

Dan God 2521

[Chapter 2521](#)

After Tie Xiong heard what Chen Xiang said, he could not help but be shocked: "I never thought that not only do you know how to refine pills, you're also so proficient in formations!"

Chen Xiang shook his head, and laughed: "We'll talk when we get back!"

Returning to Tie Xiong's small villa, Tie Xiong was already impatient to know what method Chen Xiang had. If it could make the dao aura in this city denser, then it would be a very good thing for this city. If Chen Xiang could really do it, then he would definitely receive very good treatment.

"We used to do it from the center of the earth." Chen Xiang said: "As long as we succeed in bringing the energy up from the core of the earth, then we will have endless energy."

This was how Long Jiuxiao did things. Originally, the location where the Heavenly Dragon City s were located was a region with a very thin dao aura. Because of the sparse dao aura, there weren't even any savage beasts there.

However, Long Jiuxiao had used his own method to attract a lot of energy from the Earth Core, and then used the array to convert the Earth Core into Dao Qi. After a long time, the Dao Qi in that area started to become denser and denser.

And the Heavenly Dragon City was a lot bigger than this place.

"Will that work? What do I do?" Tie Xiong frowned.

"Definitely. You have three Dao Sovereigns here!" "As far as I know, a Dao Sect can complete it!" Chen Xiang said.

"Let's go, I'll bring you to see my father, he is the City Lord, he is most concerned about this kind of thing, if your method succeeds, he will definitely not treat you unfairly." Tie Xiong said, then pulled Chen Xiang along as he walked toward the City Lord's Mansion.

Chen Xiang's identity jade tablet was given to him by Tie Yuntian. Although he had not interacted with Tie Yuntian much, his impression of him was not bad.

After arriving at the City Lord's Mansion, Chen Xiang and Tie Xiong sat in a hall, waiting for Tie Yuntian.

Tie Yuntian also had something he needed to busy himself with, but when he heard that Tie Xiong had something important to talk to him about, he immediately went out to take a look.

"Ah Xiong, what is it?" When Tie Yuntian saw Chen Xiang, he politely smiled at him. This was also for Chen Xiang to not be so formal, after all, he was a City Lord and a Dao Sovereign.

"Dad, Brother Shen said he has a way to make the dao aura in this city thicker." Tie Xiong said: "If he can do it, what kind of treatment will you give him?"

Tie Yuntian was surprised, and asked anxiously: "Is this true? How much certainty do you have?"

"Fifty percent!" Chen Xiang said.

A fifty percent chance was quite great. It was worth a try.

"If you can do it, I will naturally not treat you unfairly. I can even give you the position of City Lord." Tie Yuntian said.

Chen Xiang did not need the position of City Lord, he wanted this city to become stronger, and it was also to let this city block the Black Hairs Human, if not the Black Hairs Human would think of ways to expand after this city was flattened.

"We'll talk about this later. I'm not completely sure right now." Chen Xiang laughed and said:
"Moreover, I will need the help of your array masters."

"I am a formation master, I am the one who completed all the formation here." Tie Yuntian said: "Tell me your method."

"It's very simple. It is to draw power from the earth's core. There is an extremely strong flame energy in the earth's core. If you can draw fire energy from the earth's core and then use the formation to turn that flame energy into Dao Qi, that would be enough." Chen Xiang said, "The dao energy in the earth is created from the constant burning of the earth's core, combined with the fusion of the sun and earth."

"I have thought about it before, but the process is very complicated. Furthermore, profound Wasteland is currently floating, and there is no heart left." Tie Yuntian shook his head.

"profound Wasteland has already merged into the new Eight Desolate." Chen Xiang said: "City Lord, you don't know about this?"

"What's going on?" Tie Yuntian did not know about this, or perhaps the people inside did not.

The profound Wasteland had yet to appear before the New Eight Wastelands, and had instead encountered the Black Hairs Human. None of the people here had ever gone to the outskirts of the New Eight Wastelands, because that place was still rather far away.

Then, Chen Xiang told Tie Yuntian about this matter in a simple manner.

"So that's how it is. If the barrier is broken, we can also leave ... Of course, the New Eight Wastelands outside would also be affected by this destructive force." Tie Yuntian sighed: "As long as Black Hairs Human is here, we have nowhere to hide!"

Chen Xiang did not say that he came from outside. He only said that this was something that a mysterious senior had told him.

"Alright, let's go to the core to take a look. I have a way!" Tie Yuntian said: "Ah Xiong, this little brother and I will go. You stay here."

Tie Xiong brought Chen Xiang into the City Lord's Mansion, and surprisingly came from here. Tie Xiong was also very surprised, but he was a little unhappy right now, because he really wanted to follow along and take a look.

"There are dangers in the earth's core, especially for Earthly beast!" Tie Yuntian said as he brought Chen Xiang to a very deep underground room.

"New Eight Wastelands is so big, there must be a lot of Earthly beast. When the time comes, we just need to pay attention to a little." Chen Xiang said, "Senior, do you have a spatial Transmission array Plate?"

"Of course! You mean to say that you want to place the spatial Transmission array disk below the earth's core and then transfer the energy below it up, right?" Tie Yuntian said.

"Yes!" "The array disc placed below must be able to resist the heat. Moreover, it must also have the ability to absorb energy to maintain its circulation, and the amount of energy to transfer must be great as well." Chen Xiang said: "I am only providing you with a way of thinking, I am not able to help you with anything else."

Tie Yuntian nodded his head. Chen Xiang was just a Dao Po realm.

"Looks like I have to send people to dig many underground palaces under the city." Tie Yuntian said: "Let's try entering the earth's core now!"

Tie Yuntian was a formation master, so he had to be proficient in array discs. He took out an array disc and said, "This can be transmitted downwards ... "How about this, I'll go down by myself. If I encounter any danger, I'll deal with it myself. You just wait here for me."

"I'll go down with you!" Chen Xiang said. He was also curious about the Desolate Earth's Core, he wanted to take a look too.

Tie Yuntian pondered for a while, but in the end, still decided to bring Chen Xiang to the center of the earth.

After activating the formation disc for a few seconds, Chen Xiang felt a wave of heat. Then, he hurriedly used his spatial energy to wrap himself up, isolating himself from the extremely hot energy.

"Spatial energy? No wonder you were able to sneak in, and you seem to have very high spatial strength!" Tie Yuntian could not help but be shocked, and then, laughed.

At this time, Chen Xiang and Tie Yuntian had already reached the core of the earth. They were floating above the continuously boiling Flame Essence, and there wasn't much space above them.

[Chapter 2522](#)

Looking at the boundless sea of fire essence below him, Tie Yuntian frowned, because he didn't know where he should put the array disc to be safe.

"This method is a bit difficult! "Of course, for a city to have such a rich Dao Qi, it is not a simple matter. At the very least, it is a method that is possible." Tie Yuntian was still relatively optimistic, he brought Chen Xiang to walk all around, wanting to see how they would arrange the array discs.

"Can you embed it on top?" Chen Xiang looked at the fiery red rocks above.

"Not good, those stones are unstable, they might fall down at any moment." Tie Yuntian shook his head.

Chen Xiang used the Dao heart Eye to observe, he wanted to see if there were any small mountains underneath the Flame Essence. As long as he pierced a hole inside it and placed the array disc inside, it would be enough.

More than two hours later, neither Chen Xiang nor Tie Yunshan could come up with a good idea. Just as they were about to go back, the fire liquid suddenly became extremely violent, undulating up and down.

"There's something down there!" Chen Xiang shouted in shock, "It's a Earthly beast!"

Hearing Chen Xiang's shout, Tie Yunshan immediately pulled Chen Xiang and prepared to teleport away.

"Be careful!" Tie Yunshan struck his palm towards the flame liquid that was spewing out from the ground, stopping it from sputtering onto Chen Xiang's body.

"Big Brother, it's me!" Chen Xiang suddenly heard a familiar voice.

"Huo Lin?" Chen Xiang was shocked, and shouted.

Huo Lin was the Nine Heaven World's Earthly beast, a Fire unicorn.

