was only one left.

"Bisheng immortal lotus s are still quite important to the Feng Clan. They did not take them out to auction!" Huang Jintian said: "But you don't have to worry, we already found out what the Feng Clan is missing. With your abilities, you should be able to exchange with them for Bisheng immortal lotus s."

The auction had already started and everything had quieted down. Huang Jintian did not send any sound transmissions to Chen Xiang and only watched the auction quietly.

[Chapter 2253](#)

Chen Xiang did not care about the other things in the auction, as long as he bought Qingxin spiritual lotus, it would be fine. He only had those Xiaping Dan he had equipped, if he bought other things, it would not be enough to buy Qingxin spiritual lotus.

From the start, it was the high rank Bone level Dan, which attracted many people to increase their strength. Bone level Dan s used Shen Yuan stone s to compete, but only small and medium-sized forces competed for it.

Very quickly, it was bought by over 90 billion Shen Yuan stone! This caused Chen Xiang to be secretly shocked in his heart. To think that a high rank Bone level Dan could be sold for such a high price!

The following items that were auctioned off were all Shangpin bone level Dan s, and this was the reason why it attracted many small and medium-sized forces. Under normal circumstances, Shangpin bone level Dan s would normally be sold at auction, and this time they were auctioned off consecutively for a few pellets!

Now, Chen Xiang understood why the big powers did not allow them to sell the Divine Pills privately. Only by doing this could they sell the Divine Pills for a higher price.

The Shangpin bone level Dan s were finally sold out. On the stage now was a high ranked divine blade, the starting bid was ten billion Shen Yuan stone s.

"This divine blade was crafted by the famous Star Law Divine Realm's Terminator Divine Lord. Although it has been a long time, it still possesses a powerful might."

Even though it was only the best quality, it was still extremely valuable!

The starting price was ten billion, and not long after, it increased to over 400 billion. Chen Xiang also did not expect that the high quality divine tool would actually be able to reach such a level, he felt that if Liu Meng'er and the others were to refine it, this high quality divine tool would definitely not be a problem!

Although divine pellets could not be sold in Star Law Divine Realm privately, divine tools were allowed to!

In the end, the Taipin Dan was sold for more than 80 billion!

was getting impatient, but he had no choice but to continue waiting, he was clear that the items in front of the auction house were not considered expensive, and only the ones behind the auction house were the "big wares".

"Alright, everyone wait. What's next is the Qingxin spiritual lotus that Everlasting Mountain has just picked, this divine lotus is a King grade's divine medicine, as for its effects ... There's no need for me to say any more. If it's someone who wants it, they should all be clear about the effects of this Qingxin spiritual lotus." The host said.

Qingxin spiritual lotus was able to stabilize a Ranker's state of mind and drive them into the Divine Sense Sea. With the effects of Mind Cleansing and Soul-Fixing, the poison in Long Xueyi could spread to the inside of the Divine Sense Sea and heart, which was why the Three lotus Dan was needed as one of the medicinal ingredients.

"It's finally begun!" Chen Xiang was secretly excited.

"The starting price is a hundred Xiaping bone level Dan, and every bid cannot be lower than ten!" The host said, "Let the auction begin!"

The people who were participating in the auction for the first time let out exclamations of admiration. They had never seen anything that could only be bought with Xiaping bone level Dan s, and the starting price was a hundred of them! This was equivalent to a hundred billion Shen Yuan stone, and none of the things that were previously auctioned off were worth more than a hundred billion.

Chen Xiang wasn't so nervous anymore. He had prepared about two thousand Xiaping bone level Dan, and he wanted to buy them.

"One hundred and twenty pills!" Someone began to shout. After all, this was a King grade divine medicine, so even if it was useless, it was fine to plant it first. If they met someone who continued to grow this kind of divine medicine, then they would definitely earn some money.

Within the Wang Ancient Heavenly Star, there was only one major power, the Everlasting Mountain, and right now it was the Everlasting Mountain who wanted to auction it. Therefore, the Everlasting Mountain would not participate.

Very quickly, the number of Xiaping bone level Dan s increased to two hundred!

"Two hundred and ten!" Chen Xiang shouted.

"Two hundred and thirty!" An old man said indifferently. Right now, the people participating in the competition were the heavyweights of a few powers, they usually had their own collection of Bone level Dan, which was why they were able to participate in this kind of auction. If it was any ordinary person, where did all these Bone level Dan come from?

There were only a few people bidding right now, and it quickly reached 700 pills! And now, only Chen Xiang and the old man were fighting.

"Seven hundred eighty!" Chen Xiang shouted, he did not feel the pinch right now, but thinking about how these Bone level Dan would all enter the Dan God Institute, he felt extremely unhappy in his heart.

Finally, the old man did not make a sound, the Qingxin spiritual lotus was bought by Chen Xiang!

"It seems that I have overestimated the wealth of the Wang Ancient Heavenly Star." Chen Xiang went to the backstage and gave seven hundred and eighty Xiaping bone level Dan, then returned to his seat.

He still had over a thousand Xiaping bone level Dan, he had thought that he could get up to a thousand!

"That's normal too. No matter how rich a small or medium-sized power is, what kind of thing is a Bone level Dan? Being controlled by a large power like the Everlasting Mountain, although they usually stock up quite a bit, they can't possibly use up all of it all at once!" Yue Er said.

A power could use seven hundred Xiaping bone level Dan to exchange for godly medicines, which meant that this power had some background. Otherwise, who would be willing to give it up?

When Chen Xiang went backstage, everyone saw him! The big shots here all knew about the big shots of the Wang Ancient Heavenly Star, but Chen Xiang had a strange face, so they were all very curious.

"Master, I'm leaving. Do you want to continue watching?" Chen Xiang passed by where they were at and gave them each a Storage bag, which contained fifty of them.

Since he had already obtained the Qingxin spiritual lotus, Chen Xiang did not plan to stay there any longer. He wanted to return and check on Teng Yong's situation.

"Let's keep watching. Thanks a lot." Huang Jintian had accepted the Xiaping bone level Dan that Chen Xiang had given them with a smile. He knew that this kind of divine pill was nothing in Chen Xiang's eyes, but it was an astronomical figure for them.

When Chen Xiang left the auction, he had already changed his appearance. His actions today would definitely arouse suspicion, so he was extremely cautious!

"We are not familiar with these Xiaping bone level Dan! And it looks very fresh. It's just been out of the oven for a short while, so these seven hundred pills are all the same!" An elder of the Dan God Institute obtained Chen Xiang's Xiaping bone level Dan. After carefully analysing it, he found it unbelievable.

