

Dan God 2571

[Chapter 2571](#)

The matter of going to the Divine Wasteland was too distant for Chen Xiang. Currently, the most pressing matter was how to deal with the Black Hairs Human, he did not want the New Eight Wastelands to become a mess with them, after all, he still had to live in the New Eight Wastelands.

Although the environment of the Sacred Wasteland was not bad, but with the Heaven Wasteland Aristocratic Family playing tricks here, it was impossible to live a peaceful life here. Maybe after the Black Hairs Human was released, the flames of war would burn the entire Sacred Wasteland.

"Great Landlord, I heard that you can't leave the Sacred Wasteland. Why is that?" Chen Xiang asked.

This is the restriction of the Heavenly Dao. The patriarchs of the Heaven Wasteland Aristocratic Family s are also bred by the Heavenly Dao, but they are able to reproduce and their descendants all possess great talent. " The Great Landlord said, "The Heavenly Energy has sealed us in the Sacred Wasteland. This is also to prevent us from going out to cause trouble."

"But now Heaven Wasteland Aristocratic Family is using this point to cause chaos outside. Furthermore, Heaven Wasteland Aristocratic Family has been developing in secret for so many years, his strength is much stronger than I had expected." Great Landlord said, "Even though my three great native bank s have a broad range of power, they don't have enough concentrated power. Their deterrence power is only directed at those small forces, so Heaven Wasteland Aristocratic Family isn't afraid of me."

Chen Xiang nodded his head, the Great Landlord had clearly miscalculated, and he was also surprised that the Heaven Wasteland Aristocratic Family was actually so attractive, just developing in the Sacred Wasteland and giving the outside world to the three great native bank, this was clearly a premeditated plan.

"Chen Xiang, the fact that you have the Heavenly Alchemy is already known to Heaven Wasteland Aristocratic Family. It doesn't matter if this body is suitable for them to cultivate or not, because of this body's reputation, they must snatch it no matter what. You must guard against them." Great Landlord said in a serious tone, "It's a good thing that their strongest group of fellows are all unable to leave Sacred Wasteland."

Chen Xiang secretly felt fear at the back of his mind. Before this, he had been wandering aimlessly within the Sacred Wasteland, and he had no idea that he would be in such danger at that time!

To Chen Xiang, the Sacred Wasteland was not a safe place, but instead filled with danger!

"Mn, I understand. I will come to Sacred Wasteland less from now on." Chen Xiang nodded his head heavily. Of course, he would definitely come here in the future, and at that time, he would have enough power to flatten Heaven Wasteland Aristocratic Family.

"Just pay attention. With your capabilities, Heaven Wasteland Aristocratic Family cannot deal with you like this right now. If you need help, you can go find the Third Manor Lord and the others. They will definitely help you." The Great Landlord said.

... ..

It was not the first time that Chen Xiang had been targeted by someone extremely powerful because of the Heavenly Alchemy, so he had sufficient experience in dealing with this kind of thing. He did not chat with the Great Landlord for too long and returned to the Heavenly Dragon City.

Not long after Chen Xiang arrived at Heavenly Dragon City, Huang Yantian came to find him urgently, and on top of that it was a very important matter.

"Chen Xiang, your Storage magic treasure is not equipped with any people, right?" Huang Yantian asked in a low voice.

"Yes, why?" Chen Xiang answered truthfully, Chu Hongqing and Yang Xiangyin were both inside.

"Hurry up and let the person inside out. The matter that I told you is a very secret that cannot be revealed to others." Huang Yantian's tone was somewhat heavy and extremely mysterious.

"Can't you use sound transmission?" Chen Xiang asked.

"No, don't waste any more words, this is a serious matter!" Huang Yantian urged.

Chen Xiang had no choice but to let Chu Hongqing and Yang Xiangyin go to the Hundred Flowers Tower to wait for him while he followed Huang Yantian there.

Huang Yantian brought Chen Xiang to his residence, and went deeper into the secret room. He even added a few array formations.

"Uncle, what is going on? Why are you acting so secretive?" Chen Xiang was getting impatient.

"Something has happened to my little brother!" Huang Yantian sighed: "I never thought that those fellows would actually be so brazen as to capture him!"

Huang Jintian was actually taken away, and at this moment, Chen Xiang knew that the matter was extremely serious, and his expression became gloomy and cold.

"Who took master away? What exactly is going on? " Chen Xiang asked anxiously.

"It was done by the Undead Divine Race and that whatever Evil Spirit Race. That fellow went out and was captured not long after he left the Three Money Divine City." Huang Yantian sighed.

"Are you sure this is real? Are you not joking with me?" Chen Xiang could not believe that Huang Jintian was actually caught.

"It's absolutely true! The Undead Divine Race used our clan's secret method to send a sound transmission to me! And I also used that secret technique to contact my bro. I confirmed that he was taken away, although he said that we should not bother about him, can we ignore him? " Although Huang Yantian and his whole body was quivering and quivering, the relationship between the two brothers were extremely good.

"Of course we can't ignore him. He is my master!" Chen Xiang clenched his fist: "What exactly do those bastards want?"

"They used their clan's secret method to send a sound transmission to me, telling me to pass this matter to you and then ask you to go. Only then would I be able to save my brother ... Chen Xiang, if that doesn't work, then just let my brother die. Huang Yantian said.

"You've already told me, can I not go?" Chen Xiang frowned: "Even though I know this is a trap set for me, I must definitely go!"

"Senior Master, can I call someone to go?" I know quite a few powerful people! "

Huang Yantian shook his head: "They told me that if you brought people there, they would kill your master ... They have the Undead Divine Race's Sky Spill Master over there, so they can calculate that you better not tell anyone else, and only you can save your master now. "

Maybe Huang Yantian didn't really understand the strength of Undead Divine Race and Evil Spirit Race, so he thought that Chen Xiang could save Huang Jintian, and he knew that Chen Xiang had a lot of methods.

However, Huang Yantian did not know the true terrifying thing about Undead Divine Race and Evil Spirit Race. It was that they were a group of guys that even Natural Law Divine Spirit could not handle.

"Is there a time limit?" Chen Xiang calmed down and asked.

"They said that within a month, you will be the only one to go, and they can't tell anyone else." Huang Yantian sighed: "In about a month's time, Black Hairs Human will also come out of Devil Wasteland."

"A month? "Looks like I have to make the best use of my time to cultivate. How much can I improve?" At this time, Chen Xiang had no choice but to take the risk. After all, Huang Jintian was his master.

"Where is it?"

Huang Yantian took out a map, he had drawn this map before, and pointed to a place. It was actually the New Eight Wastelands, but it was more remote and far away from the Heavenly Dragon City.

The matters of the Black Hairs Human had originally been very busy for Chen Xiang, but now that he had been caught red-handed, it made him feel extremely helpless!

He planned to make preparations for this month and then rescue Huang Jintian. He wasn't going to send himself to his death, he already had a plan just now.

[Chapter 2572](#)

When Chen Xiang arrived at Hundred Flowers Tower, Chu Hongqing and Yang Xiangyin was helping Yan Zilan with the shop, especially Yan Zilan who was playing a zither and attracting many people over.

On the other hand, Chu Hongqing was concocting pills.

Chen Xiang told Yang Xiangyin and to stay here for the time being, or to go inside the Hundreds of Flowers Village, while he himself went to Beast Wasteland to look for Du Xiaoling.

He asked Du Xiaoling for a lot of Drunken Sky Pills and two other extremely terrifying and mysterious poisons. At that time, these poisons might be able to help him.

"The ingredients for the Nine Yang Diprofound fruit should be enough for them to refine. I must focus on my cultivation during this period of time." While Chen Xiang was on his way to the Hundreds of Flowers Village, he had already thought of a few reasons.

For the sake of Huang Jintian's safety, he didn't dare to tell this matter to others, and Huang Yantian didn't go around spouting nonsense.

He returned to the Hundreds of Flowers Village and told Lv Qilian that he wanted to make a trip to the profound Wasteland to find Huo Lin.

