

## Dan God 2371

### [Chapter 2371](#)

Chen Xiang now understood that those people were all queuing up, about two hundred people or so.

"Why are you testing the pills?" Chen Xiang asked.

The old man's eyes were sharp, he could tell that Chen Xiang did not understand much about this matter, and was a kid that had just left the mountain.

"The main reason is that after Alchemist refined the pill, he was not clear about the use of his own pill, which was why he invited many people to try eating it, and then analyzed the effects to improve his pill formula! In the past few years, many people have died. " The old man said. The Fiction: The Fastest New Sections of the Fiction

Chen Xiang originally wanted to queue up and give it a try, but after hearing this, he felt that it was better to forget about it.

"Old sir, I want to buy some pills. It has to be helpful in raising your strength. " Chen Xiang said: "It's best if it is cheaper, I do not have many Jade money."

"Alright, come with me!" The old man brought Chen Xiang to a counter and took out a small jade bottle from inside, "Little brother, I think you have not cultivated a Dao Body yet, right? Are you lacking Divine Deity or is it? is it the Divine Deity of the second Divine Sense Sea, or the first Divine Sense Sea? "

When Chen Xiang heard the old man's words, the cultivation system here was exactly the same as what he knew.

"Second Divine Sense Sea's, Bones!" Chen Xiang said. Each of the six Beast statue in the Second Divine Sense Sea required ten Bones in order for him to condense the Dao Body.

"I knew it! Eating this pill will make you lose the most, this pill is called Yaoge Dan, it's Bones is shining ... " The old man took out a black pellet from the jade bottle and said: "If you have not condensed Bones in the second Divine Sense Sea, you only need to eat one and you can condense one Bones! The second required ten pills, and the third one, a hundred pills ... This kind of medicinal pellet will at most allow you to condense nine of these Bones. "

"Then how much is it?" Chen Xiang asked, he could not figure out what kind of medicine the Yaoge Dan was refined with.

"One hundred Jade money pills!" The old man said.

"It's too expensive!" Chen Xiang had no concept of price, he was only cutting prices out of habit.

"Since this is your first time buying a pill, I'll sell it to you for eighty!" The old man said again.

"Then I'll try buying one first!" Chen Xiang gave a set of Jade money s with a hundred to the old man, who gave him back 20.

After taking the pellet, Chen Xiang walked out of the Fire Tao Divine Place and ate it next to a mountain in the outer sect.

"Hmm? This medicinal power was very similar to the Bone level Dan ... "But there's something more ..."  
Chen Xiang sensed a very familiar smell from within the medicinal power.

"Bone level fruit!" Chen Xiang was shocked: "There is a little bit of the Bone level fruit here, could it be that it was refined using the Bone level Dan's divine medicine and the Bone level fruit?"

From that medicinal power, he did not feel much of the Bone level fruit's medicinal power. It should be because he had added too little, but the Bone level Dan had a lot of medicinal power.

"No wonder it's black. So there's a Bone level fruit here." Chen Xiang continued to refine the medicinal power, and channeled the power of the medicine into the second Divine Sense Sea, into the second Divine Sense Sea's green dragon.

The six Beast statue in the second Divine Sense Sea already had powerful flesh and divine soul, so they only needed to cultivate Bones!

After eating that piece of Yaoge Dan, Chen Xiang unknowingly fell asleep during the refining process. When he woke up, he felt a lingering fear, he never thought that after the Yaoge Dan ate it, it would actually be the same as the Bone level fruit's process of condensing its Bones, condensing its Bones in a comfortable and deep sleep. Furthermore, he was in the wilderness, so fortunately, there was no one around.

He had condensed a Bones inside the Azure Dragon's body!

"I wonder what grade of divine pill that is." Although Chen Xiang ate one pellet, he did not manage to test it out.

The feeling the Yaoge Dan gave Chen Xiang was very strong, to think that it would let him, the second Divine Sense Sea, condense his Bones so easily!

"I don't know if my Heavenly Alchemy is useful here, but it seems like I have to find a set of pills." Chen Xiang said, "I have long heard that the ancient pill formulas are the most haughty. Because of the passage of time, disasters frequently erupt, causing many haode pill formulas to be lost."

"If that's the case, this Big Chaotic Times should be at the peak of his alchemy culture." Chen Xiang was secretly excited. This would allow his alchemy level to improve even more.

Chen Xiang then proceeded to the Fire Tao Divine Place, and strolled around inside it. The entire area of the Fire Tao Divine Place was huge, if he wanted to visit all of them, he would need at least half a year. If he wanted to reach the most bustling area, he would have to walk for more than ten days.

Of course, there were things like Transmission array s here, it was just that it was very expensive, although Chen Xiang had many Shen Yuan stone, but it was useless here.

"To me, the price of one teleportation for three thousand Jade money is too high." Chen Xiang shook his head. He had found five pill stores in the poor areas outside, all of them were at the same level.

"Looks like I have to walk in. I have to go check out those big shops." Chen Xiang looked at the few medicine stores outside and realized that of the divine pills he had refined, only the Three lotus Dan and the Heavenly Life Divine Pill had a market.

Of course, if they were to sell it here, it wouldn't be called a divine pill.

"The Nine Bone Divine Pill should be easy to sell, but I don't know how effective it is compared to the Yaoge Dan, I have to find someone to test it on!"

Now Chen Xiang finally understood why he had to invite someone to try out the pill. He needed to find out the effects of a pill, but he was unable to do so with his current abilities.

He walked very quickly through the night. It took him several days to reach the bustling area. The buildings here were all at least ten storeys high and at most twenty or thirty storeys high. All of them were decorated very extravagantly.

"This should be the Rich District!" Chen Xiang lamented. All the people walking on the road were dressed much better than the area outside.

On the way here, Chen Xiang had changed into something that looked more similar, just that it was much worse than those rich people.

"The Baodan Restaurant!" Chen Xiang came to the bottom of a ten story high tower. After seeing the signboard, he walked in.

He didn't see anyone testing the pills in here. When he was in the area outside, there were many people testing pills in the pill shops.

"Big shops are just different!" The moment Chen Xiang entered the hall, he felt that it was extremely grand and spacious, giving off a very comfortable feeling.

Alchemist was not rare in the Big Chaotic Times, but haode Alchemist s were very rare, so excellent Alchemist s were respected here.

"Younger Brother Shen!"

Chen Xiang was at a counter looking at the pills on the counter, when he suddenly heard someone calling for him.

This man was obviously Yu Yan, and only Yu Yan knew him here.

"Big Brother Yu, you're here too, what a coincidence!" Chen Xiang laughed bitterly: "I'm finished!"

This was because Chen Xiang had promised to treat Yu Yan to drink all the good wine here when he meets her again. It was only a few days ago, but Chen Xiang had yet to finish researching all the ingredients here.

### [Chapter 2372](#)

Yu Yan laughed, walked over, and patted Chen Xiang's shoulders: "Don't worry, I won't drag you out to drink, I have something important to do right now."

Although Yu Yan said this, Chen Xiang felt very embarrassed. Although he would lie a lot, but it was only to his enemies or people he was unfamiliar with. Towards a friend like Yu Yan, he would usually not break his promise.

Right now, Yu Yan has also changed into very decent clothes, it's a set of armor, looking very majestic, as if he's about to fight. "The Fiction: The Fastest New Sections of the Fiction

"Big Brother Yu, are you going to fight?" Chen Xiang tapped on the red and shiny scales on Yu Yan's shoulder. It looked like it belonged to a strong beast, which was extremely sturdy.

"Yes!" If you were a little stronger, I would have brought you there, and we could even earn a bit of Jade money. " Yu Yan laughed.

"Take me with you. I'm not as weak as you think." Chen Xiang felt that if he were to fight it out, he would be pretty strong.

"This... I have to ask my boss. " Yu Yan said: "What I did was to go with her to a different place to kill a savage beast."

"There's a savage beast here?" Chen Xiang had also run in the wilderness for more than half a year, but he had not seen any beast hair at all.

"Of course I do. If you didn't run into me back then, you would have definitely run into the danger zone." Yu Yan said: "To me ... In fact, to the experts here, the savage beast inside is extremely powerful. "

"Savage beasts are indeed useful! This tower is built on the support of savage beasts. You can make a fortune by forging pills, forging equipment, and selling the meat to the tavern." Yu Yan said.

Chen Xiang had long liked to use the things on the bodies of many Alchemists to refine pills, he had not really tested them either.

"My boss is here!" Yu Yan suddenly said softly.

"Yu Yan, because we have some matters to attend to, we have to delay our departure." An old man dressed in luxurious golden robes walked over, behind him were a few big men like Yu Yan, covered in armor.

