

Dan God 2421

[Chapter 2421](#)

Huang Xiaotian who was standing on the stage and sparring with the others heard Chen Xiang's voice and immediately looked over. He did not expect Chen Xiang to also be able to enter Eternal Life City and even had a purple jade token.

Everyone knew that the purple jade tablet required five hundred million Jade money, so ordinary people would not hand it over so much. Five hundred million Jade money was a very large sum to many people, and back then, the Fang family's Fang Heng and his son, who had only lost to Chen Xiang two hundred million Jade money, were scolded for many days by the Fang family.

Chen Xiang walked to the first row, and then sat down on a comfortable chair. At this time, a young woman wearing a blue dress walked over quickly.

"Young master, little girl Yang Xiangyin is the pavilion master of the Eternal Fragrance Pavilion, I am truly sorry for what I have done, because the two young masters on the stage wanted to compete in pill refining, so I could not do anything to them." Yang Xiangyin lowered her head slightly, her gentle voice carried an apology.

Chen Xiang originally wanted to touch this beauty with his hands, but when he felt the strong power on Yang Xiangyin's body, he did not make a move. Not only was this Instant Fragrance Pavilion's pavilion master beautiful, she was also very strong.

Of course, Chen Xiang was the boss, and it didn't matter if he was strong or weak, because he had a lot of Jade money.

"Whatever, I want to see who's stronger anyway." Chen Xiang laughed: "Then can the Fragrant Pavilion Master please sit here with me and watch them refine pills?"

"Very much so." Seeing that Chen Xiang was easy to talk to, Yang Xiangyin raised his head and looked at his handsome face as he smiled sweetly at him.

Yang Xiangyin was indeed very beautiful. For many people, seeing her for the first time would cause their hearts to tremble, and even move a little. However, Chen Xiang appeared to be very calm, because he had seen many beauties at Yang Xiangyin's level.

When Yang Xiangyin saw this, Yang Xiangyin secretly guessed at Chen Xiang's background. She had read countless people and had seen all kinds of men with such reactions, it was usually those kind of extremely powerful elders. Many young men would more or less want to take her for themselves when they see her.

For example, Huang Xiaotian and the other man on the stage were competing in pill refining because they wanted to show off their skills in front of her.

"May I know how to address you, young master?" Yang Xiangyin asked.

"Chen Xiang." Chen Xiang laughed: "Sect Leader, they are refining pills up there, and you are playing the zither here, so it will not affect them at all. I really want to listen to you play the zither right now."

"Young Master Shen... This isn't good, I'm worried that they will be affected if they were to try to concoct pills on top. To tell you the truth, the reason why they wanted to compete in pill forging is because of me as well." Yang Xiangyin sighed, there were many men who would often fight loudly for her, so she was not surprised, but she would usually let them be.

"They are all outstanding Alchemists, they won't be affected. If they can't even handle this, then they are too useless." Chen Xiang laughed.

Huang Xiaotian said angrily: "Chen Xiang, don't think that you can continue being so arrogant just by entering Eternal Life City, this place is much more terrifying than what you can imagine."

"Sun Jun, this guy is making a racket at me. Is there any way to punish him?" Chen Xiang said to Sun Jun who was standing beside him.

"Not at the moment, but you can ask the Pavilion Master to chase them out because they are preventing you from listening to the Pavilion Master play the zither." Sun Jun said.

"Throw them out and we'll see what they can refine." Chen Xiang laughed, he had the time now.

Yang Xiangyin suddenly brought over a cup of tea, causing many people to feel that this was the treatment given to him by the lord. Huang Xiaotian and the other Alchemist on the stage fought just to make Yang Xiangyin look at them once more.

Now, when they saw that Chen Xiang had treated them like this the moment he had just arrived, they were extremely envious.

At this time, Yang Xiangyin also took out a jade zither, playing a beautiful and comfortable tune, Chen Xiang praised repeatedly while tasting the tea.

"Xiang Yin, the song you're playing sounds very fragrant." Chen Xiang laughed. Yang Xiangyin had also finished playing a song.

"This is the song Xiang Yin wrote for Young Master Shen just now. Young Master Shen is satisfied, Xiang Yin is very happy." Yang Xiangyin laughed lightly, then poured Chen Xiang a cup of tea.

"I won." Huang Xiaotian opened the furnace and took out two pellets. It was actually two pellets of low levelled king level Yaoge Dan.

"Hmph, I'll definitely beat you next time. Let's wait and see." The man who was sparring with Huang Xiaotian snorted coldly, then left hastily.

"Lady Xiang Yin, these two Yaoge Dants are for you." Huang Xiaotian walked down, coldly glanced at Chen Xiang, and then smiled at him.

How could Yang Xiangyin not see that Chen Xiang had a grudge with Huang Xiaotian? In her eyes, an elder with a purple jade medallion was more powerful than Huang Xiaotian, the Alchemist.

"I appreciate Young Noble Huang's kindness, many thanks." Yang Xiangyin did not accept it. She was worried that Chen Xiang would be unhappy.

"Huang Xiaotian, did your father come in? I was almost killed by you two last time, if he was here, I would like to curse him right in his face." Chen Xiang sat on the chair, crossed his legs and laughed.

"Your life is so tough that you actually didn't die. But don't be complacent." Huang Xiaotian naturally knew the reason why Yang Xiangyin had confiscated his Yaoge Dan.

There were about a thousand people sitting here, they did not expect Huang Xiaotian and his father to be so powerful, to actually almost kill this master outside.

Huang Xiaotian could not do anything now, he was very clear about the rules here, so he could only say it out loud.

"Huang Xiaotian, how about we compete as well?" Chen Xiang laughed: "Seems like you have concocted quite a good low rank king level pill."

"Then let's skip the competition. How about gambling?" Huang Xiaotian was not afraid of Chen Xiang now, he felt that he had become stronger after refining the Yaoge Dan, because he had already defeated two young Alchemists here.

"Young Master Shen, please consider carefully." Yang Xiangyin had a good impression of Chen Xiang, she immediately warned him, she knew that Huang Xiaotian had done pretty well in pill refining, because this was Huang Xiaotian's second victory here.

"This guy is my defeated opponent. There's nothing to be afraid of." Chen Xiang laughed: "You don't know, when we fought, he cheated, but he still lost to me."

After that, Chen Xiang continued to speak of all of his shameless deeds, angering Huang Xiaotian to the point of wanting to beat him up.

"Don't talk so much nonsense. Just agree to let me bet, right? Let's bet ten million Jade money." Huang Xiaotian shouted in anger.

"Ten million Jade money, what a pity, I am not interested in gambling matches below one hundred million. Your father is a Leader, but you can only take out this little Jade money, it's so pathetic." Chen Xiang mocked.

Everyone was shocked, 10 million Jade money was already a lot, but Chen Xiang actually thought that it was too little, and wanted to bet more than 100 million.

[Chapter 2422](#)

People like Huang Xiaotian loved to show face the most. He had always felt that he was a person that many people looked up to, but now, Chen Xiang was ridiculing him nonstop, causing him to lose all face.

"What, it can't be that you don't have a hundred million Jade money, right?" Chen Xiang laughed.

Yang Xiangyin did not say anything, she was a cultivator of the first stage of the Dao Po realm, not to mention Huang Xiaotian, even her Dao Po realm did not have a hundred million Jade money, so even if she had it, she would not take it out to gamble.

"You ... You came in here and spent five hundred million Jade money to buy this purple jade tablet. Although you were selling quite a few Qiyuan Dan outside, you only earned five hundred million in total, right?" Huang Xiaotian sneered.

"Don't forget that Fang Heng and his son won two hundred million during our bet." Chen Xiang laughed.

"I already did." Huang Xiaotian said: "You don't have a hundred million, but you are arrogant here. You are only so-so."

Chen Xiang laughed blandly: "How about this, I'll bet two hundred million Jade money with you. If you lose, just give me two slaps."

"You ..." Huang Xiaotian was stunned, everyone was stunned, Chen Xiang was obviously trying to humiliate Huang Xiaotian.

"You don't have that many Jade money, don't waste my time." Huang Xiaotian shouted in anger.

"I really have that many. If you take them out, do you dare to bet?" Chen Xiang said indifferently.

"I don't believe you. I know that you have many tricks up your sleeve. You will definitely use some tricks to trick us." Suddenly, Huang Xiaotian didn't believe it.

"How about this, a bet of one billion Jade money. If you lose, give me two slaps, and I'll cut off your arms. Anything." Chen Xiang said again.

Seeing Huang Xiaotian not saying anything, Chen Xiang laughed: "If you win, you can get one billion Jade money, and you can also become a great lord. Of course, with how confident you are in yourself, you definitely won't lose, right?"

