

Dan God 2561

[Chapter 2561](#)

Both of them were from the Dao Zong realm, so of course Chen Xiang wasn't their match, but he was confident in defeating him. After he entered the secret room, he anxiously took out a red box, and at this time, he was facing the other two.

The two spies were completely unable to see him take out the red box. Moreover, they were also tightly closing the stone door, and at the same time, they were also releasing an array formation. They were worried that there would be a large commotion later.

Chen Xiang pinched a small amount of silvery-white powder from within the red box, then secretly circulated his energy, releasing the power of Creation Flame, allowing the flames to leak out from the fingertip that was pinching the silvery-white powder.

The intense flames burned the silvery-white powder. When the silvery-white powder found a place to burn, it turned into smoke and drifted into the secret room, producing a faint fragrance.

"My two friends, what is the important matter?" Chen Xiang turned around, smiled lightly, and took a whiff; he could smell a very faint fragrance.

This was the poison that Du Xiaoling had previously given him, called Drunken Sky Powder. As long as one smelled even a little bit of this, their entire body would be powerless and they would be unable to circulate their energy.

Of course, these two spies had also smelled it. Just as they were about to make their move, they felt their bodies go soft, and then both of them collapsed onto the ground.

"You ... You. What poison is this? " A man had to use all his strength to say this.

"You want to know? I just won't tell you! " Chen Xiang grinned and said: "You must be spies, right? I came here once before to try and kill me, but I didn't see you! "

The two men looked at Chen Xiang as they laid on the ground, their hearts filled with extreme terror. At this time, they recalled the fragrance that they smelt just now.

They never thought that it would be such a terrifying poison that could knock them down!

And what caused them to feel fear was that their divine soul were rapidly declining. If this continued, their divine soul would become extremely weak, and at that time, they would be no different from ordinary people.

Chen Xiang chuckled and used Soul Absorbing Devil Spell on them, devouring their energy, at the same time he checked their memories.

"They are all from the Dao Zong realm, be careful when you use it on them." Bai Youyou reminded Yun Che. She had been cultivating earlier and had only just awakened.

"Got it!" said. She knew that the Devouring magic kungfu was passed on to her by Bai Youyou, and those two people's cultivation were much stronger than Chen Xiang. Furthermore, Chen Xiang was able to absorb two of them at the same time.

These two traitors were now tormented to the point of living a life worse than death, because Chen Xiang devoured their energy, as though he was slowly cutting into their souls. That was the pain that came from the depths of their souls!

Chen Xiang was only able to devour the dao pills and the fleshly body dao soul of the Divine Sense Sea s. Furthermore, he had to release a very strong World Creation Flame to filter out the energy, which was equivalent to purification.

The memories of these two traitor were quickly devoured by Chen Xiang. Previously, he was still worried that the other two palaces had traitors, but now, it seemed like only this palace had them.

Devil Wasteland and Black Hairs Human's Black Hairs Human were awakened by Heaven Wasteland Aristocratic Family, and when the Black Hairs Human evolved into a leader, they contacted the leaders and formed an agreement with them. They didn't know the specifics of the agreement, they only knew a few things.

As long as they knew that the Heaven Wasteland Aristocratic Family and the Black Hairs Human were united, the three great native bank s would think of a way to deal with the Heaven Wasteland Aristocratic Family!

However, Chen Xiang guessed that the three great native bank s wouldn't start a war with the Heaven Wasteland Aristocratic Family, because the Black Hairs Human was about to break out of the seal very soon, and he would be an ally of the Heaven Wasteland Aristocratic Family.

During the process of absorbing, Chen Xiang constantly refined that power, and unknowingly, stepped into the fifth level of the Dao Po realm!

Although he had stepped into the fifth layer, Chen Xiang did not stop, because the other party still had a lot of energy left in his body.

The two traitors who had been devoured were in great pain. At this moment, they were both crying out in their hearts. In their next lives, they would no longer be traitors. Of course, this was on the premise that they still had another life.

Just like this, Chen Xiang had devoured for an entire night, and finally, he had devoured enough.

"Go to ashes!" Chen Xiang threw the two traitors into the Chuangshi god furnace and burned them to ashes.

Then, Chen Xiang removed the fragrance from the Drunken Sky Drunken Wine and walked out of the secret room.

Coming out from the secret room, Chen Xiang felt refreshed. Breaking through two stages in a row made him very satisfied, but he could not use this method to devour as much as possible.

Chen Xiang arrived at the top of the palace and stood at the very top. He could see the Black Hairs Human around the palace.

"Ten thousand arrows piercing the heart!" The bowstring trembled, and the white light beam formed by Chen Xiang shot out. The instant it shot out, it exploded into a flash, and under the control of Chen Xiang's consciousness, it transformed into countless white arrows, and pierced through the hearts of the numerous Black Hairs Human s in the blink of an eye.

BOO!

Tens of thousands of Black Hairs Human's heart were pierced through by the arrows condensed by the Jiuyang Dao power at the same time, and they exploded at the same time, shaking the entire ground!

Just now, there were many people who saw Chen Xiang run up to the roof. Previously, they knew that Chen Xiang had used a bow and arrow to attack the Black Hairs Human from afar, but now that they saw such a large commotion, they immediately knew it was Chen Xiang's doing.

"The Jiuyang Dao power is indeed powerful, although it is separated into small arrows and contains a lot of Jiuyang Dao power, they can easily penetrate the Black Hairs Human's defenses and pierce through the heart." Chen Xiang was secretly pleased when he saw tens of thousands of Black Hairs Human exploding.

So he pulled the arrow, used the Dao heart Eye to lock onto Black Hairs Human's heart, and released the bowstring!

Another loud explosion rang out!

More than ten thousand Black Hairs Human s exploded as well, turning into dust and smoke. That piece of land was also shattered as a large piece of it caved in.

Chen Xiang's two arrows did not consume much force, but it produced a huge impact, and the power intimidated the people hiding in the three palaces!

They knew that Chen Xiang was not simple, they never expected him to be so terrifying. Many of them were cultivators of Dao Sect, and when they were fighting with the Black Hairs Human outside, they knew that it was not easy to deal with them!

But now, Chen Xiang had wiped out a large part of it with just two arrows, even cutting grass was not as easy as he did.

Sou sou sou!

Chen Xiang pulled out a few arrows consecutively and killed all of the Black Hairs Human s that were surrounding the palace.

"The cultivation base of a Dao Sovereign should appear!" Chen Xiang stood at the highest point of the palace, and looked around.

Suddenly, he felt a weak fluctuation in space, and immediately concentrated in that direction. He saw the space there tremble like a wave, and a large group of Black Hairs Human appeared.

He immediately used the Dao heart Eye to lock onto Jin Xin's biggest arrow, and then shot it out!

Boom!

The Black Hairs Human produced a very intense explosion, turning the surrounding Black Hairs Human into black smoke, Chen Xiang guessed that the one he was targeting was the Transmission Master!

[Chapter 2562](#)

Chen Xiang's strength had suddenly increased by a lot, causing many disciples to be confused. Previously, when they saw that Chen Xiang was still relatively weak, they could only kill the Black Hairs Human s one by one. But now, they could kill them one by one, it was obvious that their abilities had increased by a lot over the past few days.

Chen Xiang stood on top of the palace, as long as a Black Hairs Human came over, he would immediately shoot them. His shooting speed was very fast, and his aiming was very accurate, in just a short moment, he had already shot through several waves. Ybdu.

"I wonder how long it will take before we can stop. There are so many of these fellows, and their overall strength is very strong as well. If we do not have an effective way to deal with them, then with so many Black Hairs Human s running out, the consequences can be imagined!" Chen Xiang was already able to meet the Devil Wasteland's barrier. After it was broken, what would it be like for these Black Hairs Human s to run to the New Eight Wastelands?

The surrounding Black Hairs Human were all shot and killed by the Nine-Soaring Sky Divine Bow, so the leader of the Black Hairs Human seemed to have sensed something, because there were no news of the waves that they had sent out.

Chen Xiang waited for an hour, but no Black Hairs Human came over. It was clear that he knew of the situation here, which meant that he would need to send even more powerful Black Hairs Human over.

"I wonder if there will be a leader or something." Chen Xiang was a little worried, the Black Hairs Human leaders were all cultivators.

Of course, the defenses of these three palaces were also very strong, and even the leaders would be able to hold on for a while.

"Those three manor lords might not be able to protect themselves right now. If there's nothing else, you should go to the Sacred Wasteland and call for reinforcements. You must not go look for them." Bai Youyou said. At this time, she had already understood the dangers of Devil Wasteland and she definitely could not let Chen Xiang take the risk.