"Impossible, these Xiaping bone level Dan were all refined within half a month, and it looks like they were all created by a single person. Someone actually managed to refine around eight hundred Bone level Dan in such a short period of time. What is his purpose in coming to the Wang Ancient Heavenly Star?"

The sudden appearance of a Pill God with such a profound skill made the old Pill Gods of Everlasting Mountain very uneasy. This was because this man was a threat to their position in Everlasting Mountain.

Just as Chen Xiang returned to the Everlasting Mountain, he saw Feng Wu heading down the mountain!

"Feng Wu, where are you going? It's best if you don't wander around during this period of time. Feng Nan Yi might be looking for an opportunity to take revenge on us." Chen Xiang said.

"Of course it's to hunt Special god beast. It has to be completed every month. You just entered the inner sect, so you don't need to use it for the first month." Feng Wu said: "I can also complete it in advance. For next month's, that way I'll have enough time to close up!"

[Chapter 2254](#)

Seeing that Feng Wu was in such a good mood, Chen Xiang knew that Feng Wu had used his Bones once again.

"How many are there?" Chen Xiang laughed and asked.

Feng Wu stretched out three of his fingers and smiled sweetly at Chen Xiang. "I'm going to hunt Special god beast now, my Bones also needs divine soul!"

"Alright, be careful!" Chen Xiang nodded.

Feng Wu already had three Bones, this was the minimum requirement to be promoted to a Successor Disciple! The Zhongpin bone level Dan no longer suited her, what she needed now was the Shangpin bone level Dan!

Not long after he returned to his cave abode, Hua Lang came over.

"Brother Yong is already back, and he's even with one of his brothers. He wants me to tell you that they'll be there soon!" Hua Lang seemed very excited.

"Allen, why are you so happy? Could it be that you have condensed a set of Bones?" Chen Xiang laughed.

"Of course not, I don't have any plans for cultivation yet. Let's talk about it when I have some free time!" Hua Lang said, "I'm excited because Brother Yong's brother is more famous than Brother Yong. Furthermore, he has been missing for ten thousand years. I don't know how Brother Yong found him!"

"It's been missing for ten thousand years?" Chen Xiang was a little surprised: "He's also a disciple of the Everlasting Mountain?"

"Of course he is, he is a legendary disciple of the Everlasting Mountain, who has a competition once in a while, and Brother Yong, this brother, has once defeated many Successor Disciples in this competition, thus becoming famous, but later on he also offended the Dan God Institute, and was sealed off by the Dan God Institute for a hundred thousand years, and he also disappeared during that time." Hua Lang said.

The Dan God Institute's so-called ban was to not give any divine pellets and help refine them! This was very fatal for disciples, because true disciples would be able to buy Bone level Dan from Dan God Institute at a very affordable price. It's just that they would need to do some things for Dan God Institute, but this was still better than not being able to buy Shangpin bone level Dan.

Chen Xiang laughed: Brother Yong's brother should be hiding somewhere, and not missing. Seems like he would rather give the Shen Yuan stone to other forces than to Dan God Institute.

Furthermore, no one knew about the amount of Bones he had cultivated in the way of the sword. All they knew was that he was ranked in the top five true disciples, and the sword he used was the King grade God Sword.

Teng Yong had come, and was shouting Chen Xiang's name at the entrance of the cave.

Chen Xiang immediately went over to open the door, and upon opening it, Teng Yong immediately pulled in the man with the conical bamboo hat.

He was Jing Ze, an extremely gentle looking middle-aged man with a mustache and a small goatee. When he smiled, he squinted his eyes, showing a kind smile.

"Brother, this is my brother, Jing Ze!" Teng Yong said: "I had to run around many places to find this bastard."

"I understand Ah Yong's character. Since he calls you big brother, and I followed him here, I'm afraid I'll have to call you big brother." Jing Ze said.

Teng Yong had already told him about Chen Xiang giving the Shangpin bone level Dan before, and this indeed had a great temptation. They didn't need a large number of Shen Yuan stone, nor did they need to do excessive things to get the Shangpin bone level Dan.

"These are two Shangpin bone level Dan. Since you want to call me Big Brother, then I can't be stingy." Chen Xiang laughed: "To be honest, the reason why I want to establish a small power is also for my own safety in the future, you all should be able to guess that I am a Pill God, my pill refining skills are not inferior to those old fellows in Dan God Institute, and I do not want to be controlled by them, so I can only make my own path."

To fight against the Dan God Institute! This was something that Teng Yong and Jing Ze would love to see, and right now, Chen Xiang was obviously going to smash Dan God Institute's bowl, but after doing so, he would be threatened by the Dan God Institute, so he needed someone to protect him. They would soon understand.

"Don't worry Big Brother, as long as it's against Dan God Institute, I will definitely support you!" His hands were still trembling. He had been busy for close to ten thousand years, yet he had only managed to get two Shangpin bone level Dan of poor quality. Now, however, he had gotten two of them just from meeting Chen Xiang.

"Our current strength is far from enough to contend with the Dan God Institute's Elder's Hall, so we have to rope in a few more experts. Don't worry about the divine pills." Chen Xiang said: "I am worried about the Leader, he is definitely very strong, when the time comes he will be our greatest threat."

"That's not it, Leader is still a good person. He had pleaded for us for mercy on our behalf, but he had no choice but to do so on his own." Teng Yong said: "Big brother, you might not understand our Leader. You will know once you come in contact with him!"

Hua Lou quickly nodded his head: "Leader had long disliked the inner sect bullying the outer sect so he had always wanted to change the rules and make the original disciples of the inner sect go hunt for Special god beast s as well. It's just that it's not easy to achieve."

"Oh? Why, he's a Leader! " Chen Xiang was a little confused: "Isn't he supposed to be the strongest and the most powerful person in the Everlasting Mountain?"

"Of course not, that depends on the elder courtyard and the Dan God Institute, and also on that group of original disciples. As long as they join forces and do not listen to Leader, even the Leader would not be able to do anything! You must know that in the inner sect, the strongest is the Dan God Institute, then the elders' courtyard, and finally that group of true disciples. " Hua Lang said.

"Those true disciples are not going to take care of us, we are just the outer sect disciples. No matter what, we are considered the outer sect disciples, and only those local people are considered as the true inner sect disciples!" Teng Yong said.

Chen Xiang understood and nodded: "If that's the case, then if Leader wanted to change the rules, then that group of born and bred inner sect disciples would not agree to it. This means that they will be the same as the outer sect disciples, and have to hunt Special god beast s every month.

"It's exactly like this, all these years, we outer sect disciples have never experienced the hardships they have endured, they have even looked down on us, and are even treated coldly by the Dan God Institute. For those of us who can enter the outer sect, those who are able to become elders can only become deacons of the outer sect." Jing Ze sighed: "We have so many outer sect disciples, but many of them died, all of them went to hunt Special god beast s, thus our numbers are always that, so this will not threaten the status of inner sect disciples."

