[Chapter 2551](#)

"Elder Sister Xiao Ling!" Chen Xiang spent approximately two days before returning.

"Well, where's your wife?" Du Xiaoling looked at Chen Xiang and asked.

Chen Xiang laughed, "Elder Sister Xiao Ling, do you have poison in this place? I'm worried that she won't be able to take it, so I'll check to see if it's safe. "

Du Xiaoling hurriedly nodded, then closed her eyes and carefully sensed the surroundings of her small courtyard. Only after she confirmed that there was no poison did she nod her head, and then gently smiled: "Even if she was poisoned, I can quickly cure it. Bai Ling will recover very quickly, and it should still be a few more days."

"You Qing, Sister You You, you can come out now." Chen Xiang let Xu Youqing and Bai Youyou out.

Du Xiaoling recognized Bai Youyou, but he didn't know that he was Xu Youqing. They were both girls, so it wasn't difficult for them to get to know each other.

Chen Xiang, on the other hand, was wandering around to see the poison inside.

"Little Scoundrel, come here!" Xu Youqing shouted.

Chen Xiang was playing with a black venomous cat demon, and when he heard Xu Youqing call him, he immediately ran over.

"What is it?"

"I am preparing to enter the Elder Sister Xiao Ling. I need some peace and quiet, and I cannot be disturbed." Xu Youqing said.

"Un, are you confident you can help Elder Sister Xiao Ling get rid of the Heavenly Energy that is imprisoning her?" Chen Xiang asked.

"I can't be sure yet. I'll have to check carefully before I know." At this time, Xu Youqing's face was extremely solemn, you could tell that the thing she was about to do next was definitely dangerous.

Chen Xiang nodded his head, then maintained silence with Bai Youyou, maintaining his vigilance against the surroundings, preventing anything from coming over. After all, Du Xiaoling had a lot of poisonous materials here.

Du Xiaoling and Xu Youqing clasped their hands together, the two girls had their eyes closed and were extremely quiet. Chen Xiang did not know how they were progressing and could only wait patiently.

Very quickly, several hours passed. They were still sitting like this.

Suddenly, Chen Xiang heard the door opening, both he and Bai Youyou immediately became cautious.

"Sister You You You, stay here. I'll go take a look!" After Chen Xiang finished speaking, he teleported to the stone door, only to see a woman dressed in black tight clothes walking in.

The girl had a long braid hanging on her well-developed chest, with a purple hook at the end, her face was cold and charming, with purple lines on it, and her eyes shone with a purple light. She was Bai Ziqian.

"Sister Ziqian!" Chen Xiang laughed: "You're back!"

"Chen Xiang, why are you here!" Bai Ziqian was extremely shocked, and immediately asked: "Are you alright?"

Chen Xiang made a "hush" gesture, then said in a low voice: "It's fine, Elder Sister Xiao Ling and the others are doing very important things, we need to keep it quiet."

Bai Youyou originally wanted to come over, but the place was filled with poison, so she could only stay where she was.

"Why are you guys here? You don't trust me, do you?" After all, Bai Ziqian was Bai Youyou's big sister. Seeing Chen Xiang here, she could already guess what would happen.

"Yes, but now we are relieved! And I brought Sister Bai Ling here to treat the poison." Chen Xiang said: "Sister Bai Ling was poisoned by the Sky Spill Poison, only the Elder Sister Xiao Ling can cure her."

This meant that Chen Xiang and Chen Xiang were getting along quite well. When she saw Chen Xiang previously, she was worried that he would poison her.

"Hehe, I come from the impenetrable, there's no f * cking problem coming to this place." Chen Xiang laughed.

"Hmph, it's been so long since I've seen you, but you're still the same as ever." Bai Ziqian snorted lightly, then walked with Chen Xiang over to where Bai Youyou was.

Bai Youyou told Bai Ziqian about helping him. Of course, Bai Ziqian knew about what happened to Du Xiaoling, she did not know that Xu Youqing could help him, so even though she was still in the Hundreds of Flowers Village, she rarely interacted with the women of the Hundreds of Flowers Village. At the very most, she only interacted with Lv Qinlian, and she did not even see Bai Youyou often.

"How is it? Have you managed to control your poison well?" Bai Ziqian asked. Previously, Bai Ziqian had obtained the inheritance of an Ancient Poison God King, so he had cultivated that kind of poison technique.

Back then, it was also because she had received the inheritance of the Ancient Poison God King that she had fallen into a deadly situation. At that time, Chen Xiang had risked his life to save her, and it was precisely because of that that, that she had buried the feelings of adoration towards Chen Xiang deep within her heart.

"It's much better now. It's mainly because my cultivation and mental state are not enough, yet I have to control such a powerful poison. My strength doesn't follow my heart, so I often lose control." Bai Ziqian sighed.

"Let me touch it. See if it's a little fat or not." Chen Xiang immediately extended her hand out and pinched Bai Ziqian's jade face.

Bai Ziqian coldly glared at Chen Xiang. After all, Bai Youyou was here, and Du Xiaoling and Xu Youqing were at the side.

"Sis, is your poison effective against those Black Hairs Humans?" Bai Youyou asked.

"It worked. Master told me." Bai Ziqian looked at Du Xiaoling. Du Xiaoling was her master.

"Sister Ziqian, are you afraid of the Sky Spill Poison?" Chen Xiang asked.

"I don't know. I've only heard it from Master once and I've never seen it with my own eyes. But I'm going to go see Sister Bai Ling." Back then, when Xia Bailing entered the Hundreds of Flowers Village, it was extremely lively. After all, Xia Bailing was very mischievous, jumping up and down with Long Xueyi and the other mischievous beings.

Chen Xiang and Bai Ziqian entered the small house, while Bai Youyou stayed behind, she did not dare to walk around carelessly, especially in the small house, where there was the Qi of the Heaven's Divination, which Du Xiaoling had mentioned before.

Bai Ziqian walked to the door, and already felt the aura of the Sky Spill Poison, and frowned. She glanced at Chen Xiang, but Chen Xiang was completely fine.

"Looks like this poison still can't deal with you. Your body is truly special, I'm afraid only Qinlian's Love Poison is effective against you, the only one that can deal with you in this world is Qinlian's Love Poison." Bai Ziqian said as he walked into the small hut.

Bai Ziqian saw Xia Bailing lying in the bathtub, the water in the bathtub was very black and thick, it was like ink.

"The Sky Spill Poison is very scary, but it has already been absorbed and digested by the poisonous water that Master refined." Sky Spill Poison is very scary, but right now it has already been absorbed and digested by the poisonous water that Master refined. Bai Ziqian used her jade hand to gently touch the thick black water, and exclaimed: "The Heaven's Divination poison is truly terrifying!"

Bai Ziqian was frowning as he looked at Bai Ziqian. Suddenly, Chen Xiang came to her back and hugged her.

Bai Ziqian's delicate body trembled, and then she channeled all the energy in her body, wanting to struggle free from Chen Xiang. However, just as she was about to release her power, she retracted it back.

"Sister Ziqian, all of these years you must have been tough, right?" Chen Xiang asked gently.

Bai Ziqian turned around, looked into Chen Xiang's deep emotional eyes, and then nodded. Because of her, not to mention men, she didn't even dare to approach a woman. That kind of loneliness had tortured her for many years, and Chen Xiang could understand as well.

Chen Xiang faintly smiled, then hugged Bai Ziqian. Bai Ziqian also hugged Chen Xiang tightly, feeling Chen Xiang's heartbeat. The two of them gazed at each other with deep love, and before they knew it, they had started kissing ...

[Chapter 2552](#)

Bai Youyou also didn't know why Chen Xiang and Bai Ziqian had been inside for so long. She could only wait;

Finally, she waited for more than four hours before Chen Xiang and Bai Ziqian came out.

Bai Youyou understood Chen Xiang and Bai Ziqian very well, and could be said to be the person who understood Bai Ziqian and Bai Youyou the most. Seeing Chen Xiang's happy and contented appearance, and seeing how although Bai Ziqian's gaze was cold and elegant, his cheeks were slightly red and tender, she immediately understood something.