One billion Jade money was an extremely large number. If he had so many Jade money, Yang Xiangyin would definitely look at him in a new light, and furthermore, he would be able to become famous in the Eternal Life City, and gain a lot of face.

"I don't believe that you really have that many Jade money unless I see them with my own eyes." Huang Xiaotian said in a serious tone. If Chen Xiang really had it, he would take the risk.

Chen Xiang took out a large pile of jade tablets, and then said to Yang Xiangyin: "Hall Master Xiang Yin, since you're from the Eternal Life Native Bank, you should know whether these jade tablets are real or fake. You can count how many Jade money these jade tablets can be exchanged for."

This is one hundred million pieces, very few. Furthermore, it has been a long time since our Eternal Life Native Bank has produced this kind of jade plate, this is the older certificate of Jade money, but we can still exchange it. You have ten pieces here, that is one billion Jade money. Yang Xiangyin hastily picked up the 10 pieces of jade from the ground.

A billion Jade money were just thrown to the ground like that by Chen Xiang, this kind of boss was extremely rare, at least, it was the first time Yang Xiangyin had seen such a thing.

Chen Xiang really did have a billion Jade money, and they were the older kind as well.

Huang Xiaotian suddenly thought back to the matter of Chen Xiang helping others to cure their poison, and the reward was 2 billion gold. Back then, Long Shuangru had also helped Chen Xiang on stage, and he now understood that Chen Xiang had successfully cured Long Shuang's father.

"Young Master Shen, I'll return it to you." Yang Xiangyin returned the ten pieces to Chen Xiang. These were jade sheets that could be exchanged with Jade money at any time at the Eternal Life Native Bank, she did not dare to take them for herself.

"If you want to gamble, then gamble, let's compete in refining low-grade heaven stage Yaoge Dan." Huang Xiaotian sneered: "At that time, you'd better not cry."

"In my memory, I don't seem to have lost that much. Even if I lost, I wouldn't cry. Don't worry." Chen Xiang chuckled, took out his Heavenly furnace and walked up onto the stage.

He had never refined a low rank king level Yaoge Dan and he did not have any medicinal ingredients.

"I don't have any herbs. How about selling one to me?" Chen Xiang said.

"I only have one copy left." Huang Xiaotian found the Storage magic treasure and said: "How about this, we compete to refine the Dao mark Dan?"

Dao mark Dan s to Eternal Life City were also quite famous. This medicinal formula was not unique to Fire Reverent School in the first place, and many of the people present had all eaten Dao mark Dan before, so they knew how expensive Dao mark Dan s were.

"Oh, you already know how to refine." Chen Xiang asked, he felt that Huang Xiaotian was purposely sparring with him in order to refine Dao mark Dan.

"Of course I understand. You already have the Dao mark Dan's pill formula, you should be able to refine it." Huang Xiaotian said. He knew that Chen Xiang had refined a lot of Yaoge Dan s and his speed was very fast.

And Huang Xiaotian was only able to refine Dao mark Dan recently, he knew that Chen Xiang had also just gotten the Dao mark Dan's pill formula not too long ago. Furthermore, Chen Xiang had been refining Qiyuan Dan to sell on the Demon Forest and was even more injured than his father.

"Alright, let's refine the Dao mark Dan. But before we refine it, how about we form a blood contract? I'm worried that you will go back on your words." Chen Xiang said.

"I'm more worried that you will go back on your word, that's for the best." Huang Xiaotian was secretly happy. He felt that refining Dao mark Dan would definitely not be worse than Chen Xiang, because Chen Xiang had also just learned how to refine Dao mark Dan, and more importantly, his father had taught him the trick to refine Dao mark Dan.

Both of these young men could make Dao mark Dan and these pills were expensive, so they could be sold for as much as three million Jade money in Eternal Life City.

"The rule is that whoever refines the pill wins, regardless of the quality or the amount of pills produced, it just depends on the level of the pill. What do you think?" Huang Xiaotian said.

"Alright, no problem." Chen Xiang said.

After they made the blood contract, Chen Xiang and Huang Xiaotian immediately began to refine pills.

Last time when Huang Xiaotian and his father went to the air islands to attack Chen Xiang, Chen Xiang was selling off a large number of Dao mark Dan s, so Huang Xiaotian knew that Chen Xiang had already made a lot of Dao mark Dan s. However, he still felt that he could win, because he had mastered the trick his father taught him very well.

And the competition's rules were also set by Huang Xiaotian. He purposely set the speed limit, so it was definitely because he felt that he had the advantage in this area.

If it was only a comparison of speed, Chen Xiang was very confident in himself. Now, Huang Xiaotian's face was filled with complacency, as if he was going to win.

This kind of competition also attracted a lot of attention. Everyone just wanted to see the result as soon as possible. After all, it was a rare gamble.

Yang Xiangyin was also watching from below. She was extremely nervous, she did not want to see Chen Xiang lose, of course if Huang Xiaotian lost, there would be a bloody scene.

After an hour, Chen Xiang used the power of the God's Eye Dao mark and channeled it into his eyes, allowing him to directly see the situation inside Huang Xiaotian's furnace.

"This fellow's speed is quite fast, but he still used that death method to link all the Spirit grain together, but his speed was much faster, it seems like he can refine one furnace in five hours, but his quality and pill production are not guaranteed." Chen Xiang also wanted to see what kind of reliance Huang Xiaotian had.

[Chapter 2423](#)

Huang Xiaotian felt that it was extremely quick for him to refine a batch of Dao mark Dan. Although it was only one pellet and the quality wasn't the best, it was still enough to defeat Chen Xiang.

If his father wanted to seriously refine a batch of Dao mark Dan, it would take at least a day. His father and the elders from Supreme Fire Sect had once praised him for mastering that trick so well. His refining speed was much faster than many other elders.

In the blink of an eye, another two hours passed. Although everyone had been sitting here for a long time, they had something to eat and had the patience to continue watching.

When Chen Xiang used the Inscription Method, not only was his speed fast, the pill production and quality were also guaranteed. Right now, he was using the Inscription Method to refine the pill.

It had been eight hours, and the corners of Huang Xiaotian's mouth curled up slightly, filled with pride, because he had already started to condense his pellets. In another two hours, he would be able to refine a batch of Dao mark Dan, he felt that Chen Xiang would definitely not be faster than him.

"I'm done refining!" Chen Xiang suddenly said.

Huang Xiaotian was stunned, quickly replying, "Impossible!"

"Why is it impossible? "You've already inspected my pill furnace, and when we made the blood contract, you said that cheating is not allowed. Once you do that, there will be a backlash. Do you see what I have to do now?" Chen Xiang laughed: "You've already lost!"

Chen Xiang opened the pill furnace and took out four Dao mark Dan s. The quality was extremely good and released a faint glow, like two precious beads, it made everyone exclaim in surprise. Now they understood why this master was so arrogant, he actually had such a profound art!

Dao mark Dan s were relatively hard to refine, and this was something that everyone knew. Alchemists could usually only refine two pellets, and it required a lot of time.

Chen Xiang could produce one furnace of pills in eight hours, and it would be four pills at that, which was more than ten million jade coins!

"You ... "You ..." Huang Xiaotian trembled, and with a 'peng' sound, his pill furnace exploded.

If Huang Xiaotian lost to Chen Xiang, he would be slapped twice by Chen Xiang and both of his arms would be broken. This was not only a simple loss, he would also be injured.

"I admit defeat!" Chen Xiang laughed and walked over: "Stand firm!"

Chen Xiang rubbed his palms together, looking at the green faced Huang Xiaotian, Huang Xiaotian's entire body shivered. It was unknown if he was feeling fear or anger.

Chen Xiang fiercely slapped Huang Xiaotian's face and he immediately flew out. Chen Xiang anxiously moved him back.

This was because the blood contract had already said that Huang Xiaotian could not use the Daoyuan immortal power to protect himself, but when Chen Xiang used the Daoyuan immortal power on him, it showed just how painful Huang Xiaotian was.

Huang Xiaotian's face was already distorted, turning purple in color.

"I've already said it before, I definitely won't let you two off!" After Chen Xiang finished speaking, he waved his hand and slapped Huang Xiaotian's face. Huang Xiaotian was sent flying and when he fell on the ground, he spat out a large mouthful of blood.

Chen Xiang would not be soft-hearted, he was almost tortured to death by the father and son pair last time!

"Chen Xiang, you ... Our Supreme Fire Sect will not let this go. " Huang Xiaotian retorted in anger. He had changed beyond recognition.

"Humph, it was your Fire Worm Clan that had provoked me. My revenge against the Fire Worm Clan has only just begun." Chen Xiang swung his sword, cutting off one of Huang Xiaotian's arms.

