

## Dan God 2531

### [Chapter 2531](#)

There were those in the Black Hairs Human who knew how to use spatial energy, so for them to be able to bring a large group of Black Hairs Human s to chase after him was something that Chen Xiang had long ago experienced.

Therefore, he had long since been mentally prepared!

"Thankfully not many of them know how to use their spatial energy. Otherwise, it would be troublesome!" Chen Xiang heaved a sigh of relief, then suddenly calmly controlled the Six Realms mirrors to continuously teleport.

Being chased down to the point that they couldn't teleport either, Tie Xiong and the others didn't say a thing. That group of Black Hairs Human definitely couldn't handle it.

"I have to think of a way, I can't run like this!" Chen Xiang said as he flew above the lake.

"We are really unlucky. Just as you sent the message, this group of Black Hairs Human suddenly appeared!" Tie Xiong said.

"What about the other teams?" Chen Xiang asked.

"They are also on this island. I wonder if they have met the Black Hairs Human, could it be that they were the first to meet us?" Tie Xiong said: "I'll inform them now, tell them to be careful."

Although there was constant competition between the two teams, they were very united, especially when it came to big matters like these.

Chen Xiang was also very gloomy. There were thousands of strong Black Hairs Human behind him, he was sure that he could not kill them all, he did not know what to do, he could only keep running, and do it at night.

"What's good on that island?" Chen Xiang asked. Although there were still Black Hairs Human chasing after him, he was not so nervous right now, because those few Black Hairs Human who knew how to use the power of space would definitely be very tired. After all, they had to bring a few thousand Black Hairs Human behind them.

While when Chen Xiang stepped into the Dao Po realm, he used the power of his Natural Law Principles to sustain him for a very long time, even though he had Tie Xiong and the others with him.

"There are medicinal herbs inside!" Tie Xiong said, and then, he took out a jade box. "Take a look at what kind of medicinal herb is inside. "I don't know him!"

Chen Xiang took the fruit and looked inside, it was a pure black fruit, and said: "I don't recognize it either, but there is a very rich profound Tao Power inside ... .. There are a lot of profound Tao Power s, and there's even a crystal core in the innermost area! "

"Crystal core? Could it be the legendary Diprofound fruit? " Tie Xiong shouted in surprise.

"Diprofound fruit?" Chen Xiang had never heard of this fruit before, but from the name, he knew that this fruit was very powerful.

"Mm. I heard that this is an Emperor level fruit. It's great that it can be used to refine Emperor level Emperor level pills!" Tie Xiong passed it to Chen Xiang: "This is for you, you can definitely concoct an extremely good pill!"

"Definitely!" Chen Xiang was also quite surprised that he could actually find an Emperor Rank medicinal ingredient, and it was a profound Tao Power on the inside.

What he was very concerned about was the inner core. He felt that it was very likely to be the Tao Ge condensed from the profound Tao Power, something that was equivalent to Divine Deity.

"Is this why they surrounded you?" Chen Xiang suddenly thought of something: "These guys might really need this kind of heaven and earth treasure right now!"

"Why do they need it?" Tie Xiong thought for a while: "No wonder they didn't have enough energy to work their way over. They were worried that if they killed me, they wouldn't be able to get the Diprofound fruit, so that's why! I didn't expect these guys to be so smart. "

"He must have received an order!" Chen Xiang's expression became heavy: "There must be something behind this group of Black Hairs Human s that is ordering them to do this, I'm guessing that if there is something like this, that guy will become even stronger, and maybe be able to command the entire profound Wasteland."

"Motherf \* cker, we have to kill this guy no matter what! This is a huge threat!" No wonder I felt that the Black Hairs Human I met today was different from the others. Tie Xiong scolded.

"Wait till night!" Chen Xiang said.

Tie Xiong nodded. At the moment, they were still escaping, and Chen Xiang was not far from the island as he wandered about on the surface of the lake.

"They have already sent word, they did not encounter the Black Hairs Human!" Tie Xiong took out a Communication jade Symbol paper and read its contents, "Looks like those fellows were after me!"

"Who let you obtain the Diprofound fruit?" Chen Xiang laughed, then looked towards the Black Hairs Human behind him. He used the Dao heart Eye to look, and discovered that Jin Xin, who used four of them, was relatively large. He felt that it was very likely that those four Black Hairs Human s knew how to use spatial power.

"The reason why they were able to keep catching up is because of the few Transmission Master s ... Of course, brother Shen is also a Transmission Master. " Tie Xiong laughed: "If only I could get rid of their Transmission Master!"

"Kill them?" Chen Xiang's eyes lit up, and he took out the Heavenly magic sword.

He held the sword hilt tightly and frowned. The Heavenly magic sword suddenly lit up and turned into a red domineering bow.

Heavenly magic sword was originally refined from five Divine Weapons, and there was one among them, so he planned to use the Suzaku bow to kill the Transmission Master s inside!

"Everyone, let me borrow your profound Tao Power!" Chen Xiang said: "My own is too weak!"

Only the profound Tao Power could easily destroy the Black Hairs Human's defensive capabilities, and only then, the Black Hairs Human would die even more thoroughly!

"Put your hand on my back." Chen Xiang said.

Iron Fighting Team and Tie Xiong immediately followed his instructions. They imbued the profound Tao Power into Chen Xiang's body, and then, Chen Xiang controlled the profound Tao Power to condense an arrow.

He stood straight, while controlling the Six Realms mirrors's teleportation, he pulled on the bowstring, and used the Dao heart Eye to aim at one of the larger, golden hearts.

When the Six Realms mirrors teleported to a certain location, the Black Hairs Human followed closely behind. Remember, if Chen Xiang did not teleport away immediately, they would immediately attack from not too far away from the Six Realms mirrors.

In the instant after his teleportation, Chen Xiang shot out an arrow and controlled the Six Realms mirrors to teleport away!

"How is it?" Tie Xiong looked at the red bow in Chen Xiang's hand. He could naturally tell that this was not an ordinary item, otherwise, he would not have been able to transform from a sword into a bow.

Furthermore, the Six Realms mirrors he was sitting on right now, he also felt that this was an extremely amazing thing!

Chen Xiang smiled slightly: "It's working, their numbers have decreased, the moment these Black Hairs Human hearts are struck by the powerful profound Tao Power, a huge explosion will occur, and a few of them should have died just now!"

Tie Xiong and Iron Fighting Team also saw that the Black Hairs Human behind them had recovered more than a thousand times. Furthermore, some of them had injuries on their bodies, which should have been caused by the explosion.

Right now, there was still a long time until night time, Chen Xiang could not wait any longer, and the effects of the arrow just now was not bad, so he planned to use the power of Iron Fighting Team and Tie Xiong to kill all the Black Hairs Human who were chasing him from behind.

"We still need three more arrows to finish them off, is everyone's profound Tao Power enough?" Chen Xiang asked.

"Of course!" Tie Xiong was very sure of that, and then he laughed out loud. "Let's work together to kill off this group of fellows!"

[Chapter 2532](#)

Chen Xiang had already previously cultivated the heart of the profound way, and he had also trained quite a few profound Tao Powers. However, forget about dealing with the stronger Black Hairs Human, even dealing with the weaker Black Hairs Human would be difficult, so he had to rely on Tie Xiong and Iron Fighting Team's profound Tao Power.

Tie Xiong and the others had grown up in the profound Wasteland and had cultivated the profound Tao Power for many years. After accumulating all of it, it was already very rich.

"Swish!"

Chen Xiang shot out another arrow, instantly piercing through dozens of Black Hairs Human, accurately hitting one of them who knew how to use spatial energy!

If the Black Hairs Human's Jin Xin were to be attacked by an external profound Tao Power, it would violently explode! The larger Jin Xin was, the more powerful the explosion would be. Black Hairs Human who knew how to use their spatial energy were all extremely strong.

As a result, after being hit by the heart, it would immediately explode and spread to the surrounding Black Hairs Human!

"It's a pity!" When Tie Xiong saw that there were less than a thousand Black Hairs Human left, he could not help but sigh, because Jin Xin was extremely valuable, especially those stronger Black Hairs Human, their Jin Xin was the most precious.

"Yeah, but there's nothing we can do." Chen Xiang also knew what this was a pity. Actually, he also wanted to get more Jin Xin from the Black Hairs Human to try and see if he could refine it into a pill.

