

Dan God 2391

[Chapter 2391](#)

Chen Xiang didn't even have a mark now, he didn't even know how to comprehend it now. Chu Hongqing's explanation was extremely vague, and he didn't really understand the process of comprehending it. Of course, Chu Hongqing himself wasn't very clear about it, as everyone's comprehension process was different.

"Hongqing, I don't even have a single trace of Dao. Am I a Dao Ti realm?" Chen Xiang asked.

However, when you gain enlightenment on a Dao mark, you will be in the first stage of the Dao Ti realm. At that time, you will be able to understand the effects of the Dao mark better. Chu Hongqing said: "Your pill refining skills are so amazing, you must have been taught by your master, didn't he teach you how to cultivate?"

Chen Xiang shook his head: "I was the one who personally comprehended my pill refining skills, especially in the later stages, although I have a master, but I have long surpassed him, and will only tell me later when I have the chance."

Chu Hongqing laughed tenderly: "Seems like your story is quite interesting. When I have the chance in the future to tell you about it, I will return to the Fire Reverent School first. After the Heaven's Path party, I can accompany you everyday."

"Alright, do you want to register for the Heavenly Law Auction or something?" Chen Xiang asked.

"Yes, if you wish to participate in the competition at the Heavenly Law Auction, you will have to register. You have decided to participate." Chu Hongqing asked.

"Of course we want to participate. We won't lose anything, right?" Chen Xiang laughed.

"I won't lose anything. I'll help you register and in five days, the pill refining competition will officially begin. As for whether or not it will start that day, I'm not sure. It was all arranged by the Leader." Chu Hongqing said.

Chen Xiang went to participate in the pill refining competition because he wanted to see the standards of the Fire Tao Divine Place and see what kind of pills were available there.

Chu Hongqing left the shop and went into the secret room to close up. He activated the Alive Slain Method and focused on condensing the purple pearls.

"If only Yue Er and Xue Yi were here, they would have helped me cultivate the Spirit seed in the ring. The effect would be even better if they used the Six Realms God Cup together with me." Chen Xiang was already in the Heavenly Dao Realm, if he did not want to participate in the Heavenly Law Auction, he had to go back to look for Lv Qilian and the others.

He came outside to find Yu Yan. He wanted Yu Yan to help him with something, but when he asked around, he found out that Yu Yan and Lv Ying had gone out to hunt savage beasts.

Now that Chen Xiang was this shop's guest, he asked the old man in charge of the shop and found out where Lv Ying and the others were. Then, he left the city and went to the wilderness.

When he left the city, he had already changed his appearance. Previously, he had defeated so many of the Fang family's Jade money and even knew how to refine Qiyuan Dan, so it was impossible for the Fang family to not have any thoughts towards him.

"Bright moon mountain. It sounds like a very beautiful mountain. Let's go and see what it looks like." Chen Xiang heard from the old man in the shop that Yu Yan and Lv Ying had gone to the Bright Moon Mountain.

He was still rather far from Yue Guang Mountain, but Chen Xiang felt that it wasn't much, the power of space in his body had increased quite a bit, the distance he could teleport to was already much further.

Just as he was about to teleport far away, he suddenly felt a huge change in the surrounding space. At the same time his expression changed, the sky suddenly turned black and the earth trembled.

The surrounding space was warped and warped, Chen Xiang was suppressed by a strong wave of energy to the point that he couldn't move.

An expert was attacking him.

No matter how much power Chen Xiang used, he could not make himself move, nor could he teleport. The surrounding space was sealed by a strong force.

"Who is it?" Chen Xiang was sure that the person who attacked was very powerful. He immediately used the Dao heart Eye and only saw three red blobs of human figures.

"Evil Spirit Race." He had a better understanding of the Evil Spirit Race now. Previously, when he looked at the invisible Evil Spirit Race with the Dao heart Eye, it was all in this form.

No, this is not Evil Spirit Race. Otherwise, Evil Spirit Race would have killed me long ago. Chen Xiang only felt that he was sealed in a space and his surroundings became extremely dark.

The ground that was shaking violently suddenly split open, and Chen Xiang suddenly dropped into a crack that suddenly appeared. After a moment, the crack closed, and the heaven and earth returned to normal.

"It must be the Fang Clan." Chen Xiang lied on the ground, feeling that he was pressed down by something heavy and was unable to turn around.

If they were to kill him, Chu Hongqing would also die, but Chu Hongqing had a huge background, if they found out that the Fang family had intentionally killed Chen Xiang to kill him, the Fang family would definitely be in great trouble, that was why the Fang family did not kill Chen Xiang, and only sealed him away.

"Kid, if not for the fact that you and Chu Hongqing had Master-servant Contract, you would have died a long time ago." The old voice transmitted into Chen Xiang's mind.

This was just as he had guessed. It was indeed the Fang family's doing, and it was a very powerful one at that.

"It doesn't matter if you win against us two hundred million Jade money, but since you managed to refine a Qiyuan Dan, we have no choice but to seal you up." The old man continued, "Don't worry, you

won't die. You will be trapped under the earth by us and suppressed by the earth. After a hundred thousand years, you will dissipate."

Chen Xiang was furious, and asked: "Is it the Fire Reverent School Leader who also supports you in attacking the Fang family, the Fang family that does not keep their word, I hope you guys can still do it after 100,000 years, that way I will have the chance to flatten your Fang family."

Back then, Fang Daiqi had promised him that if he could refine a Qiyuan Dan, he would be allowed to sell it himself.

"Don't you know that Chu Hongqing is a cauldron maintained by Supreme Flame's Leader, that once Chu Hongqing's cultivation reaches a certain level, her yin energy will be harvested, and she will be able to help Supreme Flame cultivate his mystical technique? Your mental fortitude is not bad, and actually did not steal Chu Hongqing's body, but because of that you all will be able to keep your lives. If Chu Hongqing's body is taken away, we think that she has no value to Fire Sovereign, and you all will die without a doubt."

Chen Xiang scolded in his heart. Huo Zun actually had good intentions towards Chu Hongqing, he had to think of a way to get out of here. He treated Chu Hongqing as his own subordinate and could not let her become a cauldron.

They were experts of the Fang family, and their relationship with the Fire Reverent School Leader was very good as well. Even if Chen Xiang did not leave the shop, they would think of a way to remove and seal Chen Xiang.

"You bunch of bastards, you really look down on me, Chen Xiang." Chen Xiang had never feared someone with a strength that was a thousand times stronger than his.

"The Six Realms mirrors should be able to help me leave, it's just that the Six Realms' Power is not enough yet, I can get some from the Divine Sense Sea." The Six Realms mirrors had long been placed in the Divine Sense Sea by Chen Xiang, so as long as Chen Xiang needed it, he could absorb the energy in the Divine Sense Sea at any time.

"I'll condense some Violet Beads during this period of time. When I get out, the first thing I'll do is knock down the Fang Clan." Chen Xiang planned in his heart.

The Fang family was most afraid that his status as a Qiyuan Dan would be threatened. If he refined a large amount of Qiyuan Dan, it would definitely cause a great deal of damage to the Fang family.

[Chapter 2392](#)

Chen Xiang's Six Realms mirrors contained all sorts of powerful formations, and many of them were naturally formed great formations. As long as one had enough energy to support them, they could release limitless amounts of power.

"I need to use the spatial array inside the Six Realms mirrors to stabilize the surrounding space. That way, I can teleport out."

The seal that trapped Chen Xiang released a strong interference force that caused ripples in the space around him. This force was strong enough to trap him here.

Two days later, Chen Xiang's Six Realms mirrors had already condensed enough Six Realms' Power, he was controlling the Six Realms mirrors to release the quantity of array magic power. The fluctuating space had calmed down, and in that moment of calmness, he channeled all the divine power in his body and teleported.

In the blink of an eye, he was already on the ground. At this moment, it was already night time. Coming out from the darkness, he thought that he had failed.

"As expected, the Fang family's older generation all control extremely powerful Counter Power. I wonder what kind of relationship they have with the Evil Spirit Race." Chen Xiang snickered in his heart. The Evil Spirit Race at the time in the Star Law Divine Realm was developed from now onwards, he suspected that the Fang family was the ancestor of the Evil Spirit Race.