"You two ..." Bai Youyou couldn't help but laugh, "There's really something you guys are here for!"

"Hmph, even women do these kinds of things, what's so funny about that?" Bai Ziqian gave a light snort, "Didn't you yourself do the same in the past!?"

"She has never experienced it before!" Chen Xiang laughed.

"Really?" Bai Ziqian laughed complacently, and said while looking at Bai Youyou: "Looks like I got ahead of you! "Seriously, after being with this kid for so long, you actually didn't do anything like that."

Bai Youyou scoffed and said: "You guys truly do not know shame. There's even Big Sister Bai Ling lying inside!"

"She fainted, she didn't know." Chen Xiang laughed.

"Damn you, little scoundrel!" Bai Youyou scoffed, she did not expect Chen Xiang to actually fuck her elder sister in this kind of place at this time.

She actually knew about the feelings Bai Ziqian had for Chen Xiang, but she definitely didn't think that they would develop so quickly. She felt that she still wasn't clear about Bai Ziqian, but she was actually taken over by Chen Xiang that easily.

However, she thought about it, and felt that it was more acceptable. After all, Bai Ziqian was covered in poison, and Chen Xiang had helped Bai Ziqian multiple times without fear of poison, and she had even saved him at all. As long as Chen Xiang took the initiative, it would only be a matter of time before she was captured.

Chen Xiang smiled as he looked at Bai Youyou. He knew that Bai Youyou would be his sooner or later.

"Little Scoundrel, what are you thinking about!" She understood Chen Xiang very well. With just a glance from Chen Xiang, she could already tell what he was thinking.

"How much longer do they need? I wonder if they can succeed!" Bai Ziqian looked at Du Xiaoling, very worried. Du Xiaoling was her master, and whether or not she could act like a normal person in the future all depended on Du Xiaoling.

Of course, when she was dealing with Chen Xiang just now, she had gained a lot from it. She felt that she had better control over the poison in her body now, but she was still lacking a little.

Right now, her mood had greatly improved. After all, she no longer felt lonely. She was not like before, enduring loneliness all day and feeling depressed all day. This kind of life had been going on for many years.

Seeing that Bai Ziqian had become cheerful, Bai Youyou was secretly happy for Bai Ziqian as well. She had experienced Bai Ziqian's misfortune before, especially after she had dispersed the Ruthless magic.

"It will succeed!" Bai Youyou said.

At this time, Chen Xiang had nothing to do, so he took out the pill furnace to concoct the pills. He was currently refining Shipo Dan s, he wanted to take the opportunity to concoct more Shipo Dan s for Bai Ziqian, with Du Xiaoling's help, Bai Ziqian's Dao Po realm could be raised quickly. Chen Xiang wanted her to be faster, so she would have to stay here for a while longer.

In the blink of an eye, another two days had passed. Xu Youqing and Du Xiaoling tightly held onto their ten fingers without moving at all.

But while concocting the pills, Chen Xiang suddenly felt pain on his waist!

Bai Youyou and Bai Ziqian were also suddenly shocked, because they suddenly saw a white figure standing beside Chen Xiang!

The white shadow that suddenly appeared beside Chen Xiang was precisely Xia Bailing, and she was currently pinching the flesh on his waist.

"Little Scoundrel, you actually did that when I was lying in there. You're so bad." Xia Bailing scoffed, her face red.

Xia Bailing actually knew about it!

After Bai Ziqian heard this, her cold and charming face suddenly flushed red, and she lowered her head, not daring to raise it up. After all, there were people watching the entire scene from the side, of course she did not know that Chu Hongqing and Yang Xiangyin were also aware of this matter.

"I was wrong, shh!" Chen Xiang said softly. Even though it was very painful, he did not dare cry out.

"Hmph, I'll teach you a lesson next time!" Xia Bailing scoffed, then looked at Du Xiaoling, she stared at her beautiful face with a complicated expression, and sighed.

Although Xia Bailing had fainted due to poison, she seemed to be able to know about what was happening in the outside world. Thus, she knew about the conversation between Chen Xiang and Du Xiaoling outside very clearly.

Du Xiaoling was the Heaven Poison Divine Spirit who had spread the deadly poison in her city all those years ago.

"It wasn't her. The Heavenly Dao did it to us." Xia Bailing let out a long sigh, "She is innocent, and she blamed herself for so many years for no reason at all."

Chen Xiang was a little worried just now, but after hearing Xia Bailing's words, he became more relaxed.

"Sister Bai Ling, you are truly open-minded!" Chen Xiang laughed.

"Don't laugh. Although I'm open-minded, I still hold a grudge. Just you wait." Xia Bailing glared fiercely at Chen Xiang.

When she was poisoned, she was lying there detoxifying, and Chen Xiang was actually doing something at the side, she was very angry just thinking about it.

"Sister Bai Ling, weren't you poisoned? How can you still feel it!" Chen Xiang asked in a low voice.

"I am a Dao Sovereign, and I know how to use spatial power, I have long used spatial power to separate my Divine Sense Sea, my Divine Sense Sea is still functioning normally, if there is no hope, my Divine Sense Sea will separate from my body and rebuild it, although it will become much weaker, but in the future, I can still become a Dao Sovereign." Xia Bailing patted Chen Xiang's head again, "Seeing how much you care about me, I will forgive you this time!"

After Xia Bailing was poisoned, he suddenly came over, and she was very concerned about him. However, she was very touched, so when she thought back to it, she felt that she could forgive Chen Xiang.

Bai Youyou saw Bai Ziqian's lowered head, her jade face flushed red, she was extremely embarrassed and could not help but chuckle: "Serves you right!"

"Forget it, I'll forgive you all!" Xia Bailing laughed, then said: "Ziqian, you have been here for a period of time, you must know a lot about here, quickly take me to take a look, it's rare to see such poison, and it's being raised by the Heaven Poison Divine Spirit!"

Xia Bailing was already holding onto Bai Ziqian's hand, as he hopped towards those beautiful flowers, and there were even many beautiful butterflies fluttering about.

"She's really lively." Bai Youyou held her cheeks, and watched Xia Bailing run around in the flowers.

"Yeah, it seems like my previous worries were unnecessary." Chen Xiang was also very pleased, his heart was indeed like a child's.

"En!" Bai Youyou also nodded.

Bai Ziqian had no choice but to play with her. She wasn't too worried that Xia Bailing would get infected by the poison, as both she and Du Xiaoling could be cured of the poison.

[Chapter 2553](#)

Chen Xiang and Bai Youyou were completely stunned. Not only did Xia Bailing ride the centipede to play, he even jumped around on top of a few big furry spiders and treated a venomous bird as a horse.

Xia Bailing also knew that he had to keep this place quiet, so he created a spatial enchantment to prevent her voice from coming over. Chen Xiang and Bai Youyou looked at each other and laughed helplessly.

"Chen Xiang, I need your help!" Xu Youqing suddenly opened his eyes, his expression was gloomy.

"Alright, how can I help?" Chen Xiang asked anxiously.

"Can your Soul Absorbing Devil Spell absorb souls, or is it a power hidden within the soul?" Xu Youqing asked.

"Yes, you want me to use the Soul Absorbing Devil Spell?" Chen Xiang asked.

Right now, I have already dispersed the power of the Heavenly Dao Incantation that is imprisoning the soul of the Elder Sister Xiao Ling, and have separated it from the soul of the Elder Sister Xiao Ling. However, that power is too much, and it fills the entire Divine Sense Sea.

"If we do not take them away, the Elder Sister Xiao Ling will be in a terrible state, and she herself will not be able to resist this power. She will have to rely on external force."

Chen Xiang looked at Bai Youyou, and then asked: "Sister You You You also understand Soul Absorbing Devil Spell, can the two of us go together?"

"Of course you can. That would be for the best, and would allow you to quickly remove the power of the Curse Decree." Xu Youqing said: "You just need to sense the Divine Sense Sea s. I have already agreed to allow your powers into her Divine Sense Sea s."