"Old Lu, what is so important?" You never change your itinerary! " Yu Yan asked.

"If it was anything else, I would have let it be, but this time someone came to cause trouble." Elder Lu said, his expression turning serious, "This bunch of fellows, they don't like our good business and actually want to ruin it!"

Yu Yan laughed: "That's good too, before we go hunting for savage beasts, we can warm up as well!"

Elder Lu looked at Chen Xiang. Just now, he had seen Yu Yan talking to Chen Xiang, but discovered that Chen Xiang was not very strong, he was relatively strong, and it was rare to see someone with such weak strength.

"Let's take a look first. I'll let you guys take action when I need them!" Elder Lu looked at Chen Xiang and asked: "Is this little brother your friend? "He looks very familiar!"

He could tell that Yu Yan and Elder Lu's relationship was very good, so he must know all of Yu Yan's friends, which was why he said that.

"I just met a little brother who just ran out from the mountains. Don't look at him like that, he actually secretly followed me for an entire night. He can catch up to me even if he, Sudu." Yu Yan laughed, and patted Chen Xiang's shoulders: "Elder Lu, can you bring him along to follow us?"

"Forget it. You should know better than me how powerful those savage beasts are." Old Lu shook his head.

Chen Xiang was secretly disappointed, just as he was about to say something, he suddenly saw a group of people walking in.

"Old donkey, ha-ha..... Let me do it! You don't have to wait for me so early! " A short skinny old man laughed: "It's really rare to see you, Lv Ying, being so generous."

"Old Ox, you bastard. I've never offended you. Are you here to challenge me today to ruin my reputation?" Lv Ying didn't even give the other party a good look.

The one who came to cause trouble was called Niu Hao, and he also had a big store, it was not far from here, it seemed that his business had been robbed, so he came to look for trouble.

"How are we smashing your signboard? Your business is so good, it must be because your Alchemist is so skilled, so we came up to challenge you, so we brought our signboard up to show you guys. If you guys are truly capable, then defeat us. " Niu Hao laughed.

Chen Xiang was immediately overjoyed, to be able to witness the pinnacle of Alchemist fighting was a great thing for him. Of course, he did not dare show it or else he would be hated by Lv Ying.

"Yo!" Isn't this Yu Yan from the Fire Cloud Tribe? The dignified son of the tribe's leader actually came here to be a helper. " Niu Hao laughed.

"Who am I supposed to be a thug for, it's none of your business!" Yu Yan shouted.

"He really has a fiery temper. No wonder he was chased out by the Fire Reverent School." Niu Hao continued to laugh.

Yu Yan was furious, but just as he was about to curse, he heard a light female voice coming from outside the door.

"The reason why Yu Yan was chased out of Fire Reverent School was not because he has a fiery temper, but because he broke the sect rules. Even though he is the son of the tribe leader, the sect rules of our Fire Reverent School treat him equally and fairly."

Chen Xiang heard the beautiful voice, and looked towards the door, only to see a beautiful lady dressed in a red dress slowly walking in. She looked noble, but had a gentle smile on her face, her body releasing a faint fragrance, accompanied with a scorching Qi.

"What a terrifying woman!" Chen Xiang thought.

"Damned woman!" Yu Yan snorted: "Bro, don't look at her, this woman is very petty, if you look at her a few more times, maybe she will blind you! You just came out from the mountains and I, your brother, will tell you this. Coming to this Fire Tao Divine Place, you must remember that it is against fire and against women who steal from it.

"Who is she?" At this time, Chen Xiang was still staring at the red dressed woman without blinking. After all, this was a very beautiful woman, and this woman even revealed an extremely beautiful smile to him.

"Her name is Chu Hongqing, her name should be hoping for her love to become red with passion, but this woman was born with the karmic luck, so she has been single for many years." Yu Yan said.

At this moment, Chen Xiang could feel Yu Yan's deep hatred towards this Chu Hongqing, if not he would not have allowed such a great old master as Yu Yan, to talk for so long while about a woman.

Chu Hongqing scoffed, "Yu Yan, I never thought that you would also learn the tricks of us women. You would not even blush when you speak ill of others behind everyone's back."

Yu Yan shouted, "Bullshit, I never speak ill of others behind their backs.

Chen Xiang couldn't help but laugh. This Yu Yan was really like that ...

"Fire Reverent School is the supreme existence of the Fire Tao Divine Place. As the goddess of the Fire Reverent School, you shouldn't be coming here together with Niu Hao to ruin my reputation, right?" Lv Ying said as he looked at Chu Hongqing.

Chen Xiang was just a newbie, this Chu Hongqing was not simple, he actually had such a high position in the Fire Reverent School, and now he was staring at Chu Hongqing's beautiful face.

### [Chapter 2373](#)

When Chu Hongqing saw how bold Chen Xiang was looking at her, she did not feel disgusted either. Furthermore, she would smile faintly at him from time to time.

"I just heard that the two of you were going to have a competition or something today. Leader asked me to come and have a look, so that the two of you wouldn't fight until your heads bled. I am a weak girl, and I hate it when people beat me to death. " Chu Hongqing smiled sweetly, and then glanced at Chen Xiang.

Yu Yan immediately turned his head away. He believed that this young lad, Chen Xiang, would definitely be bewitched by Chu Hongqing to the point of turning his divine soul upside down. The Fiction: The Fastest New Sections of the Fiction

"Bullshit, you're also a weak girl?" snorted. Seems like he had suffered under Chu Hongqing's hand before.

Chen Xiang finally shifted his gaze away and no longer looked at Chu Hongqing. He had been tormented by Yu Yan to the point that his eyeballs had almost been ripped out.

"Lv Ying, is this little brother one of yours? Even though he has not cultivated his Dao Body, I can feel that he has a fire talent within him. " Chu Hongqing ignored Yu Yan and asked.

"He ..." Just as Lv Ying was about to answer, Yu Yan quickly said: "Of course he is. He's in this shop and he's still my brother.

"I just think that he has a great future in Fire Reverent School." Chu Hongqing laughed.

"Hmph, you've told so many people, and they all died! It is not because of you, we tribe members are fine, other people's conditions to enter the Fire Reverent School are so harsh, they are simply courting death!" Yu Yan said.

"Little brother, you might as well consider it!" Lv Ying and Niu Hao, the two esteemed elder came from our Fire Reverent School, so their ability to refine pills was also learnt inside the Fire Reverent School. " Chu Hongqing continued to speak. She had indeed noticed that Chen Xiang had the fire of a buu, which was considered bumpy for someone with Chen Xiang's strength.

Lv Ying said, "Enough of your rubbish, Old Cow, how are you going to compete today? Hurry, we have urgent matters to attend to! "

Niu Hao pushed out a young man and said: "My disciple doesn't like the Alchemist in your shop, so I want to compete with you in refining pills! You won't refuse, right? "Even if you refuse, it doesn't matter. I promise I won't laugh at you, and I won't spread the word that you rejected me because you were afraid."

"Since you've already said so, how could I not refuse?" Lv Ying snorted, then took out a piece of Communication jade Symbol paper, which should be sending a message to a Alchemist.

Chen Xiang carefully inspected the disciple that Niu Hao pushed out. On the surface, he looked like an honest man, but he could feel that the fire Qi that he was emitting was really strong.

Not long after, a tall and skinny man walked down from the stairs. When he saw Niu Hao and his disciples, he frowned.

"Third Bro, can you beat this guy?" Lv Ying asked.

"Yes!" That third brother nodded. He seemed to be full of energy.

"Good, then you can begin now. Since we are the challengers, then the rules will be decided by us. Refining the Yaoge Dan out in two hours." Niu Hao said: "Bring in the ingredients."

"The outcome will be decided by the quantity and quality of the pill."

Chen Xiang secretly nodded his head, this was a very common rule for decisive battles, which was reasonable. What surprised him was that they would actually compete and refine Yaoge Dan! This kind of pill should be more basic. As long as it was a Alchemist, they would all know how to refine it, otherwise they wouldn't sell it so cheaply.

"No wendi, let's start now. I'm in a hurry!" Lv Ying said: "After this challenge, you are not allowed to come again within a year!"

"Alright!" Niu Hao nodded and smiled.

It could be seen that Niu Hao had a lot of confidence, otherwise, he wouldn't have made such a big ruckus here. At this time, many people walked in to watch the show, and these people were all famous nobles.

At this time, Chen Xiang was really looking forward to see how the Big Chaotic Times s concoct pills.

Both sides took out the herbs and pill furnaces. After checking each other out, there was no wendi and they began to refine.