Chen Xiang nodded, and said: "I know, my duty now is to protect these three palaces well!" After all, these disciples were here to gather experience, and could be considered to be a relatively outstanding group of the Three Great native bank s. It was just that because there was a traitor amongst them, they miscalculated.

Originally, they had only planned to come here secretly, and it would be safer this way since they were right next to the barrier. However, the traitor had snitched on them, causing the three palaces to be surrounded and attacked by a large number of Black Hairs Human s.

Chen Xiang took out the Communication jade Symbol paper and sent a message to Fan Shixin: "Villa Master Fan, how can I turn these three palaces into small rooms? This way, I can bring them out too. My side is already much better now, even Black Hairs Human was killed by me. "

He had only waited a short while, before Fan Shixin gave him a reply.

"If you want to make the palace smaller, you need to know a spell. I can teach you." Fan Shixin then passed down three incantations to Chen Xiang, and asked: "How were your Black Hairs Human killed?"

"We'll talk about this later, I'll get the three palaces out first." Chen Xiang said before he entered a secret room in the palace. To enter this room, he also needed to chant an incantation.

Chen Xiang chanted an incantation, and the door opened. Then, he entered and chanted that incantation again.

After he teleported out, he saw a small room made of jade. It was a miniature palace. He picked it up and entered a neighboring palace.

He came to the palace, notified the disciples inside, and then shrunk the palace ...

Very quickly, the three palaces were turned into small houses by him, he immediately took out his Six Realms mirrors and rode it towards the barrier.

Now he was a lot more assured, at least the people in these three palaces would not die.

However, when he neared the Spirit Formation, he suddenly felt a very strong spatial fluctuation behind him, then a very terrifying aura came.

"Leader?" Chen Xiang was shocked, he immediately channeled the power of the White Tiger Scar and executed a long distance White Tiger Leap.

It was also in just an instant, and he had already jumped out of the barrier. But at this moment, he turned around, and realised that a very large pit had appeared in the place he was standing just now, and above the hole floated a Black Hairs Human dressed in black armour. His entire body was releasing a powerful and terrifying aura, and the killing intent and death aura that he emitted could actually penetrate the barrier, made Chen Xiang feel a little afraid.

"That was close!" Chen Xiang was panic-stricken, if he was slightly slower, he would have died inside.

"He's probably not a leader, but his group are similar to Dao Sovereigns. They are also a team." Bai Youyou said. From within the You Yao Mountain Villa, she could feel the aura coming from the barrier.

Chen Xiang had even planned to stroll around the Devil Wasteland, but now that he saw this group of people, he didn't dare go back immediately.

Although he knew that these twenty odd Black Hairs Human s were unable to pass through the barrier, he was still stared at by more than twenty pairs of eyes, and inwardly felt goosebumps all over his body.

He rode on the Six Realms mirrors and sped up his teleportation to leave this place

After running for a while, he finally reached the Three Money Divine City!

The three Third Masters were currently in the Devil Wasteland, Chen Xiang felt that they were all either trapped or in a difficult situation.

Chen Xiang went to the Three Money Divine City, found an open space, and released the three palaces. After that, he told a few elders to go there, those were all elder-type characters, and told them to go to the Sacred Wasteland to contact the three great native banks to get stronger people. Otherwise, the three manor lords would die there.

"What's next?" Are you still going to the Devil Wasteland?" Bai Youyou asked.

"Of course I'm going. If I were by myself, I would definitely be safer, and I don't know when the other strong warriors of the three native banks will make their move. I don't want to wait for them, so I'll go in and take a look." Chen Xiang said.

"Then you must be careful, I feel that the perception of the Black Hairs Humans are also very strong." Bai Youyou said.

Chen Xiang, who was about to take action, suddenly stopped in his tracks. Recalling the Black Hairs Human team that almost killed him, he felt fear in his heart.

"I'm going to find Sister Bai Ling!" Chen Xiang said.

Xia Bailing was still there, and he quickly arrived at Du Xiaoling's underground Poison Palace. He saw Xia Bailing playing with a red spider.

Seeing that Chen Xiang had arrived, Xia Bailing immediately threw the palm-sized spider towards him.

Chen Xiang was afraid of these furry spiders the most, so he quickly avoided them.

"Little Scoundrel, it's not long now, and you're already at the sixth level of Dao Po realm. So fast, did you eat some kind of miracle medicine?" Xia Bailing chuckled.

"Isn't it still eating Shipo Dan?" Chen Xiang said: "Sister Bai Ling, can you follow me to Devil Wasteland? I have a friend who was trapped inside, I almost died inside."

Hearing Chen Xiang's words, Xia Bailing laughed: "Are you afraid now, and do not dare to go in by yourself?"

Chen Xiang curled his lips, then nodded: "I'm afraid of death, so I came to find you. Can you come with me now?"

Just then, Du Xiaoling walked out from the small hut and said: "Bai Ling needs to bathe in my medicinal bath everyday, she needs to cultivate her impenetrable's physique, so she cannot go!"

[Chapter 2563](#)

Bai Ziqian also nodded his head: "This cannot be interrupted, if it is interrupted, then I will have to start from the beginning, those medicinal liquids were all concocted with great difficulty by Master."

Chen Xiang sighed helplessly. "Seems like I can only go by myself."

Du Xiaoling smiled slightly: "Bai Ling cannot go, but I can go with you. I can leave the matter of soaking the medicinal liquid to Ziqian."

Du Xiaoling was much stronger than him, upon hearing that, Chen Xiang was pleasantly surprised, and immediately nodded his head. With Du Xiaoling following them, he was not worried about the strong Black Hairs Human team.

"Little Scoundrel, don't bully my master." Bai Ziqian glared at Chen Xiang and snorted.

"Only she can bully me, how can I bully her?" Chen Xiang laughed.

... ..

She said that she wanted to see the outside world. For the past few years, she stayed here all the time and rarely went out, but now that she had broken free from that shackle, she could finally go out and take a look. Although she was one of the Natural Law Divine Spirit, she had never seen this world, and had frequently visited and destroyed it.

If Chen Xiang wasn't in a hurry to go to Devil Wasteland, he would have definitely flown there all the way, in order to let her see more of the scenery. But right now, he was in a hurry.

Even so, Du Xiaoling was still very happy.

When he was near the Devil Wasteland, Du Xiaoling frowned slightly: "The atmosphere ahead is really depressing, is that the Devil Wasteland?"

Chen Xiang had also told her about the Black Hairs Human before, and she had learnt about it from him.

"En, there are not only many Black Hairs Human inside, but they are also very scary. Once they come out, the New Eight Wastelands outside will definitely be annihilated." Chen Xiang sighed, he was already outside the Devil Wasteland, as long as he passed through the barrier, he would be able to enter the Devil Wasteland.

His current entrance was not the same place as last time, there were many strong Black Hairs Human s there, Chen Xiang would try his best to avoid them, he also did not want to see Du Xiaoling fighting and killing.

"This is a place that should release the poison the most ..." However, the Heavenly Dao is not so certain. " Du Xiaoling also felt very helpless.

Chen Xiang used the power of the White Tiger Dao mark and penetrated the barrier, once again entering the Devil Wasteland.

"Elder Sister Xiao Ling, I might have to trouble you for what's coming next." Chen Xiang said: "The Black Hairs Human in here are extremely powerful, even if I am to hide, they will find out."

Chen Xiang was currently controlling the Six Realms mirrors to release a barrier, this barrier had made them transparent, and also concealed the Qi inside the barrier. If not for his strong perception, it would be difficult to detect him.

"Alright, I understand." Du Xiaoling nodded.

Chen Xiang had also used Counter Power a bit, allowing the array formation released by the Six Realms mirrors to have a better effect of concealment.

"Chen Xiang, have you used the poison I gave you before?" Du Xiaoling suddenly asked.

"I've used Drunken Heaven Powder." Chen Xiang laughed: "The effect is not bad, with just a little bit, you already knocked out two Dao Zong realm people."

"The Drunken Heaven Powder is rather mild. It's best to use both the Heart Devouring Bone Poison and the Heaven's Divination poison as much as possible." As Du Xiaoling said this, he took out a red box and smiled, "This is Heaven's Drunken Wine, I think this box is easier to use, let me give it to you for a bit more."

"Thank you, Elder Sister Xiao Ling." Chen Xiang accepted it, and immediately smiled in gratitude.