Bai Youyou nodded at Chen Xiang: "I'm already prepared!"

"Our divine soul will enter, and we will immediately use the Soul Absorbing Devil Spell inside, this way we can more quickly absorb the energy." Chen Xiang said: "Let me ask Elder Sister Xiao Ling, can we directly enter with our divine soul!"

"She said she could, but she must be careful when she goes in, because the Heavenly Energy is very tyrannical inside, and it is not controlled by Elder Sister Xiao Ling. My divine soul must be very careful inside, and Elder Sister Xiao Ling's divine soul is also hiding right now." Xu Youqing said.

Chen Xiang and Bai Youyou pressed their palms against Du Xiaoling's back, then said their farewells to Bai Ziqian and Xia Bailing, telling them to protect their backs well and not to be disturbed.

Xia Bailing also quieted down at this time, and came beside Chen Xiang and the others.

Chen Xiang and Bai Youyou's divine soul had already entered Du Xiaoling's Divine Sense Sea World, and it was a mess inside!

However, Chen Xiang could still roughly see that Du Xiaoling's Divine Sense Sea World was in a very simple and beautiful world. There were blue skies and green hills, and there would occasionally be some flowers.

But now, there were many dark gray clouds drifting around in the blue sky. It was still raining heavily, and the rain was very dirty. The green grass was dyed a dark gray after being watered by the rain.

After the rain stopped, a strong wind blew, bringing with it a gray dust cloud. Amidst the strong wind, there was also a clump of sand!

"Are all these heaven's law charms?" At this time, Chen Xiang and Bai Youyou were holding hands and flying around due to the strong winds, and it was impossible for them to stop.

"Yes, the Heavenly Energy Curse is extremely tyrannical, and the Heavenly Energy Curse accounts for too much grievance. Now that it has separated from the Elder Sister Xiao Ling's soul, it wants to pollute the world of the Elder Sister Xiao Ling." Xu Youqing said.

"Sister You You, let's begin!" Chen Xiang said as he operated the Soul Absorbing Devil Spell.

Chen Xiang and Bai Youyou felt the murky soul power inside, so they operated the Soul Absorbing Devil Spell together. They quickly absorbed it and discharged it from their bodies.

Chen Xiang took out the Chuangshi god furnace, and poured all of the turbid Heavenly Energy he released into the Chuangshi god furnace, burning it and refining it.

"So many!"

Chen Xiang couldn't help but exclaim in surprise after he continuously absorbed for more than two hours, because even though there wasn't much reduction in the absorption process, he still went ahead and absorbed as much as he could without decreasing in the slightest.

"It seems this will take a long time." Xu Youqing sighed: "I didn't think it would be so much!"

"Looks like there's only one way." Chen Xiang said: "Sister You You You, you can leave first. Leave this to me."

"Don't act recklessly!" Bai Youyou was a little worried that Chen Xiang would use a dangerous method.

"It's fine, there's no danger." Chen Xiang laughed: "If I use my method, I can quickly settle it."

"Alright!" Bai Youyou left Du Xiaoling's Divine Sense Sea.

Xu Youqing asked: "Husband, what method do you plan to use? Is it dangerous? "

"It's not that dangerous. It's just that I let my second Divine Sense Sea out here, so you can let him work with me. I'm worried that he'll reject the power of my second Divine Sense Sea." Chen Xiang said. Du Xiaoling's divine soul simply could not flow inside, so he could not directly talk to her.

"Alright!" Only Xu Youqing was able to talk to Du Xiaoling.

"I'm ready to begin!" Chen Xiang said.

"You can begin!" Xu Youqing had already told Du Xiaoling before.

Chen Xiang took a deep breath, then released his second Divine Sense Sea.

His second Divine Sense Sea was extremely special and mysterious as well. However, Xu Youqing knew that his second Divine Sense Sea was extremely terrifying, and that was also a power that Chen Xiang normally did not use.

After Chen Xiang's Second Divine Sense Sea appeared, waves of dragon roars could be heard, a huge dragon covered in green scales roared and soared into the blue sky, with green light flashing from its scales, it was actually a Qin dragon.

Afterwards, the Vermillion Bird's Cry, White Tiger, Black Tortoise, Qilin and Ground-suppressing immortal elephant all roared out, shaking Du Xiaoling's Divine Sense Sea.

Six extremely large Heavenly beasts that seemed to cover the sky appeared in Du Xiaoling's Divine Sense Sea.

"Soul Absorbing Devil Spell!" Chen Xiang passed through the six Heavenly beasts and activated Soul Absorbing Devil Spell. Six gigantic whirlpools suddenly appeared in the air.

The six gigantic divine beasts opened their mouths wide, devouring the Heavenly Energy Curse!

A large amount of Heavenly Energy was sucked into the six gigantic vortexes like six giant pillars. In a short moment, a large expanse of blue sky had already appeared among Du Xiaoling's Divine Sense Sea.

"So fast!" Xu Youqing exclaimed.

The second Divine Sense Sea was Chen Xiang's true strength, and this power was usually in deep sleep. Unless absolutely necessary, Chen Xiang would never use it, because if he used it, he did not know if he could control this strong Heavenly Energy.

Of course, if it was only used in the Divine Sense Seas, there wouldn't be any problems. But if these six Heavenly beasts were to be released outside, according to the special power of the Heavenly Dao Pill and Dao Po realm, the Heavenly beast would borrow the power of Natural Law Principles.

These six Heavenly beasts must be extremely powerful when they borrow Natural Law Principles, he was worried that they might break out of his control then.

[Chapter 2554](#)

Chen Xiang's body was currently unceasingly leaking out black mist. The mist gathered together and turned into black water, which was being absorbed by the Chuangshi god furnace!

Only the flames inside the Chuangshi god furnace could incinerate the Heaven's Path Incantation!

The Heaven's Path Curse that could imprison Du Xiaoling must be very strong. Chen Xiang could feel it clearly at this moment.

For the next two to three days, Chen Xiang continued to devour the filthy Heavenly Energy from the Divine Sense Sea World. The Heavenly Energy flowed out from his soul, he could feel that the Heavenly Energy was extremely evil, filled with killing intent and resentment, with many negative emotions, it was extremely vicious!

Chen Xiang could not understand why this kind of Heavenly Energy spell would contain such a terrifying thing, as if it had completely deteriorated.

"Could it be that there's a problem with the Heaven's Path Divine Art?" Chen Xiang frowned: "Or is there someone who is controlling the flow of the Heavenly Energy?"

The Heaven's Path Curse Energy was originally the energy of the heavens, and was especially transformed into the energy of the heavens. After that, it would enter Du Xiaoling's soul and control Du Xiaoling to spread the death poison everywhere!

"No wonder the death poison is so terrifying." Chen Xiang finally understood the true meaning of death poison. This type of poison contained all sorts of viciousness and death anyway.

After using a few days of time, Du Xiaoling's Divine Sense Sea World had finally become extremely clear. Chen Xiang looked at the colossal dragon in the blue sky, and the Vermillion Bird that was already circling around.

"Alright!" Chen Xiang smiled slightly, then kept his second Divine Sense Sea, and left Du Xiaoling's Divine Sense Sea.

At this time, both Du Xiaoling and Xu Youqing opened their eyes!

"Thank you!" Du Xiaoling's eyes were moist, currently filled with excitement.

"You're welcome." She had put in the most effort, and Du Xiaoling was very clear of this point.

Seeing that Xu Youqing was so tired, Chen Xiang anxiously let her enter You Yao Mountain Villa to rest. She greeted Bai Ziqian before entering.

Du Xiaoling looked at Xia Bailing, and did not dare look him in the eye, she did not know that Xia Bailing already knew about her.

"Let bygones be bygones. I'm very open-minded." Xia Bailing pinched Du Xiaoling's face, and giggled: "I never thought Heaven Poison Divine Spirit was so cute and innocent."

Du Xiaoling stared blankly for a moment, secretly rejoiced in his heart, then smiled sweetly at Xia Bailing: "Mn, thank you!"

