

Dan God 2511

[Chapter 2511](#)

Chen Xiang had previously seen the might of the Black Hairs Human, but the Black Hairs Human before him had actually been tied up to act as an example to the public. He began to suspect that these Black Hairs Human were captured because they were weak, but when he walked closer, he could feel an angry yet powerful aura being emitted from the Black Hairs Human's body.

Although these Black Hairs Human were tied up and sealed inside the array, the power within their bodies was not weak at all.

Feeling that strong aura, Chen Xiang was a little worried that these Black Hairs Human would come out.

"This must be captured by Squad Seven!" A spectating old man exclaimed.

"How amazing! The other teams are only going to bring the corpses back, but they managed to capture them alive!"

"That's right. Capturing these guys alive really requires a lot of strength, and there's even more than ten of them. I heard that even Squad Seven only has eight people."

"Team seven is undoubtedly the strongest team. We can relax now that these teams are so powerful."

At this time, Chen Xiang also understood that this city had small teams that specialized in killing Black Hairs Human. These small teams were definitely very strong, and they also received very good treatment.

"The people from this city are really powerful. They are much stronger than the previous city, but they are actually able to catch this kind of thing alive. The reason they are doing this is to appease people." Chen Xiang said.

"I wonder how strong those Black Hairs Human s are!" Xia Bailing said: "If it's just ten guys like you, I can handle them."

"Really?" Chen Xiang anxiously asked: "If you can get me a corpse, that's enough, I really want to see the structure of these guys."

"These ten fellows should have just been caught. It was currently night time. Didn't they say that this fellow didn't have any offensive ability at night? Of course it's easy to catch. " Xia Bailing said, "The seventh group must have groped their way over at night to capture these fellows."

Chen Xiang nodded: "That's possible!"

Sure enough, it was just as Xia Bailing had said. The seventh group did indeed go and capture these Black Hairs Human s at night, and at this moment, Chen Xiang heard someone talking about this matter.

"The City Lord is here!" Someone suddenly shouted.

City Lord was an old man. He walked in front of the ten Black Hairs Human s and said loudly: "Everyone knows that these ten fellows were captured alive by our Seventh Squad! "Although they are moving at

night, according to what the captain of the 7th squad said, these guys' fighting capabilities are also very powerful at night."

"It's almost no different from the day, only they won't take the initiative at night, and their vigilance and perception will decrease a little at night. However, once we attack them, they will also retaliate fiercely, and our 7th team will be able to catch them through sneak attacks."

"This will allow us to understand more about these Black Hairs Human s, it is possible to kill them at night, which means, we cannot sit still and wait for death, we need to retaliate."

Chen Xiang had already known from Lin Qiqi that Black Hairs Human only appeared in the profound Wasteland a few years ago, and it was growing. Everyone's understanding of the Black Hairs Human was also very limited.

"Now, our ten teams are ready to recruit people. If you're interested, you can go to the City Lord's Mansion to register, undergo the assessment, and then join the team. After training, you will be able to follow our excellent team and not kill the Black Hairs Human. "

This city looked pretty good as well. They were prepared to fight back and kill the Black Hairs Human.

Chen Xiang only looked around, he obviously did not plan to sign up, because it was extremely dangerous. Furthermore, he was an unlucky person in the city, he had used the White Tiger Jump to enter and if he found out, he was afraid that he would be kicked out.

"Are you sure you're not going?" Xia Bailing thought that Chen Xiang had gone back.

"I don't want to go, it's too dangerous!" What kind of Natural Law Guardians are those? The three great native bank s were so powerful, yet they were killed, not to mention the people who took refuge in this city. " Chen Xiang said: "These Black Hairs Human are definitely not that simple! If they are able to evolve their intelligence and act at night, then they will be in danger. "

Black Hairs Human's fighting strength was also very strong at night, but they were not vigilant, it was only because when they created it, they were given the order to rest during the night.

Chen Xiang was interested in the Black Hairs Human, but he just wanted to get some corpses to look at, so as to not fight face to face with these Black Hairs Human s. Last time he was besieged, he felt a shadow in his heart.

"Sister Bai Ling, where do you think these Black Hairs Human would hide? Then how did Squad Seven find it? " Chen Xiang asked: "How about we go out at night and see if we can find Black Hairs Human?"

"Go in a bit, and carefully observe these Black Hairs Human s." Xia Bailing said.

Chen Xiang squeezed to the front and carefully observed Black Hairs Human.

Black Hairs Human's skin was all white, but it was not the kind of white that looked good. It was just like a dead person, without any life in them, but only on their skin, while their bodies emitted a strong life force.

In addition, they were constantly releasing a black aura. If one looked from afar, they would see that they looked like people with wild, unruly hair. They were not wearing any clothes, and their bodies were covered in a black aura like a black bear.

"It's all very strange, I can't sense the elemental energy in their bodies." Xia Bailing said: "But there are still traces of water vapor outside of them. Since their skin can do this, they should be immersed in water often!"

"Don't tell me they were in the water at night." Chen Xiang said in shock.

"That should be it. Go out of the city and see where there is a river or lake nearby." Xia Bailing said.

Chen Xiang observed with his Dao heart Eye, and saw that the hearts of the Black Hairs Humans were covered with a ball of golden light. It was hard for him to tell what kind of power the Black Hairs Humans used, but it looked like they were all using the same type of power, making it hard to tell them apart.

"I can only capture one to take a look!" Chen Xiang could only look for it himself, although there was one right in front of him.

Chen Xiang quietly left the city, still using the White Tiger's jump to run out, it was impossible to leave through the city gate.

Once he was outside the city, Chen Xiang started using the Dao heart Eye to check the distribution of the Dao Qi. It was very easy to see where the water type Qi was, but if there was a large distribution in the area, he would head towards a certain direction.

Soon, he found the direction. After teleporting for a moment, he found a very quiet lake!

The lake was very large, and the end couldn't be seen. On the lakeside, there were many deep footprints, as if a burly man had stepped on them.

Chen Xiang also felt the aura of the Black Hairs Human, and he started to get nervous.

[Chapter 2512](#)

It was currently late at night, and the stars and moon in the sky were covered by thick clouds. The quiet lake was very dark, and from time to time, a cold wind would blow across the lake.

Chen Xiang stood at the side of the lake and looked at the huge lake, he felt a strange chill, and used Dao heart Eye to float in the sky to look down.

"Ahh ..." Chen Xiang could not help but exclaim softly. At the same time, he took a deep breath of cool air, because this was simply too scary.

These golden specks of light were the hearts of the Black Hairs Human, meaning that there were countless Black Hairs Human under the lake!

If there were only ten or so of them, Chen Xiang had planned to have Xia Bailing kill them and study them. But with so many Black Hairs Humans down there, and he didn't know how strong they were as a whole, he didn't dare act rashly.

"Little Scoundrel, what did you see?" Xia Bailing, who was inside the You Yao Mountain Villa, could also feel a bit of the Black Hairs Human's aura. Seeing that Chen Xiang had not moved even after such a long time and did not say a word, she knew that Chen Xiang must have seen an incredible thing.

"Sister Bai Ling, we should leave this place as soon as possible!" With that said, Chen Xiang teleported away and left the lake.

"What's going on?" Xia Bailing asked anxiously.

"Below the lake are those Black Hairs Human, I estimate that there are at least a few hundred thousand of them!" When Chen Xiang thought about it, he could not help but feel chills down his spine, "Furthermore, there is a relatively big thing down there!"

Just now when he was floating in the air, he could only see a portion of the lake, but it was already a few hundred thousand. If it was the entire lake, millions of Black Hairs Human would definitely have it!

Other than this, he also saw a relatively large heart! Previously, when he was in the city using the Dao heart Eye to look at the Black Hairs Human s that were captured alive, he could already see the golden heart of the Black Hairs Human. This was also how he estimated the number of Black Hairs Human s below the lake, but just now, he saw a relatively large heart, he didn't know what it was!