Just now, Chen Xiang had seen the other party's medicinal ingredients. Just as he had expected, there were indeed a few ingredients to refine Bone level Dan, in addition to the white and black fruits, he recognized the black fruits, it was the Bone level fruit, only that it had shrunk by a lot.

As for the white one, he didn't care, he suspected that it had a supporting effect, it was troublesome to use Bone level fruit to concoct pills, and Chen Xiang had to use fire and water to cure it.

Both sides were releasing intense flames, but only a little heat was released. They controlled it well.

At this time, Chen Xiang also used the Dao heart Eye to observe the changes inside the two pill furnaces.

When Lv Ying's disciple refined it, he actually crushed the medicinal ingredients inside the pill furnace, and then released the flame to refine it.

Niu Hao's disciple used a wave of energy to wrap around the medicinal ingredients and then combined it with the flames to refine the medicinal ingredients.

This allowed Chen Xiang to understand that in the Big Chaotic Times, there are many different ways to refine pills.

Very quickly, two hours had passed, and before the pill could even appear, Chen Xiang had already seen that Lv Ying's disciple had lost!

Lv Ying's disciple also really wanted this to happen. He was able to refine three Yaoge Dan in one go, and it only took him half an hour.

Niu Hao's disciple, on the other hand, was able to refine four Yaoge Dan, and the time it took was also only slightly slower than the time it took to compare.

"The quality is all very good. It seems that all the Alchemist in this era are very outstanding. They produce many pills, are able to condense pills quickly, and are of high quality!" Chen Xiang had a basic understanding of the Alchemist here.

Before the hour was up, the match had already ended!

"Haha ..." Old donkey, you've lost! " Lv Ying laughed proudly.

"Bastard, you actually managed to condense four pills!?" Didn't he only have two pills previously? " Lv Ying's disciple could not help but scold in a low voice.

"Hehe, don't look down on me. To be able to become my disciple, you definitely aren't that bad! Although you lost, but don't take it to heart. It's not that you are too weak, but my disciple is too strong, so you don't have to blame yourself. " Niu Hao laughed out loud, extremely pleased with himself.

Lv Ying's face darkened, losing the competition was extremely serious for them, the matter today would definitely spread, affecting their business! And if Niu Hao won the competition, he would snatch away a lot of business.

Chu Hongqing laughed: Boss Lu, you've lost! According to the rules here, you will have to close for half a year! "

"I don't need you to remind me." Lv Ying snorted angrily.

Chen Xiang never thought that the consequences of losing would be so serious. A thriving business, losing a competition and closing the door for half a year, this would be a huge loss.

"A single match is enough for such an important duel? "I think we should have a few more matches. This way, we can show the quality of a shop as a whole, suddenly raising our own level, and then challenge the other party. I feel that even if we win, I don't think that it's that great." Chen Xiang suddenly said, he truly wanted to watch a few more matches.

#### [Chapter 2374](#)

Hearing Chen Xiang's words, everyone felt that it made sense and secretly nodded.

Chen Xiang then said, "Ox Boss, has your disciple been studying to refine Yaoge Dan? Maybe he is stronger than Boss Lu's disciple but weaker in other aspects, so he only competed in refining this kind of pill. I don't think it's worth it."

Yu Yan patted Chen Xiang's shoulder, and laughed: "Well said, Old Cow, your disciple is specialized in fighting with his feet, while we use our fists on our side.

Lv Ying also nodded, "That's right."

They had lost, so they needed to regain some face. Although everyone believed that they were looking for a reason, they also felt that it was reasonable. That battle just now, could not manifest the true strength of an Alchemist.

Chu Hongqing chuckled: "Little brother, don't you know, that many Alchemists can only refine two of these Yaoge Dan pills? The reason Boss Lu's disciple was able to refine three of these Yaoge Dan pills was because he had been researching these pills for many years, and Owner Niu's disciple was also an expert at refining Yaoge Dan. Thus, this competition can only show their true strength."

No matter how you looked at it, you could tell that this woman was speaking up for Niu Hao. Chen Xiang himself didn't know if it was because Chu Hongqing was trying to provoke Lv Ying or because he had a good relationship with her.

"Then if I can refine five or six pills, won't he lose even more miserably?" Chen Xiang replied, he felt that refining a Yaoge Dan would not be a problem, even though he had never refined one before.

"Haha ..." Niu Hao immediately laughed out loud: "You boast too shamelessly, everyone needs to understand him, don't laugh at me."

Chu Hongqing chuckled: "Even the Boss Lu beside you can't guarantee that he can refine five or six pills, not to mention them, even our Fire Reverent School's Fire Sovereign Leaders don't have such standards. Little fellow, you have just come out of the mountains, how much wisdom do you have in the future?"

Yu Yan immediately snorted, this was what Chu Hongqing was saying.

"What if I can refine it?" Chen Xiang was very confident in himself. Refining the Bone level Dan and the Nine Bone Divine Pill was very easy for him, if he combined the two, it wouldn't be difficult.

Niu Hao laughed: "What Goddess Fire says is right, she is also a Alchemist, and her strength is not below mine. In terms of seniority, we all have to call her Master Ancestor."

Chen Xiang never thought that this Goddess Huo Zun would have such a high status.

"Boss Ox, please don't call me an old woman." Chu Hongqing laughed tenderly: "That's all for today, I hope Boss Lu will follow the rules."

Chen Xiang curled his lips: "You all still haven't answered my question. I just asked you all, if I could refine five or six Yaoge Dan, what would happen to you all?"

Yu Yan did not know if it was because Chen Xiang had drank too much previously, but he still insisted on drinking. He did not say anything, he only patted Chen Xiang's shoulder.

"If you can actually refine it, then it means that you are even stronger than our Fire Reverent School's Supreme Flame. If you can really refine it, then I will be your servant and serve you by your side." Chu Hongqing chuckled.

"Haha ..." Niu Hao laughed out loud, "If you succeed, I will take you as my master. But if you can't, come to my shop and work there for ten thousand years."

Without saying anything, Chen Xiang took out a portion of Bone level Dan s' medicinal ingredients. According to his previous generation, this could already be considered as a King grade's medicine, because during the competition just now, he had also used the King grade's medicinal ingredients to refine the pill.

In this era, they were merely the ingredients for a Heavenly Pill.

"You're serious." Chu Hongqing stopped smiling.

"Goddess Fire, don't go back on your words." After Chen Xiang finished speaking, he said to Lv Ying: "Boss Lu, lend me these two fruits, I only lack those two fruits."

Lv Ying was also startled, but he still took out two fruits. He also wanted to see if Chen Xiang truly knew how to refine pills.

"Bro, you really know how to refine pills. Did you get all these herbs from the thousand Jade money I gave you before?" asked him many questions about refining pills previously, but no matter how you looked at it, it seemed like Chen Xiang did not know anything about it. It had only been a few days, and now he already knew how to refine pills.

"Big brother Yu, just watch." Chen Xiang received the medicinal ingredients handed over by Lv Ying, and then, he said to Chu Hongqing and Niu Hao: "Seniors, I am issuing a challenge to you now, and you guys shouldn't be refusing it, right? Just now, you guys have already made a bet with me, if you don't agree to compete with me, wouldn't you be lying?"

Chu Hongqing walked to Chen Xiang's side and circled around him. Her cute nose twitched, and said: "You don't smell like alcohol, you probably don't drink, but you don't seem to be sober at all."

"Why are you guys so long-winded? Why don't you guys compare me? Whether I'm awake or not, and whether I'm crazy or not, we'll know very soon." Chen Xiang smiled faintly.

The spectators had always been shocked by Chen Xiang's words. They really wanted to see Chen Xiang lose, there were times when he was young and arrogant.

"Let's compete then. It's worth it to get a free service for ten thousand years just for a single batch of pills." Niu Hao rolled up his sleeves and took out the pill furnace and the ingredients.

"If you lose, I just want you to run around the outer court naked." Chu Hongqing mischievously smiled and took out a small green jade pill furnace.

"Where's your pill furnace?" Chu Hongqing laughed, "Don't tell me you don't have a pill furnace?"

"I don't need a pill furnace to concoct this kind of broken pill." Chen Xiang said very arrogantly. He looked like he deserved a beating, but others only thought that he was sick.

Chen Xiang could not use Chuangshi god furnace. Although there was a Heavenly furnace, he felt that it was related to this era, so he did not plan to use it.

But to use other inferior pill furnaces, he felt that it would be better not to use them, it would be more stable to use Magic method furnace instead.

"How should I refine without using a pill furnace?" Lv Ying's disciple frowned and asked.