Chen Xiang did indeed plan to go to the profound Wasteland to find Huo Lin now, he planned to cultivate there for a period of time!

... ..

After leaving the Hundreds of Flowers Village, Chen Xiang went to the city in profound Wasteland. He greeted Tie Xiong and the others, chatted for a while, then headed to the center of the earth.

Huo Lin had a secret realm in the Core of the Earth, which was also a place with a lot of energy, which was why he chose to cultivate here.

"Big brother, how is the situation up there?" Because Tie Yuntian had come down often and told Huo Lin about the Black Hairs Human s above, Huo Lin was very curious about the matters above.

"The Black Hairs Human in the Devil Wasteland is about to come out, so I need to hurry and cultivate." Chen Xiang said: "I'm here to see if I can borrow your energy to circulate the Time Formation!"

Chen Xiang's Six Realms mirrors also had the Time Formation, but in this vast world of the New Eight Wastelands, he did not know just how useful the Time Formation could be.

"Yes, but... Big Brother, this space is different from the Nine Heaven World's from before, and the laws of time are even stricter here, so I do not know how great the effect is, and I am a little worried that it will disturb the core of this place." Huo Lin said: "Big brother, you should try first. If there are any problems, I can remind you later."

Chen Xiang had also thought about this matter before he came here. He nodded, then entered an underground secret room which was filled with dense energy, and took out the Six Realms mirrors.

"In the past, when we were in the Nine Heaven World, the effect of changing the flow of time was very good. Chen Xiang thought.

But now, he had no other choice. A month of time was not enough for him, so he could not become much stronger!

Of course, he did not expect himself to be able to fight against the Undead Divine Race and the Evil Spirit Race after leveling up here, but if he could get stronger now, that would be one thing!

Activating the Time Formation above the Six Realms mirrors, Chen Xiang walked in, stayed inside for a day, and then exited. After calculating, the amount of time he could earn was one year!

"Huo Lin, how's the consumption?" Chen Xiang asked.

"It can only last for one month at the most. Otherwise, the core will be in chaos. At that time, the energy will be unstable and my secret realm will collapse." Huo Lin said in a serious tone: "Big Brother, you have to come out on time!"

"Don't worry, I'll definitely get out on time!" Chen Xiang nodded, and then entered the Time Formation.

Because he was in too much of a hurry, he did not bring any medicinal ingredients with him. Originally, he had planned to look for pills that could help him quickly level up in the Dao profound realm, but it was already too late. First, he had to go to the Sacred Wasteland to find them.

Right now, Chen Xiang could only rely on refining pellets. First, he would refine a batch of Shipo Dan, and that would be using the Four Crashes to refine the Ultra High Quality Shipo Dan!

He had already reached the tenth level of the Dao Soul Realm, and after eating this Shipo Dan, he broke through to the Dao profound realm!

"So the Dao profound realm was used to increase the use of Dao power!" After Chen Xiang had levelled up to the Dao profound realm, the dao energy within the Divine Sense Sea had actually risen by more than ten times through the Tao profound Door. This caused him to be able to casually release a bit of dao energy which was extremely powerful.

"No wonder the Elder Sister Xiao Ling said that the profound Tao Power would be even scarier when we reach the Dao profound realm." Chen Xiang looked at the condensed Spirit Qi in his palm. This was the power that he had condensed after circulating a large amount of Spirit Qi through the Tao profound Door.

He tried to use the Jiuyang Dao power, and as expected, it was extremely powerful, more than ten times stronger than when he was at the tenth stage of the Dao Po realm!

"The power of the Dao profound realm is already this terrifying. What about the Dao Shi realm and the Dao Zong realm behind it?" Chen Xiang was also looking forward to it now, but he didn't have a method to improve quickly, so continuing to eat Shipo Dan was already useless.

However, Chen Xiang still understood the way to cultivate the Dao profound realm, for every stage there was a Tao profound Door, and if it was the second stage of the Dao profound realm, then it would be the second stage. If there was a tenth stage, then the power of the Tenfold Door would be able to pass the tenth stage of the Tao profound Door, which was extremely terrifying!

"I wonder what will happen if my second Divine Sense Sea's Heavenly beast comes out through the Tao profound Door?" Chen Xiang's heart skipped a beat. If it was possible, wouldn't it be extremely powerful?

Of course, he did not dare try, because the Heavenly beast of the second Divine Sense Sea also increased with his power. He was worried that the Heavenly beast would become too strong, and when the time came, they would run out and break out of his control.

He closed his eyes and looked at the huge halo of light above the Divine Sense Sea. It was the Tao profound Door, and when he needed to use it, the Tao profound Door would quickly collect the dao energy from the Divine Sense Sea below, suck it in like a dragon sucking water, and then circulate it to his entire body!

"Why is it that I can only absorb so little Dao power?" Chen Xiang closed his eyes and observed the Tao profound Door inside his Divine Sense Sea.

Not long after, he realized that it wasn't that the amount of Dao energy his Tao profound Door absorbed was too little, but every time, the hole his Tao profound Door opened was too small. He couldn't open it completely, so the amount of Dao energy that he absorbed was too little!

"How can this be?" Chen Xiang discovered this problem and opened his eyes. He did not know what happened to the others, but he would definitely not allow something like this to happen.

For example, his Tao profound Door was as big as a water jar. However, right now, he could only open one bowl like this, so he did not have much Dao power to pass through the Tao profound Door.

The Tao profound Door was so big, but it could only open such a small opening. This was clearly for a reason, and Chen Xiang believed that it could be completely opened.

Chen Xiang could not understand this question, and could only helplessly walk out of the Time Formation. He wanted to ask Huo Lin, but coincidentally, he met Tie Yuntian coming down!

Tie Yuntian was a Dao Lord, so he definitely knew about it. Chen Xiang planned to ask him for some advice.

[Chapter 2573](#)

Tie Yuntian also knew that Chen Xiang was here, he had previously come down via his City Lord's Mansion.

"City Lord Tie, I just stepped into the Dao profound realm, there is a question I don't understand." Chen Xiang said.

Tie Yuntian was busy working on the array disc, because he noticed that the Spirit Qi in the city had decreased a little, he came down to take a look. He did not know that it was because Chen Xiang had used the Time Formation, so Huo Lin did not tell him.

"Is the Tao profound Door unable to open it?" Tie Yuntian chuckled, "Many kids who have just stepped into the Dao profound realm will be troubled by this problem!"

"Yes!" Chen Xiang hurriedly nodded, he did not expect the others to do the same.

"This is a normal thing! Using numbers, when the Tao profound Door was completely opened, it was equivalent to a hundred, but many of the times that I stepped into the Dao profound realm, it was only about the size of a small hole. If it was a bit more powerful, there would be five of these!" Tie Yuntian laughed: "Of course, if it's a Earthly beast ... Go and ask your brother!"

Huo Lin stood at the side and said with curled lips: "I can open fifty! This is the advantage of us Beast Innates!"

Chen Xiang was shocked. He felt that he was only ten years old now, but Huo Lin was ten times bigger than him.

"Then how can I make it bigger?" Chen Xiang asked: "Am I this young in this life?"

"It can be said that it's true that it's not true. Some people only have how big they are when they step into the Dao profound realm, so when it comes to the Dao profound realm, it's not like there are none who can defeat those who are at the fifth or sixth stage of the profound realm. The main reason is that the difference in strength between Tao profound Door s is just too great." Tie Yuntian said.

Chen Xiang was around ten years old and the Tao profound Door was around a hundred, but the power that Chen Xiang felt was extremely strong. If he could open it to a hundred, wouldn't that be even stronger?

Tie Yuntian continued: "Generally speaking, the opening of Tao profound Door is related to the body, for example, beasts like your brother, because of the strong body, the opening of the body is very big, during the Dao profound realm, it is very difficult for humans to deal with beasts."

Chen Xiang now understood why Du Xiaoling said that the beasts in the Beast Wasteland were strong. If it was the Dao profound realm, the beasts were stronger than humans.