"Go back and tell your dad that I'll find him sooner or later. It's best if he finds a way to break through his current bottleneck, or else he'll die." Chen Xiang swung his sword again, slicing off Huang Xiaotian's other arm.

After that, he angrily glared at Chen Xiang, and left the Eternal Fragrance Pavilion. He wanted to tear Chen Xiang into pieces, he himself also had the strength to do so, but he could not do anything to the Eternal Life City, and furthermore, he had a blood contract with Chen Xiang.

When Chen Xiang first came in, everyone thought that he was a playboy, but now, they no longer thought so. They all knew that Chen Xiang's cultivation was not very high, only at the second level of Dao Yuan realm, but it was extremely terrifying, especially when he was taking revenge on Huang Xiaotian.

"Sun Jun, take me to rest." Chen Xiang said.

"Grandpa Shen, follow me." Sun Jun became even more respectful towards Chen Xiang. This was a pill refiner who could quickly refine Dao mark Dan.

Dao mark Dan could become so familiar with the process of refining, so it would be the same for the other pills. In the future, they would definitely have a very high status and could not be offended.

She had been in the Eternal Fragrance Pavilion for many days now, and had met many people. She was also looking for opportunities to curry favor with a powerful person, but none of them were as satisfactory as her. However, Chen Xiang's appearance today made her feel that this was a chance.

"Pavilion Master, where are you going?" Chen Xiang asked.

"You are our esteemed guest. You have just arrived at the Immortal Building, so you are able to get Xiang Yin to play music for you alone." She was not a very charming woman, so she could only try her best to attract Chen Xiang's attention with her strong points.

She could also tell that Chen Xiang wasn't infatuated with her and that this kind of man was also the hardest to deal with.

"That's good too!" Chen Xiang laughed, then followed Sun Jun to a small hut. There was a teleportation circle here that could be teleported to the floors above.

Chen Xiang was teleported to the two hundred floor. Sun Jun said, "Half of the floor here is for you, Master Shen. This is my communication talisman. You can find me anytime you want."

Chen Xiang was very satisfied, there was a luxurious hall here, and also a very large bathing pool. There were many rooms, it was a very luxurious place to stay.

When he arrived at a balcony, he could see a lot of scenery of the Eternal Life City.

Sun Jun chose a very small room for himself. He was already satisfied with just being able to live here.

Yang Xiangyin also sat in the hall, playing a beautiful zither. Chen Xiang leaned back in his chair and enjoyed it.

"Young Master Shen, you are still young, your cultivation is shallow, but your pill refining skills are amazing, in the future, you will definitely make a huge contribution." After finishing playing, Yang Xiangyin sat down on a chair beside Chen Xiang and said.

"Xiang Yin, you are from the Dao Po realm, right?" Chen Xiang asked.

"Hmm, Dao Po realm isn't very strong here, but it's not weak either. However, I've been raised by the Immortal Bank since I was young, don't look at me like this, I'm actually a servant girl of the Immortal Bank." Yang Xiangyin said.

"Oh? I didn't expect it. I even thought that the Eternal Life Bank was a power and that you were a disciple of the Eternal Life Bank." Chen Xiang said, "Now it seems that the Immortal Bank is different from what I imagined."

"This Eternal Life City has only recently been opened to your region. Your region is the Southern Wasteland, and they are also the weakest." Seeing that Chen Xiang did not know about these things, Yang Xiangyin quickly told him.

"So it's like that! Doesn't this mean that the Eight Desolations are very big?" Chen Xiang asked.

"Yes, the Eternal Life City is built in one of the eight wastelands. This is the most prosperous and strongest region here." Yang Xiangyin nodded: "The Eternal Life City is a place filled with wastelands, and right now, we are recruiting a lot of people to enter the Eternal Life City. This has been the plan of the Immortal Bank for many years."

"What is the purpose of the Immortal Bank?" Chen Xiang asked again.

"It's to gather a group of outstanding experts. As for the goal, I have no idea. In short, the three great banks are controlling the entire wasteland." Yang Xiangyin said.

Chen Xiang had already known that the banks were not simple, otherwise no one would use their jade coins for no reason at all.

[Chapter 2424](#)

Chen Xiang now knew exactly how terrifying this Eternal Life Native Bank was, he only hoped that the Eternal Life Native Bank would not provoke him, and as long as he did not make enemies with the Eternal Life Native Bank, he would be safe in this Eternal Life City. Huang Xiaotian was so much stronger than him, yet, he did not dare make a move against him just now.

To many people, it was extremely difficult to earn Jade money s in the Eternal Life City, even though the people here were all very rich.

"Xiang Yin, do you have something to say? Just say it directly." Chen Xiang could tell that Yang Xiangyin had something to tell him.

"Young Master Shen, Xiang Yin was raised by the Eternal Life Native Bank and is also a female servant of the Eternal Life Native Bank. She has made a blood contract with the Eternal Life Native Bank and cannot go against it. This person is indeed Huang Xiaotian's father. I don't really want to be with them." Yang Xiangyin's face was filled with melancholy as he lightly bit his lower lip.

"Huang Xiaotian's father wants to buy you, but Huang Xiaotian seems to be interested in you, that doesn't make much sense." Chen Xiang frowned.

"Huang Xiaotian probably made his father buy me ... Huang Xiaotian has been bothering me for a long time, so I want to ask for Young Master Shen's help." Yang Xiangyin looked at Chen Xiang pitifully.

Chen Xiang suddenly understood what was going on. Huang Tian had already thrown Chu Hongqing away, and Chu Hongqing was Huang Tian's furnace. If he could not find Chu Hongqing, then he would find Yang Xiangyin to replace him.

Chen Xiang immediately rejoiced in his heart. Huang Tian thought to himself that using Yang Xiangyin as his cultivation furnace must be his best choice. After all, a woman like Yang Xiangyin was rarely seen.

It was the Dao Po realm, but she was a female servant. She did not have much of a position, and if Huang Tian offered a high price, she could buy Yang Xiangyin, and at that time, he would be able to do whatever he wanted.

And it would not be easy for Huang Tian to find a girl like Yang Xiangyin. Girls with her cultivation level and status, most of them had high statuses, so how could they become his furnaces?

"How much is he planning to pay the Jade money for you?" Chen Xiang asked.

"Two billion Jade money." Yang Xiangyin sighed.

Chen Xiang sucked in a small breath before laughing, "You're really not cheap at all."

Yang Xiangyin laughed at himself, his smile was filled with misery. He had this kind of strength, but it was like a commodity that he could buy and sell, and after being bought, he would be ravaged by others at will.

"Young Master Shen, I'm willing to pay that price." Yang Xiangyin really didn't want to be with Huang Xiaotian. "If you buy me, I'll be your female servant. You can do anything to me." As he finished speaking, Yang Xiangyin's face flushed red and a trace of helplessness flashed past his eyes.

"Alright, how should I buy you?" Chen Xiang now had over five billion Jade money s, he felt that it was worth it to buy a beauty from the Dao Po realm as his female servant.

Huang Tian had a long conversation with Eternal Life Native Bank last time, trying to make the Eternal Life Native Bank cheaper. But the Eternal Life Native Bank did not agree, so this time Huang Tian probably went back to raise some money. "" Really? Yang Xiangyin said.

"Alright, we'll leave now." Chen Xiang nodded his head, the biggest reason he bought Yang Xiangyin was to not let Huang Tian succeed, Huang Tian had been stuck in the Dao Po realm for a long time, he accidentally acquired the secret technique, and needed to dual cultivate with a strong woman to absorb her cultivation to break through.

Therefore, Chen Xiang could not give Huang Tian any chance, otherwise, Huang Tian would become even stronger, making him even more difficult to deal with.

Furthermore, Yang Xiangyin was also a very beautiful woman. Even though Chen Xiang did not want to take her, he wanted her to be his companion in the ring.

Chen Xiang and Yang Xiangyin arrived at the Eternal Life Native Bank. This Eternal Life Native Bank was the only one, and it was extremely huge. At this moment, there were many people inside, and no one knew what they were doing.

Although Yang Xiangyin's face was covered by a veil, quite a few people recognized her. Her beautiful eyes left a deep impression on many men.

Of course, there were also many people who recognized Chen Xiang. Back then, when he was sparring with Huang Xiaotian in the Eternal Fragrance Pavilion, many people witnessed the entire process and had a deep impression of him.

Now that Chen Xiang had brought Yang Xiangyin to the Eternal Life Native Bank, everyone knew what they were here for. They could only secretly feel jealous in their hearts, as they could not take out two billion Jade money to buy Yang Xiangyin.

