

Dan God 2401

[Chapter 2401](#)

Seeing the scale on the stone tablet light up, everyone sucked in a deep breath and lit up. Then, a burst of exclamations broke out.

It actually lit up on the 324 mark.

"Over 320 points in quality, quite a bit higher than the previous 200 points." One of them shouted, "In other words, the testing monument from before was not broken, but the Yaoge Dan that this fellow refined was of too high a quality."

"To think that it would be twice as good as Huang Xiaotian's. Is this for real? This quality is too scary."

Huang Tian was also stunned. He had concocted pills for so many years, and had also meditated everyday to improve his quality, yet his limit was only 109. Chen Xiang was actually higher than him by so much.

"You've won. This is your reward." Huang Tian took out a jade box. Inside it was the Dao mark Dan's pill formula and a set of high-quality medicinal ingredients.

Chen Xiang looked at the pill formula, checked the ingredients, and confirmed the information. Then, he accepted the ingredients.

"Yun Fei, right? I admire your refining skills very much. I wonder if you are interested in entering our Fire Reverent School. I will make you an elder of our Fire Reverent School." Huang Tian laughed as he said this. He really wanted to learn how to refine high quality skills.

"I'm not interested. It would be better if your Fire Reverent School were open with the public ... Of course, I had thought that you did not plan to give me the Dao mark Dan's pill formula." Chen Xiang laughed.

"Brother, what do you mean by that? If you don't explain it clearly, I will treat it as an insult to our Fire Reverent School. The consequences will be severe." Huang Tian's face darkened as he said.

Chen Xiang immediately controlled his Spirit Force and struck the pill furnaces Huang Xiaotian and Fang Heng used just now, sending the two pill furnaces flying towards the crowd of people, falling amongst them.

"Everyone, take a look at these two pill furnaces. Are they different from the trash that everyone just used?" Chen Xiang sneered, and the pill furnace he used just now had already shattered after he condensed the pill.

There were a lot of Alchemist who went up on stage just now, as they had a very deep impression of those broken pill furnaces. But now that they saw the pill furnaces used by Fang Heng and Fang Heng, they became extremely angry.

This was because the two pill furnaces looked the same on the outside, but their insides were vastly different. They were vastly different from their crappy pill furnaces.

"Damn, so that's how it is. It's too dark, Fire Reverent School is actually this kind of guy. He's manipulating everything in the dark."

"No wonder those two bastards were so calm and concocted pills. So their pill furnaces were all good stuff and they gave us trash. We were rotten before we even f * cking started."

"Seems like Yun Fei is really capable. If Yun Fei did not expose us, we would still be in the dark. If Fang Heng and Huang Xiaotian had used those broken pill furnaces, I think they would not have survived the first round like us."

"That's right, we might even be stronger than them."

Hearing the angry complaints of many people, Huang Tian clenched his fists so hard that they began to clatter. He naturally knew of this matter, but he never thought that this "Yun Fei" would actually expose it so recklessly.

At this moment, Long Shuangru felt really satisfied in her heart. As long as it was someone with a little morals, they would all dislike Fire Reverent School's secret operation. She did not expect Chen Xiang to be so bold as to expose it.

"You ... "You're fine." Huang Tian wanted to kill Chen Xiang with a palm, but Long Shuangru suddenly flew up and stood beside him.

Long Shuangru now really believed that Chen Xiang could cure her father, so she had to protect Chen Xiang no matter what. Now, she saw for herself why Chen Xiang said that she was a troublemaker before.

If Long Shuangru was not here, Chen Xiang might have left after winning.

Huang Tian saw through Long Shuangru's strength with a single glance, especially the aura that Long Shuangru had released when he was preparing to fight, which gave him a huge pressure.

The originally angry Huang Tian now seemed somewhat fearful.

"Let's go." Long Shuangru also didn't want to fight with Huang Tian, it wasn't because she couldn't win against him, but because once they started to fight, she had no time to take care of Chen Xiang, and she also had her own enemies.

Looking at Chen Xiang's back figure, he seemed to have already guessed that this Yun Fei was Chen Xiang.

... ..

"You guys need to go take a look at that earth seal. Chen Xiang might have already ran out long ago and brought him away. Also, didn't you guys tell Chen Xiang a lot of things before?" Huang Tian's voice was very low.

The Fang family's elders who were sitting in the hall, upon hearing Huang Tian's words, immediately denied it, saying that they had never said anything to Chen Xiang.

They had indeed said a lot, and had even revealed the very important fact that Chu Hongqing was secretly cultivated by Huang Tian. If they were to admit it now, Huang Tian would definitely be furious.

"It's definitely impossible for him to break the seal. Don't tell me you suspect that Yun Fei is Chen Xiang?" An old man from the Fang family said.

"Other than him, who else has such great alchemy skills? I heard that a few juniors from your Fang Clan died yesterday, right? Don't you think that someone is targeting you?" Huang Tian laughed coldly: "Yun Fei is definitely Chen Xiang, it's just that he has hidden himself well, and he has a terrifying dragon by his side."

Regarding Yun Fei wanting to cure Long Shuangru's father of the poison, Huang Tian also understood a little, so he understood why Chen Xiang dared to be so arrogant.

"Alright, let's go take a look now." An old man said.

Four hours later, they returned with expressions of shock on their faces.

"That's impossible! The seal of the earth is so powerful, but it's actually unable to seal a brat like him."

"Forget about Chen Xiang, the brat who just entered the Dao Ti realm, even if many old fellows were sealed, no one would be able to come out."

Huang Tian laughed coldly: "Chen Xiang really came out. It seems that he has many powerful methods, we must think of a way to deal with him."

... ..

Chen Xiang and Long Shuangru had already quietly left the Fire Tao Divine Place, and right now, it was Chen Xiang who was bringing Long Shuangru far away from the Fire Tao Divine Place.

"You really are Chen Xiang." Long Shuangru saw that Chen Xiang had changed back to his original youthful and handsome appearance, and said, "Exactly what method did you use, this makes me feel that it's very familiar."

"It's just a tiny spell, you don't even know what it is." Chen Xiang laughed.

"The art of transformation, right?" Long Shuangru smiled slightly: "Coincidentally, I have heard of this technique before, and I know of it too."

"You are the White Dragon." Chen Xiang said in shock.

The expression of Long Shuangru, who was smiling just a moment ago, instantly darkened, "How do you know? Other people only know that I'm a dragon, but don't know that I'm a white dragon.

Seeing Long Shuangru's wild thoughts, Chen Xiang immediately laughed: "Don't be so nervous, my transformation technique was taught to me by a White Dragon. Later on, I heard that only the White Dragon knew of it."

"Nonsense, I'm the only one with the White Dragon. When did I teach you the Art of Transformation?" Long Shuangru said: "The Transformation Art is a secret technique of my Dragon clan, there are a few

dragons that have grasped it, but they seem to be almost dead now, at present, only my father and I understand it."

[Chapter 2402](#)

Chen Xiang blamed himself on the inside, he shouldn't have said that Bai Long taught him this.

"If you said that the other dragons taught it to you, I would believe it, but you said that it was a White Dragon." Long Shuangru's tone became cold and full of hostility.

"You're the only one in the White Dragon." Chen Xiang did not expect this.

"Other than those guys, no one knows about the existence of the White Dragon, because I'm the only one." Long Shuangru said: "You must be sent by that group of people. Only they have the antidote, so you aren't poisoned."

Chen Xiang did not know that it would be like this, and he immediately explained it clearly.

"Don't be so excited. If I had sent that group of people, would I have been so stupid as to reveal such a huge opening?" Chen Xiang laughed: "This is a long story, and you would definitely not believe it."

Chen Xiang suddenly felt that this Long Shuangru might be Long Xueyi's ancestor. He found out that the White Dragon had a very special method of reproducing and that he could reproduce. In the time of the Star Law Divine Realm, Long Xueyi was also the only White Dragon.

"Those guys are here. Let's not talk so much with you first." Long Shuangru suddenly looked in a direction, but her expression suddenly changed: "So fast, this guy is very powerful, hide quickly."

Long Shuangru pushed Chen Xiang behind a large tree, then took out a white longsword, which was very similar to the White Dragon Sword.

"Little girl, where is that human man? Quickly hand him over." Just as Chen Xiang hid his presence, a black clothed man appeared.