Chen Xiang thought for a while, then asked, "How strong are the people from the Dan God Institute and the elder's courtyard? If we join forces with the outer sect disciples, will we be able to fight against them? "

Teng Yong and Jing Ze looked at each other as they pondered.

"It's hard to say, but the difference between us and the inner disciples is that they have no life or death experiences, and rarely fight with Special god beast, but this is normal for us, if we fight, our fighting experience will be much richer, and we can fight with it! And their advantage is that they have a lot of resources, so it's much easier for them to obtain divine pills than it is for us. They don't have to do anything, and can give out more every month than us. " Jing Ze said.

[Chapter 2255](#)

After Chen Xiang understood the situation of the inner sect disciples, he felt that he had a very good chance of breaking through a corner of the Everlasting Mountain, and that was to take away all the disciples that entered the outer sect grounds.

Entering the inner sect from the outer sect was not easy. As long as a disciple could enter, they would be very outstanding. They had experienced hundreds of battles and lived their lives on the blade everyday. They could be said to be very outstanding wargods! Chen Xiang had interacted with Feng Wu before, so he understood him better.

"Among the outer sect disciples, there are two who are stronger, but we are not familiar with them, so we still understand them a little." Among the outer sect disciples, there are two who are stronger than the outer sect disciples, but we are not familiar with them. Teng Yong said: "They must also be suffering from the anger of the Dan God Institute, so we can try to rope them in."

Chen Xiang said: "My goal is to gather all of the disciples that come in from the outer sect together. It's just that I need to come in secret and I must not let the inner sect find out. If we can do this, we will have the chance to occupy the entire Everlasting Mountain in the future. "

Teng Yong and Jing Ze both took in a breath of cold air. Chen Xiang's ambition was actually so huge, he wanted to swallow Everlasting Mountain whole!

Chen Xiang took out two more Shangpin bone level Dan s and gave them to Teng Yong and Jing Ze respectively, then said: "You two go and rope in those two relatively strong outer sect disciples. The first

step is to first gather all of the strongest outer sect disciples, and then let you two go and rope in the other inner sect disciples.

"In the rankings of the strength of true disciples, there are four that belong to the outer sect. If we can win over all of them, hehe!" Hua Lang smiled and said, "Big brother, when the time comes, our outer sect will be a powerful force."

"Since the Leader belongs to the Hundred gods level and the Nine Bones, then what is he trying to close up for? Didn't we reach the limit?" Chen Xiang asked.

"It's hard to say if this is the limit, but it's possible that no one has ever stepped over it before, so that's the limit. Right now, all the big shots of the various powers are trying to think of ways to break this limit." Jing Ze said, "According to what I know, there are people with Hundred gods level and nine Bones in the Dan God Institute and the clan of elders! And right now, I am only at the Hundred gods level and Four Divine Deity! "

Teng Yong was shocked, "You actually have four Bones? I still have three Bones s right now! "

To many Successor Disciples, three Bones was their limit. When Teng Yong found out that Jing Ze possessed four Bones, a surge of force rushed up his heart, wanting to level up as well.

"What will happen after I break through the Hundred gods level's nine Bones? Star Law Divine Realm is so big, could it be that no one else has broken through?" Chen Xiang was very curious about this.

"There is something in the legends!" Jing Ze suddenly became serious: "It's actually the old patriarchs of the Undead Divine Race and Divine Dragon Race. It is said that they all broke through this limit and then disappeared! That's why the other big shots of the Heaven-stage Stars s are targeting these god race, wanting to find a way to breakthrough from their bodies. "

When Yue Er heard this, she was extremely shocked. She also felt that this was possible, it had been a long time since she had returned to the Star Law Divine Realm.

"I want to go into seclusion for a month to concoct pills!" Chen Xiang took out a few pieces of paper and gave them to Teng Yong, Jing Ze and Hua Huang respectively, and said: "These are the divine medicines for refining Bone level Dan, if you meet them, try your best to buy them back for me. I will help you refine them, they should be of high quality and not be of low or middle quality!"

There were designs on all the papers, so they could be identified with a glance. Teng Yong and the others were looking carefully, these were the divine medicines to refine Bone level Dan.

"Back then, a fellow with over a dozen Divine Deity bought a lot of these divine medicines. Afterwards, he was captured by the law enforcers, so you guys have to be careful! These divine medicines are definitely easy to buy, if not that guy would not have bought a large pile and eaten three Bones s. " Chen Xiang was talking about Yang Tianyi, and when he thought about this matter, he couldn't help but admire him.

"Alright, we'll be going now. We'll come back to look for Eldest Brother in a month." Teng Yong said. Since he knew what kind of divine medicine it was, he only needed to buy it for Chen Xiang to refine.

Chen Xiang did this to ease the pressure of the divine medicine. The purple pearls that he condensed was simply a waste of money.

After Teng Yong and the others left, Chen Xiang ran into his room and prepared to begin his own cultivation.

"Chen Xiang, you have to become stronger quickly. Bring me to Cat Race and them." Yue'er said: "When you cultivate to the Hundred gods level and use Heavenly magic sword, you basically aren't afraid of anyone."

"Un, I will do that right now! High-grade Nine Yin and yang Dan are no longer enough to satisfy me, so I want to refine high-grade Nine Yin and yang Dan. " Chen Xiang said.

The purple pearls that he condensed from the Alive Slain Method could at most be raised to the level of Shangpin medicine, they were unable to be ranked at all!

But, Six Realms God Cup s could!

He took out the two divine medicines that the Nine Yin and yang Dan had said he needed, placed them within the Six Realms God Cup, and then took out the Six Realms mirrors's cooperation.

Nine Yin and yang Dan only wanted two divine medicines, and there were a lot of these two divine medicines here as well. The Alchemist s here did not even know that these were treasures, and only thought that they would explode.

Two hours passed, and Chen Xiang took out the merciful divine fruit and the Three disasters destroy flower.

"It's not enough yet. I'm just a bit away from it." Chen Xiang quickly took the two divine medicines.

After another two hours, he took out the Three disasters destroy flower and merciful fruit.

"It's a success!" Chen Xiang said excitedly: "It's a pity that I don't have enough purple pearls now, otherwise I would have copied a huge pile! If only Meng Er and the others are here, all of their Divine Deity s are far superior to mine in terms of using the Alive Slain Method. "

Chen Xiang spent one day to make six sets of the's divine medicine through the Six Realms God Cup!