In the past, Chen Xiang had also used this type of unique poison, called Drunk god magical poison, which was refined using Drunk god flower s. However, he rarely used it later on, because it was very difficult to increase the poison level in Drunk god flower s.

But that kind of Drunk god flower, Chen Xiang still retained this.

"Elder Sister Xiao Ling, I used this kind of poison frequently in the past. It was refined using this kind of flower." Chen Xiang took out the beautiful Drunk god flower.

Du Xiaoling took it and placed it on his nose to smell it, then laughed: "Drunken Sky Powder is also made with this kind of flower."

Chen Xiang was shocked, and said: "How is that possible, this flower is already very difficult to cultivate. I had previously planted it for a period of time, but I did not make any progress.

Not just the Drunk god magical poison, but the other strange poisons were like this as well.

Du Xiaoling laughed: "That's because you don't know how to grow flowers, and there are three growth processes for these flowers. You were at the peak of the first process of growth previously, so you were unable to let the flowers pass that stage, thus there was no progress."

"Of course, this poisonous flower is different from the medicinal herbs used to forge pills. It is difficult to overcome bottlenecks in cultivation, and I haven't planted many of these flowers in the past few years." Du Xiaoling said.

"I have the creator's well. This shouldn't be a problem, right?" Chen Xiang said.

"That won't do. I was able to condense the Creation God's Spring, but it was still very difficult for me to cultivate it. So it's impossible for you to cultivate it in bulk." Du Xiaoling shook his head: "If you need it, then come find me. I have it here."

As he said that, Du Xiaoling took out a very red flower and gave it to Chen Xiang, saying: "This is the Heaven Sinking Strange Flower, the fragrance is extremely strong, there are other people in your Divine Sense Sea World, it's best not to plant them, it'll harm them."

Chen Xiang nodded his head. Now, he understood why the box that held the Drunken Heaven Powder was red in color.

Recalling the many strange things he had obtained before, a kind of God-eclipse powder thing appeared in Chen Xiang's mind, it was something that was refined using the leaf tree juice on top of the Broken Soul Tree and so on.

"Elder Sister Xiao Ling, have you heard of Broken Soul Tree?" Chen Xiang took out a piece of a Broken Soul Tree's branch.

"I've never heard of it, but I'm very familiar with it. Do you have any leaves?" Du Xiaoling looked at the branch that Chen Xiang handed to her, and she could smell a faint scent.

Chen Xiang took out a few more leaves.

"So it's the Eclipse Tree, I didn't expect you to have such a thing." Du Xiaoling was a little surprised: "But your Heaven Eclipsing Tree is still too tender."

Chen Xiang had not had any special cultivation in a long time, and it was also because he had been careless because he had a lot of things to do.

"What level of power do you need?" Chen Xiang immediately asked: "I used to use the things on this tree to refine something called a God-eclipse powder, it's very powerful."

"This Heaven Eclipsing Tree is also a type of poison. I used to have it, but it was planted to the end and destroyed." Du Xiaoling said: "At the very least, it needs to be planted to attract the attention of the Heavenly Tao Doom s. It's not easy to pass the Heavenly Tao Doom s, you will know after you have planted it."

Chen Xiang nodded, then had Chu Hongqing move the Heaven Eclipsing Tree from a corner to a place close to the Creation Divine Well to cultivate it.

After entering the Devil Wasteland for a while, Chen Xiang took out a piece of Communication jade Symbol paper.

"Chen Xiang, what's the situation over there, have you moved out of the three palaces yet? It's getting more and more dangerous inside, and I don't know why, but the Evil Wasteland and the Evil Wasteland are fused together." This was Fan Shixin's voice.

[Chapter 2564](#)

Chen Xiang immediately sent a message to Fan Shixin, telling him that he had taken out the three palaces. He also told the elders inside to inform the experts of Sacred Wasteland, and asked them where to look for the location of the palaces at the same time.

Chen Xiang did not immediately receive a reply, the previous message was also from Fan Shixin a while ago, he could only receive it when he was near.

"This is big trouble, the Evil Wasteland and the Devil Wasteland actually merged together." Chen Xiang frowned, "How is that possible? To actually combine two Ancient Wastelands ... this requires a very powerful strength to do so."

"It's made by a space god." Du Xiaoling said: "Only spatial gods have such power. When the Ancient Desolation left previously, it was him and the Time God that joined hands."

"Elder Sister Xiao Ling, I heard from the Natural Law Divine Spirit that among all the Divine Spirits, only your power remains. As a result of the Heavenly Dao, all the other Divine Spirits' power has weakened. Is that true?" Chen Xiang asked.

"It's true, but the division of labor for each god is different. I am regarded as having no decline in power, mainly because the poison is still in my hands, and poison is my strongest power. Of course, my own power has not declined, and I don't know the reason why." Du Xiaoling said: "But from the looks of it, my power is not the only one that has not declined."

"Space god." Chen Xiang said: "What's going on with this guy, could it be that he doesn't share the same heart as you gods?"

Du Xiaoling shook his head, "No, the spatial divine spirit is a very special existence, I can only see him at every Divine Spirit gathering. Furthermore, he has been absent a few times, so the time divine spirit is not as mysterious as him."

The reason the Devil Wasteland and the Evil Wasteland were fused together was obviously to allow the combined power of the two ancient Black Hairs Humans to break the Sun Barrier as soon as possible.

"Is the spatial god helping the Black Hairs Human? It's obvious that he is helping the Black Hairs Human by doing so." Chen Xiang was a little angry.

"He can't do this kind of thing ..." Du Xiaoling did not continue, but Chen Xiang understood what she meant.

Previously, Du Xiaoling was also unable to control himself, and this space deity was now as well.

"The Heavenly Dao ordered him to do so." Chen Xiang looked at the dark gray sky.

"It should be said that it was meant to be balanced. After that, the Heavenly Dao caused him to do so. The Heavenly Dao no longer has any consciousness, it only knows how to balance. This balance is no longer the balance from before." Du Xiaoling said.

"Right now, there should be someone using this natural balance between the powers of the Heavenly Dao to do evil, right?" Bai Youyou suddenly said: "This is already very obvious. When the Heavenly Dao was first created, it had already set up a balanced law within the power of the laws, mainly to ensure the harmonious operation of the Heavenly Dao."

Du Xiaoling nodded his head, "Yes, but someone discovered the loophole, so they used this powerful force. No one could resist against this power, and in the end, the entire Heavenly Dao was destroyed."

"Could it be that this was done by the Heaven Wasteland Aristocratic Family? Clearly, all of this was planned. The group of Gods' powers were weak and immediately weakened. Even if they knew of their scheme, it would be useless." Chen Xiang frowned.

Chen Xiang controlled the Six Realms mirrors to fly in the middle of the Devil Wasteland, and its speed wasn't very fast either, because he wanted to find Fan Shixin and the others.

Boom.

A shockwave suddenly came over, Chen Xiang's Six Realms mirrors shook intensely, and the invisible array formation covering the Six Realms mirrors also disappeared, meaning that they were now exposed within the Devil Wasteland.

"It's them." Chen Xiang saw the group of Black Hairs Human that were dressed in black armor, they had a unique and powerful aura.

"They just arrived. You've been discovered." Du Xiaoling said, she was not anxious at all, with a wave of her hand, she released a crystal clear powder.

Chen Xiang only saw a small amount of powder, but when the powder floated in the air, it actually increased continuously, in a few blinks of an eye, it was like a sandstorm that swept towards the group of Black Hairs Human, instantly enveloping them.

Chen Xiang looked at Du Xiaoling. Du Xiaoling was currently very serious, as if he was controlling something. Then, he looked at the large expanse of crystal powder that covered the sky and the earth.

"What is this thing? It's so amazing." Chen Xiang exclaimed.

"Evil Spirit Poison, it has a very strong corrosive poison power. Furthermore, after absorbing the evil spirit energy, it can quickly multiply and increase in power. The Devil Wasteland is filled with a very rich demonic energy, this is a good environment for the Evil Spirit Poison to grow." Du Xiaoling said: "And these Evil Demon and Spirit Poison were all raised by me using my blood, so no matter how much is produced, it is all under my control."

It was Chen Xiang's first time seeing such a strange poison, and his first time knowing someone used poison this way.

Du Xiaoling controlled the growing Evil Spirit Poison and attacked the group of Black Hairs Human.

Black Hairs Human's body emitted a black Qi upon being touched by the poison, and was completely corroded by it. Although the poisonous smoke that was constantly attacking them could dissipate a lot, once they absorbed the Evil Demon's power, the poison quickly increased in intensity.