"Huang profound, what do you want him to do? Is it because he can cure my father's poison?" Long Shuangru actually recognized this man.

"Nothing much. He took away something very precious from a clan member of my clan. I just happened to pass by and heard what he said, so I came all the way here. I have to say, your speed is quite fast." Huang profound laughed coldly.

This Huang profound was able to make Long Shuangru this cautious, so he must be very strong. He knew that the reason Huang profound grabbed him, was very likely to be to help Huang Tian snatch Chu Hongqing back.

"Just what is the background of this Huang Tian? He actually has such a powerful helper. Looks like the Fire Reverent School is not as simple as it seems." Chen Xiang asked Chu Hongqing.

"I don't know either. It seems like my cauldron is very important to Huang Tian." Chu Hongqing laughed.

Huang profound took out a long blade, and said coldly: "If you don't hand him over, don't blame me for being ruthless, I know he is nearby."

Long Shuangru snorted: "I'm not afraid of you."

After saying that, the surrounding forest became filled with ice, the cold wind blew everywhere, and in the blink of an eye, everything turned into a world of ice and snow, even Chen Xiang shivered from the cold.

"Ice Dragon's Lock, are you trying to let him find some time to escape?" A huge block of ice the size of a lock appeared under Huang profound's feet. Blue Spirit grain flowed down from the top of the ice, and the moment the Spirit grain moved, it released waves after waves of terrifying cold air.

"Yes, I know that my current strength is inferior to yours, so I can only do this." Long Shuangru formed a seal with both hands and closed his eyes. With one look, he could tell that she was using all her strength to trap Huang profound.

"Chen Xiang, quickly leave. I will definitely find you in the future. If you have time, refine the pill." Long Shuangru said, and did not give Chen Xiang a sound transmission.

After Huang profound heard this, he laughed out loud: "A guy who has just stepped into the Dao Ti realm, how far can he run? So what if you can stall me, sooner or later, I'll still find him."

"Why should I run? Wouldn't it be better to chop off your head?" Chen Xiang suddenly appeared in front of Huang profound.

"Haha ..." You ignorant fool, with this broken sword in your hands, forget about cutting off my head, you can't even cut off my hair, otherwise Long Shuangru would have come over long ago to kill me. I don't blame you, after all, you don't know how terrifying our Undead Divine Race is, we not only have an eternal life, we also have an indestructible body ... "

Before Huang profound finished speaking, Chen Xiang cleaved a sword strike at his shoulder, easily slicing apart the thick layer of ice, and then, chopped off Huang profound's arm which was at his shoulder's shoulder.

"It's not that amazing. This is the Eternal Body that you spoke of. Is it really impossible to break your hair?" Chen Xiang smiled, and with a wave of the Heavenly magic sword in his hand, he easily turned Huang profound into a big bald man.

Huang profound was stunned, Long Shuangru was even more so, dumbstruck. They never thought that Chen Xiang would actually be so powerful.

They immediately understood that it was because the Heavenly magic sword in Chen Xiang's hands were extremely terrifying.

Pah pah pah pah.

Chen Xiang patted Huang profound's bald head, and laughed: "Your bald head should also be easy to chop off"

"You ... You must know how terrifying our Undead Divine Race is. If you don't believe me, ask Long Shuangru, their dragon race is very afraid of us. " Huang profound's arm was bleeding. Chen Xiang could easily cut off his arm, and he could also easily cut off his head.

"Of course I know, your Undead Divine Race still has Sky Spill Master and Undying Battle God right ..."
Other than that, there's also the Undead Heaven Spirit. Chen Xiang laughed.

"Undead Heaven Spirit... How exactly do you know? Even I have only occasionally heard of it from my clan's elders." Huang profound asked in shock.

"My master told me. Alright, I've already answered so many questions. You can die in peace now."

As soon as he finished speaking, the Heavenly magic sword in Chen Xiang's hands had already hacked towards Huang profound's neck, chopped his head off, and then burned inside the Chuangshi god furnace.

He, the Undead Divine Race, understood very well that if they did not destroy or seal everything in their opponent, they could be reborn.

Chen Xiang's movements were nimble, he threw Huang profound into the Chuangshi god furnace and then grabbed onto Long Shuang and teleported far away. Furthermore, he was using a spatial barrier, so Huang profound was able to sense Long Shuangru's faint dragon aura and that was why Huang profound was able to trace him here.

Far away from the place where Huang profound was killed, Chen Xiang brought Long Shuangru to a small river to rest.

He took out Huang profound's long blade, collided with the Heavenly magic sword a few times, and was crippled. He never thought that the Heavenly magic sword would still be this terrifying even in this era.

"Do you know the consequences of killing Huang profound?" Long Shuangru faintly asked: "Since you are relatively clear about the matters of Undead Divine Race, you should know."

"I don't know what the consequences will be. I only know that if I don't kill him, he will kill me in the future. He came for me this time, and I have something very important in my hands." Chen Xiang said indifferently.

Long Shuangru leaned against a tree, hugged his knees, and snorted: "Troublemaker."

Chen Xiang laughed heartily: "I've already told you this before."

[Chapter 2403](#)

Seeing that Chen Xiang was still smiling so happily, Long Shuangru secretly clenched her teeth, because she knew the background of the man named Huang profound.

"You're very afraid of them. What if your father recovers?" Seeing Long Shuangru's worry, Chen Xiang asked.

"It won't do if my father recovers. Our dragon clan will be split up by those fellows." Long Shuangru sighed: "Our Dragon Clan was originally very peaceful, but because of that group of fellows, we were split into three factions. The faction which my father commanded was opposed to the other, while the other was neutral, and had already retreated."

"Your father is already like this. It seems as though his faction should be under his command ..." Chen Xiang sighed, and did not continue.

"Yes, we lost very miserably, because the other side had the help of the Undead Divine Race and our strength was far too different, so we lost. My father was also poisoned and became like this." Long Shuangru nodded.

"Shuang Ru, why didn't the Undead Divine Race kill you? They should have had a lot of chances to kill you, but they still let you live until now." Chen Xiang asked.

"This is a secret." Long Shuangru also knew that Chen Xiang was not stupid, he must have thought of a lot of things, "This guy is also hiding a lot of secrets, I have not found out about the matter of you learning the Transformation Techniques yet."

Chen Xiang laughed: "In short, I'm not sent by Undead Divine Race, and I promised you that I would help your father cure the poison, you also said that you would give me double the amount of Jade money s you gave me at that time."

"Are you sure you can cure my father's poison? Although I know that your alchemy skills are very strong, but that poison is very strong. It is also recorded in the ancient records of our Dragon clan. Many of our dragon race's experts were infected with that poison and died in the end." Long Shuangru said.

"Ancient book, how many years have your dragon race existed for?" Chen Xiang had already been suspicious about this since long ago. He believed that the current era when he was in Big Chaotic Times should be the time when all the races had originated.

"It's been many years. I'm not too sure either. Anyway, there's an ancient book here." Long Shuangru shook his head.

Chen Xiang thought about it, then came to a conclusion. They were at the Big Chaotic Times, but only at the later stages of the era.

"The poison your father was infected with is very similar to the poison I have seen before. In fact, the poison is only used against your dragon race, and my place calls it the Black dragon flower poison. Legend has it that because the Black Dragon race was not favored by them, they created this poison to specifically take revenge on other dragons." Chen Xiang replied, "The Black Dragon race is an evil dragon in our world."

Long Shuangru frowned: "Black Dragon, I have never seen or even heard of this white dragon before, but this white dragon of mine was also newly born. At the very beginning, there was only the green dragon, and only later on did it evolve into a dragon with a different color, and used a different type of power."

"Where are you? The dragons there are very different from the ones I know."

Chen Xiang laughed, "I returned to this era from the future ... Sigh, it's hard to explain in a single sentence. In short, in my era, the number of dragons were many. Although their overall strength was great, they were still inferior to humans. "

"The future." Long Shuangru was extremely shocked, and so was Chu Hongqing.

"If that's true, then you should master the Time Laws. You came back alone or with a large group of people. Why did you return to this era? Is that not the best time of your era?" Long Shuangru asked a series of questions, the same as what Chu Hongqing wanted to ask.