"It looks like this Natural Law Guardians is not only filled with humans, there must be other beasts as well. I wonder how strong those beasts are." Chen Xiang replied, "That lake is like a hornet's nest!"

"Could it be that the Natural Law Guardians has not awakened?" Xia Bailing frowned: "In that case, it's best not to disturb them!"

"Hmm, I never thought that there would be so many of these. I wonder how many of these things were created in the past." Chen Xiang nodded, he continued to search for places with water.

"Since the three profound Wasteland s have been sealed, there must be a lot of them!" Xia Bailing said: "It is very possible that it is just a Natural Law Guardians below the lake that was disturbed, which is why a small portion of them escaped. There should be a large portion of them that have yet to awaken."

"Sister Bai Ling, is there any Dao Sovereign with a cultivation level like yours in profound Wasteland?" Chen Xiang asked.

"Definitely!" Xia Bailing also knew the meaning behind Chen Xiang's words, "Seems like even the existence of Dao Sovereigns are unable to stop the Black Hairs Human, and could even be killed by the Black Hairs Human!"

Chen Xiang found a small pond and discovered that there were six spots of light below. There should be six Black Hairs Human s.

"Sister Bai Ling, we should be able to make a move now. There are only six of them." Chen Xiang said to Xia Bailing.

"Alright, I'll go now."

When Xia Bailing came out of the You Yao Mountain Villa, he looked at the lake below him. After taking a deep breath, he released his spatial energy to sense the bottom of the lake, and very quickly, he could sense the Black Hairs Human below him.

"They are all very strong, these are all at least Dao Shi realm!" Xia Bailing was shocked: "Seems like they are just small fries."

"Little Jun is already that terrifying!" Chen Xiang's mouth twitched.

"It's all because those people were too lazy back then. I only asked the heavens to create these guys to help them manage the world. I never would have thought that such a mistake actually happened." Xia Bailing snorted, then used the power of space to teleport all of the Black Hairs Human out from under the pool, at the same time slicing all of their limbs.

Black Hairs Human didn't die, it was only that his four limbs were separated by the space. Now that he had gained the ability, Black Hairs Human was very angry, and his body released waves after waves of berserk energy.

Chen Xiang used the Dao heart Eye at the side, and discovered that the golden heart in Black Hairs Human's body had instantly changed color, and used powers of different attributes.

"Humph!" Xia Bailing did not expect the Black Hairs Human to struggle so much, she rushed forward and smashed the heads of the Black Hairs Human s with her palm, smashing them into the Divine Sense Sea s.

"He shouldn't be able to resist anymore!" Xia Bailing said.

"Hmm, these fellows' hearts are all very strange, they can transform Dao Energy into different attributes." Chen Xiang said, then took out the Heavenly magic sword and dissected it.

He pulled out a heart that looked like it was made of gold!

"This is something created by the Heavenly Law. Of course, it's not simple." Xia Bailing watched on from the side as well. Unexpectedly, these Black Hairs Human s did not bleed at all.

Xia Bailing also took out a short sword, she wanted to take a look at a heart, but she had to struggle to cut open a Black Hairs Human's chest.

"Your sword is truly not simple!" Xia Bailing had easily taken out the heart when she first saw Chen Xiang, but it was extremely difficult for her.

It was only when Chen Xiang saw how difficult it was that he realized the toughness of the Black Hairs Human's skin and flesh.

"Did you find anything?" Xia Bailing asked.

"Right now, I only know that the heart is a bit special." Chen Xiang took out the Six Realms mirrors, and then released a bit of profound Tao Power from it to envelop a Black Hairs Human's body, but there was no reaction.

Xia Bailing walked around in a circle, releasing some light, and sure enough, he saw a lot of shiny little golden particles on the ground.

"Those particles didn't explode. If all of them exploded, I might have sustained serious injuries." Chen Xiang couldn't help but feel some lingering fear.

Then, he took out a bit of profound Tao Power from the Six Realms mirrors and injected it into a small grain.

Bang! There was actually a very strong explosion!

"Sure enough!" Chen Xiang took a deep breath, "These hearts are too dangerous!"

"Luckily you didn't manage to get much profound Tao Power just now!" Xia Bailing was surprised.

"These fellows are clearly training in profound Tao Power, but why are they so afraid of it? For it to explode the moment it touches?" Xia Bailing did not understand.

"I don't know either. It might have been a weakness left behind by the Heavenly Dao when it created them!" They can use the powerful profound Tao Power, but they are also afraid of the profound Tao Power, especially the area of the heart. Chen Xiang said.

"Then do we have any way to cultivate the profound Tao Power quickly?" Xia Bailing asked again: "Looks like we need to find some herbs to refine the pellet, this way we can quickly acquire the profound Tao Power."

"That won't be necessary! I do have a way." Chen Xiang said: "We can learn these Black Hairs Human s and also cultivate a heart!"

"How do I learn?" Xia Bailing never thought that Chen Xiang would have such an idea. She thought about it and didn't know how to realize it.

"If we want to cultivate profound Tao Power, we will first have to absorb the Dao Qi here, which contains a tiny bit of profound Tao Power, and this bit of profound Tao Power will only go once inside our body, then run out. When we run out, we will need to guide it into the furnace to burn it, and only after the refinement will it be absorbed into our body, storing it in the Divine Sense Sea." Chen Xiang said.

"You told me this before, but if our Alchemist were to cultivate, it would be much easier. Xia Bailing nodded his head: "But even so, it's still rather slow, because we first have to absorb a lot of Dao Qi, and the profound Tao Power s are very thin."

Chen Xiang nodded, "So we need to cultivate a heart that can only absorb profound Tao Power! This is the case for these Black Hairs Human s, and they even managed to cultivate out a special kind of tiny pellet that was specially used to store profound Tao Power s inside the heart. "

"How should I train?" Xia Bailing thought for a while, she didn't think of this: "Don't tell me we are going to change their heart to ours? I don't want to! "

"Of course not, their heart of the profound way is naturally born, and it has a very serious flaw!" Chen Xiang said: "We want to refine it ourselves, it requires a large amount of profound Tao Power! It is

equivalent to us putting our own hearts into a large amount of profound Tao Power to soak, and refining them into the heart of the profound way! "

"If it succeeds, with every beat of our heart, we will absorb a large amount of profound Tao Power and condense it into tiny crystals by ourselves, just like these Black Hairs Human s. Moreover, we won't have their fatal flaw."

"Will it work? Where are we going to find a large amount of profound Tao Power to refine our hearts? " Xia Bailing shook his head: "This is too difficult."

"It's not difficult, let's go back to the city first!" Chen Xiang said: "I already have a way. If I succeed, I'll let you try again, then let Hongqing and Xiang Yin try again!"

"Alright, I knew that you had a lot of evil ideas, I believe in you!" Xia Bailing laughed, then entered Chen Xiang's You Yao Mountain Villa.

Chen Xiang tidied up Black Hairs Human's corpse and returned to the city. By the time he returned, the sky was almost bright.

During the day, only this kind of city was safe!

However, these cities were all extremely crowded. It was impossible for Chen Xiang to even find a quiet place to stay, but they were all houses.

"I can only enter my own Divine Sense Sea World. I wonder if I can succeed here." Chen Xiang was helpless, he could only enter the You Yao Mountain Villa. When he entered the city, he found out that many people had done the same thing, and when they rested, they had all been in his real Divine Sense Sea World.

However, there was one big drawback to this, and that was that the Dao Qi was absorbed extremely slowly. This city was already very crowded, and everyone was training, trying to absorb more Dao Qi in order to cultivate more profound Tao Power, which resulted in the city's Dao Qi being extremely sparse.

"It's impossible to absorb them here!" Chen Xiang sighed helplessly: "Looks like I have to ask around to see if there are any medicinal herbs that can produce dao qi, and the dao qi contains profound Tao Power!"

"Only the Daoists in the fantasy world have a profound Tao Power ... Perhaps there will be medicinal ingredients that can directly produce profound Tao Power s, and can refine them into pills. " Xia Bailing said: "As long as we can find one, we can immediately start. There are a lot of plants that can be planted here!"