Previously, the group of Black Hairs Human that Chen Xiang was afraid of had, in a few moments, been covered by the Spirit Poison that Du Xiaoling released, the Spirit Poison was like a white ball of light that emitted a transparent light, it looked extremely beautiful, and even Black Hairs Human who was inside did not know how she was doing.

Using the Dao heart Eye, Chen Xiang was able to see that there were a lot of big Jin Xin s inside, but the light emitted by Jin Xin was weakening bit by bit, and was being corroded by the spirit poison.

Very quickly, those Jin Xin s had completely disappeared.

The sparkling Spirit Poison also dispersed, and the Black Hairs Human that was previously wrapped up by the Spirit Poison had already disappeared, but the Spirit Poison had increased in number.

Du Xiaoling took out a silver bottle and told Chen Xiang to put away the defensive array before controlling the spirit poison to enter the bottle.

Chen Xiang swallowed his saliva in shock. Just now, Du Xiaoling had only released a handful of this spirit poison, but now that he had retracted so many, it took him a whole moment to collect all of them.

"So powerful." Chen Xiang exclaimed.

Du Xiaoling laughed lightly: "This is my more ordinary poison, but it's very beautiful, I like to use it."

Chen Xiang shuddered. Previously, this Du Xiaoling had always given him a very innocent feeling, but now it seemed that he was naturally darkened.

"It's best not to let Sister Bai Ling know. This guy will definitely pester you to teach her." Chen Xiang immediately said: "Don't call her that. She likes to play so much, she will act recklessly."

"Mm, I know. Where is your friend? I haven't answered you yet." Du Xiaoling asked.

"I forgot to let you live. That way, I might be able to find a way to get their information from the Black Hairs Human." Chen Xiang never thought that Du Xiaoling would be able to kill off that group of powerful Black Hairs Human so quickly, to the point where not even dregs remained.

[Chapter 2565](#)

Seeing how Du Xiaoling was able to easily kill off those very powerful Black Hairs Human, Chen Xiang suddenly felt that these Black Hairs Human were not that scary after all.

"Don't let your guard down, all these Black Hairs Human were the Natural Law Guardians back in the day. There was a mistake later on, but their strengths are still there. It's not a coincidence that they know how to evolve themselves." Du Xiaoling said in a serious voice, "I think there must be some kind of power behind this power that is supporting these Natural Law Guardians to complete their evolution."

Chen Xiang controlled the Six Realms mirrors to continue flying, he only wanted to find Fan Shixin and the rest quickly.

Fan Shixin and Chen Xiang's relationship was not bad, and could be considered to be taking care of Chen Xiang. Now that he was in trouble, Chen Xiang would not sit by and do nothing, so he anxiously wanted to save Fan Shixin.

"Elder Sister Xiao Ling, wait a moment. If I meet another one of those strong fellows, can I capture him alive?" Chen Xiang said: "I feel like they will be here very soon. I want to ask them if they are really my friends."

Du Xiaoling nodded his head: "No problem, at that time I will leave you the strongest."

Sure enough, just as Chen Xiang had guessed, after that wave of Black Hairs Human s had been exterminated, another wave quickly appeared.

Du Xiaoling immediately took action, but this time the poison she released was not the demonic spirit poison from before, but a large group of golden wasps.

These bees were not that big, and were just like ordinary bees. The only difference was that their outer bodies emitted a golden glow, which didn't seem to be poisonous at all.

"Elder Sister Xiao Ling, is this not a problem? These bees can easily be killed." Chen Xiang was a little worried. After all, this was something raised by Du Xiaoling.

"I won't."

Du Xiaoling laughed lightly. After the golden hornet swarm flew over, they attacked one of the Black Hairs Human s with a ball of black Qi, seemingly carrying a very powerful force. Just as it was about to envelop the golden hornet swarm, the horde suddenly disappeared.

He himself was an expert in the use of spatial energy, but just now, he did not feel any spatial energy at all.

"Go ... "Where did he go?" Chen Xiang looked around carefully, and then asked in surprise.

"It's inside that guy's body." Du Xiaoling gave a sweet smile, "You'll know once you keep watching."

The Black Hairs Human who was attacking the swarm of bees earlier was wearing a set of armor and looked a little strange. He actually turned around and rushed towards one of his comrades, and then, he punched his companion.

Just now, Chen Xiang had seen very clearly that when that Black Hairs Human punched, the golden light emitted by his fist was the same as that of a swarm of bees. That golden light was extremely corrosive, and anything that the light touched would melt, so that fist could easily pierce through a Black Hairs Human's thick armor and pierce through his body.

The other Black Hairs Human s felt that something was amiss and started to attack in succession. It was also at this moment that the Black Hairs Human who had killed his comrades suddenly exploded, and as it exploded, a golden light flashed, and a swarm of bees gushed out from the Black Hairs Human's body and burrowed into the bodies of the other Black Hairs Human s.

"Alright, they are all under my control now." Du Xiaoling laughed.

Chen Xiang had yet to react, but he could guess what it was. Those golden wasps had a special kind of power that allowed them to drill into their bodies and control that person.

"What the hell is going on?" Chen Xiang still didn't understand, especially when the swarm of bees disappeared, it was as if he had teleported.

"This is the Poison Heart God Bee that I raised. The large group of wasps that you saw are all illusions. The Poison Heart God Bee is actually very small." Du Xiaoling opened her jade palm, only to see a very, very small grain, like an extremely small grain.

This will confuse the enemy, and will allow them to attack freely. However, the true Poison Heart God Bee has already drilled into the enemy's heart, and then entered the Divine Sense Sea from the enemy's heart, thus controlling the enemy. "Su Yun said in a low voice. Du Xiaoling said.

"How amazing." Chen Xiang had already seen how powerful the Evil Demon poison was, and now that he saw such a novel thing, he couldn't help but praise it.

The Six Realms mirrors flew to the side of one of the Black Hairs Human s and Chen Xiang asked, "Is there really no problem with that?"

Du Xiaoling nodded. These Black Hairs Human s had all been invaded by her Poison Heart God Bees and were already under her control.

Chen Xiang then used the Soul Absorbing Devil Spell on one of the Black Hairs Human s to search through its memories and quickly found any information related to Fan Shixin.

Fan Shixin and the rest were trapped in a piece of barren mountain, surrounded by Black Hairs Human, with tens of the more powerful ones among them.

As for Fan Shixin and the other two Villa Masters, they were not weak either. They could withstand those Black Hairs Human s, but they wouldn't be able to hold on for long.

Now, these dozens of Black Hairs Human s were all previously involved in surrounding and attacking Fan Shixin, but they were only sent to chase after him.

"I know where it is." Chen Xiang said.

"Yes." Du Xiaoling nodded her head, she then waved her jade hand, and all of the Black Hairs Human s suddenly released a golden light that shot into the jade case in Du Xiaoling's palm.

Du Xiaoling retracted the Poison Heart Divine Bee, and the dozen or so Black Hairs Human s that had turned into golden fog dissipated. They should have died.

"Why don't you control them?" Chen Xiang asked. He had already controlled the Six Realms mirrors and flew to the desolate mountain where Fan Shixin was.

"The Poison Heart God Bee is also very tired. If we keep controlling it like this, it will cause great harm to it and it won't last for too long." Du Xiaoling said.

Chen Xiang teleported a few times and he saw a barren mountain. There were thick, pitch-black clouds shrouding the entire mountain and purple lightning bolts were produced unceasingly, causing the desolate mountain to be shrouded in an extremely scary atmosphere.

Boom! Boom! Boom!

A tremor suddenly came out from the desolate mountain, it was as though an intense battle had broken out. When Chen Xiang heard the noise, he immediately teleported over.

Just as they walked over, they saw Fan Shixin with his hair in disarray, holding a jade shining sword in his hand, fighting against the three Black Hairs Human s.

Fan Shixin's strength was very strong, and he could easily handle three of these Black Hairs Human s, while the other two Villa Masters were also like this. Currently, the three Villa Masters were fighting with the nine Black Hairs Human s.

"There are a lot of Black Hairs Human s here, looks like this is an experiential learning field." Du Xiaoling looked around at his surroundings, and said softly: "Hurry and bring them away."

Chen Xiang nodded his head and then secretly sent a sound transmission to Fan Shixin and the others, telling them to cooperate with him later.

At first, Fan Shixin and the others were worried, because Chen Xiang's cultivation was low, it was very dangerous for them to be here. However, they suddenly sensed a very powerful Qi, and it was coming from Chen Xiang's direction.