"I didn't grasp the laws of time. I only entered the laws of time by mistake, and then accidentally blended my time and this era together ..." That's why all the living creatures of our era have been covered here. " Chen Xiang laughed bitterly: "Compared to you, the overall strength of our era was very weak. You must know that in the past, I was very strong."

Chu Hongqing now understood why even though Chen Xiang seemed to know nothing about this world, he was actually extremely shrewd and ruthless. He did not seem like a little imp who knew anything about the world.

"The main reason we came back was because our era was about to be destroyed. The top experts who protected our era were also unable to deal with those bastards, and they also ran back to this era. In the end, I could only do this." Chen Xiang sighed.

"Could the guy who wants to destroy your world be the Undead Divine Race?" Long Shuangru asked.

"Mn, there's still one more Evil Spirit Race ... or more accurately speaking, it should be the Red Spirit Race s. " Chen Xiang said: "Have you heard of this race before?"

"I've heard of it." Long Shuangru sighed: "There are very few Red Spirit Race here, but they are very scary, and they are very unreasonable here, but the other races, together, can still suppress them."

"Why didn't the other races help when something happened to the dragon clan?" Chen Xiang asked.

"This is the cleverness of the Undead Divine Race. He had us fight amongst ourselves and then secretly help the entire sect. This is the internal affairs of our Dragon Clan, no other races are allowed to interfere." Long Shuangru said.

"The Undead Divine Race is starting to weaken the various races." Chen Xiang replied, "Why is the Undead Divine Race like this? In my era, there was a very good school of Undead Divine Race. One of my teachers was the Undead Divine Race."

"I'm not too sure either. In short, your era has merged with this one. There will definitely be a great change in how it develops in the future." Long Shuangru shook his head.

After the rest ended, Chen Xiang stretched his back.

"Where are you bringing me? Are you going to your territory?" Long Shuangru said, "When you return to this era, you must be very weak. You should hide your abilities well."

Chen Xiang nodded his head: "They are not very knowledgeable about this world, especially regarding cultivation, so I have to pass on a message to them, and also that the pills here are more useful."

"Right now, it's still not enough. We are all being chased. If we lure that group of powerful people to your hiding place, you all will be in trouble." Long Shuangru anxiously pulled Chen Xiang: "If they had hidden themselves well, there's no need to worry too much about them. After all, you are once the apex existences of your generation, and have enough power to adapt to situations."

Chen Xiang thought about it, and felt that Long Shuangru was right.

"They are the Undead Divine Race. If you know anything about them, you should know how terrifying those Heavenly Evolution Masters are. They can track you." Long Shuangru said again.

"Alright, then where do we go now?" Chen Xiang asked.

"Just stay away from Fire Tao Divine Place." Long Shuangru said, then pointed in a direction, for Chen Xiang to bring her there.

Chen Xiang had many doubts about this era. He felt that this era was not just that simple. Following Long Shuangru's guidance, he arrived at a place with many islands floating in the sky.

"This is Divine Sky City, there are a total of ten thousand small and large floating islands, it is a relatively strange place, if you hide inside, it would be hard to calculate where you are in the Heaven extended method." Long Shuangru said.

[Chapter 2404](#)

Chen Xiang looked at the countless black dots in front of him, big and small. They were floating islands, and there were even many beautiful mountains and rivers.

"Why isn't there a Sky Spill skill when I enter?" Chen Xiang asked as he followed behind Long Shuang Ru, flying towards a small dot in the sky.

"The Sky Evolution Art belongs to a strange type of law, and in Divine Void City, this kind of law will lose its effectiveness! In fact, there are many Laws that you cannot use. If you don't believe me, try using the Space Laws." Dragonfrost said.

Chen Xiang tried it and sure enough, he could not use it. He said in shock: "As expected, it's a really mysterious place! If they can't calculate that we're here, won't they guess that we're hiding here? "

"It doesn't matter if you guess. There are so many islands here, and every island has a lake. This lake is very strange. As long as you jump in, you can find another island." Long Shuang Ru smiled lightly. "When we jump down, as long as we hold hands, we'll be teleported to another floating island."

"It's so magical!" Chen Xiang was immediately filled with anticipation.

"I've been fighting with them here for many years, but nothing happened. When the time comes, we just have to stay by the lake. Once we find them, we'll just have to jump into the lake and hide." Dragonfrost said.

Chu Hong Qing helped Chen Xiang grow spirit seeds inside the ring, and she was not bored at all. Furthermore, Chen Xiang started to teach her the [Inherent Skill], so that she could learn it.

When he was flying towards the floating island, Chen Xiang saw that not far away from this empty island, there was a huge plaza!

"What about the teleportation plaza?" asked. Other than that, he saw many people flying directly from the plaza towards the islands.

"Yes, the spatial laws in this area are unusable, and the teleportation formation is also based on the spatial laws, so it can only be built outside. Those who want to come here can only teleport to that teleportation plaza and then fly up here." "It's the most stable)" Frost Dragon said.

Chu Hong Qing told Chen Xiang: "I have been to this place before, and many merchants often go to the Fire Tao Divine Place to buy many pills, and then use this place to increase the price to sell them."

The Fire Tao Divine Place was a region, and this Divine Void City was also a region. In this era, every region had their own differences.

At this time, Chen Xiang also wanted to know where Huang Jintian and the others were after the fusion of the two generations.

Long Shuang Ru brought Chen Xiang to a very small island in the sky. When they arrived at a lake, they could see many people jumping into the lake.

"Let's test our luck and see if we can reach the largest island!" Long Shuang smiled mischievously, then grabbed Chen Xiang's hand and jumped into the lake.

Chen Xiang had thought that when he jumped in, it would be like falling into water. He didn't think that when he touched the lake's surface, he would only feel cool.

"We're on another island!" Long Shuang smiled. "Only, this isn't the largest island. Let's continue jumping into the lake!"

Then they came to a lake on the island, and jumped in, and so many times they jumped, until they came to a larger one, which was already very lively.

"Why is it that every time we appear, we are in the wilderness and not in the middle of the city?" Chen Xiang asked.

"This was determined after many tests by the predecessors, and the area that would not appear is suitable for the construction of a city." Dragonfrost said.

Chen Xiang said, "Shuang Ru, quickly find a place! I'm preparing to start concocting pills, so it might take some time. "

"Good, what a beautiful novel!" Long Shuang Ru had quite a bit of jade money in her hands, so it was unknown where she had gotten it from as she bought a house not far from where Hu Diechang was.

Chen Xiang was also in a hurry to refine the Three Lotuses Divine Pill. When he entered the secret room, he immediately started to condense the purple pearls and copied the three lotus seeds for the Three Lotuses Divine Pill.

Then, he would use Six Realms God Cup and Spirit Seeds to raise the quality of the three pellets!

All of this was for Chu Hongqing to do.

"What treasure is this?" This is too incredible, to be able to turn three lotus seeds into king level medicinal herbs in an instant. Chu Hong Qing was shocked, Chen Xiang personally taught her how to do it.

"So fast?" Chen Xiang also didn't think about it, "Okay, make a copy. You might need a lot of pills to cure that dragon's poison."

Chen Xiang took out the Creation God Furnace and began to refine the Three Lotus Pellet!

Moreover, he was already extremely familiar with the Three Lotus Divine Pills, and now, he only needed to get familiar with the new high levelled medicinal ingredients to concoct the pills, and three of them at that!

After ten days, he finally succeeded and walked out of the secret room.

"Shuang Ru!" Chen Xiang knocked on Long Shuang Ru's door. She had passed by Chen Xiang, so if they came out, they would knock on her door.

"Not inside?" Chen Xiang went into the hall and saw that Long Shuang Ru had coincidentally come back from outside. She had even used a transformation technique to turn into an old woman.

Long Shuang returned to her original form, laughing. "You seem to be able to see that I'm using the Transformation Technique!"

"Of course, I can see a lot of things." Chen Xiang's Dao heart Eye was very strong, he could even break open the Evil Spirit Clan's invisibility.

"I've already refined the pill. Let your father try to see if he can cure the poison. If not, I'll think of another way." Chen Xiang said.

"So fast?" Long Shuang Ru still thought that Chen Xiang would need a few years to refine it, because Chen Xiang had told her that that kind of pill was extremely difficult to refine.

"I've refined it for more than ten days, and it's still going fast?" Chen Xiang laughed, and quickly gave it a try.