The moment Chen Xiang came to the Eternal Life Native Bank, Huang Tian actually came as well. He found out that Chen Xiang had appeared in the Eternal Life City, and Huang Xiaotian even told him that Yang Xiangyin had treated Chen Xiang way too much, so he came immediately.

Seeing Chen Xiang and Yang Xiangyin here, Huang Tian proved that he was thinking about buying Yang Xiangyin as well.

Chen Xiang had severed both of his son's arms, severely humiliated him. He had kidnapped Chu Hongqing earlier, and now that he wanted to take Yang Xiangyin away, his anger was ignited the moment he saw Chen Xiang. However, he did not dare make a move, as this was the Eternal Life Native Bank, any expert would be able to beat him up so easily.

"Leader Supreme Flame, long time no see. Thank you for being lenient last time and not killing me. Otherwise, I would never be able to see you again." Chen Xiang held onto Yang Xiangyin's jade hand, looked at Huang Tian and giggled: "Originally, I wanted to be lenient towards your son as well, but I knew that he was someone who was willing to admit his defeat, so I could only give him two tight slaps, then break both his arms."

"In retrospect, I feel very guilty." Chen Xiang laughed.

How could he feel any guilt now? He was obviously angering Huang Tian.

Yang Xiangyin was a little worried, and then pulled Chen Xiang to the second floor. The yellow weather was so cold that his entire body was trembling, but he didn't say a word and followed them to the second floor.

When he arrived at the second floor, Chen Xiang saw more than ten handsome men wearing gorgeous clothes. They were looking at the portrait on the wall.

There were many portraits of beautiful women, burly men, young and handsome men, and old men with white hair ... In addition, there were also some beasts.

When Chen Xiang looked carefully, he immediately understood that the things on the portraits could be sold. The people on the portraits were all slaves of the Eternal Life Native Bank, so he could see the picture of Yang Xiangyin from the portraits.

"Yang Xiangyin, you came quickly." A blue-clothed man said with a smile. On his waist, there was actually a purple jade plate, it was the same old man as Chen Xiang.

At this moment, Yang Xiangyin was holding hands with Chen Xiang. Chen Xiang could feel that she was extremely nervous, and she was squeezing him tightly. He immediately understood, these dozen odd men with purple jade plates around their waists, were also going to buy this from Yang Xiangyin.

A tall and skinny old man walked out, and said while grinning: "It looks like you all want to buy Yang Xiangyin, Yang Xiangyin is an outstanding girl that our Eternal Life Native Bank has nurtured for many years, I won't say how good she is."

"Old sir, your Eternal Life Native Bank is already so rich, why did you still sell such an outstanding female servant?" Chen Xiang asked.

[Chapter 2425](#)

Not only did Chen Xiang have such a question, the dozen or so men also wanted to ask. Huang Tian felt a headache, and now, not only Chen Xiang wanted to buy Yang Xiangyin, but the dozen or so rich young masters also wanted to buy him.

In the Eternal Life Native Bank, many people are extremely poor, especially some old people. They are in urgent need of money right now, but they cannot take it from the Eternal Life Native Bank, so they can only sell the slaves that they cultivated back then. "The old man said helplessly: "The matters of our Eternal Life Native Bank are rather complicated, it would be hard to explain it to you in a few words."

"What do we do now? We need to buy Yang Xiangyin." A blue-clothed man asked.

"Of course it's an auction. The highest bidder gets it." The old man smiled. Two billion is a low price. You can make your own bids and do it here.

"2.1 billion." a man shouted.

"Twenty-two."

"Twenty-three."

"..."

When it reached 3.5 billion RMB, Huang Tian finally stopped shouting. From the beginning to the end, Huang Tian never did.

"Is there anyone else?" the old man asked.

Yang Xiangyin's head was slightly bent, she was still holding onto Chen Xiang's hand tightly. It was obvious that she only wanted to follow Chen Xiang, she seemed to think that Chen Xiang would not buy him, because the current price was too high, and had already surpassed her own value. She was well aware of how much she was worth.

"3.6 billion." Huang Tian shouted.

Chen Xiang could feel Yang Xiangyin's delicate body slightly tremble just now because she was afraid. Her intuition told her that if she was bought by Huang Tian, it would be very miserable.

"Anything else?" the old man shouted again.

Huang Tian sneered at Chen Xiang, as though he was ridiculing Chen Xiang for not being able to afford it, and the dozen or so men had already given up, there were already a lot of women by their side, they only wanted to buy a Dao Po realm of a female servant for fun, but they had already crossed the line.

"3.7 billion." Chen Xiang shouted indifferently.

"You ... Chen Xiang, you don't have that many Jade money s, so don't blindly meddle. " Huang Tian said angrily.

"If I meddle blindly, Eternal Life Native Bank will not let me go. You don't have to worry about that." Chen Xiang smiled faintly.

Yang Xiangyin never thought that Chen Xiang would actually have this much money, as this was comparable to a lot of large sects and families.

"3.8 billion." Huang Tian shouted again.

"4 billion." Chen Xiang added two hundred million in one breath, causing the dozen or so young masters to be shocked. For a woman with Dao Po realm, he actually offered that much.

Huang Tian's facial muscles twitched, wanting nothing more than to kill Chen Xiang, but he did not dare make a move. Huang Tian could not increase his strength any further, as this was already his limit.

"Is there no one else?" He was already very satisfied with the price.

A moment later, the old man clapped his hands and laughed: "Chen Xiang right, 4 billion."

Chen Xiang took out the four billion Jade money s worth of credentials, which were all jade pieces and only forty of them.

"It's a very ancient item, but it can still be redeemed. This is Yang Xiangyin's Blood Pact Pearl, she will be yours from now on." The old man gave a bead to Chen Xiang.

Chen Xiang dripped a drop of blood on it, and immediately felt the connection between him and Yang Xiangyin.

The yellow weather trembled, after snorting for a bit, he left the Eternal Life Native Bank with incomparable fury.

Seeing Huang Tian's expression, Chen Xiang was overjoyed in his heart, and then, he returned to the Immortal Mausoleum with Yang Xiangyin.

Chen Xiang sat on the chair and was using her tender jade hands to squeeze his back, making him feel very comfortable. At this moment, Yang Xiangyin was also smiling very sweetly.

"Master, did you not plan to buy me from the beginning? You didn't even raise the price." Yang Xiangyin laughed.

"Of course not, I've definitely bought you from the beginning. Do you know why Huang Tian cares about you so much?" Chen Xiang drank his tea and said.

"Isn't it all for his son Huang Xiaotian?" Yang Xiangyin thought so.

"Of course not, he wants to break through a bottleneck. This guy wants to use you as a cultivation cauldron so that he can be troubled by the bottleneck that has been with him for many years. However, I will not let him succeed." Chen Xiang laughed: "It should be difficult for him to break through now."

"This... Is this true?" Yang Xiangyin could not help but be shocked, cold sweat trickling down her back. If she really fell into Huang Tian's hands, she would definitely suffer a fate worse than death.

Chen Xiang released Chu Hongqing from the ring and laughed: "She is called Chu Hongqing, and was once the goddess of Supreme Flame, almost becoming Huang Tian's cauldron. However, she is now my female slave, and from now on, you two are good sisters."

Chu Hongqing pulled Yang Xiangyin and sat at the side. Suddenly, the two girls chattered about many things, while Chen Xiang leaned back in his chair and closed his eyes to rest.

He spent four billion in an instant. This was the compensation Long Shuangru gave him back then.

He still had a little more than a billion like this, but half of it was earned from selling pills. The other half was the one billion he had won from gambling in the Eternal Life Native Bank, but he had given the Eternal Life Native Bank 500 million to buy the opportunity to enter the Eternal Life City.

Yang Xiangyin very quickly found out many things about Huang Tian, as well as about Chen Xiang's situation outside. Of course, there were many things that Chu Hongqing did not tell Yang Xiangyin, such as the matters of the Hundreds of Flowers Village, but only mentioned the things regarding Chen Xiang in the Fire Tao Divine Place.

Yang Xiangyin was also very happy at this moment.

"Master, what are you thinking about?" Chu Hongqing came to Chen Xiang's back and patted Chen Xiang's face and giggled.

"I'm thinking about how I can earn a lot of Jade money here." Chen Xiang opened his eyes, and then placed his hands on Chu Hongqing's cheeks and rubbed them.

"Elder sister Xiang Yin, do you know of any way to make him earn money? He is a very powerful Alchemist." Chu Hongqing said.

Yang Xiangyin thought for a moment, then said: "Pill refining can definitely earn money, but the condition is that it has to be sold at a lot of money. Dao mark Dan s here cost 200 Jade money s per pellet, which means that there are a lot of people buying it.