Xia Bailing rubbed Du Xiaoling's innocent and cute face. Seeing a big spider crawling on the ground, she quickly jumped on it and chased after it.

"Are you tired? Do you want to take a rest?" Bai Ziqian asked. She was already Chen Xiang's woman and was extremely concerned about him.

"It's not tiring, it's not a problem even if I have to fight with you for three hundred rounds." Chen Xiang laughed.

"Ah?" Do you fight often? " Du Xiaoling knew that their relationship was close, but he never thought that they would often fight.

Bai Youyou chuckled: "They were fighting in the small hut earlier"

Bai Ziqian glared at Bai Youyou, and then pinched Chen Xiang: "You two bastards, don't teach my master too much, she's very pure."

Du Xiaoling was confused, but she did not care too much about it. Right now, she was in a very good mood, being able to remove her shackles and at the same time getting Xia Bailing's forgiveness, was the happiest thing in her life.

"Elder Sister Xiao Ling, do you think my father from the island will be punished again? The death poison has already been expelled by me. " Chen Xiang said.

"You can get rid of that much deadly poison?" Du Xiaoling didn't dare to tell her about this matter before because he was worried that the mysterious heaven's curse power inside her soul would know about it and let her poison it.

"Yeah, it was killed with this flame." Chen Xiang released the Fire of Creation.

"This is ..." This is World Exterminating Flame! " Du Xiaoling was shocked, and her face slightly changed.

"What?" Isn't that called the creator's fire? " Chen Xiang then took out the Chuangshi god furnace. "This thing is called a Chuangshi god furnace!"

"Creation and destruction are similar. Once destroyed, you can create anew." In Xia Bailing's hand was a very small cat, only the size of a thumb.

"Your father's island should no longer be in danger, because the Heaven Poison Divine Spirit is no longer ... However, I am worried that the Heavenly Dao will create another punisher. " Du Xiaoling said.

Xia Bailing laughed, "Even if there are new punishers, they will first kill this little scoundrel." She pinched Chen Xiang's face.

Chen Xiang slapped her hands away and snorted: "You touched so many poisons and you're here to touch my face again!"

Xia Bailing said in a charming voice, "What are you afraid of?"

Bai Youyou asked: "Sister Bai Ling, who was the one who planned all of this? You are so powerful, and you are even using spatial energy, you shouldn't be so easily poisoned. "

When Bai Youyou did not mention it, Xia Bailing had almost forgotten about it.

"It's three bastards, I have to find them, they actually teamed up to ambush me. First, they used an array disc to mess up the space around me, causing me to lose my senses for a short period of time, then they released a large amount of poisonous gas, which I accidentally absorbed."

"This formation plate must be very brilliant. Sister Bai Ling, you are a space dao master." Xu Youqing said after hearing it from the You Yao Mountain Villa.

"They are from the Undead Divine Race, they should be from the Sacred Wasteland. There are traces of the Undead Divine Race in all the great wastelands, and only the Sacred Wasteland has that kind of strength." Du Xiaoling said.

"Un, let's not talk about this first!" Chen Xiang took out a pile of medicinal ingredients and said: "Sister Bai Ling, you are experienced and knowledgeable, tell me what these are."

"So many good things. Where did you get them?" Xia Bailing anxiously shouted. She was also a Alchemist, so she naturally knew about it.

Chen Xiang had asked Xie Qiaoyan before at the Hundreds of Flowers Village, and she had only thrown out the Emperor Blood Ginseng.

"These three are Emperor Grade medicinal materials." Du Xiaoling recognized her as well. After all, she had lived for a long time, and she specialized in refining poisons.

"This horn-like grass is a Dao Dragon Earth Grass. If it is refined together with the Emperor Blood Ginseng, it will be able to create a Dao god emperor Yuan Dan." Xia Bailing said: "This pill is an Emperor

middle tier pill! Furthermore, it is temporarily useless to you, as this is only useful to us Dao Sovereigns. The main thing is to cultivate Dao god gold body. "

Du Xiaoling nodded and said, "Above the Dao Sovereign is the Dao God. One must cultivate up to the Dao god gold body in order to be able to bear the powerful Heavenly Energy of the Dao Gods and step into the Dao God Realm."

"What about this potato thing?" Chen Xiang pointed to the potato that looked like a golden crystal.

"I don't know." Xia Bailing shook his head and looked at Du Xiaoling, "Elder Sister Xiao Ling definitely knows."

Du Xiaoling chuckled: "This is called a Jiuyang earthly fruit, a fruit that grows underground. There is a core within it that can be used to grow! The Jiuyang earthly fruit contains a special Jiuyang Dao power, something stronger than the profound Tao Power! "

"On the same level, the Jiuyang Dao power is ten times more powerful than the profound Tao Power."

[Chapter 2555](#)

"This Nine Yang Earth Cucumber ... "No, Ghastly Fruit, it's that powerful!" Chen Xiang looked at Xia Bailing. Xia Bailing also did not think that she was from the Spirit Wasteland, so he did not know much about this kind of medicine that had profound Tao Power s.

"Elder Sister Xiao Ling, we still have Diprofound fruit. If we refine the pellets together with the Jiuyang earthly fruit, wouldn't that be even more powerful?" Xia Bailing immediately said.

Du Xiaoling nodded his head: "Actually, high level medicines can be matched very freely when refining, mainly because high level ingredients are rare, and there are very few inherent pill formulas, a single medicinal ingredient to refine into a pill, would have very good effects, I need you guys to try it, I only know how to refine poisons, I do not know how to refine pills, but it should be more or less the same."

Bai Ziqian asked: "What is the use of the profound Tao Power?"

The combination of the power of the profound yellow and the power of the Heavenly Dao will make it even more powerful. You might not be able to sense it now, but if you manage to cultivate it to the Dao profound realm Realm, you will understand. " Du Xiaoling said: "In the entire Primordial Wastelands, only the dao auras of profound Wasteland and Sacred Wasteland contain the profound Tao Power, and only these two places are able to produce medicinal ingredients that contain the profound Tao Power."

Xia Bailing pouted and said: "Then doesn't that mean that our profound Tao Power isn't strong Dao Sovereigns are weak compared to the Sacred Wasteland and the profound Wasteland Dao Sovereigns?"

"If we were to compare strength, then it would indeed be much weaker. However, it doesn't matter. We can catch up later on." Du Xiaoling said.

After that, Bai Youyou told Bai Ziqian the method to cultivate the heart of the profound way, which Bai Ziqian did not know about.

After hearing it, Du Xiaoling was very surprised, "Chen Xiang, is this a method to create something? Truly amazing, if I can truly cultivate my heart of the profound way, then I can turn my own Dao energy into

profound Tao Power and when it is needed, I can transform it without needing to go from a newly accumulated state to a new one! "

"Mn, right now I have already cultivated the heart of the profound way. I think if I can refine the Jiuyang earthly fruit and the Diprofound fruit into a pill, it would be very easy to form the mind." Chen Xiang said.

"It won't be easy to grow many of them. This Emperor Grade medicinal herb will take a very long time to grow." Xia Bailing also wanted to quickly refine more, she wanted to cultivate until she had a clear mind.

"It's not too long. There are already more than ten Diprofound fruit here." Chen Xiang laughed.

Du Xiaoling and Bai Ziqian did not know that Chen Xiang had a Creation Divine Well, but hearing Chen Xiang's words, Du Xiaoling picked up the Diprofound fruit and looked at it.

"The aura of the Creation Divine Spring... Do you have a Creator's Well? " Du Xiaoling said in shock: "This is the Natural Law Divine Spirit's treasure, and it's actually in your hands."

"He gave it to me!" Chen Xiang suddenly laughed sinisterly: "Elder Sister Xiao Ling, that guy still has something good. When I see him again, I'll see if I can get back here!"

"The best thing about him is this Creation God's Well. Since he has already given it to you, don't think about his things." Du Xiaoling laughed.

"Little Scoundrel, come back after you grow those Emperor Grade medicinal herbs. I want to stay here for a while." Xia Bailing said: "I also want to cultivate my impenetrable's physique. Elder Sister Xiao Ling, you definitely have a way, right?"