"Big Brother, long time no see!" A beam of fire shot up from below, and all they saw was a smiling young man standing there, wearing a fiery-red armor.

"Good boy, you scared me to death!" Chen Xiang was very happy, he never thought that he would meet Huo Lin in this kind of place, furthermore, it had been a long time since he had last seen Huo Lin.

Tie Yun Shan was also surprised, Chen Xiang actually knew a Earthly beast, he suddenly felt that Chen Xiang was very mysterious, a Earthly beast was not someone that anyone could easily recognize, and even if it was him, it was his first time seeing a Earthly beast, but Chen Xiang could call this Earthly beast a brother.

"I didn't expect to see you here!" Huo Lin laughed, "Big Brother, you are still the same. Your strength is not that great, but you always go to those dangerous places."

"Brat, you're looking down on people!" Chen Xiang laughed and scolded: "How have you been recently? Are you used to being here? "

"It's not bad!" Huo Lin nodded his head: "Big brother, what are you doing here? Is there something wrong? "

"Of course. Is this your territory? "Help me place something!" Chen Xiang said.

"I have a palace down here, which is the one I used to have. Let me show you around!" Huo Lin took out a large transparent pearl and allowed Chen Xiang and Tie Yuntian to enter. After that, he turned into a huge Fire unicorn and dived into the depths of the earth's core while biting the pearl.

Huo Lin had constructed an Earth Core Realm and a Qilin Hall here. Just like last time in the Nine Heaven World, when Chen Xiang came here, he suddenly felt a very familiar feeling.

"What do you want to put on it?" Huo Lin asked: "I'm very safe, although there are a lot of Earthly beast here, but those guys are not my match. I myself belong to the Heavenly beast, and those mottled beasts are way too inferior to me."

Tie Yunshan took out an array disc and said, "I want to place an array disc here to absorb energy from the earth's core to supply energy to our city."

"No problem, leave it to me. I choose the best place here, it can quickly absorb the purest energy in the earth's core." Huo Lin smiled, and then, he accepted the formation plate.

Tie Yunshan also taught him how to activate the formation plate.

"Where's your wife?" Chen Xiang asked.

"She's sleeping. There's no helping it, when our Earthly beast gets stronger, we all need to sleep for a long time." Huo Lin said, he had already remembered how to activate the array disc.

"Thanks a lot, I'll go up now and see if I can absorb the energy from here. It might take some time." Tie Yunshan had yet to create an array disc that could convert earth's core energy. However, this was not a problem, and he could do it very soon.

"City Lord, you go up. I want to meet with my brother." Chen Xiang said.

"Alright!" Tie Yunshan left by himself. Along the way, he kept thinking about Chen Xiang, because no matter how he looked at it, he was not an ordinary person.

... ..

After Tie Yunshan left, Huo Lin asked, "Elder Brother Shen, who is that old man? It seems like he is a little unfamiliar with you! "

"It's a long story..." Chen Xiang told Huo Lin about profound Wasteland's situation, letting him know the situation of that city.

"Quite a few things have happened on the surface as well!" Huo Lin said: "Earth's Core Divine Spirit came to find me before, he said it was all thanks to you that they were unable to complete the task. He told me a lot, what two eras merging, what balance and so on! That's why he gave me a place like this, where I could sleep peacefully. "

"Did the Earth's Core Divine Spirit say anything else? "Do you have any way of finding him?" Chen Xiang asked anxiously, he just wanted to find Natural Law Divine Spirit's group of Divine Spirit.

"He didn't say anything!" But he has a way to get in touch with him, and I'll get you in touch with him right now. " Huo Lin said: "Big Brother, what do you want to say to him?"

"Just say that I, Chen Xiang, have something to discuss with him and Natural Law Divine Spirit." Chen Xiang said.

Huo Lin took out a small disk, and then, he talked to the inside of it.

"Alright, I just don't know when they'll have the time to come. Although they might be gods, I don't think they're as powerful as you, Big Bro." Huo Lin chuckled: "If Big Brother's cultivation reaches their level in the future, I can exterminate them at any time!"

"I thought they would come immediately!" Chen Xiang curled his lips.

"Big brother, the ground won't collapse any further. Come to me!" If the two of us work together, the earth spirit realm will definitely be beautiful. " Huo Lin said.

"Hmm, it seems like this is my best safe haven." Chen Xiang laughed.

After a short while, Huo Lin shouted, "Big Brother, Earth's Core Divine Spirit said that they will be here very soon, I told you to be patient!"

Chen Xiang said: "Seems like they value me quite a lot!"

Huo Lin laughed: "Of course, big brother, you have helped them before! Although this group of birdgods are not that powerful, they are still quite considerate. "

The Earth's Core Divine Spirit arrived very quickly. It was the first time Chen Xiang had seen the Earth's Core Divine Spirit with his own eyes.

The Natural Law Divine Spirit also came, but he was currently chuckling, causing Chen Xiang to feel a little unhappy in his heart.

"Chen Xiang, you are truly omnipresent, even more powerful than us gods. It hasn't been long since you ran all the way to the heart of the wastelands!" The Natural Law Divine Spirit laughed.

"Of course, my big brother's strength doesn't need to be questioned." Huo Lin said.

Chen Xiang had too many things to ask of this Natural Law Divine Spirit, such as the island his father was on, and then the Black Hairs Human ... The connection between the New Eight Wastelands and the Ancient Eight Desolations.

[Chapter 2523](#)

He was smiling as he sat on the ground. Currently, he was not the least bit nervous, as Chen Xiang suspected that he still did not know about the matters regarding Black Hairs Human, but it did not seem to be possible. As the Natural Law Divine Spirit was, he was definitely aware of the matters regarding Black Hairs Human. ybdu!

Furthermore, that group of Black Hairs Human s were originally requested by the group of Natural Law Divine Spirit s who were lazy.

"What happened to the island my father was on?" Chen Xiang was most curious about that island. For example, the island had suffered a punishment, and he also wanted to make that island more stable.

"That island You should have already been there. Furthermore, I know that the poison on it has not been expelled, so it should be you who did it! " Natural Law Divine Spirit laughed: "You can always do things that even we can't do."

"Hey, answer my question!" Chen Xiang scoffed, "Is it all your fault?"

"Of course not. If I did not inform that Island Spirit in time, the creatures on that island would have died a long time ago." Natural Law Divine Spirit quickly waved his hand and said.

"There are many things that the Heavenly Dao cannot control now." Natural Law Divine Spirit sighed: "If it was in the past, as long as we had something to do, we could just make an altar or something, and we could have the Heavenly Dao come down to help us, but now it's not going to work!"

"In other words, the movement of the Heavenly Dao is in a state of automatic adjustment. I don't know the specifics either. In short, what is happening now isn't something that anyone can control." Natural Law Divine Spirit sighed: "For example, which island should we punish? ... It is because that island has evolved to a certain degree by itself. The Heavenly Energy sensed that that island could possibly severely damage the balance of Heavenly Energy. That is why it is being punished. "

The city where Xia Bailing was originally at was the same, and the reason for his punishment should be for the same reason as that island!

"Is there such a thing happening in the future?" Chen Xiang asked: "My father is still up there, and the punishment for that island is still there.

"This will definitely not happen again. After all, the Heavenly Dao is not in a good situation right now!" Natural Law Divine Spirit replied, "You can be at ease with that."

"You promise?" Chen Xiang said.

"I promise!" He is the Natural Law Divine Spirit, so it is normal for Chen Xiang to make him promise something.

"Alright, I believe you!" Chen Xiang nodded his head, "I came down from above profound Wasteland, what happened to those Black Hairs Human s up there? I heard that those things were actually called Natural Law Guardians s or something like that! "

Speaking of this matter, Natural Law Divine Spirit and Earth's Core Divine Spirit looked at each other, a little embarrassed. Seeing their reaction, Chen Xiang immediately confirmed that those Natural Law Guardians s back then were indeed related to them.

"Don't misunderstand. We know about this, but it definitely has nothing to do with us." Natural Law Divine Spirit saw Chen Xiang's look of contempt and immediately said.

"Is that so? But you guys seem to be very guilty! " Chen Xiang said.