[Chapter 2566](#)

Fan Shixin and the others immediately rushed over to Chen Xiang's side, while Chen Xiang also controlled the Six Realms mirrors to teleport there. Under their tacit understanding, Chen Xiang instantly allowed them to enter the Six Realms mirrors.

"Where are the other disciples?" Chen Xiang immediately asked, and at the same time teleported away.

"They're all inside our Storage magic treasure." Fan Shixin said: "All of these Black Hairs Human s possess a very strong spatial energy. You must be careful."

Of course Chen Xiang knew, he had been chased before, and the moment he teleported away, Black Hairs Human had caught up, and there were a lot of them.

Fan Shixin and the other two Villa Masters all saw Du Xiaoling, they were also clear that the powerful aura was coming from his body, but they did not ask about his identity, and only smiled at him in a friendly manner.

Du Xiaoling smiled back at them in return.

"Originally, we planned to train here, but did not expect that we would become targets to train. In these past few days, we have fought with many of their Black Hairs Human s, and they have completely treated us as targets to train with." Fan Shixin laughed bitterly: "If it wasn't for them thinking that we are still of some value, they would have already ruthlessly attacked us. If it really comes to that, maybe we would have perished together with them."

Pan Yuan sighed, "Chen Xiang, you're still the best. Not only did you manage to escape with the three palaces, you can even save us."

Regarding this, Fan Shixin and the others admired Chen Xiang from the bottom of their heart.

"I've already sent a message to Villa Owner Fan, and a traitor has appeared among your disciples." Chen Xiang said, "These two traitors were sent by the Heaven Wasteland Aristocratic Family. I also learned from them that the Heaven Wasteland Aristocratic Family and the Black Hairs Human have allied themselves, and that the fact that the Black Hairs Human can awaken and evolve is probably all the doing of the Heaven Wasteland Aristocratic Family."

Fan Shixin frowned: "The moment we left the palace, we were followed. And when we left far away, they started to attack us, trapping us inside that barren mountain. At that time, we felt like we were being ambushed."

"I never thought that there would be a traitor within us. This is not something the three of us can handle now, we can only return quickly and inform the Great Landlord. We'll have to leave this to them."

Chen Xiang said a little embarrassedly: "I killed those two spies, and they wanted to kill me secretly. The first time I tried to hide, I also planned to let you guys handle it, but after they failed, I didn't expect that it would happen a second time, and then I would finish them off."

"It's fine, let's go back and explain everything to Great Landlord." Fan Shixin laughed, Chen Xiang had helped them greatly this time, if not they might all die, which was not a small loss for the three native bank.

Although the Black Hairs Human continued to chase them from behind, Chen Xiang was not afraid of them. His speed was also much faster than the Black Hairs Human's, and in a short while, he arrived at the edge of the Devil Wasteland.

This time, although Fan Shixin and the others encountered a large setback when they entered, their gains were not small, which allowed them to have a better understanding of the power within the Devil Wasteland. But at this time, the Devil Wasteland and the Devil Wasteland had already merged.

Right now, all they could do was to let the big cities strengthen their defenses, just like the cities in the profound Wasteland.

After leaving the Devil Wasteland, the three manor masters headed towards the Sacred Wasteland, while Chen Xiang took Du Xiaoling to the Beast Wasteland.

The atmosphere in the Beast Wasteland, on the other hand, was very different. The beasts here seemed to be very peaceful, as if they didn't know that the Black Hairs Human was about to rush out.

Returning to Du Xiaoling's underground Poison Palace, Chen Xiang heaved a sigh of relief. He had finally rescued Fan Shixin and the others.

"How is it, is Devil Wasteland fun?" Xia Bailing ran over and asked anxiously.

"Not fun, it's hidden inside." Du Xiaoling laughed, then patted Xia Bailing's face. "Your impenetrable has improved quite well."

"Of course. I will definitely do what I need to do seriously." Xia Bailing said proudly.

"Elder Sister Xiao Ling, do the beasts in this Beast Wasteland know about the affairs of the Black Hairs Human?" Chen Xiang asked: "The beasts at the top of the mountain all feel quite friendly, do you want to inform them and have them be on their guard?"

"Don't worry about them. They are very powerful." Du Xiaoling laughed: "I've told you before, I'm here to avoid harming many people, if my poison makes any mistakes here, the beasts above will sense it ahead of time and can quickly avoid it."

"The perception of beasts is much stronger than humans."

If there was any disaster, then the beasts would know a lot earlier than humans. Furthermore, it was a very powerful beast.

Du Xiaoling continued to stay and guide Bai Ziqian and her, while Chen Xiang went to Heavenly Dragon City.

The defenses of Heavenly Dragon City and Hundreds of Flowers Village could be said to be extremely strong. Inside Hundreds of Flowers Village, Xue Xianxian and the others were extremely proficient in all kinds of big formation enchantments, and after receiving Long Jiuxiao's guidance, their advancement

had become even more powerful. Long Jiuxiao could only mock himself for not having anything to teach them.

Long Jiuxiao was from the Heavenly Divine Lord's previous life and was already a powerful being. Now, he was also a Dao Sovereign and in this era, he could lead a large group of dragons.

Just as Chen Xiang was talking about the matters inside the Devil Wasteland with Long Jiuxiao, Long Shuangru and Xie Qiaoyan walked in.

"Chen Xiang, you are here too. I thought you were in Devil Wasteland." Xie Qiaoyan said.

"Dad, Qiao Qiao is here to get the medicinal materials." Long Shuangru said: "The place in Heavenly Dragon City is big, and the herbs it cultivates are more than the one in Hundreds of Flowers Village."

"Currently, many medicinal fields are growing medicinal herbs used to refine profound Dao king Dan. Currently, profound Dao king Dan are also in urgent need." Long Jiuxiao said, because cultivating the heart of the profound way was an urgent matter, it could effectively kill the Black Hairs Human.

Long Shuangru brought Xie Qiaoyan to get the medicinal ingredients, and Chen Xiang then told Long Jiuxiao about the Nine Yang Divine Dao Heart, as well as showing the fruits of his cultivation.

"Seems like Chen Xiang you have a method to cultivate the Mind Souls faster." Long Jiuxiao laughed: "Do you think that when the Black Hairs Human attacks us, even we old fellows will be able to cultivate our mind?"

"At least two pills for each of you. Of course, I will first let you cultivate them." Chen Xiang said. Long Jiuxiao was a Dao Sovereign, and a powerful dragon at that, allowing him to cultivate his mental strength. When he used the Jiuyang Dao power, his killing power would increase even more.

"Alright, I'll wait for your pill." Long Jiuxiao said: "After we take care of Black Hairs Human, we can go deal with him. At that time, we will know their real purpose. These guys are very sinister."

[Chapter 2567](#)

To Chen Xiang, refining pills quickly was not difficult at all, so he had already made preparations to challenge the limit.

He followed Xie Qiaoyan and Long Shuangru back to the Hundreds of Flowers Village.

"The Mysterious Nine Yang Emperor Pill is actually an Emperor Stage middle grade pill. To refine so many of them in such a short period of time, this is a test for us." Wu Qianqian chuckled: "It seems like it's been a long time since we've worked together to refine pills."

Chen Xiang said with a wry smile: "It's even a test for me, it requires a lot of Emperor Profound Pills, and it also requires Xue Xianxian and the others to refine. When they are setting up the formation, either they add Jiuyang Dao power or they join in when they are refining, it has a very good effect on the Black Hairs Human."

"Then it will be the War God Squad. Sister Qilian and the other big sisters will have to take them as well, then the Heavenly Dragon City will have to have many powerful warriors."

Su Meiyao laughed, "You will definitely hurry up and finish it. How about this, when we refine either Shipo Dan or profound Dao king Dan, we will hand the Nine Yang Emperor Profound Core over to you. You little scoundrel, at critical moments, can always create miracles."

His words were not bad, so Chen Xiang decided to go all out.

"All of you temporarily stop refining profound Dao king Dan and go refine the Emperor Profound Core." Chen Xiang replied: "I'm worried that I won't be able to handle it myself when the time comes."

"It doesn't matter. We're going to refine the Mysterious Nine Yang Emperor Pill sooner or later anyway ..." Right, these are all Emperor level medicinal herbs. Do you have that many? " Feng Yujie asked.

"Of course not, so I need your help. Give me all of your purple pearls. With the help of your purple pearls, this will certainly be a lot quicker." Chen Xiang took out more than ten Diprofound fruits and a few Jiuyang earthly fruit. "Each of you take one of them a little seriously.

All of the women in the pill refining team knew about Heavenly Alchemy, so when Chen Xiang explained how to refine the Emperor Profound Core, they could all understand.