As long as one of the Black Hairs Human completely exploded, the surrounding Black Hairs Human would also be affected, and their Jin Xin would also explode, causing a chain reaction. Thus, when Chen Xiang struck one of the Black Hairs Human, the resulting explosion would also kill him.

"Brother Shen, your bow is really powerful, the arrows that were formed could actually penetrate Black Hairs Human of that level! I have fought with Black Hairs Human of this level before, their defenses are very strong, it is very difficult to break through their defenses, even with a very strong profound Tao Power." Tie Xiong said.

"It's all thanks to everyone's profound Tao Power. This bow of mine is more powerful because it can quickly fuse many different types of energy together, then strengthen a bit. When it is shot out, it will also have a very high cohesive force, which is why it has such an effect." Chen Xiang laughed, then pulled the bowstring again, and took out the third arrow.

There were only two Black Hairs Human that knew how to use their spatial power. As long as they could kill these two, they wouldn't need to be chased so closely.

"Brother Shen, if you join our team, our team would definitely be stronger than the seventh squad." The captain of the Iron Fighting Team laughed.

At this time, Chen Xiang had already released an arrow, and aimed it accurately once again. He had a lot of experience using bows and arrows, furthermore, this bow was one with him.

"Don't think about it, Brother Shen is a very powerful Alchemist, fighting and killing all day is not good." After Tie Xiong finished speaking, he could not help but sigh with emotion: "Although he is concocting pills, but looking at his appearance, he does not seem to be afraid of fighting and killing at all. Instead, he has a lot of experience."

With the last arrow, Chen Xiang killed the remaining Transmission Master, and most of the other Black Hairs Human s also died.

"We've finally gotten rid of him!" We must have killed thousands of Black Hairs Human already, if this were to spread, others might not believe us. " Tie Xiong was a little excited at this moment. "The other teams don't have such achievements, we were able to kill off that many Black Hairs Human s in such a short period of time, we are really powerful!"

"If we can get Jin Xin, others will believe in us!" Captain Tie Zhan said.

"That's not important. As long as we can survive!" Chen Xiang laughed: "We'll go in when it gets dark and see if we can find anything inside!"

They were already out of danger, and there were really many treasures on the island. Otherwise, Tie Xiong and the rest wouldn't have been able to obtain the Diprofound fruit.

Although the surroundings of the island was dangerous, for treasures, Chen Xiang felt that it was worth it to take the risk, not to mention that he was with the Iron Fighting Team right now.

Just now, Chen Xiang had borrowed quite a bit from them with the help of their profound Tao Power, which had caused them to consume a large amount of profound Tao Power s as well.

"Brother Shen, how many of these things do you have?" Tie Xiong was very surprised to see Chen Xiang taking out more than ten profound Dao king Dan s in one go.

"Just eat, don't ask!" Chen Xiang chuckled, Chu Hongqing's pill refining speed had also increased, refining the profound Dao king Dan pretty quickly.

Iron Fighting Team and Tie Xiong ate the profound Dao king Dan that Chen Xiang gave them and recovered very quickly.

... ..

Night time, Chen Xiang activated his Six Realms mirrors and went to the island. Everyone rested for a long time, they were all in peak condition now.

Chen Xiang was currently holding the Nine-Soaring Sky Divine Bow tightly. This had been transformed by the Heavenly magic sword, other than being able to transform into a divine bow, it could also transform into something else as well, and this was a function that only came with a complete recovery.

After entering the island, Tie Xiong took out Communication jade Symbol paper and sent a message to the leaders of the other teams, asking them about their current situation and whether they had met Black Hairs Human.

Not long after, Tie Xiong received a reply. His expression became serious as he said seriously: "Be careful, the Black Hairs Human here can come out at night. I heard that several small teams were all killed!"

Several small teams had actually died. At the same time as Chen Xiang was feeling apprehensive, he saw Iron Fighting Team with a face full of grief. These small teams usually had good relations with the small teams, so they were able to help each other out whenever they met with danger.

"There has never been such a loss!" The captain sighed.

"Seriously, I told them to leave this place as soon as possible when I sent the message, but they didn't listen to me!" Tie Xiong sighed helplessly. "Looks like we have to fight at night, and try our best to save the other teams!"

Chen Xiang asked, "How many teams are still inside? How are they? "

"There are only a few teams left. They have all been hunted down by the Black Hairs Human, and the situation is very bad. Brother Shen, whether or not we can save them all will depend on you. " Tie Xiong knew, he and Iron Fighting Team knew that Chen Xiang had some tricks up his sleeve. After they cooperated with Chen Xiang today, they killed several thousands of Black Hairs Human.

"No problem!" Chen Xiang nodded. He had a good impression of those small groups, because those small groups were all very brave and very loyal. Otherwise, he wouldn't have let Tie Xiong take the risk to save them.

"Let's go now!" Chen Xiang entered the depths of the island and used the Dao heart Eye at the same time.

After using the Dao heart Eye, even though the Black Hairs Human was very far away, he could still vaguely capture those Black Hairs Human s. This was because their Jin Xin was extremely bright, like a golden dot of light in the darkness.

### [Chapter 2533](#)

"Do you know where they are?" Chen Xiang asked Tie Xiong: "This island is very big, finding them like this isn't a solution, we have to quickly find them, you should ask their captain where they are, and see who is the closest to us, we will go over first."

Tie Xiong immediately took out the Communication jade Symbol paper and contacted the other party leaders. At this time, Chen Xiang also asked the Iron Fighting Team to lend him the profound Tao Power, allowing him to condense an arrow.

"The 9th squad is nearby!" Tie Xiong said, then pointed in a direction. Chen Xiang immediately urged his Six Realms mirrors and flew over.

After a moment, he saw many golden specks of light. It was Jin Xin from the Black Hairs Human.

"We've seen the Black Hairs Human!" Chen Xiang immediately enlarged the Six Realms mirrors, because he wanted to make the other team members come up.

When he flew over, the Black Hairs Human felt his approach and rushed over as well. With a teleport, he dodged dozens of attacks from Black Hairs Human and then arrived at team nine.

This team originally had ten people, but there were only eight now. Furthermore, their bodies were riddled with wounds, so Chen Xiang immediately used a teleportation spell to move them onto the Six Realms mirrors s.

"Help them heal!" After Chen Xiang finished speaking, the Six Realms mirrors violently shook and suffered from multiple attacks, but its defense was extremely strong and it had only trembled a little.

Chen Xiang did not let the arrow fly, because the group of Black Hairs Human s were very loose at the moment. If he had released one arrow, he would not have lost many Black Hairs Human s, furthermore, he had not found the stronger one among the group.

"Brother Iron, keep in touch with the other teams!" Chen Xiang said before he teleported to avoid the attacks of the group of Black Hairs Human s. Just now, there were only a few hundred Black Hairs Human s, and even if he were to shoot an arrow at them, he wouldn't be able to kill them all. Unless they were all squeezed together, which was why he decided to gather a few more Black Hairs Human before attacking.

Tie Xiong quickly contacted the other party leaders, and immediately teleported over. This was the fifth group, and their overall strength was very strong, and they were currently unceasingly slashing at Black Hairs Human. They were still ten people, but the injuries on their bodies were shocking, and their injuries were even worse than the eight people in the ninth group.

Chen Xiang did not know why they were able to keep killing Black Hairs Human, but he admired them a lot. After he saw the fifth group, he quickly moved them to the Six Realms mirrors s.

And now, the Black Hairs Human that had surrounded and killed the ninth team had caught up as well. They had gathered with the Black Hairs Human here for over a thousand years already!

Chen Xiang immediately split the arrow in his hand into two, and then shot it towards the two Transmission Master s!

After releasing two arrows, he immediately teleported away!

After teleporting far away from the previous location, one could hear explosions resounding in the distance. The shockwaves and sound waves also slowly spread out, razing the mountain forest to the ground as the aftermath turned into a violent gale.

"Brother Shen, you seem to be able to confirm the other party's Transmission Master!" Tie Xiong asked: "Those two arrows must have hit Transmission Master's body, if not they wouldn't have such powerful might."

"Hehe, I know how to use the power of space, so I can feel it!" Chen Xiang laughed: "Quickly ask the other party leaders, we have to save them!"

Because they were surrounded by so many Black Hairs Human s, if no one came to save them, they would only have a dead end.

Very quickly, Chen Xiang saved both Squad One and Squad Three!

"Only team seven is left. Their situation is the worst!" After Tie Xiong got the details from the Communication jade Symbol paper, he hoped that they could hold on!