Xia Bailing had stayed in there for so long, how could he not know about Chen Xiang's creator's well? That was a very scary and mysterious thing to her, and also the reason why she was so attached to Chen Xiang.

"Alright, looks like it isn't what I expected!" Chen Xiang came out from the You Yao Mountain Villa and asked around on the streets.

After asking around for an entire day, he found that the ingredients were extremely valuable here. It was not like the time where he could go out to pick them, where going out now was equivalent to him stepping into a coffin. Hence, he did not sell them.

These profound stones were stones that he had created using the profound Tao Power.

[Chapter 2514](#)

Although the profound Wasteland was facing the threat of the Black Hairs Human, as if they were in the apocalypse, the people in these cities were still divided into different ranks. And the most important part was that it was divided according to the hunting Black Hairs Human.

To be able to kill Black Hairs Human meant that he had absolute strength. There, he would be respected and be able to enjoy abundant resources.

For example, every month, they would have to pay a certain number of Profound Cultivation Stones to the City Lord's Mansion. A portion of these Profound Cultivation Stones were given to the warriors who were guarding the city, because these warriors could face death at any time.

If the city was breached, these warriors would have to come out and defend, which was equivalent to paying a protection fee.

At this time, Chen Xiang was on the street and saw a few people from the City Lord's Mansion going to each other's houses to retrieve their Xuan Dao Stones.

He didn't have to hand in too many Xuan Dao stones every month. It was only 10, but he would be able to condense them in 10 days. As long as his family paid 10, it would be relatively easy.

Chen Xiang's current profound Tao Power was very weak, unlike these people who grew up here. He did not cultivate in the profound Tao Power since young, thus he was unable to condense a Profound Stone.

He had also seen these profound stones before, they were small round beads that contained pure profound Tao Power s. They were all for the small teams in the city to use, so they would be able to become stronger after using these profound stones.

now understood the weakness of the Black Hairs Human. The Black Hairs Human was extremely afraid of the profound Tao Power, the more profound Tao Power one could cultivate, the easier it would be to deal with the Black Hairs Human. The experts of the cities here all knew this, and this was the reason why they could protect the city.

"How can I get a Xuan Dao stone?" Chen Xiang was extremely anxious now, he had many Jade money but these Jade money were like trash. Unless the three great native bank s were newly constructed here, his Jade money would not be of any use at all.

"Sell the Shengdao Dan! Not everyone in the profound Wasteland has a Dao Po realm, Shengdao Dan are extremely useful, and there are more in the profound Wasteland. " Xia Bailing said: "You, Hongqing, and I will refine them together. You will be able to refine many of them very quickly."

"En, I also have the same plan, but right now I have to find the medicinal ingredients that contain profound Tao Power s. I still don't know the price of those medicinal ingredients yet." Chen Xiang replied, "This way, I have confidence in myself."

Chen Xiang had already heard of the only place in the city that sold pills, but there weren't many of them.

"I wonder if he's selling anything now. I'll go take a look first!" Chen Xiang said, he already knew that this city would not have any medicinal herbs to sell, and now that there was such a shortage of medicinal herbs, the pill shop did not have any, so even if there were, it would be first for the elite teams to use.

If they were willing to sell it, its quality would definitely be of the very worst quality. This was in order to swindle more Xuan Dao stones out of them.

Chen Xiang went to the place that sold medicinal ingredients. Usually, weapons were sold here, and this shop also had its own small team.

"Little brother, what do you want?" The shopkeeper said with a kind smile. He was an old man dressed in an elegant manner.

"I would like to ask if you have any medicinal herbs for sale here?" Chen Xiang asked.

"This... Are you sure you want it? This is very expensive!" The old man was stunned for a moment before he asked with a smile.

"How much?" Chen Xiang asked. Chu Hongqing and Xia Bailing had already refined ten Shengdao Dan s, he felt that they could bargain at that time for each other's ingredients.

"Alright!" The old man was very polite. He took out a box and opened it. Inside was only a dried up yellow grass.

"What kind of medicinal herb is this?" Chen Xiang asked.

"Profound Spirit Grass, after eating, you can quickly obtain a lot of profound Tao Power s, which is equivalent to three thousand profound stones. But now that you think about it, it has already withered a lot, so you only need one thousand profound stones." The old man said.

"That's one thousand Xuan Dao stones?" Chen Xiang did not know what level a thousand Profound Cultivation Stones was, but he did not have it now, nor did he feel that it was too much.

"Little brother, this is extremely cheap. I estimate that the profound Tao Power contained within this Profound Strength Grass is at least equivalent to one thousand two hundred and three profound stones." The old man asked, "Do you want it?"

Chen Xiang thought for a moment, then took out a pellet and handed it over to the old man, asking: "Innkeeper, do you recognize what pellet this is?"

The old man seemed to be knowledgeable, he accepted it and looked at it, then took a deep breath: "This seems to be a Shengdao Dan!"

"Sir, I'm impressed, but you actually recognize it. This is a pill that has been lost for a long time!" When they were in Spirit Wasteland, only Xia Bailing and the others had them.

"I only learned about this from an ancient book. The smell of this pill is recorded in it." The old man exclaimed, "Where did you get this from?"

"This is a secret. Do you think this pill can be exchanged for the Profound Strength Grass in your hands?" Chen Xiang laughed and asked.

Xia Bailing and Chu Hongqing both felt that Chen Xiang was a little stingy, he could take someone's Profound Spirit Grass with just one pellet, but they felt that he would need at least eight or ten of them.

"I need to consider this!" The old man couldn't make up his mind. He was only the shopkeeper, and the shop wasn't his.

"Let's go to the inner hall first. I'll have a chat with the boss." He returned the Shengdao Dan to Chen Xiang and also brought Chen Xiang to an elegant small hall inside.

Chen Xiang sat there and waited. Not long later, the old man and a blue-robed middle aged man arrived.

"You really have a Shengdao Dan? Quick, let me take a look!" The blue-robed middle-aged man was obviously the boss. At this moment, he appeared somewhat excited.

Chen Xiang laughed and quickly took out the Shengdao Dan.

"Although I do not recognize Shengdao Dan, the quality of the pills here are quite good!" The owner nodded: "If I can confirm that this is a Shengdao Dan, I can trade with you."

"Oh? "How do I confirm it?" Chen Xiang asked.

The boss forced out a smile and said, "The best way is to eat it directly, so it's not easy to prove it!"

Chen Xiang said: "I believe you, so I allow you to find a Dao Dan realm to test this pellet!"

The owner was shocked and asked, "Does that mean you have another pill?"

Chen Xiang nodded.

He felt that if he used it well, he would be able to sell it for a good price. Very quickly, he found a person, who looked to be in his teens, to be his son.

"Ah Lang, eat it, and then refine it!" The boss told his son, if it really was a Shengdao Dan, he felt that he had struck it rich, because if his son could eat one, he could get another.

After the owner's son consumed it, he sat cross-legged on the ground and refined the medicinal power. It didn't take long for him to finish refining it, and he also levelled up from the third level of Dao Dan realm to the fourth level.

"This is a real Shengdao Dan!" The boss said with a bit of excitement.

Chen Xiang laughed, then he and the owner successfully exchanged for the Profound Strength Grass. The moment he obtained the Profound Strength Grass, he immediately gave it to Xia Bailing, allowing her and Chu Hongqing to quickly soak it in the Creation God's Spring, so that the withered Profound Strength Grass could be resurrected.

[Chapter 2515](#)

After the deal was completed, the boss would still treat Chen Xiang to a meal. Chen Xiang did not reject, as he did not understand much in this place, and being able to build a good relationship with the boss was not bad.

"Boss Tie, do you have any other medicinal ingredients?" Chen Xiang asked: "Most of these medicinal herbs have to have profound strength."

"Not at the moment, but I just found out that my team found a fresh one outside. If the price is generous, I can cut it off." Boss Tie chuckled, then lowered his voice, "Brother Shen, are you a Alchemist, and an outsider at that."