"We were supposed to be responsible for this matter. This is our responsibility, but our power is limited." Natural Law Divine Spirit's face was filled with helplessness: "This matter was caused by the previous Natural Law Divine Spirit and the others in order to be lazy. At that time, I was still just a little brat in Natural Law Divine Realm."

"Then what do we do now? These guys seem to be a threat to both the new and the old. " Chen Xiang curled his lips: "I really didn't think that you Natural Law Divine Spirit are so weak. You can't even solve this little problem."

Earth's Core Divine Spirit finally spoke, he used a rough voice to say: "We have no other choice! The majority of our divine powers come from the Heavenly Dao. However, we do not know what kind of situation the Heavenly Dao is in right now, leading to chaos in the world that is born with the power of Natural Law Principles, as well as greatly reducing our strength. "

Natural Law Divine Spirit nodded his head: "It really is like that, otherwise we wouldn't have to be afraid of those Evil Spirit Race's."

Chen Xiang looked at him with contempt. "Could it be that you are looking for an excuse? Is the positive recession that bad? "

"This is real! I am a Natural Law Divine Spirit, so I definitely need sufficient strength to control the entire Heavenly Dao, and the other gods are the same as well. If not for something unexpected happening, we would not be in this state, and the entire Heavenly Dao is not something we can control right now. "

Natural Law Divine Spirit shook his head: "Of course, the Heavenly Dao also left a trump card, which was the Three Great native bank s!"

Chen Xiang's eyes lit up. "The three great native bank s are indeed powerful, can they deal with those Natural Law Guardians s? Right, how many were there in the Natural Law Guardians? "I saw a lot of them in a lake!"

"profound Wasteland is still considered good, there are only a few of them! Now that both Evil Wasteland and Devil Wasteland have fallen, it is fortunate that we had all set up strong barriers in these three Ancient Wastelands, which should be enough to sustain us for a very long time. " The Natural Law Divine Spirit's words made Chen Xiang worry deeply.

The situation between the Evil Wasteland s were actually so terrible!

"The three great native bank s have also only just found out, and this is what I have just told them. Can they really deal with those Natural Law Guardians s?" Chen Xiang was very suspicious of this matter. Out of the three native bank s that had sent out, six had died.

"If it's only the normal Ancient Desolation and Eight Desolations, the combined strength of the three native bank s would obviously not be enough to contend against those Natural Law Guardians s. However, there shouldn't be a problem for those above Sacred Wasteland s." Natural Law Divine Spirit said: "I will head to Sacred Wasteland in a while to discuss this matter with them."

The Earth's Core Divine Spirit said: "Every native bank has three Villa Masters, the weakest is the one in charge of managing the New Eight Wastelands, and the second strongest is the one in charge of managing the Ancient Desolate, profound Wasteland, Spirit Wasteland, Devil Wasteland, Devil Wasteland and Evil Wasteland! And the strongest are the ones in charge of the Beast Wasteland s and the Sacred Wasteland s. "

If the Earth's Core Divine Spirit didn't say it, Chen Xiang would have forgotten about the other Ancient Wastelands.

"What's going on with the Human Wasteland? Is he also in the New Eight Wastelands? " Chen Xiang asked.

"Human Wasteland isn't very strong. She is currently in the same condition as Spirit Wasteland, it's just that the place she is at is a little hidden, so you all have not found her yet." The Natural Law Divine Spirit said.

"Where's the Sacred Wasteland? Are all the guys inside very strong? " Chen Xiang was very curious about this.

The Great Landlords of the three great native banks are all in the Sacred Wasteland, what do you think? And among the Sacred Wasteland, not only are the Three Great native banks the strongest, there are also a few other Heaven Wasteland Aristocratic Families. Natural Law Divine Spirit said: "That group of fellows from Heaven Wasteland Aristocratic Family, their attitude towards us is way worse than you. They don't even put us in their eyes."

"Who asked you to be so incompetent? It's normal for you to not be worthy of respect." Chen Xiang laughed.

"Sigh, we can't help it. Of course, we wish to become stronger." Natural Law Divine Spirit sighed again.

[Chapter 2524](#)

"How many Black Hairs Humans are there in the profound Wasteland?" Chen Xiang said: "Can they escape?"

"Back then, there were over a billion such Black Hairs Humans sealed inside the profound Wasteland, but there were over four billion in the Devil Wasteland and the Devil Wasteland! Of course, these fellows are better than humans in that they will never kill each other. Furthermore, as long as one of them evolved into an Emperor, they would vow to follow that Emperor to the death." The Natural Law Divine Spirit said.

Chen Xiang secretly cursed in his heart. What Natural Law Divine Spirit said just now was enough to prove the strength of those Black Hairs Humans.

"There shouldn't be any Emperor-like Black Hairs Human in the profound Wasteland right now. Otherwise, it would be troublesome." Chen Xiang said.

"It's hard to say. Even if he did, you don't know. To be able to evolve to that degree, he must have very high intelligence, so his actions will still be very cautious." The Natural Law Divine Spirit said.

"Hmph, it's all because of you lousy creatures. For the sake of laziness, you made such a terrifying thing." Chen Xiang snorted.

"I told you already, this is the previous Natural Law Divine Spirit's fault. It has nothing to do with us." Natural Law Divine Spirit's face was filled with grievance.

"Right, isn't there another Divine Wasteland? What kind of place is that?" Chen Xiang asked.

"That place is very mysterious, we don't know either. I only know that many generations of Natural Law Divine Spirit have gone to that place, and it is said that the place is where the Heavenly Dao transcends. As long as we go there, we will see the creator of the Heavenly Dao." Natural Law Divine Spirit's face was full of yearning when he said this.

"So mysterious!" Chen Xiang was also very curious and wanted to take a look.

Of course, he couldn't do it now. His cultivation base was very low. If he had a Dao Lord cultivation base, he wouldn't be too far off.

"Inside the Sacred Wasteland, those Heaven Wasteland Aristocratic Families are very interested in the Black Hairs Human. I remember that not long ago, I met a person from the Heaven Wasteland

Aristocratic Family who came, and he even asked me where I was from. He said that he wanted to capture some of them and see if he could tame them into his slaves." The Natural Law Divine Spirit said.

"I think they want to train their own troops and then kill and plunder everywhere!" Earth's Core Divine Spirit snorted: "I still understand the style of those bastards from Heaven Wasteland Aristocratic Family."

Speaking of the Heaven Wasteland Aristocratic Family, both Natural Law Divine Spirit and Earth's Core Divine Spirit actually had the same grudge. One look was enough to tell that they had been bullied by the Heaven Wasteland Aristocratic Family.

Chen Xiang secretly thought it was funny, these Gods were down and out, being humiliated to such a degree by others, but they could not say anything, they were truly aggrieved.

"I think those guys will know where the Natural Law Guardians is soon. When the time comes, they might send people over to capture them. If you meet them, you must be careful of them and not have any conflicts with them! Otherwise, none of us will be able to save you." Natural Law Divine Spirit warned.

"Are they really scary?" Chen Xiang didn't understand Sacred Wasteland at all, "Could it be that the strongest is not a Dao Sovereign?"

"Among the tenth stage of the Heavenly Dao, the Dao Sovereign Stage is only at the ninth stage. There's even a Dao God Stage behind it!" Natural Law Divine Spirit curled his lips. "We were originally in the Dao God Stage. Because something happened to the Heavenly Dao, we fell back to the Dao Sovereign Realm!"

"So it's like that!" Chen Xiang recalled that the realm Xia Bailing had told him about, was indeed only nine realms.

"In the Sacred Wasteland, there are a lot of Dao Sovereigns and Dao Gods. That place is where these kind of people gather to begin with. There are even demon and demon beasts there." The Earth's Core Divine Spirit replied, "Right now, all of us gods are inside there."

"Then can I go now?" Chen Xiang really wanted to go there and take a look. He felt that there would definitely be some good pills inside.

"It's best if you don't go first. You have too many good things on you, but there are many wolves in there! You need to be clear, even though the three native banks have strength, it is not their decision to make. There are many terrifying fellows within the Sacred Wasteland, and there are some that even the three native banks do not dare to offend! If they want to take your thing away, you can't do anything about it." The Natural Law Divine Spirit hastily said.