Above the Six Realms mirrors, only Iron Fighting Team was still fine. The rest were all injured, some of them even fainted, only a few could still fight.

Chen Xiang followed Tie Xiong's guidance and arrived at a barren mountain. Originally, this place was a green mountain, but because of the outbreak of a fierce battle, it became like this, and under the night sky, it was enveloped in a dense amount of Evil Qi, causing the place to be extremely gloomy.

"They only have three left!" Chen Xiang frowned: "There are only three people left in Squad Seven!"

"What?" It's too tragic, the 7th squad is the strongest team! " A man sighed. He was the leader of a small team, and their team was severely injured.

There were more than two thousand Black Hairs Human s in front of him, and there were also many corpses on the ground. Chen Xiang estimated that there were at least a thousand of them, and those were all killed by Squad Seven.

Although these Black Hairs Human were not the strong ones, they were not weak either. Furthermore, their attacking speed was very fast, if it was tens or hundreds of people, these small teams could easily take care of them, but hundreds or thousands of them would be difficult. Furthermore, there were those annoying Transmission Master s among them.

"Come up!" Chen Xiang used teleportation to move the three people of Squad Seven to the Six Realms mirrors.

The other two were middle-aged. When they saw Tie Xiong and the others, they immediately fell onto the ground. They were already extremely tired, and could only prop themselves up by their will.

"Are we the only ones still alive?" The female team leader of the seventh group looked at the injured people on the Six Realms mirrors, her face covered in blood, and revealed a sorrowful expression.

"Yes, that's right, we're the only ones here. More than ten teams have come in, sigh ..." This is probably the worst loss in history! " Tie Xiong lamented. His Iron Fighting Team was considered the best, and he wasn't injured at all. This was all thanks to Chen Xiang.

The female captain looked at Chen Xiang. She could also feel that the Six Realms mirrors was constantly teleporting and that Chen Xiang was holding onto a red bow. She never thought that this Alchemist, who only had Dao Po realm s, would actually be so powerful. Not only did she run over to this island, she herself had saved many people.

"Brother Shen, let's go back!" Tie Xiong said.

"We're in trouble!" Chen Xiang frowned.

"It's the leader of the Black Hairs Human." Even though she was injured, she looked very energetic right now. "Black Hairs Human's leader isn't an idiot, we were set up by them earlier, so you have to be careful."

"What is the cultivation level of the leaders of the Black Hairs Human?" Chen Xiang asked.

"Dao Sovereign!" The female leader's words made Chen Xiang's face change.

He activated more spatial energy than he could handle a Dao Sovereign level Black Hairs Human.

"Don't even think about escaping!" A sinister laugh thundered out, causing Chen Xiang's Six Realms mirrors to shake violently as well, causing everyone who was sitting on it to jump up.

The female captain gritted her teeth and said, "This is trouble. It's a very strong spatial enchantment!"

Anyone could sense that terrifying spatial energy, the leader of the Black Hairs Human was also a Transmission Master.

#### [Chapter 2534](#)

The thing that frightened Chen Xiang the most was not the leader of the Black Hairs Human s, but the roiling waves of the Sky Lake which were raging and surging below him.

"The people below the Sky Lake are all Black Hairs Human. This is big trouble!" Chen Xiang's face became extremely ugly, "If all of the Black Hairs Human below have awakened, then all of the Black Hairs Human here will as well!"

"This... All of these are Black Hairs Human? " The female captain's expression was also unsightly, "When we came earlier, we had already sent people to dive deeper in, but we did not discover Black Hairs Human."

Just as she finished speaking, an extremely terrifying roar came from below. The roar filled the entire sky, as if the heaven and earth were collapsing and Chen Xiang and the others felt as if their ears were about to shatter.

"Kill them, I want to see how they escape, haha ..." The Black Hairs Human leader laughed out loud.

With the weak light, Chen Xiang and the rest could see Black Hairs Human coming out from the lake. The roars were made by them just now.

"Don't look down on others!" Chen Xiang's forehead suddenly lit up with a pattern, it was the White Tiger Dao mark.

He used all of his strength to activate the White Tiger Dao mark's power and unleash an even stronger spatial energy. He jumped about in the spatial space and jumped out of the spatial enchantment released by the Black Hairs Human leader.

After that, Chen Xiang jumped again, in a blink of an eye he was already far away from the Heaven Traversing Lake, he did not immediately return to the city, but instead sprinted towards the edge.

If he went to that city, he would only bring the disaster over. The army of the Black Hairs Human would be in the tens of millions, and that city wouldn't be able to withstand it.

"Brother Chen... Where are you going? " Tie Xiong had also realized the seriousness of the situation, and he did not wish for Chen Xiang to return to the city either.

"Don't worry, I have a place to go!"

Chen Xiang also didn't understand how those Black Hairs Humans had tracked him. He had used the White Tiger Jump to a great distance, and it was a jump in space as well, so he wouldn't leave behind any aura, but he was still tracked by the Black Hairs Human.

Chen Xiang quickly arrived at the border of profound Wasteland. Although he was riding a Six Realms mirrors and had brought a lot of people with him, he had used the power of the White Tiger Marks to cover the entire Six Realms mirrors and was able to jump over there with the Six Realms mirrors.

Just as he had expected, he easily passed through the barrier. After arriving at this place, Chen Xiang heaved a sigh of relief, because the barrier's power was still very strong. He felt that even the Black Hairs Human's leader would not be able to pass through.

Not long after he passed through the barrier, the leader of the Black Hairs Human arrived with several million Black Hairs Humans. However, they all stopped in front of the barrier.

"Who the hell are you? to be able to pass through this barrier at will, that is something that even I am unable to do." The leader of the Black Hairs Human said.

Chen Xiang had already seen the leader of the Black Hairs Human. He was dressed in a set of black robes, his face was dark and he looked relatively tall, but when Chen Xiang used the Dao heart Eye to look at his Jin Xin, he actually didn't look like a heart. Instead, he looked like a crystal, and emitted a strong golden light.

"I will kill you!" After Chen Xiang finished speaking, he urged the Six Realms mirrors to fly away, leaving behind the Black Hairs Human Leader who was roaring angrily.

Chen Xiang brought Tie Xiong and the others to Heavenly Dragon City. On the way, Chen Xiang had simply told Tie Xiong and a few other teams about New Eight Wastelands, so they were extremely shocked at this moment. They did not expect that outside of profound Wasteland, there would actually be such a huge world.

"Devil Wasteland and Evil Wasteland have fallen! profound Wasteland will soon be coming soon, but the profound Wasteland's barrier will be able to hold on for a while longer. It's hard to say for sure for Devil Wasteland and Evil Wasteland, so this New Eight Wastelands will also have to bear an extremely huge threat." Chen Xiang brought them to the Heavenly Dragon City and placed them inside the Dragon Villa of the Ninth Heaven to help them heal their injuries.

Long Jiuxiao was also here at the same time. He felt that it was a good thing for Chen Xiang to bring these small squads here, because he could teach them some of the experiences they had with the Black Hairs Human.

"Our city should be able to hold on for a while longer. There are also three Dao Sovereigns and several small teams within the city." Tie Xiong said: "When everyone recovers, I will enter the profound Wasteland!"

The other team leaders also agreed. Now that they were all injured, even going to the profound Wasteland would be useless.

While these small teams were healing their wounds, Long Jiuxiao would frequently visit them and ask them about many things related to the Black Hairs Human, as well as the secrets behind fighting the Black Hairs Human.

These Heart Hunting Squads had already heard from Chen Xiang that the New Eight Wastelands outside was preparing to deal with the Black Hairs Human, and as the City Lord of this city, Long Jiuxiao was most nervous about him.

Chen Xiang made a trip to the Hundreds of Flowers Village, asked the girls to copy a Diprofound fruit for him to keep, and then headed to the White Spirit City.

White Spirit City was also shrouded in a very tense atmosphere, it would be best to prepare for battle. It was just that this time, they were not fighting with the Beast Race, but with the Black Hairs Human.

When Chen Xiang went into the White Spirit Palace, Xia Bailing who was refining pills received Chen Xiang's message and immediately ran out.

"What is so important? Didn't you go to profound Wasteland? You're back so soon?" Xia Bailing hurriedly ran out after finding out from the messenger that it was an important matter.

She grabbed Chen Xiang and teleported him to her room.

"Many of the Black Hairs Human s have awakened, and there's even a leader of the Black Hairs Human." Chen Xiang sighed, then told Xia Bailing about the matter of crossing the Sky Lake.