"This Nine Yin and yang Dan can only produce one pill, it can't break through at all!" Chen Xiang had tried before, but none of them succeeded.

"Enough, the effects of the Nine Yin and yang Dan are so scary, giving out one pill is enough." Yue'er said: "If it's of low quality, you should be able to condense your Divine Deity very quickly!"

"En, it is definitely better than an upper-level Nine Yin and yang Dan!" Chen Xiang said: "I will first test out how good the quality of the medicine is, and if it is not enough, I will refine a King grade later! This is also to prepare for the refining of Three lotus Dan. "

... ..

Ever since Chen Xiang used seven hundred and eighty pills to buy the Qingxin spiritual lotus, the Dan God Institute had been restless all day, because such a mysterious and powerful Pill God suddenly

appeared in the Wang Ancient Heavenly Star, and was not under the control of the Everlasting Mountain. This made them extremely terrified, if the Pill God had refined other pills, that would be fine, but the pill he refined was actually the Bone level Dan! This was a divine pellet that could endanger the very foundation of Dan God Institute.

Because of this, Dan God Institute and the elder courtyard joined forces. They had the elder courtyard send people to investigate this matter, they wanted to know where the mysterious Pill God was!

[Chapter 2256](#)

Chen Xiang's progress in refining the high grade Nine Yin and yang Dan was extremely smooth. He had previously refined a few high grade furnaces, so he was extremely familiar with the Nine Yin and yang Dan.

He had to admit that the biggest difference between high grade Nine Yin and yang Dan s and high grade Nine Yin and yang Dan s was that they were more powerful than each other. Just fusing them took him half a day, and previously, he did not need that much time to refine high grade Nine Yin and yang Dan s.

"Alright!"

Chen Xiang was already sweating profusely, he had already successfully refined a high quality Nine Yin and yang Dan, but what was inconceivable was that even though he had refined a Taipin Dan before, he did not feel any difficulty, he suspected that it was because he had refined too many difficult Shangpin dan before, and when he reached high quality, he did not feel any difficulty at all.

If he was trying to refine a divine pill with the characteristics of a Taipin Dan, it would be rather difficult.

"Strange, why isn't there a Pill Tribulation?" "When you succeeded before, there was always a Pill Tribulation. But this time, there was no Pill Tribulation!" Yue Er exclaimed.

After Chen Xiang took out the Nine Yin and yang Dan s from the furnace, he had been waiting for the Pill Tribulation to come.

"What's going on?" Just when Chen Xiang found it hard to understand, the Nine Yin and yang Dan he was holding began to tremble.

The inner part of the Nine Yin and yang Dan seemed to contain a shocking power that caused the divine pellet to release such a strong vibration.

The Yin Yang Twin Fish pattern on top of the Nine Yin and yang Dan seemed to be spinning at top speed as it emitted a black and white light!

"What happened to this pill?" Chen Xiang was finally unable to control the Nine Yin and yang Dan. After the divine pellet flew out of his hand, it floated in the air, swaying left and right.

"Pill Tribulation has arrived. It's just that this Pill Tribulation is different from the previous high-grade pill Tribulation!" When Chen Xiang saw the reaction of this Divine Pill, he immediately understood.

The Pill Calamity of a Tier 2 Nine Yin and yang Dan came from the inside, unlike the red lightning that suddenly appeared when it was in the upper tier.

After the strange Pill Calamity, the Nine Yin and yang Dan calmed down and landed on Chen Xiang's palm. This also caused Chen Xiang to heave a sigh of relief.

"It's not difficult to refine a high grade Nine Yin and yang Dan! It's just that I don't know how effective it is! " After Chen Xiang ate it, his body quickly went through all sorts of changes, starting from the nine.

Very quickly, it had reached the final stage of transformation, and the power had also shifted from the physical body to the Divine Sense Sea!

"The medicinal strength has become much stronger, and it's still quite useful. Based on the current situation, I'll need to eat at least a hundred Nine Yin and yang Dan before being able to condense one Divine Deity and one divine soul. This speed is not slow either." Chen Xiang was fairly satisfied with the high quality Nine Yin and yang Dan, eating a hundred of them was enough to help him condense the 91st Divine Deity, it was already very fast.

At this level, most people would need tens of thousands of years to condense just one Divine Deity!

"The high quality Nine Yin and yang Dan can succeed, but we don't have the time to refine it yet. The most important thing right now is to refine some low quality Shangpin bone level Dan, or even some high quality Nine Yin and yang Dan" Now that Chen Xiang wanted to cultivate Bones, it would only be difficult to satisfy him with high quality food.

Right now, he not only wanted to improve his own strength, he also wanted to help Teng Yong and the others improve. Otherwise, if there were to be a conflict, he would definitely be unable to defeat the Dan God Institute and the Elder's Hall.

If the Dan God Institute and the elders found out that he was secretly coordinating with the outer sect disciples, as long as they sensed any threat, they would definitely join hands and annihilate them.

"I should be able to refine quite a few Shangpin bone level Dan in a month's time. As long as I refine a Bone level Dan, I can recruit an outer disciple. It's quite easy." Chen Xiang was secretly delighted in his heart. Although Bone level Dan s were precious, they were divine pellets that were easier to refine, especially middle and lower quality ones.

Yue'er said: "I need at least a hundred Shangpin bone level Dan by my side, and the middle tier ones need at least three to four hundred! Dan God Institute is definitely not as generous as you are, because they are already used to using Bone level Dan to control outer disciples to do things. Even if they could easily get their hands on Bone level Dan, they would not give it away so casually. "

Chen Xiang began to circulate the Alive Slain Method to condense the purple pearl, in order to replicate the high grade divine medicine.

"Dan God Institute knows that there aren't many pill gods that can refine Bone level Dan. They are worried that the Bone level Dan's recipe will be leaked, so they won't spread the recipe to too many people. They will only let a few core disciples know! Adding on to their lack of pills, the need for Bone level Dan in Everlasting Mountain was so much that their Bone level Dan was probably very nervous as well. " Chen Xiang suddenly laughed sinisterly: Wait until Teng Yong and the others return, we can discuss with them about whether or not we should spread the Bone level Dan's pill formulas!

"I agree, Star Law Divine Realm's big shots are too disgusting, we have to teach them a lesson!" Yue'er hated these big powers, they were the ones who destroyed Undead Divine Race and now both Star Moon Divine Race and Star Moon Divine Race are implicated.

In the blink of an eye, a month had passed. Adding the pellets he had refined before, Chen Xiang now had 90 Shangpin bone level Dan s while the middle ranked one had 200. Although he did not reach his initial goal, it was still enough for now.