"Is it just flesh? If you increase your physical body later on, you'll be able to open it even more, right?" Chen Xiang asked.

"That's right! Actually, this is also self-protection. If your physical body was weak, but had a wide opening, do you think your body would be able to withstand such a powerful strength?" Tie Yuntian said: "Many people will be unable to increase their Tao profound Door's growth in their entire lives, mainly because their physical bodies have yet to reach the stage of cultivation."

The bigger the Tao profound Door, the more dao energy he could absorb in one try. It has to be said that the Tao profound Door could increase the amount of dao energy he absorbed by more than ten times, so if his body could not take it, and the Tao profound Door opened up much more, his body would definitely explode.

"City Lord Tie, then how can you cultivate the Dao profound realm so quickly? "Do you have any skills?" Chen Xiang asked again.

"The technique... The Dao profound realm is mainly meant to open the gate, to open the Tenfold Door is already considered to be the Great Perfection Stage. Since you have already opened the first door, then how do you plan on opening the second door? Generally speaking, the first layer of doors are bestowed by the heavens, and the second layer of doors are created by themselves, created by themselves, and then opened again. " Tie Yuntian said.

"Door building?" Chen Xiang did not understand.

Tie Yuntian shook his head: "Young man, I cannot rush this, it is not easy to create a sect, the most basic of it is to be stable, especially the few most basic gates, if they are unstable, the powerful force produced by the continuous absorption of dao energy from the Tenfold Door, can destroy the entire Tao profound Door, this kind of thing happens every now and then!"

Chen Xiang was in a rush to obtain power so he wanted to reach Tenfold Door in a year. Only then would he have more power when he went to save Huang Jintian.

"The main way to build your sect is through your own dao energy and the power of law. You can use that to create it, and then use the power of law that you have absorbed to create it! And Black Hairs

Human is afraid of profound Tao Power, if you can use enough profound Tao Power to build your own sect, hehe, at that time, it would be like kneading ants in Black Hairs Human! " Tie Yuntian laughed: "Right now, I am modifying the Tao profound Door and using it as the means to condense the profound Tao Power."

was pleasantly surprised by this, as long as he could concoct a pill that could help him quickly obtain dao energy, he would be able to cultivate the Tao profound Door quickly and steadily!

He also had a way to completely open the Tao profound Door, which was to cultivate the body. He had a lot of medicinal ingredients that could strengthen the body! Immediately, there were Emperor Blood Ginseng and the Dao-Dragon Emperor Grass. These were all Emperor Stage medicinal ingredients to strengthen the body.

"I want to completely open all the Tao profound Door s, and every single one of them too!" Chen Xiang was determined to accomplish this within a year, and the reason why he was so confident was because he was a Alchemist.

Previously, the Emperor Blood Ginseng and the Grass had already started growing together with the Jiuyang earthly fruit.

"Right now, I will first cultivate my physical body to the point where I can fully open the Tao profound Door. After that, I will refine the Nine Yang Diprofound fruit and use the power of law and Jiuyang Dao power to cultivate to the second stage of Tao profound Door." Chen Xiang already had a plan.

If he were to use his own Dao Energy to cultivate it, it would take a very long time. However, if he were to use the Nine Yang Emperor Profound Core together, he would definitely be able to use it very quickly!

If he couldn't, he would have to use the Crash method to refine the high quality Emperor Profound pills. This was all for saving Huang Jintian a year later, and when that time came, the enemies he would face would be extremely strong.

"Elder Sister Xiao Ling said that if you refine the Emperor Blood Ginseng along with the Dao Dragon Earth Grass, you will be able to refine a Dao god emperor Yuan Dan. He also said that the Dao god gold body should be used to cultivate a Dao god gold body because the body is very strong and the Dao Sovereign needs to cultivate in order to become a Dao God!" Chen Xiang looked at the huge Emperor Blood Ginseng and the ox-like Grass.

"Forget it, let's just refine it first. In any case, we won't die from eating it." Right now, it was impossible for Chen Xiang to run back and ask Du Xiaoling. His instincts told him that these two herbs could be used to strengthen his body.

The Tao profound Door could only open it a little, which was a very painful thing for Chen Xiang, so he had to open it completely. Even if he could open fifty percent of it like the Heavenly beast, he was still unwilling.

"I can even deal with the Four Crash, and the Nine Yang Emperor Profound Core is also very easy to deal with, so this Dao god emperor Yuan Dan shouldn't be too difficult." Chen Xiang was planning to become even more crazy now. No matter what pill he refined, he would need to use the Crash method, because there were not many herbs available to him right now.

"If Dijie Dan can execute one or two stages, their quality will increase by a lot, and if Dijie Dan can fight it off, the explosive power will definitely be greater!" Chen Xiang was not considering whether he could refine Dao god emperor Yuan Dan, but whether he could successfully complete the charge.

"I can only give it a try!" Chen Xiang took out Jutian Dan Ding s, and Chuangshi god furnace s.

"First, use the Chuangshi god furnace to refine it. After refining it, use the spatial energy to transfer the Jutian Dan Ding to the Sublimation refining method!" Chen Xiang looked at these two things and felt a little helpless in his heart. He really hoped that the two things could be fused together, and he wouldn't have to go through so much trouble.

Just as he had that thought, the surface of the Chuangshi god furnace suddenly rippled, like a wave, and the Jutian Dan Ding beside was suddenly sucked in, merging with the Chuangshi god furnace!

"Motherf * cker, it really fused!" Chen Xiang was given a fright, but was wild with joy: "Haha, as expected of a Chuangshi god furnace, swallowed the Jutian Dan Ding!"

[Chapter 2574](#)

Although Chen Xiang was happy, he quickly started to worry. He was worried that the Chuangshi god furnace wouldn't have any effect after it swallowed the Jutian Dan Ding!

He immediately used the Chuangshi god furnace to concoct a batch of low level pellets. Only after he discovered that the quality had increased by a lot did he heave a sigh of relief. After the Chuangshi god furnace swallowed the Jutian Dan Ding, it kept the mystical effects of the Jutian Dan Ding that could improve quality. Ybdu.

With such a harvest at such a critical juncture, Chen Xiang's mood was much better, but one must know that he was extremely depressed before this.

"He'll definitely be able to refine a super high quality Dao god emperor Yuan Dan." Chen Xiang was very confident at the moment. On one hand, he had fused Chuangshi god furnace with them, and on the other hand, he had successfully refined four Crash s many times before.

The Emperor Blood Ginseng and the Grass were put into the furnace. Chen Xiang started using all kinds of refining methods to refine it together, refining the water and fire, refining the Original source refining, refining the illusionary fire ... These refining methods were all comprehended from the Heavenly Alchemy, and they were all similar to each other. Chen Xiang, on the other hand, was extremely familiar with these refining methods, and being able to master them thoroughly and change them during pill refining, was even easier.

The difficulty of refining the Emperor Blood Ginseng and the Dragon Emperor Grass wasn't as difficult as refining the Mysterious Nine Yang Emperor Pellet. On the contrary, it was a bit easier!

Therefore, Chen Xiang was also surprised when he was refining it. It was only his first time refining it, but he used a very short amount of time to refine the medicinal ingredients into a ball!

Reaching this stage, he only took six hours, which was the equivalent of speed. He did not know if it was because of the fusion of the Chuangshi god furnace and the Chuangshi god furnace, but he felt that it would be more convenient to refine pills by then.

"It went very smoothly!" Chen Xiang heaved a sigh of relief, he was just about to adjust his state, because he was going to undergo a very difficult stage.

It was to divide that lump of Medicine crystal into several balls and then use the Crash method to refine it!

This was the first time he had used an Emperor level medicinal herb in a collision, and it was also after fusing them together. This was equivalent to a middle level Emperor level medicinal plant.

"Bang bang!" Chen Xiang shouted in his heart as he controlled the eight Medicine crystals to charge towards a single point from all directions.

The Chuangshi god furnace trembled, and the voice from inside shook the sky even more. Fortunately, Chen Xiang had controlled it well, and the violent fluctuation was blocked by his spatial energy, causing it to become weaker and weaker.