"So many Black Hairs Human have awakened, this is not a good thing!" Xia Bailing also felt the seriousness of the situation, "Not bad, Qingyang, Xu Kong and the others have talked to the beastmen, the beastmen have agreed to join hands with us in fighting the Black Hairs Human, and their leader seems to know some things about the Black Hairs Human."

"That's good news!" Chen Xiang nodded, then laughed: "I have good news as well!"

Then, he took out the Diprofound fruit.

"Emperor grade medicinal herbs!" Xia Bailing saw through it at a glance and asked anxiously: "What medicine is this?"

"It's called the Diprofound fruit! I am not too sure about the specifics, but it can help people cultivate and produce a very strong profound Tao Power, and there is a crystal core in the middle of this fruit. " Chen Xiang said, "It should be able to concoct an Emperor Pill."

"Have you started planting?" Xia Bailing took it and looked at it carefully, also appearing very excited.

"Not yet, but the Tianpo fruit's several fruit trees have all ripened. They can be used to refine Shipo Dan now." Chen Xiang said: "Time waits for no one, I need to quickly raise my cultivation, this time we are surrounded by the Black Hairs Human, if not for other people's profound Tao Power, it would not be so easy for me to obtain it."

When Chen Xiang borrowed the profound Tao Power from the Iron Fighting Team, he could clearly feel how great it was to have a strong profound Tao Power, so he really wished to quickly obtain that level of profound Tao Power. At that time, he could easily sweep through the enemies of the Black Hairs Human.

## [Chapter 2535](#)

Chen Xiang now also had the time to refine Shipo Dan. Not only did he need to refine them for himself, there were also people around him, especially the Heavenly Dragon City. Ybdu.

The Heavenly Dragon City had just been established, so compared to the other cities here, it was relatively weak. Therefore, they needed more pills to quickly upgrade it.

Tianpo fruit s were extremely unique. During the twenty-four hours of the day, the color of their bodies changed every single time. This change was mainly because of the mysterious power inside the Tianpo fruit.

"Sister Bai Ling, are the Shipo Dan easy to refine?" Chen Xiang asked.

"I don't know either, but looking at the pill formula, this isn't a difficult pill to refine. Aren't you capable of refining a high-grade king level pill?" As long as he could concoct a pill of this level, refining a Shipo Dan would not be difficult! You were able to refine such a difficult Shengdao Dan, that is definitely not a problem. " Xia Bailing said.

Chen Xiang took out two Tianpo fruit s. These Tianpo fruit's color was different, but the energy inside them was the same.

Refining a batch of Shipo Dan only required two, and the amount of medicinal ingredients required was not too good. For the same kind of medicinal ingredients, refining them would be extremely easy, and when refining different sets of medicinal ingredients, it would become extremely difficult to fuse them.

Chen Xiang placed the Tianpo fruit into the furnace and released the flames. He used the Heavenly Alchemy to refine the Illusory Fire, which was easier to refine medicinal ingredients, to burn the medicinal ingredients from the inside. As long as there were no special medicinal ingredients, he could use the Illusory Flame to refine the medicinal ingredients quickly.

It didn't take long, roughly more than two hours, for Chen Xiang to successfully refine the two Tianpo fruit, and fuse them extremely easily.

"As expected, it's easy to refine!" Chen Xiang had already entered the process of preparing the Congealing Pellet, he divided it into four parts and prepared to condense four Shipo Dan s.

Chen Xiang had refined a lot of high level king level pellets before, so he was very proficient in refining Shipo Dan now. He finished refining them in one go.

At this time, Xia Bailing was also concocting pills in the secret room. She was refining Shipo Dan s just like Chen Xiang, but she wasn't as fast as him.

Seeing that Chen Xiang had refined a cauldron, Xia Bailing snorted lightly: "You are truly a strange fellow. Pill refining is always so easy!"

Xia Bailing knew that Chen Xiang had a very special pill technique. She had found out about it in the Hundreds of Flowers Village and even created a lot of pill techniques, but that would take a very long time to master.

"Once I've cultivated to the tenth stage of the Dao Po realm, I'll go refine Emperor Profound Pills!" Chen Xiang was concerned about the Diprofound fruit now, not only did he need to raise his cultivation, he also needed to cultivate the profound Tao Power.

In the future, a large number of Black Hairs Human would engulf the entire Wasteland. At that time, only with a powerful profound Tao Power would they not need to fear the Black Hairs Human.

"This Shipo Dan is really special!" Chen Xiang looked at the four Shipo Dan s in his palm. They were currently changing their color, and would change every few moments.

"Let's give it a try, isn't it like in the legends, able to make people level up quickly when using the Dao Po realm?!" Xia Bailing said: "Although this pill is easy to refine, the ingredients required are extremely rare! "Most rare medicinal materials go extinct because they are more useful."

Chen Xiang nodded his head, this Shipo Dan must be very useful, so many people would pick all the ingredients, and grow them very difficult, which is why they would go extinct.

When Chen Xiang ate one pill, he immediately felt a chill in his stomach, as if his stomach had gotten the wind. Not long after, his entire body started to feel cold, but what surprised him was that his body had gotten lighter.

"What's going on? My whole body is very cold! " Chen Xiang said in shock.

"Let's wait and see!" Xia Bailing said: "Use your cultivation technique to see how you will react!"

Chen Xiang had already activated his cultivation technique to refine the medicinal force, his entire body was still cold, but he felt that when he was channeling his Spirit Qi, it became much easier.

After refining the medicinal strength, he gradually recovered to his normal state.

"The effect is very good. I feel that I will break through to the second layer soon!" Chen Xiang laughed, it was just that this pill tasted a little strange.

Then, he ate another pellet. Not long after, he broke through.

At this moment, he was using his dao energy. With the conversion of his dao soul, his strength had doubled. If his strength were to double, then that would be a huge boost.

Xia Bailing suddenly took out a piece of Communication jade Symbol paper, and after receiving the message, he said: "The three great native bank s have gathered us City Lord, I don't know what's the matter, you can start concocting pills here, I'll be back shortly!"

"Alright!" Chen Xiang nodded.

When Xia Bailing left the secret room, he continued to refine Shipo Dan s. He wanted the Dao Po realm to reach the tenth stage of the Dao Po realm, and he needed a lot of Shipo Dan s, so he needed to hurry up and refine them.

Currently, he could refine one furnace in four hours, which was pretty fast.

After he refined two batches, Xia Bailing returned.

"Why did the Three Great native banks gather you? Is there anything important?" Chen Xiang asked.

"Something very important! The Villa Masters of the Three Great native banks said that they can help us train a group of people, mainly to deal with the Black Hairs Human in the future!" Xia Bailing said with a grave expression on her face, "It seems like the three great native banks have the best plans for the worst!"

"The Black Hairs Human's army is indeed scary. Take the profound Wasteland who has the best situation right now as an example, the Black Hairs Human inside are all very scary! Not to mention the Devil Wastelands, the first two groups that came out were the Devil Wastelands and the Evil Wastelands." Chen Xiang said.

"The Three Great native banks said that they can take our people to the Sacred Wasteland to train! Their three great native banks are currently training their warriors in the Sacred Wasteland, and now they plan to train us together." Xia Bailing said.

"This is a good thing!" Chen Xiang laughed: "I also want to go to Sacred Wasteland to take a look."

Your relationship with the three great native banks is so close, so you can definitely go there. Also, they are currently training from the Dao Dan realm to the Dao Zong realm, it's just that every city has a quota. Xia Bailing said.

"Then I will return to the Three Money Divine City to register!" Chen Xiang said: "Going to Sacred Wasteland to train is a good opportunity, I should be able to learn a lot from it."

... ..

When Chen Xiang left the White Spirit City and came to the Three Money Divine City, many people were discussing about going to the Sacred Wasteland to train.

The city had given them many slots, but they had to pass the examination because it was free during training. Furthermore, during training, they had to go out to gain experience and other things like that, so when the time came, they might lose their lives.

When Chen Xiang came to the Eternal Life Native Bank and told Fan Shixin that he also wanted to go there, Fan Shixin immediately agreed without hesitation. Furthermore, he could send him to the Sacred Wasteland right now.

"Chen Xiang, you have to restrain yourself when you go to Sacred Wasteland!" laughed. He now knew a lot of things about Chen Xiang's past and knew that Chen Xiang was the person who would cause trouble.