Xia Bailing had experienced death poison before, and had also experienced Sky Evolution's poison, so she was very afraid of poison. She was very envious of Chen Xiang's poison, so she wasn't afraid of anything.

"I do have a way, but I have to endure a lot of hardships. I can't guarantee that I won't succeed." Du Xiaoling thought about it and said.

"No problem, I'm not afraid of hard work, I want to learn from you." Xia Bailing said.

Chen Xiang had already helped Bai Youyou find Bai Ziqian, and even helped him get rid of the curse, so it was time for him to return.

Bai Ziqian continued to stay here, the reason why Du Xiaoling stayed in Beast Wasteland, was because there were not many humans there. Sometimes she had to go out to refine some poison, and if there was an accident and the poison leaked out, it would affect many people.

Before Chen Xiang left, Du Xiaoling gave him three small jade boxes.

"The black box is a Heaven's Divination poison, you should already understand it by now. Inside the white box was the Heart Devouring Bone Poison. If one touched it, all of the Bones and heart in one's body would melt. As for the red box, it is called Drunken Sky Powder. If you smell even a trace of it, you would feel weak all over, and if you are unable to use your Dao Energy, your divine soul will become sluggish. "

Du Xiaoling warned repeatedly, "This is all for your personal defense. You must be careful when using it, so as to not harm the innocent!"

Then, she gave Chen Xiang a jade bottle: "Inside this bottle is the antidote I refined, it can cure all three poisons. If you accidentally poison an innocent person, it can be used to cure the poison."

"What a great item. Can it deal with Dao Sovereigns or something?" Chen Xiang asked.

"It can poison a Dao Sovereign, but a vigilant Dao Sovereign can prevent the poison from spreading. If he wants to spread it all over his body, the only way is to poison his heart!" Du Xiaoling said seriously: "I am only giving you protection, with your current cultivation, you cannot go face to face with the Dao Sovereign, it is very dangerous."

"I know, thank you." Chen Xiang laughed.

"I must remember this!" In order to make Chen Xiang remember, Du Xiaoling had even pinched Chen Xiang's face, causing him to laugh foolishly.

Just like this, Chen Xiang brought Bai Youyou and Xu Youqing back to the Hundreds of Flowers Village, and Xu Youqing once again returned to their artifact forging team. As for Bai Youyou, she planned to follow Chen Xiang for a while, because the members of the War God Team were all outside, she didn't want to go out alone, either.

Inside the Hundreds of Flowers Village, Feng Yujie, Xie Qiaoyan and the others had already started refining Shipo Dan. Chen Xiang and Chu Hongqing had previously refined quite a few already, which was enough for them to eat by themselves.

Feng Yujie and the others did not just refine pills for the Hundreds of Flowers Village's women to eat, the Heavenly Dragon City also needed it, and the Heavenly Dragon City did not want it for nothing. They would go to various places to gather some resources that the Hundreds of Flowers Village said they needed, and at the same time, plant a large amount of medicinal herbs.

With the formation Long Jiuxiao had set up to grow medicinal ingredients, the speed of the cultivation would also be extremely fast.

and the others also planned to return to the profound Wasteland. After all, they had their own city there.

When it was night time, Chen Xiang brought them to the profound Wasteland and entered the city. What was surprising was that there was no attack from the city and everything was very quiet. The dao aura in the city had already become extremely strong, and it was all created by Tie Yuntian.

Chen Xiang did not stay there for long. When he came to Three Money Divine City, he found out from Huang Jintian that Fan Shixin had been looking for him these past few days.

"Manor Lord Fan, is there anything you need me for?" Chen Xiang asked, he was a little worried that the matter of him killing the descendants of the Sky Desolate in Sacred Wasteland would be discovered.

"The more important thing is that although our three great native banks have achieved some results in their training, we are currently unable to enter the Devil Wasteland or the Devil Wasteland. We will

need your help." Fan Shixin said: "Evil Wasteland and the Black Hairs Human inside the Devil Wasteland have roughly two months to break through the barrier, and we plan to start a real battle soon."

[Chapter 2556](#)

Song Yongying and the other disciples were all shocked by Chen Xiang's position, even they did not dare to speak to these Villa Masters casually, as the position of these three Villa Masters was much higher compared to the sect Leaders under the banner of the three native banks.

But from the looks of it, Chen Xiang had a very good relationship with Fan Shixin.

"Alright, let's go out now. I wanted to go to Devil Wasteland for a look since a long time ago." Chen Xiang said: "Oh right, didn't Undead Divine Race and Evil Spirit Race go to Devil Wasteland to mess around the last time?"

"We fought with them. They suffered heavy casualties, so we're fine." Fan Shixin took out a small jade house and told Song Yongying's group to go inside. There were a lot of disciples in his small jade house.

"We have to be careful of these fellows. I wonder if the three manor lords have heard of the Heaven's Divination poison." Chen Xiang asked.

The three Villa Masters had heard it before, because when they heard Chen Xiang say those words, their faces suddenly changed.

"Chen Xiang, you've seen this poison before." Fan Shixin asked quickly.

"I have. They used the Heaven's Divination poison to attack a Dao Sovereign and did it right at Spirit Wasteland. I wonder how they got the poison?" Chen Xiang said.

"Looks like Undead Divine Race can't sit still anymore. They actually dared to use this poison." Fan Shixin's expression became grave, and then he took out a jade talisman.

Pan Yuan and Lu Shanze had also taken out their Communication jade Symbol paper to send out the message, probably to report this matter. Above them, there were two other Villa Masters who were even more terrifying.

"Alright, let's head out now. Our villa's master will have a plan to deal with the Undead Divine Race, you don't have to worry." Fan Shixin said.

Soon after, Chen Xiang followed Fan Shixin to a Transmission array.

"This Transmission array can directly teleport us outside of Devil Wasteland, but you only need to bring us through that barrier." Fan Shixin said: "After you bring us in, you can come back immediately and pick us up at a later time."

That was why there were three Villa Masters leading the way. These three Villa Masters did not want Chen Xiang to encounter any danger within the Devil Wasteland.

"Alright, I might have to stay in there for a while when the time comes." Chen Xiang said. He had Six Realms mirrors, so he could protect himself inside, but as long as he did not meet a leader level Black Hairs Human, those level of Black Hairs Human would all be Dao Sovereigns, extremely powerful.

The Transmission array opened, and Chen Xiang and the others arrived outside the Devil Wasteland.

Chen Xiang looked around, it was a wasteland, its surroundings were filled with death aura, all of this aura was coming from the Devil Wasteland.

"This was originally a grassland, but now it has become like this." Pan Yuan sighed. "This barrier won't last for long before it explodes."

Now that the death aura had already leaked out, it was clear that the barrier would not last for long.

"Let's go in now." Chen Xiang took out his Six Realms mirrors.

Seeing him, the three manor lords were very surprised. Chen Xiang actually had this kind of thing, although they did not know much about the Six Realms mirrors, but they could tell that this was a very powerful thing.

Of course, they were just curious and didn't ask too much. They all mounted Chen Xiang's Six Realms mirrors.

Chen Xiang channeled the energy of the White Tiger Dao mark, and then teleported into the barrier, arriving inside the Devil Wasteland in the blink of an eye.

"Come in." Fan Shixin looked behind him and confirmed that he had entered. Following that, he felt an extremely bitter aura of death.

Pan Yuan looked at the sky, "The entire Devil Wasteland is covered up by this evil aura, it can be seen how scary of an event this place has been through."

"The Black Hairs Human in here should be even more terrifying than the profound Wasteland." Chen Xiang had already sensed an unusual aura, all the Black Hairs Human s inside the Devil Wasteland had awakened very early, there must have been a certain degree of evolution.

Fan Shixin and the other two manor lords each took out a small jade hut. After tossing the jade hut far away, the small jade hut slowly grew in size and turned into a palace in the blink of an eye.

"Chen Xiang, if you don't want to go back, you can stay in the palaces too. The three palaces are very sturdy." Fan Shixin said.