Then, Feng Yujie left and started collecting purple pearls from all over Hundreds of Flowers Village.

When she came back, she had given Chen Xiang an enormous amount of purple pearls, and there were actually more than ten thousand of them. This made Chen Xiang extremely shocked.

"For now, there are so many of them. Currently, the sisters in our Hundreds of Flowers Village can probably produce around a thousand pills per day." Feng Yujie said.

"Enough."

Chen Xiang had long since found Lv Qilian and passed down the Alive Slain Method to many outstanding female disciples, and taught them to cultivate their Life-Killing Divine Deity so that they could condense purple pearls. Only then would they be able to quickly obtain a large amount of medicinal ingredients so that the refining team could refine them.

"Give me all of your profound Dao king Dan's medicine ... There are even Shipo Dan s. " Chen Xiang laughed: "I'll show you what it means to use all your firepower."

"Three thousand portions of profound Dao king Dan's medicinal ingredients and five thousand portions of Shipo Dan. Are you sure you want to finish refining them all by yourself?" Hua Xiangyue smiled charmingly, "Don't be so tired."

Du Yanyao said: "I still have some here, do you want some too?"

These girls already had some medicinal ingredients in their hands, and that was their mission in pill refining. Then, Ji Ling'er, Hong Xia and Wu Qianqian took out some medicinal ingredients and gave them to Chen Xiang.

Xie Qiaoyan then handed over what he had taken from Long Jiuxiao to him.

"There really are quite a few." Chen Xiang looked at those medicinal herbs. Adding all of their ingredients together, there were more than four thousand profound Dao king Dan s, and even more than six thousand.

Hua Xiangyue kissed Chen Xiang's cheek, and said smilingly: "My master, don't be so exhausted."

"Damnable demon." Chen Xiang grabbed her chest, then hurriedly left the small villa, so as to not be distracted by the two Spirit Demon beings, Su Meiyao and Hua Xiangyue.

"Sister Qilian, arrange a place for me to refine pills quietly ... "Yeah, the bigger ones would be better." When Chen Xiang came to Lv Qilian's place, she saw that Lv Qilian was currently training with the Heart of Profound Spirit Qi and knew that it was an urgent matter.

"Oh, how big is this place?" Lv Qilian asked.

"It would be best if it was a lobby ... "Someone who can store hundreds of pill furnaces." Chen Xiang said.

Lv Qilian thought for a moment, then said: "I'll bring you over to Hui Shan's place."

"Alright." Chen Xiang also didn't understand why Lv Qilian wanted to arrange for him to go to Long Huishan's side, but he agreed anyway as he hadn't seen Long Huishan for a period of time.

Long Huishan also really liked fighting, so she was part of the wargod team. However, during this period of time, the wargod team had all returned, so it was best for them to make their final preparations.

Bai Youyou had also returned to the party now, she had improved a lot within the You Yao Mountain Villa. After all, she had the pills Chu Hongqing had given her inside.

"It's a little cold, I don't know if it will affect you or not." Lv Qilian brought Chen Xiang to the belly of a mountain and the cold aura immediately pounced on him, causing him to shiver.

The belly of the mountain was extremely spacious, it was much more spacious than what Chen Xiang had requested, standing tens of thousands of people was not a problem.

"Big Sister Hui Shan's place is really big." Chen Xiang asked: "Why does she want such a big place?"

When he finished speaking, a burst of cold air fell from above. Chen Xiang raised his head and saw a gigantic ice dragon claw slapping towards him. Now, he knew why Long Huishan's place was so big.

"Sister Hui Shan, aren't you a Draconian? How did you become an ice dragon?" Chen Xiang asked in surprise.

"That ice dragon is my second Divine Sense Sea." Long Huishan said as she walked in from behind Chen Xiang.

Chen Xiang never thought that the ice dragon he saw was actually something inside Long Huishan's Second Divine Sense Sea, just like the Heavenly beast inside his Second Divine Sense Sea.

"Not bad, your ice dragon is getting stronger and stronger." Lv Qilian said.

"It's still to be strengthened, but it's already surpassed by Ancestor Ice Dragon." Long Huishan laughed, and the huge ice dragon suddenly turned into a white light, and entered Long Huishan's body.

"Little Scoundrel, what did you come find me for?" Long Huishan asked.

"It's important. If I want to refine pills, I need a slightly bigger and quieter place, so Sister Qilian brought me here." Chen Xiang said.

"Then refine it here with me ..." Can I also cultivate inside? Relax, I won't obstruct you, what's next is just to cultivate my heart of the profound, I won't release the icy cold power. " Long Huishan said.

"Of course, there's no problem. But I'm worried that I will obstruct you. The commotion caused by my pill refining might be very big." Chen Xiang laughed.

"I'm fine." Long Huishan looked at Lv Qilian, and laughed: Qilian, you can stay here to cultivate as well, it just so happens that we can exchange pointers.

Lv Qilian laughed: "I'm worried that it will distract Chen Xiang."

Chen Xiang curled his lips: "You two are not Xiangyue and sister Meiyao, what's there to be distracted about?"

Of course, Chen Xiang now felt that Bai Youyou was the scariest one, the kind of temptation to create something from nothing was the most terrifying thing, he had already experienced it before.

As expected, Lv Qilian had moved here to cultivate, Chen Xiang felt that it would be good if he had them by his side, because it would be more boring if he were to continue concocting pills, so it would help to relieve his boredom.

Looking at such a large area, Chen Xiang estimated the number of pill furnaces he could place. He had already used the Dawan refining method many times, but he had never refined a true "ten thousand" before.

To him, this was definitely a huge challenge.

[Chapter 2568](#)

The Shipo Dan that Chen Xiang wanted to refine were both high-grade king level pellets. If it was in the past, this would be a challenge to him, but now, it was extremely easy for him to refine one. After all, he was already able to refine mid-grade Emperor Stage pills, and those were even more difficult.

"Chen Xiang, do you really need to use the Dawan refining method in such a big place? How many batches do you plan to refine?" Lv Qilian suddenly guessed something, she had seen the Dawan refining method that Chen Xiang used, the speed at which he refined pills could be said to be terrifying.

"I'm not sure yet, but I'm guessing it might take some time." Chen Xiang was currently calculating. He was very clear about his own strength, and at the same time, was also clear about the consumption rate needed to refine Shipo Dan.

Therefore, he needed a rough estimate. Right now, he didn't have absolute confidence that he could concoct ten thousand pills at the same time. Moreover, there were two different methods.

Seeing how serious Chen Xiang was, both Lv Qilian and Long Huishan did not disturb him and continued to train in the heart of the profound way.

Chen Xiang pondered for an entire two hours before letting out a long sigh.

"What's wrong?" Hearing his sigh, Lv Qilian opened his eyes and asked.

"My cultivation is still not enough. I feel like I'm still a bit off." Chen Xiang said: "Seems like I need to train until Dao Po realm Level 10 first."

Now that he was at the sixth level of the Dao Soul Realm, he was not far off from it. It was just that he did not have that many Shipo Dan on him right now.

"If you want to level up to the sixth level of Dao Po realm, there must be a lot of Shipo Dan, at least five hundred of them. At the moment, we don't have that many." Lv Qilian said, she had a better understanding of the pill's situation.

Chen Xiang nodded his head: "There are indeed a lot of Shipo Dan that we need, but there is one way that we can do it even without using too many Shipo Dan."

"What method?" Long Huishan suddenly asked, we are currently only at the third level of Dao Po realm, we also want to quickly reach the tenth level and step into the Dao profound realm, so our current cultivation is considered very weak compared to this New Eight Wastelands.

Chen Xiang took out the Jutian Dan Ding and chuckled: "Of course it's to refine a high quality pill. Not only can it be completed in a short period of time, the resulting pill will also have an extremely good effect.

It had been a long time since Chen Xiang had used Sublimation refining method and Crash method to refine a high quality pellet. If it wasn't for a special need, he really didn't want to do that. That would be a huge burden on his spirit.

Of course, this was a special time. Even if he didn't want to refine it, he had to force himself to do so.

Chen Xiang had a lot of Shipo Dan's ingredients on him, and he had already begun to refine high quality Shipo Dan, and at the same time, used his peak strength to do so.

Four hours later, when Chen Xiang opened the pill furnace, a burst of golden light shone out explosively. Chen Xiang took out a golden pellet from the furnace, the golden light emitted by the pellet gave off a feeling of suppression.