Since the Boss Tie was able to manage such a shop here, his strength was definitely not weak. Furthermore, he had a wide network of connections, and had experienced many things, so he was naturally able to see through Chen Xiang's identity as a Alchemist.

Chen Xiang nodded.

"It's rare to see a young Alchemist these days, and they can even refine such a legendary Shengdao Dan. Before Black Hairs Human even appeared, the pill formulas for the Shengdao Dan have been circulating for a long time, but none of us here are able to refine one." Boss Tie took a sip of the wine and sighed, "And you, the little demon, were actually able to refine it."

"Yes, I've been in closed-door training for a long time, and I became like this the moment I came out." Chen Xiang sighed: "Boss Tie, do you have a place to stay? I do not wish to stay in the real world to rest."

"Of course, I'll give it to you for free." The Boss Tie chuckled: "When the time comes, even if I have the medicinal ingredients, I can inform you in time" Right, how many Shengdao Dan do you still have? "

The Boss Tie knew that Chen Xiang was a Dao Po realm and that the Dao Po realm couldn't be used by the Shengdao Dan, thus, Chen Xiang definitely wouldn't leave it for her to use.

"This... I still have five pills left, and I still have some medicinal ingredients that I haven't refined yet. At the moment, I'm not sure how many Shengdao Dan those ingredients can produce. "

In this period of lack of medicinal pills, having five Shengdao Dan was pretty good. Boss Tie nodded: "In two days, my elite group will return. If they can return, then they should be able to bring back fresh medicinal ingredients."

"Alright, I look forward to it too." Chen Xiang laughed: "If the quality of the ingredients is not bad, then I will have more motivation to refine the pills."

"Oh right, Brother Shen, are you someone from this city? I don't think I've heard of you before." Although this was the second floor of his shop, he was extremely cautious. He could also tell that Chen Xiang did not want to reveal that he was a Alchemist.

"No, I snuck in here. Is there a problem?" Chen Xiang asked.

The problem is quite big, but it doesn't matter. If you don't get caught, then it's fine, you can just stay here and don't run around. If you meet any city guards, they will ask you for your identity jade plate, and if you can't take it out, you will be thrown out. The Boss Tie said.

"Ah, so strict." Chen Xiang had thought that he just needed to sneak in.

"Of course it's strictly done, because the city has followed the rules of collecting Xuan Dao Stones every month and they all came according to the identity token. If they were in the city but did not pay any Xuan Dao Stones and were found out, they would be thrown out. You have to know, the city is very crowded, so they have to be strict with the rules." Boss Tie said in a serious tone: "That's why you have to be careful when you go out."

"It's too dangerous, I was just strolling around outside." Chen Xiang took a deep breath.

"Don't worry too much. I'll think of a way to get you an identity jade token so that you can be at ease and stay in this city." The Boss Tie was a businessman. Chen Xiang, who was young and had potential, was a treasure. Even if it did not bring him benefits, they could still befriend him first.

Forget about the current period, even in the past, he would definitely try his best to form a relationship with these kinds of Alchemist.

"Thank you, Boss Tie." Chen Xiang cupped his hands across his chest and toasted with Boss Tie.

"It's hard to get an identity jade token, so you definitely won't be able to do it in a short period of time. I'll give you this first." Boss Tie took out two golden hearts.

"Normally, four or five Black Hairs Human's heart would be required to exchange for an identity jade tablet." Boss Tie said: "If it's the beginning, just a little bit of the profound way stone would be sufficient, but after the city gets crowded, the requirements are very high."

Chen Xiang received the Jin Xin of the two Black Hairs Human s and asked: "Boss Tie, what use do these Jin Xin s have?"

The main job of the warriors in the city is to kill the Black Hairs Human, and to obtain these Jin Xin to maintain the operation of the array formation in the city. You have to understand that our city is often attacked by the Black Hairs Human during the day. "Su Yun said in a low voice. The Boss Tie said.

"So that's how it is." Chen Xiang finally understood why the arrays in these cities could protect the Black Hairs Human.

After they finished eating, the Boss Tie brought Chen Xiang to the small villa at the back of the store. He didn't think that there would be such a good place in this crowded city, which made Chen Xiang feel that the position of the Boss Tie was out of the ordinary.

"Boss Tie, looks like you're quite capable." Chen Xiang said while laughing.

"To be honest, City Lord is my father." The Boss Tie laughed.

"Is this true?" Chen Xiang was very surprised.

"Hehe, anyone who has been here for a few years will know about this, so I was sure that you had snuck in." The Boss Tie laughed.

"You don't have to be surprised. Although my father's City Lord has quite a lot of power and strength, he has a tight grip on me. I was eyed like a tiger by many people in this courtyard." Boss Tie sighed.

"What, there are many powers in this city?" Chen Xiang was very curious about this.

"No matter what period it is in, it will always be there. As long as there is someone there, it will always be there." The Boss Tie said: There are three main forces here, one of them is the City Lord's Mansion, which is my father's faction, and the Army of the God Realm is next, mainly guards and the like, they have very strong powers, mainly to protect the city, and lastly, the Heart Hunt Squad, which is one of those small teams, they are mainly responsible for going out to hunt the Black Hairs Human, and obtain Jin Xin.

"I am being watched by the Army of God right now. They want my small manor, but fortunately I managed to hold on. I don't know how long they will be able to hold on for."

Chen Xiang replied, "Your father actually doesn't want to help you?"

Boss Tie shook his head: "This little villa was made by me back then, so it's my own matter. I'm too lazy to look for him, after all, if I look for his City Lord, other people would say that he's covering for his son or something, I don't want to ruin his reputation."

Chen Xiang patted his shoulder, and laughed: "You really are a good son, at least you won't cheat."

Boss Tie said with a wry smile: "But right now, there are already many rumors and rumors. It was only my father who came out to help me and saved my little villa from suffering."

[Chapter 2516](#)

When Chen Xiang arrived at the city, he saw many crowded houses. The only thing he could see from there was a pretty little villa, it was truly a rare sight, the Boss Tie would definitely not want to let this place go.

At this time, Chen Xiang also obtained a spacious room, and there was a secret room for refining pills below the ground, which was extremely rare for him.

"Sister Bai Ling, Hongqing, how's the Profound Spirit Grass? Can it concoct a pill?" Chen Xiang asked.

"That's fine, but I don't feel that it's enough. If only there was another medicinal ingredient, then it would be fine. Although this Profound Strength Grass has a large amount of profound energy, the profound energy it condenses is not natural enough. It's a bit berserk." Xia Bailing said.

"Okay, we'll wait two more days." Chen Xiang said: "For the next two days, we will first refine a few more Shengdao Dan. The Shengdao Dan are still very useful here."

Chen Xiang had only used two Shengdao Dan and he already received such a good treatment.

Two days later, Chen Xiang and the other two had refined a total of one hundred Shengdao Dan pills, and Boss Tie had also come to find him excitedly.

"Brother Shen, my team is back." Boss Tie shouted, "They have arrived at the city gate."

It was currently night time, and the city would only open at night. Usually, teams would come back and open the city gates.

Previously, when Chen Xiang was eating with Boss Tie, he already knew that he had a small team of ten. This small team was raised up by him alone, and they were completely loyal to him.

Every time a team returned, there would always be a lot of welcome, especially if they were able to return alive.

"Come, let's go to City Lord's Mansion." The Boss Tie laughed.

"Why are we going to the City Lord's Mansion? Aren't those teams coming back directly?" Chen Xiang asked.

"They will, but they will go to City Lord's Mansion first, because some of them will be injured. Furthermore, the City Lord will receive them and help them wash their clothes. To this city, they are all existences similar to heroes." Boss Tie said: "You have never been to City Lord's Mansion, I will take you out."

"Boss Tie, I don't have an identity jade plate, this isn't appropriate, right?" Chen Xiang replied: "Didn't you tell me before that you don't want to wander around?"