He knew Chen Xiang's ability, if Chen Xiang really wanted to go, he could definitely go!

"Alright, wait for me to become stronger!" Chen Xiang said.

Chen Xiang now knew what he wanted to know and the Natural Law Divine Spirit and the Earth's Core Divine Spirit had left as well.

"Even though my Core is a bit clear, it's still safe. The upper echelons are really too frightening. What Black Hairs Human is this, and what Heaven Wasteland Aristocratic Family is this." Huo Lin said.

"Only by going out and messing around would I be able to live a fulfilling life." Chen Xiang patted his head: "Go activate the array, see if we can successfully transfer the energy to the ground."

Huo Lin went to open the formation plate, and then exclaimed in joy: "It's a success, and the speed at which it was delivered was even quicker."

Not long after, Tie Yuntian used the Transmission array Plate to come here and discussed about setting up the array disc with Huo Lin. From the looks of it, he planned to place a few more here.

In order to be able to come here at any time, Tie Yuntian had set up a Transmission array Plate here. As a formation master, he had this plate with him.

Chen Xiang had already left the Core of the Earth, and returned to the surface. He still had to refine pills, and the more he understood of Black Hairs Human, the more he felt threatened.

Now, not only did Chen Xiang have to cultivate the profound Tao Power, he also had to raise his cultivation level. He had just stepped into the Dao Po realm, he was simply too weak!

Not only would the advancement of his base level allow him to have greater strength, it would also allow him to relax while he was refining pills.

After entering the Dao Po realm, eating Shengdao Dan s was useless, and there were not many pills that he could eat now. Although it was useful, the effects were not very obvious, especially when he was in a rush to raise his cultivation.

"This Dao Po realm is a very high cultivation, you can't rush it!" Xia Bailing said: "With me protecting you now, you don't have to worry about anything."

Chen Xiang recalled that the moment he stepped into the Heavenly Dao Realm, he had also improved by leaps and bounds! In the past, if he wanted to reach Zongshi realm, it would take a lot of time. Furthermore, the amount of medicinal pills he had to consume was difficult to count.

And now that he had broken through to the Heavenly Dao Realm along the way, he didn't consume many pills, and he only consumed a little bit of time.

"The pills I consume are mostly the recipes of this Desolate Land!" It should be from the New Eight Wastelands, could it be that the older the pill formula, the more powerful it is? " Chen Xiang thought for a while, then asked Xia Bailing: "Sister Bai Ling, do you have any ancient pill formulas?"

"Our Spirit Wasteland is also an Ancient Eight Desolations, alright? Of course I have an ancient pill formula, but the prerequisite is that you have to have the medicinal ingredients!" Xia Bailing said: "I have a pill formula, and the pills are specially made for the Dao Po realm, it's just that the ingredients have been gone for a long time."

"What is that pill?" As long as those medicinal herbs have been here before, I can find them! " Chen Xiang said.

[Chapter 2525](#)

Chen Xiang was not just bragging. He also did a lot of things to find medicinal ingredients, and most of them were successful.

Xia Bai Ling said: "The main point of Dao Po realm is to transform Bones into a Dao Soul, and the stronger the Dao Soul is, the stronger the Dao Spirit becomes, and the difference between the first and the second stage of Dao Po realm is huge."

"I know about this. What sort of pills would be needed to increase my Dao Soul quickly?" Chen Xiang asked.

"That kind of pill is called Shipo Dan, it can help people to cultivate all the way to the tenth level of Dao Po realm, and there is only one type of herb that is needed!" Xia Bai Ling said: "That thing is called the Tianpo fruit, it's a kind of fruit that looks like fire. I have never seen it before, so I have never refined this kind of pill before. I don't know if it really exists."

"Is this a very ancient pill formula?" Chen Xiang asked.

"Of course. Otherwise, how could I not find the medicinal herbs?" The ancient pill formulas are usually very strong, so the herbs that are required are also very good ones. However, because the herbs were extinct later on, other herbs will be replaced. As the generations go by, the recipes get worse and worse. " Many of the apothecaries had no idea what to do in this situation.

"I must find that Tianpo fruit. That way, I can instantly reach the tenth level of Dao Po realm." Chen Xiang said. The same thing happened to him when he rose up from the Dao Dan realm.

"If possible, that would be for the best!" Although Xia Bailing was now a Dao Sovereign, she still hoped to see that pill, which would make her White Spirit City stronger.

"I wonder if this profound Wasteland has it!" Chen Xiang was just about to go find Tie Xiong, she didn't think that Tie Xiong would come.

"Brother Shen, what happened to the matter at the core of the earth?" Tie Xiong was very curious about this. He had asked Tie Yuntian, but Tie Yuntian hadn't told him anything.

"The progress is not too bad. If it's open, your father will tell you." Chen Xiang laughed, "Tie Xiong, I'm currently in urgent need of a type of medicinal ingredient, can you help me find one!"

"If it was before, this would definitely be an easy task, but now ..." "You know." Tie Xiong knew that Chen Xiang was an extremely powerful pill refiner, but there were limited amounts of ingredients available, so he couldn't even concoct a little pellet right now.

Chen Xiang took out a pen and paper, and drew the pattern of a Tianpo fruit on the paper according to the image that Xia Bailing had told him.

"Alright, I'll keep an eye out for you." Tie Xiong nodded.

Right now, Chen Xiang was in a hurry to find the Tianpo fruit, so after greeting Tie Xiong, he left the city and returned to Divine City with three coins.

"It's impossible for there to be people in the profound Wasteland. There are way more humans in the profound Wasteland than Spirit Desolate. Furthermore, with this kind of situation, we might as well find

a way to rely on the New Eight Wastelands." "You have so much jade money right now, and those kinds of medicinal herbs are only of the King Stage High Rank."

Chen Xiang came to the Three-Qian Divine City and went straight to the Immortal Bank to find Fan Shixin.

"Manor Lord Fan, your complexion isn't too good. What happened?" Chen Xiang asked.

"Two things happened, but it was not a good thing!" Seated on the chair, Fan Shixin let out a long sigh: "All of this is related to those Black Hairs Human s."

"The first thing is that the people we sent out earlier have all detected the last thing we want to happen."

Hearing Fan Shixin's words, Chen Xiang also thought of something.

"They found a total of twenty lakes on top of the profound Wasteland. Twelve of them have already awakened, and each lake has tens of millions of Black Hairs Human."

Chen Xiang nodded, he had previously heard from the God of Heaven's Path that there were more than a billion Black Hairs Human s here.

"The reason why these fellows woke up is because one of them evolved and produced a leader. It was this leader who woke them up! The six warriors we sent out were all killed by that leader. " When Fan Shixin mentioned this matter, his face was filled with pain: "I never thought that they would be so powerful."

"It looks like we have to prepare for the worst!" Chen Xiang's expression became serious.

"The second thing, although it looks like a good thing, I feel like it's a bad thing." Fan Shixin said: "Chen Xiang, how much do you know about Sacred Wasteland?"

"I know a little, but I heard that the Big Villa Masters and Second Villa Masters of the three big banks are all in the Sacred Wasteland, and there are even some Heaven Wasteland Aristocratic Family s up there." Chen Xiang said.

"It seems like you know quite a lot!" Fan Shixin was a little surprised, then said: "The second thing is that those Heaven Wasteland Aristocratic Family s are preparing to send people here to go into the Evil Wasteland, Demon Emperor and profound Wasteland to capture them. They want these Black Hairs Human s to become their slaves!"

The Heavenly God and Geocentric Divine Spirit had already mentioned this to Chen Xiang before. He did not expect those Heaven Wasteland Aristocratic Family s to act so quickly.

"Although the Heaven Wasteland Aristocratic Family is powerful, but we cannot underestimate them even with so many Black Hairs Human! Right now, the Black Hairs Human was still trapped inside the three ancient barriers. Although those barriers would be destroyed by the Black Hairs Human sooner or later, at the very least, it could delay a lot of things! Especially the profound Wasteland. The current situation in the profound Wasteland is the best, so the Black Hairs Human inside are all very quiet. "

"If Heaven Wasteland Aristocratic Family were to enter the profound Wasteland, he would definitely enrage those Black Hairs Human! Evil Wasteland and the other Black Hairs Human s are even more so, this will only increase the speed of Black Hairs Human breaking through the barrier. " Fan Shixin said, "But the three great banks cannot stop those fellows."