### [Chapter 2536](#)

"I know, I just want to take a look and casually learn something!" Chen Xiang laughed: "Even after we reach the Sacred Wasteland, the Jade money inside can still be used, right?!"

"Of course you can, I'll send you there now. When the time comes, you can go to the Eternal Life School to register, and say that you have arranged for us to learn how to deal with the Black Hairs Human." Fan Shixin gave Chen Xiang a piece of paper, which was equivalent to a recommendation letter.

After that, Chen Xiang was brought to a special Transmission array and teleported to Sacred Wasteland.

When he appeared amongst the Eternal Life Native Banks of the Sacred Wasteland, there was quickly someone who came to receive him.

"Chen Xiang... went to Eternal Life School to learn, right?" An old man said.

"Yes sir!" Chen Xiang didn't ask how long he would need to learn this before this, but he definitely wouldn't learn it for too long.

"Follow me!" The old man brought Chen Xiang out of the teleportation room.

Chen Xiang followed behind the old man. This old man was a Dao Sect member. As he walked, he saw many people, all of them were either Dao Sect or Dao Master level.

However, when he arrived on the street, he found that it was rather deserted, and not as lively as he was in the New Eight Wastelands.

"There are so few people in Sacred Wasteland!" Chen Xiang said.

"Of course, the threshold to enter the Sacred Wasteland is very high. If it wasn't for such a sudden event happening right now, an exception would not have been made!" The old man said, "In the past, you would at least need a Dao Master to enter."

Chen Xiang was only at the second level of Dao Po realm, far from the realm of Dao Master.

The old man brought Chen Xiang through a street and into another teleportation room. He said, "There will be a group of people coming later. They are from the Eternal Life School, and will bring you to the Eternal Life School."

Not long after the old man left, a group of people came here. Chen Xiang told them that he was here to learn from them, and they all nodded, then activated their Transmission array and left.

In a flash, Chen Xiang arrived at the top of a tall mountain.

This mountain is very huge, the top of the mountain can build a huge city, this is the Eternal Life School!

At this point, he finally understood why the Three Great native banks had decided to let a few people come here to learn. It was because the Dao Qi here contained a lot more profound Tao Powers than the previous profound Wastelands.

When Chen Xiang entered, he was brought over by a manager. He was brought to a house and said:

"You can stay here, the two people inside are from other places, they are both here to train."

When Chen Xiang entered the house, he saw a tall and skinny man holding hands with a sturdy man. At this moment, they were both using very strong powers, so Chen Xiang could immediately tell that they were all at the sixth level of Dao Po realm.

"I won!" The tall and skinny man laughed out loud and pressed down the strong man's wrist.

"I've lost again!" The sturdy man sighed, "Why is it that a guy who looks so weak like you can always beat me?"

"This is called a gap, it's mainly because you're too weak!" The lanky man laughed heartily, then looked towards Chen Xiang. "Our new friend is here!"

"I am Chen Xiang, please advise!" Chen Xiang immediately smiled and greeted the two of them politely.

"I'm Liu Guanyun." The tall and skinny man laughed.

"Shen Wei!" The sturdy man cupped his hands towards Chen Xiang, then pulled out a chair for Chen Xiang to sit on. Although this hall looked a little small, it was enough for the three of them to use.

After Chen Xiang sat down, he said with divine might: "Brother Shen, you are only at the second level of the Dao Po realm?"

Chen Xiang nodded.

Liu Guanyun chuckled, "Looks like Brother Shen has some sort of great background. Otherwise, you wouldn't be able to come here, and you would need at least five layers!"

Liu Guanyun looked rather thin, but he was very handsome, and gave off a very smart feeling! Although Shen Wei was tall and mighty, he was very honest. Chen Xiang never thought that Shen Wei was such a kind person, if not for that, he wouldn't have treated him like a chair.

"Not really. It's just that my luck is pretty good." Chen Xiang laughed.

"Don't be modest, anyone who can come here to train is no ordinary person! They all have a certain amount of potential." Liu Guanyun laughed, "Of course, it's impossible for the Heaven Wasteland Aristocratic Family to come. Those guys don't even like this sort of place, but for us small families, entering the Eternal Life School is a very good thing."

"Seniors, do you know the purpose of your training?" Chen Xiang asked again.

"Kill what Black Hairs Human, I heard that not long after, a large group of strong Black Hairs Human will attack our Sacred Wasteland." Shen Wei said: "Dao Po realm, Dao profound realm, Dao Shi realm and the Dao Zong realm have all been recruited by the sects established by the three great native banks. They will teach us the way to deal with the Black Hairs Human."

Shen Wei and Liu Guanyun were both born and bred here, so even though they were Dao Po realm, they could still be found in the Sacred Wasteland.

Chen Xiang could be said to understand the matters of the Black Hairs Human the best.

"When will it start? I am suddenly very much looking forward to it!" Chen Xiang said.

"We still need about ten more days or so. We came in advance!" Our Dao Po realm is at the bottom on this side, and there are even Dao profound realm, Dao Shi realm and Dao Zong realm s above it!" Liu Guanyun said.

"But it should be the largest in number!" Chen Xiang said.

"Yeah, I don't know how to train, but let's just fight and kill each other!" It would be best if we could get some Black Hairs Human s for us to kill. Liu Guanyun said.

Chen Xiang stood up and wanted to walk out, but Liu Guanyun quickly stopped him.

"Brother Shen, do not wander around. Eternal Life School is very strict." Liu Guanyun hastily shouted, "Shen Wei and I have come in. Usually, we can only walk around in the courtyard."

"Oh? As long as he doesn't cause trouble, there shouldn't be any problems, right?" Chen Xiang said: "The location of this Eternal Life School is not bad, I should have gone more than that. Furthermore, when I came in, that old man didn't tell me anything."

"Alright, let's go for a stroll together. It's fine as long as we don't cause any trouble." Liu Guanyun looked at Shen Wei and asked, "Are you going or not?"

"Of course I'm going. I also want to have a good look at the Eternal Life School. I've always yearned for this place ever since I was young." Shen Wei hurriedly said.

Just like this, Chen Xiang and his two new buddies walked out of the house, strolling in the Eternal Life School. The environment inside the house was very good, and it had a very dense Dao Qi, causing Shen Wei and Liu Guanyun to praise him endlessly.

Suddenly, Chen Xiang and the other two heard clanging sounds, as if someone was fighting with a weapon.

"Isn't Eternal Life School very strict? Someone is actually fighting. Let's go, let's see how strong the disciples of the Eternal Life School are." Liu Guanyun was very curious.

"There aren't any auras fluctuating. Could it be that they are purely competing with physical strength? It's definitely worth a look. Let's go!" Chen Xiang laughed, and then walked towards the direction of the voice.

### [Chapter 2537](#)

Chen Xiang and the other two walked in the direction of the voice and arrived at a large plaza. This should be the competition ground, and there were many people dressed in uniform watching them, and in the middle, two men were fighting with swords.

Just as Chen Xiang had said earlier, they did not use any Dao powers during the competition and only used their physical strength to fight.

"They are all very strong! I wonder what their cultivations are." Liu Guanyun said in a low voice.

"Dao Po realm level 10!" A man said.

The disciples of the Eternal Life School were all dressed in white, and regardless of gender, their clothes were all the same. Moreover, they all looked convenient for battle, and even their sword sheaths were the same.

"Did the three of you come to our Eternal Life School to train?" A man asked with a smile.

Yes, we heard the sounds of fighting, and came over to take a look. I never expected it to be true, the disciples of the Eternal Life School are really not bad, it's just that they are very powerful even with their bodies. Liu Guanyun said.

"The two of them are considered relatively weak! "There is a rule within the sect that if one wants to compete with their Dao power, one must get the approval of the elders. Otherwise, they can only fight like this." The man sighed.

"This really isn't fun!" Shen Wei said, "I keep feeling like I'm being held back."

The disciples of the Eternal Life School s were all rather easy to talk to, probably because their sect rules were strict, they didn't dare to do anything to Chen Xiang and the other two outsiders, and were all very kind.

"There's no other way. This is the only way. It's better than not being able to fight!" "Usually, we have to go out and fight those savage beasts before we can train. Otherwise, we would be reduced to such a state." The man replied, "Those Heaven Wasteland Aristocratic Family s are different. I heard they can practice combat all day."

"Those guys are scary, but they're very arrogant." Liu Guanyun said.