"Yes." Chen Xiang nodded, he planned to stay here to cultivate for a while before going.

Not long later, the disciples of the three palaces walked out, and Chen Xiang entered one of the palaces, choosing a secret room.

Now, he continued to eat Shipo Dan in order to breakthrough.

Chu Hongqing and Yang Xiangyin were currently cultivating. They had previously eaten Shipo Dan and were currently refining its medicinal power, making a breakthrough very quickly.

"There are still two hundred pills, which should be enough for me to enter the fourth level of Dao Po realm." Right now, Chen Xiang was already at the third level of the Dao Po realm, so entering the fourth level shouldn't be too difficult.

After eating the Shipo Dan, he started to cultivate ...

Three days later, Chen Xiang had already stepped into the fourth level of Dao Po realm. It might be difficult for others, but it was extremely easy for him.

At this moment, while he was washing the sweat off his body in the secret room, he felt someone pushing the door open.

Although the palace was very safe, it was, after all, inside the Devil Wasteland, so Chen Xiang could be vigilant at any time, and release a Space Domain at any time.

"Who the hell are they?" Chen Xiang immediately turned into a mist and hid himself. Then, he floated outside and saw two people.

"There should be someone inside. There's still water here. Could he have discovered us?" The one who spoke was a very skinny man, and judging from his clothes, he was from Eternal Life School.

"Could it be because the battle outside is too intense that it disturbed him and he used teleportation to escape?" Another man said.

"That might be possible. I heard that this guy's Spatial Force is very strong. It seems that we've failed this time. What a rare opportunity." The very skinny man sighed.

"Don't worry. If our men succeed, once these three palaces fall, this fellow will die sooner or later."

"That's right, the Three Great native banks are unable to win against us, the Heaven Wasteland Aristocratic Family. They should not know that the awakening and evolution of the Black Hairs Human was caused by us, heh heh, this time, when they come in for a real fight, 80% of them will not be able to return."

Hearing these, Chen Xiang was shocked, he never thought that Heaven Wasteland Aristocratic Family would be the culprit, and their motive was clear, to attack the three great native banks.

Chen Xiang thought about it and decided to not deal with these two fellows for the time being. Otherwise, he would alert the enemy, and he would have to contact Fan Shixin quickly. After that, he would discuss with Fan Shixin and the others how to handle this matter.

"Seems like all three palaces have been attacked by the Black Hairs Humans. I wonder how long they can last." Chen Xiang could guess that there was a traitor within the three native banks, and the two that Chen Xiang had just seen were them.

The three palaces that had just appeared were attacked so quickly, it must have been attracted to them by the spies.

"En!" Chen Xiang nodded, he planned to stay here to cultivate for a while before going.

Not long later, the disciples of the three palaces walked out, and Chen Xiang entered one of the palaces, choosing a secret room.

He was going to continue eating Shipo Dan s to break through!

Chu Hongqing and Yang Xiangyin were currently cultivating. They had previously eaten Shipo Dan and were currently refining its medicinal power, making a breakthrough very quickly.

Hearing these, Chen Xiang was shocked, he never thought that the Heaven Wasteland Aristocratic Family would be the culprit, and their motive was clear, to attack the Three Great native banks!

The three palaces that had just appeared were attacked so quickly. They should have been attracted over by the spies.

[Chapter 2558](#)

Chen Xiang teleported to the outside and discovered that many disciples were fighting with Black Hairs Human. The number of Black Hairs Humans did not seem to be that high, so all the disciples dared to leave.

"Not good, there won't be that few Black Hairs Humans." Chen Xiang frowned: "These disciples are too inexperienced, it's obvious that they were lured out."

Chen Xiang didn't need to think about it to know that there would definitely be a Black Hairs Human in this area.

He immediately rode his Six Realms mirrors and flew over, shouting at the disciples who were fighting, telling them to quickly enter the palace.

The defenses of the three palaces were very strong. Just now, when Chen Xiang came out, he could feel that if he was attacked, he would definitely be able to hold on for a while.

These disciples all knew of the relationship between Chen Xiang and the three Villa Masters, so after hearing Chen Xiang's words, they all returned to the palace, although they still did not understand the reason.

"Everyone, it's impossible to have so few Black Hairs Humans, especially this one." Chen Xiang said, "Even if there are so few Black Hairs Humans attacking us, the number of people after this will definitely increase. Moreover, there is a fellow like the Transmission Master among the strong Black Hairs Humans as well, so the Transmission Master I met before could teleport thousands of Black Hairs Humans in one go."

Chen Xiang's voice was very loud, he was telling the disciples of the three palaces to understand what kind of crisis they were in just now.

The two spies who had tried to kill Chen Xiang earlier couldn't help but curse when they heard Chen Xiang's words.

If the disciples that left the palace to fight did not return, when they had exhausted most of their energy in the battle, a large number of Black Hairs Humans would have teleported over, and all of them would have been killed.

Just as Chen Xiang finished speaking, a large group of Black Hairs Humans suddenly appeared, surrounding the three palaces tightly. There were at least one hundred thousand Black Hairs Humans.

There were many disciples on the floors of the palace that could be seen from the windows. Seeing this, they couldn't help but break out in cold sweat, if not for Chen Xiang calling them in, they would have died without a doubt.

After the Black Hairs Human appeared, he started to attack the three palaces crazily, but he was unable to break through the defense of the palaces.

Chen Xiang told everyone to calm down and to wait inside the palace for the three Villa Masters to return.

Fan Shixin and the others had only brought a portion of the team out, the majority of them were left behind.

Chen Xiang took out his Communication jade Symbol paper and sent a message to Fan Shixin.

"Villa Owner Fan, where are you guys? Come back quickly, there's a traitor, and he attracted a large group of Black Hairs Human." Chen Xiang said, but he did not receive a reply. It was possible that he was too far away.

Chen Xiang had just used her consciousness to monitor those two fellows who wanted to assassinate her. Those two fellows did not dare to do anything now, and their strengths were not weak either, they were both from the Dao Shi realm, but they were not the strongest people here.

Now, everyone had retreated back into the palace. If the two of them were to take action and kill Chen Xiang, the matter would be exposed.

It seemed that he had to forge that pill in advance.

Even if he had to use both Jiuyang earthly fruits to refine, this would be an extremely huge challenge for Chen Xiang as he was currently unable to refine even an Emperor Pill.

"First, we will separate the refining of Jiuyang earthly fruit and the refining of Diprofound fruit." Chen Xiang planned to start right now. If Fan Shixin and the rest are unable to return within a short period of time, then the three palaces would be in danger.

He didn't know if the Jiuyang Dao power that Du Xiaoling was talking about was really strong, but Du Xiaoling had said that this kind of Jiuyang Dao power had a strong killing power that could instantly kill Black Hairs Human.

Chen Xiang could only try it first. The Devil-suppressing magic power he had previously used against demons had a very good effect, even if it was much stronger than him, he would still lose miserably against these Devil-suppressing magic power.

So Chen Xiang thought that the current profound Tao Power and Jiuyang Dao power were similar to the Devil-suppressing magic power.

Arriving at the palace, Chen Xiang asked the few array masters inside about how long the defensive array could last. At this point, they were all worried, because the palace's defensive array could only defend for a month at most.

"There's still a month, that's enough." Chu Hongqing said: "In another ten days, the Jiuyang earthly fruit will be harvested, and there should be a lot of Diprofound fruit."

Right now, within ten days, Chen Xiang had to familiarize himself with refining Diprofound fruit, at that time, with refining together with the Jiuyang earthly fruit, it would not be too difficult.

"Yes, I'll start now." Chen Xiang returned to the secret room. This time, he reinforced the door of the secret room, using the Six Realms mirrors to release a seal. Even Dao Sovereign would need a bit of strength to break through.

Chen Xiang took out a Diprofound fruit. Although the Diprofound fruit was completely black, it emitted a dense amount of profound Tao Power, and there was even a crystal core within it.

Just as Chen Xiang was about to put the Diprofound fruit into the furnace to refine it, his Communication jade Symbol paper suddenly shook.