"It's more dangerous for you to be alone, but no one will dare to investigate you when you're with me." Boss Tie laughed: "What's more, it's inside my father's City Lord's Mansion."

Just like this, Chen Xiang followed Boss Tie to the City Lord's Mansion. At this time, the City Lord's Mansion was brightly lit, the door was wide open and a red carpet covered the entire place. Several groups of people were lying on the red carpet, and amidst many cheers and praise, they walked into the City Lord's Mansion.

Chen Xiang saw these small squads from afar, and could feel the killing intent coming from them. Although they looked to be in a sorry state, no one dared to underestimate them because the killing intent coming from each and every one of them were fighting for their lives.

Under everyone's gazes, these dozens of people entered the City Lord's Mansion.

"Let's go through the back door. After all, we aren't the type of people who would risk our lives. We aren't worthy of taking that road." The Boss Tie laughed self-deprecatingly, then led Chen Xiang into the City Lord's Mansion through the back door.

"Boss Tie, you were very nervous when you came, but now you have become so relaxed." Chen Xiang was very curious about this.

"I'm worried that my squad will suffer heavy casualties. Just now, I saw that they were able to walk with their backs straightened, so I was relieved. I raised them myself, so they're equivalent to my disciples. I don't want to see them ..." The Boss Tie said, then pointed to a round table in front of them: "Our team is over there."

"I saw it. They're all men." Chen Xiang laughed.

Of course they're all men, but these days, it's very male to find a strong female warrior, and there's only one in Squad Seven. That female warrior is indeed powerful, and she's also the captain of Squad Seven. The Boss Tie said.

"Oh, I remember there's no blood in Black Hairs Human." Chen Xiang frowned.

"Those are all little Black Hairs Human s. Powerful Black Hairs Human s have blood on them, and it's very red as well. Look at the people in those small teams, the ones with blood on them are all Black Hairs Human s who have fought against strong ones." The Boss Tie said.

Chen Xiang had already seen Squad Seven. Just as he entered, he heard the loud name of Squad Seven, which was that they had captured more than ten Black Hairs Human s alive.

"The Lionheart Holy Man from Heart's Hunt Squad is sitting at the table of the 7th Squad." The Boss Tie said, "Right now, Team Seven is the strongest team in the whole Heart Hunt Squad."

Chen Xiang was shocked, there was actually a Dao Sovereign here.

"Dao Sovereign, so powerful." Chen Xiang exclaimed.

"Isn't that so? My father is also a Dao Sovereign and I am only in the Dao Sect. I would not dare to charge into the Tao Doom right now. I will die." The Boss Tie said, "Many of those small groups of soldiers are either from the Dao Masters or the Dao Zong realm Realm. Their overall strength is very strong.

Boss Tie brought Chen Xiang to his team's table.

"Brother Shen, this is our Iron Fighting Team. Even though they are a private party and don't have a good ranking, they would almost always be able to bring some black-furred Jin Xin back alive." Then, he introduced the members of the Iron Fighting Team to Chen Xiang.

The warriors in the Iron Fighting Team were all fierce men, and were all much taller than Chen Xiang. They looked very fierce, and all of them were very generous. Although they did not know who Chen Xiang was, but they knew that he was Boss Tie's friend, they all poured wine for him.

After returning from fighting outside, they should have rested and recovered from their injuries. However, these people were here eating, drinking, and boasting. It seemed like they were like this all the time.

Chen Xiang had been paying attention to the female party leader of the seventh group quietly this whole time. She looked very strong and had a good alcohol tolerance too, even Chen Xiang could not stand the strong alcohol and did not dare to drink too much.

"Tie Xiong, your team members managed to get a Sky Profound Golden Ginseng. Our city's resources are so scarce, you should donate it." An old man chuckled.

Boss Tie's name was Tie Xiong.

Chen Xiang knew that the old man was the leader of some Divine Military Academy. He was titled Divine Troop Tao Venerable and also had a cultivation base of Dao Sovereigns. There were three Dao Sovereigns in this city, and the City Lord was a Dao Sovereign.

"Our team is working so hard. I must be thinking for them." Tie Xiong smiled faintly.

"Oh, how do you want to split the ingredients? Why don't you sell them in exchange for a large amount of Xuan Dao stones?" Divine Troop Tao Venerable said, "Name your price."

The Sky Profound Golden Ginseng was sold to Chen Xiang, and Tie Xiong had already agreed on it beforehand, so no matter what price the other party offered, he would not sell it.

"Not for sale." Tie Xiong's tone was extremely resolute, and anyone could hear it.

[Chapter 2517](#)

Before, Chen Xiang did not know the value of Sky Profound Golden Ginseng, but in the end, it could be seen that the value of the Sky Profound Golden Ginseng was much higher than what he had imagined.

"Tie Yuntian, look at your son. How can he still care so much about his own personal interests at this time? Divine Troop Tao Venerable sighed, "You can't blame him for this. I heard that he has a very beautiful little villa."

Tie Yuntian was the City Lord, which was also his father. It was obvious that the Divine Troop Tao Venerable wanted to make this kind of thing happen to him, because he understood his own son very well. Furthermore, his own son was a man with backbone, and had always been independent and independent since he was young.

"Divine Troop Tao Venerable, Ah Xiong's Iron Fighting Team is not weak either, and the Sky Profound Golden Ginseng was exchanged with their lives, so how they handle it is their business. I remember that the three squads under your command often get good things, and you have not yet shared it with everyone." Tie Yuntian chuckled, his laughter carrying a trace of ridicule.

"My little team serves this city. We all know the nature of Tie Xiong's Iron Fighting Team and the reason why they went out specifically to find resources and then sell them off was for their own personal interests." The Divine Troop Tao Venerable said: "Of course, I am a reasonable person. Tie Xiong always pays his Profound Cultivation Stones on time, and his team also gets a lot of achievements. Every time they return, Jin Xin would hand it in."

"If that's the case, then why are you still spouting nonsense? If you want my Sky Profound Golden Ginseng, then just say so." Tie Xiong stood up, and said angrily.

Tie Xiong's Little Villa was caused by the Divine Troop Tao Venerable, and it was almost gone. He had to pay a large sum of profound way stones in order to protect it, so he had already long since held back his anger.

Furthermore, he had drunk quite a bit now, and was being pressured by the Divine Troop Tao Venerable to such an extent.

Chen Xiang never thought that the normally gentle and kind Tie Xiong would actually have such an explosive side to him, and that his Iron Fighting Team was indeed not bad. Seeing Tie Xiong's anger, they all stood up, looking as if they were about to fight.

"Oh my god, you're truly Tie Yuntian's son, how dare you contradict me like that?" Divine Troop Tao Venerable stood up and laughed.

At this moment, everyone was very quiet. Other than Iron Fighting Team, the other teams here were mostly from Heart Hunting Academy and City Lord's Mansion. Divine Troop Tao Venerable's team wasn't here, they had the least people here.

"Hmph. I am quite selfish, but you are a greedy ghost. Don't think that I don't know what you are doing in the dark." Tie Xiong scoffed, "Don't force me to fall out with you. If you want to hit me again, just wait for your ugly matter to be revealed to the public."

"Hur hur, looks like you drank too much." Divine Troop Tao Venerable's face was full of smiles: "I was just joking with you just now, I just didn't expect the usually heroic Boss Tie Tie Xiong to not be able to make such a joke."

Everyone was secretly shocked, Tie Xiong seemed to have grasped some weakness of the Divine Troop Tao Venerable, if not, he would definitely not let things rest after he was rebuked by others. It could be seen that the Divine Troop Tao Venerable had secretly done many shameful things.

Tie Xiong was also much more clear-headed now, after he grunted, he sat down.

Tie Yuntian did not say much, he did not seem to be worried about his son, but now, he could actually toast to the Divine Troop Tao Venerable.

"Boss Tie, I heard that a VIP came to your shop. I assume that this is the little brother that came with you." An armored man walked over with a bowl of wine in his hands. From his attire, one could tell that he was from the Divine Military Academy and he was sitting at the same table as Divine Troop Tao Venerable.