"The Heavenly Law Auction is going to start in two or three days. I can't use the name Chen Xiang to attend it." Chen Xiang thought that he had to attend the Heavenly Dao Auction.

"How did those guys discover me? I used the Transformation Technique when I came out." Chen Xiang was very confident in his transformation techniques, so he would definitely not be recognized by others.

He was also worried about this matter. If his Changing Technique was seen through, then he wouldn't be able to participate in the Heavenly Law Auction.

"Right, that old man." Chen Xiang thought about the old man that he had questioned him about in the shop. Back then, Lv Ying had told him that if there was anything he could ask the old man for when they were not around.

"This fellow purposely told me that Brother Yu and Boss Lu were at the Bright Moon Mountain and that there were people lying in ambush on this road. They would immediately attack when I arrived here. It's obvious from that seal that they won't be released in a short period of time." Chen Xiang thought about this and was secretly worried about Lv Ying and Yu Yan.

"That old man is someone that Lv Ying trusts very much. He should be able to push Lv Ying and Yu Yan away for a period of time without much difficulty. As long as I come out of seclusion and inquire about the whereabouts of Lv Ying and Yu Yan, he would tell me that they are at Yue Mingshan."

"Truly impossible to guard against. Even if this guy sold me out, as long as I continue to be sealed, he would still be fine." Chen Xiang laughed coldly in his heart. Now that he had come out, he definitely wouldn't let this old man who betrayed him go.

As long as his transformation technique was not seen through, he had nothing to worry about. He turned into a refined middle-aged man and returned to the city, heading towards the Fire Reverent School.

It was still not too late for him to register now. Chen Xiang went to the registration location and used the pseudonym Yun Fei to register. The registration was going to start in two days.

He still had a few Jade money on him, enough for him to stay in an inn. Right now, he had to condense more purple pearls and duplicate the Qiyuan Dan's medicinal ingredients. Only then would he be able to get revenge against the Fang family.

"Brother Yu and Boss Lu are fine. So they went out to drink that day, but that old man actually tricked me out." Chen Xiang cursed in his heart: "I'll let you live for a while longer, you actually dared to plot against me."

"Hongqing said that she would come find me, so I'll wait for her at the shop. When the time comes, I'll directly get her into the ring." Chen Xiang did not want Chu Hongqing to stay by Supreme Flame's side for too long, so he stayed close to Lv Ying's shop to guard it.

On the day of the Heaven's Path party, before the sky brightened, Chu Hongqing had already come. The door of the shop had not even been opened.

She knocked on the door and entered the shop for a moment, frowning as she walked out, a look of worry on her face, because she already knew that Chen Xiang had been gone for a few days and had not come back.

The streets were quiet and there were not many people. Chu Hongqing sat on top of a carriage and looked out the window gloomily, because she and Chen Xiang had already made an appointment, so she came today to bring him to the Natural Law Divine Realm.

Just as she was sighing softly, Chen Xiang teleported and appeared in her carriage.

"You are..." Chu Hongqing saw an elegant middle-aged man suddenly appear in the carriage, and immediately became alarmed, she had only said two words, but they were already blocked by Chen Xiang's hand.

"It's me." Chen Xiang told her: "I am Chen Xiang, I have met with big trouble, I can only appear like this, don't resist, I will bring you out of here."

Chen Xiang was worried that she would not believe him and change back to his appearance.

"Alright." Chu Hongqing relaxed his body and put her into the ring. Then, he teleported out of the carriage and returned to his own inn.

"What is this place, your Divine Sense Sea World?" Chu Hongqing saw that it was very beautiful with many flowers, herbs and fruit trees. Chu Hongqing liked it a lot, but other than these, there were also a lot of herbs.

Of course, she was also infatuated with that exquisite palace.

"No, it's one of my Storage magic treasure." Chen Xiang said: "Earlier, when I went out, I was ambushed by the Fang family's experts. What kind of earth seal did they use to seal me under?"

"This... The earth seal is the Fang family's most famous seal, and it was even helped by Supreme Flame and Leader himself back then." Chu Hongqing sighed.

"Sealing me is also related to your Leader, do you believe me?" Chen Xiang said coldly: "This guy is plotting against you."

Chu Hongqing became silent. When Chen Xiang told her about the seal on the ground, she knew that it must have something to do with Supreme Flame, or else the Fang family's people would definitely kill Chen Xiang, and if they killed Chen Xiang, she would also die.

"Hongqing, if I were to tell you that Leader Huo Zun views you as a cultivation furnace, would you believe me?" Chen Xiang said. He knew that Supreme Flame treated Chu Hongqing very well, and Chu Hongqing respected him a lot.

"I... "I ..." Chu Hongqing wanted to say that she didn't believe it, but she wasn't sure now.

Without saying a word, Chen Xiang immediately used the Soul Absorbing Devil Spell to extract a copy of the memories of the conversation he had with the Fang Family warriors when he was sealed.

"These are my memory orbs. Take a look." Chen Xiang said. He only wanted Chu Hongqing to know Supreme Flame's purpose for coming here.

After Chu Hongqing received the letter and examined the memories inside, she could only let out a long sigh. It seemed that she had sensed the malicious intentions of Leader Huo Zun towards her before.

"Is there anything in Fire Reverent School that you can't let go of?" Chen Xiang asked: "If you don't have it, then don't go back."

"No more." Chu Hongqing sighed: "He has disappointed me so much."

Chen Xiang said: "Luckily I realised it earlier, he is really unreliable. On the surface, he wanted to invite me to some Heavenly Dao gathering, but he secretly schemed against me."

[Chapter 2393](#)

Chu Hongqing could now be considered to have completely seen through Supreme Flame. If she did not still have use for him, then maybe he would have already been killed.

"First let me go out and change those jade plates into Jade money s. They'll be ready soon." Chu Hongqing said: "The native bank has already opened."

Chen Xiang nodded, then returned onto the carriage, allowing Chu Hongqing to come out.

Very quickly, Chu Hongqing was able to exchange the Jade money s from the native bank. After she returned to the carriage, she passed 200 million Jade money to Chen Xiang.

"There are at least ten guys following you." Chen Xiang whispered to her.

"Only five out of ten." Chu Hongqing said, she naturally knew that it was Leader Huo Zun who had sent her to monitor her.

Chen Xiang told her to enter the ring and teleported to the inn. The carriage was already empty.

"Are you still going to participate in the Heavenly Law Auction?" Chu Hongqing asked.

"Of course I'll participate. This is a good opportunity to study." Chen Xiang said: "Even if I am exposed, he can't possibly do something to me on the spot, furthermore, they just used the Earth Seal once, so there won't be a second one anymore. I will also defend them, they won't be able to seal me that easily."

Chu Hongqing laughed: "You're really impressive, to be able to break through the Earth Seal and run out, you only have this much strength." She knew that Chen Xiang didn't even have a single mark, and the frightening seal of the earth was actually unable to trap him.

"Hongqing, don't forget that I have a Heavenly artifact. A mere seal won't be able to suppress me." Chen Xiang laughed.

Previously, he was still worried about not helping him with the cultivation of Spirit seed, but now that Chu Hongqing was inside, he could help him with it.

Chen Xiang gave her a few purple pearls, then told her to throw the purple pearls inside the pond, and then used the water in the pond to water those Spirit seed s. Those Spirit seed s would then take root and grow spirit seedlings.

"What are the uses of these Spirit seed?" Chu Hongqing did what Chen Xiang said once, and it was enough to reap the harvest. She asked again: "And there's also that purple pearl, it seems to be able to increase the speed of growth a lot. Where did you get it from?"

Chen Xiang was waiting for the sun to rise so that he could enter the Fire Reverent School to participate in the Heavenly Dao Auction.

"The use of Spirit seed is great, the main purpose of the purple pearl is to duplicate medicinal herbs." After that, Chen Xiang gave ten more Purple Pearl Chu Hongqing and told her in detail how to copy the medicinal ingredients.

At the beginning, Chu Hongqing was very shocked and could not believe it. However, after trying it once, she had no choice but to believe it was real.

Furthermore, Chen Xiang even made her copy the Qiyuan Dan's medicinal ingredients.