"I don't need a pill furnace to refine it, but it requires a very high level of skill." Lv Ying said. He didn't know why, but he didn't feel like Chen Xiang was crazy.

"Boss Ox, let's train him. Don't worry about him for now." Chu Hongqing said, and then became serious.

"Begin." Lv Ying shouted.

Once he shouted "begin", Niu Hao and Chu Hongqing immediately went ahead, while Chen Xiang immediately used the Dao heart Eye to observe the insides of their pill furnaces.

"It's another different method of refinement. After Chu Hongqing put the medicinal ingredients into the pill furnace, he actually used ice to seal them all, and then broke them into pieces ... Her ice is also quite special. After breaking it and melting it with flames, the frozen medicinal ingredients actually remain unharmed. "

"Niu Hao's refining methods are the same as his disciple's, they are all wrapped with a special force, then started to refine the medicinal ingredients."

Chen Xiang carefully observed them for a moment, then released his Magic method furnace and threw all the medicinal ingredients in, using his own method to refine the Yaoge Dan.

### [Chapter 2375](#)

Other than Chen Xiang being unfamiliar with those small white fruits, he was extremely familiar with the other medicinal ingredients.

"This little fruit is also very afraid of fire, looks like it's the same as the Bone level fruit, it needs to be refined with water and fire." Chen Xiang used a very weak flame to test it out, and then hurriedly put it away, if not the white fruit would be exterminated.

After knowing the characteristics of the small white fruit, Chen Xiang released another Magic method furnace which was specially used to refine the Bone level fruit and the small white fruit.

Everyone was secretly surprised, because Chen Xiang was trying to refine the pill just now. He looked a little inexperienced, but now he was splitting it into two pill furnaces to refine.

Although Chen Xiang's Magic method furnace was transparent, the people here were all strong and could sense the power of the Magic method furnace, so the outline of two pill furnaces would also appear in their minds.

The two Magic method furnaces that Chen Xiang had released gave a very deep impression. Because they were very stable, they floated in the air, not moving at all, even though there were a few waves of energy that could sense them, they were not affected by it at all. This was not a technique that could be cultivated in a short period of time.

Chu Hongqing and Niu Hao could obviously tell that they were indifferent in the beginning, but slowly, they also realized that Chen Xiang's two Magic method furnaces were extremely powerful, with many of their pill furnaces being superior as well.

This meant that Chen Xiang had some methods up his sleeves.

Amongst the two Magic method furnaces, half a pot of clear water gradually appeared, soaking the Bone level fruit and the small white fruit.

The clear water was floating. Inside, there were two small fruits, one black and one white, that looked like fish swimming in water. They were running around happily.

The water was condensed out by Chen Xiang using his God Power. At this moment, he released his flames and permeated into the water.

Everyone saw a red flame appear in the clear water and immediately cried out in alarm. The fire in the water looked very beautiful, especially when it was burning. It danced non-stop and emitted a bewitching red light.

The flames that seeped into the water were currently like a claw that wrapped around the two little fruits in the water and then began to burn them.

"The Bones Black Fruit and the Bones White Fruit are most afraid of flames. He had tried it just now and almost burnt the Bones White Fruit. It looks like this is his first time refining a Yaoge Dan, but it seems like he has a lot of experience in refining pills. Lv Ying frowned: "Could he have laid a solid foundation deep in the mountains?"

Chu Hongqing and Niu Hao initially did not put Chen Xiang in their eyes, but now that they saw Chen Xiang becoming more and more bizarre, they started to feel apprehensive in their hearts, even though they looked extremely calm and collected.

Chen Xiang's other Magic method furnace had also been set ablaze.

"Directly burn it." Lv Ying said: "Even though this method is simple and crude, without a rich experience and solid foundation, it is impossible to refine medicinal liquid. If it was a stronger Alchemist, they would normally like to use this method, it's fast and simple."

Chen Xiang's flames looked extremely terrifying. Even though they did not emit any heat wave, the transparent Magic method furnace could still feel that kind of faint threatening aura.

After burning for a moment, the medicinal plant within suddenly cracked open. Immediately, rays of light burst out, flashing out with multicolored light and stinging everyone's eyes.

Boom.

Those medicinal herbs instantly exploded, turning into liquid medicine and a ball of air. The light became even more intense.

"What terrifying control. He didn't explode the furnace in that explosion just now." Lv Ying exclaimed: "Just how did he refine it? It should have been refined bit by bit, so why did it suddenly burst into liquid medicine?"

Chen Xiang used the Mystic Fire Refinement skill, using fire on both the inside and outside, which could increase his speed. His current progress was much faster than Chu Hongqing's and Niu Hao's.

"This brat ..." "It's actually that powerful." Chu Hongqing scolded in her heart. She truly did not expect that Chen Xiang, who had not even arrived at the Dao Ti realm Realm, would already have such great ability.

Amongst the Magic method furnace s refined by fire and water, the black and white fruits had already melted in the water, and the water had turned black, just like thick black sesame paste.

At this moment, Chen Xiang had fused two Magic method furnace together. Originally, they were emitting intense multicolored light, but after merging, they were enveloped in darkness and the entire hall had been restored to its previous state. However, the beautiful and shocking scene was still constantly replaying in everyone's mind.

Chen Xiang had already fused all of the medicinal liquid together, turning it into a large ball of medicinal liquid.

"I really didn't expect it to be this big." As Chen Xiang looked at the large mass of medicinal liquid, he secretly rejoiced in his heart. This signified that the number of medicinal pills condensed was much more than he had expected.

"Eight, nine, ten." With a thought from Chen Xiang, the black medicinal liquid was divided into ten uniform clusters.

Looking at those ten small black balls, Chu Hongqing and Niu Hao's bodies trembled. They were extremely shocked and understood what this meant.

This meant that Chen Xiang would condense ten Yaoge Dan.

Chu Hongqing secretly clenched his teeth, his heart hoping for Chen Xiang to not succeed, otherwise she would become his servant.

The two of them had never thought that Chen Xiang would be so heaven defying in refining pills, it had already far surpassed their expectations. In their eyes, condensing five Yaoge Dan s was already the best possible level for them, but Chen Xiang had actually made ten, if they hadn't seen it with their own eyes, they wouldn't have believed it at all.

Looking at the ten balls of black liquid inside Chen Xiang's furnace slowly turning into smooth and sleek black pellets, Chu Hongqing and Niu Hao even had thoughts of dying. They even suspected that they were having a nightmare, and their emotions were extremely complicated.

"Alright." Chen Xiang took a deep breath, the ten Yaoge Dan had already stabilized.

"I'm done." Chen Xiang chuckled, took out a jade box and kept the Yaoge Dan.

But Chu Hongqing and Niu Hao were still not done well. Of course, this was not because they were too slow, but rather, it was because Chen Xiang was too fast.

Lv Ying was completely dumbstruck. Just one set of medicinal ingredients was enough to refine ten Yaoge Dan. Three to four times more than others, this was truly heaven-defying.

Following that, Chu Hongqing and Niu Hao were also done concocting. They could all concoct four pills, but their total number was not as many as Chen Xiang.

"You've lost." Chen Xiang smiled faintly: "Although you guys boasted previously that you guys want to acknowledge me as your master as your servant, but you don't have to worry, I will just treat it as a joke and will let you off."

Niu Hao didn't know what to say, and at this moment, Chu Hongqing didn't know what to say either. In comparison, none of them had recovered from their shock yet, but they were all shocked by Chen Xiang's ten Yaoge Dan s.

"I've lost. My shop has been closed for ten years." After Niu Hao finished speaking, he brought along his own people and left in a dejected manner. He was worried that he would not be able to resist defeating Chen Xiang as his master, and he also wanted to learn Chen Xiang's method of refining pills.

Although Chen Xiang used the transparent pill furnace to concoct pills, none of them could see anything. Only Chen Xiang knew the secret behind it.

"Are you still not leaving?" Yu Yan laughed and said to Chu Hongqing. At the same time, he patted Chen Xiang's shoulder.

"I... I never break my promise, I am his servant girl now, why should I leave? " Chu Hongqing's words were shocking, causing everyone to be shocked. The high and mighty Goddess Huo Zun wanted to be someone else's servant.

## [Chapter 2376](#)

Chen Xiang felt that it was nothing strange that she was so willing to be a servant. She was a smart girl, but now that Chen Xiang had mastered such a profound alchemy, if she could learn it, it would make her stronger.

To Chu Hongqing, she felt that it would be easy for a beautiful woman like her to deal with Chen Xiang. Furthermore, Chen Xiang was not that annoying.