Tie Xiong did not have a identity jade plate, so if he were to be found out, it would be extremely troublesome. Divine Troop Tao Venerable would definitely make a big fuss on this matter, he scolded himself for being careless, he had originally planned to have Iron Fighting Team leave behind some of his identity jade plates, but Iron Fighting Team had already handed them over to his father.

"He's a friend, and he doesn't have a lot of alcohol." Tie Xiong said: "You should be able to tell, so please return. Moreover, he doesn't like to talk to strangers, his personality is very eccentric."

"Yuan Tong, don't disturb him. Come back quickly." Divine Troop Tao Venerable shouted.

That Yuan Tong ignored the Divine Troop Tao Venerable and continued to speak with a smile instead, "I heard that this friend of yours exchanged the Shengdao Dan for a stalk of your profound strength grass. Your son Tie Lang, who is around ten years old, just stepped into the third level of the Dao Dan realm not long ago.

Tie Xiong scolded in his heart. This kind of thing actually spread out, and it was even known to his mortal enemies.

"Yuan Tong, your ears are really as good as a dog's nose. Not bad, it's true." Tie Xiong admitted it, and everyone looked at Chen Xiang.

The people here were all elite warriors, although they did not know how to refine pills, they understood a lot about pills, especially the Shengdao Dan, many Alchemist were unable to concoct such pills, but the pill recipes were everywhere, and now someone could take them out, and it was even a handsome man.

"Your friend here looks unfamiliar. Does he have an identity jade token?" Yuan Tong said with a smile.

"Nope." Chen Xiang answered him immediately.

Tie Xiong did not know what to do, if Chen Xiang was kicked out, it would be troublesome if he still wanted to bring Chen Xiang back.

Yuan Tong sighed and said, "That's truly unfortunate. According to the rules of our city, you must leave immediately. I'm sorry, but you are really amazing. You do not have an identity token, yet you are actually sitting here. I am truly impressed."

Chen Xiang was very calm as he replied, "I know a little about the rules of this city. I heard that as long as you have Jin Xin, you can exchange him for a identity jade token, right?"

"Yes, I need five." Yuan Tong said.

"Isn't it four?" Tie Xiong shouted.

"That's because he has already entered the city, so he has to hand in one more person. If he were to apply at the city gate, he would only need four more people." "Five Black Hairs Human s is not easy to obtain. Even using profound stones would require a lot, and there are only one or two of your Iron Fighting Team s who return at a time, and you even need to hand them over."

Yuan Tong had already arrived beside Chen Xiang and said, "Little brother, please leave our city immediately."

Chen Xiang said: "I have five Black Hairs Human s, I can stay here, I have disappointed you."

As he spoke, he took out five Jin Xin s. Tie Xiong had given him two previously, so he had already killed a few Black Hairs Human s.

Of the five Jin Xin s that Chen Xiang had taken out, two of them were dim, and were slightly smaller, while the other three were slightly bigger and golden. They looked much better than the two beside them.

[Chapter 2518](#)

The better Jin Xin was at Black Hairs Human, the stronger he would be. The Black Hairs Human that Xia Bailing had killed a few before, was already pretty good.

The Heart Hunting Team present all understood Jin Xin very well. Looking at the three very fresh Jin Xin s, they knew that they had just taken them out not long ago, and Chen Xiang's strength was merely at the Dao Po realm. It was impossible for him to kill three Black Hairs Human s.

Most importantly, even if it was the Iron Fighting Team s themselves, it would not be an easy feat to get ahold of these three Jin Xin s. However, everyone knew that the Iron Fighting Team had already handed them over just now.

Now came the problem! How did Chen Xiang's Jin Xin come here?

"Where did you get your Jin Xin from?" After Yuan Tong saw Chen Xiang's Jin Xin, he had a lot of questions.

Tie Xiong really wanted to know why Chen Xiang suddenly took out so many Jin Xin s, which surprised him greatly.

"None of your business. I only have five Jin Xin s." Chen Xiang laughed faintly: "Can you give me my identity jade token now? My name is Chen Xiang! "

Tie Yuntian understood his son. Someone who could be considered a friend by his son was definitely not an ordinary person.

"Our city is very crowded right now, so the issuance of identity tokens requires the presence of all three of us. This is perfect!" Tie Yuntian walked over with a smile, took the five Jin Xin s, and then gave Chen Xiang an identity jade token.

Yuan Tong originally thought that he could give Tie Xiong a ruthless blow, but he didn't think that he would be the one to suffer such a setback.

"This little brother, where did your Jin Xin come from? This old one is very curious about this, can you tell me? " The person speaking was an old man. He was sitting in the same seat as the seventh squad - the Heart Hunting Holy Man.

Chen Xiang said: "When I was outside, because I was lucky, I met a senior. She was the one who helped me kill him."

"The profound Tao Power within these three Jin Xin s are very abundant and did not consume much energy. It can be seen that these three Black Hairs Human s were not killed in an intense battle. The senior you met was at least a Dao Sovereign." The one who spoke was a woman, and she was the only woman here, the captain of Squad Seven. Her voice was cold, but very pleasant to hear.

"Even if it's a Dao Sovereign, if he doesn't have any tricks up his sleeves, he would have to suffer a lot to deal with Black Hairs Human of this level. Killing him quickly wouldn't be an easy task."

The Heart Hunting Holy Man nodded, "Indeed. Even I am not that easy to deal with. The senior you met was truly powerful. I wonder where he came from?"

"I don't know where he came from. He was wearing a mask and so on, but I know how he killed them because I saw him bringing me to a pond. He said that at night, the Black Hairs Human would always hide under the water." Chen Xiang said.

Chen Xiang's words caused the members of the seventh group to be slightly shocked, because this was a secret that they had just discovered.

"At night, the Black Hairs Human will stay in the water. This is how we captured the Black Hairs Human alive before." The female warrior said.

"Right, there's a lake nearby, right? You must not go, there are millions of Black Hairs Human down there, if you wake them up, it will be troublesome. " Chen Xiang's words made everyone inhaled a breath of cold air.

"Is that true? How did you know? We've been to that lake a few times, but we haven't even been to the bottom. It's really too cold down there. " A man asked. He was also from the seventh squad.

"That senior told me. Luckily you didn't go down, otherwise those Black Hairs Human who have not awoken will be alarmed. I wonder when they will wake up." Chen Xiang said.

The three Dao Sovereigns paid great attention to this matter. At this moment, they had also entered the house and were discussing this matter.

"Let's go back! We just came back from outside, so we must be very tired too. Tie Xiong said before bringing Chen Xiang and Iron Fighting Team back to his small villa.

When the Iron Fighting Team went to rest, Tie Xiong and Chen Xiang were drinking tea in a secret room.

"Brother Shen, I really didn't expect you to have three Jin Xin s." Tie Xiong laughed: "I almost threw it out just now."

"That guy looks down on people too much, hehe." Chen Xiang laughed: "Big Brother Tie, are you done exchanging these for your Sky Profound Golden Ginseng?"

Chen Xiang passed over a jade box that contained over twenty Shengdao Dan s.

"Good boy, you didn't say much before, but now so many have popped up all of a sudden." Tie Xiong scolded and then handed over the golden ginseng that was giving off white Qi to Chen Xiang.

"I saw that Iron Fighting Team and the rest worked so hard, it was not easy to obtain this Sky Profound Golden Ginseng." Chen Xiang laughed: "These Shengdao Dan, are enough to exchange for a lot of profound stones!"

"That's for sure!" Tie Xiong laughed: "There are many wealthy people here who wish for their children to grow up quickly. This Shengdao Dan is just for them."

"Oh right, Brother Shen, do you want these ingredients to be used to concoct pills?" "What kind of pills can you concoct?" Tie Xiong said: "Our city only has that many Alchemist, and many of them haven't cultivated pill refining for a long time, they don't have any medicinal ingredients."