"Right now, I need ten pearls before I can copy a portion of Qiyuan Dan's medicinal ingredients. If I were to place the purple pearl in that cup and soak it for around a day, I would be able to duplicate a portion of the purple pearl." Chen Xiang said. The Six Realms God Cup was also inside Youyao palace. Yue'er had been doing it in the past.

Chu Hongqing suddenly understood that this meant that Chen Xiang would have an endless amount of ingredients and adding in the speed at which he was refining the pills, even if it was just one person, he would be able to concoct a large amount of pills very quickly.

If he was able to refine a large amount of Qiyuan Dan, the Fang family would receive a huge blow.

"Your technique is quite mature. Just what did you do in the past?" Chu Hongqing recovered from his shock and asked.

"In my world, I can be considered to be very strong. I think I should be a pill god." Chen Xiang said: "Later on, a group of villains appeared in my world, and we couldn't beat them, so we came here."

"Are there a lot of you?" Chu Hongqing asked.

"Yeah, I will be going to look for them soon. They are now in a very safe place, so I will take you with me." Chen Xiang said: "Your foundation in pill refining is not bad, at that time I will let you learn pill refining from them."

Chu Hongqing was secretly happy, she had long wanted to learn Chen Xiang's pill refining skills, she never thought that Chen Xiang would be willing to teach her that so quickly.

"Do you have a lot of women?" Chu Hongqing suddenly asked.

"Not much." Chen Xiang laughed: "Don't worry, they won't bully you. Among my women, there are two who are like you, both are my little maid. One is for refining pills, and the other is for concocting pills, both are very powerful."

"No wonder you're so capable of restraining yourself. So you actually possessed quite a few great beauties." Chu Hongqing scoffed, she had nothing to do in the ring as she focused on growing the Spirit seed.

Daybreak, Chen Xiang saw a lot of people walking on the streets, walking out of the tavern and following a group of people heading towards Fire Reverent School.

"Hongqing, do you have dragons in the Fire Tao Divine Place?" Chen Xiang asked. He felt that a divine beast like a dragon that was blessed by the heavens should be the first to appear in any world.

"Of course there are. Otherwise, there wouldn't be a Barbarian Beast like the Lightning dragon eagle. It's just that purebred dragons are very rare, and there are quite a few other hybrids." Chu Hongqing said: "Why are you asking this? Dragons are very powerful, you can't be thinking of killing them and using them to concoct pills, right?"

Chen Xiang laughed: "Nope, I was just asking. In my world, there were many dragons, some were strong, and some were weak. I have killed many dragons when I was very young."

"I don't believe you." Chu Hongqing scoffed.

"Why would I lie to you? I have a wife who is a White Dragon. She used to often stay in this ring." Chen Xiang laughed.

"I still don't believe it, unless I see it with my own eyes." Chu Hongqing said.

Chen Xiang could tell from Chu Hongqing's reaction that all the dragons in the Big Chaotic Times were very strong and had a lot of status. After all, this was the beginning of the world, unlike the later stages of the Star Law Divine Realm.

Even in the Star Law Divine Realm era, dragons were pitifully few compared to humans, let alone now.

Chen Xiang had already entered the Fire Reverent School, and the interior was like a small town in a city, the construction was extremely grand, with many neat rows of houses.

Right now, Chen Xiang was going to the big plaza inside Fire Reverent School. In the front row of the big plaza, there were many big tables and comfortable chairs, which were all seats for the big families. Chen Xiang saw Fang Heng and Fang Daiqi this father and son.

"I'll deal with these Fang family bastards sooner or later." Chen Xiang was planning to deal with the Fang family, and then the Fire Reverent School.

Through the special power of the Serene Jade Ring, Chu Hongqing could see things from the outer sect disciples, but they were not as straightforward as Chen Xiang's. She was only able to see things through a few crystal walls.

"There are really a lot of people." Chu Hongqing laughed: "If I were here, I would be the one presiding over this gathering. It's always been like this in the past."

"That dogshit Leader would definitely be extremely anxious if he can't find you. Haha, who asked him to seal me away." Chen Xiang laughed.

[Chapter 2394](#)

Chu Hongqing was one of the most important things to watch at this Heavenly Law Auction, but it had not appeared for a long time. Chen Xiang had already heard many people complaining.

The person on the stage was a middle-aged man wearing a fiery red armor and a flaming cloak. He was tall, handsome, and had an imposing manner.

"This guy is Fire Reverent School of the Fire Reverent School." Chen Xiang asked.

"It's him. This guy is really malicious. He actually had that kind of thought towards me. Hmph." At this time, this Leader made Chu Hongqing feel extremely disgusted.

A man said, "How come it was Huang Tian who came out to preside over Hierarch Fire?"

The other person laughed, "Holy Maiden Huo has already become someone else's female slave, of course she won't come out. That guy seems to be called Chen Xiang, I heard that he is also here to participate in the Heavenly Law Auction, but he hasn't seen him yet, could he be missing?"

"It's very possible that not only did this Chen Xiang guy offend the Fire Reverent School, he also offended the Fang family, and even refined a Qiyuan Dan that the Fang family relied on. It would be strange if he did not go missing."

The disappearance of these people meant reprisal.

Chen Xiang smiled at Chu Hongqing: "If even others know that the Fang family will make a move against me, then it seems that my disappearance is also a matter of course. Oh right, this Leader's name is Huang Tian."

"Mm, don't just look at how he is now. He is usually pretty arrogant, but his alchemy skills are pretty good." Chu Hongqing said.

The moment Huang Tian walked up, he smiled and said a few polite words. At this moment, his smile was very unnatural, it was obvious that he was pretending. It was evident how much resentment he was holding in.

Following that, an old man walked up and said a lot of nonsense. In the end, he introduced the main contents of the Heavenly Law Auction.

The Heavenly Law Auction allowed the various powers in the Fire Tao Divine Place to exchange pointers, and at the same time, allowed many young Rankers to shine here. Over the years, there had been many people who had gained fame during the Heavenly Dao Auction.

When Chen Xiang participated in the registration for the Heavenly Dao Auction, he had signed up for the pill refining competition. Chu Hongqing had told him before that not only would the young Alchemist attend, there would also be some old Alchemist lecturing on the spot.

After hearing the old man's nonsense, the crowd dispersed. The vast plaza was divided into several regions. The first one to start was the area where the competition was held, and soon, there was a fight.

Chen Xiang had just stepped into the Heavenly Dao Realm, so he had no interest in the pill refining competition. He headed to another area, which was filled with business, and the pill refining area was still in preparation.

... ..

Huang Tian was walking around in a hall in the Fire Reverent School with a stern expression. There were three Fang Family elders sitting in the hall, namely the elders who had sealed Chen Xiang.

Not long after, a young man walked in and said: "Before dawn this morning, she went to's shop, but she didn't wait for Chen Xiang, and in the end she went to the Eternal Life Native Bank. I've asked around, and Chu Hongqing exchanged all the two hundred million Jade money that Chen Xiang won from the Eternal Life Native Bank for her, and in the end she got into the carriage."

"Where's the carriage?" Huang Tian asked, "You guys couldn't have lost such a large carriage, right?"

"The carriage is still at the entrance of the Eternal Life Native Bank, but she has disappeared. She must have used the Transmission array Plate to leave." The young man said.

"Go down, continue searching. Search through the entire Fire Tao Divine Place for her." Chu Hongqing was extremely important to him, but now he had gone missing.

No matter how he looked at it, it looked as if he wanted to escape. With these two hundred million Jade money, it would be more than enough for Chu Hongqing to live an easy life.

Huang Tian said: "Three Fang Family Elders, you are sure that Chen Xiang was sealed."

An old man said: "Of course I'm sure, if the seal on the earth loosened, we would be able to feel it anytime, but this Chen Xiang just stepped into the Dao Ti realm, so using the seal to deal with him would be a waste."

"Then why did that girl, Chu Hongqing, sense that something was amiss?" Huang Tian frowned: "I pretended not to care about Chen Xiang before and even invited Chen Xiang to participate in the Heavenly Law Auction, she shouldn't have any suspicions."

"It's possible that she had some sort of special connection with Chen Xiang's Master-servant Contract. If something happened to Chen Xiang, she could feel it, so she hid away." An old man said, "Could it be that we made our move too early?"

"She shouldn't be too far away. We'll use our greatest strength to look for her." Huang Tian said.

... ..