"One Crash succeeded!" Chen Xiang let out a long sigh. After going through a Crash, he had a rough idea of how strong the explosion of his strength during his charge against medicinal herbs of this level was.

"This mid-grade Emperor Stage medicinal herb is the equivalent of the Four Crashes that I refined the Shipo Dan previously, and it might even be a little stronger!" Chen Xiang took a deep breath: "If I were to refine this Dao god emperor Yuan Dan into Second Crash, then it would be at least equivalent to ten Crashes of the Shipo Dan!"

"Can I do it?" Chen Xiang was hesitating on whether or not he should give it a try. If he succeeded, the quality of the Dao god emperor Yuan Dan here could be imagined.

If he succeeded, it would also mean that when he was refining Shipo Dan or other high-grade king level pellets, he would also be able to undergo the Ten Crashes!

However, he didn't know if he could do it. After all, if an accident were to occur during the collision, then it might injure him. Moreover, it was something that no one had ever done before, so he didn't refer to it!

"Forget it, I have to be confident in myself. I will definitely do it. I am a peerless pill god!" Chen Xiang took a few deep breaths: "Even if it fails, the Chuangshi god furnace can withstand it. This is something that surpasses the Heavenly artifact!"

Chen Xiang closed his eyes, breathed in rhythmically, adjusted his condition, and then merged all of the Medicine crystals that had passed through the first Crash into one!

After the fusion with the Crash, the quality of the Medicine crystal would be very high. They have not even formed a core yet, but they have a Dan Soul!

Chen Xiang divided it into eight groups, and in this period of time, he had used up a lot of his energy, he had spent three whole days before separating!

Of course, it was normal for the Dijie Dan to take a longer time than normal. Most Alchemists would take around ten to eight years to refine their Dijie Dan, and at the fastest, it would take a year and a half.

"Could it be that the pill forming process will make it easier?" Chen Xiang thought, he did not know if other Alchemist could do this, but he had never heard of it before.

[Chapter 2575](#)

The process of condensing the pellet was very easy and quick; it was completed in just an hour. This was outside of Chen Xiang's expectations, and the time he used to refine the Nine Yang Emperor Profound Core wasn't even an hour's worth of condensing pellets.

"Could it be that it's easy to condense a pill after reaching the peak of pill refining, or is it because of the medicinal strength that transforms into spirit?" Chen Xiang asked himself, but there was no answer, because there were not many people that could reach this realm, and he was one of them.

He felt that if he wanted to gain a deeper understanding of the medicinal effects of this state, he would have to go to the Divine Wasteland to know, there would definitely be an even stronger Alchemist there.

The condensing of the pill was completed. It was a gold-red pill, and it looked very ordinary. There was no very bright glow, nor was there a very rich medicinal aroma. It was very simple and unadorned.

"Could it be that this is returning to its original nature?" "It seems like this pellet has already reached a certain level."

This pellet was personally refined by Chen Xiang himself, and although the process wasn't long, it was extremely difficult, and he had almost been injured. During the Second Crash, it placed a huge burden on his Divine Sense Sea, and if he wasn't able to withstand the power at that time, his Divine Sense Sea would have received heavy injuries.

The Dao god emperor Yuan Dan mainly cultivated the Dao god gold body, which Chen Xiang had not eaten before, but this Dao god emperor Yuan Dan was actually very special. Chen Xiang thought that it should be at the upper level of the Emperor Stage, and the quality would definitely be a lot higher than those high level Emperor Stage pellets.

"Let's eat it and see. Hopefully, no more life-threatening incidents will occur." Chen Xiang obviously knew how terrifying the medicinal power of this pellet was. Earlier, when he ate the Shipo Dan of the Four Crash s, he was pushed to his limits, let alone someone of this level.

However, after Chen Xiang consumed the pellet, he also felt very surprised. This was not what he expected happened with an extremely berserk situation.

But now, it was extremely gentle. The medicinal strength flowed in his body in a rhythmic manner, using a suitable speed and the amount of energy to nourish his muscles, bones and muscles, and strengthening his body.

Even though Chen Xiang had consumed the pellet, the medicinal power did not burst out abruptly. Instead, it "orderly" exuded many medicinal powers from within his dantian, and automatically circulated within his body's limbs and bones. Furthermore, it did not need Chen Xiang to intentionally refine it, as it could penetrate into Chen Xiang's body to the limit.

"Awesome!" Chen Xiang could not help but exclaim, "Is this the Spirit Transforming Pill?"

"What's that called?" I think the Spirit God Pill is stronger than the Dijie Dan! " Chen Xiang thought for a while, then gave a name for this pill: "In the future, I will have to try other low levelled herbs, and see if I can make a spirit soul out of this!"

Chen Xiang realized that the speed at which the Dao god emperor Yuan Dan refined itself into his body was much faster than when he channeled his energy to refine it. Furthermore, during the refining process, he could do other things as well.

If they were together, he would only be able to use the fastest speed to focus on refining it, but right now, he didn't need it!

"If I were to use the Three Crash, the medicinal power would definitely be stronger, but my current strength is still not enough!" Chen Xiang sighed helplessly. At this point in time, he knew that there was no limit to the quality of medicinal pellets he could raise while he was refining pills. He could constantly make breakthroughs, especially when he was using the Crash method!

"What exactly is the Dao god gold body? "I wonder if I can cultivate it now!" Chen Xiang now took out the medicinal ingredients for the Nine Yang Emperor Profound Core.

Although the Dao god emperor Yuan Dan could refine it on its own at a very fast speed, it still required a very long time. After all, that level of pellet contained a lot of medicinal power.

But right now, time was very important to Chen Xiang, he had to hurry up and refine pills!

"I wonder if this Emperor Profound Core can become a Divine Spiritual Pill after cultivating the Second Crash?" Chen Xiang did indeed have plans to refine the Nine Yang Emperor Profound Core into the Second Crash.

In order to condense the Tao profound Door, he needed more and more dao energy. He did not have enough dao energy at the moment, but he could make up for it with other types of dao energy, such as the dao energy provided by pills!

The Emperor Profound Core could provide a lot of Jiuyang Dao power, which was a type of power that had a lot of destructive power to Black Hairs Human. Furthermore, after going through the Tao profound Door, the increase in power would be even greater than normal Dao power!

He felt that he could use the Nine Yang Emperor Profound Core to quickly create a Tao profound Door and cultivate to Tenfold Door within a year!

In addition, he also needed to crazily strengthen his physical body, so that he could completely open every single Tao profound Door. Only by doing this, would he be able to obtain sufficient strength!

Right now his Tao profound Door could only reach 10, but his power was already very strong. If he could reach 100, then his power would increase by at least 10 times!

If it was the same first stage of Dao profound realm, other people's Tao profound Door would only have opened up five points, but he had another hundred. He could squash his opponent with one finger, and that was the difference!

At this time, Chen Xiang could also clearly feel his body being strengthened under the Dao god emperor Yuan Dan's medicinal power. To be able to make him feel his own body being strengthened faster, it could be seen how powerful the effects of this pellet were.

With his previous two stages of refining Dao god emperor Yuan Dan, Chen Xiang would definitely not have it as tough as last time when he was refining the Emperor Profound Core! His endurance had been accumulated bit by bit. If he had refined a few more batches, then the situation wouldn't have happened in the future.

The Nine Yang Emperor Profound Core was already a complete Crash, so the process of colliding with it was nothing to Chen Xiang, but it was obvious that it had improved by a lot!

"Second stage, this is the most difficult stage. As long as you can cross it, hehe!" Chen Xiang's heart was filled with anticipation, his mood was not as heavy as before, because at this moment, he had already eaten the sweetness of the Spirit God Pellet that the Second Crash had refined.

"Bang bang!" Chen Xiang controlled the eight Medicine crystals to fiercely clash against each other.

The moment they collided, the sound was still extremely loud. Chen Xiang was also shaken by the impact of the collision, then, his head felt like it was about to split open as he let out an angry roar.