Chen Xiang scolded in a low voice: "This bunch of bastards, if the enchantment is broken, the one who will be in trouble will be us!"

Fan Shixin nodded his head: "Right now, the three big banks above Sacred Wasteland have already made preparations, they will help us refine some array discs to protect the cities inside the New Eight Wastelands, I just do not know how much they can refine, so time is very important to us right now."

"Manor Lord Fan, can you help me find this medicinal plant? I need it urgently. If you can find it, I'm willing to pay ten billion for it." Chen Xiang took out the image of the Tianpo fruit and gave it to Fan Shixin.

"This seems to be called a Tianpo fruit!" Fan Shixin frowned: "This kind of fruit is rare even in the Sacred Wasteland, if you bid 10 billion, you should be able to buy it!"

"That's great!" Chen Xiang was pleasantly surprised: "Villa Master Fan, I'll leave it to you!"

"It's nothing. If it wasn't for you, we probably wouldn't even know about the matters of the Black Hairs Human. Although some guys know about it, they plan to hide it." Fan Shixin snorted: "I don't even know what those fellows are thinking. The matter is already so serious, they should be telling us to be prepared."

Chen Xiang felt that those big guys that Fan Shixin was talking about should be the bunch of useless trash, like the God of Heaven.

At this time, a young man walked in with a grave expression on his face.

Fan Shixin nodded at him, indicating that he could speak.

Third Villa Master, Undead Divine Race and the Evil Spirit Race are right beside the Evil Wasteland. They are preparing to open an opening for the Black Hairs Human s inside to come out. The man's words shook both Chen Xiang and Fan Shixin.

They had previously forgotten about the Undead Divine Race and the Evil Spirit Clan, they did not expect that they were actually causing trouble now. Then, without permission, the group of Heaven Wasteland Aristocratic Family's group directly entered the Three Money Divine City, clearly showing that they were intentionally provoking the three big banks.

"This will only make things more complicated!" Fan Shixin stood up and let out a long sigh, "Let's go see what those bunch of fellows from Heaven Wasteland Aristocratic Family are up to first."

[Chapter 2526](#)

Chen Xiang also wanted to see exactly how strong the people of the Heaven Wasteland Aristocratic Family were, to actually be so overbearing. Although the three great native bank s were easy to bully, they would not be looked down by so many people.

Amongst the New Eight Wastelands, these three great native banks were the strongest, but they were still treated like this by the Heaven Wasteland Aristocratic Families from the Sacred Wastelands. It was obvious with a glance that these Heaven Wasteland Aristocratic Families' people were extremely arrogant.

Chen Xiang followed behind Fan Shixin and headed towards the plaza, because that group of people were currently in the plaza, he did not know what they were planning to do.

"Aren't there any defensive arrays here?" Chen Xiang asked, standing beside Fan Shixin.

"Of course we have them. However, these defensive arrays are useless against those fellows!" Even if they do not have enough strength to break through our defenses, they do have some powerful Divine Weapons. When they came, the powerful families definitely gave them many defenses." Fan Shixin said.

Chen Xiang and the rest had already reached the plaza, and in the middle of the plaza, he saw 10 people standing there, and many of the Transmission arrays had already been destroyed.

Chen Xiang felt that these people were all very young, so their mental states were not mature enough. Normally, they were raised in a large family and thought that they were superior to others, so they would definitely not think much of New Eight Wastelands.

"Did you destroy this?" After Fan Shixin arrived, he asked indifferently. Even so, Chen Xiang, who was beside him, could feel his anger.

After Fan Shixin arrived, Chen Xiang saw two other groups of people rushing over. They should be the Villa Masters of the other two native banks.

"So what?" One of the purple robed man laughed coldly: "I came to this broken place, and I actually still need to collect our Jade money, I deserve it."

"This place was built by us. You can leave it to the Jade money but no one is forcing you to come! But now, not only did you use this method to force your way in, you even destroyed the Transmission array in here! Considering that you all don't understand the rules, you all only need to compensate the Transmission array and leave this place immediately." Fan Shixin said in an amiable tone. His self-restraint was extremely good, so he did not reveal the anger in his heart.

This kind of person was always very scary, especially when they didn't want to put up with it ...

The purple robed man sneered and said: "I won't compensate you. What can you do to us? Don't tell me you dare to attack us?"

As soon as the word "succeed" came out of his mouth, there was a crisp "pa" sound. The purple-clothed man that had just spoken had already been sent flying. He was actually sent flying by someone's heavy slap.

Chen Xiang was startled, because he did not see who it was. Fan Shixin was always there, his expression was extremely natural, and it did not seem like he was going to attack.

"It was from the goatee on Fan Shixin's right." Xia Bailing said: "That guy is very strong, he should be a Dao Lord!"

Chen Xiang looked at the Goatee Elder, who had a smile on his face, and stroked his beard.

"You all ... Which one of you hit him?!" The dozen or so people from the Heaven Wasteland Aristocratic Family panicked. They really did not think that there would actually be someone who dared to attack them.

"So what if I hit you?" Fan Shixin said: "Although I did not do it, but I want to say, well done!"

Only now did the ten-odd youngsters realize that the three manor lords standing in front of them were not easy to deal with!

"Just you wait..." The man in purple had already gotten up. His face was now completely black. He didn't know why, but he looked like he had been poisoned.

"Let's go!" A man in black knew they were no match for him and decided to go back and find help.

"Want to leave?" You all destroyed the Transmission array here, and you want to leave just like that? Fan Shixin said, while talking, no one knew what he had done, but the surrounding space had suddenly become extremely sturdy.

"One Transmission array's one billion Jade money, in total seventeen of them were destroyed by you, so you have to pay one billion seven hundred! Otherwise, you're not allowed to scam!" Fan Shixin said coldly.

"You guys have already made your move, don't expect us to compensate you!" He wanted to charge over, but they were not his opponent. Previously, they thought that Fan Shixin and the rest would be afraid of them because they were from the Heaven Wasteland Aristocratic Family, but now, before they could even say anything, they were beaten up.

"Did the Heaven Wasteland Aristocratic Family send you guys to deal with the Natural Law Guardians?" Fan Shixin suddenly laughed, "With your current abilities, you will definitely die without a single hair remaining!"

"They must have been unable to survive in the Heaven Wasteland Aristocratic Family, or perhaps they were neglected in the Heaven Wasteland Aristocratic Family, which was why the Heaven Wasteland Aristocratic Family sent them here to die." The goatee middle-aged man laughed, "No matter how you look at it, these guys don't look like they'll live long. They still dare to be so arrogant!"

"You all ... Who do you think you are, three native bank s? If they were to fight, our Heaven Wasteland Aristocratic Family will not be afraid of you. " a man said angrily.

"Yo, I'm so scared!" Let your elders beat me up!" Fan Shixin laughed.

Just as Fan Shixin finished speaking, those young men and women, all flew out and received a slap on their faces.

This time, Chen Xiang still could not see who hit him!

"It's that bald fatty!" Xia Bailing said: "The Villa Masters of these three native bank s are all very strong!"

Chen Xiang looked at the bald fatty. He had heard from Jiang Xian that this bald fatty was the Three Villa Master of the Lifeless native bank, and the goatee should be the Three Lives native bank.

Although they came from three native bank s, they were unexpectedly united. This also surprised Chen Xiang.

In the end, under Fan Shixin's intimidation, these dozen or so youngsters finally took out seventeen billion Jade money s. Otherwise, they wouldn't have been able to leave the city.

"Three manor lords, is there really no problem in doing so?" Chen Xiang was a little worried.

"No problem. We are the elders of this group, and our strength is much higher than theirs. How can we allow them to insult us like this? We must teach them a lesson!" Not to mention these youngsters, even if those old fellows were arrogant here, we would still beat them up. " The bald fatty laughed.