All of the disciples here agreed with Liu Guanyun's words. They had all met disciples of the Heaven Wasteland Aristocratic Family before and had experienced that kind of arrogant and tyrannical attitude.

Chen Xiang had experienced it before, and he couldn't bear it either. Therefore, there were still those heads of Heaven Wasteland Aristocratic Family's disciples in his Chuangshi god furnace.

Oh yeah, I heard that you guys will be training together with us when the time comes, mainly to deal with Black Hairs Human. Chen Xiang asked.

"Of course I know. It's just that it hasn't started yet. It's said that there's still around ten days left!" The man said.

"Eldest Brother and Second Sister are here!" Someone suddenly said in a low voice. The two people who were competing also stopped.

Chen Xiang also saw two people walking over, the woman was tall and beautiful, the man was handsome and tall and sturdy, they were all dressed in the Eternal Life School's clothes, but they looked much more pleasing to the eye, probably because of their temperament.

"Hmm? There are three foreign guests? You guys are making a fool of yourselves here, making the guests laugh. " The Eldest Senior Brother smiled.

"Big Brother, we're bored too!" If you suddenly take ten days off and don't find something to do, you'll suffocate to death. " One of the men who had competed earlier said.

The Second Senior Sister chuckled and said, "Aren't there three guests? You can talk to them, they are all outsiders, they might have had a lot of experiences, you all grew up here, so you guys are definitely not as knowledgeable as them. "

Liu Guanyun immediately spread out his hands and said, "We were just pulling wrists inside the house! We are also feeling very depressed right now. "

The senior brother laughed: "How about this, our Eternal Life School's disciples will spar with you, they usually compete with their own senior brothers, both of them understand each other, so fighting is meaningless."

"Forget it. We're all from small clans, so we won't be making a fool of ourselves." The main reason was because their cultivation level was too low. If he had also reached the tenth stage of the Dao Po realm, he would have immediately agreed to it.

Second Senior Sister chuckled, "How about this? I will fight with you guys. This way, I can give you pointers!"

A man laughed and said, "Second Senior Sister, it seems like you are also bored. You are preparing to bully others again!"

A young girl also laughed and said, "Second Senior Sister, don't bully a foreign guest. If the elder finds out, you will be punished again."

"I've already said that I will guide them!" Second Senior Martial Sister rolled her eyes at them before taking out a long sword. "Don't you usually let me give you pointers?"

"Forget it!" When Liu Guanyun saw that sharp sword, he couldn't help but tremble. This Second Senior Sister's strength was definitely very strong.

Chen Xiang asked: "Second senior sister, are you from the Dao Sect?"

"Tenth level of the Dao Sect, what about you?" You seem to only be a Dao Po realm! " The Second Senior Sister was slightly surprised.

"Second stage of the Dao Po realm!" Chen Xiang laughed, then looked towards the Eldest Senior Brother: "I wonder if this Eldest Senior Brother will lend the sword to Second Senior Brother and I to have a spar."

To be able to come here to receive training despite being only at the second level of Dao Po realm, this caused many disciples to be shocked!

"If you have the guts, go ahead!" The senior brother was straightforward as he handed his sword over to Chen Xiang.

Chen Xiang caught it in his hand and could not help but frown as he cried out in shock, "So heavy!"

"Eldest Brother's sword is the heaviest. Are you sure you want to use this sword to fight me?" The Second Senior Sister giggled, "How many sword strikes will you be able to block?"

"Anyway, I don't have much hope of catching so many of your swords!" Chen Xiang laughed: "My name is Chen Xiang, please advise!"

"I am Song Yongying, and as soon as you enter the Eternal Life School, let me teach you a lesson!" Song Yongying laughed: "I will let you slash three times!"

During the competition, Dao Energy was not allowed, it was a rule here, so Song Yongying did not say it, she knew that Chen Xiang would understand.

Chen Xiang gripped the heavy sword tightly and sucked in a slight breath. Then, he activated the Shrinking step, and in the blink of an eye, he had flashed towards Song Yongying's side. He swung the longsword and pierced towards Song Yongying's left shoulder.

This movement technique gave many people a fright. It was truly strange!

Song Yongying was also shocked, she anxiously dodged, although she could dodge, but when Chen Xiang pierced the sword, he flicked, chopping at a strand of her hair.

"That was close!" Song Yongying exclaimed: "Good heavens! I've underestimated you!"

Chen Xiang also didn't know that his Shrinking step was actually still so profound in this place. Of course, this was also because he had mastered it proficiently.

Song Yongying did not take out her sword at this time, because she wanted to let Chen Xiang have three sword strikes, just now was only one strike!

"The second strike!" After Chen Xiang finished speaking, he disappeared once again, he was still using the Shrinking step, but this time he was even faster, to the point where his figure was almost indiscernible.

When he appeared, the sword in his hand was already thrusting towards Song Yongying's shoulder, this was not a life threatening place.

Song Yongying avoided it once again, because she already knew that Chen Xiang was not a simple person.

On the third sword strike, a terrifying sword force suddenly surged out from Chen Xiang's body. Sensing the sword force, everyone was horrified, because they were all familiar with the sword force!

This was the God-killing sword that Chen Xiang had not used for a long time!

### [Chapter 2538](#)

Chen Xiang used the God Murdering Sword Techniques, and released it! But the most amazing thing about the God Murdering Sword Techniques was that it could make Chen Xiang's time different from others', which was equivalent to using the power of the Time Laws.

Just like that, Song Yongying only watched as Chen Xiang brandished his sword, and in the next moment, she felt the sword in her hand being smashed away by Chen Xiang!

If it was just a competition of swords, if his sword fell to the ground, it would be the same as losing!

Song Yongying stared blankly at the sword on the ground, while her hands were trembling, it was all because Chen Xiang's strength was too strong, causing her sword to fall down.

"You lost!" Chen Xiang smiled faintly, then returned the heavy sword in his hand back to the senior brother. Everyone was still stunned.

"Who did you learn your sword art from?" Song Yongying picked up his sword, and frowned: This sword technique is only known to our Eternal Life School, and he has never passed it down to anyone, even his own children cannot learn it.

The God Murdering Sword Techniques was one of the mysterious Four Great Taboo magic s, and could be traced back to the ancient times.

Hearing this, Chen Xiang also felt that it was surprising, there was actually someone in the Eternal Life School who knew how to use the God Murdering Sword Techniques!

"A friend passed it on to me." He did not lie. He felt that it was strange, since the God Murdering Sword Techniques could not be taught to outsiders, why would it be passed down to the astral age?

Also, the Heavenly Alchemy, these two techniques were very frightening.

"Do you know the name of this sword technique?" Song Yongying asked: "Our Sword Hall Elder does not know, he only accidentally acquired this sword technique. He used it several times, especially every time he used it, there would be an extremely terrifying sword intent, which is why I was able to recognize it."

For the Sword Hall Elder to not know the name of the God Murdering Sword Techniques, Chen Xiang felt that it was even stranger.

"Can I see him?" Chen Xiang asked.

"Of course, I will take you there. He will definitely be very interested in this matter." Song Yongying said.

... ..

After that, Song Yongying brought Chen Xiang to a mountain peak beside the mountain. This was the residence of the Sword Hall Elder.

"I once learned sword techniques from an elder for a period of time. He is a very benevolent old grandpa." Song Yongying chuckled.

"Elder, I'm here again." Song Yongying shouted to a small hut.

"Little girl, did you lose again, and now you're asking me for guidance?" Laughter came from within the house. After the door was opened, a white-haired old man appeared. The old man looked very energetic and wore a spotlessly white robe. Although he had white hair and white eyebrows, his skin was like that of an infant's.

"Mn, I lost again. I even lost to a little kid from the Dao Po realm." Song Yongying looked at Chen Xiang who was at the side: "He's the one who defeated me, the sword techniques he uses are very similar to yours!"

Sword Hall Elder looked at Chen Xiang, he was a little doubtful: "Little girl, I don't really understand your words, what do you mean his sword technique is very similar to mine?"

"It's that mysterious sword technique of yours ..." Song Yongying told the entire process of her duel with Chen Xiang to Sword Hall Elder.

"Really?" Sword Hall Elder did not dare believe it.

Song Yongying handed over a sword to Chen Xiang and said: "Use that move again!"

Chen Xiang also wanted to talk to the Sword Hall Elder. After he took the long sword out, just as he was about to wave it, a rock at the side was sliced into several pieces.