Just as Chen Xiang came out of his room, he saw that Teng Yong and Jing Ze were both here. Feng Wu had also returned, but he did not see Hua Lang.

"Where's Arlang? Why is he not here?" Chen Xiang laughed.

"This boy suffered a serious injury after taking the true disciple exam. He's still lying down." Teng Yong laughed.

"The assessment of Successor Disciples? So did he pass?" asked. He also wanted to become a Successor Disciple now, and only then would he be able to obtain a higher position.

"Of course she passed, now Feng Wu has started too, what about you brother? If I were to become a true disciple, it would be better than now. At least I won't have to hunt Special god beast s every month." Jing Ze asked.

Feng Wu laughed, "I have already passed the second trial. As long as I can pass the third trial, I would be a Successor Disciple, and at that time, even the Feng Clan would not be able to do anything to me."

"Alright, I'll take the examination as well. What are the requirements?" Chen Xiang thought about it and made his decision.

"In ten more days, it will be the registration day. The registration day will only be three days at the beginning of the month. The registration day must be completed within the end of the month!" The first trial was to kill a king level Special god beast, it was relatively simple. The second trial was to give ten Xiaping bone level Dan to the Dan God Institute, it was as easy as pie for the big brother! The third stage is more difficult, it is the Elder's Hall to select a Successor Disciple to compete with you, you have to win in order to pass, otherwise all of your previous efforts would have been for naught." Teng Yong said.

[Chapter 2257](#)

"The first two trials can be considered normal, but the second trial usually requires ten Xiaping bone level Dan s to be given to Dan God Institute?" Chen Xiang said as he frowned.

"If we don't give them to the Xiaping bone level Dan, they have to give us ten billion! There's no other way, who asked the Dan God Institute to be so powerful, this rule means that he wants to snatch either the Bone level Dan or the Shen Yuan stone. If you do not do as he says, then you can forget about taking the examination." Jing Ze's face was also filled with indignation.

"If I fail in the third stage, wouldn't I have to start from the beginning again, kill king level Special god beast, and give the Dan God Institute another item?" Chen Xiang looked at Feng Wu and asked: "Feng Wu, are you prepared for the third stage? Are you confident? If we lose, we would have to start from the beginning, and that would benefit the Dan God Institute."

"Of course I'm confident!" Feng Wu laughed: "I have four Divine Deity already!"

"So fast?" It's only been a month! " Chen Xiang said in shock.

"There's nothing we can do. When we're lucky, we can't stop." Feng Wu laughed very happily.

"I only have three as well." Teng Yong curled his lips and said: "Big Brother, look at the divine medicine we bought, right?"

Teng Yong and Jing Ze passed Chen Xiang a Storage bag.

Chen Xiang received it, looked at it, and laughed: "Right, these are all the divine medicines that the Shangpin bone level Dan needs!" Chen Xiang saw that all the Divine Medicines were already split into groups of thirty. If they were all refined into pills, that would not be a small amount.

"How many Shen Yuan stone s are there?" Chen Xiang asked.

"We bought all of these by ourselves. Adding them up, it was worth five billion Shen Yuan stone. It's really cheap!" said. Both he and Jing Ze were very excited, if they could concoct divine pellets, even if they failed, there would be twenty of them!

To them, twenty Shangpin bone level Dan s was an extremely large number. If they had been able to get it before, they would have had to spend at least ten thousand years to get it, and this was only when the old Pill Gods were in a good mood. If they wanted to make things difficult for them, they would have had to sell themselves for even longer.

"Oh right, didn't you say that you would go find the two stronger true disciples? What's their attitude? " Chen Xiang asked.

"They were all sent by the Dan God Institute to do some work and have not returned yet. However, they have already promised me that when they return, they will agree to discuss the matter of the outer sect disciples' unity with us." Teng Yong said.

Chen Xiang nodded his head: "I will help you all refine these divine medicines into divine pellets. If possible, help me collect some of the Zhongpin bone level Dan's divine pellets, because this is what is needed the most right now.

Teng Yong and Jing Ze both nodded. Although they had used up a lot of the Shen Yuan stone's divine medicine to purchase those Shangpin bone level Dan, they had earned twenty of them just like that.

"Feng Wu, you will be competing with a Successor Disciple next, right? When that time comes, I might not be able to spectate anymore. You must work hard and not lose to those inner sect disciples. " Chen Xiang patted her shoulder as he encouraged her.

"That's for sure, I will definitely win when the time comes!" Hua Lang, this brat, has already passed, so I must pass as well. " Feng Wu laughed: "Otherwise, I would be laughed at by him."

"These are some high-quality healing medicine, it's just powder, but it has good effects. Give it to Hua Lang to try, it should have some effects." Chen Xiang handed over a box of medicinal powder to Teng Yong.

"Good!" Brother, how long will you need to concoct the pill this time? If you want to quickly become a true disciple, you need to pay attention to the new month. Otherwise, you will have to wait for it to pass. " Teng Yong asked.

"I'll be out in ten days!" After Chen Xiang finished speaking, he anxiously entered the room. To him, refining these thirty batches of Shangpin bone level Dan, did not even need ten days.

"If you can produce six pills in a single furnace, these thirty pills will be a hundred and eighty pills. Do you want to give them all of them? They definitely think that you can only refine more than twenty pills. " Yue Er asked with a smile.

"Give all of them! They have already called me big brother. How can I deceive them? " Chen Xiang laughed: "Only by doing this can we gather them, allowing them to become more ambitious, and to become stronger! After all, they are all people who have cultivated to the Hundred gods level. "

Chen Xiang was currently refining Shangpin dan very easily, because he was using Chuangshi god furnaces to refine. When this Chuangshi god furnace was used to fight, it could release very terrifying flames, but when used to refine pills, especially when using Original source refining, it could quickly refine out Spirit blood s that were using divine medicine!

After the fusion between the Chuangshi god furnace and Chen Xiang, it could adjust the various functions of the flame according to Chen Xiang's will. If it was used for battle, the flame would be very strong.

In just three days, Chen Xiang had refined all thirty sets of divine medicines, and everything went extremely smoothly. He needed to cultivate his Divine Deity now. Previously, he had told the five Beast statue in the Second Divine Sense Sea that as long as he could cultivate the Hundred gods level and Bones to the Great Perfection Stage, the Second Divine Sense Sea would appear.

Right now, he was very curious about the Second Divine Sense Sea. He really wanted to see how strong the Second Divine Sense Sea would be once he came out!

Ten days passed quickly, Teng Yong and Jing Ze had long since returned, when they were in and out they had disguised themselves, and no one would be able to see through them. Otherwise, it would arouse the suspicions of others, and they were two of the more powerful outer sect disciples.