The Chu Hongqing they were looking for was in Chen Xiang's ring, while Chen Xiang was walking around the Fire Reverent School with a smile on his face.

"Why is the Eternal Life Native Bank selling things here too?" Chen Xiang saw a booth in the Eternal Life Native Bank and walked over.

Today, Chu Hongqing was going to this native bank to retrieve the Jade money, so he had a very deep impression of this native bank.

"Eternal Life Native Bank is one of the big powers within the Fire Tao Divine Place, even the Fire Reverent School doesn't dare to provoke them. It is said that when the Fire Tao Divine Place was just in its infancy, the three great native banks suddenly appeared, it is very mysterious." Chu Hongqing said.

Chen Xiang walked over to the booth and looked carefully, to see that Eternal Life Native Bank was actually gambling here.

The main point of the bet was to bet on the victories and losses of the various competitions.

Chen Xiang looked at the form, seeing that Yun Fei was also on it, he asked the person in charge: "Can you suppress yourself?"

"Of course you can. You have enough confidence to get rich enough. Do as you wish." The old man laughed.

"Oh, then how will this Yun Fei be pressured?" Chen Xiang asked.

"You are Yun Fei, he is participating in the pill refining competition, and he has participated in three pill refining competitions. If you bet on him, it would be 1: 2, 2: 1: 5, and 3: 1: 10." The old man said.

"Don't tell me I'm not that popular? I lost so much in three consecutive victories." Chen Xiang asked.

"You are just a nobody, of course you are. Those who are famous compensate very little ..." For example, even if you bet three consecutive victories on this Fang Heng, it would only be a loss of three. " The old man laughed. "You're lucky. How much stronger are you?"

Chen Xiang looked around and muttered: "If I earn a lot, you guys won't be cheating right?"

The old man became serious: "The name of our Eternal Life Native Bank is there, how can you act shamelessly?"

Seeing such a bet, Chen Xiang's hands started to itch again, and said: "If I bet on myself, can you keep quiet? I am very confident in myself, so I will bet a lot, and do not want others to know."

"No problem." The old man nodded: "Our native bank will keep your secret."

"I bet a hundred million." Chen Xiang passed a Storage bag to the old man: "Count this."

The old man was stunned as he received the Storage bag. Then, he sucked in a breath of air: "This brother, you're really confident in yourself. A hundred million is one hundred million."

"The one who won three rounds in a row. If I can really win three, then I'll get a billion, right?" Chen Xiang asked.

[Chapter 2395](#)

The old man from Eternal Life Native Bank suddenly felt that he had seen wrongly. If the other party really won three rounds in a row, they would lose a lot. Of course, their native bank could afford it. They had only come here to make a bet just to join in on the fun.

"No problem, I hope you can succeed!" The old man took out a special jade slip, on it were some words: "As long as you win, this jade slip will turn red, and you will be able to go to our native bank to obtain a billion Jade money."

"Alright!" Chen Xiang grinned as he received it, and then continued to stroll around.

He suddenly found the Fang family's stall. It was bustling with noise and excitement, and there were many Qiyuan Dan s placed around.

"In order to liven up the Heavenly Dao Auction this time, our Fang family will bring out ten high-grade Heaven Rank Qiyuan Dan for auction ..." The one who spoke was Fang Daiqi.

Chen Xiang looked around, then walked to a secluded area, quietly changed his appearance, and walked towards the Fang family's booth.

That's right, he was going to look for trouble. The Fang family's elder had sealed him, and he was feeling extremely infuriated.

"You even want to auction a high-grade heaven-step one? Does your Fang family really think that you're the only ones who can refine Qiyuan Dan?" Chen Xiang turned into an old man, he immediately shouted: "Your Fang family's Qiyuan Dan s should have their prices cut, there are people who are even better at refining now, on what basis are you selling it for so much?"

Many of the people who wanted to buy immediately suppressed the impulse to buy. Previously, they had heard that someone refined a Qiyuan Dan, so they all felt that it was no longer unique to the Fang family, and that the Fang family shouldn't sell it so expensive.

"You don't know, although that Chen Xiang can refine our Fang Family's unique Qiyuan Dan, he doesn't have any medicinal ingredients, and only our Fang Family can grow medicinal ingredients." Fang Daiqi sneered. They were displeased that someone had come to provoke them, but today was a gathering of the heavens, so no matter how overbearing they were, they could not make a move against an old man in front of so many people.

"This is only your side of the story, I believe that not long from now, Chen Xiang will be able to mass produce Qiyuan Dan! I heard that he was able to refine five pills in one go, and the quality is much better than yours. I think that you guys are worried that you won't be able to sell them in one go, which is why you're selling them here. " Chen Xiang said again.

"You must be here to cause trouble!" Fang Daiqi shouted in anger.

"I just want to tell everyone to buy it after a while, so that they won't feel like they're losing something." Chen Xiang laughed: "I am just trying to help everyone conserve their Jade money."

As Chen Xiang finished speaking, he squeezed through the crowd and quickly walked out of the Fire Reverent School. As expected, the Fang family sent a few people to follow him out, they were all young people, and could easily tell that they were members of the Fang family's younger generation.

Chen Xiang ran to the edge of the city, where he found a small forest. After entering, he sneered: "You have followed me for so long, what is your goal?"

"Old man, are you purposefully making life difficult for our Fang family? Or was he tired of living? You actually dared to find trouble with us. "

"Look at your strength. You really don't know your place."

Chen Xiang said: "I thought that your Fang Family was fair and square, I never thought that you would actually do such a small thing, you are here to take revenge on me! "If you guys have the guts, then kill him, or else I'll reveal what happened to your Fang family today."

"Haha ..." Who would believe your lies! Go to hell, old fellow! " A man rushed forward.

Chen Xiang teleported behind the man, the Heavenly magic sword appeared out of nowhere and slashed at the man's neck, easily decapitating him.

After that, he released two Spatial Bind and entangled the two men. Then, he instantly teleported over and swung his sword to kill them.

After killing them, Chen Xiang plundered their belongings, threw their corpses into the Chuangshi god furnace and burned them away, then left them far away and returned back to Yun Fei, the middle-aged man.

"You, killing people is really fast. Those three fellows from before had quite a high status. From their clothes, you can tell that they must have come here with their elders to broaden their horizons. I didn't expect you to kill them." Chu Hongqing laughed, Chen Xiang's methods were truly admirable to her, especially her change in technique and her ability to conceal herself.

"If I had enough strength, I would definitely flatten the Fang family right now." Chen Xiang sighed helplessly, "After the Heavenly Dao Meet ends, I'll go take a look around the Fang family's vicinity. I definitely won't let them off so easily, you actually want to seal me."

As members of the Fang family, everyone had a life orb within their clan. If they died, the life orb would have a huge reaction, and the three young men's life orbs would have shattered.

This matter was quickly made known to the elders of the Fang family who were participating in the Heavenly Law Auction, especially Fang Daiqi!

Chen Xiang quietly observed Fang Daiqi from afar. Seeing Fang Daiqi's pale face, he knew that one of the three young men he had killed just now definitely had an incredible background.

"This guy is quite stupid. Those youngsters' strengths are so weak, yet he actually sent them to kill people. Isn't that just asking for it?" Chen Xiang snickered.

"Looks like the Fang family won't be able to participate in this Heavenly Law Auction happily." Chu Hongqing said: "They must be the descendants of people with status."

"Hmph, those three fellows wanted to kill me!" "Furthermore, I have a grudge with the Fang family. I deserve it if I die." When Chen Xiang thought back to how he was mercilessly sealed by the Fang family, he could not help but feel infuriated.

The Heavenly Dao Auction was very lively, there were many booths, all sorts of things, all sorts of battles, with only a few competitions, such as strength, fire, cold power, speed, Thunder power and so on, it caused the entire plaza to be very noisy.

"There's a stall over there. It's said that as long as we detoxify the person inside the ice coffin, we'll be able to obtain two billion Jade money."

"Really? Just what kind of poison is this, it's so strong! "

"I don't know. Let's go take a look!"

In the past, Chen Xiang was already considered a poison expert, but of course, his ability at detoxification was also very strong. He immediately went over to see if he could earn 2 billion.