He was awake from the beginning to the end, and he saw the process of the collision!

When it collided with the Medicine crystal, the medicinal force produced a very quick change. When the Medicine crystal shattered, under the strong pressure, the inner strength of the Medicine crystal rose greatly, turning into a spirit body!

Therefore, the Medicine Spirit Body that Chen Xiang saw was the same as the Dao god emperor Yuan Dan's, they were all yellow white!

"Success, Core Formation!" Chen Xiang was overjoyed. He knew that after reaching this step, he would almost succeed.

An hour had passed, and the Emperor Profound pellet refined from the Second Crash had been successfully refined. From start to finish, it had taken him two days and two nights, but it wasn't too long!

While he was refining the pill, his body had unknowingly changed. He did not notice it previously, but now, he suddenly realized it!

[Chapter 2576](#)

After Chen Xiang finished concocting this pill, he went to inspect his body and discovered that there were traces of faint golden colored fog within his muscles, bones and muscles. He did not know what it was.

"My strength is too great!" Chen Xiang took out an extremely sturdy ore, pinched it and immediately crushed it: "I have to go out and ask City Lord Tie."

At this time, Chen Xiang had already refined that Dao god emperor Yuan Dan, which was why his body had undergone such a huge change. He felt that if he spat out blood, his blood would definitely contain that kind of golden mist.

Walking out of the Time Formation, Chen Xiang saw Tie Yuntian.

Tie Yuntian was also training below, because the Dao Qi was extremely dense, and he was not training himself, but refining a few weapons. He had infused a dense profound Tao Power into these weapons, when dealing with the Black Hairs Human, their destructive power would increase even more.

"City Lord Tie, have you heard of the Dao god gold body?" Chen Xiang asked.

"I've heard of it. Why are you asking this? This realm is still far from yours. Even I would only think about it occasionally. " Tie Yuntian said.

"I'm just curious. Can you tell me more?" Chen Xiang asked. He had only heard Du Xiaoling say before that it was to become a Dao God that one needed to cultivate.

"Literally speaking, it's a body of a Dao God, that's why it's called the Dao god gold body! This is what is needed to become a Dao God! " Tie Yuntian said: "Currently, I am only at the sixth stage and have yet to reach the tenth stage, so I do not need to cultivate Dao god gold body."

"City Lord Tie, what happens to the Dao god gold body generally? How powerful is it? is it different from our normal bodies? " Chen Xiang asked again, because he still did not know what the golden mist within his muscles and bones was.

"I only heard about it!" Tie Yuntian thought for a while, then said: "It is said that after cultivating the Dao god gold body, the bones and muscles will all be golden, of course the skin will not change! And this kind of golden energy is called the Limitless Dao Energy. This kind of Limitless Dao Energy is as heavy as ten thousand kilograms, yet the Dao god gold body contains countless threads, so your strength can be imagined. "

Chen Xiang was secretly surprised, he did not know if the golden mist in his body was the Boundless Dao Energy, he planned to go back and try it out later!

"So that's how it is. It seems that after becoming a Dao God, one's power will become extremely terrifying. With just a sliver of Boundless Dao Energy, one will be able to gain such terrifying power." Chen Xiang said.

"Yes. Legend has it that the great battle of the Dao Gods, when one's finger lands on a world, can shatter that world." Tie Yuntian laughed.

... ..

After Chen Xiang cleared up his doubts, he returned to the Time Formation and took out an iron plate. After that, he released a strand of golden colored mist from his body.

What surprised him was that after the mist left his body, he actually controlled it as he pleased. When he controlled the mist to descend onto the metal plate, he saw that the surface of the metal plate suddenly had a dent!

Seeing the dent, Chen Xiang's heart trembled. He was overjoyed, he was able to cultivate the Everlasting Dao Qi, but he guessed that the temperature of the Everlasting Dao Qi was not high enough, because his body was not Dao god gold body!

Chen Xiang then tried to open up the Tao profound Door, and discovered that he could open it much larger. He had been at the top 10 previously, but he was still at the bottom 50 now.

"I want to open a hundred!" Chen Xiang had originally planned to eat the Nine Yang Emperor Profound Core, but seeing that the Tao profound Door was not fully opened, he continued to cultivate his body.

After going through a series of practices, Chen Xiang was certain that the Dao god emperor Yuan Dan could strengthen his body, and could also increase it a lot faster, so he still had to refine more Dao god emperor Yuan Dan!

After two days, he refined another pellet. After eating it, he rested for a while, recovered his spirit, and continued refining Dao god emperor Yuan Dan!

Now that he could refine one pill every two days, the speed of this pill could be described as as fast as lightning!

After another two days, the Dao god emperor Yuan Dan he refined for the Second Crash to come out of the Spirit God Realm, the one he had eaten previously, had already been refined by himself.

"What?" It can only open five! " was extremely shocked. Previously, when he ate a Dao god emperor Yuan Dan, he would only open his mouth from 10 to 50, but now, it was only from 10 to 55.

"Looks like after fifty, it'll be extremely difficult!" Chen Xiang guessed: "Could it be that I have to cultivate the Dao god gold body before I can completely open the Tao profound Door?"

"Oh right, maybe after I can completely open it now, I can open it in the future as well!" Chen Xiang did not eat the Dao god emperor Yuan Dan he had just refined, but instead ate the Nine Yang Emperor Profound Core, as he wanted to cultivate the second stage of the sect!

Only by cultivating the second Tao profound Door would he be able to see if the second sect was the same!

After consuming the Nine Yang Emperor Profound Core that had a spirit god, the medicinal power automatically refined and at the same time Chen Xiang continued to refine the pellet, he was still refining the Dao god emperor Yuan Dan this time, because he still needed to continuously strengthen his fleshly body to open the Tao profound Door.

This Nine Yang Emperor Profound Core with a spirit god was a bit more special and it had been refined for a relatively long time. After Chen Xiang spent two days to refine one Dao god emperor Yuan Dan, he had not finished refining it.

"Can a single grain form the Tao profound Door?" At this time, Chen Xiang did not refine any pellets, but decided to make a move inside the Divine Sense Sea.

Currently, there were two enormous circles of light superimposed on his Divine Sense Sea. These were the two great Tao profound Door s, he had controlled the two great Tao profound Door s to open it, and

discovered that the first layer could open fifty-five of them, while the second one could only open forty-five!

The opening to the second stage was not 55, which was different from Chen Xiang's previous predictions!

"From the looks of it, I can only cultivate to Tenfold Door first, then my body. I have to open up every stage of Tao profound Door." Chen Xiang clenched his fists tightly, and then concentrated on refining the Emperor Profound Core.

Eating the Nine Yang Emperor Profound Pills refined from the Second Crash meant that the speed at which one cultivated and cultivated the Tao profound Door was relatively fast. However, it was extremely difficult to open the Tao profound Door completely, as that required unceasingly strengthening of the body!

Chen Xiang had that kind of special Dao god emperor Yuan Dan, but to completely open the Tao profound Door was already very difficult, let alone others. It was no wonder that many people would not waste time on it, because for many people, it was an extremely difficult task.

But Chen Xiang did not think so, because he had already levelled up from 10 points to 55 points!

"One year's time should be enough!" Chen Xiang felt that he had plenty of time, he just did not know how strong his body would become if he were to fully open the Tenth Tao profound Door.

If he could really do it, he felt that he would have the chance to win even if he faced a person at the tenth stage of the Dao Shi realm.

[Chapter 2577](#)

Chen Xiang had heard that it was extremely difficult to step into the Dao God Stage. Once one stepped into it, one would have sufficient strength to head towards the Divine Wasteland, and entering the Dao God Stage requires one to cultivate a Dao god gold body.

After half a year, Chen Xiang had already cultivated up to the tenth stage of Tao profound Door, but the progress of these ten stages wasn't very big. The first stage was the fifty-fifth stage, and the tenth stage was only the fifth stage!