Chen Xiang took a comfortable bath in his room before coming out. This time, he saw Hua Lang, who looked pretty good with the purple jade pendant by his waist, this was the symbol of a Successor Disciple.

"Ah Lang, not bad!" Chen Xiang laughed, then looked towards Feng Wu who was seated beside her, but she did not have a purple jade pendant around her waist.

"Feng Wu, can't you pass?" Chen Xiang frowned, but he did not look like one, because Feng Wu was also full of smiles.

"Who said that!?" I successfully passed. I can say that my luck is pretty good. The guy that was selected to fight me was relatively weak, so I quickly took care of him. "

Chen Xiang nodded: "That's good!" Then, he took out a relatively large jade box and handed it over to Jing Ze.

This was a Shangpin bone level Dan, and both Jing Ze and Jing Ze were very nervous at the moment. This was the first time they had asked the Pill God to refine a divine pellet for them, and it was a high grade Bone level Dan as well, they didn't know how many of them.

Jing Ze took it and opened it. The medicinal fragrance that instantly gushed out from the jade box stunned both him and Teng Yong. Even Feng Wu was surprised, because this medicinal fragrance was simply too dense, and it was the medicinal fragrance of a Bone level Dan!

[Chapter 2258](#)

To be able to create such an effect, it meant that there were a lot of Bone level Dan in the jade box. Hua Lang and Feng Wu immediately stood up and walked over.

"Big... Brother, did you give it to the wrong person?" Teng Yong took a deep breath and said. Both he and Jing Ze believed that Chen Xiang gave them the wrong jade box, but they couldn't help but be shocked. Chen Xiang actually had so many Shangpin bone level Dan.

If Chen Xiang had a strong backer, and was not afraid of the Dan God Institute and the Elder's Hall, just with these Shangpin bone level Dan, he would definitely be able to dig a corner of the Everlasting Mountain.

"I didn't take the wrong one. This is what you made with those divine medicines!" Chen Xiang smiled faintly: "I am different from other Pill Gods. When I am refining pills, I always pursue to the limit! In the hands of other pill gods, there might only be one or two pills, but in my hands, I can refine six! "

Teng Yong, Hua Lang and the others were all speechless, the Shangpin bone level Dan s could actually refine six pills in a single furnace? In their opinion, this was heaven defying!

Chen Xiang did not secretly take away a portion of the Bone level Dan, but gave them all of them. They felt that even if Chen Xiang gave them two pellets each time, they would definitely be happy to death, so they would not doubt him! This made them even more certain that Chen Xiang was their big brother.

"Thank you, Big Brother!" Teng Yong and Jing Ze said in a very touched manner, because they would no longer have to suffer the wrath of the Dan God Institute, and would no longer need to be manipulated by him.

"I really want to smash Dan God Institute into pieces right now!" Teng Yong clenched his fists tightly, he was extremely excited, and suddenly wanted to do something more violent to vent the joy in his heart.

"Big bro, if I find some divine medicine, will you help me refine it?" Hua Lang quickly asked, while at the same time, Teng Yong took a handful of Shangpin bone level Dan s from the jade box and shoved them into Hua Lang's hands.

"Of course!" Chen Xiang laughed out loud. At this time, Teng Yong grabbed another handful of Bone level Dan and gave it to Feng Wu.

"Ah Yong, Ah Ze!" You have been here for so many years, you should have a way to secretly sell these supreme dan beads at a good price, right? All of you need a large number of Shen Yuan stone s now, and

then, you can go through all the great Earth-stage Stars and purchase a large amount of middle and low rank third grade Bone level Dan's divine medicine." Chen Xiang said: "When we have enough Bone level Dan and sufficient strength, we will establish our sect."

When Teng Yong and the rest heard Chen Xiang's words, they became extremely ambitious. If Chen Xiang were to establish his own sect, then they would definitely be powerful elders! Although they had decent strength, within the Everlasting Mountain, they had never been valued as such. Only Chen Xiang valued them as much.

"Let's go and do it now. These Shangpin bone level Dan can be exchanged for many of our own! At that time, we will dominate the entire Star Law Divine Realm." Teng Yong said excitedly.

Chen Xiang smiled and nodded: "I will first take the assessment to become a Successor Disciple. I would like to see how strong the inner sect disciples are."

Hua Lang and I have just become true disciples, and there are already a lot of small things mocking and ridiculing us, and they seem to be very unconvinced. Those small trash who were born in the inner court at a young age enjoy such abundant resources, and normally don't need to go all out to hunt Special god beasts, but none of them can't pass the assessment of a true disciple, so they still have the face to say we! "

"That's right, especially after knowing that I just entered the inner sect and I've already become a true disciple, they are even more jealous. They are just a bunch of useless people, if I was like them, I would have already committed suicide long ago." Although she and Hua Lang had become true disciples, many inner disciples still looked down upon them.

"These guys will know how strong we are sooner or later. We'll let them see how small they are, so we'll let them jump for a while." Chen Xiang smiled faintly: "Now we will continue to secretly rope in the disciples who enter the outer sect so that they can quickly cultivate and produce more Bones."

"If I were an ordinary outer disciple, then let me come. A true disciple will be depending on Brother Yong and the others." Hua Lang said.

"I will join as well. I am now a Successor Disciple, after all. Usually, we just have to help those Outer Disciples who just came in and we will be able to gain their goodwill. We can also talk to them and easily win them over." Feng Wu had been working in the outer sect for a long time, so he was quite familiar with these methods.

"You guys give me some of the weaker Xiaping bone level Dan. The ones I refine are all not bad, I can't bear to give them to Dan God Institute." Chen Xiang said.

Jing Ze immediately took out over ten pellets and gave them to Chen Xiang. Because sometimes, when buying relatively rare and precious things, one would need to use a Bone level Dan for a trade.

After that, Hua Lang told Chen Xiang the steps of the true disciple exam.

It was the beginning of the month, and there were many disciples taking the exam, but most of them were inner court disciples!

Chen Xiang arrived at the great hall of the Elder's Courtyard at the top of the mountain and saw dozens of young men and women chatting. When they saw Chen Xiang arriving, they immediately quietened down and looked at him with disdain.

The only difference was that the clothes he was wearing right now were all given to him by the Everlasting Mountains. The workmanship was a little rough, and the clothes worn by these inner disciples were all made of relatively better materials.

"Why are there so many outer sect disciples taking the assessment? Could it be that this fellow thinks that he is lucky as well?" A man laughed softly.

"Two guys passed just ahead of us. They're really lucky. The next batch of outer court disciples will be taking the exam one after another. They're all here to try their luck!" A tall girl crossed her arms across her chest, and swept her gaze across Chen Xiang, she realised that Chen Xiang was rather good-looking, and also had a very temperament, different from most of the outer sect disciples she had met.