After going over, Chen Xiang saw a crystal ice coffin on the ground, inside laid a handsome middle-aged man, and a woman in white sat beside him. Her head was slightly lowered, and she looked a little shy.

Although many people were looking at this woman, they didn't dare to look at her. This was because they could feel an extremely powerful aura emanating from this woman. She possessed a terrifying strength.

The white clothed female slightly raised her head, glanced at Chen Xiang, and then lowered her head. Her self-control was excellent, if not for the fact that Chen Xiang had such an opinion, she would have exploded long ago.

[Chapter 2396](#)

One of them patted Chen Xiang's shoulders and said: "Brother, are you here to cure the poison or to visit the other party? You're too rude! "

Chen Xiang laughed, "About that... I'm here for the antidote, so I need to take a closer look! "

That person said, "But the place you're looking at isn't right!"

Chen Xiang was too lazy to talk with him, this person only wanted to show off for the girl, but everyone present was blaming him for being too rude to such a pitiful girl.

"You, the last time you saw me, it was the same. Do you even have to think this way when you see beautiful women?" Chu Hongqing giggled: "You see, you must have gotten into trouble!"

"What do you know? This woman is a dragon. If my guess is not wrong, then the middle-aged man lying in the coffin is also a dragon. " Chen Xiang said.

"Really?" Chu Hongqing said in shock: "How did you notice?"

"That's because you haven't seen dragons before, so you don't know their aura!" Chen Xiang said, "But I'm very familiar with them, so I can tell."

"How familiar?" Why can't the people here tell this is a dragon from its aura? " Chu Hongqing asked.

"I've even been on the dragon many times. Do you think I'm familiar with it?" Chen Xiang really understood dragons very well. Long Xueyi had slapped him many times already.

The woman in white finally spoke and said softly, "Everyone, the one in the crystal coffin is my father. He has been afflicted with a strange poison, and we used all sorts of methods but were unable to help him expel the poison. We can only freeze him and reduce the damage the poison has done to his body."

Soon after, everyone started asking about the symptoms of the poison, but the woman didn't say it clearly either. She only said that it was a strange poison, and the symptoms of the poison were also very common, making it impossible to tell what kind of poison it was.

There were a few old Alchemists here, and they all shook their heads.

"Miss, do you have your father's blood?" Chen Xiang asked: "You need to see the blood to know!"

"Yes, but his blood is normal!" The lady looked at Chen Xiang and took out a transparent bottle. "My father's blood also contains highly toxic poison. We have tested it on a savage beast.

Hearing her words, everyone immediately took a few steps back, fearing that the bottle would suddenly break and splash onto their bodies.

Only Chen Xiang was not afraid, but he was rather interested and said: Can you give it a try on the spot? That shouldn't be a problem, right? "

A manager from the Fire Reverent School nodded. Today was meant to broaden their horizons, so it was not bad for them to be able to see this strange poison.

The white clothed female nodded, and then the people of Fire Reverent School made a large space and even did some protective measures.

"This is a dragon lion!" The woman in white took out a huge dragon lion and placed it on the ground. Then, she carefully dripped some of the poison on it.

Everyone's heart was bleeding. This dragon lion was very valuable, worth at least a few hundred thousand Jade money. It was actually used as a demonstration and was such a waste.

Of course, this was also because the woman was extremely rich and powerful. To be able to take out two billion Jade money to cure her father's poison, it was obvious that she had a very powerful background.

After the dragon lion was poisoned by the blood, its entire body suddenly turned black. Black gas emerged from its body as it quickly melted. In a few blinks of an eye, the dragon lion's corpse turned into black smoke and disappeared!

Everyone felt their scalps go numb. The dragon and lion's bodies were extremely powerful, yet they actually managed to survive. It was just a drop of poisonous blood!

"Do you see it now? I wonder if any friends know what poison it is?" The woman asked. Seeing that no one replied, the woman in white sighed helplessly and sat on a stool, waiting.

Everyone did not know what poison it was, but they knew that the poisoned middle-aged man in the crystal coffin was extremely powerful. With such a poisonous blood in his body, he was still alive, so this power was definitely stronger than someone like the Fire Reverent School Leader.

"Can you let me have a look at that bottle of poisonous blood?" Chen Xiang asked.

"No, that thing is very dangerous. I think the moment you step into the Dao Ti realm, half a drop is enough for you to die thousands of times." The woman in white shook her head.

"I am a member of the impenetrable, so I know a lot of poisons. This thing definitely won't kill me." Chen Xiang laughed.

Chu Hongqing shouted, "In order to get close to a beauty, you're going to pay with your life?"

Chen Xiang immediately replied: "I want to screw over her Jade money, this girl clearly doesn't think much of Jade money. If I cure her father's poison, forget about two billion, even ten billion will not be a problem. Just watch! "

Everyone could not bear to watch anymore and thought that Chen Xiang was trying to seduce a girl.

"impenetrable also requires strength. You just cultivated a Dao Body, what nonsense are you spouting?"

"Yeah, who the hell would believe that you have the impenetrable! This girl's father is much stronger than you, so wouldn't he still be poisoned to death? Forget about this young lady's father, just the dead Dragon Lion is already stronger than you. "

Chen Xiang laughed: "If the poison blood drips onto my body and does not die, how about you slap yourself a hundred times? I'm betting my life against you! "

"A hundred slaps? I'm willing to drink ten thousand, why don't you drink! "It's like the wind blowing through the sky." The man laughed.

Chen Xiang said to the white clothed female: "Miss, if you want to cure your father's poison, then give me your blood. I think it's very similar to the poison that I've encountered!"

"If you dare to steal the bottle of blood, or do anything reckless, I will kill you immediately!" The white clothed female said very seriously, and then passed the bottle of blood to Chen Xiang.

Chen Xiang took it, and immediately opened the bottle, dripping blood onto his palm. The majority of the blood dripped onto the bottle, on his entire palm!

When the white clothed female saw that Chen Xiang was fine, she was immediately stunned. The others were the same, especially the person who poisoned Chen Xiang!

Just when everyone was startled, Chen Xiang did an even more shocking action. He actually absorbed the blood in his palm into his own body, intentionally allowing the poison blood to seep into his body.

As the white-clothed woman was shocked, she was also secretly excited, as if she had seen hope!

Chu Hongqing was also shocked. Now she knew that Chen Xiang was not bragging just now, it was really his impenetrable!

"This big brother ..." How are you doing? Have you really seen this poison before? " The woman in white asked.

"It's slightly different from what I've seen, but it's more or less the same. It can be said that it's even more powerful than the poison I've seen." Chen Xiang frowned, his expression was stern: "Whether or not I can cure the poison will have to wait for me to concoct the pill!"

Right now, Chen Xiang was sure that the middle-aged man inside the crystal coffin was a dragon. Furthermore, its strength was extremely terrifying.

Chu Hongqing had told him before that dragons were very rare here, and they were all very powerful and mysterious!

The poison was very similar to the Black dragon flower poison he was familiar with. It was just that it dealt severe damage to dragons and didn't have much poison effect on humans and other savage beasts.

[Chapter 2397](#)

In their eyes, Chen Xiang did not look like an expert, especially when he was staring at the white clothed female. However, when they saw that the poison blood did not cause him any harm, they all felt that they were mistaken.

The white-clothed woman knew very well about that poison. If they, these Ancient Era's Divine Dragons were to be poisoned, they would all be half dead. Yet, this human before her was completely unharmed.

"Are you really okay?" The woman in white asked again, "Just now, you absorbed the poison into your body. Many experts are unable to withstand the poison!"

"Do you see how I look like now that I've been poisoned?" Chen Xiang laughed: "Miss, please keep your father safe. Once the Heavenly Dao Meet is over, I will help you concoct pills to cure his poison."

Chen Xiang felt that he could get rid of the Three lotus Dan with a slightly higher level of cultivation. It was just that he wanted to fish for a little more, since the other party was an Ancient Divine Dragon, they would definitely have a lot of good stuff.

"Can't you do that now?" The woman in white was slightly anxious as she asked, "Big brother, what pill are you refining?" Is it going to take long? "

The woman in white believed that the pill required a long time to refine in order to cure her father's poison.

"I still want to attend the Heavenly Dao Auction! I have already registered for the pill forging competition, and I still lack a portion of medicinal herbs. However, you don't have to worry, I promise I will be able to cure your father of his poison! " Chen Xiang laughed.