Just a single pill was enough to make people feel fear, this caused Lv Qilian and Long Huishan to be extremely surprised. They had previously consumed this extremely high quality pill refined for them by Xie Qiaoyan several times.

However, compared to Chen Xiang's current Shipo Dan, what Xie Qiaoyan had refined was just too weak.

"It is just an ordinary medicinal herb, but it has such a huge transformation in your hands." Long Huishan exclaimed, "Is this the difference between Alchemist and himself?"

Chen Xiang laughed, "Don't just look at how I've refined it for four hours, those four hours of experience is equivalent to several years of experience for me."

Chen Xiang used three Crash s, the Sublimation refining method, and the Jutian Dan Ding.

Eating the Shipo Dan, Chen Xiang's face changed. This was the first time he felt such a high quality pill give him such a shock, the sudden outburst of medicinal power was so strong, it was almost as if it was going to destroy his entire body. If it was an ordinary person, they would not be able to suppress the powerful medicinal power.

Chen Xiang was able to easily handle the medicinal power of the pill, and easily circulate and refine it using the Heavenly Alchemy, which allowed him to easily suppress it. He had already unknowingly entered a state of cultivation.

Lv Qilian and Long Huishan were paying attention to the change in Chen Xiang's aura at this moment and were constantly increasing in intensity, which showed that the super high quality Shipo Dan was having a very good effect.

"You can break through with just one pill?" Long Huishan was extremely curious, "If that's really the case, then he should be able to reach the tenth level of the Dao Po realm within a few days."

"That should be it. This guy is becoming more and more terrifying." Lv Qilian nodded.

Chen Xiang cultivated all the way until midnight. At this time, he had already quickly finished refining the medicinal power, and had broken through from the sixth level of the Dao Po realm to the seventh.

If he could continue at this speed, it would not be difficult for him to step into the Dao profound realm, and he wanted to step into it before the Black Hairs Human breaks through the barrier.

After raising his cultivation by one realm, Chen Xiang was also extremely energetic as he continued to refine high quality Shipo Dan s.

"As my cultivation level increases, the quality of the pills I concoct will also increase by a lot." Chen Xiang thought, because when he was refining it, he also needed to use up his own Dao power.

Especially when using Crash method and Sublimation refining method, the more powerful his dao energy was, the better it would be.

had been trying to figure it out for many years. In this regard, he felt that even those old Alchemist could not compare to him, especially so for his Crash method.

"The Crash method should have had a breakthrough." Chen Xiang had already completed the Three Crash, so he felt that he could try the Four Crash.

He had previously imagined that there was no limit to the quality of the pills. From the first few dozen to hundreds to tens of thousands, this was how he slowly broke through.

And in his theory, there was no limit to Crash method. As long as he controlled it well, he would be able to carry out multiple collisions and continuously improve the quality of the refined medicinal herbs.

"Four Crash." Chen Xiang roared in his heart, and the medicinal powers of the condensed crystals he separated fiercely collided with each other.

Boom.

The Jutian Dan Ding erupted with a violent vibration, causing the entire mountain to shake non-stop. Even though Chen Xiang used his spatial energy to block the energy, it still pierced through the mountain.

"Are you alright?" Lv Qilian asked anxiously.

Long Huishan also stopped his cultivation and walked over, only to see Chen Xiang with his eyes closed, looking solemn.

Chen Xiang was almost unable to control himself just now. Although it would not explode, but the force would definitely burst out from the lid of the furnace.

[Chapter 2569](#)

Lv Qilian pulled Long Huishan, allowing her to watch by the side. She also knew that Long Huishan was worried that something might happen to Chen Xiang.

Chen Xiang was currently focused on refining pills, his entire mind was focused on the pill furnace, as though he was immersed in a state of immersion, so he did not hear Long Huishan's voice, nor did he feel the impact of the explosion.

Refining this furnace of Four Crash s was extremely difficult, and was even harder than the Emperor Stage middle rank Shipo Dan that Chen Xiang had refined before. However, if it was refined, the quality of the Shipo Dan would definitely be very shocking.

When he was refining the pellet to the limit, Chen Xiang was also very eager for speed, so right now he was using up a lot of energy every second in order to finish it within the expected amount of time.

Even though he wasn't competing in pill refining, he still had high requirements for himself. This was because only then would he be forced to break through his limits and surpass himself!

Eight hours!

Chen Xiang spent eight hours before finally completing a cauldron of Shipo Dan s that had gone through four stages of Crash. Although there was only one, the quality of this Shipo Dan was extremely high!

"He should have condensed a Dan!" When Chen Xiang opened the pill furnace, he could feel that the quality of the pills that could make it was high to a certain extent.

"This pill is even stronger than the previous one!" Long Huishan said, staring at the Shipo Dan in Chen Xiang's hand, it seemed to be an illusion.

"Mm, this pill is more powerful than I imagined. This pill can form its own Dao Soul!" Chen Xiang exclaimed: "I never thought a pill could have this kind of effect."

A pill with a Dao soul! When Lv Qilian and Long Huishan heard this, both of them felt that it was unbelievable. Although they did not refine pills, they still understood a little about pills, but they had never heard of something like this before.

"Pills can be cultivated just like humans!" Chen Xiang laughed: "Don't be surprised, if one day I am able to refine a pill into an adult, no matter how surprised you are, it won't be too late."

After Chen Xiang finished speaking, he ate the pellet. He felt that the quality of the pellet was more than two times that of the previous one, so after eating it, he immediately went to control the medicinal strength to prevent himself from losing control.

He had refined it for more than a day, and there was still a very strong medicinal power which he had yet to finish refining, yet Chen Xiang had broken through from the seventh level of the Dao Po realm to the eighth level!

This kind of breakthrough speed, even Chen Xiang felt that it was unbelievable. He realized that after being refined by Crash method, the medicinal power would be different, and it would be even stronger than what was normally produced!

Chen Xiang had refined the last of the medicinal power, and it had taken him an entire day, but this had allowed him to directly break through to the ninth level of the Dao Po realm!

"The ninth level of the Dao Soul Realm!" Chen Xiang took a deep breath. Just a single pill was enough to make him level up two levels consecutively, others would only be able to breakthrough in tens or even hundreds of years.

"The pills you concoct seem to be even more powerful than Emperor Stage pills, is that still a Shipo Dan?" Long Huishan asked.

"It's a Shipo Dan, but it's not a High King Stage one. From the quality, it should be a High Emperor Stage one." Chen Xiang said: "I just need to eat one more pill, and I will be able to step into the tenth layer of the Dao Soul!"

As long as he entered the tenth stage of the Dao Po realm, Chen Xiang would have sufficient strength to refine ten thousand batches in one go.

Currently, within his You Yao Mountain Villa, the Jiuyang earthly fruit were still in the process of being planted, and it would take a lot of time for it to grow.

Chen Xiang had the experience from last time, and the Shipo Dan he was refining the Four Crash now was much more stable as well. Although it would still cause quite a bit of commotion, it was not as terrifying as last time.

It was just that the time it took to refine the pill had not been shortened. Completing the pill refinement in four hours was already the limit of Chen Xiang.

Chen Xiang then ate another Shipo Dan refined with the Four Great Crash s. This was a Superior Grade Emperor Stage pellet, otherwise, it would not have such a strong medicinal power that allowed him to level up so quickly.

To Chen Xiang, all of this was not much, because there were still a lot of other aspects that needed to be broken through in the future!

"Dao Po realm is at the tenth level!" In just a few days, Chen Xiang had consecutively increased his strength by several levels, and his cultivation had also increased by a lot. Of course, compared to the Dao Sect experts, he was still very weak, let alone someone with a respectful cultivation.

"So fast!" Long Huishan said as she pouted her lips. She had trained so hard, and not a single stage had been broken through, yet she could only watch as Chen Xiang broke through in succession. This was all because Chen Xiang had managed to concoct such a powerful pill.

"Sister Hui Shan, don't be in such a hurry. When I finish my work, I'll refine those pills for all of you to eat." Chen Xiang laughed: "Anyways, I need to practice this method more because I will need to use it frequently in the future. I need to get used to this method."

Only when he was used to it would he not feel hardworking, thus Chen Xiang decided to use the Crash method to continuously break through the limits and refine higher quality pills.

This spacious stone room was filled with Magic method furnace. Each of the Magic method furnace were filled with medicinal herbs and burned with raging flames!

The ten thousand Magic method furnace were all refining pills at the same time, and this was all controlled by one person!

Lv Qilian and Long Huishan were all dumbstruck when they saw this. At the same time concocting the Myriad Furnace Pill, if they did not personally witness it, they would not have believed this to be true!