"Witch, what you said was the truth. You couldn't be plotting something else, could you? Don't harm Younger Brother Shen." Yu Yan shouted: "If you want to be his servant, that's fine, but make a Master-servant Contract."

That was why Chu Hongqing could leave. Now that she wanted to be Chen Xiang's maid, as long as she had the brains, she would know that she had a goal.

Chen Xiang was not strong, but he seemed to have mastered some kind of mysterious pill refining technique. To the Alchemist, he was a treasure, as long as they could learn his brilliant pill refining techniques, it was fine to stay by his side.

If Chen Xiang accepted a disciple on the spot, there would definitely be many people who would be willing to take him as their master. Not to mention refining ten of them in one furnace, they would be very satisfied with just five of the Yaoge Dan.

The formation of a Master-servant Contract was very serious, at that time, only the master would be able to remove it, and if the master died, the servant girl would also die.

That was why Chu Hongqing hesitated, she was considering whether it was worth it, she did not seem to care about her status as the Fire Nation's Goddess at the moment, if not she would not willingly become someone's servant, this would be a disgrace to Fire Reverent School.

"Fine, let it be. I've said it before, I never break my promise." Chu Hongqing hesitated and said.

Everyone was shocked, this Chu Hongqing actually wanted to do this.

"Come." Chu Hongqing shouted.

"Wait." Chen Xiang laughed: "I do not need a servant now, so I plan to sell you. The matter of a servant should be more common, if any of you are interested, I will auction her off here."

Chu Hongqing was startled, she immediately went over to Chen Xiang's side and pinched Chen Xiang's ears, then scolded: "You damned brat, don't take things too far, you should be a bit more straightforward."

The crowd also scolded Chen Xiang. Chu Hongqing had already done this, but he did not plan to take it. He even auctioned it off in public.

"Younger Brother Shen, this woman is not worth much, I can guarantee that you won't even take her when you open the ten Jade money s." Yu Yan laughed.

"Hmph, that's because they don't dare to take it." Chu Hongqing said as a drop of blood congealed between his brows. This was the master and servant blood contract.

Seeing that, Chen Xiang wanted to struggle free, but the drop of blood had already pierced the center of his brows, and just like that, Chu Hongqing became her servant.

"Done." Chu Hongqing chuckled: "My young noble, I will serve you well in the future."

Since things had come to this, Chen Xiang could only accept it. Furthermore, this Chu Hongqing's conditions were not bad, whether it was an Alchemist or some other goddess of a Fire Reverent School, they would definitely understand this place very well.

Currently, Chu Hongqing had already formed a master and servant blood contract with him, and he would not sell him out, so it was very trustworthy.

Seeing how amazing Chen Xiang was, Lv Ying was secretly happy, and at the same time, blamed himself for underestimating Chen Xiang.

"Yu Yan, let's go. If we're a little slower, that beast will leave. Little brother, wait here for us to return." Lv Ying said.

"I want to go with you." Chen Xiang said.

"This... I'm afraid that there will be some dangers. Although you have an incredible talent in alchemy, you haven't even managed to cultivate your Dao Body." Lv Ying said.

"Don't be afraid, my maidservants will protect me." Chen Xiang suddenly pinched Chu Hongqing's beautiful face, on the smooth flesh of her face, and pulled her forward.

"Hmph." Chu Hongqing scoffed and patted Chen Xiang's shoulder.

"Is my servant girl strong enough?" Chen Xiang laughed.

"Enough." Yu Yan laughed: "Witch, I never expected you to be my brother's servant, in the future you must be more polite to me."

Chu Hongqing glared at Yu Yan, and then ran behind Chen Xiang. She could only accept it now, because she didn't know if following Chen Xiang was right or wrong, and only wanted to give it a try to see if Chen Xiang could help her change her fate.

"Alright, let's go." Lv Ying laughed, there was no need to doubt Chu Hongqing's strength, as the goddess of the Fire Reverent School, she would definitely not be weak.

Just like this, Chen Xiang followed Lv Ying and the others out of the Fire Tao Divine Place. The crowd looked at Chen Xiang making a move on Chu Hongqing and cursed him in their hearts, but they also felt that it was a pity that such a good woman was taken away by a little kid who didn't even have a Dao Ti realm.

Walking out of the Fire Tao Divine Place, they arrived at a large mountain range. It was already dark by the time they arrived, everyone was resting at the foot of the mountain.

Chen Xiang took out the ten Yaoge Dan s he had refined and said: "How many Jade money can this Yaoge Dan sell for a single pill?"

Chu Hongqing sat beside Chen Xiang: "Your quality is good, a hundred pills is not a problem."

"It's really not worth much." Chen Xiang curled his lips. In the past, when he was refining Bone level Dan, it was always very valuable, which was why he felt such a sense of disparity.

"It's not worth much, you can turn two hundred Jade money's worth of medicinal ingredients into a thousand Jade money's worth of value in just an hour. Think about it, if you refine ten batches, that would be ten thousand Jade money, this is a lot." Chu Hongqing said snappily.

"The spirit demon woman is right, you only have one hundred thousand Jade money in ten days, and three hundred thousand in a month. I fight and kill all day long, but only a little is left." Yu Yan laughed: "Younger Brother Shen, you once said that you would treat me to all the good wine in Fire Tao Divine Place, don't forget."

"Of course I won't forget, but then again, are three hundred thousand Jade money a lot?" Chen Xiang still had no idea.

"Of course it's much, I refine pills in the Fire Reverent School, and I can only earn over a hundred thousand Jade money a year. I have to spend a lot of money myself, I also need to buy medicinal ingredients to refine pills myself, and I can only save forty to fifty thousand Jade money a year." Chu Hongqing said, then looked at Lv Ying: "Ask Boss Lu, how much can he earn in a month with such a large store."

"My shop only sells for 100,000 a year. If the business is bad, we might even lose money. If you buy your own medicine and concoct pills, 300,000 a month will be a terrifying amount." Lv Ying nodded.

Yu Yan said: "Younger Brother Shen, when the time comes, you have to take care of your own Jade money, don't be tricked away by this demoness. This demoness should be determined to be your servant, and is only interested in this little bit of you, this way she will be able to enjoy the glory and wealth."

Chu Hongqing rolled her eyes at Yu Yan, and said in a tender voice: "That's right, that's what I was thinking. Then, she hugged Chen Xiang's arm, leaned her head on Chen Xiang's shoulder, and acted very intimately with him.

"Young master, aside from refining Yaoge Dan, you can also refine other pills. Your foundation is very solid, you must have refined many pills, otherwise you wouldn't have accumulated so much experience." Chu Hongqing asked. Not only her, Lv Ying was also very curious.

### [Chapter 2377](#)

Chen Xiang did not know what to say, he truly knew how to refine many pills, and in his generation they were called divine pills, but now in Big Chaotic Times, the precious pills he concocted were nothing in this world.

Firstly, the people here were all strong, and secondly, the pills here were thriving. For example, the Yaoge Dan s were much better.

When they were in the Star Law Divine Realm, the Bone level Dan could be sold at a sky-high price, but no one would want it here.

I know how to refine a lot of pills, but you all do not know about these pills, and do not look down on them. In my place, these pills are considered very precious, but the Alchemist here are all very outstanding, and they are all very powerful. Chen Xiang sighed.

This was also the huge difference in age. Chen Xiang also felt that it was strange that the civilization of pills would decline so much in the later stages of life.

"Those pills are rather difficult, but they have no use. I spent my time researching how to refine them, and as time went by, I accumulated a lot of experience." Chen Xiang laughed bitterly. "I left my hometown to come here, and seeing the pills here, has completely overturned my common sense."

"Your alchemy skills have even overturned my common sense." Chu Hongqing laughed.

"This means that little brother, you have a solid foundation, it is very easy to refine the pills here, your flame is also very strong, it is not affected by your lack of Dao Body, which means, although your cultivation is not high, your pill refining level is higher than other Alchemist's." Lv Ying nodded his head. He wanted to pull Chen Xiang into his shop, but he felt that it was not possible. After all, Chu Hongqing was by Chen Xiang's side.

Although she was now Chen Xiang's servant, if she treated Chen Xiang well, when he grew up, she would be the one to endless wealth.

"Young master, I will teach you how to refine our pills in the future." Chu Hongqing said.

"Witch, you can just be my brother's servant like this. Will it be hard to explain to Fire Reverent School?" Yu Yan asked.

"What's there to be afraid of? I can leave Fire Reverent School at any time. Aren't you guys the same?" Chu Hongqing laughed, "Fire Reverent School is always relatively free, I have never been restricted by your rules."