"The Dao mark Dan is not bad, Hongqing and I can refine them, and Hongqing can also refine four of them in one go now. Sometimes he can refine three of them, but it will be slower." Chen Xiang said.

"Hongqing, so you're actually this powerful." Yang Xiangyin was very surprised, she did not know that Chu Hongqing had this ability, a female Alchemist who could refine Dao mark Dan, this identity was even more noble than her, a Dao Po realm.

"It was all taught to me by him. Without him, I wouldn't have been able to improve so quickly. Even though I was refining pills in the past, I'm not as strong as I am now." Chu Hongqing laughed.

"Right, the Eternal Life Native Bank should also sell medicinal ingredients or pill formulas." Chen Xiang asked.

"There are some that can go take a look. There are some Alchemist that are in a hurry to spend their money and would sell their pill formulas." Yang Xiangyin nodded.

[Chapter 2426](#)

Chen Xiang gave Sun Jun some Jade money and beat him away. Sun Jun was a young man, to be able to get so many Jade money, he was very happy.

Chu Hongqing returned to the Dark Dragon Ring, and started refining Dao mark Dan s inside it. She had become addicted to it now, but Chen Xiang and Yang Xiangyin continued on their way to the Eternal Life Native Bank.

When Chen Xiang and Yang Xiangyin came to the third floor, they saw quite a few people there, and those who had the money to enter the Eternal Life City must be mostly from Alchemist. When the Eternal Life Native Bank was trying to spread the news to the Alchemist, he said that there were a lot of rare herbs and pill formulas for sale, which was why he had attracted them here.

In the middle of the third floor was a large transparent crystal cabinet. In the middle of the cabinet, there was a crystal clear purple pill with the words "Heavenly Purple Pill" written on it.

"This is the most precious thing on the third floor, it's a Natural Law Dan." Yang Xiangyin said to Chen Xiang: "I only know that this pill is a Natural Law Dan, I'm not sure about its use."

Chen Xiang looked at the price listed, and saw that it was actually ten billion.

Chen Xiang understood that in these eight wastelands, the medicinal ranks of the pellets were now Tianjie Dan s, Wanjie Dan s, and finally Natural Law Dan s.

Chen Xiang could only keep low levelled king Stage pills for now, he came here to see if there were any low levelled king Stage pills here.

"There is a middle tier king grade pill formula there." Yang Xiangyin pointed to a painting hanging on the wall. On it, the uses and price of this pill was written.

"Mid tier Mid tier Mighty Yuan Royal Pellet is mainly used for Dao Yuan realm s, Dao Dan realm s and Dao Po realm s. It is the most effective for Dao Yuan realm s and can break through one stage in at most ten pellets and surpass the tenth stage of Dao Yuan realm."

Chen Xiang read the description on it, then asked Yang Xiangyin: "Xiang Yin, have you ever heard of this kind of pill, how many Jade money s can it sell here?"

After I reached the sixth stage of the Dao Yuan realm, I started to make breakthroughs after consuming these pills. I also ate them when I was in the Dao Dan realm, but there are very few people who sell them now, and I don't know why, but I heard that it's because the herbs are too rare. Yang Xiangyin said: "It's very difficult to buy this pill right now."

Five million Jade money per pellet was twice as expensive as the Dao mark Dan. Although Chen Xiang could now make a breakthrough by eating Qiyuan Dan, the Qiyuan Dan could only be eaten once every

two months. Furthermore, after arriving at the Dao Dan realm, even if it was a low level king level pellet, the effects would be greatly reduced.

"I wonder how many pills are out there. It says that ordinary Alchemist can produce two pills and the more powerful one can produce three. If I were to refine them, four or five should not be a problem." Chen Xiang thought, he was estimating whether this pill formula was worth it or not.

"There's 1.5 billion in total, I'll be poor if I buy it."

Chen Xiang considered for a moment, then said to Yang Xiangyin: "Buy it."

Yang Xiangyin nodded, and then led Chen Xiang to a person in charge. After they were done, Chen Xiang used the 1.5 billion Jade money to buy it.

The recipe also provided a set of medicinal herbs. The Qingyuan Dan only required two ingredients, a blue flower and a very big blue fruit.

"Master, you really have a lot of Jade money." Yang Xiangyin had thought that after Chen Xiang bought her, he had almost used her up.

"Not now." Chen Xiang shook his head and laughed.

Yang Xiangyin felt a little guilty, she could not refine pills like Chu Hongqing, and could not give him money to earn. She muttered to herself: "I am truly sorry, I only know how to play the zither.

"You play the zither is very nice. There are women who can concoct pills and there are those who can forge artifacts, but they can't play the zither very well." Chen Xiang caressed her face and laughed: "In short, I bought you. I think it's worth it, don't feel inferior."

"Yes." Yang Xiangyin nodded and smiled sweetly at Chen Xiang. She felt that Chen Xiang was really too good to her.

After Chen Xiang returned to the Immortal Deity Restaurant, he ordered a lot of food and drinks. Only after he ate a huge meal did he go and look at the Qingyuan Dan's pill formulas.

"No wonder this kind of Qingyuan Dan is sold by less and less people. Not only are Qingyuan Dan's medicinal ingredients rare, they also require a large amount of blood to refine the Qingyuan Dan." Chen Xiang frowned.

"Why are there so few medicinal ingredients?" Chu Hongqing asked, she had not heard of this pill before.

"Because the conditions for growth are very harsh, it needs to be in a place where the extreme cold and heat are similar. It will also take a very long time for it to mature. This is what is described above." Chen Xiang said: "The medicine that I sent over is also not very good."

"Then what do we do now?" Chu Hongqing knew that he was desperate to break through. Although Chen Xiang had beaten Huang Xiaotian in pill refining, he was still weaker in terms of strength.

Right now, there were no Qingyuan Dan on the market to buy it, otherwise he would have directly bought one for himself.

"I can only allow you to use the Violet Bead." Chen Xiang said: "Xiang Yin, go inside the ring, let Hongqing teach you how to help me."

"Alright." Yang Xiangyin placed Yang Xiangyin inside the Yin Yao Ring. She could cultivate the Spirit seed inside there.

After an hour, Chu Hongqing said: "The purple pearls that have been submerged in the Six Realms God Cup for a day only need twenty of them to replicate. Strange, this is actually faster than the Dao mark Dan's medicine ingredients by a lot."

"Alright, I'll condense more purple pearls now." Chen Xiang could condense five purple pearls in two hours, and that meant he had sixty purple pearls per day.

Chen Xiang had continuously condensed purple pearls for ten days, a total of six hundred, adding the original one thousand.

If he were to copy the medicinal ingredients, he would be able to produce 50 batches of them.

Yang Xiangyin was also shocked, she finally understood why Chen Xiang was so rich, it was because he possessed such a bizarre divine art.

"I'll start concocting now. I hope there'll be more pills." Chen Xiang took out the Chuangshi god furnace and placed the two herbs inside.

Once refined, it would mutually reject, and that was the biggest difficulty in refining it. In order to prevent the two extreme powers from mutually rejecting each other, the Alchemist who created this kind of pill could inadvertently use blood to cure it.

It just takes a lot of blood.

Although the use of Qingyuan Dan was large, it was very difficult to increase the price. Usually, for cultivators under the Dao Po realm, five hundred Jade money was the limit, no one would buy them no matter how high they were.

Refining Qingyuan Dan s were very common, not to mention the few medicinal herbs, they also had to put their own blood in it. As a result, over time, many Alchemist who knew how to refine would stop refining this kind of pill.

Chen Xiang didn't know before that he had to bleed, or else he definitely wouldn't choose. Because buying the pill formulas with one and a half billion would be considered quite a loss.

"If I can use the Heavenly Alchemy to solve the difficult problem of bleeding, then that would be great for me." As Chen Xiang refined those medicinal herbs, he searched for a solution within the Heavenly Alchemy.

[Chapter 2427](#)

Chen Xiang was concocting pills in the secret room, while Huang Tian was thinking of how to take revenge on Chen Xiang. He was enraged by Chen Xiang several times, and had no place to vent his anger on.

Last time Chen Xiang was heavily injured by Huang Tian, he still did not have enough strength to fight Huang Tian. However, he had calculated that he would not let Huang Tian and his son off just like that.

The Eternal Life City had only just started opening to the Southern Wasteland, and only invited a small number of Southern Wasteland Rankers. On the other hand, the Eternal Life City was open to the other regions earlier, and those regions had a lot more experts than the Southern Wasteland, and they were very strong. Huang Tian and the others only knew about them after entering the Eternal Life City.

Chen Xiang had already known from Yang Xiangyin that entering the Eternal Life City was beneficial to him. On one hand, it could make him safer, so Huang Tian didn't dare to make a move against him.