This was strength! With strength, as long as he met such an arrogant fellow, he would be able to do whatever he wanted.

"Alright, I will go and see what those fellows from Undead Divine Race are doing. The two of you stay here and guard against those youngsters." After Fan Shixin finished speaking, he said to Chen Xiang: "I'll help you settle the matter that you've requested of me as soon as possible."

"Alright, thank you very much!" Chen Xiang told Fan Shixin to help him purchase the Tianpo fruit. As long as he could get it, Chen Xiang believed that he would be able to reach the peak of the Dao Po realm very soon.

[Chapter 2527](#)

Chen Xiang used the Transmission array here to teleport to the Heavenly Dragon City.

There were already three native bank s in the Heavenly Dragon City, which made Chen Xiang feel a lot more at ease. Currently, the formations of the Heavenly Dragon City and the Hundreds of Flowers Village were being changed as they could defend against those Black Hairs Human s.

"Heavenly Dragon City's defense is pretty good!" Xia Bailing said: "I need to return to my White Spirit City to prepare after a while. Those Black Hairs Human are truly too terrifying, who knows when they will be able to break through the barrier and escape."

"Mn, I can talk to Long Jiuxiao about it when the time comes. He is extremely familiar with these array formations." At this time, he was walking toward Long Jiuxiao's Nine Heavens Dragon Manor.

Under Long Jiuxiao's management, the few God Tribes and humans got along very harmoniously.

"Little Scoundrel!" Suddenly, Chen Xiang heard a sweet shout that sounded like a child's cry.

"Yue Er!"

A white kitten flew over, chuckling as it landed on top of Chen Xiang's head.

"I missed you so much!" Chen Xiang hurriedly grabbed Yue'er and rubbed her. He hadn't seen Yue'er this little kitten for a long time.

"Hmph, you have so many women by your side, how could I be in your heart?" Yue'er pouted coquettishly and mewled a few times.

"Didn't you already turn into a little girl?" Chen Xiang laughed as he placed her on his palm.

"I still think that this image is better!" Yue'er stuck out her tongue: "Are you going to look for Long Jiuxiao? "This guy is not in the Dragon Manor. He took his men to the city gates to fight."

"Fight?" Chen Xiang frowned: "Who is he fighting? Don't tell me that you are going against those enemies of his? "

Back then, Long Jiuxiao was in the hands of a group of dragons. However, he was poisoned at that time, so Long Jiuxiao's enemy was quite strong.

"No, it seems to be more than ten red-faced monsters!" Yue'er replied, "We'll know after we go and take a look. I just heard about it and decided to head there."

Chen Xiang brought Yue'er and walked toward the city gate.

"Yue Er, are you usually at Dragon Manor?" Chen Xiang asked.

"No, I run around. Sometimes I go to the cat forest, sometimes I go to the Star Moon Mountain" However, I often come to Hundreds of Flowers Village to tease those small dragons out of boredom. " Yue'er smiled and said, "I, too, come often!"

In the Heavenly Dragon City, the cat forest was where the Cat Race lived. In the Star Moon Mountain, the Star Moon Divine Race was the dragon village, and the Undead Divine Race was in the undying shrine.

"You must have bullied those little dragons a lot." Chen Xiang said with a smile on his face. When he approached the city gate, he sensed a burst of aura and his expression changed as he rushed to the city wall. brought Jiu Canghai and the rest and was just about to confront the dozens of youths.

Earlier, when Yue'er said that it was some sort of red-faced monster, Chen Xiang really thought that it was some kind of demon beast. He didn't think that it was actually a human, it was just that half of the faces of the dozen or so people were flushed red, because they were the dozen or so youths who were slapped by the bald headed plate back in Three Money Divine City.

"Why are they here?" Chen Xiang's expression became serious.

"What is it? You're the one who brought him here? " Yue'er asked, "Who are they? They seem to be very powerful!"

"They are from the Heaven Wasteland Aristocratic Family ... " Chen Xiang immediately told Yue'er about the matter of the Heaven Wasteland Aristocratic Family, and also told her about the dozen or so youths getting beaten up.

"Ah... It seems like these guys are here to vent their anger after getting hit! " Yue Er said.

"They are all cultivators of the Dao Sect, there is no need to worry!" Xia Bailing suddenly came out from the You Yao Mountain Villa, pinched Yue'er a little, and then hugged Yue'er to his chest while laughing.

Chen Xiang also heaved a sigh of relief, he was previously worried that Long Jiuxiao might not be able to handle it!

"Not good, the direction they are heading towards is the Hundreds of Flowers Village!" Just as Xia Bailing finished speaking, she grabbed onto Yue'er and teleported over with Chen Xiang.

Hundreds of Flowers Village is not far from Heavenly Dragon City!

The group of youngsters were running very fast, so when Xia Bailing brought Chen Xiang there, the group of youngsters had already activated the invisible enchantment around Hundreds of Flowers Village.

"There is a barrier here, is the Hundreds of Flowers Village inside? Those fellows from the Undead Divine Race seemed to have said that there was a Hundreds of Flowers Village here, and all of them were exceptionally beautiful." A blue-robed man laughed obscenely.

"Let's go in!" The purple-clothed man took out some powder and smeared it on his face. His rotten face quickly recovered and he grinned sinisterly.

"Hey, are you really going in?" A woman asked. Four of these people were women.

"Of course, there are beauties inside. I want to bring them back to the maidservants!" The purple robed man began to laugh evilly.

"We need a few maids as well. When the time comes, we must viciously beat up this bitch. Otherwise, it will be hard to swallow her anger today." A woman said fiercely.

[Chapter 2528](#)

Hearing that, Chen Xiang was immediately enraged: "We must kill them!"

Xia Bailing had already teleported, his expression cold, and landed in front of the group of people.

The sudden appearance of Xia Bailing made the eyes of the group of young men shine, it was rare to see a lady with an aura that was as beautiful as a fairy like Xia Bailing, especially when her face was frosty cold, making people feel that she had a cold and beautiful temperament, giving people a strong desire to conquer her.

As for the four women, they were extremely jealous, especially when they saw the way the men were looking at Xia Bailing!

"Could it be that you heard our words and ran out on your own, wanting to be our maid?" The violet-clothed man laughed sinisterly and walked over.

Xia Bailing immediately used her extremely strong spatial energy and locked these ten people in place. After hearing what they said just now, she felt that there was no need for these people to live anymore. She also did not expect those disciples of the Heaven Wasteland Aristocratic Family to be so arrogant.

The group of youngsters felt their hearts turn cold as they felt themselves frozen and unable to move. They knew that they had kicked an iron plate!

All of a sudden, they wanted to cry. All of the fellows they had encountered were Dao Sovereign level experts. They were all people who could easily deal with them!

"Humph!" Chen Xiang suddenly teleported over, the Heavenly magic sword directly slashed towards the purple-clothed man's head, chopping it off.

"Ah... What are you doing! " Although his head fell to the ground, it didn't die.

"Don't worry, I won't kill you!" As Chen Xiang spoke, he ruthlessly stomped his foot on that face, and then, threw his head into the Chuangshi god furnace and sealed it.

"You guys, it's fine as long as you stay in your own family. Why do you have to act so arrogantly?" Do you really think you are invincible!?" Chen Xiang walked over to a woman, who was just saying that she was going to grab the girl inside Hundreds of Flowers Village and beat her up.

"Are you still a man? You want to make a move on a woman?" The lady initially wanted to use the name of the Heaven Wasteland Aristocratic Family to scare Chen Xiang, but she did not expect Chen Xiang to already know, since he dared to attack them, it was obvious that he was not afraid of them.

At this time, they could not believe that their Heaven Wasteland Aristocratic Family's name was actually so useless, like a street rat.

"You're not even human!" Chen Xiang nimbly swung his sword over, chopping off the girl's head, then throwing her into the Chuangshi god furnace.

They were all cultivators of Dao Sect, as long as their heads were in Divine Sense Sea, they would not die, and the bodies that they painstakingly cultivated through were turned into ashes by Chen Xiang.