"I don't know what kind of pill I can refine, but I can definitely cultivate profound Tao Power quickly!" Chen Xiang said: "The weakness of those Black Hairs Human s is that they are afraid of profound Tao Power s that are cultivated by humans, furthermore, they explode when Jin Xin pokes them!"

"You know that too! But it would be best not to poke around, Jin Xin is useful! Just cut off the head." Tie Xiong said: "The key to defeating the Black Hairs Human is not cultivation, but the profound Tao Power, if the profound Tao Power is stronger, then the stronger it is, the more able it is to defend against the Black Hairs Human's attacks, during battles, it is easier to not be afraid of the Black Hairs Human's attacks."

"So that's how it is. Then doesn't that mean that the seventh team cultivates a very strong profound Tao Power?" Chen Xiang asked.

"Yes, that's why it is much easier for them to fight Black Hairs Human than it is for us!" Tie Xiong said: "Of course, they themselves are going all out, that's why they are able to obtain more cultivation resources for themselves, so that they can cultivate a dense profound Tao Power."

"It's late, I'm going to rest now!" Chen Xiang said.

"He's in a hurry to refine pills, right?" Tie Xiong laughed.

... ..

Chen Xiang returned to his room and walked down into the secret underground room.

"What rank is the Sky Xuan Golden Ginseng?" Chen Xiang asked.

"It's only a high-grade king level pill, not something that's too difficult to refine. It will be able to replicate a few very quickly, and at that time, we can start to refine them." Xia Bailing said. She already knew about the matters regarding Chen Xiang's purple pearls, Chen Xiang's methods of obtaining medicinal ingredients left her in a state of amazement.

"Alright!"

Chen Xiang didn't have to wait long before he received a stalk of profound energy grass and a Sky Profound Golden Ginseng, which he then started to refine.

His goal was to cultivate a heart of the profound way, and that way he would be able to quickly absorb the profound Tao Power within the profound Wasteland. He did not need to go through a complicated process of refining flames, and he would be able to quickly obtain a large amount of profound Tao Power.

Chen Xiang spent the entire night refining pills. At daybreak, he and Xia Bailing had always succeeded in refining a set of profound Dao king Dan s. He could refine five profound Dao king Dan s in one furnace and Xia Bailing would refine one less profound Dao king Dan than him.

[Chapter 2519](#)

Not long after Chen Xiang and her successfully refined it, Chu Hongqing was also able to successfully refine three pills.

"I wonder how effective it will be!" Chen Xiang said: "I'll eat a few pills first to see what happens!"

Chen Xiang immediately swallowed the four profound Dao king Dan s that he had refined, and after eating it, the profound Tao Power exploded in his stomach. He immediately started circulating his cultivation technique to stimulate the profound Tao Power to attack his heart, controlling the profound Tao Power to enter his heart.

At this moment, his heart was being "attacked" from inside and outside the profound Tao Power. Then, he used the method of refining pills and used the profound Tao Power to refine his own heart.

Following the continuous beating of his heart, the profound Tao Power also rapidly decreased, being continuously refined into his heart, and changed it.

"profound Dao king Dan are not enough, continue refining, you have to speed up!" Chen Xiang said. In just a moment, more than half of his profound Tao Power had been used up.

After that, Chen Xiang ate the profound Dao king Dan s refined by Chu Hongqing and himself and entered into cultivation. He wanted to complete a heart of the profound way in one go.

Four hours had passed and Chen Xiang had already used up all of his medicinal power, but he was still unable to successfully cultivate the heart of the profound way.

"It's still not enough!" Chen Xiang sighed.

"How many do you think you'll need?" Xia Bailing asked.

"Around fifty pills!" Chen Xiang said.

"So many!" Xia Bailing was a little surprised: "However, if you're familiar with refining, this would also happen very quickly."

"Un, let's forge it together!" Chen Xiang said.

Currently, Yang Xiangyin was in charge of growing the medicinal herbs. Chen Xiang, Chu Hongqing and Xia Bailing specialized in refining this profound Dao king Dan, and after familiarizing themselves with it, their refining speed had become faster and faster.

Chen Xiang closed up for an entire day and finally got forty profound Dao king Dan.

Tie Xiong knew that Chen Xiang was in closed door cultivation, so he did not disturb her.

Chen Xiang gobbled down the profound Dao king Dan one by one and then began to cultivate ...

After a day had passed, he suddenly began to shout in a low voice.

"What's wrong?" Xia Bailing who was still concocting pills heard this and asked immediately.

"It's nothing, I'm about to succeed, so my heart hurts!" Chen Xiang said: "My heart is undergoing a transformation, and just as I had expected, I can refine a heart of the profound way!"

An hour later, Chen Xiang let out a long sigh and wiped his sweat, "I've finally succeeded!"

At this time, whenever his heart beat, he would automatically absorb a large amount of profound Tao Power into his body!

Of course, the biggest benefit of the heart of the profound way was not only the ability to absorb profound Tao Power from between heaven and earth, but also the ability to quickly activate a large amount of profound Tao Power and control it more freely.

"If I can cultivate this Mysterious Heart even better, then I'll be able to use it to convert my Dao energy into profound Tao Power." Chen Xiang said: "Looks like it's just focusing on cultivating the heart of the profound, there's no need to cultivate any sort of profound Tao Power, there's no need to store the profound Tao Power."

"That's pretty good. He should be able to cultivate his mind through training his heart!" Xia Bailing laughed: "If it's really possible, like Bones, then I can transform Dao Energy into become even more powerful!"

Chen Xiang nodded his head: "That's right, I have that intention!" He looked at the white aura that had come out of his palm, and realized that it was an extremely pure profound Tao Power.

His current goal was to find a way to deal with the Black Hairs Human, because there were a lot of people here, especially those who had yet to awaken.

There were many lakes and seas in the profound Wasteland, if there were Black Hairs Human s below, the number of lakes and seas would far exceed his imagination.

Chen Xiang had refined two more batches of pills, and his refining speed was even faster now. He would be able to complete them in four hours, and furthermore, he had to control two pill furnaces at the same time.

This made Xia Bailing extremely jealous.

"How did you refine it so fast?" Xia Bailing scoffed, "And I can even condense another pellet!"

"Hehe, you haven't even seen my pill refining when I tried my best. This is just a small matter!" This is the result of my many years of cultivation. " Chen Xiang laughed, he was able to refine the pill to the maximum three levels, producing a very high quality pill.

"When I'm free, I'll make a cauldron for you to see!" Chen Xiang had many excellent techniques that he had never shown others before.

He walked out of his room and went into the Little Villa's garden. He found out that the ten people from Iron Fighting Team and Tie Xiong were all there, cultivating.

"Brother Shen, you've finally come out of seclusion!" Tie Xiong opened his eyes and said to Chen Xiang.

"Sorry to bother you!" Chen Xiang said.

"Now that the Dao Qi is thinning out, we can only cultivate here because we have nothing better to do, so we don't really expect to be able to cultivate anything!" Usually, we all go out at night to train, so our squad is free to go in and out. " Tie Xiong said.

"So it's like that!" Chen Xiang nodded, then said: "Big Brother Tie, how about you use the Sky Profound Golden Ginseng and the Profound Spirit Grass to refine a kind of pellet?"

"He refined it so quickly?" It's only been a few days! " Tie Xiong said in shock.

As he said that, Chen Xiang took out eleven profound Dao king Dan s.

"Eleven of them!" You can refine that many out of those two things? " When Tie Xiong saw Chen Xiang take out the pill, he was shocked. The ten warriors of Iron Fighting Team were the same.

"Don't worry about it so much, do you dare to eat it?" Chen Xiang laughed.

"Why wouldn't I dare?" As Tie Xiong said this, he picked up one pellet and placed it into his mouth to eat it.

"Everyone, take one and try it out!" Chen Xiang laughed, the people from Iron Fighting Team immediately came over.

After they ate it, their reactions were the same as Tie Xiong's. They clearly knew that this pellet was extremely pure and contained the same amount of profound stones they had absorbed!