In Eternal Life City, if he was relatively rich, even if his cultivation was not very high, he would still be able to obtain the respect of many people, because Eternal Life City had very strict rules, and experts with high cultivations did not dare to casually attack him.

Inside the ring, Chu Hongqing was also refining a Qingyuan Dan. She wasn't very familiar with the Heavenly Alchemy like Chen Xiang, so she had to follow the pill formulas to refine the Qingyuan Dan.

Yang Xiangyin was not idle right now, he was growing Spirit seed s, everything he did in the past was done by Chu Hongqing.

"Could it be that I won't succeed if I don't bleed?" Chen Xiang had already refined two of the Qingyuan Dan's medicinal ingredients, but he was still unable to combine them. The recipe had a solution to this problem, which was to use his own blood to fuse the medicinal ingredients.

Chen Xiang did not want to do that, because his goal was to quickly and quickly refine a large amount of such a pill.

The Chuangshi god furnace suddenly trembled, Chen Xiang sighed, because he had failed, he forcefully gathered the two medicinal liquids together, and unexpectedly produced a strong explosive power, exploding the furnace.

"I'll give it a try using the fire and water refinement technique." Chen Xiang couldn't find any suitable methods from the Heavenly Alchemy, so he could only try using other methods.

After he used the Fire and Water Refinement, he was pleasantly surprised to be able to successfully combine these two medicinal herbs.

This kind of unexpected event made him extremely happy. He inwardly praised the strength of the Heavenly Alchemy, as expected, there was a method to deal with this kind of situation.

Not long after, he used the Water and Fire Refining Technique to completely fuse the two medicinal essences. What he did not expect was that the medicinal liquid was actually very large.

"How can there be such a big ball, this can condense seven or eight pills." Chen Xiang took a deep breath, then divided the medicinal liquid into eight clumps, and started to condense the pellet.

The process of condensing the pellet was relatively long, so the eight lumps of medicinal liquid were difficult to compress. This was, after all, a middle tier king level medicinal ingredient, so it took Chen Xiang a full six hours.

"Hongqing, I succeeded." Chen Xiang said while grinning towards Chu Hongqing. Chu Hongqing had already failed once, but she did not continue with the refinement, she was afraid that she would fail again, and would waste her medicinal ingredients.

"Really? How many pills have you refined?" Chu Hongqing asked, and then, he walked out of the Netherworld Udumbara Ring with Yang Xiangyin.

"Eight pills." Chen Xiang laughed: "Using fire and water to refine it is very easy, go and try it yourself."

Chu Hongqing was not too surprised, because she had already gotten used to it. On the other hand, Yang Xiangyin, who knew a little about this pill, was dumbstruck.

Just one furnace could produce eight pills, and the quality was all very good. Each pill cost five million Jade money, and this furnace could be sold for forty million.

Yang Xiangyin knew that Chen Xiang had the Alive Slain Method, which could duplicate a large amount of medicinal herbs, and Chen Xiang's pill refining skills were superb, which was equivalent to having an endless amount of wealth. Just thinking about it made her afraid, she suddenly felt that Huang Xiaotian and his father had been too stupid to be enemies with Chen Xiang.

"Hongqing, try it yourself. I'll take one and see." Chen Xiang was currently at the second level of Dao Yuan realm. Only by stepping into it could he be considered to have strength, but he was still far inferior to Huang Tian.

"Alright." Chu Hongqing also knew how to refine water and fire, and she and Yang Xiangyin entered into the ring again.

Yang Xiangyin worked even harder growing the Spirit seed, because she knew that this was something that could help her copy the herbs. Chen Xiang would soon be selling the Qingyuan Dan in bulk, and at that time, he would be able to earn back the money to buy the Qingyuan Dan.

After Chen Xiang ate a Qingyuan Dan, he quickly refined the medicinal power. A ball of mist appeared above his Divine Sense Sea, which quickly condensed into a small white sun.

"Eating another pill will succeed, this Qingyuan Dan is truly extraordinary." Chen Xiang swallowed another pellet, and quickly cultivated the third pellet.

Feeling the Qingyuan Dan's benefits, Chen Xiang continued to eat. The difference between Qingyuan Dan and Qiyuan Dan could be eaten continuously, and with enough Qingyuan Dan to support him, he could quickly condense Dao Yuan.

He quickly condensed his fourth set of Dao Yuan, but he had used four Qingyuan Dan. One day, when he had been cultivating, Chu Hongqing had also successfully refined a furnace of water and fire.

"I only have six pills." Although Chu Hongqing said this, she was still very happy in her heart. It was the first time that she had concocted so many pills in one go, and she felt a sense of accomplishment.

Yang Xiangyin was extremely envious of Chu Hongqing. He knew how to refine pills, and after receiving the pill refinement skills that Chen Xiang had passed on to him, he had become extremely proficient in it.

"I'm already at the fourth stage of the Dao Yuan realm. It seems that I'll need to eat quite a bit to reach the great perfection stage." Chen Xiang ate another two pills, and based on the condensed Dao Yuan Qi tornado, he still had to take another four pills before he could condense the fifth pillar.

"I can only condense the fifth element after consuming six pills this time. When condensing the sixth element, I should be able to condense eight pills, then ten, twelve ... Didn't the description say that within the tenth layer of the Dao Yuan realm, at most ten of them would be able to condense one Dao Yuan? " Chen Xiang curled his lips.

"That might be because you're different." Chu Hongqing laughed.

"It's very possible that when I first ate it, I quickly condensed Dao Yuan." Yang Xiangyin said.

Chen Xiang took Chu Hongqing's six pellets and stuffed them into his mouth in one go. Both Yang Xiangyin and Chu Hongqing felt that it was somewhat funny, Chen Xiang actually ate such a precious Qingyuan Dan so casually, it was all in one go, the six pellets he had were equivalent to thirty million Jade money.

Chen Xiang had continuously made breakthroughs and his cultivation speed was extremely fast. In just a short ten days, he had already condensed ten Dao Origin Stage cultivators.

"Rest first, then we'll begin attacking the Dao Dan realm." Chen Xiang did not stay idle while he was refining the pellets. He condensed the purple pearls for use in copying the Qingyuan Dan's medicinal herbs in the future.

[Chapter 2428](#)

Chen Xiang made Yang Xiangyin accompany Chu Hongqing inside the ring. Furthermore, he could also hear Yang Xiangyin playing the zither inside the ring, which was extremely enjoyable for him.

Just as he walked two streets, he heard someone talk about a shop that had just opened. The price of selling the Dao mark Dan was extremely cheap, only selling it for one million and seven hundred thousand Jade money.

Chen Xiang immediately guessed that this was most likely opened by the Fire Reverent School.

When he arrived, it was as he expected, because he saw Huang Tian in the shop.

"This bastard sells so cheap here and so expensive outside. He seems to be doing pretty well here." Chen Xiang and Huang Tian had a huge grudge, so when he saw that Huang Tian's shop business was so good, he was very unhappy.

He walked in, and the moment Huang Tian saw him, his originally smiling face sank.

"Chen Xiang, what are you doing here?" Huang Tian's voice was ice-cold and filled with anger.

"I just came to take a look. I didn't expect you to open this shop." Chen Xiang said while grinning, he was not afraid of Huang Tian, if Huang Tian were to make a move on him, a purple jade plate master, the consequences would be dire.

"Chen Xiang, be careful. I did not open this shop by myself. I worked with others." Huang Tian said coldly: "Offending him will not make you comfortable even in Eternal Life City."

"Why should I offend him? Furthermore, I am not here to cause trouble. I am only here to take a look. Are you that petty? You won't even let me take a look." Chen Xiang laughed.

"Brother Huang, what's going on? You should be more polite to the guests." A middle-aged man dressed in luxurious golden clothes walked over. In his hand was a golden fan, and on his waist was a gold medal. Beside him were two young men with purple jade medallions.

Although Chen Xiang didn't know him, he knew that this middle-aged man definitely had a lot of power and position.

"It's a golden token, far more noble than the purple one. It's said that, so far in Eternal Life City, only five people have bought this golden token, it requires a billion Jade money." Yang Xiangyin said: "But I do not know this person."

"Brother Ning, he is Chen Xiang. My attitude towards him is considered very good." Huang Tian said.

"This is Chen Xiang, I have heard about the matter between you and him. As long as he is Brother Huang's enemy, he is also my enemy." Ning Quan coldly looked at Chen Xiang: "This shop was opened by us, we do not welcome you, quickly scam."

Chen Xiang sighed: "Being enemies with me, Chen Xiang, does not mean much, you and I have no grievances, so be my enemy, you will regret it, I want to tell you, since you have chosen to be my enemy, then I will treat you as my enemy, and take care of yourself."