Especially when Chen Xiang had released that faint aura of power, causing the woman to not be able to laugh. After all, Chen Xiang was someone who had experienced many hardships. The most important thing was that he possessed absolute power. After killing Divine Lord, he would naturally not be angered by the little imps here. Right now, he was looking at the inner sect disciples as if they were ants.

"When did you enter the inner sect?" Why haven't I seen you before?" The tall and beautiful woman walked up and asked.

"It's been over a month. I'm usually down there." Chen Xiang answered honestly, but did not look at her, but looked at the table in front of the hall. When the time comes, an old man would come to register.

"This guy really deserves a beating. I'll go over and teach him a lesson." A man walked over. Because they had to wait a while, they didn't start registering. Right now, they were all looking for some fun.

[Chapter 2259](#)

Chen Xiang had long known that the inner sect disciples loved to bully the outer sect examination disciples the most, but he never expected that they were this rampant.

Chen Xiang secretly clenched his fists. After the man who wanted to teach him a lesson came over, a few more men ran over with a laugh. With a glance, Chen Xiang could tell that they were in the same group, and they were right behind Chen Xiang.

Suddenly, one of the men patted on Chen Xiang's head. His strength was not great, just a light pat.

Chen Xiang immediately turned around and stared at one of the men. The man held a folding fan, and upon seeing Chen Xiang turning around, he retracted his smile and scolded: "What are you looking at, do you think I hit you? You don't have eyes on the back of your head, how do you know that it was me?"

Chen Xiang's face was extremely gloomy, his tightly clenched fists were releasing creaking sounds. At his level, even if one did not have eyes in the back of the head, they would still be able to clearly see who hit him.

"Calm down, calm down. I want to take the exam." Chen Xiang's tightly clenched fists loosened up a bit. He told himself that he shouldn't bother with these people for now, he still had to stay in the Everlasting Mountain and secretly gather his forces.

Just as Chen Xiang was telling himself to calm down, suddenly, a few disciples came to his back, laughing merrily. Chen Xiang knew what they were going to do, so he just stood there.

Sure enough, another person slapped his head, and after that, they started laughing loudly again. There were a few men behind Chen Xiang right now, all of them came here to tease him.

Chen Xiang took a deep breath and suppressed the anger in his heart. Before he came here, he never would have thought that these inner disciples would be so rampant when bullying the outer disciples.

"Endure it." Chen Xiang turned around and looked at the man who hit the back of his head. He wanted to recognize the two people who patted his head from behind, but at this moment, he saw an old man walking over, who should be the elder in charge of the assessment.

Seeing that the clan elders had arrived, Chen Xiang's anger had dissipated by a lot, because the clan elders had all seen of this area, so the inner disciples would definitely be more restrained.

Chen Xiang wanted to walk over, but he did not expect to be stopped by these men. What made Chen Xiang's heart surge with anger was that the elder pretended not to see, ignoring him as he busied himself with registering himself as a disciple for the Successor Disciple assessment.

Suddenly, a man kicked Chen Xiang's butt. He used a lot of strength, causing Chen Xiang to almost fall forward.

"Haha ..." "This guy is standing very steadily. He didn't even kick him down." A man laughed out loud, as though they were always teasing Outer Sect disciples, and when the gathered disciples saw Chen Xiang being kicked, they also laughed out loud.

Chen Xiang straightened his body and for some reason, the anger that had originally surged in his heart had already disappeared. This was because this anger had already turned into power and had fused into his body.

Seeing Chen Xiang being so calm, the disciples all thought that he was just enduring.

Chen Xiang walked forward a few steps and arrived in front of the man who slapped the back of his head. This man also intentionally stuck out his chest to block him.

"You were the one that hit me from behind, right?" Chen Xiang asked indifferently.

"Heh, so what if I hit you? If you have the guts, then come back!" The man laughed. "Come, come, my head is right here. Beat it, quickly beat it. Do those idiots who come in from the outer sect really think they are invincible?"

This man would probably stoop down, bring his head in front of Chen Xiang, and also point at his own head, allowing Chen Xiang to hit him.

Chen Xiang raised his hand and slapped his palm.

Boom.

A deafening sound rang, and those disciples who were originally mocking Chen Xiang, were now all dumbstruck. Chen Xiang had really hit him, and had even smacked that man's head into a cloud of smoke.

Everyone found it hard to believe what they had seen with their own eyes. An outer disciple had killed an inner disciple with a single palm strike.

Chen Xiang was very calm. With a teleportation, he arrived behind the other man who slapped his head just now. His palm was like lightning, fiercely smashing over, and with another series of explosions, the man's head exploded in a row like that of Chen Xiang, scattering in all directions.

"This... "This, he's killing someone." One of the disciples reacted and shouted, "The outer sect disciples are killing people."

Chen Xiang immediately teleported to the back of the man who kicked him earlier, raising his palm that was ignited in flames, he jumped up high, his palm striking downwards, transforming into a gigantic flaming palm, smashing onto the man's body, miserable wails sounded out like a pig being slaughtered, in the blink of an eye, the man was smashed into a pile of black ash by Chen Xiang's palm.

Chen Xiang consecutively killed three people, and all of them were killed in an extremely short period of time. What caused these inner sect disciples to be alarmed was, although Chen Xiang had killed eighty Divine Deity and three Bones, they were all unable to withstand a single blow and were all directly killed.

Even though these inner sect disciples were usually arrogant, they were not stupid at the critical moment. If they could kill three inner sect disciples who were not weak in three moves, even if they surrounded and attacked, their fates would still be the same, so they immediately spread out, far away from Chen Xiang. It was only now that they suddenly recalled that the outer sect disciples were not weak.

Normally, the outer sect disciples would only be restricted by the Dan God Institute s, so they were always left to their own devices, because there had never been an outer sect disciple like Chen Xiang who had fought so hard and killed people directly. This caused many inner sect disciples to be terrified, and at the same time, they were secretly glad that they did not bully Chen Xiang earlier, otherwise, their heads would have been smashed.

Of course, that elder had seen all of this. He was also stunned for a long time before he finally reacted. At this time, he hurriedly rushed over.

"Look at what you've done. Do you know what you've just done?" The elder had already taken out a long sword, and roared at Chen Xiang, but he did not dare act recklessly, as there were many outer sect disciples that were stronger than him.

Of course I know what I'm doing, I just got rid of the three pieces of trash. This way, our Everlasting Mountain wouldn't have to provide them with resources in the future, and then we would all be able to get more resources. Chen Xiang was actually smiling.