Although Chen Xiang was furious just now, he did not lose his reason. He knew the consequences of killing these fellows, but if he let them continue to act arrogantly, sooner or later something big would happen, so he might as well make them disappear. This way, these people wouldn't be able to go back, nor would he know that Long Jiuxiao had attacked them.

"I never thought that Long Jiuxiao would actually have a grudge with the Heaven Wasteland Aristocratic Family!" Yue Er said.

"Un, I find it strange too. Let's go and ask him!" said. He had also heard from Long Jiuxiao's words that it was from the Heaven Wasteland Aristocratic Family.

Xia Bailing and Yue'er both entered the You Yao Mountain Villa, and Chen Xiang also entered the Ninth Heaven Dragon Villa.

"Senior Long, those Eternity ..." As Chen Xiang spoke till here, Long Jiuxiao interrupted him and then led him into a room.

"I think you were at the city wall just now. Where did you go after that?" Long Jiuxiao asked, Chen Xiang was watching by the side just now, of course he knew, but when he turned back, Chen Xiang was nowhere to be seen.

"I went to chase after those guys, they went to the Hundreds of Flowers Village afterwards!" Chen Xiang said.

"That direction is indeed correct, but there is a Spirit Formation over there. They will definitely not be able to enter!" Long Jiuxiao said: "Although this group of fellows is strong, it's still not enough to destroy the Hundreds of Flowers Village's barrier!"

"No, they can even get into the Three Money Divine City, so it shouldn't be difficult for the Hundreds of Flowers Village!" Chen Xiang said.

"Looks like I was careless. What happened next?" Long Jiuxiao sighed.

"I'll cut them down!" Chen Xiang said: "This group of people actually have designs on the Hundreds of Flowers Village!"

"Killed them all?" Long Jiuxiao knew that Xia Bailing was right beside Chen Xiang, so dealing with those dozen over kids was definitely not a problem.

"No, chop off their heads and throw them into the Chuangshi god furnace. Even though they didn't die, they would definitely feel worse than dead." Chen Xiang laughed sinisterly.

"Well done!" Long Jiuxiao patted Chen Xiang's shoulder and laughed.

"Senior Long, you and Heaven Wasteland Aristocratic Family seem to have a grudge, don't you?" Chen Xiang asked.

"Mn, I've been to a lot of places. Although the Ancient Eight Desolations disappeared mysteriously afterwards, I can still go to the Transmission array of the Three Great native banks. Back then, when I was working as a money maker in the Eternal Life Native Bank, I went to the Sacred Wasteland. Those Heaven Wasteland Aristocratic Families are the ones who caught me, they sold me around as if I was a slave. Those were the days when I couldn't bear it any longer." Thinking about this, the muscles on Long Jiuxiao's face twitched.

"There is such a thing!" Chen Xiang also didn't think that Long Jiuxiao actually had such an unbearable experience.

"Later on, I ran out myself. I went to the Eternal Life Native Bank, and with the help of the Second Villa Master, they were finally willing to release the Master-servant Contract! The Second Manor Lord had also warned me that I absolutely cannot seek them out for revenge before I possess absolute power!"

Long Jiuxiao clenched his fist tightly. "Of course I know that they are very strong, that's why I have been enduring it this whole time! Of course, if I were to seek them in the future for revenge, I would definitely not let Heavenly Dragon City follow me.

Chen Xiang did not expect the Heaven Wasteland Aristocratic Family to be so vile, this made him even more worried!

"These fellows have already hooked up with the Undead Divine Race. The Heavenly Dragon City and the existence of the Hundreds of Flowers Village was told to them by the Undead Divine Race." Chen Xiang said.

"Hmph, colluding with you. Just you wait, I'll take care of them sooner or later." Long Jiuxiao coldly snorted.

"This is truly a troublesome situation. It seems like we have to hurry up and increase our strength!" Chen Xiang sighed, "Senior Long, has Shuang Ru ever told you about the profound way?"

"Yes, as I said, training in the profound Tao Power can make it easier for me to deal with Black Hairs Human." Long Jiuxiao nodded his head, "We have already started to cultivate, it's all thanks to you! I have a feeling that the group of Black Hairs Human will engulf the entire New Eight Wastelands soon! "

"Why do I have such a premonition?" Chen Xiang asked anxiously.

"Because Heaven Wasteland Aristocratic Family ... Whether it is the Ancient Desolation or the New Eight Wastelands, they have not been in chaos for a long time, and the existence of the Heaven Wasteland Aristocratic Family is precisely to create chaos! " Long Jiuxiao sighed: "Back then, when I was captured by them as their slave pet, I understood us quite well, this is a group of people who only want to stir up trouble!"

[Chapter 2529](#)

It was impossible for the Undead Divine Race and the Evil Spirit Race to not know, but because the three great native banks were inside, they did not dare to act rashly. They still had some reservations towards the strength of the three great native banks.

In order to deal with the three great native banks, Undead Divine Race and the Evil Spirit Race had gone somewhere to contact the disciples of the Desolate Land and brought them here to cause trouble. It was obvious that this was to allow the Heaven Wasteland Aristocratic Family to deal with the three great native banks.

"Right now, we only need to pay attention to Undead Divine Race and Evil Spirit Race. Heaven Wasteland Aristocratic Family's opponent is the Three Great native banks." Long Jiuxiao replied: "You don't have to worry too much, for now, we are still very safe."

Chen Xiang nodded. He and Long Jiuxiao talked about a few more things, something relating to the situation in the profound Wasteland, such as the things underneath the earth's core.

After the discussion, he and Xia Bailing headed towards the White Spirit City.

Right now, Xia Bailing also needed to make sure that this place was protected, so she went to find Xu Kong and Qing Yang, and instructed them on a few things.

As for pills, Xia Bailing did not need to worry. When she was inside the Hundreds of Flowers Village before, she had already discussed this with Feng Yujie and the others.

And right now, the Azure Void Yang and Long Jiuxiao had a lot of interactions, and had already secretly formed an alliance. This kind of alliance wasn't too bad, when one party has difficulties supporting the other, the Azure Void Yang's strength was rather strong.

Chen Xiang stayed in the Spirit Wasteland for a few days, and then headed towards the Three Money Divine City from there. He wanted to ask Fan Shixin if he had any news about the Tianpo fruit, which he desperately needed right now.

Fan Shixin was not here, but Chen Xiang heard from the shopkeeper that he would be back in three days.

Chen Xiang patiently waited for three days, and sure enough, Fan Shixin was back.

"It was so easy to get it. This is something that an old Alchemist has been collecting for a long time!" Fan Shixin handed over a jade box to Chen Xiang: "Because it has been in my collection for a long time, that guy almost forgot, so I don't usually take care of him, so this Tianpo fruit is not so good."

Chen Xiang opened the jade box and saw that the Tianpo fruit was already dried up, but he could still sense a trace of vitality. As long as it was not completely dried up and died, it was not a problem for Chen Xiang.

"I'm fine!" Chen Xiang said, about to take out the Jade money and give it to Fan Shixin, but Fan Shixin did not do so.

"This Tianpo fruit was also gifted to me by the old Alchemist. You have to tell us what happened inside the profound Wasteland, and we are very grateful to you. Fan Shixin smiled, he was the owner of the native bank, and he did not lack Jade money.

"Thank you very much!" Chen Xiang was extremely happy at the moment. As long as he could grow this Tianpo fruit in large quantities, he would be able to reach the Tenth Layer of Dao Po realm very quickly.

He brought the Tianpo fruit to the White Spirit City.

"Are you refining a Shipo Dan now?" Xia Bailing asked: I still have some things to do here!

"Not yet. We still need to wait a while before it can grow. What business do you have here? Do you need my help?" Chen Xiang asked.

"No need, right now I also need to choose some outstanding people to teach them the way to cultivate the heart of the profound way. In the future, if I meet any Black Hairs Human s, it would be easy to deal with them." Xia Bailing said.

Hearing Xia Bailing's words, Chen Xiang immediately took out a lot of medicinal ingredients to refine the way of the profound.

"You can use it to refine your way of cultivation! The environment here is different from profound Wasteland, there is no profound Tao Power to absorb, we need a large amount of help in the way of the profound. " Chen Xiang said.