After Chen Xiang finished speaking, he walked out of the shop.

Ning Quan laughed sarcastically: "However, to be so arrogant after learning such a powerful pill refining technique, I think that I am afraid of him. I would like to see how he will make me regret it."

Chen Xiang also heard Ning Quan's words, and he only felt it was funny, he did not know how Huang Tian fawned over him, but he knew, Ning Quan would definitely be unlucky if he was treated as his enemy.

"Xiang Yin, what is the background of those guys with the gold medal? Is the power behind them really so terrifying?" Chen Xiang asked.

"Normally, this kind of people would not lack Jade money. Moreover, they all hope to have a higher position. That Ning fellow should be from the Eastwoods clan, a very powerful family." Yang Xiangyin said.

"How does the Ning Family, which is so powerful, compare to the Eternal Life Native Bank?" Chen Xiang asked.

"They definitely wouldn't dare to go against Eternal Life Native Bank, the Eternal Life Native Bank is very strong, the Ning family can't afford to offend them, otherwise they wouldn't have spent one billion to come here, and they knew very well of the Eternal Life Native Bank's strength, that's why they came here." Yang Xiangyin said: "He probably wants to build his own businesses in the Eternal Life City, so he is getting close to the big shots of other families."

"This is how Huang Tian should befriend him."

Chen Xiang laughed: "In that case, the refining of Dao mark Dan must be better than others, that's why Ning Quan chose to work with Huang Tian."

"It should be like that. That shop just now was mainly filled with Dao mark Dan." Yang Xiangyin said.

Chen Xiang walked to the end of the street and realised that there was an empty space, there were a few people setting up stalls and selling all sorts of things.

Chen Xiang's eyes lit up. He then asked the stall owners and found out that as long as he could find the person in charge of this area and pay a certain amount of Jade money, he would be able to set up a stall here.

Chen Xiang arrived at a small building and found the person in charge of these streets. He rented a stall with one hundred thousand Jade money per month, which wasn't too expensive for Chen Xiang, so he rented it for three months.

Right now, he had yet to set up his stall. Instead, he went back to the Immortal Restaurant and refined the Dao mark Dan in the secret room.

He had refined all of the remaining Dao mark Dan's medicinal ingredients. Last time, he exchanged for 200 from the Elder Tree and Chu Hongqing had refined some of them.

Currently, he could refine six batches a day, which meant that he could finish the rest within twenty days. He had a total of seven hundred Dao mark Dan pills.

He calculated the time and found that he had been inside for almost a month. Afterwards, he left the Eternal Life City and headed towards the Demon Forest to exchange for a hundred batches of Dao mark Dan's medicinal herbs.

"I need to speed up." Chen Xiang also felt that he could use his eyes to refine pills now, he was already at the tenth level of Dao Yuan realm and the flames he released using Daoyuan immortal power was also very strong.

He took a deep breath and used the light from his eyes to refine the pill. He did not complete the pill in an instant, but rather took a moment to do so.

Even so, it was still extremely fast. Yang Xiangyin was once again shocked by Chen Xiang's method of refinement.

This was a consummate skill that could only be used by Chen Xiang. It required an extremely large number of times to refine a type of pill.

Thirty batches a day, and in more than three days, he had refined a hundred batches of Dao mark Dan's medicinal ingredients into four hundred pellets.

"There are a total of 1100 Dao mark Dan. He should be able to compete with Huang Tian and the others." Chen Xiang came to the corner of the street and started to set up a stall. There was a large sign saying, "High-quality Dao mark Dan, only need a million and five hundred thousand."

Chen Xiang had previously asked around, but Huang Tian's shop only sold fifty Dao mark Dan everyday, and the quality was not very high either. Although it sold for one million and eight hundred thousand Jade money, many people felt that it was not worth it, but there were not many Dao mark Dan here, so they could sell all of them every day.

Those who bought Dao mark Dan s here were all bought for the younger generation and were relatively easy to sell. However, Chen Xiang's small stall did not attract anyone's attention, and many people did not even bother to look at it, because this type of stall was very hard to find.

Chen Xiang quickly thought of a way, which was to let Yang Xiangyin play the zither.

[Chapter 2429](#)

's name was known to many, especially after she was bought by four billion Jade money. Her name was even more famous, causing many people to feel pity, because they would no longer be able to listen to her play the zither anymore.

As long as he could help Chen Xiang, Yang Xiangyin would be happy, she would be happy to play the zither here, and that way, more people would be able to hear her zither music.

The moment Yang Xiangyin appeared, the few people at the side who had the same reactions nearly had their eyeballs pop out from their sockets.

"This... This is actually the living Fragrant Pavilion Master, right in front of our eyes ... Could this guy be Chen Xiang?" A middle-aged man said in shock.

"That's right, I'm Chen Xiang. I'm selling the Dao mark Dan right now, do you want to buy some?" Chen Xiang laughed.

Just as Chen Xiang had expected, after Yang Xiangyin appeared, the effect was very good and he very quickly attracted many people. The entire street very quickly found out that Yang Xiangyin was accompanying his master in setting up stalls to sell Dao mark Dan s.

Therefore, the story of the one million and five hundred thousand Dao mark Dan being sold at the stalls was quickly spread out. This made Huang Tian extremely angry, as it was obvious that they were robbing him of his business.

... ..

"Brother Huang, don't worry, he's selling his stuff. We're selling ours, and he's only one person. His Dao mark Dan won't be able to hold for long." Ning Quan sneered: "Let's see how long he can continue to sell for."

"He has a lot of Dao mark Dan. Last time, he sold two hundred in a single day. I wonder how many are currently in his possession." Huang Tian understood this very well.

"Oh, then let's go take a look." Ning Quan knitted his eyebrows, then led his people and Huang Tian forward.

They saw from afar that Chen Xiang and a few others bought Dao mark Dan from Chen Xiang's stall. On his way there, he bought over ten people.

"Oh, it's you guys, do you want to buy a few? My Dao mark Dan's quality is much better than yours ... Don't be angry, these words were said by everyone, and they all said that your Dao mark Dan's quality is very bad." Chen Xiang laughed.

Huang Tian had just opened a shop here and it was heavily advertised. It could be considered quite famous, adding the fact that Ning Quan, this tycoon, was often hanging out with his friends inside, many people knew about it.

They knew of the hatred between Chen Xiang and Huang Tian, the reason why Chen Xiang was setting up the stall here was obviously because he was trying to suppress Huang Tian and Ning Quan's shop.

"Chen Xiang, I won't talk about you selling the Dao mark Dan, but it's not appropriate for you to be here." Ning Quan said coldly.

"What's wrong with that? There are a lot of people frequently coming to this street, and the rent here is cheap. It's at the end of the street, and across from it is a large open area. Everyone can listen to Xiang Yin play here." Chen Xiang laughed: "And the best thing is that when you stand in front of my booth, I don't have the authority to make you scram, right?"

Ning Quan's identity was noble, no one had ever dared to speak to him like that, if not for the rules of the Eternal Life City, he would have definitely made his move.

"Kid, show some respect. Talking to our Lord Ning like this is courting death." A man beside Ning Quan said.

"On what basis should I respect him? He is my enemy, but you, as a dog, are not bad. You know to get angry for your master. You are worthy of respect." Chen Xiang snickered.

Every word he said made the other party want to beat him up, but they didn't dare to.

"Hey, if you're not buying, then hurry up and move aside. Don't hinder my business. If that happens, I'll have to file a complaint. When I paid the rent, I asked. If someone came to create trouble, they would do so." Chen Xiang said.

The people around Ning Quan were all very angry, they could not make a move, and could only scold Chen Xiang, but was stopped by Ning Quan.

"Chen Xiang, you are very confident in your pill refining skills, and I heard that you like gambling. Ning Quan said.

Chen Xiang couldn't help but reveal a brilliant smile. If he was betting on something else, he wouldn't be so confident. But if he was betting on pills, he could make the other party lose everything.

"How should we bet?" Chen Xiang asked: "I need to understand more first."

"Let's bet on the Dao mark Dan." Just as Ning Quan finished speaking, Huang Tian who was beside him wanted to speak, but was stopped by Ning Quan.

"The rules for winning and losing." Chen Xiang was not afraid of gambling with the Dao mark Dan.

"This rule is a bit special. However, since you are so confident about yourself, I believe that you will definitely accept it." Ning Quan said.

"Go ahead."

"Both sides will use the worst quality Dao mark Dan's medicine to refine. It will be considered our victory if we can refine the best quality Dao mark Dan within two hours." Ning Quan said: "And this quality, refers to the sum of the quality of all the Dao mark Dan."

"On the third floor of the Eternal Life Native Bank, there is a place that specializes in pill gambling, and there is also a place that tests quality equipment with fairness. Let's go there and gamble, what do you think?" Ning Quan said.