Chen Xiang felt that if he wanted to expand the Tenfold Door to its maximum, he would need to cultivate Dao god gold body. He did not know if he could actually cultivate it since that was something that many Dao Sovereigns were trying very hard to do. ybdu!

"The Elder Sister Xiao Ling seems to be a cultivator of the Dao. I wonder how her Tao profound Door is doing!" Chen Xiang looked at the medicinal herbs grown in the You Yao Mountain Villa. Since Chu Hongqing and Yang Xiangyin were not around, he could only plant them himself.

Previously, he had refined the Emperor Profound pills to cultivate in the Tao profound Door, so those Tao profound Door s of his carried an extremely rich Jiuyang Dao power. Now, he was going to refine a large number of Dao god emperor Yuan Dan to cultivate his flesh and blood!

Chen Xiang refined a Dao god emperor Yuan Dan, and after eating it, he started to refine it. He didn't know how many pills he needed to eat, and currently, he only had half a year left, which was a little tight for him, and he used half a year's time to open the Tenfold Door.

Of course, compared to before, his strength had increased by a lot!

"Big brother, big brother, can you hear me?" Huo Lin suddenly shouted.

Chen Xiang was still concocting pills, so he couldn't leave. He could only wait until after he was done concocting before leaving.

After two days, Chen Xiang was finally able to refine a Dao god emperor Yuan Dan, he anxiously walked out of the array and saw Huo Lin outside, looking somewhat anxious.

"What is it?" Chen Xiang asked.

"Oh no, this place of mine is in danger!" Huo Lin's expression became serious: "Just now, the Earth's Core Divine Spirit sent a sound transmission to me. He told me that when the time comes, the Black Hairs Human would occupy this place of mine.

"What?" Black Hairs Human can come here? " Chen Xiang was also very surprised and worried.

"These bastards Black Hairs Human s, they actually came here! Brother, what do you think I should do? " Huo Lin asked: "Are those Black Hairs Human s really that powerful?"

"Does City Lord Tie know?" Chen Xiang asked.

"I know, I've already told him. He's already thinking of another way, he said that he'll see if he can help me defend the Core." Huo Lin was extremely anxious. Previously, he thought that he would be able to sleep peacefully while hiding in the center of the earth. He never expected that the danger in Black Hairs Human would also affect him here.

"Huo Lin, don't worry, this place will at most be occupied by them!" Chen Xiang pressed both of his hands on Huo Lin's shoulders, "I can only tell you this, I don't have enough strength to deal with Black Hairs Human right now, but I guarantee that I will definitely kill them in the future. You'd better go to the surface, don't you dare go against those Black Hairs Human s by yourself, their strength is really terrifying, even Iron City Lord wouldn't be able to fight against them."

Chen Xiang understood Black Hairs Human's strength very well. Even though Huo Lin was also very strong, facing so many terrifying Black Hairs Human, he was definitely unable to resist.

"Yes, Earth's Core Divine Spirit said that they would be here in at most ten days." Huo Lin said: "Big Brother, don't stay inside for so long, they will be here very soon!"

"I got it!" Chen Xiang nodded his head. Right now, he could at most obtain two months worth of time through the Time Formation. There were still fifteen days until the deadline to save Huang Jintian.

"I'll find my wife first, then take her to the surface." Huo Lin could only listen to Chen Xiang now. In the face of the Black Hairs Human, he could only ally himself with the humans.

When he was using the Three Crash, although he had its own explosive power, it was not as strong as before, and was much smaller than when he was using the Second Crash. After all, it was a collision between spirit bodies, unlike the clash of spirit bodies previously, which caused the explosive power to be much weaker.

But, Chen Xiang fainted.

"A purple spirit body? Could it be the Innate Purple Qi? Heavenly Alchemy mentioned before, that this is a very special type of spirit body. " Chen Xiang suddenly frowned, and recalled the contents within the Heavenly Alchemy. He wanted to look through the specific contents of this Innate Purple Qi.

[Chapter 2578](#)

Very quickly, Chen Xiang found some information about Innate Purple Qi. After reading carefully, he was ecstatic, because Innate Purple Qi was a type of energy that was beneficial to the strengthening of the soul.

"Not only does one have to cultivate Dao god gold body, one has to also cultivate Dao god soul at the Dao God Stage ... It should be said that it is something that can strengthen the soul and become a Dao god soul. It is said that it is something that is as strong as the physical body and even more difficult to cultivate than the Dao god gold body. This was what Chen Xiang saw from the Heavenly Alchemy.

At this moment, he also felt that it was very strange, as there seemed to be more content inside the Heavenly Alchemy, which he had never seen before. For example, he had not seen the content just now, but he had just seen it ...

"Could it be that the Heavenly Alchemy will increase along with my cultivation, and then slowly gain more knowledge? This is truly strange." Chen Xiang exclaimed in his heart: "Could it be that there will be even more in the future?"

Now that he knew the uses of the Upper Sky Purple Qi, it was of great help to him.

Following that, he continued to refine Dao god emperor Yuan Dan s. Currently, the Innate Purple Qi surrounding the Medicinal Spirit Body was constantly strengthening the Medicinal Spirit Body, so after the pellet was formed, its effect would definitely be even stronger.

The process of condensing the pellet was the same as before, it was very easy, as long as it was a medicinal spirit body, it would be much easier to condense the pellet, this was the experience that Chen Xiang had gathered.

The condensed pill was purple in color, and contained a lot of innate purple spiritual energy. He could not wait to eat it.

"Just like what the two Crash s refined before, it can refine its own medicinal strength." Chen Xiang closed his eyes, and could feel the medicinal power circulating within his body. He quickly determined that the effects of this pellet were much stronger than the ones before.

"Innate purple energy is indeed mysterious. It follows the medicinal energy into my body and can even enter my Divine Sense Sea, find my soul and strengthen it. At this rate, it won't be long before I can completely open the Tenth Tao profound Door."

There were less than two months left.

Chen Xiang did not go to refine pills like before, because he had to wait to refine this pill or else he would faint again. If he refined this pill, then he would become much stronger and he would not faint again.

It took three days to refine, but he felt very refreshed and energetic.

"My fleshly body is a little stronger, I think after eating twenty to thirty more, I will be able to completely open Tao profound Door." Although he didn't have much time left, Chen Xiang was confident that he could reach his goal within a short period of time.

In the blink of an eye, two months passed.

"The tenth stage of Tao profound Door has been completely opened." Chen Xiang closed his eyes and looked at the ten stages of the Tao profound Door that were completely opened. Then, he channeled his dao energy to pass the tenth stage of the Tao profound Door.

Tao profound Door was created using the Jiuyang Dao power, so when it passes, it becomes a very strong Jiuyang Dao power, and then through the Nine Yang Mysterious Dao Heart, the Jiuyang Dao power becomes even more terrifying.

Chen Xiang only gently waved his hand, and a gold gale rushed out.

"It has already transformed into a True Divine Art, this is the Mysterious Nine Yang Dao Dipper." Chen Xiang took a deep breath. The opening of the tenth stage of the Tao profound Door had caused his strength to reach an unimaginable level. He felt that dealing with the Dao Sect would not be difficult.

"Dao Shi realm and the Dao Zong realm, they should both be built on the foundation of the Dao profound realm, and with my Dao profound realm being so solid, I should be able to quickly cross over these two realms." Chen Xiang thought, of course, he wasn't very clear about Dao Shi realm s, but he felt that it wasn't very clear either.

When Chen Xiang walked out of the Time Formation, he was already no longer in place, but the moment he walked out, he could feel the unique Evil Qi of the Black Hairs Human.

"This is the Black Hairs Human from the Devil Wasteland. Could it be that they have already found a way to enter the core of the earth in the Devil Wasteland?" Chen Xiang could sense the weak aura of the Black Hairs Human in this core of the earth.

"Heaven Wasteland Aristocratic Family is helping us from the back, it shouldn't be hard for her to find the core of the earth, what exactly are they doing in there?"

Chen Xiang used the Counter Power to make himself invisible.