"Chen Xiang, we are in trouble here, we did not expect the Black Hairs Human to be so strong compared to what we imagined, you must hold on until we return, the palace can probably last for one month, if we do not return in twenty days, you will think of a way to run out of the palace on your own, and go to the Sacred Wasteland to call for reinforcements." Fan Shixin finally replied to Chen Xiang, "Let's talk about the traitor first. You have to keep an eye on them during this period of time."

Chen Xiang sighed, the Black Hairs Human was indeed powerful, even Fan Shixin and the others could not resist it, and fell into a difficult situation.

Right now, Chen Xiang could only wait patiently for twenty days, at that time, if he did not have any progress in pill refining, he would have to return to the Sacred Wasteland.

"I wonder if there are any Black Hairs Human s with the strength of Dao Sovereigns outside." Chen Xiang was a little worried at the moment, but he had asked those formation masters before. So far, their strongest attack was only at the Dao Sect level.

Chen Xiang placed the Diprofound fruit into the Chuangshi god furnace. This was his first time refining an Emperor Stage medicinal herb, so he was rather excited.

Of course, right now he was only refining the Diprofound fruit by himself, the Diprofound fruit had to be refined together with the Jiuyang earthly fruit, he was also very eager to refine the Jiuyang Dao power.

"Diprofound fruit s should be low-grade Emperor Stage medicinal herbs, and Jiuyang earthly fruit s should be mid-grade Emperor Stage medicinal herbs. If the two are combined to refine pellets, it would be mid-grade Emperor Stage medicinal pellets." Chen Xiang said: "If I can refine this Diprofound fruit into a pill, then I can understand how to refine low grade Emperor Stage pellet. After that, refining a middle grade pellet will be much easier."

"If I were to add those purple pearls to water, the Jiuyang earthly fruit might be able to reap a good harvest a few days in advance." Chu Hongqing said, she was also aware of the current situation.

"That's for the best." Chen Xiang released the flames and began refining the Diprofound fruit.

[Chapter 2559](#)

The process of refining the Diprofound fruit was not as easy as Chen Xiang had imagined. After all, this was an emperor level medicinal ingredient, and it was even a bit special, and there was a large amount of profound Tao Power contained within. Fortunately, he had refined a few profound Dao king Dan before, so he had accumulated some experience with the characteristics of the profound Tao Power.

Chen Xiang only started for a short while before he encountered a very thorny problem. The layer of black fruit flesh and skin on the Diprofound fruit's surface suddenly cracked, as if it was going to break.

After it cracked open, waves of profound Tao Power s were constantly used inside the Diprofound fruit, and this profound Tao Power had a huge impact on the flame, causing it to not burn in its normal state and becoming a little berserk.

"The inside of the Diprofound fruit is a crystal core. If this crystal core is not suppressed, this situation will definitely continue." Chen Xiang immediately used Tai Chi to release a small Taiji yin and yang map and seal that crystal core.

The crystal core quickly stabilized and the flames inside the furnace became much calmer. In just a few moments, it returned to its normal state, and Chen Xiang managed to refine it relatively smoothly now. The fruit flesh and skin outside the crystal core had already been slowly refined and turned into medicinal liquid.

Right now, only the crystal core had not been refined, the crystal core contained a lot of profound Tao Power s. Chen Xiang continued to release the creator's fire to burn it, using the Mirage Flame to slowly refine it from the inside of the crystal core.

This crystal nucleus was the most valuable part of the entire Diprofound fruit, Chen Xiang had to burn it for a good six hours before he managed to refine the entire crystal core into a medicinal liquid.

There was a lot of liquid medicine inside the furnace. After all, the crystal core had compressed a lot of profound Tao Powers, so after refining, there would be a lot of compressed profound Tao Powers that had turned into liquid.

"Looks like the difficulty of refining this Diprofound fruit is not too high. I just wonder how it will fuse with the Jiuyang earthly fruit." Chen Xiang began to condense the pill. He planned to condense this huge mass of medicinal liquid into a single pellet.

Of course, if he were to divide it into a few groups, condensing a few pellets would not be a problem, but right now, in order to obtain more profound Tao Power, and condense them into a single pellet, the quality would increase even more.

At this time, he was using the Sublimation refining method to refine, which could improve his quality. In order to succeed, he did not plan to use the Crash method, as it would consume a lot of energy.

"If I knew, I would have refined it with a Jutian Dan Ding. This Jutian Dan Ding can improve its quality by a lot." Chen Xiang was currently refining with a Chuangshi god furnace.

The Jutian Dan Ding was something he had won in a gambling match with before, and it was also a very good Heavenly artifact.

The process of condensing a pill was not easy. It required a very long time, especially on the first try. Normally, it would take a very long time for it to be completed.

Chen Xiang spent an entire two days to condense one Emperor Profound Core.

"Dijie Dan are just used to cultivate profound Tao Power." Chen Xiang looked at the golden pellet, and then ate it. Right now, he urgently needed to cultivate the heart of the profound way, as long as he could cultivate the mind, he could absorb the profound energy in his Divine Sense Sea through the heart of the profound way, and quickly turn it into profound Tao Power.

In other words, as long as he succeeded, the vast amount of dao energy in his Divine Sense Sea would be equivalent to profound Tao Power, and he wouldn't need to cultivate the profound Tao Power alone like the people in the profound Wasteland and the profound Wasteland.

As for the cultivators in profound Wasteland and Sacred Wasteland, from the moment they started cultivating, they were able to absorb the profound Tao Power from the Dao energy. However, other than these two places, no one else had such conditions.

After Chen Xiang consumed the Emperor Profound pellet, he quickly entered into a state of cultivation.

At this time, the profound Tao Power was like a large river, flowing endlessly into the heart. The Emperor Profound Core contained an extremely large amount of profound Tao Powers.

In half a day, Chen Xiang refined the medicinal power into the heart of the profound way, and at the same time, his heart of the profound way became stronger and stronger, he was already able to convert the Dao power into profound Tao Power, but its speed was rather slow, if he had a mental plan, he could instantly transform it.

Chen Xiang also did not refine any Emperor Profound pills now, but was waiting for the Jiuyang earthly fruits to grow out.

"Hongqing, how is the growth of this Jiuyang earthly fruit?" Chen Xiang asked.

"Jiuyang earthly fruit need to be buried deep under the soil." Chu Hongqing said: "The Jiuyang earthly fruit will bud on its own, then grow a blade of grass, and then split the grass into branches to grow other Jiuyang earthly fruit."

"In other words, if it is planted, isn't it a string of fruits?" Chen Xiang laughed.

"Yes, the one from before. There are around 20 of them in a row. With the help of the purple pearls, they will mature and be used to concoct pills after two more days or so." Chu Hongqing said.

There were still two days worth of time, and Chen Xiang couldn't wait any longer either. As long as he went out for a walk, he could see through a window that many Black Hairs Human s outside were still attacking the palace.

In order for the palace to resist, the array formation continued to circulate, this way, it would continuously consume energy, once the energy inside the palace was used up, the Black Hairs Human would be able to attack.

"I wonder if there's a Dao Sovereign's Black Hairs Human outside." Chen Xiang pondered, he did not know if he could match up to the Black Hairs Human s with the Dao Sovereign level of cultivation, once he mastered it.

He felt that by relying on the Six Realms mirrors as his defense and using the Heavenly magic sword as support, he would be able to kill quite a few Black Hairs Human s. If the other party had a Dao Sovereign, he wouldn't dare to act rashly.

Chen Xiang took out the Heavenly magic sword, changed it into a Ninth Heaven Divine Bow, and shot it towards the Black Hairs Human outside.

He aimed at the heart of a Black Hairs Human, and after the arrow pierced through the heart of that Black Hairs Human, that Black Hairs Human suddenly exploded.

The Black Hairs Human outside were very concentrated, so a single explosion would affect the surrounding area. Just this one arrow alone had already cost a few thousand.

"Like the Black Hairs Human s, the heart is their weakness." Chen Xiang was secretly happy, this was an extremely fatal blow.