"It won't be too late to discuss what we should bet before we go." Chen Xiang said.

"Five billion Jade money, you should be able to afford it, right?" Ning Quan said.

"Just what I want." Chen Xiang laughed: "Let's go, I will pack up my stall and go to the third floor of Eternal Life Native Bank."

Chen Xiang did not have five billion Jade money on him, but he was not worried.

When they arrived at the third floor of Eternal Life Native Bank, many people rushed over as well. This was a very common competition, to refine Dao mark Dan in two hours, there were already many Alchemist on the third floor, and they all felt that it was very challenging.

"If you fail, then it's a loss. The quality is all added together from the Dao mark Dan that you refined, and you have to complete it within two hours. You used the Eternal Life Native Bank's quality testing treasure." Ning Quan explained the rules once again.

"No problem, where's the pill furnace?" Chen Xiang asked.

"I can use my own pill furnace." Ning Quan said: "Wait for an hour, I will send someone to invite Alchemist."

The one competing was not Huang Tian, because Ning Quan knew that Huang Tian still could not defeat Chen Xiang. It could be seen that the Alchemist he had invited was very powerful.

Ning Quan came from the Eastern Wastelands, an area that Yang Xiangyin had said was very strong, much stronger than the Southern Wasteland.

An hour later, Ning Quan was full of things to do as he walked downstairs. Not long later, he saw him talking and laughing as he walked over to a tall, beautiful lady in white.

"Martial Uncle, as long as you win, I will give you three billion Jade money. This is just a small matter to you, it's very worth it." Hearing Ning Quan's words, everyone was shocked, this white robed beauty who looked cold, was actually Ning Quan, the golden great master's uncle master.

At this time, Chen Xiang took note of Huang Tian's expression. He immediately felt that it was funny, that Huang Tian actually had such an evil thought towards Ning Quan's Junior Master.

Ning Quan's beautiful Junior Master was definitely very strong, especially in the area of pill refining. Men all liked to conquer this type of girl, especially this kind of ice beauty.

The stronger the woman was, the better it was for him. Originally, he had his eyes on Yang Xiangyin, but he did not expect that he would be snatched away by her.

[Chapter 2430](#)

When Yang Xiangyin saw Ning Quan's beautiful Junior Master, he suddenly thought of something, and immediately told Chen Xiang: "Master, Ning Quan's Junior Master has an influential background. Although I have never seen her before, but I have heard about her before."

"Oh, tell me about it." Chen Xiang asked. Ning Quan was currently discussing matters with her Junior Master, and Ning Quan had even taken out a jade box.

"She is a Alchemist of the Three Lives native bank. I heard that she was able to refine an Emperor Pill and is a very famous female Alchemist. She was also invited by the Eternal Life Native Bank in the Eternal Life City." Yang Xiangyin said: "She came here to help the Three Lives native bank take care of the medicine shop."

"Three Lives native bank, is he one of the three great native bank?" Chen Xiang asked.

Yes, a native bank who is on par with the Eternal Life Native Bank is also very mysterious. I heard that the Eternal Life City and Three Lives City will be the same in the future, so the relationship between the three native bank s is quite good. Yang Xiangyin said.

"What is her name? She's actually a high ranking official of a native bank. I wonder how strong she is?" Chen Xiang was extremely curious about this, the meaning behind the existence of the three native bank s had always been something he was very confused about.

"I think his name is Xie Qiaoyan ... I've only heard of it from others, I don't know if it is her, but there aren't many strong female Alchemist here, so it's very possible that it's her. Yang Xiangyin said.

Xie Qiaoyan did not seem to be too willing to compete in pill refining with Chen Xiang, and for some reason, Ning Quan actually allowed her to come over. A woman like her should not be called over so easily.

"As long as we can beat him, right?" Xie Qiaoyan coldly looked at Chen Xiang and asked.

If you win, I can give you three billion Jade money. Martial Uncle, you wouldn't be unwilling to do such a good thing, with your strength, you can just casually make a batch of Dao mark Dan. Ning Quan laughed.

Chen Xiang laughed: "I am not that easy to win, if you lose to me, your Junior Master would definitely blame you, after all, you were the one who let her compete with me, and from the looks of it, she is not the kind of person who can casually fight with others."

Ning Quan laughed coldly: "What a joke, how could my Junior Master lose to you, my Junior Master really won't fight with random people to refine pills, so today is your honor, even if I lose, you don't have to care about the Jade money, there are a lot of Alchemist who want to compete with my Junior Master, you can consider yourself lucky."

"Alright, consider me lucky. Since when did it start? I can't wait any longer." Chen Xiang said.

"Martial Uncle, are you ready?" Ning Quan asked.

"We can start at any time." Xie Qiaoyan took out a cushion and placed it on the ground. After he sat down cross-legged, he took out a black pill furnace.

Chen Xiang also took out his Chuangshi god furnace. If one wanted to compete in quality, the Chuangshi god furnace must be used. Only the Chuangshi god furnace could resist the Crash method.

"Examine each other's pill furnaces." Ning Quan said.

Chen Xiang pushed the Chuangshi god furnace over. Although Xie Qiaoyan looked cold like an ice mountain, she still cooperated very well with him and also pushed her pill furnace over.

After Chen Xiang touched the pill furnace, he frowned, he did not expect Xie Qiaoyan's pill furnace to be made of wood.

"Could it be made from the legendary Tree of Life?" Chen Xiang was a little shocked, he could feel that this wooden pill furnace was releasing traces of life force.

With this kind of power, the pills he forged would be even better.

"Your pill furnace isn't bad either. Although I can't tell where it came from, it's better than most people's." When Xie Qiaoyan inspected Chen Xiang's furnace carefully, he also realized that Chen Xiang's furnace was not ordinary.

Chen Xiang was now even more serious. This Xie Qiaoyan was much more powerful than he imagined, from the pill furnace, he could see that just by using a good pill furnace, he could display a much higher level.

After the examination was completed, Ning Quan entrusted an old man from the Eternal Life Native Bank to take out two sets of Dao mark Dan s' medicinal ingredients, and give one to Chen Xiang and one to Xie Qiaoyan. These medicinal ingredients were all very poor, in the eyes of many Alchemist, such medicinal ingredients were unable to refine pills.

Chen Xiang and Xie Qiaoyan would be competing with this kind of medicine, competing with inferior quality medicine, was one of the rules.

"I have to finish the pill within two hours. The highest quality pill will be considered as my victory, starting now." Ning Quan shouted.

Chen Xiang looked at the three dried up fruits in his hands and threw them into the furnace. Although they were rotten herbs, they had no effect on him.

After the herbs entered the pill furnace, he did not release the flame but instead activated the Alive Slain Method, releasing the Life Death God Power. He poured it into the three fruits, making them have a better quality.

"It's about time." In just a short while, the three fruits had become extremely good, now that Chen Xiang had released the flames, he could quickly refine the three fruits.

Time was tight, only two hours. Under normal circumstances, just one furnace would be enough for him, but now it was different. He wanted to refine a high quality Dao mark Dan.

Chen Xiang quickly gathered the three masses of medicinal liquid and connected the thousands of Spirit grain together. And then, he was going to use the Crash method.

"This Dao mark Dan is a low rank king level beast, it must be very fierce when it attacks." Chen Xiang divided the medicinal liquid into four clumps, and then poured the vigorous Daoyuan immortal power into each of the four clumps.

"Bang!" Chen Xiang channeled the Daoyuan immortal power in his entire body, pushing the four lumps of medicinal liquid to clash with the inside of the Chuangshi god furnace.

Rumble ...

The Chuangshi god furnace started to shake violently, and released wave after wave of rumbling sounds. The explosion inside was extremely intense, and Chen Xiang was also sweating profusely, but he still controlled himself.

There were a lot of people on the third floor. Just now, Chen Xiang's furnace had caused a huge commotion, causing the entire third floor to be shaken up. The spectators were also shocked, afraid that Chen Xiang's furnace would affect them.

Xie Qiaoyan had his eyes closed the whole time, he was concocting pills, and even the commotion did not disturb her.

"Chen Xiang, you wouldn't have exploded, right? You should just admit defeat, stop tormenting yourself." Huang Tian mocked.

"Sorry to disappoint you, but my furnace didn't explode." Chen Xiang laughed.

"Hmph, let's see how long you can last. You only have two hours and one portion of medicinal materials." Huang Tian sneered.

Chen Xiang's pill furnace was filled with broken little stones. These had all been struck out just now and had turned into a dark golden crystal, it was extremely beautiful.

It took a lot of effort for him to combine these crystals and form a large dark golden crystal ball.