They would have to spend many nights outside to cultivate so many profound Tao Powers, and the pills here would allow them to obtain a lot in one go.

"A profound Tao Power of this level would at least cost ten thousand profound stones ... No, at least twenty thousand!" As Tie Xiong refined it, he estimated the effects of the pellet.

"The Alchemist is powerful! To be able to bring out such a great amount of value with those two things, if we were to exchange them for Xuan Dao Stones, it would only be twenty or thirty thousand at most." A big fellow sighed.

Chen Xiang himself didn't know how strong the effects of this profound Dao King Dan was in the hearts of these people, because he didn't have the arduous experience of chasing after the profound Tao Power.

As for the people here, if they wanted to obtain the profound Tao Power, they would have to take a risk and go out at night, or find a way to obtain a large amount of profound stones.

But the pellet Chen Xiang gave them right now contained a large amount of profound Tao Powers. If they could take one every day, they felt that it wouldn't be a problem to surpass Seventh Squad.

"Brother Shen, is there anything else?" As the Dao Sect was Tie Xiong, he refined it the fastest.

"Not yet!" Chen Xiang smiled mysteriously.

Tie Xiong also laughed twice. He could guess that Chen Xiang had a way to quickly grow those medicinal herbs, which was a great thing for him. This meant that his Iron Fighting Team would quickly become stronger.

[Chapter 2520](#)

Although Chen Xiang had already interacted with the Black Hairs Human and conducted a simple research on it before, he still did not know much about it. After all, he needed some time, for example, he did not know how strong the Black Hairs Human was, and there were many people here who were experienced enough to do it.

"Brother Tie, how strong are the Black Hairs Human you've met so far?" Chen Xiang asked. (apical novel)

At that time, it was said that a few small teams together could only kill this Black Hairs Human, and more than ten of them had died." Tie Xiong said: "I have never seen it myself, so I am not too sure either, but my father said, there must be a stronger Black Hairs Human here."

Right now, Chen Xiang was worried that the Black Hairs Human would break through the barrier of the profound Wasteland and escape to the New Eight Wastelands. At that time, the New Eight Wastelands would definitely be killed by the Black Hairs Human and his strength would not be as strong as the Ancient Eight Desolations.

In the next few days, Chen Xiang would be refining his way through, this kind of pill could help him cultivate the vigorous profound Tao Power, and as long as he had enough profound Tao Power, it would be able to stop him from having to struggle when facing the Black Hairs Human. At that time, not only would he have to cultivate the vigorous profound Tao Power, he would also need to get the warriors from both the Heavenly Dragon City and the Heavenly Dragon City.

"Ten days are almost up. It's time to find those nine people." When he first came in, he had brought nine strong practitioners from the three great native banks with him, and agreed to meet at that place for ten days.

Now that it was time, Chen Xiang also quietly left the city. Using the White Tiger Jump, he could easily escape from here.

The last time he entered, it was at night, and this time they were meeting up at night as well. Chen Xiang, with Xia Bailing's help, quickly arrived at that place.

"Here it is!" Xia Bailing said: "Strange, why did they not come? Could it be that they died?"

"Let's wait first!" Chen Xiang said: "I wonder how they are doing with the investigation, those Black Hairs Humans seem to be even more terrifying than I imagined."

"Yeah, just the number alone is enough to scare people. I wonder how many of these Black Hairs Humans are hidden in the profound Wasteland, Devil Wasteland and Evil Wasteland." Xia Bailing sighed: "If these Black Hairs Humans come out, at that time, Spirit Wasteland will definitely suffer too!"

"If I want to know how many there are, I can only go to that Natural Law Divine Spirit. This guy must know a lot about this matter." Chen Xiang said: "It's just that I don't know how to find them right now."

Not long later, Chen Xiang sensed a few extremely weak auras approaching. They were the people he brought in last time, but it was not nine of them!

"Only three?" Chen Xiang was a little surprised. Those nine people were all strong, all of them were at Dao Sect, but now only three had returned.

There were only three of them, and they were all injured and looked very weak.

"What about them?" Chen Xiang asked.

"There's no need to wait for them, they're all dead!" One of the men said.

Chen Xiang just sighed, then suddenly took out the golden pagoda and let the three men in. Originally, he wanted to ask them what they had found out, but seeing their injuries, he did not ask, because the three men needed to rest.

After Chen Xiang used the White Tiger to jump out of the enchantment, he quickly rushed to Three Money Divine City and handed the golden pagoda over to Fan Shixin.

Fan Shixin had obviously known that six people had died.

"Those Black Hairs Humans are very powerful!" Chen Xiang said: "I wonder what they found out?"

"That will only be known after they have recovered from their injuries. I will tell you about it when the time comes." Fan Shixin said. If not for Chen Xiang being able to enter the profound Wasteland, the three Great native banks would not have known about the dangers that were hidden there.

Now that they knew there was a Black Hairs Human in there, they could make preparations earlier.

"Alright, I'll come back for you in a few days." Chen Xiang said before heading to the Hundreds of Flowers Village to pass the two types of medicinal herbs to Lv Qilian to duplicate. After that, he went to find Feng Yujie and Xie Qiaoyan to tell them about the method to refine the Profound Dao, and also told them the method to cultivate Jin Xin.

After doing all of this, Chen Xiang headed towards the profound Wasteland, returned to Tie Xiong's Little Villa, and continued refining pills there.

With Xia Bailing's spatial power, no matter how big the eight wastelands were, he could still quickly travel through them.

When Chen Xiang returned, the sky was almost bright, and he coincidentally saw Tie Xiong and Iron Fighting Team.

"Iron Fighting Team is preparing to set off." Tie Xiong laughed: "If I am able to obtain more precious medicinal ingredients next time, I will definitely give them to you."

"Mm, be careful on your way!" Chen Xiang said to the Iron Fighting Team.

Although Chen Xiang's cultivation level was a little low, the Iron Fighting Team respected him greatly, because Chen Xiang was a Alchemist. After they had eaten that piece of profound way, they knew that Chen Xiang's level was very high.

After that, Chen Xiang and Fan Shixin sent Iron Fighting Team out of the city.

"It's almost dawn. Wouldn't it be very dangerous to go out?" Chen Xiang asked.

"Don't worry, everyone should be in good spirits now. If you meet the Black Hairs Human in the day, you will be able to immediately fight them in your best condition." Tie Xiong said: "Right now, the warriors are all thinking about fighting. If we go out in the middle of the night and meet the Black Hairs Human in the day, our fighting spirit would drop a lot."

"Oh right, how did your father react? Even the affairs of the Black Hairs Human s are at the bottom of the lake! " Chen Xiang asked.

"The Heart Hunting Holy Man has already set out. He will go to another city and tell the teams from the other cities not to go to that lake and cause trouble." Tie Xiong said.

Chen Xiang immediately frowned, "Not good!"

"Why? Shouldn't it? " Tie Xiong saw Chen Xiang's expression changed and anxiously asked.

"It really shouldn't be. The people in the other cities definitely won't believe it. If they are suspicious and think that there is something good under the lake, then it will be troublesome!" Chen Xiang said: "The best way is to temporarily keep it a secret and think of a good countermeasure."

"They should have considered this before. My dad and the others are all Dao Sovereigns, so they should have a good way to discuss this with other cities." Tie Xiong said.

"Let's hope so!" Chen Xiang sighed: "But no matter what, we have to prepare to deal with the group of Black Hairs Human in the lake."

"That's for sure. I just don't know what to do right now!" Tie Xiong sighed.

"Don't you have any more formidable formation masters?" Chen Xiang said: "If there was a good array formation that could quickly gather the spirit energy of the Spirit Wasteland, it wouldn't be as thin as it is now."

Originally, there was such a great array, but it was only maintained for about two years before it was scrapped. The main reason is that too much resources were used up, and it is too dangerous to go out and search for resources to maintain the array. Tie Xiong said.

"I have an idea!" Chen Xiang laughed: "It's just that I need to give it a try to know, I won't guarantee its success."