"Alright, I'll ask Azure Sun Void to help me with the selection. I'll go and concoct pills first!" Xia Bailing said.

"En, I will go to profound Wasteland to take a walk and see if I can find better herbs there." Chen Xiang said, he felt that there were definitely many other good herbs in profound Wasteland.

"Then you must be careful. Without me by your side, encountering Black Hairs Human will be very dangerous." Xia Bailing said.

"Don't worry about that!" Chen Xiang laughed.

... ..

Chen Xiang left the White Spirit City and headed towards the profound Wasteland. Now that he had cultivated the heart of the profound way and had Heavenly magic sword by his side, he felt that even if he met Black Hairs Human, if he couldn't beat them, he could at least hold on for a while and escape.

Moreover, he still had Six Realms mirrors s, but he had to wait until night before he used the White Tiger to jump in.

Night time, Chen Xiang entered the profound Wasteland and immediately teleported to the city, very quickly entering it.

"Where's Brother Tie?" Chen Xiang asked the shopkeeper here. In the past, Tie Xiong was always in this little villa.

"He went out with Iron Fighting Team because Iron Fighting Team made some important discoveries!" The shopkeeper said softly, "I heard that there's some good stuff. Not only did the Iron Fighting Team come back to look for the Boss Tie, the other teams also came back one after another and sent their experts to follow them. I wonder what kind of good stuff it is."

"Do you know where it is?" Chen Xiang was very curious about this.

"How could I know? This is a very secret thing!" The shopkeeper shook his head.

Chen Xiang also wanted to see what exactly that thing could actually cause Tie Xiong to personally make a move. This was because Tie Xiong had once said that he was very afraid of death and normally would not run out on his own.

"When did Brother Tie set off?" Chen Xiang asked again.

"Yesterday!" With that, Chen Xiang disappeared.

When Chen Xiang arrived at the City Lord's Mansion, he was very busy right now and was refining the array disc. When Chen Xiang entered the City Lord's Mansion, he also felt that the dao aura there had become denser than before.

In order to make the dao energy even denser in the entire city, Tie Yuntian was currently putting in great effort to refine array discs. Those array discs were all Transmission array s, which were able to transmit dense dao energy from the center of the earth.

Although he was busy, when he found out that Chen Xiang was here, Tie Yuntian immediately ran out of the secret room to meet him.

"City Lord Tie, do you know where Tie Xiong and the others went?" Chen Xiang asked: "After Iron Fighting Team came back, he told him that there were good things, and then he followed Iron Fighting Team and set off."

I know, not only the Iron Fighting Team, but the other teams have also found some treasures at the island cluster in the middle of the Sky Span Lake. I don't know what exactly it is, but it's said that there are good things hidden inside. Tie Yuntian frowned: "You should not go, that place is more dangerous!"

"Crossing Heaven Lake? There are also islands in the middle of this lake, so wouldn't this lake be very big?" Chen Xiang asked anxiously.

"Of course, otherwise it would not be called the Sky Crossing Lake. It would be more or less fine to call it an inner sea." Tie Yuntian said.

"There might be Black Hairs Human down there, do they not want to live?" Chen Xiang was very worried about this. If he were to wake up the Black Hairs Human at the bottom of this super lake, the consequences would be unimaginable.

"They said that they have investigated and that there are no Black Hairs Human s at the bottom of the lake. Moreover, they said that nothing will happen if we are careful." Tie Yuntian laughed, "Speaking of which, extracting Daoqi from the core of the earth is really too good. The Daoqi in this city will quickly become denser, and all of this is thanks to you."

"This is a small matter! Iron City Lord, where is Crossing Heaven Lake? I want to take a look! " Chen Xiang asked.

[Chapter 2530](#)

After getting a seat from Tie Yuntian, Chen Xiang immediately headed over. It was also dark now, so it would be safer on the road. Black Hairs Human only appeared during the day, it was hard to say whether or not he would appear during the night in the future.

For safety's sake, Chen Xiang rode on the Six Realms mirrors and flew on the profound Wasteland's land towards the Sky Lake.

After a night of travel, he finally saw the Heaven's Crossing Lake. It looked endless, and was indeed a very large lake.

Chen Xiang flew in the air and looked downwards while using the Dao heart Eye.

There were actually many densely packed golden specks of light below!

These golden specks of light were extremely secret scrolls, so it looked like a field of golden fluorescent light. It was very obvious that this was the Black Hairs Human's Jin Xin!

And Tie Yuntian had told Chen Xiang before that someone had already investigated this place and confirmed that there were no Black Hairs Human s below!

But now, Chen Xiang could see so much!

Chen Xiang rode on his Six Realms mirrors and flew straight there. He looked down below with his Dao heart Eye and saw dots of golden light, which meant that the entire bottom of the lake was Black Hairs Human.

"I hope these fellows do not wake up during this period of time. Otherwise, it will be troublesome!" Chen Xiang was very worried, there were countless Black Hairs Human below, and now that it was daytime, he was very worried that these Black Hairs Human would suddenly appear.

However, along the way, he did not encounter any Black Hairs Human, which made him feel a lot more at ease.

An hour later, he saw the island. It was a group of islands of various sizes. It was extremely vast, and a few of the islands were very large. It looked like a land with mountain forests and beasts.

Chen Xiang landed on one of the islands, took out his Communication jade Symbol paper, and sent a message to Tie Xiong.

"Brother Iron, where are you?" Not long after Chen Xiang sent the message, the other party responded.

"Are you nearby? You went to the Sky Island by yourself? " Tie Xiong's voice was extremely surprised.

"Yes, you are on that island?" Chen Xiang asked anxiously.

"Seven Horn Island!" Tie Xiong said. The biggest.

"Alright, I'll go over now. I'll contact you when I get there."

Chen Xiang immediately rode on his Six Realms mirrors and rushed over, landing on the top of the Seven Horn Island. This island was the largest, and it also had a very dense amount of Dao Qi.

"This is ..." Chen Xiang saw many footprints that were almost the same size on the beach.

Only under one circumstance would there be so many identical footprints, and that was the Black Hairs Human!

Black Hairs Human's body was about the same size, and when Chen Xiang looked at the beach that was close to the shore, he realized that all these footprints were on the same place!

Seeing this, although it was noon, Chen Xiang shivered. The Black Hairs Human below had come ashore!

"Brother Tie, you guys have to be careful. A large number of Black Hairs Human have already entered the island." Chen Xiang took out his Communication jade Symbol paper and sent a message to Tie Xiong.

"Is this for real?" Tie Xiong asked in shock.

"It's true. You all must be careful, and quickly escape. There are a lot of Black Hairs Human!" Chen Xiang said: "Their footprints are all over the beach!"

"Damn it... They are here, Brother Shen. You should run first! " Tie Xiong screamed in shock.

After that, Chen Xiang did not receive any more responses from Tie Xiong.

"Seems like Tie Xiong is in trouble!" Chen Xiang clenched his teeth, then controlled his Six Realms mirrors and flew into the mountain forest inside the island.

The forest was filled with giant trees. When Chen Xiang entered, he saw that many of the trees had been snapped by the powerful force, and some had even exploded into pieces. The ground was filled with all kinds of leaves, which was clearly done by the Black Hairs Human.

"I wonder what's going on with these Black Hairs Human s. If there is a leader among them, it will be even more troublesome." The only thing he wanted to do now was to quickly find Tie Xiong and bring them away.

After getting rid of Black Hairs Human, Chen Xiang immediately teleported back to where Tie Xiong and the others were. They were surrounded by a group of Black Hairs Human.

Chen Xiang enlarged the Six Realms mirrors and then enveloped them, allowing them to enter the center.

"Brother Shen, what are you doing here? This is too dangerous! " Tie Xiong had also seen Chen Xiang make his move just now, he never thought that Chen Xiang would actually be able to easily kill a Black Hairs Human.

"Nonsense, I was just here to save you!" Chen Xiang said, he then activated his Six Realms mirrors and teleported away, disappearing from the forest.

However, just as he teleported to a certain location, he saw thousands of Black Hairs Human chasing him from behind!