Long Shuang knew that antidote pills usually required a long time to concoct because she had tried out a lot of antidote pills for her father and found many alchemists to concoct them.

Chen Xiang and Long Shuang Ru came to a relatively large secret room. Long Shuang took out the crystal ice coffin, and melted the icy cold power on top of it.

"Chen Xiang, during the Heavenly Dao Auction, the things you did were spread all the way here. Huang Tian seemed to have already known you were Chen Xiang and was putting bounties on you everywhere!" Long Shuang Ru said: "The Undead Divine Race is relatively calm. Don't tell me they didn't know you killed Huang Xuan?"

Long Shuang had been out asking around for news these past few days. She wanted to know what actions the Undead Divine Race would take, but even now, she looked very calm, as if Huang Xuan hadn't been killed.

"Eat one first!" Chen Xiang said: "I'm not afraid of poison!"

After dispersing the frozen ice, a black mist rose up from Long Shuang's body like her father, causing the poison to spread even faster.

Chen Xiang placed the Three Lotus Divine Pill into the black mouth, and quickly reacted. His originally black face now gradually turned white.

When Long Shuang saw it, she immediately became excited. "It's working!"

"What's your father's name? Just how strong is he, to be able to become a leader?" Chen Xiang also heaved a sigh of relief. The Three Lotus God Pellet was indeed powerful.

"Long Jiu Xiao." Dragonfrost said.

Hearing this name, Chen Xiang couldn't help but be taken aback. He was thinking, what does this Long Jiu Xiao not have to do with the Heavenly Divine Lord?

[Chapter 2405](#)

Long Jiu Xiao's face gradually recovered, but he quickly stopped. Seeing this, Chen Xiang immediately took out another Three Lotus Divine Pill and placed it in his mouth.

After eating the second pellet, Long Jiu Xiao's face turned bloody. Then, Chen Xiang gave the third pellet to him to eat, only then did he expel all the poison from his body.

Long Shuang Ru secretly admired Chen Xiang. She had traveled everywhere for many years and spent all sorts of effort, yet after Chen Xiang had spent more than ten days to refine three pills, she managed to cure her father's poison.

An hour later, Long Jiu Xiao suddenly opened his eyes. Although he looked to be in high spirits, Chen Xiang and Long Shuang Ru knew that he had not fully recovered.

"Shuang Ru!" Long Jiu Xiao shouted. He felt that his entire body was sore, as if he had slept for a long time. Because the position he took while sleeping wasn't right, it was very uncomfortable.

"Dad, you're finally better!" Long Shuang Ru hastily threw herself into Long Jiu Xiao's embrace as she sobbed softly. In order to cure her father of his poison, she had gone through countless hardships, spending many days and nights by herself.

"Hello, uncle!" Chen Xiang laughed.

"You ... "Human?" Long Jiu Xiao frowned because the dragon race rarely walked with humans.

"Father, he's the one who cured you of that poison. He's an incredible apothecary!" Long Shuang Ru hastily replied.

"Really?" Long Jiu Xiao was already able to stand up. He was a very robust middle-aged man, standing there like a small mountain.

"Those bastards specifically made this poison to deal with our dragon race. They used the black dragon blood to grow a flower as the main ingredient." Long Jiu Xiao replied, "This poison is very powerful. Many experts of our Dragon race died from it, unable to detoxify themselves for a long time."

"I never thought that it would be broken today by a human being's pill!"

Long Jiu Xiao patted on Chen Xiang's shoulder, making Chen Xiang feel as if his shoulder was about to break.

"Little demon of the human race, you have a future. I, Long Jiu Xiao, owe you my life." Long Jiu Xiao said.

Chen Xiang was thinking, that the Black Dragon Flower Poison should have already existed, it was just that someone intentionally allowed the Black Dragon to be used in the Star Law Divine Realm!

The powers behind it could very likely be the Undead Divine Race and the Evil Spirit Race.

"This is your reward!" Long Shuang Ru gave Chen Xiang a storage bag. Inside it were many jade plates, as well as the credentials to receive the jade coins from the bank. There was a total of four billion!

At this moment, he remembered that he still had one billion jade coins he won in the Immortal Bank and hadn't received yet!

Having made such a huge profit in one go, Chen Xiang did not know what to do. Now, he knew that the Dragon Clan was extremely rich, and did not feel any heartache at all.

After that, Chen Xiang and Long Shuang Ru were chatting casually in the past, but when they heard that Chen Xiang had killed Huang Xuan, Long Jiu Xiao was ecstatic. After that, he found out that Chen Xiang had come from the future and merged the two eras together.

"Chen Xiang, if you are from the future, then you don't have to worry about the Undead Divine Race's Sky Evolution Technique at all. Because you don't belong in this world, they can't even count you as a part of it." Long Jiu Xiao laughed.

"Dad, Chen Xiang has a very powerful broken sword. Huang Xuan was cut to death by that broken sword." Long Shuang said, "You are proficient in artifact forging and setting up formations. Help him see if he can repair that sword."

Once Long Shuang Ru finished, Chen Xiang took it out immediately. He kept having the feeling that this Long Jiu Xiao and the Heavenly Divine Lord had some kind of strange relationship!

Heavenly Divine Lord was also proficient in artifact forging, and very powerful! Currently, this Long Jiu Xiao was also here, but he was a dragon and a dragon, a dragon and a dragon, a human from the Heavenly Divine Lord!

Long Jiu Xiao took it over and examined it carefully. He immediately frowned. Very strong, and it makes me feel very familiar with it! "

Soon after, a ray of light shot out from between his eyebrows and landed on the sword hilt. The hilt immediately lit up and two ancient characters "Ninth Heaven" appeared.

"Father, why would your words appear on this sword?" Could it be that you refined it? " Long Shuang Ru said in surprise.

"My handwriting, but the power used to brand this word is completely different from mine. This human's power!" Long Jiu Xiao saw Chen Xiang. "Do you know who refined this?"

"I only know that man's name is Heavenly Divine Lord. He is already dead. Chen Xiang took out another Nine Heavens Divine Furnace. This was something Xue Xianxian and the others refined according to the blueprints in the Nine Heavens Divine Manual.

"Uncle, look at this!" Chen Xiang said: "This was refined by a, and it was recorded in his book."

Long Jiu Xiao took it and looked at it. "There are many array patterns that I created, could it be that the Heavenly Divine Lord obtained my inheritance later?"

"But it doesn't make sense either! Even if he obtained my inheritance, he wouldn't be able to be branded with this name. It's the same as mine, and only my soul can make this name appear!" Long Jiu Xiao was very puzzled.

"Uncle ..." Could it be that you have reincarnated and become a human? " Chen Xiang said.

"It's very possible that if you didn't appear, I would have already died." Long Jiu Xiao laughed. "It should be like that. I never thought that after I reincarnated, I would still be so powerful and could refine such a thing."

Chen Xiang was a little speechless, this Long Jiu Xiao was too easy to accept.

"Father, can you recover it?" Long Shuang Ru asked.

"Sure, just a little time." Long Jiu Xiao asked, "Chen Xiang, you also came with you in the Dragon clan? How many are there? "

"It's quite small, tens of thousands!" Chen Xiang said.

"Tens of thousands is considered little!" We have less than a thousand dragons. " Long Jiu Xiao was startled. "Hurry up and take me to them. I can help them become stronger."

Long Shuang Ru was also shocked. There would be so many dragons in the future!

Chen Xiang had also previously known that the faction led by Long Jiu Xiao had already been annihilated, leaving behind only the father and daughter pair.

Chen Xiang also wanted to go back now and bring back the pill formulas he learned. This way, he could make them stronger faster.

"Chen Xiang, you changed techniques was taught to you by a White Dragon. What is your relationship with that White Dragon?" Long Shuang didn't believe it before, but now she believed it.

"My wife was also poisoned by that poison. I learned how to concoct the Three Lotus Godly Pill after that." Chen Xiang laughed: "When you see her, she might be very excited too, because in our era, the struggles within the dragon race were very intense. Bai Long was killed until she was the only one left."

[Chapter 2406](#)

Chen Xiang did not know what kind of power the Heavenly magic sword would have after it was repaired, but even though it was damaged, the power was extremely terrifying. ybdu!