If not for the fact that Chen Xiang had not come in contact with the poisonous blood earlier, no one present would have believed that he was such an expert.

"Alright!" The white-clothed woman placed her father inside a storage ring and whispered, "Big brother, I have been by your side for the past few days. Right now, I am also on my own."

The white clothed female was not afraid that Chen Xiang would do anything to her, because she knew her own strength.

"Well... "Fine, I'll concoct the antidote for your father after the competition is over." Chen Xiang laughed: "My name is Yun Fei, what about you, miss?"

"Long Shuangru!" The woman in white spoke softly.

Chen Xiang also guessed that she was surnamed Long and nodded, "Miss Long, you must have come from somewhere very far away! "They don't look like people here!"

"Yes sir!" Long Shuangru replied and then stood beside Chen Xiang. Everyone was a little jealous when they saw this, and with this, a beauty became's follower.

Chen Xiang really didn't have time to refine pills right now. He had originally planned to let Long Shuangru contact him after a while, but he didn't expect Long Shuangru to take the initiative to ask to follow him, so he reluctantly agreed.

"Hey, can you really help her father cure the poison?" Chu Hongqing asked: "Don't lie to me!"

"How would I dare!?" She is a dragon, and is very strong. She followed me probably because she was worried that I would die. Right now, I am her father's only hope in curing the poison! " Chen Xiang replied with a smile, "My wife, Bai Long, was also infected by this kind of poison before. I solved it on that occasion."

Now, Chu Hongqing was a little convinced of what Chen Xiang had said. She had seen how terrifying that poison was and how it could quickly melt a Dragon Lion.

Just like this, Chen Xiang brought Long Shuangru to wander around the plaza, but Chen Xiang was having a lot of fun, while Long Shuangru seemed to be deep in thought, as he followed by Chen Xiang's side with his head lowered, not interested in anything around them.

Chen Xiang bought a lot of things, all of them were refining ingredients, especially the top quality materials that he bought the most. Xue Xianxian and the others loved these things the most.

In the evening, the Fire Reverent School's plaza was still very lively, but Chen Xiang was already tired of playing. He brought Long Shuangru out of the Fire Reverent School and arrived at a relatively good inn.

Although Long Shuangru was a dragon, she still ate these things. When she ate, she did so elegantly, unlike Long Xueyi who ate like a tornado.

"Miss Long, you don't have to worry. I will definitely be able to cure your father's poison." Chen Xiang laughed: "Seeing that you haven't been happy all day, you must be worried about this!"

"En!" Long Shuangru said softly, "Other than worrying about my father's poison, there's also your safety!"

Chen Xiang raised his eyebrows, and laughed dryly: "Could it be that some strong person wanted to kill your father, and in order to prevent your father from coming back to life, they would kill me?"

Long Shuangru lightly nodded his head, "I'm sorry, I didn't say this before. If you can cure my father's poison, I will double the amount of Jade money you have and my father will also eradicate his enemy. At that time, they will not take revenge on you."

"Actually, I'm also quite a troublemaker. If I cause any trouble, Miss Long, please help me block it for a while." Chen Xiang laughed.

He had guessed that Long Shuangru's father had a strong enemy, but he did not think that he would actually follow Long Shuangru here, so why didn't he kill him? He felt that Long Shuangru's identity must definitely not be simple.

"No problem." Long Shuangru agreed very straightforwardly.

"Why are you participating in the Pill Forging Competition?" Long Shuangru asked again: "Is it for the Jade money? I can give it to you! I only wish for you to cure my father of his poison as soon as possible! "

"It's not because of the Jade money, you are not Alchemist, so you do not know how important the competition is!" Chen Xiang said.

Long Shuangru had already put down her chopsticks and used her hand to hold her cheek as she stared at Chen Xiang's face. Chen Xiang was currently wolfing down her food, and when he noticed that Long Shuangru was looking at him, he immediately felt a little unnatural.

"I always felt that your face wasn't real!" Long Shuangru said.

It was said that only the White Dragon Clan could use this technique, at the moment, Chen Xiang did not dare say that he knew this method, he was afraid that the dragon race had a death rule, and did not allow humans to use this ability.

"I've said that I'm a troublemaker, so my name and face are fake. Please forgive me!" Chen Xiang laughed and continued to eat.

"I have seen many Alchemist, their strengths are many times stronger than you, but they are powerless against my father's poison, especially when they see the power of that poisonous blood, they are extremely afraid!" Long Shuangru then asked: "Are you hiding your cultivation?"

"Of course not, I really just entered the Dao Ti realm, I don't even have a single trace!" Chen Xiang did not know why, but this Long Shuangru suddenly spoke a lot more.

"My alchemy skills are very profound. If I had the strength of those guys, hehe, I could dominate this world." While Chen Xiang was chewing on vegetables, he was not domineering in the slightest when he said these words.

At night, Chen Xiang returned to his room and looked at the three divine lotuses of the Three lotus Dan. After that, he closed his eyes and began to condense the purple pearls;

[Chapter 2398](#)

Early in the morning, Chen Xiang walked out of his room and saw Long Shuangru bringing over some pastries, which had a fragrant smell.

"Hurry up and eat it. I made it myself." Long Shuangru said gently.

"You can still do this." Chen Xiang said while laughing, and then walked over and quickly swept it all away. Of course, he also left some for Chu Hongqing who was inside the ring to taste.

"Today, I am going to participate in the pill refining competition. I can compete in three rounds a day." Chen Xiang said: "After the competition, bring me to a safe place and I will start my closed door cultivation to refine pills."

Long Shuangru nodded, then walked out of the inn with Chen Xiang and headed towards the Fire Reverent School.

There was finally a competition area in the plaza, and a stage had been built. Since the pills and cultivators were closely linked, it brought many benefits to the cultivators, so the competition was worthy of their attention. This would let them know that the Alchemist was stronger.

"Neither Chu Hongqing nor Chen Xiang came. Did they escape or were they killed?"

"I don't know, there must be something fishy about this, especially that Chen Xiang. He must be very interested in this kind of competition, he definitely won't come."

"It's very possible that he was killed by the Fang family. Who asked him to refine such an important Qiyuan Dan of the Fang family? It would be strange if he didn't die."

"That's true, with Chen Xiang dead, Chu Hongqing is also dead, what a pity."

During this period of time, Chen Xiang was very famous in the Fang family. It was like taking Chu Hongqing as a servant and refining a Qiyuan Dan to make the Fang family lose 200 million.

That was why many people wanted to see him today. After all, many of the people present had never seen him in person.

Long Shuangru and Chen Xiang walked over together, and when she heard these words, she glanced at Chen Xiang with a hint of a smile in her eyes, as if she had already guessed Chen Xiang's identity.

Chen Xiang met her gaze, shrugged his shoulders, and did not say much. He then took out the jade tablet he obtained when registering and entered the competition grounds.

Chen Xiang saw Fang Heng again, and Fang Heng also came to participate. Other than him, Lan Taotian was also familiar with all of these things, and there were also many disciples from famous sects and families.

And the most eye-catching people were Fang Heng and a man dressed in gold, named Huang Xiaotian.

Chen Xiang quickly found out that Huang Xiaotian was Fire Reverent School Leader Huang Tian's youngest son.

"This Huang Xiaotian has a good relationship with him. They usually hang around together, and their standard of alchemy is about the same." Chu Hongqing said.

Originally, it was viewed as a battlefield for Fang Heng and his opponent, because of the few hundred Alchemists who were participating in the competition, they received the most attention.

However, after Chen Xiang changed his name to Yun Fei, he had also received a lot of attention. It was because yesterday, he had sworn an oath at Long Shuangru's place that he would be able to cure that strange poison, and that he would be fine if he touched that frightening poisonous blood.

She followed Chen Xiang because she wanted to protect him. This was her current purpose, and she had seen people who had a better hope of helping her father cure the poison.

Chen Xiang felt that today, he would definitely be able to ruthlessly defeat Fang Heng again.

Fang Heng and Huang Xiaotian's eyes lit up when they saw Long Shuangru who was outside the stage. Long Shuangru was not only beautiful, but also had a very refined temperament.