If it was before, the Black Hairs Human would also be able to see that he was using the Counter Power, but it was different now. The power that his Counter Power was releasing from the Tao profound Door was many times stronger than before, and it wouldn't be discovered so easily.

This was Huo Lin's territory, it was a small secret realm, and it was very comfortable in the center of the earth. Furthermore, being able to absorb the energy in the earth's core was a treasure land to Chen Xiang, but right now, Huo Lin could only choose to give up this good place as he was forced to.

"Heaven Wasteland Aristocratic Family should know about the existence of this place, that's why they let the Black Hairs Human come and take it away. If this is a place for Black Hairs Human to cultivate in, then wouldn't that make their lives very comfortable?" Chen Xiang came to a very spacious place in the secret realm. There were indeed many Black Hairs Human here, and they were all sitting cross-legged on the ground, absorbing the dao qi inside.

"There's about thirty million, and Black Hairs Human are still coming in." Chen Xiang frowned, he was currently invisible in the sky, and the Black Hairs Human was unable to detect him.

"Hmph, if you want to cultivate here, you won't even have the chance." Chen Xiang was infuriated. He circulated a burst of spatial energy, and it surged out from the Tao profound Door that had opened all ten of his stages.

The moment this wave of spatial energy passed through the ten levels of Tao profound Door, the small secret realm in the center of the land started to tremble. It was mainly because the spatial energy released by Chen Xiang was too terrifying, the small secret realm was also created using spatial energy, but the spatial energy released by Chen Xiang was much stronger than the spatial energy used to create the small secret realm.

"Break for me." Chen Xiang roared, his hands moving in a pulling motion as a huge crack appeared on the surface of the small secret realm.

"Break." Chen Xiang let out a stuffy groan, and a violent burst of spatial energy was used on his body. At this time, multiple Black Hairs Human s charged towards Chen Xiang.

However, the small secret realm suddenly shattered in the midst of violent shaking. Large amounts of Core Fire Liquid gushed in and completely submerged this place in just a few blinks of an eye.

And Chen Xiang, had directly teleported to the city on the ground.

At this moment, the entire profound Wasteland was shaking violently. This was because Chen Xiang's movements earlier were too big.

"This feeling sure is f * cking amazing." Chen Xiang thought back to how he was able to tear apart the secret realm created by the Divine Spirit with a few blows just now.

The power that a fully opened Tenfold Door could transform into was just that terrifying, and the reason why he could make a Tenth Layer Tao profound Door completely open was because his body was very strong, and could withstand the power that a fully opened Tenfold Door could transform into.

Just that, although his body was strong, it was not as strong as the Dao god gold body he expected, but the Infinite Qi in his body was growing stronger and stronger, his muscles and bones were all a faint gold color, and he guessed that only when he turned pure gold would he be able to cultivate the Dao god gold body.

"Big brother, what's going on down there?" Huo Lin was in the courtyard inside the City Lord's Mansion, and upon seeing Chen Xiang suddenly appear, he anxiously asked.

[Chapter 2579](#)

Huo Lin was worried about Chen Xiang previously, worried that the Black Hairs Human would come, but Chen Xiang was still training inside the Time Formation.

"Those fellows have already occupied your small secret realm. There are many powerful Transmission Master s within the Black Hairs Human. It should be these Transmission Master s who teleported many Black Hairs Human s to your small secret realm." Chen Xiang said.

"These bastards!" When Huo Lin thought about how his own Qilin Hall was taken over by those things, he felt extremely displeased and couldn't help but curse angrily.

Chen Xiang suddenly laughed and patted Chen Xiang's shoulders.

"Big brother, what are you laughing about?" Huo Lin curled his lips: "I don't even have a home anymore, what are you laughing for!"

"Because when I came out of seclusion, I accidentally destroyed that small secret realm of yours. Those tens of millions of Black Hairs Human inside should be submerged in the Core Fire Essence right now." Chen Xiang laughed.

"Really?" Huo Lin didn't dare believe it. If he was, he would be even happier. He would rather have his own small secret realm destroyed than be taken over by the Black Hairs Human.

"Of course it's true. Your elder brother is very strong right now." Chen Xiang laughed.

"How strong is it?" Huo Lin had a large number of Chen Xiang s.

"Ten stages of Dao profound realm!" Chen Xiang said: "Huo Lin, what's your cultivation level now?"

"Right now, I am in the tenth stage of the Dao Sect and you are only in the tenth stage of the Dao profound realm. Huo Lin looked down at his body with slight disdain.

Chen Xiang smiled faintly, and then opened his palm. Traces of golden mist leaked out from his palm, and this mist gradually condensed into a ball of air. As they condensed, the entire City Lord's Mansion began to shake violently.

"Big brother ..." Stop! " Huo Lin screamed in shock and fear. Chen Xiang had only condensed such a ball of air in his palm, but it seemed as if the sky had fallen and the earth had crumbled.

Chen Xiang anxiously stopped his cultivation, and at the same time, Tie Yuntian also rushed over, and looked at Chen Xiang in shock.

"What a terrifying profound Tao Power ..." Who let them out just now?" Tie Yuntian looked at Huo Lin, whose hair had been blown around randomly by the wind. At this time, Huo Lin's face was still filled with astonishment, and he had not even reacted to it.

Tie Yuntian already knew that Chen Xiang released this!

"Iron City Lord, I'll give it to you!" Chen Xiang handed over a Nine Yang Emperor Profound Core to Chen Xiang. This had passed through the Second Crash, and the reason he did so was so that Tie Yuntian could trust him more in the future.

Although Tie Yuntian was a Dao Sovereign, he was extremely shocked by the Jiuyang Dao power that Chen Xiang had just released. Now, looking at the pellet in his hand, he seemed to have understood something. He knew that Chen Xiang was an extremely powerful Alchemist from the beginning, but he never thought that he would be powerful to this extent!

"Huo Lin, call your wife over. I will bring you to Heavenly Dragon City!" Chen Xiang patted the terrified Huo Lin.

"I'll go now." Huo Lin was very excited. After all, his big brother was so powerful.

Tie Yuntian said as his brows knitted, "Chen Xiang, could it be that you have completely opened the first stage of Tao profound Door?"

Chen Xiang nodded his head. Tie Yuntian also thought that he had only opened a single door, but in reality, Chen Xiang had completely opened it. When he displayed his power to Huo Lin earlier, he had only used a single door.

"City Lord Tie, if the barrier is to be opened, ask Brother Tie to contact the City Lord. I think it's better if everyone join hands with the Black Hairs Human, and the matter regarding the Black Hairs Human isn't that simple." Chen Xiang said.

"I got it, Tie Xiong already told me about the Heavenly Dragon City." Tie Yuntian also knew that the barrier would soon be opened and that this was his final plan for the future.

Huo Lin brought his shy wife over, and let them enter the Six Realms mirrors. Then, with a teleportation, they arrived outside the Heavenly Dragon City.

"Huo Lin, just enter the city. They will welcome you." Chen Xiang patted Huo Lin, and laughed: I still have some important things to do, so I won't be accompanying you in.

Chen Xiang watched as Huo Lin entered the city, then teleported in one direction. He wanted to save Huang Jintian!

"It's time for the evil Undead Divine Race to disappear from this world. It's enough to have the Undead Divine Race inside the Heavenly Dragon City. As for the Evil Spirit Race, there's no need to exist at all." Chen Xiang's expression was cold as he continuously teleported more than ten times, arriving at a place where the dao qi was thin.

This place was still the New Eight Wastelands, but it was very far away from the Heavenly Dragon City.

"They've built cities here too, and they're huge!" Chen Xiang was a little surprised, he then teleported to the city gate and saw the words "Immortal City" written on top of the city gate.

Huang Yantian had told him before, to come to this place, one had to listen to orders. If he sneaked in and was discovered, Huang Jintian would be killed.

"Chen Xiang, you really came, haha ..." A middle-aged man walked out and laughed loudly.

"Where's my master?" Chen Xiang asked coldly.