After that, Chen Xiang chatted with them for a while and fell asleep while hugging Chu Hongqing's soft and fragrant body. Chu Hongqing did not sleep, and it was the same for Yu Yan and Lv Ying.

They were currently in the wilderness, and powerful savage beasts could appear at any moment. They had to be on alert at all times.

When dawn arrived, Chen Xiang yawned, looking full of spirit.

"Let's continue moving forward. That savage beast isn't far from here." Lv Ying said.

"Boss Lu, is that savage beast very precious?" Chen Xiang asked.

"Of course it's precious. Boss Lu, if he were to kill this savage beast, as long as he showed his worth, he would be able to earn quite a lot of Jade money." Chu Hongqing said, she was extremely familiar with these things.

Chen Xiang came this time only to broaden his knowledge, to see what a savage beast looked like.

In the afternoon, Chen Xiang and the others came to a canyon.

Lv Ying's expression suddenly became serious, "Not good, this seems to be the den of a beast."

Chu Hongqing's beautiful face suddenly paled. "You still came to the Beast Lair to die?"

"Let's go." Just as Lv Ying finished speaking, many black figures suddenly appeared from the front and back. Upon closer inspection, it was a gigantic barbaric beast.

"This... It's the Dragon and Eagle. " The savage beasts that Chen Xiang saw were actually numerous huge dragons, it was just that all of them had huge wings.

These Dragon Eagles were very cunning, they had actually come without any sound, even Lv Ying and the others had not noticed them before.

"Young Master, stay close to me." Chu Hongqing had to protect Chen Xiang at this moment. If he died, she and Chen Xiang, who had a blood bond as master and servant, would die as well.

Chen Xiang nodded his head. These dragon eagles were very powerful, there were more than twenty of them flying in the sky, with their huge wings and bodies covering the sky, making the ground very dark.

Roar!

A Dragon Eagle roared out, spitting out a bolt of lightning, striking towards Chu Hongqing at an extremely fast speed, causing Chu Hongqing to not even have the time to dodge.

Seeing that she was so slow, Chen Xiang immediately grabbed her and teleported away, avoiding that terrifying lightning bolt.

Boom.

The lightning struck the ground and shattered it, causing a burst of gravel to fly into the air.

"Your reaction is too slow." Chen Xiang said: "No, let's quickly run. These guys are too scary."

Chen Xiang never thought that these beasts would actually be so strong. They were far more powerful than warriors like Lv Ying and Yu Yan, and there were still more than twenty of them. They were simply not his match.

"This won't do. Their escape routes have already been sealed off..." Just as Yu Yan finished speaking, Chu Hongqing shouted in shock, "They are going to attack at the same time."

"They are all Lightning dragon eagle, they are fast, and their mouths can shoot out terrifying lightning. If they get hit, they will most likely die." Lv Ying's face changed, and everyone started to run away.

"Come to me." Chen Xiang anxiously shouted. Then, he took out the Six Realms mirrors, causing it to become extremely huge, like a giant ray of light floating in the sky.

"Young Master... Are you a Heavenly artifact? " Seeing the Spirit grain on Chen Xiang's Six Realms mirrors, Chu Hongqing could not help but ask.

Lv Ying, Yu Yan and the other few big sized men also rushed to Chen Xiang's side and hid under the Six Realms mirrors.

"I don't know." As soon as Chen Xiang finished speaking, rumbling sounds came from above, and the Six Realms mirrors was still trembling.

From all four directions, one could tell that the Lightning dragon eagle in the sky was constantly striking them with lightning.

However, all of this was blocked by Chen Xiang's Six Realms mirrors.

"This must be a Divine Weapon of the Heavenly Dao. Otherwise, it wouldn't be able to withstand so many attacks from Lightning dragon eagle." Lv Ying was shocked: "Little brother, this thing is yours."

"I... "I can pick it up." Chen Xiang said. He had gotten the Six Realms mirrors a long time ago, but he had actually picked it up and not lied.

"Are Heavenly artifact that easy to pick up?" Chu Hongqing curled his lips and said.

Aooo  
ooo...

The Lightning dragon eagle in the sky let out strange cries. It no longer had its previous intimidating aura.

"These guys should be injured as well." Chen Xiang said: "This is a mirror that can reflect attacks. The lightning they use is much easier to radiate."

After he shrunk the Six Realms mirrors to a smaller size, he could see that it was charred black all over, with quite a few huge feathers floating everywhere. These were all injuries caused by their own lightning strikes.

Chen Xiang sent his consciousness into the Six Realms mirrors, and just now, it was struck by countless lightning bolts. The Six Realms mirrors had also absorbed a large amount of lightning energy, so he activated the Six Realms mirrors and struck the lightning energy out, striking one of the Lightning dragon eagle.

Roar ...

The Lightning dragon eagle screamed and fell to the ground, smashing the ground and causing the ground to shake violently.

### [Chapter 2378](#)

"Come in." Chen Xiang turned the mirror towards the falling Lightning dragon eagle and created a strong suction force, bringing it over, at that moment, the group of Lightning dragon eagle in the sky shot out lightning bolts from their mouths, Chen Xiang anxiously used the Six Realms mirrors to block them.

"These guys were quite crafty just now, why are they so stupid now?" Chen Xiang laughed: "Seems like we don't need to do anything to kill this group of people."

Lv Ying and the others didn't know what to say either. They had originally thought that they would return covered in wounds and wounds, but they didn't expect that things would take such a turn.

"You can attack now, these guys are being tortured by their own lightning." Chen Xiang said: "Don't be afraid of them."

Yu Yan was the first to attack. Jumping into the air, he used the gigantic axe in his hands to slash at one of the Lightning dragon eagle.

After the red light from the giant axe shot past, it actually cut off the head of that Lightning dragon eagle.

After that, Lv Ying and the other big sized men all took action, they were extremely excited, since this Lightning dragon eagle was also a powerful barbaric beast, it would be good if they could hunt one, but there were so many of them.

Not long after, ten Lightning dragon eagle fell to the ground, while the rest escaped.

Chu Hongqing also did not make a move, she wanted to protect Chen Xiang, although she knew that Chen Xiang was not simple, she was still worried.

They only wanted three of the ten Lightning dragon eagle and the rest were all given to Chen Xiang. They knew that this was all thanks to Chen Xiang, or else they would not be able to obtain a single one and might even be injured.

Chen Xiang also accepted the corpses of the seven Lightning dragon eagle s, then happily returned with Lv Ying and the others.

"This Lightning dragon eagle can be sold for two hundred thousand, bro, you sent it. After it's sold, you must treat us to a drink." Yu Yan laughed.

"Definitely." Chen Xiang laughed.

"Gongzi, what exactly is your background? I don't believe that you picked up that Heavenly artifact." Chu Hongqing asked curiously.

"That thing is called Heavenly artifact." Chen Xiang asked. Previously, it was called the Six Divine Weapons.

"Yes, it's a divine tool bred by the Heavenly Dao. It's incomparably precious. Legends say that it can sell for tens of billions of Jade money." Chu Hongqing nodded.

"So valuable." Chen Xiang purposely revealed a surprised expression. He would definitely not sell it, he believed that he could earn a lot of Jade money, so he did not need to sell these things.

"Little brother, it's best if you don't use it normally. If people with evil intentions find out, they will definitely snatch it away." Lv Ying warned.

"That's right, especially those Heavenly God Sect disciples. If they knew that the Heavenly artifact is not in their hands, they would definitely think of ways and means to get it." Yu Yan glanced at Chu Hongqing, "This witch is Fire Reverent School, and Fire Reverent School is also a member of the Heavenly God Sect."

"Hmph. Right now, he is my master. Selling him would be seeking death, so what good is that to me?" Chu Hongqing anxiously hugged onto Chen Xiang's arm and snorted.

Chu Hongqing could be considered dead set now. Just now, she and Lv Ying had experienced Chen Xiang's abilities, if not for Chen Xiang, they might have been heavily injured in order to escape.

"I'll be careful." Chen Xiang pinched Chu Hongqing's face, and said: "Let's go back first."

They had only walked for a short period of time when they noticed that there was someone ahead.

"It's them. The Fire Reverent School's Beast Hunting Team is rather famous in the Fire Reverent School." Chu Hongqing frowned: "Why are they here?"

"I bought that savage beast of mine from these fellows, and they nearly caused my death." Lv Ying snorted: "They should be here to see if we're dead or not."

"These bastards, I must wring their heads off and feed it to the dogs." Yu Yan was furious, he raised his axe and was about to go over.

"Big Brother Yu, wait a minute. They look very aggressive. They should be coming for us." Chen Xiang said: "We were all tired just now, we'll just wait and see."