"Let the competition begin. Everyone needs to use our pill furnaces to test their pills. Only then will it be fair." An old man said, and then a lot of people walked in and gave out pill furnaces to the Alchemist.

At this time, Chen Xiang noticed Huang Xiaotian and Fang Heng, the two middle-aged men who gave out the pill furnaces gave them a meaningful glance.

Chen Xiang immediately furrowed his brows, because he could tell that Fang Heng and Huang Xiaotian's pill furnaces were of relatively higher quality and were extremely good quality, even though their outside appearance was no different from other people's pill furnaces.

"No matter what, I still have a few women who are skilled in smithing. How could I not be able to tell?" Chen Xiang could immediately tell that something was amiss with their pill furnace, and he sneered in his heart.

It was clear that the Fire Reverent School was manipulating them secretly, allowing the two of them to last until the end. Only this way would they be able to become stronger and become more famous.

"If you can get first place in this competition, you will be able to obtain a high-grade king level pill formula and a portion of medicinal ingredients. You are also a Dao mark Dan that everyone is very familiar with, a rare Emperor Pill that can help you gain insights." An old man said.

The Alchemist was immediately in an uproar. This was indeed an extremely precious pill recipe, and if he could get more medicinal ingredients, it would be even better. There were not many people who knew how to refine this pill, and only Fire Reverent School's and some elders knew about it, so they could not casually teach it to others.

"Although Huang Tian is the Fire Reverent School Leader, he cannot give the pill formulas to others as he pleases. Otherwise, he would have already given it to his own son. If he were to give it to them casually, the elders of the Fire Reverent School would definitely not let him off the hook so easily. However, as the highest reward for the competition in the Natural Law Divine Realm, it is actually permissible for him to give it to his son." Chu Hongqing said.

"I saw it just now, when they gave out the pill furnaces, they gave Huang Xiaotian and Fang Heng the best pill furnaces. It seems that the moment they wanted to start, they caused all the other Alchemists to fail." Chen Xiang said.

"They want to make sure that either Fang Heng or Huang Xiaotian get the Dao mark Dan's pill formulas." Chu Hongqing said: "How despicable."

Chen Xiang laughed: "But it's different now, I must get the pill formulas, of course, the most important thing is to get the ingredients."

Now, Chu Hongqing also knew the heaven defying ability that Chen Xiang had used to duplicate medicinal herbs. Medicinal herbs were indeed very important to him.

"Be quiet." The elder in charge shouted, "Next, I will announce the rules. The rules are very simple. In a limited time, just refine the best quality pills. Regardless of the number of pills you produce, just look at the quality."

Chen Xiang immediately guessed that this old man would definitely have a special quality testing tool. As expected, it was a very tall stone tablet with a lot of markings on it, and at the bottom of the stone tablet, there was a pit where one could place a pill.

Chen Xiang had seen many of these kinds of tools that could be used to test the quality. They were all of similar quality and more trustworthy, so he couldn't do anything about it.

At this moment, the old man was using a lot of pills. They were all of good quality, with a maximum of two hundred, while the pills he was testing were all capable of lighting up a bar of one hundred and fifty.

In terms of numbers of pills that came out, Fang Heng had suffered greatly. Clearly, this was to prevent Chen Xiang from having such terrifying numbers, so they only competed in terms of quality.

Although they knew that Chen Xiang would not come, they still chose to follow this rule in case a Alchemist like Chen Xiang appeared.

"Those who reach the top 50 will be able to enter the next round. There will be a total of three matches. The rules are the same, but the pills refined will be different." The old man said. Right now, there were people distributing the Yaoge Dan's medicinal ingredients.

[Chapter 2399](#)

Refining Yaoge Dan was a piece of cake for Chen Xiang. He felt that he would definitely be able to enter the top fifty without any pressure.

"I have to finish this in two hours." The old man said: "For the first round, let's start the refining of the Yaoge Dan."

Many of the participating Alchemist began to frown as this was rather harsh on them. After all, the rule now was that they would only compete in terms of quality, and that would require a lot of time to compress.

From the very beginning, many people were complaining that the pill furnace was terrible.

"What lousy pill furnace is this? It's no different from mud, I'm not going to forge it anymore." A large man shouted out angrily as he smashed the pill furnace with his palm.

One could see how terrible the pill furnace was when it turned to dust.

Many people left the venue without even starting.

"A truly skilled Alchemist would succeed even without a pill furnace. Don't you know that Chen Xiang did not even use a pill furnace to refine ten pills? It seems like Fire Reverent School did this on purpose.

Chen Xiang did not expose the pill furnaces Fang Heng and Huang Xiaotian used, even if he wanted to, he would have to wait until he obtained the Dao mark Dan's pill formulas.

Everyone was surprised at first, but after a short while, there were only three people left.

Chen Xiang, Fang Heng and Huang Xiaotian, the rest could not stand that broken pill furnace, some of the pill furnaces were directly melted in the beginning, and could not even be activated, which was why many people had no choice but to give up.

"This Yun Fei is pretty good, he actually persisted for so long."

"I thought this guy only knew how to boast. I didn't expect him to be so powerful. No wonder he dared to say that he could cure the poison."

"Fang Heng and Huang Xiaotian are truly Supreme Flame's disciples. Their son was able to use this broken furnace to refine pills for so long."

Everyone was discussing amongst themselves, and the Alchemists who were leaving the competition could not refuse to admit to it. At least, they were unable to do so, and could only secretly hate themselves for being too low leveled.

However, many people felt that it was strange, because many of the participants in the pill refining competition were disciples of famous sects.

Long Shuangru had also seen through a lot of things. She knew that Fang Heng and Huang Xiaotian's pill furnaces were very good, they were given to them intentionally by the Fire Reverent School to eliminate everyone else. That way, they could save on medicinal ingredients, because many people left without concocting pills.

When Long Shuangru saw that Chen Xiang could endure for so long using a broken pill furnace, she felt that the chances of it happening was even higher. She had already guessed that this Yun Fei was that Chen Xiang before, and had also heard of his deeds in Fire Tao Divine Place.

Just now, Chen Xiang could tell how sinister the Fire Reverent School was, so he didn't plan on showing such an astonishing performance at the start.

Very quickly, Fang Heng and Huang Xiaotian had finished refining, and Chen Xiang was a little later than them.

"There's no need to test for quality anymore, because the first round's rules is that one will be able to enter the next round after entering the top fifty. Now there's only the three of you, and as long as you can refine Yaoge Dan, you will definitely be able to enter the next round."

Just like that, the second round began without any further testing.

"For the second round, to refine a middle grade heaven stage Yaoge Dan, the two with the best quality will be able to enter the third round. The time limit will still be two hours." The old man said again.

Chen Xiang took a deep breath, he could not hide his true strength this time, if not, he would be eliminated if his quality was not good enough.

"I know Fang Heng's standards. As long as I perform normally, my quality will definitely be better than his. Moreover, I'm only refining one pellet, it shouldn't be a problem for me to be stronger than him." Chen Xiang carefully considered for a moment before deciding on how to refine it.

Two hours passed by very quickly. When they were close to the end, they announced the completion of the refinement process. This time, they would need to conduct a quality test.

The first one he tested was Fang Heng. After he placed his Yaoge Dan in the pit, he saw that the ranking bar on the stone tablet had lit up, it was at the one hundred and thirty position.

This was the best, Fang Heng was very satisfied.

Then it was Huang Xiaotian's turn. He was at the 145th position, which made him very proud, because he was much higher up than Fang Heng.

Finally, it was Chen Xiang's turn.

It was also because this arena was viewed as Huang Xiaotian and Fang Heng. Whether or not they could break this theory, all they could do was rely on Chen Xiang.

"Yunfei, it's your turn." the old man shouted.

Fang Heng and Huang Xiaotian were more wary of Yun Fei, because they knew that their pill furnaces were all good, while Yun Fei's pill furnaces were very broken, but to be able to hold on till now, he definitely had a good foundation.

"One hundred and thirty-five." The old man said in shock. Everyone could see him clearly, and with that, Fang Heng would be wiped out.

Fang Heng had been eliminated, which made Fang Heng extremely angry. He was the genius of the Fang family, the disciple of Supreme Flame's Leader, but he had been taken down by a nameless newbie.

Of course, Chen Xiang had suppressed himself earlier, otherwise his quality would not have been so low.