After the arrow just now, Black Hairs Human seemed to have received orders, as they scattered apart, maintaining a certain distance. This way, even if they exploded again, they wouldn't blow up a large area like before.

"There must be a leader nearby." Chen Xiang used the Dao heart Eye to carefully observe. Amongst the surrounding Black Hairs Human, that Jin Xin was the same size, and there were no Transmission Master s inside.

The Transmission Master must have been complex enough to teleport over to ordinary Black Hairs Human, then they all hid themselves.

"The Black Hairs Human here seems to be very smart." Chu Hongqing said: "This is not easy to deal with."

Previously, when Chen Xiang was inside the profound Wasteland, when he teamed up with Tie Xiong and the others, he had easily killed thousands of the Black Hairs Human, and they were all in the distance at that.

Chen Xiang was waiting for the Jiuyang earthly fruit to mature, so he also planned to use the Nine-Xiao God's Bow to kill as many people as possible in the next two days.

[Chapter 2560](#)

When Chen Xiang was killing Black Hairs Human, he discovered that the two spies were nearby, they were obviously monitoring him, Chen Xiang did not have much patience left, if he was watched like this again, it was very possible that he would torture the two of them to death, regardless of the cost.

"Wait till I finish cultivating my mind, Manor Lord Fan and the others still haven't returned. I will finish off these two fellows first." Chen Xiang thought.

Two days had passed and the Jiuyang earthly fruit had matured. Chen Xiang was already impatient and hurriedly entered the secret room.

Previously, he had planned to refine Jiuyang earthly fruit by himself, but now, with some impatience, he decided to do so too!

"Let's use the Chuangshi god furnace first. It would be more convenient to refine it with the World Creation Flame!" Chen Xiang wanted to use Jutian Dan Ding, but he was not familiar with refining Jiuyang earthly fruit yet, so it would be easier for him to fail when using Jutian Dan Ding.

Chen Xiang felt like he was putting the Diprofound fruit into a pill furnace to refine it. When he was almost done, he separated out a space inside the Chuangshi god furnace and placed the medicinal liquid to the side. Then, he placed the Jiuyang earthly fruit into the furnace so that he could refine the Jiuyang earthly fruit alone.

"The Jiuyang earthly fruit and the Diprofound fruit are very different. The Diprofound fruit is just an inner crystal, but the entire Jiuyang earthly fruit is crystallized!" Chen Xiang refined it using his flames and it was extremely difficult to move it. That was why he had no choice but to refine it from the inside out.

Even so, the refining speed was still very slow, and it was difficult for it to reach the speed he had expected!

"This sort of crystallized item is really hard to forge!" Chen Xiang really wanted to shatter this piece of crystal, but he was worried that breaking it would affect the integrity of the entire Jiuyang earthly fruit, and would affect the quality.

"Seems like I can only try that move!" Chen Xiang took a deep breath, and started to release a huge amount of Creation Flame inside the furnace!

compressed all of the fierce flames together. Not long after, they became liquid!

Chen Xiang wrapped the ball of liquid flame around the Jiuyang earthly fruit, and then used a large amount of strength to create a strong pressure. Then, he poured the liquid fire into the Jiuyang earthly fruit.

The liquid fire essence contained a very strong burning power, and this kind of fire essence was not something that could be created easily. It was something that Chen Xiang had comprehended from the Heavenly Alchemy, and it had a very strong refining power, especially towards this sort of crystallized thing.

The flame liquid seeped into the Jiuyang earthly fruit and the Jiuyang earthly fruit also continuously emitted mist of air. When the flame liquid completely seeped in, Chen Xiang controlled the ball of flame liquid to slowly expand.

Meanwhile, the crystallized Jiuyang earthly fruit was also expanding along with the fire liquid, slowly melting as it increased in size!

In just an hour, the entire Jiuyang earthly fruit had turned into a medicinal liquid!

"This technique really does work. However, the energy it consumes is quite great. It requires quite a bit of Dao-energy to condense the liquid flame." Chen Xiang was secretly happy, he had finally refined the Jiuyang earthly fruit.

"Let's call it the 'Pressure Refinement Method'!" Chen Xiang slowly let out a breath.

Although he had already refined the Jiuyang earthly fruit, it did not mean that he would succeed. This was because he still had to fuse the Jiuyang earthly fruit's medicinal liquid with the Diprofound fruit's.

It was not easy to fuse them, Chen Xiang felt a headache just thinking about it, but he could only bite the bullet and charge forward.

Chen Xiang took a few deep breaths and then started to fuse the two medicinal liquids. The process of fusion could be said to be the hardest, if he did not have any special techniques, he could only rely on brute force to fuse the two liquids!

Chen Xiang, on the other hand, had skills. He had many different methods in the Heavenly Alchemy to solve the problems that would arise when he mixed in with many different methods.

The process of fusing the Diprofound fruit and the Jiuyang earthly fruit wasn't as difficult as Chen Xiang had expected, because the two both had certain attributes of the profound Tao Power. Furthermore, he had used various methods of the Heavenly Alchemy when refining them, so he could solve the difficult problem of fusing them, such as the Original source refining.

Although it wasn't difficult, it still took Chen Xiang two days!

"It's only been two days, not too long!" Chen Xiang was just a bit short of perspiration, but he had finally fused with it, and the next step was to condense a pill.

This time, he also planned to condense one pellet, and when he condensed the pellet, he also used the Sublimation refining method to improve its quality!

The condensing of the pellet required time, and Chen Xiang had to spend an entire day to condense it!

"I've finally succeeded!" Chen Xiang took out a small bead that glimmered with a golden-white light. It looked like a crystal.

"This Xuan Core should be considered as a mid-grade Emperor level Xuan Core!" Chen Xiang could not help but reveal a smile. Previously, after consuming the Emperor Profound Core, his heart of the profound way had also improved a lot, if he had eaten the mid-grade Emperor Profound Core now, he had a seventy percent chance of being able to cultivate it.

"To be able to refine a mid-grade Emperor level pill in three days, he is truly amazing!" "In the past, I heard that it would take at least a month to refine a low-grade Emperor Dan." Yang Xiangyin exclaimed.

"Hehe, don't you know who is concocting pills?" Chen Xiang laughed: "Your master is not like those Alchemists."

After Chen Xiang consumed this Nine Yang Emperor Profound Core, he suddenly activated his cultivation technique, preparing to refine the energy into the heart of the profound way.

Once the Nine Yang Emperor Profound Core released a wave of medicinal power, Chen Xiang could immediately feel the difference in the Jiuyang Dao power.

Previously, Du Xiaoling told Chen Xiang, being ten times stronger was this, but now, he felt that it wasn't just ten times stronger, he estimated that it was at least fifteen times stronger!

"As long as I succeed, I can rely on this Jiuyang Dao power to kill a large number of Black Hairs Human." At this time, Chen Xiang was a little excited, he quickly refined it.

Two days later, Chen Xiang, who was bare-chested, emitted a faint white light from where his heart was. He had already mastered the inner workings of the heart, and it was even the Nine Suns.

His Mysterious Dao Heart had already turned into the Mysterious Heart of the Nine Suns, it was far more powerful than the previous Mysterious Heart!

"It's a success!" Chen Xiang secretly channeled his spirit energy and had his Nine Yang Mind Palace transform it. After that, he looked down at his chest and only saw a white light emitting from his heart, and he could clearly feel that his spirit energy had become much stronger after being transformed by the Nine Yang Heart Gem.

Of course, this was compared to the profound Tao Power that he had angered himself to use before, what he was releasing now was the Jiuyang Dao power!

"It's done. We can go out and give it a try!" Chen Xiang clenched his fists, put on his clothes, and walked out of the secret room.

The moment he walked out of the secret chamber, he saw the two spies!

"Brother Shen, we have something important to discuss with you. This place is not very convenient, can we talk inside your secret room?" One of the tall and skinny men said.

Chen Xiang thought for a while, then said: "No problem!"

Just thinking about it with his knees, he knew that these two spies wanted to kill him, and he also had thoughts of taking action against these two spies!