Long Jiuxiao said that he could fix it, but it would take a lot of time, and right now, Chen Xiang could not lack Heavenly magic sword s either. This was his counter attack weapon, so after thinking about it, he decided not to fix it.

Chen Xiang brought Long Jiuxiao and the others on their journey to the forest. Not long after he left, he hoped that nothing would happen there.

When he left the forest, he did not enter the Dao Ti realm, and the spatial energy he used at that time was extremely limited, but it was different now. He was already much stronger than before, and even when he brought Long Shuangru and Long Jiuxiao with him on the journey back, his speed was still much faster than before.

In just two months, they had returned to the Great Heavenly Star Region from the Divine Sky City. Everything was fine here, but when they found out that Chen Xiang had returned, they were extremely happy.

When Jiu Canghai saw Long Jiuxiao, he was completely stunned, his face full of shock, but Long Jiuxiao did not recognize him.

Chen Xiang immediately understood that this Long Jiuxiao must be the same as the Heavenly Divine Lord, so Jiu Canghai thought that he was his own father.

After that, Chen Xiang gave a simple explanation, and only then did Jiu Canghai understand. He felt extremely excited, to be able to see his father's past life.

Long Jiuxiao was very strong, the patriarchs and elders that came with the dragon clan almost couldn't stand steadily when they saw Long Jiuxiao, because they could feel the strong Dragon Power in Long Jiuxiao's body.

Hundreds of Flowers Village only came to Lv Qilian, and other than them, there were also the patriarchs of Cat Race, Star Moon Divine Race and Undead Divine Race, and then there were the All-beast Divine Lord and Azure Dragon, the four great divine beasts.

While Long Jiuxiao was on the road, he had heard Chen Xiang talk about the things that happened here, especially the fact that the people here were weak! This was also because the era was different.

Chen Xiang first introduced the people here to Long Jiuxiao, then introduced Long Jiuxiao's identity to the crowd. Everyone was very surprised to know that it was from Heavenly Divine Palace's previous life.

As for the elders and the chief of the Dragon race, they were very happy because these were powerful divine dragons from the Ancient Era. If they were to lead them, they would definitely become even more powerful.

Because Long Jiuxiao had lost in battle, he did not have any helpers by his side, so he was currently discussing with the Dragon Clan. He hoped that he could lead the Dragon Clan and work together with the various forces here to protect and develop everyone.

In this Big Chaotic Times, it was not bad to have Long Jiuxiao protecting them. Furthermore, this Long Jiuxiao was saved by Chen Xiang, so everyone was at ease.

In terms of cultivation, Long Jiuxiao had many rich surprises, which could coincidentally guide everyone. At this time, Chen Xiang was also bringing Long Shuangru to the Hundreds of Flowers Village.

Just as he arrived at Hundreds of Flowers Village, Chen Xiang saw Long Xueyi playing with a beautiful young lady in white. He had seen this young lady in white once before, the little kitten Yue'er!

After that, Chen Xiang called for Chu Hongqing to come out from the ring.

Long Xueyi saw that Chen Xiang had brought back two beautiful girls, but she was not surprised. If Chen Xiang had left for so long, she would have thought it was strange if he did not bring back the girls!

"Little Scoundrel!" Long Xueyi and Yue'er shouted while laughing.

Chen Xiang immediately teleported over to pinch their mouths. Long Shuangru had a good impression of him and he didn't want to let these two little girls ruin him.

"Little Scoundrel?" Long Shuangru smiled as he walked to Long Xueyi's side. Then, he caressed Long Xueyi's pretty and cute face. "You're Long Xueyi?"

"Un, sister, who are you? It can't be that you're having an affair with that little scoundrel as well, right? " Long Xueyi could feel that Long Shuangru was very powerful, "Elder sister, you're so powerful, you definitely won't think much of this little scoundrel. Don't be fooled by him!"

"Little Naughty Dragon, she is your ancestor, the only White Dragon of this era." As Chen Xiang spoke, he reached out and pinched Long Xueyi's cheek with all his might: "Don't speak ill of me!"

"Really? "So you're saying that all of my memories came from her?" Long Xueyi said in shock: "I didn't think that I would be able to meet my ancestors so soon!"

Yue'er, in order to prevent Chen Xiang from pinching her, transformed into a palm-sized kitten. It then flew into Chu Hongqing's embrace and mewed a few times, before asking, "Who is this big sister? It also seems to be very powerful! "

"She's my maid, so she lost the bet." Chen Xiang laughed: "I'll bring her to the pill refining team. You guys take Shuang Ru out here for a stroll ... Right, let her go see Youlan. She also has her White Dragon Vein. "

"Elder Sister, follow me!" Long Xueyi called Yue'er over, then pulled Long Shuangru along a small path.

Chu Hongqing followed Chen Xiang down another path.

"Young Master, why did they call you Little Scoundrel?" Chu Hongqing asked in a low voice.

"That's them discrediting me, don't believe them." Chen Xiang laughed, they passed by an orchard and saw a tall lady in a purple dress.

"Elder Brother Shen!" The lady was Shui Bingyan, she hurried over.

"BingYan, long time no see!" Chen Xiang touched her cheeks and laughed.

Shui Bingyan was innocent and looked extremely pure. She blushed and smiled: "Elder Brother Shen, did you see more interesting things coming back from the outside this time?"

"Alright, I'll take you out for a walk when I have time. I still have things to do with Sister Feng and the others. You can continue picking the fruits." Chen Xiang even took out a few strange things he had bought during the Heavenly Mystery to give her to play with.

"Thank you, Elder Brother Shen!" Shui Bingyan smiled sweetly.

After leaving the orchard far behind, Chu Hongqing laughed: "This Hundreds of Flowers Village is a beauty park, all kinds of beauties ... You often run around here, don't you want to do something bad? "

"How would I dare? The boss of Hundreds of Flowers Village is my wife. If I were to mess around here, I would be scolded to death by her." Chen Xiang brought Chu Hongqing to a courtyard. The moment they entered, they saw Wu Qianqian drying the herbs there.

"Qianqian, where are they?" Chen Xiang laughed.

"Chen Xiang, you're back! They are all busy with their own things. " Wu Qianqian looked at Chu Hongqing who was behind Chen Xiang, and smelled something softly: "Who is this?"

"I'm accepting a new servant ... Just like Warm Moon Xiangyue, they are my female slaves! " Chen Xiang laughed: "She is also from Alchemist, and her level is not bad. She has a better understanding of the pills here, I let her stay here, this way you guys can have a better understanding of the pills from this era."

"Un, I'll go and call them out now!" Wu Qianqian immediately put down the work at hand and took out a jade talisman to send the message.

Before long, the entire pill refining team had rushed to the center of the hall, while Chen Xiang was copying the Dao mark Dan's pill formulas.

[Chapter 2407](#)

Although the Yaoge Dan was the most commonly seen pill in Fire God Land, but a high level Yaoge Dan was of great help to the people here in their development phase.

Right now, Chen Xiang was concealing how to refine Yaoge Dan and was explaining how the Hundreds of Flowers Village could become stronger as he refined.

"There should be quite a few purple pearls in the three ingredients for this Scar Pill?" We'll make a copy and keep it. " Chen Xiang.

"Hand it over!" Feng Yujie took it and quickly copied out a portion of the purple pearl before giving it back to Chen Xiang.

"These pill formulas will be used to reference and be produced now." Chen Xiang gave Feng Yujie another jade token.

Su Meiyao: "You're in such a hurry to leave? He just came back! "Just keep you company!" She was looking at Chen Xiang with her passionate and seductive eyes.

Chen Xiang laughed sinisterly: "Wait until we find Xianxian and some things for us tonight"

... ..

Xue Xianxian and the others were busy refining all kinds of defensive array discs.

Chen Xiang also had a lot of Lightning dragon eagle bones and scales. This was a refining material that he had bought at the Heaven Gathering.

"It's all good stuff! Every time I come back, I always bring a lot of these things with me." Xue Xianxian was very happy when he saw the pile of materials.

While Chen Xiang and the others were tidying up the ingredients, they were discussing Long Jiuxiao's matter. In their previous life, Liu Meng'er and the others were all very excited because they all wanted to help the Heavenly Divine Lord with a lot of questions.