Huang Xiaotian did not think much of it, because during the test just now, Chen Xiang was slightly lower than him. He felt that Chen Xiang was only at this level, and he would definitely win the next round.

Fang Heng walked out of the arena in an extremely unreconciled manner. This arrangement had already been made in the beginning, and would let him and Huang Xiaotian's battle to the end, even if he lost, it would not look that bad. To him, this was a great shame, and others would laugh at him in the future.

"The third match, is still a Yaoge Dan, it's just a high-grade Heaven-ranked Yaoge Dan, it's only for six hours." The old man said.

Chen Xiang looked at Fang Heng's furnace, which was still there. He hoped that the old man had not kept it, or else he would not have a chance to reveal it.

As expected, the old man didn't keep them and announced the start of the competition.

Chen Xiang did not even put Huang Xiaotian in his eyes. Forget about Huang Xiaotian, even if Leader Huang Tian came, he could guarantee his victory under these rules.

This was because the quality of the Yaoge Dan that he refined using the Crash method was extremely shocking. He wasn't sure how much quality it would have, but it would definitely not be any worse than Huang Xiaotian's.

In the previous two rounds, he did not use that broken pill furnace at all. He had even released a Magic method furnace from the broken pill furnace, so the broken pill furnace would not be damaged because of that.

Refining high-grade Heaven-ranked Yaoge Dan required at least six hours, which was extremely demanding. Many Alchemists required at least ten times the amount of time, and some needed even more than a month to complete it.

Therefore, no matter what, as long as they could refine a high-grade Heaven Ranked Yaoge Dan at this time, they would be a very promising Alchemist.

Huang Xiaotian was sweating profusely, it was obvious that he was not relaxed either, it was the same for Chen Xiang, because using Magic method furnace to execute Crash methods was very challenging.

[Chapter 2400](#)

At this moment, Huang Xiaotian's face was full of pride, as if he had already won. In his opinion, the quality of the Yaoge Dan that Chen Xiang had refined before was much lower than his own, so this round would definitely not be able to surpass his.

Everyone felt the same way, because Chen Xiang was not only sweating, he was frowning. It was obvious that he was facing a huge difficulty and was trying his best to save his opponent.

He had used the Crash method just now, and it was even within the Magic method furnaces. It had to be known that the upper grade heaven stage Yaoge Dan did contain an extremely rich amount of energy, and adding to that, when he used the Crash method, he still needed to add a lot of his own energy as a push, to charge through the formation.

Therefore, when they collided, the energy that erupted was extremely terrifying. Previously, he had his Chuangshi god furnace, so he did not have to worry about the energy that would spread to his pill furnace.

But now it was different, his pill furnace was too damaged, and he could only use Magic method furnaces to strengthen it from the inside.

Only after continuing for a long time did Chen Xiang finally relax. It seemed like he had already completed the collision process, and had even merged all of it together.

"Look at Yun Fei's pill furnace." A man with sharp eyes shouted in a hurry.

Everyone immediately looked carefully and found that there were many cracks on the surface of the pill furnace. The cracks were like spider webs that covered the entire surface of the pill furnace.

In fact, the pill furnace had already been shattered by the force of the explosion. In order to prevent others from seeing him using the Magic method furnace to concoct pills, Chen Xiang had used his own strength to wrap it up, preventing the pill furnace from shattering.

If he were to be exposed now, the Fang family and Huang Tian would know that he was Chen Xiang, and at that time, he would not be able to obtain the Dao mark Dan's medicinal formula.

Although there were cracks on the surface of the pill furnace, Chen Xiang did not explode, which was a very strange thing for many Alchemist, it looked like there was an invisible force enveloping the entire pill furnace, preventing it from breaking, and that required a very clever control over the furnace to do.

Many people secretly admired him. They all understood how Chen Xiang was able to endure using a pill furnace to this point, they felt that Fang Heng and Huang Xiaotian were doing the same thing, if not for the pill furnace, they would not have been able to last till now.

Time was running out. Although it was only four hours, the spectators were still chatting and did not feel bored.

"If this Yun Fei wins first place, then the Eternal Life Native Bank will have a huge profit because no one will be able to buy this result."

"Yeah."

Everyone passed by the Eternal Life Native Bank and made a small bet, but they did not know that Chen Xiang had placed a huge bet.

The old man in charge of gambling from Eternal Life Native Bank was also watching on the side, cursing Chen Xiang in his heart. If Chen Xiang could endure through all three matches, his Eternal Life Native Bank would not be able to earn much either.

"Time is up." An old man on the stage shouted.

Chen Xiang and Huang Xiaotian opened their eyes at the same time. They had already completed it long ago, but had allowed the pellet to stay in the furnace for a while to absorb the Qi that was in the furnace to strengthen the pellet's quality.

Both of their pills were of the same black color. It was hard to tell which one was better from the outside, so they had to pass the test.

"You first." Chen Xiang smiled faintly.

Huang Xiaotian walked over, and then placed the Yaoge Dan he refined into a pit, only to see the stone monument suddenly lit up.

"One hundred and sixty. This one has already surpassed your father." the old man said in surprise.

Huang Xiaotian was extremely pleased, because he knew that his father's previous tests were not as good as his.

"It's your turn, I'm also a pretty good Alchemist. Even if you lose, don't be discouraged and join our Fire Reverent School." Huang Xiaotian laughed, looking at his proud smile, it was as though he had already obtained first place.

Chen Xiang walked in front of the stone tablet and placed his Yaoge Dan in the hole. At the same time, everyone was also confused why the stone tablet did not light up.

"Top." A person shouted in shock, "Two hundred! His quality is actually two hundred!"

The crowd didn't think that it had 200 points in quality, so they didn't pay attention to it from the beginning. Now that they saw it, they couldn't help but be stunned.

It was indeed two hundred.

Chen Xiang felt that the pellet he had refined was not just of such quality. It should be of a higher quality instead, just that the stone tablet only had 200 tick marks.

"Impossible." After Huang Xiaotian saw it, he shouted, "This monument must be broken, it can't be of such high quality."

"Try your one again." Chen Xiang smiled slightly.

As expected, Huang Xiaotian tried again, and it was at the one hundred sixty scale bars that lit up.

Now, everyone believed that the test method was not broken, it was just that Huang Xiaotian did not accept this fact.

At this time, a middle aged man suddenly appeared. It was Huang Xiaotian's father, Huang Tian.

When the Fire Reverent School Leader appeared, Chen Xiang immediately became vigilant.

"Dad, there's definitely something wrong with the stone tablet." Huang Xiaotian anxiously said: "You said it before, it is impossible for it to be that high quality."

Chu Hongqing was also very surprised that the pill refined by Chen Xiang would be of such high quality. If she did not have a deep understanding of Chen Xiang, she would not dare believe that this was true, because she understood the testing monument very well.

Huang Tian nodded and said, "I also feel that it's strange, so I brought a better one. Let's do the test again."

Huang Xiaotian was instantly overjoyed, and said: "Quickly, take it out."

Sure enough, Huang Tian took out another one. This one was taller than the previous one, and there were even more than the previous one. In total, there were four hundred of them.

Chen Xiang found it funny. "It's impossible for the quality to be that high, why did you make so many scale bars, this stone tablet shouldn't have been created by you guys, right?"

Everyone also felt that it was strange. The two hundred grade stone tablets from before was understandable, because the quality could reach 160, or even 170. This could be considered the peak, which could be considered normal.

However, the one that Huang Tian had taken out really did have four hundred scale bars. There was clearly a contradiction between them.

The quality is limitless, I said before, it is impossible to reach such a high level, it is based on our current level, this world is big, there are not only Fire Tao Divine Place, and this stone tablet is also very ancient, it was left behind by ancient people. Huang Tian said.

Chen Xiang secretly frowned, because he had already returned to the most ancient Big Chaotic Times, and Huang Tian actually said that there were still people from the ancients.

Huang Xiaotian immediately walked up to test his Yaoge Dan. It still had a hundred and sixty points, and everyone could clearly see it light up on the one hundred and sixty points mark.

"It's your turn." Huang Xiaotian said as he looked at Chen Xiang.

"Coming." Chen Xiang walked over, and after placing his own Yaoge Dan on it, he immediately looked up.