With a smile on his face, Chen Xiang walked over and stabbed the sword into his throat. He laughed: "Clan Elder, do you think that I am more useful?"

All of the disciples felt chills down their spines. After killing three people, the elder had already taken out his sword, but Chen Xiang was still laughing and joking, he did not seem to care about what had just happened at all.

[Chapter 2260](#)

"If you think they're more useful, just stab me to death." Chen Xiang laughed: "Of course, now that they are all dead, they are definitely useless."

"You ... What are you trying to do? " The elder's sword was actually trembling, he was actually afraid of Chen Xiang.

"I just want to take the assessment to become a true disciple." Chen Xiang replied seriously.

He was an old fellow who had lived for many years, so he naturally knew how dangerous the person in front of him was. In the inner sect of the Everlasting Mountain, in front of the elders and many disciples, after killing three people in a row, he was still chatting and laughing with Chen Xiang.

"Elder, among those who died just now, there was the grandson of the Great Elder. We have already informed the Elder Hall, do not let him go." Just as he finished speaking, that elder had already fiercely thrust his sword towards Chen Xiang's throat. Unexpectedly, Chen Xiang had suddenly grabbed hold of the longsword, and then, broke it with great force by Chen Xiang.

"I didn't want to kill you!" After the Meteor immortal power rushed out, it pierced through the elder's body and blasted him away. Boom!

"Hurry up!" No one knew who shouted, but after that, the disciples scattered in all directions, and in the blink of an eye, all of them disappeared.

Chen Xiang shook his head and sighed, there were some things that he couldn't control himself either. He had originally planned to stay in the Everlasting Mountain for a while longer, lurk here, and rope in more outer sect disciples. Of course, if he endured it just now, then it would be over. But he had endured it twice already, so it was impossible for him to endure it a third time. For him, it would at most be a new plan.

He had already gotten the Qingxin spiritual lotus, and even if he could rope in Teng Yong and Jing Ze, the two relatively powerful true disciples, with them in charge, his plan would still work.

"This aura... So powerful! " Chen Xiang was surprised: "Could it be the Great Clan Elder from the Clan Elder's Hall?"

"It should be, the experts at the peak of these powers are all extremely terrifying, and are not something that the Divine Nations can compare to, even the Black Stone Divine Venerables are weaker than them!" Yue'er replied, "Otherwise, the entire Undead Divine Race would not have been annihilated."

"I always thought that they had the same strength as the Divine Lord!" Chen Xiang frowned: "Logically speaking, those Divine Lord should also be at the peak, their strength should not be too far off."

"There's still some difference. Those Divine Lord s might only have seven or eight bones, or even less, but the strong experts at the peak of this place all condensed their nine Bones! Furthermore, they have been stuck at this stage for many years, refining their divine power and making it stronger. " Yue'er

urged him, "Let's go first. When you reach the peak of your cultivation, you will have sufficient strength to fight them. Right now, you are only a powerhouse at the peak of your strength. If there are two or three more of you, you will be in trouble."

Chen Xiang immediately teleported out of the cave and returned to the cave. Just as she was about to leave, she suddenly saw Chen Xiang here, and was very surprised.

"Feng Wu, you can't stay here anymore, come with me!" Chen Xiang walked over, held her arm, and at the same time took out the Communication jade Symbol paper, passing a message to Hua Lang and told her what he had done.

Feng Wu had felt the Qi of a Ranker just now, and she was very curious about what had happened. She really wanted to go up and take a look, who knew that Chen Xiang would suddenly appear, and without waiting for her to ask, Chen Xiang had already brought her and teleported away from Everlasting Mountain.

"That's about it!" After Chen Xiang brought Feng Wu away, he told him everything simply because Feng Wu was in the same cave as him. If they were to investigate, Feng Wu would definitely cause a lot of trouble.

"You really killed an elder and three disciples?" When Feng Wu heard this, he couldn't believe that Chen Xiang had actually made his move, and was even killing an elder.

"That's right!" Chen Xiang nodded his head, "There's no other way. I have already given them a chance."

Feng Wu took a deep breath, then patted Chen Xiang's shoulders: "Good job, those fellows are courting death, they deserved it! The last time I went to take the examination, I was almost tricked by them! However... Sigh, the true disciple that I have just tested is already useless like this. "

Thinking that Chen Xiang was a powerful Pill God, Feng Wu felt that there was no use in becoming a Successor Disciple, and furthermore, she was an outer sect disciple, so she would still be looked down upon.

"I had originally planned to secretly establish a force in the Everlasting Mountain and occupy it. Now it's no longer feasible." Chen Xiang said: "The plan will have to be changed. It can only be established in the outer sect, but it will have to wait until Teng Yong and Jing Ze buy a large amount of mystical pills."

It was enough to have Bone level Dan. Here, the resources were richer, and there were more other divine pills, moreover, they were not as expensive as the Bone level Dan. Only the Bone level Dan were controlled by the big powers, so the price was very high and the quantity was very rare.

Hua Lang was still near the Everlasting Mountain. Upon receiving Chen Xiang's message, he immediately returned to the Everlasting Mountain to confirm what Chen Xiang had said! He could not believe that Chen Xiang had done such a thing. After confirming it, he secretly admired Chen Xiang in his heart and he actually did what many outer sect disciples had wanted to do for many years.

"Big brother, they are all looking for you now. They already know your name." Hua Lang returned to his own cave abode and transmitted a message to Chen Xiang.

"Then, do they know that I have come into contact with you, Teng Yong?" Chen Xiang asked.

"Feng Nan Yi told the Great Elder about Teng Yong in your cave. He also knew that Feng Wu was in the same cave as you, and he even found out that you and Feng Wu had hunted Armored crocodile before." Hua Lang said, "I'll immediately tell Brother Yong about this and tell him not to come back!"

"What about you?" Chen Xiang was still a little worried about Hua Lang, since Hua Lang was in his cave and out often, he must have been seen by someone.

"Don't worry about me, I come to visit often. This is something many people know." Hua Lou smiled and said, "Just now, they asked me about your matters. I made up some nonsense and gave it to them. I want to stay here and help Big Brother rope in the outer disciples."

"Alright, but you have to be careful as well!" Chen Xiang said: "We will arrange to meet at a place. I will give you some Zhongpin bone level Dan s so that it will be easier for you to rope us in."

Chen Xiang waited for half a day after meeting Hua Lang in Cang Cloud City, and when it was finally Hua Lang's turn, he was even worried that Hua Lang had been captured.

"Fifty Zhongpin bone level Dan pills. This should be enough for you to use for a period of time to rope me in. When that happens, you can let Ah Yong and Jing Ze find a place to stay at Cang Cloud City and I will come back here. " Chen Xiang said.