"When the Dragon Clan arrives, we should be able to go to the Dragon Orb to look for it. We'll just do our best to make Shuang Ru stay in the Hundreds of Flowers Village and ask her for guidance from time to time." Chen Xiang laughed.

"It's unfortunate that we previously thought that the Divine Book had many unsolved problems. I never thought that we would actually be able to meet the Heavenly Divine Lord in his previous life." Liu Meng'er was very happy.

"Is there news of Darling's father?" Xu Youqing asked.

"For the time being, father is still a ghost. Nothing will definitely happen to him." Chen Xiang caressed it, "I will definitely find it, do not worry."

Chen Xiang also really wanted to find Huang Jintian. This could only wait until they become stronger.

In the following month, Chen Xiang spent the night with his woman, enjoying her leisure. During the day, he would run around everywhere and brag about his old friends.

Long Jiuxiao was also here with the others, getting along very well, while Long Shuangru stayed in the Hundreds of Flowers Village. This time, Long Xueyi and Leng Youlan kept him here to teach him many powerful techniques.

During this time, Chen Xiang had the girls in the Hundreds of Flowers Village condense many purple pearls for her to use to duplicate Qiyuan Dan's medicinal herbs. Thinking about the Fang family, she felt extremely uncomfortable and wanted to go back to take revenge.

After that, Chen Xiang also wanted to leave and give the Fang family some face.

because Chu Hongqing was himself well versed in medicine and had a better understanding of the world, he passed down his own knowledge to Feng Yujie and the others.

After bidding farewell to everyone, Chen Xiang immediately teleported towards the direction of the Divine Void City!

... ..

After staying in Hundreds of Flowers Village for over a month, Chu Hongqing had become more and more knowledgeable about Chen Xiang's situation. He did not expect that he, who was also a female slave, would actually return Hua Xiangyue and his wife despite being like that.

"The little bastards will be leaving the bet when we go back next time!" Chu Hongqing laughed tenderly: "I think that's impossible."

"How difficult!" Chen Xiang chuckled: "You guys get along pretty well."

"If I had known earlier, I wouldn't have been able to cultivate the Alive Slain Method. It's too late now." Chu Hongqing felt that it was a pity that he had already experienced the might of Alive Slain Method.

"It won't be too late at all! can eat Nine Yin and yang Dan s to convert all of their Divine Deity into Life-Killing Divine Deity. " Chen Xiang: "Before this, all of our Divine Deity s also stopped transforming."

"Really? We are already taught how to use the Alive Slain Method! " Chu Hongqing was pleasantly surprised.

"Do you need Nine Yin and yang Dan s to be able to refine it? They should have given us quite a bit of the medicinal ingredients. " Chen Xiang had instructed Feng Yujie to teach him how to refine more special pills.

"Hmm, how many pills do you need?" Chu Hongqing asked: "We only gave them over a hundred!"

"I need a lot of them. It would not be good to refine it now! At that time, when we earn enough Jade money, we can also buy two types of Nine Yin and yang Dan s as medicinal ingredients. However, people only know that they can be used to concoct pills. " Chen Xiang: "Of course the best way is for the Yaoge Dan to improve and integrate into the Yaoge Dan faster."

Chen Xiang spent more than 20 days to reach the Divine Void City. Although Long Shuangru was not by his side, he was not worried about the Undead Divine Race taking revenge on him.

Right now, the most important things were the Fang family and the Fire Reverent School. If they wanted to get rid of these two loathsome powers, they would have to use a very strong seal to suppress them.

Chen Xiang came to a small island in the Divine Void City. Long Shuangru had previously bought a house here, and it was right in the middle of the house.

"Do you want to mass refine Qiyuan Dan now?" Chu Hongqing asked what happened. Right now, Chen Xiang did not want to refine pills, because there were too few of them.

Of course, he had also made great progress now. He could refine three Qiyuan Dan of Heaven stage within two hours.

"Yes, but first we need to inquire about the current situation of the Fang family and the Fire Reverent School." After Chen Xiang confirmed that the mansion had visited, he ran out to look for information.

After four hours of investigation, they found out that the Fang family and the Fire Reverent School had teamed up to do extremely despicable things.

"The Fang family and the Fire Reverent School only have this much! All of you, wait! " Chen Xiang was furious. He wanted to take care of the Fang family first, because the three elders of the Fang family were sealed up that day.

[Chapter 2408](#)

Returning to the old house, Chen Xiang calmed the anger in his heart and prepared to refine the Qiyuan Dan s. He had gotten a lot of purple pearls from the Hundreds of Flowers Village.

"Hongqing, does the Fang family have any big enemies?" Chen Xiang asked: "How is his enemy's strength?"

"Let me think... There is one who is also a very strong power. Not only is he a great enemy of the Fang family, his relationship with the Fire Reverent School is also very bad. Chu Hongqing said: "You want to cooperate with this power."

"I do have this thought. Only by doing this can the Fang family and the Fire Reverent School vomit even more blood." Chen Xiang was still very weak right now, so it would be difficult for him to fight the Fire Reverent School and Fang Family alone.

"That might be difficult. Not everyone can work with them, and they don't intend to work with anyone." Chu Hongqing said: "Because they are not human, they can be considered demons ... They all grew up from beasts, plants, stones and so on. "

"Are they considered to be one of the stronger forces in this region?" Chen Xiang asked.

"Of course. Many powers only have deals with them, but their relationship can't be said to be very good. On the other hand, the Fire Reverent School and the Fang family are different. I've heard that they've once captured their Little Demons." Chu Hongqing said: "But you can try, since you have many tricks up your sleeve."

"We'll talk about it after I refine more Qiyuan Dan. At least on this aspect, I can give the Fang family a huge blow." Chen Xiang said.

He used the Dawan refining method to refine a hundred Qiyuan Dan every day, and over the course of one month, he managed to refine three thousand of them.

Furthermore, he had heard that the Fang family only provided a thousand Qiyuan Dan every month, and he was three times more than the Fang family.

"I still can't sell it. I'll go find that demon clan first." Chen Xiang said: "Let's see if we can cooperate with them first."

Under Chu Hongqing's guidance, Chen Xiang left Divine Void City and arrived in a forest.

The trees in this forest were all extremely tall and lofty. Every single tree was as tall as the heavens, and the demons of the demonic clan were all living in caves on top of the trees.

"This place is called Demon Forest, there are many humans here too." Chu Hongqing said: "The powerful demonic beast that manages this place, is located in the biggest tree in the middle."

Chen Xiang walked for a good half a day before finally reaching the center. He saw a big tree, but it was not a tree that anyone could casually enter.

"I heard that the strongest in this Demon Forest is a group of Treants. Although they are powerful, they are very easy to talk to. First, ask the guards if they can meet the Treant Emperor." Chu Hongqing said.

Chen Xiang walked closer to the big tree, towards a big tree cave.

"Is something the matter?" One of the guards asked, his tone and attitude very good.

"I have a big deal to talk about with you guys. I am a Alchemist and have some pills to sell in ... This is the Qiyuan Dan. " Chen Xiang said in a low voice.

"Oh, that's true." the guard asked.

"Of course it's true. I'm not so bored as to tease you." Chen Xiang laughed.

Demons also needed to eat pills, and there were Alchemist amongst them. However, they weren't as proficient in pills as humans, so they were still dependent on pills.

Qiyuan Dan could help raise Daoyuan immortal power s, and if you eat more, it could also help you increase your realm quickly. There were a lot of Dao Yuan realm s here.

If it was a high level Qiyuan Dan, cultivators of a higher realm would also be in great need, which was why the Fang family had such a status.

Chen Xiang was invited to enter. After entering the big tree, he felt very cool and was arranged to stay in a small hall.

Not long after, a benevolent looking old man came to meet him. It seemed that his strength was quite good, but he was not born with that sort of power, so he didn't give people any pressure.

"Hello, Senior." Chen Xiang bowed politely.

"No need to be polite, you said that you have Qiyuan Dan to sell, that's all." The old man chuckled and asked.

"A thousand." Chen Xiang said.

"Oh, are you a member of the Fang family?" The old man's narrowed eyes opened slightly.

"No." Chen Xiang laughed: "I am an enemy of the Fang family."

"Looks like you are Chen Xiang. To be able to refine a Qiyuan Dan and also be the Fang family's enemy, you should be the only one." The old man laughed.