Previously, Long Jiuxiao had always praised the refining team in the Hundreds of Flowers Village as extremely strong, much stronger than the three native bank's refining team.

But now, with just Chen Xiang, who knows how many small pill refining teams he would have to take. If Chen Xiang could successfully refine these ten thousand batches of pills, it would be equivalent to Feng Yujie and the others refining for months.

Chen Xiang had already calculated before, that in order to do all this, he would need sufficient dao energy to support it. Other than that, he would also need an extremely strong consciousness to do all of this, and only someone who had reached the tenth level of the Dao Po realm would be able to do so!

He had known the Dawan refining method for many years, but this was the first time he had undergone a true Ten Thousand Refinements. This kind of feeling made him feel a sense of accomplishment, and was also the feeling he pursued when he was refining pills.

At this time, Long Huishan and Lv Qilian did not have the mind to refine pills anymore. They were all seriously looking at the Magic method furnace inside, to be able to witness such a shocking refining scene, was extremely rare for them, and it was Chen Xiang who was doing it too.

Lv Qilian was also very proud in his heart. After all, the powerful Alchemist was her man.

In these three days, all the herbs in the Magic method furnace had turned into glittering pellets. Ten thousand Magic method furnace, there were only a few pellets in each furnace. Right now, these tens of thousands of pellets were floating in the stone room like a resplendent sea of stars, extremely beautiful!

"Completed!" Chen Xiang laughed and then took out two large jade bottles, and put in the profound Dao king Dan and the Shipo Dan respectively.

After he was done, he gave the bottle to Lv Qilian and smiled: "Sister Qilian, give it to me!"

[Chapter 2570](#)

Lv Qilian took the two bottles and then left the stone room. At the same time, she would distribute the pills to everyone so that they could raise their strength.

Chen Xiang still had a lot of Shipo Dan's ingredients on hand, and he was going to refine the Four Crash's Shipo Dan next. This was what he had promised Long Huishan and Lv Qilian before.

"Sister Hui Shan, cultivate first. I'll wake you up after I finish refining." Chen Xiang laughed: "The medicinal power of that pill is very strong, I wonder if you can suppress it."

"Little Scoundrel, don't underestimate me." Long Huishan laughed, "Big sister, I'm a Draconian after all, I'm still very strong!"

Chen Xiang spent the rest of his time concocting pills. This was mainly because he wanted Lv Qilian and the others to level up to the tenth level of the Dao Po realm, and also because his You Yao Mountain Villa was growing Diprofound fruits and Jiuyang earthly fruits.

Those girls all knew about Heavenly Alchemy and could refine the Nine Yang Emperor Profound Core. After they found out that Chen Xiang had used the Crash method to refine a Shipo Dan, they were surprised and also decided to give it a try to see if it was possible.

A few days before the barrier of the Devil Wasteland was about to be broken, Fan Shixin had personally come to the Heavenly Dragon City to find Chen Xiang.

During this period of time in Hundreds of Flowers Village, Chen Xiang had refined quite a few Shipo Dan, all of them of the super high quality.

When Chen Xiang came to the Eternal Life Native Bank, it was as if he had something urgent.

"Manor Lord Fan, did something big happen?" Chen Xiang asked anxiously.

"That's not it, the Devil Wasteland's enchantment barrier will be broken soon, and that's something everyone knows. Everyone is fully prepared for it during this period of time, so when the time comes, our losses won't be too big. We just need a little time, and we will be able to destroy the Black Hairs Human sooner or later." Fan Shixin said: "The reason why I came to find you this time, was mainly because Great Landlord wanted to meet you!"

"Great Landlord?" Chen Xiang was shocked, that was the strongest person in the Eternal Life Native Bank.

"Yes, but he can't leave the Sacred Wasteland, so you have to go by yourself. I can bring you there." Fan Shixin said.

"Alright!" Chen Xiang was also very interested in that Great Landlord. The three Great Landlords of the three great native banks were all very scary people.

However, he seemed to know something now, that these Great Landlords were actually unable to leave the Sacred Wasteland!

"Not only the Great Lord and the rest are unable to leave the Sacred Wasteland, the patriarchs of the other Heaven Wasteland Aristocratic Family are also restricted by the restriction of the Heavenly Energy!" Fan Shixin said as he brought Chen Xiang to the teleportation room inside the native bank.

In the blink of an eye, Chen Xiang and Fan Shixin arrived at the biggest Eternal Life Native Bank!

"Great Lord is right below us." Fan Shixin laughed: "Although this native bank is very high, but he likes to stay deep underground."

Fan Shixin pointed to a room: "If you go in, then go see Great Lord yourself, and I won't go with you! Rest assured, our Great Lord is doing very well. "

There was a Transmission array here. After he entered the Transmission array and activated the array formation, he was teleported to another place. However, this place was filled with heat, and Chen Xiang felt that this might be the center of the earth.

Chen Xiang was sent to another room, and he was also in the teleportation room. After he walked out, he saw a lavishly decorated hall, and on top of the hall sat a luxuriously dressed elderly man.

Looking at the old man, Chen Xiang was startled. The old man gave him a familiar feeling, especially the outline of his face, he felt like he had seen him somewhere before.

"Do you think I'm familiar?" The old man chuckled.

"Un, I think it's a guy called Natural Law Divine Spirit, he looks very similar to you." Chen Xiang was sure that this old man in front of him was very similar to that stupid Natural Law Divine Spirit.

It was just that the old man in front of him had a very good temperament, something that Natural Law Divine Spirit couldn't compare to.

"There's nothing we can do about it. Natural Law Divine Spirit and I were both born from the Heavenly Dao, so we are a little similar." The old man laughed: "I am the Great Lord of the three great native banks, I have been paying attention to you for a long time, I never thought that so many things would enter your body that were hidden."

"Great Lords of the three great native banks?" Chen Xiang was a little surprised, "Didn't the three great native banks have three?"

"There's only one. I created all three native banks." The Great Lord laughed: "The reason we have three native banks is also to deceive people."

There were many tables and chairs in the hall, Chen Xiang casually found one and sat down.

"Great Lord, what are you looking for me for?" Chen Xiang asked.

"There's nothing much I need to talk to you about! I feel that you are a very special existence. According to Natural Law Principles, you should have been done in, but you are still alive and well, so I felt that it

was very strange. For example, allowing two generations to fuse together is definitely not something your strength can accomplish. " The Great Landlord said.

Chen Xiang only smiled. When he thought about it, he also felt that it was true.

"Others may not know about it, but I am very clear that the method you use to refine pills should be the Heavenly Alchemy!" Great Landlord's words surprised Chen Xiang. He did not want this kind of secret to be known by these big shots.

"You don't have to worry. Although the Heavenly Alchemy is one of the Four Great Taboo magic s, it can be passed down. This was originally planned, but I didn't expect that these four were all in your hands. Great Landlord laughed out loud: "Especially that Heavenly Alchemy, when you use it in alchemy, it has an even more astonishing and miraculous effect."

"Great Landlord, who exactly created the Heavenly Alchemy? "This technique is very powerful. I only now do have a very profound feeling of how powerful it is. Moreover, there are still many powerful techniques that I have yet to unearth." Chen Xiang said, he felt that this Great Landlord must know a lot.

He had seen the Sword Hall Elder before, and that elder said that this was something passed down in the Divine Wasteland.

"I don't know about the other three Taboo magic s, but I do know about the Heavenly Alchemy. It was created by the Heavenly Dao Lord. The Great Landlord said.

"Great Landlord, why is the flow of the Heavenly Dao so chaotic right now? Why do I feel like something has gone wrong? Chen Xiang asked again. He finally knew who created the Heavenly Alchemy, and it was more or less what he had guessed.

"Actually, the world we are currently in, is a living being's Divine Sense Sea World!" The Great Landlord suddenly became serious: "This creature is very powerful, and was born with such a real world very early on. Initially, he managed this world well, but later he allowed it to develop freely ... However, before this, he set up the rules for the heavens' law. "

"Later on, this creature didn't interfere with anything in this world. As for why, I don't know either. I tried to contact him many times, but none of my attempts resulted in a response. Back when he was creating me, I often communicated with him."

"I never thought that we would actually be in someone else's Divine Sense Sea World!" Chen Xiang sighed.

"That's right, if we have enough strength, we can jump out. When the time comes, we can go to the so-called Divine Wasteland, and the master of this Natural Law World is also there!" Great Landlord said: "It's just that it's very difficult, and I'm guessing that Master Tian Tian might have met with some troubles over there, so he didn't have the time to think about the development of this place."