Sword Hall Elder was stunned, he never thought that he would actually meet a person who could use this kind of mysterious sword technique!

"Little girl, you go back first. I want to have a good talk with this little guy." The Sword Hall Elder seemed to be very cautious and secretive about this matter.

"En!" Song Yongying nodded, then flew out of the mountain peak.

After Song Yongying left, the Sword Hall Elder immediately pulled him into the house and asked: "Little brother, do you know the name of the sword technique?"

"Of course! Senior, could it be that you do not know about it?" Chen Xiang asked: That second senior sister just said that you never knew the name of this sword technique, then how did you get it?

"Of course I know, this is called God Murdering Sword Techniques, right!" Sword Hall Elder said: "I was just lying, I just did not want the name of this sword technique to be known."

"Why can't I let others know that this is the God Murdering Sword Techniques?" Chen Xiang did not understand.

"Trouble!" The Sword Hall Elder sighed, "Do you know that the God of Slaughter is the God that you killed?"

Chen Xiang shook his head: "I don't know, I only know what kind of one of the Four Great Taboo magic s this is!"

Sword Hall Elder was surprised again, "You sure know quite a lot! This God Murdering Sword Techniques was passed down from the Divine Wasteland, not to mention this place, even the Divine Wasteland itself would have this Taboo magic! "

"Why? Is it invincible when used on them?" Chen Xiang asked again.

"I heard that in the Divine Wasteland, the strength of the experts are about the same, but if someone were to master the God Murdering Sword Techniques, they can easily kill the other Gods." The Sword Hall Elder said: "So don't speak the name of this sword technique randomly, it will bring about a fatal disaster."

Chen Xiang did not expect it to be so serious, he thought that since the God Murdering Sword Techniques was created in this era, he could use it without any reservations, and now, the Sword Hall Elder had to secretly use it.

"You can still use it, but don't attract too much attention. At the same time, don't mention the name of this sword technique." Sword Hall Elder said: "I heard that all the experts in Divine Wasteland who knew how to use this sword technique were all dead. If the experts in Divine Wasteland could obtain this sword technique again, they would be able to break the balance in."

"They're all dead? It's so serious!" Chen Xiang's heart was filled with fear, luckily he did not say the name of the sword skill in public, but many people in Nine Heaven World knew of the Four Great Taboo magic.

Chen Xiang did not know how strong the Sword Hall Elder was, but it was obvious that he was strong, and with his level of strength, he was actually on tenterhooks.

"Let's not talk about this anymore. Did you come here to learn how to deal with those Black Hairs Humans?" Sword Hall Elder asked.

"Mn, I'm not a disciple of Eternal Life School." Chen Xiang nodded.

"Come visit me when you have time. Oh right, do not spread the name of this sword technique, especially in the Sacred Wasteland. If it gets out, then you can even spread it to the Divine Wasteland." Sword Hall Elder warned Chen Xiang again.

"Senior, are the four great Taboo magics all above Divine Wasteland? Have you heard of the Heavenly Alchemy?" Chen Xiang asked again, he had always wanted to know who created the Heavenly Alchemy.

Just like the God Murdering Sword Techniques, it is something that many rankers in the Divine Wasteland want to obtain. This is because only by obtaining the Taboo magic, can they break the balance and win against the other powerhouses, becoming the tyrants of the Divine Wasteland." The Sword Hall Elder said.

### [Chapter 2539](#)

It was not the first time Chen Xiang had heard that the Divine Wasteland was very mysterious, and now, he had gained quite a bit of understanding towards the Divine Wasteland as well.

"Senior, how can I get to the Divine Wasteland?" Chen Xiang asked again.

When I get tenth place of Dao God realm, I can use all my strength to open the passage to Divine Wasteland and then enter it. As for what kind of place it is, I don't know either, because those guys that went to Divine Wasteland can't come back! The Sword Hall Elder said, "So, no one has ever come back to talk about the situation there."

Chen Xiang thought for a while, then asked: "Aren't the Great Landlords of the three great native banks very strong? With their strength, are they not allowed to go to Divine Wasteland?"

"Of course not, the three Great Landlords were born with tenth place of Dao God realm. Furthermore, they have already been set up, so their power cannot open the gate to the Divine Wasteland. Only those who have been cultivating all this time will be able to reach the Divine Wasteland." Sword Hall Elder replied, "Other than this, some races are also the same. None of them are allowed to enter the Divine Wasteland."

"Oh? Which race can't go?" Chen Xiang felt that he wouldn't be able to go to any of the races.

"The Undead Divine Race or whatever, all of the races with strong powers are not allowed to go to the Divine Wasteland, what dragon race?" The Sword Hall Elder replied, "But I can go with someone else. I heard that there was once someone who brought a few days' worth of powerful dragons to the Divine Wasteland. I don't know if that's true or not."

Chen Xiang had previously heard from the Natural Law Divine Spirit that the Divine Wasteland was an extremely mysterious place to their kind of Natural Law Divine Spirit. On top of the Divine Wasteland, there were even more powerful beings.

"Alright, hurry up and go back!" The Sword Hall Elder said: "If anyone asks you what you're talking about here, you can just pass it over casually. Don't leak out what we just said."

"Un, I understand!" Chen Xiang nodded his head: "When I have time, I will come visit you!"

... ..

Chen Xiang returned to the main peak of the Eternal Life School and returned to his own residence. At this time, Liu Guanyun and Shen Wei were also very curious about his sword skills and asked him a lot of things, which made them stumble.

"My current cultivation level is very low, so I need to hurry up and train. That's why I'll be staying in the secret room." Chen Xiang said to Liu Guangyu, then he entered his own room.

Everyone's room had a passageway that led into the training room. It was very quiet down below. Even if there were thousands of soldiers and horses fighting above, they would not be disturbed.

Chen Xiang took out his pill furnace. He wanted to refine a large amount of Shipo Dan s, and only then would he be able to quickly cultivate to the tenth level of Dao Po realm!

Not to mention the Sacred Wasteland, even now, there were many hidden dangers. If he did not have sufficient strength, he would live a very difficult life in the New Eight Wastelands, especially that kind of terrifying Black Hairs Human. He needed to have absolute strength, so he would not be afraid when facing the Black Hairs Human.

On one hand, Chen Xiang came to the Sacred Wasteland to see if there were any good ways to deal with the Black Hairs Human, and on the other hand, he was here to collect medicinal ingredients!

He was preparing to refine a Dijie Dan, and there were definitely more Emperor Stage medicinal herbs than New Eight Wastelands, so in the future, the New Eight Wastelands would definitely be trampled on by a large number of Black Hairs Human.

Moreover, it had mutated over the years. The black-furred leader he met earlier was a mutated one, making him stronger than ever, and if the Black Hairs Human was able to reproduce soon, more than half of the New Eight Wastelands would be occupied by the Heavenly Dao. The black-furred leader was a mutated one, and the black-furred leader was a mutated one too.

At that time, it would also mean that the genius treasures on top of New Eight Wastelands would be greatly affected, and it was hard to say if it would affect the Sacred Wasteland in the future.

Chen Xiang refined Shipo Dan for a few days, and there were more than a hundred of them. He ate more than twenty, and only then did he enter the third level of Dao Po realm.

"Xiang Yin, Hongqing, you two must also quickly cultivate to the tenth level of the Dao Po realm, your strengths must catch up." Chen Xiang said.

Although Yang Xiangyin and Chu Hongqing did not need to fight, Chen Xiang still felt that it would be better if they could grasp a certain amount of strength. They might be able to use it in the future.

Ten days later, Chen Xiang came out from the secret room, and today, he had begun gathering at the large plaza.

Chen Xiang looked at the gathering crowd, and he was not familiar with any of them. After asking around, he found out that the people chosen by the Heavenly Dragon City were all placed in other native banks.

After they gathered, each of them received a Storage bag, inside were clothes, weapons and a few jade talismans, these were all for fighting, Chen Xiang took a closer look, and discovered that all of the jade talismans contained profound Tao Powers.

Eternal Life School relied on profound Tao Power to deal with Black Hairs Human!

"All of your clothes were specially crafted to be able to defend against the power of the Black Hairs Human to a certain extent." An old man said, "And your weapons are specially forged for the Black Hairs Human. Compared to other weapons, it can easily break through the defenses of the Black Hairs Human."

Chen Xiang looked at the long sword. There were indeed many ways to it, and some profound Spirit grains. He guessed that those Spirit grains could pull out the profound Tao Powers from the Dao Qi.