Chen Xiang turned his face back, revealing his original appearance.

The old man chuckled, "So it's like that. You came to find us because you want to fight against the Fang family, right?"

"That's right, we're not going to fight against the Fang family, but rather, we're going to suppress the Fang family's Qiyuan Dan." Chen Xiang said: "I can refine quite a few Qiyuan Dan and I don't have any sales channels. You Monster race must have many channels in this area in the human world over the years, so I feel that it's better to form an alliance with you."

"Of course, I'm here for your protection as well."

The old man nodded his head, "It's already been pretty good for you to refine a thousand Qiyuan Dan from the day of the Heavenly Law Auction. However, I'm very curious, where did you get so many medicinal ingredients? Only the Fang family has such ingredients."

"I stole it from the Fang family." Chen Xiang laughed, because in order to discredit him, the Fang family had spread the news of him stealing the Fang family's Qiyuan Dan's medicinal ingredients.

"In the future, you don't need to take the risk of stealing the Fang family's medicinal ingredients. We have them." The old man thought for a moment, then said: "Right now, all one thousand of your Qiyuan Dan are of low-grade Heaven-ranked. We will buy them with one thousand Jade money each."

"After that, you help us refine another Qiyuan Dan. We'll give you the medicinal ingredients. If you refine one, we'll give you four hundred Jade money as compensation. What do you think?"

He didn't need to buy the ingredients himself, so it was definitely a worthwhile and worthwhile task.

And for the Spirit Demon Race to be so generous, they must have obtained a lot of Qiyuan Dan's medicinal ingredients.

"What if I can only refine one pellet of each medicinal ingredient? Will you give me the reward of four hundred Jade money as well?" Chen Xiang asked.

"That's right, if you fail, we won't pursue this matter any further. Regarding your matter, we also know that you can refine five pellets in one furnace, at least three, and we have a large amount of Qiyuan Dan's medicinal ingredients." The old man said, "If we can refine it quickly, we can suppress the Fang family even faster."

They were treemen, so they definitely knew how to quickly grow the herbs, so they had planted a lot of Qiyuan Dan's herbs, but no matter what, they could not refine them.

Now that Chen Xiang had come, he could just as well refine a large amount of medicinal ingredients that they had accumulated into pills. With the rewards that they had given Chen Xiang four hundred Jade money's and with him selling another eight hundred or even seven hundred, it would be worth it.

"Alright." Chen Xiang agreed, which was a good thing for him.

[Chapter 2409](#)

Chen Xiang sold a thousand Qiyuan Dan pills to the Treant Clan Elder. He still had two thousand left, and that was for him to eat.

Treant Elder gave Chen Xiang a thousand batches of Qiyuan Dan's medicinal herbs, Chen Xiang gave Chu Hongqing a hundred batches, which was something she could practice on, and now that Chu Hongqing was able to refine three pills per furnace, the quality was also not bad. If she could refine a few more

batches, her control over the Qiyuan Dan would be much better, and producing four to five pellets would not be too difficult.

But when Chen Xiang refined them himself, he could produce five pellets each time. However, he would leave one pellet for himself and give four to the Treant Clan!

"Together, we will complete it in a month!" Chen Xiang said to Chu Hongqing: "Elder Tree has set a standard for me: these thousand sets of medicinal ingredients, I must at least help him refine three thousand Qiyuan Dan!"

"Rest assured, I can produce at least three pills per furnace!" Chu Hongqing laughed, this was a good opportunity, so he did not need to worry about wasting medicinal ingredients. These medicinal ingredients were all provided free of charge, if he could refine Qiyuan Dan, he could still obtain Jade money s.

Of course, Chen Xiang did not lack Jade money s for the time being, he still had a few billion on him that he did not know how to spend! He had refined this Qiyuan Dan purely to strike a blow at the Fang family.

Chen Xiang was also in the big tree in the middle of Demon Forest. The Elder Tree had arranged for him a very spacious secret room.

In order to ensure that the pill would be out, Chu Hongqing refined it slowly, she was definitely not like Chen Xiang!

Now, Chen Xiang was controlling ten pill furnaces to refine. He could refine ten batches of Qiyuan Dan s in two hours and a hundred batches in a day.

Only now did Chu Hongqing realize the disparity between him and Chen Xiang. It had only been ten days, and he had already finished refining those thousand sets of medicinal herbs!

Chen Xiang had refined a total of 900 sets of medicinal herbs and 4500 pills. Chu Hongqing had also made great progress in concocting the first few batches of pills, but she had managed to refine more than 350 Qiyuan Dan pills out of the 100 batches of medicinal herbs she had concocted.

"I can only give granduncle three thousand pills. That's not a good idea!" Chu Hongqing felt very sorry when he found out that Chen Xiang had refined so many pills.

"Hehe, in any case, this is a standard that he gave me. By saying this to me, he is also telling me that I can take away some Qiyuan Dan and keep it for myself." Chen Xiang said: "Being able to refine so much in such a short period of time, they will definitely be happy."

"If you had a lot of medicinal ingredients, I really can't imagine how strong you would be." Chu Hongqing lamented. Even though Chen Xiang had passed down the Magic method furnace technique to her, she still did not know how to use it yet.

After Chen Xiang let Chu Hongqing enter the You Yao Ring, he walked out of the secret room and found Elder Tree. Previously, he had told that Elder Tree that he would probably go into closed door cultivation for a month, and now that he had come out earlier, the Elder Tree thought that Chen Xiang came out because he was too bored.

"Hehe, are young people not used to this kind of closed-door training? It's not bad to come out and have some fun." The Elder Tree laughed: "The last time you sold us a thousand Qiyuan Dan, it already made the Fang family very unhappy. The effect is not bad."

"Elder Tree, here!" Chen Xiang laughed and handed over a Storage bag. "Three thousand Qiyuan Dan were just refined. This will definitely make the Fang family even more unhappy."

Elder Tree was startled, then quickly took it and checked it, immediately becoming overjoyed.

"What a miracle, you can refine so many of them in such a short period of time, you really are an alchemist genius." The Elder Tree was very happy, he then took out the Jade money and gave it to Chen Xiang: "This is one million and two hundred thousand Jade money, you can go to the Eternal Life Native Bank here to receive it."

There were Eternal Life Native Banks in the Demon Forest, and Eternal Life Native Banks existed in many large cities.

"Elder Tree, you must have used your own innate abilities to grow medicinal herbs very quickly, right? If there's not enough Heaven Rank Qiyuan Dan, if there are Heaven Rank middle, upper tier, or even King Rank Qiyuan Dan, the Fang family will be worried." Chen Xiang laughed, "I wonder if you guys have any of these medicinal ingredients?"

"Of course there is. Are you going to refine it now?" Elder Tree laughed: "Looks like I've underestimated you. You can actually bear with loneliness ... This is a thousand sets of mediocre and high-quality medicinal ingredients. When you come out of seclusion, I will give you more King Stage Qiyuan Dan's medicinal ingredients."

"I'll give you one thousand middle grade heaven stage Jade money s, you have to make sure you can refine at least two thousand of them! I'll give you three thousand high-grade Heaven Ranked Jade money and you'll have to refine at least a thousand of them!"

This Elder Tree also knew that the higher the grade, the more difficult it would be to refine, and the amount of pills that would be produced would definitely decrease.

"No problem!" Chen Xiang took the herbs and immediately ran into the secret room.

"Since you took on so many of them in one go, when will you be able to finish refining them?" Chu Hongqing was extremely shocked. "I'm only confident in my ability to refine lower tier pills, not middle tier and upper tier!"

"Why not? The medium-grade heaven-step medicinal pills are about the same as the high-grade pills. Just give yourself some self-confidence. The pill refining techniques that I have taught you are very powerful. Moreover, your cultivation is much higher than mine." Chen Xiang gave her two hundred sets of middle and upper graded ingredients.

"Get it done in a month. This is a mission I gave you, otherwise I will spank your butt." Chen Xiang laughed.

Chu Hongqing felt that this was something that was impossible to accomplish. This was a middle and upper rank Qiyuan Dan, although she was a middle rank king level Alchemist, to refine so many of them

all at once and even ensure the quantity of their pills was out of the question, she felt that it was very difficult.