There were only five people who had come, and all of them looked very strong. Just from the vicious aura they emitted, one could tell how strong they were.

"You guys went to kill the Lightning dragon eagle and came back." A man wearing black armor asked as he looked at Chu Hongqing with a cold expression.

"He's back. I'm lucky that he didn't die there." Lv Ying sneered: "Are you planning to collect our corpses?"

The black-armored man ignored Lv Ying and looked at him instead, "Hongqing, you really made a master and servant blood bond with this kid."

"Absolutely, many people saw it then." Chu Hongqing said: "He Sen, just give up."

"You ... Don't you know how I feel about you? Why would you rather be his servant than my woman? " He Sen's face darkened, "In what way am I, He Sen, not worthy of you? I am the eldest son of a Patriarch of the Heavenly Dao Family, how can I not be worthy of this kid?"

"Hmph, do you think I don't know about that stupid thing you said? There were more than ten women in front of you, and they were all killed by you." Chu Hongqing scoffed.

Yu Yan and Lv Ying both felt that something was off.

Sure enough, the gloomy faced He Sen suddenly thrust out his sword, aimed at Chen Xiang's throat, and pierced through his throat.

Everyone was startled, no one expected that He Sen would suddenly attack Chen Xiang.

"Take away my woman, then die, Chu Hongqing, since you do not like me, then go and die as well." He Sen laughed sinisterly.

This He Sen indeed had something wrong with her heart. No wonder even his woman was killed by him, Chen Xiang understood what Chu Hongqing had said just now.

When He Sen saw that Chu Hongqing was fine, he reacted that Chen Xiang was not dead.

Chu Hongqing and Chen Xiang had a master and servant blood contract, and even if the master and servant died, Chu Hongqing was still perfectly fine.

"Young Master... "You ..." Chu Hongqing also felt it was strange. She tugged at Chen Xiang and could feel his warmth.

"My life is so tough." He Sen thrust again, going through Chen Xiang's forehead, when he pulled out the sword, it was bleeding profusely.

"Bastard, you dare to kill my brother? I'll kill you!" Yu Yan was furious, Lv Ying and Chu Hongqing were also furious, and they both attacked.

"You bunch of trash. If you had the ability, you would have stopped me long ago, but you're too weak, you can't keep up with my speed ... Haha, cripple them. " He Sen laughed sinisterly, but immediately felt that something was amiss.

Chu Hongqing did not die.

"Could it be that my Master-servant Contract is not effective?" Chu Hongqing looked at the fallen Chen Xiang and felt it was strange.

Yu Yan's gigantic axe had already struck at He Sen, but at the same time He Sen used his sword to block, Chen Xiang suddenly appeared behind him, and the speed of his sword was actually much faster than He Sen's.

Chen Xiang's Heavenly magic sword was still as invincible as ever. He gathered all of his power and swung his sword at Immortal He Sen's neck.

He Sen's head immediately tumbled to the ground and he immediately rushed over. The Meteor immortal power beneath his feet erupted outwards and stepped on He Sen's head.

Boom.

He Sen's head was smashed into smithereens by his foot, causing sparks to fly everywhere, and fell onto the ground, burning with raging flames.

The real him was already hiding inside the spatial crack and waiting for an attack. Therefore, when Yu Yan tried to distract He Sen's attention, Chen Xiang made his move, and used the extremely sharp Heavenly magic sword to cut off He Sen's head.

Chen Xiang received two simple and crude moves, and actually killed He Sen. He was so shocked that both Chu Hongqing and Yu Yan were speechless.

### [Chapter 2379](#)

Chen Xiang had killed He Sen, so the few men who came with him were all stunned. They did not know how to react, He Sen was their leader, and was extremely powerful.

But now, He Sen was killed by a little kid just like that.

"The head is dead, we have to bring him back. Otherwise, we cannot explain ourselves and capture them all." A man that followed He Sen said.

"Kill them too." Chen Xiang suddenly sent a sound transmission to Yu Yan, 's position in Fire Reverent School was very high, if this matter were to spread, not only Chen Xiang, but even Yu Yan and Lv Ying would be in trouble.

Yu Yan immediately took action, and Lv Ying immediately followed along.

Chu Hongqing clenched his teeth, took out a red long blade, and also killed the few men who followed He Sen.

Chen Xiang immediately hid himself inside the spatial crack. Just now, he had only been able to kill He Sen because of his sneak attack.

Right now, those few people all knew that he had this ability, so they were secretly on guard against him. Therefore, he did not plan to join the battle, he believed that Yu Yan and the others could definitely take care of these people.

The overall strength of Yu Yan and the others were already very strong, and with the addition of the Goddess of Fire, Chu Hongqing, to join them, the other party was currently being tightly suppressed. There was no way out for them.

After a while, Chen Xiang came out of the spatial crack. The battle outside had ended.

"Fire Reverent School probably doesn't know." Chen Xiang said.

"No, just clean up this place. But they should know that these guys are dead by now." Lv Ying said: "They must have had life orbs inside the Fire Reverent School."

Chu Hongqing sighed: "If Leader knew that I had done such a thing, he definitely wouldn't let me go."

Chen Xiang laughed: "Who asked that He Sen to kill himself, that fellow is mentally ill. He wanted to kill me and you earlier, if I did not kill him, we might all die."

Lv Ying nodded his head: "This guy is very strong, he is one of the strongest Beast Hunting Squads in the Fire Reverent School. And this small team was formed from He Sen's support, the teammates beside him have already been changed many times ... It seems like his teammates were killed by his brutal personality. "

Chen Xiang took out the Chuangshi god furnace and placed all the bodies inside it to burn them.

"Bro, your sneak attack skills are truly superb. It seems like you've done quite a bit of work." Yu Yan laughed.

Just now, Chen Xiang was extremely experienced, only by doing it frequently could he cultivate to such an extent.

Chen Xiang only laughed: "There's nothing I can do, I'm too weak. If I want to kill strong and weak, I can only do this."

Yu Yan laughed out loud: "Looks like in the future, when you kill someone, you must smash their head or else you might not die. He Sen is too arrogant, if not you would not suffer such a loss."

Although they had killed a powerful team in the Fire Reverent School, Lv Ying and the others were not worried at all. They were also secretly pleased, especially news about Lv Ying, who bought the Lightning dragon eagle from He Sen.

Chen Xiang and the others returned to Fire Tao Divine Place, where Chen Xiang and Chu Hongqing currently resided in Lv Ying's shop. The shop was a tall tower, and there were many empty rooms on top of it.

"Hongqing, don't you need to go back to the Fire Tao Divine Place?" Chen Xiang asked as he took off his clothes.

"No ..." You don't need to go back, what are you doing? " Seeing Chen Xiang taking off his clothes, Chu Hongqing's face changed slightly as he asked worriedly.

"Take a bath! You're my servant now, but I've never seen you serve me. Why don't you come over?" Chen Xiang laughed sinisterly.

Chu Hongqing pouted and walked over to help Chen Xiang take off his clothes. Moreover, she had to help him get hot water.

"Today's harvest was pretty good, let's have a good rest first." After Chen Xiang finished showering, he comfortably lied on the bed, closed his eyes, and fell asleep.

After Chu Hongqing finished showering, she saw that Chen Xiang was lying on the bed naked. The first time she saw a man's entire body, her beautiful face immediately flushed red. She then hurriedly walked over and covered him with a thin blanket.

Chen Xiang suddenly opened his eyes, laughed sinisterly and pulled her onto the bed: "I want to hug you and sleep."

"You ... Don't act recklessly, I only promised to be your servant. " Chu Hongqing pouted as he held her in his arms.

"You are my servant, and I can do whatever I want to you. Master-servant Contract said that you cannot resist Master." Chen Xiang hugged her, blew her earlobes, and then laughed evilly.

Chen Xiang was also only carrying her to sleep, but her hands were just a bit dishonest. Chu Hongqing had accepted it, but she was a little disappointed now, Chen Xiang was actually only carrying her to sleep, and did not do anything else.

"This brat." Chu Hongqing wanted to pull Chen Xiang's bad hand away from her chest, but to no avail. She silently sighed and could only give up.

Daybreak, Chu Hongqing helped Chen Xiang put on his clothes, and then, Chen Xiang went to find Lv Ying. He had sold the ten Yaoge Dan s he had refined at Lv Ying's place, and obtained ten thousand. Then, he had sold a lot of wine from the hotel to the side, and had a good drink with Yu Yan.

The wine here was extremely strong, Chen Xiang had drunk a lot, and was drunk at night. Chu Hongqing nagged as he helped to wash the wine off his body.