And then, the most important thing was to cultivate!

The Eternal Life School gave everyone a cultivation technique, that was for cultivating the profound Tao Power, everyone would be training here for a period of time, to condense enough profound Tao Power!

"Sure enough, it's just as I had guessed. Eternal Life School's method of dealing with Black Hairs Human is about the same as mine." Chen Xiang thought, he took a look at the cultivation method, and then started circulating it according to the instructions from above, he could indeed absorb the profound Tao Power rather quickly.

Furthermore, the methods he had used in the fantasy novels, he would need to use fire to burn them. As for the Eternal Life School method, there was no need for it, as long as he followed the instructions in the technique and matched it with his own body, he would be able to subtly absorb the profound Tao Power.

Of course, compared to him eating the profound Dao king Dan, it was still much slower, and it was not difficult for him to refine the profound Dao king Dan, so even though the cultivation technique was good, it was not of much use to him.

After all, you need to take care of too many people, and the people from their Eternal Life Native Bank also need more preparations. " Although Chen Xiang felt that this kind of training method was not efficient enough, but it was still the Three Great native banks trying their best.

A few days later, Fan Shixin came to Eternal Life School. He found Chen Xiang and had a private talk with him.

"Chen Xiang, I have bad news." When Fan Shixin came, his expression was very solemn, so Chen Xiang had prepared something.

### [Chapter 2540](#)

Chen Xiang took a sip of tea and asked: What bad news?

Fan Shixin sighed, "Devil Wasteland's barrier can only hold for three months at most, and... Furthermore, the Black Hairs Human of the Devil Wasteland have undergone a large mutation. To be able to evolve into a female, their reproduction and growth rate is astonishing fast.

"Only three months?" Chen Xiang frowned.

"Yes, what we are more worried about right now is that after Devil Wasteland's Black Hairs Human runs out, they will immediately head towards Evil Wasteland. If they break through the Evil Wasteland's barrier, these two desolate Black Hairs Human will go to profound Wasteland together ..." Fan Shixin took a deep breath, "These Black Hairs Human leaders are all very smart, we cannot underestimate them, so we have to think in the worst direction."

"Villa Master Fan, I want to walk around Sacred Wasteland, is that okay?" Chen Xiang asked.

"Of course you can ... But don't you have any training?" Fan Shixin knew that the reason Chen Xiang wanted to walk in Sacred Wasteland was because he wanted to see the pills.

"I have my own way." Chen Xiang said. He still had Diprofound fruits that he had yet to refine, and they were Emperor Grade medicinal herbs. Therefore, he would need to grow them for a period of time.

"Alright, but you have to be careful of the Heaven Wasteland Aristocratic Family. If you walk around, you must not go into the territory of the Heaven Wasteland Aristocratic Family in the cities built by our three great native banks, because those fellows can do whatever it takes to be shameless." Fan Shixin said: "Furthermore, your cultivation is so low now!"

"Un, I'll remember it!" Chen Xiang nodded.

Fan Shixin seemed to have a very high position in the Eternal Life School as well. He had only mentioned about it before helping Chen Xiang to get a jade token to enter and exit the Eternal Life School at will.

Chen Xiang first came to the Immortal Tian City. This was a huge city that was built on top of a few mountain peaks, and was one of the cities that Fan Shixin recommended him to come to.

Chen Xiang had tens of billions of Jade money now, so he felt that it was enough for him to purchase the medicinal ingredients that he needed here.

However, when he came to this city and investigated, he found out that the entire Sacred Wasteland knew about the Black Hairs Human. This also meant that the pills related to the profound Tao Power were extremely expensive.

Because against Black Hairs Human, they would need a very strong profound Tao Power to fight them, and it would be much easier.

"The bastard from the Heaven Wasteland Aristocratic Family is too much, he actually blocked the safe entrance to the Sacred Tao Mountains, causing us to only be able to enter through the more dangerous entrance, if we are careless, we will die."

"There's nothing we can do, the Sacred Tao Mountains was originally in their territory, if they do not allow others to walk on that path, no one can."

"Sacred Tao Mountains is a place filled with a large amount of profound Tao Power medicinal herbs. Right now, there is a shortage of such ingredients, but they are actually blocking the way to safety."

"If we want to walk a safe path, we need to give them 100 million!"

"Bastard! Taking advantage of the blaze!"

Chen Xiang had heard from him that those Heaven Wasteland Aristocratic Family people would often do many shameless things, but now, it was as he had expected. The people of the Sacred Wasteland could only whine towards the Heaven Wasteland Aristocratic Family, after all, the Heaven Wasteland Aristocratic Family was very strong, just like the Three Great native banks.

Chen Xiang had previously strolled around the medicine shop, the profound Tao Power pills inside had already been sold out, so he had no choice but to look for them himself.

"Are there really a lot of them in Sacred Tao Mountains? I have to go and take a look! " Although Fan Sixin had warned him before to never go to Heaven Wasteland Aristocratic Family's territory, he couldn't stand the temptation right now either. Otherwise, there was no meaning in coming to Sacred Wasteland.

Chen Xiang very quickly found out the way to the Sacred Tao Mountains, used the Transmission array to go to a city, and then set off from there.

On the way, he met many people who were heading towards the Sacred Tao Mountains.

There were many tents near Sacred Tao Mountains. Many people were complaining.

"I wonder where Heaven Wasteland Aristocratic Family got a lot of powerful savage beasts to keep them by the entrances. Furthermore, there are a lot of savage beasts and flying beasts inside the mountain range, and they are all from Heaven Wasteland Aristocratic Family. With one look, I can tell that they are the ones raising the beasts, and those savage beasts will only attack us, not the people from Heaven Wasteland Aristocratic Family."

"This is to prevent us from entering. This way, they can occupy the entire Sacred Tao Mountains."

"What a despicable Heaven Wasteland Aristocratic Family."

Chen Xiang heard these, and was extremely furious, he had seen how tyrannical the Heaven Wasteland Aristocratic Family was, but he never expected that in the Sacred Wasteland, the Heaven Wasteland Aristocratic Family would be even more tyrannical. It had to be known that the people of the Sacred Wasteland were all stronger, but they did not dare fight against the Heaven Wasteland Aristocratic Family.

It was already evening, but Chen Xiang did not plan to rest. After changing his appearance, he walked towards an entrance of the Sacred Tao Mountains, which was considered dangerous, but everyone could enter together. In order to prevent everyone from entering, the Heaven Wasteland Aristocratic Family had gathered many savage beasts, so even if they entered in groups and were attacked by savage beasts, they would still suffer huge losses.

The safest way to enter the Sacred Tao Mountains was taken over by the Heaven Wasteland Aristocratic Family, there were people guarding the place, if someone went in, they would most likely be killed or crippled.

"I would like to see how strong the Heaven Wasteland Aristocratic Family's savage beasts are!" Chen Xiang turned into a bird and flew to the top of a mountain in Sacred Tao Mountains. From here, he could clearly see the great canyon entering the Sacred Tao Mountains.

Therefore, it was very dangerous to enter from the air. Only by entering from the canyon would one be able to move quickly and safely. However, beside the canyon were many huge holes, all of which belonged to savage beasts.

There were so many powerful savage beasts gathered in one spot, and there weren't any conflicts with one another. Clearly, these savage beasts had been tamed, meaning that these savage beasts were intentionally placed here to block the way.

"They are all very powerful savage beasts, there are quite a few of them in the Dao Zong realm!" Chen Xiang said as his eyebrows knitted together. He had originally planned to kill a few of them, but he did not expect that these beasts would be stronger than he had imagined.

"If only Sister Bai Ling was here!" Chu Hongqing knew, she knew that Chen Xiang wanted to kill all these beasts to strike a blow at the Heaven Wasteland Aristocratic Family, but Chen Xiang's strength was limited.

"I have another way!" Chen Xiang's eyes lit up as he laughed, "These savage beasts were probably not raised and raised by the Heaven Wasteland Aristocratic Family but controlled by them. These beasts must have made their move on the souls of the savage beasts, as long as I can help these beasts escape the control of the Heaven Wasteland Aristocratic Family, these savage beasts will recover their natural instincts and start fighting against each other."

"Then what do we need to do?" Chu Hongqing asked: "That seems to be very difficult!"

"It is indeed difficult, but at the very least, it is much easier than sending me to kill these savage beasts." Chen Xiang laughed, then turned into a wisp of cloud flame and floated towards the great canyon.