Chu Hongqing came out from the Serene Demon Ring, looked at the herbs that Chen Xiang had placed on the ground and asked: "My good master, how many of the middle-ranked and high-ranked Qiyuan Dan s will you produce in a single pot?"

"At least five pills. As long as I finish refining these, I will have a lot of Qiyuan Dan. In the future, let us eat them for a while, the moment I step into the Dao Yuan realm, I will be able to improve by leaps and bounds." Chen Xiang laughed.

"Then how much time do you need to forge a cauldron..." Chu Hongqing had just asked, when he immediately gave his answer ...

She only saw Chen Xiang holding a portion of the medicinal ingredients, his eyes releasing two streams of flames, and then the medicinal ingredients held in his hands were immediately refined, instantly transforming into a large ball of medicinal liquid. After which, he was split into five balls, and in the end formed five Qiyuan Dan s, which were almost completed in an instant!

Chu Hongqing was completely dumbstruck. She thought she had seen wrongly, she had never seen such a method of pill refinement.

"Master, what did you do just now!" Chu Hongqing was extremely shocked.

This is my most powerful pill refining technique. After I've refined the same pill many times, every step and every detail of this pill will be known to me. With just a thought, two rays of spiritual energy will shoot out from my eyes. Chen Xiang said.

[Chapter 2410](#)

Chu Hong Qing was shocked because if she wanted to concoct a batch of pills, she would need at least two hours. But Chen Xiang had solved the problem in an instant, and even took out five of the pills!

"Don't just stand there. Hurry up and start. Treat it as practice. It doesn't matter if all of them fail." Chen Xiang laughed as he took out many jade boxes and placed the ingredients one by one inside. Beside the ingredients were the flesh and blood of the Lightning Dragon Eagle.

Qiyuan Dan required Daoyuan immortal power, so he still had to use the flesh of a savage beast in order to successfully refine it.

Although Chu Hongqing was envious of Chen Xiang, she knew such a method only by Chen Xiang, and the Heaven's Refinement Art that he taught her was already very powerful.

Furthermore, this was a good opportunity, so she wouldn't miss it and immediately start refining the Qiyuan Dan.

In a month's time, Chen Xiang's predictions were extremely accurate. He had already refined all of the spirit ingredients into Qiyuan Dan, and at the beginning, Chu Hong Qing was not very confident in herself, but in the end, she finally experienced the greatness of the heaven's refining technique. It was able to make her very stable and able to refine four pellets per furnace, whether it was top or middle, it made no difference to the current her.

"I told you it was easy!" Chen Xiang laughed, pinched Chu Hongqing's face, and then counted how many Qiyuan Dan they had.

4900 of the Heaven Rankers, and 4800 of the Heaven Rankers! Elder Tree had said that it would cost at least two thousand pills, and the one up would be a thousand!

Therefore, Chen Xiang could still draw a lot. To him, this was a place where he could make a huge profit!

"Isn't this a bit too much?" Seeing how little Chen Xiang gave to Elder Shi, Chu Hong Qing felt a little apologetic in her heart.

"Hongyi, you might not know how many medicinal herbs they have! Treant Tribe members must have mastered the ability to quickly grow medicinal ingredients, so there was no need to worry about this. These medicinal ingredients were already trash in their hands, so they could obtain as many Qiyuan Dan as they wanted. Chen Xiang said: "Right now, we are helping them turn trash into treasures, that's why we are already very generous."

Elder Mu knew that Chen Xiang would swallow quite a lot of them himself, so he gave him a minimum standard. To him, these medicinal herbs had already been stored for a long time, it was already very good if he could become a Qiyuan Dan.

Chen Xiang walked out of the secret room and handed the group of Qiyuan Dan in his hands over to Elder Shi. Elder Shi gave him five million jade coins, this little jade money was nothing to him. On the other hand, they could use these Qiyuan Dan to compete with the Fang family, and by suppressing the price, the amount of jade money the Fang family could earn from the Qiyuan Dan would be less.

"Our Demon Forest has more and more people. Hehe, all of this is thanks to little brother's Qiyuan Dan that you refined, which attracted a lot of people to come here. Our Qiyuan Dan is much cheaper than the Fang family's." "Chen Xiang, it must be hard for you to refine a Qiyuan Dan by yourself, but we need to do this for a long time in order for the Fang family to receive heavy injuries!"

Chen Xiang immediately understood what the Tree Elder meant. They wanted Chen Xiang to pass on the method to refine the Qiyuan Dan to them.

"The conditions are fine, I know that you have that kind of ability, so I'm sure you won't put the jade money in your eyes. Tell me, what conditions do you need to be willing to share the Qiyuan Dan's secret with us?" "There are many outstanding pill refiners in our Demon Forest. Refining Qiyuan Dan is stuck at that most important step."

Chen Xiang sat on a chair and thought.

"I need Dao mark Dan's medicinal herbs now. You Treant Monsters definitely have a way to quickly grow them, and Dao mark Dan's medicinal herbs are at the king level. I wonder how long will it take for you to grow them in bulk with your current speed?" Chen Xiang asked.

Elder Mu had almost forgotten that Chen Xiang had used the name Yun Fei to participate in the Conclave of Heavenly Secrets' pill refining competition. At that time, Chen Xiang had won the Dao mark Dan's pill formula and a set of medicinal ingredients.

"As for the medicinal ingredients listed... How many medicinal ingredients does the Dao mark Dan have?" Elder Tree asked.

"Three!" Chen Xiang said.

"We can help you get a hundred sets of ingredients a month." Elder Tree calculated and said, "How do you want to trade?"

"Actually, the most important thing about refining Qiyuan Dan is the Mysterious God Force, and I have coincidentally grasped this kind of energy. This kind of energy requires a long time of cultivation to produce, and it's only suitable for humans!" Chen Xiang said: "Even so, I am still able to condense this kind of strange divine power into a Strength Gathering Pearl, so that when you are refining pills, you only need to extract a single strand of it to succeed."

"How about this, I will provide you with fifty Energy Gathering Pearls of the Mysterious God Stage each month. You guys give me a hundred sets of Dao mark Dan's ingredients each month, how about it?" Chen Xiang asked.

"How many batches of Qiyuan Dan can be refined with fifty Energy Gathering Pearls?" He was relatively clear about the difficulty in refining Qiyuan Dan.

"One pellet can refine a hundred batches, so it can refine five thousand batches. Regardless of the upper, middle, or lower, and during the refining process, you only need to extract a tiny bit of it to succeed." Chen Xiang said: "Why not let your pill refiners try it out!"

Elder Tree smiled: "I know a bit or two about alchemy, I'll give it a try first!"

Because Chu Hongqing extracted the Counter Power from the Energy Gathering Pearl to refine a Qiyuan Dan, he knew about this matter very clearly.

Elder Mu immediately took out a pill furnace, and then placed it in the medicinal ingredients to start refining. Chen Xiang also took out a Energy Gathering Pearl, which was filled with the Counter Power, giving off a red light.

"Elder Tree, when you extract a bit of it from inside, you'll be able to fuse a few medicinal liquids together." Chen Xiang handed the Energy Gathering Pearl over.

It could be said that he was relatively proficient and Chen Xiang could see it with a single glance. This was because this elder only had less than an hour before he was about to absorb the medicinal liquid.

He followed Chen Xiang's instructions and extracted a sliver of Counter Power from the pearl before channeling it into the furnace. Then, to his surprise, he discovered that under the guidance of the energy, the medicinal liquid actually fused together quite naturally.

Seeing Elder tree's excited reaction, Chen Xiang knew that it was a success and that it would condense a core very soon.

Just as Chen Xiang had expected, after surpassing that difficulty, the Elder would be able to condense a core very quickly, and he could also refine three Qiyuan Dan, which was of decent quality.

"Elder Shi, you are being modest. I did not expect you to be an expert in this field!" Chen Xiang laughed.

"How can I compare to you!?" This kind of power is really strange, it's really magical! " Elder Tree was also very happy at the moment, because he had refined the Qiyuan Dan many times but had always failed. Now that he had suddenly succeeded, he was naturally very happy.

"These are the Dao mark Dan's medicinal ingredients and fifty Energy Gathering Pearls." Chen Xiang said: "Just give me a hundred sets of Dao mark Dan's medicinal ingredients next month."

"Alright!" Elder Shi smiled as he took the items.