In the middle of the night, when Chen Xiang woke up, he saw that half of Chu Hongqing's clothes were in disarray and half of his chest was exposed.

However, seeing that Chu Hongqing's upper body was in a mess, he heaved a sigh of relief.

"So beautiful." Chen Xiang couldn't resist reaching out his hand to rub it. Chu Hongqing also immediately woke up, then slapped away Chen Xiang's hand.

"Didn't you touch it enough last night? It hurts so much." Chu Hongqing said with a red face: "I already told you not to mess around with that bastard, and you didn't listen. If someone came to find trouble with you, with your drunk look, you would definitely be beaten to death."

"Hehe, I only want to sleep this time." Chen Xiang snickered, carried Chu Hongqing, and then fell asleep beautiful.

When Chen Xiang woke up, he did not see Chu Hongqing. He hastily dressed himself and walked out of the room.

Speaking of which, it was not bad to have Chu Hongqing to accompany her. It was a great thing to have such a beautiful, prestigious, and powerful beauty as a servant.

"You didn't leave, you worried me to death." Chen Xiang laughed: "I didn't do anything to you last night right?"

"Hmph." Chu Hongqing spat out, and said in a low voice: "It's only making my pinching more painful ...."

Chen Xiang had his own principles in this regard, he would not do that sort of thing to a woman who did not have any feelings for him.

"Hongqing, teach me how to refine pills. It would be best if you could teach me how to use the Lightning dragon eagle in my hands to concoct pills. I still don't know how to deal with those Lightning dragon eagle." Chen Xiang said, he needed to hurry up and cultivate his Dao Body, he was currently too weak.

### [Chapter 2380](#)

No matter whether it was the strength or the physical body, the Lightning dragon eagle were both extremely powerful. If Chen Xiang had not used the Six Realms mirrors to reflect their strength back, it would have been difficult for them to kill the Lightning dragon eagle at that time.

Before, Chu Hongqing knew that Chen Xiang did not understand anything about the pills here, and she had also said that she would teach Chen Xiang how to refine pills.

"Generally speaking, beast meat and beast blood can be used to concoct pills. However, this needs to be accompanied by some medicinal ingredients." Chu Hongqing said: "Other than this, I will need a pill furnace that has a lot of space inside, because at that time, I will need to store the huge body of the Lightning dragon eagle inside."

"What can a refined pill do?" Chen Xiang took out the Heavenly furnace. The interior of the Heavenly furnace was quite large.

"Let's see which aspect you need to improve! Physical body, Divine Deity, and Bones are all fine, but this will mainly depend on the ingredients used." Chu Hongqing took out a few medicinal ingredients and placed them in front of Chen Xiang.

"You should know this herb. It is used to refine Yaoge Dan. However, it has to be of a higher grade!" It was a high-grade heaven-step medicine; it was able to refine a high-grade heaven-step pill! If it is refined with beast meat and beast blood, eating it will help you form your Bones. "

"The last two medicinal ingredients are respectively related to the flesh and blood of the Divine Deity."

"Is the high-grade Heaven-ranked medicine expensive?" Chen Xiang asked again, Sky pill was a common sight here, there were a lot of ingredients.

"Not too expensive, you can buy it with five thousand Jade money! If they were able to refine high-grade Heaven-ranked Yaoge Dan, one pellet could be sold for ten thousand Jade money. It was just that it was easier to fail during the refining process, and there were fewer pills! In order to guarantee its success, Alchemist would usually lower its quality. "

"If I add the beast blood and meat to make it, how much more expensive would it be?" Chen Xiang asked again.

"Five to ten times depends on the quality!" Usually, buyers will invite an appraiser to appraise a pill that costs ten thousand Jade money s per pellet. " Chu Hongqing laughed tenderly: "Young master, do you really lack Jade money now? You need Jade money, I have it here! You should first refine a pill for yourself to eat so that you can become stronger. "

"That's true! However, a lot of Jade money are needed in order to buy a lot of high-grade medicinal ingredients. My goal is to refine those high-grade, useful divine pellets. "

"Let's forge this first!" Chu Hongqing passed the medicinal ingredients to Chen Xiang. She was currently very good to Chen Xiang, just like how she was to her own master.

"Put a Lightning dragon eagle into my storage box and let me deal with the corpse. You can refine the ingredients first and then add in the beast meat and beast blood." Chu Hongqing took out an exquisite and beautiful small wooden chest.

After Chen Xiang placed one Lightning dragon eagle inside, he started to release flames to refine the medicinal ingredients. Right now, he was also refining Yaoge Dan, but the rank was higher.

"These medicinal ingredients are not easy to deal with." From the very beginning, Chen Xiang had already felt that it was extremely difficult. The Yaoge Dan that he had previously refined was a low-grade heaven stage, but now, it had directly jumped to high-grade heaven stage.

Not long after, Chen Xiang's Heavenly furnace made a loud bang!

"The furnace exploded?" Chu Hongqing slightly frowned: "I was too careless, I should have let you refine a mid-grade Heaven Ranked Spirit Beast first."

"It's fine. There was a slight mistake." Chen Xiang said, then put away the Heavenly furnace and took out the Chuangshi god furnace.

Chu Hongqing gave him another batch of ingredients. She looked at Chen Xiang's Chuangshi god furnace and asked: "Is this pill furnace powerful?"

"Very powerful!" Chen Xiang laughed, and then continued.

Chu Hongqing was currently dealing with the Lightning dragon eagle's corpse, all of this was done inside her storage box. Her small wooden box had a lot of space inside, and was able to store the corpse of a huge savage beast. She then controlled the many sharp blades inside to cut apart the corpse of the savage beast, and at the same time, collect the beast's blood.

The Alchemist here were all familiar with these things, although Chu Hongqing was a girl, he had to do these things himself often.

Chen Xiang's previous failure was also because he did not have enough fire energy. He did not expect that the usually weak medicinal ingredients would suddenly increase multiple times during the process of refinement, and become very difficult to refine. It was because he could not suppress the swelling power of the medicinal herbs with his strong flames that caused the furnace to explode.

"The grade of these medicinal herbs must definitely far surpass that of a heaven-rank divine pill!" Chen Xiang thought to himself, he quickly reached the place where he failed previously, and this time he successfully passed through.

The flames released by the Chuangshi god furnace also had a strong stability, which was very useful for him to refine pills.

Three days had passed and Chen Xiang was still refining. After all, this was a very difficult heavenly pill and it was normal for it to take time.

"Hongqing, when will you be able to join the beast blood and meat?" Chen Xiang asked.

"It's best if you prepare to condense the pill." Chu Hongqing said: "You've reached that level now?"

"It's done!" Chen Xiang nodded.

"This is way too fast! It's only been three days!" Chu Hongqing could not believe it, Chen Xiang had not even reached the Dao Ti realm, her cultivation must be very weak, the fire she was releasing must be limited, not to mention Chen Xiang, even she would need 5 days.

"It's slow for me." Chen Xiang laughed.

"The beast blood meat is inside." Chu Hongqing took out a small jade box. It was a Storage magic treasure and inside it was the beast meat that Chu Hongqing had distributed to them.

Chen Xiang threw it in, and not long later, it was refined, and smoothly mixed into the medicinal liquid!

"Is that all?" Chen Xiang felt that it was too little, the beast blood was just a vat, and a few hundred kilograms of beast meat, that Lightning dragon eagle was actually very big.

"Do you want to refine the entire Lightning dragon eagle? If you just add a little, that will be enough. One Lightning dragon eagle will be enough for many times." Chu Hongqing said snappily.

"Get two more. Four portions!" Chen Xiang said: "Quickly!"

Chu Hongqing had no other choice, he could only give four to Chen Xiang according to the amount he had just given.

After Chen Xiang poured the pellet in, and refined it for two hours, the liquid inside started to emit a faint golden light.

"The effects are indeed quite good!" Chen Xiang laughed: "I never thought that savage beasts could have such uses."

He divided the medicinal liquid into five groups! This was also the reason why he wanted more beast meat and blood. It was because he wanted to concoct more pills.

Chu Hongqing saw that Chen Xiang was successful, and also secretly hoped for Chen Xiang to produce a pill. She and Chen Xiang had formed the Master-servant Contract, so even if she was unable to obtain the pill refining skills that Chen Xiang had inherited, but if Chen Xiang was able to concoct many good pills, she would definitely obtain many good ones.

"It's a success!" Chen Xiang laughed, opened his pill furnace and took out five golden pellets.

"Five pills!" Chu Hongqing shouted in surprise and admiration.