"Don't worry, as long as you cooperate with us, I can guarantee that your master will be fine." The middle-aged man laughed sinisterly: "We have already calculated it using the Heaven extended method, you came alone, and only you and Huang Yantian know about this matter. It seems that the both of you are very concerned about the old madman's life and death!"

"Cut the crap!" Chen Xiang looked coldly at the middle-aged man, and said angrily.

The middle-aged man standing on top of the city wall dropped a large black iron cage. The bottom and top of this cage were very thick.

"If you enter this cage yourself, we will naturally take you to see your master." The middle-aged man sneered, "But you have to consider it now. After entering this cage, you won't be able to turn back."

Without saying a word, Chen Xiang opened the door of the black iron cage and walked in.

After the iron cage's door closed, many array discs opened. Chen Xiang immediately felt an extremely strong power of space around him, and he himself was suppressed by a very unique power, causing him to have difficulty releasing the power in his body.

"Don't make unnecessary struggles. Your master got hurt on the side of his body just because he wanted to force his way out." The middle-aged man chuckled and then waved his hand. The cage slowly flew up and into the center of the city.

Chen Xiang did not attempt to charge out because he was confident that he could leave.

"There are more than ten terrifying formations here. The enchantments they cast out are all very strong, so they shouldn't be able to trap me. As long as I see Master, I'll be fine. I'll plan when the time comes." Chen Xiang who was trapped in the iron cage along with the iron cage was placed in a place with a large sealing array.

In the distance, a black iron cage slowly floated over, and inside it sat a wounded old man, it was Huang Jintian!

Seeing Huang Jintian being tormented to such an extent, Chen Xiang was immediately enraged, wishing that the entire city could be burnt to ashes!

[Chapter 2580](#)

The iron cage that imprisoned Huang Jintian had floated to Chen Xiang's side. Although Huang Jintian's body looked to be covered in wounds, his eyes were still extremely sharp. When he saw that Chen Xiang was also imprisoned here, his old eyes suddenly became moist, of course he knew that Chen Xiang had come here to save him.

"Master, how are you?" Chen Xiang asked anxiously.

"That bastard Huang Yantian, he must have asked you to come. I've already warned you a thousand times not to tell you about this." Huang Jintian was clearly clear about this matter, and kept scolding Huang Yantian.

"It's fine, I can save you." Chen Xiang smiled at Huang Jintian: "You should know my abilities!"

"I know you little devil have a lot of tricks up your sleeves, but the people here are all very powerful, and the iron cages that are sealing us right now are all very powerful, making it very difficult for us to break out of them." Huang Jintian sighed: "It's been hard on you! So what if my old life is gone? In any case, I've lived for so long, and that's enough. On the other hand, brat, your life gold is very expensive, and you have so many good things on you. "

Chen Xiang had known Huang Jintian for more than a day or two. Although the two of them often bickered, their relationship was very deep. Chen Xiang would definitely not watch Huang Jintian get killed.

Huang Jintian shook his head: "You don't know how complicated this is, if it were just those Undead Divine Race s, then it would be fine. But since Heaven Wasteland Aristocratic Family is also involved, then you have already been targeted by him.

"Heaven Wasteland Aristocratic Family!" Chen Xiang said those words as he clenched his fists tightly. He did not expect that Heaven Wasteland Aristocratic Family had already teamed up with Undead Divine Race and the others, and from the looks of it, even Undead Divine Race had to listen to them.

Chen Xiang had previously dealt with the Heaven Wasteland Aristocratic Family before, but that had all been done in secret. Now that the Heaven Wasteland Aristocratic Family and the Undead Divine Race were together, he would definitely get the Undead Divine Race to help them figure out who did all of these things.

"Master, you don't have to worry!" Chen Xiang took a small breath. He had already treated the Heaven Wasteland Aristocratic Family as his greatest enemy, so he did not hate them as much as he did those Black Hairs Human s.

"The fellow from Heaven Wasteland Aristocratic Family is here." Huang Jintian suddenly said.

Chen Xiang immediately looked in a direction, and sure enough, a few people walked over. Although they were still in the distance, Chen Xiang could still see their appearances, and they seemed to be very young, just like teenagers!

"Are these brats from the Heaven Wasteland Aristocratic Family?" Chen Xiang asked.

"Yes, they may look like teenagers, but they are all very powerful, and they are not that old either. They look like they're around ten years old!" They were already so scary when they were just ten years old, the overall strength of those Heaven Wasteland Aristocratic Family s can be imagined. " Huang Jintian sighed again. He had lived for many years, but his strength was far inferior to the youths who were walking over.

"What are they going to do now?" Chen Xiang frowned. Even though these fifteen to sixteen year old youths were all handsome, their faces were all filled with childishness and they all looked extremely arrogant.

"I don't know. I'm sure they're here for you." Huang Jintian said.

"For me? I'll see how they deal with me!" Chen Xiang could already see the strength of these three youths.

Being able to reach the Dao Sect at the age of fifteen to sixteen was indeed very frightening. It could be seen that there would definitely be many strong individuals within the Heaven Wasteland Aristocratic Family. No wonder there were people who could contend against the three great native banks.

Although it was against the cultivation of the Dao Sect, Chen Xiang was not afraid. He had cultivated the Tenfold Door and was even able to fully activate it, he was very confident in his own strength, furthermore, his body was extremely strong.

He did not cultivate the Dao god gold body, but he had the Everlasting Dao Qi that the Dao god gold body required, it was a very terrifying power, and now he could transform the Limitless Dao Qi into the Infinite Dao power, and then use his cultivation technique, and transform it into an even more powerful force!

"Is this Chen Xiang? He looks pretty strong! Haha, but now, you are our prisoner." A gold-robed youth said with a smile.

"Big brother, I heard that he has a lot of good things on him. Father probably told us to come so that we could take what he had and then bring him back to the elder. All of the good things he had would be for us." A youth in blue beside him snickered. "Father is so kind to us. He gave us such a good job."

An old man from Undead Divine Race suddenly flew over and came to the side of the three youths. The old man was not very strong, and was respectful to the three youths.

"Young Masters, Chen Xiang does have many good things on him, but they are all tightly connected to his soul, so it would be difficult to obtain them ... And the best thing on his body should be those Heavenly artifact. He has at least three Heavenly artifact on him." The old man said, he clearly understood Chen Xiang.

"Don't worry, his master is in our hands, and he's here to save his master. When the time comes, we'll definitely make him hand it over obediently!" The golden-robed youth laughed complacently, "You have to take care of that old fellow. Don't let him commit suicide. They seem to have a good relationship. Maybe they will really do something like that."

There were indeed a lot of good things on Chen Xiang's body, but the old man still did not understand Chen Xiang well enough, and did not know his true powers.

"Young Master Jin, Chen Xiang still has the Heavenly Alchemy on him, I think it would be best to force him to hand it over now. Otherwise, after we deliver it to the Sacred Wasteland and hand it over to those elders, you will not be able to obtain it." The old man hurriedly said.

"It's fine, we'll hand Chen Xiang over whenever we want!" "Don't worry, before you hand him over, I'll definitely get what I want first." The gold-robed youth looked at Chen Xiang viciously, "Let him out, I want to see just how strong he is!"

"Please don't, this Chen Xiang is cunning!" The old man was shocked as he hurriedly said.

"What is it? Do you underestimate us? " The golden robed youth coldly said. He released a wave of killing intent that caused the elder to sweat profusely.

"This... Of course I don't dare! "However, we must report this matter to the higher ups." The old man said, "Moreover, I am currently unable to undo the seal."

"Just because you can't open it doesn't mean that I can't." The gold-robed youth looked at the blue-clothed youth and the red-clothed youth at his side, and said, "They're going to release Chen Xiang, I want to compete with him! He should be a Dao profound realm now, he's definitely not my opponent! "For someone like him, I should be able to beat him up."

The old man was extremely terrified at this moment, he had already taken out a Communication jade Symbol paper and was about to tell the situation here, but after being stared at by the young man in gold, he quickly kept the jade talisman, he could not afford to offend such a young master.
